## CHAIRMAN'S STATEMENT

### Dear shareholders,

On behalf of the board of directors (the “**Board**”) of Zhicheng Technology Group Ltd. (the “**Company**”, together with its subsidiaries, the “**Group**”), it is my pleasure to present to you the annual report of the Group for the year ended 31 March 2021.

The Group is one of the leading smart manufacturing solution providers in China. For the year ended 31 March 2021, the Group continued to focus on providing high-end precision 3D testing solutions and precision machining solutions to customers in industries such as aviation, aerospace, shipbuilding, ground transportation vehicles and electronics.

For the year ended 31 March 2021, affected by the global epidemic situation in 2020, the slowdown of world and China's economic growth brought certain operating pressure to the Group. Facing the difficulties, the Group resolved them by putting in much effort to open up the market, optimize business management processes and focus on research and development. During the year, the Group's realized revenue was approximately 40.0 million, a decrease of 27.2% from last year. During the year, the Group recorded a loss attributable to owners of the Company of approximately HK\$3.3 million. Affected by the global epidemic situation, the Company could not carry out its business in the first half of the year, which affected the Group's sales performance and payment collection. Since June 2020, with the epidemic situation gradually under control in China, the Company actively expanded its business, and its performance began to pick up in the third quarter of 2020.

Although there is still a possibility of economic downturn in China and an uncertainty about the impact of the outbreak of the Coronavirus Disease 2019 (“**COVID-19**”) on the economy, the Group holds a positive and optimistic attitude about the prospects of the smart manufacturing solutions industry in China. Looking forward to the new year, the Group will continue to its existing markets and customers, actively develop new markets and new customers and maintain a market leading edge. At the same time, the Group will continue to devote more efforts into research and development (“**R & D**”), develop advanced new products and technologies, expand the scope of application of solutions and reduce project costs. Through two years of technical precipitation, the Company has formed its own intangible assets such as scanning detection software, data identification and analysis system software. In addition, the Group will continue to improve the operational efficiency of each business division and actively optimize its existing resources so as to enhance the profitability and the core competitiveness of the Group. The Group will also actively seek for potential business opportunities to create higher value for shareholders.

On behalf of the Board and management, I would like to take this opportunity to express my sincere gratitude to our shareholders, all staff, business partners and customers for their ongoing support and contributions to the Group.

**Mr. Wu Di**

## MANAGEMENT DISCUSSION AND ANALYSIS

### BUSINESS REVIEW AND OUTLOOK

The Group is a smart manufacturing solution provider focusing on precision 3D testing solutions and precision machining solutions in China. The Company provides smart manufacturing solutions to serve the needs of high-end equipment manufacturers which require a high level of precision in the manufacture of their industrial products. Its solutions comprise and integrate various equipment and services, ranging from solution concept and design, procurement of machinery, auxiliary tools and software and system installation and debugging to provision of aftersales services such as technical support and training.

For the year ended 31 March 2021, the Group continued to devote great efforts in expanding the market scopes, approaching new customers in various industries and regions, and maintaining the productive relationships with existing customers. Benefited from its sales efforts, the Group obtained a total of 18 new projects. 12 new projects together with 14 projects which were carried forward from prior years, were completed during the year. As at 31 March 2021, the Group had 7 on-going projects, which were all precision 3D scanning solutions projects.

The Group had been persisting in developing new technology, including new auxiliary tools design and relevant software applications. As of 31 March 2021, the Group has 16 registered patents, including 6 invention patents and 10 utility model patents as well, and 8 invention patents in the registration process.

Looking forward, the Group will organically expand its business, broaden its operation scale and realise its business growth, improving market competitiveness while increasing market share. In addition, the Group will continue to expand its talent pool to recruit professional sales and marketing staffs, as well as administrative staffs, for future business expansion. Furthermore, in order to enhance competitiveness and form its own core technology, the Group pays attention to the investment in R & D. Through two years of technical precipitation, the Company has formed its own intangible assets such as scanning detection software, data identification and analysis system software. Affected by the global epidemic situation in 2020, the Company could not carry out its business in the first half of the year, which affected the Group's sales performance and payment collection. Since June 2020, with the epidemic situation gradually under control in China, the Company actively expanded its business, and its performance began to pick up in the third quarter of 2020. The epidemic has no impact on the Company's main business scope, but has a lagging impact on business performance. As a result, the Group's operating performance for the year was not significantly affected by the epidemic. Taking into account the uncertainty of the duration of the epidemic and the implementation of the preventive measures against the spread of the epidemic, the Group's future operating performance may be affected by changes in the future economic conditions and the extent of the impact cannot be predicted as at the reporting date. The Group will continue to keep track of the epidemic development and react proactively to its possible impact on the performance of the Group. By virtue of the technological edges, the Group is expecting to continuously promote its integrated smart manufacturing solutions, understand the industrial evolution and further consolidate the market position and customer confidence.

## MANAGEMENT DISCUSSION AND ANALYSIS

### FINANCIAL REVIEW

#### Revenue

For the year ended 31 March 2021, the Group recorded revenue of approximately HK\$40.0 million, representing a decrease of 27.2% comparing with that of approximately HK\$54.9 million for the year ended 31 March 2020. Set out below is the revenue breakdown of the Group for the year:

	Year ended 31 March					
	2021			2020		
	Revenue HK\$'000	% of Revenue %	Gross Profit Margin %	Revenue HK\$'000	% of Revenue %	Gross Profit Margin %
<b>Precision 3D testing solutions</b>						
Static 3D scanning	30,470	76.2	35.0	42,579	77.6	58.4
Dynamic 3D scanning	9,492	23.8	60.0	12,313	22.4	51.0
<b>Overall precision 3D testing solutions</b>	<b>39,962</b>	<b>100</b>	<b>41.0</b>	54,892	100	56.7

The decrease in revenue was mainly attributable to a decrease of HK\$14.9 million in sales of precision 3D testing solutions.

