Section I DEFINITIONS AND MATERIAL RISK WARNINGS

II. MATERIAL RISK WARNINGS

The business of the Group is highly dependent on the overall economic and market conditions in China and other countries or regions where it operates. The Group's results of operations may be materially affected by various factors, such as macro-economic environment, cyclical fluctuations of the industry, development stages of the market, behaviors of the investors and the international economic conditions.

The Group is exposed to major risks in its business operations, including legal and compliance risks, whereby the securities company may be subject to legal liabilities or regulatory penalties, disciplinary actions due to failure to comply with laws, regulations and rules; credit risks, which may result in losses to the operations due to the inability of a borrower, counterparty or debt issuer to meet its agreed financial obligations; market risks, where proprietary investments record losses due to adverse fluctuations of market prices; operational risks triggered by deficiencies in internal processes, operational error and misconduct of staff, IT system failures, or impact from external sources; liquidity risks, where the Group is unable to obtain sufficient funds in a timely manner at a reasonable cost to repay the due debts, fulfil other payment obligations and meet the capital requirements for carrying out normal business; and reputational risks, where the corporate image among stakeholders is damaged due to the Group's operations, management, other acts or the external incidents. All these risks may directly affect the results of operations and financial position of the Group. In addition, these effects may overlap with each other due to the certain inherent correlation among these risk factors.

For the specific analysis of the abovementioned risks and measures that the Group has taken or will take, please refer to the "Potential risks" under the "Report of the Board of Directors" of the Report and pay special attention to the above risk factors.

Section III REPORT OF THE BOARD OF DIRECTORS

I. DESCRIPTIONS OF THE INDUSTRY IN WHICH THE COMPANY OPERATES AND ITS PRINCIPAL BUSINESSES DURING THE REPORTING PERIOD

For details of the industry in which the Company operates for the Reporting Period, please see “III. Management Discussion and Analysis” in this section.

The Group’s principal business lines comprise wealth management, investment banking, asset management, trading and institutional client services, financial leasing, etc. For details of the business activities of the Group, please see “III. Management Discussion and Analysis” in this section.

During the Reporting Period, the Group recorded revenue of RMB19,865 million, net profits attributable to shareholders of the parent company of RMB4,758 million, total assets of RMB749,566 million, and net assets attributable to shareholders of the parent company of RMB163,081 million, and the Group has been in a leading position in the industry for years in terms of the key financial indicators.

II. ANALYSIS OF THE COMPANY’S CORE COMPETITIVENESS DURING THE REPORTING PERIOD

During the course of its operations over the years, the Company has gradually built up its specific core competitiveness in the following six aspects.

1. Solid capital strength

The Company rapidly enhanced and maintained its solid capital strength through several rounds of strategic equity and bond financing, including A-share and H-share listing and secondary offering. In the first half of 2022, the Company seized market opportunities and completed several rounds of debt financing. The Company completed a series of domestic financing activities, raising over RMB30.0 billion through the issuance of corporate bonds, subordinated bonds and beneficiary certificates and enhancing the liquidity management capability and the risk prevention and control capability of the Company. Besides, the Company also actively expanded overseas financing channels to ensure the healthy and orderly development of overseas business. Adequate capital has laid a solid foundation for the Company to carry out business transformation and upgrading, satisfy domestic and overseas customers’ diversified needs for financial services and continuously improve its capability to serve the real economy.

Section III REPORT OF THE BOARD OF DIRECTORS

2. Outstanding comprehensive financial service platform

Based on the parent company's business, the Group has continuously expanded the scope of its financial products and services and extended the boundaries of financial services through setting up and acquiring professional subsidiaries. The Group has developed into a financial service group with businesses covering securities and futures brokerage, investment banking, proprietary trading, asset management, private equity investment, alternative investment, financial leasing and overseas banking. The Group's brokerage business boasts a solid customer base; its investment banking business has ranked in the forefront of the industry; the assets under management (the "AUM") of actively managed assets business increases steadily; the scale and brand influence of its private equity investment business has ranked top in the industry; the performance indicators of its Hong Kong business are in the forefront among all market players; its financial leasing business has been established and continues to maintain an industry-leading position; its research services business enjoys strong market recognition. The Group's integrated financial platform generates strong scale effect and cross-selling potentiality, which vigorously supports the business development and enables provision of comprehensive financing services to customers.

3. Extensive branch network and strong customer base

The Group's branch network covered six international financial centers in New York, London, Hong Kong, Shanghai, Singapore and Tokyo. As at the end of the Reporting Period, the Group had 338 securities and futures branches (including 301 securities branches and 37 futures branches) spanning across 30 provinces, municipalities and autonomous regions in the PRC. The Group also established branches, offices or subsidiaries in 15 countries and regions in five continents (Asia, Europe, North America, South America and Oceania). With a nationwide branch network and a strategic international presence, the Group has built a large and stable customer base. As at the end of the Reporting Period, the Group had over 20 million domestic and overseas customers.

Section III REPORT OF THE BOARD OF DIRECTORS

4. Industry-leading international cross-border service platform

By acquisition and consolidation of Haitong International and Haitong Bank, and establishment of a branch in Shanghai Free Trade Zone (FTZ), the Group has established an industry-leading international business platform and hence acquired first-mover advantages in the Asia-Pacific region, as well as the forward-looking strategic reserve in Europe and the United States.

Haitong International continued to reinforce its leading position among Hong Kong's investment banks. For equity financing, Haitong International took the lead in IPO and equity financing business among all investment banks in Hong Kong in terms of the number of bonds underwritten, and continued to boost its project execution capabilities and brand influence in overseas markets. For global debt financing business, Haitong International became a leader among global financial institutions in terms of the number of bond issuance. At the same time, Haitong International strove to implement the Environmental, Social and Governance ("ESG") concept and became a leading Chinese financial institution in the field of issuance of green and sustainable development bonds. In addition, Haitong International has become a comprehensive trading, research and sales platform serving global institutional customers. Section III REPORT OF THE BOARD OF DIRECTORS

5. *Financial leasing business*

Market conditions:

With intensified regulatory efforts on the financial leasing industry from regulatory authorities in recent years, the financial leasing industry has entered the crucial period with unified regulation, unified registration, accelerated clearing, transformation and optimization. During the Reporting Period, the number of market players in the financial leasing industry and the balance of financial leasing contracts decreased. China's financial leasing industry faced certain challenges in the short term, but it is still under the sound development stage with strong vitality in the mid-to-long term. On the one hand, financial leasing, characterized by "financing + assets-leasing" and close integration with the real economy, will effectively display the advantages in the integration of industry and finance and facilitate the high-quality economic development. On the other hand, with the release of the regulatory provisions of the China Banking and Insurance Regulatory Commission (CBIRC) and local financial regulatory departments and the implementation of specific regulatory measures on the financial leasing industry, the environment of the industry was significantly purified with remarkable effects in reducing the quantity and improving the quality. Various shell financial leasing enterprises without contact information were cleared and large financial leasing companies focusing on principal businesses with sound governance and strong strength showed outstanding advantages, further increasing the concentration in the industry.

Operating measures and performance:

In the first half of 2022, Haitong UT actively responded to the impacts of the pandemic, strengthened the assumption of responsibilities, accurately coordinated the prevention and control of the pandemic and the operation and development, closely followed the orientation of national strategies and policies and practically developed its leasing business. It made full use of fintech means and vigorously guaranteed uninterrupted business operation of the Company, contributing financial strength to winning the battle of the prevention and control of the pandemic and facilitating the stable development of real economies, continuously promoting the high-quality development of the Company and achieving increase in size and revenue. In the first half of 2022, the average yield rate of interest-bearing assets of Haitong UT was 6.88%. As at the end of the Reporting Period, the total assets of Haitong UT amounted to RMB116,192 million, representing an increase of 1.3% from the end of last year; non-performing asset ratio amounted to 1.07% and provision coverage ratio for non-performing asset amounted to 257.49%.

The Company has effectively implemented vertical risk management for subsidiaries in terms of nomination of subsidiaries' persons in charge of risk management, risk limit and reporting, approval of major issues, data connection, consolidation of risk control indicators, supervision and inspection, evaluation and assessment, etc.

3. *Measures to address risks and the performance during the Reporting Period*

The risks faced by the Company in operational activities mainly include: compliance risk, money laundering and terrorist financing risk, credit risk, market risk, operational risk, liquidity risk and reputational risk, details of which are as follows:

(1) *Compliance risk*

The "compliance risk" in the Management Measures for the Compliance of Securities Companies and Securities Investment Fund Management Companies (《證券公司和證券投資基金管理公司合規管理辦法》) refers to the risk that a securities and fund firm may be subject to legal liabilities or regulatory penalties, disciplinary actions, or incur property loss or reputational damage due to failure to comply with laws, regulations and rules as a result of the securities and fund firm or its staff's poor management or malpractices.

In accordance with the regulatory requirements of compliance management and in combination with the actual situation of the Company, the Company has established a scientific and reasonable organizational structure of compliance management and clear-cut job responsibilities to define the compliance management positions of the following persons, including the Board, the Supervisory Committee, the officers in charge of operation and management, chief compliance officer and other senior management, and the compliance department, other internal control departments, the subordinate units of the Company (including all departments, branches and subsidiaries) have well-defined roles and responsibilities, coordination and interaction. The Company has formulated the Management Measures for the Compliance of Haitong Securities Co., Ltd. (《海通證券股份有限公司合規管理辦法》) and relevant supporting compliance management systems, built a compliance management team, ensured strict compliance management for each business line, and made efforts to secure full implementation of various compliance systems, mechanisms and procedures through prior review, in-process monitoring, post-event examination, assessment and application of accountability. At the same time, many measures were launched by the Company for policy transmission and promotion of compliance in a bid to foster the business environment of "Full Compliance and Active Compliance."

Section III REPORT OF THE BOARD OF DIRECTORS

During the Reporting Period, the Company further enhanced the fundamental efforts in respect of compliance management such as compliance review, compliance inspection, compliance monitoring, compliance appraisal and accountability. In addition, the Company determined 2022 as the “Year of Compliance and Internal Control Culture Construction,” promoted the development of compliance and internal control culture within the Group, followed the philosophy of “compliance by all employees, top-down compliance, value creation by compliance, and taking compliance as the foundation of the Company’s survival,” upheld the principle of “personnel as the focus, problem as the direction, and long-term mechanism as the security,” focused on the five core missions including training and promotion, anti-money laundering, team building, problems identifying and addressing and system implementation, and promoted the Company to establish and improve the long-term mechanism for compliance and internal control, for the purpose of gradually realizing the upgrading of the compliance and internal control system of the Company.

(2) *Money laundering and terrorist financing risk*

The Guidelines for the Management of Money Laundering and Terrorist Financing Risk of Corporate Financial Institutions (Trial) 《法人金融機構洗錢和恐怖融資風險管理指引(試行)》 set out specific requirements for the management of money laundering, terrorist financing and proliferation financing risks. The risk of money laundering, terrorist financing and proliferation financing faced by the Company refers to the possibility that the Company’s products or services are used by lawbreakers to carry out money laundering, terrorist financing and proliferation financing activities. The Company has established a sound anti-money laundering organizational framework under the Board, forming an anti-money laundering management system coordinated by the anti-money laundering leading group of the Company, led by the compliance department for organization and implementation, and implemented by relevant business departments and branches. The Company has developed an anti-money laundering management system consisting of the money laundering risk management system of the Group, basic anti-money laundering system of the Company and other supporting systems and operating procedures.

During the Reporting Period, the Company comprehensively promoted the culture of and improved the standard of money laundering and terrorist financing risk management, through: (i) carrying out internal inspection in respect of anti-money laundering work of the Company and comprehensively reviewing the management of money laundering risk of each business line; (ii) enhancing the cultural promotion and organizing a series of trainings on money laundering risk management and striving to improve the front-line money laundering risk management capabilities; and (iii) actively fulfilling anti-money laundering promotion obligations and distributing promotional materials on anti-money laundering through the WeChat official account of the Company to improve the awareness of the investors on the prevention of money laundering and terrorist financing risks.

Section III REPORT OF THE BOARD OF DIRECTORS

(3) *Credit risk*

Credit risk refers to the risk that the Group may suffer loss as a result of failure by the borrower, counterparty or debt issuer to perform the stipulated financial obligations or any adverse change in their credit standing.

A. *Risks relating to self-owned cash and cash equivalents deposited in other financial institutions and securities brokerage business*

Cash and cash equivalents are mainly deposited in state-owned commercial banks or joint-stock commercial banks with good reputation, while the security deposits are deposited in the China Securities Depository and Clearing Corporation Limited. Such cash and cash equivalents are facing relatively low credit risks. In terms of securities brokerage business, trading is settled under gross margin to effectively avoid relevant credit risks.

B. *Risks relating to trading finance business*

The Group's trading finance business mainly includes: margin financing and securities lending, stock pledged repurchase, margin trading, stock repurchase transaction, etc. The relevant involved entities mainly manage and control the credit risk through formulating and implementing various strict systems and measures on due diligence, internal credit rating, project evaluation, credit approval management, daily mark-to-market, limit monitoring, post-lending tracking, credit enhancement, liquidation execution, judicial recourse and provision making.

C. *Risks relating to debenture transaction and investment business*

The Group attaches great importance to diversifying investment to control concentration risk. Investment subjects are mostly high credit rating assets. In credit risk management, the Group also keeps a close track of the operating conditions and credit rating changes of investment subjects, implements internal rating and standard credit management mechanism, and identifies and supplements credit risk monitoring indicators such as debt issuers, industries and geographic concentration. During the post-investment monitoring process, the Group updates the internal rating of debt issuer and credit limit indexes in a timely manner in accordance with the changes in financial indicators, significant risk events and negative public opinion, etc., and dynamically adjusts trading strategies.

Section III REPORT OF THE BOARD OF DIRECTORS

D. Risks relating to financial leasing business

In terms of conducting financial leasing business to support the development of the real economy, the Group develops credit risk management policies according to the industry and customers equally-focused strategy. In terms of industrial credit risk management, the Group dynamically tracks and assesses those risks according to the prosperity of the industry where financial leasing customers are operating, and correspondingly formulates relevant industry investment policies to control industry concentration risks. In terms of customer credit risk management and control, the Group mainly manages and controls customer credit risk through due diligence, internal rating, credit review, post-loan asset inspection, risk early warning and monitoring, and concentration limit control and other measures.

