Notes to the Unaudited Condensed Consolidated Financial Statements

3 FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks, credit risk, cash flow and fair value interest rate risk and liquidity risk. The unaudited condensed consolidated interim financial statements do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's audited consolidated financial statements for the year ended 31 December 2021, which have been prepared in accordance with HKFRSs issued by the HKICPA, as set out in the Company's annual report dated 31 March 2022.

There have been no changes in the risk management policies since 31 December 2021.

3.2 Fair value estimation

The carrying amounts of the Group's current financial assets, including trade and retention receivables, deposits and other receivables, restricted cash and cash and cash equivalents, and current financial liabilities, including trade and other payables, and lease liabilities, approximate their fair values as at the reporting date due to their short maturities. The nominal value less estimated credit adjustments for financial assets and liabilities with maturities of less than one year are assumed to approximate their fair values. The carrying value of non-current lease liabilities is assumed to approximate its fair value as the amount bears interest at commercial rate.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the unaudited condensed consolidated interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. In preparing the unaudited condensed consolidated interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the Company's audited consolidated financial statements for the year ended 31 December 2021, which have been prepared in accordance with HKFRSs issued by the HKICPA, as set out in the Company's annual report dated 31 March 2022.

Management Discussion and Analysis

BUSINESS REVIEW AND PROSPECTS

The Company has successfully listed its Shares on GEM of the Stock Exchange (the “**Listing**”) on 26 September 2019 (the “**Listing Date**”).

The Group is a wholesale licensed travel agent that primarily focuses on the provision of business-to-business domestic travel services and a car rental services provider based in Macau. The Group derived its revenue from (i) the sales and distribution of hotel rooms; (ii) the provision of car rental services under (a) its travel agent licence in Macau which allows it to provide car rental services for tourism-purpose only; (b) authorisation granted by the Macao Government Tourism Office which allows it to provide multi-purpose car rental services in Macau; and (c) authorisation granted by the Transport Bureau of Macau which allows the three vehicles of the Group to provide cross-border car rental services between Macau and Hong Kong from December 2019; (iii) the sales and provision of air tickets and other ancillary travel-related products and services such as entertainment tickets, buffet tickets, transportation tickets, travel insurance and visa applications; and (iv) sponsorship of singing concerts and cooperation with organisers of singing concerts.

During the six months ended 30 June 2022, the economy of Macau and Hong Kong were still under the severe impact of the outbreak of COVID-19 pandemic (the “**Pandemic**”). The travel restrictions on entry of Macau, Hong Kong and other locations continued to be in force throughout the period under review which badly hit the economy of Macau. As a result, the Pandemic continued to cause a serious influence to the travel industry of Macau and the overall income of Macau’s travel industry has substantially scaled down. In addition, in June 2022, due to increase in reported cases of COVID-19, the Macau government imposed stringent anti-epidemic measures, including closure of schools, entertainment venues, public dining, and other non-essential businesses and asking residents to stay home.

During the six months ended 30 June 2022, despite the increase in revenue as compared to the corresponding period, the Group’s business and financial performance continued to have been significantly and adversely affected by the Pandemic, as a result of the travel restrictions in Macau, the PRC, Hong Kong and overseas markets and the stringent anti-epidemic measures in Macau.

Going forward, the Directors expected the gradual relaxation of the travel restrictions in the future will be able to increase the number of visitors going to Macau and hence enable the Group to improve the business of the Group gradually. The Directors will continue to closely monitor the Group’s exposure to the above.

The Group’s strategic objective is to strengthen its established market position in Macau’s travel industry in order to generate satisfactory profits and investment returns for the Company’s shareholders and drive sustainable growth in the future. To do so, the Group plans to strategically look for opportunities to cooperate with more hotel operators, other travel agents and corporate customers in Macau. The Group intends to enter into agreements with more hotel operators to include mid and high-tier hotel rooms with a view to increase the number of hotel rooms and to expand its hotel base so as to attract business travellers and high spending customers and to increase the Group’s market share, and thereby generate a higher sales volume and higher revenue from the Group’s other services, such as car rental services. Also, the Group plans to expand the tourism business to the PRC and tap into other business opportunities so as to expand the source of revenue in addition to sales of hotel rooms and vehicle leasing of the Group to capture income sources related to the tourism industry in Macau. The Group believes that this can bring synergy to its existing travel business of sales and distribution of hotel rooms and car rental services.

Management Discussion and Analysis

In addition, as disclosed in the Company's announcement dated 3 May 2021 (the "**Announcement**"), the Group entered into a cooperation agreement with a concert promoter (the "**Concert Promoter**") for cooperating the organisation and sponsoring eight singing concerts held in the PRC by a well-known singing artist. The eight concerts were originally scheduled to be held in Beijing, Shenzhen, Shanghai and Chengdu of the PRC from August 2021 to November 2021. However, due to the Pandemic in the PRC and the stringent anti-epidemic measures imposed by the PRC government, the concerts were postponed to the second half of 2022. Based on the Company's discussion with the Concert Promoter, the Company understood that, as of 30 June 2022, the rescheduled concerts were further postponed to March to May 2023 (subject to further amendment depending on factors such as availability of venues) due to the ongoing stringent anti-epidemic measures imposed by the PRC government. The Company will continue to monitor the status and work closely with the concert promoter on the eight concerts.

