各位投資人,大家好!

時光荏苒,歲月如梭,波瀾壯闊而又跌宕起伏的 2021年,全球疫情反覆,中美角力,地緣政治危 機衝突不斷,各種黑天鵝、灰犀牛事件層出不窮, 宏觀經濟和市場形勢更加複雜多變,讓經濟大環 境充斥著各種不確定因素。面對世紀疫情,百年 變局,偉仕佳杰始終圍繞既定的戰略目標,保持 初心,砥礪前行,持續加強生態建設,不斷提高 運營效率,穩中求進,逆勢而上,令2021年本集 團的核心競爭力進一步增強,業績更上一層樓。

In the fiscal year 2021, VSTECS overcame difficulties and made positive progress. - The most important topics to the Group

As illustrated above, the ESG topics of highest priority to the Group are Product Quality and Safety, Product Market Demand and Innovation, Intellectual Property Rights and Corruption Behaviour with the Prevention Policy.

Because of our business nature, our internal and external stakeholders are focused more on the social and governance issues than the environmental issues that are less related to our business nature. For the social sector, our stakeholders focus on the Product Market Demand and Innovation, as an IT trading company, we also care about the innovation and demand of our product. We have cooperated with lots of well-established and wellknown suppliers that provide us with high quality products, and believe that the demand for IT products will be stable. In addition, we keep discussing with our suppliers about the new idea of the IT products such that they can provide trendy products to our customers.

For the governance sector, our stakeholders focused on the Product's Quality and Safety and the Intellectual Property Rights. These factors are very important to the operation of the Group. The Group has policy and regulation on monitoring the safety of the product. Once we have discovered the safety and quality problems, we will inform the suppliers immediately and find a solution to solve the problems by returning the products or renewing the products. We also take the Intellectual Property Rights issue as a very serious matter, as innovation and ideas are key inputs of IT products. We have strict regulations on supervision of the product that is not yet on the market.

#### 本集團最重要的議題

如上表所示,環境、社會及管治議題中,產 品質量及安全、產品的市場需求及創新、知 識產權及防貪腐政策乃本集團最優先考慮議 題。

鑒於我們的業務性質,我們的內外部持份者 更 為 關注社會及治理問題,而非與我們的業 務性質關聯較小的環境問題。就社會板塊而 言,持份者的關注點為產品的市場需求及創 新,作為一家資訊科技貿易公司,我們亦關 心產品的創新及需求。我們與眾多有市場地 位的知名供應商合作,獲取優質產品,且我 們認為對資訊科技產品的需求將維持穩定。 此外,我們與供應商保持探討有關資訊科技 產品的新理念,從而令其能夠為客戶提供時 尚前沿的產品。

就治理板塊而言,我們的持份者關注產品的 質量及安全以及知識產權。此等因素對本集 團之經營非常重要。本集團已制定監控產品 安全的政策及規例。一旦發現安全及質量問 題,我們將立即通知供應商,通過退貨或更 新產品,解決問題。我們亦嚴肅對待知識產 權問題,乃由於創新及創意為資訊科技產品 的關鍵投入。我們已就未上市產品制定嚴格 的監管規定。

Apart from the product-related sector, Corruption Prevention is also a topic that our stakeholders think is an important issue and the Board has the same idea as our stakeholders. In view of this, the Group has a stringent Code of Conduct that requires the employees and our business partners to follow strictly. Moreover, all employees are also required to attend anticorruption training every year to remind them of the importance of integrity.

除產品相關板塊外,持份者認為防腐亦是一個重要議題,董事會與持份者持相同觀點。 有鑑於此,本集團已制定嚴格的行為準則, 要求員工及業務合作夥伴嚴格遵守該準則。 此外,所有員工亦須每年參加反腐培訓,令 其謹記誠信的重要性。

# **ESG STRATEGIES**

# The Group's business nature is focusing on the ICT products, channel development and integrated service providers of technology solutions in the Asia Pacific region. As compared with the manufacturing-based business, we are mainly engaged in the development of technologies with fewer environmental concerns. But we still hope to take part in environmental protection activities and fulfil our corporate social responsibility. We will put additional efforts into social development, such as employment and development policies, supplier selection, safety and health issues, product responsibility, etc.

On the environmental issues, although we emit and pollute less due to our business nature, we have set some goals in terms of energy and resource use so as to participate in the sustainable development of the environment. The Group has set a number of environmental targets to help reduce emissions and the use of natural resources, such as the usage of electricity, which is important in the IT industry. The goals mainly relate to air emissions, waste reduction, energy and water conservation.

We understand our energy and resource usage is very minimal given our IT trading business nature thus setting a specific target on decreases in carbon emission may not be meaningful to the society. However, we also understand the importance of its impact on sustainable environmental development. We will continue to encourage and ensure the efficient use of resources in our operation process to save energy and reduce GHG emission as much as possible. We will keep putting effort in protecting the environment and we are planning to work with our suppliers on handling the electronic wastes in a more proper way. # 環境可持續發展

我們關注環境。我們在維持本集團業務營運 的同時,盡量減少對環境的影響,同時推廣 可持續發展及保護環境的理念。本集團將保 護環境作為其企業責任的一部分,並充分認 識到可持續環境發展對促進其業務可持續發 展的重要性。本集團致力推行不同的環保措 施,以減少對環境的影響。從採購材料到辦 公場所使用,我們尋求在營運中應對可持續 發展問題的方法。

# **EMISSIONS**

The Group has always emphasised environmental friendliness and reducing emissions of all kinds. As our business is mainly trading in nature, the operations of our Group do not have significant impacts on air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste. Air and gas emission and non-hazardous waste generated by the Group is minimal. Due to the nature of business, the most common air emission and greenhouse gas (GHG) emissions from our daily business activities are mainly generated from the consumption of electricity and the usage of vehicles and paper in the offices and warehouses. The Group does not produce any hazardous waste in its operations.

During the Reporting Period, we were not aware of any non-compliance with relevant legislative and regulatory requirements, for example, the legislation relevant to the Prevention of Harmful Effects on the Environment Caused by Air Pollution, Noise, Vibration and Similar Phenomena.

#### Air and Greenhouse Gases

As the business nature of the Group is trading ICT products, the trading operation does not involve the emission of GHG in significant quantities. Therefore, we are not disclosing this figure. If in the future, our emissions become larger, we will disclose and inform our stakeholders in a timely manner.

# 排放

本集團一直注重環保及減少各類廢氣排放。 由於我們的業務主要為貿易性質,本集團的 營運對廢氣及溫室氣體排放、向水及土地排放以及產生有害及無害廢棄物並無重大影響。本集團產生的廢氣及氣體排放以及無無 廢棄物極少。因業務性質使然,我們日常業 務活動中最常見的廢氣排放及溫室氣體排以 主要來自於在辦公室及倉庫的電力消耗以及 使用車輛及紙張。本集團於其營運中並不產 生任何有害廢棄物。

於報告期間,我們並無發現任何違反有關法例及規管規定的情況,例如有關防止空氣污染、噪音、振動及類似現象對環境造成有害影響的法例。

# 廢氣及溫室氣體

由於本集團的業務為買賣資訊通訊科技產品,買賣業務並不涉及大量排放溫室氣體。 因此,我們並無披露相關數字。倘若日後我們的排放量增加,我們將及時披露並知會持份者。 The Group has no industry or car usage in the operation of our business so we will not have stationary and mobile combustion emission, but we discovered that the electricity usage will also generate GHG emission, as such, we have consolidated the electricity usage data in our headquarter - Hong Kong office, relevant statistics of GHG emission for the Reporting Period is shown as the following table:

本集團的業務營運中並不涉及工業或使用汽 車,故我們並無固定及移動燃燒排放。但我 們發現,使用電力亦會產生溫室氣體排放, 因此我們整合我們的總部一香港辦事處的用 電數據。報告期間的溫室氣體排放相關統計 數字見下表:

Indicators 指標	Unit 單位	Total (2021) 總計 (二零二一年)

Note: GHG emissions are computed based on the ESG Reporting Guide and Emission Factor from Cross-Sector Tools prepared by Greenhouse Gas Protocol.

The Group understands the impact brought by GHG and air emission, so we strive to reduce the air and GHG emissions through improving our process flow.

#### Solid Waste Emission

We uphold the principle of "4Rs", namely Reduce, Reuse, Replace and Recycle. As our business mainly focuses on IT software trading, we do not generate waste in our production process. In our offices, we produce only municipal waste, which is unharmful, disposed of through legal means and collected by governmental services daily. Hence, we consider this issue insignificant to the Group and do not report the figures here.

附註: 溫室氣體排放量乃根據環境、社會及管治 報告指引及溫室氣體核算體系編製的*跨行* 業工具排放系數計算。

本集團深知溫室氣體及廢棄排放帶來的影 響,因此我們致力透過改善工藝流程減少廢 棄及溫室氣體排放。

#### 固體廢棄物排放

我們秉持「4R」原則,即減少使用、物盡其 用、替代使用及循環再用。由於我們的業務 重點在於資訊科技軟件貿易,我們於生產過 程中並無產生廢物。我們的辦公室僅產生無 害的城市垃圾,均以合法方式處置及每日由 政府服務機構收集。因此,我們認為此議題 對本集團而言並不重大,故並無在此報告數 據。

#### Wastewater

Our manufacturing process does not involve water consumption. The Group does not have a lot of discharge to water. The wastewater of the Group comes mainly from domestic usage from our offices. Since living wastewater should not pose huge harm to the environment, we assume this topic is insignificant. The Group strictly discharges wastewater into municipal sewage pipelines for uniform treatment in accordance with the "Wastewater Quality Standards for Discharge to Municipal Sewers". The Group also calls on employees to conserve water resources.

During the Reporting Period, there was no incidence of non-compliance in emissions with the relevant environmental laws and regulations that have a significant impact on our Group.

# USE OF RESOURCES

The Group only uses resources in the office and warehouse operation, and we earnestly reduce resource consumption and improve economic efficiency.

The Group highly encourages the efficient use of resources while endeavours to reduce, reuse and recycle resources to prevent the unnecessary waste of resources and minimise the impacts on the environment and natural resources. Due to the nature of our business, the resources used by the Group are principally attributed to electricity and paper consumed at our offices and warehouses. Due to our business nature, our operation does not involve the direct consumption of water and packaging materials. Water consumption by the Group was mainly bottled drinking water used at the Group's offices and warehouse only.

#### 廢水

我們的生產過程無需耗水。本集團不會對水體作出大量排放。本集團的廢水主要來自辦公室的日常使用。由於生活污水不會對環境造成重大危害,我們認為此議題並不重大。本集團嚴格按照《污水排入城鎮下水道水質標準》將廢水排入城鎮污水管道進行統一處理。本集團亦呼籲員工節約水資源。

於報告期間,並無發生對本集團有重大影響的違反相關環境法律法規排放的事件。

# 資源使用

本集團僅於辦公室及倉庫營運中使用資源, 且我們切實減少資源消耗並提高經濟效益。

本集團大力鼓勵有效利用資源,同時努力減少資源用量,實現資源重複利用及回收,以防止資源之不必要浪費,盡量減輕對環境及自然資源之影響。基於業務性質使然,本集團所用資源主要為辦公室及倉庫所耗電力及紙張。基於業務性質使然,本集團業務不會直接耗用水及包裝材料。本集團用水主要僅為辦公室及倉庫所耗瓶裝飲用水。

# Electricity

As our Group's business is mainly trading in nature, our electricity consumption is normally used at our offices and warehouses, and we do not involve large electric facilities for operation. In this report, we believe the emission in our headquarter - Hong Kong will be the main concern, the table below shows the electricity usage and the intensity in our headquarter in Hong Kong during the Reporting Period:

The following table shows the figures of resource consumption in our business operations:

# 電力

由於本集團業務主要屬貿易性質,故一般在 辦公室及倉庫用電,業務中並不需要大型電 耗 設 施。於 本 報 告 中,我 們 認 為 我 們 香 港 總 部的排放將為主要關注點,下表列示於報告 期間我們香港總部的用電量及密度:

下表列示我們的業務營運所耗用資源的數 字:

The Group 本集團	Unit 單位	Total (2021) 總計 (二零二一年)
Electricity consumption	kWh	193,937
用電量	千瓦時	
Intensity (per HK Employee)	kWh/Employee	2,000
密度(每名香港僱員)	千瓦時/僱員	

The Group continues its commitment to reducing energy consumption by reminding employees to switch off their computers before leaving the office, switch off the lighting in the conference rooms and other functional rooms when they are not in use and turn the electronic equipment into energysaving mode whenever possible. We also encourage our employees to keep the office temperature at 25° C so as to ensure the efficient use of the airconditioning.

本集團繼續致力於減少能耗,提醒僱員於離 開辦公室前關閉電腦,關掉無人使用之會議 室及其他功能室照明,並盡可能將電子設備 調校至節能模式。我們亦鼓勵僱員將辦公室 溫度維持於攝氏25度,確保空調使用效益。

# Paper and Printing Materials

Paper usage by the Group's offices and warehouses are limited for daily office use as well as some printing materials such as annual/interim reports and circulars which are required to be distributed to the shareholders. In view of that, we consider paper and printing materials consumption attributed to less significant to our Group. However, to save the environment, the Group continues the efforts in reducing and recycling of paper usage, by reminding our staff to have environmentally friendly printing and photocopying habits, encouraging double-sided printing and scanning documents to the Group's server system rather than photocopying whenever possible, implementing a password system for colour printing and separate collection of waste paper and used envelopes for reuse and recycling. For those who are printing materials, they will not over-print and will print on demand, and we also encourage our readers to make use of the Company's website.

# 紙張及印刷品

本集團辦公室及倉庫所用紙張限於日常辦公 室用紙,以及必須向股東分發之年報/中期 報告及通函等印刷材料。有鑒於此,我們認 為本集團紙張及印刷品用量不大。然而,為 保護環境,本集團繼續致力於減少用紙並回 收廢紙,提醒員工養成以環保方式印刷及複 印之習慣,鼓勵雙面印刷,盡可能掃瞄文件 存入本集團伺服器系統代替影印,實行彩色 印刷密碼系統,分門別類收集廢紙及已使用 信封以作重用及回收。對於有關印刷材料, 本集團不會過量印刷,只會按需要印刷,並 鼓勵讀者使用本公司之網站。

#### **Environment and Natural Resources**

Due to the nature of our Group's operations, environmental impact and use of natural resources are considered minimal and insignificant. Nevertheless, our Group is an endeavour to protect the environment and natural resources as responsible corporate citizenship.

# IMPACT ON COMMUNITIES, ENVIRONMENTAL AND NATURAL RESOURCE

The Group is well aware of the importance of sustainable development and has always regarded environmental protection as one of its key tasks. The Group's management acknowledges its responsibility in monitoring environmental impacts and the use of natural resources. As a socially responsible citizen, we are concerned about the quality of the environment. While conducting business, we strive to minimise our impact on the environment. Our determination to promote environmental well-being is reflected in the introduction of our Environmental Policy.

Due to our Group's business nature is mainly distribution of IT products, environmental impact and use of natural resources are considered minimal. Nevertheless, our Group is an endeavour to protect the environment and natural resources as responsible corporate citizenship. The Group minimised the impact on the environment through our daily life activities, for example, switching off the computers, lights and electronic devices when we finish using them, bringing our own cup to drink water instead of drinking plastic bottled water, etc. We all participate in protecting the environment through the small actions we take in our daily lives.

