XI. Warning on major risks

General economic and political conditions such as macroeconomy and monetary policies, laws and regulations influencing financial and securities industries, rising and falling trends in commercial and financial industries, inflation, exchange rate fluctuations, availability of long and short-term market capital sources, fundraising costs and interest rate levels and its fluctuations may all have an impact on the Company's business. Besides, like other companies in the securities industry, inherent risks in the securities market such as market volatility and trading volume may also affect the Company's business. The Company cannot guarantee the sustainability of favorable political, economic and market conditions.

Main risks in business operation faced by the Company include: policy risks arising from national macro-control measures, changes in laws, regulations, relevant regulatory policies and transaction rules in securities industry, which will adversely influence the business of securities companies; compliance risks arising from business management or professional activities violating laws, regulations or codes, which cause the Company being punished by laws, being subject to regulatory measures, suffering from property or reputation loss; legal risks arising from failure to abide by provisions and requirements of laws and regulations, which expose the Company to litigations, compensation and fines and suffer from loss; market risks arising from fluctuations in market prices (interest rates, exchange rates, stock prices and commodity prices, etc.); which make the Company suffer from loss in assets; credit risks arising from default of product issuers, bond issuers or counterparties (customers), which make the Company suffer from loss; liquidity risks arising from inability to obtain sufficient funds at a reasonable cost to pay matured debts, fulfil other payment obligations and satisfy the capital needs for normal business; information and technology risks such as various technical failure or data leakage of the Company's information system resulting from internal and external reasons, which consequently cause loss by incapacitating the information system from guaranteeing the stability, high-efficiency and safety of transactions and business management in business realization, response speed, processing capacity, data encryption and so on; operational risks arising from loss-causing incomplete or problematic internal procedures, personnel, systems or external incidents; reputation risks arising from business operation, management and other behaviors or external incidents which lead to negative judgement on the Company by relevant media; money laundering risks arising from the utilization of the Company's products or services by criminals to engage in money laundering activities which lead to negative effects on the Company's legitimacy, reputation, compliance, operation and other aspects. Besides, with the advancement of the Company's internationalization strategy, the Company's business expands into the United States, the United Kingdom, Hong Kong and other countries and regions, and the Company is exposed to more complex market environment and regulatory requirements.

III. ANALYSIS OF CORE COMPETITIVENESSES DURING THE REPORTING PERIOD

(I) *A technology-driven pioneer in China’s securities industry transformation*

The Group has been maintaining a high level of resources investment in information technology for many years, and has been comprehensively promoting the Group’s digital transformation focusing on the overall target of “client’s success, business innovation, operation optimization and employee empowerment”, striving to overhaul its business and management model with digital thinking and platforms and endeavoring to build a leading self-controlled system for information technology research and development to achieve co-creation of technology and business through all-round technology empowerment, and create business model innovation driven by digitalization and advantages of the whole business chain with platform-based support. Meanwhile, using equity investment as a link, the Group focused on gathering outstanding technological innovation companies to accelerate the construction of the fintech ecosystem and actively established presence in cutting-edge sectors, such as big data, artificial intelligence, blockchain, cloud computing, RPA security and 5G. In the field of wealth management, the Group constantly developed and strengthened its mobile finance strategy. Based on the development advantage with the linkage of dual platforms, namely the latest 8.0 version of “ZhangLe Fortune Path” (漲樂財富通) platform and the “AORTA” (聊TA) platform, the Group built the content operation system with the focus on customer’s full life cycle and effectively enhanced the efficiency of customer acquisition and services. In the field of institutional services, taking “Xing Zhi” (行知), our self-developed digital platform serving institutional

customers, as the guide, the Group linked up all aspects of institutional services. During the Reporting Period, leveraging on the intelligent investment research platform, the Group upgraded research services and provided customers with research view, industry database, valuation model and other functions to innovate customer experience. On the basis of various advanced digital middle-office systems developed in-house, the Company continuously advanced the development of platforms such as Securities Lending Path platform and FICC trading platform to expedite the establishment of core trading and pricing capabilities. During the Reporting Period, the Securities Lending Path platform further expanded technical connection with external platforms, which promoted the innovative development of securities lending business. The FICC trading platform made breakthroughs in key capabilities such as cloud-native architecture evolution and extremely fast risk control. Innovations in technology and business integration have been continuously deepened. During the Reporting Period, the Group has established special laboratories in intelligent finance, blockchain, cloud computing and other sectors to carry out studies on key subjects. The technical competency and talent team developed by the Group through independent research and development over the years have laid a solid foundation for the building of platform-based and systematic core competitiveness.

(II) The open digital wealth management platform provides efficient and professional services to mass customers

The Group has established one of the most dynamic wealth management platforms in China's securities industry with more than 20.00 million customers. Drawing on advanced wealth management service system and experiences at home and abroad, the Group accelerated the development of wealth management business from product, service, procedure, technology platform and other aspects. The Group's wealth management business is committed to creating a platform-based and integrated development model driven by the headquarters and linked by the headquarters and branches, building a new structural system focusing on the full life cycle of customer operations, and actively exploring a new content-driven customer operation model. The Group launched "ZhangLe Fortune Path" (漲樂財富通), a mobile service platform, for our clients, and "AORTA" (聊TA), a cloud-based working platform, for investment advisors. The two platforms strengthened their functions, deepened their coordination, efficiently and accurately empowered front-line investment advisors through iterative upgrades and initially formed a data-driven mechanism to match clients' needs with investment advisory services. As of the end of the Reporting Period, the cumulative download volume of "ZhangLe Fortune Path" (漲樂財富通) was 67.7085 million. According to the statistics of Analysys, the NMAU of "ZhangLe Fortune Path" (漲樂財富通) amounted to 9.5239 million as at the end of June 2022, ranking the first among all APPs of securities companies. During the Reporting Period, the Group as one of the first batch of securities companies which obtained the pilot qualification for fund investment advisory business, the asset size of our fund investment advisory business remained at the top of the industry, and our asset allocation, product research, strategic operation and companion service systems have been continuously improving. According to the statistics from the Asset Management Association of China (中國證券投資基金業協會) as of the second quarter of 2022, the Company ranked the first and the second in the industry in terms of the size of equity and hybrid public fund holdings and the size of non-money market public fund holdings.

(III) First-class investment banking business with systematic services for clients and high-quality development

The Group fully grasped the opportunities of the deepening reform of the capital market in the context of China's economic restructuring and upgrading and the full implementation of registration-based IPO system, and continued to accelerate its deployment in the industry, actively implemented the strategy of platformization and ecologicalization with investment banking customer-centric, and gave full play of securitized assets as a traffic inflow gateway by taking advantage of the big platform covering the whole business chain. At the same time, the Group continuously enhanced the linkage and coordination between the investment banking business and other businesses to build an ecosystem for institutional customer services with the three-in-one integration of "buyers + sellers + research institutes". The Group constantly provided new and old customers with domestic and overseas integrated professional investment banking services while going deep into the industry to successfully explore and acquire a number of high-quality customers in key industries. With professionalism and product innovation as the base for survival, the Group firmly seized the trending opportunities in the capital market and vigorously established and expanded its GDR business, and is the only company that has both GDR issuer and underwriter experience as well as execution experience in the whole business chain. Currently, it is also the broker with the biggest market share in the GDR underwriting market. For the M&A and restructuring business, the Group focused on advancing benchmark large-scale and innovative projects and actively explored continuous services for customers, maintaining its leading position in the industry. During the Reporting Period, the Group had four M&A transactions approved and registered by the CSRC, with a transaction amount of RMB23.419 billion, ranking first in the industry. Since 2012, the number of M&A transactions approved and registered by the CSRC reached 154, ranking first in the industry. During the Reporting Period, the Group's lead-underwriting amount of full variety bonds was RMB501.503 billion, ranking the third in the industry. The full implementation of the registration-based IPO system and the increase in the proportion of direct financing are the main theme of the capital market in 2022. Relying on increasingly active equity and debt financing and industrial consolidation activities in the capital market, the Group will embrace sound development opportunities.

(IV) Comprehensive asset management platform with both scale and innovation advantages

Relying on the large customer base and resources advantage in the whole business chain, the Group has established one of the leading asset management platforms in the industry by fully leveraging its investment banking asset discovery, risk pricing and product design capabilities. The total amount of assets under asset management business ranked among the top in the industry with continuous improvement in the capability and scale of active management. As of the end of the Reporting Period, the scale of asset management was RMB501.613 billion, and the scale of active management further increased. Our management products cover major asset categories forming a product system with a considerable scale and wide coverage, which helped the Group build significant operational advantages and market influence. The Group focused on the characteristics of brokers, systematically created “basic products + specialized products”, strengthened the two-way driving of the Group and established the output model of asset-end products to broaden the size of products and meet different needs of the Group and the retail customers and high-net-worth customers in the market in terms of product forms and risk-return. Meanwhile, through customized services featuring multiple assets and multiple strategies, the Group provided a basket of customized comprehensive financial services for institutional customers, which met customers’ needs for product forms, liquidity and returns through competitive fixed-income products as well as featured products such as FOF and MOM. The Group is a leader of ABS product designs in the industry, and has set a benchmark for the industry through constant innovation in underlying assets, transaction structure and other aspects. It has issued a number of ABS products in areas such as pandemic control and prevention, and green finance to support real economy projects, with the business scale continuously ranking the top in the industry.

