Chairman's Statement

Dear Shareholders,

On behalf of the board of directors (the "**Board**") of Sang Hing Holdings (International) Limited (the "**Company**"), I am honored to present our annual report of the Company and its subsidiaries (collectively the "**Group**") for the year ended 31 March 2022.

The core business of our Group is in Hong Kong and mainly in civil construction work for over 20 years. The Group is included in the list of Approved Contractors under the works Branch with Group C status (unlimited value) in the public works categories of Roads and Drainage works, and also site formation works.

For the year ended 31 March 2022, the Group's revenue was approximately HK\$427.0 million (2021: HK\$390.2 million), representing an increase of 9.4% compared to last year. The profit attributable to shareholders for the year ended 31 March 2022 was approximately HK\$12.0 million, while the profit for the year ended 31 March 2021 was approximately HK\$26.4 million, representing a decrease of 54.7%, which was mainly due to (i) the decrease in gross profit margin resulting from the increase in raw material costs and subcontracting costs; (ii) the decrease in wage subsidies provided by the Government of the Hong Kong Special Administrative Region ("**Government**") pursuant to the Employment Support Scheme under the Anti-epidemic Fund; and (iii) the decrease in a net gain on disposal of financial assets at fair value through profit or loss.

Chairman's Statement

Throughout the year ended 31 March 2022, there was no incidence of non-compliance with the relevant laws and regulations that have a significant impact on the Group. Meanwhile, in February 2021, the Group gained an upgraded ISO certificate of ISO 45001:2018 under Occupational Health and Safety (OHS) management system. Surly, the Group will strictly comply with all applicable laws and regulations released by the relevant authorities which are material with us continually.

In May 2022, the Group was awarded a tender recently for a civil engineering project in relation to temporary construction waste sorting facilities in Tseung Kwan O and Tuen Mun, Hong Kong, with a contract sum of approximately HK\$233.0 million which the contract period is from 8 May 2022 to 7 May 2025.

The Group will take part in tenders for projects from various government departments more rigorously, especially those from the Civil Engineering and Development Department and Drainage Services Department, in order to secure more revenue from engineering projects. We expect that there will be a large number of infrastructure projects introduced by the Government in the northeastern part of New Territories, Hong Kong, especially works within the scope of site formation, roads and drainage. As a result, the Group will proactively participate in tenders to strive for successful bids.

Looking forward to next year, we expect that the Russia-Ukraine war will continue, the global financial and energy markets will remain volatile and the prices of energy and raw materials will remain high. Geopolitical uncertainties may result in the disruption of the raw material supply chain, which in turn leads to a shortage of supply. Despite the less adverse effects suffered by the Group's business over other industries, we expect that our operating cost will keep high and the price will continue to increase in the coming year. The Group will take all reasonable measures to save energy and enhance the efficiency of resource utilisation so as to control costs.

The Group will capitalise on its competitive advantages after listing to secure more projects, and to actively participate in bidding for works of the Government to achieve increased revenue. In addition, we will continue submitting tenders for civil engineering works in order to replenish the revenue from the substantial completed or completed projects. In the meantime, the Group will also explore various chances in the construction industry to create greater value for shareholders.

On behalf of the Board, I would like to take this opportunity to thank our shareholders, customers and business partners for their full trust and support in the past year, as well as staff for their efforts and contributions. I hope we can join hands and create a better future together.

Lai Wai
Chairman

Hong Kong, 28 June 2022

Management Discussion and Analysis

BUSINESS REVIEW AND FINANCIAL RESULTS

The Group is an established main contractor with over 20 years of experience specialising in a variety of civil engineering works, including site formation, road and bridge construction, drainage and sewerage construction, watermain installation and slope works in Hong Kong. We are a Group C contractor under the Site Formation and Roads and Drainage categories with confirmed status and are qualified to tender for public works contracts of any values exceeding HK\$400 million.

For the year ended 31 March 2022, the Group's revenue was approximately HK\$427.0 million (2021: HK\$390.2 million), representing an increase of 9.4% as compared with last year. The profit attributable to shareholders for the year ended 31 March 2022 was approximately HK\$12.0 million while the profit for the year ended 31 March 2021 was approximately HK\$26.4 million, representing a decrease of 54.7%, which was mainly due to (i) the decrease in gross profit margin resulting from the increase in raw material costs and subcontracting costs; (ii) the decrease in wage subsidies provided by the Government pursuant to the Employment Support Scheme under the Anti-epidemic Fund; and (iii) the decrease in a net gain on disposal of financial assets at fair value through profit or loss.

Analysis of revenue of each project during the year ended 31 March 2022 was as follows:

Project Code	Type of works	Location	2022 HK\$'000	2021 HK\$'000
On-going projects				
W55	Development of columbarium and infrastructural works	North District	82,877	91,185
W56	Land decontamination and advance engineering works	North District	55,920	127,363
W57	Development of Long Valley Nature Park	North District	82,241	99,138
W58	Construction of sewers and sewerage system	Northern Tuen Mun	32,881	3,865
W59	Site formation and infrastructure works for public housing developments	Kam Tin South, Yuen Long	44,086	-
Projects completed or substantially completed				
W46	Construction of sewage pumping station and associated sewerage	Tuen Mun District	-	856
W49	Construction of sewers and sewerage system	Tuen Mun District	55,590	10,307
W52	Remaining works of cycle tracks	North District and Tuen Mun District	73,365	57,273
W54	Temporary construction waste sorting facilities	Sai Kung District and Tuen Mun District	-	242
Total revenue			426,960	390,229

During the year ended 31 March 2022, we recognised revenue from 7 projects in total, of which two projects were substantially completed. In June 2021, we were awarded a new site formation and infrastructure works for public housing developments project, Project W59, by Civil Engineering and Development Department. The revenue for the year ended 31 March 2022 was increased as compared with last year due to an increase in revenue from the final payment of Project W49 and W52, in which work progress of Project W49 and W52 was substantially completed during the year.

Management Discussion and Analysis

The gross profit margin for the year ended 31 March 2022 was 7.5% (2021: 10.1%). Decrease in gross profit margin as compared with last year was due to the increase in raw material costs and subcontracting costs.

Other income and net gain for the year ended 31 March 2022 amounted to approximately HK\$0.7 million (2021: HK\$18.4 million), representing a decrease of 96.4% as compared with last year, which was due to the decrease in wage subsidies provided by the Government pursuant to the Employment Support Scheme under the Anti-epidemic Fund by approximately HK\$10.7 million and the decrease in a net gain on disposal of financial assets at fair value through profit or loss by approximately HK\$5.6 million.

Administrative and operating expenses for the year ended 31 March 2022 amounted to approximately HK\$19.5 million (2021: HK\$24.0 million), representing a decrease of 19.0% as compared with last year, which was mainly due to a decrease in consultancy fees and staff costs.

As at 31 March 2022, prepayments, deposits and other receivables mainly represented amounts paid for insurance and subcontracting fee prepayments, deposits for material purchases, deposits for rental and utilities, deposits for the acquisition of plant and machinery and other receivables. During the year, prepayments, deposits and other receivables decreased by approximately HK\$45.3 million which was mainly due to decrease in subcontracting fee prepayments.

Management Discussion and Analysis

OUTLOOK

Looking ahead, the Group will take part in tenders for projects from various government departments more rigorously, especially those from the Civil Engineering and Development Department and Drainage Services Department, in order to secure more revenue from engineering projects. We expect that there will be a large number of infrastructure projects introduced by the Government in the northeastern part of New Territories, Hong Kong, especially works within the scope of site formation, roads and drainage. As a result, the Group will proactively participate in tenders to strive for successful bids.

Looking forward to next year, we expect that the Russia-Ukraine war will continue, the global financial and energy markets will remain volatile and the prices of energy and raw materials will remain high. Geopolitical uncertainties may result in the disruption of the raw material supply chain, which in turn leads to a shortage of supply. Despite the less adverse effects suffered by the Group's business over other industries, we expect that our operating cost will keep high and the price will continue to increase in the coming year. The Group will take all reasonable measures to save energy and enhance the efficiency of resource utilisation, so as to control costs.

The Group will capitalise on its competitive advantages after listing to secure more projects, and actively participate in bidding for works of the Government to achieve increased revenue. In addition, we will continue submitting tenders for civil engineering works in order to replenish the revenue from the substantial completed or completed projects. In the meantime, the Group will also explore various chances in the construction industry to create greater value for shareholders.

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

The uses of cash of the Group are mainly for the financing of the operations and working capital requirements. The Group generally finances its operations with internally generated cash flow and banking facilities provided by its principal bankers.

As at 31 March 2022, the Group had cash and cash equivalents of approximately HK\$53.4 million (2021: approximately HK\$74.9 million) and pledged bank deposit of approximately HK\$6.6 million (2021: approximately HK\$6.6 million). The decrease of approximately HK\$21.5 million in cash and cash equivalents was mainly attributable to a decrease in prepayments and other receivables. All of the bank balances were placed with banks in Hong Kong and are denominated in Hong Kong dollars. As at 31 March 2022, the Group had not experienced any liquidity problems in settling its payables in the normal course of business.

There has been no change in the capital structure of the Company during the year ended 31 March 2022. The capital of the Group only comprises ordinary shares. As at 31 March 2022, the total number of issued ordinary shares of the Company was 1,000,000,000 of HK\$0.01 each.

GEARING RATIO

As at 31 March 2022, the Group's gearing ratio was approximately 0.3% (2021: approximately 0.2%). The gearing ratio is calculated by dividing lease liabilities by total equity and expressed as a percentage. With available bank balances and cash, the directors of the Company are of the view that the Group has sufficient liquidity to satisfy the funding requirements.

Management Discussion and Analysis

TREASURY POLICY

The directors of the Company will continue to follow a prudent policy in managing the Group's cash balances and maintain a strong and healthy liquidity to ensure that the Group is well placed to take advantage of future growth opportunities.

FOREIGN EXCHANGE EXPOSURE

All of the revenue-generating operations of the Group were denominated in Hong Kong dollars. There was no exposure to foreign exchange rate fluctuations. As such, no hedging or other arrangements was made by the Group during the years ended 31 March 2022 and 2021.

