Mr. He was also a director of SouthGobi Resources Ltd. (“**SouthGobi**”) which was subject to a cease trade order issued by the British Columbia Securities Commission on June 19, 2020 as a result of SouthGobi’s failure to file (i) annual audited financial statements, annual management’s discussion and analysis, and certification of annual filings for the year ended December 31, 2019; and (ii) interim unaudited financial statements, interim management’s discussion and analysis, and certification of interim filings for the interim period ended March 31, 2020. Director Independence

The Board and the Nominating and Corporate Governance Committee considered the relationships of each of the Director nominees to the Company and determined that four of the nine proposed nominees for election as Directors qualify as INEDs. The Board and the Nominating and Corporate Governance Committee reviewed independence in light of the requirements of NI58-101, Section 311 of the TSX Company Manual in Canada and Rule 3.13 of the Hong Kong Listing Rules. The INED nominees are: Mr. Yingbin Ian He, Mr. Wei Shao, Dr. Bielin Shi and Ms. Ruixia Han. The non-independent Director nominees are: Mr. Liangyou Jiang, Mr. Shiliang Guan, Mr. Weibin Zhang, Ms. Na Tian and Mr. Junhu Tong. The INED nominees have each confirmed their independence accordingly.

Pursuant to the code provision in paragraph A.4.3 of the Corporate Governance Code set out in Appendix 14 to the Hong Kong Listing Rules, any further appointment of INEDs serving more than nine years should be subject to a separate resolution to be approved by Shareholders. Mr. Yingbin Ian He has served on the Board for more than nine years. Mr. Yingbin Ian He has not been involved in the daily management of the Company nor in any relationships or circumstances which would impair their independent judgment. Mr. Yingbin Ian He has consistently demonstrated his ability to provide independent, balanced and objective advice and insight on the Company’s affairs. In addition, the Board is of the opinion that Mr. Yingbin Ian He continues to be independent after reviewing and assessing his annual confirmations of independence based on the criteria set out in Rule 3.13 of the Hong Kong Listing Rules. Accordingly, the Board recommends Mr. Yingbin Ian He for re-election at the AGM.

The INEDs, namely each of Mr. Yingbin Ian He, Mr. Wei Shao, Dr. Bielin Shi and Ms. Ruixia Han, are subject to a separate ordinary resolution to be approved by Shareholders at the AGM. The Board has complied with the Corporate Governance Code Provision E.1.1 with regard to the requirement to propose a separate resolution in respect of each substantially separate issue at any annual general meeting. It is the Company’s practice that separate resolutions were proposed at AGM’s for the re-election of each individual Director nominee whether such Director is an executive Director, a non-

executive Director or an INED. Accordingly, re-election of each individual Director nominee will be voted on individually at the AGM.

In addition, the Audit Committee is currently comprised exclusively of INEDs. Each of the Compensation and Benefits Committee, Nominating and Corporate Governance Committee and Health, Safety and Environmental Committee are currently comprised by a majority of INEDs. If all of the INED nominees proposed by management for election to the Board are elected at the Meeting, it is expected that they will be appointed to each of the Audit Committee, Compensation and Benefits Committee, Nominating and Corporate Governance Committee and Health, Safety and Environmental Committee. The Audit Committee will continue to be comprised exclusively of INEDs with the Compensation and Benefits Committee, Nominating and Corporate Governance Committee and Health, Safety and Environmental Committee comprised by a majority of INEDs.

COMPENSATION AND BENEFITS COMMITTEE

During the year ended December 31, 2020, the Compensation and Benefits Committee comprised Ms. Ruixia Han, Mr. Yingbin Ian He, Mr. Wei Shao, Dr. Bielin Shi and Mr. Weibing Zhang. If the management's nominees set forth herein are elected or re-elected, as applicable at the Meeting, it is expected that the Compensation and Benefits Committee will be composed of a majority of INEDs. For information regarding the responsibilities, powers and operation of the Compensation and Benefits Committee, see "Schedule A – Corporate Governance Disclosure".

Currently none of the Company's executive officers serve as a member of the Compensation and Benefits Committee or the board of directors of any entity that has an executive officer serving as a member of the Compensation and Benefits Committee or Board.

Compensation Discussion and Analysis

Compensation and Benefits Committee and Compensation Philosophy

The Company's executive compensation program is administered by the Compensation and Benefits Committee. Following review and approval by the Compensation and Benefits Committee, decisions relating to executive compensation are reported to and approved by the Board.

The basic philosophy underlying the Company's executive compensation program is that the interests of the Company's executive officers should be aligned as closely as possible with the interests of the Company and its Shareholders as a whole. The Company attempts to bridge its compensation practices with the norms for listed issuers in North America and the norms for Chinese companies. At the same time, the Company recognizes that competition in the mining industry for highly skilled employees is intense and that the levels of compensation offered by the Company must be comparable to those offered by its competitors in order to attract, retain and motivate executive personnel of the highest caliber.

The Compensation and Benefits Committee assess the individual performance of the Company's executive officers and makes recommendations to the Board. Based on these recommendations, the Board makes decisions concerning the nature and scope of compensation to be paid to the Company's executive officers.

Compensation for the Company's senior executive officers has been traditionally determined with regard to the following considerations in approximately equal level of importance:

- (a) the desirability of providing a strong incentive to management to work as a team to achieve the Company's corporate long-term and short-term business development goals;

- (b) the principle that the economic interests of management and those of the Shareholders should be aligned as closely as reasonably possible;
- (c) the competitive environment that exists in the mining industry for the recruitment and retention of qualified personnel and the resulting need to offer levels of executive compensation that are comparable to those offered by the Company's competitors; and
- (d) the development of the Company's business.

The criteria upon which these recommendations are based have reflected the Company's views as to the nature and value of the contributions made by its executive officers to the achievement of the Company's corporate plans and objectives.

The Company's compensation decisions have been largely subjective, based on the Company's compensation philosophy and in particular focusing on retention and available resources.

How the Company makes Compensation Decisions

The Compensation and Benefits Committee reviews levels of cash compensation on an ad hoc basis, and makes recommendations to the Board to adjust cash compensation in light of individual and Company performance, improvements in job proficiency, retention risks, succession requirements and compensation changes in the market. The Compensation and Benefits Committee also reviews the corporate goals and objectives relevant to the compensation of the senior executive officers as needed and at least annually based on recommendations from the Chief Executive Officer and other members of the management team. The Board maintains discretionary authority over all compensation awards.

The Compensation and Benefits Committee makes its determinations as to overall compensation levels on the basis of both available third-party data regarding comparable compensation at similar size companies as well as their own industry experience, hiring and retention needs and other subjective factors. The Compensation and Benefits Committee has not formalized a peer comparator group for purposes of making compensation decisions although the Company's compensation practices compare favorably with other Toronto Stock Exchange and Hong Kong Stock Exchange listed issuers with producing mines. Compensation decisions are not currently made on the basis of the achievement of pre-determined objective benchmarks or goals for the various management positions.

Elements of Total Compensation

The compensation that the Company's Named Executive Officers receive generally consists of base salary and performance bonuses. Base salary comprises the largest component of each Named Executive Officer's compensation. The following summarizes the primary purpose of each element of compensation and its emphasis within overall compensation for the Named Executive Officers:

- (a) Base salary – paid in cash and is a fixed amount of compensation for performing day-to-day responsibilities; and
- (b) Performance bonuses – bonus awards, paid in cash, earned for achieving short-term goals and other objectives based on the corporate, business unit and individual performance.

In making compensation decisions in respect of these reward categories, the Compensation and Benefits Committee considers the cumulative compensation granted to executives as well as internal comparisons amongst executives.

Salary Compensation

Salaries are reviewed upon hiring decisions and then again at least annually. Salary adjustments for the following year are considered based on a variety of factors, including the individual's performance and contributions, improvements in job proficiency, retention risks, succession requirements and compensation changes in the market and available cash resources.

Consistent with the practice established by his predecessors with the support of CNG, since his appointment as Chief Executive Officer of the Company, Mr. Liangyou Jiang has chosen not to receive any compensation, salary or otherwise, from the Company for carrying out the duties of such role.

Bonus Compensation

Executive officers of the Company are eligible for annual incentive compensation in the form of a bonus in cash. Annual incentive awards are based on an assessment of performance of a combination of Company, business unit and individual performance, as well as a consideration of overall compensation targets and market changes. To date, the Company has not implemented a formalized approach to bonuses, although the Company assesses quantitative and qualitative economic measurement criteria to develop a more objective approach to determining annual bonuses.

For the 2020 financial year, the Company did not award any annual incentive bonuses to any Named Executive Officers.

Other Compensation

The Company does not maintain a current stock option plan. For more information, see "Securities Authorized for Issuance under Equity Compensation Plans".

The Company does not maintain a pension plan or other long-term compensation plan.

For the 2020 financial year, the Company did not provide any other material compensation for its Named Executive Officers beyond the salaries disclosed above.

Compensation Governance

For the most recently completed financial year ended December 31, 2020 no fees were billed by any consultant or advisor for services related to determining compensation for any of the Company's Directors and executive officers.

Compensation Risk Management

The Board has considered the implications of the risks associated with the Company's compensation policies and practices. The Board has ultimate oversight of the risks associated with the Company's compensation policies and practices, and carefully reviews the risks associated with the Company's compensation structure. The Company's compensation policies and practices are heavily influenced by those of CNG and other Chinese mining companies. The Company's current compensation structure consists of cash compensation in the form of salary and bonus compensation. The Company does not currently maintain an equity incentive plan nor does it maintain a long-term incentive plan. The Company will adopt a more formalized approach to compensation risk management as its compensation practices evolve. The Company uses the following practices to identify and mitigate compensation policies and practices that could encourage an individual to take inappropriate or excessive risks: (i) the Compensation and Benefits Committee completes an annual review of all forms of compensation provided to the Named Executive Officers, Directors and top paid employees; and (ii) the Board completes an annual review of the Company's compensation philosophy and components.

There are no identified risks arising from the Company's compensation policies and practices that are reasonably likely to have a material adverse effect on the Company.

Financial Instruments

The Company does not have a written policy which restricts its executive officers and Directors from purchasing financial instruments that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the executive officers or Directors.

Long-term Incentive Plan ("LTIP") Awards

The Company does not have a LTIP pursuant to which cash or non-cash compensation intended to serve as an incentive for performance (whereby performance is measured by reference to financial performance or the price of the Company's securities) was paid or distributed to any directors, executive officers or employees during the financial year ended December 31, 2020.

Defined Benefit and Pension Plans

The Company does not presently provide any defined benefit, pension plan or deferred compensation to its Directors, executive officers or employees.

Outstanding share-based awards and option-based awards

There are no outstanding share-based awards and option-based awards held by any of the Named Executive Officers of the Company as of December 31, 2020.

Incentive Plan Awards – value vested or earned during 2020

There are no outstanding incentive plan awards held by any of the Named Executive Officers of the Company as of December 31, 2020.

Termination of Employment, Change in Responsibilities and Employment Contracts

The Company has employment contracts with each of its Named Executive Officers with the exception of Liangyou Jiang, who does not receive any compensation for acting as Chief Executive Officer. Under employment contracts with the Named Executive Officers, the Named Executive Officers may terminate their employment on notice to the Company. In the case of Mr. Jerry Xie, , Mr. Zhongxin (Gerard) Guo and Mr. Huan Cai, one month's notice is required. In the case of Liangyou Jiang, Ms. Luehe Lu, Mr. Shiling Guan, the Company has a strong working relationship with CNG and would terminate employment through that relationship.

Under employment contracts with the Named Executive Officers, the Company may terminate Mr. Jerry Xie's, Mr. Zhongxin (Gerard) Guo's, or Mr. Huan Cai's employment for cause, or without cause upon one month's notice or lump sum payment equivalent. In the event of a change of control of the Company and if the employment contract of Mr. Jerry Xie is terminated within twelve months of such change of control, Mr. Jerry Xie will be entitled to the earlier of either 18 months' salary or when the alternate employment is commenced.

The Company and China Gold Finance entered into the 2021 Financial Services Agreement on May 5, 2021 pursuant to which China Gold Finance agreed to provide the Company with a range of financial services including (a) the Deposit Service, (b) the Lending Services, (c) the Settlement Services and (d) the Other Financial Services, effective until 31 December 2023 from the date of its approval by the

independent Shareholders in the AGM. Upon the 2021 Financial Services Agreement becoming effective, the parties have agreed to terminate the existing deposit service agreement. For further information please see Schedule D to this Information Circular.

Implications under the Hong Kong Listing Rules

As China Gold Finance as the Provider is directly owned by China National Gold and Zhongjin Gold Corporation Limited as to 51% and 49% respectively, and the Provider is a non-wholly-owned subsidiary of China National Gold, which is the ultimate controlling shareholder of the Company, the Provider is a connected person of the Company under Chapter 14A of Hong Kong Listing Rules. Therefore, the transactions contemplated under the 2021 Financial Services Agreement constitute continuing connected transactions of the Company and are subject to reporting, announcement, annual review and Independent Shareholders' approval requirements under Chapter 14A of the Listing Rules.

As one or more applicable percentage ratios (as defined under Rule 14.07 of the Hong Kong Listing Rules) in respect of the transactions contemplated under the 2021 Financial Services Agreement exceed 25% but all of them are below 75%, the transactions contemplated under the 2021 Financial Services Agreement constitute a major transaction for the Company and is subject to reporting, announcement and Independent Shareholders' approval requirements under Chapter 14 of the Hong Kong Listing Rules.

The Lending Services to be provided by China Gold Finance to under the 2021 Financial Services Agreement will constitute financial assistance to be provided by a connected person for the benefit of the Group. As the Lending Services will be provided on normal commercial terms (in particular, (i) the interest rate for such Lending Services shall not be higher than the interest rate payable by the Company for similar loans of equivalent term to other financial institutions, (ii) no security over any assets of the Group will be granted in respect of the Lending Services and (iii) in the event the Company are unable to repay the loan from China Gold Finance, China Gold Finance will not be permitted to offset such outstanding loans with any deposits), the Lending Services are therefore exempt from reporting, announcement and independent Shareholders' approval requirements pursuant to Rule 14A.90 of the Hong Kong Listing Rules.

In addition, as the Percentage Ratios pursuant to the Hong Kong Listing Rules in respect of the provision of the Settlement Services and the Other Financial Services under the 2021 Financial Services Agreement will not exceed 0.1%, therefore the Settlement Services and the Other Financial Services are fully exempt from reporting, announcement and independent Shareholders' approval requirements pursuant to Rule 14A.76(1)(a) of the Hong Kong Listing Rules.

The Company will also disclose the relevant details in the next published annual report of the Company in accordance with the relevant requirements as set out in Rule 14A.71 of the Hong Kong Listing Rules.

The Independent Board Committee comprising all the INEDs was established by the Company to advise the independent Shareholders as to whether the terms of the 2021 Financial Services Agreement and the Deposit Caps are in the ordinary and usual course of business of the Group, on normal commercial terms or better, fair and reasonable and in the interest of the Company and the Shareholders as a whole; and to advise and make recommendations to the Independent Shareholders as to how to vote at the Meeting on the ordinary resolution(s) regarding the 2021 Financial Services Agreement and the Deposit Caps having taken into account, among other things, the advice of TC Capital, as the Independent Financial Adviser to advise the Independent Board Committee and Independent Shareholders in this regard. Accordingly, the Independent Board Committee recommends the Independent Shareholders to vote in favour of the ordinary resolutions in respect of the 2021 Financial Services Agreement and the Deposit Caps at the Meeting.

SCHEDULE A CORPORATE GOVERNANCE DISCLOSURE

NI 58-101 requires the Company to disclose its corporate governance practices with reference to a series of corporate governance practices outlined in National Policy 58-201 – *Corporate Governance Guidelines* that the Canadian Securities Administrators (“CSA”) believe reflect “best practices” standards to which they encourage Canadian public companies to adhere.

1. Board of Directors

- (a) Disclose the identity of directors who are independent.

The Board has reviewed the independence of each director on the basis of the definitions in section 1.4 of National Instrument 52-110 (“**NI 52-110**”), as amended. A director is “independent” if he or she has no direct or indirect material relationship with the Company. A “material relationship” is one that would, or in the view of the Board could, be reasonably expected to interfere with the exercise of a director’s independent judgment. The Board has determined, after reviewing the roles and relationships of each of the nominees proposed by management for election to the Board, that 44% (4 of 9) of such nominees are independent from the Company. The Company has determined that Mr. Yingbin Ian He, Mr. Wei Shao, Dr. Bielin Shi and Ms. Ruixia Han are INEDs and have no material connection to the Company, other than as directors.

- (b) Disclose the identity of directors who are not independent and describe the basis for that determination.

The Board has determined, after reviewing the roles and relationship of each of the nominees proposed by management for election to the Board that 56% (5 of 9) of such nominees are not independent of the Company. The Company has determined that Mr. Liangyou Jiang, Mr. Shiliang Guan, Mr. Weibin Zhang, Ms. Na Tian and Mr. Junhu Tong are not independent of the Company. Liangyou Jiang is not considered independent of the Company because of his senior role as Chairman and Chief Executive Officer of the Company. Mr. Shiliang Guan, Mr. Weibin Zhang, Ms. Na Tian are not considered independent because of their roles as officers of the Company. Mr. Junhu Tong is not considered independent of the Company because of his senior role at China Gold Hong Kong.

- (c) Disclose whether or not a majority of directors are independent. If a majority of directors are not independent, describe what the Board does to facilitate its exercise of independent judgment in carrying out its responsibilities.

As of the Last Practicable Date, four of nine current Board members are INEDs. If each nominee put forward in this Information Circular are elected as directors, Messrs. He, Shao and Shi and Ms. Han, being 44% of the Board, will be considered independent. Although the majority of the director nominees are not independent the Board believes that its current size and composition results in balanced representation among management and non-management directors and enables the INEDs to adequately facilitate the exercise of independent supervision over management. The Company’s Nominating and Corporate Governance Committee is currently composed of a majority of INEDs and one non-executive director and monitors the disclosure of conflicts of interest by the directors and ensures that no director votes on a matter in respect of which he has a material interest. The Company’s Nominating and Corporate Governance Committee will continue to examine the size and composition of the Board and recommend adjustments from time to time to ensure that the Board continues to be of a size that facilitates effective decision-making. The Company has been committed to improving the governance structure as a listed company. The Company previously established the role of “Lead Independent Director”. Mr. Yingbin Ian He was appointed as Lead INED as of November 13, 2018. The role of Lead INED was created to liaise with Chairman and Chief Executive Officer

on behalf of the INEDs and advise the Board on matters where there may be an actual or perceived conflict of interest to ensure the best possible operation of the Board in accordance with the best corporate governance practices

- (d) If a director is presently or in the last three years a director of any other issuer that is a reporting issuer (or the equivalent) in a jurisdiction or a foreign jurisdiction, identify both the director and the other issuer.

Information respecting those entities that are reporting issuers (or the equivalent) in Canada or elsewhere in which any of the nominees for election as directors also act as directors, is disclosed in the table containing information about each nominee in the section of this Information Circular entitled "Director Biographies". Other than as disclosed therein, none of the current or proposed directors act as directors of any entities that are reporting issuers (or the equivalent) in Canada, Hong Kong or elsewhere.

- (e) Disclose whether or not the INEDs hold regularly scheduled meetings at which members of management are not in attendance. If the INEDs hold such meetings, disclose the number of meetings held since the beginning of the issuer's most recently completed financial year. If the INEDs do not hold such meetings, describe what the Board does to facilitate open and candid discussion among its INEDs.

Although the INEDs do not hold regularly scheduled meetings, they may meet without management being present at the request of any director. The frequency of meetings as well as the nature of agenda items changes depending upon the state of the Company's affairs and in light of opportunities or issues that the Company may face. Not all meetings of the INEDs are scheduled, a number of the informal, ad hoc meetings were held and communication among this group occurs on an ongoing basis as needs arise. The Audit Committee is comprised entirely of INEDs and held four (4) meetings in 2020. Each of the other Board committees are comprised by a majority of INEDs and held one (1) meeting of the Compensation and Benefits Committee, two (2) meetings of the Nominating and Corporate Governance Committee, and four (4) meetings of the Health, Safety and Environmental Committee in 2020. The Board may establish special committees from time to time to address transactions where there is a conflict of interest or to review a particular transaction or project. Also, during the most recently completed financial year end the INEDs held an in-camera session after each Board meeting during which session executive and non-executive directors and members of management do not attend.

The Company has established the role of a "Lead Independent Director" in line with best practices for corporate governance where the chair is not an independent director. Mr. Yingbin lan He was appointed Lead Independent Director as of November 13, 2018. The role of Lead Independent Director was created to enhance the Company's corporate governance practices and provide leadership to the INEDs, liaise with Chief Executive Officer on behalf of the INEDs and advise the Board on matters where there may be an actual or perceived conflict of interest such as Chief Executive Officer's performance evaluation to ensure the best possible operation of the Board.

- (f) Disclose whether or not the chair of the Board is an INED. If the Board has a chair or lead director who is an INED, disclose the identity of the independent chair or lead director, and describe his or her role and responsibilities. If the Board has neither a chair that is independent nor a lead director that is independent, describe what the Board does to provide leadership for its independent directors.

On March 29, 2020, the Company announced the appointment of Mr. Liangyou Jiang, the Company's Chief Executive Officer, as Chairman of the Board. Mr. Jiang, as Chairman of the Board, will direct and lead the Company in its future efforts on operation, growth, capital market and corporate governance. In appointing Mr. Jiang as Chairman of the Board considered

applicable corporate governance guidelines applicable to the Company in both Canada and Hong Kong (in particular under National Policy 58-201 – Corporate Governance Guidelines of the Canadian Securities Administrators and the Corporate Governance Code as set forth in Appendix 14 Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited). The Board concluded that it would be appropriate to have a joint Chief Executive Officer and Chairman as the Company previously established the role of a “Lead Independent Director” to ensure that the Board’s agenda will enable it to successfully carry out its duties in line with best practices for corporate governance. Mr. Yingbin Ian He was appointed Lead Independent Director as of November 13, 2018. The role of Lead Independent Director was created to enhance the Company’s corporate governance practices and provide leadership to the INEDs, liaise with the Chief Executive Officer on behalf of the INEDs and advise the Board on matters where there may be an actual or perceived conflict of interest to ensure the best possible operation of the Board in accordance with the best corporate governance practices.

- (g) Disclose the attendance record of each director for all Board meetings held since the beginning of the issuer’s most recently completed financial year.

The following table discloses the attendance record of each director at meetings of the Board for which that director was eligible to attend during the financial year ended December 31, 2020:

The Board expects management to efficiently implement its strategic plans for the Company, to keep the Board fully apprised of its progress in doing so and to be fully accountable to the Board in respect to all matters for which it has been assigned responsibility.

The Board has instructed management to maintain procedures to monitor and promptly address shareholder concerns and has directed and will continue to direct management to apprise the Board of any major concerns expressed by Shareholders.

Each Committee of the Board is empowered to engage external advisors as it sees fit. Any individual director is entitled to engage an outsider advisor at the expense of the Company provided such director has obtained the approval of the Nominating and Corporate Governance Committee to do so.

The roles of Chairman, Chief Executive Officer and Lead Director (if any) will be as set forth in position statements as may be established by the Board from time to time.

This mandate will be reviewed periodically by the Board and supplemented as required from time to time.

For more information on the Compensation and Benefits Committee see "*Compensation Discussion and Analysis*".

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee is responsible for making recommendations to the Board with respect to developments in the area of corporate governance and the practices of the Board. The Nominating and Corporate Governance Committee has expressly assumed responsibility for developing the Company's approach to governance issues. The Nominating and Corporate Governance Committee is also responsible for reporting to the Board with respect to appropriate candidates for nomination to the Board, and for overseeing the execution of an assessment process appropriate for the Board and its committees to evaluate the performance and effectiveness of the Board.

When identifying candidates for election or appointment to the Board, the Nominating and Corporate Governance Committee is guided by the principles of its diversity policy adopted by the Company in 2014, setting out the diversity criteria representing genders, age, cultural communities and geographic areas. The Company recognizes and embraces the benefits of diversity of Board members. The Nominating and Corporate Governance Committee works hard to ensure that the Board has a balance of skills, experience and diversity of perspectives appropriate to the requirements of the Company's business. All Board appointments will continue to be made on a merit basis with due regard for the benefits of diversity of the Board members. Selection of candidates will be based on a range of diversity perspectives, including, but not limited to, (i) business experience; (ii) specialized skills and other experiences; (iii) race, ethnicity, international background, gender and age; (iv) applicable regulatory requirements; and (v) issues involving possible conflicts of interest. The ultimate decision will be made upon the merits and contribution that the selected candidates will bring to the Board.

No measurable objectives for achieving diversity were specifically set by the Nominating and Corporate Governance Committee at this time, other than the recruitment of the most suitable candidate for a position.

The Nominating and Corporate Governance Committee adopted a Majority Voting Policy for the election of the directors pursuant to the TSX requirements of listed companies. The policy states that should a director nominee not receive more than 50% of the votes cast in favour of his or her appointment, the director nominee is compelled to resign.

The members of the Nominating and Corporate Governance Committee are Mr. Wei Shao, Mr. Yingbin Ian He, Dr. Bielin Shi, Ms. Ruixia Han and Mr. Junhu Tong. Mr. Wei Shao serves as Chairman of the Nominating and Corporate Governance Committee. If the management's nominees set forth herein are elected or re-elected, as applicable at the Meeting, it is expected that the Nominating and Corporate Governance Committee will be comprised by a majority of INEDs.

Health, Safety and Environmental Committee

The Health, Safety and Environmental Committee is responsible for assisting the Board in its oversight responsibilities relating to the development, implementation and evaluation by management of the Company's health, safety and environmental objectives and social responsibility programs and for monitoring compliance with applicable health, safety and environmental laws and regulations.

The members of the Health, Safety and Environmental Committee are Dr. Bielin Shi, Mr. Yingbin Ian He, Mr. Wei Shao, Ms. Ruixia Han and Mr. Shiliang Guan. Dr. Bielin Shi serves as Chairman of the Health, Safety and Environmental Committee. If the management's nominees set forth herein are elected or re-elected, as applicable at the Meeting, it is expected that the Health, Safety and Environment Committee will be comprised by a majority of INEDs.

Special Committee

The Company establishes special committees from time to time to assist the Board with potential acquisition transactions and related party transactions. All special committees are comprised solely of INEDs. Specific mandates for special committees are approved by the Board at the time of establishment.

9. Assessments

Disclose whether or not the Board, its committees and individual directors are regularly assessed with respect to their effectiveness and contribution. If assessments are regularly conducted, describe the process used for the assessments. If assessments are not regularly conducted, describe how the Board satisfies itself that the Board, its committees, and its individual directors are performing effectively.

The Nominating and Corporate Governance Committee of the Board is responsible for overseeing the assessment process for the Board and its committees on an ongoing-basis. It has developed and is continuing to refine an assessment process for the Board and each of its committees.

In order to facilitate the ongoing assessment of the effectiveness of the Board and its committees, each director is required, at least annually, to assess the members of the Board and each committee of which he is member.

The Nominating and Corporate Governance Committee has initiated a process whereby it reviews and approves a Board effectiveness survey that is forwarded to the members of the Board on an annual basis. The survey covers a wide range of issues and allows for comments and suggestions.

10. Director Term Limits and Other Mechanisms of Board Renewal

Directors can be re-elected to the Board annually. The Board has not adopted a term limit for directors or established a retirement age for directors. The Company believes that the imposition of director term limits implicitly discounts the value of experience and continuity on the Board and runs the risk of excluding effective Board members who have longstanding knowledge of the Company and its operations as a result of an arbitrary determination. The Board believes that it can achieve the right balance between continuity and encouraging turnover and independence without mandated term limits and relies on its annual director assessment procedures in this regard.

11. Policies Regarding the Representation of Women on the Board

- (a) Disclose whether the issuer has adopted a written policy relating to the identification and nomination of women directors. If the issuer has not adopted such a policy, disclose why it has not done so.

