CHARACTERISTICS OF GEM

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Conditions precedent to the First Loan Capitalisation Agreement, the Second Loan Capitalisation Agreement and the Third Loan Capitalisation Agreement

The Loan Capitalisation (CP) Completion is conditional upon fulfillment of the following conditions:

- (i) the Listing Committee granting the approval for the listing of, and permission to deal in, the Loan Capitalisation Shares to the respective Subscriber;
- (ii) the passing by the Independent Shareholders who are entitled to vote and not required to be abstained from voting under the GEM Listing Rules in the extraordinary general meeting of the Company to be held and convened approving, *inter alia*, the allotment and issue of the Loan Capitalisation Shares to the respective Subscriber;

- (v) the allotment and issue of the Loan Capitalisation Shares does not trigger the obligations to make a mandatory general offer under The Code on Takeovers and Mergers and Share Buy-backs; and

LETTER FROM THE BOARD

- (vi) there is no indication from the Stock Exchange that the listing status of the securities of the Company will be revoked by the Stock Exchange as a result of the implementation of the transactions contemplated under any of the Loan Capitalisation Agreements.

For each of the First Loan Capitalisation Agreement, the Second Loan Capitalisation Agreement and the Third Loan Capitalisation Agreement, none of the above-mentioned conditions is waivable. If any of the above-mentioned conditions are not fulfilled on or before 17 September 2021 (the “**Long Stop Date**”) (or such other time and date as the parties shall agree in writing) for the respective Loan Capitalisation Agreement, the respective Loan Capitalisation Agreement shall terminate and cease to have any effect and the rights and obligations of the parties thereunder shall forthwith cease and terminate. With reference to the announcement of the Company dated 17 September 2021, the above Long Stop Date was extended by the parties in writing on 17 September 2021 to 29 October 2021.

Loan Capitalisation Shares

Assuming that there will be no change in the number of issued Shares between the date of this circular and the completion of each of the Loan Capitalisation Agreements, the aggregate of 133,705,046 Loan Capitalisation Shares which may be allotted and issued under the three Loan Capitalisation Agreements represent (i) approximately 3.04% of the existing number of issued Shares as at the Latest Practicable Date; and (ii) approximately 2.95% of the number of issued Shares as enlarged by the allotment and issue of all the Loan Capitalisation Shares.

The aggregate nominal value of the Loan Capitalisation Shares is HKD1,671,313.08.

LC Subscription Price

The LC Subscription Price of HKD0.26 per Loan Capitalisation Share:

- (i) represents the closing price of HKD0.26 per Share as quoted on the Stock Exchange on the Last Trading Day; and
- (ii) represents a premium of approximately 0.39% over the average of the closing price of HKD0.259 per Share quoted on the Stock Exchange for the last five consecutive trading days immediately prior to the Last Trading Day.

The net liability attributable to each Share was HKD0.0195 as at 31 December 2020, being the date to which the latest published unaudited financial statements of the Group were made up.

LETTER FROM THE BOARD

The LC Subscription Price was arrived at after arm's length negotiations between the Company and the Subscribers with reference to the prevailing market prices of the Shares, the Group's historical performances and present financial position as well as current market condition. The Directors (including the independent non-executive Directors who have given their opinion after considering the advice from BaoQiao Partners, and excluding Mr. CHAN Ting and Madam CHEUNG who have a material interest in the transactions and who have abstained from voting on the resolutions approving the First Loan Capitalisation Agreement and the Second Loan Capitalisation Agreement, Mr. Chan Tung Mei who is the parent of Mr. CHAN Ting and the spouse of Madam Cheung) considers that the LC Subscription Price is fair and reasonable and in the interests of the Company and the Shareholders as a whole.

The net issue price, after deduction of relevant expenses, is estimated to be approximately HKD0.26 per Loan Capitalisation Share.

