業績摘要

本集團一直竭力在極具挑戰且全球經濟波 動不定的環境下經營業務。

二零二一年的營業額約為900萬港元,而二零二零年約為2,600萬港元。二零二一年度只有持續經營業務,虧損約為7,400萬港元,如剔除以下非經常性損益因素影響:(I)財務擔保合約負債約為3.99億港元;及(2)其他收益及虧損約為3.21億港元(其中主要包括一間附屬公司取消綜合入賬之收益約為2.95億港元及議價收購收益約為2,000萬港元等(詳見綜合財務報表附註10)),本年度來自持續經營業務之淨利潤約為400萬港元。而二零二零年來自持續經營業務及來自已終止經營業務之虧損則分別約為34,800萬港元及約為87,500萬港元。

本集團繼續盡力尋求開發及經營風電資源 之商業機會,在前期市場工作的基礎上,努力促成目標項目的合作開發,達成財務目標。本集團已與合作方就有關風場項目開發 簽署若干技術服務協議,協議項下本集團的工作已階段性完成。

此外,於二零二一年十二月二十八日,本集團已取得航天龍源(本溪)風力發電有限公司(「龍源本溪」)之控制權。因此,龍源本溪之財務業績及狀況自二零二一年十二月二十八日起將再次綜合入賬至本集團之綜合財務業績及狀況。但由於二零二一年十二月二十七日以前的本年度業績無法合併計入本集團年度業績,因此,同比二零二零年度的風場營運業績大幅下降。

RESULTS SUMMARY

The Group has been operating in an extremely challenging market environment, where the worldwide economy had been fluctuating and full of uncertainties.

The turnover for the year 2021 was approximately HK\$9 million whereas that of 2020 was approximately HK\$26 million. The loss for the year 2021 was approximately HK\$74 million entirely from continuing operations, which would be a net profit of approximately HK\$4 million for the year from continuing operations after excluding the effects of the following non-recurring profit and loss factors: (1) the financial guarantee contract liabilities of approximately HK\$399 million; and (2) other gains and losses of approximately HK\$321 million (mainly consist of the gain on deconsolidation of a subsidiary of approximately HK\$295 million and the gain on bargain purchase of approximately HK\$20 million (please refer to Note 10 to the consolidated financial statements for details)), while the loss for the year 2020 from continuing operations and discontinued operations was approximately HK\$348 million and HK\$875 million, respectively.

The Group has continued to strive for the commercial opportunity in development and operation of wind power resources and seek to facilitate cooperation in the development of target projects based on the preliminary market work to achieve its financial goals. The Group has entered into several technical services agreements in relation to the development of wind farms with the business partners. Phased works under the agreements are completed by the Group.

Furthermore, the Group has obtained the control over Aerospace Long Yuan (Benxi) Wind Power Co., Ltd. ("Longyuan Benxi") on 28 December 2021. As the result, the financial results and position of Longyuan Benxi are consolidated to those of the Group with effect from 28 December 2021. However, since the results for the current year before 27 December 2021 cannot be consolidated into the Group's annual results, the operating results of wind farms decreased significantly as compared with the same period in 2020.

BUSINESS REVIEW

The Group implemented development services for several key new energy projects, and has realised revenue and profit. The Group has also signed certain agreements with various local governments for cooperation in the development of new energy projects to actively solidify the foundation of its main new energy business. The Group relied on the resources of CASC to further expand its wind farm operations business and international engineering business.

New Energy Development Business

Leveraging on the market resources accumulated over a long time in the field of new energy, the Group has actively expanded its new energy development business, and has signed several project contracts and generated revenue and profit from the new energy development service business. At the same time, the Group has signed three cooperation framework agreements with the local governments under Inner Mongolia, Sichuan and Guangdong for the development of new energy projects, and will gradually carry out the development, construction and grid-connected operation of the new energy projects, laying a foundation for the sustainable development of new energy development business.

管理層討論及分析 MANAGEMENT DISCUSSION AND ANALYSIS

重大風險管控情況

本集團主營業務有待充實。本集團只保留風 場營運業務作為持續經營業務。

因本公司為航天科技財務所提供的約人民幣II.5億元擔保責任已觸發,就目前而言,本集團流動資金應對營運的需求和履行債務責任面臨沉重的壓力。管理層已與控股股東協商包括給予擔保債務寬限、現金流支持在內的一攬子解決方案,但上述方案的最終落實還存在不確定性。

針對二零二一年本集團評估的政策風險、經營風險、融資風險、安全風險、法律風險 五項重大風險,公司制定了風險管控應對措施。具體情況如下:

(一) 政策風險

二零二零年以來國家新能源開發與利用的大環境更加清晰,鼓勵性政策與制出,有利於公司在新能源領域獲取的機。但在新能源項目開發過程中,協競爭激烈,立足有限的資源稟賦,如何利用好政策,快速整合項源,賦別發所需的各類要素資源,達成財務目標,仍存在一定的不確定性。本集團仍將密切關注國家產業政策的變化和行業發展的前瞻性研究。

MATERIAL RISK MANAGEMENT AND CONTROL

The main business of the Group needs to be enhanced. The Group remains the wind farm operations as the only continuing operation.

As the Company's guarantee obligations of approximately RMB1.15 billion provided to ASTF is triggered, the Group's liquidity is under great pressure to meet operational needs and fulfill its debt obligations for the time being. The management has negotiated with the controlling shareholder a package solution including extending grace period for guaranteed debt and providing cash flow support, while the final implementation of the above plan is still uncertain.

For the five major risk categories in 2021 as assessed by the Group, namely policy risks, operational risks, financing risks, safety risks and legal risks, the Company has devised corresponding risk management and control measures, the details of which are as follows:

(I) Policy Risks

Since 2020, the general environment for the development and utilization of new energy in China has become clearer, and encouraging policies have been issued frequently, which is beneficial for the Company to identify business opportunities in the new energy field. However, due to developing new energy projects in a highly competitive market, coupled with the limited resource endowment, there are still certain uncertainties on how to make good use of policies to quickly integrate various elements and resources required for project development to achieve financial goals. The Group will continue to closely monitor the changes in national industrial policies and the prospective study on industry development.

管理層討論及分析 MANAGEMENT DISCUSSION AND ANALYSIS

(二) 經營風險

雖然新能源行業長期向好,但本集團 仍面臨著主業規模偏小,業務結構單一,面臨著進一步調整夯實的壓力, 抗風險能力有待提升。

(三) 融資風險

由於風機製造業務已被迫退出,本集團的債務融資能力受到極大的挑戰, 過高的負債率及資產狀況導致公司目 前基本喪失融資能力。本集團正積極 爭取控股股東的強力支持,為集團紓 困與業務改善解決方案提供補充流動 性。

(四) 安全風險

風電場營運業務存在帶電作業,尤其 是在風電機組及相關設備維護保養 過程中,高空作業存在一定的安全風 險。需通過強化安全作業管理規章的 具體落實、杜絕不安全行為,加以防 範和避免。

(五) 法律風險

本集團於二零二零年八月十六日接獲 北京市第一中級人民法院通知,已受 理破產管理人訴本集團的子公司力助 發展有限公司未繳出資約人民幣I.55 億元,並要求本公司承擔連帶責任。 本集團已委聘專業法律顧問協助應 訴,經初步法律意見分析,要求本公司承擔連帶責任之主張並不成立。由 此產生的財務影響已反映在本集團截 至二零二一年度的綜合財務報表中。

(II) Operational Risks

Although the new energy industry enjoys long-term promising prospects, the Group is still under pressure to further adjust and consolidate its business structure due to the small scale of its main business and single business structure, and its anti-risk capability needs to be improved.

(III) Financing Risks

Resulted from the termination of the wind turbine manufacture business, the Group's debt financing ability faced a great challenge. The Company has lost ability to obtain financing due to the high debt to asset ratio. The Group is actively pursuing the strong support from the controlling shareholder to provide supplemental liquidity to the Group's relief and business improvement plan.

(IV) Safety Risks

Wind farm operations involve hot-line work, especially in the repair and maintenance of wind turbines and related equipment, there are certain safety risks in aerial work. It is necessary to strengthen the implementation of management regulations on safety operation to eliminate unsafe behaviors and prevent and avoid such risks.

(V) Legal Risks

The Group was notified by the Beijing First Intermediate People's Court on 16 August 2020 that it had accepted the bankruptcy administrator's suit against the Group's subsidiary, New Image Development Limited, for unpaid capital contribution of approximately RMB155 million with a request that the Company bears joint and several liabilities. The Group has engaged professional legal counsel to assist in responding to the lawsuit and upon analysis of the preliminary legal opinion, the claim of joint and several liabilities against the Company is unlikely to be valid. The relevant financial impact has been reflected in the Group's consolidated financial statements for the year ended 2021.

