#### **BUSINESS REVIEW**

#### MARKET ENVIRONMENT

The Group's principal markets saw post-COVID-19 pandemic recovery of their economies. In the Mainland, GDP grew by 18.3% and 7.9% year-on-year (YoY) in the first and second quarters of the year respectively, posting a 12.7% YoY expansion through the first half, which put the country on track to meet the growth target of 'above 6%' as set by the Central Government for this year. The Mainland economy sustained a steady recovery, with exports and imports growing fast, industrial production and local consumption picking up and household income rising, while employment and consumer prices remained stable.

Hong Kong is on the path to recovery, with GDP growing by 7.8% YoY in real terms in the first half of 2021, after an unprecedented two consecutive years of negative growth. Exports of goods increased strongly on strengthening global demand, while private consumption rose on the back of the stabilised local epidemic and improving labour market conditions. Overall investment spending saw accelerated growth amid improved business sentiment. Following the enhancement of the electoral system of the HKSAR earlier this year, the tendering and award of government projects are less affected by the delay in funding approval at the Legislative Council due to political wrangling and other malfunction.

#### FINANCIAL RESULTS

The Group reported net profit attributable to shareholders of HK\$20 million for the first six months of 2021, as compared with the net loss attributable to shareholders of HK\$130 million for the corresponding period in 2020, while the Group's turnover for the first half of 2021 increased slightly by 6%, against the same period in 2020, to HK\$2.4 billion.

The construction business in Hong Kong continued to benefit from the strong order book and achieved higher turnover and profit. The property business in the Mainland saw encouraging improvement in the occupancies and rental income of most of its shopping malls as the country's daily routines have generally resumed after the pandemic, yet property sales remained limited, as the inventory was running low.

The turnaround in the Group's financial performance in this interim period was also set against the previous interim period in which the leasing performance and assets valuation of the property business were adversely affected by the outbreak of COVID-19 in January 2020, coupled with the net foreign exchange loss arising from the depreciation of the Renminbi against the Hong Kong dollar on the Group's property assets.

#### **CORPORATE INITIATIVES**

Maintaining resilience and growth in the pandemic-driven 'new normal' has been an unprecedented challenge we faced since the past year. At the same time, remote working and social distancing restrictions have also accelerated shifts in consumer and business behaviours to online channels. It is amidst this background that digital transformation has become one of our key business priorities. To further embrace future challenges, SOCAM has been making specific emphasis to technological upgrades and digitalisation to enhance productivity, efficiency, as well as adoption of green operations.

Talent development has always been a central focus. To increase our competitiveness in attracting and retaining competent staff, we launched a trial scheme on flexible working hours to better accommodate the needs of our staff, without compromising productivity and quality of work. We also rolled out a talent development programme to select high potential talents and groom them to be future leaders.

During this interim period, a Corporate HSE Steering Committee was established to formulate and review our HSE management programme as well as accident rate. In support of the community health and safety and the HKSAR Government's COVID-19 vaccination drive, we implemented an incentive scheme for our employees, including a lucky draw and paid vaccination leave.

#### CONSTRUCTION

#### **Market Review**

Notwithstanding the Hong Kong economy's rebound in growth in the first half of this year, construction activities declined further, after four consecutive years of contraction. Total expenditure on building and construction dropped by 2.6% YoY in real terms in the first half of 2021, of which expenditure in respect of the public and private sectors increased by 9.7% and decreased by 11.6% respectively. The construction unemployment rate, however, dropped notably to 8.9% in June 2021, from 10.7% in December 2020, largely attributable to the improving labour market conditions. Market competition remained severely intensified amid a shrinking construction industry as a whole.

Despite running a substantial budget deficit for 2021-22, the HKSAR Government remains fully committed to its long-term housing strategy and 10-year hospital development plan to address the critical housing and healthcare issues of the community. The Group's construction business stands to benefit from the significant tendering opportunities coming from the public sector.

Macau's gaming industry continued to be hard hit by the COVID-19 pandemic, as tourist arrivals slumped primarily caused by the epidemic-induced travel restrictions. Faced with the challenging business environment, some corresponding adjustments were made by operators to their plans for revamps and rolling refurbishments of the casino hotels.

#### Adoption of New Technology and Safety

SOCAM continues to place utmost importance on technological advancement, and has expanded the use of new technology to raise operational efficiency and reduce cost. During this interim period, we continued to initiate innovative solutions and monitor closely the implementation of new construction technologies and Modular Integrated Construction (MiC) in our construction project—the multi-welfare services complex in Kwu Tung North. We believe this project with full MiC application will position SOCAM as an industry pioneer in implementing sustainable construction. In addition, we are exploring the adoption of Design for Manufacturing and Assembly, Prefabricated Prefinished Volumetric Construction and artificial intelligence (AI), as well as use of suitable robots in selected construction processes. These technology advances are expected not only to uplift the productivity, build quality, site safety and environmental performance of our construction jobs, but also cope with new contract requirements of government projects and reduce the labour component.

Further progress has also been made on the application of Building Information Modelling (BIM) technology during the period. We have strengthened our in-house design and technical capabilities, which will enhance our competitiveness in tendering for the growing number of design-and-construction jobs from the HKSAR Government and other clients. We have increased investment in strengthening and nurturing the BIM team, which plays a pivotal role in facilitating the wider adoption of BIM technology in our building and interior fit-out projects going forward.

