## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

# MANAGEMENT DISCUSSION AND ANALYSIS

## GENERAL

During the nine months ended 30 September 2022 (the “**Period**”), the Company and its subsidiaries (collectively the “**Group**”) was principally engaged in (i) brokerage business in futures and options products being traded in Hong Kong and overseas markets, together with the stock options and securities being traded in the Stock Exchange and margin financing business and (ii) money lending business.

## OPERATION REVIEW

In the third quarter of 2022, there was a slight improvement in brokerage business and the decreasing trend of the commission income from the brokerage business ended in this quarter. The management believed that the Group could benefit from the volatile market conditions as customers tend to make more trades.

## FINANCIAL REVIEW

During the Period, the Group recorded a total revenue of approximately HK\$5.3 million, representing a slight decrease of approximately HK\$14,000 from approximately HK\$5.4 million recorded in the nine months ended 30 September 2021 (the “**Corresponding Period**”). Loss for the Period of approximately HK\$7.9 million was recorded, as compared to the loss of approximately HK\$13.9 million for the Corresponding Period.

Salaries and other benefits decreased by approximately HK\$1.5 million, or approximately 25.0% mainly due to the implementation of cost-cutting measures to reduce the number of staff in mid-2021.

## MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

Other operating and administrative expenses decreased by approximately HK\$6.0 million or approximately 40.8% compared to the Corresponding Period mainly due to the decrease of marketing expense by approximately HK\$3.5 million incurred during the Period and implementation of other cost-cutting measures since late 2021.

Finance cost increased by approximately HK\$0.9 million or approximately 131.2% compared to the Correspondence Period mainly due to the interest expenses for the notes payables issued in early 2022 for financing existing and the new money lending business of the Group.

### OUTLOOK

The management expects the commission revenue from the brokerage income could grow further in the last quarter of 2022. However, it is believed that such growth will be slow until all the compulsory quarantine arrangement for travelers from the PRC are lifted. The management will continue to seek for opportunities to expand the scope of business which could benefit the financial performance of the Group and bring more values to the shareholders of the Company.

The board of Directors (the “**Board**”) of the Company presents the unaudited condensed consolidated results of the Group for the three months and nine months ended 30 September 2022, together with the comparative unaudited figures for the corresponding periods in 2021, as follows:
