The board of directors (the “**Board**”) of the Company wishes to inform the shareholders of the Company and potential investors that, based on the preliminary assessment of the latest results of the Group for the period from 1 January 2021 to 24 June 2021 (both days inclusive) (the “**Period**”) and the information available for the time being, it is estimated that the Group will record a consolidated net profit between approximately RMB137 million to RMB147 million during the Period. The Company’s consolidated net profit was approximately RMB155.7 million for the 6 months period ended 30 June 2020.

The estimated decrease in the Group’s consolidated net profit for the Period is mainly attributable to the significant increase in the cost of raw materials and selling expenses as compared with the corresponding period last year. If the above situation continues without any material improvement, a further percentage decrease in the consolidated net profit of the Group for the year ending 31 December 2021 as compared to the year ended 31 December 2020 is expected.

The information contained in this announcement is only based on a preliminary assessment of the latest unaudited consolidated management accounts of the Group for the Period and the information available at the current time.