We applied new technologies to enhance our safety performance, including AI cameras at construction sites, face recognition technology, smart helmet system and safety management system. With our unfailing efforts in promoting and strengthening safety at worksites, we see continued improvement in our performance. We recorded an accident rate of 1.67 per 1,000 workers in the first six months of 2021, which hit the lowest on our records and is well below the industry average.

#### **Recognitions and Awards**

Our efforts have earned us industry recognitions. During the period, Shui On Building Contractors Limited (SOBC) and Shui On Construction Company Limited, won a total of seven awards at the 19th Hong Kong Occupational Safety and Health Award organised by the Occupational Safety & Health Council, including the Gold Award in the Safety Management System Award, and the Silver Award in the Safety Culture Award, Best Workplace Inflection Control Measures Award and 5S Good Housekeeping Best Practices Award.

SOBC was awarded the Best SHE Performed Contractor of the Year 2020 by CLP Power Hong Kong Limited (CLP), which is given by the Chief Operating Officer of CLP each year to the contractor with the best safety performance, and distinguishes SOBC from other market players for its steadfast commitment to safety.

Hong Kong Children's Hospital, a joint venture design and build project completed in 2017, garnered both the top Quality Excellence Award and the Grand Award of Hong Kong Non-Residential (New Building – Government, Institution or Community) category in the Quality Building Award 2020, in recognition of its excellence in building quality.

At the corporate level, SOCAM was awarded the ISO 27001 certification from SGS for the Information Security Management Systems. It is the first certificate to recognise the Group's effort in safeguarding information including confidentiality, integrity and availability. Shui On Contractors Limited, the holding company of the Group's construction business, was awarded the Star Logo from the Department of Justice, acknowledging its efforts in promoting and adopting mediation in business operations.

## **Operating Performance**

The Group's construction business achieved a satisfactory result, and recorded a profit of HK\$214 million for the first half of 2021, a 13% increase over the profit of HK\$190 million for the corresponding period in 2020. Turnover for the first six months of 2021 amounted to HK\$2.2 billion, up slightly from HK\$2.1 billion for the same period in 2020 as both building maintenance and interior fitting out businesses saw an increase in turnover. Pre-tax profit margin expanded to 9.7% for the current interim period, from 9.1% for the prior interim period, largely due to the increased contributions from the completed projects.

	1H 2021	1H 2020
Profit	HK\$214 million	HK\$190 million
Turnover	HK\$2.2 billion	HK\$2.1 billion
Profit margin	9.7%	9.1%

#### New Contracts Awarded and Workload

	1H 2021	1H 2020
New contracts awarded	HK\$2.2 billion	HK\$2.0 billion
	30 June 2021	<b>31 December 2020</b>
Gross value of contracts on hand	HK\$22.5 billion	HK\$23.7 billion

The Group's order book remained strong amid intensifying market competition. During the first half of 2021, the Group successfully bid a number of new construction, maintenance, fit-out and renovation contracts in Hong Kong and Macau worth a total of HK\$2.2 billion, as compared with the HK\$2.0 billion awarded in the same period of 2020. More details of the new contracts will be provided under the respective companies below.

As at 30 June 2021, the gross value of contracts on hand was HK\$22.5 billion and the value of outstanding contracts to be completed was HK\$16.1 billion, compared with HK\$23.7 billion and HK\$16.2 billion respectively as at 31 December 2020. The strong order book will help produce healthy growth in turnover, profit and cash flow in the coming few years.

The Group's construction projects continued apace and on schedule. Details of the major construction projects in progress as well as those completed during the current interim period will be provided under the respective companies below.

#### Shui On Building Contractors Limited (SOBC)

New contracts secured by SOBC during the first six months of 2021 totalled HK\$1,793 million, which included:

- Construction of a public housing development at Anderson Road Quarry Site RS-1 for the Hong Kong Housing Authority (HKHA) (HK\$1,326 million), which will provide 1,906 public rental housing units, retail space and ancillary facilities upon completion in 2024; and
- a 3-year term contract for minor works on buildings and lands and other properties for which the Architectural Services Department (ASD) is responsible for the whole territory of Hong Kong (HK\$463 million).

The term contracts for building maintenance works are undertaken by Pacific Extend Limited (PEL), a subsidiary of SOBC, and continue to provide stable income stream to the Group in addition to building construction projects. PEL has built up a strong clientele over the years, including the HKHA, ASD, Hospital Authority, Airport Authority Hong Kong, Education Bureau, CLP, MTR Corporation Limited (MTRC) and Hong Kong Jockey Club. PEL continues to expand its client base and seek greater works diversification to further capture the growing opportunities in the facility management market.

During the period, SOBC and PEL continued to make progress on their existing contracts, including:

- the construction of a public rental housing development at Chai Wan Road for the HKHA;
- the term contracts for maintenance, improvement and vacant flat refurbishment works for public housing estates in various districts for the HKHA;
- the term contract for the design and construction of fitting out works for the ASD;
- the term contracts for alterations, additions, maintenance and repair works for the Education Bureau;
- the architectural and building works term contract for MTRC;
- the term contracts for design and construction of minor building and civil engineering works as well as cable trenching and laying works for CLP; and
- various minor works term contracts for the Hospital Authority, the Education Bureau and the Hong Kong Jockey Club.

As scheduled, only a few refurbishment and renovation contracts of short construction periods were completed for CLP and the Electrical and Mechanical Services Department in this interim period.