**Precision 3D testing solutions:** Revenue from precision 3D testing solutions decreased by 27.2% to HK\$40.0 million for the year ended 31 March 2021 from HK\$54.9 million for the year ended 31 March 2020. This decrease was mainly attributable to (i) the continuous impact of the epidemic, the Company's sales personnel were hindered from business travelling for about 3 months, and customers were not fully operational, resulting in sales not fully recovered until September 2020; and (ii) in accordance with the Group's project implementation schedule, fewer projects providing imported or home-made modules were implemented, and accordingly the revenue was totally generated from project related to provision of technical services of which the contract value was relatively low in 2020. While the revenue was mainly derived from a project providing imported modules of which the contract value was relatively high in 2019.

#### Cost of sales

Cost of sales decreased by 0.7% to HK\$23.6 million for the year ended 31 March 2021 from HK\$23.8 million for the year ended 31 March 2020. The decrease in gross profit was mainly due to the higher cost of new projects obtained in the current period.

#### Gross profit and gross profit margin

Gross profit decreased by 47.4% to HK\$16.4 million for the year ended 31 March 2021 from HK\$31.1 million for the year ended 31 March 2020. Gross profit margin decreased to 41.0% for the year ended 31 March 2021 from 56.7% for the year ended 31 March 2020, which was primarily due to (i) the decrease in sales of overseas companies. The gross profit of overseas orders is generally higher than that of domestic orders. (ii) Affected by the global epidemic situation in 2020, the gross profit of new projects this year is relatively low.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Selling and marketing expenses

Selling and marketing expenses remained stable. Selling and marketing expenses decreased by 2.1% to HK\$5.3 million for the year ended 31 March 2021 from HK\$5.5 million for the year ended 31 March 2020.

### Administrative expenses

Administrative expenses remained stable. Administrative expenses decreased by 5.0% to HK\$18.4 million for the year ended 31 March 2021 from HK\$19.4 million for the year ended 31 March 2020.

### Income tax expense

The Group had an income tax revenue of HK\$3.1 million (2020: income tax expenses of HK\$3.1 million) for the year ended 31 March 2021.

Income tax expense included the PRC income tax of Hong Kong Cheng Phong Technology Limited (“**Hong Kong Cheng Phong**”), Bow Chak Industry (HK) Limited (“**Bow Chak**”) and MGW Swans Ltd., calculated on a deemed profit basis. The income tax expense for the year ended 31 March 2021 mainly comprised (i) Hong Kong incorporated companies, Hong Kong Cheng Phong and Bow Chak received the tax refund in a total HK\$2.6 million from the Hong Kong Inland Revenue Department. (ii) The PRC income tax expense of subsidiaries incorporated in BVI and Hong Kong of HK\$0.3 million. (iii) PRC income tax loss of subsidiary incorporated in PRC of HK\$0.8 million.

### Loss for the year

Profit decreased by 206.4% to a net loss of HK\$3.3 million for the year ended 31 March 2021 from a net profit of HK\$3.1 million for the year ended 31 March 2020. Such decrease was mainly attributable to the decrease in sales by HK\$14.9 million and gross profit decreased by HK\$14.7 million.

## GEARING RATIO

The Group monitors capital on the basis of the net gearing ratio. Net gearing ratio represents the ratio of net debts (total borrowings net of cash and cash equivalents and restricted cash) divided by total equity as 31 March 2021 was 8% (31 March 2020: 0).

The Group had one year credit loan of HK\$2.4 million from ICBC bank since 4 September 2020, annual interest rate is 4.05%, it also had two years credit loan of HK\$5.9 million from BOC bank since 4 January 2021, annual interest rate is 3.80%. Annual weighted average effective interest rates of 3.98%.

## LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

The net cash used in operating activities was approximately HK\$15.0 million for the year ended 31 March 2021. During the year, the Group has current and non-current bank borrowings of HK\$8.3 million to support operation.

As at 31 March 2021, the net current assets of the Group were approximately HK\$50.0 million (31 March 2020: net current assets of HK\$57.6 million). The decrease was mainly attributable to the increase in trade payables of HK\$3.6 million and current borrowings of HK\$2.7 million arising from the business expansion, besides the increase in prepayments of HK\$3.5 million and the increase in trade receivables of HK\$2.8 million.

As at 31 March 2021, the cash and cash equivalents of the Group was approximately HK\$2.7 million (31 March 2020: approximately HK\$13.1 million).

## MANAGEMENT DISCUSSION AND ANALYSIS

### CONTINGENT LIABILITIES

As at 31 March 2021, the Group did not have any significant contingent liabilities.

### CAPITAL COMMITMENTS

As at 31 March 2021, the Group did not have any capital commitments.

### PLEDGE OF ASSETS

As at 31 March 2021, the Group did not have any pledge on its assets.

### EXCHANGE RATE RISK EXPOSURE

For the operating entities of the Company that are incorporated in Hong Kong and the British Virgin Islands, their functional currencies are United States dollars (“**US\$**”). As certain trade and other receivables, bank balances, lease liabilities, trade and other payables of overseas entities are denominated in Hong Kong dollars (“**HK\$**”) or Euro (“**EUR**”) or Renminbi (“**RMB**”), currencies other than the functional currencies of the entities may cause the foreign exchange risk. Under the Linked Exchange Rate System in Hong Kong, HK\$ is pegged to US\$, the Board considers that there is no significant foreign exchange risk with respect to HK\$. Therefore, the foreign exchange risk mainly arises from the monetary assets and liabilities denominated in EUR and RMB, which the Board considers as not significant to the Group. The Group has not entered into forward exchange contract to hedge its exposure to foreign exchange risk.

Because of the fluctuation in the exchange rate of the functional currencies of the Group entities, mainly RMB and US\$, to the Group’s presentation currency, HK\$, the Group recorded a gain in other comprehensive income of HK\$2.7 million for the year ended 31 March 2021.

### SIGNIFICANT INVESTMENTS HELD

As at 31 March 2021, the Group did not hold any significant investments.

### OTHER FINANCIAL ASSETS

As at 31 March 2021, other financial assets held by the Group comprise:

- Trade receivables of HK\$37.9 million;
- Cash and bank deposits of HK\$2.7 million; and
- Other receivables of HK\$3.5 million.

