1. INTRODUCTION

Second Phase Disposals

LETTER FROM THE BOARD

In respect of the Second Phase Disposals, the Company would like to supplement the following information:

Net asset value of each of the target companies to be disposed under the Second Phase Disposals

The net asset value of each of the target companies to be disposed under the Second Phase Disposals extracted from the unaudited management accounts as at 31 December 2020 of such target companies prepared in accordance with China Accounting Standards is as follow:

No.	Target companies to be disposed under the Second Phase Disposals	As at 31 December 2020 Net asset value RMB	As at respective reference date* Net asset value RMB

IV	Suixi GCL Photovoltaic Power Co., Ltd.* (遂溪協鑫光伏電力有限公司) (“ Suixi GCL ”)	68,037,645	68,037,645
Total		211,876,467	212,568,493

* The reference date for Ceheng Precision, Luodian GCL and Suixi GCL is 31 December 2020, while the reference date for Dingan GCL is 28 February 2021.

Factors considered by the Directors in determining the negative consideration of Ceheng Precision

The following factors have been considered by the Directors in determining the negative consideration of Ceheng Precision:

(a) Weak cash flow and high indebtedness position

The negative consideration for Ceheng Precision was mainly attributable to its weak cash flow and high indebtedness position.

Ceheng Precision recorded a net cash outflow (excluding financing of shareholders’ loan) for the years ended 31 December 2019 and 31 December 2020 of approximately RMB32 million and RMB3.6 million, respectively. As at 31 December 2020, the bank balances and cash of Ceheng

LETTER FROM THE BOARD

Precision is approximately RMB2.8 million. As such, Ceheng Precision has been substantially relying on the funding from the Group and the GNE Group by way of shareholders' loan to pay its finance and operating expenses of Ceheng Precision.

As at 31 December 2020, the total outstanding indebtedness of Ceheng Precision (including bank loans and construction payables but excluding shareholder's loan of RMB40 million) amounted to approximately RMB122 million, amongst which approximately RMB38 million will be repayable by Ceheng Precision within one year.

Considering the abovementioned factors, Ceheng Precision will not be able to repay its outstanding indebtedness in the near future without the provision of further funding by the Group and the GNE Group.

As such, upon the completion of the disposal of Ceheng Precision to Weining Energy, the Group and the GNE Group will be able to shift its funding commitment to Ceheng Precision to Weining Energy, while being able to receive net cash proceeds of RMB29,784,000 from the disposal of Ceheng Precision after netting off the initial Amount Payable receivable by Guizhou Zhongxinneng New Energy amounting to RMB40,476,000 against the negative consideration of Ceheng Precision amounting to RMB10,692,000. This presents a good opportunity for the Group and the GNE Group (i) to recoup its capital investments in Ceheng Precision, (ii) to relieve the Group and the GNE Group from its funding commitment to Ceheng Precision in the form of shareholders' loans and (iii) to use the net cash proceeds for repayment of debts of the Group and the GNE Group which will further lower the gearing ratio, finance cost and debt scale of the Group and the GNE Group as a whole.

(b) Operation risk

Certain solar power panels installed at solar power plant operated by Ceheng Precision ("**Ceheng Precision Solar Power Plant**") were destroyed in a mudslide in 2018. As such, the risk of operating the Ceheng Precision Solar Power Plant at a mountainous terrain was also considered when determining the basis of the negative consideration of Ceheng Precision.

(c) Low profit margin

For the year ended 31 December 2020, the gross profit margin of Ceheng Precision is approximately 52%, which is relatively lower than the Group's average of 64% and the industrial average of 60% to 70%.

Ceheng Precision has relatively low profit margin because of the following reasons:

- (i) the annual poverty alleviation expenses of approximately RMB3 million payable by Ceheng Precision to local government constitutes a significant part of its operational cost;
- (ii) the Ceheng Precision Solar Power Plant is located at an area with high annual precipitation and low sunshine duration, resulting in low power generation; and

LETTER FROM THE BOARD

- (iii) given that Ceheng Precision Solar Power Plant is located at a mountainous terrain, a more expensive construction method was used to ensure its structural safety. As such, Ceheng Precision incurred a higher initial investment cost which is mainly funded by external financing, and led to its high amount of outstanding indebtedness and finance cost.