E. Risks relating to short-term intercorporate borrowing business such as bond repurchase, and OTC derivatives business

As for the short-term intercorporate borrowing business such as bond repurchase, the Group carefully selects the counterparties with good credit standing and secured securities with high credit rating through counterparty access and credit granting management, so as to control the level of credit risk from the source. In terms of OTC derivatives business, the Group establishes a sound regulation system and procedures covering areas including counterparties access and credit rating management, subject securities management, risk responses and handling and conducts daily mark-to-market throughout the term of OTC derivative transaction and manages counterparty credit risk by fully adopting measures such as net settlement and performance guarantee. The Group's counterparties of short-term intercorporate borrowing and OTC derivatives businesses are mainly commercial banks, securities companies, asset management plans and other entities. The Group selects appropriate business models, carefully and strictly controls the business scale and adopts appropriate risk control measures during the operations of the aforesaid businesses. Meanwhile, the Group pays attention to the correlation between credit risk and market risk, and adopts necessary monitoring and countermeasures for credit risks in the context of market fluctuations, including but not limited to transaction margin arrangement, internal rating and credit management of counterparties, future potential risk exposure measurement, wrong-way risk identification, etc.

Section III REPORT OF THE BOARD OF DIRECTORS

The Group continued to improve its credit risk management system in accordance with industry regulatory policies, the capital market environment and the Group's business development strategy. During the Reporting Period, the Group comprehensively implemented credit risk identification, assessment, measurement, monitoring, reporting and response work focusing on the same customer and the same business, based on the management measures on credit risk and other systems, including continuously upgrading the credit risk management information system that covers the business of its parent and subsidiaries based on the Group's T+1 risk data mart. The Group continued to improve the credit risk limit system in terms of asset quality, risk offset and concentration risk by enhancing its risk identification, measurement and stress testing capabilities, enhance the unified rating and centralized credit management mechanism, dynamically optimize the credit rating and credit limit models, develop intelligent customer relationship structure warning center at the group level and public opinion risk monitoring, default monitoring and warning, financial report risk monitoring and analysis and high-risk customer management tools using financial technologies such as cloud computing, blockchain, big data and artificial intelligence, and improve the systematic management procedures on risk assets under credit business, for the purpose of effectively tracking and monitoring the overall credit risks and the execution of risk limit of the Group. Based on the ESG risk management measures and other systems, the Group established and improved the customer ESG risk access and tracking and monitoring mechanism, and actively carried out customer ESG due diligence and ESG risk evaluation work. During the Reporting Period, the Group's core credit risk monitoring indicators were stable, and the overall credit risk was manageable.

For three types of financing business, the Company actively optimized the business structure, carefully assessed new projects, and enhanced the tracking, monitoring and management of existing projects. It strengthened the debt collection efforts of existing risky projects and made provision for credit impairment in a prudent and proactive manner, thereby ensuring adequate risk provision. As at the end of the Reporting Period, the average performance guarantee ratio of our customers in margin financing and securities lending business was 275.58%, the average performance guarantee ratio of our customers in securities repurchase transaction business was 273.64%, and the average performance guarantee ratio of our customers in stock pledged repo business operated was 265.77%. The collaterals provided by the lenders were sufficient, and the overall credit risk was manageable.

Section III REPORT OF THE BOARD OF DIRECTORS

(4) *Market risk*

Market risk mainly refers to the risk of losses of the Group's self-owned funds investment related business due to adverse changes in market prices (stock prices, interest rates, exchange rates, and commodity prices etc.) in its business activities.

- A. Stock price risk. Stock price risk mainly refers to the risk of changes in the market prices of the equity securities invested by the Group which could bring loss to the Group. The businesses with such risk mainly include equity securities proprietary business, market-making business and OTC derivatives business, etc. With high uncertainties, stock price risk is one of the Group's major market risks. The Group closely monitors the price fluctuation of relevant assets and has adopted relevant preventive measures. It monitors and controls those risks through tracking any variation in investment scale and value-at-risk (VaR) of securities positions on a daily basis. By implementing diversified investment strategies, the Group properly controlled and timely adjusted total investment amounts of various securities, and managed the market risk effectively by combining the use of various hedging instruments.
- B. Interest rate risk. Interest rate risk refers to the risk caused by changes in factors such as the market yield curve or credit spread. The businesses bearing such risks mainly include bond investment business and interest rate derivatives business. The Group managed interest rate risk by employing methods such as size control and investment portfolio re-balancing to achieve a reasonable allocation of assets, to match the maturities of liabilities and assets and by evaluating interest rate risk through regular measurement of indicators such as duration, convexity and DV01 of investment portfolios.
- C. Exchange rate risk. Exchange rate risk refers to the risk resulting from changes in foreign exchange rates. During the Reporting Period, the Group's international layout continued to improve. In light of the complex and volatile overseas market, the Group took the initiative to reduce the leverage level of overseas assets. The overall scale of foreign currency assets was reduced, and the risk exposure of exchange rate was also reduced accordingly. The Group continued to monitor and study the latest developments in the foreign exchange market, constantly optimized system construction and internal management, took various measures, including hedging transactions, to hedge and mitigate exchange rate risks exposure. The Group focused on matching foreign currency assets and liabilities to reduce the foreign exchange risk exposure. The Group also adopted treatments, for example, hedges of net investment in overseas operations and other means, to smooth the influence of foreign currency exposure on the Group's operating results. As at the end of the Reporting Period, the Group's exchange rate risk had no material impact on the financial statements.

Section III REPORT OF THE BOARD OF DIRECTORS

- D. Commodity price risk. Commodity price risk arise from the adverse changes of prices of various commodities. During the Reporting Period, the Group's commodity market risk exposure is relatively low and is hedged and effectively managed mainly by commodity derivatives such as commodity futures and options.

Save for the above-mentioned risk factors, overseas investment and transaction businesses conducted by the Group are also exposed to relevant market risks. Fluctuations of each element of market risk around the world may affect the overall profit or loss of the Group. During the Reporting Period, under the relevant requirements of the Group's market risk management measures, the Company continuously sped up the implementation of the procedures of market risk identification, assessment, measurement, monitoring, response and reporting at the Group level, and included the investment and transaction businesses of subsidiaries into the overall market risk management system. In terms of investment and transaction businesses conducted by the subsidiaries of the Group, the Group manages and controls those risks by setting and assigning market risk limit indicators such as value-at-risk limit and stop loss limit. Subsidiaries are required to strictly implement such requirements in daily business activities and submit risk reports to the parent company as required. The Group tracks and supervises its subsidiaries on their market risk profile and the implementation of risk limits based on the Group's T+1 risk data mart, the Group's market risk management system, risk reporting and other instruments or means.

The Group measures and controls market risks arising from various investment and transaction businesses through a VaR-based quantitative indicator system for market risks. VaR refers to the maximum possible loss arising from an investment portfolio due to market fluctuations in a specific forward-looking period in the future at a certain level of confidence, which is the main indicator to measure market risks. The specific measurement parameters of the Group's VaR model are confidence level of 95% and forward period of 1 day. The measurement of the model covers various financial assets and derivatives such as equity held at the Group level, interest rates and foreign exchange. The Group continuously monitors and evaluates the effectiveness of the VaR model by back testing and other means, and improves the VaR model according to the needs from business development and risk management. In addition, the Group has established a stress test management mechanism as an important supplement to the VaR model. By establishing various historical scenarios and simulation scenarios as well as the corresponding stress test transmission mechanism, the Group can measure the extreme losses that the investment and transaction businesses may face, and assess whether the losses are controlled at an acceptable level. During the Reporting Period, the ratio of the Company's VaR to its net assets at the end of each month and the ratio of the Group's VaR to its net assets both were kept under 0.3% and the market risk was controllable and acceptable.

