NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2021

1. CORPORATE AND GROUP INFORMATION

Shuanghua Holdings Limited (the “Company”) was incorporated as an exempted company with limited liability in the Cayman Islands on 19 November 2010. The registered office of the Company is located at Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands. The principal places of business in the People’s Republic of China (the “PRC”) are located in Fengxian District, Shanghai and in Tunxi District, Huangshan City, Anhui Province.

During the six months ended 30 June 2021, the Company and its subsidiaries (the “Group”) were principally involved in two major businesses, being the business of trading, manufacturing and research and development of automobile parts and the business of supply chain management.

In the opinion of the directors of the Company, the parent company and the ultimate holding company of the Company is Youshen International Group Limited, which is incorporated in the British Virgin Islands.

2. BASIS OF PREPARATION

The interim condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting” (“HKAS 34”) issued by The Hong Kong Institute of Certified Public Accountants (the “HKICPA”). In addition, the interim condensed consolidated financial statements include the applicable disclosures requirements of the Rules Governing the Listing of Securities (the “Listing Rules”) on the Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

The interim condensed consolidated financial statements have been prepared under the historical cost convention, except for financial assets at fair value through profit or loss and debt instruments at fair value through other comprehensive income, which have been measured at fair value. The interim condensed consolidated financial statements are presented in Renminbi (“RMB”) and all values are rounded to the nearest thousand except when otherwise indicated.

The interim condensed consolidated financial statements should be read in conjunction with the annual financial statements of the Group for the year ended 31 December 2020.

3. APPLICATION OF NEW AND REVISED HKFRSs

Other than changes in accounting policies resulting from application of new and amendments to Hong Kong Financial Reporting Standards (“HKFRSs”) effective for the first time for annual periods beginning on 1 January 2021, the accounting policies and methods of computation used in the interim condensed consolidated financial statements for the six months ended 30 June 2021 are the same as those followed in the preparation of the annual financial statements of the Group for the year ended 31 December 2020.

The HKICPA has issued a number of new or amended HKFRSs that are first effective for the current accounting period of the Group:

- Amendments to HKFRS 16, Covid-19-related rent concessions
- Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16, Interest rate benchmark reform – phase 2

The new or amended HKFRSs that are effective from 1 January 2021 did not have any significant impact on the Group’s accounting policies.

Amendments to HKFRS 16, Covid-19-related rent concessions

HKFRS 16 was amended to provide a practical expedient to lessees in accounting for rent concessions arising as a result of the Covid-19 pandemic, by including an additional practical expedient in HKFRS 16 that permits entities to elect not to account for rent concessions as modifications. The practical expedient applies only to rent concessions occurring as a direct consequence of Covid-19 pandemic and only if all of the following criteria are satisfied:

- a) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- b) the reduction in lease payments affects only payments originally due on or before 30 June 2021; and
- c) there is no substantive change to other terms and conditions of the lease.

30 JUNE 2021

3. APPLICATION OF NEW AND REVISED HKFRSs (continued) Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16, Interest rate benchmark reform – phase 2

The amendments address issues that might affect financial reporting when a company replaces the old interest rate benchmark with an alternative benchmark rate as a result of the interest rate benchmark reform (the “Reform”). The amendments complement those issued in November 2019 and relate to (a) changes to contractual cash flows in which an entity will not have to derecognise or adjust the carrying amount of financial instruments for changes required by the Reform, but will instead update the effective interest rate to reflect the change to the alternative benchmark rate; (b) hedge accounting in which an entity will not have to discontinue its hedge accounting solely because it makes changes required by the Reform, if the hedge meets other hedge accounting criteria; and (c) disclosures in which an entity will be required to disclose information about new risks arising from the Reform and how it manages the transition to alternative benchmark rates.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Company has been principally engaged in two major businesses, being the business of trading, manufacturing and research and development (“R&D”) of automobile parts and the business of supply chain management. In the first half of 2021, the novel coronavirus (“COVID-19”) and its variants outbreak continued to spread in parts of China and across the world. The Group has been proactively adjusting and optimizing the business structure of the Group to improve its profitability. Nevertheless, the Group’s supply chain management business has been affected to some extent due to enhanced regulatory requirements for the cold storage and cold chain supply of imported goods. For the six months ended 30 June 2021 (the “Period” or “Period under Review”), the Group achieved sales revenue of approximately RMB23.8 million, a decrease of approximately RMB10.0 million as compared to the corresponding period of last year.

For the six months ended 30 June 2021, the Group’s revenue from automobile parts business amounted to approximately RMB19.3 million, in which the sales revenue of evaporators, condensers and compressors amounted to approximately RMB3.7 million, RMB1.9 million and RMB13.3 million, respectively. Other revenue comprised primarily of the sales of heaters, intercoolers, oil-coolers, and coolant reservoirs.

For the six months ended 30 June 2021, the Group’s revenue from the supply chain management business amounted to approximately RMB4.5 million. During the Period, Shanghai Shuanghua Supply Chain Management Co., Ltd. (“Shuanghua Supply Chain”), one of the operation entities of the supply chain management business of the Group, had successfully become a member of Shanghai Health Promotion Association and obtained the qualification of food storage and transportation. As an international city and the earliest Free Trade Zone City in China, Shanghai is an important base for global food and agricultural products to enter into the mainland of China. In view of this opportunity, the Group took the initiative to upgrade and transfer one of its cold storage plants to customs transit inspection warehouse for imported goods. With the technology and experience in ventilation and cooling system, the Group was able to begin operation quickly and smoothly, and successfully entered into the cold chain logistics market, to meet the growing demand of city-wide and inter-city cold chain logistics and warehouse services.

For the first half of 2021, due to reversal of impairment loss of trade receivables under expected credit loss model and cost reduction as a result of adjustment and optimisation of the Group’s business structure, the Company recorded profit attributable to its owners of approximately RMB1.0 million for the six months ended 30 June 2021, while the loss attributable to its owners was approximately RMB4.2 million for the corresponding period last year.

The Group believes that the adjustment and optimization of the business structure will further upgrade and specialize the businesses of the Group, as the Group is confident that they will lay a solid foundation for the development of the Group's business, and provide additional revenue streams for the Group and the shareholders of the Company (the "Shareholders") in the long run.

OUTLOOK AND STRATEGY

In the second half of 2021, as COVID-19 and its variants may continue to spread in parts of China and across the world, the macro economy and political environment will remain uncertain. In formulating the Group's business strategies, the Company has considered a number of factors, including but not limited to changes in the macro and micro market environment, the market potential of the Group's existing products and business, and the Group's position and competitiveness in the relevant markets.

Leverage on the substantial relevant experience, and the internal and external resources of the Group, the Group will focus on (i) launching cold storage trucks business by utilizing the Group's advantages, to catch the industry boom; (ii) targeting cold storage and cold chain supply business, to seize the cold chain market share and build the "Shuanghua" brand in the cold chain logistics industry; (iii) building a cold chain ecosystem, to further upgrade the Group's business and enhance the market competitiveness of the Group; and (iv) to develop the Group's supply chain business in other goods or services, and to foster further expansion and diversification of the Group's business operation.

The Group will continue to conduct comprehensive evaluation on the market conditions of different business segments and be prudent in adjusting the Group's strategies and business plans in a timely manner, and manage and develop its existing businesses and expand potential businesses, to achieve a sustainable business development. The Group will continue to create competitive advantages to become a leading listed company with sustainable growth driven by its professional management and expertise, business cooperation and advanced technological strengths and capabilities.

