## NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

### 1. BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“**HKFRS**”) issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”) and disclosure requirements of the Hong Kong Companies Ordinance (“**HKCO**”) Cap.622. The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of investment properties, which are stated at fair value.

On 29 October 2021, the Group entered into a sale and purchase agreement with Cambo Management Limited to dispose of the Group’s yacht inventory at a consideration of HK\$92,120,000. The transaction was completed on 12 January 2022. After the transaction, the Group discontinued its yacht building business and the results of the yacht building business were reported as a discontinued operation.

Accordingly, the financial results of the yacht building business are presented in the consolidated income statement and consolidated statement of cash flows as “Discontinued Operation” in accordance with IFRS 5 “Non-current Assets Held for Sales and Discontinued Operations”. Comparative figures for 2021 have also been restated.

#### Going concern basis

During the year ended 30 June 2022, the Group recorded a loss of HK\$37,523,000 (2021: HK\$70,920,000). As at 30 June 2022, the Group’s current liabilities exceeded its current assets by HK\$51,467,000 (2021: current assets exceeded its current liabilities by HK\$10,658,000). The Group turned into net current liabilities position is mainly attributable to a non-current loan from a Director, Mr. Lo Lin Shing, Simon (“**Mr. Lo**”), of HK\$27,000,000 was settled and net cash outflow from investing activities for the current year.

The Group’s business has been negatively impacted by the weak market sentiment amidst the Coronavirus Disease 2019 (“**COVID-19**”) pandemic during the year ended 30 June 2022.

For network solutions and project services business, the revenue dropped significantly to HK\$9,090,000 (2021: HK\$20,171,000) as some of existing projects were unavoidably delayed and the sales activities were also affected by impact of the COVID-19 pandemic.

Private jet management services business is still facing various challenges in running its management business as Hong Kong is still maintaining a relatively tight travel restriction since 2020.

For minerals exploration business, it was still under the exploration and no revenue was generated for the year ended 30 June 2022.

The Group commenced the new logistics services business since January 2022 in order to improve the operating results. It contributed approximately of HK\$83,280,000 of revenue, which is around 65.5% of the Group’s revenue, and HK\$10,086,000 of segment result for the year ended 30 June 2022. However, the logistics business was just operated for about half a year, it did not generate a significant cash inflow from its operation for year ended 30 June 2022.

All of the above conditions indicate the existence of material uncertainty which may cast significant doubt about the Group’s ability to continue as a going concern.

In view of such circumstances, the directors of the Company (the “**Directors**”) have given careful consideration to the future liquidity and performance of the Group and its available sources of financing in assessing whether the Group will have sufficient financial resources to continue as a going concern. The Directors have reviewed a cash flow projection of the Group prepared by management covering a period of not less than twelve months from 30 June 2022 taking into consideration the following plans and measures:

- (a) As at 30 June 2022, the Group had aggregated a revolving standby facility from Mr Lo (the “**Director’s Facility**”) totaling HK\$140,000,000 of which unutilised facilities amounted to HK\$137,000,000. Subsequent to year end, the Group has extended the maturity date of the Director’s Facility to 30 June 2024.

The Director’s Facility is available to be drawn by the Group to finance its operations. Mr. Lo has confirmed he does not have any intention to withdraw the facility during the next twelve months.

- (b) On 22 July 2022, the bank term loan of HK\$68,000,000, which was secured by investment properties with carrying amount of HK\$128,780,000, was fully settled by the Director’s Facility. The release of security is currently under legal processing and the management expects it will be completed in October 2022.

After settling the bank term loan and apart from bank borrowing derived from bills arrangement, the Group has no other material bank borrowings.

After the arrangement of (a) and (b) above, the Group had turned into net current asset position since late July 2022.

- (c) Apart from the investment properties mentioned above, the Group possessed other investment properties with carrying amount of HK\$154,000,000, which were not secured for any additional bank borrowings. Management is currently negotiating with the Group’s principal banks to obtain bank financing with the investment properties.
- (d) The Group continued its efforts by focusing on the development of its logistics business in order to improve the operating results and strengthen its working capital position. The Group expects the logistics business will generate net cash inflow from its operation in the coming year.