管理層討論及分析 MANAGEMENT DISCUSSION AND ANALYSIS

展望

隨著中央政府關於碳達峰具體行動方案的 出台,清潔能源長期發展目標已明確。到二 零二五年,非化石能源消費比重達到20%左 右;到二零三零年,非化石能源消費比重達 到25%左右,風電、太陽能發電總裝機容量 達到12億千瓦以上。新能源領域將完成從中 央財政補貼刺激到市場長期性成長的轉變。

中國將持續推進產業和能源結構調整,「十四五」期間規劃的九大清潔能源基地和五大海上風電基地將成為風光新增裝機的重要源頭。本集團將發揮中航總資源優勢,開展新能源項目開發業務,積極拓展「一帶一路」商業機會。

國家能源局印發相關文件,鼓勵風電場進行 增容或等容改造,明確補貼電量部分電價不變。在近年風電技術裝備進步明顯的背景下,結合政府鼓勵政策,本集團將推動現有風場項目的擴容升級改造,充分釋放風場項目的經濟性。

人力資源及薪酬政策

於二零二一年十二月三十一日,本集團香港總部辦公室共有僱員10人(二零二零年:13人),而中國內地辦事處共有僱員28人(二零二零年:19人)。僱員薪酬乃按照個別僱員之表現及不同地區現行之薪金趨勢而釐定,每年會進行檢討。本集團亦為僱員提供強制性公積金及醫療保險。此外,本集團設有由董事酌情釐定之表現花紅。

PROSPECTS

With the introduction of the central government's specific action plan for peak carbon dioxide emissions, the long-term development goals of clean energy have been clarified. By 2025, the proportion of non-fossil energy consumption will reach about 20%; by 2030, the proportion of non-fossil energy consumption will reach about 25%, and the total installed capacity of wind power and solar power will reach more than 1.2 billion kilowatts. The new energy field will complete the transition from the stimulus of central financial subsidies to the long-term market-driven growth.

China will continue to promote industrial and energy structure adjustment, and the nine clean energy bases and five offshore wind power bases planned during the "I4th Five-Year Plan" period will become important sources of newly installed wind and solar power. The Group will make full use of CASC's advantages in resources to conduct new energy project development business and actively explore business opportunities along the "Belt and Road".

The National Energy Administration has issued relevant documents to encourage wind farms to carry out capacity expansion or equal-capacity transformation, and clarified that the electricity price of subsidised electricity will remain unchanged. In the context of the remarkable progress in wind power technology and equipment in recent years, coupled with the government's incentive policies, the Group will promote the capacity expansion and upgrading of existing wind farm projects to fully release the economic benefits of wind farm projects.

HUMAN RESOURCES AND REMUNERATION POLICY

As at 31 December 2021, the Group had 10 employees (2020: 13 employees) in the Hong Kong head office and 28 employees (2020: 19 employees) in the offices of the PRC. Remuneration of employee is determined according to individual employee's performance and the prevailing trends in different areas and reviewed on an annual basis. The Group also provides Mandatory Provident Fund and medical insurance to its employees. In addition, discretionary performance bonus is available at the discretion of the Directors.

持續經營

本公司董事已審慎考慮本集團未來流動資金及財務狀況以及其可用融資來源,以評估本集團是否擁有足夠財務資源持續經營。

本集團已採取若干計劃及措施緩解流動資金狀況及改善本集團的財務狀況,包括但不限於以下各項:

(i)本集團一直在與火箭院積極磋商,以自火 箭院取得足夠財務支持使本集團能夠繼續 經營,且不會要求本公司就其應付火箭院 的款項(於二零二一年十二月三十一日為 I,439,008,000港元)履行其反擔保及擔保責 任,該款項乃因本公司一家前附屬公司向 火箭院及本公司同系附屬公司航天科技財 務有限責任公司(「航天科技財務」)借入的 若干已違約反擔保及擔保貸款(包括應付利 息)而產生,並須於要求時償還。

ACTIONS TAKEN BY THE COMPANY TO ADDRESS RELEVANT DISCLAIMER OF OPINION

As disclosed in sections headed "Disclaimer of Opinion" and "Basis for Disclaimer of Opinion" in the independent auditor's report contained on pages 71 to 75 of the Annual Report, the auditor of the Company, RSM Hong Kong ("Auditor"), had disclaimed their opinion on the consolidated financial statements of the Group for the year ended 31 December 2021. The Company has taken actions to address the relevant audit qualifications. Actions taken by the Company to address relevant disclaimer of opinion in the consolidated financial statements of the Group for the year ended 31 December 2021 are set out below:

Going Concern

The directors of the Company have given careful consideration to the future liquidity and financial position of the Group and its available sources of financing in assessing whether the Group will have sufficient financial resources to continue as a going concern.

Certain plans and measures have been taken to mitigate the liquidity position and to improve the Group's financial position which include, but are not limited to, the following:

(i) The Group has been actively negotiating with CALT to obtain sufficient financial support from CALT to enable the Group to continue its operations and for not demanding the Company to fulfill its counter guarantee and guarantee obligations in respect of the amount due to CALT by the Company as at 31 December 2021 of HK\$1,439,008,000 arising from certain defaulted counter-guaranteed and guaranteed loans borrowed by a former subsidiary of the Company including interest payable from CALT and Aerospace Science and Technology Finance Co., Ltd. ("ASTF"), a fellow subsidiary of the Company, which is repayable on demand.

On 21 May 2021, CALT issued the Company a letter undertaking not to demand repayment from the Company for the aforesaid guarantee obligations and to provide all necessary financial support to the Company. Such undertakings are effective for 18 months from the issue date of the letter.

於二零二二年三月十四日,火箭院再向本公司出具函件,將承諾再延長24個月,直至二零二四年十一月二十日結束。

(ii)本集團一直安排向其債權人結算部分未 償還結餘。本集團一直與其債權人保持溝 通,並密切監察該等債權人貿易及其他應付 款的任何結算要求。本公司董事認為,預期 本集團可與其債權人進一步磋商,並於必要 時協定結算安排。

本公司董事認為,經考慮上述計劃及措施, 本集團將具備足夠營運資金供其經營,並履 行其自批准綜合財務報表之日起計十二個 月內到期的財務責任。因此,本公司董事認 為按持續經營基準編製綜合財務報表乃屬 滴當。

儘管如此,由於上述計劃及措施仍在執行中,因此本集團管理層能否實現上述計劃及措施存在重大不確定性。本集團能否持續經營將取決於本集團產生足夠的融資及經營現金流量的能力以及能否於必要時與本集團債權人就結算安排達成協議。

核數師認為,合財務報表乃按持續經營基礎編製,其有效性取決於該等計劃及措施的結果,並受多項不確定因素影響,包括(i)成功推遲償還應付火箭院款項約1,439,008,000港元,該款項於二零二一年十二月三十一日須於要求時償還;(ii)火箭院必要時的財務支持使本集團能夠持續經營;及(iii)必要時與本集團債權人就結算安排成功達成協議。

鑑於本集團正在執行上述計劃及措施及有關本集團持續獲得融資的重大不確定性,核數師對截至二零二一年十二月三十一日止年度發出不發表意見。

On 14 March 2022, CALT issued the Company another letter to grant extension of the undertakings for further 24 months ending on 20 November 2024.

(ii) The Group has been arranging for settlement of part of the balances outstanding to its creditors. The Group has ongoing communication with its creditors, and monitored closely any settlement requests of trade and other payables. In the opinion of the directors of the Company, it is expected that the Group could further negotiate with its creditors and agree on the settlement arrangements where required.

The directors of the Company are of the opinion that, taking into account the above-mentioned plans and measures, the Group will have sufficient working capital to finance its operations and to meet its financial obligations as they fall due within twelve months from the date of approval of the consolidated financial statements. Accordingly, the directors of the Company are satisfied that it is appropriate to prepare the consolidated financial statements on a going concern basis.

Notwithstanding the above, since the execution of the above plans and measures are in progress, significant uncertainties exist as to whether management of the Group will be able to achieve its plans and measures as described above. Whether the Group will be able to continue as a going concern would depend upon the Group's ability to generate adequate financing and operating cash flows and the successful agreement with the Group's creditors of settlement arrangements where required.

Auditor is in view that the consolidated financial statements have been prepared on a going concern basis, the validity of which depends on the outcome of these plans and measures, which are subject to multiple uncertainties, including (i) successful postponement of repayment of amount due to CALT of approximately HK\$1,439,008,000, which is repayable on demand as at 31 December 2021; (ii) necessary financial support from CALT to enable the Group to continue its operations; and (iii) successful agreement with the Group's creditors of settlement arrangements where required.

Since the execution of the above plans and measures is in progress and in view of the significance of the extent of the uncertainties relating to the ongoing availability of finance to the Group, a disclaimer of opinion was issued in respect of the year ended 31 December 2021.