While Ceheng Precision recorded profits after tax of RMB1.04 million and RMB2.78 million in 2019 and 2020, the profit margin of Ceheng Precision is still considered to be low. Together with all of the abovementioned factors, it is undesirable for Weining Energy to acquire Ceheng Precision on a standalone basis. Therefore, the Second Phase Disposals involved the bundling of the disposal of solar power plants operated by the other target companies to be disposed under the Second Phase Disposals with the Ceheng Precision Solar Power Plant and a negative consideration has been agreed for the disposal of Ceheng Precision.

Third Phase Disposals

Reference is made to the Announcement published on 30 April 2021. As disclosed in the Announcement, on 30 April 2021 (after trading hours), Guzhou GCL New Energy and Suzhou GCL New Energy, being indirect subsidiaries of the Company and GNE (as the sellers) and Guangdong Jinyuan New Energy Co., Ltd.* (廣東金元新能源有限公司) and State Power Investment Corporation Guizhou Jinyuan Weining Energy Co., Ltd.* (國家電投集團貴州金元威寧能源股份有限公司) (as the purchasers) entered into the Third Phase Share Purchase Agreements.

Pursuant to the Third Phase Share Purchase Agreements, the respective Seller agreed to, among other things, sell (i) 88.37% equity interest in Hainan Yicheng, (ii) 90.10% equity interest in Yingde GCL and (iii) the entire equity interest in each of Ceheng GCL Photovoltaic and Liuzhi GCL to the respective Purchaser.

As at the Latest Practicable Date, (i) Ceheng GCL Photovoltaic and Liuzhi GCL are wholly-owned by Suzhou GCL New Energy and Guizhou GCL New Energy, respectively, (ii) Yingde GCL is owned as to 90.10% by Suzhou GCL New Energy and (iii) Hainan Yicheng is owned as to 88.37% by Suzhou GCL New Energy. Upon the completion of the Third Phase Disposals, (i) Ceheng GCL Photovoltaic and Liuzhi GCL will be wholly-owned by Weining Energy, (ii) Yingde GCL will be owned as to 90.10% by Guangdong Jinyuan and 9.9% by Yingdeshi Hengshishuizhen Jiang Gushan Farmer's Professional Cooperatives* (英德市橫石水鎮江古山農民專業合作社), an independent third party to the Company, (iii) Hainan Yicheng will be owned as to 88.37% by Guangdong Jinyuan, 8.61% by Mr. Chen Naiping* (陳奶屏) and 3.02% by Mr. Sun Jianwen* (孫建文), both being independent third parties to the Company and GNE, respectively and (iv) all of the Target Companies will cease to be subsidiaries of the Group and the GNE Group. Accordingly, the financial results of the Target Companies will no longer be consolidated into the financial statements of the Company and GNE upon Closing.

- (iv) the cash flow position of the Target Companies as at the respective Reference Date ^(Note). The aggregate net cash outflow of the Target Companies for the year ended 31 December 2020 amounted to approximately RMB28,579,000; and
- (v) (applicable to Liuzhi GCL only) given that the solar power plant project operated by Liuzhi GCL (“**Liuzhi GCL Solar Power Plant**”) was awaiting to undergo the approval and registration process to be included in the National Subsidy List as at the Latest Practicable Date, and the conditions to be fulfilled before the completion of the approval and registration process (which are based on the policies in relation to the National Subsidy List as announced and implemented by the relevant government authorities in the PRC from time to time) are uncertain, the ability of Liuzhi GCL to collect outstanding national subsidy receivables from the PRC government is uncertain. As at 31 December 2020, the total balance of national subsidy receivable by Liuzhi GCL was approximately RMB28,194,500, representing approximately 63% of the net assets of Liuzhi GCL as at 31 December 2020. Moreover, Liuzhi GCL Solar Power Plant is located at a mountainous terrain with high annual precipitation and low sunshine duration, resulting in low power generation as well as a higher initial investment cost and maintenance cost which are mainly funded by external financing.

As such, the Transactions involved the bundling of the disposal of solar power plants operated by three other Target Companies as well as the solar power plant operated by Liuzhi GCL (which is comparatively less desirable to Weining Energy as a standalone transaction) and the Sellers and Purchasers agreed to allocate a lower consideration to Liuzhi GCL Share Purchase Agreement of RMB29,060,000, which is lower than the net asset value of Liuzhi GCL as at 31 December 2020 of approximately RMB44,741,000.