### FUTURE PLANS FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

As at 31 March 2021, the Group did not have any plans for material investments.

### MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES AND AFFILIATED COMPANIES

During the year ended 31 March 2021, the Group did not have any material acquisitions and disposals of subsidiaries and affiliated companies.

## MANAGEMENT DISCUSSION AND ANALYSIS

### COMPARISON OF BUSINESS STRATEGIES WITH ACTUAL BUSINESS PROGRESS

A comparative analysis of the business strategy with actual business progress of the Group from the date of listing to 31 March 2021 is as follows:

<p>Establishing its own R &amp; D facilities</p>	<p>Establishing its own R &amp; D center, purchasing the required equipment and software for its own R &amp; D center, and conducting R &amp; D projects on this basis;</p> <p>Recruiting a number of R &amp; D and technical personnel at senior and intermediate levels, Recruited CFO in 2020; and</p> <p>Since the date of listing, 6 invention patents and 3 utility model patents have been newly added; currently, there are 9 invention patents and 8 utility model patents pending registration.</p>

## MANAGEMENT DISCUSSION AND ANALYSIS

### PRINCIPAL RISKS AND UNCERTAINTIES

The principal business of the Group is to provide smart manufacturing solutions to its customers on a project basis. As the Company does not have any long-term contractual arrangements with its customers, there is no assurance that the Company will continue to secure new contracts or maintain or increase its current level of business activities with existing or future customers in the future. Therefore, the Group is increasing its sales and marketing efforts, expanding its sales force, sales spots and sales coverage, aiming to continuously get new tenders and secure contracts from more customers.

The Group's major customers are high-end equipment manufacturers in the aviation, aerospace, shipbuilding, ground transportation vehicles and electronics industries. The market for smart manufacturing solutions is characterised by rapidly changing technologies and evolving developments. The success of its business is dependent upon its ability to continuously develop, in a timely manner, new technological applications through research and development and introduce new solution designs to cater its customers' requirements. Therefore, the Group intends to increase its research and development efforts, establish its own research and development centres, recruit more technical staff, so as to hold its edges in terms of technology.

Other risks are as follows:

#### Credit risk

Credit risk mainly arises from cash and cash equivalents, restricted cash, trade receivables and other receivables. The carrying amount of these balances in the consolidated statement of financial position represents the Group's maximum exposure to credit risk in relation to its financial assets. The Group has a credit policy in place and the exposure to these credit risks are monitored on an ongoing basis.

#### Interest rate risk

The Group's interest-bearing asset is borrowings and cash and cash equivalents. Borrowings obtained at fixed rates expose the Group to fair value interest rate risk. The directors consider the interest rate risk with respect to cash and cash equivalents to be insignificant to the Group.

The Group has not entered into any interest rate swaps to hedge its exposure to interest rate risks.

#### Liquidity risk

To manage the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the operations and mitigate the effects of fluctuations in cash flows. The Group met cash flow needs through internally generated cash flows from operation and borrowings from financial institutions.

### USE OF PROCEEDS

As at 31 March 2021, all of the funds raised from the Listing have been fully utilised in the manner as described in the section headed "Use of Proceeds" of the annual report of the Company dated 15 June 2020.

## CORPORATE GOVERNANCE REPORT

The Company is committed to promoting high standards of corporate governance through its continuous effort in improving its corporate governance practices and process. The Board believes that sound and reasonable corporate governance practices are essential for sustainable growth of the Group and for safeguarding the interests and the Group's assets.

The corporate governance practices of the Group are based on the principles and the code provisions in the Corporate Governance Code (the "**Code**") as set out in Appendix 15 to the GEM Listing Rules.

There was a deviation from code provision A.2.1 of the Code which stipulates that the roles of chairman and chief executive should be separated and should not be performed by the same individual. The Company considers that having Mr. Wu Di acting as both its chairman of the Board and its chief executive officer will provide a strong and consistent leadership to the Group and allow for more effective planning and management for the Group. In view of Mr. Wu Di's extensive experience in the industry, personal profile and critical role in the Group and its historical development, the Company considers that it is beneficial to the business prospects of the Group that Mr. Wu Di continues to act as both its chairman and its chief executive officer.

Save as disclosed above, the Company has complied with the applicable code provisions of the Code as set out in Appendix 15 to the GEM Listing Rules for the year ended 31 March 2021.

### **APPOINTMENT, RE-ELECTION AND RETIREMENT OF THE DIRECTORS**

In accordance with article 108 of the articles of association (the "**Articles**") of the Company, at each annual general meeting (the "**AGM**"), one third of the Directors for the time being shall retire from office by rotation. However, if the number of Directors is not a multiple of three, then the number nearest to but not less than one third shall be the number of retiring Directors.

In accordance with article 112 of the Articles, any Director so appointed by the Board to fill a casual vacancy of the Board shall hold office only until the first general meeting of the Company after his appointment and be subject to re-election at such meeting. Any Director so appointed by the Board shall not be taken into account in determining the Directors or the number of Directors who are to retire by rotation at the AGM.

Each of the Directors has been appointed for an initial term of one year on 26 March 2021 until terminated by either party giving not less than three months' written notice to the other. Pursuant to the Articles, Ms. Liu Zhining and Mr. Tan Michael Zhen Shan will retire from office as Directors at the forthcoming AGM, and being eligible, will offer themselves for re-election.

## CORPORATE GOVERNANCE REPORT

### COMPLIANCE WITH THE REQUIRED STANDARD OF DEALINGS IN SECURITIES TRANSACTIONS BY DIRECTORS

The Group has adopted the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules (the “**Standard of Dealings**”), as its own code of conduct regarding Directors’ securities transactions.

Having made specific enquiries of all the Directors, each of the Directors has confirmed that he or she has complied with the required Standard of Dealings for the year ended 31 March 2021.