Section III REPORT OF THE BOARD OF DIRECTORS

(5) *Operational risk*

Operational risk refers to the risk associated with losses arising from the defects of the internal processes, mis-operation or misconduct of staff, information system defects or breakdown, and external factors. Operational risk runs through all aspects of the Company's business development and daily operation process, and may lead to legal risk, compliance risk, reputational risk and other risks. Pursuant to the operational risk management measures, the Company leveraged on various tools (including Risk and Control Self-Assessment, Key Risk Indicators and Loss Data Collection) to carry out the identification, assessment, monitoring, and report of operational risk.

The Company conducted annual self-assessment of risk and control within the Group and special self-assessment of risk and control in accordance with the regulatory requirements and the new business development. The Company established the Key Risk Indicators System covering the main departments and units of the Group, and carried out regular collection and monitoring of key risk indicators. The Group conducted loss data collection and monitoring of operational risk within the Group, summarized and analyzed relevant information, as well as followed up the progress of risk mitigation measures. During the Reporting Period, there are no material change in the nature and extent of the operational risks faced by the Company. The existing operational risk management systems operated effectively, and no major operational risk events occurred that had a material impact on the Company's operations.

For information technology risks, the Company was continuously strengthening the construction of the information technology management system, continuously improving the network and information security incident emergency plan, monitoring and managing the information technology related conditions of system operation, system establishment, information security, technology management, etc. by carrying out our regular drills, adopting regular or irregular monitoring, special inspections and other methods, to prevent information technology risks. The Company continued to strengthen the construction, operation and maintenance of its information technology systems and conducted regular and irregular inspections and maintenance in strict compliance with the operational management procedures to ensure the reliability, stability and safe operation of the systems, and no major information technology risk events occurred during the Reporting Period.

Section III REPORT OF THE BOARD OF DIRECTORS

(6) *Liquidity risk*

Liquidity risk refers to the risk that the Company is unable to gain sufficient funds with reasonable cost in a timely manner to pay its due debts, satisfy other payment obligations and meet the fund requirements for carrying out normal business operations. As the proprietary trading business and financing business of the Company are relatively large, it is vulnerable to the factors including macro policy, changes in market, operation conditions and client credit profile during its operations. Meanwhile, liquidity risk may also arise from unmatched asset-liability structure.

In respect of daily liquidity risk management, by adhering to the determined liquidity risk preferences and limits of risk indicators, the Company has always ensured that the liquidity risk exposure is measurable, controllable and tolerable through reasonable monitoring mechanism and control measures. The Company reserved sufficient quality liquidity assets in compliance with management requirements, which ensured smooth business development and timely repayment of matured liabilities of the Company. The Company continued to improve the management and control system for daily liquidity and risk indicators, built a linkage system of capital and indicator combining with assets and liabilities, and improved a liquidity risk analysis framework including daily indicator position follow-up, monthly indicator assessment and forecast and department indicator disassemble, which enriched tools of liquidity risk management over different periods of time, and enhanced the efficiency of the Company's management and forecast of liquidity risk.

In terms of mid-term and long-term liquidity risk management, the Company continued to optimize its asset allocation structure, intensified its analysis on the development trend of assets and liabilities and control over liquidity risks from the source. On the one hand, the Company set up the assets and liabilities allocation committee to actively carry out asset and liability management and adjust its liability maturity mix by timely analyzing business development trend and potential need for mid-term and long-term funds, in order to ensure a reasonable maturity and scale match of assets and liabilities. On the other hand, the Company continued to enhance the level of liquidity refined management to ensure more reasonable liability structure and distribution of maturities, whilst maintaining a balance among asset safety, liquidity and profitability. During the Reporting Period, the Company valued maintaining good relationships with major commercial banks, emphasized regulated operations, maintained good reputation, and kept financing channels open.

Section III REPORT OF THE BOARD OF DIRECTORS

Furthermore, the Company steadily implemented the requirements on the liquidity risk management of the Group, and guided by the Group's liquidity risk management measures, the Company developed scientific and effective liquidity risk management strategies as per the business characteristics of each subsidiary, which basically realized the unified management of liquidity risk across the Group. Firstly, with the aim to guide the improvement of subsidiaries' liquidity risk management systems, the Company continued to implement classified management of subsidiaries in terms of risk and asset-liability management, etc. on the basis of liquidity risk management, with different requirements proposed from three aspects: organizational system guarantee, risk management and control framework and risk response measures. Secondly, the Company issued limit management requirements for the subsidiaries based on the consolidated liquidity risk indicators and the industry, location and risk features of the subsidiaries, to monitor the liquidity risk actuality of each subsidiary more effectively. Lastly, to strengthen the Group's capability to handle liquidity risks, the Company adopted the Group's liquidity supporting management measures as its general management guiding principle, continued to improve the support system for the Group's liquidity and safeguarded the Group against any liquidity risks.

During the Reporting Period, facing the change in market environment and internal capital demand, the Company actively planned on the basis of different areas to continuously strengthen the control on liquidity risks via prior risk identification, in-process risk mitigation and post-event improvement. The Company carried out market evaluation, grasped the timing of low interest rates to increase capital reserves through bond issuance and renew all due liabilities in a timely manner, which reduced the likelihood of the occurrence of liquidity risks and ensured its capability of stable operations in a complex market environment. During the Reporting Period, the daily average liquidity coverage ratio of the core liquidity monitoring indicators of the Company was 286.48% while the daily average NSFR was 165.97%, both of which exceeded the regulatory requirement and pre-warning standard.

Section III REPORT OF THE BOARD OF DIRECTORS

(7) *Reputational risk*

Reputational risk refers to the risk of negative comments to the Company by investors, issuers, regulators, self-regulatory organizations, the public and the media due to the Company's acts or external events, as well as violations of integrity regulations, professional ethics, business norms, and industry rules and regulations by its employees, which may damage the Company's brand value, adversely affect the normal operation of the Company, and even affect market stability and social stability.

The Company attached great importance to the forward-looking and proactive management of reputational risk, continuously met the requirements of the regulatory authorities on systematic management of reputational risk, strengthened reputational risk monitoring domestically and abroad and established publicity channels in Mainland China and Hong Kong in order to take the initiative in publicity based on the Company's operating results and business development highlights, which can create a favorable public opinion environment for the Company's development. The Company could make correct judgments, respond quickly and take the initiative to respond to a small number of negative public opinions reports. Share Option Scheme of Haitong International

The shareholders of Haitong International approved the adoption of a new share option scheme (the "2015 Share Option Scheme") on 8 June 2015 (the "Adoption Date"). A summary of the principal terms of the 2015 Share Option Scheme, as disclosed in accordance with the Listing Rules, is set out as follows:

Purpose of the 2015 Share Option Scheme:

To attract, retain and motivate talented employees to strive towards long term performance targets set by Haitong International with an opportunity to obtain an equity interest in Haitong International, thus linking their interest with the interest of Haitong International and thereby providing them with an added incentive to work better for the interest of Haitong International.

Section IV CORPORATE GOVERNANCE

Participants of the 2015 Share Option Scheme:

Any director (whether executive or non-executive and whether independent or not) or employee (whether full-time or part-time) of Haitong International (whether on an employment or contractual or honorary basis and whether paid or unpaid), who, in the absolute opinion of the board of Haitong International, have contributed to Haitong International.

