HIGHLIGHTS

The board (the “Board”) of directors (the “Directors”) of China Parenting Networking Holdings Limited (the “Company”, together with its subsidiaries, collectively the “Group” or “we”) is hereby announce the unaudited condensed consolidated interim results of the Group for six months ended 30 June 2021 (the “Period”).

	For the six months ended 30 June 2021 (Unaudited) RMB'000	30 June 2020 (Unaudited) RMB'000
Revenue	41,911	32,206
Gross profit	10,259	6,279
Loss for the period	(9,411)	(33,096)
Total loss for the period attributable to:		
Owners of the parent	(9,068)	(28,727)
Non-controlling interests	(343)	(4,369)

The Group’s revenue for the six months ended 30 June 2021 increased by approximately 30% over the same period of last year. The Group’s net loss for six months ended 30 June 2021 decreased by approximately 71.6% over the same period of last year.

As at 30 June 2021, the total volume of data of mobile APPs of the Company (representing the sum volume of data of “Pregnancy Tracker” APP and the “Mama BBS” APP, two major mobile APPs of CI Web), the MAU and DAU grew to 16.52 million and 3.62 million respectively, representing an increase of 9.6% and 8.42%, respectively, as compared to those of last year.

During the period, CI Web continued to upgrade its products and services to build a “smart home lifestyle”, focusing on the three strategies in traffic, transaction, and digitalization, to attract traffic from the entire mother-child ecosystem and expand its four major traffic portals, namely the self-owned platform traffic, community traffic, IP traffic and SaaS traffic. Driven by “content + technology + channel”, we accurately reached the mother-child/mother-child-related users. Through in-depth exploration of user needs, we managed to provide brands with a reach, penetration, conversion, loyalty and technology-driven digital business solution in all scenarios.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is a leading mother-child platform in China, providing users with content, community, new media, e-commerce, smart hardware and other related services through a portfolio of websites and APPs including CI Web, Mama BBS APP, Pregnancy Tracker APP, new media matrix and mother-child online communities, covering areas including new retail, health, education, home entertainment and family travel, etc. The Group also created solutions for the digitalization of the mother-child industrial chain using refined operation, leading technology and more than 15 years of experience in the mother-child industry.

During the Period, China's consumer market continued to grow, the development of digitalization kept accelerating, consumer needs and behaviors continued to change, the trend of consumption classification has become more prominent, and the value of the lower-tier cities market has grown rapidly. At the same time, retail brands faced challenges such as scattered user traffic and rising customer acquisition costs, as well as fierce competition in the current market, which urgently requires solutions for targeted operations.

Deep diving into user values based on big data can help brands to accurately reach users, achieve effective transactions and extend user life cycle. In recent years, various technologies such as big data have been widely used in online and offline consumption scenarios, which promoted the continuous accumulation of consumer behavior data, making it inevitable for brands to market themselves in all scenarios.

In the mother-child industry, the population has very significant characteristics. User needs tend to be younger, professional, and segmented. The target population radiates from mothers to all family members. The mother-child services are extended to the full-scenario life services of the family. This brings a broader space for development for the overall market. The main catalyst channels for mother-child population are vertical platforms, content platforms and shopping platforms, whereas media forms such as short videos and live broadcasts have an increasing influence on the consumption decision-making of mother-child products. Among them, the mother-child population obtains higher-quality content through the vertical APPs and participates in more refined community activities. For mothers with a second child, they have a higher degree of trust and loyalty to mother-child vertical APPs, while the active penetration rate of such APPs is high in general.

During the Period, CI Web continued to upgrade its products and services to build a "smart home lifestyle", focusing on the three strategies in traffic, transaction, and digitalization, as well as the related product matrix. As at 30 June 2021, the total volume of data of mobile APPs of the Company (representing the sum volume of data of "Pregnancy Tracker" APP and the "Mama BBS" APP, two major mobile APPs of CI Web), the MAU and DAU grew to 16.52 million and 3.62 million respectively, representing an increase of 9.6% and 8.42%, respectively, as compared to those of last year.

Perform refined operation to nurture a one-stop service platform

The Mama BBS has been upgraded to enhance the interactive social experience from three aspects of activeness, quality and diversity. It guided users into small topics with up-to-date content aggregation methods; launched live broadcast IP of Mama BBS to conduct real-time interactions with users about professional mother-child knowledge, female empathy, and experience sharing; optimized the recommendation channels, launched several festivals such as "Super Baby Day", "Deal-Hunting Festival" and "Foodie Flash Sale", using various interactive forms to recommend, promote and share products, helping users with their purchase decision making. Mama BBS also advocated the younger generation of the mother-child population to show their self-worth and carried out a series of self-satisfied activities around themes such as "the ordinary glory" and "what you say to yourself", which resonated with the users and set off a sharing craze.

MANAGEMENT DISCUSSION AND ANALYSIS

Relying on the existing pregnancy content and Mini Programs matrix, as well as the self-developed S-CRM SaaS system based on WeChat Enterprise, Pregnancy Tracker launched the “Mama Planet” community service. It provided one-on-one online real time consults for pregnant users. Through targeted operation, it also provided authenticated and reliable information about local hospital departments and related maternity and nursing services for mothers at different stages of pregnancy and offer free parenting expert courses and mother-child product samples. At the same time, among the user groups of the same age in the same city, real word-of-mouth and experience sharing was generated through user exchanges. Experts from third-class hospitals were also invited to answer user questions and provide scientific guidance.

