Chairman's Statement

DEAR SHAREHOLDERS,

On behalf of the board (the "Board") of directors (the "Directors") of Man Wah Holdings Limited ("Man Wah" or the "Company"), I hereby present the unaudited interim results of the Company and its subsidiaries (collectively, the "Group") for the six months ended 30 September 2022 ("1HFY2023" or the "Review Period").

BUSINESS REVIEW

During the Review Period, the global economy was rocked by the pandemic and under tremendous downward pressure. During the Review Period, the total revenue of the Group decreased by 8.0% year-on-year. Revenue from domestic sales decreased by 9.8% upon translation into HK dollar, and by 5.6% if denominated in RMB. Revenue from exports decreased by 4.7%.

Presented with such challenges, we enhanced our production efficiency and lowered our costs in the past half year in terms of intelligent manufacturing through intelligent leather reading, cross-model automatic mixed typography, well-paced human-machine integrated production and standardized and controllable processes, all while maintaining our standard of quality. During the Review Period, production costs decreased by 12.8% and gross profit margin increased by 2.6%. By strengthening internal management, optimizing processes and improving management efficiency, the selling expenses decreased by 8.6% year-on-year.

By aligning Group-wide efforts, tapping into our internal potential and improving production processes, the cost and expenses were effectively controlled, the gross profit margin greatly improved, the expense ratio was reduced, and the profitability of the Company significantly improved. During the Reporting Period, although the total revenue decreased by 8.0%, the net profit attributable to owners of the Company increased by 10.5% year-on-year.

PROSPECTS

The Group will continue to expand its presence in the furniture and household markets to seize the development opportunities in the industry. In the domestic market, we will continue to strengthen our capabilities in intelligent manufacturing; step up our support for dealers and enhance the refined management of dealers to optimize their operating efficiency; combine online marketing methods such as live streaming, VR, video, and 5G big smart screen to increase the sales experience frequency, conversion rate and average transaction amount. In overseas markets, we will leverage the advantages of the production base in Mexico to further expand our market share in the North America market. In the coming years, we will combine our product, brand and channel advantages to further enhance the Group's brand influence and market share.

APPRECIATION

We appreciate the trust and support for us from all consumers and investors. The future is promising for those who plough ahead. We will fulfill the expectation on us and achieve better results!

Management Discussion and Analysis

MARKET REVIEW

With its long history and industry expertise, the Group has gradually improved its ability to resist risks, and was able to maintain a steady and robust development in the face of major changes in the market. At the same time, we continued to consolidate our internal strength by improving product R&D capabilities, enriching the Company's product line, actively expanding its domestic market presence and enhancing the strength of distributors. During the Review Period, the net profit attributable to owners of the Company increased by 10.5%.

China market

Despite the impact of the pandemic, the generally positive fundamentals of the Chinese economy remained unchanged. Favorable conditions for stabilizing the macro economy and achieving expected development targets abound. In recent years, with its intelligent and convenient user experience, functional furniture has become increasingly popular among consumers. Currently, the recliner market in the PRC is still in a period of low penetration and high growth potential.

Overseas markets

Europe and America markets, particularly the latter, remain the main consumption markets for recliners and occupy a prominent position in the global recliners market. However, the America market mainly relies on import. The Group will continue to expand its market share in Europe and America markets by leveraging its advantages in large-scale production capacity, quality and cost.

BUSINESS REVIEW

Benefiting from a diversified market distribution and after years of development, the Group's business has gradually changed from an export-oriented business model to a brand-oriented business model. The brand sales business in China accounted for over 60% of the Group's revenue for the Review Period. The breakdown of revenue by region is as follows:

1 China market

During the Review Period, the Group's sales revenue in the PRC market was HK\$6,016,887,000 and revenue from the principal business in the PRC market (excluding real estate, mall property and other business revenue) was HK\$5,713,297,000, representing a decrease of 10.7% as compared with HK\$6,399,612,000 for the corresponding period last year.

In respect of the offline sales channels in the PRC market, the Group continued to carry out the "Take Over China" strategy, seized the opportunity presented by the pandemic to optimize industry layout, and accelerated the opening of stores, which further increased the overall number of stores and the area of stores in the PRC. As at 30 September 2022, the Group had a total of 6,230 brand stores in China (excluding 1,514 Style, Pulini and Suning stores). During the Review Period, the net increase in the number of stores was 262.

