2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The condensed interim financial statements are unaudited and are prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting, the relevant disclosure provisions in the Instrument of Incorporation dated on 13 December 2019 (the “Instrument of Incorporation”), the Code on Open-Ended Fund Companies of the SFC (the “OFC Code”) and the relevant disclosure provisions specified in Appendix E of the Code on Unit Trusts and Mutual Funds of the SFC (the “UT Code”).

The unaudited condensed interim financial statements do not include all the information and disclosures required in the annual financial statements.

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(a)(i) Basis of preparation

The financial statements of the Sub-Funds have been prepared in accordance with International Financial Reporting Standards (“IFRSs”) as issued by the International Accounting Standards Board (“IASB”), and interpretations issued by the International Financial Reporting Interpretations Committee of the IASB, the relevant disclosure provisions in the Instrument of Incorporation, the OFC Code and the relevant disclosure provisions specified in Appendix E of the UT Code.

The financial statements have been prepared under the historical cost convention, except for financial assets classified as at fair value through profit or loss (“FVPL”) that have been measured at fair value. The financial statements are presented in Renminbi (“RMB”) for China Clean Energy ETF, China Consumer Brand ETF, China Electric Vehicle and Battery ETF, China Robotics and AI ETF, China Semiconductor ETF, China Global Leaders ETF, China Innovator Active ETF, Asia Semiconductor ETF, China E-Commerce and Logistics ETF, China Games and Entertainment ETF and Asia Innovator Active ETF and United States dollar (“USD”) for Autonomous and Electric Vehicles ETF and Fintech ETF. All values are rounded to the nearest RMB and USD respectively except where otherwise indicated.

Asia Innovator Active ETF, Autonomous and Electric Vehicles ETF and Fintech ETF have adopted for the first time all the applicable and effective IFRSs.

(a)(ii) Significant accounting judgements, estimates and assumptions

The preparation of financial statements, in conformity with IFRSs, requires the Manager to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts recognised in the financial statements and disclosure of contingent liabilities. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a)(iii) Changes in accounting policies and disclosures

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 April 2022/9 December 2021 (date of inception for Global X Asia Innovator Active ETF, Global X Autonomous and Electric Vehicles ETF and Global X Fintech ETF) that have a material effect on the financial statements of the Sub-Funds.

(a)(iv) Issued but not yet effective IFRSs

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 April 2022/9 December 2021 (date of inception for Global X Asia Innovator Active ETF, Global X Autonomous and Electric Vehicles ETF and Global X Fintech ETF) and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Funds.

(b) Financial instruments

(i) *Classification*

In accordance with IFRS 9, the Sub-Funds classify their financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities as set out below.

Financial assets

The Sub-Funds classify their financial assets as subsequently measured at amortised cost or measured at FVPL on the basis of both:

- The entity's business model for managing the financial assets; and
- The contractual cash flow characteristics of the financial asset

Financial assets measured at amortised cost

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. The Sub-Funds include in this category short-term non-financing receivables including dividends receivables, amounts due from brokers and bank balances.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Financial instruments (continued)

(i) **Classification (continued)**

Financial assets measured at FVPL

A financial asset is measured at FVPL if:

- (a) Its contractual terms do not give rise to cash flows on specified dates that are solely SPPI on the principal amount outstanding; or
- (b) It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell; or
- (c) At initial recognition, it is irrevocably designated as measured at FVPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

The Sub-Funds include in this category:

- Instruments held for trading. This category includes equity instruments which are acquired principally for the purpose of generating a profit from short-term fluctuations in price.

Financial liabilities

Financial liabilities measured at amortised cost

This category includes all financial liabilities. The Sub-Funds include in this category management fee payable, custodian fee payable, establishment costs payable, administration fee payable, redemption payable, amounts due to brokers and registration fee payable to the Custodian.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Financial instruments (continued)

(ii) **Recognition**

The Sub-Funds recognise a financial asset or a financial liability when, and only when, they become a party to the contractual provisions of the instrument. Purchases and sales of financial assets at fair value through profit or loss are accounted for on the trade date basis.

(iii) **Initial measurement**

Financial assets at fair value through profit or loss are recorded in the statement of net assets at fair value. All transaction costs for such instruments are recognised directly in profit or loss.

Financial assets and liabilities (other than those classified as at fair value through profit or loss) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue.

(iv) **Subsequent measurement**

After initial measurement, the Sub-Funds measure financial instruments which are classified as at FVPL at fair value. Subsequent changes in the fair values of those financial instruments are recorded in “net change in unrealised gain/loss on financial assets at FVPL” in “net gain/(loss) on financial assets at FVPL. Interest and dividends earned on these instruments are recorded separately in “interest income” and “dividend income” in the statement of profit or loss and other comprehensive income.