SIGNIFICANT INVESTMENTS, AND FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

As at 31 March 2022, the Group did not have any significant investments. Save as those disclosed in the prospectus of the Company dated 28 February 2020 (the "**Prospectus**"), there was no plan for any material investments or other additions of capital assets at the date of this annual report.

MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

The Group did not have any material acquisitions or disposals of subsidiaries, associates and joint ventures during the year ended 31 March 2022.

PLEDGE OF ASSETS

As at 31 March 2022, the Group pledged its bank deposits of approximately HK\$6.6 million (2021: approximately HK\$6.6 million) as securities for the Group's banking facilities (including letter of credit, bank overdrafts and performance bonds).

CONTINGENT LIABILITIES

As at 31 March 2022 and 2021, the Group did not have any material contingent liabilities.

CAPITAL COMMITMENTS

As at 31 March 2022 and 2021, the Group did not have any material capital commitments.

Management Discussion and Analysis

EMPLOYEE AND REMUNERATION POLICY

As at 31 March 2022, the Group had a total of 189 employees (2021: 230) who were directly employed by the Group in Hong Kong. The staff costs, including Directors' emoluments, of the Group amounted to approximately HK\$73.9 million for the year ended 31 March 2022 (2021: approximately HK\$86.5 million).

The remuneration package of the Group offered to the employees includes salary, bonuses and other cash subsidies. In general, the Group determines employee salaries based on each employee's qualifications, position and seniority. Share options are also available to the Group's employees. The Group provides various types of training to the employees and sponsors the employees to attend various training courses, including those on occupational health and safety in relation to the work. Such training courses include the internal training as well as courses organised by external parties such as the Construction Industry Council and the Occupational Safety and Health Council. The safety officers also provide training to the workers before the commencement of work.

USE OF PROCEEDS FROM THE SHARE OFFER

The net proceeds received by the Company from the placing and public offer of the Company's shares in March 2020 were approximately HK\$79.8 million after deducting the listing expenses of approximately HK\$45.2 million. As at 31 March 2022, the Group has utilised approximately HK\$70.9 million of the net proceeds. The unutilised portion of the net proceeds is placed in licensed banks in Hong Kong and will be utilised as stated in the Prospectus.

As at 31 March 2022, the net proceeds had been utilised as follows:

Intended use of net proceeds as stated in the Prospectus	Net proceeds available <i>HK\$ million</i>	Utilised amount as at 31 March 2022 <i>HK\$ million</i>	Unutilised amount as at 31 March 2022 <i>HK\$ million</i>
Acquisition of additional plant and machinery	58.3	49.8	8.5
Recruitment and retiring additional staff	3.4	3.0	0.4
Costs for upgrading information technology system	2.9	2.9	–
Additional working capital	15.2	15.2	–
Total	79.8	70.9	8.9

As disclosed above, the actual application of the net proceeds was slower than expected and such a delay was mainly due to (i) the impact of the COVID-19 pandemic, which has caused delays in certain of our ongoing projects; (ii) delay of the projects due to inclement weather; (iii) the delay in projects due to clients have changed the design of the project and/or order in variations; and (iv) the difficulty in recruiting suitable candidates. The balance of the unutilised proceeds is expected to be utilised in the coming financial year.

Report of the Directors

BUSINESS REVIEW

A review of the business of the Group and a discussion and analysis of the Group's performance during the year under review and a discussion on the Group's future business development and outlook of the Group's business are provided in the sections headed "Chairman's Statement" on pages 4 to 5 and "Management Discussion and Analysis" on pages 6 to 10 of this annual report.

RISKS AND UNCERTAINTIES

There are certain risks involved in the Group's business operations. Some of the relatively material risks include (i) the Group's business operates under various registrations, licences and certifications and the loss of or failure to obtain or renew any or all of these registrations, licences and/or certifications could materially and adversely affect the Group's business; (ii) the Group relies on public sector projects awarded by the government of Hong Kong during the past years; (iii) the Group's business is non-recurring in nature and the Group is subject to the risks associated with the competitive tendering process; (iv) the Group relies on subcontractors to help complete the civil engineering works projects, and their performance will affect the Group; (v) error or inaccurate estimation of project duration and costs when determining the tender price may result in substantial loss incurred by the Group; and (vi) an occurrence of a natural disaster, widespread health epidemic or other outbreaks could have a material adverse on the business, financial condition and results of operations.

In addition, various financial risks have been disclosed in note 5 to the consolidated financial statements.

AN ANALYSIS USING FINANCIAL KEY PERFORMANCE INDICATORS

An analysis of the Group's performance during the year ended 31 March 2022 using financial performance indicators is provided in the section headed "Management Discussion and Analysis" on pages 6 to 10 of this annual report.

ENVIRONMENTAL POLICIES AND PERFORMANCE

The Group is committed to contributing to the sustainability of the environment and the development of society. The Group has established a sustainable development committee to identify material environmental, social and governance matters through review and assessment of internal operations, and to determine the importance of such matters to the Group's business and the Company's stakeholders. Details of the Group's development, performance and operation in the environmental aspect will be set out in the Environmental, Social and Governance Report ("**ESG Report**") to be published before the end of August 2022.

KEY RELATIONSHIPS WITH EMPLOYEES, CUSTOMERS, SUPPLIERS AND SUBCONTRACTORS

The Group's employees are one of its most important assets and it is committed to providing them with a fair and safe, healthy and happy work environment that is conducive to personal growth and career development. The Group provides various types of training to the employees and sponsors its employees to attend various training courses, including those on occupational health and safety in relation to the work. The remuneration package the Group offered to the employees includes salary, bonuses and other cash subsidies. In general, the Group determines employee salaries based on each employee's qualifications, position and seniority. The Group has designed an annual review system to assess the performance of the employees, which forms the basis of the decisions with respect to salary raises, bonuses and promotions.

The Group has established stable business relationships with its customers who are departments of the government of Hong Kong. Furthermore, The Group has also established a stable business relationship with its major suppliers for over one year in general. The Directors believe that the Group's long-term relationship with the customers and major suppliers reflects positively on the Group as a valued working party to their projects.

The Group will engage subcontractors to carry out a certain part of the works. While the Group has not entered into any long-term agreement with the subcontractors, it engages them on a project basis. Nevertheless, the Directors believe that the Group has maintained a good relationship with its key subcontractors.

More information concerning the employees, customers, suppliers and subcontractors of the Group will be set out in the ESG Report.

COMPLIANCE WITH LAWS AND REGULATIONS

The Group recognises the importance of compliance with regulatory requirements and the risks of non-compliance with such requirements. The Group has an on-going review of the newly enacted laws and regulations affecting the operations of the Group. During the year ended 31 March 2022, the Group is not aware of any material non-compliance with the laws and regulations that have a significant impact on the business of the Group.

Mr. Lai Wai	Interest in a controlled corporation ^(Note 1)	600,000,000	60.0%

Note:

1. Mr. Lai Wai directly holds the entire issued share capital of Worldwide Intelligence Group Limited ("Worldwide Intelligence") and is therefore deemed to be interested in the same number of Shares in which Worldwide Intelligence is interested.

(ii) Long position in the shares of associated corporation of the Company

<u>Name of Director</u>	<u>Name of associated corporation</u>	<u>Capacity/ Nature of interest</u>	<u>Number of shares held</u>	<u>Percentage of shareholding</u>
Mr. Lai Wai	Worldwide Intelligence	Beneficial owner	1	100%

Report of the Directors

Save as disclosed above, as at 31 March 2022, none of the Directors or chief executive of the Company had interests or short positions in the Shares, underlying Shares or debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO), which were required to be notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests and short positions which he/she was taken or deemed to have taken under such provisions of the SFO), or which were recorded in the register required to be kept under section 352 of the SFO, or which were required to be notified to the Company and the Stock Exchange pursuant to the Model Code.

SUBSTANTIAL SHAREHOLDERS' INTERESTS AND SHORT POSITIONS IN THE SHARES, DEBENTURES AND UNDERLYING SHARES OF THE COMPANY

So far as the Directors are aware, as at 31 March 2022, the following person (other than the Directors or chief executive of the Company the interests of which were disclosed above) or corporation had interest or short position in the Shares which were required to be disclosed under the provisions of Divisions 2 and 3 of Part XV of the SFO, or were recorded in the register of the Company required to be kept pursuant to section 336 of the SFO:

Long position in the Shares

Name of substantial shareholder	Capacity/ Nature of interest	Number of Shares held	Percentage of shareholding in the Company
Worldwide Intelligence	Beneficial owner	600,000,000	60.0%
Ms. Dun Xin Chun <i>(Note 1)</i>	Interest of spouse	600,000,000	60.0%

Note:

1. Ms. Dun Xin Chun is cohabiting with Mr. Lai Wai as spouse. By virtue of the SFO, Ms. Dun Xin Chun is deemed, or taken to be, interested in all the Shares in which Mr. Lai Wai is deemed to be interested.

Save as disclosed above, as at 31 March 2022, the Directors were not aware of any person (other than the Directors and the chief executive of the Company) who has an interest or short position in the Shares or underlying Shares which were required to be disclosed to the Company and the Stock Exchange under the provisions of Divisions 2 and 3 of Part XV of the SFO, or, which were recorded in the register of the Company required to be kept pursuant to section 336 of the SFO.

SHARE OPTION SCHEME

On 29 January 2020, the then shareholders of the Company approved and conditionally adopted a share option scheme (the "Share Option Scheme").

No share option has been granted, exercised, cancelled or lapsed under the Share Option Scheme since its adoption and there was no share option outstanding as at 31 March 2022.

Report of the Directors

The following is a summary of the principal terms of the Share Option Scheme.