Note: Hainan Yicheng has a different Reference Date (i.e. 28 February 2021) compared with other Target Companies due to the commercial negotiation between the Purchasers and the Sellers, and the later start date of the due diligence procedure for Hainan Yicheng.

6. FINANCIAL IMPACT OF THE DISPOSALS

After the Closing Date, the Target Companies will cease to be subsidiaries of the Group and the GNE Group, and the profit and loss, as well as the assets and liabilities of the Target Companies will no longer be consolidated into the consolidated financial statements of the Group and the GNE Group.

As at the Latest Practicable Date, it is estimated that the Group and the GNE Group will realise a net gain on the Third Phase Disposals of approximately RMB50,101,056 and such gain is calculated with reference to the difference between the aggregate Consideration of approximately RMB310,210,800 and the net asset value attributed to the disposed Sale Shares based on the unaudited financial statements of the Target Companies as at the respective Reference Date of approximately RMB260,109,744, after deducting related transaction costs. The actual gain as a result of the Third Phase Disposals to be recorded by the Group and the GNE Group is subject to audit and will be reassessed after completion of the Third Phase Disposals.

7. USE OF PROCEEDS FROM THE TRANSACTIONS

The table below sets out the debt profile of the GNE Group for the upcoming 12 months as at 31 December 2020:

Indebtedness repayable within one year

	<i>RMB million</i>
Bank loans and other loans from independent third parties	12,392
Bonds and senior notes	3,261
Loans from related companies	789
Lease liabilities	89
Loans directly associated with assets held for sale	333
	<hr/>
Total	16,864

The net cash proceeds from the Transactions (including the Consideration and the Total Amount Payable as at the respective Reference Date by the Target Companies) is expected to be approximately RMB660,382,100, which GNE intends to use for repayment of its bank loans and other loans from independent third parties which are repayable on or before 31 December 2021 amounting to RMB12,392,000,000 as set out above.

8. REASONS AND BENEFITS OF THE TRANSACTIONS

Upon completion of the Transactions, the Target Companies will no longer be subsidiaries of the Group and the GNE Group, and the profit and loss as well as the assets and liabilities of the Target Companies will no longer be consolidated into the consolidated financial statements of the Group and the GNE Group. The liabilities of the Group and the GNE Group will decrease by approximately RMB1,627,576,000. Meanwhile, the cash derived from the Transactions amounted to approximately

LETTER FROM THE BOARD

RMB660,382,100, which will be used for further repayment of debts, and the gearing ratio of the GNE Group will decrease from approximately 81% to approximately 80% by approximately 1%, calculated with reference to the audited financial statements of the GNE Group as at 31 December 2020, effectively reducing the financial risks.

The Transactions are one of the important steps taken by the Company (through GNE) to achieve its “transformation and upgrade” development objective and transformation to an asset-light model.

Solar power generating business is the principal business engaged by GNE, and one of the business segments (being the new energy business segment) operated by the Company through GNE and other subsidiaries. Solar power generating business is also a capital intensive industry, which highly relies on external financing in order to fund for the construction of solar power plants while the recovery of capital investment takes a long period of time. Given the Company, through GNE, highly relies on external financing in order to obtain investment capital for new solar power plant project development, any interest rate changes will have an impact on the capital expenditure and finance expenses of the Company, through GNE, hence, affecting its operating results. Therefore, transformation into an asset-light model, being the business model adopted by the Company, through GNE, is an effective way to reduce its debts and interest rate exposure.

The Company, through GNE, intends to reinforce the strategic cooperation with domestic centralised management enterprises and local state-owned enterprises, including the Purchaser to achieve an asset-light model. After the completion of the Transactions, the Group, through the GNE Group, and the Purchasers will further explore other possible co-operation opportunities, including but not limited to, disposals of the existing solar power plants of the Group and the GNE Group in the PRC.

As disclosed in the circular of the Company dated 22 January 2021, the Group and the GNE Group had entered into a series of share purchase agreements in the year of 2020 to dispose its equity interest in certain subsidiaries (the “**2020 Disposals**”).

