But gross profit ratio for the period increased to 36.4% (six months ended 30 June 2021: 34.7%). The increase of gross profit ratio was in line with the increase in gross profit margin in wastewater treatment segment with gross profit ratio of 36.4% (six months ended 30 June 2021: 34.2%). The increase in gross profit margin in wastewater treatment segment is a result of the increase in market recognition of the Group's branding. The Group's loss attributable to owners of the Company for the period was reduced to approximately HK\$10,299,000 (six months ended 30 June 2021: HK\$18,384,000), which was mainly due to the exchange gain from the depreciation of Renminbi over Hong Kong dollars arising from Renminbi denominated payables and tighten of cost control.

### Business Review and Outlook

In the first half of 2022, China is still be affected by the repeated epidemics, the overall economic situation is not optimistic, and the environmental protection industry is also facing huge challenges. The Group's new wastewater treatment contract orders have decreased, and the project implementation cycle has been lengthened. While strengthening internal management, the Group still adhered to innovative ideas, responded to challenges, and actively explored the market development of new environmental protection businesses. The overall revenue in the first half of the year decreased as compared to the same period last year. In the second half of the year, we will actively strengthen the development of core areas and key projects, grasp market trends, and seek new business opportunities based on consolidating the existing wastewater treatment business market share.

As for the healthcare business, in order to strengthen the Group's financial position and reduce operating losses, the Group has sold its operating subsidiaries in the healthcare business. The Board of Directors anticipated no further investment in the healthcare industry in the near future. In other words, all resources of the Group will be concentrated on the environmental protection business.
