## MANAGEMENT DISCUSSION AND ANALYSIS BUSINESS REVIEW

The Group's principal place of business is in Jingzhou, Hubei Province, the PRC. During the Period, the Group was involved in the sales of CNG in the PRC.

### Sales of CNG

The Group mainly supplies CNG and derives revenue mainly from the distribution of CNG to both (i) retail customers which are mostly vehicular end-users; and (ii) wholesale customers which are urban gas companies, gas refuelling station operators and industrial users. The principal product offering is CNG and the Group purchases natural gas from PetroChina Company Limited.

## FINANCIAL REVIEW

### Revenue

Revenue amounted to approximately RMB11.1 million for the three months ended 31 March 2022, decreased by approximately RMB3.0 million or 21.3% when compared with approximately RMB14.1 million for the corresponding period of 2021. The decrease was primarily due to the decrease in sales of CNG to both wholesale customers and retail customers, with reasons stated below.

The revenue from sales of CNG to wholesale customers decreased by approximately RMB2.5 million or 27.5% from approximately RMB9.1 million for the three months ended 31 March 2021 to approximately RMB6.6 million for the three months ended 31 March 2022, primarily due to the decrease in sales volume of CNG as a result of the ongoing impact of coronavirus pandemic (the "COVID-19") which affect the Group's business, in particular decrease in demand and reduction in travelling and passenger journeys, resulting from the on-going anti-pandemic measures. In addition, the revenue from sales of CNG to retail customers also decreased by approximately RMB0.5 million or 10.0% from approximately RMB5.0 million for the three months ended 31 March 2021 to approximately RMB4.5 million for the three months ended 31 March 2022. This is primarily due to the closure of certain main roads near one of the Group's gas refuelling stations at Shihao Road (十號路), Jingzhou, Hubei Province (which was demolished in the third quarter of 2021), according to the unified planning requirements of the Shacheng District Government, which resulted in the decrease in sales volume of CNG.

### Cost of sales

Cost of sales amounted to approximately RMB10.6 million for the three months ended 31 March 2022, representing a decrease of approximately RMB4.5 million or 29.8% as compared to approximately RMB15.1 million for the three months ended 31 March 2021, which was primarily due to the decrease in cost of inventories sold by approximately RMB3.4 million or 28.6% from approximately RMB11.9 million for the three months ended 31 March 2021 to approximately RMB8.5 million for the three months ended 31 March 2022, as a result of the significant decrease in the sales volume of CNG.

## FINANCIAL REVIEW (cont'd)

### Gross profit/(loss)

Gross profit for the three months ended 31 March 2022 amounted to approximately RMB0.5 million, compared to a gross loss of approximately RMB1.0 million for the corresponding period of 2021. Gross loss for the three months ended 31 March 2021 was resulted mainly due to (i) the impact of high procurement cost of the natural gas which cannot be fully passed on to our customers in a timely manner due to the pricing guidelines imposed by Hubei Price Bureau and Jingzhou Price Bureau; and (ii) certain fixed costs of the Group such as depreciation of property, plant and equipment and right-of-use asset, and gas refuelling stations rental expenses.

### Selling and distribution expenses

Selling and distribution expenses, which mainly represent staff costs and other office expenses incurred in our operation department, decreased by approximately RMB66,000 or 36.1%, from approximately RMB183,000 for the three months ended 31 March 2021 to approximately RMB117,000 for the three months ended 31 March 2022, mainly due to the decrease in staff costs.

### Administrative expenses

Administrative expenses, which mainly represent employee benefit expenses and legal and professional fees, increased by approximately RMB0.6 million or 31.6% from approximately RMB1.9 million for the three months ended 31 March 2021 to approximately RMB2.5 million for the three months ended 31 March 2022. The increase was mainly attributable to increase in legal and professional fees from approximately RMB0.7 million for the three months ended 31 March 2021 to approximately RMB1.2 million for the three months ended 31 March 2022, as a result of the increase in general cost of compliance in order to cope with the latest regulatory requirements.

### Finance costs

Finance costs mainly represent interest on lease liabilities, interest on bank loans and amortised cost on the convertible bonds.

### Taxation

Income tax expense amounted to approximately RMB104,000 for the three months ended 31 March 2021. The income tax expense represents deferred tax due to the temporary differences arising from the impairment allowance on the trade receivables, accelerated accounting depreciation and lease liabilities.

### Loss for the period

Loss attributable to the owners of the Company for the three months ended 31 March 2022 was approximately RMB2.1 million, decreased by RMB1.0 million or 32.3% as compared to approximately RMB3.1 million for the same period last year. The decrease was mainly attributable to the gross profit was recorded for the three months ended 31 March 2022.

## PROSPECTS

The global economy has been significantly affected by the COVID-19 since 2020. Mainland China is still being impacted by the COVID-19 with the ware of new cases of COVID-19 sparked largely by the Omicron variant. Unless the spread of the COVID-19 has been halted, the pace of global economic recovery is unlikely to be expeditious. Accordingly, the Group's revenue and profitability for the Year had still been affected by COVID-19, and the Directors expect the forthcoming business environment would remain challenging.