Total number of shares available for issue under the 2015 Share Option Scheme and percentage of Haitong International's issued share capital as at the date of this annual report:

The total number of shares which may be issued upon exercise of all options to be granted under the 2015 Share Option Scheme and any other share option schemes of Haitong International shall not in aggregate exceed 212,924,439 shares (the "**Scheme Limit**"), representing approximately 10% of the issued shares of Haitong International as at 30 November 2014, being the date of tentative approval of the 2015 Share Option Scheme by the management of Haitong International. In respect of the period of 12 months from the Adoption Date and for each of the subsequent periods of 12 months from the previous anniversary of the Adoption Date (each of those 12-months periods is hereinafter referred to as a "**Scheme Year**"), the total number of shares of Haitong International which may be issued upon exercise of the options granted in each Scheme Year shall not exceed 21,292,444 shares (the "**Annual Limit**"). Haitong International may from time to time seek approval of its shareholders and the approval of the shareholders of the Company (so long as Haitong International is a subsidiary of the Company under the Listing Rules) in respective general meetings to renew the Scheme Limit and/or the Annual Limit such that the total number of shares of Haitong International in respect of which options may be granted by Directors under the 2015 Share Option Scheme (i) in respect of the Scheme Limit, shall not exceed 10% of the issued share capital of Haitong International as at the date of approval of the refreshment; and (ii) in respect of the Annual Limit, shall not exceed 1% of the issued share capital of Haitong International as at the date of approval of the refreshment. Options previously granted under the 2015 Share Option Scheme and any other share option schemes of Haitong International (including those outstanding, cancelled, lapsed or exercised options) will not be counted for the purpose of calculating such limits as refreshed. Notwithstanding the aforesaid in this paragraph, the maximum number of shares of Haitong International which may be issued upon exercise of all outstanding options granted and yet to be exercised under the 2015 Share Option Scheme and any other share option schemes of Haitong International shall not exceed 30% (or such higher percentage as may be allowed under the Listing Rules) of the total number of Haitong International's shares in issue from time to time.

As at the date of the 2021 Annual Report of Haitong International, the total number of shares available for issue under the 2015 Share Option Scheme was 170,498,869 shares, which represented approximately 2.82% of the issued share capital of Haitong International at that day.

Section IV CORPORATE GOVERNANCE

Maximum entitlement of each participant under the 2015 Share Option Scheme:

The maximum number of shares issued and to be issued upon exercise of the options granted to each participant under the 2015 Share Option Scheme and any other share option schemes of Haitong International (including both exercised and outstanding options) in any 12-month period shall not exceed 1% of the total number of Haitong International's shares in issue. Any further grant of share options in excess of this limit is subject to approval by the shareholders of Haitong International at a general meeting. Share options granted to a director, chief executive or substantial shareholders of Haitong International, or to any of their respective associates, are subject to approval in advance by the independent non-executive directors of Haitong International. In addition, any share options granted to a substantial shareholder of Haitong International or an independent non-executive director of Haitong International, or to any of their respective associates, in excess of 0.1% of the total number of shares of Haitong International in issue at the date on which such grant is proposed by the board of directors of Haitong International and with an aggregate value (based on the closing price of Haitong International's shares at the date on which such grant is proposed by the Board) in excess of HK\$5 million, within any 12-month period, are subject to shareholders' approval in advance at a general meeting of Haitong International, with all connected persons of Haitong International shall abstain from voting (except where any connected person may vote against the relevant resolution at such general meeting provided that his intention to do so has been stated in the circular to the shareholders of Haitong International and that the relevant Listing Rules have been complied with).

The period within which the shares must be taken up under an option and the minimum period for which an option must be held before it can be exercised:

The exercise period of the share options granted is determinable by the board of directors of Haitong International, and such period shall commence not earlier than 6 months from the date of the grant of the options and expire not later than 5 years after the date of grant of the options.

The amount payable on application or acceptance of the option and the period within which payments or calls must or may be made or loans for such purposes must be paid:

The offer of a grant of share options may be accepted within 28 days from the date of the offer upon payment of a consideration of HK\$1 by the grantee.

The basis of determining the exercise price:

The exercise price of the share options is determinable by the board of directors of Haitong International, and shall be at least the highest of (i) a price equal to 110% of the closing price of Haitong International's shares as stated in the Stock Exchange's daily quotations sheet on the offer date; (ii) the average closing price of Haitong International's shares as stated in the Stock Exchange's daily quotations sheets for the 5 business days immediately preceding the offer date; and (iii) the nominal value of Haitong International's share.

The remaining life of the 2015 Share Option Scheme:

The 2015 Share Option Scheme shall be valid and effective for a period of 10 years commencing from the date on which it is conditionally adopted by resolution of Haitong International at general meetings and will expire on 7 June 2025.

The Company constantly carried out the project under "Love in Haitong • Beautiful Tibet" for four consecutive years in Shigatse, Tibet and provided pair-up assistance to 70 Tibetan college students in aggregate to help them complete the four-year undergraduate education in college. The Party and Chinese Communist Youth League organizations of the Company at all levels actively cared about students and made regular return visits to assist them in better integrating into college life. The first 30 students who had received assistance have graduated in June this year.

SECTION V ENVIRONMENTAL AND SOCIAL RESPONSIBILITIES

(II) Working together and actively participating in comprehensive assistance in rural area and pair-up assistance through partnering with urban and rural Party organizations

1. *Focusing on key industries and facilitating the new round of development and revitalization of Chongming District*

Based on its professional advantages, the Company effectively allocated the work force and assistance funds and solidly carried out comprehensive assistance in rural area and pair-up assistance through partnering with urban and rural Party organizations. The Company has donated an assistance fund of RMB5 million to Chongming District each year since 2013 and completed the allocation of a special fund of RMB5 million in the first half of 2022. Over the past ten years, the Company has invested a total of RMB50 million of assistance funds in the Phase-I and Phase-II construction of the Changxing Marine Science and Technology Port in Chongming District, and other key economic driving projects.

2. *Household visits and voluntary services offering sincere love in pair-up assistance*

The Party committee of the Company is always concerned about the life of residents in paired areas and assisted poverty-stricken residents in solving practical difficulties. In February 2022, leaders of the Party committee of the Company led a team to visit Chongming District, offered sympathy payments and gifts to poverty-stricken households in Fu'an Village and provided gifts and wishes to representatives of community workers of the Sunshine Center with long-term cooperation and pair-up youngsters. Eight Party and Chinese Communist Youth League organizations under the Party committee of the Company also regularly paid household visits to the Party organizations of pair-up villages and townships. During the outbreak of the pandemic, the Company also achieved the organic combination of online activities with the theme of "One Haitong with Youth Fighting against the Pandemic" and assistance work and invited 100 teenagers with difficulties from Jinshan and Chongming districts to participate in online lectures on mental health and financial education through the "Rainbow Classroom" to help the children ease pressures, respond to the pandemic and increase the knowledge.

SECTION V ENVIRONMENTAL AND SOCIAL RESPONSIBILITIES

(III) Vigorously fighting against the pandemic and fulfilling the social responsibilities and undertakings of a state-owned financial enterprise

A new round of the COVID-19 pandemic spread across the country in the first half of 2022. The Party organizations of the Company at all levels and all Party members, cadres and employees actively participated in the prevention and control of the pandemic and made a donation of funds and materials of RMB13,528,000 in total. Facing the severe situation of the epidemic prevention and control, the Party committee of the Company issued calls for fighting against the pandemic to all Party organizations, Party members, carders and employees immediately and organized a volunteer service team on epidemic control with over 2,000 members. Responding to the calls of the Party and Chinese Communist Youth League organizations of the Company, all employees actively participated in volunteer services on the prevention and control of the pandemic. As at the end of June 2022, a total of nearly 7,500 volunteers participated in voluntary services on the prevention and control of the pandemic.