(i) Launching cold storage trucks business by utilizing the Group's advantages, to catch the industry boom

The manufacture of cold storage truck and cooling equipment is in the upstream of the cold chain logistics industry. Benefited from the policy-level requirements of urban and rural cold chain logistics infrastructure construction as well as the growth of fresh e-commerce demand, the number of the cold storage truck is increasing. According to the Cold Chain Logistics Committee of the China Federation of Logistics and Purchasing ("CCLC"), the number of the cold storage truck reached approximately 287,000 in 2020, with a year-on-year growth of approximately 33.5%.

Leveraging on its technology and experience in ventilation and cooling system, and its resources in the cold storage and cold chain supply business, the Group will continue focusing on the R&D of heating, ventilation, and air-conditioning (“HVAC”) systems and cooling systems of cold storage trucks, and seek cooperation with major original equipment suppliers (“OES”), who are usually engaged for the installation and modification of HVAC systems and cooling systems according to the actual needs and applications of cold storage trucks. The Group will strengthen its R&D capabilities through cooperating with engineers from major OES and research institutes, recruiting staff with relevant expertise and experiences, and developing the technology and products of HVAC systems and cooling systems that are aimed to be commercialized by the Group.

(ii) Targeting cold storage and cold chain supply business, to seize the cold chain market share and build the “Shuanghua (雙樺)” brand in the cold chain logistics industry

Economic development brings consumption upgrading, which drives the rapid development of China’s cold chain logistics industry. According to the CCLC, the scale of the cold logistics industry continued to increase from 2017 to 2019, with an average compound growth rate of approximately 15.3%, and the total scale of the cold logistics industry reached approximately RMB374 billion in 2020, with a year-on-year growth of approximately 10.3%. Although affected by COVID-19, the cold chain logistics industry still maintains a growth trend.

As mentioned above, the Group will vigorously promote the business of customs transit inspection warehouses of imported goods and obtain a first-grade storage place qualification, to contribute to the storage and market supply of imported cold-chain food and agricultural products. The Group will closely follow the development trend of the cold chain logistics industry, build a comprehensive and highly efficient software management system to optimize management and strengthen service quality, and build an internal and external circulation development mode through high standard facilities and high service level, to seize the cold chain market share and build the “Shuanghua” brand in the cold chain logistics industry.

(iii) Building a cold chain ecosystem, to further upgrade the Group's business and enhance the market competitiveness of the Group

Facing the development opportunities in the cold chain logistics industry, with the empowerment of artificial intelligence, internet of things and big data, the Group will continue to extend supply chain services based on market demand, such as cold chain processing, sorting, packaging, cold chain transportation, e-commerce, intelligent logistics distribution systems, etc., to build an internet of supply chain ecosystem from production area to marketing area, from field to table, ensuring the safety of people's diets, improving the development level of China's cold chain logistics industry, and meet the diversified consumer demand of the market to further upgrade the Group's business.

The Group will continue to work with its business partners and research institutes on the development of new energy-saving, emission-reducing and other advanced products or services, which would enable the Group to expand its product line with more variety, better quality and higher value and obtain new customers and sales orders, with an aim to achieve a faster growth and sustainable business development of the Group in the long run.

(iv) To develop the Group's supply chain business in other goods or services, and to foster further expansion and diversification of the Group's business operation

In order to satisfy the growing demand from other goods or services, as well as to build on the advantage of the Group's geographical location, market position and fixed assets in Shanghai, the Group intends to develop a diversified supply chain business for goods or services such as automobile fuel oil, either horizontally or vertically, by way of acquisition, investment, establishment of joint venture or formation of strategic alliance. This will lay a solid foundation for a diversified development of the Group's business operation.

FINANCIAL REVIEW

Other income, gains and losses

For the six months ended 30 June 2021, the Group's other income, gains and losses amounted to approximately RMB5.4 million, decreased by approximately 8.5% as compared to the corresponding period of last year, mainly attributable to a decrease in bank interest income and loss on disposal of items of property, plant and equipment.