(a) Purpose of the Share Option Scheme

The purpose of the Share Option Scheme is to recognise and acknowledge the contributions by Proposed Grantee (as defined in sub-paragraph (b) below) to the Company and its subsidiaries or invested entity and associated companies of the Company. By providing them with the opportunity to acquire equity interests in the Company, the Share Option Scheme aims to achieve the following objectives:

- (i) attract skilled and experienced personnel, to incentivise them to remain with the Company or its subsidiaries or any entity in which any member of the Group holds any equity interest ("**invested entity**") (as the case may be) and to give effect to the Company's customer-focused corporate culture, and to motivate them to think as shareholders of the Company and strive for the future development and expansion of the Company and its subsidiaries or invested entity; and
- (ii) attract and retain or otherwise maintain ongoing business relationships with suppliers and customers whose contributions are or will be beneficial to the long-term growth of the Company.

(b) Who may join

The Board may, at its absolute discretion, offer to grant an option to subscribe for such number of Shares as the Board may determine to the following persons (collectively, "**Proposed Grantee**"):

- (i) employee (whether full time or part time, and for the purposes of the Share Option Scheme also includes any executive Director and non-executive Directors (including independent non-executive Director) of the Company or any of its subsidiaries or invested entity (collectively, "**Employee**");
- (ii) any advisor, consultant, supplier, customer or agent to the Company or any of its subsidiaries or invested entity provided that (i) such advisor, consultant, supplier, customer or agent provides bona fide services to or conduct business with the Company or any of its subsidiaries or invested entity, (ii) the services provided by or business with the advisor, consultant, supplier, customer or agent are not in connection with the offer or sale of securities in a capital-raising transaction of the Company and (iii) such advisor, consultant, supplier, customer or agent, or the services provided or the business conducted, do not directly or indirectly make a market for the Company's securities (collectively, "**third party contributor**"),

provided that no prospectus is required to be issued in connection with such grant under the Companies Ordinance or Companies (Winding Up and Miscellaneous Provisions) Ordinance (Chapter 32 of the Laws of Hong Kong) or any other applicable laws. The Board may in its absolute discretion specify such conditions (if any) as it thinks fit when making such offer to the Proposed Grantee, including, without limitation and notwithstanding sub-paragraph (i), as to performance criteria to be satisfied by the Proposed Grantee and/or the Company before an option can be exercised.

Report of the Directors

(c) Maximum number of Shares available for issue

No share option has been granted under the Share Option Scheme as at the date of this annual report.

The total number of Shares available for issue under the Share Option Scheme is 100,000,000, representing approximately 10% of the Company's total number of issued shares as at the date of this annual report. The Company has 1,000,000,000 shares in issue as at the date of this annual report.

(d) Maximum entitlement of each individual and connected persons

No option may be granted to any one person such that the total number of Shares issued and to be issued upon exercise of options granted and to be granted to such person in any 12-month period up to the date of the latest grant exceeds 1% of the issued share capital of the Company from time to time. Any further grant of options in excess of this 1% limit will be subject to the approval of the shareholders of the Company in general meeting.

The independent non-executive Directors (excluding any independent non-executive Director who is a Proposed Grantee of the option(s)) will be required to approve each grant of options to a Director, chief executive or substantial shareholder of the Company or any of their respective associates. If a grant of options to a substantial shareholder of the Company or an independent non-executive Director, or their respective associates, will result in the total number of Shares issued and to be issued upon exercise of options granted and to be granted (including options exercised, cancelled and outstanding) to such person in the 12-month period up to and including the date of such grant:

- (i) representing in aggregate over 0.1% of the issued share capital of the Company from time to time; and
- (ii) having an aggregate value, based on the closing price of the Shares as stated in the Stock Exchange's daily quotations sheet at the date of each grant, in excess of HK\$5 million,

such further grant of options will be required to be approved by the shareholders of the Company in general meeting.

(e) Acceptance of an offer of options

An offer shall be accepted by the Proposed Grantee within 30 days from the date of the offer of grant of the option. A consideration of HK\$1.00 is payable on acceptance of the offer of the grant of an option.

(f) Exercise price

The exercise price in respect of any option shall be such price as determined by the Board and notified to any Grantee (subject to any adjustment made in accordance with the Share Option Scheme) and shall be the highest of: (i) the closing price of the Shares as stated in the Stock Exchange's daily quotations sheet for a board lot on the option offer date; (ii) the average closing price of the Shares as stated in the Stock Exchange's daily quotations sheets for a board lot for the five business days immediately preceding the date of grant; and (iii) the nominal value of the Share.

(g) Time of vesting and exercise of options

Subject to sub-paragraph (b), and unless otherwise determined by the Board and stated in the offer to a Proposed Grantee, no performance criteria are to be satisfied by a Proposed Grantee and/or the Company before the exercise of an option granted to him.

A Proposed Grantee may exercise his option in whole or in part (but, if in part, only in respect of a board lot or any integral multiple thereof) by giving notice in writing to the Company stating that the option is thereby exercised and specifying the number of Shares to be subscribed. Each such notice must be accompanied by a remittance for the full amount of the aggregate exercise price for the Shares in respect of which the notice is given. Within 30 days after receipt of the notice and the remittance, the Company will allot and issue the relevant Shares to the Proposed Grantee credited as fully paid and issue to the Proposed Grantee a share certificate in respect of the Shares so allotted.

Subject to any early vesting of options pursuant to Share Option Scheme, all options granted under the Share Option Scheme will be subject to a vesting period of up to ten years to be determined with respect to each Proposed Grantee by the Board at the time of grant of the relevant option and stated in the offer to a Proposed Grantee. In the absence of such requirements, a Proposed Grantee is not required to hold an option for any minimum period before the exercise of an option granted to him.

(h) Remaining life of the Share Option Scheme

The Share Option Scheme shall remain in force until 17 March 2030.

CONTINUING CONNECTED TRANSACTIONS AND RELATED PARTY TRANSACTIONS

Details of significant related party transactions entered into by the Group in the normal course of business during the year ended 31 March 2022 are set out in note 30 to the consolidated financial statements.

An indirect wholly-owned subsidiary of the Company as the tenant entered into a tenancy agreement (the "**Tenancy Agreement**") with Mr. Lai Wai, the executive Director and the controlling shareholder of the Company, as the landlord on 1 April 2021 in respect of the tenancy of office premises.

The aggregate rental paid by the Group pursuant to the Tenancy Agreement for the year ended 31 March 2022 amounted to HK\$180,000.

As Mr. Lai Wai is the controlling shareholder of the Company and a connected person of the Company, the Tenancy Agreement constitutes a continuing connected transaction under Chapter 14A of the Listing Rules.

Since each of the applicable percentage ratios for the transaction under the Tenancy Agreement is less than 0.1%, such transaction constitutes *de minimis* transaction under Rule 14A.76(1)(a) of the Listing Rules and as such, was fully exempt from the reporting, annual review, announcement, circular and independent shareholders' approval requirements under Chapter 14A of the Listing Rules.

Report of the Directors

MANAGEMENT CONTRACTS

No contracts concerning the management and administration of the whole or any substantial part of the business of the Company were entered into or existed during the year ended 31 March 2022.

MAJOR CUSTOMERS AND SUPPLIERS

For the year ended 31 March 2022, the Group's customers were departments of the government of Hong Kong, namely Civil Engineering and Development Department ("**CEDD**") and The Drainage Services Department. For the year ended 31 March 2022, the two customers of the Group accounted for 100% (2021: 100%) of the total revenue of the Group while the largest customer, namely CEDD, accounted for approximately 79.3% (2021: 96.4%) of the total revenue of the Group.

The suppliers principally included the suppliers of construction materials and subcontractors. For the year ended 31 March 2022, the five largest suppliers of the Group accounted for approximately 66.6% (2021: 59.7%) of the total purchases of the Group while the largest supplier accounted for approximately 52.1% (2021: 37.7%) of the total purchases of the Group.

To the best knowledge of the Directors, none of the Directors, their associates or any shareholder of the Company (which to the knowledge of the Directors owns more than 5% of the Company's issued share capital) had an interest in these major suppliers or customers.

SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the Directors as at the date of this annual report, the Company has maintained a sufficient public float of at least 25% of the Company's issued shares.

RETIREMENT BENEFIT SCHEMES

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the "**MPF Scheme**") under the Hong Kong Mandatory Provident Fund Schemes Ordinance for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to the statement of profit or loss and other comprehensive income as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

CORPORATE GOVERNANCE

A report on the principle corporate governance practices adopted by the Company is set out in the Corporate Governance Report on pages 24 to 35 of this annual report.

COMPETING INTERESTS

The Directors are not aware of any business or interest of the Directors or the controlling shareholders (as defined in the Listing Rules) of the Company nor any of their respective associates (as defined in the Listing Rules) that competed or might compete, either directly or indirectly, with the business of the Group and any other conflicts of interest which any such person had or might have with the Group during the year.

The Company has received annual confirmations from the controlling shareholders, Mr. Lai Wai and Worldwide Intelligence, in respect of their compliance with the non-competition undertaking provided in favour of the Company. The independent non-executive Directors have reviewed the said undertaking and are of the view that Mr. Lai Wai and Worldwide Intelligence have complied with the non-competition undertaking during the year ended 31 March 2022.

AUDITOR

The consolidated financial statements have been audited by HLB Hodgson Impey Cheng Limited who will retire and, being eligible, offer themselves for re-appointment at the forthcoming AGM.

On behalf of the Board

Lai Ying Keung

Executive Director

Hong Kong, 28 June 2022

Corporate Governance Report

CORPORATE GOVERNANCE PRACTICES

Sang Hing Holdings (International) Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) recognises the value and importance of achieving high corporate governance standards to enhance corporate performance, transparency and accountability, earning the confidence of shareholders and the public. In order to comply with the requirements under the Corporate Governance Code (the “**CG Code**”) as set out in Appendix 14 to the Rules Governing the Listing of Securities (the “**Listing Rules**”) on The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”), the Company has adopted various measures to ensure the high standard of corporate governance is maintained.

Throughout the year ended 31 March 2022, the Company has complied with the code provisions of the CG Code.

COMPLIANCE WITH THE MODEL CODE FOR DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “**Model Code**”) as set out in Appendix 10 to the Listing Rules as its own code of conduct regarding securities transactions by the Directors and the Company’s senior management who, because of his/her office or employment, is likely to possess inside information in relation to the Company’s securities.