(V) Acceleration in global layout and creation of cross-border ecology to march toward a new stage of high-quality development

The Group always adheres to the strategy of constantly expanding its international business layout along with the international development of customers. The Group continues to deepen its cross-border integration and optimize its cross-border integrated financial services platform system to connect global resources for its customers and better serve Chinese customers’ overseas expansion as well as international investors’ domestic investment. During the Reporting Period, leveraging on the Group’s domestic resources, Huatai International continued to focus on its capital market intermediary business by adhering to its origin as a brokerage firm with cross-border resources and cultivating an integrated and platform-based client-centered ecological system through cross-border linkage, business synergy and platform operation. Meanwhile, it strengthened risk management and control capabilities and used diversified hedging instruments to effectively reduce risks arising from market fluctuations, so as to ensure the healthy development of various businesses. During the Reporting Period, Huatai Financial Holdings (Hong Kong) continued to deepen its “4+1” business platform system consisting of the equity business platform, fixed-income business platform, personal finance platform, fund platform and flagship investment banking business, which facilitated its differentiated competitive advantages. As of the end of the Reporting Period, the asset scale of Huatai International approached nearly HK\$200 billion with continual improvement of comprehensive strength, placing it in the top tier of Chinese securities companies in Hong Kong. During the Reporting Period, Huatai

International focused on its primary customer base and improved customer experience through enhancing its multi-asset sales and trading capabilities and continuously improving the supporting capability of its systems and platforms. It stabilized its business size and consolidated its cross-border sales and trading business system with prime brokerage as the core amid market volatility. The personal finance platform fully exploited the advantages of Fintech in empowering wealth management business and expanded To B and To C products and services through the combination of online and offline means. “ZhangLe Global” (漲樂全球通), our self-developed one-stop online wealth management platform, launched “Cash Pro” (樂盈寶) to better meet the cash management demand of investors amid market fluctuations. During the Reporting Period, Huatai Financial Holdings (Hong Kong) officially obtained the qualification as a participant of the Special Purpose Acquisition Companies (SPAC) Exchange of the Hong Kong Stock Exchange, making it one of the first Chinese securities companies in Hong Kong obtaining such qualification. It also participated in the second listing project on the SPAC in the Hong Kong market as a joint bookrunner, opening up a new chapter in the SPAC sector. The international rating agency Standard & Poor’s maintained the long-term issuer rating of “BBB+” and the short-term issuer rating of “A-2” for the Company and its subsidiary Huatai International. In addition, AssetMark has maintained operational independence, sustained steady growth in assets under management through its leading-edge business model and advanced technology platform, consolidated its industry-leading position and constantly increased the Group’s international business revenue.

(VI) Comprehensive risk management featuring professional and platform advantages

The Group has a sound risk management culture and clear risk management objectives, and “stability” is always an important part of the core values of the Group. The Group continued to forge an onshore and offshore integrated risk management system with adhering to the core risk management philosophy of high engagement, full coverage and deep penetration and taking collectivization, specialization and platformization as the main ideas. The Group has accumulatively established an effective risk management framework, procedures and measures that adapt to the international development of the Company’s businesses, and continued to build an adaptive collaboration and risk management and control system that is customer-centric and guided by professional risk responsibility objectives. It promoted the penetration of key business and areas at home and abroad to dynamically monitor and alert risks and quickly respond to them. The Group attached great importance to the application of advanced IT technology in risk management. During the Reporting Period, it advanced the framework upgrade of the onshore and offshore integrated risk management platform, and continued to build one body and two wings of the mainline base for risk management digitalization, so as to promote the transformation of the risk management model and improve efficiency through technology empowerment.

(VII) To build a development platform that continuously empowers the growth of the top-ranking talents

The consistent development of market-based systems and mechanisms is a key driving force for the continuous transformation and transcendence of the Group. As early as 2019, the Group's professional manager system has been implemented and a contractual, market-oriented and professional operation and management team has been built. The new operation and management team has broad vision, rich experience and strong business capabilities, and is leading the Company to open up new horizons in development. The Group is deeply rooted in the corporate culture gene of "technology empowerment, innovation and initiative", and continuously enriches and deepens the cultural connotation of "openness, inclusiveness, innovation, struggle and responsibility", accumulating lasting momentum and vitality for the in-depth promotion of the "two-pronged" (雙輪驅動) strategy. The Group continued to build a platform-based talent development model towards the professional, high-caliber, young and international talents and match outstanding young talents with platform-based and more personalized solutions. It has developed a growth path of "new employees – business backbones – compound elites – management generalists" to meet their development demands at different stages of their career, promote the common growth of outstanding talents and organizations and convert talent advantages into core competitive advantages. The Group has established and improved a mechanism for the selection and appointment of talents based on ability and contribution, established a market-oriented employment mechanism and remuneration incentive mechanism. The Group implemented the restricted share incentive scheme for senior and middle management and core staff, which fully demonstrated the concept of shared interests, shared risks, and joint sustainable development between the Group and its employees, so as to further stimulate the vitality of market-oriented organizations.

(I) Wealth management business

1. Market environment and industry trend of wealth management business

- (1) The in-depth development of the wealth management market in China drove business transformation and upgrading and the space for development in the wealth management industry was broad

With the continuous release of the potential of China's real economy, the development and improvement of a multi-level capital market, the increasing supply of financial investment products, the continuous growth of total social wealth and the continuous regulation on the property market, the wealth management market in China is under the stage with long-term reform and rapid development and the demand of residents for high-quality equity assets and professional investment advisory has been increasing. Establishing the comprehensive customer hierarchical and grading service system based on complete business chains, customer-oriented organizational structures, comprehensive service platforms and business synergy mechanisms will become the key to the development of the wealth management business of securities companies. According to the statistics of China Merchants Bank's private wealth report, as of the end of 2021, the overall scale of investable assets held by individuals in China reached approximately RMB268 trillion, representing an increase of 11.20% from the end of 2020; the number of high-net-worth individuals with personal investable assets of over RMB10 million reached approximately 2.96 million, representing an increase of 12.98% from the end of 2020. Under the background of the construction of a new "dual circulation" development pattern, the steady progress in comprehensive registration-based IPO system reform, the increase in the penetration rate of the wealth management industry, and the increase in demand for specialized business, etc., wealth management institutions that focus on building an innovation-driven wealth management business ecosystem, forge wealth management service capabilities on the whole business chain, enhance the customer-centric service concept, deeply understand diversified customer needs, and pay attention to providing full life cycle, all-round and full category comprehensive financial services for customers will gain extensive development space.

- (2) Changes in clients' demands and market competition trends continuously promoted the transformation of wealth management, and professional wealth management institutions will usher in development opportunities

With the continuous advancement of the comprehensive deepening reform of the capital market, the continuous expansion of the new pattern of two-way opening of the financial market, the accelerated penetration of Fintech into the securities industry, and the increasingly fierce market competition, wealth management institutions are facing diversified wealth management demands of customers and stricter requirements on whole-process experience. Building a wealth management service model under the new ecosystem, continuously improving the wealth management business system and increasingly enhancing the wealth management service capability have become important directions for the strategic transformation of securities companies. During the Reporting Period, the domestic stock market tumbled down with the Wind All China Index dropped by 9.53%, the Shanghai Composite Index dropped by 6.63% and the Shenzhen Component Index dropped by 13.20%; in terms of major international indexes, the S&P 500 dropped by 20.58%, the Nasdaq dropped by 29.51% and the Dow Jones Industrial Average dropped by 15.31%. In the context of continuously strengthened linkages between domestic and foreign capital markets, gradually improved regulatory policies and market mechanisms, and constantly expanded wealth management instruments and product supply, the complexity of asset allocation services is increasing, and clients are in more urgent demand for professional, personalized and diversified wealth management services. Wealth management institutions with advanced financial service platforms, competitive financial product systems and professional talent teams will embrace important opportunities in the development of the wealth management business. Financial institutions which constantly improve multi-level, personalized and all-asset synergistic product supply, continuously establish standardized, ecological and refined all-process customer operation systems, comprehensively develop mobile, digitalized, intelligent and integrated Fintech platforms, and transform towards the overall high-quality development of the wealth management business will gain advantages in future competition.

- (3) Fintech empowerment and digital transformation reshape the operation and management model and lead the iterative upgrade of the wealth management industry

In recent years, a new round of technological revolution and industrial evolution is accelerating, and the frontier technology is deeply integrated with traditional financial business, which continues to enrich the application scenario and has a comprehensive impact on the business model and operational efficiency of securities companies. Securities companies should actively embrace and practice the digital transformation strategy, develop innovative Fintech ecosystems, constantly enhance the capabilities of empowering all links of the wealth management business value chain through Fintech application innovation and build a new digital, platform-based and ecological wealth management service model, so as to promote and lead business and management innovation and facilitate the high-quality development of the wealth management industry. Fintech and digital transformation have become fundamental forces driving the evolution of the financial ecosystem and strategic high grounds for the competitiveness of securities companies, which will profoundly change the business model, business structure and operation systems of securities companies and will be the core driving force to the development of the securities industry in the next strategic cycle. In particular, the prevention and control of the COVID-19 pandemic has further deepened the demand for online financial services and the integration of Fintech with business scenarios will be closer. The inevitable choice of a large domestic securities company to build differentiated competitive advantages and achieve continuous innovation in business models is to use Fintech empowerment, fully advance digital transformation, reshape business development with technology, strive to build harmonious, open, efficient, collaborative and win-win financial innovation ecosystems and provide customers with all-round wealth management services.

2. *Operational measures and achievements of wealth management business*

(1) Securities, futures and options brokerage business

(II) Institutional services business

1. Market environment and industry trend of institutional services business

- (1) The transformation and upgrading of real economies and the comprehensive deepening reform of the capital market have provided greater potentials for the display of integrated advantages of institutional services business

With the implementation of a series of reform measures led by the overall registration-based IPO system reform in recent years, the market width and depth have been constantly improved. With increasing inclusiveness in the market system, the investment and financing functions were significantly enhanced and the strategic position of the capital market in serving the high-quality development of the economy continued to rise. The institutional services business will have an opportunity to achieve leap-forward development and focus on the development of globalized diversified businesses covering all chains, all products and all markets, among which, providing institutional clients with high-quality comprehensive financial services covering the full life cycle will become an important manifestation of the core competitiveness of securities companies. Under the new development pattern of the continuous promotion of the transformation and upgrading of real economies and the overall deepening of the capital market reform in China, the securities industry has initiated a new stage with the full optimization of fundamental systems and the reform and development for the full restructuring of the market ecosystem, which presents the increasingly improved market-based resources allocation mechanisms, and the investment banking business of securities companies faces strategic opportunities in high-level transformation. Securities companies with optimized and complete business structures and products systems, rich project reserves and coordinated business development as well as the capability to provide differentiated products and services will achieve more business increment and revenue. In the future, with the building of the new pattern of the multi-tiered capital market with dislocation development and orderly competition, the institutional services business will set higher standards for business qualification, capital strength, scale advantage, product design, risk control system and business channels of securities companies. Securities companies with the ability to better capture macroeconomic trends and development opportunities in the reform of the capital market, improve the comprehensive service capabilities across the entire business chain in an all-around way, promote the comprehensive transformation and upgrading of the business system and create long-term value for their clients will face more business opportunities.

