## 2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

### Going concern assessment

As of 31 December 2021, the Group had net current liabilities of approximately RMB194,377,000 (2020:RMB557,449,000) and bank and other borrowings amounted to approximately RMB276,300,000 and RMB47,574,000 (2020: RMB293,400,000 and RMB78,943,000), respectively which will fall due within twelve months from the date of 31 December 2021. In addition, as at 31 December 2021, the Group had capital commitments contracted but not provided for of approximately RMB80,715,000 regarding acquisition of property, plant and equipment and investment in a subsidiary which is principally conducting in capital finance business. (2020: RMB91,008,000 regarding acquisition of property, plant and equipment, investment in a subsidiary which is principally conducting in capital finance business and investment in an associate).

The conditions described above indicate the existence of a material uncertainty which may cast significant doubt on the Group’s ability to continue as a going concern and hence, its ability to realise its assets and discharge its liabilities in the normal course of business.

In preparing the consolidated financial statements, the Directors have given careful consideration to the future liquidity of the Group. The Directors have reviewed the Group's cash flow projections prepared by management. The cash flow projections cover a period of not less than twelve months from the end of the reporting period. They are of the opinion that, taking into account the following plans and measures, the Group would have sufficient working capital to finance its operations and to meet its financial obligations as and when they fall due within the next twelve months from the end of the reporting period. Nevertheless, the consolidated financial statements were prepared based on the assumption that the Group can be operated as a going concern, after taking into consideration of the following:

- (1) The Company obtained a letter of undertaking (the "**Letter of Undertaking**") from Mr. Liu that: (i) he agreed not to request the Group to repay the amount due to him of approximately RMB29,700,000, included in the amount due to directors of the Company until the Group has sufficient funds to meet all the liabilities and financial obligations as and when they fall due in the coming twelve months from 31 December 2021; and (ii) he also agreed to provide sufficient funds to the Group so that the Group will be able to meet all the liabilities and financial obligations as and when they fall due in the coming twelve months from 31 December 2021;
- (2) Since most of the bank borrowings as at 31 December 2021 of RMB276,300,000 were secured by the Group's assets, the Directors believe that it is highly probable that they can be renewed in the next twelve months;
- (3) The Directors also believe that it is highly probable that other borrowings as at 31 December 2021 of approximately RMB47,574,000 which will be matured within twelve months after 31 December 2021 can be renewed; and
- (4) The Group continues to generate cash inflows from its operating activities by implementing measures to tighten cost controls over various operating expenses in order to improve its cash flows position and to generate greater positive cash inflows from its operations in the future.

On the basis of the above considerations, the Directors believe that the Group is able to satisfy its liabilities and financial obligations in the foreseeable future and accordingly, the consolidated financial statements have been prepared on a going concern basis. The consolidated financial statements do not include any adjustments relating to the carrying amounts and reclassification of assets and liabilities that might be necessary should the Group be unable to continue as a going concern.

### 3. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

#### Amendments to HKFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) for the first time, which are mandatorily effective for the annual period beginning on or after 1 January 2021 for the preparation of the consolidated financial statements:

Amendments to HKFRS 16	Covid-19-Related Rent Concessions
Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16	Interest Rate Benchmark Reform – Phase 2

The application of the amendments to HKFRSs in the current year had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

### 4. REVENUE

For Capital and Reclamation Dredging Business and Environment Protection Dredging and Water Management Business, the Group has a right to consideration from its customers in an amount that corresponds directly with the value to the customers of the Group’s performance completed to date. As the Group bills its customers based on each portion of dredging works provided, the Group recognises revenue over time based on the amount it has a right to invoice.

The Group recognises revenue on the basis of the volume of dredging works performed and delivered to customers. The measurements of value of the dredging works transferred to customers are directly invoiced based on a quantitative measure of dredging, that is, a unit price for the material dredged per cubic meter is set forth in the contracts with customers and therefore the revenue is recognised based on the amount invoiced. As the Group's performance creates an asset that customer simultaneously receives and consumes, this method provides a faithful depiction of the transfer of an asset to the customer.

The transaction price of the Group is determined upon establishment of the contract that contains the unit price for the quantity dredged for dredging projects.

For Other Marine Business, the Group provides marine hoisting, installation, salvaging, vessel chartering and other engineering services to clients and recognises revenue over time based on the progress of the services provided.

For Property Management Business, the Group provides rentals and property management service to its tenants in a shopping mall and factories and recognises monthly rental and property management fee over time.

The majority of the Company's contracts are short-term contracts and have a duration of less than one year, the practical expedient for contracts with durations of one year or less is applied and therefore the effect of the time value of money is not considered.
