## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

# Executive Chairman's Statement

On behalf of the Board (the "Board") of Directors of Zhonghua Gas Holdings Limited, I would like to present the annual report of the Company and its subsidiaries (collectively the "Group") for the year ended 31 December 2021 (the "Current Year").

In the face of the persistent challenges and threats of the coronavirus pandemic, it was no doubt that year 2021 continued to be a difficult year for many industries and sectors around the world. During the Current Year, the Group recorded an overall revenue of RMB420.7 million, representing an increase of 72.6% compared with the year ended 31 December 2020 (the "Previous Year"), primarily contributed by our decisive and right move of expansion of the liquefied natural gas ("LNG") supply business into Shanghai since last year.

We believe that gas demand still has vast room to expand as it fits into the PRC government's strategies to diversify the coal-dominated energy mix, improve air quality, and pursue low-carbon development. The trends of urbanisation, higher affordability, gas distributors building new city gas projects and winter clean heating requirements will provide gas access to a broader population in the PRC.

Despite the longer-than-expected challenges slowed down the economic development caused by the lingering effects of a global pandemic, we see the enormous growth potential for new energy and, the current emerging growth potential mainly derives from the well-developed regions such as Yangtze River Delta region. We therefore will continue to stay committed and focused on developing and expanding the new energy business and consider new energy scopes beyond LNG supply, as well as continue to identify suitable projects and collaborate to diversify our portfolios. We have been working meticulously to map out expansion strategies and implement plans to accomplish our goal.

In addition to the markets that we have developed in past years, we aim to further expand the domestic markets to outside Tianjin to domestic markets with high affordability and clean energy mindset in place, and tap into overseas market such as Europe once the lockdown is lifted. We expect a gradual recovery in the global economy in the coming years. Nevertheless, with the growing demand for new energy in recent year, the favorable national policies on the new energy sector and our perseverance in exploring and driving new and existing business, we hope to see an overall improvement in our operations soon.

We will continue to closely monitor the current situation while keeping our shareholders' interest in the top priority. Our goal of becoming a leading diversified and integrated new energy service provider in the Greater China Region will still on the track.

In closing I would like to thank you, our shareholders, for your support through 2021 and for your continuing support as we look forward to a future in which we continue to generate progressive returns and long-term value.

**Hu Yishi**

*Executive Chairman*

Hong Kong, 22 March 2022

## Principal Activities

The principal activities of the Group are provision of diverse integrated new energy services including technological development, construction related and consultancy services in relation to heat supply and coal-to-natural gas conversion, supply of LNG, coupled with trading of new energy related industrial products (“New Energy Business”) and leasing of investment properties (the “Property Investments”).

# Management Discussion and Analysis

## BUSINESS REVIEW

For the Current Year, the Group's total revenue increased by 72.6% to approximately RMB420.7 million as compared to the Previous Year and the LNG trading operation in Shanghai which set up in third quarter of last year, continued to make contribution to the top line during the year. The New Energy Business contributed over 99% to the Group's total revenue. A net loss after tax of approximately RMB213.6 million was recorded for the Current Year as compared to a net loss after tax of approximately RMB143.5 million recorded in the Previous Year mainly caused by (i) allowance for impairment of trade receivables of approximately RMB195.4 million for the Current Year (Previous Year: approximately RMB117.5 million); (ii) increase of gross loss from approximately RMB4.1 million for the Previous Year to approximately RMB7.0 million for the Current Year due to intense keen LNG price competition and fluctuation. Loss and total comprehensive income attributable to the owner of the Company for the Current Year amounted to approximately RMB191.3 million as compared to loss and total comprehensive income attributable to the owner of the Company of approximately RMB131.0 million for the Previous Year.

Before 2020, the collections of trade receivables of the Group were smooth. However, due to the economic instability under novel coronavirus ("COVID-19"), the customers of the Group slowed down their repayment. During the communications with customers of the Group, we understand that they are facing financial difficulties and tight cash flows. The delay of payment and overdue balance led to an increase in expected credit loss rates in 2020 and 2021, therefore, Group had increased the aggregated allowance for impairment of trade receivables to approximately RMB322.4 million as at 31 December 2021. Although the customers of the Group are facing difficulties in repayment, based on the annually performed credit search, our management team's online research and communication with customers, they are still maintaining their normal course of business. The management of the Group had assigned additional manpower to the collection team.

### New Energy Business

The Group is principally engaged in the provision of diverse integrated new energy services including technological development, construction related and consultancy services in relation to heat supply and coal-to-natural gas conversion, supply of LNG, coupled with trading of new energy related industrial products.

In order to mitigate the devastating impact of market uncertainties, the Group could leverage on diversification and expansion of the business both in terms of scopes and footprints. During the Current Year, the primary source of revenue from the New Energy Business was contributed by the LNG supply, from its headquarter Tianjin and new hotspot Shanghai. The Group planned to take further advancement to build this new location into its major business hotspot through cautious implementation. Shanghai's LNG business contributed around 60% of revenue in the Current Year. The LNG price competition remained fierce and the margin of the LNG supply business remained low. While the market condition under the continuous impacts of pandemic, there was no new project from the construction related and consultancy services in the New Energy Business. The coal-to-natural gas conversion in Tianjin district tends to be saturated and the Group anticipated that future new project will continue to decrease.

In September 2021, the Group's wholly-owned subsidiary entered into a strategic cooperation agreement with a wholly-owned subsidiary of a top Fortune Global 500 company, namely Jiangsu Shagang Group Co., Ltd., which aims to create synergy effect in areas of LNG refueling stations and pipeline gas supply. The move fosters strategic alliances for building a long-term cooperation to embrace potential opportunities ahead brought by new energy growth in future.

# Management Discussion and Analysis

The Group continued to maintain strategic partnerships with Tractebel Engineering S.A. from France and several other vital partners in hope to explore new business opportunities with potential clients.

## Property Investments

The Group owns two office premises on Beijing West Road, Jing An District, Shanghai, the PRC. During the Current Year, both premises continued to be on medium-term lease and generated long-term stable rental income for the Group.

## FINANCIAL REVIEW

### *Revenue*

For the Current Year, revenue of the Group amounted to approximately RMB420.7 million, representing an increase of 72.6% from approximately RMB243.7 million for the Previous Year. The increase was mainly attributable to the increase in revenue of approximately RMB177.0 million from New Energy Business during the Current Year with a new LNG supply location in Shanghai during the third quarter of 2020.

### *Cost of Sales*

The cost of sales of New Energy Business increased to approximately RMB427.7 million as compared to approximately RMB247.8 million in the Previous Year. The increase was mainly attributable to the increase in cost from New Energy Business with a new LNG supply location in Shanghai during the third quarter of 2020.

### *Gross (Loss)/Profit Margin*

	2021	2020
New Energy Business	(1.8%)	(1.9%)
Property Investments	100%	100%
Group total	(1.7%)	(1.7%)

# Management Discussion and Analysis

Gross loss represents revenue less cost of sales. Gross margin of the New Energy Business segment decreased from gross loss margin of 1.9% for the Previous Year to gross loss margin of 1.8% for the Current Year. The intense price competition and price fluctuation of LNG led to a thin margin which could not cover the fixed direct cost for both years.

The gross profit margin of the Property Investments segment was 100% (Previous Year: 100%).

## ***Other Gains/(Losses)***

Other gains of approximately RMB9.2 million were recorded in the Current Year as compared to other losses of approximately RMB15.8 million in the Previous Year, mainly due to the fair value gains of Convertible Bonds of approximately RMB8.7 million recognised in the Current Year (Previous Year: fair value losses of approximately RMB14.2 million).

## ***Administrative Expenses***

Administrative expenses increased by 3.7% from approximately RMB24.5 million for the Previous Year to approximately RMB25.4 million for the Current Year. The increase was mainly due to the depreciation of newly acquired motor vehicles and right-of-use assets net off by the decrease in share-based payment expenses in the Current Year in connection with the grant of share options in June 2017 which vested in the Previous Year.

## ***Finance Costs***

For the Current Year, the Group's finance costs were approximately RMB0.3 million (Previous Year: approximately RMB0.1 million), representing an increase of RMB0.2 million or 118.1%, which was mainly due to increase in the cost incurred from the lease liabilities arose from right-of-use assets.

## ***Income Tax (Expense)/Credit***

Income tax expense was recorded approximately RMB4.0 million (Previous Year: income tax credit of approximately RMB2.0 million). It was mainly derived from the effect of reversal of deferred tax asset recognised in prior years.

## ***Loss and Total Comprehensive Income Attributable to Non-controlling Interests***

Loss and total comprehensive income attributable to non-controlling interest increased by 79.0% from approximately RMB12.4 million for the Previous Year to approximately RMB22.3 million for the Current Year. This was mainly attributable to the net loss recorded by the non-wholly owned subsidiaries in Tianjin for the Current Year.

# Management Discussion and Analysis

## ***Loss and Total Comprehensive Income Attributable to the Owners of the Company***

Loss and total comprehensive income attributable to owners of the Company recorded an increase by 46.0% from loss of approximately RMB131.0 million for the Previous Year to loss of approximately RMB191.3 million for the Current Year. The increase was mainly caused by allowance for impairment on the trade receivables for approximately RMB195.4 million in the Current Year (Previous Year: approximately RMB117.5 million).

Basic and diluted loss per share for the Current Year were both RMB0.053, as compared to basic and diluted loss per share of RMB0.036 for the Previous Year.

