Chairman's Statement

To all shareholders:

On behalf of the board (the “**Board**”) of directors (the “**Directors**”), I am pleased to present to you the annual results of LH Group Limited (the “**Company**”), together with its subsidiaries (the “**Group**” or “**we**”, “**us**” or “**our**”), for the year ended 31 December 2022.

Considering the fifth wave outbreak of the pandemic in Hong Kong in early 2022, the Hong Kong Government imposed stringent dine-in restrictions and social distancing measures, leading to a temporary closure of the Group's restaurants during that time. Since the social distancing measures began to relax in late April 2022, the industry has been adjusting to the new market norm and with the continuous support from our customers, the Group demonstrated strong resilience and agility during the months when social distancing measures started to gradually relax. Meanwhile, the Group's brand had proven its market appeal with our turnover rebounded rapidly and offset the losses incurred at the beginning of the year.

Apart from our customers' support, we would also like to thank all of our employees for their concerted effort. Meanwhile, the Hong Kong Government offered timely assistance to affected local industries during the most dire moments in the business environment through relief measures, including the Anti-Epidemic Fund and the Employment Support Scheme, which helped reduce the burdens bore by the catering industry and the Group in difficult months.

MULTI-BRAND STRATEGY

We strive to carry out an effective multi-brand strategy to achieve the goal of providing customers with value-for-money delicacies and dining experiences through different brands. We have always believed in the philosophy of crisis create opportunities. Despite the negative impact of the COVID-19 pandemic, our determination for business expansion is not compromised. During the year, the Group actively identified business opportunities and actualized new shop opening plans, laying a sound foundation for our future revenue growth. In 2022, the Group opened nine new restaurants in total, including six restaurants under the franchised cafe brand “The Matcha Tokyo” from Tokyo, Japan, and a brand-new self-owned Taiwanese hotpot brand “#HAP Taiwanese Hotpot (好呷台灣火鍋)”, to provide a more diverse dining experience to customers. We operated 53 restaurant outlets by the end of 2022.

In 2023, we will continue to accelerate the process of identifying strategic locations to set up new shops under different brands, aiming to attract customers with different catering needs. Combined with strategies and actions both in place, we will consolidate our market position and actively expand our business and brand portfolio.

TECHNOLOGY APPLICATION

The Group's management has been actively leveraging the changes and applications brought about by the development of technology in the industry. We hope to facilitate our customers by using new technologies to enrich their dining experiences while boosting the operational efficiency of the Group's restaurant outlets. In particular, the Group has taken initiatives to combine efforts of robots and front-line staff at our restaurants, use of mobile phone ordering, comprehensive application of automatic dishwashers and other automated facilities under the backdrop of labour shortage. Recently, with the rapid development of artificial intelligence (AI), it is believed that a wider range of new technology will be applied to the Group's management and restaurant operation in the near future.

LOOKING AHEAD TO 2023

As the spread of the COVID-19 pandemic subsides worldwide, the recovery of global economy and cross-border economic activities have been accelerated. Hong Kong has fully opened its borders with Mainland China in February 2023 and lifted the "mask mandate" in March 2023, paving its way for return to normality. The daily lives of citizens have returned to normal, driven a further improvement in consumer sentiments. Despite the economy in Hong Kong is gradually recovering, challenges still persist. For instances, inflation and geopolitical risk altogether bring pressure to the global economic activities. For catering industry, the pandemic changes dining habits of the public and the industry is facing a critical challenge of shortage of labour. The Group will closely monitor the market changes and respond to challenges with agility. We will also continuously boost our level of standards and increase competitiveness.

While facing the difficult business environment, we are still optimistic about the industry development. The Hong Kong Government will implement a new round of consumption voucher scheme in April 2023. We expect that consumer sentiments will be boosted further, which may act as the catalyst for accelerating the recovery in the local consumption market. On the other hand, the Hong Kong Government has launched a "Hello Hong Kong" Campaign to actively promote tourism in Hong Kong. Through giveaways of flight tickets and visitor consumption vouchers, together with various major events, such as exhibitions and international conferences, to be held in Hong Kong, it is believed that more tourists and business travellers will be attracted to visit and spend in Hong Kong. Such campaign is expected to drive the Group's business growth in the second half of 2023.

In addition, the Group has appointed Mr. Luk Ernest Man Chung as the Group's Chief Executive (Food & Beverage) with effect from December 2022, as part of the Group's effort to establish a professional management team to better plan for the next stage of business growth.

In 2023, the Group is entering into a new stage of development. We will proactively rejuvenate the existing brands, develop and introduce new brands, expand our restaurants network, while further institutionalizing our workflow, strengthening digital marketing, continuing to launch innovative products and promoting a balanced development among all brands of the Group, which in turn will accelerate our business growth and secure our leading market position. We expect to achieve further growth and create value for shareholders under the resumed business environment.

Chairman's Statement

With the return to post-pandemic normality together with a strengthened management team and balance sheet, the Group is focused on investing in the future. We are constantly reviewing our organic growth and investment opportunities as well as our dividend strategy to ensure the Group is best positioned for future growth in the longer term.

DIVIDEND

The Group overcame various challenges during the year and achieved outstanding business performance. We wish to share the fruitful results with all Shareholders. After considering the economic outlook and financial position of the Group, the Group hopes to share the results with all the Shareholders. The Directors recommended the payment of a final dividend of HK7.77 cents per share for the year ended 31 December 2022 (2021: HK6.05 cents per share), subject to the Shareholders' approval, and the dividend payout ratio was approximately 80% in 2022.

APPRECIATION AND BLESSINGS

On behalf of the Board, I would like to express my sincere gratitude and appreciation to the staff of the Group for their dedication and efforts throughout the year. I would also like to thank our customers, vendors, landlords and those persons in charge from professional parties for their continuous and unreserved support to tide over the difficulties together with the Group during these difficult times. To our shareholders, I am grateful for your support and trust in the Group.

I wish you all the best of health and good fortune.

Management Discussion and Analysis

Considering the fifth wave outbreak of the pandemic in Hong Kong in early 2022, the Hong Kong Government imposed stringent dine-in restrictions and social distancing measures, leading to a temporary closure of the Group's restaurants during that time. Since the social distancing measures began to relax in late April 2022, the Group showed strong resilience and agility, which led to a rapid recoup of the revenue for the Group. This not only offset the losses recorded in the first quarter of 2022 but also successfully generated an overall profit in adversity for the year 2022, with profit surged from approximately HK\$6.8 million as recorded in interim results for the first half of 2022 to approximately HK\$77.7 million for the year 2022.

Although no revenue were generated from dine-in dinner for almost four months in 2022, the Group's revenue recorded an increase by approximately 6.5% or approximately HK\$65.2 million to approximately HK\$1 billion for the year 2022 as compared to the year 2021. Restaurants revenue for the second half of 2022 was almost at par with the pre-pandemic level of corresponding period of 2018. Excluding significant incidental items i.e. government grants and subsidies, net gains from lease modification and provision for impairment of property, plant and equipment, right-of-use assets and intangible assets, the core profit before tax from operations for the second half of 2022 was approximately HK\$84.4 million, representing an increase by approximately 22.1% from approximately HK\$69.1 million for the second half of 2021, demonstrating a significant improvement in the profitability of the Group.

BUSINESS REVIEW

As at 31 December 2022, the Group operated 16 restaurants under self-owned brands "Mou Mou Club (牛涮鍋)", "Peace Cuisine (和平飯店)", "Wing Wah Allday (永華日常)", "Pot Master (煲仔王)" and "#HAP Taiwanese Hotpot (好呷台灣火鍋)", and 37 restaurants under franchised brands, "Gyu-Kaku (牛角)", "Gyu-Kaku Jinan-Bou (牛角次男坊)", "On-Yasai (溫野菜)" and "The Matcha Tokyo", which serve quality, value-for-money delicacies to diversified customer segments seeking a wide array of culinary experiences. We pride ourselves in the extensive market coverage of our brand portfolio, which allows us to tap into customer segments spanning across mid-to-high end markets to mass market with different culinary preferences.

The following table sets forth the number of restaurants we operated as at the dates indicated.

	As at 31 December	
	2022	2021
Self-owned brands	16	15
Franchised brands	37	30
Total	53	45

FINANCIAL REVIEW

Revenue

In early 2022, there was an outbreak of the fifth wave of COVID-19 in Hong Kong (the “pandemic”) and implementation of stricter dine-in restrictions and social distancing measures by the Hong Kong Government which caused a negative impact on the Group’s business. The operation of the Group’s restaurants was also suspended temporarily due to the deteriorating pandemic situation in early 2022, which led to a drop in the Group’s revenue in the first quarter of 2022. Since the social distancing measures began to relax in late April 2022, the Group showed strong resilience and agility in recouping its revenue for the remaining period of the year ended 31 December 2022.

The Group’s revenue increased by approximately 6.5%, or approximately HK\$65.2 million, from approximately HK\$997.9 million for the year ended 31 December 2021 to approximately HK\$1,063.2 million for the year ended 31 December 2022 amid the adversity.

The revenue from franchised brands increased by approximately HK\$60.6 million or approximately 8.4%, from approximately HK\$724.3 million for the year ended 31 December 2021 to approximately HK\$784.9 million for the year ended 31 December 2022. The increase in revenue was attributable to the increase in the number of restaurants under franchised brands from 30 as at 31 December 2021 to 37 as at 31 December 2022. The increase in revenue base and comparable restaurants revenue for the second half of 2022 was almost at par level with the same period of 2021. Franchised brands remained as the main pillar of revenue, constituting approximately 73.8% of the total revenue of the Group for the year ended 31 December 2022 (2021: 72.6%).

The revenue from self-owned brands increased slightly by approximately HK\$3.6 million or approximately 1.4%, from approximately HK\$269.3 million for the year ended 31 December 2021 to approximately HK\$273.0 million for the year ended 31 December 2022.

Revenue by business segments is set out below:

	For the year ended 31 December			
	2022		2021	
	Revenue HK\$'000	% of total Revenue (%)	Revenue HK\$'000	% of total Revenue (%)
Self-owned brands	272,950	25.7	269,310	27.0
Franchised brands	784,898	73.8	724,259	72.6
Sub-total of restaurant operations	1,057,848	99.5	993,569	99.6
Sale of food ingredients and others	5,311	0.5	4,350	0.4
Total	1,063,159	100.0	997,919	100.0

Other income and gains

The Group's other income and gains decreased by approximately 19.5%, or approximately HK\$5.6 million, from approximately HK\$28.8 million for the year ended 31 December 2021 to approximately HK\$23.2 million for the year ended 31 December 2022.

The decrease was mainly due to (i) a decrease in net gains from lease modification of approximately HK\$9.0 million recorded for the year ended 31 December 2021, while there was no such gain for the year ended 31 December 2022; (ii) a decrease in sponsorship income by approximately HK\$1.7 million from approximately HK\$2.4 million for the year ended 31 December 2021 to approximately HK\$0.7 million for the year ended 31 December 2022; which was offset by (iii) an increase in government subsidies of approximately HK\$8.1 million from approximately HK\$9.9 million for the year ended 31 December 2021 to approximately HK\$18.0 million for the year ended 31 December 2022.

Cost of food and beverages

The Group's cost of food and beverages increased by approximately 6.6%, or approximately HK\$20.7 million, from approximately HK\$314.2 million for the year ended 31 December 2021 to approximately HK\$334.8 million for the year ended 31 December 2022. The increase was in line with the increase in revenue during the year ended 31 December 2022.

Despite the overall increase in the prices for food in the global supply chain, the Group managed to control the food costs through making bulk purchases, closely monitoring the prices and switching to similar or higher quality alternatives. As a result, the cost of food and beverages as a percentage of revenue is steadily maintained at approximately 31.5% for both years ended 31 December 2022 and 2021.

