## CHAIRMAN'S STATEMENT

Dear Shareholders,

I hereby present the annual results of Royale Home Holdings Limited ("Royale Home" or the "Company", together with its subsidiaries, the "Group") for the year ended 31 December 2022.

### REVIEW OF 2022

Looking back to 2022, the business operations of the Group were affected to certain extent due to the recurring COVID-19 pandemic. The Chinese government optimised epidemic prevention and control measures in response to different circumstances, gradually restoring economic and social vitality. The Group seized the opportunities brought about by economic and social changes, promoted diversified business development, and achieved counter-cyclical growth in its main business.

Despite the decline in offline sales of furniture due to the recurring COVID-19 pandemic in the People's Republic of China (the "PRC"), the Group continued to focus on providing full support to distributors throughout the country to optimise and improve their operational efficiency. During the year, the Group's retail network of distributors increased by 10.2% on a year-on-year basis to 1,909 retail outlets.

By the end of 2022, the Group had a total of 4 self-operated stores located in Guangdong Foshan, Guangzhou Xintang, Dongguan and Quanzhou in the PRC, focusing on brand promotion and displaying a full range of home furnishing products in key cities to continuously enhance the brand influence of the Group. Meanwhile, as the impact of internet continued to expand, the Group adopted influencer marketing to continue penetration into younger user groups.

Also, the Group continued to deepen its business cooperation with its strategic controlling shareholder, Science City (Guangzhou) Investment Group Co., Ltd.\* (科學城(廣州)投資集團有限公司) ("Science City", together with its subsidiaries, "Science City Group"), and explored and continuously developed new income streams for mutual benefit and win-win results. With the extensive political and business network of Science City Group, project sales of the Group increased during the year, bringing considerable profits and partially offset by the decline in business of distributors caused by the pandemic.

During the year ended 31 December 2022, the Group recorded a year-on-year increase of 11.6% to HK\$1,702.9 million in sales. Gross profit margin decreased to 14.4% from 20.8% last year. The Group recorded a net profit for the year attributable to owners of the parent of HK\$5,586,000, decreasing from HK\$76,897,000 in the last year.

The Group continues to share its performance results with its shareholders. The Board recommends the payment of final dividend of HK1 cent per share in cash for the year ended 31 December 2022 (2021: HK1 cent per share for final dividend and HK4 cents per share for special dividend).

## CHAIRMAN'S STATEMENT

### OUTLOOK

Starting in January 2023, epidemic prevention and control in Mainland China entered a new stage. The central government firmly and better coordinated epidemic prevention and control and economic and social development, while also launching various policies to coordinate efforts to expand domestic demand and promote economic recovery and stabilization. As production and living order gradually recover and offline consumption scenes expand, it will also accumulate momentum for economic development in 2023.

In terms of distributor network layout, the Group will further build a complete product supply chain, enhance brand influence in response to market changes, and seize industry development opportunities. Additionally, the Group will also further enrich the sales network of customized furniture, sofas, and complete furnishing solution series to accelerate distributor opening stores. Furthermore, with the stabilization of the real estate market and the continued recovery of the consumer market, including the upstream and downstream industries of the home furnishing industry, the Group is expected to see significant improvement in 2023.

In 2023, the Group will continue to promote project cooperation with commercial customers and strive to expand the development of furniture projects. The Group has successfully entered the list of designated furniture suppliers for Huawei Group and is competing for multiple furniture projects with contract value more than hundreds of millions. The Group will provide high-quality customized furniture, sofas, movable furniture and ancillary services.

The commercial and residential project developed by a joint venture established by the Group and Ganglong China Property Group Limited ("Ganglong", stock code: 6968.HK) in Zengcheng District, Guangzhou has begun pre-sale, and the Group also provides interior design and full-house furniture solutions for buyers. With the relaxation of real estate policies, residential units have been widely favored by the market, which is conducive to future price increase.

In 2023, the Group will focus its resources on developing its core businesses. However, as the synergies brought by commodity trading business to the Group are limited, the Group will downsize or even discontinue its bulk commodity trading business.

In addition, with the lifting of pandemic restrictions and the re-opening of borders, the increase in the number of inbound and outbound tourists has driven the recovery of the hotel industry. A hotel operated by the Group in Xiancun, Guangdong has signed a hotel management cooperation agreement with the Narada Hotel brand and has carried out property upgrade. The hotel is expected to be relaunched into the market in 2023.

### APPRECIATION

On behalf of the Board of Directors, I would like to extend my gratitude to the management team, business partners and customers, franchisees and all employees. I would also like to express sincere appreciation to our shareholders for their support of the Group. In the coming year, the Group will bravely move forward and continue to strive for long-term and sustainable returns for all shareholders.

## MANAGEMENT DISCUSSION AND ANALYSIS

### DIVIDENDS

The Board recommends the payment of a final dividend of HK1 cent per share in cash for the year ended 31 December 2022 (2021: HK1 cent per share for final dividend and HK4 cents per share for special dividend). Such final dividend will not be subject to any withholding tax in Hong Kong.

### DIVIDENDS POLICY

Despite the complex and ever-changing external economic environment, the Group is committed to maintaining financial stability and ample cash flow, and strives to maintain consistent dividend payouts to shareholders as a token of appreciation for their unwavering support.

### DIVIDENDS AND CLOSURE OF REGISTER OF MEMBERS

Subject to the approval of shareholders of the Company at the forthcoming annual general meeting, the final dividend will be distributed on or about Friday, 18 August 2023 to shareholders of the Company whose names appear on the register of members of the Company on Friday, 28 July 2023. The register of members of the Company will be closed from Tuesday, 25 July 2023 to Friday, 28 July 2023, both days inclusive, during which period no share transfer will be effected. In order to qualify for the proposed final dividend, all share transfer documents accompanied by the relevant share certificates shall be lodged not later than 4:30 p.m. on Monday, 24 July 2023 with the Company's share registrar in Hong Kong, Tricor Tengis Limited at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong.

### ANNUAL GENERAL MEETING AND CLOSURE OF THE REGISTER OF MEMBERS

The register of members of the Company will be closed from Tuesday, 6 June 2023 to Friday, 9 June 2023, both days inclusive. In order to be eligible to attend and vote at the forthcoming annual general meeting to be held on Friday, 9 June 2023, all transfer documents accompanied by the relevant share certificates must be lodged with the Company's Share Registrar in Hong Kong, Tricor Tengis Limited at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong not later than 4:30 p.m. on Monday, 5 June 2023.

### FINANCIAL REVIEW

For the year ended 31 December 2022, the Group recorded revenue of HK\$1,702.9 million (2021: HK\$1,526.5 million), representing an increase of 11.6% from last year. The increase in revenue was due to the increased activities for sales of furniture and trading commodities. The Group's overall gross profit margin decreased from 20.8% for 2021 to 14.4% for 2022 due to decreased gross profit margin of furniture business. For the furniture business, the gross profit margin decreased from 37.9% in 2021 to 24.6% in 2022 due to (i) discount promotion of the Company to boost sales in order to capture market share and maintain competitiveness under the recovery from the COVID-19 recession, (ii) direct labor cost increased due to increased headcount and pension scheme contribution and (iii) increased direct material cost.

Profit for the year was HK\$12.4 million (2021: HK\$88.3 million), representing a decrease of 86.0%. Profit attributable to owners of the parent for the year was HK\$5.6 million (2021: HK\$76.9 million), representing a decrease of 92.7%. The significant decrease was a result of the Group's decreased gross profit, increased operating expenses, decreased gains in fair value of investment properties and provision for estimated loss from legal litigations, partially set off by the adjustments in respect of previously recognized deferred tax liabilities arising from tax filing of land resumption.

For the year ended 31 December 2022, selling and distribution expenses increased by 36.9% to approximately HK\$133.0 million (2021: HK\$97.1 million), which was mainly due to significant increase in sales promotional activities in order to increase market share and increased in commission and payroll expenses for strengthening manpower to boost sales in furniture business.

## MANAGEMENT DISCUSSION AND ANALYSIS

Administrative expenses increased by 21.1% to HK\$152.0 million (2021: HK\$125.5 million), which was attributable to (i) increased headcount in the department of furniture projects, (ii) increase in business trip expenses following the gradual recovery from COVID-19 and relaxation of social distancing measures and (iii) increased consultant fee on bank or loan financing.

Finance costs during the year increased by 13.0% to HK\$139.6 million (2021: HK\$123.5 million) as the Group has increased debt for strengthening working capital.

An income tax credit of HK\$124.7 million has been recorded for the year ended 31 December 2022 as compared to an income tax expense of HK\$29.6 million recorded for the year ended 31 December 2021, as the Group has adjusted previously recognized deferred tax liabilities arising from tax filling of land resumption.

### BUSINESS REVIEW

Looking back to 2022, the business operations of the Group were affected to certain extent due to the recurring COVID-19 pandemic. The Chinese government optimised epidemic prevention and control measures in response to different circumstances, gradually restoring economic and social vitality. The Group seized the opportunities brought about by economic and social changes, promoted diversified business development, and achieved counter-cyclical growth in its main business.

Despite the decline in offline sales of furniture due to the recurring COVID-19 pandemic in the PRC, the Group continued to focus on providing full support to distributors throughout the country to optimise and improve their operational efficiency. During the year, the Group's retail network of distributors increased by 10.2% on a year-on-year basis to 1,909 retail outlets.

By the end of 2022, the Group had a total of 4 self-operated stores located in Guangdong Foshan, Guangzhou Xintang, Dongguan and Quanzhou in the PRC, focusing on brand promotion and displaying a full range of home furnishing products in key cities to continuously enhance the brand influence of the Group. Meanwhile, as the impact of internet continued to expand, the Group adopted influencer marketing to continue penetration into younger user groups.

Also, the Group continued to deepen its business cooperation with its strategic controlling shareholder, Science City, and explored and continuously developed new income streams for mutual benefit and win-win results. With the extensive political and business network of Science City Group, project sales of the Group increased during the year, bringing considerable profits and partially offset by the decline in business of distributors caused by the pandemic.

### Inventory and prepayments, deposits and other receivables

The Group's inventory increased by 10.9% to approximately HK\$281.9 million as at 31 December 2022 (2021: HK\$254.1 million), which was mainly due to the Group increases inventory level to satisfy the future demand from signed contracts. Prepayments, deposits and other receivables increased by 10.0% to HK\$519.8 million (2021: HK\$472.5 million), which was mainly due to deposits for acquisition of subsidiaries and non-controlling interests, increase in prepayments for raw materials and increased deposits for financial leasing, partially set off by collection of land resumption compensation due from the government.

### Working capital

The Group had net current assets of HK\$326.8 million at the end of the year (2021: net current assets of HK\$714.8 million). The Group will continue to take initiatives to manage its cashflow and capital commitments.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Liquidity and financial resources

The Group had cash and cash equivalents amounted to HK\$403.9 million as at 31 December 2022 (2021: HK\$146.5 million). As at 31 December 2022, the Group's current ratio (current assets to current liabilities) decreased to 1.16 (2021: 1.37) and the net current assets amounted to HK\$326.8 million (2021: net current assets of HK\$714.8 million). As at 31 December 2022, the interest-bearing bank and other borrowings amounted to HK\$2,547.0 million (2021: HK\$2,341.1 million), all denominated in Renminbi, loan from the immediate holding company, loan from an associate, loan from non-controlling interests and medium term bonds are total amount of HK\$419.2 million (2021: loan from the immediate holding company, loan from non-controlling interests, loan from a director and medium term bonds are total amount of HK\$268.7 million). Approximately 83% of the Group's cash and bank balances and time deposits were denominated in Renminbi with the remaining balance denominated in Hong Kong Dollars. The exposure to the foreign exchange rate fluctuation during the year has been minimal since both of our operating cash inflow and outflow are predominantly in Renminbi. Currently, the Group does not maintain any hedging policy with respect to these foreign currency exposures.

### Capital structure

During the year under review, the capital structure of the Group consists of cash and cash equivalents and equity attributable to owners of the Company, comprising issued share capital and reserves.

### Gearing ratio

All the Directors have access to relevant and timely information. They also have access to the advice and services of the company secretary of the Company (the "Company Secretary"), who is responsible for providing the Directors with Board papers and related materials. Where queries are raised by the Directors, prompt and full responses will be given if possible.