- (2) The transformation trend of professionalism, institutionalization and internationalization of the capital market have set higher standards for institutional services business of securities companies

In recent years, in the context of macroeconomic transformation and upgrading, continuously deepening of the capital market reform and the innovation and development of securities business in China, the participation of institutional investors has been increasing and the voice of institutional

investors in the capital market has been increasingly enhanced. Institutional investors are becoming major players in the capital market. The in-depth changes of the market structure will reshape the new ecosystem of the capital market and facilitate the capital market in increasing trading activity, product richness and international participation, which will provide broader potential for the business development of securities companies and highlight the trend of business institutionalization. Driven by the policy orientation to promote the high-quality development of funds and benefited from the capital market reform, the trend of residents' wealth allocation towards financial assets continues to strengthen, the number and management scale of mutual funds have fluctuated and increased, and the market influence continued to increase, and the process of institutionalization of the capital market sped up, which have raised higher requirements on the capabilities of securities companies in providing integrated and professional financial services. In addition, with the accelerated formation of a new pattern of high-level two-way opening of the capital market, superior market resources are speeding up in flowing into superior institutes and the polarization in the securities industry is increasingly obvious. The provision of more professional, insightful, and convenient one-stop, full life-cycle services to customers based on platform empowerment and efficient integration of onshore and offshore business resources will be the key in the new round of competition on the institutional services business among securities companies. In the future, securities companies which actively develops platform-based, integrated and ecological institutional service business system, builds the ecosystem of professional institutional investors services with a more open horizon and leading service capabilities and provides comprehensive financial services covering the full life cycle of investment and financing will obtain more development opportunities.

- (3) The sustainable development of institutional services business of securities companies requires strong risk management capabilities as the foundation

Under the complicated environment with macroeconomic transformation in China, frequent international political conflicts, routine COVID-19 prevention and control, global inflation and policy tightening, the fluctuations and uncertainties faced by the capital market increase significantly and securities companies face new challenges in risk management. It is key for securities companies to facilitate business development and build the new pattern of differentiated competition and development to improve the comprehensive risk management structure based on their own development strategies and business development and establish effective pre-risk control procedures, complete risk management systems and strong risk culture system. Securities companies should accurately identify, effectively manage and resolve risks in a timely manner with complete risk management systems, scientific risk management models and methods and advanced risk management means to guarantee steady development in the long term. The effective management of financial risks requires securities companies to continuously optimize the organizational structure and operational process of risk management, continue to improve the professional and platform-based comprehensive risk management mechanism to achieve centralized monitoring, analysis and full process control of risk information.

Defusing financial risks in a timely manner requires securities companies to effectively utilize the financial derivatives market while possessing strong capital strength. Under the background of the official implementation of the Futures and Derivatives Law, the diversification of the basic financial product system improved instruments for market risk hedge and risk management and the securities industry will play a more important role in guaranteeing the stable operation and healthy development of the financial market and the capital market. Securities companies should vigorously establish a comprehensive risk management system, strengthen the establishment of risk prevention, response and disposal systems and enhance the professionalism, perspectiveness and proactiveness of risk management strategies and control measures to earnestly seize new opportunities in the high-end development of institutional services business.

(III) Investment management business

1. Market environment and industry trend of investment management business

- (1) Asset management business systems were increasingly improved and the industry entered into a new stage of accelerating high-quality development

Driven by various factors such as the macro environment, regulatory policies, customer demands, Fintech and digital transformation and with the increasingly improvement of systems with new regulations on asset management as the core, the structural reform of the asset management industry in China was continuously deepened. The public offering transformation of massive collective products was finished; the vitality in product innovation was continuously generated; and the asset management business entered into a new era of return to its roots, regulated development and deep competition. Under the development pattern of the asset management industry entering into a new stage of quality improvement and upgrading, the demand for asset management services is increasingly diversified and integrated, and the competition pattern in the asset management market in China is reshaping. Various asset management institutions should continuously enhance the active management capability, build differentiated core competitiveness, actively seek new business development directions and strategic layouts, and continue to build a full-range, rich and complete product system, and investment strategies with a global perspective. According to the statistics from the Asset Management Association of China (中國證券投資基金業協會), as of the end of the first quarter of 2022, the total amount of asset management business of fund management companies and their subsidiaries, securities companies, futures companies and private fund management institutions was approximately RMB66.24 trillion, among which, the amount of private asset management business of securities companies and their subsidiaries was RMB7.85 trillion. Asset management institutions should actively adapt to regulatory changes, actively integrate internal and external high-quality business resources and step up efforts in business innovation in asset management products. They should constantly diversify product investment strategies, continuously optimize investment management models, promote differentiated products and services, practically enhance the capabilities on asset investment, solutions, risk management and seizing strategic opportunities and commit to providing customers with multi-level and comprehensive high-quality investment products, asset allocation and overall financial solutions.

- (2) China's equity investment market saw the trading pace slowing down on the whole with intensified industrial competition and differentiated capital structures

Under the background of the complicated and severe international situation, the frequent outbreak of the pandemic in China and the increasingly strict regulatory environment of the industry, China's equity investment market still faces ordeals. The activity of the fundraising market showed a downward trend, the investment market significantly slowed down its pace and the overall trading volume of the market declined. At the same time, competition for high-quality projects was fierce, and there was increasing advantages in top tier institutions. Market funds were gathering to top tier institutions, which have strong professional capabilities and resource integration capabilities, and the ecological pattern in the industry was further reshaped. According to the statistics from Zero2IPO Research Center private placement department, in the first half of 2022, 2,701 new funds were raised in China's equity investment market, with a total fundraising amount of RMB772.455 billion, representing a decrease of 10.3% over the same period in 2021; and there were 4,167 investment cases in China's equity investment market, with a total investment amount of RMB314.929 billion, representing a decrease of 54.9% over the same period in 2021. In the long run, with the improvement of infrastructure in the market, the optimization of regulatory systems on the industry, the strengthening of differentiated regulatory mechanism, the perfection of registration and filing procedures and the deepening of the digital transformation, China's equity investment market will embrace historical development opportunities and the equity investment business still enjoys huge growth potential. Under the background of continuous recovery and development of the real economy, the comprehensive deepening of the reform of the capital market, the gradual improvement of the multilevel market system, the full optimization of the fundamental market systems and the continuous perfection of the industrial ecosystem, and in particular, under the background of the imminent full implementation of the registration system, the equity investment market is playing a fundamental and strategic role in promoting innovative capital, in the formation of an innovative economy and supporting scientific and technological innovation of enterprises. The securities companies' private equity investment business should leverage advantages in full business chains, rely on professional and three-dimensional investment management systems and continue to enhance all-round and comprehensive service capabilities. We will actively create core business competitiveness, thus effectively improving the efficiency of serving real economy.

3. *Prospect of investment management business for the second half of 2022*

The investment management business plays the dual strategic roles of asset manager and asset service supplier. It is an important area for the Group's financial product innovation and client asset management. In the second half of 2022, the Group will continue to display professional capabilities in asset discovery, risk pricing and product creation, fully leverage resources advantages in full business chains, and actively build scaled and featured financial product system with full varieties to meet the differentiated demands of customers. It will build a first-class investment management platform to continuously reinforce its leading position in the industry.

The asset management business of securities companies will continue to rely on the resources of its full business chain, focus on technology empowerment, and allow digital transformation to drive the reshaping of the business system and the management processes. The Group will improve the risk control system covering full business chains, continuously optimize the product and business layout based on strategic orientations and build a platform-based investment and research mechanism with the integration of fundamentals and scientific investment and research led by investment research. It will vigorously expand internal and external channels, improve the customer hierarchical and grading service system, consistently optimize the product management mechanism and enrich the diversified product system to continuously consolidate its market influence and brand recognition.

In respect of the private equity fund management business, the Group will rely on its good management capability and historical results, actively maintain the partnership with listed companies, large SOEs, local government platforms, and other institutions on funds and increasingly expand the size of fund management. It will continue to focus on advantageous business sectors, deepen industrial research, actively explore high-quality projects in the industry, build the ecosystem of key industries, continuously improve its professional investment management capabilities and further consolidate the industry influence on key sectors.

In respect of the asset management business of fund companies, we will continue to improve the compliance management and control system and talent team building, proactively build multi-layered, distinctive and differentiated product lines and continuously optimize the business structure, constantly advance the digital and intelligent transformation to lead business development and management reform, and strive to enhance professional investment research capabilities, to practically enhance our overall asset management scale and investment performance.

In respect of the asset management business of futures companies, we will implement the full business chain development strategies by relying on Fintech innovation and platform empowerment, and focus on the establishment of a business development model with FOF business as the main business, active management business as an alternative and investment consultancy business as a supplement, with an aim to proactively cultivate a unique product system and management capability with differentiated competitiveness.

In respect of the alternative investment business, we will constantly improve system and mechanism and operational process, speed up in the construction of the Fintech ecosystem, and prudently promote the development of equity investment, the follow-on investment on the STAR Market, and other new businesses, effectively control existing business risks and duly handle post-investment management, and steadily improve capital usage efficiency and return on assets.

(IV) International business

1. Market environment and industry trend of international business

- (1) The in-depth development of the systemic opening up of the capital market accelerated the internationalization of securities industry, and clients' demand for cross-border services promoted the international service capabilities of securities companies

Against the background of continuously advancing the high-level two-way systemic opening up of the capital market in China in recent years, the two-way investment mechanism on cross-border securities in the capital market is increasingly optimized. The interconnection of onshore and offshore markets is effectively expanded and the two-way opening product systems in the capital market are continuously improved. Cross-border businesses are more diversified. The capital market had the new value proposition of being a platform connecting onshore and offshore financial and industrial resources and building a hub with dual-cycle systems, which will achieve a two-way opening at a higher level, in a broader range and in more ways. The securities industry ushered in historic and major development opportunities, and leading securities companies, leveraging on worldwide resource allocation, customer service and risk management, will be of greater potential to become large-scale investment banks with international competitiveness. Currently, in light of the gradual implementation of laws, regulations, policies and guidance in respect of two-way opening in the capital market, the growing demands from clients for cross-border integrated financial services, the strengthening trend of global asset allocation, and the internationalization development of securities industry entering a critical period, international business has become a front field for securities companies to expand development space, increase new profit growth points and promote business structure upgrading. Large-scale securities companies should actively seize the strategic opportunities in deepening the two-way opening up of the capital market, further explore and build a leading comprehensive service platform with integrated domestic and international operations, continuously optimize the positive circulation mechanism of domestic and overseas resources, accelerate the progress of internationalization and actively build a cross-border ecosystem. They should also continue to enhance the international operation capabilities, cross-market service capabilities, global resource allocation capabilities and cross-border risk management capabilities, to better provide domestic and global customers with multi-market, all-dimensional and one-stop investment and financing transaction experience and integrated financial solutions.