Staff costs

The Group's staff costs increased by approximately 1.5%, or approximately HK\$4.3 million, from approximately HK\$292.5 million for the year ended 31 December 2021 to approximately HK\$296.8 million for the year ended 31 December 2022. Such increase was mainly due to the increase in number of staff, although partially offset by the wage subsidies of approximately HK\$29.7 million (2021: nil) from the Employment Support Scheme under the Anti-Epidemic Fund launched by the Hong Kong Government for the year ended 31 December 2022. The staff costs as a percentage of revenue decreased to approximately 27.9% for the year ended 31 December 2022 (2021: 29.3%).

Depreciation of right-of-use assets, rental and related expenses

The Group's depreciation of right-of-use assets, rental and related expenses increased by approximately 15.7%, or approximately HK\$23.2 million, from approximately HK\$147.9 million for the year ended 31 December 2021 to approximately HK\$171.1 million for the year ended 31 December 2022. The increase in expenses was mainly due to the increase in the number of restaurants from 45 as at 31 December 2021 to 53 as at 31 December 2022.

Profit for the year

As a result of the foregoing, profit for the year ended 31 December 2022 decreased by approximately 13.7%, or approximately HK\$12.4 million, from approximately HK\$90.1 million for the year ended 31 December 2021 to approximately HK\$77.7 million for the year ended 31 December 2022. Such decrease was mainly due to the provision for impairment of property, plant and equipment, right-of-use assets and intangible assets with a total amount of approximately HK\$11.3 million (2021: approximately HK\$3.8 million) for certain underperforming shops.

LIQUIDITY AND FINANCIAL RESOURCES AND CAPITAL STRUCTURE

The Group financed its business with internally generated cash flows and capital contributions from the Shareholders of the Company. As at 31 December 2022, the Group had short term bank deposits of approximately HK\$145.5 million (2021: approximately HK\$83.4 million) and cash and cash equivalents of approximately HK\$196.5 million (2021: approximately HK\$241.9 million). Most bank deposits and cash were denominated in Hong Kong dollar. The Group will continue to use the internal generated cash flows and capital contributions from the Shareholders of the Company as a source of funding for future developments.

As at 31 December 2022, the Group's total current assets and current liabilities were approximately HK\$428.2 million (2021: approximately HK\$415.7 million) and approximately HK\$288.1 million (2021: approximately HK\$290.3 million) respectively, while the current ratio was about 1.5 times (2021: about 1.4 times).

As at 31 December 2022, the gearing ratio of the Group was nil (2021: nil) as it had no outstanding interest-bearing bank borrowings. The gearing ratio equals total interest-bearing bank borrowings divided by total equity and multiplied by 100%.

There has been no change in the capital structure of the Company during the year ended 31 December 2022.

SIGNIFICANT INVESTMENTS

As at 31 December 2022, the Group did not hold any significant investments.

MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

The Group has no material acquisition or disposal of subsidiaries, associates or joint ventures during the year ended 31 December 2022.

PLEDGE OF ASSETS

As at 31 December 2022, the Group did not pledge any its assets.

EVENTS AFTER THE REPORTING YEAR

No significant events occurred since the end of the year ended 31 December 2022 and up to the date of this report which requires disclosure.

EMPLOYEES AND REMUNERATION POLICIES

As at 31 December 2022, the Group had 1,768 employees (2021: 1,499 employees). The Group has developed its human resources policy that the remuneration of the employees is determined by reference to prevailing market terms and in accordance with the performance, qualification and experience of each individual employee. The remuneration of individual employee is reviewed regularly with reference to the employee's performance and qualifications.

The emoluments of the Directors are recommended by the remuneration committee of the Company, with reference to their respective contribution of time, effort and expertise on the Company's matters. The Company has adopted a share option scheme (the "**Share Option Scheme**") on 4 May 2018 to reward the participants defined thereunder for their contribution to the Group's success and to provide them with incentives to further contribute to the Group. The Share Option Scheme has become effective on 30 May 2018. In addition, employees are entitled to performance and discretionary Chinese New Year bonuses. The Group would provide induction trainings for new employees and continuous trainings to existing employees regularly.

SHARE OPTION SCHEME

No share option was granted during the year ended 31 December 2022. Since the date of adoption of the Share Option Scheme and up to 31 December 2022, the Company had not granted any share option under the Share Option Scheme and had no outstanding share option under the Share Option Scheme.

FOREIGN EXCHANGE EXPOSURE

Most of the transactions of the Group are denominated in Hong Kong dollars and the Group is not exposed to any significant foreign exchange exposure. As at 31 December 2022, the Group did not have any foreign exchange investment and did not engage in any currency hedging transactions or enter into any hedging instruments.

CONTINGENT LIABILITIES

As at 31 December 2022, the Group did not have any material contingent liabilities.

OFF-BALANCE SHEET COMMITMENTS AND ARRANGEMENT

As at the date of this report, the Group had not entered into any off-balance sheet transactions and had no capital commitments or any specific plans for material investments or capital assets as at 31 December 2022.

PROSPECTS

As the spread of the COVID-19 pandemic subsides worldwide, the recovery of global economy and cross-border economic activities have been accelerated. Hong Kong has fully opened its borders with Mainland China in February 2023 and lifted the “mask mandate” in March 2023, paving its way for return to normality. The daily lives of citizens have returned to normal, driven a further improvement in consumer sentiments. Despite the economy in Hong Kong is gradually recovering, challenges still persist. For instances, inflation and geopolitical risk altogether bring pressure to the global economic activities. For catering industry, the pandemic changes dining habits of the public and the industry is facing a critical challenge of shortage of labour. The Group will closely monitor the market changes and respond to challenges with agility. We will also continuously boost our level of standards and increase competitiveness. In addition, we have introduced robots and mobile phone ordering to ease the burden of our staff.

While facing the difficult business environment, we are still optimistic about the industry development. The Hong Kong Government will implement a new round of consumption voucher scheme in April 2023. We expect that consumer sentiments will be boosted further, which may act as the catalyst for accelerating the recovery in the local consumption market. On the other hand, the Hong Kong Government has launched a “Hello Hong Kong” Campaign to actively promote tourism in Hong Kong. Through giveaways of flight tickets and visitor consumption vouchers, together with various major events, such as exhibitions and international conferences, to be held in Hong Kong, it is believed that more tourists and business travellers will be attracted to visit and spend in Hong Kong. Such campaign is expected to drive the Group’s business growth in the second half of 2023.