In the future, the Company will continue to thoroughly implement the guiding spirit of the CPC Central Committee on consolidating the achievements of poverty alleviation and rural revitalization, conscientiously fulfill the responsibilities and missions of state-owned enterprise and make greater contributions to the strategy on rural revitalization. Meanwhile, with the “Love in Haitong” party building public welfare brand as guidance, the Company will focus on paired areas and border ethnic areas to constantly provide education assistance, thereby promoting ethnic unity and safeguarding the stable development in border areas.

REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

TO THE BOARD OF DIRECTORS OF HAITONG SECURITIES CO., LTD.

(Incorporated in the People's Republic of China with limited liability)

INTRODUCTION

We have reviewed the interim condensed consolidated financial information set out on pages 122 to 202, which comprises the interim condensed consolidated statement of financial position of Haitong Securities Co., Ltd. (the "Company") and its subsidiaries (together, the "Group") as at 30 June 2022, and the interim condensed consolidated statement of profit or loss, the interim condensed consolidated statement of comprehensive income, the interim condensed consolidated statement of changes in equity, the interim condensed consolidated statement of cash flows for the six-month period then ended, and notes, comprising significant accounting policies and other explanatory information. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting". The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information of the Group is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

(All amounts in RMB'000 unless otherwise stated)

1. GENERAL INFORMATION OF THE GROUP

Haitong Securities Co., Ltd. (the “Company”) was transformed from Shanghai Haitong Securities Company (上海海通證券公司), which was established in 1988, to a limited liability company upon the authorisation by the People’s Bank of China in September 1994 and changed its name to 海通證券有限公司. In December 2001, the Company was further transformed to a joint-stock company upon the approval from China Securities Regulatory Commission (the “CSRC”). In January 2002, the Company changed its name from 海通證券有限公司 to Haitong Securities Co., Ltd. (海通證券股份有限公司). In June 2007, the Company’s merger with former Shanghai Urban Agro-Business Co., Ltd. (上海市都市農商社股份有限公司) was approved by the CSRC, and was listed on the Shanghai Stock Exchange in July in the same year. After its listing, its name was changed to “Haitong Securities”. On 27 April 2012, the Company issued H shares which were listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Hong Kong Stock Exchange”).

The address of the Company’s registered office and the principal place of business is Haitong Securities Building, No. 689 Guangdong Road, Shanghai, the People’s Republic of China (the “PRC”).

The Company and its subsidiaries (the “Group”) are principally engaged in securities brokerage; proprietary securities activities; securities underwriting and sponsorship; securities investment advisory; financial consultancy related to securities trading and investment activities; direct equity investments; securities investment fund distribution; introducing brokerage business for futures companies; margin financing and securities lending; agency sale of financial products; stock option market-making. For other businesses approved by the China Securities Regulatory Commission, the Company may invest abroad to set up subsidiaries to engage in investment business such as financial products (Projects that require approval according to law can only carry out business activities after approval by the relevant departments).

The interim condensed consolidated financial information is presented in Renminbi (“RMB”), which is also the functional currency of the Company.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

The interim condensed consolidated financial information of the Group has been prepared in accordance with International Accounting Standards (“IAS”) 34, “Interim Financial Reporting” and applicable disclosure requirements of the Rules Governing the Listing of Securities on the Hong Kong Stock Exchange.

The interim condensed consolidated financial information has been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value, as appropriate.

The Group adopted the going concern basis in preparing its interim condensed consolidated financial information.

The interim condensed consolidated financial information does not include all the notes of the type normally include in an annual financial statement. Accordingly, it should be read in conjunction with the annual financial statements for the year ended 31 December 2021, which have been prepared in accordance with International Financial Reporting Standards (“IFRSs”) issued by the International Accounting Standards Board (“IASB”), and any public announcement made by the Company during the interim reporting period.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the adoption of new and amended standards as set out in 2.1 below.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.1 New and amended standards adopted by the Group

The Group has adopted the new and amended standards from 1 January 2022 in their first interim financial statements:

- (a) Property, Plant and Equipment – Amendments to IAS 16
- (b) Provisions, Contingent Liabilities and Contingent Assets – Amendments to IAS 37
- (c) Business Combinations – Amendments to IFRS 3

(a) Amendments to IAS 16: Property, Plant and Equipment

Amendments to IAS 16, 'Property, plant and equipment' prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss. The adoption of the amendments does not have a significant impact on the Group's interim condensed consolidated financial information.

(b) Amendments to IAS 37: Provisions, Contingent Liabilities and Contingent Assets

Amendments to IAS 37, 'Provisions, contingent liabilities and contingent assets' specify which costs a company includes when assessing whether a contract will be loss-making. The adoption of the amendments does not have a significant impact on the Group's interim condensed consolidated financial information.

(c) Amendments to IFRS 3: Business Combinations

Amendments to IFRS 3: 'Business combinations' update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations. The adoption of the amendments does not have a significant impact on the Group's interim condensed consolidated financial information.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Impact of standards issued but not yet applied by the Group

			Effective for annual periods beginning on or after
(a)	IFRS 17	Insurance Contracts	1 January 2023
(b)	Amendments to IAS 1	Classification of Liabilities as Current or Non-current	1 January 2023
(c)	Amendments to IAS 1 and IFRS Practice Statement 2	Disclosure of Accounting Policies	1 January 2023
(d)	Amendments to IAS 8	Definition of Accounting Estimates	1 January 2023
(e)	Amendments to IAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction	1 January 2023
(f)	Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and Its Associate or Joint Venture	The amendments were originally intended to be effective for annual periods beginning on or after 1 January 2016. The effective date has now been deferred. Early adoption of the amendments continue to be permitted

The Group anticipates that the adoption of these new standards and amendments will not have a significant impact on the Group's consolidated financial statements.

2.3 Critical accounting estimates and judgements

The Group continually evaluates the significant accounting estimates and judgements applied based on historical experience and other factors, including reasonable expectations of future events. The critical accounting estimates and key assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are consistent with these policies applied in preparing the financial statements for the year ended 31 December 2021.

3. SEGMENT REPORTING

Information reported to the chief operating decision maker (the "CODM"), being the board of directors of the Company, for the purposes of resource allocation and assessment of segment performance focuses on the nature of products sold and services provided by the Group, which is also consistent with the Group's basis of organisation, whereby the businesses are organised and managed separately as individual strategic business units that offers different products and serves different markets. The Group's business segments are classified in accordance with the requirements of IFRSs, and are based on the internal organisation structure, management requirements and internal reporting system. The reporting segments are determined based on business segments. A business segment is a component of the Group with all the following conditions satisfied: (1) such component is able to generate revenue and expenses in the ordinary course of the Group, (2) CODM periodically evaluates the operating results of these reporting segments to make decisions about resources to be allocated to the segments and assess their performance; (3) the Group has access to such component's accounting information including financial position, operating results and cash flows. If two or more business segments have similar economic characteristics or a similar business model, they may be combined as one business segment. Based on its strategic planning and internal management requirements, the Group determines six business segments: wealth management, investment banking, asset management, trading and institution, finance lease and others. Classification of reporting segments is consistent with that of business segments.

3. SEGMENT REPORTING (continued)

Segment information is measured in accordance with the accounting policies and measurement criteria adopted by each segment when reporting to CODM, which are consistent with the accounting and measurement criteria in the preparation of the interim condensed consolidated financial information.