The Company has made specific enquiries to all the Directors and all the Directors have confirmed their compliance with the Model Code during the year ended 31 March 2022. In addition, the Company is not aware of any non-compliance of the Model Code by the senior management of the Company during the year ended 31 March 2022.

BOARD OF DIRECTORS

The Board currently consists of nine Directors, comprising three executive Directors, one non-executive Director and five independent non-executive Directors.

Executive Directors:

Mr. Lai Wai (*Chairman*)
Mr. Lai Ying Wah
Mr. Lai Ying Keung

Non-executive Director:

Mr. Fung Chi Kin

Independent non-executive Directors:

Mr. Cheung Wai Kwok Gary
Prof. Leung Yee Tak
Mr. Zhang Senquan
Mr. Ho Tai Tung
Ms. Tsang Wing Kiu

Corporate Governance Report

To the best knowledge of the Board, other than Mr. Lai Wai, Mr. Lai Ying Wah and Mr. Lai Ying Keung are brothers, there is no financial, business, family or other material or relevant relationship between the members of the Board. The biographical details of the Directors are set out in the section headed "Biographical Details of Directors, Senior Management and Company Secretary" in this annual report.

The main functions of the Board include approving the overall business plans and strategies, monitoring the implementation of such plans and strategies and the management of the Group. The Board acts collectively by majority decisions in accordance with the articles of association of the Company (the "**Articles of Association**") and applicable laws, and no single Director is supposed to have any decision-making power unless otherwise authorised by the Board. The management shall provide members of the Board and committees under the Board with appropriate and sufficient information in a timely manner so as to update them with the latest developments of the Group and to better facilitate the discharge of their duties. The management team is accountable to the Board, executing the strategies and plans formulated by the Board, and making decisions in relation to the day-to-day operation of the Group.

The Board is responsible for performing the corporate governance duties set out in code provision A.2.1 of the CG Code, which are summarised as follows:

- (a) to develop and review the Company's policies and practices on corporate governance;
- (b) to review and monitor the training and continuous professional development of the Directors and senior management;
- (c) to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements;
- (d) to develop, review and monitor the code of conduct applicable to the Directors and employees; and
- (e) to review the Company's compliance with the CG Code and disclosures in the corporate governance report.

Chairman and chief executive

The roles of chairman and chief executive officer of the Company are held separately by Mr. Lai Wai and Mr. Au Chun Wing, respectively.

The chairman is responsible for the management of the Board and strategic planning of the Group, ensures that the Board works effectively and discharges its responsibilities, encourages all Directors to make a full and active contribution to the Board's affairs and takes the lead to ensure that the Board acts in the best interests of the Group. The role of the chief executive officer is responsible to undertake the day-to-day management of the Group's business.

The separation of duties of the chairman and chief executive officer of the Company ensures a clear distinction between the chairman's responsibility for running the Board and the chief executive officer's responsibility for running the Group's business.

Corporate Governance Report

Independent non-executive Directors

The Company has five independent non-executive Directors who comprise more than one-third of the Board. Two independent non-executive Directors possess professional accounting qualifications.

The Company has received an annual confirmation from each of the independent non-executive Directors confirming independence under Rule 3.13 of the Listing Rules. The nomination committee of the Company (the “**Nomination Committee**”) has assessed the independence of each of the independent non-executive Directors and the Company considers that all independent non-executive Directors meet the guidelines for assessing independence set out in Rule 3.13 of the Listing Rules and are independent in accordance with terms of the guidelines.

Appointment and re-election of Directors

All executive Directors are appointed for a specific term of three years. All non-executive Directors (including the independent non-executive Directors) are appointed for a specific term of two years.

Under the Articles of Association, every Director, including those appointed for a specific term, is subject to retirement by rotation at least once every three years at the Company’s annual general meeting. Any Director appointed by the Board is subject to re-election by shareholders of the Company at the next general meeting of the Company following his or her appointment. Directors who are subject to retirement and re-election at the forthcoming annual general meeting are set out in “Report of the Directors” in this annual report.

Nomination policy

The Nomination Committee shall nominate suitable candidates to the Board for it to consider and make recommendations to the shareholders of the Company for election as Directors at general meetings or appoint as Directors to fill casual vacancies. In assessing the suitability of a proposed candidate, the Nomination Committee would consider factors including educational background, professional experience, skills, knowledge, personal qualities and the benefit of diversity as set out under the Board Diversity Policy. The Nomination Committee would also take into account whether the candidate can demonstrate his/her commitment, competence and integrity required for the position, and in the case of independent non-executive Directors, the independence requirements under the Listing Rules and their time commitment to the Company. These factors are for reference only, and not meant to be exhaustive and decisive. The Nomination Committee has the discretion to nominate any person, as it considers appropriate.

Corporate Governance Report

Board diversity policy

The Board has adopted a board diversity policy on 29 January 2020 which sets out the approach by which the Board could achieve a higher level of diversity. In summary, such policy sets out that when considering the nomination and appointment of a director, with the assistance of the Nomination Committee, the Board would consider a number of factors, including but not limited to the age, gender, skills, length of service, professional experience and qualifications, cultural and educational background of the prospective candidate. The ultimate decision of the appointment will be based on merit and the contribution which the prospective candidate would bring to the Board. All Board appointments will be considered against objective criteria, having due regard to the benefits of diversity on the Board in order to best serve the shareholders and other stakeholders going forward. As gender diversity is one of the objectives of the board diversity policy, while as at the date of this report, the majority of the Board is comprised of male directors, to implement the board diversity policy, the Nomination Committee will review the composition of the Board and actively identify suitable female candidates in its annual review. The Company will endeavour to appoint female directors in the market should the Nomination Committee find suitable candidates after considering their backgrounds and experience.

The Board comprises nine members, including three executive Directors, one non-executive Director and five independent non-executive Directors. The Directors obtained degrees in various majors including business administration, international business management, economics, science and mechanical engineering. All the executive Directors possess extensive experience in the management and civil engineering industry. Mr. Fung Chi Kin, the non-executive Director, has over 18 years of experience in banking and finance. The independent non-executive Directors possess extensive knowledge and experience in finance and banking, civil engineering as well as accounting and auditing. Prof. Leung Yee Tak, one of the independent non-executive Directors, has over 41 years of tertiary level teaching experience in the civil engineering field. Mr. Zhang Senquan and Ms. Tsang Wing Kiu, both the independent non-executive Directors, have extensive experience in accounting, finance and auditing. Furthermore, the Board has a wide range of ages, ranging from 45 years old to 73 years old. Taking into account the existing needs of the Company, the combination of the Board would bring about the necessary balance of skills and experience appropriate for the requirements of the business development of the Company.

The Nomination Committee will monitor the implementation of the board diversity policy from time to time to ensure its continual effectiveness.

Corporate Governance Report

The Investment Committee has been established by the Board on 14 July 2020 and consists of three members, namely Mr. Lai Wai (executive Director), Mr. Au Chun Wing (the chief executive officer of the Company) and Mr. Shum Tsz Yeung (the chief financial officer of the Company). Mr. Lai Wai is the chairman of the Investment Committee.

Corporate Governance Report

The primary duties of the Investment Committee are to handle any issues or affairs related to the investment aspects of the Company, review the investment performance from time to time and advise the Board on how the Company's funds are to be used to enhance the Group's investment returns, and preserve the value of the Company's funds and/or achieving capital appreciation.

During the year ended 31 March 2022, two Investment Committee meetings were held to review the investment performance. The attendance of each member at the meetings is set out below:

Name of member	Attendance/ Number of meetings held
Mr. Lai Wai (<i>Chairman</i>)	2/2
Mr. Au Chun Wing	2/2
Mr. Shum Tsz Yeung	2/2

ACCOUNTABILITY AND AUDIT

The Directors acknowledge their responsibility for the preparation of the consolidated financial statements of the Group. In preparing the financial statements for the year ended 31 March 2022, the Directors have selected suitable accounting policies and applied them consistently. The Directors also made judgements and estimates that are prudent and reasonable and prepared the financial statements on a going concern basis.

The Directors were not aware of any material uncertainties relating to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. The statement of the independent auditors of the Company about their reporting responsibilities on the financial statements is set out in the section headed "Independent Auditors' Report" of this annual report.

AUDITORS' REMUNERATION

For the year ended 31 March 2022, the fees paid/payable by the Group to HLB Hodgson Impey Cheng Limited for their audit and non-audit services are analysed below:

Services rendered	Fees paid/ payable HK\$'000
Audit services – audit fee for the year ended 31 March 2022	1,200
Non-audit services (interim review service)	250

RISK MANAGEMENT AND INTERNAL CONTROL

The management identified and evaluated the significant risks relevant to the Group based on their experience in the business environment. They regularly met with frontline employees and continuously monitored business performance compared to operational plans and financial forecasts. The risk management and internal control systems are in place to cope with potential risks in different areas including liquidity, fraud and financial reporting, operational and compliance risks.

Corporate Governance Report

The Board acknowledges that it is responsible for the risk management and internal control systems and reviewing their effectiveness on an ongoing basis. Such risk management and internal control systems are designed for managing risks rather than eliminating the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Company does not have an internal audit function and is currently of the view that there is no immediate need to set up an internal audit function within the Group in light of the size, nature and complexity of the Group's business. Nevertheless, the Company engaged an independent consultancy firm (the "**Adviser**") to conduct review of the effectiveness of the risk management and internal control systems of the Group. The Adviser has reported findings and areas for improvement to the management and Audit Committee, which then reviewed and reported the same to the Board. The Board and Audit Committee are of the view that there are no material internal control defeats noted. The Board considered that the risk management and internal audit control system are effective and adequate.

Inside information policy

The Company adopted a policy and procedure on disclosure of inside information (the "**Inside Information Policy**") setting out the Group's procedure in handling such information to ensure its equal and timely dissemination to comply with the requirements under Part XIVA of the Securities and Futures Ordinance and the Listing Rules. The designated departments monitor the Inside Information Policy and assess the nature and materiality of relevant information and determine appropriate actions. The Group will provide appropriate training to officers and employees likely to be in possession of inside information.