#### Shui On Construction Company Limited (SOC)

SOC proceeded well with the two design and construction contracts awarded to SOC, in joint venture with SOBC (Shui On Joint Venture), namely, the redevelopment of Kwai Chung Hospital (Phase 2) for the Hospital Authority and provision of a purpose-built multi-welfare services complex for the elderly at Kwu Tung North for the ASD during this interim period. In addition, works began on the design and construction of Drainage Services Department Building at the Cheung Sha Wan Sewage Pumping Station for the ASD, which was awarded to the Shui On Joint Venture in December 2020.

SOC completed the contract for the design and construction of the Junior Police Officers Married Quarters at Fan Garden, Fanling, providing 1,184 units, for the ASD during the period.

The ASD and the Hospital Authority continued to release a number of construction contracts for tender, and the Shui On Joint Venture submitted tenders for selected ones. Market competition is intensifying, and the construction division, capitalising on its competency in design and build, will continue to capture the upcoming tender opportunities.

#### Pat Davie Limited (PDL)

PDL remains very active in the highly competitive fit-out and refurbishment markets of both Hong Kong and Macau. In the first half of 2021, it secured a total of 21 new contracts with an aggregate value of HK\$381 million primarily in the commercial and institutional sectors in Hong Kong, and maintained a healthy order book.

The major contracts secured during the current interim period included:

- Fit-out works on co-working space, business centre, office and dry laboratory, and conversion of office to wet laboratory, in various buildings of Hong Kong Science Park;
- Fit-out works on lavatories, corridors and lift lobbies of a commercial development in San Po Kong;
- Supply and installation of protective barriers at Festival Walk, Kowloon Tong;
- Removal of asbestos and services replacement for refurbishment of the Regent Hotel in Tsim Sha Tsui:
- E&M and builder's supportive works for 5G provisions for Phase 2A at Hong Kong International Airport Terminal 1; and
- Fitting out of the lobby and café in W Macao Studio City.

Despite the delays and disruptions caused by the COVID-19 pandemic to the work progress, PDL has executed well on the projects it secured, and managed to deliver them on schedule and within budget. Contracts worth a total of HK\$570 million and HK\$199 million were completed in Hong Kong and Macau respectively during the period. Notable ones included the refurbishment works on Alexandra House in Central, wholesale conversion of West Gate Tower in Cheung Sha Wan, asset enhancement works on Tai Wo Plaza in Tai Po, and improvement works at Lo Wu Station for MTRC in Hong Kong, and fit-out works on the shopping arcade and Shakespeare Hall in The Londoner Macao of Venetian in Macau.

Subsequent to the interim period end, PDL secured a number of new contracts worth a total of HK\$66 million.

#### **PROPERTY**

#### **Market Review**

In Mainland China, retail sales of consumer goods increased by 23.0% YoY to RMB21.2 trillion in the first six months of 2021, and were 8.5% higher than the same period in 2019, underscoring a strong rebound post-COVID-19 pandemic with reviving consumer confidence. Online retail sales for the first half of 2021 also soared by 23.2% YoY to reach RMB6.1 trillion.

The COVID-19 outbreak has accelerated digitalisation of the Mainland's economy, particularly those areas requiring physical interactions, thus putting further pressure on the traditional retail model. Chinese consumers are increasingly embracing online habits in the areas of shopping, remote learning and healthcare consultation, among others, while businesses strive to make greater use of digital tools and channels to increase customer acquisitions and forge connections, with 5G deployment serving as a catalyst. These are driving the rapid growth of a 'stay-at-home economy'. Both the consumer and business behaviours are undergoing transformation amid the evolution of the Mainland's digital landscape.

#### **Operating Performance**

The Group's property business recorded a loss of HK\$50 million for the first six months of 2021, compared with the loss of HK\$71 million for the same period in 2020, which included valuation loss, net of deferred tax provision, of its property portfolio of HK\$53 million and HK\$38 million respectively. Total turnover for the first half of 2021 amounted to HK\$190 million, comprising sales revenue of HK\$68 million, gross leasing income of HK\$56 million and Hong Kong property management services income of HK\$66 million, as compared with total turnover of HK\$168 million for the corresponding period in 2020.

Although the business recorded a negative contribution in the first half of the year, the net rental income and occupancy rates of the Group's shopping malls showed gradual recovery. With the occasional resurgence of infections across the country continued to affect the consumer sentiment generally, a full recovery to return to the pre COVID-19 pandemic level is still some way off.

#### **Property Portfolio**

As of 30 June 2021, the Group owned six projects in Mainland China, which are summarised in the table below. The Group's property portfolio comprised a total gross floor area (GFA) of 408,800 square metres, of which 391,900 square metres GFA were completed properties, and 16,900 square metres GFA of the Nanjing Scenic Villa project were currently under development.

Location	Project	Residential/ Villa (sq. m.)	SOHO/ Office (sq. m.)	Retail (sq. m.)	Carparks & Others (sq. m.)	Total GFA* (sq. m.)

#### **Property Sales**

In the first six months of 2021, the Group recognised revenue of HK\$68 million (1H 2020: HK\$80 million) and profit of HK\$11 million (1H 2020: HK\$11 million) from property sales, which were mainly contributed by the Tianjin Veneto Phase 2 and Nanjing Scenic Villa projects.