- (2) Good growth momentum of the independent channel of the US wealth management industry is favorable for the long-term development of the TAMP market

From the perspective of the overall industry development, the current wealth management industry in the US mainly consists of the independent channel (registered investment advisors, hybrid and the independent broker-dealers, insurance broker-dealers etc.) and the traditional channel (national and regional broker-dealers, bank broker-dealers and wirehouse advisors, etc.). In the wealth management industry, the market share of the independent channel grows faster than that of the traditional channel and such trend sustains. According to the statistics of Cerulli, the market size of independent channels is expected to increase from USD10.8 trillion to USD14.4 trillion from 2020 to 2025 and the market share will expand from 42% to 47%. According to the statistics of PriceMetrix, 75% of the investment advisors' revenue came from management fees in 2020, reaching an all-time high relative to commissions, and the transformation of the charging model from commissions to management fees was continuously promoted. From the perspective of business development trends, the funds from investors are being transferred to investment products with lower costs and fees. The TAMP industry can keep empowering and fueling the wealth management business through leading Fintech development, which can bring the cost advantage of scale to customers and help them grasp booming development opportunities. According to the statistics of Cerulli, from 2016 to 2021, the compound annual growth rate of the TAMP market was 19.6%, which was significantly higher than that of the overall investment advisory market, which was 8.5% for the same period.

4. Analysis of profitability

In the first half of 2022, the Group firmly implemented the “two-pronged” (雙輪驅動) development strategy of wealth management and institutional services, and constantly enhanced its digital operation capability with technology empowerment. Its comprehensive strength soundly ranked in the forefront of the industry.

5. Explanations on the changes in the scope of consolidation of the statements

(1) Changes in the scope of consolidation as a result of an acquisition

During the Reporting Period, the Group acquired Shanghai Shengju Asset Operation and Management Co., Ltd. (上海盛鉅資產經營管理有限公司), which has been included in the Group's consolidation scope.

- (2) Changes in the scope of consolidation as a result of an increase of structured entities included into the consolidation scope

The Group consolidated the structured entities where the Group serves as the manager or investment adviser and/or as the investor, and where the Group will be, upon comprehensive assessment, significantly affected by variable returns due to the returns attributable to it for its investment and remuneration as the manager of the structured entities (mainly refers to asset management plan). The structured entities of the Group, which were included in the consolidated statement scope during the period, decreased by 4 with another 16 added as compared with last year.

6. *Analysis of income tax policy*

During the Reporting Period, the Company's income tax was subject to the Corporate Income Tax Law of the PRC (《中華人民共和國企業所得稅法》) and the Enforcement Regulations of Corporate Income Tax Law of the PRC (《中華人民共和國企業所得稅法實施條例》). The calculation and payment methods of the income tax shall be subject to the Announcement of the State Administration of Taxation on Issuing the Measures for the Consolidated Collection of Corporate Income Tax on Trans-regional Business Operations (Announcement No. 57 [2012] of the State Administration of Taxation) (《國家稅務總局關於印發〈跨地區經營匯總納稅企業所得稅徵收管理辦法〉的公告》(國家稅務總局公告[2012]57號)). The income tax rate applicable to the Company and its domestic subsidiaries is 25%. The Company enjoys the preferential policy of calculating and deducting research and development expenses, and the profit tax rate applicable to the Hong Kong subsidiary of the Company is 16.5%. Other overseas subsidiaries of the Company are subject to income taxes at tax rates applicable in their jurisdictions.

- (5) to review the Company's compliance with the Corporate Governance Code (《企業管治守則》) and disclosure in the Corporate Governance Report (《企業管治報告》).

(II) Compliance with the provisions under the Corporate Governance Code set out in Appendix 14 to the Hong Kong Listing Rules

During the Reporting Period, the Company convened 3 shareholders' general meetings (the 2021 Annual General Meeting, the 2022 First A Share Class Meeting and the 2022 First H Share Class Meeting), 5 meetings of the Board of Directors, 2 meetings of the Supervisory Committee, 4 meetings of the Audit Committee, 2 meetings of the Compliance and Risk Management Committee, 1 meeting of the Development Strategy Committee, 1 meeting of the Remuneration and Appraisal Committee and 2 meetings of the Nomination Committee. The total number of meetings convened was 20. The convening, holding and voting procedures of the general meetings, meetings of the Board of Directors and the meetings of the Supervisory Committee were legal and valid. During the Reporting Period, the Company continuously strengthened its investor relations management and information disclosure practices. The Company applied standardised and professional investor relationship management, disclosed truthful and accurate information in a complete, timely and fair manner and its transparency continued to improve.

According to provision of C.2.1 of the Corporate Governance Code (《企業管治守則》), the roles of the chairman and chief executive shall be separate and shall not be assumed by the same person at the same time. On December 16, 2019, in the first meeting of the fifth session of the Board, the Company elected Mr. Zhang Wei as the chairman of the fifth session of the Board and continued to appoint Mr. Zhou Yi as the chief executive officer and chairman of the Executive Committee of the Company. The Board believes that the management structure of the Company is effective and has enough checks and balances for the operation of the Company.

The Company has been striving for continuous improvement of corporate governance structure and system establishment. The Company has enhanced the level of its corporate governance with gradual standardization of corporate governance structure. There is no deviation of the actual performance of its corporate governance from the Company Law (《公司法》) and relevant requirements of the CSRC. Meanwhile, save as disclosed above, the Company was in full compliance with all code provisions of the Corporate Governance Code (《企業管治守則》), and has met the requirements of most of the recommended best practice provisions set out in the Corporate Governance Code (《企業管治守則》).

(III) Securities transactions by Directors, Supervisors and relevant employees

During the Reporting Period, the Company adopted the Model Code as the code of conduct for securities transactions by Directors, Supervisors and relevant employees of the Company. According to the domestic regulatory requirements, the Company convened the thirteenth meeting of the third session of the Board on November 25, 2014 to consider and approve the Administrative System Regarding the Shares of the Company Held by Directors, Supervisors and Senior Management in order to regulate the holding and trading in the shares of the Company by Directors, Supervisors and Senior Management. On March 6, 2015, in order to meet the relevant regulatory requirements regarding the listing of the H Shares of the Company, the Company made amendments to the Administrative System, which were considered and approved at the sixteenth meeting of the third session of the Board. The compulsory provisions contained in the Administrative System are stricter than those under the Model Code. Having made specific enquiries with Directors, Supervisors and Senior Management, all Directors, Supervisors and Senior Management of the Company confirmed that they had strictly complied with the relevant requirements under the Administrative System and Model Code during the Reporting Period. The Board of the Company will, from time to time, carry out inspection on corporate governance and operation of the Company in order to ensure that the relevant provisions under the Hong Kong Listing Rules are well observed and to protect the interests of the shareholders. There was no breach of guidelines by relevant employees during the Reporting Period to the knowledge of the Company.

(IV) Independent non-executive Directors

The Company has appointed a sufficient number of independent non-executive Directors with appropriate professional qualifications, or with appropriate accounting or related financial management expertise, in accordance with the Hong Kong Listing Rules. As of the end of the Reporting Period, the Company has appointed five independent non-executive Directors, namely Ms. Liu Yan, Mr. Chen Zhibin, Mr. Wang Jianwen, Ms. AU King Chi and Mr. Wang Quansheng.

(V) Service contract of Directors and Supervisors

Pursuant to Rules 19A.54 and 19A.55 of the Hong Kong Listing Rules, the Company has entered into a contract with each of our Directors and Supervisors in respect of (among other things) the compliance of relevant laws and regulations and observance of the Articles of Association and provisions on arbitration. Save as disclosed above, the Company has not entered into and does not propose to enter into any service contract with any of the Directors or Supervisors in respect of their capacities as Directors/Supervisors (other than contracts expiring within one year or determinable by the relevant employer within one year without the payment of compensation (other than statutory compensation)).

ENVIRONMENTAL AND SOCIAL RESPONSIBILITIES

I. ENVIRONMENTAL INFORMATION

(I) The Company is not in the list of key pollutant discharging units published by the environmental protection authority

(II) Description of the environmental protection of enterprises excluding key pollutant discharging units

The Company is a financial company, which is not in the list of key pollutant discharging units and their major subsidiaries published by the environmental protection authority. The Company entrusts qualified third-party organizations to conduct inspections on the wastewater, exhaust gases and noises of the headquarters office every year. All inspections are in line with the national standards.

For possible rainstorms, typhoons and other extreme weather events as a result of climate change, the Company issues pre-warning alerts and notices to all departments and branches in time and relevant staff immediately adopt measures on preventing wind and water logging, inspect and clear flood-discharging facilities and prepare sandbags, raincoats and other emergency equipment. Under extreme weathers, relevant staff enhance inspections on key areas and parts in preventing wind and water logging and rectify equipment failure in time.

(III) Relevant information beneficial to protecting ecosystem, preventing pollution and performing environmental responsibilities

1. The Company actively responds to the Nanjing Municipal Domestic Waste Management Regulations and sets waste sorting points on each floor of the buildings in the office park of the headquarters. It publicizes the concepts and practice of waste sorting among staff through putting up posters on waste sorting in striking parts of public places and playing videos on waste sorting repeatedly in elevators to create an atmosphere of “waste sorting with all participation” and form a habit of actively sorting and consciously disposing of waste. Office wastes of the Company are collected and transported by the property management company. Hazardous wastes such as electronic wastes, light pipes, toner cartridges and ink cartridges are recovered by qualified entities for further disposal or recycling.
2. The Company clearly stipulates in the vehicle management system that new energy vehicles shall be given priority when purchasing vehicles for corporate affairs and operation of the Company to practice low-carbon and environmentally friendly operation. The underground garage of the office park of the headquarters is equipped with charging piles for new energy vehicles and electric motorcycles to encourage employees to practice green commuting and advocate green and environmental concepts.

3. For the decoration and renovation of business buildings of the Company, it takes measures such as setting the shortest decoration intervals (decoration and renovation are not allowed for those not exceeding the shortest decoration intervals except under special circumstances) and improving the quality of decoration and renovation projects to extend the life of decoration for business buildings, reduce the frequency of decoration and minimize pollution from decoration and renovation. The Company adopts new construction materials in decoration and renovation to achieve the integration of environmental protection and building. For curtain walls, interior furnishings and landscapes, it follows green, innovative and environmental concepts and focuses on the popularization of LED lighting with low energy consumption in office areas to save daily office lightning power to the maximum extent. It significantly reduces the use of paint and other decoration materials and adopts environmentally friendly paint-free materials instead. Panel furniture is widely adopted for office and it generally eliminates the use of paint furniture. Greater efforts are made in aerial detection and governance after decoration to improve the air quality in the office environment so as to create a safe and comfortable office environment for employees.