審核委員會已連同核數師及董事會審閱不 發表意見,並同意董事會關於不發表意見的 立場。

再者,鑒於上述建議行動計劃將於下個財政年度獲全面實施,包括(i)成功推遲償還應付火箭院款項約1,439,008,000港元,該款項於二零二一年十二月三十一日須於要求時償還;(ii)火箭院必要時的財務支持使本集團能夠持續經營;及(iii)必要時與本集團債權人就結算安排成功達成協議,核數師認為審核保留意見可予移除。

風險管理及內部監控

董事會整體負責維持良好有效之內部監控措施以保障股東投資及本集團資產。本集團之風險管理及內部監控系統乃為合理保證避免出現嚴重錯誤陳述或損失,以及為管理運作系統及減低該系統之失誤風險而設。

董事會在審核委員會的幫助下,已審閱本 集團風險管理及內部監控系統之成效。本 公司內部審計團隊定期就本集團所有重要 的監控,包括本集團的風險管理、財務、運 作及合規監控進行定期檢討,並按持續經 營基準評估其適當程度及成效。內部審計 團隊與審核委員會每年就年度審核計劃進 行討論及協定,並向審核委員會成員提交 審核結果報告,於審核委員會會議上進行 討論及隨後向董事會報告。內部審計團隊 會跟進該等審核報告,確保審計單位實施 就先前確認審核結果的推薦建議,從而妥 善解決有關問題。內部審計乃為向董事會 合理保證,本集團已實行良好有效之風險 管理及內部監控系統,藉以保障本集團資 產及識別業務風險。

The Audit Committee has reviewed the disclaimer of opinion in conjunction with the Auditor and Board, and concurs with the board's position concerning the disclaimer of opinion.

Furthermore, on the basis that the above proposed action plans have been fully implemented in next financial year, including (i) successful postponement of repayment of amount due to CALT of approximately HK\$1,439,008,000, which is repayable on demand as at 31 December 2021; (ii) necessary financial support from CALT to enable the Group to continue its operations; and (iii) successful agreement with the Group's creditors of settlement arrangements where required. This is considered that the audit qualification may be removed.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board has the overall responsibility for maintaining sound and effective internal controls to safeguard the shareholders' investment and the Group's assets. The Group's risk management and internal control systems are designed to provide reasonable assurance that material misstatements or losses can be avoided, and to manage and minimise risks of failure in operational systems.

The Board, with the assistance of the Audit Committee, has reviewed the effectiveness of risk management and internal control systems of the Group. The internal audit team of the Company performs regular reviews of all material controls, including risk management, financial, operational and compliance controls of the Group and evaluates their adequacy and effectiveness on a continuing basis. The annual audit plan is discussed and agreed every year with the Audit Committee. A report of audit findings is submitted to the members of the Audit Committee, discussed at the meetings of the Audit Committee and then report to the Board. During the reporting period, the Group ran an internal audit to continuously optimize our management systems, the audit looked at the resources allocation to each department, responsibilities of each department and their operational difficulties, quality control of products, identification of environmental factors and their source of risks, as well as inspection and measurement of equipment management, to ensure that the approach and targets are applicable for Group's development and affirm that the management systems are appropriate, sufficient and effective. In the event of any non-compliance or potential substandard items identified, measures for rectification, prevention or improvement will be followed up at the management committee meeting, to determine the responsible department and the period of time for rectification. Environmental Management

We distribute the management manual of quality/environment/occupational health and safety, which was prepared in reference to the revised National Environmental Management System Standards, to all departments and subsidiaries. The three key documents of the management system, namely the "Control Procedure for Environmental Emergency Preparedness and Response", the "Control Procedure for Performance Supervision and Measurement of Environment, Occupational Health and Safety" and the "Control Procedure for Document Management", set out the details of our solid waste management, emergency handling, supervision and measurement of our performance in environment as well as our management in record keeping.

We implemented "the Control Procedure for Environmental Management", setting out the management responsibility and procedure on procurement, sales activities, waste treatment, infrastructure and work environment at offices, wind farms and subsidiary level. The Comprehensive Management Department of the Group organized two environmental protection inspections throughout the year, to ensure the fulfilment of the Company's environmental approach and targets. The subsidiaries formulate environmental targets based on their own operational conditions, and their production process also need to strictly follow our procedures.

Emergency measures for environmental accidents

In case of any accident or emergency from operating activities, production, and service, the Group would proceed with effective control and disposal, so as to lower the degree of personal injury, financial loss, and environmental influence. We developed corresponding emergency plans and organized training and drills in respect of possible environmental accidents. In case of any unanticipated accident, we were required to carry out emergency rescue in a rapid, effective, orderly, and efficient manner.

環境保護設施

我們關注工廠內與廠房周圍的生態環境。集團本部投入人民幣30餘萬元開展地板更換,徹底解決辨公區地毯藏污納垢的情況,同時擺放綠植淨化辨公區域空氣。透過綠化及美化園區,我們致力為員工創造舒適的工作與生活環境,同時達到當地政府綠化部門綠化生態一體化的要求。

合規排放

我們致力減少排放過程對環境造成的污染,對生產過程中產生的廢棄物、廢氣、廢水及噪音均進行有效的控制。報告期內,我們未有發生任何有關空氣及溫室氣體排放、向水及土地的排污和有害及無害廢棄物產生及棄置的法律違規事件。

廢氣排放物

我們遵守國家《汽車排氣污染監督管理辦法》及地方政府相關法律法規,在內部實施《車輛管理制度》,定期檢驗車輛,以確保合規排放。

Environmental protection facilities

We place emphasis on the ecological environment in factories and their surrounding area. The headquarters of the Group invested more than RMB300,000 to replace the flooring, which completely solved the problem of dirt and grime hidden in the carpet fitted in the office premises, and placed green plants to purify the air in the office premises as well. We endeavour to create a comfortable work environment for our staff by greening and beautifying the area, and meet the local government requirements on ecological greening.

CONFORMING DISCHARGE

The Group was committed to reducing environmental pollution in the process of discharge, in consequence, the waste materials, exhaust gas, wastewater and noise arising from production were controlled effectively. During the reporting period, there was no event in breach of relevant laws and regulations relating to air and greenhouse gas emissions, discharges into water and land, and generation and disposal of hazardous and non-hazardous waste

Exhaust Gas Emissions

We have complied with the national Measures on Supervision of Exhaust Pollution from Automobiles and the relevant laws and regulations promulgated by the local governments. We perform inspection on vehicles on a regular basis in accordance with our Vehicle Management Mechanism to ensure conforming discharge.

Waste Management

To comply with the relevant laws and regulations of the PRC, the Group has implemented the internal system of "Solid Waste Management Measures" to manage and supervise the process of solid waste disposal. The solid waste produced from the production and operation of the Group is divided into recyclable and non-recyclable as well as hazardous and non-hazardous. The Group recycles the non-hazardous waste, such as waste paper, waste metal, waste glass, waste plastic, waste equipment and parts and components, and individual departments move the recyclable wastes to a designated separate collection station for combined disposal by the units with corresponding recycling qualifications. For the non-recyclable non-hazardous wastes, they are mainly solid waste from cutting and trimming in the production process of blade and household. In 2021, the Group did not have any blade production task, as a result, there was no non-recyclable waste.

The hazardous wastes are mainly ink cartridge, engine oil, dry cell battery, storage battery, waste cloth (which contains engine oil, isoamyl acetate and ink), waste mercury-containing lamps, waste chemical containers and laboratory wastes (such as cloth, gloves and filter materials). For disposal of hazardous wastes, the headquarters of the Group and its subsidiaries place garbage bins at various designated locations in plant or office or storage areas to ensure the prevention of spread, loss and leakage of hazards. A qualified company will be engaged for collective disposal upon accumulation of certain amount of hazardous wastes. For recyclable hazardous wastes, such as ink cartridge and lubricants, the Group has formed an agreement with suppliers for recycling waste ink cartridge and lubricants. To prevent, control, and dispose of secondary pollution generated from waste, the subsidiaries, according to specific conditions, formulated the corresponding disposal plan and supervised the process of packaging, loading and transfer of waste.

二零二一年,本集團主要廢棄物處置情況如

In 2021, the Group's disposal of principal wastes was as follows:

有害廢棄物棄置 Disposal of hazardous waste	噸	tonne	_
無害廢棄物棄置 Disposal of non-hazardous waste	噸	tonne	14

廢水管理

我們的廢水排放來源主要來自公司本部、附 屬公司的辨公污水。集團本部我們統一將污 水排放至園區污水管網,由園區進行處理後 排放。經處理後的出水經已脫氮、除磷及去 除了有機物,可達到《污水綜合排放標準》的 一級標準,並排放至市政排污管網。

同時,廠區努力尋求水資源迴圈再利用的機 會,夏季將過濾後的生活污水注入至廠內清 水儲水池,以作綠化植物的灌溉之用。

善用資源

公司運營及風機服務過程中涉及的資源包 括汽油、電、水。在降低營運成本的同時,我 們矢志實現對保護環境的決心,致力在營運 中有效使用資源。

Wastewater Management

Our wastewater discharge source is mainly office sewage in the headquarters of our Company and its subsidiaries. The Group's headquarters discharged its wastewater to the sewage pipeline of the park, where wastewater was disposed and discharged. As the effluent after treatment has been gone through nitrogen removal, dephosphorization and organic matter removal, it meets the requirements specified in the Integrated Wastewater Discharge Standard and can be discharged to municipal sewage discharge network.