The Company has adopted a diversity policy which includes consideration of women in the selection criteria of the new Board members

(b) If an issuer has adopted a policy referred to in (a), disclose the following in respect of the policy:

(i) a short summary of its objectives and key provisions:

The objective of the diversity policy is to enhance diversity within the Company, including gender diversity on its Board and executive management.

In 2014, the Nominating and Corporate Governance Committee adopted a diversity policy setting out the approach to diversity of members of the Board. The Company recognizes and embraces the benefits of diversity of Board members. The Nominating and Corporate Governance Committee works hard to ensure that the Board has a balance of skills, experience and diversity of perspectives appropriate to the requirements of the Company's business. All Board appointments will continue to be made on a merit basis with due regard for the benefits of diversity of the Board members. Selection of candidates will be based on a range of diversity perspectives, including, but not limited to, (i) business experience; (ii) specialized skills and other experiences; (iii) race, ethnicity, international background, gender and age; (iv) applicable regulatory requirements; and (v) issues involving possible conflicts of interest. The ultimate decision will be made upon the merits and contribution that the selected candidates will bring to the Board;

(ii) the measures taken to ensure that the policy has been effectively implemented;

(iii) annual and cumulative progress by the issuer in achieving the objectives of the policy; and

(iv) whether and, if so, how the Board or its nominating committee measures the effectiveness of the policy.

The Nominating and Corporate Governance Committee considers a number of factors including diversity perspectives and merits in its nomination process. Ms. Ruixia Han was appointed as a Director on June 25, 2019 and Ms. Na Tian was appointed as a Director in June 16, 2020. At this time, there are no measurable objectives for achieving diversity. As Board positions become available, Board appointments will continue to be based on merit, having due regard to the overall effectiveness of the Board and diversity will be one of the criteria considered in determining the optimum composition of the Board.

12. Consideration of the Representation of Women in the Director Identification and Selection Process

Disclose whether and, if so, how the Board or nominating committee considers the level of representation of women on the Board in identifying and nominating candidates for election or re-election to the Board. If the issuer does not consider the level of representation of women on the Board in identifying and nominating candidates for election or re-election to the Board, disclose the issuer's reasons for not doing so.

In accordance with the Board Diversity Policy, Ms. Ruixia Han joined the Board on June 25, 2019. Ms. Han brings experience in financial investment, accounting, finance treasury and investor relationships. Disclose whether and, if so, how the issuer considers the level of representation of women in executive officer positions when making executive officer appointments. If the issuer does not consider the level of representation of women in executive officer positions when making executive officer appointments, disclose the issuer's reasons for not doing so.

In accordance with its Diversity Policy, the Company considers diversity, including gender diversity, in the selection criteria of new executive officer appointments.

14. Issuer's Targets Regarding the Representation of Women on the Board and in Executive Officer Positions

- (a) For purposes of this item, a "target" means a number or percentage, or a range of numbers or percentages, adopted by the issuer of women on the issuer's board or in executive officer positions of the issuer by a specific date.

In accordance with its Diversity Policy, the Company has not adopted a target or quota regarding women on its Board or executive management, as it considers gender diversity to be part of a broader diversity goal which includes age, gender, ethnicity, cultural background, disability or other personal factors. Diversity, including gender diversity, is one aspect of merit which includes an individual's skills, performance, values, leadership and other job-related criteria. While the Board is not setting any targets initially, it will monitor progress and could decide to do so in the future if progress is not being made in obtaining appropriate diversity.

- (b) Disclose whether the issuer has adopted a target regarding women on the issuer's board. If the issuer has not adopted a target, disclose why it has not done so.

- (d) If the issuer has adopted a target referred to in either (b) or (c), disclose:

SCHEDULE B SHARE REPURCHASE MANDATE

This Schedule serves as an explanatory statement, as required by the Hong Kong Listing Rules, to provide all the information reasonably necessary to enable Shareholders to make an informed decision on whether to vote for or against the ordinary resolution to approve the Share Repurchase Mandate.

HONG KONG LISTING RULES RELATING TO THE REPURCHASE OF SHARES

The Hong Kong Listing Rules permit companies whose primary listing is on the Hong Kong Stock Exchange to repurchase their shares on the Hong Kong Stock Exchange, Toronto Stock Exchange or other stock exchange subject to certain restrictions. The Company is empowered by its Articles to repurchase its own shares.

SHARE CAPITAL

As of the Latest Practicable Date, the issued and outstanding share capital of the Company comprised **396,413,753** fully paid up Shares. Subject to the passing of the proposed resolution for the approval of the Share Purchase Mandate and in accordance with the terms therein, and on the basis that no further Shares will be issued or repurchased prior to the Meeting, the Company will be allowed to repurchase up to a maximum of **39,641,375** Shares under the Share Repurchase Mandate, representing **10%** of the number of issued Shares of the Company as of the Latest Practicable Date.

REASONS FOR THE REPURCHASES

The Board believes that the flexibility afforded to them by the Share Repurchase Mandate would be in the best interests of the Company and the Shareholders. Repurchases pursuant to such mandate may, depending on market conditions and funding arrangements at the time, lead to an enhancement of the net assets and/or the earnings per share and will only be made when the Board believes that such actions will benefit the Company and the Shareholders as a whole. Notwithstanding the foregoing, any repurchase of the Company's securities as contemplated in the Share Repurchase Mandate will still require compliance with Canadian securities laws and, the rules and regulations of the Toronto Stock Exchange and the Hong Kong Listing Rules.

FUNDING OF REPURCHASES

In repurchasing Shares, the Company may only apply funds legally available for such purpose in accordance with its Articles and the *Business Corporations Act* (British Columbia). It is expected that the Company will fund any repurchase of Shares from its available internal resources.

Pursuant to the *Business Corporations Act* (British Columbia), a company may not redeem or repurchase any of its share capital if it is insolvent at the time of such redemption or repurchase or, if by virtue of such redemption or repurchase, would become insolvent.

IMPACT ON THE WORKING CAPITAL OR GEARING POSITION

If the Share Repurchase Mandate is exercised in full at any time during the Relevant Period, there may be a material adverse effect on the working capital requirements of the Company or its gearing levels, as compared with the position disclosed in the Company's audited financial statements for the year ended December 31, 2020 (the most recent published audited financial statements). However, the Board does not propose to exercise such mandate to such extent as would, in the circumstances, have a material adverse effect on the working capital requirements or the gearing levels of the Company at the time of the relevant repurchases unless the Board determines that such repurchases are, taking into account of all relevant factors, in the best interests of the Company.

SHARE PRICES

The highest and lowest prices at which the Shares have been traded on the Hong Kong Stock Exchange during each of the following months preceding the issue of this Information Circular were as follows:

	Per Share	
	Highest HK\$	Lowest HK\$
2020		
May	4.19	3.28
June	4.84	3.22
July	8.9	4.12
August	11.4	7.12
September	11.9	8.51
October	10.6	8.51
November	13	9.43
December	12.6	10.8
2021		
January	16.78	10.84
February	26.3	15.62
March	25.4	17.54
April	24.9	19.82
May (up to the Latest Practicable Date)		

EFFECT OF THE CODE OF TAKEOVERS AND MERGERS OF HONG KONG (“TAKEOVERS CODE”)

A Shareholder’s proportionate interest in the voting rights of the Company will increase upon the Company’s exercise of its powers to repurchase the Shares pursuant to the Share Repurchase Mandate, and such increase will be treated as an acquisition for the purposes of Rule 32 of the Takeovers Code. As a result, a Shareholder or a group of Shareholders acting in concert, depending on the level of increase in his/her or their shareholding interest, could obtain or consolidate control of the Company and become obliged to make a mandatory offer in accordance with Rule 26 of the Takeovers Code.

As of the Latest Practicable Date, CNG, through its wholly owned subsidiary, CNGGHK, held **158,588,330** Shares, representing **40.01%** of the issued Shares of the Company. On the basis that no further Shares are issued or repurchased prior to the Meeting and in the event that the Board exercises in full the power to repurchase Shares pursuant to the Share Repurchase Mandate, the shareholding interest held by CNG (through CNGGHK) would be increased to approximately **44.45%** of the issued share capital of the Company. Such increase would give rise to an obligation to make a mandatory offer under Rule 26 of the Takeovers Code. In such an event, the Board will take all steps necessary to comply with the Hong Kong Listing Rules and Takeovers Code.

In addition, assuming that there is no issue of Shares between the Latest Practicable Date and the date of repurchase, an exercise of the Share Repurchase Mandate whether in whole or in part will not result in less than 25% of the issued share capital of the Company being held by the public, being the prescribed minimum percentage of shares required under the Hong Kong Listing Rules. The Board has no intention to exercise the Share Repurchase Mandate to the extent that it may result in a public shareholding of less than the prescribed minimum percentage under the Hong Kong Listing Rules.

DIRECTORS, THEIR CLOSE ASSOCIATES AND CONNECTED PERSONS

None of the Directors nor, to the best of their knowledge having made all reasonable enquiries, any of their respective close associates (as defined in the Hong Kong Listing Rules), has any present intention

to sell Shares to the Company in the event that the Share Repurchase Mandate is approved by the Shareholders.

The Company has not been notified by any core connected person (as defined in the Hong Kong Listing Rules) of the Company that he has a present intention to sell Shares to the Company or has undertaken not to sell Shares held by him to the Company in the event that the Share Repurchase Mandate is approved by the Shareholders.

UNDERTAKING OF DIRECTORS

The Directors have undertaken to the Hong Kong Stock Exchange that they will exercise the power of the Company to make repurchases pursuant to the Share Repurchase Mandate in accordance with the Hong Kong Listing Rules, Canadian laws and the Articles of the Company.