(IV) Measures adopted for reducing its carbon emission during the Reporting Period and their effects

1. Green park

The headquarters park of the Company is equipped with a solar photovoltaic power generation system, which saved 48,770 kWh of electricity in the first half of 2022. Its power factors reached the incentive standards of the power supply department each month. In the operation of the office park, various measures such as the sunlight induced lighting device system, the ice storage air-conditioning system, the underfloor air distribution system and the intelligent lighting control in office areas were used to reduce carbon emission, which brought positive social benefits to the low-carbon economy.

The greening rate of Huatai Securities Square is 27.9%, which is higher than that of general business office areas. Around the concept of garden-like office, the Company consistently expanded the plantation area of green plants through creating a multi-level landscape to reduce carbon emission and contribute to carbon neutrality in addition to developing central greening area.

2. Green data center

The usable area of the data center of Huatai Securities Square is approximately 3,600 square meters. With the target of building a green data center from the early construction to the later operation and maintenance, the Company has continually adopted various measures to improve energy efficiency. As for the implementation of the machine room node design, new and efficient energy-saving cold aisle containment technologies are adopted in the area of machine room to increase the cooling efficiency of the equipment, enhance the effectiveness of the cold-flow utilization and improve the isolation effect of hot and cold aisles. Meanwhile, the Company renovated and updated the return louvers of air-conditioning rooms to reduce resistance in air returning and energy loss; and synchronically deployed temperature-controlled powered air supply units to provide reasonable and

necessary cooling airflow for hot spot areas. On this basis, the Company achieved precise temperature control and improved the efficiency of cold energy utilization, thereby reducing the run time of air-conditioning compressors in corresponding areas. It is expected to reduce approximately 7.7 tons of CO₂ equivalent of greenhouse gas emissions throughout the year.

3. *Green action initiative*

“Earth Hour” (地球一小時) is an environmental action initiated by the World Wide Fund for Nature (世界自然基金會) (WWF) in response to global climate change. On March 26, 2022, the Company continued to respond to the “Earth Hour” in the capacity of a “promotion partner”, and has participated in the environmental protection relay for 6 consecutive years. The public welfare project of “One Commonweal Heart of Huatai One Yangtze River” on environmental protection, together with HUATECH BAND, held an online concert with the theme of “Songs to Nature and You” to guide the public to re-examine the relationship between man and nature. In addition, the Company turned off the lights of its headquarters for one hour to advocate the public to turn off unnecessary lights and electronic equipment and pay attention to climate and environmental changes.

In March 2022, the Company initiated the establishment of “Jiangsu Huatai Foundation”, which is committed to gathering professional advantages in the field of asset management and fintech, empowering the public welfare and charity industry and making contributions to the promotion of social fairness.

In June 2022, with the support of Huatai Securities, Huatai Foundation and Shan Shui Conservation Center launched the “Step-by-step Scholarship – One Yangtze River Youth Activist Support Program”, which aims to reward and support outstanding young people with potential who are interested in long-term development in the field of ecological and environmental protection public welfare and have made certain practical contributions on the front line, so as to facilitate the sustainable development of ecological and environmental protection activists and public welfare undertakings.

4. *Developing green finance and promoting capital for good*

In April 2022, the issuance of the first tranche of the “Tranche 1-5 Special Asset-backed Plans of Huatai – Cao Cao Mobility of Geely (Specially for Carbon Neutrality)” was completed, with Huatai United Securities as the sole financial advisor and Huatai Asset Management as the program manager. This project is the first ABS for carbon neutrality in the online ride-hailing industry, and the proceeds are mainly used to purchase and launch pure electric new energy vehicles to facilitate green travel, which is of great positive significance to responding to the national carbon neutrality target and practicing the concept of green development.

In May 2022, Huatai United Securities, as the sole financial advisor, facilitated the successful issuance of the “Weineng – Huatai – Yongxing – Green New Energy Battery Special Asset-backed Plans (Carbon Neutrality)”, the first green new energy battery asset ABS project in the PRC. All the underlying assets of this product match with green new energy power batteries, and all the proceeds are used for the business launch of battery assets. According to the rating certification by Lianhe Equator, the project involved in the underlying assets of this product falls into the green industry field, and the green rating is G1, which complies with the Guiding Opinions of the China Securities Regulatory Commission on Supporting the Development of Green Bonds, the Green Bond Endorsed Projects Catalogue of the People’s Bank of China, the International Capital Market Association Green Bond Principles and other certification standards, and has obtained the “carbon neutrality” labeling certification from the exchange. In the future, Huatai United Securities will continue to support green and low-carbon development and promote sustainable development and the construction of a green China with the power of capital.

II. DETAILS ON CONSOLIDATION AND EXPANSION OF THE RESULTS OF POVERTY ALLEVIATION, RURAL REVITALIZATION AND OTHER WORK

During the Reporting Period, Huatai Securities, together with its subsidiaries, set up the Rural Revitalization Special Fund and One Yangtze River Environmental Protection Special Fund through Huatai Foundation, which are specially used for public welfare projects related to rural revitalization and environmental protection to give back to society with a stronger sense of responsibility and higher professionalism. The Company will rely on Huatai Foundation to gather more partners to support public welfare and charity, contribute to sustainable development and promote social fairness and justice. The Rural Revitalization Special Fund will focus on promoting the revitalization of rural industries, supporting the development of rural education and medical services, and providing targeted subsidies to special groups such as left-behind children and children with serious illnesses in rural areas; helping to build the capacity of social work service organizations in less developed areas; and subsidizing non-governmental rescue organizations to enhance the response capability to major natural disasters. During the Reporting Period, the Company continued to deepen the “One Company Helps One County” pairing assistance program, set up research groups for county-level economic development, and gave full play to the intellectual strengths of financial professionals to promote the economic and social development of Jinzhai; and solidly pushed forward the “Village-enterprise Co-construction” targeted support, and completed 14 industrial revitalization projects in 10 villages under the program in central and northern Jiangsu Province, and dispatched personnel to join the new Assistance Team of Jiangsu Provincial Party Committee in Feng County to carry out village support; fully supported the “East-west Collaboration and Support”, and the labor union of the Company implemented a two-year action plan for supportive consumption and support for targeted assistance areas from 2022 to 2023. In the first half of 2022, the Company accumulatively purchased RMB1,364,800 of supportive consumption products.

Note 1: Arrangements for investors' appropriateness: Targets of the issuance are professional investors who hold A share securities accounts of China Securities Depository and Clearing Corporation Limited, Shanghai Branch and are in compliance with the requirements of the Administrative Measures for Issuance and Trading of Corporate Bonds, the Administrative Measures of the Shanghai Stock Exchange for Eligibility of Investors in the Bond Market (《上海證券交易所債券市場投資者適當性管理辦法》), the Administrative Measures for the Eligibility of the Investors of Securities and Future (《證券期貨投資者適當性管理辦法》) and relevant laws and regulations (excluding purchasers subject to prohibition under laws and regulations). Investors shall not subscribe by illegal use of others' accounts or fund accounts, or illegally financing or financing for others. Investors subscribing for this tranche of bonds shall observe relevant laws and regulations and relevant provisions of the CSRC and assume corresponding legal responsibilities on their own.

Note 2: The above bonds are listed on the Shanghai Stock Exchange, which can be traded by way of matching, one-click-order, price-enquiry, bidding and negotiating pursuant to the Rules Governing the Trading of Bonds on the Shanghai Stock Exchange. For details of the lead underwriter and the trustee of each bond, please refer to the announcements of the Company in relation to bond issuance published on the website of the Shanghai Stock Exchange.

Note 3: 21 Huatai Y1, 21 Huatai Y2, 21 Huatai Y3, 22 Huatai Y1 and 22 Huatai Y2 are subject to issuer's renewal option, issuer's redemption right, issuer's redemption option when certain conditions are met and issuer's right of deferring interest payment. The coupon rate for the first five interest-bearing years is determined through book-building, which remains unchanged during the first five interest-bearing years. The coupon rate shall be repriced every five years from the sixth interest-bearing year. If no redemption right were exercised by the issuer, the coupon rate would be adjusted to be the sum of the current benchmark interest rate and the initial spread plus 300bp from the sixth interest-bearing year, which will remain unchanged from the sixth interest-bearing year to the tenth interest-bearing year. Afterwards, the coupon rate repriced every five years is the sum of the current benchmark interest rate and the initial spread plus 300bp. The initial spread is the difference between the coupon rate and the initial benchmark interest rate for the first five interest-bearing years.

2. Triggers and execution of issuer's or investor's option clauses or investor protection clauses

21 Huatai Y1, 21 Huatai Y2, 21 Huatai Y3, 22 Huatai Y1 and 22 Huatai Y2 issued by the Company are subject to the issuer's renewal option and issuer's redemption right, and the issuer's renewal option has not been exercised as of the disclosure date of this report; the issuer's redemption option when certain conditions are met, which has not been triggered as of the disclosure date of this report; and the issuer's right of deferring interest payment. Since the Company considered and approved the Resolution on the 2021 Profit Distribution of the Company at the 2021 Annual General Meeting held on June 22, 2022, which is a mandatory interest payment event as stipulated in the above bond prospectus, the Company will pay the bond interest on time and in full on the interest payment date.

As of the disclosure date of this report, the Company has strictly implemented the relevant terms and agreements on investor protection clauses and settlement safeguards in accordance with the covenants in the prospectus for corporate bonds, and paid the principal and/or interest of each bond on time and in full.

REPORT ON REVIEW OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

TO THE BOARD OF DIRECTORS OF HUATAI SECURITIES CO., LTD.

(Incorporated in the People's Republic of China with Limited Liability)

Introduction

We have reviewed the condensed consolidated financial statements of Huatai Securities Co., Ltd. (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 3 to 100, which comprise the condensed consolidated statement of financial position as of 30 June 2022 and the related condensed consolidated statement of profit or loss, statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the six-month period then ended, and certain explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34") issued by the International Accounting Standards Board. The directors of the Company are responsible for the preparation and presentation of these condensed consolidated financial statements in accordance with IAS 34. Our responsibility is to express a conclusion on these condensed consolidated financial statements based on our review, and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the International Auditing and Assurance Standards Board. A review of these condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

REPORT ON REVIEW OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

2. Basis of preparation

The condensed consolidated financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting* issued by the International Accounting Standards Board ("IASB") as well as the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. It was authorised for issue on 30 August 2022.

3. Principal accounting policies

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair values, as appropriate.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED 30 JUNE 2022

(Expressed in thousands of Renminbi, unless otherwise stated)

3. Principal accounting policies - continued

Other than additional accounting policies resulting from application of amendments to International Financial Reporting Standards ("IFRSs"), the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 June 2022 are the same as those presented in the Group's annual financial statements for the year ended 31 December 2021.

Application of amendments to IFRSs

In the current interim period, the Group has applied the following amendments to IFRSs issued by the IASB, for the first time, which are mandatorily effective for the Group's annual period beginning on or after 1 January 2022 for the preparation of the Group's condensed consolidated financial statements:

Amendments to IFRS 3	Reference to the Conceptual Framework
Amendments to IAS 16	Property, Plant and Equipment - Proceeds before Intended Use
Amendments to IAS 37	Onerous Contracts - Cost of Fulfilling a Contract
Amendments to IFRSs	Annual Improvements to IFRSs 2018-2020

The application of the amendments to IFRSs in the current interim period has had no material impact on the Group's financial positions and performance for the current and prior periods and/or on the disclosures set out in these condensed consolidated financial statements.

The condensed consolidated financial statements does not include all the information required for a full set of financial statements prepared in accordance with IFRSs. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual financial report as at and for the year ended 31 December 2021.

The condensed consolidated financial statements are unaudited, but has been reviewed by Deloitte Touche Tohmatsu in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*, issued by International Auditing and Assurance Standards Board. Deloitte Touche Tohmatsu's independent review report to the Board of Directors is issued on 30 August 2022.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in thousands of Renminbi, unless otherwise stated)

4. Use of judgements and estimates

The preparation of the condensed consolidated financial statements requires management to make judgements and estimates that affect the application of policies and disclosed amounts of assets and liabilities, incomes and expenses. Actual results in the future may differ from those disclosed as a result of the use of estimates and assumptions about future conditions.

In the preparation of the condensed consolidated financial statements, the key sources of uncertainty derived from significant judgements and estimation made by the management while applying the Group's accounting policies are the same as these applied in the preparation of the Group's consolidated financial statements for the year ended December 31, 2021.

16. Basic and diluted earnings per share - continued

(2) Diluted earnings per share - continued

(a) Consolidated net profit attributable to ordinary shareholders of the Company (diluted) is calculated as follows: - continued

- (i) The Company granted Restricted Stock Incentive Scheme of A shares to certain employees in 2021. Diluted earnings per share should take into account both the impact of the cash dividend of the current period distributed to the holders of restricted shares who are expected to reach the unlocking conditions and estimate number of restricted shares will be unlocked. After considering the abovementioned impacts, the Restricted Stock Incentive Scheme has an anti-dilutive effect and excluded from the calculation of diluted earnings per share for the period ended 30 June 2022.
- (ii) Bank of Jiangsu Co., Ltd. ("Bank of Jiangsu"), the associate of the Company issued convertible bonds in 2019. Diluted earnings per share takes into account the potential dilutive impact on the Group's share of profits of this associate due to the potential full conversion of bonds to shares.
- (iii) The dilutive effect is due to the share-based payments of AssetMark Financial Holdings, Inc. ("AssetMark").

(b) Weighted average number of ordinary shares outstanding (diluted) is calculated as follows:

	Six months ended 30 June

As at 30 June 2022 and 31 December 2021, the fund investments with lock-up periods in its investment portfolio held by the Group are RMB260 million and RMB177 million, respectively.

As at 30 June 2022 and 31 December 2021, the listed equity securities held by the Group included approximately RMB 4,802 million and RMB 3,967 million of restricted shares, respectively. The restricted shares are listed in the PRC with a legally enforceable restriction on these securities that prevents the Group to dispose of within the specified period. The fair value of these securities have taken into account the relevant features including the restrictions.

The equity interest in unlisted securities held by the Group are issued by private companies. The value of the securities is measured by comparing with comparable companies that are listed and in the same sector or measured by using other valuation techniques.

Non-current financial assets at fair value through profit or loss investments are expected to be realised or restricted for sale beyond one year from the end of the respective reporting periods. The fair value of the Group's investments in unlisted funds, which mainly invest in publicly traded equities listed in the PRC, are valued based on the net asset values of the funds calculated by the respective fund managers by reference to their underlying assets and liabilities' fair values.

The fair value of the Group's investments in equity securities without restriction, exchange-listed funds and debt securities are determined with reference to their quoted prices as at reporting date.

As at 30 June 2022 and 31 December 2021, the Group has entered into securities lending arrangement with clients that resulted in the transfer of financial assets at fair value through profit or loss investments with total fair value of RMB 4,144 million and RMB 5,156 million to external clients, respectively, which did not result in derecognition of the financial assets. The fair value of collateral for the securities lending business is analysed in Note 31(c) together with the fair value of collateral of margin financing business.

As at 31 December 2021, the fair value through profit or loss investments which have been pledged to CSF for the purpose of replacement amounted to RMB856 million (30 June 2022: nil).

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED 30 JUNE 2022

(Expressed in thousands of Renminbi, unless otherwise stated)

39. Short-term debt instruments issued - continued

- (1) During the six months ended 30 June 2022, the Company has issued 1,509 tranches of structured notes, bearing interest ranging from 1.60% to 6.58% per annum, repayable within 1 year. Structured notes repayable more than 1 year are classified as "Long-term bonds" (Note 46). (During the year ended 31 December 2021, the Company has issued 3,849 tranches of structured notes, bearing interest ranging from 2.00% to 6.58% per annum).

40. Placements from other financial institutions

	As at 30 <u>June 2022</u>	As at 31 <u>December 2021</u>
Placements from banks	<u>43,339,686</u>	<u>14,018,721</u>

As at 30 June 2022, the placements from banks are unsecured, bearing interest of 1.10% - 2.53% per annum, with maturities within 91 days. (As at 31 December 2021, the placements from banks are unsecured, bearing interest of 0.25% - 3.10% per annum, with maturities within 132 days).

41. Accounts payable to brokerage clients

	As at 30 <u>June 2022</u>	As at 31 <u>December 2021</u>
Clients' deposits for brokerage trading	138,607,534	127,624,066
Clients' deposits for margin financing and securities lending	<u>20,170,000</u>	<u>19,877,767</u>
Total	<u>158,777,534</u>	<u>147,501,833</u>

Accounts payable to brokerage clients represent the monies received from and repayable to brokerage clients, which are mainly held at banks and at clearing houses by the Group. Accounts payable to brokerage clients are interest-bearing at the prevailing interest rate.

The majority of the accounts payable balances are repayable on demand except where certain accounts payable to brokerage clients represent monies received from clients for their margin financing activities under normal course of business, such as margin financing and securities lending. Only the excess amounts over the required margin deposits and cash collateral stipulated are repayable on demand.

No ageing analysis is disclosed as in the opinion of the directors of the Company, the ageing analysis does not give additional value in view of the nature of these businesses.

Perpetual subordinated bonds	<u>12,694,871</u>	<u>9,996,425</u>

As approved by the CSRC, the Company issued four batches of perpetual subordinated bonds ("21 Huatai Y1", "21 Huatai Y2", "21 Huatai Y3" and "22 Huatai Y1") with an initial interest rate of 3.85%, 4.00%, 3.80%, 3.49% on 15 September 2021, 26 October 2021, 16 November 2021 and 24 January 2022. The perpetual subordinated bonds have no fixed maturity dates and the Company has an option to redeem the bonds at principal amounts plus any accrued interest on the fifth interest payment date or any interest payment date afterwards.

The interest rate for perpetual subordinated bonds is fixed in the first 5 years and will be repriced every 5 years. The repriced interest rate is determined as the sum of the current base rate and the initial spread plus 300bp. The current base rate is defined as the average yield of 5 years treasury from the interbank fixed rate bond yield curve published on China Bond webpage 5 working days before the adjustment.

The issuer has the option to defer interest payment, except in the event of mandatory interest payments, so that at each interest payment date, the issuer may choose to defer the interest payment to the next payment date for the current period as well as all interest and accreted interest already deferred, without being subject to any limitation with respect to the number of deferrals. Mandatory interest payment events are limited to dividend distributions to ordinary equity holders and reductions of registered capital. As the Company declared dividend distribution to ordinary equity holders during the 2021 annual general meeting held on 22 June 2022, the Company has recognised interest payable to the perpetual subordinated bonds amounted to RMB485,730 thousand in dividend payable.

The perpetual subordinated bonds issued by the Company are classified as equity instruments and presented under equity in the condensed consolidated statement of financial position.

51. Reserves

(a) Capital reserve

Capital reserve mainly includes share premium arising from the issuance of new shares at prices in excess of face value and the difference between the considerations of acquisition of equity interests from non-controlling shareholders and the carrying amount of the proportionate net assets.

(b) Surplus reserve

Pursuant to the Company Law of the PRC, the Company is required to appropriate 10% of its net profit to the statutory surplus reserve until the balance reaches 50% of its registered capital.

Subject to the approval of the shareholders, the statutory reserve may be used to offset accumulated losses, or converted into capital of the Company provided that the balance of the statutory surplus reserve after such capitalisation is not less than 25% of the registered capital immediately before the capitalisation.

(c) General reserve

General reserve includes general risk reserve and transaction risk reserve.

In accordance with the requirements of the CSRC Circular regarding the Annual Reporting of Securities Companies in 2007 (Zhengjian Jigou Zi [2007] No. 320) issued on 18 December 2007, the Company appropriates 10% of its annual net profit to the general risk reserve.

In accordance with the requirements of the CSRC Circular regarding the Annual Reporting of Securities Companies in 2007 (Zhengjian Jigou Zi [2007] No. 320) issued on 18 December 2007 and in compliance with the Securities Law, for the purpose of covering securities trading losses, the Company appropriates 10% from its annual net profit to the transaction risk reserve.

Contracted, but not provided for	<u>4,886,800</u>	<u>2,469,201</u>

The aforementioned capital commitments mainly represent securities underwriting commitments of the Group.