# 環境及天然資源

由於本集團營運性質使然,本集團認為其對環境造成之影響及天然資源用量極小。然而,本集團致力保護環境及天然資源,克盡企業公民之責。

# 對社區、環境及天然資源的影 響

本集團深知可持續發展的重要性,始終將環境保護作為重點工作之一。本集團管理層承擔監察環境影響及天然資源使用的責任。作為一名有社會責任感的公民,我們關心環境質量。在開展業務時,我們努力將對環境的影響降至最低。我們引入的環境政策反映了促進環境福祉的決心。

由於本集團的業務性質主要是分銷資訊科技產品,本集團認為其對環境造成之影響認為其對環境造成之影響。 然資源用量極小。然而,本集團致力保護 境及天然資源,克盡企業公民之責。本集團 通過我們的日常生活活動將對環境的影響 至最低,例如,使用完電腦、燈及電子設設 養及時關閉,自帶杯子喝水而不喝塑料瓶裝 水等。我們都通過日常生活的小舉動參與 環境保護當中。

# **CLIMATE CHANGE**

Climate change is an issue that troubles a multitude of corporations and countries around the world. The Group is not likely to be unaffected and will not leave ourselves unquarded. We have, apart from reducing GHG emissions, developed adaptive measures.

According to the Taskforce on Climate-related Financial Disclosures ("TCFD") framework, climate-related risks can be categorised as physical risks and transition risks. Physical risks can be acute or chronic in climate patterns. Transition risks can be evolved from transition to a lower-carbon economy.

Due to our Group's business nature is mainly distribution of IT products, the supply chain may be disrupted by extreme weather events, such as typhoon. Any decrease in capacity of timely delivery may result in a loss of revenue.

The Group has over 300 suppliers in China, Hong Kong, Philippines, Indonesia, Thailand and Singapore, etc. The diverse supplier base increases resilience of the supply chain and the ability to operate under various conditions. Also, the Group assigns designated project managers to have regular meetings with suppliers, enabling quick response in identifying and designing new distribution procedures related to climate change. The Group will evaluate emergency transition plans regularly to enhance adaptive capacity related to climate-related risks.

# 氣候變化

氣候變化是困擾全球眾多企業及國家的問 題。本集團不可能不受影響,亦不會無所防 備。除減少溫室氣體排放外,我們還制定了 滴應措施。

根據氣候相關財務信息披露工作組的框架, 氣候相關風險可分為物理風險及過渡風險。 在氣候模式中,物理風險可能是急性的,也 可能是慢性的。過渡風險可以從向低碳經濟 的過渡演變而來。

由於本集團的業務性質主要是分銷資訊科技 產品,供應鏈可能因颱風等極端天氣情況而 中斷。及時交付的能力出現任何下降都可能 導致損失收入。

本集團在中國、香港、菲律賓、印尼、泰國、 新加坡等地擁有300多名供應商。多樣化的 供應商基礎提高了供應鏈的彈性以及在各種 條件下的運營能力。此外,本集團亦委派指 定的項目經理與供應商定期會面,以便迅速 識別及設計與氣候變化相關的新分銷程序。 本集團將定期評估緊急過渡計劃,以提高與 氣候相關風險有關的適應能力。

These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

# 關鍵審計事項

關鍵審計事項是根據我們的專業判斷,認為對本期綜合財務報表的審計最為重要的事項。這些事項是在我們審計整體綜合財務報表及出具意見時進行處理的。我們不會對這些事項提供單獨的意見。

#### Valuation of inventories

Refer to note 12 to the consolidated financial statements and the accounting policies set out in note 2.11.

#### The Key Audit Matter

The Group's inventories, which consist of various information technology products and enterprise equipment, amounted to HK\$9,336,837,000 (approximately 31% of the Group's current assets) as at 31 December 2021.

Inventories are stated at the lower of cost and net realisable value.

Management estimates the net realisable values of inventories based on expected demand, future selling prices and the future expenses necessary to make the sales. Future demand and selling prices of technology products are highly susceptible to factors such as industry standards, technological changes and customer preferences, which are constantly changing and could change very rapidly.

Determining provision for inventories requires the exercise of significant management judgement as actual selling prices of individual inventory items may fall below their costs or carrying values.

We identified the net realisable value of inventories as a key audit matter because any write-down or provision may have a significant impact on the consolidated financial statements and because the estimation of the net realisable values involves the exercise of significant management judgement which can be inherently uncertain.

#### How the matter was addressed in our audit

Our audit procedures to assess the net realisable value of inventories included the following:

- obtaining an understanding of and assessing the design, implementation and operating effectiveness of the Group's key internal controls over the inventory write-down and provision assessment process, including the Group's monitoring controls over slow-moving inventories;
- assessing, on a sample basis, whether items in the inventory ageing reports were classified within the appropriate ageing bracket by comparing individual items with relevant purchase records, including purchase invoices and goods receipt notes;
- evaluating, on a sample basis, whether inventories were sold at prices above their carrying values subsequent to the reporting date;
- evaluating, on a sample basis, whether inventories may be obsolete or slow-moving by comparing the quantity of inventories at the reporting date with the quantity sold subsequent to the reporting date and with reference to inventory turnover days during the current and previous financial years; and
- assessing the historical accuracy of management's estimation of write-down and provision for inventories at the end of the previous financial year by examining movements in the balance of provision for inventories during the current year.

# 存貨估值

請參閱綜合財務報表附註12及附註2.11載列的會計政策。

#### 關鍵審計事項

於二零二一年十二月三十一日, 貴集團的存貨包含多項資訊科技產品及企業設備,達到9,336,837,000港元(約佔 貴集團流動資產的31%)。

存貨按成本及可變現淨值兩者的較低者列賬。

管理層會根據預計需求、未來售價以及實現銷售所需的未來 開支估計存貨的可變現淨值。科技產品的未來需求及售價很 大程度上會受到各種瞬息萬變的因素影響,例如業界標準、 科技轉變及客戶喜好等。

在釐定存貨撥備時,管理層需作出重大判斷,因為個別存貨項目的實際售價可能跌穿成本或賬面值。

我們將存貨可變現淨值列為關鍵審計事項,因為任何撇減或 撥備均可能對綜合財務報表造成重大影響,且估計可變現淨 值涉及管理層的重大判斷,而其本質可能涉及不確定因素。

#### 我們的審計如何處理該事項

我們就評估存貨可變現淨值採用的審計程序包括以下各項:

- 了解及評估 貴集團對存貨撇減及撥備評估程序(包括 貴集團對滯銷存貨的監控程序)的主要內部控制在設計、 實施及運作上的成效;
- 抽樣比較存貨賬齡報告中的個別項目與相關的採購記錄 (包括採購發票及收貨單),從而評估相關項目是否歸納 至適當的賬齡範圍中;
- 抽樣評估存貨售價是否高於報告日後的賬面值;
- 抽樣比較於報告日當日的存貨數量與於報告日後的售出數量,並參考本財政年度及以往財政年度的存貨週轉日數,從而評估存貨是否過時或滯銷;及
- 查閱本年度存貨撥備結餘的變動,從而評估在上一個財政年度年末時管理層估計之存貨撇減及撥備過往的準確性。

#### Valuation of trade receivables

Refer to note 10 to the consolidated financial statements and the accounting policies set out in note 2.8.

#### The Key Audit Matter

The Group's trade receivables amounted to HK\$14,699,702,000 (approximately 49% of the Group's current assets) as at 31 December 2021, after making a loss allowance of HK\$805,832,000.

