Dear shareholders,

On behalf of the board of Directors (the “Board”), I am pleased to present the annual results of the Company and its subsidiaries (the “Group”) for the year ended 31 December 2021, which consists of reporting on the activities, results and strategies of the Company.

BUSINESS ENVIRONMENT

China e-Wallet Payment Group Limited (“the Company”) operates in a challenging environment that is prone to technology innovations and reengineering cycles, changing consumer preferences and trade flows. We continuously scan our business environment and closely watch trends and developments that may affect our business and the way we operate. Our broad technology deployments and core businesses that move in line with different macro trends help us mitigate the primary effects of the external environment. We consider economic, social, legal, technological and political factors and have structured the Company in ways to allow us to adapt and change quickly to respond to market forces.

During the year 2021, the Company had met considerable challenges that were faced by major corporations in the global economy. However, the Company had adapted and continued to improve on its core businesses and delivery, placing innovation in its services and products, and business operations at its fundamental.

THANK YOU

I would like to take this opportunity to express my sincere gratitude to our shareholders, business partners and customers for their continued support, as well as to the Group’s management team and staff for their tireless dedication and efforts in developing the long term prospects of the Group.

Li Jinglong
Executive Director

Hong Kong, 31 March 2022

Management Discussion and Analysis

BUSINESS REVIEW

“Internet and Mobile’s application development and settlement application services” is the Group’s main business. The Group specialized in providing programming and advertising solutions in mobile platform with branch office in Hong Kong, Shenzhen and Shanghai. The programming teams of the Group have extensive experience on developing mobile application and interactive virtual reality technologies for well-known companies in Hong Kong and overseas. The Group is also engaged in the business of distribution of computer-related and mobile-related electronic products and accessories.

The Group believes that the business of “Internet and Mobile’s application development and settlement application services” as a key growth area, is in-line with the growth of the mobile and gaming industry and in particular in application development for merchants, online gaming, interactive virtual reality experience and utilities applications for mobile platform and mass advertising.

The Company already procured thousands of merchants to participate in its settlement application services (“Settlement Services”). In order to capture its market share and procure sizable merchants, the Company would pay inducement deposits to these merchants. The Company would derive marketing plan with these merchants in order to give incentives by way of E-coupons or discounts to their customers who use our designated settlement application services and the inducement deposits would be utilized accordingly. In return, the Company would share the transaction fee from the Settlement Services, receive rebate income and application development income from these merchants. As at 31 December 2021, the inducement deposits to merchants was approximately HK\$351.0 million and up to 28 February 2022, approximately HK\$11.1 million of the inducement deposits were subsequently utilized. The Company regularly assessed the recoverability of the Inducement Deposits. If there is any impairment indicator or there is a continuous deterioration of the sales transactions of the participating merchant, the Company would immediately re-assess the recoverability of the Inducement Deposits paid to that participating merchant. In addition, the Company have engaged the independent valuer to perform valuation of assessing the adequacy of the expected credit losses of the inducement deposits as at 31 December 2021. Since 2018, the Group expanded its settlement application services through referring merchants to Alipay.com Co., Ltd. to use the Alipay services.

FINANCIAL REVIEW

Revenue

The revenue of the Group was mainly attributable to the application development income generated by efforts in diversification into settlement application market. For the year ended 31 December 2021, the Group reported a total revenue of approximately HK\$101.9 million representing an increase of 69.0% compared to approximately HK\$60.3 million in the same period in 2020.

Gross profit

Gross profit in 2021 was HK\$44.3 million which was an increase, as compared to a gross profit of HK\$14.1 million in the same period of 2020.

Selling and administrative expenses

Selling and administrative expenses, representing 79.4% of the Group’s revenues for the year, mainly included the expenses on utilization of inducement deposits as incentives by giving E-coupons or discount to customers for Settlement Services of approximately HK\$55.1 million (2020: HK\$38.1 million) and share-based payment expenses of approximately HK\$11.0 million (2020: HK\$10.2 million), increased by approximately HK\$11.4 million from approximately HK\$69.5 million in 2020 to approximately HK\$80.9 million in the same period in 2021. The increase in selling and administrative expenses are in line with the increase in revenue of the Group.

Loss for the year

The Group’s loss for the year was approximately HK\$32.7 million compared to loss of approximately HK\$51.1 million in the same period in 2020. The decrease of net loss was mainly attributable to the increase of sale revenue and unrealised gain on financial assets at fair value through profit or loss (“FVTPL”) of the Group.

Management Discussion and Analysis

Loss attributable to owners of the Company

Loss attributable to owners of the Company decreased from a loss of approximately HK\$41.8 million in 2020 to a loss of approximately HK\$32.4 million in the same period of 2021.

Loss attributable to the non-controlling interests

The loss attributable to the non-controlling interests of approximately HK\$0.3 million for the year ended 31 December 2021 (2020: HK\$9.3 million).

REVIEW OF THE GROUP'S FINANCIAL POSITION

Liquidity and capital resources

The Group has internal budgeting systems in place to ensure that if and when cash is committed to fund major expenditures there is sufficient cash flow to maintain the Group's daily operations and meet all of its contractual obligations.

The Group funds its operations with revenue from its operating activities. The Group also has cash inflows from interest income and collections. Key drivers in the Group's sources of cash are primarily the Group's sales, and their inflow depends on the Group's ability to collect receivables. There have been no material changes in the Group's underlying drivers during the period under review.

During the year of 2021, the Group invested approximately HK\$4.0 million in acquiring property, plant and equipment. The capital expenditure was financed from internal financial resources.

There were no assets charged or pledged as at 31 December 2021 (2020: HK\$ Nil).

The Group had cash and cash equivalents of approximately HK\$6.5 million as at 31 December 2021 compared to approximately HK\$4.8 million as at 31 December 2020.

CAPITAL COMMITMENTS

The Group had no capital commitments as at 31 December 2021 (2020: HK\$Nil).

GEARING RATIO

As at 31 December 2021, the Group's gearing ratio was approximately 9.7%, as compared to 7.0% as at 31 December 2020. The gearing ratio was calculated as the Group's total liabilities divided by its total capital. The total liabilities and total capital of the Group were approximately HK\$41.0 million (2020: HK\$29.5 million) and HK\$424.7 million (2020: HK\$422.5 million) as at 31 December 2021.

CONTINGENT LIABILITIES

As at 31 December 2021, the Group had no contingent liabilities (2020: HK\$Nil). The Company has not been acted as a guarantor of its subsidiaries to secure any interest-bearing borrowings.