On 29 January 2021, the GNE Group and Beijing United Rongbang New Energy Technology Co., Ltd.* (北京聯合榮邦新能源科技有限公司) (“**Beijing United Rongbang**”) entered into a share purchase agreement, pursuant to which the GNE Group agreed to, among other things, to sell the entire equity interest in Wula Tehouqi Yuanhai New Energy Co., Ltd.* (烏拉特後旗源海新能源有限責任公司) (“**Wula Tehouqi Yuanhai Disposal**”). Please refer to the announcement of the Company dated 29 January 2021 in relation to the Wula Tehouqi Yuanhai Disposal for further details.

On 31 March 2021, the GNE Group and Three Gorges Asset Management Co., Ltd.* (三峽資產管理有限公司) (“**Three Gorges Asset Management**”) entered into a series of six share purchase agreements (the “**Three Gorges First Phase Share Purchase Agreements**”), pursuant to which the GNE Group agreed to, among other things, sell the entire equity interest in each of Kaifeng Huaxin New Energy Development Company Limited* (開封華鑫新能源開發有限公司), Sanmenxia GCL New Energy Co., Ltd.* (三門峽協立光伏電力有限公司), Queshan Zhui Ri New Energy Electric Power Co, Ltd.* (確山追日新能源電力有限公司) and Shang Shui GCL Photovoltaic Electric Power Co, Ltd.* (商水協鑫光伏電力有限公司) and 50% equity interest in each of Nanzhao Xin Li Photovoltaic Electric Farms Co., Ltd.* (南召鑫力光伏電力有限公司) and Taiqian GCL New Energy Company Limited* (台前協鑫光伏電力有限公司) to Three Gorges Asset

LETTER FROM THE BOARD

Management (the “**Three Gorges First Phase Disposals**”). Please refer to the joint announcement of the Company and GNE dated 31 March 2021 in relation to the Three Gorges First Phase Disposals for further details.

On 1 April 2021, the GNE Group and Three Gorges Asset Management entered into a series of four share purchase agreements (the “**Three Gorges Second Phase Share Purchase Agreements**”), pursuant to which the GNE Group agreed to, among other things, sell the (i) entire equity interest in each of Yulin Longyuan Solar Power Company Limited* (榆林隆源光伏電力有限公司) and Yulin City Yushen Industrial Zone Dongtuo Energy Co., Ltd.* (榆林市榆神工業區東投能源有限公司), (ii) 98.4% equity interest in Jingbian GCL Photovoltaic Energy Co., Ltd.* (靖邊協鑫光伏電力有限公司) and (iii) 80.35% equity interest in Hengshan Jinghe Solar Energy Co., Ltd.* (橫山晶合太陽能發電有限公司) to Three Gorges Asset Management (the “**Three Gorges Second Phase Disposals**”). Please refer to the joint announcement of the Company and GNE dated 1 April 2021 in relation to the Three Gorges Second Phase Disposals for further details.

On 26 April 2021 and 30 April 2021, the GNE Group and the Purchasers entered into the Second Phase Share Purchase Agreements and the Third Phase Share Purchase Agreements, respectively.

On 7 May 2021, Henan GCL New Energy Investment Co., Ltd.* (河南協鑫新能源投資有限公司) and State Power Investment Corporation Chongqing Electric Power Co., Ltd.* (國家電投集團重慶電力有限公司) (“**SPIC Chongqing**”) entered into a share purchase agreement (the “**Yongcheng Xin Neng Share Purchase Agreement**”), pursuant to which the GNE Group agreed to, among other things, sell the entire equity interest in Yongcheng Xin Neng Photovoltaic Electric Power Co., Ltd.* (永城鑫能光伏電力有限公司) to SPIC Chongqing (the “**Yongcheng Xin Neng Disposal**”). Please refer to the joint announcement of the Company and GNE dated 7 May 2021 in relation to the Yongcheng Xin Neng Disposal for further details.

In addition, the Group and the GNE Group is currently under negotiation with certain new energy companies in the PRC (including domestic centralised management enterprises, local state-owned enterprises and listed companies) for further potential disposals of its subsidiaries and will make further announcement as and when appropriate in compliance with the Listing Rules. Save as disclosed above, as at the Latest Practicable Date, the Group and the GNE Group have not entered into any memorandum of understanding or agreement regarding further disposal or downsize of its existing businesses.

For the purpose of this section, the Remaining Group shall mean the Group after completion of the 2020 Disposals, the Wula Tehouqi Yuanhai Disposal, the Three Gorges First Phase Disposals, the Three Gorges Second Phase Disposals, the Previous De Minimis Disposal, the First Phase Disposals, the Second Phase Disposals and the Third Phase Disposals (the “**2021 Disposals**”).