In the first half of 2021, the Group contracted strata-title sales of 13 SOHO units, with a total GFA of 920 square metres, in Phase 2 of Tianjin Veneto for a total sales amount of RMB10 million. As at 30 June 2021, out of a total of 486 retail shops and 184 SOHO units, sales of 203 retail shops and 166 SOHO units with respective total GFA of 7,730 square metres and 11,190 square metres were contracted for total sales amounts of RMB394 million. Construction of the retail shops and SOHO units was completed in the fourth quarter of 2020. During the period, the Group recognised sales revenue of RMB38 million, comprising 9 retail shops and 32 SOHO units with a total GFA of 2,540 square metres.

The Group also contracted sales of one villa, with 260 square metres of GFA, and four car parking spaces at Nanjing Scenic Villa for a total sales value of RMB6 million, and recognised sales revenue totalling RMB14 million, comprising one villa, with 460 square metres of GFA, and four car parking spaces. As at 30 June 2021, nearly all of the villas and 92 car parking spaces were sold and handed over to buyers, with two villas and 149 car parking spaces remaining unsold.

The Group will continue to push for sales of the stocks in the Tianjin Veneto Phase 2 and Nanjing Scenic Villa projects.

#### Rental Performance

Total gross rental income before deduction of applicable taxes from the Group's retail and office properties in the Mainland for the first six months of 2021 increased 22% to RMB32 million, from RMB26 million for the corresponding period in 2020. The Mainland economy has been recovering steadily since the COVID-19 outbreak, which reached its peak in the first quarter of 2020, with the nationwide lockdowns and mall closures in the previous interim period.

Amidst the challenging market conditions, we have built stronger and lasting ties with our tenants and achieved improving occupancies in most of our shopping malls during this interim period. In Chengdu Centropolitan, the negotiations with the replacement cinema operator have reached the final stage and the re-opening of the cinema should raise the mall occupancy by approximately 12.5%.

#### Asset Enhancement Initiatives

As the post-COVID-19 pandemic recovery in the Mainland economy takes shape, SOCAM continues to adjust its strategies for asset enhancement initiatives, and has introduced a series of measures to capture opportunities arising from the retail rebound driven by pent-up demand. We adjusted tenant mix and positioning constantly to meet the changing consumer preferences and market trends, enhanced the interior design of our malls by introducing more modern and innovative features, and upgraded the functional facilities for greater convenience and better hygiene. In addition, more family-friendly and lifestyle elements were added for the local communities, such as experience platforms and recreational spaces for children. A series of dynamic promotional events and fun activities, including outdoor concerts and summer fiestas, were also organised regularly to enrich the shopping experience.

#### Property Management

Effective March 2021, Shui On Properties Management Limited has changed its name to Pacific Extend Properties Management Limited (PEPM), as part of its repositioning strategy to diversify from the current focus on managing residential estates towards facilities management of commercial buildings to achieve a more balanced portfolio.

During the first half of this year, PEPM proceeded well with its various property management contracts as well as the facility management services contract for the Civil Aviation Department. Leveraging the Group's diverse client base, strong capabilities in building maintenance and expertise and experience in property management, PEPM, teaming up with PEL, are well-equipped to pursue further business opportunities in the provision of smart facility management services to government departments/organisations, institutions and corporates in Hong Kong.

PEPM contributed stable income and cash flow to the Group during this interim period.

### **OUTLOOK**

The COVID-19 pandemic continues to evolve globally, with an imbalance in worldwide vaccination, poses serious challenges to the world economy in the short run. In addition, the worsening of China-US relations under the Biden administration, heightened geopolitical tensions and the rise of de-globalisation also add considerable uncertainty and instability to the global economic outlook.

China economy has recovered swiftly from the second quarter of 2020, returning to the prepandemic growth path. Daily life is currently nearing normality, but mini-lockdowns to contain the highly infectious variant weighed on the recovery momentum. In the wake of the increasingly complex external environment and weakening international market with rising protectionism, the Central Government has rolled out the "dual circulation" strategy, primarily realising the huge potential of the domestic consumption power while enlarging foreign trade and investment, in order to attain more vigorous and sustainable economic development. Despite headwinds, the Mainland economy appears on track to maintain moderate growth for the remainder of this year.

The global economic recovery continues to support Hong Kong's exports in the near term. Locally, business sentiment is expected to improve further amid receding epidemic situation, stabilised social conditions and tranquility with the National Security Law in place, and improved operating environment. The HK\$36 billion Consumption Voucher Scheme launched by the HKSAR Government in July will help stimulate consumer sentiment and lend support to consumption-related sectors.

We have been sharpening our focus on the booming public sector construction in Hong Kong, as we believe our construction business will usher in a tide of opportunities in the coming years. We have also been exploring new business initiatives that will best exploit our competitive edge, and embarked on the provision of smart facility management services to selected clients, with notable results.

To strengthen business sustainability, we have rolled out various initiatives to expand our construction workforce with young talents, strengthen learning and development, and raise investment in nurturing our employees. The wider adoption of innovative new technologies in design and construction processes and increasing digitalisation of our operation also keep us ahead of competition.

While external environment remains uncertain, the Group stays resilient and is well-equipped to seize business opportunities as they arise in the future. We will adopt a prudent business strategy, and at the same time, be alert to acquisition and disposal opportunities to create value for shareholders.

#### 1. Basis of preparation

The condensed consolidated financial statements for the six months ended 30 June 2021 have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA").

