REASONS FOR AND BENEFITS OF THE SUBSCRIPTION

The Group was principally engaged in (i) sales of renewable energy products; (ii) new energy power system integration business; (iii) sales of self-service automatic teller machine systems and printing systems; and (iv) provision of hardware and software technical support services in the PRC.

The Board considers that the redemption of the Existing Convertible Bonds and the issue of the Convertible Bonds allow the Company to postpone its cash outflow required for the repayment of the Existing Convertible Bonds and to retain its financial resources for a longer period for the development of its business. The Board has considered various ways of raising funds in the capital market and considers that the issue of the Convertible Bonds is an appropriate means of raising capital for the Company since such issue will not have an immediate dilution effect on the shareholding of the existing Shareholders. The Board considers that the terms of the Subscription Agreement and the Convertible Bonds are on normal commercial terms, fair and reasonable and in the interests of the Company and the Shareholders as a whole.
