## **MANAGEMENT DISCUSSION AND ANALYSIS**

### **BUSINESS OVERVIEW**

The Group is an established and expanding local railway operator based in Hebei Province. With our Canggang Railway Line, we continue to provide our customers with comprehensive services and one-stop solutions of our freight transportation, extended our leading position in rail freight transportation business and continued to maintain our leading market position in Hebei Province. We are preparing to further expand our railway to enhance our services to our existing customers and to seek potential customers.

2021 was a challenging year for our Group. Following the outbreak of COVID-19 in 2020, the pandemic remained to exert material impacts on China's economy throughout 2021, under which consumption and operation continued to be adversely affected.

The year of 2021 marked the beginning of a new journey of building a modernized socialist China and the launch of the 14th Five-Year Plan. It was also a crucial year for the Group to start a new journey after its Listing and stride forward towards its objectives. Throughout the year, the Company scientifically coordinated the prevention and control of the pandemic as well as transportation and production safety. Guided by the market and propelled by innovation, the Company strictly aligned itself with its missions and objectives set at the beginning of the year, by which it overcame various unfavorable factors, such as the COVID-19 outbreak and the tight market supply of coal, actively expanded its market, strictly monitored production safety, optimized its management system, tapped into potential and raised efficiency, scientifically deployed its development, as well as cultivated and promoted its corporate culture. The amount of freight transportation handled reached a new height and the economic efficiency and management standard of the Company has achieved a new leap.

During the course of 2021, all employees of the Company worked together to achieve the Company's business objectives and responded effectively to various risk and challenges. In September and October 2021, the tight coal supply in China led to electricity rationing in southern regions. In view of this, the Company stepped up efforts to maintain its customer relationships by helping clients to coordinate coal suppliers and opening green railway channels, which successfully satisfied customers' demand of coal in November and December 2021 and secured the coal transportation needs of power plants and other customers throughout the year, as well as maintained the stability of the Company's coal rail freight transportation volume. For the year ended 31 December 2021, we completed rail freight transportation of 8.7 million tonnes of coal, representing a year-on-year increase of 6% or 0.5 million tonnes. For the year ended 31 December 2021, we completed rail freight transportation of 1.7 million tonnes of ore fines, representing a year-on-year decrease of 38.9% or 1.1 million tonnes, primarily due to the outbreak of COVID-19 in Shijiazhuang under which one of our customers suspended its operation during the year. The Company continued to expand its eastbound non-coal rail freight transportation market to increase rail freight transportation volume of oil products, semi-coke, coke, building materials and chemical materials. For the year ended 31 December 2021, we completed rail freight transportation of 7.3 million tonnes of oil

products, semi-coke, coke, building materials and chemical materials, representing a year-on-year increase of 22% or 1.3 million tonnes, offsetting the year-on-year decrease of rail freight transportation volume of ore fines. Rail freight transportation as our core business has recorded a decent performance during the Reporting Period. We have completed transportation of 17.7 million tonnes of cargo for the year ended 31 December 2021 comparing to 16.9 million tonnes of cargo for the year ended 31 December 2020 with an increase of 4.4% or 0.7 million tonnes.

The Directors are of the view that the hygiene measures adopted by our Group can effectively prevent and control the COVID-19 infections, and safeguard the occupational health and safety of our employees. To the best of the Directors' knowledge, during the Reporting Period and up to the date of this announcement, none of our employees had been infected with COVID-19.

The Directors considered that, like any other disaster, the outbreak is likely to be temporary and when it is over, the economy in China will return to normal as the general course. The Directors will continue to closely monitor the effect of the outbreak and evaluate the impact to our business.

#### **FUTURE DEVELOPMENT**

As at 31 December 2021, we operated one local railway, the Canggang Railway Line. One of our business strategies is to construct additional branch lines to expand our business scale, including expanding our geographic presence and business to the Northern Shandong Industrial Park and Comprehensive Industrial Park in Bohai New Area. However in the midst of the continuous impacts caused by COVID-19, the Directors expected to begin the construction of the new branch lines in the second half of 2022.

We are also in the process of upgrading and renovating the relevant infrastructure of our Canggang Railway Line to enhance the safety and increase the overall capacity of our railway operation.

Our revenue decreased by 1.5% or RMB5.5 million from RMB361.5 million for the year ended 31 December 2020 to RMB356.0 million for the year ended 31 December 2021, primarily due to the decrease in revenue from ancillary businesses of RMB5.1 million.

Our revenue from rail freight transportation remained relatively stable at RMB260.6 million for the year ended 31 December 2020 and RMB260.3 million for the year ended 31 December 2021. Among which, revenue from rail freight transportation of ore fines decreased by 40.5% or RMB9.7 million, such decrease was offset by an increase of RMB10.2 million in revenue from our transportation of other products such as semi-coke.