Although the business environment was uncertain because of the past pandemic, the Group has been proactively identifying and seizing each opportunity to grow. The number of restaurants increased rapidly from 38 prior to the outbreak of the pandemic at the end of 2019 to 53 by the end of 2022, carving a path for our future income growth. In 2022, the Group opened nine new restaurants in total, including six restaurants under the franchised cafe brand “The Matcha Tokyo” from Tokyo, Japan, and a brand-new self-owned Taiwanese hotpot brand “#HAP Taiwanese Hotpot (好呷台灣火鍋)”, to provide a more diverse dining experience to customers. Despite investments in the above new brands are still at an early stage, we expect a steady growth in revenue from these new brands. In addition, the Group has appointed Mr. Luk Ernest Man Chung as the Group’s Chief Executive (Food & Beverage) with effect from December 2022, as part of the Group’s effort establishing a professional management team to better plan for the next stage of business growth.

In 2023, the Group is entering into a new stage of development. We will proactively rejuvenate the existing brands, develop and introduce new brands, expand our restaurants network, while further institutionalizing our workflow, strengthening digital marketing, continuing to launch innovative products and promoting a balanced development among all brands of the Group, which in turn will accelerate our business growth and secure our leading market position. We expect to achieve further growth under the resumed business environment.

With the return to post-pandemic normality together with a strengthened management team and balance sheet, the Group is focused on investing in the future. We are constantly reviewing our organic growth and investment opportunities as well as our dividend strategy to ensure the Group is best positioned for future growth in the longer term.

Report of the Directors

The Directors present their report together with the audited financial statements of the Group for the year ended 31 December 2022 (the “**Reporting Year**”).

PRINCIPAL ACTIVITIES

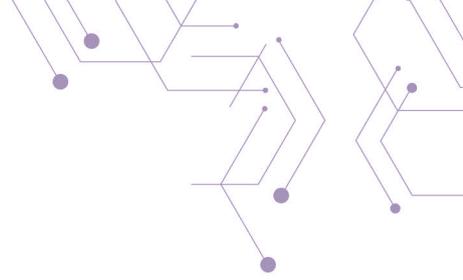

The principal activity of the Company is investment holding. Its subsidiaries are principally engaged as full-service restaurants operator serving Asian cuisine including Japanese, Korean, Cantonese and Shanghainese cuisine in Hong Kong. Details of the principal activities of the Company’s major subsidiaries are set out in Note 31 to the financial statements.

BUSINESS REVIEW

The detailed business review of the Group’s performance for the Reporting Year with analysis using financial key performance indicators is set out on “Management Discussion and Analysis” section in this report.

There are certain risks involved in the Group’s operations, which may affect our business and results of operations.

- (i) The limited choices of commercially attractive locations, failure to renew existing leases, breach of lease agreements, or increase in rental expenses;
- (ii) We may not be able to implement and manage our growth strategies effectively;
- (iii) Uncertainties on obtaining or renewing the licenses and permits for our operations for factors beyond our control;
- (iv) Opening new restaurants could result in fluctuations in our financial performance, and sales of our existing restaurants may be negatively affected if new restaurants are opened nearby;
- (v) The Group’s success depends substantially on the market recognition of our brands, and any damage to our brands could materially affect our business and results of operations;
- (vi) If there is any adverse incident associated with the quality of food and services or if the hygiene standards of our restaurants fall below the relevant statutory requirements, our restaurant business and reputation could be affected;
- (vii) The operations are susceptible to fluctuation in the supply, quality or costs of food ingredients; and
- (viii) Difficulties in recruitment and retention of employees.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE (“ESG”) POLICIES AND PERFORMANCES

The Group is committed to building a sustainable future. It assesses the materiality of various ESG issues and takes measures to control the environmental and social impacts during operations. All businesses are required to comply with all applicable ESG laws and regulations strictly. The Group strives to minimize its environmental impacts through effective air emissions control, enhancing water and energy efficiency, proper waste management and resources conservation. The Group also puts effort into creating positive social impacts by protecting labour right and maintaining integrity. Discussion on the Group’s ESG initiatives, performance and applicable ESG laws and regulations can be found in the ESG Report on pages 51 to 88 of this report.

COMPLIANCE WITH LAWS AND REGULATIONS

As far as the Board is aware, the Group has in all material aspects complied with the relevant laws and regulations that may cause a significant impact on the business and operation of the Group during the Reporting Year.

RESULTS AND DIVIDENDS

The results of the Group for the Reporting Year and the state of affairs of the Group are set out in the consolidated financial statements on pages 94 to 162 of this report.

After considering the economic outlook and financial position of the Group, the Group hopes to share the results with all the Shareholders. The Directors recommended the payment of a final dividend of HK7.77 cents per share for the year ended 31 December 2022 (2021: HK6.05 cents per share), subject to the Shareholders’ approval at the AGM. The dividend payout ratio was approximately 80%. If the resolution for the proposed final dividend is passed at the AGM, the proposed final dividend will be payable on or around Tuesday, 27 June 2023.

Details of dividends for the Reporting Year are set out in Note 11 to the financial statements.

DIVIDEND POLICY

The Company has adopted a dividend policy for declaration and payment of dividends by the Company. Pursuant to the dividend policy of the Company, the Board may declare the payment of dividend of the Company after considering the below factors:

- (a) the results of operations of the Group;
- (b) economic and market conditions that may have an impact on the business or financial performance and position of the Group;
- (c) cash available for distribution as dividends from subsidiaries;

- (d) restrictions under the Cayman Islands laws and the Company’s amended and restated memorandum and articles of association (the “**Articles of Association**”), including approval of the Shareholders; and
- (e) any other factors that the Board deems relevant.