COMPANY SECRETARY

The company secretary of the Company is Ms. Chang Kam Lai ("**Ms. Chang**"). Ms. Chang is a fellow of the Association of Chartered Certified Accountants and a member of Hong Kong Institute of Certified Public Accountants. During the year ended 31 March 2022, Ms. Chang undertook no less than 15 hours of relevant professional training.

TO THE MEMBERS OF SANG HING HOLDINGS (INTERNATIONAL) LIMITED

(Incorporated in Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Sang Hing Holdings (International) Limited (the “**Company**”) and its subsidiaries (collectively referred to as the “**Group**”) set out on pages 50 to 115, which comprise the consolidated statement of financial position as at 31 March 2022, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “**Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Our procedures in relation to the revenue recognition for provision of civil engineering work services including but not limited to:
During the year ended 31 March 2022, the Group generated revenue of approximately HK\$426,960,000 from provision of civil engineering work services as disclosed in Note 7 to the consolidated financial statements.	<ul style="list-style-type: none">• obtaining an understanding on the management's key process in recognition of the contract revenue for provision of civil engineering work services;• checking the total contract value to the contracts and variation orders (if any) to the agreements or other correspondence, on a sample basis; and• evaluating the reasonableness of revenue from provision of civil engineering work services recognised to date by:<ul style="list-style-type: none">– Checking to the certificates issued by the architects or surveyors appointed by the customers before and subsequent to year end date to evaluate the value of work already performed during the year and the subsequent progress of respective projects, on a sample basis; and– Discussing with the management of the Group to understand the status of respective engineering work service contracts, on a sample basis.
As disclosed in Note 7 to the consolidated financial statements, the Group recognised revenue from provision of civil engineering work services over time using output method, i.e. based on surveys of civil engineering work completed by the Group to date as certified by architects, surveyors or other representatives appointed by the customers or estimated with reference to the progress payment application submitted by the Group to the customers in relation to the work completed by the Group.	We found that the revenue recognition for provision of civil engineering work services to be supportable by available evidence.

KEY AUDIT MATTERS (Continued)

The key audit matter	How the key audit matter was addressed in our audit
----------------------	---

Impairment assessment of trade receivables and contract assets

Refer to Notes 5, 17 and 18 to the consolidated financial statements.

We identified the impairment assessment of trade receivables and contract assets as a key audit matter due to the significance of these balances to the consolidated financial statements as a whole, and the use of judgment and estimates by management in assessing the recoverability of trade receivables and contract assets.

As disclosed in Notes 17 and 18 to the consolidated financial statements, trade receivables and contract assets of the Group carried at approximately HK\$35,658,000 and HK\$163,383,000, respectively as at 31 March 2022.

As set out in Note 5 to the consolidated financial statements, in determining the impairment losses on trade receivables and contract assets, the management assessed individually and/or collectively based on the Group's historical default rates taking into consideration forward-looking information which involve estimation and significant judgment.

Our procedures in relation to impairment assessment of trade receivables and contract assets including but not limited to:

- Understanding the management's process of assessing the recoverability of trade receivables and contract assets;
- Assessing the reasonableness of impairment recognised by examining the information used by management to form such judgments, such as checking the accuracy of the ageing analysis of trade receivables and contract assets to the payment certificates or completion certificates issued by the customers or the underlying financial records, respectively, on a sample basis;
- For individually assessed expected credit losses ("ECL"), assessing the estimated loss rates with reference to the individual customers' historical observed default rates and checking the settlement history and changes in the forward-looking information; and
- Checking, on a sample basis, post year end settlements on the trade receivables and contract assets as at 31 March 2022 to bank receipts and challenging the information used to determine the ECL by considering cash collection performance against historical trends.

We found that the management judgement and estimates used to assess the recoverability of the trade receivables and contract assets and determine the allowance for ECL to be supportable by available evidence.

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditors' report thereon ("**Other Information**").

Our opinion on the consolidated financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the Other Information and, in doing so, consider whether the Other Information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this Other Information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

Independent Auditors' Report

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. We report our opinion solely to you, as a body and for no other purpose. We do not assume responsibility toward or accept liability to any other persons for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

Independent Auditors' Report

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement director on the audit resulting in this independent auditor's report is Wong Sze Wai, Basilia.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2022

1. GENERAL

The Company was incorporated in the Cayman Islands under the Companies Act as an exempted company with limited liability on 25 June 2018 and its shares have been listed (the “**Listing**”) on the Main Board of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) on 17 March 2020 by way of share offer at a price of HK\$0.5 each upon Listing (the “**Share Offer**”). The addresses of the registered office and principal place of business of the Company are Cricket Square, Hutchins Drive, PO Box 2681, Grand Cayman KY1-1111, Cayman Islands and Room 215A-B, 2/F, Central Services Building, Nan Fung Industrial City, No. 18 Tin Hau Road, Tuen Mun, New Territories, Hong Kong, respectively.

The Company’s immediate and ultimate holding company is Worldwide Intelligence Group Limited (“**Worldwide Intelligence**”), a company incorporated in the British Virgin Islands. Worldwide Intelligence is controlled by Mr. Lai Wai (“**Mr. Lai**”) who is the chairman and executive director of the Company. Worldwide Intelligence and Mr. Lai are referred to as the controlling shareholders of the Company.

The principal activity of the Company is investment holding. The principal activities of its subsidiaries are provision of civil engineering works service and related services. Particulars of the Group’s subsidiaries and joint operations are set out in notes 32 and 33 to the consolidated financial statements, respectively.

The consolidated financial statements are presented in Hong Kong dollars (“**HK\$**”), which is also the functional currency of the Group. All values are rounded to the nearest thousand (HK\$’000) except otherwise indicated.

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“**HKFRSs**”)

Amendments to HKFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to HKFRSs issued by the HKICPA for the first time, which are mandatorily effective for the Group’s annual period beginning on or after 1 April 2021 for the preparation of the consolidated financial statements:

Amendment to HKFRS 16	Covid-19 Related Rent Concessions
Amendment to HKFRS 16	Covid-19 Related Rent Concessions beyond 30 June 2021
Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16	Interest Rate Benchmark Reform – Phase 2

In addition, the Group applied the agenda decision of the IFRS Interpretations Committee (the “**Committee**”) of the International Accounting Standards Board issued in June 2021 which clarified the costs an entity should include as “estimated costs necessary to make the sale” when determining the net realisable value of inventories.

The application of the amendments to HKFRSs in the current year has had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2022

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

New and amendments to HKFRSs in issue but not yet effective

The Group has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

HKFRS 17	Insurance Contracts and the related Amendments ²
Amendments to HKFRS 3	Reference to the Conceptual Framework ¹
Amendments to HKFRS 10 and HKAS 28	Sales or Contribution of Assets between an Investor and its Associates or Joint Venture ³
Amendments to HKAS 1	Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020) ²
Amendments to HKAS 1 and HKFRS Practice Statement 2	Disclosure of Accounting Policies ²
Amendments to HKAS 8	Definition of Accounting Estimates ²
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction ²
Amendments to HKAS 16	Property, Plant and Equipment – Proceeds before Intended Use ¹
Amendments to HKAS 37	Onerous Contracts – Cost of Fulfilling a Contract ¹
Amendments to HKFRSs	Annual Improvements to HKFRSs 2018-2020 ¹

¹ Effective for annual periods beginning on or after 1 January 2022.

² Effective for annual periods beginning on or after 1 January 2023.

³ Effective for annual periods beginning on or after a date to be determined.

The directors of the Company anticipate that the application of all new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. For the purpose of preparation of the consolidated financial statement, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange (the “**Listing Rules**”) and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 Share-based Payment, leasing transactions that are accounted for in accordance with HKFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 Inventories or value in use in HKAS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2022

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interest even if this results in the non-controlling interests having a deficit balance.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2022

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of consolidation (Continued)

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Interests in joint operations

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The Group accounts for the assets, liabilities, revenues and expenses relating to its interest in a joint operation in accordance with the HKFRSs applicable to the particular assets, liabilities, revenues and expenses.

When a group entity transacts with a joint operation in which a group entity is a joint operator (such as a sale or contribution of assets), the Group is considered to be conducting the transaction with the other parties to the joint operation, and gains and losses resulting from the transactions are recognised in the consolidated financial statements only to the extent of other parties' interests in the joint operation.

When a group entity transacts with a joint operation in which a group entity is a joint operator (such as a purchase of assets), the Group does not recognise its share of the gains and losses until it resells those assets to a third party.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2022

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes. Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

The estimated useful lives for the current and comparative periods are as follows:

Furniture, fixtures and office equipment	20%-25%
Plant and machinery	10%-20%
Motor vehicles	20%-25%

The gain or loss on disposal of property, plant and equipment is the different between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

Impairment on property, plant and equipment and right-of-use assets

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any). Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that they may be impaired.

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2022

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment on property, plant and equipment and right-of-use assets (Continued)

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount under another standard, in which case the impairment loss is treated as a revaluation decrease under that standard.

Impairment on property, plant and equipment and right-of-use assets (Continued)

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount under another standard, in which case the reversal of the impairment loss is treated as a revaluation increase under that standard.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss (“FVTPL”)) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income ("FVTOCI"):

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL, except that at initial recognition of a financial asset, the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income ("OCI") if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 Business Combinations applies.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Classification and subsequent measurement of financial assets (Continued)

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) Amortised cost and effective interest method

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost and debt instruments/receivables subsequently measured at FVTOCI. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

Interest income is recognised in profit or loss and is included in the "other income and other gain or loss, net" line item.

(ii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial asset and is included in the "other income and other gain or loss, net" line item.

