Notes:

#### 1. BASIS OF PREPARATION AND ACCOUNTING POLICIES

These unaudited condensed consolidated financial statements should be read in conjunction with the 2021 annual consolidated financial statements. Except as described below, the accounting policies and methods of computation used in the preparation of these condensed consolidated financial statements are consistent with those used in the annual consolidated financial statements for the year ended 31 December 2021.

# Amendments to Hong Kong Financial Reporting Standards ("HKFRSs") that are mandatorily effective for the current financial year

In the current 3 months ended 31 March 2022, the Group has applied, for the first time, the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants that are relevant for the preparation of the Group's unaudited condensed consolidated financial statements:

| Amendments to HKFRS 3 | Reference to the Conceptual Framework                        |
|-----------------------|--|
| Amendment to HKFRS 16 | Covid-19-Related Rent Concessions beyond 30 June 2021        |
| Amendments to HKAS 16 | Property, Plant and Equipment - Proceeds before Intended Use |
| Amendments to HKAS 37 | Onerous Contracts - Cost of Fulfilling a Contract            |
| Amendments to HKFRSs  | Annual Improvements to HKFRSs 2018-2020                      |

The directors of the Company considered that the application of above-mentioned amendments to HKFRSs has had no material impact on the Group's financial position and performance for the current and prior periods and/or on the disclosures set out in these unaudited condensed consolidated financial statements.

#### 2. SEGMENT INFORMATION

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is the person or group that allocates resources to and assesses the performance of the operating segments of an entity. The Group has determined the Executive Committee as its chief operating decision maker.

Most of the Group's revenue is related to activities conducted in Hong Kong. No single customer amounts to more than 10 percent of the Group's revenue.

The segments are managed separately as each segment engages in different activities. The Group's operating and reportable segments are as follows:

- (a) the wealth management segment provides financial advisory services and customised investment solutions to satisfy the specific financial needs of high net worth clients. This segment offers a broad range of products and services including securities, futures and options contracts, over-the-counter products, funds, discretionary account management services, securities custodian services, and securities margin financing;
- (b) the corporate finance segment engages in provision of sponsoring and underwriting services to corporate clients for their fund raising activities in equity and debt capital markets, and also engages in provision of financial advisory service for corporate actions such as mergers and acquisitions. In addition, this segment also provides financing solutions to the corporate clients and distributes these financing assets in secondary market;
- (c) the asset management segment engages in provision of investment management services on diversified and comprehensive investment products including public funds, private funds, and mandatory provident funds to individual, corporate and institutional clients;
- (d) the global markets segment provides a vast range of financial services to a diverse group of institutional clients, such as investment funds, sovereign funds, insurance companies and financial institutions, globally. This segment offers sales and trading of both equity and fixed income products, prime brokerage and risk management solutions, and research advisory. It is also an active player in equity derivative products creation and trading. This segment is supported by the award-winning equity research team that specialises in listed equities in Asian financial markets; and
- (e) the investment segment invests in various financial instruments and holds majority of investment securities of the Group. Investments held by this segment include primarily investment funds, listed and unlisted debt and equities, and private equities. This segment aims at acquiring investments that generates a reasonable yield while maintaining a robust risk management mechanism.

During the year ended 31 December 2021, the Group has redefined its key business activities of global markets segment, aiming at providing equity sales and trading, fixed income sales and trading, derivative sales and trading, prime brokerage and equity research services to institutional clients globally and facilitating client transactions across different asset classes in financial markets worldwide, the "Institutional Clients" segment has been renamed as "Global Markets" segment. The Group has also reclassified interest income from financial assets measured at amortised cost (including investment securities at amortised cost and term financing) held by corporate finance segment and global markets segment to investment segment to better reflect the management view that these assets form part of the investment portfolio held by the Group. Consequently, comparative information for the 3 months ended 31 March 2021 on segment revenue and segment expenses (as a result of reclassification of segment revenue) has been restated to conform the current period's presentation.

The following table presents revenue and profit/(loss) for the Group's business segments:

Notes:

- (a) As at 31 March 2022, the trustee of the share award scheme held 110,420,646 ordinary shares of the Company (31 December 2021: 117,409,723 shares) for the share award scheme, which was adopted by the Board on 19 December 2014, through purchases in the open market at a total cost, including related transaction costs, of approximately HK\$254 million (31 December 2021: HK\$270 million).
- (b) Convertible bonds issued on 25 October 2016 that were outstanding and convertible into ordinary shares of the Company at a conversion price of HK\$5.06 immediate before redemption had been redeemed in full during the year ended 31 December 2021. In the calculation of the diluted earnings per share, the convertible bonds are assumed to have been converted into ordinary shares. The weighted average number of ordinary shares outstanding is increased by the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of outstanding convertible bonds into ordinary shares was made from the date of the first issue with the adjustment if there is any conversion of the convertible bonds into ordinary shares during the period. The net profit is adjusted to eliminate the relevant interest expense less the tax effect.
- (c) The computation of diluted (loss)/earnings per share assumed the exercise of the Company's outstanding share options with the exercise price lower than the average market price during the periods ended 31 March 2022 and 2021 and with the adjustment for the share options lapsed or exercised during the periods.

#### 7. DIVIDENDS

At a meeting of the Board held on 28 March 2022, the Board resolved not to declare a second interim dividend for the year ended 31 December 2021. In addition, the Board proposed a bonus issue of shares on the basis of one bonus share for every ten existing shares held by qualifying shareholders whose names appear on the register of members of the Company on 14 June 2022. The proposed bonus issue is subject to the shareholders' approval at the forthcoming annual general meeting of the Company to be held on 2 June 2022.

