FINANCIAL HIGHLIGHTS

The Group recorded revenue and gross profit of approximately HK\$6,275,000 and HK\$650,000 for the three months ended 31 March 2022, representing a significant decrease of approximately 56.2% and 86.1% respectively compared with revenue and gross profit of approximately HK\$14,320,000 and HK\$4,681,000, respectively, for the three months ended 31 March 2021. Such significant decrease in revenue could be mainly attributed to the outbreak of the highly transmissible Omicron variant of COVID-19 in the People's Republic of China ("**PRC**") resulting in the significant decrease in purchase orders received from some of the Group's major customers in Eastern and Northern China during the first quarter of 2022 when compared with 2021. During the first quarter of 2022, the implementation of various aggressive and preventive control measures for COVID-19 by the government of the PRC has resulted in a temporary suspension of the business operations of some of the Group's major customers and thus a significant drop in the purchase orders received from such customers. Decrease in gross profit margin (from 32.7% to 10.4%) for the three months ended 31 March 2022 was mainly attributable to the significant drop in revenue while incurring relatively stable amount of research and development expenses and other overhead costs during the period ended 31 March 2022.

As a result of the foregoing, the Group recorded a net loss of HK\$4,475,000 for the three months ended 31 March 2022 when compared with a net profit after tax of HK\$920,000 for the three months ended 31 March 2021.

The board of Directors ("**Board**") does not recommend the payment of a dividend for the three months ended 31 March 2022 (three months ended 31 March 2021: Nil).

The statutory reserve can be utilised, upon approval of the relevant authorities, to offset accumulated losses or to increase registered capital of these companies, provided that such fund is maintained at a minimum of 25% of the registered capital. The statutory reserve is not distributable as cash dividends and must be made before distribution of dividend to equity owners.

(b) Exchange reserve

Exchange differences relating to the translation of the results and net assets of the Group's foreign operations from their functional currencies to the Group's presentation currency (i.e. Hong Kong dollars) are recognised directly in other comprehensive income and accumulated in the exchange reserve. MANAGEMENT DISCUSSION AND ANALYSIS

The Board is pleased to present the unaudited condensed consolidated financial information of the Group for the three months ended 31 March 2022, together with the comparative figures for the corresponding period in 2021.

Business Review and Outlook

The Group is a functional knitted fabrics provider in the PRC. Our products are primarily sold directly to (i) lingerie and apparel brand owners; (ii) sourcing agents; and (iii) garment manufacturers. We design functional knitted fabrics through our product innovation capabilities, source our raw materials comprising primarily synthetic fibres and yarns and engage third party factories to carry out production processes comprising yarn spinning, knitting and dyeing for our direct sales of functional knitted fabrics to our customers. With a view to diversifying our source of revenue and creating cross-selling opportunity, we also engage in the sales of apparel made of our functional knitted fabrics for our customers which are lingerie and apparel brand owners.

During the three months ended 31 March 2022, the Group's business were adversely affected by the outbreak of the highly transmissible Omicron variant of COVID-19 since late February in 2022 causing significant economic uncertainty in mainland China and the Group's customers became more conservative to make purchase order from the Group when compared with the corresponding period in 2021. The implementation of various aggressive preventive control measures by the government of the PRC has resulted in a temporary suspension of business operations of some of the Group's major customers in Eastern and Northern China and thus a significant drop in purchase orders received from these customers. The Group's revenue therefore decreased significantly by approximately 56.2% when compared with the corresponding period in 2021. The management of the Company has been monitoring closely the pandemic development and will respond to the momentum of market recovery once the pandemic situation is improved.

Amid the challenging market and business environment under the impacts of Omicron variant of COVID-19 outbreak in mainland China, the Group will continue to devote resources towards the research and development of functional knitted fabrics as well as the dyeing methodology. The Group is also focusing on the following business strategies: (i) to strengthen the Group's market position in the PRC by improving its product offering; and (ii) to strengthen the Group's marketing efforts.

Financial Review

Revenue

The following table sets forth an analysis of our revenue by products during the three months ended 31 March 2022 and 2021.

	Three months ended	
	31 March	
	2022	2021
	HK\$'000	HK\$'000
Sales of functional knitted fabrics	2,738	12,591
Sales of apparel	2,511	1,729
Sales of yarns	1,026	–
	6,275	14,320

The Group's revenue decreased by approximately HK\$8,045,000 or 56.2%, from approximately HK\$14,320,000 for the three months ended 31 March 2021 to approximately HK\$6,275,000 for the three months ended 31 March 2022. The decrease was mainly due to the significant decrease in revenue from the sales of functional knitted fabrics as a result of the decrease in sales orders from some of major customers when compared with the corresponding period in 2021, which could be mainly attributed to the reason that the business operations of the Group's major customers were temporarily suspended due to the outbreak of Omicron variant of COVID-19.

Gross profit and gross profit margin

The Group's gross profit decreased by approximately HK\$4,031,000 or 86.1%, from approximately HK\$4,681,000 for the three months ended 31 March 2021 to approximately HK\$650,000 for the three months ended 31 March 2022 which was mainly caused by the decrease in sales orders. The gross profit margin decreased by approximately 22.3 percent points from approximately 32.7% for the three months ended 31 March 2021 to approximately 10.4% for the three months ended 31 March 2022. The decrease in gross profit margin was mainly due to relatively stable incurrence of the research and development expenses and other overhead costs notwithstanding a decrease in revenue during the three months ended 31 March 2022 compared with the corresponding period in 2021.

Selling and distribution expenses

The Group's selling and distribution expenses increased by approximately HK\$225,000, or 35.0%, from approximately HK\$642,000 for the three months ended 31 March 2021 to approximately HK\$867,000 for the three months ended 31 March 2022 which was mainly due to the increase of marketing consultancy fee for marketing and brand image building strategies of about HK\$235,000; increase in staff cost due to more headcounts for sales staff of around HK\$110,000; partially offset by decrease in travelling expenses of about HK\$71,000 due to lesser travelling under pandemic situation compared with the three months ended 31 March 2021.

Administrative and other expenses

The Group's administrative and other expenses increased by approximately HK\$1,182,000, or 36.8%, from approximately HK\$3,212,000 for the three months ended 31 March 2021 to approximately HK\$4,394,000 for the three months ended 31 March 2022. The increase during the first quarter of 2022 when compared with 2021 was mainly caused by (a) an increase in depreciation of plant and equipment of approximately HK\$476,000; (b) an increase in legal and professional expenses of approximately HK\$116,000 due to consultancy for IT network system improvement and registration of patents; and (c) an increase in staff welfare expenses of approximately HK\$290,000 as a result of change in policy of local government regarding rental charges for government subsidised staff quarters, which the rental was retrospectively charged to the Group's staff since outbreak of COVID-19 in early 2020.

Income tax expenses

For the three months ended 31 March 2022 and 2021, the income tax expenses were nil and approximately HK\$168,000, respectively, and the effective tax rate for the same period was approximately 0% and 15.4%, respectively. The income tax expenses were nil for the three months ended 31 March 2022 since there was no assessable profit recorded.

Loss/profit for the period attributable to owners of the Company

As a result of the foregoing, the loss attributable to the owners of the Company was approximately HK\$4,475,000 for the three months ended 31 March 2022 compared with the profit of approximately HK\$920,000 for the three months ended 31 March 2021.