Completion

Completion of the loan capitalisation shall take place on a day within ten Business Days after the fulfillment of all the conditions precedent (or such other date to be agreed by the parties).

Ranking of the Loan Capitalisation Shares

The Loan Capitalisation Shares when allotted and issued, shall rank *pari passu* in all respects with the Shares in issue on the date of their allotment and issue.

Application for listing

An application will be made by the Company to the Listing Committee for the grant of the listing of, and permission to deal in, the Loan Capitalisation Shares.

General Mandate

The Loan Capitalisation Shares will be allotted and issued under the General Mandate granted to the Directors at the AGM, subject to the limit of 857,944,926 Shares (representing 20% of the number of Shares in issue on the date which the General Mandate was granted). As at the Latest Practicable Date, the General Mandate of 58,606,927 Shares has been utilised. The 133,705,046 Loan Capitalisation Shares to be allotted and issued will utilise approximately 15.58% of the General Mandate.

REASONS FOR THE LOAN CAPITALISATION

The principal activities of the Group are provision of (i) lottery-related services, (ii) internet plus services (solution and supply chain), (iii) manufacturing and distribution of personal protective equipment and (iv) other services.

LETTER FROM THE BOARD

The Directors consider that the loan capitalisation under the Loan Capitalisation Agreements will allow the Company to settle the outstanding sums owing by the Company to the Subscribers without utilising existing financial resources of the Group while reducing the gearing level and hence strengthening the financial position of the Group.

In view of the above and taking into account the LC Subscription Price for the allotment and issue of new Shares to the Subscribers, the Directors (including the independent non-executive Directors who have given their opinion after considering the advice from BaoQiao Partners, and excluding Mr. CHAN Ting and Madam CHEUNG who had abstained from voting at all the Board resolutions approving the Loan Capitalisation Agreement in respect of himself and herself, Mr. Chan Tung Mei who is the parent of Mr. CHAN Ting and spouse of Madam Cheung) consider that the terms of each of the Loan Capitalisation Agreements including the LC Subscription Price are on normal commercial terms, fair and reasonable and the entering into of each of the Loan Capitalisation Agreements is in the interests of the Company and the Shareholders as a whole.

As at the Latest Practicable Date, save for the two convertible bonds in aggregate amount of HK\$89,625,000 and HK\$50,000,000 (the “**Convertible Bonds**”) and the outstanding loans and other borrowings of approximately HK\$10,011,000, the Company does not have any other outstanding loans which are not subject to the Loan Capitalisation. The Company has no intention or plan to capitalise the above mentioned loans and other borrowings. The Company will seek for any possibilities of fund raising activities continuously for the repayment of the Convertible Bonds, the outstanding loans and other borrowings. Furthermore, the Company will discuss with the bondholder of the Convertible Bonds to consider any possibilities to convert all or part of the Convertible Bonds.

Due to the current cash position of the Group with only bank balances and cash of approximately HK\$2.67 million as at 31 December 2020, the Group itself has insufficient financial resources to settle all outstanding borrowings owing by the Company to the Subscribers, which are connected persons, and other third parties. In order to reduce the gearing level under the current financial position of the Group and due to the willingness of the lenders to capitalise the loans, the Board decided to settle the loans through the Loan Capitalisation with the Subscribers, and the third parties under the Fourth Loan Capitalisation Agreement and the Fifth Loan Capitalisation Agreement as defined in the announcement of the Company dated 8 June 2021 without utilizing existing financial resources of the Group.

FUND RAISING ACTIVITIES IN THE PAST TWELVE-MONTH PERIOD

The Company did not conduct any fund raising activities involving the issue of its equity securities in the 12 months immediately preceding the date of this circular.

LETTER FROM THE BOARD

inspection as required under the GEM Listing Rules, is not to be quoted or referred to, in whole or in part, nor shall this letter be used for any other purposes, without our prior written consent.