Use strong IP and innovative content to optimize live broadcast and short video

CI Web continued to improve its creativity of digital content and has formed an original content output matrix centered on professional editors, authoritative experts, and KOLs and now has its own IP content matrix. Among them, the number of high-quality contents produced by independent users has also been increasing. These grassroots influencers rising from the community are closer to the user group, making it easier for them to gain followers’ trust, which makes them a very important force to convey the content and reputation of our platform.

The short video and live broadcast content system developed by CI Web takes strong IP and high-quality content as key. Based on big data portraits of users and analysis of the needs of mother-child users, it invited professionals in related fields to create IP accounts, including doctors, lawyers, teachers, etc., targeting the pain points of parenting families, bringing more scientific and effective communication. CI Web focused on creating original short videos and launched a variety of one-minute pan-entertainment series of animations and short video columns such as “Ask If you don’t understand”, “Since I Become a Mom”. Instead of preaching science, we understood more about the inner activities of contemporary parents. We also advocated a scientific and healthy family life concept, and we hoped to reach the mother-child/mother-child-related population through MCN’s full-scenario channels.

Consumption upgrades, and product iterates. The new IP “BOSS has something new” created by CI Web is a one-minute short video cast by the brand executives. Using “short, precise and fast” trending short video content, we explored the new products, new services and new upgrade highlights brought by the brand renewal, demonstrated the core competition strengths in the brand upgrade, and made professional recommendations.

Extensive planning on mother-child ecosystem traffic and channels

CI Web has planned an in-depth layout of the SaaS system in all scenarios, covering new retail, education, health and parent-child travel. Building on the full-scenario service structure, it would open up to more strategic partners, establish four major traffic portals, namely the self-owned platform traffic, community traffic, IP traffic and SaaS traffic and expand the ability to penetrate users in all scenarios.

Relying on the resources of CI Web and a team with rich experience in retail system development, the new retail system of Mommy Store invested and developed by our platform has provided customized near-field retail service system for small and medium-sized mother-child stores, including solutions for smart cashier, refined membership operations and user conversion, offering a better shopping experience in the low-tier cities.

CI Web has been strategically cooperating with retail platforms such as JD.com. By efficiently integrating its own traffic pool and e-commerce full-scenario resources, it uses diversified social media marketing methods to deeply communicate with the new generation of mother-child population, creating an innovative marketing path across the platform.

MANAGEMENT DISCUSSION AND ANALYSIS

Digital business solution for the children-babies-maternity users

CI Web coordinated the three strategies of traffic, transaction and digitalization and the related product matrix, provided digital business solutions for the children-babies-maternity users, and focused on in-depth exploration of consumer demands. As a result, we managed to provide the brands with a reach, penetration, conversion, loyalty and technology-driven marketing strategy in all scenarios.

When facing the competition of decentralized traffic, we used a high-viscosity private domain traffic pool and an accurate traffic pool to meet the needs of the brand to reach the related user group at multiple points; Using the ability of digital content service to provide penetration for the brand's recognition, mental occupation, extensive interaction, and word-of-mouth reputation; Based on mature private domain operation experience and big data insight, operate user life cycle of the brand, revitalize the brand's CRM data assets, and cultivate brand loyalty; Strengthen the advantages of shopping guides, lay out transaction sales, center on self-operated services, optimize recommendation channels, and small bizzar APP guides to meet the needs of multi-scenario, multi-mode, high-frequency, and fast-closed transactions. Relying on the strong technical center, with a zero-code, multi-scenario, and cross-platform technical system structure, we can help brands to solve technical problems, improve the efficiency of digital upgrades, and expand customized services of SaaS systems for businesses such as education and playgrounds. During the Period, we also provided APP development and operation for the Beijing Winter Olympics Zhangjiakou Miyuanding ski slope project.

Future Prospects

When facing the continuous fragmentation of the market structure, better grasp of data, understanding of data, and analysis of data have become key factors that can promote the development of the industry. CI Web has been involved in the industry for 15 years and is trusted by users. Based on user big data and in-depth cooperation with industry partners, we have dived into the market and continuously output industry research reports. During the Period, the 2020 China Milk Powder Data Report, 2021 Mother-Child Family Nutrition Trend Report, and 2021 China Infants and Children Care Report were released. Our surveys were accurate, the data were detailed, and the coverage was wide. The reports analyzed from policy, capital, industry, channel, and consumer sides, and provided guidance with reference value for the industry to quickly adapt to changes and carry out innovation and integration. Under the "new opportunities" such as the full opening of the three-child policy, we will continue to form a joint force with industry partners, support the unified data system, and provide full-scenario intelligent segmentation services for mother-child families to meet their growing emotional connection and needs for high-quality life.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Revenue

The Group's revenue for the six months ended 30 June 2021 was approximately RMB41.9 million, representing an increase of approximately 30.12% over approximately RMB32.2 million for the six months ended 30 June 2020, primarily due to the innovation in the forms of marketing and promotion and enhancement in reputation of the Group, resulting in more budgets invested by our customers.

Cost of sales

The Group's cost of sales for the six months ended 30 June 2021 was approximately RMB31.7 million, representing an increase of approximately 22.39% over approximately RMB25.9 million for the six months ended 30 June 2020, primarily due to the increased efforts put into the promotion and technological support on CI Web and its related APPs.

Gross profit and gross profit margin

The Group's gross profit for the six months ended 30 June 2021 was approximately RMB10.3 million, representing an increase of approximately 63.49% over approximately RMB6.3 million for the six months ended 30 June 2020. At the same period, the Group's gross profit margin increased from approximately 19.5% to approximately 24.5%, primarily due to the increase of the Group's income.