Review of the Group's operations by segment during the Current Year is as follows:

## ***New Energy Business***

The results of the New Energy Business recorded an increase in revenue of 72.8% from approximately RMB243.2 million for the Previous Year to approximately RMB420.2 million for the Current Year. The revenue from this business segment accounted for 99.9% of the Group's total revenue (Previous Year: 99.8%).

The table below set forth a breakdown of the Group's revenue generated from the New Energy Business segment:

<b>District</b>	<b>2021 Revenue RMB million</b>	<b>2020 Revenue RMB million</b>
Beichen, Tianjin (北辰區·天津)	<b>160.8</b>	55.2
Xiqing, Tianjin (西青區·天津)	<b>7.3</b>	22.3
Pudong Xinqu, Shanghai (浦東新區·上海)	<b>250.1</b>	165.7
Hungpu, Shanghai (黃浦區·上海)	<b>0.1</b>	—
Qidong, Jiangshu (啟東市·江蘇)	<b>1.7</b>	—
Zhangjiagang, Jiangshu (張家港市·江蘇)	<b>0.2</b>	—
	<b>420.2</b>	243.2

The revenue from the New Energy Business for the Current Year mainly contributed by the LNG supply in Tianjin and Shanghai.

# Management Discussion and Analysis

## *Property Investments*

The Group owns two office premises on Beijing West Road, Jing An District, Shanghai, the PRC. The properties were being held for investment purpose and it generated rental income and segmental profit of approximately RMB0.5 million and RMB0.5 million respectively in the Current Year (Previous Year: approximately RMB0.5 million and RMB0.5 million respectively). The investment properties were expected to bring stable long-term rental income to the Group.

## LIQUIDITY AND FINANCIAL RESOURCES

As at 31 December 2021, cash and cash equivalents maintained by the Group were approximately RMB60.8 million, representing a decrease of 28.9% from approximately RMB85.5 million as at 31 December 2020, mainly due to funds used in operating expenses and purchase of motor vehicles in the Current Year.

Trade and other receivables were approximately RMB231.3 million, decreased by 46.5% from approximately RMB432.3 million as at 31 December 2020, which mainly represented the increase in trade receivables in LNG supply business net off the effect of allowance for impairment of trade receivables and collection of trade receivables.

Trade and other payables increased from approximately RMB120.0 million as at 31 December 2020 to approximately RMB128.0 million as at 31 December 2021, by 6.7%, mainly reflected the increase in trade payables from the New Energy Business.

Contract liabilities decreased to approximately RMB0.3 million as at 31 December 2021 compared with approximately RMB14.7 million as at 31 December 2020 due to decrease in advance from customers. Finance lease liabilities raised from right-of-use assets of office locations of approximately RMB5.8 million compared with approximately RMB5.2 million as at 31 December 2020. The tax liability decreased from approximately RMB2.4 million as at 31 December 2020 to approximately RMB1.4 million as at 31 December 2021, by 43.6%.

The amount due to a related Company decreased from approximately RMB1.8 million as at 31 December 2020 to RMB Nil as at 31 December 2021 due to repayment.

As a result of the above mentioned, the Group's current assets and current liabilities as at 31 December 2021 were approximately RMB292.0 million and approximately RMB132.5 million (31 December 2020: approximately RMB517.8 million and approximately RMB141.0 million) respectively.

The Group had no bank borrowings as at 31 December 2021. The gearing ratio of the Group, measured as convertible bonds to total equity, increased to 54.5% as at 31 December 2021 (31 December 2020: 27.2%), such increase was due to the decrease in total equity as at 31 December 2021. The Group recorded net assets of approximately RMB144.7 million as at 31 December 2021 compared with approximately RMB354.5 million as at 31 December 2020. The decrease was mainly due to the net loss recorded during the Current Year, net off the effect of increase in equity by the exercise of share options. During the Current Year, the Group financed its operations with the funds from issuance of the Convertible Bonds and its internal resources.

# Management Discussion and Analysis

## FUNDRAISINGS THROUGH ISSUANCE OF CONVERTIBLE BONDS

On 16 November 2020, 3-year Convertible Bonds were issued by the Company to the Subscriber under the general mandate pursuant to the Subscription Agreement dated 2 November 2020 entered into between the Company and the Subscriber. The Convertible Bonds can be converted into shares of the Company at an initial conversion price of HK\$0.27 per conversion share (subject to adjustment), during the conversion period of 3 years from 16 November 2020. Upon exercise of the conversion rights attached to the Convertible Bonds in full, the Convertible Bonds are convertible into 362,222,222 new shares of the Company at an initial conversion price of HK\$0.27 per conversion share (subject to adjustment), representing approximately 10% of the existing issued share capital of the Company on 16 November 2020.

The Board considers that the Subscription (as defined in the announcement of the Company dated 2 November 2020) represents an opportunity to strengthen the financial position of the Group while broadening the investor base and capital base of the Group potentially. The Directors are of the view that the Subscription is fair and reasonable and is in the interests of the Company and the shareholders of the Company as a whole.

As at 31 December 2021, no Convertible Bonds have been converted into new conversion shares of the Company.

For further details, please refer to the announcements of the Company dated 2 November 2020 and 16 November 2020 published on the websites of the Company and the Stock Exchange.

## USE OF PROCEEDS

On 16 November 2020, the Company has issued the Convertible Bonds to New York Limited under general mandate. The net proceeds from the issue of the Convertible Bonds are approximately HK\$97.5 million (equivalent to approximately RMB82.7 million). The Company intends to use the net proceeds as to 50% for general working capital of the Group and as to 50% for enhancement of the existing business of the Group. The net proceeds are expected to be fully applied by 2023.

As at 31 December 2021, the Company has utilized approximately HK\$33.4 million (equivalent to approximately RMB27.3 million) for general working capital of the Group and approximately HK\$15.9 million (equivalent to approximately RMB13.0 million) for enhancement of the existing business of the Group.

# Management Discussion and Analysis

The intended and actual use of proceeds from the issuance of Convertible Bonds up to 31 December 2021 is set out as follows:

<b>Net proceeds raised</b>	<b>Proposed use of proceeds</b>	<b>Utilised proceeds up to 31 December 2021</b>	<b>Unutilised proceeds up to 31 December 2021</b>	<b>Expected timeline for use of unutilised proceeds</b>
approximately HK\$97.5 million (equivalent to approximately RMB82.7 million)	(i) general working capital of the Group (50%)	approximately RMB27.3 million	approximately RMB14.1 million	By 2023
	(ii) enhancement of the existing business of the Group (50%)	approximately RMB13.0 million	approximately RMB28.3 million	By 2023

## CAPITAL STRUCTURE

During the Current Year, an aggregate of 44,800,000 shares were issued and allotted pursuant to the exercise of share options with exercise price of HK\$0.10125. As at 31 December 2021, the Company had an aggregate of 3,666,936,000 shares of HK\$0.00125 each in issue.

## DIVIDENDS

The Board did not recommend the payment of any dividend for the Current Year (Previous Year: Nil).

## FOREIGN CURRENCY EXPOSURE

The business operations of the Group's subsidiaries were conducted mainly in the PRC with revenues and expenses of the Group's subsidiaries denominated mainly in RMB, with some denominated in Hong Kong dollars. Some of the Group's cash and bank deposits were denominated in RMB, while others were denominated in Hong Kong dollars. Any significant exchange rate fluctuations of Hong Kong dollars against RMB as the functional currency may have a financial impact to the Group. The Group managed its foreign exchange risks by performing regular review and monitoring of the foreign exchange exposure. The Group would consider employing foreign exchange hedging arrangements when appropriate and necessary. During the Current Year, the Group did not use any financial instruments for hedging purpose (Previous Year: Nil).

# Management Discussion and Analysis

## CONTINGENT LIABILITIES

As at 31 December 2021, the Group did not have any material contingent liabilities (Previous Year: Nil).

## EMPLOYMENT AND REMUNERATION OF EMPLOYEES

As at 31 December 2021, the Group has approximately 35 full time employees in the PRC and 16 staffs in Hong Kong. The Group recognises the importance of human resources to its success, therefore qualified and experienced personnel are recruited for reviewing and restructuring our existing business. The remuneration of the Group has maintained at competitive level with discretionary bonuses payable on a merit basis and in line with industrial practice. Apart from salary payments, other staff benefits provided by the Group includes mandatory provident fund, insurance schemes and performance related bonus.

## PROSPECTS

The PRC's policy directives are encouraging coal-to-natural gas switching to combat air pollution and are set to continue driving up the share of natural gas in the country. As part of its 13th Five-Year Plan, the PRC government intends to cut annual coal consumption while raise the proportion of gas in the country's energy consumption. Therefore, the Group holds a strong faith in the future growth potential in natural gas in the country especially Shanghai where has already built well-developed interconnecting regional pipelines, as well as access to several LNG terminals along the east-coast, has matched to establish a regional market hub for natural gas.

The pandemic delays the overall development of industrial and business activities. The Group's top forward priority sets on the path of restore, develop and expand the New Energy Business in scopes and footprint of its emerging knitted network following the post pandemic recovery in the PRC as well as seek opportunity to venture into other overseas markets such as Europe to extend the market footprint. The Group will keep on pursuing growth opportunities through establishing new joint ventures and carrying out merger and acquisition including but not limit to secure stable LNG supply.

Furthermore, the Group will properly utilize the capital generated from the 3-year Convertible Bonds issued in late 2020 to enhance its existing business and support any new opportunities.

# Corporate Governance Report

The Company endeavors in maintaining high standard of corporate governance for the enhancement of shareholders' value and provide transparency, accountability and independence. Various measures have been adopted to ensure that a high level of corporate governance is maintained throughout the operation of the Group.

## COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

To comply with all the new code provisions set out in the Corporate Governance Code contained in Appendix 15 of the GEM Listing Rules (the "Corporate Governance Code"), relevant amendments and adoptions has been adopted by the Company for the Current Year. The Board will continue to review regularly and take appropriate actions to comply with the Corporate Governance Code.

Under code provision C.1.6 of the Corporate Governance Code, the Board members should attend general meetings and develop a balanced understanding of the views of shareholders of the Company. Due to other unavoidable business engagement, one of the independent non-executive Directors was unable to attend the Company's annual general meeting held on 23 June 2021.

Saved as disclosed above, the Directors are of the opinions that the Company and the Board have complied with the Corporate Governance Code throughout the Current Year.

## COMPLIANCE WITH THE REQUIRED STANDARDS OF DEALINGS IN SECURITIES TRANSACTIONS BY DIRECTORS

The Group has adopted the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules as the code of conduct regarding Directors' securities transactions in securities of the Company. Upon the Group's specific enquiry, each Director confirmed that during the year ended 31 December 2021, he/she had fully complied with the required standard of dealings and there was no event of non-compliance.

## BOARD DIVERSITY POLICY

The Board has adopted a board diversity policy (the "Board Diversity Policy") effective on 1 September 2013 which sets out the approach to achieve diversity on the Board. The Company recognises that increasing diversity at the Board level will support the attainment of the Company's strategic objectives and sustainable development. The Company seeks to achieve Board diversity through the consideration of a number of factors, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and other qualities. The Company will also take into consideration its own business model and specific needs from time to time in determining the optimum composition of the Board. The Nomination Committee has set measurable objectives based on four focus areas: gender, age, working experience and ethnicity to implement the Board Diversity Policy. Such objectives will be reviewed from time to time to ensure their appropriateness and the progress made towards achieving those objectives will be ascertained. The Nomination Committee and the Board will review the Board Diversity Policy annually to ensure its continued effectiveness.

## BOARD OF DIRECTORS

As at 31 December 2021, the Board comprises four executive Directors and three independent non-executive Directors and the Board is accountable to shareholders. The management and control of the business of the Company is vested in its Board. It is the duty of the Board to enhance value to the shareholders. The composition of the Board and biographies of the Directors are set out on pages 15 to 17.

The four executive Directors are responsible for the leadership and control of the Company and oversee the Group's businesses, strategic decisions and performances and are collectively responsible for promoting the success of the Company by directing and supervising its affairs.

The three independent non-executive Directors are responsible for ensuring a high standard of financial and other mandatory reporting of the Board as well as to provide a balance in the Board in order to protect shareholders' interest and overall interest of the Group.

Each independent non-executive Director has given the Company an annual confirmation of independence pursuant to Rule 5.09 of the GEM Listing Rules. The Company considers that all the independent non-executive Directors are independent and meet the independent guidelines set out in Rule 5.09 of the GEM Listing Rules.

Save for that Ms. Lin is the spouse of Mr. Hu, each of the Directors has no relationship with other Directors.

### The Roles of the Executive Chairman and Chief Executive Officer

The Company has appointed Mr. Hu to be the executive Director and Executive Chairman of the Company in August 2015. Mr. Hu is responsible for the overall corporate development and strategic planning of the Group.

According to code provision C.2.1 of the Corporate Governance Code, the roles of chairman and chief executive officer should be separated and should not be performed by the same individual. At present, Mr. Hu serves as the Executive Chairman. The Executive Chairman is responsible for the leadership and effective running of the Board and ensuring that all material issues are discussed by the Board in a timely and constructive manner while Mr. Chan serves as the CEO of the Group. The CEO is responsible for running the Group's business and the implementation of the approved strategies of the Group.

### Number of Meetings and Directors' Attendance

Regular Board meetings should be held at least four times a year at approximately quarterly intervals for reviewing and approving the financial and operating performance, and considering and approving the overall strategies and policies of the Company.

## RISK MANAGEMENT AND INTERNAL CONTROL

It is the responsibility of the Board to maintain effective risk management and internal control systems in order to protect the overall interests of the Company and its shareholders. However, the systems are designed to manage but not eliminate all risks of failure to achieve business objectives. It does not provide an absolute shield against unpredictable risks and uncontrollable events such as natural catastrophes, fraud, and errors of judgement, It can only provide reasonable but not absolute assurance against material misstatement or loss.

# Corporate Governance Report

The Group has established an Enterprise Risk Management (the “ERM”) framework to implement effective risk management. The ERM framework mainly comprises of two parts: (1) risk management structure and (2) risk management process.

## RISK MANAGEMENT STRUCTURE

### ***Board***

As a body in charge of the Group’s risk management and internal control systems, the Board is responsible for setting up the clear ERM framework and risk management policies, the purposes of which are to assess and evaluate the business strategies of the Group and its degree of risk tolerance. With the assistance of the Audit Committee, whose authority has been delegated by the Board, the Board maintains constant monitoring of the risk management and internal control systems of the Group, as well as conducting review at least once a year as to its effectiveness.

### ***Audit Committee***

As the highest body, second only to the Board, being responsible for the risk management and internal control systems, the Audit Committee provides advices and supports to the Board in respect of all risk-related matters, including monitoring the implementation of the overall risk management procedures of the Group, conducting review on the risk register of the Group, review and approve the internal control review plan and its results.

### ***Management***

The management of the Group is responsible for identifying and continuous monitoring of the Group’s exposure to risks in relation to strategy, operation, finance, reporting and compliance during the daily operations of the Group. It reports to the Board and the Audit Committee regarding the risks and their changes, formulates a set of internal control measures to mitigate the risks, collects through various channels the deficiencies of the internal control system and conducts rectifications in a timely manner.

### ***Internal Audit Function***

The Group has put in place the internal audit function. Annual review on the effectiveness of the risk management procedures of the Group will be conducted by the management and the Audit Committee, and professional internal control advisers may be consulted if necessary. The plan of internal control review will be submitted to the Audit Committee for review and approval, and the person in charge of the internal control review will also report the review results to the Audit Committee.

# Corporate Governance Report

## RISK MANAGEMENT PROCESS

The ERM framework has been set up by the Group so as to manage the Group's risk exposures in an effective manner. The framework defines the procedures to identify, evaluate, response and monitor risks (including ESG risks) and any change thereof. Through periodic internal discussion, the risk management knowledge of different departments will be enriched, which enables better understanding and timely reporting of risks by all staff, thereby strengthening the Group's risk management capability.

When identifying risks (including ESG risks), the management will communicate with different operational departments and collect information of significant risk factors in various aspects such as strategy, operations and finance, reporting and compliance in a bottom up approach. Upon specifying areas of risk assessment, the management will evaluate the importance of risks based on their potential impact and the possibility of occurrence and set up internal control measures to mitigate the risks. On-going monitoring and reporting of any change of risks will also be conducted.

## MAIN FEATURES OF RISK MANAGEMENT AND INTERNAL CONTROL SYSTEM

### *Maintaining an effective internal control system (Operational Level)*

- Definite internal control policies and procedures are in place to enable clear segregation of responsibilities, authority and accountability of different departments and positions;
- Code of conducts have been formulated to promote integrity and ethical conducts to the staff;
- Whistleblowing system is set up to encourage employees to report any misconduct or fraud;
- Appropriate IT system access restrictions have been set to avoid disclosure of price sensitive information;
- Policies regarding insider information disclosure are established, which involve reporting channels. The person in charge of the information disclosure will be responsible for answering external enquiries and seek consultation from professional financial consultants or the Stock Exchange when necessary.

During the Current Year, the Board had reviewed the effectiveness of the internal control policies and procedures, including the procedures regarding financial reporting and those as stipulated under the Listing Rules. When carrying out review on the risk management and internal control procedures, the Board had taken into consideration the adequacy of resources for accounting, internal audit and financial reporting, the qualifications and experience of the staff, trainings to be provided to the staff and the relevant budget.

# Corporate Governance Report

## ***Ongoing monitoring of risks (Risk management level)***

Based on the ERM framework and risk management policies as formulated by the Board, the management will communicate with different operational departments and collect information of significant risk factors which will affect the Group in a bottom up approach and consistently monitor changes in risks. Risks (including ESG risks) which has been identified will be recorded in a risk register. Regular assessment will be carried out on the potential impact to the Group and the possibility of occurrence of each major risk so as to lay down relevant internal control measures.

During the Current Year, the management had reviewed risk management structure and procedures and had submitted to the Board and the Audit Committee a risk assessment report and a 3-year plan of internal control review, so that the Board and the Audit Committee can enable effective monitoring of the Group's major risk and better understanding of how the management handle and mitigate the risks.

## ***Independent review***

The internal audit team of the Group is comprised of the persons who are not responsible for areas under the review. The list of review team and scope of review have been approved by the Audit Committee. The team conducts independent review on risk management and internal control systems of the Group so as to assess the effectiveness. A report of internal control review is submitted to the Audit Committee.

During the Current Year, the internal audit team had completed review on internal control for the year, period of reviews covered transactions carried out from 1 January 2021 to 31 December 2021. The management had implemented rectifications and remediated internal control weaknesses identified. The internal audit team had report the review results to the Audit Committee.

Nothing has come to the Audit Committee's or the Board's attention to believe that the risk management and internal control systems of the Group are inadequate or ineffective.