Specifically, the Group's operating segments are as follows:

- (1) Wealth Management Segment engages in provision of a full range of financial services and investment solutions to retail and high net-worth clients. Services provided include brokering and dealing in securities and futures, investment consulting, wealth management as well as financial services such as margin financing, security lending, stock pledge, etc.;
- (2) Investment Banking Segment engages in provision of sponsoring and underwriting services to enterprises and government clients for their fund raising activities in equity and debt capital markets, and also engages in provision financial consulting services for enterprises for their corporate actions such as merger and assets restructuring services as well as provision of services related to the National Equities Exchange and Quotations;
- (3) Asset Management Segment engages in provision of investment management services on diversified and comprehensive investment products including asset management, fund management, and private equity management to individual, corporate and institutional clients;
- (4) Trading and Institution Segment engages in provision of stock sales and trading, prime brokerage, stock lending, and stock research in financial markets across the world to global institutional clients, and also engages in provision of market-making services for fixed income, currency and commodity products, futures and options, and derivatives on major exchanges around the world;
- (5) Finance Lease Segment engages in provision of innovative financial solutions, including finance lease, operating lease, factoring, entrustment loans and relevant consulting to individuals, enterprises and government clients;
- (6) Others Segment engages in provision of other comprehensive financial and information services to institutional clients, including warehouse receipts pledge service, etc.

Segment profit/loss represents the profit earned by/loss measured by each segment without allocation of income tax expenses. This is the measure reported to CODM for the purposes of resource allocation and performance assessment.

4. COMMISSION AND FEE INCOME

	Six months ended 30 June	
	2022 (Unaudited)	2021 (Unaudited)
Securities, futures and options dealing and broking fee income	3,984,888	4,528,298
Underwriting and sponsors fee income	2,347,204	2,392,905
Asset management fee income (including fund management fee income)	1,108,055	1,845,893
Financial advisory and consultancy fee income	203,137	291,438
Others	56,027	72,764
	7,699,311	9,131,298

The major business types of commission and fee income from customers are as follows:

(1) Brokerage

The Group provides broking, dealing and handling services for securities, futures and options contracts. Commission income is recognised at a point in time on the execution date of the trades at a certain percentage of the transaction value of the trades executed.

(2) Investment Banking

The Group provides placing, underwriting or sub-underwriting services to customers for their fund raising activities in equity and debt capital markets, and also structured products arrangement services. Revenue is recognised at a point in time when the relevant placing, underwriting, sub-underwriting or structured products arrangement activities are completed. The Group also provides sponsoring services to clients for their fund raising activities and corporate advisory services to corporate clients for their corporate actions. The Group considers that all the services promised in a particular contract of being a sponsor or corporate advisor are interdependent and interrelated and should therefore be accounted for as a single performance obligation.

(3) Asset management

The Group provides asset management and investment advisory services on diversified and comprehensive investment products to customers. The customers simultaneously receive and consumes the benefit provided by the Group, hence the revenue is recognised as a performance obligation satisfied over time. Asset management fee income is charged at a fixed percentage per month of the net asset value of the managed accounts under management of the Group. The Group is also entitled to a performance fee when there is a positive performance for the relevant performance period and it is recognised at the end of the relevant performance period, when it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and when the uncertainty associated with the variable consideration is subsequently resolved.

As at 30 June 2022, the Group's most contracts with customers have original expected duration of less than one year.

	179,954,155	156,448,163

Bank balances and cash consist of cash on hand and deposits which bear interest at the prevailing market rates.

Notes:

- (i) The Group received and held cash deposited by clients in the course of the conduct of the regulated activities. The Group has recognised the corresponding amount in accounts payable to brokerage clients (Note 44). The Group did not have a legally enforceable right to offset these payables and clients' deposits.
- (ii) The non-current restricted bank deposits include risk reserves and margin deposits over one year.

33. CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of the following:

	30 June 2022 (Unaudited)	31 December 2021 (Audited)

Less: Allowance for ECL	(2,019,860)	(1,713,685)
	69,668,201	75,223,404
Analysed for reporting purpose as:		
Current assets	69,668,201	75,223,404

Note:

The credit facility limits for margin clients are determined by the discounted market value of the collateral securities accepted by the Group.

The majority of the loans to margin clients, which are secured by the underlying pledged securities, are interest bearing. The Group maintains a list of approved stocks for margin lending at a specified loan to collateral ratio. Any excess in the lending ratio will trigger a margin call which the customers have to make up the shortfall.

Loans to margin clients as at 30 June 2022 were secured by the customers' securities to the Group as collateral with undiscounted market value of approximately RMB231,031,213 thousand (31 December 2021: RMB263,615,471 thousand).

As at 30 June 2022, cash collateral received from clients for securities lending and margin financing arrangement, included in the Group's accounts payable to brokerage clients amounted to approximately RMB9,000,047 thousand (31 December 2021: RMB8,073,655 thousand).

The directors of the Company are of the opinion that the aging analysis does not give additional value in view of the nature of the business. As a result, no aging analysis is disclosed. The Group determines the allowance for impaired debts based on the evaluation of collectability and management's judgment including the assessment of change in credit quality, collateral and the past collection history of each client. The concentration of credit risk is limited due to the customer base being large and unrelated.

Sales and repurchase agreements are transactions in which the Group sells a security and simultaneously agrees to repurchase it (or an asset that is substantially the same) at a fixed price on a future date. Since the repurchase prices are fixed, the Group is still exposed to substantially all the credit risks and market risks and rewards of those securities sold. These securities are not derecognised from the financial statements but regarded as "collateral" for the liabilities because the Group retains substantially all the risks and rewards of these securities.

The following tables provide a summary of carrying amounts or fair values related to transferred financial assets of the Group and the associated liabilities:

As at 30 June 2022

	Financial assets at fair value through profit or loss	Debt instruments at fair value through other comprehensive income	Debt instruments measured at amortised cost	Financial assets held under resale agreements	Others	Total

54. RESERVES AND RETAINED EARNINGS

The amounts of the Group's reserves and the movements therein during the period are presented in the consolidated statement of changes in equity.

(a) Capital reserve

The balance of capital reserve mainly includes share premium arising from the issuance of new shares at prices in excess of par value attributable to shareholders of the Company and other capital reserve arising from equity transactions.

(b) Revaluation reserve

It mainly represents the fair value changes of debt instruments measured at FVTOCI and equity instruments measured at FVTOCI.

(c) General reserves

The general reserves comprise statutory reserve, general risk reserve and transaction risk reserve.

Pursuant to the Company Law of the PRC, 10% of the net profit of the Company, as determined under the PRC accounting regulations and before distribution to shareholders, is required to be transferred to a statutory reserve until such time when this reserve represents 50% of the share capital of the Company. The reserve appropriated can be used for loss-covering, expansion of production scale and capitalisation, in accordance with the Company's articles of association or approved by the shareholders in a shareholders' general meeting.

In accordance with the Financial Rules for Financial Enterprises, the Company is required to appropriate 10% of net profit derived in accordance with the relevant accounting rules in the PRC before distribution to shareholders as general risk reserve from retained earnings.

54. RESERVES AND RETAINED EARNINGS (continued)

(c) General reserves (continued)

Pursuant to the Securities Law of the PRC, the Company is required to appropriate 10% of the net profit derived in accordance with the relevant accounting rules in the PRC before distribution to shareholders as transaction risk reserve from retained earnings and cannot be distributed or transferred to share capital.