In the meanwhile, our factory endeavours to seek opportunity for recycling and reusing water resources. In summer, household sewage after treatment in plant area flows into the clean water reservoir inside factory for irrigation of greening plants.

Effective Use of Resources

The resources involved in the Company's operations and wind turbine services include gasoline, electricity, and water. To reduce operational costs and to demonstrate our determination in environmental protection, we are committed to effectively use resources in our operation.

其他善用資源的措施包括舉辦節能宣傳周和低碳日活動,循環利用油脂罐,於公司食堂、衛生間、水房等地點張貼節約用電用水的提示,以及污水處理後的水以作灌溉用途。

Other measures for effective use of resources include promotion week for energy conservation, low carbon day campaign, recycling grease can, affixing "saving electricity and water" sticker at canteens, toilets and water rooms and using treated effluent for irrigation.

本集團的能源消耗以電能為主,而燃油消耗主要來自公司車輛的使用。二零二一年,本集團共消耗電力為42,221度,汽油為1,562公升,總能源消耗量折合為57,362度。我們採用市政自來水,無其他水資源消耗,二零二一年用量為1,116立方米。以總建築面積計算,總能源消耗密度及水資源消耗密度分別為1.26(度/平方米)及0.02(立方米/平方米)。生產上,本集團產品所需的包裝材料較少,使用的木箱及紙箱用於保護產品在運輸途中免受損壞。

履行節約用電:關掉辦公區域照明燈及空調開關,減少待機消耗,每日均有專人巡查下班電器關閉情況。

減少公車使用,低碳任我行: 公務用車實行集中調度、統一管理。根據用車需求,合理調配,外出辦公儘量合乘公車。嚴格公務用車審批,促進公務車輛節能措施。在車輛日常保養方面,定期對車輛進行檢查,減少人為因素造成的能源損耗。同時,鼓勵員工外出辦公使用市場上通用的社會化保障用車。

原物料使用

我們生產所需的原材料主要包括能源、水資源及包裝材料。為避免浪費生產所需的原材料,同時便於集團制定採購計劃及產品成本控制,我們在附屬公司實行原材料領用管理辦法。原材料的使用會採取定額方式向生產部負責人發放,如生產過程中所需原材料領用不足,技術部主管需在填寫領用數量前核實不足的原因及補充數量,並在定額外領用單中注明領用原因。對於因人為原因導致的原材料增加將根據實際情況進行處罰。

在風機運維服務中,宣導員工發揮智慧,實施小發明、小創造、小技改,充分利用運維更換下的零部件資源進行再利用,比如對替換下來的風機閘鉗進行維修,並在風機上進行再利用,既節約了物資採購成本,又進行了廢物再利用,取得了良好的效果。

Wise use of electricity: Turn off lighting and air conditioning switches in the workplace, minimise standby power consumption of computers and make sure all electrical appliances are switched off after work by assigning responsible persons to conduct daily inspection.

Reducing the use of official vehicles and encouraging low-carbon lifestyle: The official vehicles are collectively scheduled and managed for effective use of the transport capacity. Vehicles are deployed according to demands. It is encouraged to share official vehicles for going out for business purposes. The Company implements strict approval for the use of official vehicles to promote conversation measures on official vehicles. Vehicle inspection is carried out during routine vehicle maintenance for minimising energy loss by manmade causes. Meanwhile, employees are encouraged to go out to work by taking common social security cars on the market.

Use of raw materials

The raw materials required for our production mainly are energy, water resources and packaging materials. To avoid excessive use of raw materials, facilitate the formulation of procurement plan by the Group as well as the cost control of products, we have implemented management measures on procurement and use of raw materials in our subsidiaries. Production teams are distributed a defined amount of raw materials. In the event of insufficient raw materials for production, head of technology department is required to fill in a form stating the reasons for insufficiency and the additional amount required after verification. For those cases of excessive use of raw materials caused by man-made factors, the persons involved may receive punishment in the light of actual conditions.

In the wind turbine operation and maintenance services, employees are encouraged to use their wisdom to implement inventions, creations, and technical reforms, and make full use of the spare parts replaced in the operation and maintenance for reuse, e.g. reuse of the replaced brake plier of wind turbine on wind turbines after repair, which saves the cost of material procurement and enables the reuse of waste, achieving good results.

針對設計研發、生產配套、安裝調試到運行維護全過程的採購工作,均按照《項目採購管理辦法》嚴格執行,在降低採購成本的同時,推進了採購模式的規範化實施。在整個採購過程中,我們遵循「公開、公平、公正」和「集中採購、貨比三家、擇優選購」的原則,以供應商的資質、價格、品質、供貨周期、售後服務等條件甄選。

在供應商管理方面,本集團制定了完善的管 理制度,包括《供應商開發管理辦法》、《供 應商年度評價辦法》。在供應商選用方面, 對供應商加入環保、職業安全、社會責任的 要求,並因應《環境管理運行控制程序》及 《職業健康安全運行控制程式》對所提供產 品或服務中涉及重要環境或職業安全因素 的供應商發出相關方告知書。對不能配合改 善其環境行為和風險的供應商,集團會要求 更正或終止合作關係。在審核供應商時,我 們的審核小組會在供應商生產、裝配或工地 現場進行詳細的實地審核,並於一周內完成 供應商現場審核報告。針對同一零部件或同 一項服務,我們都有三家以上合格供應商, 從而有效降低採購成本,並避免獨家供應商 造成的風險。繼續嚴格按照《供應商年度評 價辦法》進行年度評價考核。

Supply chain management

Throughout the entire procurement process from design, R&D, production and processing, installation and commissioning to maintenance and repair, the "Measures for the Management of the Purchase of Supplies" are strictly implemented to reduce purchase cost and carried out the standardisation of the purchase model. We have followed the principles of "transparent, fair and impartial" and "collective procurement, making comparison for the best" throughout the procurement process. Our supplier selection criteria include qualifications, price level, quality, delivery performance and after-sales services.

In respect of management of suppliers, the Group has implemented a comprehensive "Measures for the Management of Suppliers Development" and "Annual Appraisal Method of Suppliers" to include the requirements for environmental protection, occupational safety and social responsibilities in selecting suppliers. The suppliers involving key issues of environment or occupational safety will be given a written notice in accordance with the "Operation Control Procedures for Environmental Management" and the "Operation Control Procedures for Occupational Health and Safety". Any failures to improve its behavior on environment or reduce environmental risks, the Group will require the supplier(s) to rectify or cease cooperation with them. In assessing our suppliers, our team will conduct a detailed onsite inspection on production, equipment and facilities and production sites and issue an assessment report on suppliers within one week after the completion of the assessment. For the same component or the same service, we have more than three qualified suppliers, thus effectively reducing procurement costs and avoiding the risks arising from using exclusive supplier. ANTI-CORRUPTION

We have zero tolerance on bribery and corruption and place high emphasis on ethical conduct. We endeavour to build a corruption-free working environment by strictly following the Prevention of Bribery Ordinance of Hong Kong, the Criminal Law of the People's Republic of China and the Anti-Money Laundering Law of the People's Republic of China. Each employee is required to uphold his/her own responsibility and act in an honest and pragmatic manner, and is prohibited to get involved into any criminal activities, such as bribery and corruption, blackmail, fraud and money laundering.

The Group launched regular self-inspections on anti-corruption. In particular, we inspected office space, official vehicles, business reception, funds management, employee selection and appointment, allowances and subsidies, etc. and no corruption, bribe-taking, and other acts in breach of the rules and laws were identified.

In the event of any bribery, corruption, blackmail and money laundering detected, we will take necessary legal actions to protect the interest of the Group. Meanwhile, the Group has adopted a whistleblowing policy to which employees can report, in confidence, any suspected misconduct in the Company to the Audit Committee. The committee will then establish a case for internal inspection and seeking legal advice. In 2020, no corruption lawsuit occurred in the Company.