SHARE PURCHASE MADE BY THE COMPANY

The Company has not purchased any of its Shares whether on the Hong Kong Stock Exchange or otherwise in the six months preceding the Latest Practicable Date.

The purpose of this Information Circular is to provide you with information necessary to enable you to make an informed decision on whether to vote for or against the ordinary resolutions to be proposed at the Meeting relating to the approval of the 2021 Financial Services Agreement (including the Deposit Cap).

Unless the context requires otherwise, terms and expressions defined in the accompanying Information Circular to the Shareholders dated May 31, 2021 shall have the same meanings in this letter.

CONTINUING CONNECTED TRANSACTION AND MAJOR TRANSACTION

2021 Financial Services Agreement

On May 5, 2021, the Company entered into the 2021 Financial Services Agreement with China Gold Finance, pursuant to which China Gold Finance agreed to provide the Company with a range of financial services including (a) the Deposit Services, (b) the Lending Services, (c) the Settlement Services and (d) the Other Financial Services (each as defined below), effective until 31 December, 2023 from the date of the approval of the Continuing Connected Transaction by the Independent Shareholders at the Meeting. Upon the 2021 Financial Services Agreement becoming effective, the parties have agreed to terminate the Deposit Services Agreement. The 2021 Financial Services Agreement will supersede the Deposit Services Agreement and constitute a revision of annual cap for the Deposit Services.

A. Key terms of the 2021 Financial Services Agreement

Date: May 5, 2021

Parties: (a) the Company (as the Recipient); and
(b) China Gold Finance (as the Provider)

Subject Matter: The Provider agreed to provide the Deposit Services, the Lending Services, the Settlement Services and the Other Financial Services to the Recipient and/or its subsidiaries within the PRC

Term: Until December 31, 2023 from the date of the approval of the Continuing Connected Transaction by the Independent Shareholders at the Meeting

Description of financial services provided: The Provider will provide a range of financial services as set out in detail below:
Deposit Services

The Provider will accept deposits from the Recipient, up to a maximum amount of daily deposit balance (including accumulative settlement interest) not exceeding RMB3,000 million during the term of the 2021 Financial Services Agreement (the "Deposit Services").

Pricing and basis of determining pricing:

Lending Services

The Provider will provide lending services, such as loans, bill acceptances, bill discounts, entrustment loans, guarantees and financing leases to the Recipient. The Recipient will not grant any security over its assets for the Lending Services in the event it is unable to repay any loans under the Lending Services and the Provider will not be permitted to offset such outstanding loans with any deposits received from the Recipient under the Deposit Services (the “**Lending Services**”).

Settlement Services

The Provider will provide settlement services such as collection, payment, or internal settlement services (the “**Settlement Services**”).

Other Financial Services

The Provider will provide financial and financing advisory services, credit certification and related consultation and agency services and other services approved by the CBRC (which has merged with the CIRC to form the CBIRC in April 2018) (the “**Other Financial Services**”).

Pricing of each type of service under the 2021 Financial Services Agreement are determined as follows:

Deposit Services

The interest rates payable by the Provider to the Recipient for the Deposit Services shall not be lower than (a) the benchmark deposit rates prescribed by the PBC and (b) deposit rates payable by the Major PRC Commercial Banks.

Lending Services

The interest rates payable by the Recipient to the Provider for the Lending Services shall not be higher than (a) the benchmark lending rates prescribed by the PBC and (b) the lending rates offered by the Major PRC Commercial Banks.

Settlement Services

The Provider will provide settlement services for a fee which shall not be higher than the fees publicly quoted by the Major PRC Commercial Banks for the same type of services.

Other Financial Services

The Provider will provide the Other Financial Services at a fee equal to the lower of (i) the fees publicly quoted by the Major PRC Commercial Banks and (ii) the pricing standard set by the PBC, the CBIRC or other applicable regulatory authorities’ benchmark for the same type of services.

B. The Deposit Caps

In respect of the Deposit Services under the 2021 Financial Services Agreement, the daily balance of the deposits (including any interest accrued therefrom) for the period from the date of approval of the 2021 Financial Services Agreement in the Meeting to 31 December 2023 shall not exceed RMB3,000 million (the “**Deposit Caps**”).

The Deposit Caps have been determined after taken into account of (i) the latest cash and current assets position of the Group and (ii) the potential improvement in the financial performance of the Group in the future due to the expected increase in the price of copper and gold in the upcoming years, and hence the corresponding potential increase in its overall cash balance and its potential deposit balance in the Provider.

According to the first quarter result of the Company for the three months ended 31 March 2021, the Group had bank balances and cash of approximately USD324 million (equivalent to approximately RMB2,106 million) as at 31 March 2021 as well as other current assets such as (i) restricted bank balances, (ii) trade, bills and other receivables, (iii) prepaid expenses and deposits and (iv) inventories of a total of approximately USD317 million (equivalent to approximately RMB2,061 million) as at 31 March 2021 which are liquid in nature and could be turned into cash within a short period of time. Therefore the Group's maximum potential deposits in China Gold Finance could be as high as approximately RMB4,167 million at a given time, and the Deposit Caps represented approximately 72% of the Group's maximum potential deposits as at 31 March 2021.

As at the Latest Practicable Date, the actual daily maximum balance of the Deposit Services since 1 January was RMB179,441,889.24.

The main criteria adopted by the Company in determining the cash amount to be deposited with China Gold Finance is the Group's operational needs. The Company will deposit cash which is beyond the immediate operational needs of the Group with China Gold Finance to earn a higher income for the cash which is temporarily not in use by the Group. Taken into account the metal prices and production profile of the Group, the expected utilization of the Deposit Cap is around 75% of the Deposit Cap (approximately RMB2,500 million) with a buffer of around 15% of the Deposit Cap (RMB 500 million).

C. Reasons for and benefits of entering into the 2021 Financial Services Agreement

The reasons for and benefits of the 2021 Financial Services Agreement mainly include:

- a) China Gold Finance is regulated by the CBIRC and must adhere to the relevant rules, regulations and measures formulated and promulgated thereunder and other applicable PRC laws and regulations issued by the central government or local governments at the provincial, autonomous regional and municipal levels of the PRC from time to time, including the regulations regarding capital risks.
- b) In addition, capital risks will be reduced through the introduction of the risk control measures stipulated in the 2021 Financial Services Agreement. The 2021 Financial Services Agreement provides that according to the Administrative Measures for Financial Companies of Enterprise Groups and the Articles of Association of China National Gold Group Finance Company Limited, China National Gold has undertaken to CBIRC in writing that it shall bear the responsibility of increasing capital for its finance companies in emergency situations such as payment difficulties.
- c) Pursuant to the relevant regulations of the CBIRC, the customers of China Gold Finance are limited to entities affiliated with China National Gold and its subsidiaries, thereby reducing the risks that China Gold Finance may otherwise be exposed to if its customers include other entities unrelated to China National Gold.
- d) Pursuant to the 2021 Financial Services Agreement, China National Gold has undertaken to the CBIRC that it will increase the capital of China Gold Finance in case China Gold Finance has difficulty in payment. China National Gold is a state-owned enterprise established in the PRC with registered capital of RMB6,500 million. According to its audited financial statements for the year ended 31 December 2020, China National Gold recorded net assets of approximately RMB44,378 million and cash and cash equivalent amounted to RMB13,582 million as at 31 December 2020, which is approximately 1379% and 353% more than the Deposit Caps, respectively.
- e) By depositing majority of the cash that is temporarily not in use by the Group, the Group can earn a higher interest income and can thereby maximize the interest income received by the Group and maximize the Shareholders' value at the same time.
- f) The increase in the Deposit Caps is in line with and proportionate to the Company's expected increase in cash inflow over the term of the 2021 Financial Services Agreement. Based on the first quarter results of the Company for the three months ended 31 March 2021 as disclosed in the overseas regulatory announcement published by the Company on 14 May 2021, the business scale of the Company has shown significant increase in comparison with the same period in 2020. For

the first quarter of 2021, the revenue increased by 83% to US\$272.1 million from US\$148.6 million for the same period in 2020; the net income was US\$57.0 million, which is an increase of US\$65.7 million, from a net loss of US\$8.7 million for the same period in 2020; the cash flow from operations increased by 964% to US\$170.2 million from US\$16.0 million for the same period in 2020. Cash and cash equivalents reached US\$323.7 million as of 31 March 2021 from US\$243.3 million for the same period in 2020. Due to the expected stable operation and further potential growth of the business scale of the Group, in particular the robust trends of gold and copper price in upcoming years, the production profiles and life cycles of the Jiama Mine and the CSH Mine, and potential international mining acquisition opportunities in relation to projects outside of China with CNG and other interested parties as disclosed under the 'Management's Discussion and Analysis – Outlook' section of the Company's annual report for the year ended 31 December 2020, it is expected that there will be an increase in future cash inflow and outflow of the Group and a need for a higher daily deposit cap by the Group with China Gold Finance.