Through the divestiture of the operational solar power plants of the Target Companies, the asset-light model allows the Remaining Group to optimise the finance structure by lowering gearing ratio as well as reducing debt and interest rate exposure.

LETTER FROM THE BOARD

In addition to optimising the finance structure under the asset-light model, the Remaining Group sought to explore opportunities to expand its business by providing more operation, management and maintenance services, in particular to other solar power plant operators in the PRC (including purchasers of certain solar power plant projects disposed by the Group and the GNE Group), thereby generating an additional and stable source of income. Furthermore, the Group and the GNE Group will continue to explore new mode of collaboration between central enterprises and state-owned enterprises and private enterprises using a “development-build-transfer” and “joint development with external parties” under the asset-light model. As such, the Remaining Group could leverage on its established development strength, scientific research capabilities and extensive experience in intelligent operation in the solar energy development and power operation sector while continue to reduce its finance cost and the size of debts.

Apart from promoting the asset-light model for its solar farm business and new energy business (operated by the Company through GNE and other subsidiaries), the Remaining Group will continue to leverage on its existing strength and focus on its solar material business as its principal operating segment. The Group’s solar material business mainly focuses on the manufacture and sales of polysilicon and wafer to companies operating in the solar industry. As of 31 December 2020, the annual production capacity of rod silicon, granular silicon and wafer are 36,000MT, 10,000MT and 40GW, respectively.

Based on the reasons above and having considered the scale of the Remaining Group’s solar power plants business with an aggregate approximately 2.7 GW of grid-connected capacity and its continued focus on solar material business as its principal operating segment, the Directors believe that the business model and the asset-light strategy of the Remaining Group (after completion of the 2020 Disposals and the 2021 Disposals) could ensure its sufficient level of operations, viability and sustainability. As at the Latest Practicable Date, the Company and GNE does not have any intention to acquire new business in the future.

Based on the above reasons and having considered all relevant factors, the GNE Directors believe and consider that the terms of the Transactions are on normal commercial terms, are fair and reasonable and that the entering into of the Transactions is in the interests of GNE and the GNE Shareholders as a whole.

Based on the views of the GNE Directors and having considered all relevant factors, the Directors believe and consider that the terms of the Transactions are on normal commercial terms, are fair and reasonable and that the entering into of the Third Phase Share Purchase Agreements is in the interests of the Company and the Shareholders as a whole.

9. LISTING RULES IMPLICATIONS

At the close of business on 31 March 2021, being the latest practicable date for the purpose of this indebtedness statement, the Group had the following outstanding borrowings:

	Secured <i>RMB'000</i>	The Group Unsecured <i>RMB'000</i>	Total <i>RMB'000</i>

Carrying amount of loans from related companies	–	525,214	525,214

	<u>28,591,696</u>	<u>8,408,357</u>	<u>37,000,053</u>

The Group's secured borrowings were secured, individually or in combination, by (i) certain property, plant and equipment, investment properties and right-of-use assets of the Group; (ii) certain pledged bank and other deposits of the Group; (iii) certain subsidiaries' trade receivables, contract assets and fee collection rights in relation to the sales of electricity; (iv) amount due from an associate; (v) certain equity interests in some project companies and an associate; and (vi) rental deposits of the Group.

At 31 March 2021, certain borrowings of the Group amounting to RMB27,463,818,000 are guaranteed individually or in combination by entities within the Group. The remaining indebtedness amounting to RMB9,536,235,000 are not guaranteed.

At 31 March 2021, the Group provided a total guarantee of RMB6,707,820,000, RMB900,000,000, RMB1,010,000,000 and RMB817,536,000 to banks and financial institutions in respect of banking facilities and financing arrangements of associates, a joint venture, third party and the Target Companies, respectively.

Save as aforesaid or otherwise disclosed herein, and apart from intra-group liabilities and normal trade payables in the ordinary course of business, as at the close of business on 31 March 2021, the Group did not have any debt securities authorised or otherwise created but unissued, or any term loans, other borrowings or indebtedness in the nature of borrowing including bank overdrafts, loans, liabilities under acceptances (other than normal trade bills), acceptance credits, hire purchase commitments, lease liabilities, mortgages or charges, other material contingent liabilities or guarantees outstanding.