致:中國航天萬源國際(集團)有限公司各位 股東

(於開曼群島註冊成立之有限公司)

不發表意見

本核數師(以下簡稱「我們」)已獲委聘對載於第76至204頁的中國航天萬源國際(集團)有限公司(以下簡稱「貴公司」)及其附屬公司(以下統稱「貴集團」)的綜合財務報表進行審計,此綜合財務報表包括於二零二一年十二月三十一日的綜合財務狀況表與截至該日止年度的綜合損益及其他全面收益表、綜合權益變動表和綜合現金流量表,以及綜合財務報表附註,包括主要會計政策概要。

我們並不就 貴集團綜合財務報表發表意見。基於本報告不發表意見之基礎部分有關事項的重要性,我們無法獲取充足適當的審計憑證,為該等綜合財務報表的審計意見提供基礎。在所有其他方面,我們認為綜合財務報表已根據香港公司條例的披露規定妥為編製。

TO THE SHAREHOLDERS OF CHINA ENERGINE INTERNATIONAL (HOLDINGS) LIMITED

(Incorporated in the Cayman Islands with limited liability)

DISCLAIMER OF OPINION

We were engaged to audit the consolidated financial statements of China Energine International (Holdings) Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 76 to 204, which comprise the consolidated statement of financial position as at 31 December 2021, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

We do not express an opinion on the consolidated financial statements of the Group. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these consolidated financial statements. In all other respects, in our opinion the consolidated financial statements have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

不發表意見之基礎

如綜合財務報表附註2所述, 貴集團截至 二零二一年十二月三十一日止年度產生來自持續經營業務之淨虧損約74,140,000港元,及截至二零二一年十二月三十一日, 貴集團錄得流動負債淨值及負債淨值分別約2,061,167,000港元及約1,763,893,000港元。於二零二一年十二月三十一日, 貴集團應付中國運載火箭技術研究院(「火箭院」)款項為約1,439,008,000港元,該款項須於要求時償還;而於二零二一年十二月三十一日其現金及現金等價物僅為約31,257,000港元。該等情況表明存在可能對 貴集團持續經營能力產生重大疑慮的重大不確定性。

貴公司董事已實施多項計劃及措施以改善 貴集團的流動性及財務狀況(載於綜合財務報表附註2)。綜合財務報表乃按持續經營基礎編製,其有效性取決於該等計劃及措施的結果,並受多項不確定因素影響,包括(i)成功推遲償還應付火箭院款項約1,439,008,000港元,該款項於二零二一年十二月三十一日須於要求時償還;(ii)火箭院充足的財務支持使 貴集團能夠持續經營;及(iii)必要時與 貴集團債權人就結算安排成功達成協議。

BASIS FOR DISCLAIMER OF OPINION

As described in note 2 to the consolidated financial statements, the Group incurred a net loss from continuing operations of approximately HK\$74,140,000 during the year ended 31 December 2021 and, as of 31 December 2021, the Group had net current liabilities and net liabilities of approximately HK\$2,061,167,000 and approximately HK\$1,763,893,000, respectively. The Group's amount due to China Academy of Launch Vehicle Technology ("CALT") amounted to approximately HK\$1,439,008,000 as at 31 December 2021, which is repayable on demand; while its cash and cash equivalents amounted to approximately HK\$31,257,000 only as at 31 December 2021. These conditions indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern.

The directors of the Company have undertaken a number of plans and measures to improve the Group's liquidity and financial position, as set out in note 2 to the consolidated financial statements. The consolidated financial statements have been prepared on a going concern basis, the validity of which depends on the outcome of these plans and measures, which are subject to multiple uncertainties, including (i) successful postponement of repayment of amount due to CALT of approximately HK\$1,439,008,000, which is repayable on demand as at 31 December 2021; (ii) sufficiency of financial support from CALT to enable the Group to continue its operations; and (iii) successful agreement with the Group's creditors of settlement arrangements where required.

不發表意見之基礎 (續)

倘 貴集團未能實現上述計劃及措施,或火 箭院不再具備向 貴集團提供資金的財務能力,則 貴集團可能無法持續經營,因此 其可能無法於正常業務過程中變現其資產 及清償其負債。故此將須進行調整以將 貴集團非流動資產及非流動負債分別重新分類為流動資產及流動負債,以將 貴集團資產的賬面值撇減至可收回金額,並就在報告期末屬繁重的任何合約承擔計提撥備。該等調整的影響並未於綜合財務報表內反映。

鑑於 貴集團正在執行上述計劃及措施及 有關 貴集團持續獲得融資的重大不確定 性,我們對截至二零二一年十二月三十一日 止年度不發表意見。

董事及審核委員會就綜合財務報 表須承擔的責任

貴公司董事須負責根據香港會計師公會 (「香港會計師公會」)頒佈的香港財務報告 準則及香港公司條例的披露要求擬備真實 而中肯的綜合財務報表,並對其認為為使綜 合財務報表的擬備不存在由於欺詐或錯誤 而導致的重大錯誤陳述所需的內部控制負 青。

BASIS FOR DISCLAIMER OF OPINION (Continued)

Should the Group fail to achieve the abovementioned plans and measures, or should CALT no longer have the financial ability to provide finance to the Group, it may not be able to continue to operate as a going concern, and therefore it may be unable to realise its assets and discharge its liabilities in the normal course of business. Adjustments would have to be made to reclassify the Group's non-current assets and non-current liabilities as current assets and current liabilities respectively, to write down the carrying amounts of the Group's assets to their recoverable amounts and to provide for any provision for any contractual commitments that have become onerous as at the end of the reporting period. The effects of these adjustments have not been reflected in the consolidated financial statements.

Since the execution of the above plans and measures is in progress and in view of the significance of the extent of the uncertainties relating to the ongoing availability of finance to the Group, we disclaim our opinion in respect of the year ended 31 December 2021.

RESPONSIBILITIES OF DIRECTORS AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

董事及審核委員會就綜合財務報 表須承擔的責任 (續)

在擬備綜合財務報表時,董事負責評估 貴 集團持續經營的能力,並在適用情況下披露 與持續經營有關的事項,以及使用持續經營 為會計基礎,除非董事有意將 貴集團清盤 或停止經營,或別無其他實際的替代方案。

審核委員會協助董事履行監督 貴集團財 務報告過程的職責。

核數師就審計綜合財務報表須承 擔的責任

我們的責任是根據香港會計師公會頒佈的香港審計準則對 貴集團的綜合財務報表進行審計工作,並僅向全體股東出具包括我們意見的核數師報告。除此以外,我們的報告不可用作其他用途。我們並不就本報告之內容對任何其他人士承擔任何責任或接受任何義務。然而,由於本報告不發表意見之基礎部分的有關事項,我們無法獲取充足適當的審計憑證,為該等綜合財務報表的審計意見提供基礎。

RESPONSIBILITIES OF DIRECTORS AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee assists the directors in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our responsibility is to conduct an audit of the Group's consolidated financial statements in accordance with Hong Kong Standards on Auditing issued by the HKICPA and to issue an auditor's report that includes our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these consolidated financial statements.

核數師就審計綜合財務報表須承 擔的責任 (續)

根據香港會計師公會的專業會計師道德守 則(以下簡稱「守則」),我們獨立於 貴集 團,並已履行守則中的其他專業道德責任。

出具本獨立核數師報告的審計項目合夥人 是廖於勤先生。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

2. BASIS OF PREPARATION

These consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"). HKFRSs comprise Hong Kong Financial Reporting Standards ("HKFRS"); Hong Kong Accounting Standards ("HKAS"); and Interpretations. These consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules") and with the disclosure requirements of the Hong Kong Companies Ordinance (Cap. 622). Significant accounting policies adopted by the Group are disclosed below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Group. Note 3 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these consolidated financial statements.

The Group incurred a net loss from continuing operations of HK\$74,140,000 during the year ended 31 December 2021 and, as of 31 December 2021, the Group had net current liabilities and net liabilities of HK\$2,061,167,000 and HK\$1,763,893,000, respectively. 截至二零二一年十二月三十一日止年度 For the year ended 31 December 2021

2. 編製基礎(續)

鑑於以上情況,本公司董事在評估本 集團是否有足夠財務資源以持續經營 時,已審慎考慮本集團的未來流動資 金及財務狀況及其可用的融資來源。 本集團已採取若干計劃及措施以舒緩 流動資金狀況並改善本集團財務狀 況,包括但不限於以下各項:

本集團一直在與火箭院積極磋 商,以自火箭院取得足夠財務 支持使本集團能夠繼續經營, 且不會要求本公司就其應付火 箭院的款項(於二零二一年十二 月三十一日為1,439,008,000港元) 履行其反擔保及擔保責任,該 款項乃因本公司一家前附屬公 司向火箭院及本公司同系附屬 公司航天科技財務有限責任公 司(「航天科技財務」)借入的若 干已違約反擔保及擔保貸款(包 括應付利息) 而產生,並須於要 求時償還。於二零二一年五月 二十一日,火箭院已向本公司出 具信函,承諾不會要求本公司償 付上述擔保責任,並向本公司提 供一切必要的財務支持。該等承 諾自信函簽發之日起計18個月 內有效。於二零二二年三月十四 日,火箭院再向本公司出具函 件,將承諾再延長24個月,直至 二零二四年十一月二十日結束。

2. BASIS OF PREPARATION (Continued)

In view of the above circumstances, the directors of the Company have given careful consideration to the future liquidity and financial position of the Group and its available sources of financing in assessing whether the Group will have sufficient financial resources to continue as a going concern. Certain plans and measures have been taken to mitigate the liquidity position and to improve the Group's financial position which include, but are not limited to, the following:

The Group has been actively negotiating with CALT to obtain sufficient financial support from CALT to enable the Group to continue its operations and for not demanding the Company to fulfill its counter guarantee and guarantee obligations in respect of the amount due to CALT by the Company as at 31 December 2021 of HK\$1,439,008,000 arising from certain defaulted counter-guaranteed and guaranteed loans borrowed by a former subsidiary of the Company including interest payable from CALT and Aerospace Science and Technology Finance Co., Ltd. ("ASTF"), a fellow subsidiary of the Company, which is repayable on demand. On 21 May 2021, CALT issued the Company a letter undertaking not to demand repayment from the Company for the aforesaid guarantee obligations and to provide all necessary financial support to the Company. Such undertakings are effective for 18 months from the issue date of the letter. On 14 March 2022, CALT issued the Company another letter to grant extension of the undertakings for further 24 months ending on 20 November 2024.