FINANCIAL REVIEW

Revenue

The Group's revenue increased significantly by approximately 19.6% from approximately HK\$5.1 million for the six months ended 30 June 2021 to approximately HK\$6.1 million for the six months ended 30 June 2022. The significant increase in revenue was mainly attributable to the increase in revenue generated from the sales and distribution of hotel rooms and the provision of car rental services, which was mainly due to the increase in demand for hotel rooms and car rental services provided by the Group in Macau. According to the latest statistics released by Macao Government Tourism Office, the number of visitors visiting Macau has increased by approximately 8.0% for the first quarter of 2022, as compared to the corresponding period in 2021.

Cost of sales

The Group's cost of sales mainly comprised (i) cost of hotel rooms; (ii) distribution service fees; and (iii) cost of car rental services. For the six months ended 30 June 2021 and 2022, the cost of sales amounted to approximately HK\$3.6 million and HK\$6.4 million, respectively, representing an increase of approximately 77.8% during the period as compared to that of the previous period. Such increase was mainly driven by the increase in sales from the sales and distribution of hotel rooms and the provision of car rental services.

Gross loss

The Group recorded gross loss for the six months ended 30 June 2022 amounted to approximately HK\$0.3 million, comparing to gross profit of approximately HK\$1.5 million for the six months ended 30 June 2021. The gross loss was mainly driven by the lower markup offered to our customers to maintain competitive advantage over competitors in the market of sales and distribution of hotel rooms and the provision of car rental services.

Other income and gains

The Group's other income and gains increased from approximately HK\$0.4 million for the six months ended 30 June 2021 to approximately HK\$1.0 million for the six months ended 30 June 2022. The increase in other income and gains was mainly due to the increase in amount of government grants received and service fee during the six months ended 30 June 2022.

The Group's administrative expenses mainly comprised employee benefits expenses, depreciation expenses, rental and related expenses, office expenses, motor vehicle expenses, professional fees and advertising and promotion expenses. The Group's administrative expenses decreased from approximately HK\$11.1 million for the six months ended 30 June 2021 to approximately HK\$7.0 million for the six months ended 30 June 2022, representing a decrease of approximately 36.9%. The decrease in administrative expenses was mainly attributable to the decrease in advertising and promotion expenses, depreciation and amortization expenses, entertainment expenses, property rental and related expenses and absence of loss on disposal of property, plant and equipment for the six months ended 30 June 2022.

Income tax expenses

Loss for the period

Use of net proceeds from the Listing

The net proceeds (the "Net Proceeds") from the Listing, after deducting the actual underwriting fees and expenses paid by the Company, amounted to approximately HK\$39.3 million. Management Discussion and Analysis

As disclosed in the Announcement, the Group's financial performance and condition were affected by the Pandemic since 2020. For further details in relation to the reallocation, please refer to the Company's announcement dated 3 May 2021. The Group plans to utilise the unutilised portion of the Net Proceeds from the Listing by the year ending 31 December 2022 according to the disclosure in the prospectus and the Company's annual report dated 31 March 2022.

An analysis comparing the business objectives as set out in the Prospectus with the Group's actual business progress for the period from the Listing Date to the date of this report is set out below:

Business strategies as stated in the Prospectus and the Announcement	Actual business progress up to date of this report
Expand our car fleet	Up to the date of this report, the Group has purchased 12 new motor vehicles for the provision of point-to-point cross-border transportation services and car rental services in Macau. We will consider market demand in Macau to adjust the progress of our expansion plan of car fleet.

Cooperating with the organiser of singing concerts	Reference has been disclosed in the Announcement, we will cooperate with the organiser of singing concerts by sponsoring singing concerts held in the PRC and Macau of well-known stars and artists, subject to market demand in both the PRC and Macau and the development of the Pandemic. Due to the ongoing stringent anti-epidemic measures imposed by the PRC government, the singing concerts were further postponed to March to May 2023.
Expansion of tourism business to the PRC	Reference has been disclosed in the Announcement, the Group plans to expand its tourism business to the PRC in order to diversify its business. We are in the progress of identifying tourism business opportunities in the PRC.

Principal risks and uncertainties in achieving our business strategies

During the period under review, the Group faced certain risks and uncertainties in achieving our business strategies in accordance with the use of proceeds plan as set out in the Prospectus as follows:

- (1) The Pandemic has severely affected the travel and tourism industry of Macau after the imposition of the travel restrictions by the Macau government and sluggish consumers' sentiment. Travel restrictions and lock-down in Macau, the PRC and Hong Kong may continue or even tighten in the foreseeable future and remain uncertain and thus, the Group will strategically adhere to the business plan and will actively search for deals and other business opportunities to stabilize the impact of the Pandemic to the Group's business;
- (2) The Group may fail to find hotel operators with attractive terms to cooperate with to achieve our expansion plans;

Management Discussion and Analysis

- (3) When achieving our business plans, timing is of the essence. The Group may fail to grasp the business trend to determine the optimal time to enter the market or expand our new sales channel; and
- (4) In an increasingly volatile and complex business environment, the Group may face change in consumer behaviour and high competition when we launch our business plan.