- g) China Gold Finance is required under the terms of the 2021 Financial Services Agreement to provide financial services at terms that are not inferior to the terms for the same type of services provided by the major domestic commercial banks and by China Gold Finance to China National Gold and its subsidiaries. The rates on loans, guarantees and deposits to be offered by China Gold Finance to the Recipient will be equal to or more favourable than those offered by major domestic commercial banks in the PRC.
- h) The fees for the Settlement Services and Other Financial Services provided by China Gold Finance will not be higher than the fees publicly quoted by the Major PRC Commercial Banks for the same type of services.
- i) The Recipients are expected to benefit from the China Gold Finance's better understanding of the operations of the Recipients which will allow more expedient and efficient services than those rendered by other major domestic commercial banks.
- j) The terms under the 2021 Financial Services Agreement are fair, reasonable, favourable and beneficial to the Company and the Shareholders.
- k) China Gold Finance has obtained approval for establishment from the CBRC in 2015 and is subject to continuing obligations in compliance with the requirements of the CBIRC. China Gold Finance has been in compliance with the with the requirements of the CBRC and CBIRC since 2015. China Gold Finance has provided the Company with a legal opinion from its PRC counsel that all remaining licenses and approvals should be obtained in the ordinary course without delay, which provides the Company with additional comfort on the timing of the effective date of the 2021 Financial Services Agreement.
- l) the 2021 Financial Services Agreement will not cause significant negative financial impact to the Company.

D. Internal Control Measures

In order to secure the Independent Shareholders' interests and ensure compliance with the terms of the 2021 Financial Services Agreement and the transactions contemplated thereunder and the Deposit Caps, the Company has adopted the following internal control measures:

- a) the Company will obtain quotations from each of the Major PRC Commercial Banks for the same services it will request from the Provider before it conducts business with the Provider. These quotations together with the quotation of the Provider will be submitted to the financial controller of the Company for review and to decide whether or not to accept the quotation of the Provider;
- b) the Company has established a continuing connected transaction working group, which consists members from divisions of accounting and regulatory compliance, led by interim CFO Yuehe Lu, to review and obtain approval from INEDs in respect of all the continuing connected transactions and monitor on a monthly and quarterly basis the reconciliation to the Deposit Caps. The working group will also monitor the daily balances for the Deposit Services to ensure that such amounts are within the Deposit Caps. Each deposit will be reviewed by the responsible person to make sure it does not exceed the Deposit Caps before the deposit is made. The Provider is also asked to provide the daily balance under the deposit account to the Company for tracking; and
- c) the Company's auditors will review the transactions completed under the 2021 Financial Services Agreement and the Deposit Caps and report to the INEDs.

REGULATORY MATTERS

Canadian Securities Laws

Pursuant to Multilateral Instrument 61-101 – Protection of Minority Security Holders in Special Transactions (“**MI 61-101**”), the Continuing Connected Transaction are considered “related party transactions” because CNGGHK has direct ownership and control over the securities of the Company carrying more than 10% of the voting rights attached to all of Company's outstanding voting securities. The Continuing Connected Transaction is therefore a “related party transaction” pursuant to MI 61-101.

MI 61-101 provides that an issuer shall not carry out a related party transaction unless the issuer has obtained the approval of the shareholders excluding the shareholder who is an “interested party” or a related party of an interested party in accordance with MI 61-101. In accordance with the foregoing requirements, the Company seeks Independent Shareholders' approval in connection with the Continuing Connected Transaction. MI 61-101 also prescribes certain valuation requirements for related party transactions which are not applicable to the Continuing Connected Transaction.

The Hong Kong Listing Rules

As China Gold Finance is respectively 51% and 49% directly owned by China National Gold and Zhongjin Gold Corporation Limited, which is a non-wholly-owned subsidiary of China National Gold, which is the ultimate controlling shareholder of the Company, China Gold Finance is a connected person of the Company under Chapter 14A of Hong Kong Listing Rules. Therefore, the transactions contemplated under the 2021 Financial Services Agreement constitute continuing connected transactions of the Company under Chapter 14A of the Listing Rules.

As one or more applicable percentage ratios (as defined under Rule 14.07 of the Hong Kong Listing Rules) in respect of Deposit Services under the 2021 Financial Services Agreement exceed 25% but all of them are below 75%, the Deposit Services constitute a major transaction for the Company and is subject to reporting, announcement and Independent Shareholders' approval requirements under Chapter 14 and Chapter 14A of the Hong Kong Listing Rules.

The Lending Services to be provided by China Gold Finance under the 2021 Financial Services Agreement will constitute financial assistance to be provided by a connected person for the benefit of the Group. As the Lending Services will be provided on normal commercial terms (in particular, (i) the interest rate payable by the Group to China Gold Finance for the Lending Services shall not be higher than (a) the benchmark lending rates prescribed by the PBC and (b) the lending rates offered by the Major PRC Commercial Banks, (ii) no security over any assets of the Group will be granted in respect of the Lending Services and (iii) in the event the Company are unable to repay the loan from China Gold Finance, China Gold Finance will not be permitted to offset such outstanding loans with any deposits), the Lending Services are therefore exempt from reporting, announcement and Independent Shareholders' approval requirements pursuant to Rule 14A.90 of the Hong Kong Listing Rules.

In addition, as the percentage ratios (as defined under Rule 14.07 of the Hong Kong Listing Rules) in respect of the provision of the Settlement Services and the Other Financial Services under the 2021 Financial Services Agreement will not exceed 0.1%, therefore the Settlement Services and the Other Financial Services are fully exempt from reporting, announcement and Independent Shareholders' approval requirements pursuant to Rule 14A.76(1)(a) of the Hong Kong Listing Rules.

The Company will also disclose the relevant details in the next published annual report of the Company in accordance with the relevant requirements as set out in Rule 14A.71 of the Hong Kong Listing Rules.

Each of Mr. Liangyou Jiang (Chairman, chief executive officer and executive Director), Mr. Shiliang Guan, Mr. Weibin Zhang, Ms. Na Tian (executive Directors) and Mr. Junhu Tong (non-executive Director) are considered to have a material interest in the Continuing Connected Transaction by virtue of their being officers or affiliates of CNG. All of them abstained from voting on the relevant resolutions at the Board meeting to approve the Continuing Connected Transaction. All the remaining Directors have confirmed at such Board meeting that they have no material interest in the Continuing Connected Transaction.

FINANCIAL EFFECTS OF THE CONTINUING CONNECTED TRANSACTION

The Company does not anticipate that the Continuing Connected Transaction will have any material financial effects. The Directors consider that the Continuing Connected Transaction constitutes transactions in the ordinary and usual course of business of the Group and will not have a significant impact on the financial results of the Company that is different from the financial effects the Company has realized in the past.

IMPACT ON THE GEARING POSITION

The Directors (including the INEDs) do not expect that the entering into of the Continuing Connected Transaction would have any adverse financial impact on the earnings, assets and liabilities or the gearing levels of the Group, as compared with the position disclosed in the Company's audited financial statements for the year ended December 31, 2020 (the most recent published audited financial statements).

In our capacity as the Independent Financial Adviser to the Independent Board Committee and the independent Shareholders, our role is to provide the Independent Board Committee and the independent Shareholders with an independent opinion and recommendation in this regard.

Basis of our opinion

As at the Latest Practicable Date, we were independent from and not connected with the Group pursuant to Rule 13.84 of the Listing Rules. In addition to the appointment as the Independent Financial Adviser, TC Capital International Limited in the last two years was appointed by the Company as the independent financial adviser on (i) 12 February 2020, in respect of the continuing connected transaction as set out in the circular of the Company to the Shareholders dated on 26 May 2020 and (ii) 31 October 2019, a potential connected transaction. Apart from the normal advisory fee payable to us in connection with our appointment as the Independent Financial Adviser, no arrangement exists whereby we shall receive any other fees or benefits from the Company.

In formulating our opinion and recommendation to the Independent Board Committee and the Independent Shareholders, we have considered and reviewed, among other things, (i) the 2021 Financial Services Agreement; (ii) the annual reports of the Company for the year ended 31 December 2020 (the "**2020 Annual Report**"); (iii) the management's discussion and analysis of financial condition and results of operations of the Company for three months ended 31 March 2021 (the "**2021Q1 Result**") and (iv) other information as set out in the Circular. We have also relied on the statements, information, opinions and representations contained or referred to in the Circular and the information and representations as provided to us by the Directors and the senior management of the Company. We have assumed that all statements of belief, opinion, expectation and intention made by the Directors in the Circular were reasonably made after due enquiry and careful consideration. We have no reason to doubt that any material facts or information have been withheld or to doubt the truth, accuracy and completeness of the information and representations provided to us by the Company and contained in the Circular, which would make any statement therein misleading.

We consider that we have been provided with sufficient information to reach an informed view and to provide a reasonable basis for our opinion. We have not, however, conducted any independent investigation into the business, affairs operations, financial position or future prospects of each of the Company and China National Gold, and any of their respective subsidiaries and/or associates.

PRINCIPAL FACTORS AND REASONS CONSIDERED

In arriving at our recommendation in respect to the Deposit Service, we have taken into consideration the following principal factors and reasons:

I. Background of and reasons considered for the entering into of the Deposit Service

a. General backgrounds of the parties involved

The Company

The Company is a gold and base metal mining company registered in British Columbia Canada and principally engaged in operation, acquisition, development and exploration of gold and base metal properties. The Company's principal mining operations are the Chang Shan Hao Gold Mine (the "**CSH Mine**"), located in Inner Mongolia, China and the Jiama Copper-Gold Polymetallic Mine (the "**Jiama Mine**"), located in Tibet, China.

China Gold Finance

China Gold Finance is principally engaged in the provision of financial services including (i) the provision of consultation services relating to financial affairs and financing to the members of China National Gold (the "**Member Companies**"), credit evaluation and related consultation and agency business; (ii) the provision of assistance to the Member Companies in the receipt and payment of transaction money; (iii) the provision of guarantee to the Member Companies; (iv) the provision of entrusted loans and entrusted investments among the Member Companies; (v) handling the bill acceptance and discount for the Member Companies; (vi) handling the internal transfer and settlement of funds among the Member Companies and formulation of liquidation plan; (vii) the provision of deposit service to the Member Companies; (viii) the provision of loan and financing lease to the Member Companies; and (ix) the engagement in short term financing among financial institutions.