## **WHISTLEBLOWING POLICY AND ANTI-CORRUPTION POLICY**

The Company has established whistleblowing policy which enhance the awareness of corporate governance and it constitutes an important part of the effective internal control and risk management system. ## THE GROUP'S MAJOR RISKS AND THEIR CHANGES

The Group's major risks and the changes thereof are set out as follows:

Risk	Description	Internal control measures	Changes
Market Competition	With the continuous advancement of the "X+1+X" natural gas marketization reform in the PRC, the diversified channel supply of upstream resources and resources has been formed. The development of centralized transportation at the intermediate unified pipeline facilitates fierce competition and price fluctuations in the downstream LNG sales market, resulting in a decrease in gross profit margin.	<ul style="list-style-type: none"> <li>The Group seeks opportunities to expand its new energy business to other regions in the north and the Yangtze River Delta in order to seek business growth and mitigate risks.</li> <li>The Company keeps abreast of market trends, works closely with upstream gas sources, and uses the changes in LNG prices in different seasons to reduce the economic impact arising from the rise in supply.</li> </ul>	Increase
Government Policy Changes	The State Council issued the "Notice of the State Council on Printing and Distributing the Action Plan for Carbon Dioxide Peaking Before 2030" to actively develop new energy, orderly guide natural gas consumption and promote the integration and development of natural gas and various energy sources. Although the investment in the natural gas industry in the PRC will be further increased in the future, at the same time, the relevant policies and regulations will be gradually tightened, which may increase our business operating costs.	<ul style="list-style-type: none"> <li>The management will keep abreast of any change on the relevant policies to promptly adjust the Group's business strategies.</li> <li>To expand types of service provided by the Group to diversify risk.</li> <li>Improve sales structure analysis in advance, strengthen the continuous optimization of customer structure, and enhance LNG sales.</li> </ul>	Increase
COVID-19 Pandemic	<p>Despite the recurrence of the novel coronavirus pandemic (COVID-19) worldwide, the PRC and the global economy have begun to recover gradually. The quarantine measures and travel restrictions implemented in various districts still hinder the consultation and completion of new construction-related and consulting services projects, negatively affecting the Group's business environment.</p> <p>The COVID-19 pandemic may also cause risks to the health of the Group employees and affect the office's regular operation, resulting in losses. The relationship between the epidemic may also affect the scheduled regular business, customer meetings, contract negotiations, etc.</p>	<ul style="list-style-type: none"> <li>The management closely follows the news, information and policies and adjusts the Group's business arrangements, epidemic prevention measures and work arrangements in a timely manner.</li> <li>Arrange partial audit activities, client meetings, contractual negotiations, etc. by teleconference or video conference as appropriate.</li> <li>Strengthen office cleaning, develop epidemic prevention measures, flexibly arrange employees' working hours and work from home, and temporarily close internal offices.</li> </ul>	Unchanged

Risk	Description	Internal control measures	Changes
Health and Safety	<p>The Company's business involves LNG, and improper safety management in the course of operation may result in serious safety accidents and losses, which in turn will affect the Group's operating performance.</p>	<ul style="list-style-type: none"> <li>• The Company's operations and onsite operation strictly comply with national regulations on hazardous chemicals and the relevant operational practices of the Group.</li> <li>• Strengthen the maintenance and management of equipment and facilities, enhance the management level of equipment, and ensure the integrity rate of the equipment. Employ qualified professionals and improve safety awareness among employees through training.</li> <li>• Timely warning of abnormal conditions through the self-control monitoring system to ensure a 100% monitoring rate of significant production operations.</li> <li>• Compile the Emergency Plan and continuously improve the team's business capabilities at all levels, such as dispatching operations, onsite operations, line patrol, repair, and maintenance.</li> </ul>	Unchanged
Environmental Protection	<p>For the main business, if the Company fails to comply with the regulations and policies issued by China's local environmental protection bureau and other regulatory agencies, it may cause the environmental protection bureau to shut down relevant illegal business until the completion of rectification and to impose administrative penalties. The Company is required to pay the corresponding taxes based on its taxable pollutants, waste, and noise. If the Company does not have related energy conservation and emission reduction measures, the Company may be subject to a high environmental protection tax.</p>	<ul style="list-style-type: none"> <li>• The Company complies with the regulatory policies of local regulatory authorities and conducts internal inspections from time to time to reduce the possibility of violating laws and regulations.</li> <li>• Establish environmental protection norms according to the company's project, organized by the management and complied with by all employees; set up environmental key performance indicators within the project, and the participants in the project complete the performance indicators.</li> </ul>	Unchanged

Risk	Description	Internal control measures	Changes
Supply Chain	<p>Insufficient natural gas supply due to surges in demand in winter may impact services such as coal-to-natural gas, gas supply, heating, and more. Weak regulation of sub-suppliers may impact the Company's direct suppliers and affect the Company's business. If the Group relies too much on a small number of major suppliers, the risk of supply chain disruption and difficulty of controlling the purchase of LNG prices may increase. In the procurement process in close cooperation with other LNG suppliers, the Group may incur additional costs due to specifications such as pipeline natural gas transportation and quality inspection, which may adversely affect our business.</p>	<ul style="list-style-type: none"> <li>• A stringent assessment will be conducted when choosing suppliers and contractors.</li> <li>• Terms of outsourcing contracts will be reviewed by project managers and internal or external legal professional to ensure clear define responsibilities of each party.</li> <li>• Person in charge of the project will conduct on-site inspection to examine the quality and performance of suppliers and contractors to ensure that their products and services are up to the standards of the Group.</li> <li>• Look for a number of stable LNG suppliers to avoid monopolizing the supply chain of the Company.</li> <li>• Make reasonable forecasts for future sales volumes, reserve LNG in advance based on expected sales volumes, and reserve them in seasons with lower prices to cope with sudden price and supply fluctuations.</li> <li>• Stabilize supply chain volume and price by, among others, seeking temporary solutions for supply chain and seeking to sign a supply agreement.</li> <li>• Cooperate with the Company's direct suppliers and effectively supervise sub-suppliers to reduce the impact of sub-suppliers on the business.</li> </ul>	Unchanged
Human Resources	<p>If the Group fails to recruit sufficient key professionals, such as management experts, project engineers, and chief, the normal operations or quality or the development of the Group may be affected.</p>	<ul style="list-style-type: none"> <li>• Maintain a healthy and positive working environment.</li> <li>• Regular review of employee benefits.</li> <li>• Conduct manpower planning to replenish sufficient staff as soon as possible.</li> </ul>	Decrease

# Corporate Governance Report

Risk	Description	Internal control measures	Changes
Exchange Rate	The Group has assets and liabilities denominated in Hong Kong dollar and RMB; any fluctuation in the exchange rate may cause loss from currency exchange to the Company.	<ul style="list-style-type: none"> <li>Risk of exchange rate will be monitored on a regular basis and relevant response measures will be formulated.</li> <li>Sensitive analysis will be conducted to quantify the risk regularly.</li> </ul>	Unchanged
Credit Risk	In view of the instability of the novel coronavirus pandemic, the Group's customers face financial difficulties and cash flow constraints, and slow repayments. The Group's provision for impairment of trade receivables increased.	<ul style="list-style-type: none"> <li>Each business unit manages customer credit risk in accordance with the policies, procedures, and monitoring mechanisms related to customer credit risk management formulated by the Group.</li> <li>To minimize the credit risk of trade receivables, the Group's management has assigned a team to be responsible for the credit lines, credit approvals, and other monitoring procedures to ensure follow-up action on the recovery of overdue debts and to closely monitor the situation of each customer, conducting regular credit surveys on an annual basis and conducting individual credit assessments for all customers exceeding a specific credit limit.</li> <li>In addition, the Group's management reviewed the recoverable amount of each individual debt at the end of the reporting period to ensure that sufficient provision for impairment losses was made for the non-recoverable amount of trade receivables, and we also increased the staff of the collection team to ensure a smooth collection process.</li> <li>The Group applies a simplified method to make provisions for expected credit losses under IFRS 9.</li> </ul>	Increase
Climate Change	Abnormal weather, such as extremely high temperature, low temperature, and heavy rain, is likely to cause different degrees of wear and tear or damage the gas station's infrastructure (e.g., transportation pipelines). Consequently, we will face the risk of safety accidents and increased maintenance costs. Frequent extreme weather also has a negative impact on the commuting of the Group's employees.	Regularly conduct safety inspections and rectifications for gas station facilities and ensure the safety of the entire business operation by formulating operational procedures and employee work guidelines for responding to extreme weather in the emergency plan. In the future, research will be undertaken to strengthen the resilience of the supply chain to climate change and further identify the physical and transition risks of climate change to the Group. The Company considers the independent non-executive Directors to be independent pursuant to Rule 5.09 of the GEM Listing Rules as at the date of this annual report.

## EMOLUMENTS POLICY

All emoluments of the Directors are determined and approved by the Remuneration Committee with reference to the Directors' duties, responsibilities and performance and the results of the Group. Each Director may also receive a year end bonus in respect of each financial year. The amount of such bonus will be determined by the Remuneration Committee.

The emolument policy of the Group is on the basis of the qualifications and contributions of individuals to the Group. The Company has adopted a share option scheme as an incentive to eligible participants, details of which are set out below in the section "Share option scheme".

Details of the emoluments of the Directors and five highest paid individuals pursuant to Rules 18.28 to 18.30 of the GEM Listing Rules are set out in notes 16 and 15(b) to the consolidated financial statements.