54. Interests in structured entities

(a) Interests in structured entities consolidated by the Group

Structured entities consolidated by the Group mainly stand for the asset management schemes where the Group involves as manager and / or as investor. The Group assesses whether the combination of investments it holds together with its remuneration creates exposure to variability of returns from the activities of the asset management schemes to a level of such significance that it indicates that the Group is a principal.

As at 30 June 2022 and 31 December 2021, the Group consolidates 46 and 34 structured entities, respectively, which are mainly asset management schemes. As at 30 June 2022 and 31 December 2021, the total assets of the consolidated structured entities are RMB47,274 million and RMB29,375 million, respectively, and the carrying amount of interests held by the Group in the consolidated structured entities are RMB41,455 million and RMB28,329 million, respectively.

(b) Interests in structured entities sponsored by the Group but not consolidated

Structured entities for which the Group served as general partner or manager, therefore has power over them during the reporting periods are asset management schemes. Except for the structured entities that the Group has consolidated as set out in Note 54(a), the Group's exposure to the variable returns in the remaining structured entities in which the Group has interests is not significant. The Group therefore did not consolidate these structured entities.

59. Financial instruments and risk management

(a) Risk management policies and structure

(i) Risk management policies

In order to enhance the Group's scientific, standardised and effective management and operation, strengthen the capability of defending against risks and ensure the continuous, stable and rapid development of the Group's businesses, the Group had formulated the Basic System for Risk Management which had been deliberated and approved by the Board of Directors in accordance with the Securities Law of the People's Republic of China, the Rules on Supervision over Securities Companies, the Guidelines on the Internal Control of Securities Companies, the Regulation on Comprehensive Risk Management of Securities Companies and other relevant regulations in combination with the business operation and business management. This has clarified the risk management objectives and principles, the risk appetite and risk tolerance level of the Company as a whole and for different risk types, the risk management procedures, and the relevant resource assurance and appraisal mechanisms. In terms of operation management, the Group had formulated and issued various professional risk management guidelines to clearly establish the management processes and measures, risk indicators and limits for various types of risks; in addition, the Group had also formulated policies such as the Administration Measures for Risk Control Indicators, the Rules on the Risk Management of Subsidiaries, the Implementation Plan for Stress Test and the Detailed Implementation Rules for Stress Test at the operation level. In the specific business level, the Group had established business risk management system or risk management manual based on the risk points of different business areas and business management lines.

The principal types of risk faced by the Group in daily operation mainly include credit risk, liquidity risk, market risk, operational risk, reputational risk, information technology risk, compliance risk and modelling risk. The Group had formulated corresponding policies and procedures to identify and analyse these risks, and set up risk indicators, risk limits and internal risk control processes in combination with the actual circumstances with a view to continuously manage the above risks through the support of information systems and effective mechanisms.

Risk management is a shared responsibility of all the Group's employees. The Group continuously enhances the risk management awareness and risk sensitivity of all its employees through training and assessment to cultivate the risk management culture.

(ii) Risk governance structure

The risk management structure of the Company covers five major parts: The Board and its Compliance and Risk Management Committee, Board of Supervisors, Business Operation Management and Risk Control Committee, Risk Management Department and various professional risk management departments as well as other departments, branches and subsidiaries.

(a) Risk management policies and structure - continued

(ii) Risk governance structure - continued

The Board of Directors is the highest decision-making body for risk management and assumes ultimate responsibility for the effectiveness of the Company's comprehensive risk management system. The Compliance and Risk Management Committee is set up by the Board to review and make recommendations on the overall risk management targets, fundamental policies and risk assessment reports; and evaluate and make recommendations on the risks of major decisions which require the Board's review as well as the solutions to these major risks. The Board of Supervisors is responsible for the supervision of overall risk management, supervising and examining the Board and the management on the performance of their risk management duties and urging them to make rectifications. Based on the authorisation and approval of the Board and in combination with the operational targets of the Company, the management is specifically responsible for the implementation of risk management activities, with the Risk Control Committee established under it. The Chief Risk Officer of the Company is responsible for leading the overall risk management initiatives. The Risk Management Department is charged with comprehensive risk management duties. It reports to the management and is responsible for managing the overall risks of the Company, taking the lead in managing market risk, credit risk and operational risk. Relevant functional departments of the Company are responsible for taking the lead in managing other types of risks according to their responsibilities and positioning. Other departments, branches and subsidiaries of the Company are responsible for the management of risks in respective lines, implementing policies, procedures and measures formulated by the Company and risk management departments, accepting the guidance from risk management departments and the decomposition of risk management and implementation responsibilities by the risk management departments. The Audit Department is responsible for the review and evaluation of the effectiveness and implementation of the risk management procedures of the Company and taking the lead in evaluating the overall risk management system of the Company.

(b) Credit risk management

Credit risk refers to the risk of asset loss of the Company resulting from the default of a product or bond issuer or counterparty (customer). The Company has established a credit risk management system covering self-owned capital and entrusted funding business. The system is applied to all subsidiaries domestic or overseas, and also to the sub-subsidiaries managed with reference to the subsidiary's management approach, thereby achieving full credit risk management coverage.

The Group mainly faced four types of credit risks, namely (i) the risks of suffering from loss in respect of the financing bills and interests lent out due to customer's default in financing business; (ii) the risks caused by default of the bond issuer in bond investment business; (iii) the risks of assets suffering from loss due to the default by the counterparty in transaction business; (iv) the risks of loss suffered by the Group arising from payment made on customer's behalf due to insufficient fund of the customer in guarantee settlement business.

(b) Credit risk management - continued

With respect to financing business, the Group adopted full-process control measures such as stringent customer and underlying assets management, dynamic monitoring and timely risk mitigation to control the credit risk. The Company implemented stringent risk control processes, conducted special risk inspections on margin financing and securities lending business, strengthened the counter-cyclical management mechanism, and improved the standard of differentiated customers management.

With respect to bond investment business, the Company established a unified management system for issuers. During the reporting period, the Company revised and reconstructed the bottom-line control over credit bond investment in key industries, continued to promote the systematic construction of issuers' credit risk management modules, and enhanced the efficiency and pertinence of risk management. At the same time, it also continuously promoted the construction of implementation of the access mechanism and restriction rules which are linked to rating results of the credit analysis management system (CAMS system) to improve the consistency of the internal assessment system and enhance the Group's overall risk identification and control capabilities.

With respect to transaction business, the Company promoted the construction of the unified management system for counterparty, further expanded the coverage of the unified management of counterparty credit line at group level and built a full counterparty list system in order to strictly control its business risk exposures. At the same time, the Company continued to promote the systematic construction of counterparty credit risk management, and gradually realised the platformisation of counterparty management and related processes.

With respect to guarantee settlement business, the Group incorporated it into the counterparty system for unified management, and at the same time explored ways to enhance the management system and access threshold for customer qualifications, continued to improve the front-end control of risk indicator design and promoted the establishment of systematic measures, as well as strengthened its risk event handling and risk transmission control capabilities.

At the same time, the Company promoted the establishment of a unified customer background penetration management system within the Group. The Company comprehensively collated and released Key Guidelines for Control of Credit Risk in Business Operation, and collated the bottom-line measures for strengthening the control of credit risk points. The Company also continuously refined and improved customer ESG risk management mechanism in accordance with changes in the external environment, consolidated the unified management system for credit risk, improved the capability to address the complex external credit business environment, and provided robust risk management control support for the development of various credit businesses.

Description	Stage of credit loss allowances	
Collateral to loan ratios above the force liquidation thresholds, with no past due days	12-month ECL	Stage I
Collateral to loan ratios above the force liquidation thresholds, with less than 90 days past due on its contractual payments	Lifetime ECL-not credit impaired	Stage II
Collateral to loan ratios below the force liquidation thresholds but above 100%, with no past due days		
Collateral to loan ratios below the force liquidation thresholds but above 100%, with less than 90 days past due on its contractual payments		
Collateral to loan ratios below 100%	Lifetime ECL-credit impaired	Stage III
Collateral to loan ratios above 100%, with more than 90 days past due on its contractual payments		
Borrowers in default or lawsuit		
Borrowers in significant financial difficulties or about to bankruptcy or undertaking a financial restructuring		

The Group set different force liquidation thresholds, normally no less than 130%, for different borrowers and assets.

For assets classified under Stage I and II, the Group assessed credit loss allowances using the risk parameters modeling approach that incorporated key parameters inclusive of collateral to loan ratios and past due days. As at 30 June 2022, the credit loss rate is 0.24% and 1.01% for assets classified under Stage I and II, respectively. (As at 31 December 2021, the credit loss rate is 0.24% for assets classified under Stage I, no assets classified under Stage II).

For credit impaired assets classified under Stage III, the Group assessed credit loss allowances taking into account the collateral securities under each contract and the financial situation of the borrower. The factors which the Group considered when assessing the credit loss allowances included but not limited to: the industry sector of the borrower, the stock price of the collateral securities, the average daily trading volume of the stock, the percentage of goodwill of the stock issuer, significant risk parameters of the securities, whether the borrowers are the holding shareholders, the liquidity and restriction on sales, the history of blacklist or defaults of the borrower, the total market pledged ratios of the stock, the collateral situation, and the credit enhancement measures implemented by the borrower. The Group assessed the above factors as well as collateral to loan ratios and past due days to evaluate and provide credit loss allowances, ranging from 10% to 100%.

(b) Credit risk management - continued

(i) Credit rating analysis of financial assets

With respect to bond investment business, the Company established a unified management system for issuers for the aggregated monitoring of the total investment amount of the same issuer for different business units within the Group through the system and implemented bottom-line control over credit bond investment in key industries. At the same time, it also continuously promoted the construction of implementation of the access mechanism and restriction rules which are linked to rating results of the CAMS system to improve the consistency of the internal assessment system and enhance the Group's overall risk identification and control capabilities.

(c) Liquidity risk management

Liquidity risk refers to the risk of the Company not being able to obtain sufficient funds at a reasonable cost in time to meet due debts, perform payment obligations and meet the capital requirements of normal businesses. The Company established a fully functional liquidity risk management system to identify, measure, monitor, control and report on its overall liquidity risk to improve the informatisation of liquidity risk management, enhance the capabilities in the identification, measurement and monitoring of liquidity risk, and strengthen the Company's ability in addressing liquidity risk. In addition, the Company also established a right-sized liquidity assets reserves based on the risk appetite and maintained sufficient liquidity assets with high quality to ensure the satisfaction of liquidity needs under stressful scenarios in a timely manner.