Other income and gains

The Group's other income and gains for the six months ended 30 June 2021 was approximately RMB3.1 million, representing a decrease of approximately 53.73% compared to approximately RMB6.7 million for the six months ended 30 June 2020, primarily due to the decrease in government grants provided by the local government as development support funds.

Selling and distribution expenses

The Group's selling and distribution expenses for the six months ended 30 June 2021 was approximately RMB8.0 million, representing a decrease of approximately 60.20% over approximately RMB20.1 million for the six months ended 30 June 2020, which was mainly due to the decrease in marketing and promotion expenses as well as head counts.

Administrative expenses

The Group's administrative expenses for the six months ended 30 June 2021 was approximately RMB5.7 million, representing a decrease of approximately 28.75% over approximately RMB8.0 million for the six months ended 30 June 2020, which was mainly due to the decrease in expenses such as rents.

Research and development costs

The Group's research and development ("R&D") cost for the six months ended 30 June 2021 was approximately RMB8.0 million, representing an increase of approximately 45.45% over approximately RMB5.5 million for the six months ended 30 June 2020, primarily attributable to the increase in the number of R&D personnel and increase in technology development inputs.

MANAGEMENT DISCUSSION AND ANALYSIS

The Group's bank borrowings as at 30 June 2021 were denominated in RMB and the loans of RMB14.0 million (31 December 2020: approximately RMB10.0 million) were guaranteed by personal guarantees, details are set out in note 18 of the consolidated financial statement.

Capital commitment

As at 30 June 2021, the Group had capital commitment of approximately RMB52.3 million (31 December 2020: RMB52.3 million).

Foreign exchange exposure

The Group's transactions are mainly denominated in RMB. Part of the cash and bank deposits of the Group are denominated in Hong Kong dollars. During the Period, the Group did not experience any material impact or liquidity problems in its operation resulting from the changes in exchange rate nor enter into hedging transaction or forward contract arrangement. However, the management closely monitors foreign exchange exposure to ensure appropriate measures are implemented in a timely and effective manner. In this regard, the Group is not exposed to any significant foreign currency exchange risk in its operation.

MANAGEMENT DISCUSSION AND ANALYSIS

Employees, training and remuneration policy

The remuneration committee of the Company will review and determine the remuneration and compensation packages of Directors with reference to their responsibilities, workload, and the time devoted to the Group and the performance of the Group. In general, the Group determines employees' salaries based on their performance and length of services. The Board believes the salaries and benefits provided to the employees are competitive with local market standards. The Group also contributes to the social insurance in the PRC.

The Group has implemented training for new employees during their course of employment in order to ensure that employees are able to meet the job requirements. In addition, the Group will occasionally arrange internal and external trainings for the Group's employees. For external trainings, external speakers who have extensive experience in information technology may be invited to attend the Group's office to perform the training, and for internal trainings, the topics may include finance, accounting, risk management or information technology and such trainings will be conducted by the relevant department. The Group considers these on job trainings are necessary for the employees to handle issues which may arise in their day to day operations and can enhance their ethic and morale.

The Company continued to track and monitor its investments and conduct third-party professional evaluation. As most of the Company's investments are emerging market growth companies, some of the entities which the Company invested are in the stage of research and development. The Company considers its investment management in the following aspects:

- effective output from the application of the industrial chain, including technological output;
- operating condition, including the achievement of business objectives, standardization of the corporate governance structure, and the stability of core talents; and
- judgment on the future growth prospects of the industry it located and technology market.

With technological advancement and the changes in needs and behaviors of the new generation consumers in recent years, our investment helps to achieve the upstream and downstream digitalization of the industrial chain. It is also beneficial for us to consolidate new technology and service application scenarios to help brands upgrade their traditional business models, and more enterprises will require digital transformation solutions. Upon the Company's evaluation, the overall investment of the Group in the first half of 2021 is in line with our strategic planning direction.

CONVERTIBLE NOTES

Reference is made to the announcements of the Company dated on 9 February 2021, 15 February 2021 and 29 March 2021 in relation to the issue of Convertible Notes under General Mandate (the “Announcements”). Unless otherwise defined, terms used in this section shall bear the same meanings as those defined in the Report.

On 9 February 2021, the Company entered into the Subscription Agreement with the Investors (which included the First Investor and the Subscribers) in relation to the issue of Convertible Notes in the aggregate principal amount of HK\$35 million. In addition to the First Investor, the Convertible Notes were subscribed by the Subscribers who are not less than six in number and have adhered to the terms of the Subscription Agreement through the entering into of a deed of adherence. To the best of the Directors’ knowledge, information and belief having made all reasonable enquiries, the First Investor, the Subscribers and their ultimate beneficial owners are Independent Third Parties and are not acting in concert with any of the connected person(s) of each other.

The Subscription was completed on 29 March 2021 and the approval for the listing of, and permission to deal in the Conversion Shares has been granted by the Stock Exchange. Based on the initial Conversion Price of HK\$0.24 per Conversion Share, a maximum number of 145,833,333 new ordinary shares of the Company will be allotted and issued upon exercise of the Conversion Rights attached to the Convertible Notes in full. The closing price per Share on the Stock Exchange on the date of the Subscription Agreement and the Supplemental Agreement on 15 February 2021 are HK\$0.24. The net proceeds of the issue of the Convertible Notes, after deduction of expenses, are approximately HK\$34.3 million.

The Company intended to use the net proceeds for business expansion and investments in China and Southeast Asia in technology, direct to consumer and advertising verticals related to the mother-child industry, backend technology enhancement, marketing expenses and general working capital purposes.

As of 30 June 2021, the Company had utilized approximately HK\$26.64 million of the net proceeds raised from the Subscription and HK\$7.66 million of the net proceeds raised from the Subscription remained unutilized. The Group will gradually utilize the unutilized net proceeds depending on its business needs and is expected to utilize the residual amount of such net proceeds within approximately 2 years.

MANAGEMENT DISCUSSION AND ANALYSIS

INVESTMENT OBJECTIVES AND POLICIES

The Group is a vertical online platform for the CBM market. In relation to its business development, family-related business of the Group refers to business that uses Internet technology to address the needs of new generation home consumers as target customers, such as early education, entertainment, health and services. On the basis of its existing core business, the family-related business of the Group still adheres to the original family-based user groups of its CBM platform, and forms a new maternal and child ecological layout with diversified maternal and child family services. It also extends the traditional and single maternal and child services to several cross-sector segments including health, education, finance and entertainment by way of investment and strategic cooperation, further expanding the types of family services and customer reach, prolonging user life-cycle, and meeting the increasing long-tail demands from the mother-child groups.

There have been rapid changes in the Internet industry and the competition in online advertising and e-commerce market and related O2O business is intense. The Group intends to expand into new core sectors such as new socialized retail, family medical, family education and internet technology with external empowerment. Leveraging the investments in the companies engaged in relevant new sectors, the Company will be able to reduce its costs to a certain extent and enter such new sectors in a quicker manner, as well as gain technology reserves and Internet traffic from new resources.

As for its investment strategy, in line with its principal business and for its future business development, the Company targets on investments in entities which are principally engaged in CBM and family related business chain and related technology research and development. The Company has adopted investment policies which it will take into account when making its investment decisions. In general, the Company prefers long-term investments as opposed to short-term ones and usually invests in targeted entities for more than one year. For the Company's mode of investment, the Company may adopt equity investments through acquisition of shareholdings in the targeted entities or loan financings by providing facilities to the targeted entities depending on, among others, potential rate of return which generally shall be not less than 6% per annum or the prevailing one-year fixed deposit interest rate published by the People's Bank of China (whichever is higher), strategic cooperation with the invested entities of the company, negotiation with the counterparties as well as compliance with legal and regulatory requirements. In order to reduce its participation in the operation and management of its investments so as to focus on its existing business, the Company generally does not invest in more than 20% shareholding in the targeted entities.

In addition to financial returns, the Directors expect that the investments will create synergies to the Group's business in terms of upgrade in technologies, enrichment of contents as well as expansion of coverage of value-added services which in turn result in enhancement of operational efficiency, user experience and user base. Depending on the business natures of the invested companies, the Group usually requires the invested companies to share their relevant technologies to offer selected contents such as games, animations and audio and video contents of them for the Platform, to share user data and network for promotion of the Group's APPs, and to support the Group's provision of value-added services to its users. The Group has a certain scale of investment activities. Failure to promptly and effectively manage investment risks may affect realization of investment strategies. The risk resulting from adverse movements in industry market could also impact the Group's investment.

The Group has formed an investment team (the "team"). The team's member consisted of the Group's chief executive officer, chief financial officer, marketing director, technical director and operation director who are experienced in the Internet industry. The team has been continuously paying attention to the market influence and technological development of the investment areas related to the CBM business chain. The Group continuously monitor the status of business development and financial exposure of investees and conducts regular assessments. The Group also strictly requires the invested entities to use the proceeds of the Group's investments for the sole purpose of the planned business development projects as agreed by the Group.

MANAGEMENT DISCUSSION AND ANALYSIS

As disclosed in the announcements of the Company dated 15 December 2017 and 28 September 2018, the Group has been in discussions with Management Committee of the Software Valley of Nanjing, the PRC regarding the acquisition of land for its headquarters. As disclosed in the announcement of the Company dated 27 December 2019, Nanjing Wanhui, an indirect wholly-owned subsidiary of the Company, has entered into the Development Entrustment Agreement with Nanjing Ningnan Real Estate Development pursuant to which Nanjing Ningnan Real Estate Development shall mainly (i) assist Nanjing Wanhui in acquisition of land use right of the Target Land from Nanjing Planning and Natural Resources Bureau; and (ii) construct and develop the Target Land as the Group's new headquarters in the PRC. The Consideration of approximately RMB54.3 million (equivalent to approximately HK\$60.3 million) includes the costs of the acquisition, construction and development of the Target Land.

The amount of the consideration to be paid by Nanjing Wanhui will be satisfied mainly by the net proceeds from the Placing allocated for acquiring property or land for the construction of the headquarters of the Company, with any remaining amount by the Group's internal resources. In 2019, Nanjing Wanhui has paid a land premium of RMB5.34 million (equivalent to approximately HKD6.0 million) to Nanjing Bureau of Finance. During 2020, a total of construction fees and various government administrative fees and taxes of RMB10.6 million (approximately HKD12.6 million) were paid. The remaining portion of the allocated fund has not been utilised. The Company has obtained the construction land planning permit and the land certificate for the construction of the headquarters of the Company.

According to the Development Entrustment Agreement, the planned construction area in the Nanyuan Area, the Software Valley of Nanjing, the PRC has been approved by the government authority, spanning to existing Mading Road (馬定路) to the north, existing Meiyuan South Road (梅苑南路) to the west, existing Second Passage of Lukou Airport (祿口機場二通道) to the east and Dazhou Road (大周路) to the south. The Target Land is located at Nanyuan Area, the Software Valley of Nanjing, the PRC, with a site area of approximately 3,210 sq.m. and a total floor area of approximately 8,358 sq.m. It is expected that the construction work will be completed in 2022, subject to the actual progress of such construction work. The Group is currently leasing properties for its own use as offices. The Directors consider that the development of the Target Land as the Group's new headquarters will benefit the Group in saving rental expenses. The Company may consider renting out the remaining premises for rental returns.