The Directors have, after due consideration of the basis of management’s plans and measures as well as the reasonable possible downside changes to the cash flow projections, are confident that the Group will have sufficient working capital to fulfil its financial obligations as and when they fall due in the coming twelve months from 30 June 2022. Accordingly, the Directors are satisfied that it is appropriate to prepare the consolidated financial statements on a going concern basis.

The Company has one category of dilutive potential ordinary shares: share option. The weighted average number of ordinary shares used in the calculation is the weighted average number of the ordinary shares in issue during the year, as used in the basic loss per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise or conversion of share option.

During the years ended 30 June 2022 and 2021, the share options granted by the Company were not assumed to be exercised as they would have anti-dilutive impact to the basic loss per share.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Business Review

#### 1. *Network Solutions and Project Services (“NSPS”)*

The revenue achieved by NSPS during the Financial Year was HK\$9.1 million (2021: HK\$20.2 million). A significant decrease of 54.9% from last corresponding year. A breakdown of the revenue from NSPS was as follows:

- (i) Telecom solutions was HK\$1.6 million (2021: HK\$1.7 million);
- (ii) Enterprise solutions was HK\$2.5 million (2021: HK\$2.4 million);
- (iii) Project services was HK\$4.1 million (2021: HK\$15.3 million); and
- (iv) System maintenance was HK\$0.9 million (2021: HK\$0.8 million).

Compared to the revenue of last corresponding year, the revenue during the Financial Year decreased by approximately HK\$11.1 million. The contributing factors to the significant dropped in revenue are (i) some of the exhibition halls at AsiaWorld-Expo (AWE) are being turned into temporary quarantine centers by the Hong Kong government, a 5G installation contract (the “**Project**”) for a Hong Kong mobile operator (the “**Mobile Operator**”) at AWE is unavoidably delayed. The original target completion time for the Project was in December 2021 but it is now extended indefinitely until the remaining 2 halls (Hall 3 and 6) are no longer required by the Hong Kong government. Part of the revenue from the Project was recognized in the Financial Year based on the percentage of completion method. The remaining revenue from this project will be recognized in future once the unfinished works are completed; (ii) NSPS is being enlisted by a Hong Kong telecom operator as its approved cellular site contractor in 2021 after it failed to renew an installation contract with the Mobile Operator. However, the volume of orders received from this new telecom operator was significantly lower when compared with the orders from the Mobile Operator in previous years. It was due to the keen competition against other approved contractors; and (iii) the impact of the COVID-19 pandemic which lasted for more than 2 years has seriously affected the entire Hong Kong economy. This leads to a serious drop in the sales activities of NSPS.

#### 2. *Property Investment*

The policy of the Group’s investment properties is holding to earn rentals and/or for capital appreciation. The management will review the Group’s property portfolio from time to time to achieve this policy. The revenue for the Financial Year was HK\$6.3 million (2021: HK\$6.7 million). As at 30 June 2022, all the investment properties were renting out except for the commercial building at 17/F., Henan Building, Wan Chai, Hong Kong. According to the latest statistics published by the Rating and Valuation Department, the average rental during the Financial Year for Grade B offices in Wanchai and Central was dropped by around 5.5% and 4.8% respectively.

### **3. *Yacht Construction and Trading***

On 29 October 2021, the Group entered into an agreement to sell the initial yacht at a consideration of approximately HK\$92.1 million. The sale was officially completed on 12 January 2022. After the sale of the initial yacht, the Group halted the plan to construct and sale of yachts in future. Therefore, this segment is classified as discontinued operation in the consolidated financial statements.

### **4. *Exploration and Evaluation of Mineral Resources***

FVSP LLC (“**FVSP**”), a 51% owned indirect subsidiary, holds a mining license number MV-021621 with gold and other mineral resources in Mongolia covering approximately 7,120 hectares (the “**Zoolon Gold Project**”).