FOREIGN EXCHANGE RISK MANAGEMENT

Certain of the Group's bank balances are denominated in United States Dollars and Renminbi, each of which is a currency other than the functional currency of the relevant group entities, which exposes it to foreign currency risk. The Group has not used any financial instruments to hedge against this currency risk. However, the Group monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

Management Discussion and Analysis

HUMAN RESOURCES

As at 31 December 2021, in addition to the Directors, there were approximately 58 employees (31 December 2020: 53) of the Group stationed in the Group's offices in Hong Kong and the PRC. Total staff costs for the year ended 31 December 2021 were approximately HK\$16.2 million (which included share-based payment of approximately HK\$11.0 million), compared with approximately HK\$17.2 million (which included share-based payment of approximately HK\$10.2 million) in 2020.

The Group offers training and development courses for its employees to enhance the staff's working capabilities. Remuneration packages are linked to individual performance, the Group's business performance, and taking into consideration of the industry practices and market conditions, reviewed on an annual basis. Directors' remuneration is determined with reference to his duties and responsibilities with the Company, the Company's standards for emoluments and market conditions. Share options are also granted to eligible employees based on individual's performance as well as the Group's performance.

MANAGEMENT OUTLOOK

The Group had continued the efforts to consolidate and realign its businesses to enable the Group to achieve improvements in its financial position. The Group will utilise its existing technical knowledge and programmers to diversify its income stream and will continue to work towards, attaining a stable platform for sustainability and basis for any potential growth.

By leveraging the knowledge on its interactive virtual reality programming on different business sectors, such as animation and culture, the Group obtained the license from the largest Japanese animation studio to conduct an interactive animation exhibition in Hong Kong in 2019. The Group will continue to explore the potential of this business opportunities and utilize its resource with prudence in the future.

Shareholder(s) can also submit a written requisition to move a resolution at a general meeting pursuant to Section 79 to 80 of the Bermuda Companies Act if they (a) represent not less than one-twentieth of the total voting rights of those shareholders having the right to vote at a general meeting; or (b) are not less than one hundred shareholders. The written requisition must state the resolution, accompanied by a statement of not more than 1,000 words with respect to the matter referred to in the proposed resolution or the business to be dealt with at the general meeting and deposited at the Company's principal place of business in Hong Kong.

The written requisition must be signed by all the Shareholders concerned in one or more documents in like form and deposited at the Company's principal place of business in Hong Kong for the attention of the Company Secretary not less than six weeks before the meeting in the case of a requisition requiring notice of a resolution, and not less than one week before the meeting in the case of any other requisition. A sum of money reasonably sufficient to meet the Company's expenses in serving the notice of the resolution and circulating the statement given by the requisitionists to all shareholders in accordance with the requirements under the applicable laws and rules should also be accompanied.

Corporate Governance Report

DIVIDEND POLICY

In compliance with code provision E.1.5 of the CG Code, the Company has adopted a dividend policy (“**Dividend Policy**”). Subject to the Bermuda Companies Act and the Bye-laws, the Company may from time to time declare dividends to be paid to the shareholders of the Company but no dividend shall be declared in excess of the amount recommended by the Board. The Board may also from time to time pay to the shareholders of the Company such interim dividends as appear to the Board to be justified by the profits of the Company. Declaration of dividends is subject to the discretion of the Board, taking into consideration of, among others, (i) the Group’s financial performance; (ii) the Group’s capital requirements and debt level; (iii) the Group’s liquidity position; (iv) retained earnings and distributable reserves of the Group; (v) the Group’s business operations, business strategies and future development needs; (vi) any contractual, statutory and regulatory restrictions; and (vii) the general economic conditions and other factors that may have an impact on the performance and position of the Group. The Board will review the dividend policy from time to time and may exercise at its sole and absolute discretion to update, amend and/or modify the dividend policy at any time as it deems fit and necessary.

RELATIONS WITH SHAREHOLDERS

The executive Directors and management team meet regularly with institutional investors, fund managers and analysts, as part of an active investor-relations program to discuss long-term issues and receive feedback.

During the year under review, there has been no significant change in the Company’s constitutional documents.

RISK MANAGEMENT AND INTERNAL CONTROL

During the year, the Board complied with the code provisions on risk management and internal control as set out in the CG Code. The Board has overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Group’s strategic objectives, and maintaining appropriate and effective risk management and internal control systems for the Group. The systems are designed to manage the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The management of the Company has established a set of comprehensive policies, standards and procedures in areas of operational, financial and risk controls for safeguarding assets against unauthorized use or disposition; for maintaining proper accounting records; and for ensuring the reliability of financial information to achieve a satisfactory level of assurance against the likelihood of the occurrence of fraud and errors.

The Board has overseen the Company’s risk management and internal control systems on an ongoing basis. A year end review of the effectiveness of the Company’s and its subsidiaries risk management and internal control systems has been conducted annually and the systems are considered to be effective and adequate. The Company does not have an internal audit department. However, the Group engaged an external consultant for internal control and risk management to carry out the analysis and independent appraisal of the adequacy and effectiveness of the systems, and has procedures in place to keep information confidential and manage actual or potential conflicts of interest. Stringent internal structures have been designed to prevent the misuse of inside information and avoid conflicts of interest.

WHERE MORE INFORMATION ABOUT THE COMPANY IS AVAILABLE

Independent Auditor's Report

TO THE SHAREHOLDERS OF CHINA E-WALLET PAYMENT GROUP LIMITED

(Incorporated in Bermuda with limited liability)

OPINION

We have audited the consolidated financial statements of China E-Wallet Payment Group Limited (the “**Company**”) and its subsidiaries (together, the “**Group**”) set out on pages 29 to 95, which comprise the consolidated statement of financial position as at 31 December 2021, the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (“**IFRSs**”) issued by the International Accounting Standards Board (“**IASB**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “**Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matters we identified are:

1. Impairment assessment of intangible assets
2. Impairment of (i) trade receivables, (ii) bond receivable, and (iii) deposit, prepayments and other receivables

Key Audit Matter

How our audit addressed the key audit matter

Impairment assessment of intangible assets

Refer to the significant accounting policies in Note 4(f), critical judgement and key estimates in Note 5(b), and relevant disclosures in Note 18 to the consolidated financial statements.

The Group has intangible assets of HK\$12,463,000 as at 31 December 2021. Intangible assets with an indefinite useful life or not yet available for use are subject to annual impairment assessment, while other intangible assets are subject to impairment assessment of impairment indicators exist.

Management performed impairment assessment of intangible assets and concluded that no impairment loss on intangible assets was recognised during the year. This conclusion was based on value in use model that involves significant management judgement and estimates with respect to the discount rate and the underlying cash flows, in particular future revenue growth and capital expenditure. Independent external valuation was obtained in order to support management's estimates.

Our procedures in relation to management's impairment assessment included:

- Evaluating the independent valuer's competence, capabilities and objectivity;
- Engaging a valuation specialist to assist us to review the appropriateness of the valuation approach and methodology, the accuracy of the calculations in the valuation model and the market data used in a sample basis;
- Challenging the appropriateness of the key assumption underlying the cash flow forecasts in the valuation model, with reference to historical performance of the Cash-Generating Unit ("CGU") and our knowledge of the relevant industry; and
- Evaluating the adequacy of disclosures in respect of the impairment review in the consolidated financial statements.