Our revenue from ancillary businesses decreased from RMB100.9 million for the year ended 31 December 2020 to RMB95.7 million for the Reporting Period. Such decrease was mainly related to the decrease in revenue from road freight transportation of RMB14.5 million primarily due to the outbreak of COVID-19 in Shijiazhuang under which one of our customers suspended its operation during the year, and was offset by the increase in revenue from construction, maintenance and repair of RMB8.8 million primarily due to the construction of roadbed of a special railway line which was completed for a customer during the Reporting Period. Revenue from other ancillary services increased by 32.8% or RMB1.8 million. The increase was primarily due to an increase in the provision of warehousing services.

## **Operating expenses**

Our operating expenses include staff costs, outsourcing service charges and other labor costs, cargo logistics, depreciation, fuel used, repair and maintenance, general and administration expenses, impairment loss on trade receivables and other expenses. The operating expenses decreased by 3.4% or RMB8.5 million from RMB247.8 million for the year ended 31 December 2020 to RMB239.3 million for the year ended 31 December 2021. The decrease was primarily due to a decrease in listing expenses of RMB14.0 million and a reversal of impairment loss on trade receivables of RMB1.5 million during the Reporting Period, compared to the impairment loss on trade receivables of RMB3.6 million for the year ended 31 December 2020 (as stated in the following paragraph), and offset by an increase in staff costs of RMB8.1 million as a result of the withdrawal of favourable government policy during the COVID-19 outbreak and an increase in fuel costs of RMB1.2 million which was mainly due to the increase in fuel prices and rail freight transportation volume.

Due to the disruption to the PRC economy caused by the COVID-19 outbreak, as to improve our liquidity, we seek to maintain strict control over outstanding receivables and our senior management regularly reviews overdue balance to reduce our credit risk. As a result of our efforts, the recovery of our trade receivables was improved as compared to the previous year and hence we have reversed the impairment loss on trade receivables of RMB1.5 million during the Reporting Period, compared to the impairment loss on trade receivables of RMB3.6 million for the year ended 31 December 2020. Our trade and bills receivables increased by 2.2% or RMB2.1 million from RMB96.6 million for the year ended 31 December 2020 to RMB98.7 million for the year ended 31 December 2021.

## **Other income**

Our other income increased by 257.9%, or RMB8.2 million from RMB3.2 million for the year ended 31 December 2020 to RMB11.4 million for the year ended 31 December 2021, primarily due to the government grants received in relation to the global offering of the Company.

## **Segment result and segment margin**

For our rail freight transportation, the segment result was RMB132.4 million and RMB122.2 million and the segment margin was 50.8% and 46.9%, for the years ended 31 December 2020 and 2021, respectively. The decrease in segment margin was primarily due to the increase in staff costs as the government withdrew the special supportive policies in relation to the COVID-19 outbreak and also the increase in fuel costs which was mainly due to the increase in fuel prices and rail freight transportation volume.

For our ancillary businesses, the segment result was RMB10.5 million and RMB6.0 million and the segment margin was 10.4% and 6.3%, for the years ended 31 December 2020 and 2021, respectively. The decrease in segment margin was primarily due to the sharp decline in road freight transportation business during the year.

### **Finance costs**

Our finance costs decreased by 10.7%, or RMB2.7 million from RMB26.0 million for the year ended 31 December 2020 to RMB23.3 million for the year ended 31 December 2021, primarily due to an decrease in our average monthly loan balance and the lowered interest rates on our bank loans.

### **Income tax expense**

Our income tax expense remained relatively stable at RMB25.2 million for the year ended 31 December 2020 and RMB27.0 million for the year ended 31 December 2021. Our effective tax rate decreased from 28.1% for the year ended 31 December 2020 to 25.8% for the year ended 31 December 2021 primarily because more non-deductible listing expenses were incurred during the year ended 31 December 2020.

### **Profit for the year and net profit margin**

As a result of the foregoing, our profit for the year increased by 20.5% or RMB13.2 million from RMB64.6 million for year ended 31 December 2020 to RMB77.8 million for the year ended 31 December 2021. Our net profit margin increased from 17.9% for the year ended 31 December 2020 to 21.8% for the year ended 31 December 2021. The increase in our profit for the year and net profit margin for 2021 as compared to 2020 was mainly due to the listing expenses incurred in 2020, which were no longer recorded in 2021.

The decrease was mainly attributed to the decrease in the closing balance of bank and other loans as well as the increase in the total equity.
