FIRST QUARTERLY  
REPORT

## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

*Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.*

# Management Discussion and Analysis

## BUSINESS REVIEW

During the Reporting Period, the Group's revenue managed to achieve significant growth as compared to the corresponding period of 2021, mainly attributable to the award of four street cleaning contracts in the second half of 2021 and one street cleaning contract in the May 2022.

Building on our competitive strengths, we continue to deploy strategies in enhancing operational efficiencies, improve asset utilization and utilize new technologies to deliver premium service to our customers. These strategic efforts allow us to bolster our holistic approach with a focus on creating economic benefit across our operations and to optimize our work performance.

### Cleaning Solutions Services

The provision of cleaning solutions services remains the main business of the Group. The Group has engaged in this business for over 30 years and has been steadily grown since its inception. Our business covers a comprehensive portfolio of environmental cleaning solutions, including providing street cleaning solutions, building cleaning solutions, bus and ferry cleaning solutions, waste management services, external wall and window cleaning, confined space cleaning as well as pest control and fumigation services in Hong Kong.

During the Reporting Period, the revenue generated by the Group from cleaning solutions services amounted to approximately HK\$220.8 million, representing an increase of 48.1% as compared to that of the corresponding period of 2021 (approximately HK\$149.1 million). Such increase is mainly attributable to (i) the award of the contract for the provision of street cleaning services for Fanling in North District in October 2021, (ii) the award of the contract for the provision of street cleaning services for Sheung Shui in North District in October 2021, (iii) the award of the contracts for the provision of street cleaning services in Southern District in November 2021, (iv) the award of the contract for the provision of street cleaning services in Tuen Mun District in December 2021 and (v) the award of the contract for the provision of street cleaning services in Yau Tsim District (North) in May 2022. The award of such contracts by the Food and Environmental Hygiene Department of the Government of Hong Kong ("**FEHD**") signifies their recognition of our quality service, which is able to meet their stringent requirements.

### Property Management Services

Though the revenue contributed by our property management services remains limited, it provides a stable and steady revenue stream to the Group. We believe the property management services may pose a synergy effect to our existing cleaning solutions services and become one of our main income streams in the future.

## OUTLOOK

The COVID-19 pandemic has painfully affected the economy of Hong Kong and the world over the past two years. We will remain cautiously monitoring the latest development of this pandemic together with the impact on the Hong Kong economy. Although the global economy remains fragile, we foresee the economy of Hong Kong is in recovery, and we are strongly confident about the prospects of the environmental cleaning services industry in Hong Kong.

Apart from the tenders from FEHD, we will strive to secure more new tenders from other government departments of Hong Kong. With our considerable resources, including our stable management force and experienced fleet management team, we believe that we are well-equipped to undertake more projects from government departments of Hong Kong, which generally require experienced cleaning services providers with substantial resources. Furthermore, we will explore and seize new business opportunities in the private sector to broaden our customer base, thereby generating further revenue to strengthen our financial position in the long run.

Going forward, we will fully utilize our financial resources and will continue to keep abreast of business and technology trends to assist our business operations in order to achieve sustainable growth. Highly committed to providing excellent service to our customers, we will formulate new business strategies and measures to improve our business performance and service quality, in order to maximize the return for our shareholders.