Key Audit Matter

How our audit addressed the key audit matter

Impairment of (i) trade receivables, (ii) bond receivable, and (iii) deposits, prepayments and other receivables

Refer to the significant accounting policies in Note 4(u), critical judgement and key estimates in Note 5(c), and relevant disclosures in Notes 16, 21 and 22 to the consolidated financial statements.

The measurement of forward-looking expected credit loss ("ECL") approach requires the application of significant judgement and increased complexity which include the identification of exposures with a significant deterioration in credit quality, and assumptions used in the ECL models (for exposures assessed individually or collectively), such as the expected future cash flows and forward-looking macroeconomic factors.

During the year ended 31 December 2021, the Group has made impairment loss of approximately HK\$10,812,000 and HK\$57,000 on trade receivables and bond receivable and reversed impairment loss of approximately HK\$2,062,000 on deposits, prepayments and other receivables respectively.

We identified the above matter as key audit matter due to the significant amount of (i) trade receivables, (ii) bond receivable and (iii) deposits, prepayments and other receivables and a considerable amount of judgement is required in assessing the recoverability of the (i) trade receivables, (ii) bond receivable and (iii) deposits, prepayments and other receivables.

Our procedures in relation to management's impairment and recoverability assessment included:

- Obtaining an understanding of and evaluating the Group's credit policies;
- With the assistance of auditor's expert, assessing the reasonableness of the Group's ECL models by examining the model input used by management to form such judgements, including testing the accuracy of the historical default data, evaluating whether the historical loss rates are appropriately adjusted based on current economic conditions and forward-looking information including the economic variables and assumptions used in each of the economic scenarios and their probability weightings and assessing whether there was an indication of management bias when recognising loss allowances;
- Inspecting settlements after the financial year end relating to the (i) trade receivables, (ii) bond receivable and (iii) deposits, prepayments and other receivables as at 31 December 2021; and
- Reviewing the appropriateness of the disclosure in the consolidated financial statements.

OTHER INFORMATION

The directors are responsible for the Other Information. The Other Information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon (the "Other Information").

Our opinion on the consolidated financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the Other Information and, in doing so, consider whether the Other Information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this Other Information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee assists the directors in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with section 90 of the Bermuda Companies Act and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

1. GENERAL INFORMATION

China e-Wallet Payment Group Limited (the “**Company**”) was incorporated in Bermuda an exempted company with limited liability under Companies Act of Bermuda. The addresses of the registered office and principal place of business of the Company are Clarendon House, 2 Church Street, Hamilton HM 11, Bermuda and Room 626-629, Corporation Park, 11 On Lai Street, Siu Lek Yuen, Sha Tin, New Territories, Hong Kong respectively. The Company’s shares are listed on the Main board of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”).

The Company acts as an investment holding company. The activities of its principal subsidiaries are set out in Note 20 to the consolidated financial statements.

The consolidated financial statements are presented in Hong Kong dollars (“**HK\$**”), which is also the functional currency of the Company and all values are rounded to nearest thousand except otherwise indicated.

2. BASIS OF PREPARATION

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“**IFRSs**”) issued by the International Accounting Standards Board (“**IASB**”), which in collective term includes all individual International Financial Reporting Standard (“**IFRS**”), International Accounting Standards (“**IASs**”) and Interpretations. These consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange and with the disclosure requirements of the Hong Kong Companies Ordinance (Cap.622). Significant accounting policies adopted by the Group are disclosed below.

The IASB has issued certain new and revised IFRSs that are first effective or available for early adoption for the current accounting period of the Group. Note 3 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these consolidated financial statements.

3. ADOPTION OF NEW AND REVISED IFRSs

The Group has applied the following amendments to IFRSs issued by the IASB for the first time, which are mandatorily effective for the annual period beginning on or after 1 January 2021 for the preparation of the consolidated financial statements:

Amendments to IFRS 16	COVID-19 – Related Rent Concession
Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16	Interest rate benchmark reform – Phrase 2

Except as described below, the application of the Amendments to References to the Conceptual Framework in IFRS Standards and the amendments to IFRSs in the current year had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

3. ADOPTION OF NEW AND REVISED IFRSs (CONTINUED)

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16, Interest Rate Benchmark Reform – Phrase 2

The amendments provide targeted reliefs from (i) accounting for changes in the basis for determining contractual cash flows of financial assets, financial liabilities and lease liabilities as modifications, and (ii) discontinuing hedge accounting when an interest rate benchmark is replaced by an alternative benchmark rate as a result of the reform of interbank offered rates (“**IBOR reform**”). The amendments do not have an impact on these consolidated financial statements as the Group does not have contracts that are indexed to benchmark interest rates which are subject to the IBOR reform.

Amendment to IFRS 16, COVID-19-Related Rent Concessions

The amendment provides a practical expedient that allows a lessee to by-pass the need to evaluate whether certain qualifying rent concessions occurring as a direct consequence of the COVID-19 pandemic (“**COVID-19 Related Rent Concessions**”) are lease modifications and instead, account for those rent concessions as if they were not lease modifications. The amendment does not have an impact on these consolidated financial statements.

New and revised IFRSs in issue but not yet effective

The Group has not applied any new and revised IFRSs that have been issued but are not yet effective. These new and revised IFRSs include the following which may be relevant to the Group.

	Effective for accounting periods beginning on or after
Amendment to IFRS 16 – COVID-19 Related Rent Concessions beyond 30 June 2021	1 April 2021
Amendments to IFRS 3 – Reference to the Conceptual Framework	1 January 2022
Amendments to IAS 16 – Proceeds before Intended Use	1 January 2022
Amendments to IAS 37 – Onerous Contracts – Cost of Fulfilling a Contract	1 January 2022
Annual Improvements to IFRSs 2018 – 2020 Cycle	1 January 2022
Amendments to IAS 1 – Classification of Liabilities as Current or Non-current	1 January 2023
Amendments to IAS 1 and IFRS Practice Statement 2 – Disclosure of Accounting Policies	1 January 2023
Amendments to IAS 8 – Definition of Accounting Estimates	1 January 2023
Amendment to IFRS 10 and IAS 28 – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined
Amendments to IAS 12 – Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction	1 January 2023

The Group is in the process of making an assessment of what the impact of these amendments and new standards is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements have been prepared under the historical cost convention, unless mentioned otherwise in the accounting policies below.

The preparation of these consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 5.

The significant accounting policies applied in the preparation of these consolidated financial statements are set out below. The policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

The gain or loss on the disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that subsidiary and (ii) the Company's share of the net assets of that subsidiary plus any remaining goodwill and any accumulated foreign currency translation reserve relating to that subsidiary.