The Group's customers operate in a number of geographical locations. According to the past experience of the Group, the loss patterns for customers in different geographical locations are significantly different. Therefore, when calculating the loss allowance, the trade receivables are segmented by geographical locations.

Management measured loss allowance at an amount equal to lifetime expected credit losses which is based on ageing of the trade receivables and loss rates, adjusted for factors that are specific to the customers, current economic conditions and forward-looking information, all of which involve significant management judgement.

We identified the valuation of trade receivables as a key audit matter because the recognition of expected credit losses of trade receivables involves significant management judgement which can be inherently uncertain and could be subjective thereby increasing the risk of error or management bias.

#### How the matter was addressed in our audit

Our audit procedures to assess the valuation of trade receivables included the following:

- obtaining an understanding of and assessing the design, implementation and operating effectiveness of the Group's key internal controls relating to credit control, debt collection, segmentation of trade receivables, estimate of expected credit losses and making related allowances;
- evaluating the Group's policy for estimating the credit loss allowance with reference to the requirements of the prevailing accounting standards;

# 貿易應收款項估值

請參閱綜合財務報表附註10及附註2.8載列的會計政策。

#### 關鍵審計事項

於二零二一年十二月三十一日,作出虧損撥備805,832,000港元後, 貴集團的貿易應收款項達到14,699,702,000港元(約佔 貴集團流動資產的49%)。

貴集團的客戶在不同的地區經營業務。根據 貴集團過往經驗,不同地區客戶的虧損模式存在顯著差異。因此,計算虧損撥備時,按地區劃分貿易應收款項。

管理層按照金額相等於整個存續期預期信貸虧損計算虧損 撥備,該金額乃基於經就客戶特定因素、目前經濟狀況及前 瞻性信息作出調整的貿易應收賬款賬齡及虧損率得出,而所 有該等因素均涉及重大管理層判斷。

我們將貿易應收款項估值列為關鍵審計事項,因為確認貿易 應收款項的預期信貸虧損涉及管理層在評估時作出的重大 判斷,而該判斷本質可能涉及不確定因素且可能偏於主觀, 因此令出現錯誤或管理層偏見的風險增加。

### 我們的審計如何處理該事項

我們就評估貿易應收款項估值採用的審計程序包括以下各項:

- 了解及評估 貴集團對信貸控制、債務回收、貿易應收款項分部、預期信貸虧損估計及作出相關撥備的主要內部控制在設計、實施及運作上的成效:
- 參考現行會計準則的規定評價 貴集團有關估計信貸虧 損撥備的政策;
- 了解管理層所採納的預期信貸虧損模型的主要假設、歷 史違約數據及涉及管理層的估計虧損率的假設;
- 通過查閱管理層用以作出該等判斷的資料評估管理層虧 損撥備估計的合理性,包括測試歷史違約數據的準確性 及根據目前經濟狀況及前瞻性資料評估歷史虧損率是否 已獲滴當調整;
- 抽樣比較貿易應收款項賬齡報告中的個別項目與相關文件(包括銷售發票),從而評估相關項目是否歸納至適當的賬齡範圍中:及
- 根據 貴集團信貸虧損撥備政策重新計算於二零二一年 十二月三十一日的虧損撥備。

# Information other than the consolidated financial statements and auditor's report thereon

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of the directors for the consolidated financial statements

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

董事須負責根據香港會計師公會頒佈的《香 港財務報告準則》及香港《公司條例》的披 露要求擬備真實而中肯的綜合財務報表,並 對其認為為使綜合財務報表的擬備不存在由 於欺詐或錯誤而導致的重大錯誤陳述所需的 內部控制負責。

在擬備綜合財務報表時,董事負責評估 集團持續經營的能力,並在適用情況下披露 與持續經營有關的事項,以及使用持續經營 為會計基礎,除非董事有意將 貴集團清盤 或停止經營,或別無其他實際的替代方案。

審核委員會協助董事履行監督 貴集團的財 務報告過程的責任。

# Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

在根據《香港審計準則》進行審計的過程中, 我們運用了專業判斷,保持了專業懷疑態度。 我們亦:

- 識別和評估由於欺詐或錯誤而導致綜 合財務報表存在重大錯誤陳述的風險, 設計及執行審計程序以應對這些風險, 以及獲取充足和適當的審計憑證,作為 我們意見的基礎。由於欺詐可能涉及串 謀、偽造、蓄意遺漏、虚假陳述,或凌 駕於內部控制之上,因此未能發現因欺 詐而導致的重大錯誤陳述的風險高於 未能發現因錯誤而導致的重大錯誤陳 述的 風險。
- 了解與審計相關的內部控制,以設計適 當的審計程序,但目的並非對 貴集團 內部控制的有效性發表意見。

# Auditor's responsibilities for the audit of the consolidated financial statements (continued)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

# Auditor's responsibilities for the audit of the consolidated financial statements (continued)

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Cheng Pui Ngar.

In accordance with the Companies Law (revised) of the Cayman Islands, the share premium account is distributable to the shareholders of the Company provided that immediately following the date on which the dividend is proposed to be distributed, the Company will be in a position to pay off its debts as they fall due in the ordinary course of business. The share premium may also be distributed in the form of fully paid bonus shares.

- The capital redemption reserve comprises the par value of the cancelled (ii) shares of the Company transferred from retained earnings pursuant to Companies Law (revised) of the Cayman Islands.
- (iii) The capital reserve comprises the fair value of the actual or estimated number of unexercised share options granted to employees and directors of the Company and the Group recognised in accordance with the accounting policy adopted for share-based payments in Note 2.17(d).
- According to the current Company Law of the People's Republic of China (iv) ("PRC"), the PRC subsidiaries of the Group are required to transfer 10% of their profits after taxation to the statutory surplus reserve until the statutory surplus reserve balance reaches 50% of the registered capital. For the purpose of calculating the amount to be transferred to the reserve, the profit after taxation is the amount determined under PRC accounting standards. The amount of transfer to this reserve has to be made before profit distribution to shareholders. #### 2.2 Consolidation (continued)

(a) Subsidiaries and non-controlling interests (continued)

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at their proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the equity shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and the consolidated statement of other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the equity shareholders of the Company. Loans from holders of non-controlling interests and other contractual obligations towards these holders are presented as financial liabilities in the consolidated statement of financial position in accordance with notes 2.14, 2.15 and 2.18 depending on the nature of the liability.

(continued)

#### 2.2 Consolidation (continued)

(a) Subsidiaries and non-controlling interests (continued)

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (see note 2.9) or, when appropriate, the cost on initial recognition of an investment in an associate or a joint venture (see note 2.2(b)).

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see note 2.7), unless the investment is classified as held for sale (or included in a disposal group that is classified as held for sale).

(continued)

#### 2.2 Consolidation (continued)

(b) Associates and joint ventures

An associate is an entity in which the Group or the Company has significant influence, but not control or joint control, over its management, including participation in the financial and operating policy decisions.

A joint venture is an arrangement whereby the Group or the Company and other parties contractually agree to share control of the arrangement, and have rights to the net assets of the arrangement.

An investment in an associate or a joint venture is accounted for in the consolidated financial statements under the equity method, unless it is classified as held for sale (or included in a disposal group that is classified as held for sale). Under the equity method, the investment is initially recorded at cost, adjusted for any excess of the Group's share of the acquisition-date fair values of the investee's identifiable net assets over the cost of the investment (if any). Thereafter, the investment is adjusted for the post acquisition change in the Group's share of the investee's net assets and any impairment loss relating to the investment (see note 2.7). At each reporting date, the Group assesses whether there is any objective that the investment is impaired. Any acquisition-date excess over cost, the Group's share of the post-acquisition, post-tax results of the investees and any impairment losses for the year are recognised in the consolidated statement of profit or loss, whereas the Group's share of the post-acquisition post-tax items of the investees' other comprehensive income is recognised in the consolidated statement of other comprehensive income.