## CORPORATE GOVERNANCE REPORT

### NOMINATION COMMITTEE

The Company established a Nomination Committee on 26 March 2018. The Company has adopted written terms of reference in compliance with code provision A.5.2 of the Code as set out in Appendix 15 to the GEM Listing Rules. The primary duties of the Nomination Committee are to review the structure, size, composition and diversity of the Board and make recommendations to the Board on the selection of individuals nominated for directorships, appointment or reappointment of Directors and succession planning for Directors.

The Nomination Committee consists of three members who are Mr. Wu Di (an executive Director and Chairman), Mr. Tang Yong and Mr. Tan Michael Zhen Shan (independent non-executive Directors). The majority of the members of the Nomination Committee are independent non-executive Directors.

The Nomination Committee held 1 meeting for the year ended 31 March 2021. Details of the attendance of the Nomination Committee meeting are set out above.

At the meeting, the Nomination Committee reviewed the structure, size and composition of the Board, assessed the independence of the independent non-executive Directors, formulated the board diversity policy and made recommendations to the Board accordingly.

#### Nomination policy

The Board of the Company adopted the nomination policy on 25 December 2018 as follows:

#### 1. Goal

- 1.1 The Nomination Committee of the Company (the “**Committee**”) shall nominate suitable candidates to the board of director (collectively the “**Directors**” and individually a “**Director**”) of the Company (the “**Board**”) for it to consider and make recommendations to the shareholders of the Company (the “**Shareholders**”) for election as Directors at general meetings or appoint as Directors to fill casual vacancies.
- 1.2 The Committee may nominate suitable number of candidates that it considers to be appropriate for election as Directors at general meetings or nominate the number of candidates who are required to fill casual vacancies.

#### 2. Selection criteria

- 2.1 In assessing the suitability of a proposed candidate, the Committee would consider the following factors:
  - (a) reputation for integrity;
  - (b) experience in business strategy, management, legal and financial aspects;
  - (c) whether the proposed candidate is able to assist the Board in effective performance of its responsibilities;
  - (d) the perspectives and skills that the proposed candidate is expected to bring to the Board;
  - (e) commitment in respect of available time and relevant interest;

## CORPORATE GOVERNANCE REPORT

- (f) diversity in all aspects of the Board, including but not limited to gender, age, cultural background, educational background, ethnicity, professional experience, skills, knowledge and length of service; and
- (g) in the case of selection for independent non-executive Directors, the independence of the proposed candidate.

The above factors are for reference only, and not meant to be exhaustive and decisive. The Committee has the discretion to nominate any person, as it considers appropriate.

- 2.2 The proposed candidate shall submit the required personal data in the agreed format and his/her written consent to be appointed as a Director and agree to the public disclosure of his/her personal data on any documents or the relevant websites for the purpose of or in relation to his/her appointment as a Director.
- 2.3 The Committee may request the proposed candidate to provide additional information and documents, if considered necessary.

### 3. Nomination procedure

- 3.1 The secretary of the Committee (the “**Secretary of the Committee**”) shall call a meeting of the Committee, and invite nominations of candidates from Board members, if any, for consideration by the Committee prior to its meeting. Alternatively, the Committee may approve the nomination by a written resolution.
- 3.2 For filling a casual vacancy on the Board, the Committee shall recommend candidates for the Board’s consideration and approval. For a proposed candidate to stand for election at a general meeting, the Committee shall make a nomination to the Board for its consideration and recommendation of the proposed candidate to stand for election.
- 3.3 Until the issue of the circular to Shareholders, the proposed candidates shall not assume that they have been proposed by the Board to stand for election at the general meeting.
- 3.4 According to the articles of association of the Company, and without violating its provisions, any one or more shareholders may send a notice indicating that they intend to put forward a proposal on recommendation of selecting someone as a Director without having to be recommended by the Board or nominated by the Committee.
- 3.5 The Board shall have the final decision on all matters relating to its recommendation of candidates to stand for election at any general meeting.

## CORPORATE GOVERNANCE REPORT

### 4. Confidentiality

Unless required by law or any regulatory authority, under no circumstances shall a member of the Committee or a staff member of the Company disclose any information to or entertain any enquiries from the public with regard to any nomination or candidature before the circular to Shareholders, as the case may be, is issued. Following the issue of the circular by the Company, the Committee, the company secretary of the Company or other staff member of the Company approved by the Committee may answer enquiries from the regulatory authorities or the public but confidential information regarding nominations and candidates should not be disclosed.

### COMPLIANCE ADVISER

### DIVIDENDS

The Board did not recommend the payment of any dividend for the year ended 31 March 2021 (2020: nil).

### DIVIDEND POLICY

The Board of the Company adopted the dividend policy on 25 December 2018 as follows:

#### 1. Goal

- 1.1 The board of directors of the Company (the "**Board**") seeks to maintain a balance between meeting shareholders' expectations and prudent capital management with a sustainable dividend policy (the "**Dividend Policy**").
- 1.2 Under the Dividend Policy, provided the Group is profitable and without affecting the normal operations of the Group, the Company may declare and pay dividends to the shareholders of the Company (the "**Shareholders**").
- 1.3 The Dividend Policy aims to allow Shareholders to participate in the Company's profit and for the Company to retain adequate reserves for future development.

## REPORT OF THE DIRECTORS

### 2. Criteria

- 2.1 When proposing to declare dividends, the Board shall consider the followings, inter alia:
- (a) the actual and expected financial results of the Company and the Group;
  - (b) retained earnings and distributable reserves of the Company and each member of the Group;
  - (c) dividends received from subsidiaries of the Company;
  - (d) the debt-to-equity ratio level, return on equity and related financial covenants of the Group;
  - (e) restrictions on payment of dividends that may be imposed by the Group's lenders;
  - (f) the expected working capital requirements and future expansion plans and prospects of the Group;
  - (g) the general economic and financial conditions, business cycle of the Group and other internal or external factors that may have an impact on the business or financial performance and position of the Company; and
  - (h) any other factors that the Board deems appropriate.