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to the Company. Non-controlling interests are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity. Non-controlling interests are presented in the consolidated statement of profit or loss and consolidated statement of profit or loss and other comprehensive income as an allocation of profit or loss and total comprehensive income for the year between the non-controlling shareholders and owners of the Company.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Consolidation (Continued)

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling shareholders even if this results in the non-controlling interests having a deficit balance.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment loss.

(b) Business Combinations and goodwill

The acquisition method is used to account for the acquisition of a subsidiary in a business combination. The consideration transferred in a business combination is measured at the acquisition-date fair value of the assets given, equity instruments issued, liabilities incurred and any contingent consideration. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received. Identifiable assets and liabilities of the subsidiary in the acquisition are measured at their acquisition-date fair values.

The excess of the sum of the consideration transferred over the Group's share of the net fair value of the subsidiary's identifiable assets and liabilities is recorded as goodwill. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the sum of the consideration transferred is recognised in consolidated profit or loss as a gain on bargain purchase which is attributed to the Group.

In a business combination achieved in stages, the previously held equity interest in the subsidiary is remeasured at its acquisition-date fair value and the resulting gain or loss is recognised in consolidated profit or loss. The fair value is added to the sum of the consideration transferred in a business combination to calculate the goodwill.

The non-controlling interests in the subsidiary are initially measured at the non-controlling shareholders' proportionate share of the net fair value of the subsidiary's identifiable assets and liabilities at the acquisition date.

After initial recognition, goodwill is measured at cost less accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units ("CGUs") or groups of CGUs that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the Group at which the goodwill is monitored for internal management purposes. Goodwill impairment reviews are undertaken annually, or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGU containing the goodwill is compared to its recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Foreign currency translation

(i) *Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "**functional currency**"). The consolidated financial statements are presented in Hong Kong dollars, which is the Company's functional and presentation currency.

(ii) *Transactions and balances in each entity's financial statements*

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the company initially recognises such non-monetary assets or liabilities.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

(iii) *Translation on consolidation*

The results and financial position of all the Group entities that have a functional currency different from the Company's presentation currency are translated into the Company's presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses are translated at average exchange rates for the period (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the exchange rates on the transaction dates); and
- All resulting exchange differences are recognised in other comprehensive income and accumulated in the foreign currency translation reserve.

On consolidation, exchange differences arising from the translation of monetary items that form part of the net investment in foreign entities are recognised in other comprehensive income and accumulated in the foreign currency translation reserve. When a foreign operation is sold, such exchange differences are reclassified to consolidated profit or loss as part of the gain or loss on disposal.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Property, plant and equipment

Property, plant and equipment are held for use in the production or supply of goods or services, or for administrative purposes (other than properties under construction as described below). Property, plant and equipment are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

Depreciation of property, plant and equipment is calculated at rates sufficient to write off their cost less their residual values over the estimated useful lives on a straight-line basis. The principal annual rates are as follows:

Leasehold improvements	20%
Furniture, fixtures and equipment	20%
Motor vehicles	20%

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

(e) Lease

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

The Group as a lessee

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets which, for the Group are primarily laptops and office furniture. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(e) Lease (Continued)

The Group as a lessee (Continued)

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses, except for the right-of-use assets that meet the definition of investment property are carried at fair value in accordance with note 4(h).

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

Refundable rental deposits paid are accounted under IFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("**lease modification**") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification. The only exceptions are any rent concessions which arose as a direct consequence of the COVID-19 pandemic and which satisfied the conditions set out in paragraph 46B of IFRS 16. In such cases, the Group took advantage of the practical expedient set out in paragraph 46A of IFRS 16 and recognised the change in consideration as if it were not a lease modification.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Intangible Assets

Intangible Assets acquired separately

Intangible assets acquired separately and with finite useful lives are carried at cost less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is provided on a straight-line basis over their estimated useful lives. Alternatively, intangible assets with indefinite useful lives are carried at cost less any subsequent accumulated impairment losses.

Gains or losses arising from derecognition of an intangible asset are measured at the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the income statement when the asset is derecognised.

(g) Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when the Group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(h) Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Debt Investments

Debt Investments held by the Group are classified into one of the following measurement categories:

- amortised cost, if the investment is held for the collection of contractual cash flows which represent solely payments of principal and interest. Interest income from the investment is calculated using the effective interest method.
- Fair Value through other comprehensive income (“**FVTOCI**”) – recycling, if the contractual cash flows of the investment comprise solely payments of principal and interest and the investment is held within a business model whose objective is achieved by both the collection of contractual cash flows and sale. Changes in fair value are recognised in other comprehensive income, except for the recognition in profit or loss of expected credit losses, interest income (calculated using the effective interest method) and foreign exchange gains and losses. When the investment is derecognised, the amount accumulated in other comprehensive income is recycled from equity to profit or loss.
- Fair value through profit or loss (“**FVTPL**”) if the investment does not meet the criteria for being measured at amortised cost or FVTOCI (recycling). Changes in the fair value of the investment (including interest) are recognised in profit or loss.

Equity Investments

An investment in equity securities is classified as FVTPL unless the equity investment is not held for trading purposes and on initial recognition of the investment the Group makes an election to designate the investment at FVTOCI (non-recycling) such that subsequent changes in fair value are recognised in other comprehensive income. Such elections are made on an instrument-by-instrument basis, but may only be made if the investment meets the definition of equity from the issuer’s perspective. Where such an election is made, the amount accumulated in other comprehensive income remains in the fair value reserve (non-recycling) until the investment is disposed of. At the time of disposal, the amount accumulated in the fair value reserve (non-recycling) is transferred to retained earnings. It is not recycled through profit or loss. Dividends from an investment in equity securities, irrespective of whether classified as at FVTPL or FVTOCI, are recognised in profit or loss as other income.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Trade and other receivable

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the group has an unconditional right to receive consideration, the amount is presented as a contract asset.

Receivables are stated at amortised cost using the effective interest method less allowance for credit losses.

(j) Cash and cash equivalent

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flow. Cash and cash equivalents are assessed for ECL.

(k) Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under IFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

(l) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(m) Trade and other payables

Trade and other payables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

(n) Equity instruments

An equity instrument is any contract that evidence a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(o) Revenue recognition

Revenue from contracts with customers

Under IFRS 15, the Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- The Group’s performance creates and enhances an asset that the customer controls as the Group performs; or
- The Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance complete to date.

Otherwise, revenue is recognized at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group’s right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with IFRS 9. In contrast, a receivable represents the Group’s unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group’s obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. A contract asset and a contract liability relating to a contract are accounted for and presented on a net basis.

For contracts that contain more than one performance obligation, the Group allocates the transaction price to each performance obligation on a relative stand-alone selling price basis.