Impairment of financial assets and contract assets under ECL model

The Group performs impairment assessment under expected credit loss (“ECL”) model on financial assets (including trade receivables, deposits and other receivables, pledged bank deposits, and cash and cash equivalents) and other items (contract assets) which are subject to impairment assessment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“12m ECL”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessments are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables and contract assets.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) *Significant increase in credit risk*

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

(i) Significant increase in credit risk (Continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if (i) it has a low risk of default, (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of "investment grade" as per globally understood definitions.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

(i) Significant increase in credit risk (Continued)

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- a) significant financial difficulty of the issuer or the borrower;
- b) a breach of contract, such as a default or past due event;

- c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- e) the disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over five years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience, adjusted for forward looking information that is available without undue cost or effort.

Measurement and recognition of ECL (Continued)

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Lifetime ECL for certain trade receivables and contract assets are considered on a collective basis taking into consideration past due information and relevant credit information such as forward-looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables, contract assets, deposits and other receivables where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial Liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities and equity instruments

Financial liabilities at amortised cost

Financial liabilities including trade and retention payables, other payable and accruals and lease liabilities are subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, canceled or expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the entity's performance as the entity performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

Notes to the Consolidated Financial Statements

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue from contracts with customers (Continued)

Output method

The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

As a practical expedient, if the Group has a right to consideration in an amount that corresponds directly with the value of the Group's performance completed to date, the Group recognises revenue in the amount to which the Group has the right to invoice.

Variable consideration

For contracts that contain variable consideration (i.e. variation order), the Group estimates the amount of consideration to which it will be entitled using either (a) the expected value method or (b) the most likely amount, depending on which method better predicts the amount of consideration to which the Group will be entitled.

The estimated amount of variable consideration is included in the transaction price only to the extent that it is highly probable that such an inclusion will not result in a significant revenue reversal in the future when the uncertainty associated with the variable consideration is subsequently resolved.

At the end of each reporting period, the Group updates the estimated transaction price (including updating its assessment of whether an estimate of variable consideration is constrained) to represent faithfully the circumstances present at the end of the reporting period and the changes in circumstances during the reporting period.

Revenue from contracts with customers (Continued)

Contract asset or contract liabilities

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application of HKFRS 16 or arising from business combinations, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed. As a practical expedient, leases with similar characteristics are accounted on a portfolio basis when the Group reasonably expects that the effects on the consolidated financial statements would not differ materially from individual leases within the portfolio.

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group also applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases of properties, machinery and equipment that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Right-of-use assets

The cost of right-of-use assets includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;

Leases (Continued)

Lease liabilities (Continued)

- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

Variable lease payments that reflect changes in market rental rates are initially measured using the market rental rates as at the commencement date. Variable lease payments that do not depend on an index or a rate are not included in the measurement of lease liabilities and right-of-use assets, and are recognised as expense in the period in which the event or condition that triggers the payment occurs.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment;
- the lease payments change due to changes in market rental rates following a market rent review/expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the standalone price for the increase in scope and any appropriate adjustments to that standalone price to reflect the circumstances of the particular contract.

Lease modifications (Continued)

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability, less any lease incentives receivable, based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains one or more additional lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component. The associated non-lease components are included in the respective lease components.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under "Government and other subsidies" under "Other income and other gain or loss, net".

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

Contingent liabilities

A contingent liability is a present obligation arising from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Where the Group is jointly and severally liable for an obligation, the part of the obligation that is expected to be met by other parties is treated as a contingent liability and it is not recognised in the consolidated financial statements.

The Group assesses continually to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognised in the consolidated financial statements in the reporting period in which the change in probability occurs, except in the extremely rare circumstances where no reliable estimate can be made.

Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents comprises of cash on hand and in banks, and short term highly liquid investments which are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management. For the purpose of the Group's statements of financial position, cash and cash equivalents comprise cash on hand and at banks, which are not restricted as to use.

Income tax

Income tax comprises current tax and deferred tax. Income tax is recognised in the consolidated statement of profit or loss and other comprehensive income or in equity if it relates to items that are recognised in the same or a different period directly in equity.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- where the deferred tax liability arises from goodwill or the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except:

- where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

Income tax (Continued)

- in respect of deductible temporary differences associated with joint operations, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Conversely, previously unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of each reporting period.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

For the purpose of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 Income Taxes requirements to the right-of-use assets and lease liabilities separately. Temporary differences relating to right-of-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption. Temporary differences arising from subsequent revision to the carrying amounts of right-of-use assets and lease liabilities, resulting from remeasurement of lease liabilities and lease modifications, that are not subject to initial recognition exemption are recognised on the date of remeasurement or modification.

Employee benefits

Short-term and other long-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date. Any changes in the liabilities' carrying amounts resulting from service cost, interest and remeasurements are recognised in profit or loss except to the extent that another HKFRS requires or permits their inclusion in the cost of an asset.

Retirement benefit costs

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered services entitling them to the contributions.

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the "MPF Scheme") under the Hong Kong Mandatory Provident Fund Schemes Ordinance for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to the statement of profit or loss and other comprehensive income as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

Any specific borrowing that remain outstanding after the related asset is ready for its intended use or sale is included in the general borrowing pool for calculation of capitalisation rate on general borrowings.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Related parties transactions

A party is considered to be related to the Group if:

- (i) A person or a close member of that person's family is related to the Group if that person:
 - (a) has control or joint control over the Group;
 - (b) has significant influence over the Group; or
 - (c) is a member of the key management personnel of the Group or of a parent of the reporting entity.

Related parties transactions (Continued)

- (ii) An entity is related to the Group if any of the following conditions applies:
- (a) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (b) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (c) Both entities are joint ventures of the same third party.
 - (d) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (e) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
 - (f) The entity is controlled or jointly controlled by a person identified in (i).
 - (g) A person identified in (i)(a) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (h) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close family members of an individual are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

Dividends

Dividends proposed by the directors of the Company are classified as a separate allocation of retained profits within the equity section of the statements of financial position, until they have been approved by the shareholders in a general meeting. When these dividends have been approved by the shareholders and declared, they are recognised as a liability.

Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material maybe aggregated if share a majority of these criteria.

4. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

The major judgments, estimates and assumptions that have the most significant effect on the amounts recognised in the consolidated financial statements and have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are set out below:

Joint operations

The Group has numerous joint arrangements with third parties for construction work in Hong Kong and under which decisions about the relevant activities of such arrangements require the unanimous consent of all parties to the arrangements. For accounting purposes, the directors assessed whether such arrangements are joint operations or joint ventures under HKFRS 11. After considering the rights and obligations of parties to the joint arrangements with reference to the structure, the legal form of the arrangements, the contractual terms agreed by the parties in the arrangements, and the relevant facts and circumstances, the directors of the Company concluded that all of the Group's joint arrangements for construction work should be classified as joint operations under HKFRS 11 as the relevant contractual agreements for these joint arrangements specify that the parties to the joint arrangements have rights to the assets and obligations to the liabilities relating to the joint arrangements.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2022

4. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES (Continued)

Estimation uncertainty on construction contract

The Group reviews and revises the estimates of contract revenue, contract costs, variations in contract work and claims prepared for each construction contract as the contract progresses. Budgeted contract costs are prepared by the management on the basis of quotations from time to time provided by the major subcontractors, suppliers or vendors involved and the experience of the management. In order to keep the budget accurate and up-to-date, management conducts periodic reviews of the budgets of contracts by comparing the budgeted amounts to the actual amounts incurred.

Recognised amounts of contract revenue and related contract assets and receivables reflect management's best estimate of each contract's outcome and value of works completed, which are determined on the basis of a number of estimates. This includes the assessment of the profitability of on-going construction contracts. For more complex contracts in particular, costs to complete and contract profitability are subject to significant estimation uncertainty. The actual outcomes in terms of total cost or revenue may be higher or lower than estimated at the end of each reporting period, which would affect the revenue and profit or loss recognised in future years as an adjustment to the amounts recorded to date.

Impairment of trade and other receivables and contract assets

The management of the Group estimates the amount of impairment loss for ECL on trade and other receivables and contract assets based on the credit risk of trade and other receivables and contract assets. The amount of the impairment loss is measured as the asset's carrying amount and the present value of estimated future cash flows with the consideration of expected future credit loss of the trade and other receivables and contract assets. The assessment of the credit risk of the trade and other receivables and contract assets involves high degree of estimation and uncertainty. When the actual future cash flows are less than expected or more than expected a material impairment loss or a material reversal of impairment loss may arise, accordingly.

(b) Financial risk management objectives and policies

The Group's principal financial instruments comprise financial assets at FVTPL, trade receivables, deposits and other receivables, pledged bank deposit, cash and cash equivalents, trade and retention payables, other payables and accruals and lease liabilities. The main purpose of these financial instruments is to finance the Group's operation.

The main risks arising from the Group's financial instruments are market risk (including interest rate risk, price risk and foreign exchange risk), credit risk and liquidity risk. The Group's management reviews and agrees policies for managing each of these risks and they are summarised below:

Market risk

The Group's activities expose it primarily to the financial risks of changes in interest rates and foreign currency exchange rates.

Market risk exposures are measured by sensitivity analysis.

There has been no change to the Group's exposure to market risk or the manner in which it manages and measures the risk.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2022

5. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

(Continued)

(b) Financial risk management objectives and policies (Continued)

Market risk (Continued)

Price risk management

The Group is exposed to equity price risk through its investments in equity securities measured at FVTPL. For equity securities measured at FVTPL quoted in the Stock Exchange, the management of the Group manages this exposure by maintaining a portfolio of investments with different risks. The Group has appointed a special team to monitor the price risk and will consider hedging the risk exposure should the need arise.

The sensitivity analyses have been determined based on the exposure to equity price risk at the reporting date.

If the prices of the respective equity instruments had been 5% higher/lower, the profit for the year ended 31 March 2022 would increase/decrease by approximately HK\$386,000 (2021: HK\$574,000) as a result of the changes in fair value of financial assets at FVTPL.

Interest rate risk management

Interest rate risk relates to the risk that the fair value or cash flows of a financial instrument will fluctuate because of changes in market interest rates. Certain lease liabilities bearing fixed rates expose the Group to cash flow interest rate risk and fair value interest rate risk respectively and the exposure to the Group is considered immaterial.

