Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Sub-Fund as at 31 December 2019, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”).

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Sub-Fund in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed the Key Audit Matter
<p><u>Existence and valuation of investments</u></p> <p>The Sub-Fund's investments as at 31 December 2019 were comprised of listed equities of companies in the People's Republic of China, valued at RMB435,732,660.</p> <p>We focused on the existence and valuation of the investments because the investments represented the principal element of the Sub-Fund's net asset value.</p> <p>Refer to Note 7 to the financial statements.</p>	<p>We tested the existence of the Sub-Fund's holdings of investments by obtaining a direct confirmation from the custodian and checking the confirmation to the Sub-Fund's records. Based on the procedures we performed, we found the Sub-Fund's holdings of investments to be in agreement with the confirmation received.</p> <p>We tested the valuation of the Sub-Fund's investments by comparing the pricing used by the manager of the Sub-Fund to the publicly available external pricing sources as at 31 December 2019. We found no material exceptions from our testing.</p>

Other Information

The trustee and the manager (the "Management") of the Sub-Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

The Management of the Sub-Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Sub-Fund is responsible for assessing the Sub-Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Sub-Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Sub-Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 25 July 2012, as amended, ("Trust Deed") and the Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

**INDEPENDENT AUDITOR'S REPORT
TO THE UNITHOLDERS OF CSOP SZSE CHINEXT ETF (CONTINUED)
(A SUB-FUND OF CSOP ETF SERIES, AN UMBRELLA UNIT TRUST ESTABLISHED IN HONG KONG)**

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Sub-Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and the Appendix E of the SFC Code.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Management with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Management, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION

CSOP ETF Series (the “Trust”) is an umbrella unit trust governed by its trust deed dated 25 July 2012, as amended, (the “Trust Deed”) and authorised by the Securities and Futures Commission of Hong Kong (the “SFC”) pursuant to Section 104(1) of the Securities and Futures Ordinance. The terms of the Trust Deed are governed by the laws of Hong Kong. As at 31 December 2019, the Trust has six sub-funds which are CSOP SZSE ChiNext ETF (the “Sub-Fund”), CSOP FTSE China A50 ETF, CSOP MSCI China A Inclusion Index ETF, ICBC CSOP S&P New China Sectors ETF, CSOP Hong Kong Dollar Money Market ETF and CSOP US Dollar Money Market ETF. CSOP CES China A80 ETF and CSOP China CSI 300 Smart ETF were terminated on 31 May 2019 and 27 December 2019 respectively. CSOP US Dollar Money Market ETF and CSOP CSI 500 ETF were launched on 23 January 2019 and 18 March 2020 respectively. The date of inception of the Sub-Fund was 13 May 2015. The Sub-Fund is listed on The Stock Exchange of Hong Kong Limited.

The manager and the trustee of the Sub-Fund are CSOP Asset Management Limited (the “Manager”) and HSBC Institutional Trust Services (Asia) Limited (the “Trustee”) respectively.

The investment objective of the Sub-Fund is to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the underlying index, namely, the ChiNext Index.

Investment Strategy until 3 January 2020

In order to achieve the investment objective of the Sub-Fund, the Manager primarily used a full replication strategy by directly investing all, or substantially all, of the assets of the Sub-Fund in index securities constituting the underlying index in substantially the same weightings (i.e. proportions) as these index securities had in the underlying index. The Manager also invested not more than 5% of its net asset value in securities other than index securities in exceptional circumstances.

Investment Strategy effective from 3 January 2020

In order to achieve the investment objective of the Sub-Fund, the Manager now uses a combination of a physical representative sampling strategy and a synthetic representative sampling strategy. The Sub-Fund (i) primarily uses a physical representative sampling strategy by investing 50% to 100% of its net asset value in index securities constituting the underlying index; and (ii) where the Manager believes such investments are beneficial to the Sub-Fund and will help the Sub-Fund achieve its investment objective, uses a synthetic representative sampling strategy as an ancillary strategy by investing up to 50% in financial derivative instruments, which are funded total return swaps with one or more counterparties. Exposure of the Sub-Fund to the index securities (either through direct investment or through financial derivative instruments) is in substantially the same weightings (i.e. proportions) as these index securities have in the underlying index.

Under current regulations in the People’s Republic of China (“PRC”), generally foreign investors can invest in the domestic securities market through certain qualified foreign institutional investors that have obtained status as a Qualified Foreign Institutional Investor (“QFII”) or a Renminbi Qualified Foreign Institutional Investor (“RQFII”) from the China Securities Regulatory Commission (“CSRC”) and have been granted quota(s) by the State Administration of Foreign Exchange (“SAFE”) of the PRC to remit foreign freely convertible currencies (in the case of a QFII) and Chinese Renminbi (“RMB”) (in the case of a RQFII) into the PRC for the purpose of investing in the PRC’s domestic securities markets. Foreign investors can also invest in the domestic securities market through Shanghai/Shenzhen - Hong Kong Stock Connect Program (“Stock Connect”).