CORPORATE GOVERNANCE AND OTHER INFORMATION

SHARE OPTION SCHEME

The Company adopted a share option scheme on 19 June 2015 (the "Share Option Scheme") for the purpose of providing incentive or rewarding eligible persons (including the Directors or employees (whether full time or part time), consultants or advisors of our Group) for their contribution to, and continuing efforts to promote the interests of our Group and for such other purposes as the Board may approve from time to time. No share option has been granted under the Share Option Scheme since its adoption by the Company.

The Share Option Scheme became effective on the date of the Company's listing (8 July 2015) and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

The maximum number of shares which may be issued upon exercise of all options granted and to be granted under the Share Option Scheme is 100,000,000 shares, representing 10% of the shares of the Company in issue as at the date of listing of the Company's shares on GEM (i.e. 8 July 2015) and approximately 9.75% of the shares of the Company in issue as at the date of this report. The maximum number of shares issuable under share options granted to each eligible participant in the Share Option Scheme (including both exercised and outstanding options) within any 12-month period is limited to 1% of the shares of the Company in issue. Any grant or further grant of share options in excess of this limit is subject to Shareholders' approval in a general meeting. A grant of share options under the Share Option Scheme to a Director, chief executive or substantial Shareholder of the Company, or to any of their associates, is subject to approval in advance by the independent non-executive Directors (excluding any independent non-executive Director who is the grantee of the Option). In addition, any share options granted to a substantial Shareholder or an independent non-executive Director of the Company, or to any of their associates, which would result in the shares issued and to be issued, upon exercise of all options already granted and to be granted (including options exercised, cancelled and outstanding), to such person in the 12-month period up to and including the date of the grant in excess of 0.1% of the shares of the Company in issue and with an aggregate value (based on the closing price of the Company's shares at the date of grant) in excess of HK\$5 million, are subject to Shareholders' approval in advance at a general meeting.

The offer of a grant of share options may be accepted within 30 days from the date of offer upon payment of a nominal consideration of RMB1 in total by the grantee. The exercise period of the share options granted is determined by the Directors, save that such a period shall not be more than 10 years from the date of offer of the share options and subject to the provisions for early termination as set out in the Share Option Scheme. There is no requirement of a minimum period for which an option must be held before it can be exercised.

The exercise price of the share options shall be not less than the highest of (i) the Hong Kong Stock Exchange closing price of the Company's shares on the date of offer of the share options, which must be a date on which the Hong Kong Stock Exchange is open for business of dealing in securities; (ii) the average Hong Kong Stock Exchange closing price of the Company's shares for the five trading days immediately before the date of offer; and (iii) the nominal value of the Company's shares as at the date of offer.

No share options were granted from the date of adoption up to 30 June 2021. Therefore, no share options were outstanding under the Scheme.

CORPORATE GOVERNANCE AND OTHER INFORMATION

DIRECTORS' RIGHT TO ACQUIRE SHARES OR DEBENTURE

Save as disclosed above, as at 30 June 2021, no rights to acquire benefits by means of the acquisition of shares in or debentures of the Company were granted to any Directors or their respective spouse or children under 18 years of age, or were any such rights exercised by them, or was the Company, its holding company, or any of its subsidiaries and fellow subsidiaries a party to any arrangement to enable the Directors to acquire such rights in any other body corporate.

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES OF THE COMPANY

Neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities during the Period.

COMPLIANCE WITH THE MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code as set out in Appendix 10 of the Listing Rules as its code regarding Directors' dealings in the Company's securities. Having made specific enquiry of all Directors, all Directors confirmed that they have complied with the Model Code during the Period.

NON-COMPETITION UNDERTAKINGS

The controlling shareholders of the Company, namely Ms. Li Juan, Mr. Cheng Li, Mr. Wu Haiming, Loyal Alliance Management Limited, Prime Wish Holdings Limited and Victory Glory Holdings Limited (the "Controlling Shareholders") have entered into a deed of non-competition (the "Deed of Non-competition") on 19 June 2015. Details of the Deed of Non-competition are set out in the section headed "Relationship with Controlling Shareholders" of the Prospectus and the non-competition undertaking has become effective from the date of listing. So far as the Directors are aware, as at the date of this report, the Controlling Shareholders have not breached any terms under the Deed of Non-competition.

SHARE AWARD PLAN

The Board has adopted a share award plan (the "Plan") on 6 July 2016 so as to recognize and appreciate the contribution of any qualified employees towards the growth and development of the Group. On 8 September 2016, Mr. Hsieh Kun Tse, the non-executive Director, had transferred the entire issued share capital of Properous Commitment Holdings Limited ("Properous Commitment") which in turn holds 51,600,000 of the Shares of the Company, to TMF Trust (HK) Limited at nil consideration. The trustee holds on trust the award Shares for the benefit of the selected employees in accordance to the terms of the trust deed, until such award Shares are vested in the relevant selected employees in accordance with this Plan. For details of the Plan, please refer to the announcements of the Company dated 7 July 2016 and 14 July 2016. To the best knowledge of the Directors, as at the date of this report, both Properous Commitment and TMF Trust (HK) Limited have complied with the terms of the trust deed.

As at the date of this report, no Shares have been granted to qualified employees under the Plan.