In order to alleviate the above risks and uncertainties in achieving the Group's business strategies, the Group will ensure that its business plans are as resilient as possible to meet these challenges based on market conditions. The Group will carefully look at the business trends as well to determine if there is a strong entrepreneurial environment for us to lean on.

PRINCIPAL RISKS AND UNCERTAINTIES

The following are the principal risks and uncertainties faced by the Group, which may materially and adversely affect our business, financial condition or results of operations:

1. The Group's business and operation may continue to be seriously affected by the Pandemic or other public health incident, which may cause lock-down, travel restrictions and suspension of work in Macau, the PRC, Hong Kong or elsewhere and closure of casinos in Macau. The number of tourists visiting Macau may continue to decrease or remain at low level for a prolonged period due to the Pandemic, travel restrictions, lock-down and sluggish consumers' sentiment. The Pandemic may continue in the foreseeable future and measures of travel restrictions may be reintroduced or tightened, which may severely affect the travel and tourism industry of Macau and the business of the Group.
2. The Group's revenue was mainly derived from Macau and the Group's sales performance is susceptible to changes in Macau as well as the PRC policies and economic environment.
3. Customers may delay payment or default payment, yet the Group may be required to pay for the hotel rooms and the Group may bear the cost.
4. The Group's major suppliers might opt to deal with the Group's customers directly, alternatively the Group's travel agent customers may source hotel rooms from each other, thereby bypassing the Group.
5. Historically, the Group's revenue was substantially generated from the sales and distribution of hotel rooms from certain hotel operators in Macau (the "**Hotel Operators**"), and the Group's business and results of operation may be adversely affected if (i) the Hotel Operators terminate or refuse to renew the relevant agreement or (ii) the renewed terms become less favourable to the Group.
6. The Group is committed to secure a guaranteed number of hotel rooms at pre-determined room rates with various hotels operators. The Group may suffer from a decrease in profits or record a loss from the sales and distribution of the guaranteed hotel rooms if the Group is unable to sell and distribute the hotel rooms at rates higher than its respective pre-determined room rates or if hotels operators reduce the number of hotel rooms sold to the Group.
7. If the Group is unable to obtain and maintain adequate parking spaces at reasonable costs, the Group's growth opportunities may be adversely affected.

Save as disclosed in this report, the Group did not have other plans for material investments and capital assets as at 30 June 2022.

CORPORATE GOVERNANCE PRACTICE

The Board recognises that transparency and accountability are the cornerstones of the Company's corporate governance. Therefore, the Company is committed to maintaining high standards of corporate government in order to uphold the transparency of the Group and safeguard interests of our shareholders. The Company has adopted the Corporate Governance Code (the "CG Code") as set out in Appendix 15 to the GEM Listing Rules. In the opinion of the Board, the Company has in all material respects complied with the CG Code for the six months ended 30 June 2022, except for the deviations of paragraph C.2.1 of the CG Code, which is explained in the paragraph below.

Management Discussion and Analysis

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Paragraph C.2.1 of the CG Code stipulates that the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. During the six months ended 30 June 2022, Mr. Choi Wai Chan (“**Mr. Choi**”) was the chairman and the chief executive officer of the Company. Considering that Mr. Choi has been operating and managing the Group since 2014 and his expertise in the travel industry, the Board believes that it was in the best interest of the Group to have Mr. Choi taking up both roles for effective management and business development. Therefore, the Board considers that the deviation from paragraph C.2.1 of the CG Code was appropriate in such circumstance and in the interest of the Company.

As disclosed in the announcement dated 3 August 2022, Mr. Choi resigned as the executive Director and chairman and had ceased to act as the chief executive officer of the Company. Following Mr. Choi’s resignation, Ms. Zou Shuer (“**Ms. Zou**”), being an executive Director of the Company, has been appointed as the chairman of the Board and the Company’s chief executive officer with effect from 3 August 2022. As such, the Company has continued to deviate from paragraph C.2.1 of the CG Code. Considering that Ms. Zou joined the Group in September 2017 and has been overseeing the operation of the Group, the Board is of the opinion that it will be beneficial to the Company and its business to have Ms. Zou taking over the roles of both chairman and chief executive officer for a strong leadership for the Group and can be effective in planning and implementing long-term business strategies. The Board also considers that since the members of the Board include competent and independent non-executive Directors, this structure will not impair the balance of power and authority between the Board and its management in the business of the Group.

DIRECTORS’ INTERESTS IN COMPETING BUSINESS

During the six months ended 30 June 2022 and up to the date of this report, none of the Directors or the controlling shareholders their close associates (as defined under the GEM Listing Rules) has any interest in a business which competes or is likely to compete, either directly or indirectly, with the business of the Group.