The exposure to interest rate risk for the Group's bank balances is considered immaterial.

Foreign exchange risk management

The Group has no transactional currency exposures. The Group's markets mainly located in Hong Kong and its operations are denominated primarily in Hong Kong dollars, which does not expose the Group to foreign currency risk. The Group does not have any formal hedging policy.

Credit risk and impairment assessment

Credit risk refers to the risk that the Group's counterparties default on their contractual obligation resulting in financial losses to the Group. The credit risk of the Group mainly arises from pledged bank deposits and cash and cash equivalents, trade receivables, contract assets, other receivables and amount due from other joint operator of a joint operation. The carrying amounts of these balances represent the Group's maximum exposure to credit risk in relation to financial assets.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2022

5. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

(Continued)

(b) Financial risk management objectives and policies (Continued)

Credit risk and impairment assessment (Continued)

In respect of pledged bank deposits and cash and cash equivalents, the credit risk is considered to be low as the counterparties are reputable banks. The existing counterparties do not have defaults in the past. The directors of the Company consider that the Group's credit risk on the pledged bank deposits and cash and cash equivalents is low. Management continues to monitor the position and will take appropriate action if their ratings should change. As at 31 March 2022 and 2021, the Group has no significant concentration of credit risk in relation to pledged bank deposits and cash and cash equivalent.

In respect of trade receivables and contract assets, individual credit evaluations are performed on all customers and counterparties. These evaluations focus on the counterparty's financial position, past history of making payments and take into account information specific to the counterparty as well as pertaining to the economic environment in which the counterparty operates. Monitoring procedures have been implemented to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade receivables and contract assets balance at the end of each reporting period to ensure adequate impairment losses are made for irrecoverable amounts.

The Group applies the simplified approach to provide for ECL prescribed by HKFRS 9, which permits the use of the lifetime expected loss provision for trade receivables and contract assets.

The Group assessed the ECL on trade receivables and contract assets individually. Based on the historical experience of the Group, these trade receivables and contract assets are generally recoverable due to the long term/on-going relationship and good repayment record. The Group has assessed that the rate of ECL for trade receivables and contract assets is minimal, thus, the additional loss allowance for provision for trade receivables and contract assets was insignificant as at 31 March 2022 and 2021.

For other receivables, management makes periodic collective assessments as well as individual assessment on the recoverability of other receivables based on historical settlement records, past experience and also available reasonable and supportive forward-looking information. The credit risks of this financial asset is considered not to increase significantly since initial recognition, as the counterparty has a low risk of default and does not have any past due amounts so the credit rating is classified as low risk. It is subject to the ECL model and the loss allowances are limited to 12-month ECL. The reversal of impairment loss for other receivables of approximately HK\$532,000 (2021: provision for impairment of approximately HK\$655,000) was recognised in statement of profit or loss for the year ended 31 March 2022. The average loss rate for other receivables was 1.46% (2021: 1.58%) for the year ended 31 March 2022.

Notes to the Consolidated Financial Statements

5. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

(Continued)

(b) Financial risk management objectives and policies (Continued)

Credit risk and impairment assessment (Continued)

For amount due from other joint operator of a joint operation, the Group regularly monitors the business performance of the joint operation. The Group's credit risks in this balance are mitigated through the value of the assets held by this entity and the power to participate the relevant activities of this entity. The management believes that there is no significant increase in credit risk of this amount since initial recognition and the Group provided impairment based on 12-month ECL. For the years ended 31 March 2022 and 2021, the management of the Group believes that there is no material credit risk inherent in the Group's outstanding balance of amount due from other joint operator of a joint operation. The reversal of impairment loss for amount due from other joint operator of a joint operation of approximately HK\$1,000 (2021: provision for impairment of approximately HK\$25,000) was recognised in statement of profit or loss for the year ended 31 March 2022. The average loss rate for amount due from other joint operator of a joint operation was 1.48% (2021: 1.54%) for the year ended 31 March 2022.

The estimated loss rates are estimated based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information that is available without undue cost or effort. The grouping is regularly reviewed by management to ensure relevant information about specific debtors is updated.

Provision of ECL on other receivables and amount due from other joint operator of a joint operation

The provision for other receivables and amount due from other joint operator of a joint operation as at 31 March 2022 and 2021 was as follows:

	12-month ECL HK\$'000	Total HK\$'000
At 1 April 2020	326	326
Provision for the year	680	680
As at 31 March 2021 and 1 April 2021	1,006	1,006
Reversal of provision for the year	(533)	(533)
As at 31 March 2022	473	473

Liquidity risk

Liquidity risk relates to the risk that the Group will not be able to meet its obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group is exposed to liquidity risk in respect of settlement of trade payables and its financing obligations, and also in respect of its cash flow management. The Group's objective is to maintain an appropriate level of liquid assets and committed lines of funding to meet its liquidity requirements in the short and longer term.

Note:

During the year ended 31 March 2021, the Group have entered into sale and purchase agreement with independent third parties to dispose of the financial assets at FVTPL at a total consideration of approximately HK\$10,428,000. The fair value of these financial assets at FVTPL was determined based on the consideration to be received. During the year ended 31 March 2022, the amount was fully settled.

There were no transfer between level 1 and 2 during the year.

(d) Capital risk management

The Group's objectives when managing capital are to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

Notes to the Consolidated Financial Statements

5. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

(Continued)

(d) Capital risk management (Continued)

The capital structure of the Group consists of debt (which includes lease liabilities), cash and cash equivalents, pledged bank deposits and total equity attributable to owners of the Company, comprising issued share capital and reserves.

Gearing ratio

The directors of the Company review the capital structure regularly. As part of this review, the directors of the Company consider the cost of capital and the risks associated with each class of capital. The ratio is calculated based on net debt and total equity.

The gearing ratio at the end of the reporting period was as follows:

	2022 HK\$'000	2021 HK\$'000
Total debt [#]	950	587
Less: Cash and bank balances	(53,448)	(74,907)

Net cash	(59,137)	(80,957)
Total equity	317,781	305,806
Gearing ratio	N/A	N/A

[#] Total debt comprises lease liabilities as detailed in Note 26(b) to the consolidated financial statements.

6. SEGMENT INFORMATION

(i) Operating segment information

The Group's most senior executive management has been identified as the executive directors who review the Group's internal reporting in order to assess performance and allocate resources. The Group's most senior executive management has determined the operating segments based on these reports.

The Group's most senior executive management assesses the performance based on a measure of profit after income tax and considers all businesses to be included in a single operating segment.

The Group is principally engaged in the business of civil engineering works service and related services in Hong Kong. Information reported to the Group's most senior executive management for the purpose of resources allocation and performance assessment, focuses on the operating result of the Group as a whole as the Group's resources are integrated and no discrete operating segment financial information is available. Accordingly, no operating and geographical segment information is presented.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2022

6. SEGMENT INFORMATION (Continued)

(ii) Information about major customers

Revenue from customers during the years ended 31 March 2022 and 2021 contributing individually over 10% of the Group's revenue is as follows:

	2022 HK\$'000	2021 HK\$'000
Customer A	338,489	376,056
Customer B	88,471	N/A*

* Revenue from Customer B does not contribute over 10% of the total revenue of the Group for the year ended 31 March 2021.

7. REVENUE

The Group's revenue represents the amount received and receivable for revenue arising on civil engineering works services and related services which is recognised over time.

	2022 HK\$'000	2021 HK\$'000
Revenue from civil engineering works	426,960	390,229

Performance obligations for contracts with customers

The Group provides construction services to customers. Such services are recognised as a performance obligation satisfied over time as the Group creates or enhances an asset that the customer controls as the asset is created or enhanced. Revenue is recognised for these construction services based on the value of completed construction work using output method.

In recognising the construction revenue, the Group adjusts the amount of payment received for the effect of the time value of money of the goods and services transferred to the customers. In certain circumstances, the adjustment will result the amount of payment received in excess of the revenue recognised to date. Such difference will be recorded as contract liabilities.

A contract asset, net of contract liability related to the same contract, is recognised over the period in which the construction services are performed representing the Group's right to consideration for the services performed because the rights are conditioned on the Group's future performance in achieving the value of construction work has been agreed with the customers. The contract assets are transferred to trade receivables when the rights become unconditional. The Group typically transfer the contract assets to trade receivables when the Group issued invoice to the customers based on the value of work certified by the architects, surveyor or other representatives appointed by the customers.

Transaction price allocated to the remaining performance obligation for contracts with customers

As at 31 March 2022, the aggregated amount of the transaction price allocated to the remaining performance obligations under the Group's existing contracts is approximately HK\$487,508,000 (2021: HK\$354,340,000). This amount represents revenue expected to be recognised in the future from construction contracts entered into by the customers with the Group. The Group will recognise the expected revenue in future when or as the work is completed, which is expected to occur over the next 4 (2021: 3) years from the end of the reporting period.

11. INCOME TAX

Hong Kong profits tax has been provided at the rate of 16.5% (2021: 16.5%) of the estimated assessable profits arising in Hong Kong during the year.

Under the two-tiered profits tax rates regime of Hong Kong Profits Tax, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%. Accordingly, the Hong Kong Profits Tax of the qualifying group entity is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million.

12. DIRECTORS' AND CHIEF EXECUTIVE'S EMOLUMENTS (Continued)

During the years ended 31 March 2022 and 2021, there were no amounts paid or payable by the Group to the directors and chief executive or any of the highest paid individuals set out in Note 13 below as an inducement to join or upon joining the Group or as compensation for loss of office. There was no arrangement under which a director waived or agreed to waive any emoluments during the year.

13. EMOLUMENTS OF FIVE HIGHEST PAID INDIVIDUALS

Of the five highest paid individuals of the Group during the year ended 31 March 2022, three (2021: three) are executive directors or chief executive of the Company for the year ended 31 March 2022, whose emoluments are disclosed in Note 12. The aggregate of the emoluments in respect of the remaining individuals are as follows:

	2022 HK\$'000	2021 HK\$'000
Salaries, allowance and benefits in kind	2,040	1,998
Discretionary bonuses	340	504
Retirement benefits schemes contributions	36	35

The emoluments of the above individuals are within the following bands:

	2022 HK\$'000	2021 HK\$'000
Nil to HK\$1,000,000	1	–
HK\$1,000,001 to HK\$1,500,000	1	2

Notes to the Consolidated Financial Statements

For the year ended 31 March 2022

14. DIVIDENDS

The Board did not recommend the payment of a final dividend for the years ended 31 March 2022 and 2021.