CORPORATE GOVERNANCE AND OTHER INFORMATION

COMPLIANCE WITH QUALIFICATION REQUIREMENTS AND LAWS AND REGULATIONS

The Group's primary business is considered to be value-added telecommunications service, a sector where foreign investment is subject to significant restrictions under the current PRC laws and regulations. Accordingly, with the restriction of the current PRC laws and regulations and the implementation of local competent authorities, the Company cannot acquire Nanjing Xihui and Nanjing Xinchuang, which hold certain licenses and permits required for our primary business. As a result, the Group entered into a series of contractual arrangement with Nanjing Xihui and Nanjing Xinchuang and their respective registered shareholders (the "Structural Contract") in order to conduct the said business, and to assert management control over the operations of and enjoy the economic benefits derived from Nanjing Xihui and Nanjing Xinchuang. For details of the Contractual Arrangement, please refer to the section headed "Contractual Arrangement" of the 2020 Annual Report.

In addition, under the current PRC laws and regulations, a foreign investor intending to acquire any equity interest in a value-added telecommunications business in the PRC must also demonstrate a good track record and possess operating experience in providing value-added telecommunications services overseas ("Qualification Requirements").

So far as the Directors are aware, as at the date of this report, the Company has taken all reasonable steps to ensure that such Qualification Requirements are met if and when the PRC laws and competent authorities substantially allow foreign investors to invest in value-added telecommunications services in the PRC. The Company will continue to communicate with the relevant governmental authorities and provide updates where necessary.

Due to the nature of our business, the Company is significantly affected by PRC laws and regulations, including laws and regulations of telecommunications services, those relevant to advertising service, information security and privacy protection as well as intellectual property rights. As far as the Directors are aware, the Company had no material breach of any relevant laws and regulations as at 30 June 2021. The Company reduced its potential legal risk through different management and monitoring systems, such as regular review of the effectiveness of internal control system, defined duty division and provided training to employees and management related to such laws and regulations and recruit legal adviser as professional consultant.

COMPETING INTERESTS

So far as the Directors are aware, as at the date of this report, none of the Directors or the Controlling Shareholders and their respective close associates has any interests in a business which competes or may compete with the business of the Group or have any other conflict of interests with the Group.

AUDIT COMMITTEE AND REVIEW OF FINANCIAL STATEMENTS

The Company has established an audit committee (the "Audit Committee") with written terms of reference in compliance with Rules 3.21 and 3.22 of the Listing Rules. The primary duties of the Audit Committee are to review the Company's annual reports and accounts and interim reports, the financial reporting, risk management and internal control systems of the Group and to provide advice to the Board. The Audit Committee consists of two independent non-executive Directors, namely Mr. Wu Chak Man (chairman of the Audit Committee) and Mr. Ge Ning, and one non-executive Director, namely Ms. Li Juan. The Audit Committee has reviewed the unaudited interim results and interim report of the Group for the Period. The interim condensed consolidated financial statements for the Period have not been audited.

CORPORATE GOVERNANCE AND OTHER INFORMATION

RISKS AND UNCERTAINTIES

Our Group believes that there are certain risks and uncertainties in our operations, some of which are beyond the Group's control, including:

- (i) The Group is unable to guarantee that the Contractual Arrangement with the PRC Contractual Entities will be deemed by the relevant governmental and judicial authorities to be in compliance with existing PRC laws and regulations or that it will comply with future PRC laws and regulations, including but not limited to the new draft of the Foreign Investment Law of PRC (中華人民共和國外國投資法).

Our Directors have already formulated monitoring measures and examine the risk evaluation and report regularly, the details of which are set out in the Contractual Arrangement.

- (ii) The revenue of the Group relies significantly on the marketing and promotional services provided and new businesses may not be successfully developed and introduced going forward.

Since the operational environment in the Internet industry has never-ending changes and improvements, we believe we should timely keep track of the industry, market and customer demands development to review our business strategies. We jointly make investigation and assessment with industry experts and partners in addition to monitoring the market and industry by ourselves.

We optimize our sales and promotion models constantly through innovation to satisfy the demand of existing customers and explore new customers at the same time.

The Group will develop diversified business actively to anticipate comprehensive income. We will continue to propel industry chain cooperation and upgrade strategies, exploit more demands from mother-child households and formulate project management system to explore high-quality and suitable cooperation projects.

Research and development of technology is our significant support in business development. We have management system in place for technological research and development, so as to facilitate effective business development through technology.

- (iii) The Company's investment scale is expanding which results in the failure to carry out timely and effective management may affect realization of investment expectations.

The Company pays close attention to investment risks and has established an investment team to make recommendations on investment matters. Our financial department, legal advisers and technical team are responsible for the follow-up of post-investment management so as to continuously monitor the status of business development and financial risks of investees. The Company has established an investment management system to implement relevant risk management and internal control measures. The Company also obtains relevant professional experience and knowledge by consulting external experts. Due to the uncertainties of the epidemic, the Group will continue to monitor the development of the epidemic, evaluate its impact, respond in an active manner and make timely disclosures.

- (iv) At the date of this report, the Group expects the outbreak of COVID-19 will continue to affect part our clients. Due to the uncertainties of the epidemic, it is difficult to estimate its influence in the future. The Group will continue to monitor the development of the epidemic, evaluate its impact, respond in an active manner and make timely disclosures.

The interim condensed consolidated financial statements have been prepared in accordance with the same accounting policies adopted in the annual report for the year ended 31 December 2020, except for the accounting policy changes that are expected to be reflected in the annual report for the year ended 31 December 2021. Details of any changes in accounting policies are set out in note 2.2.

The unaudited consolidated results for the six months ended 30 June 2021 have not been audited by the Company’s auditors, but have been reviewed by the Company’s audit committee.