The Sub-Fund directly invests in securities issued within the PRC primarily through the RQFII quotas of the Manager and Stock Connect. The Manager has obtained RQFII status in the PRC and the RQFII quotas have been granted, on behalf of the Sub-Fund. To the extent that the Manager has, on behalf of the Sub-Fund, utilised its entire RQFII quota, the Manager may, subject to any applicable requirements, apply for an increase of the RQFII quota. On the other hand, the Manager actively manages the RQFII quota obtained and may impose limits on creation applications as it considers appropriate.

NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION (Continued)

These financial statements are prepared for the Sub-Fund only. The financial statements for CSOP FTSE China A50 ETF, CSOP MSCI China A Inclusion Index ETF, ICBC CSOP S&P New China Sectors ETF, CSOP Hong Kong Dollar Money Market ETF and CSOP US Dollar Money Market ETF have been prepared separately.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

The financial statements of the Sub-Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRS") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of investments at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires the Trustee and the Manager (together the "Management") to exercise their judgment in the process of applying the Sub-Fund's accounting policies.

Standards and amendments to existing standards effective 1 January 2019

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2019 that have a material effect on the financial statements of the Sub-Fund.

New standards and amendments to standards effective after 1 January 2019 that are relevant to the Sub-Fund but are not yet effective and have not been early adopted by the Sub-Fund

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2019, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Fund.

(A SUB-FUND OF CSOP ETF SERIES)**

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Investments

(i) Classification

The Sub-Fund classifies its investments based on both the Sub-Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Sub-Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Sub-Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. Consequently, all investments are measured at fair value through profit or loss.

(ii) Recognition/derecognition

Purchases and sales of investments are accounted for on the trade date basis - the date on which the Sub-Fund commits to purchase or sell the investments. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Sub-Fund has transferred substantially all risks and rewards of ownership.

(iii) Measurement

Investments are initially recognised at fair value. Transaction costs are expensed as incurred in the statement of comprehensive income.

Subsequent to initial recognition, all investments are measured at fair value. Realised and unrealised gains and losses on investments are recognised in the statement of comprehensive income in the year in which they arise.

(iv) Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. The Sub-Fund utilises the last traded market price for both listed financial assets and liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Management will determine the point within the bid-ask spread that is most representative of fair value.

The fair value of financial assets that are not traded in an active market (for example, over-the-counter derivatives) is determined by using broker quotes or valuation techniques.

(v) Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(vi) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

(c) Amounts due from participating dealers/brokers

Amounts due from participating dealers represent the subscription receivable from the participating dealers at the end of the reporting year. The amounts are non-interest bearing and repayable on demand.

Amounts due from brokers represent receivables for securities sold that have been contracted for but not yet settled on the statement of financial position date.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Sub-Fund shall measure the loss allowance on amounts due from participating dealers/brokers at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Sub-Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the participating dealers/brokers, probability that the participating dealers/brokers will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by Management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

(d) Amounts due to participating dealers/brokers

Amounts due to participating dealers represent the redemption payable to the participating dealers at the end of the reporting year. The amounts are non-interest bearing and repayable on demand.

Amounts due to brokers represent payables for securities purchased that have been contracted for but not yet delivered on the statement of financial position date.

These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(e) Dividend income and interest income

Dividend income is recorded on the ex-dividend date with the corresponding foreign withholding taxes recorded as an expense.

Interest income is recognised on a time-proportionate basis using the effective interest method.

(f) Distributions to unitholders

Distributions to unitholders are recognised in the statement of changes in net assets attributable to unitholders when they are approved by the Manager. Distributions to unitholders are recognised as distributions in the statement of changes in net assets attributable to unitholders.

(g) Other income/expense

Other income/expense mainly represents the difference between the proceeds received from/paid to participating dealers and cost of investment purchased/sold.

(h) Transactions costs

Transactions costs are costs incurred to acquire/dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transactions costs, when incurred, are immediately recognised in the statement of comprehensive income as an expense.

(i) Expenses

Expenses are accounted for on an accrual basis.

(j) Cash and cash equivalents

Cash and cash equivalents include cash in hand, cash at bank, demand deposits, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts.

(k) Foreign currencies translation

Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Sub-Fund operates (the “functional currency”). The Sub-Fund invests in A-Shares in the PRC and the performance of the Sub-Fund is measured and reported to the unitholders in RMB. The Manager considers Renminbi as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are presented in RMB, which is the Sub-Fund’s functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the reporting date.