### 3. Procedure on declaration of dividends

- 3.1 The Dividend Policy and the declaration and/or payment of the dividends under the Dividend Policy in the future shall depend on whether the Board will continue to affirm the Dividend Policy and the declaration and/or payment of dividends is in the best interests of the Group and the shareholders, and is compliance with all applicable laws and regulations.
- 3.2 The declaration and payment of dividends shall be approved and conducted in accordance with all applicable laws and regulations and the articles of association (as amended from time to time) of the Company.
- 3.3 The declaration and payment of dividends is at the sole discretion of the Board and there is no assurance that dividends will be paid in any particular amount for any given period.

### 4. Review of the Dividend Policy

The Board will continually review the Dividend Policy and reserve the right in its sole and absolute discretion to update, amend, modify and/or cancel the Dividend Policy at any time; and the Dividend Policy shall in no way constitute a legally binding commitment by the Company in respect of its future dividend and/or in no way obligate the Company to declare a dividend at any time or from time to time.

## PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Articles or the laws of the Cayman Islands which would oblige the Company to offer new shares on a pro-rata basis to its existing shareholders.

## REPORT OF THE DIRECTORS

## INDEPENDENT AUDITOR'S REPORT

羅兵咸永道

**To the Shareholders of Zhicheng Technology Group Ltd.**

*(incorporated in the Cayman Islands with limited liability)*

### OPINION

#### What we have audited

The consolidated financial statements of Zhicheng Technology Group Ltd. (the "Company") and its subsidiaries (the "Group") set out on pages 43 to 91, which comprise:

- the consolidated statement of financial position as at 31 March 2021;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

#### Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

### BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKASs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

## INDEPENDENT AUDITOR'S REPORT

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter identified in our audit relates to impairment of trade receivables.

Key Audit Matter	How our audit addressed the Key Audit Matter
<p><b>Impairment of trade receivables</b></p> <p>Refer to Note 4(b) (critical accounting estimates and judgements) and Note 17 (trade receivables) to the consolidated financial statements.</p> <p>As at 31 March 2021, the Group had gross trade receivables of HK\$38,233,000 and provision for impairment of trade receivables of HK\$292,000.</p> <p>The Group applied the HKFRS 9 simplified approach to measure lifetime expected credit losses ("ECL") allowance for trade receivables. Management estimated the ECL rate of trade receivables individually by considering the market conditions, their knowledge about the customers (including their reputation, financial capability and payment history), and the current and forward-looking information on macroeconomic factors that relevant to determine the ability of customers to settle the receivables in the future. Management also considered the aging profile and the subsequent settlement of each customer.</p> <p>Impairment of trade receivables is considered as a key audit matter to our audit because of the management's judgements involved in the impairment assessment and the significance of the trade receivables balance to the Group's consolidated financial statements.</p>	<p>Our audit procedures in relation to management's assessment on the impairment of trade receivables included:</p> <p>We understood, evaluated and validated, on a sampling basis, the key controls in place over management's assessment on ECL and aging analysis review of the trade receivables and assessed the inherent risk of material misstatement by considering the degree of estimation uncertainty and other inherent risk factors.</p> <p>We obtained the documentation of management's assessment on ECL of trade receivables. We discussed with management to understand the ECL model and estimates used to assess the ECL rate. We evaluated management's estimated ECL by considering the reputation and financial capability of the customers against the publicly available information, and the cash collection performance against the historical payment records. We also considered and evaluated the appropriateness of the impairment model adopted by management.</p> <p>We evaluated whether management's assessment on the current and forward-looking macroeconomic factors that impact on the ability of customers to settle the receivables in the future was appropriate by considering the external market information.</p> <p>We tested, on a sampling basis, the accuracy of the trade receivables aging report prepared by management by examining related supporting documents including sales contracts, shipping documents, sales invoices or acceptance notes from customers.</p>

## INDEPENDENT AUDITOR'S REPORT

### Key Audit Matter

### How our audit addressed the Key Audit Matter

#### Impairment of trade receivables

The judgements and estimations are subject to high degree of estimation uncertainty. The inherent risk in relation to the assessment of ECL of trade receivables is considered relatively higher due to uncertainty of significant assumptions used.

We checked subsequent settlement of trade receivables on a sampling basis to the relevant bank receipts.

Based on the work performed, we considered management's judgements made in relation to the impairment assessment of trade receivables were supported by the evidence obtained.

### OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### RESPONSIBILITIES OF DIRECTORS AND AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

## INDEPENDENT AUDITOR'S REPORT

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

## INDEPENDENT AUDITOR'S REPORT

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, action taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Ho Chiu Yin, Ivan.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## 1 GENERAL INFORMATION

Zhicheng Technology Group Ltd. (the “Company”) was incorporated in the Cayman Islands on 23 June 2017 as an exempted company with limited liability. The address of its registered office is Sertus Chambers, Governors Square, Suite # 5-204, 23 Lime Tree Bay Avenue, P.O. Box 2547 Grand Cayman, KY1-1104 Cayman Islands.

The holding company of the Company is IFG Swans Holding Ltd. (“IFG Swans”), a company incorporated in the British Virgin Islands (“BVI”) and 100% owned by Mr. Wu Di (“Mr. Wu”). Mr. Wu is the controlling shareholder (the “Controlling Shareholder”) of the Company.

The Company is an investment holding company and its subsidiaries are principally engaged in the provision of smart manufacturing solutions including sales of equipment and provision of relevant technical service in the People’s Republic of China (the “PRC”).

The shares of the Company were listed on GEM of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) on 20 April 2018.

These financial statements are presented in Hong Kong dollar (“HK\$”), unless otherwise stated, and have been approved for issue by the board of directors (the “Board”) of the Company on 24 May 2021.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

### 2.1 Basis of preparation

**(a) Compliance with Hong Kong Financial Reporting Standards (“HKFRS”) and Hong Kong Companies Ordinance (Cap. 622)**

The consolidated financial statements of the Group have been prepared in accordance with HKFRS and the disclosure requirements of the Hong Kong Companies Ordinance (Cap. 622).

**(b) Historical cost convention**

The consolidated financial statements have been prepared under the historical cost convention.