2.2. CHANGES IN ACCOUNTING POLICIES

In the accounting period beginning from 1 January 2021, the Group has adopted, for the first time, the following amendments to International Financial Reporting Standards (“IFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) that affect the Group and are adopted for the current period’s financial information:

Amendments to IFRS 9, IFRS 39, IFRS 7, IFRS 4
and IFRS 16
Amendment to IFRS 16

Interest Rate Benchmark Reform — Phase 2

Covid-19-Related Rent Concessions beyond 30 June 2021
(early adopted)

These amendments have had no material effect on how the Group’s results and financial position for the current or prior periods have been presented in this unaudited interim condensed consolidated financial information. The Group has not applied any other new standards or interpretations that are not yet effective for the current accounting period.

3 CORRECTION OF PRIOR PERIOD ERRORS

In preparing the interim condensed consolidated financial statements for the six months ended 30 June 2021, the Group had identified certain accounting treatments adopted by the Group in its previously issued interim condensed consolidated financial statements for the six months ended 30 June 2019 were incorrect. The amounts presented in the Company's interim condensed consolidated financial statements in respect of the six months ended 30 June 2019 have been restated to correct those errors identified.

(a) Adjustments relating to classification of unlisted equity securities

Certain investments in unlisted equity securities which were previously classified as equity instruments at fair value through other comprehensive income ("FVOCI") contain contractual terms that for the investee companies and/or their original shareholders have contractual obligations to repurchase the equity shares held by the Group and/or issue additional shares to the Group in case of certain contingent events that have genuine possibility of occurring. Accordingly, those investments do not meet the definition of an equity instrument in IAS 32 "Financial Instruments: Presentation" and cannot be designated at FVOCI by the Group. Such investments should have been classified as financial assets at fair value through profit or loss ("FVPL") under IFRS 9 as at 1 January 2018.

(b) Adjustments relating to classification of loans to others

Certain loans to others which were previously classified as financial assets at FVOCI contain convertible options where the loans are convertible into equity interest in the borrowers. Accordingly, these loan receivables do not satisfy the contractual cash flow characteristics test for financial assets at FVOCI specified in IFRS 9. Such loans receivables should have been classified as financial assets at FVPL under IFRS 9 as at 1 January 2018.

The Group has quantified the financial impact on its financial statements and their impact on the Company's interim condensed consolidated financial statements are provided in the tables below.

8 INCOME TAX EXPENSE

The Group is subject to income tax on an entity basis on profit arising in or derived from the jurisdictions in which members of the Group are domiciled and operate.

The Company was incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Law of the Cayman Islands and accordingly is not subject to income tax.

Under the relevant income tax law, the Mainland China subsidiaries are subject to income tax at a statutory rate of 25% on their respective taxable income, except for Nanjing Xibai, Nanjing Xile, Khorgos Xizhi and Nanjing Xihui.

Pursuant to the Notice of the Ministry of Finance and the State Administration of Taxation on Enterprise Income Tax Policies for Further Encouraging the Development of Software and Integrated Circuit Industries (《財政部、國家稅務總局關於進一步鼓勵軟件產業和集成電路產業發展企業所得稅政策的通知》) promulgated by the State Council on 20 April 2012, if a corporate enterprise is recognised as a software enterprise, from tax filing at its first profitable year, the corporate enterprise can enjoy a preferential tax treatment (i.e., 2-year exemption and 3-year half payment). Nanjing Xibai and Nanjing Xile have been recognised as software enterprises since 27 May 2016 and filed in local tax bureau. Therefore, Nanjing Xibai would be exempted from income tax for their first two profitable years (i.e., 2015 and 2016) followed by a preferential income tax rate of 12.5% from 2017 to 2019 and Nanjing Xibai has been recognised as high-tech enterprise since 6 December 2019, the corporate enterprise can enjoy a preferential income tax rate of 15% from 2020 to 2022. Nanjing Xile would be exempted from income tax for their first two profitable years (i.e., 2019 and 2020) followed by a preferential income tax rate of 12.5% in 2021.

In addition to the recognised identification of high-tech enterprise and entitlement of a preferential income tax rate of 15%, if an enterprise is approved and certified by relevant regulatory authorities as "Important Software Enterprise" under the National Planning Layout for the year, it can further enjoy a preferential tax rate of 10%. According to the relevant regulations, the difference between the tax amount paid at the rate of 15% and the tax amount calculated at the preferential corporate income tax rate of 10% will be refunded to the relevant enterprises after the relevant period, and will be correspondingly reflected in the profit or loss account of the enterprise when it is refunded.

Pursuant to the notice of the Cai Shui [2016] No. 49 issued by the Ministry of Finance, the State Administration of Taxation, National Development and Reform Commission of the PRC and Ministry of Industry and Information Technology of the PRC on 4 May 2016, Nanjing Xibai had made an application for a preferential tax rate of 10% regarding to the "Important Software Enterprise" for Year 2019. As at 12 October 2020, the difference between the tax amount paid at the rate of 15% and the tax amount calculated at the preferential income tax rate of 10% of Nanjing Xibai has been received, and reflected in the Group's consolidated financial statements in Year 2020.

8 INCOME TAX EXPENSE (CONTINUED)

Pursuant to the Notice of the Ministry of Finance and the State Administration of Taxation on Enterprise Income Tax Policies for Xinjiang Uygur Autonomous Region and Xinjiang Kashgar Autonomous Region (《財政部、國家稅務總局關於新疆喀什霍爾果斯兩個特殊經濟開發區企業所得稅優惠政策的通知》) promulgated by the State Council on 29 November 2011, if a corporate enterprise is newly established within calendar years 2010 to 2020 in two specific regions with business fallen in the scope of the Catalogue of Preferred Enterprise Income Tax for Key Encouraged Industries in Poor Areas of Xinjiang (《新疆困難地區重點鼓勵發展產業企業所得稅優惠目錄》), the corporate enterprise can enjoy a preferential tax treatment (i.e., 5-year exemption) from the first year when the entity begins to generate revenue. Khorgos Xizhi is exempted from income tax from calendar years 2017 to 2020 upon an approval by the State Taxation Bureau of the Xinjiang Uygur Autonomous Region in October 2017.