Sale of goods and service

Revenue from sale of good and service from internet and mobile’s application and related accessories is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the products. The normal credit term is 30 to 180 days upon delivery. Payment in advance is required for some contracts.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(o) Revenue recognition (Continued)

Distribution of computer and mobile related electronic products and accessories

Revenue from the distribution of computer-related and mobile-related electronic products and accessories included mobile payment platform and gaming industry and in particular in application development for merchants, online gaming, interactive virtual reality experience utilities application for mobile platform and mass advertising. are recognised when control of the products has transferred, being at the point the products are delivered to the customer and the customer has accepted the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specified location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

Interest income

Interest income is recognised as it accrues using the effective interest method. For financial assets measured at amortised cost or FVTOCI (recycling) that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit impaired financial assets, the effective interest rate is applied to the amortised cost (i.e. gross carrying amount net of loss allowance) of the asset.

(p) Employee benefit

(i) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(ii) Pension obligations

The Group contributes to defined contribution retirement schemes which are available to all employees. Contributions to the schemes by the Group and employees are calculated as a percentage of employees' basic salaries. The retirement benefit scheme cost charged to profit or loss represents contributions payable by the Group to the funds.

(iii) Termination benefits

Termination benefits are recognised at the earlier of the dates when the Group can no longer withdraw the offer of those benefits, and when the Group recognises restructuring costs and involves the payment of termination benefits.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(q) Share-based payments

The Group issues equity-settled share-based payments to certain employees.

Equity-settled share-based payments are measured at the fair value (excluding the effect of non-market based vesting conditions) of the equity instruments at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest and adjusted for the effect of non-market based vesting conditions.

(r) Government grants

A government grant is recognised when there is reasonable assurance that the Group will comply with the conditions attaching to it and that the grant will be received.

Government grants relating to income are deferred and recognised in profit or loss over the period to match them with the costs they are intended to compensate.

Government grants that become receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

(s) Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint arrangements, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(s) Taxation (Continued)

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 requirements to right-of-use assets and lease liabilities separately. Temporary differences relating to right-of-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

(t) Impairment of non-financial assets

The carrying amounts of non-financial assets are reviewed at each reporting date for indications of impairment and where an asset is impaired, it is written down as an expense through the consolidated statement of profit or loss to its estimated recoverable amount unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. If this is the case, recoverable amount is determined for the CGU to which the asset belongs. Recoverable amount is the higher of value in use and the fair value less costs of disposal of the individual asset or the CGU.

Value in use is the present value of the estimated future cash flows of the asset/CGU. Present values are computed using pre-tax discount rates that reflect the time value of money and the risks specific to the asset/CGU whose impairment is being measured.

Impairment losses for CGU are allocated first against the goodwill of the unit and then pro rata amongst the other assets of the CGU. Subsequent increases in the recoverable amount caused by changes in estimates are credited to profit or loss to the extent that they reverse the impairment.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(u) Impairment of financial assets

The Group recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost or at FVTOCI, lease receivables, trade receivables and contract assets, as well as on financial guarantee contracts. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables, contract assets and lease receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(u) Impairment of financial assets (Continued)

Significant increase in credit risk (Continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument’s external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor’s ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor’s ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if:

- (i) the financial instrument has a low risk of default,
- (ii) the debtor has a strong capacity to meet its contractual cash flow obligations in the near term, and
- (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group considers a financial asset to have low credit risk when the asset has external credit rating of “investment grade” in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of “performing”. Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(u) Impairment of financial assets (Continued)

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable.

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the counterparty;
- a breach of contract, such as a default or past due event;
- the lender(s) of the counterparty, for economic or contractual reasons relating to the counterparty's financial difficulty, having granted to the counterparty a concession(s) that the lender(s) would not otherwise consider; or
- it is becoming probable that the counterparty will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, including when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(u) Impairment of financial assets (Continued)

Measurement and recognition of ECL

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Group's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. For a lease receivable, the cash flows used for determining the expected credit losses is consistent with the cash flows used in measuring the lease receivable in accordance with IFRS 16.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognised in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

(v) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

(w) Events after the reporting period

Events after the reporting period that provide additional information about the Group's position at the end of the reporting period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the consolidated financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

(x) Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
- (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Company or of a parent of the Company;
- or
- (b) An entity is related to the Group if any of the following conditions applies:
- (i) the entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group which the other entity is a member);
 - (iii) both entities are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group. If the Group is itself such a plan, the sponsoring employers are also related to the Group;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); or
 - (viii) the entity, or any member of a group of which it is a part, provided key management personal services to the Company or to the parent of the Company.

Close family members of an individual are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

5. CRITICAL JUDGEMENTS AND KEY ESTIMATES

Critical judgements in applying accounting policies

In the process of applying the accounting policies, the directors of the Company have made the following judgements that have the most significant effect on the amounts recognised in the consolidated financial statements (apart from those involving estimations, which are dealt with below).

Significant increase in credit risk

As explained in Note 4(u), ECL are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. IFRS 9 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Group takes into account qualitative and quantitative reasonable and supportable forward-looking information.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

(a) Income taxes

The Group is subject to Hong Kong Profits Tax and Enterprise Income Tax (“EIT”) of the People’s Republic of China (the “PRC”) and temporary differences for each of the tax jurisdictions in which it operates and for all discrete reportable income streams within those jurisdictions. Significant estimates are required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax in the period in which such determination is made.

During the year, HK\$107,000 (2020: HK\$297,000) of income tax was charged to profit or loss based on the estimated assessable profit.

For the year ended 31 December 2021

5. CRITICAL JUDGEMENTS AND KEY ESTIMATES (CONTINUED)

Critical judgements in applying accounting policies (Continued)

(b) Impairment of goodwill and intangible assets

Determining whether goodwill and intangible assets are impaired requires an estimation of the value in use of the CGU to which goodwill and intangible assets have been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the CGU and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than the expected, or change in facts and circumstances which results in downward revision future cash flows or upward revision of discount rate, a material impairment loss or further impairment loss may arise.

Furthermore, the estimated cash flows and discount rate are subject to higher degree of estimation uncertainties in the current year due to uncertainty on how the COVID-19 pandemic may progress and evolve and volatility in financial markets.

The carrying amounts of goodwill and intangible assets were approximately HK\$4,686,000 and HK\$12,463,000 (2020: approximately HK\$4,686,000 and HK\$19,109,000) as at 31 December 2021. Details of the impairment assessment of the goodwill and intangible assets are provided in Notes 17 and 18 to the consolidated financial statements.

(c) Impairment of (i) trade receivables, (ii) bond receivable and (iii) deposits, prepayments and other receivables

The management of the Group estimates the amount of impairment loss for ECL on (i) trade receivables, (ii) bond receivable and (iii) deposits, prepayments and other receivables based on the credit risk of (i) trade receivables and (ii) deposits, prepayments and other receivables. The amount of the impairment loss based on ECL model is measured as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition. Where the future cash flows are less than expected, or being revised downward due to changes in facts and circumstances, a material impairment loss may arise.