**(c) New and amended standards adopted by the Group**

The Group has applied the following standards and amendments for the first time for their annual reporting period commencing 1 April 2020:

- Definition of Material – amendments to HKAS 1 and HKAS 8
- Definition of Business – amendments to HKFRS 3
- Interest Rate Benchmark Reform – amendments to HKFRS 9, HKAS 39 and HKFRS 7
- Revised Conceptual Framework for Financial Reporting
- COVID-19-Related Rent Concessions – amendments to HKFRS 16

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.1 Basis of preparation *(Continued)*

**(c) New and amended standards adopted by the Group *(Continued)***

The amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

**(d) New standards, amendments to standards and interpretations not yet adopted**

The following new standards, amendments to existing standards and interpretations have been issued but are not yet effective for the accounting period beginning 1 April 2020 and have not been early adopted by the Group.

		Effective for annual periods beginning on or after
Annual Improvements	Annual Improvements to HKFRS standards 2018-2020 cycle	1 January 2022
Amendments to HKAS 1	Classification of liabilities as current	1 January 2023
HKFRS 17	Insurance contracts	1 January 2023
Amendments to HKFRS 10 and HKAS 28	Sale or contribution of assets between an investor and its associate or joint venture	To be determined
Amendments to HKAS 16	Property, Plant and Equipment: Proceeds before intended use	1 January 2022
Amendments to HKFRS 3	Reference to the Conceptual Framework	1 January 2022
Amendments to HKAS 37	Onerous Contracts – Cost of Fulfilling a contract	1 January 2022

The Group has already commenced an assessment of the impact of these new or revised standards and amendments. According to the preliminary assessment made by the Group, no significant impact on the financial performance and position of the Group is expected when they become effective.

#### 2.2 Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity where the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.3 Separate financial statements

Interests in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable. Impairment testing of the interests in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

#### 2.4 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker ("CODM"), who are responsible for allocating resources and assessing performance of the operating segments. The CODM has been identified as the executive directors that make strategic decisions.

#### 2.5 Foreign currency translation

##### (a) *Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements is presented in HK\$, which is the Company's functional and the Group's presentation currency.

##### (b) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Foreign exchange gains and losses that relate to cash and cash equivalents are presented in the consolidated statement of comprehensive income within finance income/costs. All other foreign exchange gains and losses are presented in the consolidated statement of comprehensive income within other gains/(losses) – net.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.5 Foreign currency translation *(Continued)*

##### **(c) Group companies**

The results and financial position of the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each financial position presented are translated at the closing rate at the date of that financial position;
- income and expenses for each statement of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations are taken to shareholders' equity. On the disposal of a foreign operation, all of the currency translation differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In the case of a partial disposal that does not result in the Group losing control over a subsidiary that includes a foreign operation, the proportionate share of accumulated currency translation differences are re-attributed to non-controlling interests and are not recognised in profit or loss.

#### 2.6 Equipment

Equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the any component accounted for as a separated asset is derecognised when replaced. All other repairs and maintenance are charged to the consolidated statement of comprehensive income during the financial period in which they are incurred.

Depreciation on equipment is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Furniture and office equipment	4 - 5 years
--------------------------------	-------------

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.6 Equipment *(Continued)*

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.9).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within consolidated statement of comprehensive income.

#### 2.7 Intangible assets

##### ***Intangible assets represent software and patents***

Separately acquired computer software and patents are shown at historical cost. The computer software and patents have a finite useful life and are carried at cost less accumulated amortisation.

Amortisation is calculated using the straight-line method to allocate the cost over its estimated useful lives.

#### 2.8 Impairment of non-financial assets

Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

#### 2.9 Financial Assets

##### ***(a) Classification***

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.9 Financial Assets *(Continued)*

##### **(a) Classification** *(Continued)*

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

##### **(b) Recognition and measurement**

Regular way purchases and sales of financial assets are recognised on the trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

##### **(c) Measurement**

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss ("FVPL"), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset.

Trade and other receivables that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses) (if any), together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the consolidated statement of comprehensive income.

##### **(d) Impairment of financial assets**

The Group assesses on a forward-looking basis the expected credit losses associated with its financial assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables, see Note 17 for further details. For other receivables, the Group applies either 12-month ECL or lifetime expected losses method, depending on whether there has been a significant increase in credit risk since initial recognition.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.10 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the consolidated statement of financial position when the Group has a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

#### 2.11 Trade and other receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for impairment. See Note 2.10 for further information about the Group's accounting for trade receivables and the Group's impairment policies.

#### 2.12 Cash and cash equivalents

In the consolidated statement of cash flows, cash and cash equivalents include cash in hand, deposits held at call with banks. Bank deposits which are restricted to use are included in "restricted cash". Restricted cash are excluding from cash and cash equivalents included in the consolidated statement of cash flows.

#### 2.13 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

#### 2.14 Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

#### 2.15 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.15 Borrowings *(Continued)*

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as finance costs.

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

#### 2.16 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

#### 2.17 Current and deferred income tax

The income tax expense for the period comprises current and deferred tax. Income tax is recognised in the consolidated statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

##### (a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.17 Current and deferred income tax *(Continued)*

##### **(b) Deferred income tax**

###### *Inside basis differences*

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

###### *Outside basis differences*

Deferred income tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

##### **(c) Offsetting**

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.18 Employee benefits

**(a) Pension obligations**

In accordance with the rules and regulations in the PRC, the PRC based employees of the Group participate in defined contribution retirement benefit plans organised by the relevant municipal and provincial governments in the PRC under which the Group and the PRC based employees are required to make monthly contributions to these plans calculated as a percentage of the employees' salaries, subject to certain ceiling.

The municipal and provincial governments undertake to assume the retirement benefit obligations of all existing and future retired PRC based employees payable under the plans described above. Other than the monthly contributions, the Group has no further obligation for the payment of retirement and other post-retirement benefits of its employees. The Group's contributions to these plans are expensed as incurred.