In terms of the online sales channels in the Chinese market, the Group continued to enhance its sales on Tmall, JD.com and other e-commerce platforms, and actively promoted the live broadcast sales model. Through short video promotion, live broadcast of our own stores, and in-depth collaboration with leading online streamers, we have achieved a substantial increase in brand influence. In addition, the Group also made strides in new retail business, with the aim of achieving full integration of its online and offline businesses to unlock new growth opportunities.

2 North America market

During the Review Period, the Group's sales revenue in the North America market was essentially flat compared with the last corresponding period. The sales revenue from principal business in the North America market amounted to HK\$2,564,090,000, representing an increase of approximately 0.1% from HK\$2,562,340,000 in the last corresponding period.

To mitigate the negative impact on revenue and gross profit margin caused by the tariffs imposed by the US Government, the Group acquired a factory in Vietnam in June 2018 and the factory has been put into operation in Vietnam since 2020.

3 Europe and other overseas markets

During the Review Period, the Group recorded an increase in revenue in Europe and other overseas markets (excluding Home Group). During the Review Period, the sales revenue from principal business amounted to HK\$670,087,000, representing a year-on-year increase of 2.1% from HK\$656,541,000 for the corresponding period last year.

Management Discussion and Analysis

During the Review Period, due to the impact of the pandemic and the war between Russia and Ukraine, the main business revenue in Home Group decreased by 39.9% year-on-year. The Group's production facilities in Ukraine have not been materially disrupted during the Review Period but management continues to monitor the situation in Ukraine following the war between Russia and Ukraine.

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

During the six months ended 30 September 2022, the Company has applied the principles of, and complied with, the applicable code provisions of the Corporate Governance Code and Corporate Governance Report (the “CG Code”) as set out in Appendix 14 of the Rules Governing the Listing of Securities on the Stock Exchange (the “Listing Rules”), save for the deviation from Code Provision C.2.1 which is explained below. The Company periodically reviews its corporate governance practices to ensure that they continue to meet the requirements of the CG Code.

Under code provision C.2.1 of the CG Code, the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. Currently, Mr. Wong Man Li is the chief executive officer of the Company. Mr. Wong Man Li, who also acts as the Chairman and Managing Director of the Company, has been responsible for overseeing the general operations of the Group. The Board meets regularly to consider major matters concerning the operations of the Group. The Board considers that this structure had not impaired the balance of power and authority between the Board and the management of the Company as all major decisions have been made in consultation with the Board and appropriate Board committees, as well as management. The roles of the respective executive directors and senior management who are in charge of different functions complement the role of the chairman and chief executive officer. In addition, there are four independent non-executive Directors on the Board offering their experience, expertise, independent advice and views from different perspectives. The Board is therefore of the view that there were adequate balance of power and safeguards in place. The Board believes that this structure had allowed the Group to operate efficiently. The Board will continue to review the current structure from time to time and shall make necessary changes when appropriate and inform the shareholders accordingly.

COMPLIANCE WITH MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) as set out in Appendix 10 of the Listing Rules as a code of conduct of the Company for directors’ securities transactions. Having made specific enquiry of all directors, the directors have confirmed that they have complied with the required standard set out in the Model Code and the Company’s code of conduct regarding directors’ securities transactions throughout the six months ended 30 September 2022.

SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information of the Group is not prepared, in all material respects, in accordance with International Accounting Standard 34 “Interim Financial Reporting”.

Condensed Consolidated Interim Statement of Changes in Equity

For the six months ended 30 September 2022

Notes:

- (i) Special reserve arose from the acquisition of equity interest of certain subsidiaries through a corporate reorganisation. It represents the difference between the nominal value of share capital of those subsidiaries at the date of acquisition and the nominal value of the shares issued by the Company as consideration for the acquisition.
- (ii) Other reserve arose from the acquisition of the additional equity interest of subsidiaries and disposal of equity interest of subsidiaries. It represents the difference between the carrying amount of the net assets of the subsidiaries attributable to the additional interest or disposal of equity interests in subsidiaries that do not result in a loss of control at the dates of transactions and the fair value of consideration paid or received by the Company.
- (iii) The statutory reserve represents the amount transferred from profit after taxation of the subsidiaries established in the Mainland of People's Republic of China (the "PRC") in accordance with the relevant PRC laws until the PRC statutory reserve reaches 50% of the registered capital of the respective subsidiaries. The statutory reserve can be applied either in setting off the accumulated losses or increasing capital.