Debt instruments, other than those classified as at FVPL, are measured at amortised cost using the effective interest method less any allowance for impairment. Gains and losses are recognised in profit or loss when the debt instruments are derecognised or impaired, as well as through the amortisation process.

Financial liabilities, other than those classified as at FVPL, are measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, as well as through the amortisation process.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating and recognising the interest income or interest expense in profit or loss over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of the financial asset or to the amortised cost of the financial liability. When calculating the effective interest rate, the Sub-Funds estimate cash flows considering all contractual terms of the financial instruments, but does not consider expected credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Financial instruments (continued)

(v) *Derecognition*

A financial asset is derecognised when the rights to receive cash flows from the financial asset have expired, or where the Sub-Funds have transferred their rights to receive cash flows from the financial asset, or have assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement and either the Sub-Funds have transferred substantially all the risks and rewards of the asset or the Sub-Funds have neither transferred nor retained substantially all the risks and rewards of the financial asset, but has transferred control of the asset.

When the Sub-Funds have transferred its rights to receive cash flows from an asset (or has entered into a pass-through arrangement), and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Sub-Funds' continuing involvement in the asset. In that case, the Sub-Funds also recognise an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Sub-Funds have retained.

The Sub-Funds derecognise a financial liability when the obligation under the liability is discharged or cancelled, or expires.

(c) Fair value measurement

The Sub-Funds measure their investments in financial instruments at fair value at the end of each reporting period.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Sub-Funds.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The fair value for financial instruments that are listed or traded on an exchange is based on quoted last traded market prices that are within the bid-ask spread.

For all other financial instruments not traded in an active market, the fair value is determined using valuation techniques deemed to be appropriate in the circumstances. Valuation techniques include the market approach (i.e., using recent arm's length market transactions, adjusted as necessary, and reference to the current market value of another instrument that is substantially the same) and the income approach (i.e., discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Fair value measurement (continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Sub-Funds determine whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(d) Income

Interest income is recognised in profit or loss on a time-proportionate basis using the effective interest method.

Dividend income on equity securities is recognised on the date on which the investments are quoted ex-dividend. Dividend income on equity securities where no ex-dividend date is quoted is accounted for when the Sub-Funds' right to receive payment is established. Dividend income is presented gross of any non-recoverable withholding taxes, which are disclosed separately in profit or loss.

(e) Expenses

Expenses are recognised on an accrual basis.

(f) Amount due from/to brokers

Amounts due from brokers represent receivables for securities sold (in a regular way transaction) that have been contracted for, but not yet delivered, on the reporting date. Refer to note 2(b) for the accounting policy for financial assets measured at amortised cost for recognition and measurement.

Amounts due to brokers are payables for securities purchased (in a regular way transaction) that have been contracted for, but not yet delivered, on the reporting date. Refer to note 2(b) for the accounting policy for financial liabilities measured at amortised cost for recognition and measurement.

(g) Cash and cash equivalents

Cash and cash equivalents in the statement of net assets comprise short-term deposits in banks which are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts when applicable.

(h) Translation of foreign currencies

Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Sub-Funds operate (the “functional currency”). The performance of China Clean Energy ETF, China Consumer Brand ETF, China Electric Vehicle and Battery ETF, China Robotics and AI ETF, China Semiconductor ETF, China Global Leaders ETF, China Innovator Active ETF, Asia Semiconductor ETF, China E-Commerce and Logistics ETF, China Games and Entertainment ETF and Asia Innovator Active ETF are measured and reported to the shareholders in RMB. The performance of Autonomous and Electric Vehicles ETF and Fintech ETF are measured and reported to the shareholders in USD. The Manager considers the RMB and USD as the currencies that most faithfully represent the economic effects of the underlying transactions, events and conditions. The financial statements of China Clean Energy ETF, China Consumer Brand ETF, China Electric Vehicle and Battery ETF, China Robotics and AI ETF, China Semiconductor ETF, China Global Leaders ETF, China Innovator Active ETF, Asia Semiconductor ETF, China E-Commerce and Logistics ETF, China Games and Entertainment ETF and Asia Innovator Active ETF are presented in RMB and the financial statements of Autonomous and Electric Vehicles ETF and Fintech ETF are presented in USD respectively, which are the functional and presentation currencies.

Transactions and balances

Transactions during the period, including purchases and sales of securities, income and expenses, are translated at the rates of exchange prevailing on the dates of the transactions.