#### 2.2 綜合賬目(續)

(b) 聯營公司及合營企業 聯營公司為本集團或本公司 可對其管理(包括參與財務 及經營政策決定)擁有重大 影響力而非控制權或共同控 制權之實體。

> 合營企業為一項安排,據此,本集團或本公司與其他 各方以合約形式同意分享此項安排之控制權,並有權擁 有此項安排之淨資產。

> 於聯營公司或合營企業的投 資乃根據權益法於綜合財務 報表入賬,除非投資被歸類 為持作出售(或計入歸類為 持作出售之出售組別內)則 作別論。根據權益法,有關 投資初步按成本記賬,並就 本集團所分佔被投資方可識 別淨資產於收購日期之公平 值超出該投資成本的任何數 額(如有)作出調整。其後, 該項投資就收購後本集團所 分佔被投資方淨資產之變 動及任何有關該項投資之 減值虧損作出調整(見附註 2.7)。於各報告日期,本集 團評估是否有跡象顯示該項 投資出現減值。年內任何於 收購日期超出成本的數額、 本集團所分佔被投資方之收 購後及除税後業績以及任何 減值虧損乃於綜合損益表內 確認,而本集團所分佔被投 資方其他全面收入之收購後 及除税後項目則於綜合其他 全面收入表確認。

(continued)

#### 2.2 Consolidation (continued)

(b) Associates and joint ventures (continued)

When the Group's share of losses exceeds its interest in the associate or the joint venture, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee. For this purpose, the Group's interest is the carrying amount of the investment under the equity method together with the Group's long-term interests that in substance form part of the Group's net investment in the associate or the joint venture.

Unrealised profits and losses resulting from transactions between the Group and its associate and joint venture are eliminated to the extent of the Group's interest in the investee, except where unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in profit or loss.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method.

## 2. 主要會計政策概要(續)

#### 2.2 綜合賬目(續)

> 倘於聯營公司的投資成為 於合營企業的投資,則不會 重新計量保留權益,反之亦 然。相反,有關投資將繼續 按權益法入賬。

(continued)

#### 2.2 Consolidation (continued)

(b) Associates and joint ventures (continued)

In all other cases, when the Group ceases to have significant influence over an associate or joint control over a joint venture, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former investee at the date when significant influence or joint control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (see note 2.9).

### 2.3 Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The financial statements are presented in Hong Kong dollars ("HK\$"), which is the Company's functional and presentation currency.

#### 2.3 外幣換算

(a) 功能及呈報貨幣

本集團旗下各實體的財務報表所列之項目,均以該實體經營所在主要經濟環境之貨幣(「功能貨幣」)計量。本財務報表乃以港元(「港元」)呈列,港元為本公司之功能及呈報貨幣。

### 2.3 Foreign currency translation (continued)

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the entity initially recognises such non-monetary assets or liabilities. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was measured.

(continued)

### 2.3 Foreign currency translation (continued)

Group companies

The results and financial position of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at the reporting date;
- income and expenses are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations and other currency instruments designated as hedges of such investments, are taken to other comprehensive income. When a foreign operation is sold, exchange differences that were recorded in other comprehensive income are reclassified to profit or loss as part of the gain or loss on disposal.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

#### 2.3 外幣換算(續)

集團公司

集團旗下所有實體(概無持 有嚴重誦脹經濟體之貨幣) 如功能貨幣與呈報貨幣有 別,則其業績及財務狀況按 以下方法換算為呈報貨幣:

- 資產及負債按報告日 之收市匯率換算;

收購海外實體所產生之商譽 及公平值調整作為該海外實 體 之 資 產 及 負 債 處 理,並 按 收購完成時之匯率換算。

(continued)

#### 2.4 Property, plant and equipment

Property, plant and equipment, including right-of-use assets arising from leases of underlying property, plant and equipment, is stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are expensed in profit or loss during the financial period in which they are incurred.

Depreciation is calculated to write off the costs of items of property, plant and equipment, less their estimated residual values, if any, on a straight line basis over the shorter of the unexpired period of lease and the anticipated remaining useful lives of the assets. The annual rates of depreciation which have been adopted are summarised as follows:

Buildings held for own use carried at cost 按成本列值的持作自用樓宇 Right-of-use assets arising from leases of properties, plant and equipment 物業、廠房及設備租賃所產生的使用權資產 Furniture and fixtures 傢具及裝置 Office equipment 辦公室設備

Computers 電腦

Motor vehicles 汽車

Leasehold improvements 租賃物業裝修

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each end of the reporting period.

## 2. 主要會計政策概要(續)

#### 2.4 物業、廠房及設備

物業、廠房及設備(包含相關物 業、廠房及設備租賃所產生的使 用權資產)按成本扣除累計折舊 及減值虧損列賬。成本包括收購 項目直接應佔之開支。

僅當與項目有關之未來經濟收益 可能會流入本集團,目能可靠地 計量該項目之成本時,方會將其 後之成本計入資產之賬面金額或 確認為一項獨立資產(如適用)。 所有其他維修及保養費用,均於 產生之財政期間在損益賬內支銷。

物業、廠房及設備項目之折舊乃 於扣除該等項目之估計剩餘價值 (如有)後,按資產之未屆滿租期 及預計剩餘可使用年期(以較短 者為準)以直線法計算,以撇銷其 成本。所採納之折舊年率概述如 下:

> 2% - 5% Unexpired term of lease 未到期租賃年限

> > 20%

20% 20%

20%

20% or lease period whichever is shorter 20%或租期(以較短者為準)

資產之剩餘價值及可使用年期 於各報告期末檢討及調整(如適 用)。

(continued)

#### 2.4 Property, plant and equipment (continued)

An asset's carrying amount is written down immediately to its recoverable amount if its carrying amount is greater than its estimated recoverable amount (see note 2.7).

Gains or losses on retirement or disposal of an item of property, plant and equipment are determined by comparing the proceeds with the carrying amounts. These are included in profit or loss on the date of retirement or disposal.

Assets under construction represent property, plant and equipment under construction and pending installation and are stated at cost less accumulated impairment losses, if any (see note 2.7). Cost includes the costs of construction of buildings, the costs of plant and machinery and interest charges arising from borrowings used to finance these assets during the period of construction or installation and testing. No provision for depreciation is made on assets under construction until such time as the relevant assets are available for their intended use. When the assets concerned are brought into use, the costs are transferred to items of property, plant and equipment and depreciated in accordance with the policy as stated above.

## 2. 主要會計政策概要(續)

## 2.4 物業、廠房及設備(續)

倘資產之賬面金額高於估計可收回金額,則資產之賬面金額即時 撇減至可收回金額(見附許2.7)。

報廢或出售物業、廠房及設備項目之盈虧透過比較所得款項與賬面金額釐定,並於報廢或出售日期列入損益賬內。

(continued)

#### 2.5 Intangible assets

Intangible assets that are acquired by the Group are stated at cost less accumulated amortisation (where the estimated useful life is finite) and impairment losses (see note 2.7). Expenditure on internally generated goodwill and brands is recognised as an expense in the period in which it is incurred.

Amortisation of intangible assets with finite useful lives is charged to profit or loss on a straight-line basis over the assets' estimated useful lives. The following intangible assets with finite useful lives are amortised from the date they are available for use and their estimated useful lives are as follows:

Software 10%

Intangible assets are not amortised while their useful lives are assessed to be indefinite. Any conclusion that the useful life of an intangible asset is indefinite is reviewed annually to determine whether events and circumstances continue to support the indefinite useful life assessment for that asset. If they do not, the change in the useful life assessment from indefinite to finite is accounted for prospectively from the date of change and in accordance with the policy for amortisation of intangible assets with finite lives as set out above.