After considering the above factors, the Board intends to recommend dividends of no less than 50% of the profit and total comprehensive income after tax attributable to the Shareholders in a financial year. However, it should be noted that the dividend policy will be reviewed from time to time and there can be no assurance that a dividend or a certain percentage of the profit will be proposed or declared as dividend in any specific periods.

For the Reporting Year, the proposed final dividend represented approximately 80% of profit and total comprehensive income after tax attributable to the Shareholders.

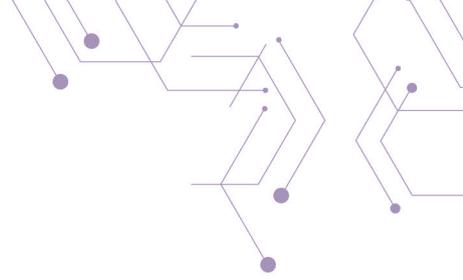

The Board reviews the Company’s dividend policy regularly to ensure that the policy is appropriate considering the Group’s ongoing development plans.

USE OF NET PROCEEDS FROM LISTING

The net proceeds from the Initial Public Offering of the Company’s shares on 30 May 2018 after deducting share issuance expenses and listing expenses (the “**Net Proceeds**”) was approximately HK\$178,610,000. After the listing, part of these proceeds have been applied for the purposes as set out in the prospectus of the Company dated 15 May 2018 (the “**Prospectus**”). On 26 April 2021, the Board resolved to change the allocation of the use of the unutilised Net Proceeds. An announcement for the change in the use of the Net Proceeds was made on 26 April 2021 (the “**Announcement**”). As at 31 December 2022, the Company had used approximately HK\$178,610,000 of the Net Proceeds for the purposes as set out in the Prospectus and the Announcement, representing 100% of the Net Proceeds. The following table sets out the details of the use of the Net Proceeds:

Use of Net Proceeds	Revised planned application of the Net Proceeds according to the Announcement HK\$’000	Amount utilised during the year ended 31 December 2022 HK\$’000	Amount utilised as at 31 December 2022 HK\$’000	Unutilised Net Proceeds as at 31 December 2022 HK\$’000

— Seven Asian cuisine restaurants	22,716	—	22,716	—
Opening 19 restaurants under franchised brands	57,526	—	57,526	—
Additional working capital, strategic investment and other generate corporate purposes	17,889	—	17,889	—
Opening restaurants under our self-owned and franchised brands	80,479	42,510	80,479	—
Total	178,610	42,510	178,610	—

Report of the Directors

According to the Announcement, the Board resolved to consolidate the parts of planned use of Net Proceeds from opening a total of eight restaurants under the Group's self-owned brands and opening a total of 19 restaurants under its franchised brands to opening new restaurants under its self-owned brands and franchised brands. The Board was of the view that the change in the use of the Net Proceeds was made in response to the transformation of customers' demand and the outbreak of the COVID-19 pandemic. The change in the use of the Net Proceeds would allow the Group to expand its business with greater agility and flexibility in developing its restaurants network and brand portfolio.

The Company has fully applied the Net Proceeds according to the disclosure in the Prospectus and the Announcement during the year ended 31 December 2022. For further details on the change in the use of the Net Proceeds, please refer to the disclosure in the Announcement.

DEED OF NON-COMPETITION

As set out in the Prospectus, the Company’s controlling shareholders, namely LHG Holdings, Mr. Wong Kit Lung Simon, Mr. Ko Cheuk Kuen, Mr. Wong Yiu Hung, Mr. Liu Cheung, Mr. Liu Chi Hung Peter, Mr. Lau Kwong Kwan, Hop Kwan and Ms. Ko Sau Chee Grace (the “**Covenantors**”) entered into the deed of non-competition (the “**Deed of Non-competition**”) in favour of the Company (for itself and as trustee for other members of the Group) on 4 May 2018.

Each of the Covenantors has provided to the Company a written confirmation in respect of his/her/its compliance with the Deed of Non-competition for the year ended 31 December 2022. The independent non-executive Directors of the Company have reviewed the written confirmations made by each of the Covenantors in respect of his/her/its compliance with the undertakings in the Deed of Non-competition and have confirmed that, as far as they can ascertain, there is no breach of any of the undertakings in the Deed of Non-competition given by the Covenantors.

SHARE OPTION SCHEME

On 4 May 2018, the Share Option Scheme was approved and adopted by the Shareholders. The purpose of the Share Option Scheme is to incentivize and recognize and acknowledge the employees or directors of members of the Group or associated companies of the Company (the “**Eligible Persons**”) for their contribution to the Group and attract and retain talent or otherwise maintain an on-going business relationship with them.

Pursuant to the Share Option Scheme, the Board (including any committee or delegate of the Board appointed by the Board to perform any of its functions pursuant to the rules of the Share Option Scheme) may, at its absolute discretion, offer to grant an option to subscribe for such number of Shares as the Board may determine to an Eligible Person.

The maximum number of Shares which may be issued upon exercise of all options to be granted under the Share Option Scheme and any other schemes of the Company must not in aggregate exceed 10% of the total number of Shares in issue as at the listing date of the Company (the “**Listing Date**”), being 80,000,000 Shares (the “**Scheme Mandate Limit**”).

The total number of Shares which may be issued on the exercise of options granted and to be granted under the Share Option Scheme was 80,000,000 Shares as at 1 January 2022, 31 December 2022 and as the date of this report, respectively, representing 10% of the issued share capital of the Company as at each of the respective dates.

Options lapsed in accordance with the terms of the Share Option Scheme and any other scheme of the Company will not be counted for the purpose of calculating the Scheme Mandate Limit.

No options shall be granted to any Eligible Person under the Share Option Scheme and any other schemes of the Company which, if exercised, would result in such Eligible Person becoming entitled to subscribe for such number of Shares as, when aggregated with the total number of Shares already issued or to be issued to him under all options granted to him (including exercised, cancelled and outstanding options) in the 12-month period up to and including the date of offer of such options, exceeds 1% of the Shares in issue at such date. Where such Eligible Person is an independent non-executive Director or a substantial shareholder (or his/her/its associate), no options shall be granted to him/her/it under the Share Option Scheme which would result in such Eligible Person becoming entitled to subscribe for in aggregate in the 12 months period up to and including the date of grant exceeding 0.1% of the shares in issue on that date. Any further grant of options to an Eligible Person in excess of such limit shall be subject to the approval of the Shareholders in general meeting or other requirements under the Listing Rules with such Eligible Person and his close associates (or if such Eligible Person is a connected person of the Company, his associates) abstaining from voting.