Foreign exchange gains and losses arising from translation are included in the statement of comprehensive income.

Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the statement of comprehensive income within “net gain/(loss) on investments”.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(l) Redeemable units

The Sub-Fund issues redeemable units, which are redeemable at the holder's option. These units represent puttable financial instruments of the Sub-Fund. The Sub-Fund classifies its puttable financial instruments as equity in accordance with HKAS 32 (Amendment), "Financial instruments: Presentation" as those puttable financial instruments meet all the following criteria:

- the puttable financial instruments entitle the holder to a pro-rata share of net asset value;
- the puttable financial instruments are the most subordinated units in issue and unit features are identical;
- there are no contractual obligations to deliver cash or another financial asset; and
- the total expected cash flows from the puttable financial instrument over its life are based substantially on the profit or loss of the Sub-Fund.

Units are issued and redeemed at the holder's option at prices based on the Sub-Fund's net asset value per unit at the time of issue or redemption. The Sub-Fund's net asset value per unit is calculated by dividing the net assets attributable to unitholders with the total number of outstanding units.

In accordance with the Prospectus of the Sub-Fund, investment positions are valued based on the last traded market price for the purpose of determining the net asset value per unit for subscriptions and redemptions of the Sub-Fund.

(m) Taxation

The Sub-Fund currently incurs withholding taxes imposed by PRC on investment income. Such income is recorded gross of withholding taxes in the statement of comprehensive income. Withholding taxes are included as taxation in the statement of comprehensive income.

Deferred income tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

(n) Establishment costs

Establishment costs are recognised as an expense in the year in which they are incurred.

3. NUMBER OF UNITS IN ISSUE AND NET ASSETS ATTRIBUTABLE TO UNITHOLDERS PER UNIT

The Sub-Fund's capital is represented by the units in the Sub-Fund, and shown as "net assets attributable to unitholders" in the statement of financial position. Subscriptions and redemptions of units during the year are shown in the statement of changes in net assets attributable to unitholders. In order to achieve the investment objectives, the Sub-Fund endeavors to invest its capital in accordance with the investment policies, whilst maintaining sufficient liquidity to meet redemption requests.

In accordance with the provisions of the Trust Deed dated 25 July 2012, as amended, and the Prospectus of the Sub-Fund, investments are stated at the last traded price on the valuation day for the purpose of determining net asset value per unit for subscriptions and redemptions and for various fee calculations.

As stated in Note 2(l), redeemable units of the Sub-Fund are classified as equity and they are carried at the price based on the Sub-Fund's net asset value per unit at the reporting date if the unitholder exercised the right to redeem the units in the Sub-Fund.

The movements of the redeemable units for the years ended 31 December 2019 and 2018 are as follows:

NOTES TO THE FINANCIAL STATEMENTS

7. FINANCIAL RISK MANAGEMENT

The objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely correspond to the performance of the ChiNext Index. The Sub-Fund's activities may expose it to a variety of risks including but not limited to market risk (including market price risk, interest rate risk and currency risk), credit and counterparty risk and liquidity risk which are associated with the markets in which the Sub-Fund invests.

The following is a summary of the main risks and risk management policies.

(a) Market risk

(i) Market price risk

Market price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual instrument or factors affecting all instruments in the market.

The Sub-Fund is designated to track the performance of the ChiNext Index, therefore the exposures to market risk in the Sub-Fund will be substantially the same as the tracked index. The Manager manages the Sub-Fund's exposures to market risk by ensuring that the key characteristics of the portfolio, such as security weight and industry weight, are closely aligned with the characteristics of the tracked index.

As at 31 December 2019 and 2018, the Sub-Fund's investments were concentrated in the following industries:

	2019		2018	
	Fair value <i>RMB</i>	% of net asset value	Fair value <i>RMB</i>	% of net asset value
Listed equities in PRC – by industry				
Basic Materials	18,131,421	4.15	10,307,903	4.55
Consumer Goods	87,992,760	20.13	41,487,735	18.32
Consumer Services	48,538,441	11.11	28,508,478	12.59
Health Care	113,576,748	25.99	44,034,057	19.44
Industrials	85,179,811	19.49	52,786,513	23.30
Oil & Gas	2,808,351	0.64	2,115,048	0.93
Technology	79,505,128	18.19	44,665,757	19.72

	<u>435,732,660</u>	<u>99.70</u>	<u>224,964,481</u>	<u>99.32</u>

The Sub-Fund held 100 out of 100 (2018: 100 out of 100) constituents comprising the ChiNext Index. The Sub-Fund is therefore exposed to substantially the same market price risk as the ChiNext Index.