截至二零二一年十二月三十一日止年度 For the year ended 31 December 2021

2. 編製基礎(續)

(ii) 本集團一直安排向其債權人結 算部分未償還結餘。本集團一直 與其債權人保持溝通,並密切監 察該等債權人貿易及其他應付 款的任何結算要求。本公司董事 認為,預期本集團可與其債權人 進一步磋商,並於必要時協定結 算安排。

本公司董事認為,經考慮上述計劃及 措施,本集團將具備足夠營運資金供 其經營,並履行其自批准綜合財務報 表之日起計十二個月內到期的財務責 任。因此,本公司董事認為按持續經 營基準編製綜合財務報表乃屬適當。

儘管如此,由於上述計劃及措施仍在 執行中,因此本集團管理層能否實現 上述計劃及措施存在重大不確定性。 本集團能否持續經營將取決於本集團 產生足夠的融資及經營現金流量的能 力以及能否於必要時與本集團債權人 就結算安排達成協議。

2. BASIS OF PREPARATION (Continued)

(ii) The Group has been arranging for settlement of part of the balances outstanding to its creditors. The Group has ongoing communication with its creditors, and monitored closely any settlement requests of trade and other payables. In the opinion of the directors of the Company, it is expected that the Group could further negotiate with its creditors and agree on the settlement arrangements where required.

The directors of the Company are of the opinion that, taking into account the above-mentioned plans and measures, the Group will have sufficient working capital to finance its operations and to meet its financial obligations as they fall due within twelve months from the date of approval of the consolidated financial statements. Accordingly, the directors of the Company are satisfied that it is appropriate to prepare the consolidated financial statements on a going concern basis.

Notwithstanding the above, since the execution of the above plans and measures are in progress, significant uncertainties exist as to whether management of the Group will be able to achieve its plans and measures as described above. Whether the Group will be able to continue as a going concern would depend upon the Group's ability to generate adequate financing and operating cash flows and the successful agreement with the Group's creditors of settlement arrangements where required.

截至二零二一年十二月三十一日止年度 For the year ended 31 December 2021

2. 編製基礎(續)

3. 採用新訂及經修訂香港財務 報告準則

(a) 應用新訂及經修訂香港財務報 告準則

為編製綜合財務報表,本集團 已首次應用於二零二一年一月 一日或之後開始之年度期間強 制生效之下列香港會計師公會 頒佈之香港財務報告準則(修訂 本):

香港財務報告準則 利率基準改革一第9號、香港會計 第二階段 第1第39號、香港財務報告 準則第7號、香港財務報告準則第7號、香港財務報告準則 第4號及香港財務 報告準則第16號 (修訂本)

2. BASIS OF PREPARATION (Continued)

Accordingly, a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. Should the Group fail to achieve the above mentioned plans and measures, or should CALT no longer have the financial ability to provide finance to the Group, it may not be able to continue to operate as a going concern, and adjustments would have to be made to reclassify the Group's noncurrent assets and non-current liabilities as current assets and current liabilities respectively, to write down the carrying amounts of the Group's assets to their recoverable amounts and to provide for any provision for any contractual commitments that have become onerous as at the end of the reporting period. The effects of these adjustments have not been reflected in the consolidated financial statements.

3. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

(a) Application of new and revised HKFRSs

The Group has applied the following amendments to HKFRSs issued by the HKICPA for the first time, which are mandatorily effective for the annual period beginning on or after I January 2021 for the preparation of the consolidated financial statements:

Amendments to HKFRS 9, Interest Rate Benchmark Reform HKAS 39, HKFRS 7, — Phase 2

HKFRS 4 and HKFRS 16

截至二零二一年十二月三十一日止年度 For the year ended 31 December 2021

- 3. 採用新訂及經修訂香港財務 報告準則 (續)
 - (a) 應用新訂及經修訂香港財務報 告準則 (續)

香港財務報告準則第9號、香港 會計準則第39號、香港財務報 告準則第7號、香港財務報告準 則第4號及香港財務報告準則 第16號(修訂本),利率基準改 革-第二階段

該修訂本提供有關下列方面的 針對性豁免:(i)將釐定金融資 產、金融負債及租賃負債的合約 現金流量的基準的變動作為修 訂進行會計處理;及(ii)由於銀行 同業拆息改革(「銀行同業拆息 改革」),當利率基準被替代基準 利率取代時,則終止對沖會計處 理。

該修訂本對該等綜合財務報表 並無影響,因為本集團並無合約 與基準利率掛鈎而受銀行同業 拆息改革的影響。

- 3. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (Continued)
 - (a) Application of new and revised HKFRSs (Continued)

Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16, Interest Rate Benchmark Reform – Phase 2

The amendments provide targeted reliefs from (i) accounting for changes in the basis for determining contractual cash flows of financial assets, financial liabilities and lease liabilities as modifications, and (ii) discontinuing hedge accounting when an interest rate benchmark is replaced by an alternative benchmark rate as a result of the reform of interbank offered rates ("IBOR Reform").

The amendments do not have an impact on these consolidated financial statements as the Group does not have contracts that are indexed to benchmark interest rates which are subject to the IBOR Reform.

3. 採用新訂及經修訂香港財務 報告準則 (續)

(b) 已頒佈但尚未生效之新訂及經 修訂香港財務報告準則

So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements.

截至二零二一年十二月三十一日止年度 For the year ended 31 December 2021

4. 主要會計政策

該等綜合財務報表乃按照歷史成本慣 例編製,惟以下會計政策另有說明則 除外。

編製符合香港財務報告準則的財務報表需要採用若干關鍵會計估計。管理層亦須在採用本集團會計政策的過程中作出判斷。涉及高度判斷或極為複雜的範疇,或對綜合財務報表而言屬重大假設及估計的範疇,乃於附註5披露。

編製該等綜合財務報表時應用的主要 會計政策載列如下。

(a) 綜合賬目

在評估控制權時,本集團會考慮 其潛在投票權以及由其他各方 持有的潛在投票權。僅於持有人 有實際能力行使潛在投票權時 方會考慮該權利。

4. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements have been prepared under the historical cost convention, unless mentioned otherwise in the accounting policies below.

The preparation of financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 5.

The significant accounting policies applied in the preparation of these consolidated financial statements are set out below.

(a) Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties. A potential voting right is considered only if the holder has the practical ability to exercise that right.

截至二零二一年十二月三十一日止年度 For the year ended 31 December 2021

4. 主要會計政策 (續)

(a) 綜合賬目(續)

附屬公司在控制權轉移至本集 團當日起綜合入賬。附屬公司在 控制權終止當日起取消綜合入 賬。

集團內部交易、結餘及未變現溢 利均予以對銷。除非交易證明所 轉讓資產出現減值,未變現虧損 亦予以對銷。附屬公司之會計政 策已在必要時作出變動,以確保 與本集團所採納之政策一致。

4. SIGNIFICANT ACCOUNTING POLICIES

(Continued)

(a) Consolidation (Continued)

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date the control ceases.

The gain or loss on the disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any interest retained in that subsidiary and (ii) the Company's share of the net assets of that subsidiary plus any remaining goodwill relating to that subsidiary. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs).

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

截至二零二一年十二月三十一日止年度 For the year ended 31 December 2021

4. 主要會計政策 (續)

(a) 綜合賬目(續)

非控制性權益指並非本公司直 接或間接應佔附屬公司之權益。 非控制性權益於綜合財務就況 表及綜合權益變動表之權益別內 呈列。非控制性權益於綜合百五 表以及綜合損益及其他全面與 益表呈列為在非控股股東 或司擁有人之間分配溢利或虧 損及年內全面收益總額。

損益及其他全面收益各部分應 歸屬於本公司擁有人及非控股 股東,即使此舉會導致非控制性 權益出現虧絀結餘。

4. SIGNIFICANT ACCOUNTING POLICIES

(Continued)

(a) Consolidation (Continued)

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to the Company. Non-controlling interests are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity. Non-controlling interests are presented in the consolidated statement of profit or loss and consolidated statement of profit or loss and other comprehensive income as an allocation of profit or loss and total comprehensive income for the year between the non-controlling shareholders and owners of the Company.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling shareholders even if this results in the non-controlling interests having a deficit balance.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions (i.e. transactions with owners in their capacity as owners). The carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

截至二零二一年十二月三十一日止年度 For the year ended 31 December 2021

4. 主要會計政策 (續)

(b) 業務合併及商譽

(b) Business combination and goodwill

The acquisition method is used to account for the acquisition of a subsidiary in a business combination. The consideration transferred in a business combination is measured at the acquisition-date fair value of the assets given, equity instruments issued, liabilities incurred and any contingent consideration. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received. Identifiable assets and liabilities of the subsidiary in the acquisition are measured at their acquisition-date fair values.