In June 2020, the Company declared final dividends in respect of the year ended 31 March 2020 for the amounts of HK\$10,000,000 and paid in September 2020.

15. EARNINGS PER SHARE

The calculation of basic earnings per share is based on the profit for the year of approximately HK\$11,975,000 (2021: approximately HK\$26,424,000) and the weighted average number of ordinary shares of the Company in issue during the year:

	2022	2021
Weighted average number of ordinary shares for the purpose of calculating basic earnings per share	1,000,000,000	1,000,000,000

The denominators used are the same as those detailed above for both basic and diluted earnings per share.

No dilutive earnings per share is presented as there was no potential dilutive ordinary shares in issue during both years.

17. TRADE RECEIVABLES

	2022 HK\$'000	2021 HK\$'000
Trade receivables	35,658	11,802

The average credit period on construction works is 30 days.

An aging analysis of trade receivables as at the end of the reporting period, based on the invoice date. The analysis below is net of allowance for ECL:

	2022 HK\$'000	2021 HK\$'000
0-30 days	35,658	11,802

Receivables that were neither past due nor impaired relate to customers for whom there was no recent history of default.

18. CONTRACT ASSETS

	2022 HK\$'000	2021 HK\$'000
Unbilled receivables (<i>note (i)</i>)	153,649	49,575
Retention receivables (<i>note (ii)</i>)	9,734	13,393

Less: Non-current portion of retention receivables	(2,736)	(1,329)
	160,647	61,639

Notes:

- (i) Unbilled receivables included in contract assets represents the Group's right to receive consideration for work completed and not yet billed because the rights are conditional upon the satisfaction by the customers on the construction work completed by the Group and the work is pending for the certification by the customers. The contract assets are transferred to the trade receivables when the rights become unconditional, which is typically at the time the Group obtains the certification of the completed construction work from the customers.
- (ii) Retention receivables included in contract assets represents the Group's right to consideration for work performed and not yet billed because the rights are conditional on the satisfaction of the service quality by the customers over the maintenance period as stipulated in the contracts. The contract assets are transferred to the trade receivables when the rights become unconditional, which is typically after the expiry date of the maintenance period.

29. SHARE OPTION SCHEME

On 29 January 2020, the then shareholders of the Company approved and conditionally adopted a share option scheme (the “**Share Option Scheme**”).

No share option has been granted, exercised, cancelled or lapsed under the Share Option Scheme since its adoption and there was no share option outstanding as at 31 March 2022 and 2021.

The following is a summary of the principal terms of the Share Option Scheme.

(a) Purpose of the Share Option Scheme

The purpose of the Share Option Scheme is to recognise and acknowledge the contributions by Proposed Grantee (as defined in sub-paragraph (b) below) to the Company and the subsidiaries or invested entity and associated companies of the Company. By providing them with the opportunity to acquire equity interests in the Company, the Share Option Scheme aims to achieve the following objectives:

- (i) attract skilled and experienced personnel, to incentivise them to remain with the Company or its subsidiaries or any entity in which any member of the Group holds any equity interest (“**invested entity**”) (as the case may be) and to give effect to the Company’s customer-focused corporate culture, and to motivate them to think as shareholders of the Company and strive for the future development and expansion of the Company and its subsidiaries or invested entity; and
- (ii) attract and retain or otherwise maintain ongoing business relationships with suppliers and customers whose contributions are or will be beneficial to the longterm growth of the Company.

(b) Who may join

The Board may, at its absolute discretion, offer to grant an option to subscribe for such number of Shares as the Board may determine to the following persons (collectively, “**Proposed Grantee**”):

- (i) employee (whether full time or part time, and for the purposes of the Share Option Scheme also includes any executive Director and non-executive Directors (including independent non-executive Director) of the Company or any of its subsidiaries or invested entity (collectively, “**Employee**”);
- (ii) any advisor, consultant, supplier, customer or agent to the Company or any of its subsidiaries or invested entity provided that (i) such advisor, consultant, supplier, customer or agent provides bona fide services to or conduct business with the Company or any of its subsidiaries or invested entity, (ii) the services provided by or business with the advisor, consultant, supplier, customer or agent are not in connection with the offer or sale of securities in a capital-raising transaction of the Company and (iii) such advisor, consultant, supplier, customer or agent, or the services provided or the business conducted, do not directly or indirectly make a market for the Company’s securities (collectively, “**third party contributor**”),

Notes to the Consolidated Financial Statements

For the year ended 31 March 2022

29. SHARE OPTION SCHEME (Continued)

(b) Who may join (Continued)

provided that no prospectus is required to be issued in connection with such grant under the Companies Ordinance or Companies (Winding Up and Miscellaneous Provisions) Ordinance (Chapter 32 of the Laws of Hong Kong) or any other applicable laws. The Board may in its absolute discretion specify such conditions (if any) as it thinks fit when making such offer to the Proposed Grantee, including, without limitation and notwithstanding subparagraph (i), as to performance criteria to be satisfied by the Proposed Grantee and/or the Company before an option can be exercised.

(c) Maximum number of Shares available for issue

No share option has been granted under the Share Option Scheme as at the date of this annual report.

The total number of Shares available for issue under the Share Option Scheme is 100,000,000, representing approximately 10% of the Company's total number of issued shares as at the date of this annual report. The Company has 1,000,000,000 shares in issue as at the date of this annual report.

(d) Maximum entitlement of each individual and connected persons

No option may be granted to any one person such that the total number of Shares issued and to be issued upon exercise of options granted and to be granted to such person in any 12-month period up to the date of the latest grant exceeds 1% of the issued share capital of the Company from time to time. Any further grant of options in excess of this 1% limit will be subject to the approval of the shareholders of the Company in general meeting.

The independent non-executive Directors (excluding any independent non-executive Director who is a Proposed Grantee of the option(s)) will be required to approve each grant of options to a Director, chief executive or substantial shareholder of the Company or any of their respective associates. If a grant of options to a substantial shareholder of the Company or an independent non-executive Director, or their respective associates, will result in the total number of Shares issued and to be issued upon exercise of options granted and to be granted (including options exercised, cancelled and outstanding) to such person in the 12-month period up to and including the date of such grant:

- (i) representing in aggregate over 0.1% of the issued share capital of the Company from time to time; and
- (ii) having an aggregate value, based on the closing price of the Shares as stated in the Stock Exchange's daily quotations sheet at the date of each grant, in excess of HK\$5 million,

such further grant of options will be required to be approved by the shareholders of the Company in general meeting.

(e) Acceptance of an offer of options

An offer shall be accepted by the Proposed Grantee within 30 days from the date of the offer of grant of the option. A consideration of HK\$1.00 is payable on acceptance of the offer of the grant of an option.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2022

29. SHARE OPTION SCHEME (Continued)

(f) Exercise price

The exercise price in respect of any option shall be such price as determined by the Board and notified to any Grantee (subject to any adjustment made in accordance with the Share Option Scheme) and shall be the highest of: (i) the closing price of the Shares as stated in the Stock Exchange's daily quotations sheet for a board lot on the option offer date; (ii) the average closing price of the Shares as stated in the Stock Exchange's daily quotations sheets for a board lot for the five business days immediately preceding the date of grant; and (iii) the nominal value of the Share.

(g) Time of vesting and exercise of options

Subject to sub-paragraph (b), and unless otherwise determined by the Board and stated in the offer to a Proposed Grantee, no performance criteria are to be satisfied by a Proposed Grantee and/or the Company before the exercise of an option granted to him.

A Proposed Grantee may exercise his option in whole or in part (but, if in part, only in respect of a board lot or any integral multiple thereof) by giving notice in writing to the Company stating that the option is thereby exercised and specifying the number of Shares to be subscribed. Each such notice must be accompanied by a remittance for the full amount of the aggregate exercise price for the Shares in respect of which the notice is given. Within 30 days after receipt of the notice and the remittance, the Company will allot and issue the relevant Shares to the Proposed Grantee credited as fully paid and issue to the Proposed Grantee a share certificate in respect of the Shares so allotted.

Subject to any early vesting of options pursuant to Share Option Scheme, all options granted under the Share Option Scheme will be subject to a vesting period of up to ten years to be determined with respect to each Proposed Grantee by the Board at the time of grant of the relevant option and stated in the offer to a Proposed Grantee. In the absence of such requirements, a Proposed Grantee is not required to hold an option for any minimum period before the exercise of an option granted to him.

(h) Remaining life of the Share Option Scheme

The Share Option Scheme shall remain in force until 17 March 2030.

33. PARTICULARS OF PRINCIPAL JOINT OPERATIONS (Continued)

Notes:

- (a) The Group's attributable interest is equal to, greater or less than 50% in these body unincorporates. However, under the joint venture agreements, the joint operators have contractually agreed sharing of control over the relevant activities of these body unincorporates, hence all these body unincorporates are jointly controlled by the Group and the other joint operators. Furthermore, the relevant joint venture agreements specify that the Group and the other parties to the joint arrangements have rights to the assets and obligations to the liabilities relating to the joint arrangements in accordance with the attributable interest of the Group as disclosed above and the interest attributable to the other joint operators respectively, therefore these body unincorporates are classified as joint operations.
- (b) All principal joint operations engaged in construction work are contracted to carry out infrastructure and public facilities related works in Hong Kong. These joint operations are strategic to the Group's principal activities in construction work.
- (c) One of the Sang Hing-Kuly Joint Venture projects which provide site formation and infrastructure works for public housing developments in Kam Tin South, Yuen Long contributed 95.00% interest to the Group. The project was awarded in June 2021 by Civil Engineering and Development Department.

34. SUBSEQUENT EVENTS