PRINCIPAL FACTORS AND REASONS CONSIDERED

In giving our recommendation to the Independent Board Committee and the Independent Shareholders in respect of the Loan Capitalisation, we have taken into consideration the following factors and reasons:

1. Background Information of the Group

The Company is incorporated in the Cayman Islands with limited liability and the Shares of which are listed on the GEM of the Stock Exchange. The principal activities of the Group are provision of (i) lottery-related services, (ii) internet plus services (solution and supply chain), (iii) manufacturing and distribution of personal protective equipment and (iv) other services.

The Group has been involved in the lottery business in mainland China for more than a decade. In the recent years, the Group continues to proactively identify new investment opportunities and expand into different business scopes to diversify its source of income.

In 2017, the Group launched its internet plus business segment which introduce interactive marketing solutions to interact with lottery consumers and achieve product promotion. On 6 May 2019, the Group completed the acquisition of Hero Global Holdings Limited (“**Hero Global**”). Hero Global and its subsidiaries are principally engaged in the provision of internet plus solution and supply chain services and trading of goods through internet platform. Based on our discussion with the Management, the acquisition of Hero Global enabled the Group to further expand its business portfolio in its internet plus services segment.

In view of the high demand in the face mask market since the beginning of 2020 due to the outbreak of COVID-19 pandemic, the Group developed a new business segment on the manufacturing and distribution of personal protective equipment. As advised by the Management and disclosed in the 2020 Annual Report, it is expected that the revenue generated from personal protective equipment would be one of the engines for business growth of the Group in the forthcoming years.

LETTER FROM BAOQIAO PARTNERS

FY2020 vs FY2019

As discussed in the paragraph headed “1. Background Information of the Group” in this letter, the Group completed the acquisition of Hero Global on 6 May 2019, which enabled the Group to expand its business portfolio in its Internet Plus segment. The Group also developed the new business segment on the manufacturing and distribution of personal protective equipment in early 2020 to capture the demand in the face mask market.

The Group’s revenue increased by approximately 281.4% from approximately HK\$43.5 million for FY2019 to HK\$165.9 million for FY2020, in which the increase in revenue of approximately HK\$122.4 million was mainly contributed by (i) the increase in revenue from internet plus services from approximately HK\$22.4 million in FY2019 to approximately HK\$128.8 million in FY2020, and (ii) revenue of approximately HK\$32.1 million from the new business segment of manufacturing and distribution of personal protective equipment.

While the Group recorded an increase in revenue of approximately HK\$122.4 million in FY2020, the Group recorded loss for the year of approximately HK\$164.0 million in FY2020, representing an increase of approximately 259.0% from the loss for the year of approximately HK\$45.6 million in FY2019. With reference to the 2020 Annual Report and as advised by the Directors, the main reasons for the increase of the loss are mainly due to (i) the effects of additional operating costs and expenses incurred to strengthen the Group’s operation for new business needs, and (ii) the impairment losses on goodwill of approximately HK\$131.4 million (in which approximately HK\$126.9 million was recognised by the internet plus business segment due to the termination of co-operation contract with a major partner) made for FY2020 as compared with approximately HK\$65.1 million of that of FY2019.

The Group’s financial position deteriorated significantly with net liabilities amounted to approximately HK\$73.4 million at 30 June 2020, as compared to the Group’s net asset of approximately HK\$37.2 million as at 30 June 2019. The Group’s deterioration in financial position was mainly due to its loss for the year of approximately HK\$164.0 million during FY2020. As at 30 June 2020, the Group’s financial resources remained tight with cash and bank balances of approximately HK\$6.7 million, while having amount due to directors (including loans provided by the First Subscriber and Second Subscriber) of approximately HK\$33.3 million, convertible bonds of approximately HK\$89.2 million and other borrowings of approximately HK\$15.6 million.

