Third Quarterly Report 2022

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

*This report, for which the directors (the “**Directors**”) of JLogo Holdings Limited (the “**Company**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the nine months ended 30 September 2022

1. GENERAL INFORMATION

The Company is an exempted company with limited liability incorporated in the Cayman Islands on 22 May 2017. The registered office of the Company is situated at P.O. Box 1350, Windward 3, Regatta Office Park, Grand Cayman KY1-1108, Cayman Islands. The principal place of business in Hong Kong under Part 16 of the Companies Ordinance (Cap. 622 of the Laws of Hong Kong) is at Room 3705, 37/F, Hong Kong Plaza, 188 Connaught Road West, Hong Kong.

The Company's shares were listed on GEM of the Stock Exchange on 9 May 2018.

The Company is an investment holding company. The Company's subsidiaries are principally engaged in the business of:

- (1) dining operations in Singapore; and
- (2) artisanal bakery chains in Malaysia.

2. BASIS OF PREPARATION

The unaudited condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRSs"), which include all International Financial Reporting Standards, International Accounting Standards ("IASs") and interpretations issued by the International Accounting Standards Board (the "IASB"), and the disclosure requirements of accounting principles generally accepted in Hong Kong and the Hong Kong Companies Ordinance.

The unaudited condensed consolidated financial statements have been prepared under the historical cost convention. The unaudited condensed consolidated financial statements are presented in Singapore dollar ("SGD" or "S\$") and all values in the tables are rounded to the nearest thousand ("S\$'000"), except where otherwise indicated.

The basis of preparation and accounting policies adopted in the preparation of the unaudited condensed consolidated financial statements for the nine months ended 30 September 2022 are consistent with those adopted in the preparation of the of the Group's consolidated financial statements for the year ended 31 December 2021 included in the 2021 Annual Report.

The Group has not adopted the new and revised IFRSs, which have been issued but are not yet effective.

Basis of consolidation

The unaudited condensed consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the “**Group**”) for the nine months ended 30 September 2022. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group. All intra-group income and expenses relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group’s share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, or the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

We are a food and beverage group which owns and operates award-winning restaurants in Singapore under different brands and owns one of the largest artisanal bakery chains in Malaysia in terms of revenue and the number of bakery retail outlets in Malaysia. We operate our dining operations in Singapore under two self-owned brands and one franchised brand. Our “Central Hong Kong Café” brand is primarily focused on offering a casual and authentic Cha Chaan Teng experience in a full service environment while our “Black Society” brand offers Chinese cuisines with a contemporary twist in a full service environment. The franchised “Greyhound Café” brand provides stylish and trendy ambience which serves a specialised Thai menu with creative twists. Our artisanal bakery chain in Malaysia offers a wide selection of artisan breads, pastries and cakes under our “Bread Story” brand.

We believe that our Group is competitively positioned based on our operating history of more than ten years, our strong brand recognition and reputation, diversified customer base, innovative product offerings, unique dining experience and experienced management. In addition, the locations of our restaurants in Singapore and our bakery retail outlets in Malaysia are vital to our Group’s strategy of targeting areas which are high in customer traffic and easily accessible by our target customers that will help in promoting our brands image and awareness.

OUTLOOK

The Company's shares (the "**Shares**") were successfully listed on GEM of the Stock Exchange on 9 May 2018 (the "**Listing Date**") by way of share offer of a total of 125,000,000 Shares, at the offer price of HK\$0.50 per Share (the "**Share Offer**"). The amount of net proceeds from the Share Offer received by the Company was approximately HK\$23.7 million.

The Directors believe that the listing of the Company on GEM of the Stock Exchange (the "**Listing**") would facilitate the implementation of our business plans to capture more market share in the industry. The Listing would (i) strengthen our Group's corporate profile; (ii) provide a fund-raising platform for our Group; and (iii) diversify our shareholder base.

Although economic uncertainty may have peaked in the first half of this year but it still remains with high inflationary pressure and rising interest rates as the upper most concern in the days ahead. Singapore's economy has also slowed down in Q3, however the domestic market has been robust with capital influx from the region contributing to spending activities in Singapore. Together with most countries in the world switching from the covid pandemic to now an endemic, we see tourism back to live in Singapore and this is certainly a positive and plus factor for the F&B sector.

We have opened the second café Q Classified in a very prime site in Vivocity this October 2022 and the better than expected turnover has contributed positively to the top line of the group. However, we have also closed down Central Hong Kong Café in Resorts World Sentosa this August 2022 due to the entire concept and site reconfiguration plans of the landlord affecting this location.

FINANCIAL REVIEW

Revenue

Our revenue increased by approximately S\$3.25 million or 34.7% from approximately S\$9.37 million for the nine months ended 30 September 2021 to S\$12.62 million for the nine months ended 30 September 2022. The substantial increase in our revenue was primarily due to gradually removal of COVID-19 measures from 26 April 2022 onwards. In particular, the removal of social group size limit and safe distancing requirements will effectively increase the total capacity of our restaurants and increase the footfall in the malls, and hence provide substantial uplift to our business.

Cost of inventories sold and consumed

Our cost of inventories sold and consumed increased by approximately S\$1.02 million or 40.8% from approximately S\$2.51 million for the nine months ended 30 September 2021 to approximately S\$3.53 million for the nine months ended 30 September 2022. The rising in food costs was mainly due to overall ingredient prices inflation.

Other income and gains, net

Our other income decreased by approximately S\$1.80 million or 85.5% from approximately S\$2.11 million for the nine months ended 30 September 2021 to approximately S\$0.31 million for the nine months ended 30 September 2022. The decrease was due to local government gradually tapered the level of grants provided to the F&B sector and no rent concessions were offered by the landlords for the nine months period ended September 2022.

Depreciation of property, plant and equipment

Depreciation of property, plant and equipment decreased by approximately S\$0.11 million or 18.1% from approximately S\$0.62 million for the nine months ended 30 September 2021 to approximately S\$0.51 million for the nine months ended 30 September 2022. The decrease is due to more property, plant and equipment were fully depreciated since early of financial year 2022.

Depreciation of right-of-use assets

Depreciation of right-of-use assets decreased by approximately S\$0.86 million or 28.5% from approximately S\$3.03 million for the period ended 30 September 2021 to approximately S\$2.17 million for the nine months ended 30 September 2022. The decrease is due to lesser operating outlets as compared to prior year as two of our outlets were renewed as short term lease upon lease renewal.

Other expenses

Other expenses primarily consist of legal and professional fees, rental and related expenses, cleaning fee, repair and maintenance expenses, kitchen and bar utensils expenses, bank charges relating to credit card settlement, unrealised foreign currency exchange losses and other miscellaneous expenses. Our other expenses had increased by S\$0.44 million or 21.5% from approximately S\$2.06 million for the nine months ended 30 September 2021 to approximately S\$2.50 million for the nine months ended 30 September 2022. The increase was mainly due to increase in rents and related expenses of S\$0.22 million as two of our outlets were renewed as short term lease upon lease renewal and increase of unrealized foreign currency losses of S\$0.13 million as a result of strengthening HKD against SGD for the nine month period ended 30 September 2022.

Loss for the period

Our Group recorded a loss of approximately S\$1.50 million and S\$2.12 million for the nine months ended 30 September 2022 and 2021, respectively. The reduction of loss for the nine months ended 30 September 2022 was mainly attributable to the overall increase in revenue as a result of the removal of COVID-19 measures by the Singapore and Malaysia government.