During the Financial Year, FVSP was focusing on regional exploration program with an aim to expand current resources and discover new deposits in the earlier defined target areas. The 2022 exploration plan was commenced in mid-March 2022. The actual field works will last for 5 months starting from May 2022. The 2022 exploration plan covers geological mapping, geophysical survey, exploratory trenching & drilling works and geological study. The entire budget for the 2022 exploration plan was approximately HK\$15.6 million.

### **5. *Private Jet Management Services (“PJM”)***

During the Financial Year, an aircraft management contract for a private jet was terminated in April 2022 due to the client disposed of his aircraft. Fortunately, the management of PJM signed a new aircraft management contract in June 2022. At the end of the Financial Year, PJM maintained three private jets (2021: three) under aircraft management contracts (“**AMC**”) and two aircrafts (2021: two) under ad hoc management contracts (“**AHC**”). The revenue for the Financial Year was HK\$28.4 million (2021: HK\$28.3 million). PJM is still facing various challenges in running its management business since Hong Kong is still maintaining a relatively tight travel restrictions when compared to the rest of the world.

### **6. *Logistics business***

During the Financial Year, the Group formed an indirect non-wholly owned subsidiary for the provision of minerals and resources transportation services mainly in Xinjiang, PRC (the “**Logistics Company**”). ## **Financial Review**

### **1. Results Analysis**

#### *Revenue*

During the Financial Year, the Group's revenue increased to HK\$127.1 million (2021: HK\$55.1 million). Around 65.5% (2021: Nil) of the Group's revenue was generated from the logistics business, 22.4% (2021: 51.3%) from the private jet management services and 7.2% (2021: 36.6%) from the NSPS. The remaining revenue was generated from property investment.

#### *Fair value gain on investment properties*

The fair values of the Group's investment properties at the end of the Financial Year were valued by an independent qualified valuer. The net increase in carrying values consisted of (i) fair value gain on investment properties of HK\$4.3 million (2021: fair value loss of HK\$24.9 million) and (ii) loss on currency translation of HK\$1.1 million on our investment properties in China (2021: gain on currency translation of HK\$3.4 million). The Group's portfolio of commercial properties in Hong Kong accounted for the fair value gain on investment properties.

#### *Employee benefit expenses*

The increase in employee benefit expenses was mainly due to the share based payment expenses of HK\$7.5 million (2021: Nil) arising from the share options granted by the Company in April 2022.

#### *Other expenses*

The increase in other expenses was mainly due to (i) the increase of legal and professional fees related to the sale of a yacht to a connected person of the Company; (ii) one-off share based payment expense related to share options granted to consultants of the Company and (iii) the increase in administrative expenses on setting up of the JV.

#### *Finance costs*

For the Financial Year, finance costs were HK\$2.4 million (2021: HK\$1.8 million). The increase in finance costs was mainly due to the increase in borrowings.

## **2. *Liquidity and Financial Resources***

In preparing the consolidated financial statements, the Directors have given careful consideration of the future liquidity of the Group. While recognizing that the Group incurred a loss of approximately HK\$37.5 million for the Financial Year and, as of 30 June 2022, the Group's current liabilities exceeded its current assets by approximately HK\$51.5 million, the Directors are of the opinion that the Group will be able to meet its financial obligations as they fall due for the foreseeable future given that Mr. Lo Lin Shing, Simon (“**Mr. Lo**”), being the Chairman and Director of the Company has provided a revolving standby facility to be matured on 30 June 2024 amounting to HK\$140.0 million (2021: HK\$50.0 million) by way of advances to the Company. The advances from Mr. Lo is unsecured and interest bearing at HK\$ prime rate per annum. As at 30 June 2022, advances from Mr. Lo amounted to HK\$3.0 million (2021: HK\$29.1 million) and he does not intend to demand immediate repayment of his advances to the Company.

The Group had a short-term revolving bank loan facility totaling HK\$68.0 million as at the end of the Financial Year (2021: HK\$68.0 million), all of which had been drawn and outstanding. The bank loan facility is secured by an office premise and two parking spaces under the Group's investment properties portfolio. The bank borrowing interest was charged at 1.5% per annum over Hong Kong Interbank Offered Rate or 0.5% per annum over cost of fund of the bank, whichever is higher (2021: Same).