At 30 June 2021, the Group reported net current liabilities of HK\$433 million, which included HK\$786 million revolving bank loans with no fixed term of repayment. The Directors of the Company believe that such revolving bank loans will continue to be made available to the Group and will not be withdrawn unexpectedly within the next twelve months from the end of the reporting period. In addition, taking into account the Group's operating cash flows, the available credit facilities and the expectation of obtaining new credit facilities, the Group will be able to meet its financial obligations when they fall due in the foreseeable future. Accordingly, the condensed consolidated financial statements for the six months ended 30 June 2021 have been prepared on a going concern basis.

The condensed consolidated financial statements have been prepared on the historical cost basis except for investment properties and certain financial instruments which are measured at fair values.

The accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 June 2021 are the same as those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2020.

In the current interim period, the Group has applied, for the first time, certain amendments to Hong Kong Financial Reporting Standards ("HKFRSs") issued by the HKICPA, which are mandatorily effective for the Group's financial period beginning on 1 January 2021. The application of these amendments to HKFRSs has had no material effect on the amounts and disclosures set out in the condensed consolidated financial statements for the current interim period.

Joint ventures of the Group adopt uniform accounting policies for like transactions and events in similar circumstances as those of the Group.

The Group has not early applied other new and amendments to HKFRSs that have been issued but are not yet effective.

#### 2. Segment information

For management reporting purposes, the Group is currently organised into three operating divisions based on business nature. These divisions are the basis on which the Group reports information to its chief operating decision makers, who are the Executive Directors of the Company, for the purposes of resource allocation and assessment of segment performance.

The Group's reportable and operating segments under HKFRS 8 "Operating Segments" are as follows:

- 1. Construction and building maintenance construction, interior fit-out, renovation and maintenance of building premises mainly in Hong Kong
- 2. Property property development for sale and property investment in Mainland China and provision of property management services in Hong Kong and Mainland China
- 3. Other businesses venture capital investment and others

# 2. Segment information (continued)

An analysis of the Group's reportable segment revenue and segment results by reportable and operating segment is as follows:

#### Note:

The government subsidies represent the wage subsidy provided in connection with the support from the Antiepidemic Fund of the HKSAR Government under the job creation scheme in 2021 and the employment support scheme in 2020, which are recognised as income at the time the Group fulfilled the relevant granting criteria.

#### 4. Taxation

	Six months ended 30 June	
	<b>2021</b> 20	
	HK\$ million	HK\$ million
The tax charge comprises:		
Current taxation		
Hong Kong Profits Tax	38	31
Macau Complementary Tax	_	1
The People's Republic of China ("PRC") Enterprise Income Tax	_	6
PRC Land Appreciation Tax	7	9
	45	47
Deferred taxation	(16)	(20)
	29	27

Hong Kong Profits Tax is calculated at 16.5% (2020: 16.5%) on the estimated assessable profits for the period.

Macau Complementary Tax is calculated at 12.0% (2020: 12.0%) on the estimated assessable profits for the period.

PRC Enterprise Income Tax is calculated at 25% (2020: 25%) on the estimated assessable profits for the period.

PRC Land Appreciation Tax is levied at progressive rates ranging from 30% to 60% on the appreciation of land value, being the proceeds from sales of properties less deductible expenditure including land costs, borrowing costs and all property development expenditure.

#### 5. Dividends

The Board does not recommend the payment of an interim dividend (2020: nil) for the six months ended 30 June 2021.

# 6. Earnings (loss) per share

The calculation of the basic and diluted earnings (loss) per share attributable to the owners of the Company is based on the following data:

	Six months ended 30 June 2021 2 HK\$ million HK\$ mil	
Profit (loss) for the period attributable to owners of the Company:		
Profit (loss) for the purpose of basic and diluted earnings (loss) per share	20	(130)
Number of shares:	Million	Million
Weighted average number of ordinary shares for the purpose of basic earnings (loss) per share Effect of dilutive potential ordinary shares:  Share options	374	374
Weighted average number of ordinary shares for the purpose of diluted earnings (loss) per share	374	374

The computation of the diluted earnings per share for the six months ended 30 June 2021 does not assume the exercise of the Company's share options, of which the relevant exercise price was higher than the average market price of shares of the Company for that period when those options were outstanding.

The computation of the diluted loss per share for the six months ended 30 June 2020 did not assume the exercise of the Company's share options, because this would result in a decrease in the loss per share.

#### 7. Debtors, deposits and prepayments

The Group maintains a defined credit policy. The general credit term ranges from 30 to 90 days.

Included in debtors, deposits and prepayments are debtors, net of allowance for credit losses, with an aged analysis (based on the repayment terms set out in the sale and purchase agreements or invoice date, as appropriate) at the end of the reporting period as follows:

	30 June 2021	31 December 2020
	HK\$ million	HK\$ million
Trade debtors aged analysis (note a):		
Not yet due or within 90 days	237	673
91 days to 180 days	3	1
181 days to 360 days	6	6
Over 360 days	1	3
-	247	683
Consideration receivable in respect of disposal of an associate (note b)	33	34

	1,167	1,569
Less: amounts due for settlement after 12 months	<u> </u>	(7)
	1,167	1,562