LETTER FROM BAOQIAO PARTNERS

HY2020/2021 vs HY2019/2020

The Group's revenue decreased by approximately 36.8% from approximately HK\$87.4 million for HY2019/2020 to HK\$55.2 million for HY2020/2021. The decrease in revenue of approximately HK\$32.2 million was mainly the result of the drop in revenue of the internet plus services business from approximately HK\$86.2 million to approximately HK\$22.8 million, representing a decrease of approximately 73.6%. As advised by the Directors, the performance of the internet plus segment has been inevitably affected during HY2020/2021 as the Company was in the process of restructuring its logistic network to improve profitability and services.

Despite the decrease in revenue for HY2020/2021, the Group recorded a decrease in net loss from approximately HK\$18.3 million for HY2019/2020 to approximately HK\$14.6 million for HY2020/2021, mainly due to (i) the improvement in overall gross profit margin from approximately 26.0% in HY2019/2020 to approximately 35.4% in HY2020/2021 contributed by the new manufacturing and distribution of personal protective equipment; (ii) the increase in other income from the government's employment support scheme on wage subsidies for COVID-19 for HY2020/21 and the share of profits of associates arising from the acquisition of 40% equity interest in Ever Development Holdings Limited completed on 3 June 2020 of approximately HK\$3.9 million recorded in HY2020/21; (iii) the decrease in administrative and operating expenses of approximately HK\$3.2 million for HY2020/2021, which was in line with the decrease in revenue; and (iv) offset by the increase in finance costs of approximately HK\$2.8 million during HY2020/2021.

The Group's financial position remains tight with net liabilities amounted to approximately HK\$83.6 million at 31 December 2020, which increased by approximately 13.9% as compared to that of approximately HK\$73.4 million as at 30 June 2020. The Group's deterioration in financial position was mainly due to its loss of approximately HK\$14.6 million during HY2020/2021.

As at 31 December 2020, the Group's financial resources continues to be strained with cash and bank balances of only approximately HK\$2.7 million, in contrast to the outstanding debt owed by the Company including amount due to directors of approximately HK\$32.5 million, convertible bonds of approximately HK\$93.9 million and other borrowings of approximately HK\$23.3 million.

The Second Subscriber

Madam CHEUNG Kwai Lan (“**Madam CHEUNG**”) is a non-executive Director of the Company and a director and shareholder of Best Frontier Investments Limited (a substantial shareholder).

From the period from 28 December 2018 to 8 June 2021, Madam CHEUNG provided the Company with a loan in the principal amount of HK\$23,183,312 as a support to the Company’s business and daily operation. LETTER FROM BAOQIAO PARTNERS

4. Reasons for and benefits of the Loan Capitalisation

As shown in the paragraph headed “2. Financial information of the Group” above in this letter, the 2020 Annual Report and the 2020/2021 Interim Report, the Group has been suffering from (i) continuing losses for the past five financial years ended 30 June 2020; (ii) recorded net current liabilities as at 30 June 2019, 30 June 2020 and 31 December 2020 as well as net liabilities as at 30 June 2020 and 31 December 2020; and (iii) relatively low cash and bank balances over the years with approximately HK\$6.7 million and HK\$2.7 million as at 30 June 2020 and 31 December 2020 respectively.

Taking into account the existing financial performance and position of the Group, we concur with the Directors’ view that the Loan Capitalisation under the Loan Capitalisation Agreements will allow the Company to settle the aggregate outstanding sums of HK\$34,763,312 owing by the Company to the Subscribers (the “**Outstanding Loans**”) without utilising existing financial resources of the Group while reducing the gearing level and hence strengthening the financial position of the Group.

In addition, as disclosed in the Letter from the Board, save for the two convertible bonds in aggregate amount of HK\$89.625 million and HK\$50 million (the “**Convertible Bonds**”) and the outstanding loans and other borrowings of HK\$10.01 million as at the Latest Practicable Date, the Company does not have any other outstanding loans which are not subject to the Loan Capitalisation. The Company has no intention or plan to capitalise the above mentioned loans and other borrowings. The Company will seek for any possibilities of fund raising activities continuously for the repayment of the Convertible Bonds, the outstanding loans and other borrowings. Furthermore, the Company will discuss with the bondholder of the Convertible Bonds to consider any possibilities to convert all or part of the Convertible Bonds.