The share options granted shall be open for acceptance before the acceptance date (as prescribed by the Company). An offer of share options not accepted within the said period shall be deemed irrevocably declined. An amount of HK\$1.00 is payable upon acceptance of the grant of the share options and such payment shall not be refundable and shall not be deemed to be a part payment of the exercise price. The period during which an option must be exercised shall be determined by the Board at its discretion, which must not be larger than 10 years from the date of grant.

The exercise price shall be such price as determined by the Board and notified to an option-holder, which shall not be less than the higher of (i) the closing price of the Shares as stated in the Stock Exchange's daily quotation sheets on the date of offer of the option; (ii) the average of the closing price of the Shares as stated in the Stock Exchange's daily quotation sheets for the five trading days immediately preceding the date of offer of the option; and (iii) the nominal value of the Shares.

The Share Option Scheme shall be valid and effective for a period of ten years commencing on the date of its adoption on 4 May 2018, and will lapse on 4 May 2028. Accordingly, as at 31 December 2022, the remaining life of the Share Option Scheme is approximately 5.5 years.

Subject to the requirements under the Listing Rules, any option may be vested on an option-holder upon his acceptance of the offer of options, provided that if any vesting schedule and/or conditions are specified by the Board in the offer of the option, such option shall only be vested on an option-holder according to such vesting schedule and/ or upon the fulfillment of the vesting conditions (as the case may be). Any vested option which has not lapsed and which conditions have been satisfied or waived by the Board in its sole discretion may be exercised during the exercise period. Any option which remain unexercised shall lapse upon the expiry of the option period, which period shall be determined by the Board and shall not exceed ten years from the offer date of the option.

No share options had been granted under the Share Option Scheme since its adoption (including the year ended 31 December 2022). There was no outstanding share options as at 31 December 2022.

DIRECTORS' INTERESTS IN COMPETING BUSINESS

Corporate Governance Report

CORPORATE GOVERNANCE PRACTICES

The Group is committed to maintaining high standards of corporate governance to safeguard the interests of the Shareholders and to enhance corporate value and accountability. The Company has adopted the Corporate Governance Code (the “**CG Code**”) contained in Appendix 14 to the Listing Rules as its own code of corporate governance.

During the year ended 31 December 2022, save for the deviation from code provision C.2.1 of the CG Code regarding the separation of the roles of the chairman and the chief executive officer detailed in “Chairman and Chief Executive Officer” section in this Corporation Governance Report, the Company had complied with all the code provisions of the CG Code and adopted most of the best practices set out therein.

The Company will continue to review and enhance its corporate governance practices to ensure compliance with CG code.

MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuer (the “**Model Code**”) as set out in Appendix 10 to the Listing Rules as its own code of conduct regarding securities transactions of the Directors. Having made specific enquiry with the Directors, all Directors confirmed that they have complied with the required standard as set out in the Model Code for the year ended 31 December 2022.

BOARD OF DIRECTORS

The Board is responsible for the leadership and control of the Company. It is collectively responsible for promoting the success of the Company by directing and supervising its affairs. The Board takes decisions objectively in the interests of the Company. All Directors have carried out their duties in good faith, in compliance with applicable laws and regulations and in the interests of the Company and its Shareholders at all times.

The Board undertakes responsibility for decision making in major Company matters, including: approval and monitoring of all policy matters, overall strategies and budgets, internal control and risk management systems, material transactions and other significant financial and operational matters.

The Board has delegated the authority and responsibility for the day-to-day management and operation of the Group to the management. The management is responsible for implementing the decisions of the Board, directing and coordinating operations, managing the Group in accordance with the strategies and plans as approved by the Board and formulating and monitoring the operation plans.

All Directors have full and timely access to all relevant information as well as the advice and services of the company secretary of the Company, with a view to ensuring that Board procedures and all applicable laws and regulations are followed. Each Director is normally able to seek independent professional advice in appropriate circumstances at the Company's expense, upon making request to the Board.

The Company has arranged for appropriate insurance cover for Directors' and officers' liabilities in respect of legal actions against its Directors and senior management arising out of corporate activities.

The Board comprises five members, consisting of two executive Directors and three independent non-executive Directors. The executive Directors and independent non-executive Directors during the Reporting Year and up to the date of this report were as follows:

Executive Directors

Mr. Wong Kit Lung Simon *Prof, BBS, JP (Chairman and Chief Executive Officer)*

Ms. Ko Sau Chee Grace *(Vice Chairperson)*

Independent non-executive Directors

Mr. Sin Yat Kin *SBS, CSDSM, JP*

Ms. Hung Lo Shan Lusan

Mr. Hung Wai Man *Prof, JP*

Biographies and relationships among members of the Board are set out in the "Directors and Senior Management" section on pages 15 to 19 of this report. None of the Directors have any personal relationship (including financial, business, family or other material or relevant relationship) with any other Directors.

For the Reporting Year, the Board at all times met the requirements of Rules 3.10(1), 3.10(2) and 3.10A of the Listing Rules relating to the appointment of at least three independent non-executive Directors, representing at least one-third of the Board, with at least one independent non-executive Director possessing appropriate professional qualifications or accounting or related financial management expertise.

The Company has received from each of the independent non-executive Directors (the "INEDs") an annual confirmation in writing of his/her independence pursuant to Rule 3.13 of the Listing Rules. Furthermore, the Board is not aware of any relationship or circumstances which would interfere with the exercise of the independent judgment of the INEDs. Accordingly, the Company considers that all the INEDs are independent with reference to the independence criteria under Rule 3.13 of the Listing Rules.