As discussed with the management of the Company, we understood that given the strong background of China Gold Finance, the Group assumes the risk in conducting business with China Gold Finance shall not be greater than that of other commercial banks in the PRC. In particular, according to the management of the Company, China Gold Finance is subject to the supervision of the CBRC and it has to provide its services in accordance with the rules and operational requirements of the CBRC such as the Measures for the Administration of Finance Companies of Enterprise Groups (企業集團財務公司管理辦法) (the "**Measures**"). We have reviewed the Measures issued by the CBRC on 27 July 2004 (as amended on 28 December 2006). According to the Measures, China Gold Finance will be required to file audited financial statements to CBRC and other operational and financial materials as required by CBRC. China Gold Finance will also be required to comply with various ratios in respect of its assets and liabilities, including, among others, the capital adequacy ratio, the ratio of borrowings to total capital and the ratio of guarantees provided to total capital. We noted from the Measures that the capital adequacy ratio for finance companies of enterprise groups shall not be lower than 10% whereas such threshold for commercial banks is 8% as

stipulated in the Administrative Measures for the Capital of Commercial Banks (for Trial Implementation) (商業銀行資本管理辦法(試行)) issued by the CBRC on 7 June 2012, which means there will be a more stringent control over China Gold Finance than other commercial banks in the PRC.

Moreover, pursuant to the 2021 Financial Services Agreement, China National Gold has undertaken to the CBRC that it will increase the capital of China Gold Finance in case China Gold Finance has difficulty in payment. China National Gold is a state-owned enterprise established in the PRC with registered capital amounted to RMB6,500 million. According to its unaudited financial statement for the year ended 31 December 2020, China National Gold recorded net assets of approximately RMB44,378 million and cash and cash equivalent amounted to RMB13,582 million as at 31 December 2020, which is approximately 1,479% and 453% of the Deposit Cap (as defined below) respectively. We therefore believe that China National Gold will be able to honor its undertaking to increase the capital of China Gold Finance in the event that China Gold Finance has difficulty in returning the deposit placed by the Group to China Gold Finance under the Deposit Service.

Having considered (i) the familiarity of China National Gold with the Group's operation, (ii) the sound background and well experience of the board of directors of China Gold Finance; (iii) the fact that China National Gold has undertaken to the CBRC that it will increase the capital of China Gold Finance in case China Gold Finance has difficulty in payment, (iv) the strong financial position of China National Gold and China Gold Finance, and (v) the stringent internal control system of imposed by China Gold Finance, we concur with the Directors' view that the risk profile of China Gold Finance is not greater than that of independent commercial banks in the PRC.

b. The Deposit Service

On 29 May 2015, two of the subsidiaries of the Company namely Tibet Huatailong Mining Development Co. Ltd. ("**Tibet Huatailong**") and Inner Mongolia Pacific Mining Co. Limited ("**Inner Mongolia Pacific**") entered into a financial services agreement with China Gold Finance, pursuant to which China Gold Finance agreed to provide Tibet Huatailong and Inner Mongolia Pacific with a range of financial services including (a) deposit service; (b) lending services; (c) settlement services and (d) other financial services as approved by the CBRC, effective for the three years from the date of the approval of the same agreement in the then upcoming AGM (the "**2015 AGM**") (the "**2015 Financial Services Agreement**"). The 2015 Financial Service Agreement and the proposed daily deposit cap of RMB3,000 million contemplated under was approved by the then independent Shareholders in the 2015 AGM.

On 26 May 2017, in order to allow all the existing and potential new members of the Group as a whole to continue to enjoy the wide financial services provided by China National Gold, the Company and China Gold Finance entered into a financial services agreement, pursuant to which China Gold Finance agreed to provide the Group with a range of financial services including (a) deposit service; (b) lending services; (c) settlement services and (d) other financial services as approved by the CBRC, effective until 31 December 2020 from the date of the approval of the same agreement in the then upcoming AGM (the "**2017 AGM**") (the "**2017 Financial Services Agreement**"). Upon the effectiveness of the 2017 Financial Services Agreement, the parties agreed to terminate the 2015 Financial Services Agreement. On 29 May 2017, the Company and China Gold Finance entered into an amendment agreement to the 2017 Financial Services Agreement pursuant to which the parties agreed that the term of the 2017 Financial Services Agreement would expire on 30 June 2020

instead of 31 December 2020 and all other terms of the 2017 Financial Services Agreement remain unchanged. In response to feedback received from shareholders, the Company did not submit the relevant resolution to approve the 2017 Financial Services Agreement and the proposed daily deposit cap of RMB3,000 million contemplated under in the 2017 AGM.

On 18 December 2017, the Company entered into a deposit services agreement with China Gold Finance pursuant to which China Gold Finance agreed to provide the Group deposit services for a maximum daily deposit balance up to RMB100 million from 1 January 2018 to 31 December 2018 (the “**2018 Deposit Service Agreement**”).

On 18 December 2018, the Company entered into a supplemental agreement to the 2018 Deposit Service Agreement with China Gold Finance to extend the term of the 2018 Deposit Service Agreement for a further 1 year commencing from 1 January 2019 to 31 December 2019 with all other terms remained the same with the 2018 Deposit Service Agreement including the maximum daily deposit balance (the “**1st Supplemental Deposit Service Agreement**”).

On 31 December 2019, the Company entered into a second supplemental agreement to the 2018 Deposit Service Agreement (as supplemented by the 1st Supplemental Deposit Service Agreement) with China Gold Finance to extend the term of the 2018 Deposit Service Agreement (as supplemented by the 1st Supplemental Deposit Service Agreement) for a further 1 year commencing from 1 January 2020 to 31 December 2020 with all other terms remained the same with the 2018 Deposit Service Agreement (as supplemented by the 1st Supplemental Deposit Service Agreement) including the maximum daily deposit balance (the “**2nd Supplemental Deposit Service Agreement**”).

On 22 December 2020, the Company entered into a third supplemental agreement to the 2018 Deposit Service Agreement (as supplemented by the 1st Supplemental Deposit Service Agreement and the 2nd Supplemental Deposit Service Agreement) with China Gold Finance to extend the term of the 2018 Deposit Service Agreement (as supplemented by the 1st Supplemental Deposit Service Agreement and the 2nd Supplemental Deposit Service Agreement) for a further 1 year commencing from 1 January 2021 to 31 December 2021 with all other terms remained the same with the 2018 Deposit Service Agreement (as supplemented by the 1st Supplemental Deposit Service Agreement and the 2nd Supplemental Deposit Service Agreement) except that the maximum daily deposit balance was adjusted upward to RMB180 million (the “**3rd Supplemental Deposit Service Agreement**”).

In view of the fact that (i) the entering into of the Deposit Service was a continuation of the 2018 Deposit Service Agreement (as supplemented by the 1st Supplemental Deposit Service Agreement, the 2nd Supplemental Deposit Service Agreement and the 3rd Supplemental Deposit Service Agreement), (ii) the terms of the Deposit Service will not be less favorable than those that would be offered to the Group by other major commercial banks of which will be further discussed in below section headed “II. Principal terms of the Deposit Service”, (iii) the risk profile of China Gold Finance shall not be greater than that of other commercial banks in the PRC given the strong background of China Gold Finance as discussed in the paragraph headed “General backgrounds of the parties involved – China Gold Finance” above, and (iv) the Group will be at its own discretion to choose financial institutions providing the deposit service other than China Gold Finance, we are therefore of the view that the Deposit Service is entered into within the ordinary and usual course of business of the Group and is in the interests of the Company and the Shareholders as a whole.

II. Principal Terms of the Deposit Service

Set out below are the major terms of the Deposit Service:

Date	:	5 May 2021
Parties	:	The Company and China Gold Finance
Duration	:	From the date of approval of the 2021 Financial Services Agreement in the AGM to 31 December 2023
Maximum daily balance of the Deposit Service	:	The daily balance of the deposits (including any interest accrued therefrom) shall not exceed RMB3,000 million (the “ Deposit Cap ”)
Pricing of the Deposit Service	:	The interest rates payable by China Gold Finance to the Group for the Deposit Service shall not be lower than (a) the benchmark deposit rates prescribed by the PBC and (b) the deposit rates payable by Industrial and Commercial Bank of China, Agricultural Bank of China, Bank of China and China Construction Bank (the “ Major PRC Commercial Banks ”).

In assessing the effectiveness of internal control imposed by the Group in ensuring the interest rates payable by China Gold Finance to the Group for the Deposit Service shall not be lower than (a) the benchmark deposit rates prescribed by the PBC and (b) the deposit rates payable by the Major PRC Commercial Banks, we have discussed with the management of the Company and we understand that the Company will obtain quotation from the Major PRC Commercial Banks in relation to the Deposit Service of the same type and duration before the Company make deposits with China Gold Finance. These quotations together with the quotation of China Gold Finance will be submitted to the financial controller of the Company for review and decide whether or not to accept the quotation of China Gold Finance (the “**Internal Control Procedure**”).