NOTES TO THE FINANCIAL STATEMENTS

7. FINANCIAL RISK MANAGEMENT (Continued)

(a) Market risk (Continued)

(i) Market price risk (Continued)

Sensitivity analysis in the event of a possible change in the index as estimated by the Manager

As at 31 December 2019 and 2018, if the ChiNext Index were to increase by 25% (2018: 10%) with all other variables held constant, this would increase the operating profit for the year by approximately RMB107,955,268 (2018: RMB19,242,494). Conversely, if the ChiNext Index were to decrease by 25% (2018: 10%), this would decrease the operating profit for the year by an equal amount.

(ii) Interest rate risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and future cash flow.

As at 31 December 2019 and 2018, interest rate risk arises only from bank balances. As the bank balances held by the Sub-Fund is short term in nature and interest arising from these interest bearing assets are immaterial, the Manager considers that changes in their fair value and future cash flows in the event of a change in market interest rates will not be material. As a result, the Manager considers sensitivity analysis of interest rate risk is not necessary to be presented.

(iii) Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Sub-Fund is not exposed to currency risk arising from balances and transactions in foreign currencies as the majority of its assets and liabilities are denominated in RMB, the Sub-Fund's functional and presentation currency. As a result, the Manager considers sensitivity analysis of currency risk is not necessary to be presented.

(b) Credit and counterparty risk

Credit and counterparty risk is the risk that an issuer or counterparty will be unable or unwilling to meet a commitment that it has entered into with the Sub-Fund.

The Sub-Fund limits its exposure to credit and counterparty risk by carrying out the majority of its investment transactions and contractual commitment activities with well established broker-dealers, banks and regulated exchanges with high credit ratings.

All transactions in listed securities are settled or paid for upon delivery using approved and reputable brokers. In addition, the Sub-Fund places bank balances with reputable financial institutions. As such, the Manager does not consider the Sub-Fund to be exposed to significant credit and counterparty risk.

As at 31 December 2019, the Sub-Fund placed bank balances of RMB2,169,328 (2018: RMB5,649,057) and investments of RMB435,732,660 (2018: RMB106,255,737) with The Hongkong and Shanghai Banking Corporation Limited ("HSBC"), which is the custodian of the Sub-Fund. The S&P credit rating of HSBC is A (2018: A).

As at 31 December 2019, the Sub-Fund placed bank balances of RMBNil (2018: RMB1,050,976), deposit reserve of RMBNil (2018: RMB224,000) and investments of RMBNil (2018: RMB118,708,744) with HSBC Bank (China) Company Limited ("HSBC China"), which is the PRC custodian of the Sub-Fund. The Moody's credit rating of HSBC China is A1 (2018: A1).

NOTES TO THE FINANCIAL STATEMENTS

7. FINANCIAL RISK MANAGEMENT (Continued)

(b) Credit and counterparty risk (Continued)

The Sub-Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management consider both historical analysis and forward looking information in determining any expected credit loss. At 31 December 2019 and 2018, deposit reserve, interest receivable, amounts due from participating dealers and bank balances are held with counterparties with high credit ratings and are due to be settled within 1 month. Management consider the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Sub-Fund.

The maximum exposure to credit risk as at 31 December 2019 and 2018 is the carrying amount of the financial assets as shown on the statement of financial position.

(c) Liquidity risk

Liquidity risk is the risk that the Sub-Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Sub-Fund is exposed to daily redemptions of units in the Sub-Fund. The Sub-Fund invests the majority of its assets in securities that are traded in an active market which can be readily disposed of.

The table below analyses the Sub-Fund's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

(A SUB-FUND OF CSOP ETF SERIES)**

NOTES TO THE FINANCIAL STATEMENTS

7. FINANCIAL RISK MANAGEMENT (Continued)

(c) Liquidity risk (Continued)

The Sub-Fund manages its liquidity risk by investing in securities that it expects to be able to liquidate within 7 days or less. The following table illustrates the expected liquidity of assets held:

	Less than 1 month <i>RMB</i>	1 to 12 months <i>RMB</i>	No stated maturity <i>RMB</i>	Total <i>RMB</i>

As at 31 December 2018				
Total assets	231,665,162	117	224,000	231,889,279

(d) Fair value estimation

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Sub-Fund can access at the measurement date (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes “observable” requires significant judgment by the Sub-Fund. The Sub-Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities. The Sub-Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. Management has used best estimation and assessed all available information and considers that the last traded price is the best estimation of the fair value of level 2 investments. As at 31 December 2019 and 2018, there were no investments classified in level 2.

As at 31 December 2019 and 2018, there was no investment held by the Sub-Fund which has been suspended for trading.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently or do not trade. As at 31 December 2019 and 2018, the Sub-Fund did not hold any investments classified in level 3.
