2. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard (“**HKAS**”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) as well as the applicable disclosure requirements of Chapter 18 of the Rules Governing the Listing of Securities on the GEM of the Stock Exchange.

As at 30 September 2021, the Group recorded net current liabilities of HK\$86,015,000. The net current liabilities arose mainly from the contract liabilities of HK\$107,382,000, which represented services to be performed and shall not result in any cash outflow of the Group eventually.

Taking into account the above consideration, the directors of the Company are satisfied that the Group will have sufficient financial resources to meet its financial obligations as they fall due in the next twelve months from the end of the reporting period. Accordingly, the condensed consolidated financial statements have been prepared on a going concern basis.

3. SIGNIFICANT ACCOUNTING POLICES

The condensed consolidated financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Other than changes in accounting policies resulting from application of new and amendments to HKFRSs, the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 September 2021 are the same as those followed in the preparation of the Group's annual financial statements for the year ended 31 March 2021.

Application of new and amendments to HKFRSs

In the current interim period, the Group has applied, for the first time, the following new and amendments to HKFRSs issued by the HKICPA which are mandatory effective for the annual period beginning on or after 1 April 2021 for the preparation of the Group's condensed consolidated financial statements:

Amendments to HKFRS 16	Covid-19-Related Rent Concessions beyond 30 June 2021

For the six months ended 30 September 2021, the Group recognised the additions to right-of-use assets of Nil (six months ended 30 September 2020: HK\$27,430,000).

11. TRADE RECEIVABLES

The customers usually settle the prepaid packages by credit cards and electronic payment system ("EPS"). For credit card payments, the banks will normally settle the amounts received, net of handling charges, within 90-180 days after trade date. Payment by EPS will normally be settled within one to two days. In addition, the trade receivables also include receivable from a department store for collecting customers' receipt of the sales counters on behalf of the Group where the credit period is 30 days.

An ageing analysis of the trade receivables, based on the invoice date, which approximate the revenue recognition date, is as follows:

	As at 30 September 2021 HK\$'000 (Unaudited)	As at 31 March 2021 HK\$'000 (Audited)
0 – 30 days	9,454	2,472
31 – 90 days	2,651	622
Over 90 days	2,204	990
	14,309	4,084

As at 30 September 2021 and 31 March 2021, included in the Group's trade receivables balance are debtors with aggregate carrying amount of HK\$747,000 and HK\$443,000 respectively which are past due as at the reporting date. The directors of the Company do not consider the amount as significant increase in credit risk with reference to the historical records, past experience and also available reasonable and supportive forward-looking information of these debtors, and the recurring overdue records of these debtors with satisfactory settlement history.

In order to minimise the credit risk, the directors of the Company have delegated a team responsible for monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group measures lifetime ECL on trade receivables on individual basis at the end of the reporting period.

In view of the business nature, management of the Group considers that the credit risks of trade receivables are insignificant after considering the credit quality and financial ability of the relevant financial institutions and there is no history of default in settlement by them. In the opinion of the management of the Group, the risk of default by these counterparties is not significant and the Group assessed that the ECL on these balances are insignificant on 30 September 2021 and thus no impairment loss allowance was recognised for the six months ended 30 September 2021.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is a medical aesthetic service provider in Hong Kong and operates medical aesthetic centres in prime locations of Causeway Bay, Tsim Sha Tsui, Mong Kok and Central providing non-surgical medical aesthetic services. We strive to provide holistic treatment solutions to our clients through our non-surgical medical aesthetic services, traditional beauty services and sale of skincare products to help our clients maintain and enhance their skin conditions and physical appearance.

The outlook of the medical aesthetic services industry remains optimistic with market demand growing fast in recent years, owed mainly to the increasing affordability and public acceptance of related services.

In order to seize the opportunity created by increasing customer demands, we expanded our operation scale by opening several new centres. In May 2021, we have launched a new flagship centre in Mong Kok to facilitate the continuous growth of our business. The Group also plans to open another new centre in Tsim Sha Tsui by the end of 2021. The Group believes that the expansion will enable us to deepen our market penetration in Hong Kong and improve our Group's profitability. The Group will also take advantage of its enlarging geographical presence to attract new and more diverse customers. Along with the strategic expansion of its medical aesthetic centre network, the Group will sharpen its competitive advantage by extending the spectrum of our treatment services offered.

For the six months ended 30 September 2021, the business environment in Hong Kong was gradually recovering from Coronavirus Disease 2019 ("COVID-19") pandemic, the Group's revenue amounted to approximately HK\$111.2 million, representing an increase of approximately HK\$75.9 million or 215.0% as compared with the corresponding period of 2020. Profit for the period amounted to approximately HK\$9.8 million, while incurred loss for the corresponding period of approximately HK\$14.4 million. It was primarily attributable to the increase in revenue as a result of (i) the medical aesthetic centres of the Group were compulsory closed for certain period due to the outbreak of COVID-19 during the corresponding period of 2020 while there was no such impact during the current period and (ii) the increased revenue from the new centre opened in May 2021.

PROSPECTS

Despite the outlook of medical aesthetic services remains positive, the outbreak of COVID-19 since early 2020 is still causing uncertainties to the business environment in Hong Kong. The Group will closely monitor the market conditions and will intensify its response and elaborate sustainable development strategies to overcome the current unfavourable environment.

Nevertheless, the Group is confident of its capability to deliver quality service to our clients. Moving forward, the Group will apply its strengths, build on its solid customer base and established reputation to deliver stable business development and maximise the shareholders' value.

Principal risks and uncertainties

The Group's financial condition, results of operations, and business prospects may be affected by a number of risks and uncertainties directly or indirectly pertaining to the Group's business. The following are the key risks and uncertainties identified by the Group.

Government policies risk

Following certain adverse incidents in relation to the beauty service industry in recent years, the Hong Kong Government has been reviewing the existing legal framework and considering tightening its supervision over the beauty service industry by promulgating certain laws and regulations to regulate, among other things, the types of medical aesthetic procedures that should be performed by registered medical practitioners.

There is no assurance that the Hong Kong Government will not impose more stringent laws, rules, regulations or industry standards in connection with the provision of medical aesthetic services. Any change in the regulatory framework may render it more restrictive for us to conduct our business. There is also no assurance that we will be able to adapt to such changes in a timely manner. In addition, compliance with such new laws, rules, regulations or industry standards may significantly increase our operating costs, which may in turn lower our profit margins. Any of the above-mentioned circumstances may materially and adversely affect our business, results of operations, financial condition and prospects.

Risk of adverse economic, social or political conditions

All of our business operations are based in and we derive all of our revenue from Hong Kong. Our business operations and the demand for our medical aesthetic services are therefore subject to the economic, social and political conditions in Hong Kong. Furthermore, any incidence of social unrest, strike, riot, civil disturbance or disobedience in Hong Kong may cause inconvenience to clients who wish to visit our medical aesthetic centres and weaken their desire or willingness to undergo medical treatments. Any of the above circumstances may have a material and adverse impact on our business, results of operations and financial condition.