The Board pays great attention to the development of the outbreak of the COVID-19 and makes every effort on prevention and control, and daily operation management. The Group has adjusted its business strategies to mitigate the impact of COVID-19 on the Group's business operations by taking various proactive measures, including but not limited to (i) streamlining workflows and eliminating non-value added positions or activities; (ii) offering more promotion to attract customers; and (iii) actively managing its working capital to ensure that it remains in a healthy liquidity position.

The Group will continue to actively explore new business opportunities in the PRC and other locations in order to diversify the income source of the Group. The Directors believe that the recovery of economy will be supported in the near future by strong national policies and fiscal programmes. Besides, the PRC government has announced a number of policies and initiatives for newer and cleaner energy sources, including 13th Five-Year Plan for Natural Gas Development (天然氣發展「十三五」規劃) and Opinions on Accelerating the Use of Natural Gas (加快推進天然氣利用的意見). The Group expects that these policies would stimulate the natural gas industry and would foster development of other related products. The Group will endeavour to seize the growth potential resulting from such policies and industry trends.

The Group is principally engaged in the sales of compressed natural gas in the PRC. Whilst remaining focused on developing its existing principal businesses, the Group has been exploring electric power source as a cleaner alternative fuel, in addition to compressed natural gas and liquefied natural gas, which is in line with the government's initiatives for newer and cleaner energy sources. The Directors are of the view that the potential opportunity in the construction and operation of electric vehicle charging business will enable the Group to catch up with the development trend of new energy vehicles and seize the growth potential in the new energy vehicles sector resulting from the government's initiatives.

The Board will continue to assess the impact of the COVID-19 on the Group's operation and financial performance and will closely monitor the Group's exposure to the risks and uncertainties in connection with the outbreak of the COVID-19. The Group will take appropriate measures as necessary to minimise the risks exposed and will act prudently in considering any new investment opportunities, and will in the meantime also pursue other means of enhancing shareholder value.

## **DIVIDENDS**

The Board does not recommend the payment of any dividend for the three months ended 31 March 2022 (three months ended 31 March 2021: Nil).

## **FOREIGN CURRENCY RISK**

The Group carries out its business in China and most of its transactions are denominated in RMB. The Group did not experience any material impact or difficulties in liquidity on its operations resulting from the fluctuation in exchange rate, and no hedging transaction or forward contract arrangement was made by the Group during the three months ended 31 March 2022.

## **INTEREST RATE RISK**

The Group has no significant interest rate risk. The Group currently does not have any specific policies in place to manage interest rate risk and has not entered into any interest rate swap transactions to mitigate interest rate risk but will closely monitor related risk in the future.

## **SIGNIFICANT INVESTMENTS, MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES, AND FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS**

There were no significant investments held by the Company, nor were there any material acquisitions and disposals of subsidiaries, associates and joint ventures during the Period.

There is no other plan authorised by the Board for other material investments or additions of capital assets as at the date of this report.

## **EMPLOYEES AND REMUNERATION POLICIES**

As at 31 March 2022, our Group had a total of 60 employees (31 December 2021: 67 employees). Staff costs, including Directors' remuneration and equity-settled share option expense, of the Group were approximately RMB1.1 million for the three months ended 31 March 2022 (three months ended 31 March 2021: approximately RMB1.3 million). Remuneration is determined with reference to factors such as comparable market salaries, work performance, time commitment and responsibilities of each individual. **SHARE OPTION SCHEME (cont'd)****Notes:**

1. The share options are subject to the vesting period as follows:
  - (a) 30% of the share options will be vested on, and exercisable from, the date of grant to the expiry of the option period (both days inclusive);
  - (b) a further 30% of the share options will be vested on, and exercisable from, the first anniversary of the date of grant to the expiry of the option period (both days inclusive); and
  - (c) the remaining 40% of the share options will be vested on, and exercisable from, the second anniversary of the date of grant to the expiry of the option period (both days inclusive).
2. The share options are exercisable for a period of five years from the date of grant and the fair values of the share options were calculated using the Binomial Option Pricing Model. The inputs to the model were as follows:

	Share options granted on 23 June 2020	Share options granted on 21 January 2020
Share price at the date of grant (before the Share Consolidation)	HK\$0.130	HK\$0.166
Exercise price per share (before the Share Consolidation) (note 5)	HK\$0.130	HK\$0.166
Expected volatility (%)	42.55	42.33
Risk-free interest rate (%)	0.31	1.62

The expected volatility reflected the assumption that the historical volatility was indicative of future trends, which may not necessarily be the actual outcome.

3. The fair value of the share options granted was estimated at RMB4,655,000 using the Binomial Option Pricing Model, of which the Group recognised share option expenses of RMB167,000 (for the three months ended 31 March 2021: RMB359,000) during the Period. The fair value of an option varies with different variables of certain subjective assumptions. Any change to the variables used may materially affect the estimation of the fair value of an option.
4. Share options which are cancelled/lapsed/forfeited prior to their exercise date will be removed from the Company's register of outstanding share options. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in the share option reserve will be transferred to retained profits/accumulated losses as a movement in reserves.
5. Due to the Share Consolidation, adjustments were made to the number of outstanding share options and the exercise price with effective from 20 July 2021. The exercise price of the share options granted on 21 January 2020 was adjusted from HK\$0.166 to HK\$0.664 and the exercise price of the share options granted on 23 June 2020 was adjusted from HK\$0.130 to HK\$0.520.