According to the management of the Company and our desktop research on the website of each of the Major PRC Commercial Banks, there was no change in the deposit rates prescribed by the PBC and the deposit rates payable by the Major PRC Commercial Banks since 24 October 2015 and up to the Latest Practicable Date. The table below shows the comparison of (i) the deposit rates prescribed by the PBC as at the Latest Practicable Date, (ii) the deposit rates offered by the Major PRC Commercial Banks as at the Latest Practicable Date and (iii) the deposit rates offered by China Gold Finance as at the Latest Practicable Date, which, as confirmed by the management of the Company also remained no change since 24 October 2015 and up to the Latest Practicable Date:

	China Gold Finance	The PBC	Industrial and Commercial Bank of China	China Construction Bank	Bank of China	Agricultural Bank of China
Current	0.455%	0.35%	0.30%	0.30%	0.30%	0.30%
3 month fixed deposit	1.54%	1.10%	1.35%	1.35%	1.35%	1.35%
6 month fixed deposit	1.82%	1.30%	1.55%	1.55%	1.55%	1.55%
one year fixed deposit	2.10%	1.50%	1.75%	1.75%	1.75%	1.75%
Two year fixed deposit	2.94%	2.10%	2.25%	2.25%	2.25%	2.25%
Three year fixed deposit	3.85%	2.75%	2.75%	2.75%	2.75%	2.75%
Agreement deposit	1.61%	1.15%	1.00%	1.00%	1.00%	1.00%
One day notice	0.88%	0.80%	0.55%	0.55%	0.55%	0.55%
7 days' notice	1.485%	1.35%	1.10%	1.10%	1.10%	1.10%

Based on the above comparison, we noted that the deposit rates offered by China Gold Finance for the above deposit types are higher than that quoted by the PBC and the Major PRC Commercial Banks since 24 October 2015 and up to the Latest Practicable Date. We also discussed with the management of the Company that should there be circumstances that China Gold Finance, the PBC or the Major PRC Commercial Banks amend their deposit rates offered, the Group will follow the Internal Control Procedure to ensure the interest rates payable by China Gold Finance to the Group for the Deposit Service shall not be lower than (a) the benchmark deposit rates prescribed by the PBC and (b) the deposit rates payable by the Major PRC Commercial Banks. Based on the above, we are of the view that the Deposit Service is therefore entered into on normal commercial terms, and are fair and reasonable so far as the Company and the independent Shareholders are concerned.

III. The Deposit Cap

As confirmed by the management of the Company, the actual maximum daily deposit balance during the term of the 2018 Deposit Service Agreement (as supplemented by the 1st Supplemental Deposit Service Agreement, the 2nd Supplemental Deposit Service Agreement and the 3rd Supplemental Deposit Service Agreement) was approximately RMB179 million, the Deposit Cap of RMB3,000 million therefore represented approximately 1,676% of it.

As discussed with the management of the Company, the determination of the Deposit Cap by the Group has taken into account of (i) the latest cash and current assets position of the Group and (ii) the potential improvement in the financial performance of the Group in future due to the expected increase in the copper and gold price in the upcoming years and hence the corresponding potential increase in its overall cash balance and its potential deposit balance in China Gold Finance.

According to the 2021Q1 Result, the cash and cash equivalents of the Group was approximately USD324 million (equivalent to approximately RMB2,106 million at RMB/USD of 6.5) as at 31 March 2021. The Deposit Cap therefore represented approximately 142% of the Group's cash and cash equivalents as at 31 March 2021. Nevertheless, we noted that there were other current assets such as (i) restricted bank balances, (ii) trade, bills and other receivables, (iii) prepaid expenses and deposits and (iv) inventories of a total of approximately USD317 million (equivalent to approximately RMB2,061 million at RMB/USD of 6.5) as at 31 March 2021 which are liquid in nature and could be turn into cash in a short period of time that made the Group's maximum potential deposits in China Gold Finance could be as high as RMB4,167 million in a given time.

In addition, according to a commodities research published by Goldman Sachs on 13 April 2021 titled “Green Metals - Copper is the new oil” (the “**Goldman Sachs Copper Research**”), Goldman Sachs projected copper price to average USD9,675 / tonne in 2021, USD11,875 / tonne in 2022 and USD12,000 / tonne in 2023. On demand side, Goldman Sachs has argued that copper will play a critical role in achieving the Paris climate goals. Without serious advancements in carbon capture and storage technology in the coming years, the entire path to net zero emissions will have to come from abatement - electrification and renewable energy. As the most cost-effective conductive material, copper sits at the heart of capturing, storing and transporting these new sources of energy as copper has the necessary physical properties to transform and transmit these sources of energy to their useful final state, such as moving a vehicle or heating a home. On supply side, Goldman Sachs said a decade of poor returns and ESG concerns have curtailed investment in future supply growth of copper. The mining sector remains wary of a pivot towards growth after the price collapse in the mid-2010s severely punished any front-footed producers. Even as copper prices have rallied 80 per cent over the last 12 months, there have been no material greenfield project approvals. Coronavirus has only compounded this dynamic, creating enough uncertainty to freeze companies' investment decisions. This combination of surging demand and sticky supply has reinforced current deficit conditions.

According to Macrotrends, an online research platform, the copper average closing price for the three months ended 31 March 2021 was 3.8644 per pound (equivalent to approximately USD8,520 / tonne). As such, the average copper price projected by Goldman Sachs for 2021, 2022 and 2023 above is expected to be approximately 14%, 39% and 41% higher than the copper average closing price for the three months ended 31 March 2021 respectively. Assuming other things being constant, the copper revenue of the Group, which represented approximately 43% of the total revenue of the Group for the three months ended 31 March 2021, might have a potential to grow at a similar rate as the expected copper price growth in the upcoming years and hence we are of the view that the cash balance of the Group shall, in a large extent, have a potential to increase as compared to the position as at 31 March 2021.

On the gold market, according to the data of Macrotrends, gold price declined from record high approximately USD2,000 per ounce level in August 2020 to approximately USD1,800 per ounce level in May 2021. Nevertheless, according to an article titled “Goldman Sachs still see upside for gold but lower their forecast for the yellow metal” published on 25 February 2021 by Kitco, a global precious metals authority and retailer of bullion products, Goldman Sachs, though has downgraded its gold forecast from USD2,300 per ounce, still believe that higher real interest rates are already reflected in the gold price and the move higher could continue once higher rates are fully priced in and Goldman Sachs still sees upside for gold from current level and its new target is \$2,000 per ounce.

According to Macrotrends, the gold average closing price for the three months ended 31 March 2021 was 1,793 per ounce and according to the 2021Q1 Result, the realized average price of gold of the Group was USD1,803 per ounce for the three months ended 31 March 2021. As such, the gold price projected by Goldman Sachs above is expected to be approximately 11% higher than the realized average price of gold of the Group for the three months ended 31 March 2021. Similarly, assuming other things being constant, the gold revenue of the Group, which represented approximately 21% of the total revenue of the Group for the three months ended 31 March 2021, might have a potential to grow at a similar rate as the expected gold price growth in the upcoming years as well and hence we are of the view that the cash balance of the Group shall also, in a large extent, have a potential to increase as compared to the position as at 31 March 2021.

In further assessing the fairness and reasonableness of the Deposit Cap, we have identified the listed companies in the Stock Exchange receiving deposit service provided by finance companies held by parent companies and hence were connected transactions, with their respective circulars published from 1 November 2020 (approximately six months prior to the entering into of the 2021 Financial Services Agreement) up to the Latest Practicable Date and the respective underlying deposit service transaction were subsequently approved by their respective independent shareholders (the “**Comparable Companies**”). We have in particular reviewed and compared the proposed maximum daily deposit balances to be placed by the Comparable Companies with their respective finance companies, and the Comparable Companies’ cash balance, including cash and cash equivalent, bank balances and time deposit (the “**Cash Balances**”) according to their latest published financial reports prior to the publish date of their respective circulars. We consider the list of Comparable Companies presented below to be an exhaustive list according to our research on the website of the Stock Exchange based on the above criteria. Despite the Comparable Companies are not engaged in exactly the same business as the Group and they may not be entirely comparable to the Group in terms of products, stage of development, operation scale, market capitalisation etc., we believe that below comparison is able to depict a more recent market practice in determining the proposed maximum daily deposit balances provided by the related parties of the Comparable Companies and allow us to judge whether the Deposit Cap is fair and reasonable in a general perspective. Also, we only select the Comparable Companies for comparison purpose as the relevant underlying deposit service transaction were recently approved by their respective independent shareholders and hence, to a certain extent, represents the recent preference of independent shareholders. Based on our review, the results are highlighted in the following table:

Notes:

1. For ease of our comparison, we have taken the average of the maximum daily deposit balances in case such balances varies with the terms of the respective agreement entered by the Comparable Companies

As shown in the above table, the maximum daily deposit balances of the Comparable Companies range from approximately 40% to 332% of their respective Cash Balances, with the mean of approximately 173%.

Though the Deposit Cap represents approximately 142% of the Group's cash and cash equivalents as at 31 March 2021, by considering (i) such ratio is still within the range and lower than the mean of that of the Comparable Companies, (ii) by considering the total current assets as at 31 March 2021 which could be turn into cash in a short period of time that made the Group's maximum potential deposits in China Gold Finance could be as high as RMB4,167 million in a given time and (iii) the expected increased cash balance of the Group due to the expected increase in the price of copper and gold in the upcoming years, we are of the view that the Deposit Cap is fair and reasonable so far as the independent Shareholders are concerned.

- (d) the Company must promptly notify the Stock Exchange and publish an announcement if the independent non-executive Directors and/or auditors of the Company cannot confirm the matters as required.

In light of the above reporting requirements attached to the Deposit Service, we are of the view that appropriate measures will be in place to monitor the conduct of the Deposit Service and assist to safeguard the interests of the independent Shareholders.