(d) Market risk management

Market risk refers to the risk resulting from the movements in market prices such as exchange rates, interest rates and stock prices, which could have an impact on the income of the Group or the value of financial instruments held by the Group. The objective of market risk management is to manage and control the market risk within the acceptable range and to maximise the risk adjusted return.

(i) Interest rate risk

Interest rate risk refers to the risk that movements in market interest rate will cause fluctuation in the Company's financial position and cash flow. The Company's interest-bearing assets mainly include bank balances, clearing settlement funds, margin accounts receivable, financial assets purchased under resale agreements, refundable deposits and bond investments; interest-bearing liabilities mainly include short-term bank loans, short-term debt instruments issued, placements from other financial institutions, financial assets sold under repurchase agreements, accounts payable to brokerage clients, long-term bonds and long-term bank loans, amongst others.

(d) Market risk management - continued

(i) Interest rate risk - continued

For financial instruments held on the balance sheet date that expose the Group to fair value interest rate risk, the Group adopts sensitivity analysis as the primary instrument for monitoring interest rate risk. Sensitivity analysis measures the effect of any reasonable and potential changes to the interest rate on the net profits and shareholders' equity under the assumption that all the other variables remain constant.

(ii) Currency risk

Currency risk is the risk arising from foreign exchange business of the Group, which is attributable to the fluctuation of foreign exchange rates. Apart from the assets and liabilities held by the Group's overseas subsidiaries which use Hong Kong dollars or U.S. dollars as their functional currency, other assets and liabilities denominated in foreign currencies mainly represent foreign currency cash and bank balances held by domestic enterprises, foreign currency financial assets and liabilities arising from cross-border business, as well as foreign currency financial assets acquired by subsidiaries. In respect of assets and liabilities denominated in foreign currencies such as cash and bank balances, clearing settlement funds, refundable deposits, accounts receivable, cash held on behalf of brokerage clients, accounts payable and long-term bonds that are not accounted for with their functional currency, the Group has ensured that their net risk exposure are maintained at an acceptable level by buying or selling foreign currencies at market exchange rates where necessary to address the short-term imbalances.

(iii) Price risks

The Group is exposed to equity price changes arising from equity investments concluded in financial instruments at fair value through profit or loss and financial assets at fair value through other comprehensive income. Price risk the Group facing is mainly the proportionate fluctuation in the Group's net profits due to the price fluctuation of the financial instruments at fair value through profit or loss and the proportionate fluctuation in the Group's equity due to the price fluctuation of the financial instruments measured at fair value.

(e) Operational risk management

Operational risk refers to the risk on the Company's losses caused by inadequate or problematic internal procedures, staff, system or external events, which lead to inefficient internal procedures, mistakes of staff in operation or failure to strictly enforce the established procedures. The Risk Management Department takes the lead in managing the operational risk of the Company. Each risk management departments, business departments and support departments perform operational risk management in their respective business and management areas according to their segregation of functions. The Company adopts technological measures to prevent the emergence of operational risks in different business and management procedures as well as key segments, whilst at the same time strengthens process controls, to ensure effective implementation of operational risk management policies and systems. The Company carries out self-assessment of risk and control, monitoring of key risk indicators and gathering of loss data as additional approaches to strengthen the management of operational risks.

Based on the Basic Standard for Enterprise Internal Control jointly issued by the Ministry of Finance, the CSRC, the National Audit Office and the China Banking and Insurance Regulatory Commission as well as its supporting guidelines and the relevant requirements of the regulatory authorities and the Company, the Company has developed the risk-based internal control standards and carried out relevant continuous improvement initiatives. It has combined the self-assessment of operational risk with the self-assessment of internal controls; comprehensively sorted out and evaluated the inherent risks and control activities in various business processes; tested the effectiveness of control design and implementation; rectified the internal control weaknesses; comprehensively sorted out and optimised various business segments, systems and processes of the Company; whilst at the same time supplemented and improved the risk control matrix and internal control manual; recorded the risk points, key control activities and major business flow charts in order to ensure that the Company's internal control measures are properly in place and the effectiveness of risk management. In addition, the Company has also integrated the management of operational risk and internal controls into daily operation; participated in the design of system, procedures and plan for new business throughout the entire process; fully identified and comprehensively evaluated the operational risks; and performed various pre-, middle- and post management measures such as setting up front-end controls, standardising business processes, creating risk-discovery indicators and conducting training and inspection in order to implement internal controls at key risk points.

(f) Capital management

The Group's objectives of capital management are:

- (i) To safeguard the Group's ability to continue as a going concern so that they can continue to provide returns for shareholders and benefits for other stakeholders;
- (ii) To support the Group's stability and growth;
- (iii) To maintain a strong capital base to support the development of their business; and
- (iv) To comply with the capital requirements under the PRC, Hong Kong and the United States regulations.

(f) Capital management - continued

On 23 January 2020 and 20 March 2020, the revised Rules on Standards for the Calculation of Risk Control Indicators of Securities Companies and the revised Administrative Measures for Risk Control Indicators of Securities Companies were issued by the CSRC. The Company is required to meet the following standards for risk control indicators on a continual basis from 1 June 2020:

- (i) The ratio of net capital divided by the sum of its various risk capital provisions shall be no less than 100%;
- (ii) The ratio of net capital divided by net assets shall be no less than 20%;
- (iii) The ratio of net capital divided by liabilities shall be no less than 8%;
- (iv) The ratio of net assets divided by liabilities shall be no less than 10%;
- (v) The ratio of the value of equity securities and derivatives held divided by net capital shall not exceed 100%;
- (vi) The ratio of the value of non-equity securities and derivatives held divided by net capital shall not exceed 500%;
- (vii) The ratio of core net capital divided by on balance sheet and off balance sheet assets shall be no less than 8%;
- (viii) The ratio of high quality liquidity assets divided by net cash outflows for the next 30 days shall be no less than 100%;
- (ix) The ratio of available stable funds divided by required stable funds shall be no less than 100%; and
- (x) The ratio of margin financing (including securities lending) divided by net capital shall not exceed 400%.

Net capital refers to net assets minus risk adjustments on certain types of assets as defined in the Administrative Measures.

During the period, the Company monitored the above ratios closely to maintain these ratios in compliance with the relevant capital requirements.

Similar to the Company, certain subsidiaries of the Group are also subject to capital requirements under the Mainland China, Hong Kong and the United States regulatory requirements, respectively. These subsidiaries comply with the capital requirements during the six-month period ended 30 June 2022 and the year ended 31 December 2021.

(g) Transfer of financial assets

The Group transferred financial assets to certain counterparties through repurchase agreements and securities lending. These securities are not derecognised from the condensed consolidated statement of financial position because the Group retains substantially all the risks and rewards of these securities.

(g) Transfer of financial assets - continued

The Group entered into repurchase agreements with certain counterparties to sell debt securities classified as financial assets at fair value through profit or loss and debt instruments at amortised cost. Sales and repurchase agreements are transactions in which the Group sell a security, and agree to repurchase it at the agreed date and price. The repurchase prices are fixed and the Group is still exposed to substantially all the credit risks, market risks and rewards of those securities sold. These securities are not derecognised from the condensed consolidated statement of financial position because the Group retains substantially all the risks and rewards of these financial assets.

The Group entered into securities lending agreements with clients to lend out its equity securities and exchange-traded funds classified as financial assets at fair value through profit or loss. As stipulated in the securities lending agreements, the legal ownership of these equity securities and exchange-traded funds is transferred to the clients. Although the clients are allowed to sell these securities during the covered period, they have obligations to return these securities to the Group at specified future dates. The Group has determined that it retains substantially all the risks and interests of these securities and therefore has not derecognised these securities in the condensed consolidated statement of financial position.

The following tables provide a summary of carrying amounts and fair values of the transferred financial assets that are not derecognised in their entirety and the associated liabilities:

60. Fair value information**(a) Fair value of financial instruments**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participations at the measurement date.

(i) Financial instruments in Level I

The fair value of financial instruments traded in active markets is based on quoted market prices at the date of the statement of financial position. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the closing price within bid-ask spread. These instruments are included in Level I.

(ii) Financial instruments in Level II

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level II.

(iii) Financial instruments in Level III

If one or more of the significant inputs is not based on observable market data, the instrument is included in Level III.

(b) Fair value of financial instruments (carried at other than fair value)

The fair value of financial assets and financial liabilities not measured at fair value on a recurring basis is estimated by the active market quotation or determined in accordance with discounted cash flow method.

The main parameters used in discounted cash flow method for financial instruments held by the Group that are not measured at fair value on a recurring basis include bond interest rates, foreign exchange rates and counterparty credit spreads.

The carrying amount and fair value of debt instruments at amortised cost investments, short-term debt instruments issued and long-term bonds which are not presented at fair value are listed as below:

62. Events after the reporting date - continued

(b) Issuance of perpetual subordinated bond

On 11 July 2022, the Company issued the perpetual subordinated bond ("22 Huatai Y2") amounting to RMB3 billion. The par value per bond is RMB100 and the coupon rate is 3.59%. The perpetual subordinated bonds have no fixed maturity dates and the Company has an option to redeem the bonds at principal amounts plus any accrued interest on the fifth interest payment date or any interest payment date afterwards.

The interest rate for perpetual subordinated bonds is fixed in the first 5 years and will be repriced every 5 years. The repriced interest rate is determined as the sum of the current base rate and the initial spread plus 300bp. The current base rate is defined as the average yield of 5 years treasury from the interbank fixed rate bond yield curve published on China Bond webpage 5 working days before the adjustment.

The issuer has the option to defer interest payment, except in the event of mandatory interest payments, so that at each interest payment date, the issuer may choose to defer the interest payment to the next payment date for the current period as well as all interest and accreted interest already deferred, without being subject to any limitation with respect to the number of deferrals. Of which, mandatory interest payment events are limited to dividend distributions to ordinary equity holders and reductions of registered capital. In the event of mandatory interest payments, the Company shall not defer the interest in current period as well as all interest and accreted interest already deferred.

(c) Acquisition of non-controlling interest in a subsidiary

In July 2022, the Company completed the acquisition of 40% equity of Huatai Futures Co., Ltd. held by Deluxe Family Co., Ltd. On 7 July 2022, Huatai Futures Co., Ltd completed the business registration for the change of shareholders. The Company has changed its shareholding interests of Huatai Futures Co., Ltd. to 100%. Accordingly, Huatai Futures Co., Ltd. became a wholly owned subsidiary of the Group.

The consideration for the acquisition is RMB1,590 million, and the consideration was paid by the Company in cash.