## SHARE OPTION SCHEME

The Company operates a share option scheme (the "Scheme") for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. The Scheme is valid and effective for a period of 10 years commencing on 12 December 2011 and may continue to be exercisable in accordance with their terms of issue. The Board may grant options to Directors and eligible employees and consultants of the Company or its subsidiaries to subscribe for shares in the Company at a consideration equal to the higher of the closing price of the shares of the Company on the Stock Exchange at the date of offer of grant and the average closing prices of the shares of the Company on the Stock Exchange for the five trading days immediately preceding the date of grant of the options. Options granted must be taken up within 28 days from the date of grant, upon payment of HK\$1.00. Options may be exercised at any time from the date of grant of the share option up to the tenth anniversary of the date of grant as determined by the Directors at their discretion. The maximum number of shares of the Company in respect of which options may be granted, when aggregated with any other share option scheme of the Company, shall not exceed 30% of the issued share capital of the Company from time to time excluding any share issued upon the exercise of option granted pursuant to the Scheme. The maximum number of shares which may be issued upon exercise of all options to be granted under the Scheme and any other share option schemes of the Company must not in aggregate exceed 10% of the shares in issue upon the date of which the shares are listed and permitted to be dealt in the Stock Exchange. The 10% limit may be refreshed at any time by approval of the Company's shareholders provided that the total number of shares which may be issued upon exercise of all options to be granted under all of the schemes of the Company under the limit as "refreshed" must not exceed 10% of the shares in issue as at the date of approval of the limit. The total number of shares issued and to be issued upon exercise of the options granted to a participant under the Scheme (including both exercised and outstanding options) in any 12-month period must not exceed 1% of the shares in issue from time to time.

# Report of the Directors

## TO THE SHAREHOLDERS OF ZHONGHUA GAS HOLDINGS LIMITED

*(Incorporated in the Cayman Islands with limited liability)*

### Opinion

We have audited the consolidated financial statements of Zhonghua Gas Holdings Limited (the “Company”) and its subsidiaries (the “Group”) set out on pages 55 to 122, which comprise the consolidated statement of financial position as at 31 December 2021, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRSs”) issued by the International Accounting Standards Board (the “IASB”) and have been properly prepared in compliance with the disclosure requirements of the Companies Ordinance.

### Basis For Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matters we identified are:

### Key Audit Matter

### How our audit addressed the Key Audit Matter

#### ***Impairment of property, plant and equipment, and right-of-use assets of a cash-generating unit engaging in the trading of liquefied natural gas in Tianjin***

As at 31 December 2021, included in the Group's consolidated statement of financial position were property, plant and equipment of RMB46,550,000 and right-of-use assets of RMB1,593,000 which were attributable to a cash-generating unit ("CGU") engaging in the trading of liquefied natural gas ("LNG") in Tianjin.

The Group incurred a loss in the trading of LNG in Tianjin for the year ended 31 December 2021 which indicated the CGU assets might be impaired. Management estimated the recoverable amount of the CGU based on its value in use estimated by discounting the CGU's projected future cash flows using an appropriate market rate. No impairment loss was recognised on property, plant and equipment, and right-of-use assets for the year ended 31 December 2021.

The preparation of discounted cash flow forecasts involves the exercise of significant management judgement, particularly in estimating the long-term revenue growth rates and the discount rates applied.

We identified assessing the potential impairment of property, plant and equipment, and right-of-use assets as a key audit matter because the impairment assessment prepared by management is complex and contains judgmental assumptions, particularly the long-term revenue growth rates and discount rates applied, which could be subject to management bias in their selection.

Our procedures included:

- Assessing the methodology applied by management in the preparation of the discounted cash flow forecast with reference to the requirements of the prevailing accounting standards;
- Evaluating the discounted cash flow forecast prepared by management by comparing specific data and significant assumptions in the discounted cash flow forecast with the financial budget which was approved by the board of directors. Our evaluation has taken into account our understanding of the Group's future business plans and the relevant industry sector; and
- Assessing the appropriateness of the discount rate applied in the discounted cash flow forecast by reference to companies in the relevant industry sector with the assistance of our in-house valuation specialist.

## **Key Audit Matter**

## **How our audit addressed the Key Audit Matter**

### ***Impairment of trade receivables***

We identified the impairment of trade receivables as a key audit matter due to the significant management estimation and judgement required in determining the expected credit losses.

As described in note 5(b)(iv) to the consolidated financial statements, the impairment of trade receivables is considered a key source of estimation uncertainty. Details of allowance for impairment of trade receivables are disclosed in notes 4(u), 5(a)(ii), 5(b)(iv) and 6(b) to the consolidated financial statements.

Our procedures included:

- Assessing the external valuer's qualification, experience and expertise, and considering its objectivity and independence;
- Assessing whether trade receivables were appropriately grouped by the management into categories with shared credit risk characteristics;
- Testing on a sample basis the accuracy and completeness of the data used by the management to develop historical loss rates and assessing the sufficiency, relevance and reliability of that data;
- Testing on a sample basis the aging of trade receivables; and
- With the assistance of our in-house valuation specialists:
  - (i) assessing the appropriateness of the impairment model used by the Group;
  - (ii) assessing the appropriateness of forward-looking adjustments to historical loss rates;
  - (iii) testing the calculation of historical loss rates; and
  - (iv) testing the calculation of the expected credit loss provisions.

## Other Information

The directors are responsible for the Other Information. The Other Information comprises all of the information included in the Company's 2021 annual report other than the consolidated financial statements and our auditor's report thereon, which we obtained prior to the date of this auditor's report, and the Environmental, Social and Governance report, which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the Other Information and, in doing so, consider whether the Other Information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed on the Other Information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this Other Information, we are required to report that fact. We have nothing to report in this regard.

When we read the Environmental, Social and Governance report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to Audit Committee and take appropriate action considering our legal rights and obligations.

## Responsibilities Of Directors For The Consolidated Financial Statements

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee assists the directors in discharging their responsibilities for overseeing the Group's financial reporting process.

## Auditor's Responsibilities For The Audit Of The Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

# Independent Auditor's Report

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threat or safeguards applied.

# Independent Auditor's Report

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Yu Kwok Keung.

# Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

## 1. GENERAL INFORMATION

Zhonghua Gas Holdings Limited (the “Company”) was incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Law, Cap 22 (Law 3 of 1961, as combined and revised) of the Cayman Islands on 8 September 2011 and its shares are listed on GEM of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). The address of the registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands and the principal place of business of the Company in Hong Kong is 23/F, Chinachem Century Tower, 178 Gloucester Road, Wan Chai, Hong Kong. The Company and its subsidiaries (collectively referred to as the “Group”) is principally engaged in:

- (i) the provision of diverse integrated new energy services including technological development, construction related and consultancy services in relation to heat supply and coal-to-natural gas conversion, coupled with trading of new energy related industrial products and liquefied natural gas (“LNG”) (“New Energy Business”); and
- (ii) the leasing of investment properties located in Shanghai, China (“Property Investments”).

The Company is an investment holding company. The principal activities of its major subsidiaries are set out in note 22 to the consolidated financial statements.

## 2. BASIS OF PREPARATION

These consolidated financial statements have been prepared in accordance with all applicable International Financial Reporting Standards (“IFRSs”) issued by the International Accounting Standards Board (the “IASB”). IFRSs comprise International Financial Reporting Standards (“IFRS”); International Accounting Standards (“IAS”); and Interpretations. These consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on GEM of the Stock Exchange and with the disclosure requirements of the Companies Ordinance. Significant accounting policies adopted by the Group are disclosed below.

The IASB has issued a number of new IFRSs and amendments to IFRSs that are first effective or available for early adoption for the current year of the Group. Note 3 to the consolidated financial statements provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior years reflected in these consolidated financial statements.

# Notes to the Consolidated Financial Statements

## 3. ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS

### (a) Application of new and revised IFRSs

The Group has applied all the new and revised IFRSs issued by the IASB for the first time relevant to the Group which are mandatorily effective for the annual period beginning on or after 1 January 2021 for the preparation of the consolidated financial statements but these developments had no material impact on the Group's consolidated financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

### (b) New and revised IFRSs in issue but not yet effective

The Group has not early applied any new IFRSs and amendments to IFRSs that have been issued but are not yet effective for the financial year beginning 1 January 2021. These new IFRSs and amendments to IFRSs include the following which may be relevant to the Group.

	<b>Effective for accounting periods beginning on or after</b>
Amendments to IFRS 16: Leases — Covid-19-Related Rent Concession beyond 30 June 2021	1 April 2021
Amendments to IFRS 3 Business Combination — Reference to the Conceptual Framework	1 January 2022
Amendments to IAS 16 Property, Plant and Equipment: Proceeds before Intended Use	1 January 2022
Amendments to IAS 37 Onerous Contracts — Cost of Fulfilling a Contract	1 January 2022
Annual Improvements to IFRSs 2018–2020 Cycle	1 January 2022
Amendments to IAS 1 Classification of Liabilities as Current or Non-current	1 January 2023
Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2 Making Materiality Judgements — Disclosure of Accounting Policies	1 January 2023
Amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors — Definition of Accounting Estimates	1 January 2023
Amendments to IAS 12 Income Taxes — Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction	1 January 2023

The Group is in the process of making an assessment of what the impact of these amendments and new standards is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements.

## 4. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements have been prepared under the historical cost convention, unless mentioned otherwise in the accounting policies below (e.g. investment properties and convertible bonds that are measured at fair value).

The preparation of consolidated financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 5 to the consolidated financial statements.

The significant accounting policies applied in the preparation of these consolidated financial statements are set out below.

### (a) Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to the Company. Non-controlling interests are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity. Non-controlling interests are presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of profit or loss and total comprehensive income for the year between the non-controlling shareholders and owners of the Company.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling shareholders even if this results in the non-controlling interests having a deficit balance.

# Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (a) Consolidation *(Continued)*

In the Company's statement of financial position, investments in subsidiaries are stated at cost less impairment loss, unless the investments are classified as held for sale (or included in a disposal group that is classified as held for sale).

### (b) Foreign currency translation

#### *(i) Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Renminbi ("RMB"), which is the Company's presentation and functional currency. The directors consider that choosing RMB as the presentation currency best suits the needs of the shareholders and investors.

#### *(ii) Transactions and balances in each entity's financial statements*

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary items that are measured at fair value in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the company initially recognises such non-monetary assets or liabilities.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

#### *(iii) Translation on consolidation*

The results and financial position of all the Group entities that have a functional currency different from the Company's presentation currency are translated into the Company's presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses are translated at average exchange rates for the period (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the exchange rates on the transaction dates); and
- All resulting exchange differences are recognised in other comprehensive income and accumulated in the foreign currency translation reserve.

On consolidation, exchange differences arising from the translation of monetary items that form part of the net investment in foreign entities are recognised in other comprehensive income and accumulated in the foreign currency translation reserve. When a foreign operation is sold, such exchange differences are reclassified to consolidated profit or loss as part of the gain or loss on disposal.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (c) Property, plant and equipment

Property, plant and equipment are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

Depreciation of property, plant and equipment is calculated at rates sufficient to write off their cost less their residual values over the estimated useful lives on a straight-line basis. The principal annual rates are as follows:

Leasehold improvements	The shorter of the period of the respective leases or 5 years
Machinery and equipment	12%
Furniture, fixtures and equipment	19% – 32%
Motor vehicles	20% – 25%

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

### (d) Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values, adjusted to exclude any prepaid or accrued operating lease income. All of the Group's property interests held under operating leases to earn rentals or for capital appreciation purposes are classified and accounted for as investment properties and are measured using the fair value model. Gains or losses arising from changes in the fair value of investment properties are recognised in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in the profit or loss in the period in which the property is derecognised.

Rental income from investment properties is accounted for as described in note 4(o) to the consolidated financial statements.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (e) Leases

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

#### *(i) The Group as a lessee*

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

Refundable rental deposits paid are accounted under IFRS 9 *Financial instruments* and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

The lease liability is remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification. The only exceptions are any rent concessions which arose as a direct consequence of the COVID-19 pandemic and which satisfied the conditions set out in paragraph 46B of IFRS 16. In such cases, the Group took advantage of the practical expedient not to assess whether the rent concessions are lease modifications, and recognised the change in consideration as negative lease payments in profit or loss in the period in which the event or condition that triggers the rent concessions occurred.

#### *(ii) The Group as a lessor*

When the Group acts as a lessor, a lease is classified as an operating lease if it does not transfers substantially all the risks and rewards incidental to the ownership of an underlying assets to the lessee.

# Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (f) Contract assets and contract liabilities

Contract asset is recognised when the Group recognises revenue before being unconditionally entitled to the consideration under the payment terms set out in the contract. Contract assets are assessed for expected credit losses (“ECL”) and are reclassified to receivables when the right to the consideration has become unconditional.

A contract liability is recognised when the customer pays consideration before the Group recognises the related revenue. A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such case, a corresponding receivable would also be recognised.

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

### (g) Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

The Group derecognises financial liabilities when, and only when, the Group’s obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

# Notes to the Consolidated Financial Statements

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (h) Financial assets

The Group classifies its financial assets at financial assets at amortised cost.

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

#### ***Financial assets at amortised cost***

The Group classifies its financial assets at amortised cost only if both of the following criteria are met:

- the financial asset is held within a business model with the objective of collecting the contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding.

The Group's financial assets at amortised cost includes trade and other receivables, rental deposit, cash and cash equivalents.

### (i) Receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset.

Receivables are stated at amortised cost using the effective interest method less allowance for credit losses.

### (j) Cash and cash equivalents

Cash and cash equivalents comprises cash at bank and on hand, and demand deposits with banks. Cash and cash equivalents are assessed for ECL.

# Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (k) Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under IFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

### (l) Convertible bonds

Convertible bonds where the conversion option will be settled other than by the Group exchanging a fixed amount of functional currency cash for a fixed number of its own equity instruments are classified as financial liabilities, and are designated as at fair value through profit or loss on initial recognition. Transaction costs associated to convertible bonds designated as at fair value through profit or loss are expensed as incurred. Convertible bonds are subsequently measured at fair value with changes in fair value recognised in profit or loss except for changes in the fair value that is attributable to changes in the credit risk (excluding changes in fair value of the derivatives component) is recognised in other comprehensive income, unless the recognition of the effects of changes in the credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributable to the credit risk that are recognised in other comprehensive income are not subsequently reclassified to profit or loss, they are transferred to retained profits upon derecognition.

### (m) Payables

Payables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

### (n) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

# Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (o) Revenue and other income

The Group recognises revenue when or as the control of the goods or services is transferred to the customer. A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- (a) the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- (b) the Group's performance creates or enhances an asset that the customer controls as the Group performs; or
- (c) the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

- (i) Revenue from trading of industrial products and LNG

Revenue from trading of industrial products and LNG are recognised at a point in time, when control of the good and services is transferred to the customer upon delivery of goods. The credit period granted to customer are 60 days to 180 days.

- (ii) Interest income is recognised on a time-proportion basis using the effective interest method.
- (iii) Rental income under operating leases is recognised in profit or loss in equal instalments over the periods covered by the lease term.

### (p) Employee benefits

#### ***Pension and retirement obligations***

Payments to state-sponsored retirement benefit schemes in the People's Republic of China (the "PRC") and the Mandatory Provident Fund Scheme in Hong Kong calculated as a percentage of employees' basic salaries are recognised as an expense when employees have rendered service entitling them to the contributions.

# Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (q) Share-based payments

The Group issues equity-settled share-based payments to certain directors, employees and consultants. Equity-settled share-based payments to directors, employees and consultants are measured at the fair value (excluding the effect of non-market based vesting conditions) of the equity instruments at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest and adjusted for the effect of non-market based vesting conditions.

Equity-settled share-based payments to consultants are initially recognised and subsequently accounted for resembling to accounting policy for equity-settled share-based payments to certain directors and employees taking into consideration by the management of the Group the services rendered from the consultants to be in substance as the outputs from employees.

### (r) Government grants

A government grant is recognised when there is reasonable assurance that the Group will comply with the conditions attaching to it and that the grant will be received.

Government grants relating to income are deferred and recognised in profit or loss over the period to match them with the costs they are intended to compensate.

Government grants that become receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

# Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (s) Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model of the Group whose business objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. If the presumption is rebutted, deferred tax for such investment properties are measured based on the expected manner as to how the properties will be recovered.

# Notes to the Consolidated Financial Statements

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (s) Taxation *(Continued)*

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group firstly determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 *Income Taxes* requirements to right-of-use assets and lease liabilities separately. Temporary differences relating to right-of-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

### (t) Impairment of non-financial assets

The carrying amounts of non-financial assets are reviewed at each reporting date for indications of impairment and where an asset is impaired, it is written down as an expense through the consolidated statement of profit or loss and other comprehensive income to its estimated recoverable amount unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. If this is the case, recoverable amount is determined for the cash-generating unit ("CGU") to which the asset belongs. Recoverable amount is the higher of value in use and the fair value less costs of disposal of the individual asset or the CGU.

Value in use is the present value of the estimated future cash flows of the asset/CGU. Present values are computed using pre-tax discount rates that reflect the time value of money and the risks specific to the asset/CGU whose impairment is being measured.

Impairment losses for CGU are allocated first against the goodwill of the unit and then pro rata amongst the other assets of the CGU. Subsequent increases in the recoverable amount caused by changes in estimates are credited to profit or loss to the extent that they reverse the impairment unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (u) Impairment of financial assets

The Group recognises allowances for impairment for ECL on trade receivables. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables assessed individually. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk for balances with an internal credit rating of "Doubtful" since initial recognition. However, if the credit risk on all other financial instruments has not increased significantly since initial recognition, the Group would assess the internal credit ratings on these balances as either "Low Risk" indicating no balances past due or "Watch List" indicating occasionally late settlements on balances, and measures the allowance for impairment for all other financial instruments at an amount equal to 12-month ECL.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instruments. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date.

### ***Significant increase in credit risk***

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (u) Impairment of financial assets *(Continued)*

#### ***Significant increase in credit risk*** *(Continued)*

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increase in credit risk on other financial instruments of the same debtor; or
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

# Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (u) Impairment of financial assets *(Continued)*

#### ***Significant increase in credit risk*** *(Continued)*

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if:

- (i) the financial instrument has a low risk of default;
- (ii) the debtor has a strong capacity to meet its contractual cash flow obligations in the near term;  
or
- (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

#### ***Definition of default***

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

# Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (u) Impairment of financial assets *(Continued)*

#### ***Credit-impaired financial assets***

A financial asset is credit-impaired with an internal credit rating of “Loss” when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred and the Group recognises lifetime ECL accordingly. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulties of the issuer or the counterparty;
- a breach of contract, such as a default or past due event;
- the lender(s) of the counterparty, for economic or contractual reasons relating to the counterparty’s financial difficulty, having granted to the counterparty a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the counterparty will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

#### ***Write-off policy***

The Group writes off a financial asset with an internal credit rating of “Write-off” when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, including when the debtor has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group’s recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

#### ***Measurement and recognition of ECL***

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the asset’s gross carrying amount at the reporting date.