#### 2.6 Goodwill

Goodwill represents the excess of:

- (i) the aggregate of the fair value of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the Group's previously held equity interest in the acquiree; over
- (ii) the net fair value of the acquiree's identifiable assets and liabilities measured as at the acquisition date.

When (ii) is greater than (i), then this excess is recognised immediately in profit or loss as a gain on a bargain purchase.

Goodwill is stated at cost less accumulated impairment losses. Goodwill arising on a business combination is allocated to each cash generating unit, or groups of cash generating units, that is expected to benefit from the synergies of the combination and is tested annually for impairment (see note 2.7).

On disposal of a cash generating unit during the year, any attributable amount of purchased goodwill is included in the calculation of the gain or loss on disposal.

## 2.7 Credit losses and impairment of assets

(i) Credit losses from financial instruments, contract assets and lease receivables

The Group recognises a loss allowance for expected credit losses ("ECLs") (see notes 2.8 (i) and (ii)) on the following items:

 financial assets measured at amortised cost (including cash and cash equivalents, term deposits, trade receivables and other receivables);

#### 2.6 商譽

商譽指以下兩者之間的差額:

- (i) 所轉讓代價的公平值、被收 購方任何非控股權益的金額 及本集團此前於被收購方所 持股本權益的公平值之總 和:超過
- (ii) 被收購方於收購日期所計量 可識別資產及負債的淨公平 值。

當(ii)大於(i)時,此差額立即於損益賬中確認為議價收購收益。

商譽按成本扣除累計減值虧損列 賬。業務合併所產生之商譽分配 至預期可從合併的協同效應中受 惠之各個或各組現金產生單位, 並每年作減值測試(見附註2.7)。

#### 2.7 Credit losses and impairment of assets (continued)

- (i) Credit losses from financial instruments, contract assets and lease receivables *(continued)* 
  - contract assets as defined in HKFRS 15 (see note 2.8); and
  - lease receivables.

Other financial assets measured at fair value, including listed and unlisted securities, structural deposits, and derivative financial assets, are not subject to the ECL assessment.

(ii) Impairment of investments in subsidiaries, associates, a joint venture and other non-financial assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the investments in subsidiaries, associates and a joint venture and other non-financial assets may be impaired or, except in the case of goodwill, an impairment loss previously recognised no longer exists or may have decreased. If any such indication exists, the asset's recoverable amount is estimated. In addition, for goodwill, the recoverable amount is estimated annually whether or not there is any indication of impairment. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

#### 2.7 Credit losses and impairment of assets (continued)

(ii) Impairment of investments in subsidiaries, associates, a joint venture and other non-financial assets *(continued)* 

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash generating unit"). The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to those cash generating units or groups of cash generating units that are expected to benefit from the business combination in which the goodwill arose.

An impairment loss is recognised if the carrying amount of an asset or its cash generating unit exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

Impairment of investments in subsidiaries, associates, a joint venture and other non-financial assets (continued)

Under the Rules Governing the Listing of Securities on the Stock Exchange, the Group is required to prepare an interim financial report in compliance with HKAS 34 Interim financial reporting in respect of the first six months of the financial period. At the end of the interim period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the financial year.

Impairment losses recognised in an interim period in respect of goodwill are not reversed in the subsequent period. This is the case even if no loss, or a smaller loss, would have been recognised had the impairment been assessed only at the end of the financial year to which the interim period relates.

#### 2.8 Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset.

Receivables are stated at amortised cost using the effective interest method less allowance for credit losses.

#### (i) Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all expected cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

In measuring ECLs, the Group takes into account reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

ECLs are measured on either of the following bases:

 12-month ECLs: these are losses that are expected to result from possible default events within the 12 months after the reporting date; and

#### 2.8 Trade and other receivables (continued)

- Measurement of expected credit losses ("ECLs") (continued)
  - lifetime ECLs: these are losses that are expected to result from all possible default events over the expected lives of the items to which the ECL model applies.

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

For all other financial instruments, the Group recognises a loss allowance equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

#### 2.8 Trade and other receivables (continued)

(ii) Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when (i) the debtor is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (ii) the financial asset is past due. The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- failure to make payments of principal or interest on their contractually due dates;
- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor; and
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

## 2.8 貿易及其他應收款項

(ii) 信貸風險顯著增加

在評估金融工具之信貸風險 是否自初步確認後顯著增加 時,本集團將於報告日期評 估之金融工具違約風險與於 初步確認時評估之違約風險 作比較。在進行該項重新評 估時,當(i)債務人不大可能 向本集團支付全數信貸責 任,而不考慮本集團之追索 行動(如將抵押品(如有持 有)變現);或(ii)該金融資 產已逾期,本集團認為違約 事件發生。本集團會考慮合 理及有理據之定量和定性資 料,包括過往經驗及無需付 出不必要成本或資源獲得之 前瞻性資料。

尤其在評估信貸風險是否自 初步確認後顯著增加時,會 考慮以下資料:

- 未能在合約到期日支 付本金或利息;
- 金融工具外部或內部 信貸評級(如有)實際 或預期顯著惡化;
- 債務人經營業績實際 或預期顯著惡化;及
- 技術、市場、經濟或法 律環境現有或預期變 動對債務人向本集團 履行其責任之能力構 成重大不利影響。

(continued)

#### 2.8 Trade and other receivables (continued)

(ii) Significant increases in credit risk (continued)

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

(iii) Basis of calculation of interest income

Interest income recognised in accordance with note 2.21(iii) is calculated based on the gross carrying amount of the financial asset unless the financial asset is creditimpaired, in which case interest income is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset.

At each reporting date, the Group assesses whether a financial asset is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

- (iii) Basis of calculation of interest income (continued)

  Evidence that a financial asset is credit-impaired includes the following observable events:
  - significant financial difficulties of the debtor;
  - a breach of contract, such as a default or past due event:
  - it becoming probable that the borrower will enter into bankruptcy or other financial reorganisation;
  - significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; or
  - the disappearance of an active market for a security because of financial difficulties of the issuer.

#### (iv) Write-off policy

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

Income and expenses are presented on a net basis only when permitted under relevant accounting standards, or for gains and losses arising from a group of similar transactions such as in the Group's trading activity.

## 2.9 Investments in debt and equity securities and other financial assets

Investments in debt and equity securities and other financial assets are recognised/derecognised on the date the Group commits to purchase/sell the assets or they expire. These assets are initially stated at fair value plus directly attributable transaction costs, except for those investments measured at fair value through profit or loss ("FVPL") for which transaction costs are recognised directly in profit or loss. For an explanation of how the Group determines fair value of financial instruments, see note 3.3. These investments are subsequently accounted for as follows, depending on their classification:

 Investments and other financial assets other than equity investments

> Non-equity investments and other financial assets held by the Group are classified into one of the following measurement categories:

> amortised cost, if the assets are held for the collection of contractual cash flows which represent solely payments of principal and interest. Interest income from the assets is calculated using the effective interest method (see note 2.21(iii)).

An investment in equity securities is classified as FVPL unless the equity investment is not held for trading purposes and on initial recognition of the investment the Group makes an election to designate the investment at FVOCI (non-recycling) such that subsequent changes in fair value are recognised in other comprehensive income. Such elections are made on an instrument-by-instrument basis, but may only be made if the investment meets the definition of equity from the issuer's perspective. Where such an election is made, the amount accumulated in other comprehensive income remains in the fair value reserve (non-recycling) until the investment is disposed of. At the time of disposal, the amount accumulated in the fair value reserve (non-recycling) is transferred to retained earnings. It is not recycled through profit or loss. Dividends from an investment in equity securities, irrespective of whether classified as at FVPL or FVOCI, are recognised in profit or loss as other income in accordance with the policy set out in note 2.21(iv).