(d) Retained earnings

In accordance with the relevant regulations, the distributable profits of the Company is deemed to be the lower of (i) the retained earnings determined in accordance with PRC GAAP and (ii) the retained earnings determined in accordance with IFRSs.

55. CREDIT COMMITMENTS

	30 June 2022 (Unaudited)	31 December 2021 (Audited)
Contingent Liabilities:		
– Guarantees and standby letters of credit income	920,911	963,048
Commitments:		
– Irrevocable credit commitments	1,035,368	1,824,989

Guarantees and standby letters of credits are banking operations that may imply out-flow by the Group only at default condition.

Irrevocable commitments represent contractual agreements to extend credit to the Haitong Bank's customers (e.g. unused credit lines). These agreements are, generally, contracted for fixed periods of time or with other expiration requisites, and usually require the payment of a commission. Substantially, all credit commitments require that clients maintain certain conditions verified at the time when the credit was granted.

60. INTERESTS IN CONSOLIDATED STRUCTURED ENTITIES

The Group had consolidated certain structured entities including asset management products. For the asset management products where the Group acts as manager or invested in, the Group assesses whether the combination of investments it held, if any, together with its remuneration and other interests creates exposure to variability of returns from the activities of the asset management products that is of such significance that it indicates that the Group is a principal.

The financial impact of these asset management products on the Group's financial position as at 30 June 2022 and 31 December 2021, and the results and cash flows for the six months ended 30 June 2022 and the year ended 2021, though consolidated, are not individually significant to the Group. Therefore, the financial information of these consolidated structured entities is not disclosed individually.

As at 30 June 2022, interests in all consolidated structured entities directly held by the Group amounted to fair value of RMB33,309,050 thousand (31 December 2021, RMB30,119,941 thousand). It contains the interests in the subordinated tranche of those structured products held by the Group. The Group provides credit enhancement to the senior tranche investors by holding such subordinated tranche interests. As at 30 June 2022, the fair value of the Group's interests in the subordinated tranche of those structured products is RMB10,441 thousand (31 December 2021, RMB370,590 thousand).

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

(All amounts in RMB'000 unless otherwise stated)

61. INTEREST IN UNCONSOLIDATED STRUCTURED ENTITIES

Except for the structured entities the Group has consolidated as detailed in Note 60, in the opinion of the directors of the Company, the variable returns the Group exposed to over the structured entities that the Group acts as manager are not significant or does not have power over them. Therefore, the Group did not consolidate these structured entities.

As at 30 June 2022, the carrying amount of unconsolidated structured entities in which the Group acted as investment manager and held financial interests and its maximum exposure to loss in relation to those interests amounted to RMB13,224,829 thousand (31 December 2021, RMB13,448,955 thousand). For the six months ended 30 June 2022, total management income from all structured entities in which the Group acted as investment manager is RMB964,123 thousand (for the six months ended 30 June 2021: RMB1,722,421 thousand).

In addition to those interests in unconsolidated structured entities managed by the Group as disclosed above, the Group also has interests in unconsolidated structured entities in which the Group did not act as investment manager. 63. FINANCIAL RISK MANAGEMENT

The Group's major financial instruments include equity instruments and debt instruments at fair value through other comprehensive income, financial instruments at fair value through profit or loss, derivative instruments, financial assets held under resale agreements, other loans and receivables, loans and advances, advances to customers on margin financing, accounts receivable, other receivables, placements to banks and other financial institutions, deposits with exchanges, clearing settlement funds, restricted bank deposits, bank balances and cash, receivables arising from sale and leaseback arrangements, borrowings, financial assets sold under repurchase agreements, accounts payable to brokerage clients and other payables and accruals. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments and finance lease receivables include market risk (price risk, currency risk and interest rate risk), credit risk and liquidity risk. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

During the six months ended 30 June 2022, there has been no material changes in the risk management policies. The interim condensed consolidated financial information does not include all financial risk management information and disclosure and should be read in conjunction with the consolidated financial statements for the year ended 31 December 2021.

(All amounts in RMB'000 unless otherwise stated)

64. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

Some of the Group's financial assets and liabilities are measured at fair value for financial reporting purposes. The board of directors of the Group has set up certain process to determine the appropriate valuation techniques and inputs for fair value measurements. The appropriateness of the process and the determination of fair value are reviewed by the board of directors periodically.

64.1 Financial instruments not measured at fair value

The table below summarises the carrying amounts and expected fair values with obvious variances of those financial assets and liabilities not presented on the Group's consolidated statement of financial position at their fair values.

	As at 30 June 2022 (Unaudited)		As at 31 December 2021 (Audited)	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets				
Debt instruments at amortised cost	5,291,160	5,075,003	4,725,209	4,310,574
Financial liabilities				
Non-convertible bonds payable	173,470,981	174,386,228	163,586,070	170,269,519

Except for the above, the directors of the Group consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the Group's statements of financial position approximate their fair values.

64.2 Financial instruments measured at fair value on a recurring basis

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3.

For Level 1 financial instruments, fair values are unadjusted quotes in active markets for identical assets.

For Level 2 financial instruments, valuations are generally calculated based on the fair value of the underlying investments which are debt securities or publicly traded equity instruments in each portfolio or obtained from third party pricing services agent such as China Central Depository & Clearing Co., Ltd. which are based on the discounted cash flow models, recent transaction prices or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

For Level 3 financial instruments, the management obtains valuation quotations from counterparties or uses valuation techniques to determine the fair value, including discounted cash flow analysis, net asset value, market comparison approach and option pricing model, etc. The fair value of these financial instruments may be based on unobservable inputs which may have significant impact on the valuation of these financial instruments, and therefore, these assets and liabilities have been classified by the Group as level 3. The unobservable inputs which may have impact on the valuation include weighted average cost of capital, liquidity discount, price to book ratio, etc.

65. TRANSFER OF FINANCIAL ASSETS

Asset-backed securities

The Group enters into securitization transactions in the normal course of business by which it transfers advances to customers on finance lease receivables, and receivables arising from sale and leaseback arrangements to structured entities which issue asset-backed securities to investors. As the Group holds all the junior tranches asset-backed securities, substantially all the risks and rewards of ownership of the transferred assets are retained, so the Group continues to recognise the transferred asset in its entirety and recognises bonds payable for the consideration received.

As at 30 June 2022, the carrying amount of finance lease receivables and receivables arising from sale and leaseback arrangements that have been transferred but not derecognised was RMB8,316 million (31 December 2021: RMB9,338 million).

Asset-backed notes

The Group enters into securitization transactions in the normal course of business by which it transfers finance lease receivables and receivables arising from sale and leaseback arrangements to structured entities which issue asset-backed notes in China Inter-bank market to investors. As the Group holds all the junior tranches asset-backed notes, substantially all the risks and rewards of ownership of the transferred assets are retained, so the Group continues to recognise the transferred asset in its entirety and recognises bonds payable for the consideration received.

As at 30 June 2022, the carrying amount of finance lease receivables and receivables arising from sale and leaseback arrangements that have been transferred but not derecognised was RMB1,399 million (31 December 2021: RMB2,276 million).

Securities lending

The Group enters into securities lending transactions with the customers' securities or deposits as collateral. As the Group retains all the risks and rewards of such financial assets, it does not derecognize such financial assets in the balance sheet. As at 30 June 2022, the carrying amount of securities that have been transferred but not derecognised was RMB3,869 million (31 December 2021: RMB5,062 million).

66. SUBSEQUENT EVENTS

No other material events have occurred with the Group from 30 June 2022 to the date of approval of the interim condensed consolidated financial information.