For financial assets, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

# Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### (u) Impairment of financial assets *(Continued)*

#### ***Measurement and recognition of ECL*** *(Continued)*

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment loss or reversal of an impairment loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amounts through a loss allowance account.

### (v) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

### (w) Events after the reporting period

Events after the reporting period that provide additional information about the Group's position at the end of the reporting period are adjusting events and are reflected in the consolidated financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

## 5. CRITICAL JUDGEMENTS AND KEY ESTIMATES

### (a) Critical judgements in applying accounting policies

In the process of applying the accounting policies, the directors have made the following judgements that have the most significant effect on the amounts recognised in the consolidated financial statements (apart from those involving estimations, which are dealt with below).

#### **(i) *Deferred tax for investment properties***

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the directors have reviewed the Group's investment property portfolios and concluded that the Group's investment properties are not held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time, rather than through sale. Therefore, in determining the Group's deferred tax for investment properties, the directors have adopted the presumption that investment properties measured using the fair value model are recovered through sale.

#### **(ii) *Assessment of significant increase in credit risk and credit impairment of financial assets***

As mentioned in note 4(u) to the consolidated financial statements, ECL is measured as an allowance for impairment equal to 12-month ECL for financial assets having internal credit ratings of either "Low Risk" or "Watch List", or lifetime ECL for financial assets having internal credit ratings of either "Doubtful" or "Loss". A financial asset's internal credit rating is "Doubtful" when its credit risk has increased significantly since initial recognition but is not assessed to be credit-impaired. A financial asset's internal credit rating is "Loss" when it is credit-impaired. In assessing whether the credit risk of a financial asset has significantly increased or whether a financial asset is credit-impaired, the Group takes into account qualitative and quantitative reasonable and supportable forward-looking information.

## 5. CRITICAL JUDGEMENTS AND KEY ESTIMATES *(Continued)*

### (b) Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

#### *(i) Income taxes*

The Group is subject to income taxes in the PRC. Significant estimates are required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

During the year, income tax expense recognised to profit or loss is disclosed in note 13 to the consolidated financial statements.

#### *(ii) Impairment of property, plant and equipment, and right-of-use assets*

Property, plant and equipment, and right-of-use assets are stated at costs less accumulated amortisation and depreciation, and any impairment. In determining whether an asset is impaired, the Group has to exercise judgement and make estimation, particularly in assessing: (1) whether any events have occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount; and (3) the appropriate key assumptions to be applied in estimating the recoverable amounts. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the assets belongs. Changing the assumptions and estimates could materially affect the recoverable amount used in the impairment test.

The carrying amount of property, plant, equipment and right-of-use assets as at 31 December 2021 are disclosed in notes 19 and 21 to the consolidated financial statements.

# Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

## 5. CRITICAL JUDGEMENTS AND KEY ESTIMATES *(Continued)*

### (b) Key sources of estimation uncertainty *(Continued)*

#### *(iii) Fair value of investment properties*

The Group appointed Masterpiece Valuation Advisory Limited, an independent qualified professional valuer, to assess the fair values of the investment properties as at 31 December 2021 and 2020 respectively. In determining the fair values, the valuers have utilised a method of valuation which involves certain estimates. The directors have exercised their judgement and are satisfied that the method of valuation and inputs used are reflective of the current market conditions.

The carrying amounts of investment properties as at 31 December 2021 is disclosed in note 20 to the consolidated financial statements.

#### *(iv) Impairment of trade receivables*

The management of the Group estimates the amount of impairment loss for ECL on trade receivables based on the credit risk of trade receivables. The amount of the impairment loss of trade receivables based on ECL model is measured as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition. Where the future cash flows are less than expected, or being revised downward due to changes in facts and circumstances, a material impairment loss may arise.

The carrying amount of trade receivables as at 31 December 2021 is disclosed in note 23 to the consolidated financial statements.

## 6. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: foreign currency risk, credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

### (a) Foreign currency risk

The Group has certain exposure to foreign currency risk mainly relating to convertible bonds, cash and cash equivalents denominated in Hong Kong dollars but presented in the functional currency of RMB by the Group. The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group monitors its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

The table below summaries the changes in the Group's consolidated loss after tax and total equity in response to reasonably possible changes in the foreign exchange rate of Hong Kong dollars, referred from the trend in foreign exchange rate of Hong Kong dollars in the corresponding reporting period, to which the Group has significant exposure to the foreign currency risk at the end of the reporting period, with all other variables constant.

	<b>Hypothetical movement in foreign exchange rate</b>	<b>Increase/ (decrease) on consolidated loss after tax and total equity</b>
		RMB'000
31 December 2021	5%	(1,437)
31 December 2020	5%	(1,149)

### (b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade and other receivables) and from its financing activities, including deposits with banks and financial institutions. The Group's exposure to credit risk arising from other receivables and deposits is limited after taking into consideration the financial positions of the counterparties, and the Group's historical credit loss experience. In addition, the Group's exposure to credit risk arising from cash and cash equivalents is limited because the counterparties are banks or financial institutions with high credit-rating assigned by international credit-rating agencies, for which the Group considers to have low credit risk.

## 6. FINANCIAL RISK MANAGEMENT *(Continued)*

### (b) Credit risk *(Continued)*

#### **Trade receivables**

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Trade receivables are usually due within 60 to 180 days from the date of billing for trading of LNG, and are due within one to two years after the completion of works for construction related and consultancy service. Debtors with balances past due are requested to settle all outstanding balances before any further credit is granted. Normally, the Group does not obtain collateral from customers.

The Group measures allowance for impairment of trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience indicate significantly different loss patterns for different customer segments, the allowance for impairment of trade receivables based on historical credit loss experience is further distinguished between the Group's different customer bases.

The following table provides information about the Group's exposure to credit risk and ECLs for trade receivables as at 31 December 2021:

	2021		
	Gross carrying amount RMB'000	Expected loss rate %	Total allowance for impairment RMB'000
0 – 60 days	104,444	8.68%	9,070
61 – 180 days	—	N/A	—
181 – 270 days	93,457	9.23%	8,622
271 days – 1 year	44,429	33.81%	15,022
Over 1 year but within 2 years	99,930	85.54%	85,477

## 6. FINANCIAL RISK MANAGEMENT *(Continued)*

### (b) Credit risk *(Continued)*

#### **Trade receivables** *(Continued)*

The following table provides information about the Group's exposure to credit risk and ECLs for trade receivables as at 31 December 2020:

	2020		
	Gross carrying amount RMB'000	Expected loss rate %	Total allowance for impairment RMB'000
0 – 60 days	81,092	7.07%	5,731
61 – 180 days	79,835	8.04%	6,419
181 – 270 days	35,214	16.69%	5,877
271 days – 1 year	82,503	13.74%	11,335
Over 1 year but within 2 years	205,563	43.05%	88,501
Over 2 years	9,089	100%	9,089
	493,296		126,952

Expected loss rates are based on actual loss experience over the last eight half-year periods. These rates are adjusted to reflect differences between economic conditions during the year over which the historic data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables.

Due to greater financial uncertainty triggered by the COVID-19 pandemic, the Group has increased the expected loss rates in the current year as there is higher risk that a prolonged pandemic could lead to increased credit default rates. In addition, certain individual customers (where there is objective evidence of credit impairment) have been identified as having a significantly elevated credit risk and have been provided for on a specific basis. This has resulted in a charge of RMB195 million for impairment provisions recognised in profit and loss in the current year.

### (c) Liquidity risk

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The maturity analysis based on contractual undiscounted cash flows of the Group's non-derivative financial liabilities is as follows:

	Contractual undiscounted cash flows			Carrying amount RMB'000
	Within 1 year or on demand RMB'000	Between 1 and 5 years RMB'000	Total RMB'000

### (e) Fair values

The carrying amounts of the Group's financial assets and financial liabilities as reflected in the consolidated statement of financial position approximate their respective fair values.

## 7. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

- Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.
- Level 2 inputs: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs: unobservable inputs for the asset or liability.

## 7. FAIR VALUE MEASUREMENTS *(Continued)*

During the years ended 31 December 2021 and 2020, there was no transfer between Level 2 and Level 3. The Group's policy is to recognise transfers into and transfers out of any of the three levels as of the date of the event or change in circumstances that caused the transfer.

- (b) Disclosure of valuation process used by the Group and valuation techniques and inputs used in fair value measurements at 31 December 2021 and 2020:

The Group's Financial Controller is responsible for the fair value measurements of assets and liabilities required for financial reporting purposes and reports directly to the board of directors for these fair value measurements. Discussions of valuation processes and results are held between the Financial Controller and the board of directors regularly.

For level 3 fair value measurements, the following valuation techniques were applied:

#### (i) *Investment properties*

Income approach by capitalising the net rental income of the properties derived from the existing leases and leases of similar properties in close proximity.

#### (ii) *Convertible bonds*

Binomial model by taking into account of risk-free rate, historical volatility of the Company, and discount rate with reference to market comparable corporate bonds with similar maturity and credit risk under market approach.

## 12. SEGMENT INFORMATION

Information reported to the Chief Executive Officer, being the chief operating decision maker (“CODM”), for the purpose of resources allocation and assessment of segment performance.

The Group has two reportable operating segments, which are (a) New Energy Business; and (b) Property Investments. The Group’s reportable segments are strategic business units that offer different products and services. They are managed separately because each business requires different technology and marketing strategies.

The accounting policies of the operating segments are the same as those described in note 4 to the consolidated financial statements.

Segment results are measured as gross (loss)/profit of each segment without allocation of administrative expenses, finance costs, other income, other gains/(losses), allowance for impairment of trade receivables, and income tax (expense)/credit. This is the measure reported to the CODM for the purpose of resource allocation and performance assessment.