#### Notes:

- (a) Included in the trade debtors are receivables of HK\$7 million (31 December 2020: HK\$9 million), which are aged over 180 days, based on the date on which revenue was recognised.
- (b) The balances carry interest at 15% per annum.
- Included in prepayments, deposits and other receivables at 30 June 2021 are receivables of HK\$516 million (31 December 2020: HK\$505 million) due from China Central Properties Limited's former subsidiaries (the "Debtor"), which hold a property interest in the PRC and were disposed of in 2008. The amounts are repayable on demand and out of the total outstanding balance, an amount of HK\$144 million (31 December 2020: HK\$143 million) carries interest at prevailing market rates. A court in the PRC issued notices to attach the aforesaid property interest to cause the Debtor to settle part of the outstanding receivable in the amount of approximately RMB276 million (approximately HK\$328 million) (31 December 2020: RMB276 million (approximately HK\$328 million)) and its related interest. In addition to these receivables, the Company has provided a guarantee in relation to a loan granted to the Debtor (see note 9(a)). Given that there have been continued positive outcomes in the legal disputes in relation to the property interest and recovery of the outstanding receivables, including the successful registration of title deed of the property under the name of the Debtor in May 2015, the Directors of the Company believe that these receivables will be fully settled and the guarantee provided by the Company will be fully released either through public auction of the aforesaid property interest or the sale of the equity interest of the entity holding the property interest, which is expected to take place within twelve months from the end of the reporting period.

#### 8. Creditors and accrued charges

The aged analysis of creditors (based on invoice date) of HK\$130 million (31 December 2020: HK\$396 million), which are included in the Group's creditors and accrued charges, is as follows:

	30 June	31 December
	2021	2020
	HK\$ million	HK\$ million
Trade creditors aged analysis:		
Not yet due or within 30 days	104	353
31 days to 90 days	11	22
91 days to 180 days	2	6
Over 180 days	13	15
	130	396
Retention payable	342	375
Provision for contract work/construction cost	1,336	1,488
Other accruals and payables	242	314
	2,050	2,573

#### 9. Contingent liabilities

At 30 June 2021, the Group had the following contingent liabilities, which have not been provided for in the condensed consolidated financial statements:

In 2007, the Company issued a guarantee (the "Guarantee") in favour of a bank for a loan granted to an entity which was a wholly-owned subsidiary of China Central Properties Limited ("CCP") at that time (the "Former Subsidiary"). Subsequently, the Former Subsidiary was sold by CCP in 2008, but the Company remained as the guarantor for the bank loan following the disposal (see note 7(c) for details of receivables due from the Former Subsidiary arising from such disposal). In October 2011, the Company received a notice from the aforesaid bank that it had entered into an agreement to sell all its rights and interests, including the Guarantee, to a new lender (the "New Lender"). At the same time, the Company entered into a restructuring deed with the New Lender, which was subsequently supplemented by supplemental restructuring deeds, whereby the New Lender agreed not to demand fulfilment of the Company's obligations under the Guarantee to October 2021, subject to extension after further discussions. The outstanding principal amount of the loan under the Guarantee amounting to RMB542 million (HK\$651 million) at 30 June 2021 (31 December 2020: RMB542 million (HK\$644 million)) and the related interest amounting to RMB647 million (HK\$778 million) (31 December 2020: RMB614 million (HK\$730 million)) are secured by a property interest in the PRC held by the Former Subsidiary. Both of the parent company of the acquirer and the acquirer of the Former Subsidiary have agreed to procure the repayment of the loan and agreed unconditionally to undertake and indemnify the Group for all losses as a result of the Guarantee.

In the opinion of the Directors of the Company, the fair values of the financial guarantee contracts of the Group are insignificant at initial recognition and at the end of the reporting period after taking into consideration the possibility of the default of the parties involved and the collateral of the loan. Accordingly, no value has been recognised in the condensed consolidated statement of financial position.

(b) The Group is in discussion with the local government authority in the PRC with respect to the delay in construction completion of a development project in Tianjin, by the date as stipulated in the relevant land grant contracts. The relevant local government authority has accepted certain of the reasons identified by the Group in supporting the application for extending the completion date of the project. Based on the respective supplemental land grant contracts, a penalty of 0.02% of the land grant premium per day would be imposed from 29 June 2018 until the completion of the construction. Taking into account the aforesaid extension as accepted by the government authority and the fact that phase 1 of the project has been completed in 2015 and is in operation; and phase 2 of the project has been launched for pre-sale since January 2019, the estimated penalty as at 30 June 2021, if any, will not be more than RMB14 million (31 December 2020: RMB14 million). The management of the Company will resume the communication with the relevant government authority after the ease of epidemic in the PRC and are of the view that the exposure should be further reduced or fully exempted.

#### FINANCIAL REVIEW

#### **INTERIM RESULTS**

The Group's results for the six months ended 30 June 2021 recorded a profit of HK\$20 million on a turnover of HK\$2,397 million, compared with the loss of HK\$130 million and turnover of HK\$2,251 million for the corresponding period last year.

An analysis of the total turnover is as follows:

	Six months	Six months
	ended	ended
	<b>30 June 2021</b>	30 June 2020
	HK\$ million	HK\$ million
Turnover		_
SOCAM and subsidiaries

Property	190	168
Total	2,397	2,251
Joint ventures		
Others	5	4
Total	2,402	2,255

The construction business reported a 6.0% increase in turnover for the first half of this year notwithstanding the substantial completion of the Junior Police Officers Married Quarters project at Fan Garden and the Central Market Revitalisation project last December. The increase in turnover from maintenance and interior fitting out contracts was more than offsetting the reduction in turnover recognised for these construction contracts.