## **3. *Gearing***

As at 30 June 2022, the gearing ratio of the Group was 18.9% (2021: 19.6%) which was calculated based on the Group's total borrowings to total assets.

## **4. *Foreign Exchange***

The Group's key operations are located in Hong Kong, China and Mongolia. The Group's assets and liabilities are mainly denominated in Hong Kong dollars, United States dollars and Renminbi. The Group does not establish a foreign currency hedging policy. However, management of the Group continues to monitor foreign exchange exposure and will consider hedging significant currency exposures should the need arise.

## **5. *Contingent Liabilities***

As at 30 June 2022, the Group did not have material contingent liabilities (2021: Nil).

## **BUSINESS OUTLOOK AND DEVELOPMENT**

The economic outlooks for the locations where the Group operates are not so promising. Hong Kong's economy moderately contracted by 1.3% year-on-year in real terms in the second quarter of 2022, after a decrease of 3.9% in the first quarter of 2022. Considering the worse-than-expected economic performance in the first half and the sharp deterioration of global economic prospects, the Hong Kong government's latest forecast on Hong Kong's real GDP growth for 2022 is between -0.5% to 0.5%. The World Bank has lowered Mongolia's gross domestic product growth forecast for 2022 to 2.5 percent to reflect the impact of the war in Ukraine through higher prices of imported food, fuel and fertilizers coupled with lingering border restrictions caused by the COVID-19 pandemic. China's zero-COVID policies are also crippling on its economic outlook.

As at 30 June 2022, the total amount of projects on hand for NSPS was approximately HK\$8.0 million. Among them, HK\$5.3 million was belonged to the project services, HK\$1.0 million was belonged to the solution sales, and HK\$1.7 million was belonged to the maintenance services.

The impacts of COVID-19 pandemic in Hong Kong and the war in Ukraine causing a disruption in supply chain coupled with high transportation and fuel prices. The business of NSPS is still affecting by these negative factors. NSPS is working hard to offer new business solutions such as micro-data-center and wireless alarm systems to the market. However, it needs more time to cultivate these new markets. The termination of the normal installation contract by the Mobile Operator in 2020 does not mean the termination of our business relationship. In coming financial year, the Mobile Operator granted a non-standard installation contract to NSPS in August 2022.

For the property investment and private jet management segments, their business performance will be improved upon the revival of economic growth in Hong Kong.

For the logistics business, the JV entered into a logistics services framework agreement and a supplemental agreement (the "**Agreements**") with Mongolia Energy Corporation Limited ("**MEC**") on 3 December 2021 and 31 March 2022 respectively. The annual revenue cap under the Agreements was RMB131.6 million covering the period from 1 April 2022 to 31 March 2023. The Agreements were conditional to the approval by the independent shareholders of MEC and the approval was sought on 20 May 2022. The Agreements covering three months in the Financial Year and nine months in the next financial year. We expect the business volume of the JV will be further increased after taking into account of the Agreements and the business growth from other non-MEC clients.

## **EMOLUMENT POLICY**

As at 30 June 2022, the Group had employed a total of 50 full-time employees (2021: 36) in Hong Kong. The emolument policy regarding the employees of the Group is based on their merit, qualifications and competence. The emoluments of the Directors are reviewed and determined by the Remuneration Committee, having regard to the Company's operating results, individual performance and comparable market statistics. The Group also offers appropriate training programs for staff training and development.

The Board has already set out the criteria for selection of a director under its internal policy. According to the Articles, any newly appointed Directors shall hold office only until the next AGM and shall then be eligible for re-election at that meeting. Furthermore, the Director re-election process participating by the shareholders in the AGM and the rights of shareholders to nominate a Director both ensure a right candidate to be selected to serve the Board effectively.

- iii. Code provision F.2.2 of the CG Code stipulates that the chairman of the board should attend the AGM of the Company.

Due to another business engagement, the chairman of the Board did not attend the 2021 AGM. The chairman of the Audit and Remuneration committees of the Company had chaired the 2021 AGM and answered shareholders' questions. The AGM of the Company provides a channel for communication between the Board and the shareholders.