(Impairment loss)/reversal of impairment loss of trade receivables under expected credit loss model

For the six months ended 30 June 2021, the Group's reversal of impairment loss under expected credit loss model amounted to approximately RMB0.4 million. For the six months ended 30 June 2020, the Group's impairment loss under expected credit loss model amounted to approximately RMB2.9 million.

Selling and distribution costs

Selling and distribution costs primarily comprised of staff-related costs, sales transportation fees, operating lease rental expenses, entertainment and travelling expenses. For the six months ended 30 June 2021, the Group's selling and distribution costs amounted to approximately RMB1.2 million, decreased by approximately 52% as compared to the same period of last year, mainly due to decrease in the sales revenue of low profitable business, which caused a decrease in sales-related transportation and product warranty provision.

Administrative expenses

Administrative expenses primarily comprised of staff-related costs, various local taxes and education surcharges, depreciation of property, plant and equipment and right-of-use assets, R&D expenses and miscellaneous expenses. For the six months ended 30 June 2021, the Group's administrative expenses amounted to approximately RMB12.1 million, decreased by approximately 9.0% as compared to the same period of last year, mainly attributable to decrease in the staff expense due to internal structural optimisation, consulting fee and business entertainment expenses.

Other expenses

Other expenses primarily comprised of written off of assets and miscellaneous expenses. For the six months ended 30 June 2021, the Group recorded other expenses of approximately RMB0.8 million (for the six months ended 30 June 2020: approximately RMB1.1 million). Other expenses for the six months ended 30 June 2021 were mainly due to office rental expense.

Interest expense

Since the adoption of HKFRS 16 Leases on 1 January 2019, the Group's interest expense for the six months ended 30 June 2021 amounted to approximately RMB36,649 (for the six months ended 30 June 2020: approximately RMB20,000).

Income tax credit

For the six months ended 30 June 2021, the Group's income tax credit was approximately RMB30,257. For the six months ended 30 June 2020, the Group's income tax credit was approximately RMB1.0 million.

Loss for the Period

For the six months ended 30 June 2021, the profit attributable to the owners of the Company was approximately RMB1.0 million, while the loss attributable to the owners of the Company for the same period of last year was approximately RMB4.2 million.

LIQUIDITY AND FINANCIAL RESOURCES

Net current assets

The Group's net current assets decreased from approximately RMB134.4 million as at 31 December 2020 to approximately RMB128.1 million as at 30 June 2021.

Financial position and bank borrowings

As at 30 June 2021, the Group's total cash and cash equivalents and financial assets at fair value through profit or loss amounted to approximately RMB111.4 million. As at 31 December 2020, the Group's cash and cash equivalents, restricted time deposits and financial assets at fair value through profit or loss amounted to approximately RMB121.9 million. As at 30 June 2021 and 2020, the Group did not have any borrowings. The gearing ratio was not applicable to the Group (as at 31 December 2020: nil).

Save as aforesaid or otherwise disclosed in the notes to the financial information, and apart from intra-group liabilities, as at 30 June 2021, the Group did not have any outstanding mortgages, charges, debentures, debt securities or other loan capitals or bank overdrafts or loans or similar indebtedness or finance lease commitments, liabilities under acceptances or acceptance credits or hire purchase commitments, guarantees or other material contingent liabilities (as at 31 December 2020: nil).

The Directors have confirmed that there has not been any material change in the indebtedness and contingent liabilities of the Group during the period since 31 December 2020.

Working capital

(All amounts in this section were net of provisions for impairment of inventories and trade receivables)

As at 30 June 2021, total inventories, mainly comprised of raw materials, work-in-progress and finished products, amounted to approximately RMB3.8 million (as at 31 December 2020: approximately RMB21.1 million). Our marketing team reviews and monitors our inventory level on a regular basis. For the six months ended 30 June 2021, the average inventory turnover days were 140 days (for the six months ended 30 June 2020: 145 days). The average inventory turnover days are arrived at by dividing the arithmetic means of the opening and ending balances of inventory for the relevant period by cost of sales of the same period and multiplying the quotient by 180 days (for the six months ended 30 June 2020: 180 days). The decrease in the average inventory turnover days was primarily attributable to increase in sales of stocks.