Should a potential conflict of interest involving a substantial shareholder of the Company or a Director arise, the matter will be discussed in a Board meeting, as opposed to being dealt with by a written resolution. Independent Non-executive Directors with no conflict of interest will be present at meetings dealing with such conflict issues.

Independent Non-executive Directors are identified in all corporate communications containing the names of the Directors. An updated list of the Directors identifying the Independent Non-executive Directors and the roles and functions of the Directors is maintained on the website of the Company and the website of the Stock Exchange.

## CORPORATE GOVERNANCE REPORT

Mr. Lau Chi Kit, the Independent Non-executive Director, has been re-appointed with fixed term of three years with the Company on 6 June 2022. Mr. Yue Man Yiu Matthew, the Independent Non-executive Director, has been re-appointed with fixed term of three years with the Company on 31 May 2021. Mr. Chan Wing Tak Kevin, the Independent Non-executive Director, has been reappointed with fixed term of three years with the Company on 1 June 2020.

Ms. Qin You and Mr. Chen Yisheng, the Non-executive Directors, have been appointed with fixed term of three years with the Company on 6 June 2022 respectively. Mr. Wu Dingliang, the Non-executive Director, has been re-appointed with fixed term of three years with the Company on 31 May 2021. Mr. Wu Zhongming, the Non-executive Director, has been appointed with fixed term of three years with the Company on 1 June 2020. The Company has received from each of the Independent Non-executive Directors an annual confirmation of his independence pursuant to Rule 3.13 of the Listing Rules and it still considers the Independent Non-executive Directors to be independent.

Code provision B.2.2 provides that every director, including those appointed for a specific term, should be subject to retirement by rotation at least once every three years. In accordance with article 87 of the Company's articles of association, every Director is subject to retirement by rotation at least once every three years.

### Skills, knowledge, experience and attributes of Directors

All Directors served in office during the Year. Every Director commits to give sufficient time and attention to the affairs of the Company. The Directors also demonstrate their understanding and commit to standards of corporate governance. The Executive Directors bring their perspectives to the Board through their understanding of the Group's business. The Non-executive Directors and the Independent Non-executive Directors contribute their skills and experience, understanding of local and global economies, and knowledge of capital markets to the Group's business.

### Division of responsibilities between the Board and management

While the Board is responsible for directing and approving the Group's overall strategies, the Group also has formed management teams in its business areas, comprising the Executive Directors and senior officers of the Group, with authority and responsibility for developing and exercising both operational and non-operational duties. The management team members of the Group have a wide range of skills, knowledge and experience necessary to govern the Group's operations. All management team members are required to report directly to the Chairman on a regular basis to report business performance and operational and functional issues of the Group. This will allow the Group's management to allocate resources more efficiently for its decision-making and facilitate its daily operations.

The Board and the Group's management fully appreciate their respective roles and are committed to corporate governance. The Board is responsible for overseeing the processes by which the management identifies business opportunities and risks. The Board's role is not to manage the day-to-day business operations of the Group and the responsibility of which remains vested in the management.

The Board has set up formal procedures for the Board's decisions. Matters which the Board considers suitable for delegation to its committees are contained in the specific terms of reference of its committees. The terms of reference clearly define the powers and responsibilities of the Board committees. In addition, the Board will receive reports and/or recommendations from time to time from the Board committees on any matter significant to the Group.

## CORPORATE GOVERNANCE REPORT

### Induction and training

Each newly appointed Director, executive, non-executive and independent non-executive Director, is required to undertake an induction program to ensure that he has proper understanding of his duties and responsibilities. The induction program includes an overview of the Group's business operation and governance policies, the Board meetings' procedures, matters reserved to the Board, an introduction of the Board committees, the Directors' responsibilities and duties, relevant regulatory requirements, and briefings with senior officers of the Group and site visits (if necessary).

Pursuant to Code Provision C.1.4 of the CG Code, all Directors should participate in continuous professional development to develop and refresh their knowledge and skills. This is to ensure their contribution to the Board remains informed and relevant. During the Year, all Directors participated in appropriate continuous professional development activities by ways of attending training and/or reading materials relevant to the Company's business or to the Directors' duties and responsibilities.

Participation in continuous professional development program during the Year are summarised as follows:

|  | Reading regulatory updates and directors' duties | Reading materials relating to business and industry | Attending professional briefings/seminars/conferences relevant to directors' duties, regulatory updates and business |

## CORPORATE GOVERNANCE REPORT

### Directors' and officers' liability insurance and indemnity

The Company has arranged appropriate liability insurance to indemnify its Directors and officers in respect of legal actions against the Directors and/or officers. Throughout the Year, no claim was made against the Directors and the officers of the Company.

### Independent advice

The Board and its committees may seek advice from independent professional advisors whenever it considers appropriate. Each Director, with the consent of the Chairman of the Board and/or the chairman of the audit committee, may seek independent professional advice on matters connected with the Company to perform his responsibilities, at the Group's expense. No Director exercised his right for independent professional advice during the Year.

### Independence of Independent Non-executive Directors

Three Independent Non-executive Directors, namely Mr. Lau Chi Kit, Mr. Yue Man Yiu Matthew and Mr. Chan Wing Tak Kevin were considered to be independent in accordance with the guidelines set out in Rule 3.13 of the Listing Rules.

Also, the three Independent Non-executive Directors, representing over one-third of the Board, constituted a proper balance of power maintaining full and effective control of both the Group and its executive management.

### Board independence

The Group has established mechanisms to ensure independent views and input are available to the Board and such mechanisms will be reviewed annually by the Board:

- At least one-third of the Board are independent non-executive directors in compliance with the Listing Rules requirements, and the Company will assess the independence of the independent non-executive Directors on at least an annual basis.
- The Nomination Committee will assess the independence of a candidate who is nominated to be a new independent non-executive Director before appointment and the continued independence of the current long-serving independent non-executive Directors on an annual basis. All independent non-executive Directors are required to submit a written confirmation to the Company annually to confirm the independence of each of them and their immediate family members, and their compliance with the requirements as set out in the Rule 3.13 of the Listing Rules.
- All Directors and committees of the Board are entitled to retain independent professional advisors as and when it is required.
- All Directors are encouraged to express their views in an open and candid manner during the Board/Board committee meetings.
- The Chairman of the Board will meet with the independent non-executive Directors at least annually without the presence of the executive Directors.
- A Director (including the independent non-executive Directors) who has material interest in any contract, transaction or arrangement shall abstain from voting and not be counted in the quorum on any Board resolution approving the same.
- No equity-based remuneration with performance-related elements will generally be granted to independent non-executive Directors.

## CORPORATE GOVERNANCE REPORT

### Company secretary

All Directors have access to the advice and services of the Company Secretary to ensure that the Board procedures and all applicable laws are followed. Moreover, the Company Secretary is responsible for facilitating communications among Directors as well as with management.

During the Year, the Company Secretary, Mr. Chui See Lai, who is a full-time employee of the Company, has confirmed that he has taken no less than 15 hours of relevant professional training.

## D. BOARD COMMITTEES

As an integral part of good corporate governance, the Board has established the following Board committees to oversee particular aspects of the Company's affairs. All committees are provided with sufficient resources to discharge their duties.

### Audit Committee

As at 31 December 2022, the audit committee of the Board (the "Audit Committee") consisted of three Independent Non-executive Directors, namely Mr. Yue Man Yiu Matthew, who is the chairman of the Audit Committee, Mr. Lau Chi Kit and Mr. Chan Wing Tak Kevin. The members of the Audit Committee meet regularly, normally twice a year, with the senior financial management and meet with external auditor for final result reviews.

The Audit Committee is provided with sufficient resources to perform its duties. Latest terms of reference of the Audit Committee can be viewed on the website of the Company and the website of the Stock Exchange.

The main duties of the Audit Committee include the following:

1. to monitor the integrity of the annual and interim reports as well as to review significant financial reporting judgments before submission to the Board and to report to the Board;
2. to review the relationship with the external auditor; and
3. to review the adequacy and effectiveness of the Company's financial reporting system, internal control system and risk management system and associated procedures.

There were two meetings of the Audit Committee held in 2022. Details of the members' attendance record in the Year are set out on page 12 of this annual report. During the Year, the Audit Committee performed the following work (in summary):

- (a) The Audit Committee assisted the Board in assuring the integrity of the Company's financial statements, including reviewed the financial results of the Group for the year ended 31 December 2021 and the interim results for the six months ended 30 June 2022. It evaluated and made recommendations to the Board about the appropriateness of accounting policies and practices, areas of judgment, compliance with Hong Kong Financial Reporting Standards and other legal requirements, and the results of external audit. It reviewed interim and annual financial statements of the Company, reported its work and findings to the Board and made recommendations on specific actions or decision for the Board to consider after each Audit Committee's meeting. Minutes of the Audit Committee's meetings were made available to all Directors for inspection.

## CORPORATE GOVERNANCE REPORT

- (b) The Audit Committee also managed the relationship with the external auditor on behalf of the Board. It made recommendation to the Board on the appointment of the external auditor and the relevant terms of engagement, including remuneration. The Audit Committee was required to review the integrity, independence and objectivity of the external auditor. Also, it examined the external auditor' independence including its engagement of non-audit services. Based on the review of the Audit Committee, the Board was satisfied that the external auditor was independent. During the year ended 31 December 2022, there was no disagreement between the Board and the Audit Committee on the selection, appointment, resignation or dismissal of the external auditor.
- (c) The Audit Committee was required to ensure that the system of internal control of the Group was in place for identifying and managing risks. The Audit Committee had reviewed the effectiveness of internal controls for the Year. Such review covered financial, operational and compliance controls and risk assessment of the Group. The Board was satisfied that the effectiveness of the internal controls of the Group had been properly reviewed by the Audit Committee.

### Remuneration Committee

The Company has set up a Remuneration Committee in accordance with the relevant requirements of the CG Code. The Remuneration Committee is chaired by Mr. Lau Chi Kit, and comprising two other members, namely Mr. Yue Man Yiu Matthew and Mr. Chan Wing Tak Kevin. All the members of the Remuneration Committee are Independent Non-executive Directors. The principal responsibilities of the Remuneration Committee include formulating a remuneration policy that guides the employment of senior personnel, recommending to the Board the remuneration of members of the Board who are Independent Non-executive Directors, determining the remuneration packages of the members of the Board who are executive Directors and reviewing and approving performance-based remuneration by reference to the Company's goals, objectives and market practices, review and/or approve matters relating to share schemes of the Company (whether or not under Chapter 17 of the Listing Rules) and ensure no Director involved in deciding his own remuneration.

There was one meeting of the Remuneration Committee held in 2022. Details of the members attendance record in the Year are set out on page 12 of this annual report. Details of the remuneration of each Director for 2022 is set out in the Note 8 to this annual report.

### Roles and functions

According to the written terms of reference of the Remuneration Committee, the Remuneration Committee has adopted the model to make recommendations to the Board on the remuneration packages of individual Executive Director(s) and senior management including benefits in kind, pension rights and compensation payment comprising any compensation payable for loss or termination of their office or appointment. It also makes recommendations to the Board on the remuneration of Non-executive Directors. Its principal role is to assist the Board to oversee the policy and structure of the remuneration of the Executive Director(s) of the Company and senior management of the Group.

The Remuneration Committee is provided with sufficient resources to perform its duties. The current duties and responsibilities of the Remuneration Committee are more specifically set out in its latest terms of reference, details of which can be viewed on the website of the Company and the website of the Stock Exchange.

The following is a summary of work performed by the Remuneration Committee during the Year:

- (a) formulating and recommending the policy and structure of the remuneration of the Directors and senior management of the Group to the Board;
- (b) assessing individual performance of the Directors and senior management of the Group;

## CORPORATE GOVERNANCE REPORT

- (c) reviewing specific remuneration packages of the Directors and senior management of the Group with reference to the Board's corporate goals and objectives as well as individual performances; and
- (d) reviewing and making recommendations to the Board on compensation-related issues.

### Principles of remuneration policy

The principles of the Group's remuneration policy:

1. were applied to all Directors and senior management of the Group for the Year and, so far as practicable, shall be applied to them for subsequent years;
2. were sufficiently flexible taking into account future changes in the Company's business environment and remuneration practice;
3. allowed remuneration arrangement to be designed to support the business strategy of the Group and to align with the interests of the Group's shareholders; and
4. aimed at setting appropriate reward levels to reflect the competitiveness in the market in which comparable companies and the Group had been operating during the Year so as to retain individuals with outstanding performance.

### Remuneration structure

Under the above remuneration policy, the remuneration package of each Executive Director and senior management of the Group during the Year was structured to include:

- (a) an appropriate rate of base compensation for the job of each Executive Director and senior management of the Group;
- (b) competitive benefit programs; and
- (c) sets of performance measures and targets for performance-related annual and long-term incentive plans based on the appropriate independent advice and/or an assessment of the interests of shareholders of the Company and taking into account an appropriate balance of risk and reward for the Directors and other participants.

The work and findings together with recommendations of the Remuneration Committee were presented to the Board after the Remuneration Committee's meetings. Minutes of the Remuneration Committee's meeting were made available to all the Directors for inspection. No Director or any of his associates was involved in deciding his own remuneration.

### Nomination Committee

The Nomination Committee of the Board was established on 29 March 2012 and comprises three Independent Non-executive Directors. The Nomination Committee is chaired by Mr. Lau Chi Kit, and comprising two other members, namely Mr. Yue Man Yiu Matthew and Mr. Chan Wing Tak Kevin. The members of Nomination Committee meet formally at least once a year.

## CORPORATE GOVERNANCE REPORT

There was one meeting of Nomination Committee meeting held in 2022. Details of the members attendance record in the Year are set out on page 12 of this annual report. The following is a summary of the work performed by the Nomination Committee during the Year:

- (a) reviewing and evaluating the composition of the Board with reference to certain criteria. These criteria included qualifications required under the Listing Rules or any other relevant laws regarding characteristics and skills of the Directors, professional ethics and integrity, appropriate professional knowledge and industry experience, as well as ability to devote sufficient time to the work of the Board and its committees and to participate in all Board meetings and shareholders' meetings;
- (b) reviewing and recommending the re-appointment of the retiring Directors for re-election; and
- (c) assessing independence of the Independent Non-executive Directors.

According to the written terms of reference of the Nomination Committee, the major responsibilities of the Nomination Committee include:

- (a) to review the structure, size and composition (including the skills, knowledge and experience) of the Board at least annually and make recommendations on any proposed changes to the Board to complement the Company's corporate strategy;
- (b) to identify individuals suitably qualified to become members of the Board and select or make recommendations to the Board on the selection of individuals nominated for directorships;
- (c) to assess the independence of the Independent Non-executive Directors; and
- (d) to make recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors, in particular the Chairman of the Board and the Chief Executive Officer.

Details of the terms of reference of the Nomination Committee can be viewed on the website of the Company and the website of the Stock Exchange.

### Nomination procedures and criteria

The Board has adopted a nomination policy (the "Nomination Policy") which sets out the nomination criteria and procedures for the Company to select candidate(s) for possible inclusion in the Board. When assessing the suitability of a candidate, factors such as experience, qualifications, skills, integrity and board diversity will be taken into consideration as a whole. In the case of independent non-executive directors, they must further satisfy the independence criteria set out within Rule 3.13 of the Listing Rules. The Nomination Committee will first identify potential candidates, including recommendations from the Board members and the shareholders of the Company. After reviewing and evaluating the background and information of the potential candidates based on the selection criteria, the Nomination Committee will make recommendations to the Board on the selected candidates.

## CORPORATE GOVERNANCE REPORT

### Board diversity policy

The Company has adopted the Board diversity policy ("Policy") in accordance with the requirements set out in code provision of the CG Code. The Company recognises and embraces the benefits of having a diverse Board, and sees diversity at Board level is essential in achieving a sustainable and balanced development. The Company aims to build and maintain a Board with a diversity of Directors, in terms of skills, experience, gender, knowledge, expertise, culture, independence and age. All Board appointments will be based on merit while candidates will be considered against objective criteria with due regard towards the benefits of diversity on the Board. The Nomination Committee will review the Policy, as appropriate, to ensure the effectiveness of the Policy.

The Board had not set any measurable objective for implementing the diversity policy during the Year. As at 31 December 2022, there were 8 male Directors and 1 female Directors on the Board and the male to female ratio in the workforce (including senior management) of the Group was approximately 3:2. The Board considered that the composition of the Board and the workforce were sufficiently diversified in terms of gender. The Board has not set any numerical targets, plans and timelines set for achieving gender diversity on its Board and in the workforce.

The Board is mindful of the objectives for the factors as set out in the diversity policy for assessing the candidacy of the Board members and will ensure that any successors to the Board shall follow the diversity policy. Similar considerations will also be in place to assess the candidacy of the senior management team from time to time. The Group is determined to maintain gender diversity and equality in terms of the whole workforce, and to procure the senior management team to achieve gender equality in terms of the gender ratio. The Nomination Committee will discuss periodically and when necessary, agree on further measurable objectives and plans for achieving diversity, including gender diversity, on the Board and recommend them to the Board for adoption.

## E. ACCOUNTABILITY AND AUDIT

### Directors' responsibility for the accounts

The Directors acknowledge their responsibility for the preparation of the accounts of the Group and ensure that the accounts are in accordance with statutory requirements and applicable accounting standards. The accounts are prepared on a going concern basis, the members of the Board have selected appropriate accounting policies and apart from those new and amended accounting policies disclosed in the notes to the accounts during the year ended 31 December 2022, have applied consistently with previous financial periods. The statement of our auditor about their responsibility on the accounts is included in the Independent Auditor's Report. For the annual reports and accounts, the Company's finance department is responsible for clearing them with the external auditor and then the Audit Committee. In addition, all new accounting standards and requirements adopted by the Group have been discussed and approved by the Audit Committee.

There are no material uncertainties relating to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

The statement of the external auditor of the Company about their reporting responsibilities on the financial statements is set out in the Independent Auditor's Report on pages 41 to 45 of this annual report.

## CORPORATE GOVERNANCE REPORT

### External auditor's remuneration

The Group's independent external auditor is Ernst & Young, Certified Public Accountants. The Company has not changed its external auditor in any of the preceding three years. Prior to the commencement of the audit of the Group's 2022 financial statements, for the year ended 31 December 2022 the Audit Committee received written confirmation from the external auditor of its independence and objectivity. The external auditor refrained from engaging in non-assurance services except for limited tax-related services or specifically approved items. The Audit Committee reviewed the external auditor's statutory audit scope and non-audit services and approves its fees. During the year ended 31 December 2022, the remuneration paid or payable to the external auditor for audit services and non-audit services amounted to HK\$2,290,000 (2021: HK\$2,220,000) and HK\$1,933,000 (2021: HK\$1,873,000), respectively. Non-audit services include tax consultancy services amounted to HK\$283,000 (2021: HK\$243,000), review of financial statements services amounted to HK\$850,000 (2021: HK\$830,000) and agreed-upon procedures services amounted to HK\$800,000 (2021: HK\$800,000).

### Risk management and internal controls

The internal audit department, which is independent to the Company's daily operations and accounting functions, is responsible for establishing the Group's internal control framework, covering all material controls including financial, operational and compliance controls. The Audit Committee or the internal audit department conducts a review of the effectiveness of the Group's internal control system at least annually.

The internal control framework also provides for identification and management of risk.

The internal audit department also formulates the internal audit plan and procedures, conducts periodic independent reviews on the operations of individual divisions to identify any irregularities and risks, develops action plans and recommendations to address the identified risks, and reports to the management on any key findings and progress of the internal audit process.

The Board, through the internal audit department and the Audit Committee, has conducted a review of the effectiveness of the Group's internal control system for the year ended 31 December 2022 covering all material financial, operational and compliance controls and risk management functions, and is satisfied that such system are effective and adequate.

## F. COMMUNICATION WITH SHAREHOLDERS

The Company has adopted a shareholders' communication policy. Under the policy, the Company should maintain various channels, including general meetings and the Company's website, to effectively communicate with shareholders.

The AGM is one of the principal channels of communication with its shareholders. It provides an opportunity for shareholders to question Directors about the Company's performance. The detailed procedures for conducting a poll will be explained at each general meeting. Registered shareholders are notified by post of the AGM. Any registered shareholder is entitled to attend and vote at the AGM, provided that his/her/its shares have been fully paid up and recorded in the register of the members of the Company.

The Group endeavours to disclose relevant information on its activities to its shareholders in an open and timely manner, subject to applicable legal requirements. Communication between the Company and its shareholders is achieved through:

- (a) the Company's annual and interim reports which have been enhanced to present a balanced, clear and comprehensive assessment of the Group's position and prospects;
- (b) forum and notices of AGMs and other general meetings and accompanying explanatory materials;
- (c) press releases on major development of the Group;
- (d) disclosures to the Stock Exchange and relevant regulatory bodies;
- (e) response to inquiries from shareholders or media; and
- (f) the website of the Company through which the public can access, among other things, corporate announcements, press releases, annual reports, and general corporate information of the Group.

## CORPORATE GOVERNANCE REPORT

The communication channels between the Company and its shareholders above will be reviewed by the Board on a regular basis to ensure their effectiveness in maintaining an on-going dialogue with shareholders. In the year, the Company also communicated with investors through news release. The Board has reviewed the implementation and effectiveness of the Company's shareholders' communication policy including steps taken at the general meetings the handling of queries received (if any) and the multiple channels of communication and engagement in place, and considered the Company's shareholders' communication policy has been properly implemented during the Year and is effective.

### Constructive use of AGMs

The Board and the management are committed to the constructive use of the AGM as a forum to meet with Shareholders and to hear their views and answer their questions about the Group and its business.

The Chairman and a majority of the other Directors along with key executives and the external auditor attended the 2022 AGM and addressed concerns raised by a number of Shareholders about the resolutions being proposed and the Company's business. The Directors in attendance included those who were chairing the Audit Committee, the Nomination Committee and the Remuneration Committee on the date of the meeting.

### PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the Directors of the Company, the Company has maintained a sufficient public float as required under the Listing Rules during the year and as at the date of this annual report.

### PERFORMANCE SHARE AWARD PLAN

The Company has adopted a performance share award plan (the “Performance Share Award Plan”) on 14 May 2021 (the “Adoption Date”). The Performance Share Award Plan is a share scheme under Chapter 17 of the Listing Rules following the amendments to Chapter 17 of the Listing Rules following the publication of the Consultation Conclusions on Proposed Amendments to Listing Rules relating to Share Schemes of Listed Issuers and Housekeeping Rule Amendment by the Stock Exchange in July 2022.

The principal terms of the Performance Share Award Plan are summarised as below:

#### Purpose of the Performance Share Award Plan

The purpose of the Performance Share Award Plan is to recognise and reward the contribution of selected persons (the “Selected Persons”), which are any full-time employee of the Group, including directors, executive, officers or senior management of the Group but excluding Directors or the chief executive officer of the Company shall be determined by the Administration Committee, towards the growth and development of the Group through an award of Shares.

#### Administration

The Performance Share Award Plan shall be subject to the administration of the Administration Committee (the “Administration Committee”) in accordance with the rules of the Performance Share Award Plan and the trust deed (the “Trust Deed”) as appointed by the Company. The Administration Committee is delegated with the power and authority by the Board to administer the Performance Share Award Plan and comprises senior management of the Group. The trustee appointed by the Board to manage the Performance Share Award Plan (the “Trustee”) shall hold the trust fund in accordance with the terms of the Trust Deed.

## REPORT OF THE DIRECTORS

### Participants

The Administration Committee may, in its absolute discretion, make an award to Selected Persons for awards shall be individual employee(s) excluding Directors and the chief executive officer of the Company.

### Award of Shares

The Administration Committee shall, subject to and in accordance with the provisions of the Performance Share Award Plan, be entitled (but shall not be bound) to, at any time during the continuation of the Performance Share Award Plan, make an award to any of the Selected Persons of such number of issued Shares, fully paid or credited as fully paid, as the Administration Committee shall determine pursuant to the Performance Share Award Plan.

### Plan limit

The total number of Shares under the Performance Share Award Plan will not exceed 5% of the total issued Shares on the Adoption Date (i.e. 129,928,066 Shares, representing approximately 5% of the total issued Shares as at the date of this report). The accumulated number of Shares which may be awarded to a Selected Person under the Performance Share Award Plan shall not exceed 1% of the number of issued Shares from time to time.

### Duration of the Performance Share Award Plan

Subject to any early termination pursuant to the terms of the Performance Share Award Plan, the Performance Share Award Plan will remain valid and effective for a period of 5 years commencing from the Adoption Date.

### Vesting of Award Shares

The Trustee shall transfer to and vest in any Selected Person(s) the legal and beneficial ownership of the awarded Shares within 10 business days after the latest of: (a) the earliest date on which the Trustee may vest the legal and beneficial ownership of the awarded Shares with the relevant Selected Person as specified in the award notice; (b) the date on which the condition(s) or performance target(s) (if any) to be attained by such Selected Person as specified in the related award notice have been attained and notified to the Trustee by the Administration Committee in writing; and (c) where applicable, the date on which the Trustee has completed the purchase of Shares and/or subscription of new Shares to be issued and allotted by the Company for the purpose of making the relevant award.

### Lapse of Awards

In the event that the condition(s) or performance target(s) are not attained by any relevant Selected Person before the deadline as specified in the relevant award notice or upon any illegality, breaches of laws and regulations, termination of employment or such other situation as the Board or Remuneration Committee may deem appropriate, an award made to such Selected Person shall forthwith lapse and be cancelled.

### Exercise period or rights

As the Performance Share Award Plan is a share award plan of the Company instead of a share option scheme, the awards granted under the Performance Share Award Plan are not subject to any exercise period nor are the Selected Participants entitled to any exercise rights.

## REPORT OF THE DIRECTORS

### Share purchase pursuant to the Performance Share Award Plan

The Administration Committee has considered the further development of Company, the market conditions and its trading share price and instructed the Trustee to purchase Shares for the purpose of the pool of awarded Shares. As at the date of this annual report, the Trustee has purchased a total number of 112,966,000 Shares (31 December 2021: 108,966,000 Shares) on the market to hold on trust for the benefit of the Selected Persons pursuant to the Rules of Performance Share Award Plan and the Trust Deed. The balance of Shares held by the Trustee immediately after the purchase Shares represents approximately 4.35% (31 December 2021: 4.2%) to the total number of Shares in issue as at the date of this annual report.

As at the date of this annual report, no Shares (31 December 2021: nil) were granted and no Shares (31 December 2021: nil) were vested to any Selected Persons pursuant to the Performance Share Award Plan. There were no outstanding share awards as at 1 January 2022 and as at 31 December 2022. The Board will constantly review and determine at its absolute discretion such number of awarded Shares to be awarded to the Selected Persons under the Performance Share Award Plan with such vesting conditions as the Board may deem appropriate.

Details of the Performance Share Award Plan were set out in the announcement of the Company dated 14 May 2021.

### EMPLOYMENT AND REMUNERATION POLICY

The total number of employees of the Group as at 31 December 2022 was 1,490 (2021: 1,328). The Group's remuneration policies are in line with local market practices where the Group operates and are normally reviewed on an annual basis. In addition to salary payments, there are other staff benefits including provident fund, medical insurance and performance related bonus. Share options may also be granted to eligible employees and persons of the Group. At 31 December 2022, there were no outstanding share options. In the meantime, the Group adopted the Performance Share Award Plan on 14 May 2021. At 31 December 2022, no Shares have been awarded to any Selected Persons pursuant to the Performance Share Award Plan.

Details of the remuneration of the Directors are set out in note 8 to the financial statements. The emoluments paid to the senior management (excluding the Directors) during the year ended 31 December 2022 were within the following bands:

| <b>Bands</b>                   | <b>Number of<br/>Senior Management</b> |

## REPORT OF THE DIRECTORS

### CONTINUING DISCLOSURE REQUIREMENTS UNDER RULES 13.20 AND 13.22 OF CHAPTER 13 OF THE LISTING RULES

In accordance with the requirements of Rules 13.20 and 13.22 of the Listing Rules, the following were the details of advances to an entity and/or financial assistances to affiliated company of the Group and exceed 8% of the Group's total assets as at 31 December 2022 recorded in the audited financial statements of the Group for the year ended 31 December 2022 pursuant to Rules 13.13 and 13.16 thereof.

Pursuant to a letter of confirmation dated 5 January 2022 entered into between Guangzhou Wanlibao Investment Co., Ltd.\* (廣州萬利寶投資有限公司) ("Wanlibao"), a wholly-owned subsidiary of the Company and Gangke, a joint venture the equity interest in which is held as to 40% and 60% by Wanlibao and Jiangsu Ganglong Huayang Real Estate Co., Ltd.\* (江蘇港龍華揚置業有限公司), respectively. The parties have agreed and confirmed the provision of a shareholder's loan (the "Shareholder's Loan") in the principal amount of up to RMB732 million and that certain previous contributions made shall be deemed to be and construed as advances provided by Wanlibao to the Gangke under the Shareholder's Loan (and the date of such advances shall be deemed to be and construed as the date of drawdown under the Shareholder's Loan). The Shareholder's Loan is repayable on demand and is not secured by any collateral, with an interest rate of 8% per annum. The Shareholders' Loan is a revolving loan under which more than one drawdown may be made. For further details please refer to the announcement of the Company dated 5 January 2022.

A pledge over 40% of the equity interest in Gangke held by Wanlibao (the "Pledge") was provided by Wanlibao in favour of Industrial and Commercial Bank of China Limited, Xintang, Guangzhou Branch (中國工商銀行股份有限公司廣州新塘支行) (the "Lender") pursuant to the terms of pledge agreement dated 29 September 2021 entered into between Wanlibao as pledgor and the Lender as pledgee to secure the repayment of a maximum loan amount of RMB320 million. For further details please refer to the announcement of the Company dated 29 September 2021.

As at 31 December 2022, the outstanding principal amount under the Shareholders' Loan amounted to HK\$755.6 million (i.e. approximately RMB667.6 million). The Pledge given in respect of the bank loan granted to Gangke amounted to HK\$362.2 million (i.e. approximately RMB320.0 million). The aggregate amount of the Shareholders' Loan provided to and the Pledge provided in favour of Gangke by Wanlibao amounted to HK\$1,117.8 million (i.e. approximately RMB987.6 million), representing 18.2% of the consolidated total assets of the Group of HK\$6,128.5 million as at 31 December 2022.

A statement of financial position of the affiliated company as at 31 December 2022 required to be disclosed under Rule 13.22 of the Listing Rules is set out below:

|                         | <b>Statement of<br/>financial position</b> |

## REPORT OF THE DIRECTORS

### CONNECTED TRANSACTIONS AND CONTINUING CONNECTED TRANSACTIONS

#### Connected Transactions

##### *Acquisition of Equity Interest in the Target Company*

On 18 March 2022, Royal Finance Lease, an indirect wholly-owned subsidiary of the Company, entered into an acquisition agreement (the “Acquisition Agreement”) with China Finance Lease, pursuant to which Royal Finance Lease conditionally agreed to acquire, and China Finance Lease conditionally agreed to sell, 1.5% of the equity interest in SC Financial Leasing (in relation to which the corresponding registered capital of SC Financial Leasing is RMB15.0 million), at the cash consideration of RMB19.5 million. The acquisition would enable the Group to increase its shareholding percentage and further consolidate its interest in the SC Financial Leasing.

As Science City, a controlling shareholder of the Company, holds 75% of the equity interest in SC Financial Leasing, SC Financial Leasing is connected person of the Company. The Acquisition Agreement and the transactions contemplated thereunder constituted a discloseable and connected transaction of the Company. For further details please refer to the announcement of the Company dated 18 March 2022.

#### Continuing Connected Transactions

##### *Product Sales Agreement*

On 26 June 2020, the Company has entered into a product sales agreement (“Product Sales Agreement”) with Science City Group, pursuant to which the Group will sell furniture products (together with installation and other ancillary services) to subsidiaries of Science City Group for their internal consumption and resale, subject to the entering into of individual contracts as agreed between the Group and the Science City Group. The Product Sales Agreement shall be effect for a term commenced from 23 October 2020 and ended on 31 December 2022.

As Science City Group is a controlling shareholder of the Company, it is a connected person of the Company. Accordingly, the Product Sales Agreement and the transactions contemplated thereunder constituted continuing connected transactions of the Company under Chapter 14A of the Listing Rules. The Product Sales Agreement and the transactions contemplated thereunder were approved by the independent shareholders on the extraordinary general meeting held on 23 October 2020. For further details please refer to the announcement of the Company dated 26 June 2020, the circular of the Company dated 30 September 2020 and the poll results announcement of the Company dated 23 October 2020.

The annual cap for the transactions under the Product Sales Agreement for the year ended 31 December 2022 was RMB350,000,000. For the year ended 31 December 2022, the actual transaction amount was RMB43,442,000.

##### *Master Raw Materials Sales Agreement*

On 9 December 2022, the Company has entered into a master raw materials sales agreement (“Master Raw Materials Sales Agreement”) with Morris Home Holdings Limited (“Morris Home”), pursuant to which members of the Group will sell the raw materials for manufacturing sofas and other furniture products to Morris Home and its subsidiaries (“Morris Home Group”) on a non-exclusive basis for a term commenced on 9 December 2022 and ended on 31 December 2022, subject to the entering into of individual contracts as agreed between members of the Group and the Morris Home Group.

## REPORT OF THE DIRECTORS

As Mr. Tse Kam Pang, a controlling shareholder and an executive Director of the Company, indirectly holds approximately 47.27% of the issued shares of Morris Home, Morris Home is an associate of Mr. Tse and hence a connected person of the Company under Chapter 14A of the Listing Rules. The Master Raw Materials Sales Agreement and the transactions contemplated thereunder constituted a connected continuing connected transaction of the Company. For further details please refer to the announcement of the Company dated 9 December 2022.

The annual cap for the transactions under the Master Raw Materials Sales Agreement for the period commenced from 9 December 2022 and ended on 31 December 2022 was RMB18,000,000. The actual transaction amount was RMB8,297,000.

The Independent Non-executive Directors have reviewed and confirmed that the continuing connected transactions undertaken by the Group were entered into (i) in the ordinary and usual course of business of the Group; (ii) on normal commercial terms; and (iii) in accordance with the relevant agreements governing the transactions on terms that are fair and reasonable and in the interests of the Shareholders as a whole.

Ernst & Young, the Company's auditors, were engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised) *Assurance Engagements Other Than Audits or Reviews of Historical Financial Information* and with reference to Practice Note 740 *Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules* issued by the Hong Kong Institute of Certified Public Accountants. Ernst & Young have issued unqualified their letter containing their findings and conclusions in respect of the continuing connected transactions which are subject to annual review with Rule 14A.56 of the Listing Rules. A copy of the auditors' letter has been provided by the Company to the Stock Exchange.

During the year, related party transactions are disclosed in note 37 to the consolidated financial statements. Save as disclosed above and in respect of which the disclosure requirements under Chapter 14A of the Listing Rules have been complied with, other related party transactions disclosed in note 37 to the consolidated financial statements do not constitute connected transactions or continuing connected transactions which are subject to reporting, announcement, annual review and independent shareholders' approval requirements under Chapter 14A of the Listing Rules.

## CORPORATE GOVERNANCE

The Company is committed to maintaining high standard of corporate governance practices. Information on the corporate governance practices adopted by the Company is set out in the Corporate Governance Report on pages 10 to 23.

## AUDIT COMMITTEE

The Company has an audit committee which was established in compliance with Rule 3.21 of the Listing Rules for the purpose of reviewing and providing supervision over the Group's financial reporting process and internal controls. The audit committee comprises the three Independent Non-executive Directors. The financial statements of the Group and of the Company for the year ended 31 December 2022 together with the notes attached thereto have been reviewed by the audit committee, which was of the opinion that such statements complied with the applicable accounting standards, the Listing Rules and the legal requirements, and that adequate disclosure has been made.

## TAX RELIEF AND EXEMPTION

### OPINION

We have audited the consolidated financial statements of Royale Home Holdings Limited (the “Company”) and its subsidiaries (the “Group”) set out on pages 46 to 131, which comprise the consolidated statement of financial position as at 31 December 2022, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

### BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSAs”) issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor’s responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA’s *Code of Ethics for Professional Accountants* (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor’s responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

### KEY AUDIT MATTERS (Continued)

| Key audit matter   | How our audit addressed the key audit matter   |
|--|--|
| <p><b><i>Provision for inventory</i></b></p> <p>The Group manufactures and sells furniture and is subject to changing consumer demands.</p> <p>As at 31 December 2022, the gross amount of inventories and the provision for inventory balance amounted to approximately HK\$304 million and HK\$22 million, respectively. Significant management judgement was required to assess whether the carrying amount of these inventories was higher than the net realisable value. Specific factors that management considered in the estimation of the provision for inventory included the aging of the balances, type of furniture, forecasted inventory usage or sales and any other available information.</p> <p>The accounting policy, the estimation uncertainty and the details of provision for inventory are disclosed in notes 2.4, 3 and 19 to the consolidated financial statements.</p>  | <p>We assessed the process, methods and assumptions used to develop the provision for slow-moving, excess or obsolete items and tested the aging of inventories, on a sample basis.</p> <p>We evaluated the inventory's net realisable value on a sample basis, by comparing the forecasted selling price to existing contracts and recent market prices.</p> <p>We also observed the condition of inventories in stock-take to inspect obsolete and damaged inventories.</p> <p>We performed financial analytical review on inventory turnover days and compared the turnover days with those for other listed entities of the same industry where available.</p> <p>We reviewed and assessed the adequacy of the related disclosures in the consolidated financial statements.</p> |
| <p><b><i>Fair value of investment properties</i></b></p> <p>The Group chooses the fair value model to subsequently measure all investment properties. As at 31 December 2022, the carrying amount of investment properties was HK\$681 million and the fair value gain on investment properties recognised during the year was HK\$46.6 million. The Group engaged an external valuation expert to perform valuation of the Group's investment properties to estimate the fair values as at 31 December 2022. The fair values of investment properties were determined principally using the discounted cash flow method by estimating the rental income derived from the existing tenancies with due provisions for the reversionary income potential of the properties. The determination of application of the valuation technique, future rental income and rental rate involved significant management judgement and estimates.</p> <p>The accounting policy, the estimation uncertainty and the details of fair value of investment properties are disclosed in notes 2.4, 3, 5 and 14 to the consolidated financial statements.</p> | <p>We assessed the objectivity, independence and competence of the external valuation expert engaged by the Company.</p> <p>We assessed the related data used by the external valuation expert as inputs of the valuations by comparing to the historical data and market index.</p> <p>We also involved our internal valuation specialists to assist us in evaluating the valuation methodology and the underlying assumptions which principally included the market unit rental rate and discount rate.</p> <p>We assessed the adequacy of the disclosures of the valuations of investment properties in the consolidated financial statements.</p>  |

## INDEPENDENT AUDITOR'S REPORT

### OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

## INDEPENDENT AUDITOR'S REPORT

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

## INDEPENDENT AUDITOR'S REPORT

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Michael Tjenalooi.

# The asset revaluation reserve arose from a revaluation surplus resulting from the building revaluation on 31 December 2022.

\* These reserve accounts comprise the consolidated reserves of HK\$2,021,618,000 (2021: HK\$2,323,763,000) in the consolidated statement of financial position.

\*\* The capital reserve mainly represents the difference between the cost of acquisition and the non-controlling interests acquired in the case of acquisition of additional non-controlling interests of subsidiaries.

## During the current year, the trustee appointed for the Share Award Scheme adopted by the Company acquired 4,000,000 (2021: 108,966,000) shares of the Company through purchases on the open market at a cost of approximately HK\$4,740,000 (2021: HK\$222,907,000), net of dividends received. As at 31 December 2022, 112,966,000 (31 December 2021: 108,966,000) shares of the Company are held by the trustee and have yet to be awarded.

The above table lists the principal subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties, certain financial assets and certain buildings classified as property, plant and equipment which have been measured at fair value. These financial statements are presented in Hong Kong dollars and all values are rounded to the nearest thousand except when otherwise indicated.

#### Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the “Group”) for the year ended 31 December 2022. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

Generally, there is a presumption that a majority of voting rights results in control. When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interests and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group’s share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

### 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following revised HKFRSs for the first time for the current year's financial statements.

|  |   |
|--|---|
| Amendments to HKFRS 3                      | <i>Reference to the Conceptual Framework</i>  |
| Amendments to HKAS 16                      | <i>Property, Plant and Equipment: Proceeds before Intended Use</i>                                  |
| Amendments to HKAS 37                      | <i>Onerous Contracts – Cost of Fulfilling a Contract</i>  |
| Annual Improvements to HKFRSs<br>2018–2020 | <i>Amendments to HKFRS 1, HKFRS 9, Illustrative Examples<br/>accompanying HKFRS 16, and HKAS 41</i> |

The nature and the impact of the revised HKFRSs that are applicable to the Group are described below:

- (a) Amendments to HKFRS 3 replace a reference to the previous Framework for the Preparation and Presentation of Financial Statements with a reference to the Conceptual Framework for Financial Reporting (the "Conceptual Framework") issued in June 2018 without significantly changing its requirements. The amendments also add to HKFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of HKAS 37 or HK(IFRIC)-Int 21 if they were incurred separately rather than assumed in a business combination, an entity applying HKFRS 3 should refer to HKAS 37 or HK(IFRIC)-Int 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. The Group has applied the amendments prospectively to business combinations that occurred on or after 1 January 2022. As there were no contingent assets, liabilities and contingent liabilities within the scope of the amendments arising in the business combination that occurred during the year, the amendments did not have any impact on the financial position and performance of the Group.
- (b) Amendments to HKAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items as determined by HKAS 2 Inventories, in profit or loss. The Group has applied the amendments retrospectively to items of property, plant and equipment made available for use on or after 1 January 2021. Since there was no sale of items produced prior to the property, plant and equipment being available for use, the amendments did not have any impact on the financial position or performance of the Group.
- (c) Amendments to HKAS 37 clarify that for the purpose of assessing whether a contract is onerous under HKAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (e.g., direct labour and materials) and an allocation of other costs that relate directly to fulfilling that contract (e.g., an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract as well as contract management and supervision costs). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. The Group has applied the amendments prospectively to contracts for which it has not yet fulfilled all its obligations at 1 January 2022 and no onerous contracts were identified. Therefore, the amendments did not have any impact on the financial position or performance of the Group.

### 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(d) *Annual Improvements to HKFRSs 2018–2020* sets out amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41. Details of the amendment that is applicable to the Group are as follows:

- HKFRS 9 *Financial Instruments*: clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. The Group has applied the amendment prospectively from 1 January 2022. As there was no modification or exchange of the Group's financial liabilities during the year, the amendment did not have any impact on the financial position or performance of the Group.

### 2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised HKFRSs, that have been issued but are not yet effective, in these financial statements.

|   |   |
|---|---|
| Amendments to HKFRS 10 and HKAS 28 (2011)           | <i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i> <sup>3</sup> |

| Amendments to HKAS 12                               | <i>Deferred Tax related to Assets and Liabilities arising from a Single Transaction</i> <sup>1</sup>      |

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2023

<sup>2</sup> Effective for annual periods beginning on or after 1 January 2024

<sup>3</sup> No mandatory effective date yet determined but available for adoption

<sup>4</sup> As a consequence of the 2022 Amendments, the effective date of the 2020 Amendments was deferred to annual periods beginning on or after 1 January 2024. In addition, as a consequence of the 2020 Amendments and 2022 Amendments, Hong Kong Interpretation 5 Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause was revised to align the corresponding wording with no change in conclusion

<sup>5</sup> As a consequence of the amendments to HKFRS 17 issued in October 2020, HKFRS 4 was amended to extend the temporary exemption that permits insurers to apply HKAS 39 rather than HKFRS 9 for annual periods beginning before 1 January 2023

<sup>6</sup> An entity that chooses to apply the transition option relating to the classification overlay set out in this amendment shall apply it on initial application of HKFRS 17

## NOTES TO FINANCIAL STATEMENTS

### 2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

(Continued)

Further information about those HKFRSs that are expected to be applicable to the Group is described below.

Amendments to HKFRS 10 and HKAS 28 (2011) address an inconsistency between the requirements in HKFRS 10 and in HKAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss resulting from a downstream transaction when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to HKFRS 10 and HKAS 28 (2011) was removed by the HKICPA in January 2016 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

Amendments to HKFRS 16 specify the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains. The amendments are effective for annual periods beginning on or after 1 January 2024 and shall be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of HKFRS 16 (i.e., 1 January 2019). Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 1 *Classification of Liabilities as Current or Non-current* clarify the requirements for classifying liabilities as current or non-current, in particular the determination over whether an entity has a right to defer settlement of the liabilities for at least 12 months after the reporting period. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability. The amendments also clarify the situations that are considered a settlement of a liability. In 2022, the HKICPA issued the 2022 Amendments to further clarify that, among covenants of a liability arising from a loan arrangement, only those with which an entity must comply on or before the reporting date affect the classification of that liability as current or non-current. In addition, the 2022 Amendments require additional disclosures by an entity that classifies liabilities arising from loan arrangements as non-current when it has a right to defer settlement of those liabilities that are subject to the entity complying with future covenants within 12 months after the reporting period. The amendments are effective for annual periods beginning on or after 1 January 2024 and shall be applied retrospectively. Earlier application is permitted. An entity that applies the 2020 Amendments early is required to apply simultaneously the 2022 Amendments, and vice versa. The Group is currently assessing the impact of the amendments and whether existing loan agreements may require revision. Based on a preliminary assessment, the amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 1 *Disclosure of Accounting Policies* require entities to disclose their material accounting policy information rather than their significant accounting policies. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. Amendments to HKFRS Practice Statement 2 provide non-mandatory guidance on how to apply the concept of materiality to accounting policy disclosures. Amendments to HKAS 1 are effective for annual periods beginning on or after 1 January 2023 and earlier application is permitted. Since the guidance provided in the amendments to HKFRS Practice Statement 2 is non-mandatory, an effective date for these amendments is not necessary. The Group is currently revisiting the accounting policy disclosures to ensure consistency with the amendments.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

(Continued)

Amendments to HKAS 8 clarify the distinction between changes in accounting estimates and changes in accounting policies. Accounting estimates are defined as monetary amounts in financial statements that are subject to measurement uncertainty. The amendments also clarify how entities use measurement techniques and inputs to develop accounting estimates. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 12 narrow the scope of the initial recognition exception in HKAS 12 so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences, such as leases and decommissioning obligations. Therefore, entities are required to recognise a deferred tax asset (provided that sufficient taxable profit is available) and a deferred tax liability for temporary differences arising from these transactions. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and shall be applied to transactions related to leases and decommissioning obligations at the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to the opening balance of retained profits or other component of equity as appropriate at that date. In addition, the amendments shall be applied prospectively to transactions other than leases and decommissioning obligations. Earlier application is permitted.

The Group has applied the initial recognition exception and did not recognise a deferred tax asset and a deferred tax liability for temporary differences for transactions related to leases. Upon initial application of these amendments, the Group will recognise deferred tax for all temporary differences related to leases at the beginning of the earliest comparative period presented. During the year, the Group has performed a detailed assessment on the impact of amendments to HKAS 12. The Group has estimated that it will recognise a deferred tax asset of HK\$9,712,000 for deductible temporary differences associated with lease liabilities and a deferred tax liability of HK\$9,124,000 for taxable temporary differences associated with right-of-use assets, and recognise the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained profits at 1 January 2022.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted by the Group in arriving at these financial statements set out in this report are set out below:

#### **Investments in associates and joint ventures**

An associate is an entity in which the Group has a long-term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Investments in associates and joint ventures (Continued)

The Group's investments in associates and joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. Adjustments are made to bring into line any dissimilar accounting policies that may exist. The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures is included in the consolidated statement of profit or loss and consolidated statement of other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates or joint ventures is included as part of the Group's investments in associates or joint ventures.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

When an investment in an associate or a joint venture is classified as held for sale, it is accounted for in accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*.

#### Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets includes an input and a substantive process that together significantly contribute to the ability to create outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Business combinations and goodwill (Continued)

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

#### Fair value measurement

The Group measures its investment properties and financial assets at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Fair value measurement (Continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

|         |   |   |
|---------|---|---|
| Level 1 | – | based on quoted prices (unadjusted) in active markets for identical assets or liabilities   |
| Level 2 | – | based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly |
| Level 3 | – | based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable                              |

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

#### Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, contract assets, deferred tax assets, financial assets and investment properties), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs. In testing a cash-generating unit for impairment, a portion of the carrying amount of a corporate asset (e.g., a headquarters building) is allocated to an individual cash-generating unit if it can be allocated on a reasonable and consistent basis or, otherwise, to the smallest group of cash-generating units.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, however not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises.

#### Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
  - (i) the entity and the Group are members of the same group;
  - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
  - (iii) the entity and the Group are joint ventures of the same third party;
  - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
  - (vi) the entity is controlled or jointly controlled by a person identified in (a);
  - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
  - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost or valuation less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of that asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Valuations are performed frequently enough to ensure that the fair value of a revalued asset does not differ materially from its carrying amount. Changes in the values of buildings are dealt with as movements in the asset revaluation reserve. If the total of this reserve is insufficient to cover a deficit, on an individual asset basis, the excess of the deficit is charged to the statement of profit or loss. Any subsequent revaluation surplus is credited to the statement of profit or loss to the extent of the deficit previously charged. An annual transfer from the asset revaluation reserve to retained profits is made for the difference between the depreciation based on the revalued carrying amount of an asset and the depreciation based on the asset's original cost. On disposal of a revalued asset, the relevant portion of the asset revaluation reserve realised in respect of previous valuations is transferred to retained profits as a movement in reserves.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

|  |         |
|--|---------|
| Buildings                                | 3%–5%   |
| Leasehold improvements                   | 10%–50% |
| Plant and machinery                      | 10%     |
| Furniture, fixtures and office equipment | 20%     |
| Motor vehicles and others                | 20%     |

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the period the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents a building under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the period the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Property, plant and equipment and depreciation** (Continued)

Construction in progress represents a building under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

#### **Investment properties**

Investment properties are interests in land and buildings (including the leasehold property held as a right-of-use asset) which would otherwise meet the definition of an investment property held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair values of investment properties are included in the statement of profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in the statement of profit or loss in the year of the retirement or disposal.

For a transfer from investment properties to owner-occupied properties, the deemed cost of a property for subsequent accounting is its fair value at the date of change in use. If a property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under "Property, plant and equipment and depreciation" up to the date of change in use, and any difference at that date between the carrying amount and the cost of the property is accounted for as a revaluation in accordance with the policy stated under "Property, plant and equipment and depreciation" above. For a transfer from inventories to investment properties, any difference between the fair value of the property at that date and its previous carrying amount is recognised in the statement of profit or loss.

#### **Intangible assets (other than goodwill)**

Intangible assets acquired separately are measured on initial recognition at cost. The useful lives of intangible assets are assessed to be finite. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

#### **Patents, licences and software**

Purchased patents, licences and software are stated at cost less any impairment losses and are amortised on the straight-line basis over their estimated useful lives of 2 to 10 years.

#### **Customer relationships**

Customer relationships are stated at cost less any impairment losses and are amortised on the straight-line basis over their estimated useful lives of 5 years.

## NOTES TO FINANCIAL STATEMENTS

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Intangible assets (other than goodwill) (Continued)

##### **Research and development costs**

All research costs are charged to the statement of profit or loss as incurred.

Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred.

Deferred development costs are stated at cost less any impairment losses and are amortised using the straight-line basis over the commercial lives of the underlying products not exceeding three years, commencing from the date when the products are put into commercial production.

#### Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

##### **Group as a lessee**

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

##### (a) *Right-of-use assets*

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

|                |                 |
|----------------|-----------------|
| Leasehold land | 27 to 50 years  |
| Buildings      | 1.5 to 15 years |
| Motor vehicle  | 5 years         |

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Leases (Continued)

##### **Group as a lessee** (Continued)

###### (b) *Lease liabilities*

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

###### (c) *Short-term leases and leases of low-value assets*

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment and laptop computers that are considered to be of low value.

Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

##### **Group as a lessor**

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, are accounted for as finance leases.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Leases (Continued)

##### **Group as a lessor** (Continued)

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rentals receivable under the operating leases are credited to the statement of profit or loss on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases net of any incentives received from the lessor are charged to the statement of profit or loss on the straight-line basis over the lease terms.

Leasehold land under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease terms.

#### Investments and other financial assets

##### **Initial recognition and measurement**

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade and bills receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade and bills receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Investments and other financial assets (Continued)

##### *Initial recognition and measurement* (Continued)

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

##### *Subsequent measurement*

The subsequent measurement of financial assets depends on their classification as follows:

##### *Financial assets at amortised cost (debt instruments)*

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

##### *Financial assets at fair value through profit or loss*

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

#### Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Impairment of financial assets

The Group recognises an allowance for expected credit losses (“ECLs”) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

#### General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information. The Group considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Debt investments at fair value through other comprehensive income and financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

|         |   |  |
|---------|---|--|
| Stage 1 | – | Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs   |
| Stage 2 | – | Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs |
| Stage 3 | – | Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs                          |

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Impairment of financial assets (Continued)

##### ***Simplified approach***

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

#### Financial liabilities

##### ***Initial recognition and measurement***

Financial liabilities are classified, at initial recognition, as loans and other borrowings, financial liabilities at fair value through profit or loss and payables.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, other payables and accruals, medium-term bonds, loan from an associate, loan from the immediate holding company, loan from non-controlling interests and interest-bearing bank and other borrowings.

##### ***Subsequent measurement***

The subsequent measurement of financial liabilities depends on their classification as follows:

##### *Financial liabilities at amortised cost (loans and borrowings)*

After initial recognition, trade payables, other payables and accruals, interest-bearing bank and other borrowings, medium term bonds, loan from an associate, loan from the ultimate holding company, loan from the immediate holding company, loan from a director and loan from non-controlling interests are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

##### *Financial guarantee contracts*

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contract at the higher of: (i) the ECL allowance determined in accordance with the policy as set out in "Impairment of financial assets"; and (ii) the amount initially recognized less, when appropriate, the cumulative amount of income recognized.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

#### Shares held under the share award scheme

The Group's own equity instruments which are reacquired (shares held under the share award scheme) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration is recognised in equity.

#### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

#### Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits which are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, which are not restricted as to use.

#### Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of each year of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in the statement of profit or loss.

The Group provides for warranties in relation to the installation and other ancillary services and the provision of the services for general repairs of defects occurring during the warranty period. Provisions for these assurance-type warranties granted by the Group are recognised based on sales volume and past experience of the level of repairs and returns, discounted to their present values as appropriate.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of each year, taking into consideration interpretations and practices prevailing in the jurisdictions in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of each year between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and, in respect of taxable temporary differences associated with investments in subsidiaries and associates and joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each year and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each year and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of each year.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to the statement of profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to the statement of profit or loss by way of a reduced depreciation charge.

#### Revenue recognition

##### *Revenue from contracts with customers*

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group with a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

##### *Sale of goods*

For sale of furniture, the performance obligation is satisfied upon delivery of the goods and payment is generally due within 30 to 180 days from delivery, except for new customers, where payment in advance is normally required. Some contracts provide customers with a right of return and volume rebates which give rise to variable consideration subject to constraint.

For trading, the performance obligation is satisfied upon delivery of the goods and payment in advance is normally required. Some contracts provide customers with a right of return and volume rebates which give rise to variable consideration subject to constraint.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Revenue recognition (Continued)

##### **Revenue from contracts with customers** (Continued)

###### *Sale of goods* (Continued)

Some contracts for the sale of industrial products provide customers with rights of return and volume rebates. The rights of return and volume rebates give rise to variable consideration.

##### (i) **Rights of return**

For contracts which provide a customer with a right to return the goods within a specified period, the expected value method is used to estimate the goods that will not be returned because this method best predicts the amount of variable consideration to which the Group will be entitled. The requirements in HKFRS 15 on constraining estimates of variable consideration are applied in order to determine the amount of variable consideration that can be included in the transaction price. For goods that are expected to be returned, a refund liability is recognised instead of revenue. A right-of-return asset (and the corresponding adjustment to cost of sales) is also recognised for the right to recover products from a customer.

##### (ii) **Volume rebates**

Retrospective volume rebates may be provided to certain customers once the quantity of products purchased during the period exceeds a threshold specified in the contract. Rebates are offset against amounts payable by the customer. To estimate the variable consideration for the expected future rebates, the most likely amount method is used for contracts with a single-volume threshold and the expected value method for contracts with more than one volume threshold. The selected method that best predicts the amount of variable consideration is primarily driven by the number of volume thresholds contained in the contract. The requirements on constraining estimates of variable consideration are applied and a refund liability for the expected future rebates is recognised.

###### *Installation and other ancillary services*

For installation and other ancillary services, the performance obligation is satisfied upon acceptance by the customer.

##### **Revenue from other sources**

Hotel revenue from room rental is recognised over time during the period of stay for the hotel guests. Revenue from food and beverage sales is generally recognised at the point in time when the services are rendered.

Rental income is recognised on a time proportion basis over the lease terms. Variable lease payments that do not depend on an index or a rate are recognised as income in the accounting period in which they are incurred.

##### **Other income**

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Licence fee income is recognised on a time proportion basis in accordance with the substance of the relevant agreements.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are subject to impairment assessment, details of which are included in the accounting policies for impairment of financial assets.

#### Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

#### Contract costs

Other than the costs which are capitalised as inventories, property, plant and equipment and intangible assets, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

- (a) The costs relate directly to a contract or to an anticipated contract that the entity can specifically identify.
- (b) The costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future.
- (c) The costs are expected to be recovered.

The capitalised contract costs are amortised and charged to the statement of profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates. Other contract costs are expensed as incurred.

#### Share-based payments

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. Further details of which are given in note 31 to the financial statements.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each year until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Share-based payments (Continued)

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

#### Other employee benefits

##### *Pension schemes*

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for all of its employees in Hong Kong. Contributions are made based on a percentage of the employees' basic salaries in accordance with the statutory limits prescribed by the Mandatory Provident Fund Schemes Ordinance and are charged to the statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

The employees of the Group's subsidiary which operates in Mainland China are required to participate in a central pension scheme operated by the local municipal government. This subsidiary is required to contribute a certain percentage of its payroll costs to the central pension scheme at the applicable rates based on the amounts stipulated by the local government organisations. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### Dividends

Dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the note 11 to the financial statements.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

#### Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional and presentation currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currencies of certain entities in the Group are currencies other than Hong Kong dollars. As at the end of the year, the assets and liabilities of these entities are translated into Hong Kong dollars at the exchange rates prevailing at the end of the year and their statements of profit or loss are translated into Hong Kong dollars at the exchange rates that approximate to those prevailing at the dates of the transactions.

## NOTES TO FINANCIAL STATEMENTS

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Foreign currencies (Continued)

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the statement of profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

### 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

#### Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which has the most significant effect on the amounts recognised in these financial statement:

#### *Property lease classification – Group as lessor*

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all the fair value of the commercial property, that it retains substantially all the significant risks and rewards incidental to ownership of these properties which are leased out and accounts for the contracts as operating leases.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

#### Judgements (Continued)

##### ***Classification between investment properties and owner-occupied properties***

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

##### ***Tax***

Determining income tax provisions requires the Group to make judgements on the future tax treatment of certain transactions. The Group carefully evaluates tax implications of transactions in accordance with prevailing tax regulations and makes tax provisions accordingly.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. Further details are contained in note 29.

##### **Estimation uncertainty**

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

#### Estimation uncertainty (Continued)

##### ***Write-down of inventories***

The write-down of inventories to net realisable value is made based on the estimated net realisable value of the inventories. The assessment of the write-down required involves management judgements and estimates. Where the actual outcome or expectation in future is different from the original estimate, such differences will have an impact on the carrying value of the inventories and the write-down/write-back of the inventories in the period in which such estimate has been changed. During the year ended 31 December 2022, reversal of write-down of inventory provision in the statement of profit or loss was HK\$38,719,000 (2021: reversal of write-down of the inventories of HK\$24,912,000). As at 31 December 2022, the carrying amount of the write-down of the inventories was HK\$22,162,000 (2021: HK\$60,881,000).

##### ***Provision for expected credit losses on trade receivables and financial assets included in prepayments, deposits and other receivables***

The Group uses a provision matrix to calculate ECLs for trade receivables and financial assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by customer type and rating). There will be different provision rates based on the type of customer.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables and financial assets included in prepayments, deposits and other receivables is disclosed in note 20 and note 21 to the financial statements, respectively.

### 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

#### Estimation uncertainty (Continued)

##### ***Estimation of fair value of investment properties***

The fair value of the investment properties was determined by reference to valuations conducted on these properties by an independent and professionally qualified valuer using property valuation techniques which involve certain assumptions of prevailing market conditions. Favourable or unfavourable changes to these assumptions may result in changes in the fair value of the Group's investment properties included in the consolidated statement of financial position and corresponding adjustments to the changes in fair value reported in the consolidated income statement.

As at 31 December 2022, the carrying amount of investment properties was HK\$680,897,000 (2021: HK\$589,704,000). Further details, including the key assumptions used for fair value measurement and a sensitivity analysis, are given in note 14 to the financial statements.

##### ***Impairment of goodwill***

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount of goodwill at 31 December 2022 was HK\$34,482,000 (2021: HK\$34,482,000). Further details are given in note 16.

##### ***Fair values of property, plant and equipment***

In the absence of current prices in an active market for similar properties, the Group considers information from a variety of sources, including: (a) current prices in an active market for properties of a different nature, condition or location, adjusted to reflect those differences; (b) recent prices of similar properties on less active markets, with adjustments to reflect any changes in economic conditions since the date of the transactions that occurred at those prices; and (c) discounted cash flow projections based on reliable estimates of future cash flows, supported by the terms of any existing lease and other contracts and (when possible) by external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows. As at 31 December 2022, the carrying amounts of the property, plant and equipment approximated to their fair values. For details, refer to note 13 to the financial statements.

### 4. OPERATING SEGMENT INFORMATION

The chief operating decision-makers mainly include executive directors of the Company. They review the Group's internal reporting in order to assess performance, allocate resources, and determine the operating segments based on these reports. Segment results are evaluated based on reportable gross profit margin.

The Group has four reportable segments as follows:

- (a) The furniture products segment, engaging in the manufacture and sale of home furniture.
- (b) The development properties for sale and property investments segment, engaging in the property investments and development.
- (c) The hotel operations segment, engaging in hotel operations.
- (d) The trading segment, engaging in the trading of aluminium ingots and bars.

#### Information about a major customer

Revenue from continuing operations of approximately HK\$413,493,000 (2021: HK\$623,235,000) was derived from sales by the trading segment from a single customer, which amounted to 10% or more of the Group's revenue during the year.

#### Geographical information

Because the majority of the Group's revenue and non-current assets were located in Mainland China, no related geographical information of revenue and non-current assets is presented.

### 5. REVENUE, OTHER INCOME AND GAINS (Continued)

#### Revenue from contracts with customers (Continued)

##### (ii) Performance obligation

Information about the Group's performance obligations is summarised below:

##### *Sale of goods*

For sales of furniture, the performance obligation is satisfied upon delivery of the goods and payment is generally due within 30 to 180 days from delivery, except for some new customers, where payment in advance is normally required. Some contracts provide customers with a right of return and volume rebates which give rise to variable consideration subject to constraint.

For trading, the performance obligation is satisfied upon delivery of the goods and payment in advance is normally required.

##### *Hotel operations income*

Hotel revenue from room rental is recognised over time during the period of stay for the hotel guests. Revenue from food and beverage sales is generally recognised at the point in time when the services are rendered.

##### *Installation and other ancillary services*

Installation and other ancillary services is recognised at a point in time of successful acceptance.

The following table shows the amount of revenue recognised in the current year that was included in the contract liabilities at the beginning of the year:

The Group's investment properties consist of two industrial properties located in Tianjin and Jiangxi Province respectively, Mainland China, which were subsequently measured at fair value. The directors of the Company have determined that the investment properties consist of one class of assets, i.e., industrial properties, based on the nature, characteristics and risk of each property. The Group's investment properties were revalued on 31 December 2022 based on the valuation by an independent valuer Kroll (HK) Limited. Each year, the Group's property manager and the chief financial officer decide to appoint which external valuer to be responsible for the external valuations of the Group's properties. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The Group's property manager and the chief financial officer have discussions with the valuer on the valuation assumptions and valuation results each year when the valuation is performed for annual financial reporting.

The investment properties are leased to third parties under operating leases, further summary details of which are included in note 15 to the financial statements.

As at 31 December 2022, the Group had pledged an investment property amounting to HK\$236,662,000 (2021: HK\$154,076,000) to obtain bank and other borrowings (note 28).

During the year, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 (2021: Nil).

Below is a summary of the valuation technique used and the key inputs to the valuation of investment properties:

| Valuation technique                               | Significant<br>unobservable inputs           | Range<br>2022     | Range<br>2021 |
|---|--|-------------------|---------------|
| Industrial properties Discounted cash flow method | Estimated rental value (per sq.m. per month) | <b>15.8–25.47</b> | 10–22.53      |
|   | Rent growth (p.a.)                           | <b>6%–11.76%</b>  | 6%–6.25%      |
|   | Long term vacancy rate                       | <b>10%–15%</b>    | 10%–12%       |
|   | Discount rate                                | <b>7%–8%</b>      | 6%–8.5%       |

Under the discounted cash flow method, fair value is estimated using assumptions regarding the benefits and liabilities of ownership over the asset's life including an exit or terminal value. This method involves the projection of a series of cash flows on a property interest. A market-derived discount rate is applied to the projected cash flow in order to establish the present value of the income stream associated with the asset. The exit yield is normally separately determined and differs from the discount rate.

The duration of the cash flows and the specific timing of inflows and outflows are determined by events such as rent reviews, lease renewal and related reletting, redevelopment or refurbishment. The appropriate duration is driven by market behaviour that is a characteristic of the class of property. The periodic cash flow is estimated as gross income less vacancy, non-recoverable expenses, collection losses, lease incentives, maintenance costs, agent and commission costs and other operating and management expenses. The series of periodic net operating income, along with an estimate of the terminal value anticipated at the end of the projection period, is then discounted.

A significant increase (decrease) in the estimated rental value and the market rent growth rate per annum in isolation would result in a significant increase (decrease) in the fair value of the investment properties. A significant increase (decrease) in the long-term vacancy rate and the discount rate in isolation would result in a significant decrease (increase) in the fair value of the investment properties. Generally, a change in the assumption made for the estimated rental value is accompanied by a directionally similar change in the rent growth per annum and the discount rate and an opposite change in the long-term vacancy rate.

### 15. LEASES

#### The Group as a lessee

The Group has lease contracts for buildings and a motor vehicle for different uses in its operations. Lump sum payments were made upfront to acquire the leased land from the owners with lease periods of 27 to 50 years, and no ongoing payments will be made under the terms of these land leases. Leases of buildings and motor vehicle generally have lease terms between 1.5 to 15 years.

### 15. LEASES (Continued)

#### The Group as a lessor

The Group leases its investment properties (note 14) under operating lease arrangements, with leases negotiated for terms mainly ranging from one to eight years. The terms of the leases generally also require the tenants to pay security deposits and provide for periodic rent adjustments according to the then prevailing market conditions.

At 31 December 2022, the Group had total future minimum lease receivables under non-cancellable operating leases with its tenants falling due as follows:

|   | 2022<br>HK\$'000 | 2021<br>HK\$'000 |

#### Impairment testing of goodwill

Goodwill acquired through business combinations is related to one of the sales of foam cash-generating units for impairment testing.

The recoverable amount of the sales of foam cash-generating unit (the "CGU") is determined based on a value-in-use calculations. These calculations use pre-tax cash flow projections based on financial budgets of the CGUs approved by management covering a five-year period. The discount rate applied to the cash flow projections is 15.2% (2021: 15.2%) and cash flows beyond the five-year period were extrapolated using a growth rate of 3% (2021: 3%).

Assumptions were used in the value in use calculation of the sales of foam cash-generating unit for 31 December 2022. The following describes each key assumption on which management has based its cash flow projections to undertake impairment testing of goodwill:

**Budgeted gross margins** – The basis used to determine the value assigned to the budgeted gross margins is the average gross margins achieved in the year immediately before the budget year, increased for expected efficiency improvements, and expected market development.

**Discount rate** – The discount rate used is before tax and reflects specific risks relating to the relevant unit.

The values assigned to the key assumptions are consistent with external information sources.

Notes:

\* The statutory financial statements of these companies for the year were not audited by Ernst & Young, Hong Kong or another member firm of the Ernst & Young global network.

<sup>^</sup> The English names of these companies represent the best effort made by the directors of the Company to directly translate their Chinese names as they do not register any official English names.

\*\* The Group directly obtained a 50% equity interest in Fuyue Design. The Group considers that it could only exercise significant influence in the strategic financial and operating policy decisions of Fuyue Design after the injection even though it directly owns 50% of the equity interest in Fuyue Design because the Group owns less than 50% of the voting rights and can only exercise significant influence over Fuyue Design.

At 31 December 2022, the Group's inventories with a carrying amount of HK\$7,973,000 (2021: HK\$27,244,000) were pledged as security for the Group's other borrowings, as further detailed in note 28 to the financial statements.

### 20. TRADE RECEIVABLES

|                   | 2022<br>HK\$'000 | 2021<br>HK\$'000 |
|-------------------|------------------|------------------|
| Trade receivables | 236,202          | 204,030          |
| Impairment        | (7,457)          | (16,968)         |
|                   | <b>228,745</b>   | 187,062          |

Trade receivables are mainly from hotel operations and sales of goods including furniture and trading. For sales of furniture, the Group's trading terms with its customers are mainly on credit, except for some new customers, where payment in advance is normally required. The credit period is generally 30 to 180 days. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables. For hotel operations and trading, payment is generally received in advance. Overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivables balance. Trade receivables are non-interest-bearing.

The trade receivables of HK\$55,176,000 (2021: HK\$54,794,000) which are due from related parties are unsecured, interest-free and repayable on demand.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of provision, is as follows:

|                | 2022<br>HK\$'000 | 2021<br>HK\$'000 |
|----------------|------------------|------------------|

### 20. TRADE RECEIVABLES (Continued)

The movements in loss allowance for impairment of trade receivables are as follows:

|                                     | 2022<br>HK\$'000 | 2021<br>HK\$'000 |
|-------------------------------------|------------------|------------------|
| At beginning of year                | 16,968           | 9,245            |
| Impairment loss, net                | (874)            | 7,587            |

| At end of year                      | 7,457            | 16,968           |

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., customer type and rating). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written off if past due for more than 180 days and are not subject to enforcement activity.

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix:

|                                   | Current | Past due            |             |

|   | <b>376,432</b>   | 450,705          |

\* The prepayments for the acquisition as at 31 December 2022 were mainly related to two parts, (a) the prepayment of HK\$45,272,000 for the acquisition of a 100% interest in a company from an independent third party individual, (b) the prepayment of HK\$63,382,000 for the acquisition of a 50% interest in a company from an independent third party individual.

\*\* The prepayment of HK\$16,411,000 for the acquisition of a 25% interest in a company from a non-controllings interest.

Deposits and other receivables under current assets mainly represent rental deposits and deposits with suppliers. As at 31 December 2022, expected credit losses were estimated by applying a loss rate approach with reference to the historical loss record of the Group. The loss rate is adjusted to reflect the current conditions and forecasts of future economic conditions, as appropriate. The loss rate applied as at 31 December 2022 ranged from 0.1% to 100% (2021: 0.1% to 100%).

### 22. CONTRACT ASSETS

|  | 2022<br>HK\$'000 | 2021<br>HK\$'000 |
|--|------------------|------------------|
| Contract assets arising from:<br>Installation and other ancillary services | 17,075           | 1,791            |
| Impairment   | (240)            | –                |
|  | <b>16,835</b>    | 1,791            |
| Analysed into:   |                  |                  |
| Current portion  | 2,274            | 114              |
| Non-current portion  | 14,561           | 1,677            |

As at 31 December 2021, the loss allowance was assessed to be minimal.

Contract assets are initially recognised for revenue earned from sale of goods as the receipt of consideration is conditional on the successful acceptance by the customers. Upon completion of the contracts and acceptance by the customer, the amounts recognised as contract assets are reclassified to trade receivables.

### 23. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

|                                      | 2022<br>HK\$'000 | 2021<br>HK\$'000 |
|--------------------------------------|------------------|------------------|
| Contingent consideration receivables | 5,408            | 10,481           |

The amount represents the fair value of receivables if the net profits of an associate cannot achieve the base profit target for the year ended 31 December 2022. The contingent consideration receivables constitutes a derivative within the scope of HKFRS 9, and is recognised at its fair value as asset on initial recognition and is subsequently remeasured at fair value with changes in fair value recognised in profit or loss.

The fair value of contingent consideration receivables as at 31 December 2022 was determined based on the valuation performed by an independent professional valuer not connected with the Group. Details of the fair value disclosure are set out in note 39 to the financial statements.

| Cash and cash equivalents     | <b>403,863</b>   | 146,453          |

At the end of the reporting period, the cash and bank balances and time deposits of the Group denominated in Renminbi (“RMB”) amounted to HK\$540,571,000 (2021: HK\$947,324,000). The RMB is not freely convertible into other currencies, however, under Mainland China’s Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorized to conduct foreign exchange business.

As at 31 December 2022, time deposits amounting to HK\$168,640,000 (2021: HK\$735,561,000) was pledged for bank and other borrowings (note 28), HK\$640,000 (2021: nil) was pledged for advance payment guarantee and HK\$76,743,000 (2021: HK\$83,113,000) has been frozen following a court order (note 26).

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short-term time deposits are made for varying periods of between one day and three months depending on the immediate cash requirements of the Group, and the Group earns interest at the respective short-term time deposit rates. The bank balances and restricted cash are deposited with creditworthy banks with no recent history of default.

### 25. TRADE PAYABLES

An ageing analysis of the trade payables as at the end of the reporting period, based on the invoice date, is as follows:

|                  | 2022<br>HK\$'000 | 2021<br>HK\$'000 |
|------------------|------------------|------------------|

| Other payables       | 98,174           | 83,875           |
| Lease liabilities    | 16,281           | 25,303           |
| Accruals*            | 46,426           | 11,385           |
|                      | <b>198,548</b>   | 153,908          |

\* Certain subsidiaries of the Group are currently defendants in a lawsuit brought by an independent third-party lessee alleging that a warehouse built on a leased land by the lessee was tore down by the subsidiaries without consent of termination of the lease contract by the lessee. In June 2022, the court made the first instance verdict and the management made the provision of HK\$41,274,000 based on their best estimates, which was accounted in the provision for estimated loss from legal proceedings included in the accruals. As at 31 December 2022, the bank deposit of HK\$76,743,000 has been frozen following a court order.

### 27. MEDIUM TERM BONDS

On 5 February 2016, the Company established a medium-term bond programme with a nominal value of HK\$10,000,000 each. As at 31 December 2022, the Company has issued the medium-term bonds (the "Bonds") with a principal amount in aggregate of HK\$700,000,000. The Bonds are non-callable until 5 February 2025 and non-puttable until 5 February 2020. Interest on the outstanding bonds will be payable annually in arrears at the nominal interest rate of 0.1% per annum first payable on 5 February 2018 and last payable on 5 February 2063 and will mature on 5 February 2064. The Bonds were amortised at the effective interest method by applying the effective interest rate ranging from 8.01% to 8.86% per annum.

The fair value of the medium-term bonds was estimated at the issuance date by discounting the expected future cash flows using an equivalent market interest rate for a similar bond taking into consideration the Group's own credit and liquidity risk.

The medium-term bonds recognised in the statement of financial position were calculated as follows:

|                                | 2022<br>HK\$'000 | 2021<br>HK\$'000 |

At 31 December 2022, no deferred tax has been recognised for withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Group's subsidiaries established in Mainland China. In the opinion of the directors, it is not probable that these subsidiaries will distribute such earnings in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised totalled approximately HK\$625,319,000 at 31 December 2022 (2021: HK\$888,901,000).

During the year, the Group had adjusted the deferred tax liabilities due to a change in estimation of previously land resumption amounting to HK\$68,964,000 (2021: Nil).

During the year, the Group had non-cash transactions in the decrease of land resumption due from the government and defer tax liabilities of HK\$137,097,000 (2021: Nil).

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 31. SHARE OPTION SCHEME

The Company operates a share option scheme in order to advance the interests of the Company and shareholders by enabling the Company to grant options to attract, retain and reward the eligible participants. The share option scheme was expired on 17 May 2022. No options were granted during the period and there were no outstanding options as at 31 December 2022 (31 December 2021: Nil).

The maximum number of shares in respect of which options may be granted under the Scheme and under any other share option schemes of the Company pursuant to which options may be granted to directors, consultants and/or employees of any company in the Group, shall initially not exceed 10% of the relevant class of securities of the Company in issue excluding, for this purpose, shares issued on exercise of options under the Scheme and any other share option schemes of the Company. Upon the grant of options for shares up to 10% of the relevant class of securities of the Company and subject to the approval of the shareholders of the Company in general meetings, the maximum number of shares to be issued under the Scheme when aggregated with securities to be issued under any other share option schemes of the Group may be increased by the board of directors, provided that the shares to be issued upon exercise of all outstanding options do not exceed 30% of the relevant class of securities in issue.

No option may be granted to any one person such that the total number of shares issued and to be issued upon the exercise of options granted and to be granted to such person in any 12-month period up to the date of the latest grant exceeds 1% of the issued share capital of the Company.

The offer of a grant of share options may be accepted within eight days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determined by the directors, and commences after a certain vesting period and ends on a date which is not later than 10 years from the date of offer of the share options or the expiry date of the Scheme, if earlier.

An option may be exercised in accordance with the terms of the Scheme at any time during the option period (and not more than 10 years after the date of grant). The option period will be determined by the board of directors and communicated to each grantee.

The board of directors may provide restrictions on the time during which the options may be exercised. There are no performance targets which must be achieved before any of the options can be exercised. However, the board of directors retains its discretion to accelerate the vesting of the fixed term options in the event that certain performance targets are met.

The subscription price for the Company's shares under the Scheme will be a price determined by the board of directors and notified to each grantee. The subscription price will be the highest of: (i) the nominal value of a share; and (ii) the closing price of the shares as stated in the Stock Exchange's daily quotation sheet on the date of grant, which must be a trading day; and (iii) the average of the closing prices of the shares as stated in the Stock Exchange's daily quotation sheets for the five trading days immediately preceding the date of grant. An option shall be deemed to have been granted and accepted by an eligible participant (as defined in the Scheme) and to have taken effect when the acceptance form as described in the Scheme is completed, signed and returned by the grantee with a remittance in favour of the Company of HK\$1 by way of consideration for the grant.

Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings.

There were no share options outstanding as at the end of the reporting period (2021: Nil).

No share option expense was recognised by the Group during the year ended 31 December 2022 (2021: Nil).

At the date of approval of these financial statements, the Company had no share options outstanding under the Scheme.

### 35. CONTINGENT LIABILITIES

At the end of the reporting period, contingent liabilities not provided for in the financial statements were as follows:

|   | 2022<br>HK\$'000 | 2021<br>HK\$'000 |
|---|------------------|------------------|
| Guarantees given to banks in connection with facilities granted to an associate | 362,179          | 392,237          |

During the year, the Group has pledged 40% equity interest in an associate Gangke to secure general banking facilities granted to Gangke. In the opinion of the directors, the fair value of the guarantees at initial recognition and the ECL allowance are not significant.

### 36. COMMITMENTS

The Group had the following capital commitments at the end of the reporting period:

|                                   | 2022<br>HK\$'000 | 2021<br>HK\$'000 |

### 39. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The carrying amounts and fair values of the Group's financial instruments, other than those with carrying amounts that reasonably approximate to fair values, are as follows:

|                   | Carrying amounts |                  | Fair values      |                  |
|-------------------|------------------|------------------|------------------|------------------|
|                   | 2022<br>HK\$'000 | 2021<br>HK\$'000 | 2022<br>HK\$'000 | 2021<br>HK\$'000 |
| Medium term bonds | <b>38,768</b>    | 36,338           | <b>38,069</b>    | 35,753           |

Management has assessed that the fair values of cash and cash equivalents including restricted cash, trade receivables, trade payables, financial assets included in prepayments, deposits and other receivables, financial liabilities included in other payables and accruals, and the current portion of interest-bearing bank and other borrowings, a loan from an associate, a loan from the immediate holding company, a loan from non-controlling interests and a loan from a director approximate to their carrying amounts largely due to the short-term maturities of these instruments.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of the non-current portion of interest-bearing bank and other borrowing, a loan from non-controlling interests, a loan from the immediate holding company and lease liabilities have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The changes in fair value as a result of the Group's own non-performance risk for the interest-bearing bank and other borrowings as at 31 December 2022 were assessed to be insignificant.

As at 31 December 2021 and 2022, the carrying amount of the Group's financial assets and financial liabilities approximated to their fair values.

### 39. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (Continued)

Below is a summary of significant unobservable input to the valuation of financial instruments together with a quantitative sensitivity analysis as at 31 December 2022 and 2021:

|  | Valuation technique                | Significant unobservable input | Weighted average      | Sensitivity of fair value to the input  |

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk.

The Group does not have written risk management policies and guidelines. However, management meets periodically to analyse and formulate measures to manage the Group's exposure to financial risks. Generally, the Group employs a conservative strategy regarding its risk management.

#### (i) Interest rate risk

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in interest rate, with all other variables held constant, of the Group's profit before tax and the Group's equity.

#### 2022

\* Excluding retained profits

#### (ii) Foreign currency risk

The Group has transactional currency exposures. These exposures arise from sales or purchases by operating units in currencies other than the units' functional currencies. Approximately 0.8% (2021: 1.3%) of the Group's sales are denominated in currencies other than the functional currencies of the operating units making the sale, whilst almost 100% (2021: 100%) of costs are denominated in the units' functional currencies. The Group does not use any forward currency contracts to eliminate the foreign currency exposures and the Group does not enter into any hedge derivatives.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

#### (iii) Credit risk

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant. For transactions that are not denominated in the functional currency of the relevant operating unit, the Group does not offer credit terms without the specific approval of the head of credit control.

The credit risk of the Group's other financial assets, which comprise cash and cash equivalents, financial assets included in prepayments, deposits and other receivables, amounts due from associates and restricted cash arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

Since the Group trades only with recognised and creditworthy third parties, there is no requirement for collateral. Concentrations of credit risk are managed by customer. There are no significant concentrations of credit risk within the Group as the customer bases of the Group's trade receivables are widely dispersed across different sectors.

Further quantitative data in respect of the Group's exposure to credit risk arising from trade receivables and financial assets included in prepayments, deposits and other receivables are disclosed in notes 20 and 21 to the financial statements, respectively.

#### (iv) Liquidity risk

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial instruments and financial assets (e.g., trade receivables) and projected cash flows from operations.

The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on the contractual undiscounted payments, was as follows:

|  | 2022                     |                                   |                              | Total<br>HK\$'000 |

#### (v) Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2022 and 2021.

## NOTES TO FINANCIAL STATEMENTS

31 December 2022

### 40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

#### (v) Capital management (Continued)

The Group monitors capital using a gearing ratio, which is net debt divided by capital plus net debt. Net debt includes trade payables, other payables and accruals, medium term bonds, interest-bearing bank and other borrowings, a loan from an associate, a loan from the ultimate holding company, a loan from the immediate holding company, a loan from non-controlling interests and a loan from a director, less cash and cash equivalents. Capital represents equity attributable to owners of the parent. The gearing ratios as at the end of the reporting periods were as follows:

|   | 2022<br>HK\$'000 | 2021<br>HK\$'000 |
|---|------------------|------------------|
| Trade payables                              | 142,833          | 106,199          |