Furthermore, the estimated cash flows and discount rate are subject to higher degree of estimation uncertainties in the current year due to uncertainty on how the COVID-19 pandemic may progress and evolve and volatility in financial markets. The information about the ECL and the Group's (i) trade receivables, (ii) bond receivables and (iii) deposits, prepayments and other receivables are disclosed in Note 31(b) to these consolidation financial statements.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

5. CRITICAL JUDGEMENTS AND KEY ESTIMATES (CONTINUED)

Critical judgements in applying accounting policies (Continued)

(c) Impairment of (i) trade receivables, (ii) bond receivables and (iii) deposits, prepayments and other receivables (Continued)

As at 31 December 2021, the carrying amounts of (i) trade receivables, (ii) bond receivables and (iii) deposits, prepayment and other receivables are approximately HK\$32,778,000 (2020: approximately HK\$8,776,000) (net of allowance for doubtful debts of approximately HK\$13,326,000 (2020: approximately HK\$2,514,000)), approximately HK\$4,943,000 (2020: approximately Nil) (net of allowance for doubtful debts of approximately HK\$57,000 (2020: approximately Nil) and approximately HK\$353,599,000 (2020: approximately HK\$398,507,000) (net of allowance for doubtful debts of approximately HK\$39,177,000 (2020: approximately HK\$41,239,000)) respectively.

(d) Valuation of equity-settled share-based payment transactions

The fair value of share options were valued by an independent valuer using the binomial option pricing model. This valuation requires the Company to make estimates about certain key inputs, including the dividend yield, expected volatility, risk-free interest rate and expected life of options. The changes in input assumptions can materially affect the fair value estimate.

During the year ended 31 December 2021, the Company recognised share-based payment expenses of approximately HK\$10,960,000 (2020: approximately HK\$10,165,000).

6. FAIR VALUE MEASUREMENTS

Fair value estimation

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in IFRS 13, Fair Value Measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs, that is, unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured using Level 2 inputs, that is, observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
- Level 3 valuations: Fair value measured using significant unobservable inputs.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

6. FAIR VALUE MEASUREMENTS (CONTINUED)

Fair value estimation (Continued)

The Group's policy is to recognise transfers into and transfers out of any of the three levels as of the date of the event or change in circumstances that caused the transfer.

The carrying amounts of the Group's financial assets and financial liabilities as reflected in the consolidated statement of financial position approximate their respective fair values as at 31 December 2021 and 2020.

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value:

	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000	Total HK\$'000
As at 31 December 2021				
Financial assets at fair value through profit or loss:				
Listed equity securities in Hong Kong	50,901	–	–	50,901
As at 31 December 2020				
Financial assets at fair value through profit or loss:				
Listed equity securities in Hong Kong	17,463	–	–	17,463

During the years ended 31 December 2021 and 2020, there were no transfers in the fair value hierarchy between Level 1 and Level 2, or transfers into or out of Level 3.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

7. REVENUE AND SEGMENT INFORMATION

The chief operating decision-maker (the “CODM”) has been identified as the key management of the Group. The CODM reviews the Group’s internal reporting in order to assess performance and allocate resources. The CODM has determined the operating segments based on these reports.

The CODM considers the business from both a business and geographic perspective. From business perspective, CODM determines that the Group has only one operating and reportable segment, being the internet and mobile’s application and related accessories operating segments.

The Group’s revenue from its major products and services were as follow:

Disaggregation of revenue from contracts with customers

12. TAXATION (CONTINUED)

Hong Kong

Under the two-tiered profits tax rates regime, the first HK\$2,000,000 of assessable profits of qualifying corporations will be taxed at 8.25%, and assessable profits above HK\$2,000,000 will be taxed at 16.5%. The assessable profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

No provision for Hong Kong Profit Tax has been made as the Group had no assessable income or had sufficient tax losses brought forward to offset against current year's assessable profit for the years ended 31 December 2021 and 2020.

The PRC

The PRC Enterprise Income Tax ("PRC EIT") is calculated at the applicable tax rates of 25% (2020: 25%) in accordance with the relevant laws and regulations in the PRC.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the respective jurisdictions. The taxation for the years ended 31 December 2021 and 2020 can be reconciled to the loss before taxation per the consolidated statement of profit or loss as follows:

	2021 HK\$'000	2020 HK\$'000
Loss before taxation	(32,808)	(51,425)
Income tax expense calculated at 25% (2020: 25%)	(8,202)	(12,856)

Effect of estimated tax losses not recognised	4,305	10,101
Tax effect of utilisation of tax losses not previously recognised	(718)	–
Taxation	(107)	(297)

13. LOSS PER SHARE

The calculation of basic loss per share for the year is based on the Group's loss attributable to owners of the Company of approximately HK\$32,370,000 (2020: HK\$41,800,000) and weighted average number of ordinary shares in issue during the year ended 31 December 2021 of 2,905,127,004 (2020: 2,743,729,744).

The basic and diluted loss per share are the same for the years ended 31 December 2021 and 2020 as the effect of the share options does not have any dilutive effect.

14. DIVIDENDS

The directors of the Company do not recommend the payment of any dividend for the year ended 31 December 2021 (2020: Nil).

During the year, the Group assessed the recoverable amount of the property, plant and equipment and as a result recognised impairment losses of approximately HK\$2,196,000 in respect of furniture, fixtures and equipment attributable to that the CGU of settlement application services (the “**Settlement CGU**”), which is classified into the Group’s reportable segment of internet and mobile’s application development and settlement application services business.

The recoverable amounts of the Settlement CGU have been determined on the basis of their value in use using discounted cash flow method. The key assumptions for the discounted cash flow method are those regarding the discount rates, growth rates and budgeted gross margin and turnover during the period. The Group estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the CGUs. The growth rates are based on long-term average economic growth rate of the geographical area in which the businesses of the Settlement CGUs operate. Budgeted gross margin and turnover are based on past practices and expectations on market development.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

15. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

The cash flow projections, growth rates and discount rate have been reassessed as at 31 December 2021 taking into consideration higher degree of estimation uncertainties in the current year due to how the COVID-19 pandemic may progress and evolve and volatility in financial markets, including potential disruptions of the Group's retail operations.

The Group prepares cash flow forecasts derived from the most recent financial budgets approved by the directors for the next five years with the residual period. The Company did not consider any growth rate in the most recent financial budgets.

16. BOND RECEIVABLE

On 19 August 2021, the Group subscribed an unconvertible bond with a principal amount of HK\$5,000,000. The bond is unsecured and interest-bearing at fixed rates of 11% per annum. The bond will mature on 18 August 2023. The bond interest is receivable per annum from the issue date. The effective interest rate is 11.02%.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

18. INTANGIBLE ASSETS (CONTINUED)

The intangible assets “logo”, “product development and design”, “contract rights”, “mobile application software and technology” and “brand name and distribution network” as disclosed above are amortised over its estimated useful lives, which are 5, 5, 10, 5 and 5 years respectively.