No segment assets or liabilities information or other segment information is provided as the CODM does not review this information for the purpose of resource allocation and assessment of segment performance.

No geographical segment information is presented as all the sales and operating losses of the Group are derived within the PRC and all the operating assets of the Group are located in the PRC, which is considered as one geographic location with similar risks and returns.

## 13. INCOME TAX (EXPENSE)/CREDIT *(Continued)*

No provision for Hong Kong Profits Tax was required since the Group had no assessable profits for the years ended 31 December 2021 and 2020.

No provision for PRC Corporate Income Tax was required since the Group had no assessable profits for the year ended 31 December 2021. PRC Corporate Income Tax has been provided at a rate of 25% for the year ended 31 December 2020, except for a subsidiary eligible to be a “Small and Low-profit Enterprise” under PRC Corporate Income Tax Law to enjoy a beneficial rate of 20%.

Tax charged on profits assessable elsewhere has been calculated at the rates of tax prevailing in the countries in which the Group operates, based on existing legislation, interpretation and practices in respect thereof.

The reconciliation between the income tax (expense)/credit and the product of loss before tax multiplied by the respective applicable tax rates is as follows:

	2021 RMB'000	2020 RMB'000

### (a) Pensions — defined contribution plans

The Group contributes to defined contribution retirement plans which are available for eligible employees in the PRC and Hong Kong. Pursuant to the relevant laws and regulations in the People's Republic of China, the Group has joined defined contribution retirement schemes for the employees arranged by local government labour and security authorities (the "PRC Retirement Schemes"). The Group makes contributions to the PRC Retirement Schemes at the applicable rates based on the amounts stipulated by the local government organisations. Upon retirement, the local government labour and security authorities are responsible for the payment of the retirement benefits to the retired employees.

The Group operates a Mandatory Provident Fund scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance (Chapter 485 of the laws of Hong Kong) for employees employed under the jurisdiction of Hong Kong Employment Ordinance (Chapter 57 of the laws of Hong Kong). The MPF Scheme is a defined contribution retirement plan administered by independent trustees. Under the MPF Scheme, the employer and the employees are each required to make contributions to the plan at 5% of the employees' relevant income, subject to a cap of monthly relevant income of HK\$30,000.

During the years ended 31 December 2020 and 2021, the Group had no forfeited contributions under the PRC Retirement Scheme and MPF Scheme and which may be used by the Group to reduce the existing level of contributions. There were also no forfeited contributions available at 31 December 2020 and 2021 under the PRC Retirement Scheme and MPF Scheme which may be used by the Group to reduce the contribution payable in future years.

The Group's investment properties are situated in the PRC and held under medium-term leases. The lease terms of leases whereby the Group leases out its investment properties under operating leases are two years.

The valuations of the investment properties were performed by Masterpiece Valuation Advisory Limited to assist on the fair value determinations using income approach by capitalising the net rental income of the properties derived from the existing leases and leases of similar properties in close proximity.

Amount recognised in consolidated statement of profit or loss for investment properties:

	<b>2021</b>	2020
	<b>RMB'000</b>	RMB'000
Rental income	<b>488</b>	496
Direct operating expenses from properties which generated rental income	<b>—</b>	(20)
	<b>488</b>	476

Operating leases relate to investment properties owned by the Group with lease terms of two years. All operating lease contracts contain market review clauses in the event that the lessee exercises its options to renew. The lessee does not have an option to purchase the property at the expiry of the lease period.

Minimum lease payments receivable on leases are as follows:

	<b>2021</b>	2020
	<b>RMB'000</b>	RMB'000

Depreciation for the year	(3,190)	(1,860)
Disposals for the year	(162)	(2,366)
At 31 December	5,693	5,181

The tenure of the Group's lease arrangements for renting office premises is from one to six years for the year ended 31 December 2021 (2020: two to six years).

Lease arrangements for office premises usually allow early termination by the Group with one-month notice in advance after twelve months from the commencement of the leases. Otherwise, penalties equivalent to one-month lease payment would be charged. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

Disposals for the year ended 31 December 2021 related to early termination of one lease for office premises in the PRC. Details of total cash outflow for leases included in net cash used in financing activities are set out in note 33 to the consolidated financial statements.

## 25. SHARE CAPITAL *(Continued)*

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maximise the return to the shareholders through the optimisation of the debt and equity balance.

The Group sets the amount of capital in proportion to risk. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the payment of dividends, issue new shares, buy-back shares, raise new debts, redeem existing debts or sell assets to reduce debts.

Total equity	<b>115,043</b>	302,626
Debt-to-adjusted capital ratio	<b>21%</b>	5%

Total debt comprises convertible notes and lease liabilities. Adjusted capital comprises all components of equity (i.e. share capital, retained profits and other reserves) except non-controlling interests. The increase in the debt-to-adjusted capital ratio for the year ended 31 December 2021 resulted primarily from the decrease in equity mainly due to the increase in allowance for impairment of trade receivables under economic instability of COVID-19 during the year.

The externally imposed capital requirement for the Group is to have a public float of at least 25% of the shares in order to maintain its listing on GEM of the Stock Exchange.

## 27. RESERVES

### (a) Group

The amounts of the Group's reserves and movements therein are presented in the consolidated statement of profit or loss and other comprehensive income and consolidated statement of changes in equity.

### (b) Nature and purpose of reserves

#### (i) *Share premium*

Under the Companies Law of the Cayman Islands, the share premium account is available for distribution to shareholders of the Company, provided that immediately following the date on which the dividend is proposed to be distributed, the Company is in a position to pay off its debts as they fall due in the ordinary course of business of the Company.

#### (ii) *Share option reserve*

The share option reserve represents the fair value of the actual or estimated number of unexercised share options granted to Directors, employees and consultants of the Group recognised in accordance with the accounting policy adopted for equity-settled share-based payments in note 4(q) to the consolidated financial statements.

#### (iii) *Special reserve*

Special reserve represents the difference between the consideration and the share capital of a subsidiary acquired under common control pursuant to the reorganisation in 2011. During the year ended 31 December 2020, the reserve balance was transferred to retained profits.

## 32. SHARE-BASED PAYMENTS

### Equity-settled share option scheme

The Company operates a share option scheme (the “Scheme”) for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group’s operations. The board of directors of the Company may grant options to directors and eligible employees and consultants of the Company or its subsidiaries to subscribe for shares in the Company at a consideration equal to the higher of the closing price of the shares of the Company on the Stock Exchange at the date of offer of grant and the average closing prices of the shares of the Company on the Stock Exchange for the five trading days immediately preceding the date of grant of the options.

Options granted must be taken up within 28 days from the date of grant, upon payment of HK\$1. Options may be exercised at any time from the date of grant of the share option up to the tenth anniversary of the date of grant as determined by the directors at their discretion.

The maximum number of shares of the Company in respect of which options may be granted, when aggregated with any other share option scheme of the Company, shall not exceed 30% of the issued share capital of the Company from time to time excluding any shares issued upon the exercise of options granted pursuant to the Scheme. Notwithstanding the foregoing, the shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Scheme shall not exceed 10% of the shares in issue from time to time.

The total number of shares issued and to be issued upon exercise of the options granted to a participant under the Scheme (including both exercised and outstanding options) in any 12-month period must not exceed 1% of the shares in issue from time to time. The Scheme is valid and effective for a period of 10 years commencing on 30 December 2011 and may continue to be exercisable in accordance with their terms of issue.

The Scheme has become effective on 12 December 2011.

On 25 November 2014, the Company granted 28,000,000 share options to the Company’s directors, employees and consultants at the exercise price of HK\$0.81 per option (i.e. 224,000,000 shares options with exercise price of HK\$0.10125 each after the share subdivision on 20 May 2016). Further on 9 June 2017, the Company granted 343,536,000 share options to the Company’s directors, employees and consultants at the exercise price of HK\$0.289 per option.

On 31 December 2021, the number of shares in respect of which options had been granted and remained outstanding under the Scheme was 212,480,000 (31 December 2020: 257,280,000), representing 5.8% (31 December 2020: 7.1%) of the shares of the Company in issue at that date.

## 32. SHARE-BASED PAYMENTS *(Continued)*

The fair values of the options granted were calculated using the Binomial model. The inputs into the model were as follows:

	Share price	Exercise price	Expected volatility	Expected life	Risk-free rate	Expected dividend yield
Option A	HK\$0.81	HK\$0.10125	53.486%	7 years	1.485%	0%
Option C	HK\$0.28	HK\$0.289	46.380%	7 years	1.040%	0%
Option D	HK\$0.28	HK\$0.289	46.380%	7 years	1.040%	0%
Option E	HK\$0.28	HK\$0.289	46.380%	7 years	1.040%	0%
Option G	HK\$0.28	HK\$0.289	46.380%	7 years	1.040%	0%
Option H	HK\$0.28	HK\$0.289	46.380%	7 years	1.040%	0%
Option I	HK\$0.28	HK\$0.289	46.380%	7 years	1.040%	0%
Option J	HK\$0.28	HK\$0.289	46.380%	7 years	1.040%	0%
Option K	HK\$0.28	HK\$0.289	46.380%	7 years	1.040%	0%

The expected volatilities are based on historical volatilities of the Company. Expected dividend yields are based on historical dividend yields of the Company. Changes in these subjective input assumptions could materially affect the fair value estimate.

The Group recognised the total expense of RMB1,822,000 for the year ended 31 December 2020 in relation to share options granted by the Company during the year ended 31 December 2020.