Monetary assets and liabilities expressed in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or transaction of monetary items are recognised in the statement of profit or loss and other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Foreign currency transaction gains and losses on financial instruments classified as at FVPL are included in profit or loss in the statement of profit or loss and other comprehensive income.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Redeemable shares

Redeemable shares are classified as an equity instrument when:

- (i) The redeemable shares entitle the holder to a pro-rata share of the Sub-Funds' net assets in the event of the Sub-Fund's liquidation;
- (ii) The redeemable shares are in the class of instruments that is subordinate to all other classes of instruments;
- (iii) All redeemable shares in the class of instruments that is subordinate to all other classes of instruments have identical features;
- (iv) The redeemable shares do not include any contractual obligation to deliver cash or another financial asset other than the holder's rights to a pro-rata share of the Sub-Fund's net assets; or
- (v) The total expected cash flows attributable to the redeemable shares over the life of the instrument are based substantially on profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the Sub-Funds over the life of the instrument.

In addition to the redeemable shares having all the above features, the Sub-Funds must have no other financial instrument or contract that has:

- (i) Total cash flows based substantially on profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the Sub-Funds; and
- (ii) The effect of substantially restricting or fixing the residual return to the redeemable shareholders.

The Sub-Funds' redeemable shares meet the definition of puttable instruments classified as equity instruments under the revised IAS 32 and are classified as equity.

The Sub-Funds continuously assess the classification of the redeemable shares. If the redeemable shares cease to have all the features or meet all the conditions set out to be classified as equity, the Sub-Funds will reclassify them as financial liabilities and measure them at fair value at the date of reclassification, with any differences from the previous carrying amount recognised in equity. If the redeemable shares subsequently have all the features and meet the conditions to be classified as equity, the Sub-Funds will reclassify them as equity instruments and measure them at the carrying amount of the liabilities at the date of the reclassification.

Redeemable shares can be redeemed in-kind and/or in cash equal to a proportionate share of the Sub-Funds' net asset value ("NAV"). The Sub-Funds' net asset value per share is calculated by dividing the net assets attributable to shareholders with the total number of outstanding shares of the respective Sub-Funds. Shares are created or redeemed in multiples of 50,000 shares for the Sub-Funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(j) Impairment of financial assets

The Sub-Funds recognise an allowance for expected credit losses (“ECLs”) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Sub-Funds expect to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

The Sub-Funds may also consider a financial asset to be in default when internal or external information indicates that the Sub-Funds are unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Sub-Funds. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

(k) Net change in unrealised gains or losses on financial assets at fair value through profit or loss

This item includes changes in the fair value of financial assets as at fair value through profit or loss and excludes dividend income and interest expense.

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior year unrealised gains and losses for financial instruments which were realised in the reporting period.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(l) Net realised gains or losses on disposal of financial assets

Net realised gains or losses on disposal of financial assets classified as at fair value through profit or loss are calculated using the weighted average method. They represent the difference between an instrument's average cost and disposal amount.

(m) Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of net assets if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

(n) Taxes

In some jurisdictions, investment income and capital gains are subject to withholding tax deducted from the source of the income. The Sub-Funds present the withholding tax separately from the gross investment income in profit or loss. For the purpose of the statement of cash flows, cash inflows from investments are presented net of withholding taxes, when applicable.

(o) Distributions to shareholders

Distributions are at the discretion of the Manager. A distribution to the Sub-Funds' shareholders is accounted for as a deduction from net assets attributable to shareholders. A proposed distribution is recognised as a liability in the period in which it is approved by the Manager. The Manager of the Sub-Funds may at its discretion, pay dividend out of gross income while all or part of the fees and expenses of the relevant Sub-Funds are charged to/paid out of the capital of such Sub-Funds, resulting in an increase in distributable income for the payment of dividends by the relevant Sub-Funds. Therefore, the Sub-Funds may effectively pay dividend out of capital.

(p) Transaction costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs, when incurred, are immediately recognised in profit or loss as an expense.

3. NET ASSETS ATTRIBUTABLE TO SHAREHOLDERS AND MOVEMENT OF SHARES

(a) Net assets attributable to shareholders

The creation and redemption of shares of the Sub-Funds can only be facilitated by or through participating dealers. Investors other than the participating dealers make a request to create or redeem shares through a participating dealer, and if the investor is a retail investor, such request must be made through a stockbroker which has opened an account with a participating dealer.

The Company shall receive subscription proceeds from the participating dealers for the creation of shares and pay redemption proceeds for the redemption of shares to the relevant participating dealers in such form and manner as prescribed by the Instrument of Incorporation. Shares are created or redeemed in multiples of 50,000 shares for the Sub-Funds. Subscriptions and redemptions of shares during the period are shown on the statement of changes in net assets attributable to shareholders.