#### 2.10 Derivative financial instruments

Derivative financial instruments are recognised at fair value. At the end of each reporting period the fair value is remeasured. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss.

#### 2.11 Inventories

Inventories comprise IT products for distribution and are stated at the lower of cost and net realisable value.

Cost is determined using the weighted average cost formula. The cost of finished goods comprises all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. It excludes borrowing costs.

Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any writedown of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated cash flow statement. Cash and cash equivalents are assessed for ECL in accordance with the policy set out in note 2.8.

The reserve is credited with the amount of fair value of shares on granting to awardees, and the relevant employment costs net of any proceeds from the awarded shares are debited to the profit or loss. #### 2.14 Trade and other payables and contract liabilities

Trade and other payables are recognised initially at fair value. Except for financial guarantee liabilities, trade and other payables are subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

A Financial guarantee is contract that require the issuer (i.e. the guarantor) to make specified payment to reimburse the beneficiary of the guarantee (the "holder") for a loss the holder incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument. Financial guarantees issued are initially recognized within "trade and other payables" at fair value, which is determined by reference to fees charged in arm's length transaction for similar services. Subsequent to initial recognition, the amount initially recognised as deferred income is amortised in profit or loss over the term of the guarantee as income from financial guarantees issued. The Group monitors the risk that the specified debtor will default on the contract and recognises a provision when ECLs (see notes 2.8 (i) and (ii)) on the financial guarantees are determined to be higher than the amount carried in "trade and other payables" in respect of the guarantees.

A contract liability is recognised when the customer pays non-refundable consideration before the Group recognises the related revenue (see note 2.21). A contract liability would also be recognised if the Group has an unconditional right to receive non-refundable consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised (see note 2.8).

貿易及其他應付款項首次按公平 值確認。除融資擔保負債外,貿易 及其他應付款項其後乃以實際利 息法按攤銷成本計量,除非貼現 影響不大,則按成本列賬。

融資擔保為要求發行人(即擔保 人)根據債務工具之條款支付特 定款項就擔保受益人(「持有人」) 因特定債務人於到期時未能付款 而蒙受之損失向持有人作出補償 之合約。已發出之融資擔保首次 按公平值於「貿易及其他應付款 項」確認,其公平值乃參照公平交 易下提供類似服務收取之費用而 釐定。初步確認後,最初確認為遞 延收入之金額按擔保年期於損益 賬內攤銷為發出之融資擔保收入。 本集團監察特定債務人之違約風 險,並於融資擔保之預期信貸虧 損(見附註2.8(i)及(ii))確定為高 於擔保之「貿易及其他應付款項」 中的金額時確認撥備。

#### 2.15 Interest-bearing borrowings and other financial liabilities

Interest-bearing borrowings and other financial liabilities are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings and other financial liabilities are stated at amortised cost with any difference between the amount initially recognised and the redemption value being recognised in profit or loss over the period of the borrowings, together with any interest and fees payable, using the effective interest method.

#### 2.16 Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

#### 2.16 所得税

年內所得稅包括本期稅項及遞延 税項資產和負債之變動。本期税 項及遞延税項資產和負債之變動 均於損益賬內確認,惟與於其他 全面收入或直接於權益確認之項 目相關者除外,在此情況下,有關 税項金額亦分別於其他全面收入 或直接於權益內確認。

本期税項為按年內應課税收入, 根據於報告期末已制訂或實質上 已制訂之税率計算的預期應付税 項,以及對過往年度應付税項作 出的任何調整。

遞延税項資產及負債分別由可扣 税及應課税暫時差額產生,即就 財務報告而言的資產及負債之賬 面值與其税基之差額。遞延税項 資產也可以由未被使用的可抵扣 税項虧損及未被使用的税款抵免 所產生。

(continued)

#### 2.16 Income tax (continued)

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits. that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

#### 2.16 Income tax (continued)

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Additional income taxes that arise from the distribution of dividends are recognised when the liability to pay the related dividends is recognised.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
- the same taxable entity; or
- different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

### 2.17 Employee benefits

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

#### (a) Pension obligations

The Group operates defined contribution retirement plans, the assets of which are held in separate trustee-administered funds. The retirement plans are generally funded by payments from employees and by the relevant Group companies. For employees in the PRC, the Group participates in defined contribution retirement plans organised by the relevant local governments in the PRC.

The Group pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expenses when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

#### (b) Employee leave entitlements

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the statement of financial position date. Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

#### (c) Bonus plans

The Group recognises a liability and an expense for bonuses taking into account the profit attributable to the Company's shareholders. The Group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

### (d) Share-based payments

The fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in a capital reserve within equity. The fair value is measured at grant date using the trinomial lattice model, taking into account the terms and conditions upon which the options were granted.

Where the employees have to meet vesting conditions before becoming unconditionally entitled to the options, the total estimated fair value of the options is spread over the vesting period, taking into account the probability that the options will vest.

### 2.17 Employee benefits (continued)

(d) Share-based payments (continued)

During the vesting period, the number of options that is expected to vest is reviewed. Any resulting adjustment to the cumulative fair value recognised in prior years is charged/credited to profit or loss for the year of the review, unless the original employee expenses qualify for recognition as an asset, with a corresponding adjustment to the capital reserve. On the vesting date, the amount recognised as an expense is adjusted to reflect the actual number of options that vest (with a corresponding adjustment to the capital reserve) except where forfeiture is only due to not achieving vesting conditions that relate to the market price of the Company's shares. The equity amount is recognised in the capital reserve until either the option is exercised (when it is transferred to the share premium account) or the option expires (when it is released directly to retained earnings).

#### (e) Deferred shares

Deferred shares are awarded to employees who meet the vesting condition (see note 2.13(c)).

#### 2.18 Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group or the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

#### 2.19 Leases

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

#### (i) As a lessee

Where the contract contains lease component(s) and non-lease component(s), the Group has elected not to separate non-lease components and accounts for each lease component and any associated non-lease components as a single lease component for all leases.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

(continued)

#### 2.19 Leases (continued)

(i) As a lessee (continued)

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (see note 2.7).

#### 2.19 Leases (continued)

(i) As a lessee (continued)

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification. The only exceptions are any rent concessions which arose as a direct consequence of the COVID-19 pandemic and which satisfied the conditions set out in paragraph 46B of HKFRS 16 Leases. In such cases, the Group took advantage of the practical expedient set out in paragraph 46A of HKFRS 16 and recognised the change in consideration as if it were not a lease modification.

In the consolidated statement of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

於綜合財務狀況表內,長期租賃負債的即期部分釐定為須於報告期後十二個月內清償之合約付款現值。

(continued)

#### 2.19 Leases (continued)

#### (ii) As a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to the ownership of an underlying assets to the lessee. If this is not the case, the lease is classified as an operating lease. When the Group is an intermediate lessor, the subleases are classified as a finance lease or as an operating lease with reference to the right-of-use asset arising from the head lease.

### 2.20 Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

#### 2.21 Revenue and other income

Income is classified by the Group as revenue when it arises from the sale of goods or the provision of services in the ordinary course of the Group's business.

Revenue is recognised when control over a product or service is transferred to the customer, at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Where the contract contains a financing component which provides a significant financing benefit to the customer for more than 12 months, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction with the customer, and interest income is accrued separately under the effective interest method. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method. The Group takes advantage of the practical expedient in paragraph 63 of HKFRS 15 and does not adjust the consideration for any effects of a significant financing component if the period of financing is 12 months or less.

The Group has applied the practical expedient in paragraph 121 of HKFRS 15 such that information about revenue that the Group will be entitled to when it satisfies the remaining performance obligations under the contracts for sales of goods that had an original expected duration of one year or less is not included.