To the best of the knowledge of the Directors, having made all reasonable enquiries, there has been no material change in the level of indebtedness of the Group since 31 March 2021.

3. WORKING CAPITAL STATEMENT

As at 31 March 2021, the Group's total borrowings comprising bank and other borrowings, notes and bonds payables, loans from related companies and lease liabilities amounted to approximately RMB37,000,053,000.

The Directors have reviewed the Group's cash flow projections which cover a period of not less than twelve months from the date of this circular. The Directors after due and careful enquiry, are of the opinion that, after taking into account the net proceeds from the Disposals and the financial resources available to the Group, including cash and cash equivalents on hand, cash flows from operating activities and available credit facilities, and based on the assumptions that the financing plans and measures can be successfully executed, the Group will have sufficient working capital for its operating requirements and to pay its financial obligations as and when they fall due and for at least the next twelve months from the date of this circular, in the absence of unforeseeable circumstances. However, if the implementation of financial plans and measures of the Group and the GNE Group become unsuccessful, the Group will not have sufficient working capital for at least the next twelve months from the date of this circular.

In addition to the successful implementation of measures of the GNE Group, including but not limited to the successful transformation to a light-asset model, the completion of the disposals and divestments in relation to solar power plant assets, the sufficiency of the Group's working capital to satisfy its requirements for at least the next twelve months from the date of this circular is also dependent on the Group's ability to generate adequate financing and operating cash flows through successful renewal of its bank borrowings upon expiry, compliance with the covenants under the borrowing agreements or obtaining waiver from the relevant banks if the Group is not able to satisfy any of the covenant requirements, successful securing of the financing from banks with repayment terms beyond twelve months from the date of this circular, other short-term or long-term financing equity issuance.

Notwithstanding the above, significant uncertainties exist as to whether the Group can achieve the plans and measures to generate adequate cash inflow as scheduled, failing which the Group will strive to meet the working capital sufficiency by continuous negotiations with banks to renew existing loans, exploring funding channels through equity and debt markets, and obtaining waiver from the relevant banks if

the Group is not able to satisfy any of the covenant requirements. In particular, the Group has negotiated with certain banks and financial institutions for providing credit facilities in both on-shore and off-shore. The Group has also obtained direct confirmations from certain banks stating that they do not foresee any reason to withdraw the existing facilities in the near future. The Group will continue to negotiate with other banks to obtain credit facilities to ensure the Group's bank borrowings can be renewed on an on-going basis.

4. MATERIAL ADVERSE CHANGE

Trading in Shares on the Stock Exchange has been suspended with effect from 9:00 a.m. on 1 April 2021 and will remain suspended until further notice as the publication of the annual results of the Group for the year ended 31 December 2020 (the **"2020 Annual Results"**) have been delayed until further notice.

On 9 April 2021, the audit committee of the Company (the **"Audit Committee"**) received a letter (the **"Auditor Letter"**) from Deloitte Touche Tohmatsu (the **"Previous Auditor"**), in which the Previous Auditor brought to the attention of the Audit Committee the details of an issue encountered by the Previous Auditor during the audit process and requested the Audit Committee's involvement in resolving the issue. The issue primarily concerns a prepayment in the amount of RMB510 million made by a subsidiary of the Company, Jiangsu Zhongneng Polysilicon Technology Development Co., Ltd.* (江蘇中能硅業科技發展有限公司) for the purposes of an engineering, procurement and construction contract entered into in September 2019 (the **"EPC Contract"**). The Audit Committee has been working with the Previous Auditor and the Company's management to finalise the 2020 Annual Results. In addition, the Company has been taking appropriate steps to assess this matter and provide additional information to the Previous Auditor in relation to the EPC Contract.

On 30 April 2021, the Company received a letter from the Stock Exchange setting out the resumption guidance for the resumption of trading in the Shares, including among others, conduct an appropriate independent investigation into the various concerns raised by the Previous Auditor in the Auditor Letter and publish all outstanding financial results required under the Listing Rules and address any audit modifications.

On 7 May 2021, the Company has engaged a forensic accountant to conduct a forensic investigation addressing various concerns raised by the Previous Auditor in the Auditor Letter. On 14 May 2021, the Board and the Audit Committee received a letter from the Previous Auditor tendering its resignation as the auditor of the Company with effect from 14 May 2021 (the **"Resignation Letter"**). As at the date of the Resignation Letter, the Previous Auditor and the Company are unable to reach a consensus on the scope of independent forensic investigation. The Previous Auditor has not issued any such confirmation under Rule 13.51(4) of the Listing Rules, and stated in its Resignation Letter that, with reference to the matter set out in the preceding paragraphs and the fact that it had not completed the audit of the consolidated financial statements of the Group for the year ended 31 December 2020, it is not in a position to confirm whether there are any other matters that need to be brought to the attention of holders of securities or creditors of the Company.

With the recommendation of the Audit Committee, the Board has resolved to appoint Crowe (HK) CPA Limited (**"Crowe"**) as the new auditor of the Company to fill the casual vacancy following the Resignation and to hold the office until the conclusion of the next annual general meeting of the Company subject to the completion of the audit engagement acceptance procedures. The Company uses its best

endeavors to assist Crowe to complete the audit procedures for the 2020 Annual Results and will publish further announcement(s) to inform the shareholders of the Company of any significant developments in respect of the publication of the 2020 Annual Results as and when appropriate in compliance with the requirements of the Listing Rules.

Please refer to the announcements of the Company dated 1 April 2021, 7 April 2021, 12 April 2021, 19 April 2021, 28 April 2021, 4 May 2021, 7 May 2021 and 17 May 2021 (collectively, the “**Announcements**”) for further details regarding the continued suspension of trading in shares of the Company.

As at the Latest Practicable Date, save as disclosed in the Announcements, the Directors are not aware of any other material adverse change in the financial or trading position of the Company since 31 December 2019, being the date to which the latest published audited financial results of the Group were made up.

5. FINANCIAL AND TRADING PROSPECTS

For the year ended 31 December 2020, the Group recorded a total revenue of approximately RMB14,621 million, whilst the total revenue for the year ended 31 December 2019 was approximately RMB19,250 million. Gross profit and gross profit margin for the year ended 31 December 2020 were approximately RMB3,702 million and 25.3% respectively, whilst the gross profit and gross profit margin for the year ended 31 December 2019 were approximately RMB4,678 million and 24.3% respectively. Loss attributable to owners of the Company for the year ended 31 December 2020 amounted to approximately RMB5,722 million as compared to the loss attributable to owners of the Company of RMB197 million for the year ended 31 December 2019.

The Group’s solar material business belongs to the upstream of the solar supply chain, which supplies polysilicon and wafer to companies operating in the solar industry. Polysilicon is the primary raw material used in the solar wafer production. In addition, the Group also produces wafer by using polysilicon that are produced by the Group. In the solar industry supply chain, wafers are further processed by downstream manufacturers to produce solar cells and modules. As at 31 December 2020, part of the annual production capacity of rod silicon of the Group’s Xuzhou base switched to that of 30,000 MT of granular silicon, resulting in a decrease in production capacity of rod silicon from 70,000 MT to 36,000 MT for the year. As of 31 December 2020, production capacity of granular silicon was 10,000 MT.

The Group’s solar farm business manages and operates 151MW solar farms. As at 31 December 2020, the Group’s solar farm business includes 18MW of solar farms in the United States and 133MW of solar farms in the PRC.

The Group’s new energy business represents the business operations of GNE, which is principally engaged in the development, construction, operation and management of solar farms. As at 31 December 2020, the aggregated installed capacity of the grid-connected solar farms of GNE Group was 6,636MW.

The outbreak of coronavirus disease (“**COVID-19**”) in the PRC, which subsequently spread throughout other regions, has affected many businesses to different extent in early 2020. The respective governments in the PRC and other regions had implemented different types and levels of precautionary

measures in an attempt to curb the spread of the pandemic. Hence, the Group's ability to serve customers will largely depend on (i) the effectiveness of the government measures that have been implemented; (ii) continuous availability of workforce which may be affected by the temporary travel restrictions and home quarantine requirements; and (iii) customers' confidence and demand which may be influenced by the market sentiments and economic performances in different jurisdictions.

Based on available information up to the Latest Practicable Date, the management of the Group considers that COVID-19 has negative impacts to the global economy, business environment and directly and indirectly affect the operations of the Group. Given the dynamic nature of these circumstances, the related impact on our Group's operations and financial position could not be reasonably estimated at this stage.