For the six months ended 30 June 2021, the average turnover days of trade and bills receivables were 143 days (for the six months ended 30 June 2020: 165 days). The average turnover days of trade and bills receivables are arrived at by dividing the arithmetic means of the opening and ending balances of trade and bills receivables for the relevant period by revenue of the same period and multiplying the quotient by 180 days (for the six months ended 30 June 2020: 180 days). The average turnover days of trade and bills receivables decreased mainly due to the Group strengthened the collection of trade and bills receivables.

For the six months ended 30 June 2021, the average turnover days of trade and bills payables were 181 days (for the six months ended 30 June 2020: 128 days). The average turnover days of trade and bills payables are arrived at by dividing the arithmetic means of the opening and ending balances of trade and bills payables for the relevant period by cost of sales of the same period and multiplying the quotient by 180 days (for the six months ended 30 June 2020: 180 days). The average turnover days of trade and bills payables increased mainly because the management have negotiated better terms with suppliers to improve the Group's liquidity.

CAPITAL EXPENDITURES, CAPITAL COMMITMENTS AND HUMAN RESOURCES

For the six months ended 30 June 2021, the Group's capital expenditures were approximately RMB21.4 million, mainly due to addition of property, plant and equipment (for the six months ended 30 June 2020: approximately RMB9.3 million).

As at 30 June 2021, the Group had 108 full-time employees including Directors, management, sales, manufacture, logistics supports and other ancillary personnel. For the six months ended 30 June 2021, the Group's total wages and salaries amounted to approximately RMB6.0 million. Our remuneration policy is primarily based on the job responsibilities, work performance and number of years of service of each employee and the current market conditions.

Pursuant to the relevant labour laws and regulations, the Group has to pay contributions to a number of staff social insurance schemes (including medical, maternity, work injury, unemployment and pension insurances) and staff housing reserve funds. The Group provides social insurances and pays contributions to housing reserve funds for its employees in accordance with the interpretations to the relevant labour laws and regulations given, and policies and measures executed by local government departments. The Group has established various welfare plans including the provision of pension funds, medical insurance, unemployment insurance and other relevant insurance for employees who are employed by our Group pursuant to the PRC rules and regulations and the existing policy requirements of the local government. For the six months ended 30 June 2021, the Group's welfare expenses amounted to approximately RMB1.4 million. The Group has complied, in all material respects, with all statutory requirements on retirement contribution in the jurisdictions where the Group operates.

The determination of the remuneration to the Directors is based on remuneration of directors of comparable companies in the industry, time commitment, duties and responsibilities of the Directors in the Group and its operational and financial performance. The basic salary of each of our executive and non-executive Directors will be reviewed by the Remuneration Committee of the Board of the Company at the end of each financial year.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

Neither the Company nor its subsidiaries has purchased, sold or redeemed any of the Company's listed securities during the six months ended 30 June 2021 (as at 31 December 2020: nil).

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

The Company has adopted all the requirements of the code provisions of the Corporate Governance Code and Corporate Governance Report (the "Corporate Governance Code") contained in Appendix 14 to the Listing Rules. None of the Directors is aware of any information which would reasonably indicate that the Company was not in compliance with the Corporate Governance Code during the six months ended 30 June 2021, except the deviation from provisions A.2.1 as explained below.

Code provision A.2.1

Under provision A.2.1 of the Corporate Governance Code, the roles of the chairman of the Board and the chief executive officer ("CEO") of the Group should be separate and should not be performed by the same individual. The division of responsibilities between the chairman and CEO of the Group should be clearly established and set out in writing.

The roles of the chairman of the Board and the CEO of the Group are not separated and are performed by the same individual. Mr. Zheng Ping acted as both the chairman of the Board and CEO throughout the Period under Review. The Directors met regularly to consider major matters affecting the operations of the Group. The Directors considered that this structure will not impair the balance of power and authority between the Directors and management of the Group and believed that this structure will enable the Group to make and implement decisions promptly and efficiently.

COMPLIANCE WITH THE MODEL CODE

The Model Code set out in Appendix 10 to the Listing Rules has been adopted by the Company as the code of conduct for securities transactions by the Directors. The Directors have also been reminded of their responsibilities under the Model Code regularly by the Company. Having made specific enquiries with them, all Directors confirmed that they have complied with the required standards of the Model Code during the six months ended 30 June 2021.

COMPETITION AND CONFLICT OF INTERESTS

None of the Directors or any of their respective associates (as defined under the Listing Rules) has interest in any business that competes or may compete, either directly or indirectly, with the businesses of the Group, or has any other conflict of interests with the Group as at the date of this announcement.

NOMINATION COMMITTEE

The Company established a Nomination Committee which is primarily responsible for making recommendations to the Board regarding the Group's engagement of appropriate directors and managerial personnel (including the skills, knowledge and experience) to complement the Company's corporate strategies. The Nomination Committee comprises Mr. Chen Lifan, Mr. He Binhui and Ms. Guo Ying, and is chaired by Mr. Chen Lifan.

BOARD DIVERSITY POLICY

The Board adopted a board diversity policy (the "Board Diversity Policy") on 5 March 2019, which aims to set out the principles and approach to achieve diversity on the Board.

The Group recognizes that diversification at the Board level is one of the important factors to improve corporate performance, optimize leadership structure, improve talent quality, and promote the long-term development of the Group. The candidates selected will be based on a range of diverse categories, including but not limited to, gender, age, ethnicity, cultural and educational background, professional skills, career experience, management level and length of service. The Nomination Committee will ultimately make appointment decisions based on the overall quality of the candidates and their contributions to the Board. The Nomination Committee will review the Board Diversity Policy, as appropriate, to ensure its continued effectiveness from time to time.

REMUNERATION COMMITTEE

The Company established a Remuneration Committee which is primarily responsible for making recommendations to the Board regarding the Group's policy and structure for remuneration of Directors and senior management and determining the specific remuneration packages of all executive Directors and senior management of the Company. The Remuneration Committee comprises Ms. Guo Ying, Mr. He Binhui and Mr. Chen Lifan, and is chaired by Ms. Guo Ying.

AUDIT COMMITTEE

The Company established an Audit Committee comprising three independent non-executive Directors, namely Mr. He Binhui, Ms. Guo Ying and Mr. Chen Lifan, and is chaired by Mr. He Binhui. The written terms of reference which describe the authorities and duties of the Audit Committee were prepared and adopted with reference to “A Guide for Effective Audit Committee” published by the Hong Kong Institute of Certified Public Accountants. The Audit Committee provides an important link between the Board and the Company’s auditor in matters coming within the scope of the Group’s audit. It also reviews the financial reporting process and the adequacy and effectiveness of the Group’s internal control and risk management system. The Audit Committee is of the view that the risk management and internal control system at present have been valid and adequate.

REVIEW OF INTERIM RESULTS

The Audit Committee has reviewed the unaudited consolidated results of the Company for the six months ended 30 June 2021 and this announcement. In particular, the Audit Committee has reviewed with management of the Company on the accounting principles and practices adopted by the Group and held meetings to discuss the internal controls and financial reporting matters regarding the Group’s unaudited consolidated financial information for the six months ended 30 June 2021.

PUBLICATION OF THE INTERIM RESULTS ANNOUNCEMENT AND INTERIM REPORT

This interim results announcement is accessible on the website of the Stock Exchange at www.hkex.com.hk and the website of the Company at www.shshuanghua.com. The interim report of the Company for the six months ended 30 June 2021 will be dispatched to the Shareholders and will be available on the websites of the Stock Exchange and the Company in due course.