#### 3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks including foreign exchange risk, interest rate risk, credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

#### (a) Foreign exchange risk

The Group operates in various countries and the assets and liabilities are mainly denominated in the functional currency of group entity to which relate, including Chinese Renminbi ("RMB"), the Hong Kong Dollar ("HK\$"), the Singapore Dollar ("S\$"), Thai Baht ("THB") and Indonesian Rupiah ("RP").

The Group's exposure to foreign exchange risk at the end of reporting period is mainly arising from recognised assets or liabilities denominated in the United States Dollar ("US\$"), a currency other than the Group's entities' functional currencies, as disclosed elsewhere in the financial statements.

A 5% strengthening/weakening of the US\$ against the respective functional currencies of the Group's entities (except for HK\$ which is pegged to US\$) at 31 December 2021 would have decreased/increased the post-tax profit and retained earnings of the Group by HK\$85,932,000 (2020: HK\$71,300,000). This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis has been performed on the same basis as for the year ended 31 December 2020.

### 3. 財務風險管理及公平值

### 3.1 財務風險因素

本集團之業務承受外匯風險、利 率風險、信貸風險及流動性風險 等多項財務風險。本集團的整體 風險管理計劃着重金融市場之不 可預測性,並尋求盡量減輕對本 集團財務表現之潛在不利影響。

#### (a) 外匯風險

本集團在多個國家經營業務,其資產及負債主要以集 團實體相關之功能貨幣計值,包括人民幣、港元、新加坡元、泰銖及印尼盾。

本集團於報告期末承受之外 匯風險主要來自以本集團實 體功能貨幣以外之貨幣美元 計值的已確認資產及負債 (詳情於財務報表其他章節 披露)。

### 3.1 Financial risk factors (continued)

(b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's exposure to changes in interest rates is mainly attributable to its bank borrowings, details of which have been disclosed in note 21. Borrowings carried at floating rates expose the Group to cash flow interest rate risk.

At 31 December 2021, if the interest rates on bank borrowings had been 100 basis points higher/lower with all other variables held constant, the Group's post-tax profit and retained earnings for the year would have been HK\$52,685,000 (2020: HK\$56,420,000) lower/higher, mainly as a result of higher/lower interest expense on floating rate bank borrowings.

(b) 利率風險

利率風險乃金融工具公平值 或未來現金流量因市場利率 改變而出現波動的風險。

本集團承受的利率變動風險 主要歸因於其銀行借貸,有 關詳情已於附註21披露。浮 息借貸使本集團面對現金流 量利率風險。

於二零二一年十二月三十一 日,倘銀行借貸利點 所有其他變量維持後 則本集團年內除稅少/零 52,685,000港元(二零),利加 52,685,000港元(二零),利加 等主的於浮息銀行借貸 開支增加/減少。

### 3.1 Financial risk factors (continued)

#### (c) Credit risk

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in a financial loss to the Group.

The carrying amount of trade and other receivables, term deposits and cash and cash equivalents included in the consolidated statement of financial position represents the Group's maximum exposure to credit risk in relation to its financial assets. The exposures to these credit risks are closely monitored on an ongoing basis by established credit policies and procedures.

Term deposits and cash and cash equivalents are mainly deposited in various financial institutions, which management believes are of high quality. Management does not expect any loss from non-performance by these counterparties.

The Group's credit risk is primarily attributable to trade receivables. The Group has put in place policies to ensure that sales of products are made to customers with an appropriate credit history and the Group performs periodic credit evaluations of its customers. The Group's historical loss experience in collection of trade receivables falls within the recorded allowances.

The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience indicates significantly different loss patterns in different geographical locations, the loss allowance based on past due status is further distinguished by geographical locations.

### 3.2 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Group monitors capital on the basis of the net debt/total assets ratio. This ratio is calculated as net debt divided by total assets. Net debt is calculated as total borrowings excluding lease liabilities less cash and cash equivalents.

The table below analyses the Group's capital structure as at 31 December 2021:

- Level 1 valuations: fair values measured using only Level 1 inputs, i.e. unadjusted quoted prices in active markets for identical assets and liabilities at the measurement date
- Level 2 valuations: Level 2 inputs, i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data is not available

(ii) Valuation techniques and inputs used in Level 2 fair value measurements

The fair value of forward contracts in Level 2 is determined by discounting the contractual forward price and deducting the current spot rate. The discount rate used is derived from the relevant government yield curve as at the end of the reporting period plus an adequate constant credit spread.

### 3.3 Fair value estimation (continued)

(ii) Valuation techniques and inputs used in Level 2 fair value measurements (continued)

The fair value of structural deposits is the estimated amount that the Group would realise, taking into account the interest rates and credit worthiness of the counterparties.

The fair value of other financial assets is determined by the Black-Scholes model. The volatility used is derived from the historical quote price of the underlying securities.

(iii) Information about Level 3 fair value measurements

Approximate 65% (2020: 64%) of the Group's unlisted securities are related to healthcare sector. The rest are related to various sectors including telecommunication and e-commerce, etc. No dividend were received on those investments during the year (2020: nil).

The fair value of these unlisted securities are determined using adjusted net asset value. The fair value measurement is positively correlated to the underlying assets' values. As at 31 December 2021, it is estimated that with other variables held constant an increase/(decrease) in 5% of underlying assets' values would have increased/(decreased) the Group's post-tax profit and retained earnings by HK\$30,336,000 (2020: HK\$19,901,000).

### 4. Accounting Estimates and Judgements

# (a) Estimated write-down of inventories to net realisable value

The Group writes down inventories to net realisable value based on an assessment of the realisability of inventories. Write-down of inventories is recorded to the extent where events or changes in circumstances indicate that the balances may not be realised.

The identification of write-down requires the use of judgement and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of inventories and write-down of inventories in the period in which such estimate are changed.

#### (b) Estimated loss allowance of trade receivables

The Group measures loss allowance of trade receivables at an amount equal to lifetime expected credit loss of trade receivables.

The measurement of loss allowance of trade receivables requires the use of judgement and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of trade receivables and the expected credit loss in the period in which such estimates are changed.

### (c) Estimated impairment of goodwill

The Group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in note 2.7. The recoverable amounts of the relevant cash generating units have been determined based on value-in-use calculations. These calculations require the use of estimates (see note 6).

In assessing the value-in-use of the goodwill, management considers changes in economic conditions and makes assumptions regarding estimated future cash flows and other factors. Estimates of future cash flows are highly subjective and judgements are based on the Group's experience and knowledge of operations. These estimates can be significantly impacted by many factors including changes in business and economic conditions, operating costs, inflation and competition.

### Intangible assets (continued)

The recoverable amount of each group of cash generating units ("CGUs") to which goodwill is allocated is determined based on valuein-use calculations. Cash flow projections for the purpose of the impairment review are based on budgets prepared on the basis of assumptions reflective of the prevailing market conditions. Similar key assumptions are used for value-in-use calculation for each group of CGUs which include:

- Cash flows are projected based on actual operating results and (a) the five-year business plan.
- (b) The anticipated annual revenue growth rates included in the cash flow projections is 0% (2020: 0%).
- Pre-tax discount rate as at 31 December 2021 of 10.1% (2020: (c) 8.5%) was applied in determining the recoverable amounts of the CGUs. The discount rate used reflect the risk-free rate and the premium for specific risks relating to the business units to which the CGUs relate.

The values assigned to the key assumptions represent management's assessment of future trends in the IT industry and are based on both external sources and internal sources and both past performance (historical data) and its expectations for market development.

Group management believes that any reasonably possible changes in the above key assumptions applied are not likely to cause the recoverable amount to be materially lower than the carrying amount of goodwill.