As stated in note 2(i), shares of the Sub-Funds, which are represented by assets less liabilities, are classified as equity and accounted for in accordance with IFRSs (the “Accounting NAV”). For the purpose of determining the NAV per share for subscriptions and redemptions and for various fee calculations (the “Dealing NAV”), the Administrator calculates the Dealing NAV in accordance with the provisions of the Instrument of Incorporation, which may be different from the accounting policies under IFRSs.

The establishment costs for establishing Asia Innovator Active ETF, Autonomous and Electric Vehicles ETF and Fintech ETF were RMB273,037, USD43,064 and USD43,064 respectively, which were fully borne by the Manager.

Per Instrument of Incorporation of the Sub-Funds, the establishment cost is amortised over the first three financial years of the Sub-Funds. However, with respect to the Sub-Funds for the purpose of financial statements preparation in compliance with IFRSs, their accounting policies are to expense the establishment costs in profit or loss as incurred.

8. SOFT COMMISSION ARRANGEMENTS

The Manager may effect transactions, provided that any such transaction is consistent with standards of “best execution”, by or through the agency of another person for the accounts of the Sub-Funds with whom the Manager or any of its connected persons has an arrangement under which that party will from time to time provide to or procure for the Manager or any of its connected persons goods, services or other benefits (such as advisory services, computer hardware associated with specialised software or research services and performance measures), the nature of which is such that their provision can reasonably be expected to benefit the Sub-Funds as a whole and may contribute to an improvement in the performance of the Sub-Funds. For the avoidance of doubt, such goods and services may not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employees’ salaries and direct money payments. Since the inception of the Sub-Funds, the Manager has not participated in any soft commission arrangements in respect of any transactions for the accounts of the Sub-Funds.

9. TAXATION

No provision for Hong Kong profits tax has been made for the Sub-Funds as they are authorised as collective investment schemes under section 104 of the Hong Kong Securities and Futures Ordinance and are therefore exempt from Hong Kong profits tax under section 26A(1A) of the Hong Kong Inland Revenue Ordinance.

The Sub-Funds invest in shares of companies in the People's Republic of China ("PRC") listed on the Shanghai Stock Exchange or the Shenzhen Stock Exchange ("A-shares") and the SEHK ("H-shares"). Under the PRC Corporate Income Tax Law, the Sub-Funds may be liable to pay PRC tax on the capital gains realised from the trading of A-shares and H-shares.

PRC tax provision

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

No provision was made for taxation from such gains in the financial statements as the Manager believes that the taxation on capital gains derived from H-Shares is not probable under the current enforcement environment.

Withholding income tax of 10% was charged on dividend income received from A-shares and H-shares during the year.

10. DISTRIBUTIONS TO SHAREHOLDERS

The Manager may in its absolute discretion distribute income to shareholders at such time or times as it may determine in each financial period or determine that no distribution shall be made in any financial period. The amount to be distributed to shareholders, if any, will be derived from the net income of the Sub-Funds.

The Sub-Funds did not make any distribution for the period ended 30 September 2022 and 31 March 2022.

11. INVESTMENT LIMITATION AND PROHIBITIONS UNDER THE UT CODE

The UT Code allows the Sub-Funds to invest in constituent securities issued by a single issuer for more than 10% of the Sub-Funds' net asset value provided that:

- (a) the investment is limited to any constituent securities that each accounts for more than 10% of the weighting of the tracked index; and
- (b) the Sub-Funds' holding of any such constituent securities may not exceed their respective weightings in the tracked index, except where weightings are exceeded as a result of changes in the composition of the tracked index and the excess is only transitional and temporary in nature.

Constituent securities that account for more than 10% of the net asset value of the Sub-Funds as at period end were as follows:

12. SEGMENT INFORMATION

The Manager makes the strategic resource allocations on behalf of the Sub-Funds and has determined the operating segments based on the reports reviewed which are used to make strategic decisions.

The Manager considers that each Sub-Fund has a single operating segment which is investing in securities. The objectives of the Sub-Funds are to track the performance of their respective indices and invest in substantially all the index constituents with security weight and industry weight that are closely aligned with the characteristics of the tracked indices.

The internal financial information used by the Manager for the Sub-Funds' assets, liabilities and performance is the same as that disclosed in the statement of net assets and statement of profit or loss and other comprehensive income.

The Sub-Funds are domiciled in Hong Kong. Majority of the Sub-Funds' income is derived from investments in securities which constitute the relevant tracked indices. The Sub-Funds' investments have been categorised by the relevant industry but no industrial information for performance is provided as the Manager considers that the cost to develop it would be excessive and the information is generally not used by the Manager in managing the Sub-Funds.

The Sub-Funds have portfolios that closely correspond to the security weight and industry weight of the relevant tracked indices.