The excess of the sum of the consideration transferred over the Group's share of the net fair value of the subsidiary's identifiable assets and liabilities is recorded as goodwill. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the sum of the consideration transferred is recognised in consolidated profit or loss as a gain on bargain purchase which is attributed to the Group.

In a business combination achieved in stages, the previously held equity interest in the subsidiary is remeasured at its acquisition-date fair value and the resulting gain or loss is recognised in consolidated profit or loss. The fair value is added to the sum of the consideration transferred in a business combination to calculate the goodwill.

The non-controlling interests in the subsidiary are initially measured at the non-controlling shareholders' proportionate share of the net fair value of the subsidiary's identifiable assets and liabilities at the acquisition date.

(b) Business combination and goodwill (Continued)

After initial recognition, goodwill is measured at cost less accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units ("CGUs") or groups of CGUs that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the Group at which the goodwill is monitored for internal management purposes. Goodwill impairment reviews are undertaken annually, or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGU containing the goodwill is compared to its recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

The Group's accounting policy for goodwill arising on the acquisition of an associate is described below.

(c) Associates

Associates are entities over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of an entity but is not control or joint control over those policies. The existence and effect of potential voting rights that are currently exercisable or convertible, including potential voting rights held by other entities, are considered when assessing whether the Group has significant influence. In assessing whether a potential voting right contributes to significant influence, the holder's intention and financial ability to exercise or convert that right is not considered.

Interest in an associate is accounted for in the consolidated financial statements by the equity method and is initially recognised at cost. Identifiable assets and liabilities of the associate in an acquisition are measured at their fair values at the acquisition date. The excess of the cost of the interest over the Group's share of the net fair value of the associate's identifiable assets and liabilities is recorded as goodwill which is included in the carrying amount of the interest. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition is recognised in consolidated profit or loss.

(c) Associates (Continued)

The Group assesses whether there is an objective evidence that the interest in an associate may be impaired. When any objective evidence exists, the entire carrying amount of the interest (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the interest. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the interest subsequently increases.

The Group's share of an associate's post-acquisition profits or losses and other comprehensive income is recognised in consolidated statement of profit or loss and other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate (which includes any long-term interests that, in substance, form part of the Group's net interest in the associate), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The gain or loss on the disposal of an associate that results in a loss of significant influence represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any interest retained in that associate and (ii) the Group's entire carrying amount of that associate (including goodwill). If an interest in an associate becomes an interest in a joint venture, the Group continues to apply the equity method and does not remeasure the retained interest.

Unrealised profits on transactions between the Group and its associates are eliminated to the extent of the Group's interests in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the entity initially recognises such non-monetary assets or liabilities. Non-monetary items that are measured at fair value in foreign currencies are measured using the exchange rates at the dates when the fair values are measured.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. (f) Leases

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

(i) The Group as a lessee

Where the contract contains lease component(s) and non-lease component(s), the Group has elected not to separate non-lease components and accounts for each lease component and any associated non-lease components as a single lease component for all leases.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets which, for the Group are primarily leasehold land and buildings and motor vehicles. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses.

Refundable rental deposits paid are accounted under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification. The only exceptions are any rent concessions which arose as a direct consequence of the COVID-19 pandemic and which satisfied the conditions set out in paragraph 46B of HKFRS 16. In such cases, the Group took advantage of the practical expedient set out in paragraph 46A of HKFRS 16 and recognised the change in consideration as if it were not a lease modification.

(ii) The Group as a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to the ownership of an underlying assets to the lessee. If this is not the case, the lease is classified as an operating lease.

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

(h) Contract assets and contract liabilities

Contract asset is recognised when the Group recognises revenue before being unconditionally entitled to the consideration under the payment terms set out in the contract. Contract assets are assessed for expected credit losses ("ECL") in accordance with the policy set out in note 4(u) and are reclassified to receivables when the right to the consideration has become unconditional.

A contract liability is recognised when the customer pays consideration before the Group recognises the related revenue. A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

When the contract includes a significant financing component, the contract balance includes interest accrued under the effective interest method.

(i) Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when the Group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flows. The fair value of financial guarantees is determined based on the present value of the difference in cash flows between the contractual payments required under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

Where guarantees in relation to borrowings or other payables of associates are provided for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of the interest.

Revenue from sales of electricity from operation of wind power field is recognised upon the satisfaction of its sole performance obligation with its customers (when the electricity has been transmitted to the customer). The amount recognised is based on the observable price of the goods in the contracts since there is no significant financing component and there is no variable consideration.

Revenue from technical service income from new energy development operation is recognised upon the satisfaction of its sole performance obligation with its customers (when the notice of approval for power plant construction project from the National Development and Reform Commission is issued to the customer). The amount recognised is based on the observable price of the goods in the contracts since there is no significant financing component and there is no variable consideration.

Interest income is recognised as it accrues using the effective interest method. For financial assets measured at amortised cost that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit impaired financial assets, the effective interest rate is applied to the amortised cost (i.e. gross carrying amount net of ECL allowance) of the asset.

(s) Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

(s) Taxation (Continued)

Deferred tax liabilities are recognised for taxable temporary differences arising on interests in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 requirements to right-of-use assets and lease liabilities separately. Temporary differences relating to right-of-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

(t) Impairment of non-financial assets

The carrying amounts of non-financial assets are reviewed at each reporting date for indications of impairment and where an asset is impaired, it is written down as an expense through the consolidated statement of profit or loss to its estimated recoverable amount. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. If this is the case, recoverable amount is determined for the CGU to which the asset belongs. Recoverable amount is the higher of value in use and the fair value less costs of disposal of the individual asset or the CGU.

Value in use is the present value of the estimated future cash flows of the asset or CGU. Present values are computed using pre-tax discount rates that reflect the time value of money and the risks specific to the asset or CGU whose impairment is being measured.

Impairment losses for CGUs are allocated first against the goodwill of the unit and then pro rata amongst the other assets of the CGU. Subsequent increases in the recoverable amount caused by changes in estimates are credited to profit or loss to the extent that they reverse the impairment.

(u) Impairment of financial assets and contracts assets

The Group recognises a loss allowance for ECL on trade and other receivables, contract assets and amounts due from associates, bank balances and financial guarantee contracts. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables, contract assets and amounts due from associates in trade nature. The ECL on these assets are assessed individually.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date. The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

違約的定義

本集團認為以下情況就內部信 貸風險管理目的而言構成違約 事件,因為過往經驗表明符合以 下任何一項條件的應收款項一 般無法收回。

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable.

- 一 對手方違反財務契諾時;或
- when there is a breach of financial covenants by the counterparty; or
- 如內部建立或自外部取得的資料顯示,債務人不大可能支付全額款項予債權人(包括本集團)(並未考慮本集團所持有的任何抵押品)。
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

倘不考慮上述分析,本集團認為,倘金融資產逾期超過90天,則違約已發生,除非本集團擁有合理及可靠資料顯示一項更滯後的違約標準較合適則常別論。

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, including when the debtor has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Group's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

預期信貸虧損之計量及確認 (續)

金融資產的預期信貸虧損通常 為根據合約應付本集團的所有 合約現金流量與本集團預計收 取的所有現金流量(按原實際利 率折現)之間的差額估計。就租 賃應收款而言,用於釐定預期信 貸虧損的現金流量與根據量租 財務報告準則第16號計量租賃 應收款時使用的現金流量一致。

倘本集團於上個報告期間以相 等於全期預期信貸虧損的金額 計量一項金融工具的虧損撥備, 但於本報告日期釐定該全期預 期信貸虧損的條件不再符合,則 本集團於本報告日期按相等於 12個月預期信貸虧損的金額計 量虧損撥備,惟採用簡化方法之 資產除外。

本集團於損益中確認所有金融 工具的減值收益或虧損,並透過 虧損撥備賬相應調整其賬面值。

4. SIGNIFICANT ACCOUNTING POLICIES

(Continued)

(u) Impairment of financial assets and contracts assets (Continued)

Measurement and recognition of ECL (Continued)

For financial assets, the ECL are estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. For a lease receivable, the cash flows used for determining the ECL are consistent with the cash flows used in measuring the lease receivable in accordance with HKFRS 16.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

(v) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

(w) Events after the reporting period

Events after the reporting period that provide additional information about the Group's position at the end of the reporting period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the consolidated financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

5. CRITICAL JUDGEMENT AND KEY ESTIMATES (Continued)

Impairment of trade receivables and amounts due from associates which are in non-trade nature

The management of the Group estimates the amount of ECL of trade receivables and amounts due from associates which are in non-trade nature based on individual assessment, after considering internal credit ratings of debtors, forward-looking information, recent trade relationships, financial background and creditability of individual debtor, historical settlement records such as default or delay in payments and aging analysis of such balances and general economic conditions of the industry in which the debtors operate. The estimated loss rate applied is based on the internal credit rating assessed individually taking into consideration of historical loss rates and forward-looking information that is reasonable, supportable, and available to the directors of the Company without undue costs or effort. At every reporting date, the loss rates are reassessed and changes in the forward-looking information are considered.

