Loss for the period attributable to equity holders of the Company	(20.9)	(26.4)

The Group's overall revenue for the six months ended 30 June 2022 was approximately HK\$205.1 million, representing a decrease of approximately 33.0% over the last corresponding period. The decrease in the Group's revenue was mainly due to reduction of sales orders from part of the existing customers.

The Group's overall gross profit margin for the six months ended 30 June 2022 decreased (January to June 2022: 4.7%; January to June 2021: 5.8%) mainly because of the reduction of sales order from part of the existing customers, which resulted in operating deleveraging effects during the six months ended 30 June 2022 when compared to the last corresponding period.

As a result of the decrease in the Group's revenue and gross profit margin, the Group recorded a net loss of approximately HK\$20.9 million for the six months ended 30 June 2022 (January to June 2021: net loss of approximately HK\$26.4 million).

Apparel Supply Chain Servicing Business

The Group's revenue from the Apparel Supply Chain Servicing Business for the six months ended 30 June 2022 was approximately HK\$205.1 million, representing a decrease of approximately 33.0% over the last corresponding period. The decrease in the Group's revenue from the Apparel Supply Chain Servicing Business was mainly due to reduction of sales orders from part of the existing customers.

The Group's gross profit from the Apparel Supply Chain Servicing Business for the six months ended 30 June 2022 decreased (January to June 2022: HK\$9.7 million; January to June 2021: HK\$17.7 million) mainly due to the decrease in gross profit margin. The gross profit margin decreased mainly because of the reduction of sales orders from part of the existing customers which resulted in operating deleveraging effects during the six months ended 30 June 2022 when compared to the last corresponding period.

During the six months ended 30 June 2022, we recorded a segmental loss before other losses – net, finance costs – net and income tax credit of approximately HK\$17.5 million, representing a decrease of approximately HK\$8.2 million comparing to the last corresponding period.

Apparel Retail Business

There was neither revenue, gross profit nor expenses from our Apparel Retail Business during the six months ended 30 June 2022 as the subsidiaries which were principally engaged in the Apparel Retail Business were disposed of by the end of February 2017.

Property Investment and Development Business

There was neither revenue, gross profit nor expenses from our Property Investment and Development Business during the six months ended 30 June 2022 as the subsidiaries which were engaged in the property development and investment for the land at Xinmi City were fully disposed of in 2016.

DISTRIBUTION COSTS

Distribution costs mainly represented employees' wages, transportation charges and sales commission incurred during the six months ended 30 June 2022. Distribution costs decreased by approximately 36.7% to approximately HK\$2.0 million comparing to the last corresponding period mainly because of the reduction in employees' wages and sales commission payment.

ADMINISTRATIVE EXPENSES

Administrative expenses mainly represented the provision for impairment of goodwill, employee benefit expenses for our management, finance and administrative personnel, entertainment expenses, rental expenses for our office premises, depreciation and travelling expenses. Decrease in the administrative expenses was mainly due to (i) the absence of provision for impairment of goodwill for the six months ended 30 June 2022 as compared to HK\$6.9 million for the corresponding period in 2021 and (ii) the decrease of amortisation for the customer relationships from approximately HK\$2.0 million for the six months ended 30 June 2021 to approximately HK\$0.5 million during the first half of 2022.

OTHER (LOSSES)/GAINS – NET

Other (losses)/gains – net mainly represented the foreign exchange (losses)/gains.

During the six months ended 30 June 2022, the Group recognised other losses – net of approximately HK\$1.2 million as a result of the weak performance of RMB (2021 other gains – net: HK\$2.4 million).

FINANCE INCOME AND COSTS

Finance income increased by approximately 113.8% to approximately HK\$0.3 million primarily due to an increase in the deposit interest rates during the six months ended 30 June 2022.

Finance costs decreased by approximately 9.4% to approximately HK\$2.6 million primarily due to the decrease in bank borrowings during the six months ended 30 June 2022.

INCOME TAX CREDIT/(EXPENSES)

Income tax credit mainly represented the reversal of over tax provision in prior years. During the six months ended 30 June 2022, income tax credit was approximately HK\$0.1 million (2021: income tax expenses HK\$0.4 million).

INVENTORIES

Inventories balance increased from approximately HK\$44.6 million as at 31 December 2021 to approximately HK\$103.5 million as at 30 June 2022 mainly due to the increasing number of goods purchased in contemplation for shipment in the second half of 2022, resulting in an increase in the inventory turnover days (30 June 2022: 69 days; 31 December 2021: 30 days).

TRADE AND BILLS RECEIVABLE

Trade and bills receivable balance decreased from approximately HK\$110.2 million as at 31 December 2021 to approximately HK\$54.2 million as at 30 June 2022 which is in line with the decrease in revenue for the six months ended 30 June 2022.

We generally grant customers of our Apparel Supply Chain Servicing Business a credit period of 30 to 90 days and they are generally required to settle their trade balances with us by bank transfer or by cheque.

Trade receivable turnover days increased due to delay in payment by our customers (30 June 2022: 73 days; 31 December 2021: 56 days).

TRADE AND BILLS PAYABLE

Trade and bills payable balance decreased from approximately HK\$169.1 million as at 31 December 2021 to approximately HK\$144.8 million as at 30 June 2022 primarily because of the partial settlements during the six months ended 30 June 2022.

We generally enjoy a credit term of up to 90 days to settle payment. There is an increase in trade and bills payable turnover days (30 June 2022: 145 days; 31 December 2021: 90 days) because delay of settlement to the suppliers were noted during the six months ended 30 June 2022.

BORROWINGS

The Group had bank borrowings in the sum of approximately HK\$105.9 million as at 30 June 2022 (31 December 2021: HK\$109.4 million). All bank borrowings were made from banks in Hong Kong at floating interest rates. As at 30 June 2022, all bank borrowings were repayable within two years, of which approximately HK\$105.3 million was repayable within one year, approximately HK\$0.6 million was repayable between one to two years, and all subject to repayable on demand clauses. All the carrying amounts of bank borrowings were denominated in HK\$. No financial instruments were used for hedging purposes, nor were there any foreign currency net investments hedged by current borrowings and/or other hedging instruments as at 30 June 2022.

LIQUIDITY AND FINANCIAL RESOURCES

During the six months ended 30 June 2022, the Group maintained a healthy liquidity position, with working capital financed by both internal resources and bank borrowings. As at 30 June 2022, cash and cash equivalents amounted to approximately HK\$129.7 million, of which approximately HK\$78.5 million was denominated in HK\$, approximately HK\$30.3 million in Renminbi (“RMB”), approximately HK\$20.4 million in United States dollar and approximately HK\$0.5 million in other currencies respectively. As at 30 June 2022, the current ratio of the Group was approximately 1.2 (31 December 2021: 1.2). Despite the decrease of cash and cash equivalents of approximately HK\$63.5 million mainly attributable to the purchase of goods in contemplation for shipment in the second half of 2022, the Group was still in a net cash position as at 30 June 2022. TREASURY POLICIES

The Group has adopted a prudent financial management approach towards its treasury policies and thus maintained a healthy liquidity position throughout the period under review. The Group strives to reduce exposure to credit risk by performing ongoing credit assessments and evaluations of the financial status of its customers. To manage liquidity risk, the Board closely monitors the Group’s liquidity position to ensure that the sufficient financial resources are available in order to meet its funding requirements and commitment timely.

FOREIGN EXCHANGE EXPOSURE

Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.

Foreign exchange risk arises when future commercial transactions or recognised assets or liabilities are denominated in a currency that is not the entity's functional currency. For group companies with RMB or US dollars as their functional currency, foreign exchange risk arises primarily from translation of amounts denominated in foreign currencies. The Group manages its foreign exchange risk by closely monitoring the movement of the foreign currency rates.

The Group has investments in the PRC, whose net assets are exposed to foreign currency translation risk. Currency exposure arising from the net assets of the Group's investments in the PRC can be managed through dividends paid outside the PRC.

During the six months ended 30 June 2022, the Group did not commit to any financial instruments to hedge its exposure to foreign currency risk.

PROSPECTS

Looking ahead to the second half of 2022, it is expected that the global economy will still be affected by the outbreak of the coronavirus disease (“**COVID-19 Outbreak**”). With the increase in COVID-19 vaccination coverage, we believe that there is hope to get out of the present predicament even though we expect the global economy will remain volatile given the uncertain factors such as the COVID-19 Outbreak and the development of the China-US trade war. The Group will continue to pay close attention to the development of the COVID-19 in China and around the global and changes in the market in order to respond and take appropriate actions promptly.

In order to explore for more new opportunities with the existing and potential customers, the Group will continuously enhance product innovation and creativity. For production management, the Group will continue to enhance the operating efficiency by simplifying the production processes which will result in a shorter product delivery time. In addition, the Group will work closely with our customers to consolidate the fabrication in order to obtain better material prices with mass volume which will enhance our cost competitiveness. Moreover, we will try to simplify the Group’s organisation structure with each operating process in order to save costs.

We keep looking for other retail business opportunity with a better profitability for the Group’s Apparel Retail Business.

We are still closely monitoring the property market to determine the appropriate investment strategy for the Group’s Property Investment and Development Business. We will seek any appropriate property investment and development project if we believe that it can magnify the Group’s shareholders’ return.