During the Reporting Year, four regular Board meetings and one general meeting were held. The attendance records of the Directors at the Board meetings, Board committee meetings and annual general meeting of the Company held during the Reporting Year are set out below:

Mr. Hung Wai Man <i>Prof, JP</i>	4/4	1/1	—	2/2	1/1

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Pursuant to code provision C.2.1 of the CG Code, the roles of chairperson and the chief executive officer should be separate and should not be performed by the same individual. Mr. Wong Kit Lung Simon (“**Mr. Wong**”) currently holds both positions. Mr. Wong has been the key leadership figure of the Group who has been primarily involved in the formulation of business strategies and determination of the overall direction of the Group. He has also been chiefly responsible for the Group’s operations as he directly supervises our senior management. Taking into account the continuation of the implementation of our business plans, the Directors (including the independent non-executive Directors) consider Mr. Wong as the best candidate for both positions and the present arrangements are beneficial and in the interests of the Group and the Shareholders as a whole. The balance of power and authority is ensured by the operation of the senior management and the Board, which comprises experienced and high-calibre individuals. The Board currently comprises two executive Directors (including Mr. Wong) and three independent non-executive Directors and therefore has a fairly strong independence element in its composition.

APPOINTMENT AND RE-ELECTION OF DIRECTORS

Each of the executive Directors entered into a service agreement with the Company for a term of three years commencing from 30 May 2018, and was renewed for further three years from 30 May 2021. They are subject to retirement by rotation and re-election at the AGM of the Company under the Articles of Association.

Each of the independent non-executive Directors entered into a letter of appointment with the Company for a term of three years commencing from 30 May 2018, and was renewed for further three years from 4 May 2021. They are subject to retirement by rotation and re-election at the AGM of the Company under the Articles of Association.

Pursuant to the Articles of Association, Mr. Wong Kit Lung Simon and Ms. Hung Lo Shan Lusan shall retire by rotation at the forthcoming AGM. Both of them, being eligible, will offer themselves for re-election at the forthcoming AGM.

THE REMUNERATION POLICY OF DIRECTORS

Quality and committed staff are valuable assets contributing to the Group's success. To ensure the ability to attract and retain talents, the Group's remuneration policy of Directors is built upon the principles of providing equitable and market-competitive remuneration package that support the performance culture and enable the achievement of strategic business goals. The Group's remuneration policy of Directors is, therefore, aiming at providing competitive but not excessive remuneration package to the Directors.

The Directors' remuneration comprises fixed salary or service fee and variable components (such as bonus and share options), which is benchmarked against companies of comparable business or scale with reference to a mix of factors such as the prevailing market condition, the Company's performance and the qualifications, skills, experience and educational background of the Directors.

The Directors' remuneration is reviewed annually and are subject to shareholders' approval.

BOARD DIVERSITY POLICY

The Board has adopted a board diversity policy (the "**Board Diversity Policy**") pursuant to requirement of the CG Code. The Company recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance.

With a view to achieving a sustainable and balanced development, the Company sees increasing diversity at the Board level as an essential element in supporting the attainment of its strategic objectives and its sustainable development.

In designing the Board's composition, board diversity has been considered from a wide range of aspects, including but not limited to gender, age, cultural background and educational background, ethnicity, professional experience and qualifications, skills, knowledge and length of service, and any other factors that the Board may consider relevant and applicable from time to time. High emphasis is placed on ensuring a balanced composition of skills and experience at the Board level in order to provide a range of perspectives, insights and challenge that enable the Board to discharge its duties and responsibilities effectively, support good decision making in view of the core businesses and strategy of the Group, and support succession planning and development of the Board. For achieving an optimal board, additional measurable objectives/specific diversity targets may be set and reviewed from time to time to ensure their appropriateness.

Selection of candidates will be based on the Company's nomination policy and will take into account the Board Diversity Policy. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board, having due regard to the benefits of diversity on the Board and also the needs of the Board without focusing on a single diversity aspect.

The Board had reviewed the implementation and effectiveness of the Board Diversity Policy and was of the view that the Board Diversity Policy and its implementation was sufficient and effective.

Board Diversity

The Company is conscious of maintaining Board diversity with an appropriate level of female members on the Board. During the Reporting Year and as at the date of this report, the Board comprised five Directors, including three male Directors and two female Directors. The Board considered gender diversity has been achieved. While conscious efforts are being taken by the Company to fulfil its Board Diversity Policy, all appointments are ultimately made on a merit basis taking into account available and suitable candidates.

The Board would ensure that appropriate balance of gender diversity is achieved with reference to stakeholders' expectation and international and local recommended best practices, with the ultimate goal of bringing the Board to gender parity. The Board also aspires to having an appropriate proportion of Directors who have direct experience in the Group's core markets, with different ethnic backgrounds, and reflecting the Group's strategy.

The Nomination Committee will review the implementation of the Board Diversity Policy at least annually and make recommendation on any proposed changes to the Board for the Board's review and approval to ensure its continued appropriateness and effectiveness.

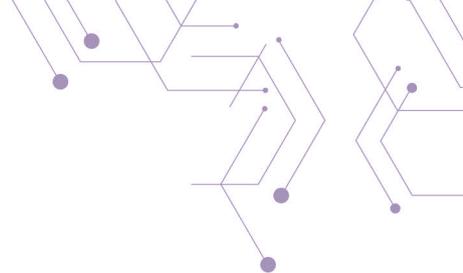

For recruiting potential successors to the Board to achieve Board diversity including gender diversity, the Board has prepared a list of desirable skills, experience, qualifications, gender or perspectives which the candidate should have. If the Board determines that an additional or replacement Director is required, it will deploy multiple channels for identifying suitable director candidates, including referral from Directors, shareholders, management, advisors of the Company and external executive search firms.

Workforce Diversity

The Group strictly adheres to fair and appropriate employment practices and labour standards. With an anti-discriminatory and equal-opportunity policy in place, the Group provides job applicant and employees with equal opportunities of employment and promotion, and prohibits all forms of discrimination on gender, religion, race, disability or age.