The provision of ECL is sensitive to changes in estimates. The information about the Group's trade receivables and amounts due from associates which are in non-trade nature and the impairment assessment of such balances are disclosed in note 6(b).

As at 31 December 2021, the carrying amounts of trade receivables (including bills receivables in trade nature) and amounts due from associates which are in non-trade nature are HK\$38,259,000 (2020: HK\$1,027,000) and HK\$4,485,000 (2020: HK\$4,450,000) net of allowance for ECL of HK\$460,115,000 (2020: HK\$498,681,000) and HK\$176,000 (2020: HK\$170,000) respectively.

(b) 信貸風險

信貸風險指本集團對手方違反彼等合約義務而導致本集團產生財務虧損的風險。本集團面臨的信貸風險主要來自貿易及其他應收款、合約資產、銀行結餘、應收聯營公司款及財務擔保合約。

6. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: foreign currency risk, credit risk, liquidity risk and interest rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) Foreign currency risk

The Group has minimal exposure to foreign currency risk as most of its business transactions, assets and liabilities are principally denominated in the functional currencies of the Group entities, i.e. RMB. The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group monitors its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise. The foreign currency risk is not significant to the Group.

(b) Credit risk

Credit risk refers to the risk that the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. The Group's credit risk exposures are primarily attributable to trade and other receivables, contract assets, bank balances, amounts due from associates and financial guarantee contracts.

As at 31 December 2021 and 2020, the carrying amounts of financial assets as stated in the consolidated statement of financial position represent the maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties. The Group does not hold any collateral or other credit enhancement to cover its credit risks associated with its financial assets.

Trade balances arising from contracts with customers and amounts due from associates in trade nature

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits and credit approvals. Before accepting any new customer, the Group assesses the potential customer's credit quality, assigns an internal credit rating and defines credit limits by customer. Limits and credit rating attributed to customers are reviewed on a periodic basis. Other monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced. In addition, the Group performs impairment assessment under ECL model on trade balances based on individual assessment.

The Group applies the simplified approach to provide for ECL prescribed by HKFRS 9, which permits the use of the lifetime expected loss provision for trade balances arising from contracts with customers and amounts due from associates in trade nature.

Trade balances arising from contracts with customers and amounts due from associates in trade nature

(Continued)

Management assessed the ECL on trade balances arising from contracts with customers and amounts due from associates in trade nature individually by estimation with the internal credit rating applied to each debtor (based on recent trade relationships, financial background and creditability of individual trade debtors, historical settlement records such as default or delay in payments, aging analysis of such balances and general economic conditions of industry in which the debtors operate), subsequent settlements (for credit-impaired balances) and adjusted for the forward looking information available without undue costs or effort, including the expected market competition in the future.

The management considered a trade balance is credit-impaired when there is event of default occurred. The management made assessment on trade debtor individually if there is event of default such as significant litigation proceedings the debtor involved due to breach of contracts and significant financial difficulty that the debtor will probably enter liquidation.

However, in certain circumstances, the trade debtors more than 90 days past due is not considered as in default if there is recent repayment record for those customers and continuous business with the Group.

Trade balances arising from contracts with customers and amounts due from associates in trade nature (Continued)

As a result of the changing in market environment during the prior year, the result of the operation had not improved and the collection of trade balances was below expectation, a significant credit loss was recognised. The management had considered the financial position of the counterparty individually and taken into consideration the change of market environment to determine the impairment allowance. During the year ended 31 December 2021, the management assessed the exposure at default for credit-impaired trade balances arising from contracts with customers including trade receivables and contract assets by considering the future cash flows that the Group expects to recover and provided HK\$Nil (2020: HK\$1,121,801,000) impairment allowance on such balances.

During the year ended 31 December 2021, the management assessed the exposure at default for credit-impaired amounts due from associates in trade nature and provided HK\$NiI (2020: HK\$2,250,000) impairment allowance on such balances.

For the amounts due from associates which are non-trade nature of HK\$4,661,000 (2020: HK\$4,450,000) as at 31 December 2021, the management of the Group believes that, save as an impairment allowance of HK\$Nil (2020: HK\$170,000) recognised during the year ended 31 December 2021 for a balance which has significant increase in credit risk since initial recognition, there are no significant increase in credit risk since initial recognition and the Group provided impairment based on 12-month ECL. During the years ended 31 December 2021 and 2020, the Group assessed the ECL for these unsecured balances of amounts due from associates were insignificant and thus no loss allowance was recognised.

Other receivables

For other receivables, the management of the Group has taken into account the historical default experience and forward-looking information, as appropriate, for example, the Group has considered the consistently low historical loss rate in connection with payments, and concluded that credit risk inherent in the Group's outstanding other receivables is insignificant. The directors of the Company believe that there is no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12-month ECL. For the years ended 31 December 2021 and 2020, the Group assessed the ECL for other receivables were insignificant and thus no loss allowance was recognised.

Bank balances

The management of the Group considers the bank balances that are deposited with the financial institutions with high credit rating to be low credit risk financial assets. The management of the Group considers the bank balances are short-term in nature and the probability of default is negligible on the basis of high-credit-rating issuers, and accordingly, loss allowance was considered as insignificant.

財務擔保合約

就財務擔保合約而言,本集團 於二零二一年十二月三十一 日根據擔保合約所擔保的最 高金額為零港元(二零二零 年:889.341.000港元)或人民 幣零元(二零二零年:人民幣 748.505.000元)。於二零二零年 十二月三十一日,本公司董事 已進行減值評估,並得出結論, 自財務擔保合約初始確認以來 信貸風險大幅增加。因此,本集 團批出的財務擔保合約的虧損 撥備按相等於全期預期信貸虧 損(未出現信貸減值)的金額計 量。然而,由於本集團的財務擔 保合約負債乃通過臨近二零二 零年十二月三十一日附屬公司 取消綜合入賬(詳見附註42(b)) 而產生,故並無於截至二零二零 年十二月三十一日止年度的綜 合財務報表中確認減值撥備。財 務擔保合約及定量披露資料載 於附註36及本附註。

Financial quarantee contracts

For financial guarantee contracts, the maximum amount that the Group had guaranteed under the guarantee contracts was HK\$Nil (2020: HK\$889,341,000) or RMBNil (2020: RMB748,505,000) as at 31 December 2021. As at 31 December 2020, the directors of the Company performed impairment assessment, and concluded that there has been significant increase in credit risk since initial recognition of the financial guarantee contracts. Accordingly, the loss allowance for financial guarantee contracts issued by the Group was measured at an amount equal to lifetime ECL (not credit-impaired). However, no impairment allowance was recognised in the consolidated financial statements for the year ended 31 December 2020 as the financial guarantee contract liabilities of the Group were arisen from deconsolidation of subsidiaries as detailed in note 42(b) near 31 December 2020. Details of the financial guarantee contracts and quantitative disclosures are set out in note 36 and this note.

6. FINANCIAL RISK MANAGEMENT (Continued)

(c) Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of banking facilities and ensures compliance with loan covenants.

The amount of net current liabilities of the Group is HK\$2,061,167,000 as at 31 December 2021, which causes the Group in significant liquidity risk. At the end of the reporting period, the Group has taken appropriate measures as set out in note 2 to mitigate such liquidity risk.

The following table details the Group's remaining contractual maturity for its financial liabilities based on the agreed repayment terms. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curve at the end of the reporting period.

(d) Interest rate risk

The Group is exposed to cash flow interest rate risk in relation to variable-rate bank balances for 2021 and 2020 as detailed in note 32. The management continuously monitors interest rate fluctuation and will consider further hedging interest rate risk should the need arise.

The Group is also exposed to fair value interest rate risk in relation to lease liabilities as detailed in note 37. The management monitors interest rate exposure closely.

The Group's exposures to interest rates on financial liabilities are detailed in the above liquidity risk section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of PRC Loan Prime Rate and the People's Bank of China Benchmark Interest Rate.

As at 31 December 2021 and 2020, the Group had no significant interest-bearing assets or liabilities. The management considers that the Group's exposure to market risk for changes in interest rates is insignificant.

7. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

Level I inputs: quoted prices (unadjusted) in active markets for

identical assets or liabilities that the Group can access

at the measurement date.

Level 2 inputs: inputs other than guoted prices included within Level

I that are observable for the asset or liability, either

directly or indirectly.

Level 3 inputs: unobservable inputs for the asset or liability.

The Group's policy is to recognise transfers into and transfers out of any of the three levels as of the date of the event or change in circumstances that caused the transfer.