Impairment of intangible assets (brand name and distribution network) and goodwill

During the year ended 31 December 2021, the directors of the Company assessed the recoverable amount of the Mobile CGU to which the intangible asset of approximately HK\$12,463,000 (2020: approximately HK\$19,109,000) and goodwill of approximately HK\$4,686,000 (2020: approximately HK\$4,686,000) (Note 17) were allocated. The recoverable amount of the Mobile CGU has been determined on the basis of value in use calculation and is based on certain key assumptions. The value in use calculation is based on cash flow projections prepared from financial budgets approved by the directors of the Company and valued by the independent professional valuer covering a 5 years period and pre-tax discount rate. Cash flows beyond the 5th year period are extrapolated using the estimated growth rate stated below and this growth rate does not exceed the average long-term growth rate for the industry.

Particular of impairment assessment on intangible assets and goodwill are disclosed below:

The net carrying amount of intangible assets and goodwill were allocated to CGU as follows:

	2021 HK\$'000	2020 HK\$'000
The Mobile CGU		
– Intangible assets	12,463	19,109
– Goodwill	4,686	4,686
	17,149	23,795

The key assumption used in value in use calculation at 31 December 2021 and 2020 are as follows:

	2021	2020
EBITDA margin (average of next five years)	66.62%	65.73%
Long term growth rate	2%	3%
Discount rate	13.07%	13.55%

Management determined the earning before income tax, finance costs, depreciation and amortisation (“EBITDA”) margin based on past performance and its expectations regarding market development. The long-term growth rate does not exceed the long-term average growth rate for the industry and the country in which the Mobile CGU currently operates. The discount rate used is pre-tax and reflects specific risks relating to the Mobile CGU.

Based on the above assessment, the management of the Group have assessed the recoverable amount of the Mobile CGU amounting to approximately HK\$40,391,000 (2020: approximately HK\$29,055,000) which is higher than its carrying value as at 31 December 2021. Accordingly, no impairment loss was recognised on the goodwill and intangible assets relating to the Mobile CGU for the year ended 31 December 2021 (2020: Nil).

25. RESERVES (CONTINUED)

(c) Capital reserve

It represents the difference between the paid-in capital/share capital and share premium of the subsidiaries acquired and the nominal value of the Company's shares issued for the acquisition at the time of group reorganisation prior to its listing on the Stock Exchange.

(d) Translation reserve

The translation reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations. The reserve is dealt with in accordance with the accounting policies set out in Note 4(c) to the consolidated financial statements.

(e) Statutory reserve

In accordance with the PRC Company Law and the Group's PRC subsidiaries' articles of association, the Group's PRC subsidiaries are required to allocate 10% of its profit after tax as determined in accordance with the relevant accounting principles and financial regulations applicable to PRC companies to the statutory reserve until such reserve reaches 50% of the registered capital. The appropriation to the reserve must be made before any distribution of dividends to equity holders. The statutory reserve can be used to offset previous years' losses, if any, and part of the legal reserve can be capitalised as paid-in capital provided that the amount of such reserve remaining after the capitalisation shall not be less than 25% of the paid-in capital of the Group's subsidiaries.

(b) Financial risk management objective and policies

Market Risk

The Group's major financial instruments include financial assets at fair value through profit or loss, trade and other receivables, bond receivables, bond payable trade and other payables. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk, interest rate risk and price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Price Risk

The Group is exposed to equity price risk mainly through its investment in listed equity securities. The directors of the Company manage this exposure by maintaining a portfolio of investments with different risk and return profiles. The Group's equity price risk is mainly concentrated in equity securities listed in the Stock of Exchange for the years ended 31 December 2021 and 2020. The directors of the Company will monitor the risks and consider hedging the risk exposure should the need arise.

Equity price sensitivity analysis

The sensitivity analysis below have been determined based on the exposure to equity price risk at the end of the reporting period.

If the equity prices had been 15% higher/lower (2020: 15% higher/lower):

- loss before taxation for the year ended 31 December 2021 would decrease/increase by approximately HK\$7,635,000 (2020: approximately HK\$2,619,000) as a result of change in fair value of financial assets at fair value through profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

31. FINANCIAL INSTRUMENTS (CONTINUED)

(b) Financial risk management objective and policies (Continued)

Market Risk (Continued)

Foreign currency risk

The Group mainly operates in Hong Kong and the PRC and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to Renminbi (“RMB”) and Hong Kong dollars (“HKD”). Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations. The Company’s management do not expect the net foreign currency risk from these activities to be significant and hence, the Group do not presently hedge the foreign exchange risks. The Group periodically review liquid assets and liabilities held in currencies other than the functional currencies of the respective subsidiaries to evaluate its foreign exchange risk exposure and will consider hedging significant foreign currency exposure should the need arise.

Interest rate risk

The Group’s bond receivable and bond payable bear interests at fixed interest rates which expose the Group to fair value interest rate risks.

The Group’s exposure to cash flow interest rate risk mainly arises from its bank deposits. These bank deposits bear interests at floating rates varied with the prevailing market condition.

Except as stated above, the Group does not have other significant interest-bearing assets and liabilities at the end of reporting period, and its income and operating cash flows are substantially independent of changes in market interest rates.

Credit risk

The Group’s credit risk is primarily attributable to trade receivables, bond receivable, other deposits and other receivables. Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis.

It is the risk that a counterparty is unable to pay amount in full when due. It arises primarily from the Group’s receivables. The Group limits its exposure to credit risk by rigorously selecting counterparties. The Group mitigates its exposure to risk relating to receivables by dealing with customers with sound financial standing. The Group seeks to maintain strict control over its outstanding receivables and has a credit control policy to minimise credit risk. In addition, all receivables balances are monitored on an ongoing basis and overdue balances are followed up by management of the Group. The amounts presented in the consolidated statement of financial position are net of allowances for doubtful receivables, if any, estimated by the management of the Group based on prior experience and the current economic environment. The Group reviews the recoverable amount of each individual debt at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company believe that the credit risk is significantly reduced. The Group has a concentration of credit risk in certain individual customers. At the end of each reporting period, the five largest receivable balances accounted for 40% as at 31 December 2021 (2020: 90.7%) of the trade receivables and the largest trade receivable was 20% (2020: 68.7%) of the Group’s total trade receivables. The Group seeks to minimise its risk by dealing with counterparties which have a good credit history. Majority of the trade receivables that are neither past due nor impaired have no default payment history.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

31. FINANCIAL INSTRUMENTS (CONTINUED)

(b) Financial risk management objective and policies (Continued)

Credit risk (Continued)

In assessing whether the credit risk of financial assets have increased significantly since initial recognition, the Group compares the risk of default occurring on the financial assets assessed at the end of the reporting period with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when (i) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (ii) the financial asset is past due for more than 90 days. The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in a financial assets' external or internal credit rating (if available);
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group; and
- the financial asset is past due.