The Group has arranged for its Hong Kong employees to join the Mandatory Provident Fund Scheme (the "MPF Scheme"), a defined contribution scheme managed by an independent trustee. Under the MPF Scheme, the group company in Hong Kong (the employer) and its employees make monthly contributions to the scheme at 5% of the employees' earnings as defined under the Mandatory Provident Fund legislation. The monthly contributions of each of the group company and its employees are subject to a cap of HK\$1,500 and thereafter contributions are voluntary.

**(b) Housing funds, medical insurances and other social insurances**

Employees of the group companies in the PRC are entitled to participate in various government-supervised housing funds, medical insurance and other employee social insurance plan. The Group contributes on a monthly basis to these funds based on certain percentages of the salaries of the employees, subject to certain ceiling. The Group's liability in respect of these funds is limited to the contributions payable in each period. Contributions to these funds are expensed of as incurred.

**(c) Bonus entitlements**

The expected cost of bonus payments are recognised as a liability when the Group has a present contractual or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.19 Revenue recognition

Revenues are recognised when or as the control of the asset is transferred to the customer. Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates and amounts collected on behalf of third parties. The Group recognises revenue when specific criteria have been met for each of the Group's activities, as described below.

**(a) Sales of goods**

Sales of goods are recognised when control of the products has been transferred to the customers and the collectability of the related receivables is reasonably assured.

**(b) Rendering of services**

The Group provided technical services to external parties. Service fee is recognised as revenue when services are rendered.

#### 2.20 Earnings per share

**(a) Basic earnings per share**

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

**(b) Diluted earnings per share**

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

#### 2.21 Interest income

Interest income is recognised using the effective interest method.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.22 Leases

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the group.

Contracts may contain both lease and non-lease components. The group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the group is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Group under residual value guarantees
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.22 Leases *(Continued)*

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third party financing, and
- makes adjustments specific to the lease, for example, term, country, currency and security.

If a readily observable amortising loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the group entities use that rate as a starting point to determine the incremental borrowing rate.

A lease is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial direct costs, and;
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less without a purchase option. Low-value assets comprise IT equipment and small items of office furniture.

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.23 Research and development

Research expenditures are recognised as expenses or cost of sales as incurred. Costs incurred on development projects (relating to the design and developing of new or improved utility models and utility patents) are recognised as intangible assets if, and only if, the Group can demonstrate all of the following:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- its intention to complete the intangible asset and use or sell it;
- its ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- its ability to measure reliably the expenditure attributable to the intangible asset during its development.

Other development expenditures that do not meet these criteria are recognised as expenses or cost of sales when incurred. Development costs previously recognised as expenses or cost of sales are not recognised as an asset in a subsequent period.

#### 2.24 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's financial statements in the period in which the dividends are approved by the Company's shareholders or directors, where appropriate.

#### 2.25 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 3 FINANCIAL RISK MANAGEMENT

#### 3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk and cash flow interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. Risk management is carried out by the financial department under policies approved by the Board.

##### 3.1.1 Market risk

###### (a) Foreign exchange risk

Foreign exchange risk arises when future commercial transactions or recognised assets or liabilities are denominated in a currency that is not the entity's functional currency.

The PRC entity of the Group operates in the PRC with most of the transactions denominated and settled in RMB and certain transactions denominated in foreign currencies, comprising United States dollar ("US\$") and Euro ("EUR").

For the operating entities that are incorporated in Hong Kong and BVI, their functional currencies are US\$. Certain transactions of these entities are denominated in HK\$ or EUR, currencies other than the functional currencies of the entities. Under the Linked Exchange Rate System in Hong Kong, HK\$ is pegged to US\$ and limited transactions are denominated in EUR, the directors consider that there is no significant foreign exchange risk with respect to HK\$ and EUR.

Therefore, the Group's foreign exchange risk arises from the monetary assets and liabilities denominated in foreign currencies other than the functional currency of relevant group entities.

The Group has not entered into forward exchange contract to hedge its exposure to foreign exchange risk.

##### 3.1.1 Market risk *(Continued)*

###### (a) Foreign exchange risk *(Continued)*

The carrying amounts of the Group's monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are as follows:

As at 31 March 2021	RMB HK\$'000	USD HK\$'000	EUR HK\$'000	Total HK\$'000
Monetary assets				
– Cash and cash equivalents	–	1	15	16
Monetary liabilities				
– Trade payables	–	–	(17)	(17)

Monetary assets				
– Cash and cash equivalents	–	–	14	14
Monetary liabilities				
– Trade payables	–	(378)	(1,654)	(2,032)

As at 31 March 2021, if RMB, EUR and US\$ had weakened/strengthened by 4% (31 March 2020: 4%) against the functional currency of relevant group entity with all other variables held constant, profit before income tax for the year would have increased/ decreased by HK\$4,000 (2020: HK\$81,000).

###### (b) Cash flow interest rate risk

The Group's interest-bearing asset is borrowings and cash and cash equivalents. Borrowings obtained at fixed rates expose the Group to fair value interest rate risk. The directors consider the interest rate risk with respect to cash and cash equivalents to be insignificant to the Group.

The Group has not entered into any interest rate swaps to hedge its exposure to interest rate risks.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### 3.1 Financial risk factors *(Continued)*

##### 3.1.2 Credit risk

Credit risk mainly arises from cash and cash equivalents, restricted cash, trade receivables and other receivables. The carrying amount of these balances in the consolidated statement of financial position represents the Group's maximum exposure to credit risk in relation to its financial assets. Management has a credit policy in place and the exposure to these credit risks are monitored on an ongoing basis.

Majority of the Group's bank balances are placed in banks incorporated in the PRC which are reputable listed commercial banks or state-owned bank and listed banks incorporated in Hong Kong. Management does not expect any losses from non-performance by these banks and financial institutions as they have no default history in the past.

In respect of trade receivables and other receivables, periodical credit evaluations are performed taking into account market conditions, the customers' reputation, financial capacity, payment history, and other factors. The Group generally requires customers to settle progress billings in accordance with contracted terms and other debts in accordance with agreements. Normally, the Group does not obtain collateral from customers.