It is the practice of the Group to declare a dividend only at the half-year and year-end and no dividend will be proposed for the current period (3 months ended 31 March 2021: Nil).

#### Notes:

(i) Investment securities at fair value through profit or loss includes certain investment funds that are consolidated into the unaudited condensed consolidated financial statements of the Group.

As at 31 March 2022, the amount includes the consolidated bond funds, equity funds, private equity funds, limited partnership funds and fund of funds (31 December 2021: consolidated bond funds, equity funds, private equity funds and limited partnership funds), which mainly invested in listed and unlisted equity investments, listed and unlisted debt investments, unlisted partnership investments and unlisted investment funds.

Included in the consolidated investment funds of HK\$17,127 million (31 December 2021: HK\$ HK\$15,555 million) is interests held by third-party unit/shareholders of HK\$644 million (31 December 2021: HK\$975 million). These interests are held by third-party unit/shareholders and the gain or loss arising from these third party interests have no impact to the net assets, net profit and leverage ratio of the Group.

(ii) The Group invested in investment funds. These investment funds invest in mainly stocks, bonds and funds, with the primary objectives to provide the investors with capital appreciation, investment income and for selling in the near future for profit.

There is no unfilled capital commitment to these investment funds. The current carrying amount of HK\$9,011 million (31 December 2021: HK\$9,963 million) in the unaudited condensed consolidated statement of financial position represents the Group's maximum exposure.

- (iii) The Group held unlisted investment funds amounted to HK\$2,150 million (31 December 2021: HK\$2,197 million) and these investment funds shall be classified as "investments accounted for using the equity method" given the Group held over 30% (31 December 2021: over 30%) of the non-participating shares and also the Group held 50% of the management shares in these unlisted investment funds, and management shareholders are empowered to make all the key financing and operating decisions in the funds and require unanimous consent of the parties sharing control. The directors of the Company considered that these investment funds shall be measured at fair value through profit or loss instead of applying the equity method as the principal activity of the subsidiary holding these investments is investment holding. There is no unfilled capital commitment on these unlisted investment funds as at 31 March 2022 and 31 December 2021 respectively and the fair values represent the maximum exposure on respective reporting dates.
- (iv) As at 31 March 2022 and 31 December 2021, included in the non-current portion of investment securities are listed equity investments, unlisted equity investments, unlisted debt investments, unlisted partnership investments, unlisted investment funds and consolidated investment funds that the directors of the Company expect to realise not within twelve months after each reporting period.

(v) Included in investment securities at amortised cost are HK\$7,078 million (31 December 2021: HK\$7,062 million) of investment securities that are secured.

The majority of these investment securities at amortised cost are secured and/or guaranteed with contractual maturity within 1 year from the reporting date. These investment securities are monitored by the Risk Management Department and the Investment Committee of the Group based on the latest status of these securities, and the latest announced or available information about the issuers and the underlying collateral held.

As at 31 March 2022, there were four past due investment securities (31 December 2021: four).

The credit facility limits to margin clients are determined by the discounted market value of the collateral securities accepted by the Group, where the Group maintains a list of approved stocks for margin lending at a specified loan to collateral ratio. Any excess in the lending ratio will trigger a margin call with the margin clients having to make good the shortfall. In granting credit facility, other factors such as financial strength, creditworthiness and the past collection statistics are also considered. The Group's Risk Management Department is responsible to monitor credit risk and seek to maintain a strict control over the outstanding loan balance.

The loans to margin clients are interest bearing and secured by the underlying pledged securities. As at 31 March 2022, margin financing of HK\$9,638 million (31 December 2021: HK\$9,160 million) were secured by securities pledged by the customers to the Group as collateral with undiscounted market value of HK\$43,417 million (31 December 2021: HK\$46,997 million). In determining the allowances for credit impaired loans to margin clients for the current period, the management of the Group also takes into account shortfall by comparing the fair value of securities pledged as collateral and the outstanding balance of loan to margin clients, taking into account factors including subsequent settlements, executable settlement plans and restructuring arrangements, and other types of credit enhancements in assessing the expected credit loss.

During the period ended 31 March 2022, additional individual impairment of HK\$67 million was made against several independent margin customers with carrying amount of HK\$361 million as at 31 March 2022 due to the decrease in the market value of the listed shares pledged to the Group as at 31 March 2022.

No ageing analysis is disclosed as in the opinion of the directors, the ageing analysis is not meaningful in view of the revolving nature of the business of securities margin financing.

Included in term financing are HK\$3,812 million (31 December 2021: HK\$3,375 million) of advances that are secured.

The majority of these term financing are secured and/or guaranteed with contractual maturity within 1 year from the reporting date and credit limits are set for borrowers.

Collateral held includes equity instruments (listed or unlisted), investment portfolios held by the borrowers, etc. In addition, majority of these advances are also guaranteed by other parties including holding companies or related companies of the borrower, beneficial owner of the borrower, etc. Regular reviews on these term financing are conducted by the Risk Management Department of the Group based on the latest status of these term financing and the latest announced or available information about the borrowers and the underlying collateral held. Apart from collateral monitoring, the Group seeks to maintain effective control over its term financing in order to minimise credit risk by reviewing the borrowers' and/or guarantors' financial positions.

As at 31 March 2022, there were four past due term financing (31 December 2021: four).