Trade receivables

The Group applies with simplified approach to provide for expected credit losses presented by IFRS 9, which permits the use of the lifetime expected credit loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics. The Group has performed historical analysis and identified the economic variable credit risk and expected credit loss. This considers available reasonable and supportive forwarding-looking.

As at 31 December 2020	0 to 30 days	31 to 60 days	61 to 90 days	91 to 180 days	Over 180 days	Total

Bond receivable and Deposits, and other receivables

The Group applies general approach and uses three categories for ECL on bond receivable, other receivables and other deposits which reflect their credit risk and how the loss provision is determined for each of the categories. In calculating the ECL rates, the Group considers historical loss rates for each category, the prevailing economic conditions, value of collateral and adjusts for forward looking data.

The movement of loss allowances for other receivables and other deposits during the years ended 31 December 2021 and 2020 are as follows:

	Deposits and other receivables (Stage 1) HK\$'000

The Group deposited bank balances with approved and reputable banks. Bankruptcy or insolvency of the banks may cause the Group's right with respect to bank balances held to be delayed or limited. The directors of the Company monitor the credit rating of these banks on an ongoing basis, and consider that the Group's exposure to credit risk at 31 December 2021 and 2020 were minimal.

Liquidity risk

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and long term.

- (a) The Company has adopted the option scheme on 28 June 2013 (the “**Option Scheme**”) whereby the directors of the Company are authorised, at their discretion, to invite eligible participants of the Group, including the employees and directors of any company in the Group, to take up options at HK\$1 consideration to subscribe for shares of the Company. The Option Scheme will remain in force for a period of 10 years commencing from 28 June 2013. Options granted must be accepted within 21 days from the date of the grant. The exercise period of the share options granted is determined by the directors of the Company but not later than 10 years from the date of grant. Each option gives the holder the right to subscribe for one ordinary share in the Company and is settled gross in shares of the Company.

The purpose of the Option Scheme is to provide incentives and/or rewards to eligible participants for their contributions to, and continuing efforts to promote the interests of, the Company.

The maximum number of shares in respect of which share options may be granted under the Option Scheme and any other share option scheme of the Company shall be 10% of the shares in issue as at 28 June 2013. The maximum number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Option Scheme and any other share option schemes of the Company, must not in aggregate exceed 30% of the issued share capital of the Company from time to time.

The exercise price must be at least the higher of: (i) the closing price of the shares as stated in the Stock Exchange’s daily quotations sheet on the date of offer of grant, which must be a trading day; (ii) the average closing price of the shares as stated in the Stock Exchange’s daily quotations sheets for the five business days immediately preceding the date of the offer of grant; and (iii) the nominal value of the shares on the date of the grant.

Notes to the Consolidated Financial Statements

33. SHARE-BASED COMPENSATION RESERVE (CONTINUED)

- (c) As at 31 December 2021 and 2020, outstanding share options have the following remaining contractual lives and exercise prices:

Share Options granted on	2021		2020	
	Remaining contractual life	Number of options	Remaining contractual life	Number of options
28 July 2017	5.6 years	24,830,000	6.6 years	24,830,000
15 April 2019	7.3 years	246,933,000	8.3 years	246,933,000
11 May 2020	–	–	2.4 years	274,000,000
18 May 2021	2.4 years	274,100,000	–	–

- (d) According to the Binomial option pricing model, the values and adjusted values of the options granted are as follows:

Fair value of share options granted during the years ended 31 December 2021 and 2020 and assumptions

	2021	2020
Fair value of each share option at grant date	HK\$0.04	HK\$0.04
Share price of each share at grant date	HK\$0.113	HK\$0.084
Exercise price of each share option	HK\$0.113	HK\$0.086
Expected volatility	75%	104%
Option life	3 years	3 years
Expected dividend yield	–	–
Risk-free interest rate	0.278%	0.352%

The expected volatility is based on the historical volatility (calculated based on the weighted average remaining life of the share options), adjusted for any expected changes to future volatility based on publicly available information. Expected dividends are based on historical dividends. Changes in the subjective input assumptions could materially affect the fair value estimate.

Based on the fair values derived from the above pricing model, the fair value of the share options granted on 18 May 2021 was approximately HK\$10,960,000 (2020: 10,165,000), of which approximately HK\$10,960,000 (2020: 10,165,000) have been charged as share-based compensation payment to profit or loss for the year ended 31 December 2021.

There was no market vesting condition or non-market performance condition associated with the options granted.

At 31 December 2021, the Company had 545,863,000 (2020: 545,763,000) share options outstanding under the Option Schemes, which represented approximately 18.1% (2020: 19.9%) of the Company's shares in issue at that date.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

38. RETIREMENT BENEFITS SCHEME

The Group operates a Mandatory Provident Fund Scheme (“**the MPF scheme**”) under the Hong Kong Mandatory Provident Fund Scheme Ordinance for employees employed under the jurisdiction of the Hong Kong Employment Ordinance. The MPF scheme is a defined contribution retirement scheme administered by independent trustees. Under the MPF scheme, the employer and its employees are each required to make contributions to the scheme at 5% of the employees' relevant income, subject to a cap monthly relevant income of HK\$30,000. Contributions to the scheme vest immediately.

Under the above schemes, retirement benefits of existing and retired employees are payable by the relevant scheme administrators and the Group has no further obligations beyond the annual contributions.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

38. RETIREMENT BENEFITS SCHEME (CONTINUED)

The employees in the PRC are members of state-managed retirement benefit scheme operated by the PRC government. The Company's subsidiaries operating in the PRC is required to contribute a certain percentage of payroll to the retirement benefit schemes to fund the benefits. The only obligation of the Group with respect to the scheme is to make the required contribution under the scheme.

During the years ended 31 December 2021 and 2020, the Group had no forfeited contributions under the MPF Scheme and the retirement benefit scheme in the PRC that might be used by the Group to reduce the existing level of contributions.

For the year ended 31 December 2021, the aggregate amount of the Group's contributions to the aforementioned schemes was approximately HK\$149,000 (2020: approximately HK\$308,000) which was included in the staff costs.

39. EVENTS AFTER THE REPORTING PERIOD

After the COVID-19 outbreak in 2020, a series of precautionary and strict control measures have been and continued to be implemented across the globe. The Group is paying close attention to the development of, and the disruption to business and economic activities caused by, the COVID-19 outbreak and evaluate its impact on the financial position, cash flows and operating results of the Group. Given the dynamic nature of the COVID-19 outbreak, it is not practicable to provide a reasonable estimate of its impacts on the Group's financial position, cash flows and operating results at the date on which these consolidated financial statements are authorised for issue.