##### 3.1.3 Liquidity risk

To manage the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The Group expects to fund its future cash flow needs through internally generated cash flows from operation and borrowings from financial institutions.

The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

#### 3.2 Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to enhance shareholders' value in the long term.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to the owner, issue new shares or sell assets to reduce debt.

The Group monitors capital on the basis of the net gearing ratio. Net gearing ratio represents the ratio of net debts (total borrowings net of cash and cash equivalents and restricted cash) divided by total equity as of the end of the respective year.

#### 3.4 Fair value estimation

The Group's financial assets and financial liabilities are mainly receivables and payables, respectively, which are carried at amortised cost. The fair values of these financial instruments approximate their carrying amount due to their short maturities.

### 4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

#### (a) Revenue recognition

The Group generates revenue principally through the sales of equipment and provision of technical supporting services in relation to the equipment. Management considered that revenue recognition is critical for these consolidated financial statements because operating profit or loss may be significantly affected by the timing of revenue recognition and the contract sum allocation to sales of equipment and provision of technical services.

Generally, the Group recognises revenue of sales of equipment when control of the products has been transferred to the customers. Technical services comprised mainly technical support, guidance for installation of the equipment and training, which are recognised when the services have been rendered and accepted by customers.

Allocation of contract sum to sales of equipment and provision of technical services is based on their fair value. Determining the fair value of each part of revenue requires management's estimation.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS *(Continued)*

#### (b) Impairment of receivables

The Group records impairment of receivables based on an assessment made by management on the expected credit losses of trade and other receivables. Impairment assessment requires the use of judgement and estimates. Where the expectation is different from the original estimate, such difference will impact both the carrying value of trade and other receivables and the impairment charge in the period in which such estimate has been changed.

#### (c) Income taxes and deferred taxation

The Group is subject to income taxes in the PRC. Judgement is required in determining the provision for income taxes in each of these jurisdictions. There are transactions and calculations during the ordinary course of business for which the ultimate tax determination is uncertain. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred income tax provisions in the period in which such determination is made.

Deferred income tax assets relating to certain temporary differences and tax losses are recognised when management considers it is probable that future taxable profits will be available against which the temporary differences or tax losses can be utilised. When the expectation is different from the original estimate, such differences will impact the recognition of deferred income tax assets and taxation charges in the period in which such estimate is changed.

### 5 SEGMENT INFORMATION

Management has determined the operating segments based on the reports reviewed by the executive directors, who are responsible for allocating resources and assessing performance of the operating segment.

The Group is principally engaged in the provision of smart manufacturing solutions of precision testing and precision machining, which comprises the sales of precision testing equipment and precision machining equipment as well as the provision of technical services. Management reviews the operating results of the business as one segment to make decisions about resources to be allocated. Therefore, the executive directors of the Company regard that there is only one segment which is used to make strategic decisions. Revenue and profit before income tax are the measure reported to the executive directors for the purpose of resources allocation and performance assessment.

All of the Group's revenue was derived in the PRC during the year ended 31 March 2021 (2020: same).

All of the Group's non-current assets were located in the PRC as at 31 March 2021 (31 March 2020: same).

	<b>(3,052)</b>	3,061

- (a) Pursuant to the Corporate Income Tax Law of the PRC (the "CIT Law") and the Implementation Rules of the CIT Law in the PRC, the standard tax rate is 25% for the Group's subsidiaries and operations in the PRC.

On 11 December 2017, Quick Tech Corporation Ltd. ("Quick Tech"), the Group's subsidiary incorporated in the PRC, was awarded the High and New Technology Enterprise which effective for three years commencing on 1 January 2017 and is entitled to preferential income tax rate of 15% for these three years. In 2020, Quick Tech had successfully renewed and granted this preferential tax treatment of 15% for three years. Accordingly, tax rate of 15% has been applied for the current income tax and deferred income tax for the year ended 31 March 2021.

- (b) Hong Kong Cheng Phong Technology Limited ("Hong Kong Cheng Phong"), Bow Chak Industry (HK) Limited ("Bow Chak") and MGW Swans Ltd. ("MGW Swans") are the Group's subsidiaries incorporated in Hong Kong and BVI. However, their principal businesses for the year ended 31 March 2021 were carried out in the PRC (2020: same) and the related income was subject to PRC corporate income tax. Hong Kong Cheng Phong, Bow Chak and MGW Swans were approved by the PRC in-charge tax bureau to pay PRC income tax on a "deemed profit basis", according to which their taxable income was calculated at 15% of revenue for the year ended 31 March 2021 (2020: same).

- (c) The statutory Hong Kong profits tax rate is 16.5%.

For the years ended 31 March 2020 and 2021, Hong Kong Cheng Phong and Bow Chak recorded losses in their financial statements and therefore were not subject to Hong Kong profits tax.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 10 INCOME TAX EXPENSE *(Continued)*

- (d) For Hong Kong incorporated companies, Hong Kong Cheng Phong and Bow Chak are obligated to file their profits tax returns to Hong Kong Inland Revenue Department. In their tax filing for years before 2016, these companies have reported their income as onshore sourced and taxable under Hong Kong profits tax and paid Hong Kong profits tax. However, these companies had also paid the PRC corporate income tax as mentioned in Note (b) above. After reviewing the companies' operations, these companies have reported their income as offshore sourced and not subject to Hong Kong profits tax with effect from year 2017.

During the year, the Hong Kong Inland Revenue Department had issued final assessments for years 2015 and 2016, resulting in a total tax refund of HK\$2,590,000.

- (e) The Company was incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Law of Cayman Islands and accordingly, is exempted from Cayman Islands income tax.

The Company's subsidiaries in BVI were incorporated under the International Business Companies Act of the British Virgin Islands and are exempted from BVI income tax.

### 11 (LOSSES)/EARNINGS PER SHARE

Basic (losses)/earnings per share is calculated by dividing the (losses)/profit attributable to owners of the Company by the weighted average number of ordinary shares in issue during the year.

	Year ended 31 March	
	2021	2020
(Losses)/profit for the year (HK\$'000)	<b>(3,339)</b>	3,138