According to the Management, they had explored and evaluated other settlement methods as alternative means of settling the Outstanding Loans, such as by way of bank borrowings and other equity financing other than Loan Capitalisation. Given the current financial performance and position of the Group as stated under the paragraph headed “2. Financial information of the Group” above in this letter, the Directors expect that they would have difficulties to obtain bank borrowings with favourable terms. Furthermore, even if the Group could obtain bank borrowings, such bank borrowings will inevitably increase interest burden and further deteriorate the gearing level of the Group. Based on the above and the Company’s goal to lower the gearing level according to the Management, we are of the view and concur with the Directors’ view that bearing additional liabilities to settle the Outstanding Loans is not in the interests of the Company and the Shareholders as a whole.

In respect of other equity financing methods for settling the Outstanding Loans, such as placing of Shares, open offer and rights issue, the Management considered that (i) it would be difficult for the Group to secure placing agent or underwriter for placing of Shares, open offer or rights issue without offering deep discount to the issue price to attract subscription in light of low trading liquidity of the Shares and the Group’s current financial performance and position; (ii) the success of other forms of equity

LETTER FROM BAOQIAO PARTNERS

financing is also highly dependent on the then market condition and sentiment; and (iii) such placing/underwriting commission would likely exceed the cost under the Loan Capitalisation without taking into account of further necessary professional fees cost, we are of the view and concur with the Directors' view that the Loan Capitalisation is comparatively a more appropriate and viable means of settling the Outstanding Loans.

Having considered (i) the negative financial position of the Group as mentioned above; (ii) the Management expects that the Group would not be able to obtain favourable terms for debt financing which would also increase finance costs of the Group; (iii) other equity financings may require attractive discount to the current market price of the Shares and are relatively less cost effective as compared to the Loan Capitalisation; and (iv) the Loan Capitalisation will settle part of the Group's existing liabilities and reduce the Group's gearing level without depleting its existing financial resources, we are of the view and concur with the Directors' view that the Loan Capitalisation is in the interests of the Company and the Shareholders as a whole.

LETTER FROM BAOQIAO PARTNERS

LC Subscription Price

The LC Subscription Price of HK\$0.26 per Loan Capitalisation Share represents:

- (i) a premium of approximately 37.57% over the closing price per Share of HK\$0.189 as quoted on the Stock Exchange on the Latest Practicable Date;
- (ii) represents the closing price of HK\$0.26 per Share as quoted on the Stock Exchange on the Last Trading Day; and
- (iii) represents a premium of approximately 0.39% over the average of the closing price of HK\$0.259 per Share quoted on the Stock Exchange for the last five consecutive trading days immediately prior to the Last Trading Day.

The net liability attributable to each Share was HKD0.0195 as at 31 December 2020, being the date to which the latest published unaudited financial statements of the Group were made up.

As stated in the Letter from the Board, the LC Subscription Price was arrived at after arm's length negotiations between the Company and the Subscribers with reference to the prevailing market prices of the Shares, the Group's historical performances and present financial position as well as current market condition.

In order to assess the fairness and reasonableness of the LC Subscription Price, we compared with reference to the recent price performance and trading liquidity of the Shares as follows:

Recent price performance and trading liquidity of the Shares

We have reviewed the closing prices and the trading liquidity of the Shares during the twelve-month period from 9 June 2020, up to and including 8 June 2021, being the Last Trading Day (the “**Review Period**”). We consider that an approximate period of twelve months is adequate to illustrate the recent price movements and liquidity of the Shares for conducting a reasonable comparison between the closing price of the Shares and the LC Subscription Price.