The condensed consolidated interim financial information has been approved for issue on 15 November 2022.

The condensed consolidated interim financial information has not been audited.

2 BASIS OF PREPARATION

The condensed consolidated interim financial information for the six months ended 30 September 2022 has been prepared in accordance with International Accounting Standard (“IAS”) 34, ‘Interim financial reporting’. The condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 March 2022, which have been prepared in accordance with International Financial Reporting Standards (“IFRS”).

3 SIGNIFICANT ACCOUNTING POLICIES

Except as described below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 March 2022, as described in those annual financial statements.

A number of new or amended standards became applicable for the current reporting period:

Amendments to IFRS 3	Reference to the Conceptual Framework
Amendments to IAS 16	Property, Plant and Equipment – Proceeds before Intended Use
Amendments to IAS 37	Onerous Contract – Cost Fulfilling a Contract
Annual improvement project (Amendments)	Annual Improvements to IFRSs (2018–2020)

3 SIGNIFICANT ACCOUNTING POLICIES – continued

The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting the above new or amended standards.

Certain new accounting standard, amendments to standards and interpretations have been published that are not mandatory for the financial year beginning 1 April 2022 and have not been early adopted by the Group. These standards are not expected to have a material impact on the Group in the current or future reporting periods and on foreseeable future transactions.

4 CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

The preparation of interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. In preparing this condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements for the year ended 31 March 2022.

5 FINANCIAL RISK MANAGEMENT

5.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, cash flow and fair value interest rate risk), credit risk and liquidity risk. The Group's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

The condensed consolidated interim financial information does not include all financial risk management information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual financial statements for the year ended 31 March 2022. There have been no significant changes in the risk management policies since 31 March 2022.

5.2 Fair value estimation

The carrying amounts of the following financial assets and financial liabilities approximate their fair values as all of them are short-term in nature: cash and cash equivalents, short-term bank deposits, trade receivables and bills receivable, other receivables, restricted bank balances, trade payables and bills payable, other payables, bank borrowings and lease liabilities. The fair value of other financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments, unless the discounting effect is insignificant.

The Group's financial assets at FVPL as at 30 September 2022 and 31 March 2022 are measured at fair value through profit of loss. The fair values are categorised as level 2 which are quoted prices available from over the counter markets.

As at 30 September 2022 and 31 March 2022, there are certain investments properties measured at fair value using market approach and income approach.

6 SEGMENT INFORMATION

The Group's operating and reportable segments, based on information reported to the Company's executive directors, being the chief operating decision makers of the Group, in respect of the Group's performance regarding different products and different markets, are as follows:

- | | | |
|------------------------------|---|---|
| Sofas and ancillary products | – | manufacture and distribution of sofas and ancillary products through wholesale and distributors other than those by Home Group Ltd and its subsidiaries ("Home Group") |
| Other products | – | manufacture and distribution of chairs and other products to commercial clients, mattresses, smart furniture spare parts and metal mechanism for recliners, income from sales of scrap metal etc. |
| Other business | – | sales of residential properties, hotel operation, furniture mall business, and lease of properties |
| Home Group business | – | manufacture and distribution of sofas and ancillary products by Home Group |

The sofas and ancillary products segment includes a number of sales operation in various locations, each of which is considered as a separate operating segment by the executive directors. For segment reporting, these individual operating segments have been aggregated into a single reportable segment in order to present a more systematic and structured segment information on the performance of different type of products.

The Company's executive directors make decisions based on the operating results of each segment and review reports on the aging analysis of trade receivables and bills receivable and expected usage of inventories of the Group as a whole. No information of segment assets and liabilities is reviewed by the Company's executive directors for the assessment of performance of operating segments. Therefore, only the segment revenue and segment results are presented.

The accounting policies of the operating segments are the same as the Group. Segment results represent the profit before income tax earned by each segment without allocation of other income, net exchange gains or losses, losses from changes in fair value of financial assets at FVPL, share of results of joint ventures, finance costs, and unallocated expenses.