Pursuant to the Notice of the Ministry of Science and Technology, the Ministry of Finance, and the State Administration of Taxation on Revising and Issuing the Measures for the Administration of the Certification of High-tech Enterprises (《科技部、財政部、國家稅務總局關於修訂印發《高新技術企業認定管理辦法》的通知》) promulgated by the State Council on 19 June 2017, if a corporate enterprise is recognised as a high-tech enterprise, the corporate enterprise can enjoy a preferential income tax rate of 15%. Nanjing Xihui has been recognised as a high-tech enterprise since 30 November 2018 and filed in local tax bureau. Therefore, Nanjing Xihui would enjoy a preferential income tax rate of 15% from 2018 to 2020. Such recognition is due on 30 December 2021. Upon the expiration of such recognition, it is expected Nanjing Xihui will be renew without any hindrance. Therefore, corporate income tax at the first half of 2021 was calculated AT an income tax rate of 15%.

The income tax expense of the Group is analysed as follows:

The Group's trading terms with its customers are mainly on credit. The credit period is generally 90 to 180 days after date of invoices, depending on contracts with individual customers. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade receivables relate to customers with a good track record, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

	30 June 2021 (Unaudited) RMB'000	31 December 2020 (Audited) RMB'000
Cash and bank balances	44,411	44,090

At the end of the reporting period, the cash and bank balances of the Group denominated in RMB amount to approximately RMB32,281,000 (2020: RMB44,019,000). The RMB is not freely convertible into other currencies, however, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short term time deposits are made for varying periods of between one day and three months depending on the immediate cash requirements of the Group, and earn interest at the respective short term time deposit rates. The bank balances are deposited with creditworthy banks with no recent history of default.

24 FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (CONTINUED)

Management has assessed that the fair values of cash and cash equivalents, trade and bills receivables, financial assets included in prepayments, deposits and other receivables, trade payables, financial liabilities included in other payables, convertible notes, interest-bearing bank borrowings and lease liabilities based on their notional amounts, reasonably approximate to their carrying amounts largely due to the short-term maturities of these instruments.

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance manager reports directly to the chief financial officer and the audit committee. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer. The valuation process and results are discussed with the audit committee twice a year for interim and annual financial reporting.

The fair values of the financial assets are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair value of financial assets at FVPL and FVOCI under Level 3 which have been assessed by the Appraiser using the valuation techniques of (i) market approach, discounted cash flows and asset-based approach for growing and well-developed companies and (ii) Black Scholes Model for financial assets with derivative embedded. The following table provides information about Level 3 fair value measurements.

Below is a summary of significant unobservable inputs to the valuation of financial instruments as at the end of the reporting period:

Financial assets	Valuation techniques	Significant unobservable input
Financial assets at FVPL		
Unlisted equity securities and convertible loans to third parties	Discounted Cash Flows	Effective interest rate, taking into account of risk-adjusted return, ranging from 9% to 10% (2020: 10% to 11%) (note (i))
	Black Scholes Model	Expected volatility of 50% (2020: 35%), taking into account volatility in entities in similar industries extracted from the financial database of Wind (萬得信息技術股份有限公司) ("Wind") (note (ii))
Financial assets designated at FVOCI		
Unlisted equity securities	Market approach	Price/book ratio ranging from 7 to 26 (2020: 4.4 to 10.9), taking into account price/book ratio of entities in similar industries extracted from database of Wind, adjusted for discount for lack of marketability (note (iii)) Enterprise value/sales ratio ranging from 3 to 13 (2020: 4 to 24), taking into account enterprise value/sales ratio of entities in similar industries extracted from database of Wind, adjusted for discount for lack of marketability (note (iv))

24 FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (CONTINUED)

Notes:

- (i) An increase in the effective interest rate used in isolation would result in a decrease in the fair value measurement of the financial assets at FVPL and vice versa. 5% increase/decrease in the effective interest rate holding all other variables constant would decrease/increase the carrying amount of financial assets at FVPL RMB1,606,000 and RMB1,860,000 (2020: RMB1,523,000 and RMB1,815,000), respectively.
- (ii) An increase in the expected volatility used in isolation would result in an increase in the fair value measurement of the financial assets at FVPL and vice versa. 10% increase/decrease in the volatility holding all other variables constant would increase/decrease the carrying amount of financial assets at FVPL by RMBNil (2020: RMB Nil).
- (iii) An increase in the price/book ratio used in isolation would result in an increase in the fair value measurement of the financial assets designated at FVOCI, and vice versa. 2% increase/decrease in the price/book ratio holding all other variables constant would increase/decrease the carrying amount of the financial assets designated at FVOCI by RMB3,437,000 and RMB3,453,000 (2020: RMB3,349,000 and RMB3,361,000), respectively.
- (iv) An increase in the enterprise value/sales ratio used in isolation would result in an increase in the fair value measurement of the financial assets designated at FVOCI, and vice versa. 2% increase/decrease in the enterprise value/sales ratio holding all other variables constant would increase/decrease the carrying amount of the financial assets designated at FVOCI by RMB358,000 and RMB362,000.00 (2020: RMB691,000 and RMB699,000), respectively.
