			21,460,000	25,757,000	(47,000,000)	–	217,000			

Note:

- (i) All share options granted were vested immediately.
- (ii) The closing price of the securities immediately before the date on which the options were granted was HK\$0.25.

The estimate of the fair value of the share options granted during the Period is measured based on a binomial option pricing model on the date which the options were granted, i.e. 8 April 2022. Fair value of share options granted and assumptions are as follows:

Employees

Fair value of each share option at grant date	HK\$0.0945
Share price of each share at grant date	HK\$0.25
Exercise price of each share option	HK\$0.25
Expected volatility	90.18%
Option life	2 years
Expected dividend yield	0%
Risk-free interest rate	1.94%

The expected volatility is based on the historical volatility (calculated based on the weighted average remaining life of the share options), adjusted for any expected changes to future volatility based on publicly available information. Expected dividends are based on historical dividends. The assumptions used in computing the fair value of the share options are based on management's best estimate. Changes in the subjective input assumptions could materially affect the fair value estimate.

Based on the fair values derived from the above pricing model, the fair value of the share options granted on 8 April 2022 was approximately HK\$2,434,000 (equivalent to approximately RMB1,975,000), such amount has been charged as share-based compensation expenses to profit or loss for the Period.

There was no market vesting condition or non-market performance condition associated with the options granted.