LETTER FROM BAOQIAO PARTNERS

As shown in the chart of daily closing price of the Shares above, the daily closing price of the Shares during the Review Period ranged from the lowest of HK\$0.115 per Share on 3 December 2020 to the highest of HK\$0.33 per Share on 18 February 2021 and 8 April 2021. The average closing price of Shares within the Review Period was approximately HK\$0.215 per Share. We noted that the LC Subscription Price equals to the closing price of HK\$0.26 per Share as quoted on the Stock Exchange on the Last Trading Day and represents a premium of approximately 20.9% to the average closing price of Shares within the Review Period and a premium of 0.4% to the average closing price of approximately HK\$0.259 per Share for the last five consecutive trading days immediately prior to the Last Trading Day.

Regarding the liquidity of the Shares, as shown in the table above, the highest average daily volume was approximately 15,371,214 Shares in February 2021, representing approximately 0.3583% of the total number of Shares at the end of February 2021. We also notice that the average daily trading liquidity of the Shares were very thin during the Review Period, with all months less than 1% to the then total number of issued Shares as at the end of their respective period/month. As such, the relatively low trading volume suggests that it would be difficult for the Company to pursue sizeable equity financing alternatives in the stock market without providing considerable discount and/or underwriting fees as an incentive.

Having considered that (i) the LC Subscription Price represents a premium of approximately 20.9% to the average closing price of Shares within the Review Period and 0.4% to the average closing price of approximately HK\$0.259 per Share for the last five consecutive trading days immediately prior to the Last Trading Day; and (ii) the reasons for and benefits of the Loan Capitalisation as set out in the paragraph headed “Reasons for and benefits of the Loan Capitalisation” in this letter, we consider the LC Subscription Price is fair and reasonable so far as the Independent Shareholders are concerned, and is in the interest of the Company.

6. Potential dilution effects of the Loan Capitalisation

With reference to the section headed “Effect on Shareholding Structure of the Company” in the Letter from the Board, the Loan Capitalisation will incur a dilution effect on the shareholding of the existing Public Shareholders (i.e. from approximately 58.63% to approximately 56.90% immediately after the Loan Capitalisation (CP) Completion), having taken into account the reasons for and benefits of the Loan Capitalisation, in particular the current financial position of the Group and the lack of alternative means of financings, as stated above, we are of the view that the potential dilution effect on the shareholding interests of the public Shareholders to be acceptable.

LETTER FROM BAOQIAO PARTNERS

7. Possible financial effects of the Subscription

Upon Loan Capitalisation (CP) Completion, assuming other factors remain constant, the Outstanding Loans are expected to be set off against the Loan Capitalisation Shares and the Loan Capitalisation Shares will be recognised entirely as equity of the Company which in turn will enlarge the capital base and the gearing level and net liabilities position of the Group is expected to improve.

It should be noted that the above analyses are for illustrative purpose only and do not purport to represent how the financial position of the Group will be upon Completion.

RECOMMENDATION

Notwithstanding the entering into the Loan Capitalisation Agreements are not in the ordinary and usual course of business of the Company, having considered the aforementioned principal factors and reasons, we are of the view that (i) the Loan Capitalisation is in the interests of the Company and the Shareholders as a whole; (ii) the terms of the Loan Capitalisation Agreements and the transactions contemplated thereunder (including the allotment and issue of the Loan Capitalisation Shares under the General Mandate) are on normal commercial terms and are fair and reasonable so far as the Company and the Independent Shareholders are concerned.

Accordingly, we recommend the Independent Shareholders, and advise the Independent Board Committee to recommend the Independent Shareholders, to vote in favour of the resolution(s) to be proposed at the EGM to approve the Loan Capitalisation Agreements and the transactions contemplated thereunder (including the allotment and issue of the Loan Capitalisation Shares under the General Mandate).

Yours faithfully,
For and on behalf of