Revenue from the property business was HK\$190 million, which increased from HK\$168 million in the prior interim period. Property sales revenue in 2021 was mainly attributable to Phase 2 of the Tianjin Veneto project, which commenced handover of its retail shops and SOHO units since December 2020. Moreover, gross rental income from our four shopping malls has been recovering steadily since the COVID-19 outbreak in early 2020.

An analysis of the results attributable to shareholders is set out below:

	Six months ended 30 June 2021	Six months ended 30 June 2020

#### Construction

The construction business posted higher profit for the current interim period. Average net profit before tax margin was 9.7% of turnover, which was above the 9.1% margin in the previous interim period, largely due to (i) profit upward adjustments with respect to certain of the construction projects completed in the current period and prior years being taken up in the current period; and (ii) the increased contribution from the maintenance business.

## **Property**

The property division continues to enhance performance of the shopping malls and streamline the organisation structure, which saw further improvement in operating profit against the previous interim period. Net rental results of the shopping malls of the Group and the office tower of Chengdu Centropolitan increased remarkably in the first six months of 2021 amid the gradual recovery from the COVID-19 pandemic and much reduced concessions offered to tenants comparing to the prior interim period. Occupancy of the shopping malls was generally improving and the office tower of Chengdu Centropolitan was 98% let at 30 June 2021.

Almost all of the villa units of the Nanjing Scenic Villa project had been sold in previous years and property sales profit from the project decreased accordingly in this interim period. Property sales revenue and profit for the current interim period were mainly contributed by the strata-title sales of the retail and SOHO units of Phase 2 of the Tianjin Veneto project.

At 30 June 2021, the Group's investment properties were valued at HK\$4,705 million. Excluding the effect on the appreciation of the Renminbi against the Hong Kong dollar, in the current interim period, there was a 1.4% gross depreciation of fair value on a portfolio basis.

#### **Net finance costs**

In January 2020, the Company issued US\$180 million 6.25% senior notes due January 2022 to finance the repayment of the US\$ senior notes matured in May 2020, which caused higher finance costs on US\$ senior notes being incurred in 2020. As such, total net finance costs were decreased to HK\$72 million, from HK\$95 million in the previous interim period.

## Foreign exchange gains (losses)

During the current interim period, the Renminbi and the United States dollar registered a 1.1% and 0.2% appreciation against the Hong Kong dollar, respectively. These resulted in net foreign exchange gains totalling HK\$76 million for the current interim period, of which HK\$29 million and HK\$47 million were recognised in the condensed consolidated statement of profit or loss and the condensed consolidated statement of financial position respectively, comparing with the foreign exchange losses of HK\$44 million and HK\$74 million respectively for the same period last year.

The completion of the deregistration of certain foreign subsidiaries has enabled the release of cumulative foreign exchange gains of HK\$21 million previously included in the translation reserve to profit or loss in this interim period, pursuant to prevailing accounting standards.

#### **ASSETS BASE**

The total assets and net assets of the Group are summarised as follows:

	30 June 2021 HK\$ million	31 December 2020 HK\$ million
Total assets Net assets	9,326 3,184	9,750 3,132
	HK\$	HK\$
Net assets per share	8.5	8.4

Total assets of the Group decreased to HK\$9.3 billion at 30 June 2021, from HK\$9.8 billion at 31 December 2020. The increase in both net assets of the Group and net assets per share was principally attributable to the HK\$20 million profit for the period and the net increase in the translation reserve of HK\$26 million on the appreciation of Renminbi against the Hong Kong dollar.

An analysis of the total assets by business segments is set out below:

	30 June 2021 HK\$ million	%	31 December 2020 HK\$ million	%
Construction	1,879	20	2,211	23
Property	6,839	<b>73</b>	6,954	71
Corporate and others	608	<b>7</b>	585	6
Total	9,326	100	9,750	100

The proportion of total assets of each business segment remained relatively stable at 30 June 2021, when compared with that at 31 December 2020.

## **EQUITY, FINANCING AND GEARING**

The shareholders' equity of the Company increased slightly to HK\$3.2 billion on 30 June 2021, from HK\$3.1 billion on 31 December 2020.

Net bank and other borrowings of the Group, which represented the total of bank borrowings and senior notes, net of bank balances, deposits and cash, amounted to HK\$1,624 million on 30 June 2021, as compared with HK\$1,590 million on 31 December 2020.

The maturity profile of the Group's bank and other borrowings is set out below:

	30 June 2021 HK\$ million	31 December 2020 HK\$ million
Bank borrowings repayable:		
Within one year	1,091	1,037
After one year but within two years	205	215
After two years but within five years	471	494
After five years	55	69
Total bank borrowings	1,822	1,815
US\$ senior notes	1,265	1,258
Total bank and other borrowings	3,087	3,073
Bank balances, deposits and cash	(1,463)	(1,483)
Net bank and other borrowings	1,624	1,590

The net gearing ratio of the Group, calculated as net bank and other borrowings over shareholders' equity, remained stable at 51.0% on 30 June 2021, compared with 50.8% on 31 December 2020.

#### TREASURY POLICIES

The Group's financing and treasury activities are centrally managed and controlled at the corporate level.

The Group's bank borrowings are mainly denominated in Hong Kong dollars and have been arranged on a floating-rate basis. Investments in Mainland China are partly funded by capital already converted into Renminbi and partly financed by borrowings in Hong Kong dollars. Renminbi financing is primarily at project level where the sources of repayment are also Renminbi denominated. Given that income from operations in Mainland China is denominated in Renminbi and property assets in Mainland China are normally priced in Renminbi on disposal, the Group expects that the fluctuations of Renminbi in the short-term will affect the Group's business performance and financial status. It is the Group's policy not to enter into derivative transactions for speculative purposes.

#### **EMPLOYEES**

At 30 June 2021, the number of employees in the Group was approximately 1,840 (31 December 2020: 1,811) in Hong Kong and Macau, and 348 (31 December 2020: 370) in subsidiaries and joint ventures in Mainland China. Remuneration packages are maintained at competitive levels and employees are rewarded on a performance-related basis. Other staff benefits, including provident fund schemes and medical insurance, remained at appropriate levels. The Group continued to retain and develop talents through executive development and management trainee programmes. Based on the financial performance of the Group as well as the individual performance and contribution of the staff members each year, share options may be granted to senior management and staff members under different schemes as reward and long-term incentives. Likewise, in Mainland China, staff benefits are commensurate with market levels, with emphasis on building the corporate culture and professional training and development opportunities are provided for local employees. It remains our objective to be regarded as an employer of choice to attract, develop and retain high calibre and competent staff.

#### SCOPE OF WORK OF DELOITTE TOUCHE TOHMATSU

The figures in respect of the Group's condensed consolidated statement of financial position as of 30 June 2021, the condensed consolidated statement of profit or loss, the condensed consolidated statement of profit or loss and other comprehensive income and the related notes thereto for the period then ended as set out in this announcement have been extracted from the Group's unaudited condensed consolidated financial statements for the period, which have been reviewed by the Company's external auditor, Deloitte Touche Tohmatsu, in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information performed by the Independent Auditor of the Entity" issued by the HKICPA.

# PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES

During the six months ended 30 June 2021, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the listed securities of the Company.

In 2020, the Company repurchased on The Stock Exchange of Hong Kong Limited a total of US\$16.6 million principal amount of the US\$180 million 6.25% senior notes due 2022 for an aggregate consideration of approximately US\$16.15 million. All the repurchased notes were cancelled by the Company in May 2021.

#### CORPORATE GOVERNANCE

The Company is committed to maintaining a high standard of corporate governance through its continuous effort in improving its corporate governance practices.

The Audit Committee has reviewed the Group's unaudited condensed consolidated financial statements for the six months ended 30 June 2021, including the accounting principles and practices adopted by the Group. It has also considered selected accounting, internal control and financial reporting matters of the Group, in conjunction with the Company's external auditor.

#### COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

Throughout the six months ended 30 June 2021, the Company has complied with all the code provisions of the Corporate Governance Code (the "CG Code") set out in Appendix 14 to the Listing Rules, except for the deviations explained below.

Code provision B.1.2 of the CG Code provides that the terms of reference of the Remuneration Committee should include, among others, the responsibilities to (i) determine or make recommendations to the Board on the remuneration packages of individual Executive Director and senior management; (ii) review and approve compensation payable to Executive Directors and senior management for any loss or termination of office or appointment; and (iii) review and approve the remuneration proposals for management with reference to the Board's corporate goals and objectives. The Remuneration Committee has reviewed its functions and considered that these responsibilities in relation to the remuneration and compensation of management should be vested in the Executive Directors who have a better understanding of the level of expertise, experience and performance expected of the management in the daily business operations of the Group. The Remuneration Committee would continue to be primarily responsible for the review and determination of the remuneration package of individual Executive Director. After due consideration, the Board adopted the revised terms of reference of the Remuneration Committee with the said responsibilities in relation to the remuneration and compensation of management excluded from its scope of duties, which deviates from code provision B.1.2. Notwithstanding such deviation, the Remuneration Committee is still responsible for reviewing, approving and making recommendations to the Board on the guiding principles applicable to the determination of the remuneration packages of senior management.

Having reviewed the practices and procedures of remuneration committees in other jurisdictions, the Remuneration Committee decided that it would be better practice for the Non-executive Directors to cease involvement in recommending their own remuneration. Such recommendations were made to the Board by the Chairman of the Company, taking the advice of external professionals as appropriate. This practice has been formally adopted, and the Board approved the amendment to the terms of reference of the Remuneration Committee in this respect, which also deviates from the stipulation in code provision B.1.2 that the Remuneration Committee should make recommendations to the Board on the remuneration of Non-executive Directors. The Non-executive Directors abstain from voting in respect of the determination of their own remuneration at the relevant Board meetings.

# COMPLIANCE WITH THE MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") set out in Appendix 10 to the Listing Rules as its code of conduct regarding Directors' securities transactions. Following specific enquiries by the Company, all Directors have confirmed that they complied with the required standards set out in the Model Code throughout the six months ended 30 June 2021.

By order of the Board SOCAM Development Limited Lo Hong Sui, Vincent Chairman

Hong Kong, 27 August 2021

At the date of this announcement, the Executive Directors of the Company are Mr. Lo Hong Sui, Vincent and Mr. Lee Chun Kong, Freddy; the Non-executive Director of the Company is Ms. Lo Bo Yue, Stephanie; and the Independent Non-executive Directors of the Company are Ms. Li Hoi Lun, Helen, Mr. Chan Kay Cheung and Mr. William Timothy Addison.