As at 31 December 2022, the Group had a total of 1,768 employees. The gender composition of the employees was approximately 48.1% male employees and 51.9% female employees.

The Board considered that gender diversity of the workforce of the Group has been well maintained during the Reporting Year. As such, the plan for the Group in terms of gender diversity in workforce is to maintain the balance of gender diversity in the foreseeable future.

INDEPENDENCE VIEWS TO THE BOARD

The Board recognises Board independence is critical to good corporate governance. The Company has put in place the mechanisms to ensure a strong independence element on the Board, which are summarised below:

Board Composition

The Board endeavours to ensure the appointment of at least three independent non-executive Directors and at least one-third of the Board members being independent non-executive Directors (or such higher threshold as may be required by the Listing Rules from time to time).

Apart from complying with the requirements prescribed by the Listing Rules as to the composition of certain Board committees, independent non-executive Directors will be appointed to other Board committees as far as practicable to ensure independent views are available.

Independence Assessment

The Nomination Committee shall strictly adhere to the nomination policy and the independence assessment criteria as set out in the Listing Rules with regard to the nomination and appointment of independent non-executive Directors.

Each independent non-executive Director is also required to inform the Company as soon as practicable if there is any change in his own personal particulars that may materially affect his independence.

The Nomination Committee is mandated to assess annually the independence of all independent non-executive Directors by reference to the independence criteria as set out in the Listing Rules to ensure that they can continually exercise independent judgement.

Decision Making

All Directors (including independent non-executive Directors) are entitled to seek further information and documentation from the management on the matters to be discussed at board meetings. They can also seek assistance from the Company's company secretary and, where necessary, independent advice from external professional advisers at the Company's expense.

All Directors (including independent non-executive Directors) shall not vote or be counted in the quorum on any board resolution approving any contract or arrangement in which such Director or any of his close associates has a material interest.

The Board had made an annual review on the implementation of the abovementioned mechanisms and was of the view that the abovementioned mechanisms had been satisfactorily implemented.

The Company has adopted an anti-corruption policy to promote an ethical culture with the Company, to minimize the Group's operation risks and to protect the Company and its shareholders' interests as a whole. Such policy encourages all employees (including senior management) to report any suspicious fraudulent activities or misconducts through relevant procedures in accordance with the policy. Identities and information reported will be kept strictly confidential and whistle-blowers will be protected from potential retaliation, unfair termination or victimization. During the Reporting Year, the Company has provided anti-corruption training to all employees.

The Board has adopted the whistleblowing policy on 31 December 2021. The purpose of the whistleblowing policy is to (i) foster a culture of compliance, ethical behaviour and good corporate governance across the Group; and (ii) promote the importance of ethical behaviour and encourages the reporting of misconduct, unlawful and unethical behaviour.

CONTINUOUS PROFESSIONAL DEVELOPMENT OF DIRECTORS

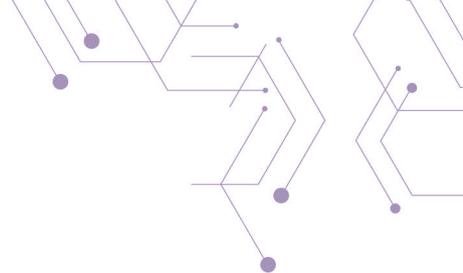

During the Reporting Year, all Directors had participated in continuous professional development activities either by attending training courses, reading materials or attending seminars, conference and/or forums to develop and refresh their knowledge and skills on the roles and functions of a director of a listed corporation in compliance with code provision C.1.4 of the CG Code.

During the Reporting Year, a summary of the Directors' participation in continuous professional development is set out below:

BOARD COMMITTEES

The Board has established three committees, namely, the Nomination Committee, the Remuneration Committee and the Audit Committee, for overseeing particular aspects of the Company's affairs. All Board committees of the Company are established with defined written terms of reference. The terms of reference of the Board committees are posted on the Company's website and the Stock Exchange's website and are available to Shareholders upon request. The Board committees are provided with sufficient resources to discharge their duties and, upon reasonable request, are able to seek independent professional advice in appropriate circumstances at the Company's expense.

NOMINATION COMMITTEE

The Nomination Committee currently comprises the following three Directors, with two being independent non-executive Directors:

Executive Director:

Mr. Wong Kit Lung Simon *Prof, BBS, JP (Chairperson)*

Independent non-executive Directors:

Mr. Sin Yat Kin *SBS, CSDSM, JP*

Mr. Hung Wai Man *Prof, JP*

The Nomination Committee is primarily responsible for reviewing the structure, size, composition and diversity of the Board and to make recommendations on any proposed changes to the Board to complement the corporate strategy of the Company; making recommendations to the Board on the appointment and succession planning of Directors; and assessing the independence of independent non-executive Directors.

The Nomination Committee is delegated by the Board to review the Board Diversity Policy on a regular basis, make recommendations on measurable objectives for achieving diversity of the Board as appropriate and monitor the progress on achieving the objectives. The Nomination Committee has also adopted specific procedures for nomination and appointment of director to the Board.

The Nomination Committee held one meeting during the Reporting Year. All members of the Nomination Committee attended the meeting.

The terms of reference of the Nomination Committee is available on the websites of the Company and the Stock Exchange.

The work performed by the Nomination Committee during the Reporting Year is summarised below:

- (a) reviewed the structure, size, composition and diversity of the Board to ensure that it has a balance of expertise, skills and experience appropriate for the requirements of the business of the Company;
- (b) developed the criteria for identifying and assessing the qualifications of and evaluating candidates for directorship;
- (c) assessed the independence of independent non-executive Directors;
- (d) made recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors; and
- (e) reviewed the Board's diversity policy, the measurable objectives that the Board had set for implementing the Board's diversity policy and the progress of achieving the objectives.

Nomination criteria

Pursuant to the mandatory disclosure requirements effective in 2019, the Company should disclose its policy for nomination of directors in the summary of work performed by the Nomination Committee in its corporate governance report. In evaluating and selecting any candidate for the directorship, the following criteria should be considered:

- (i) character and integrity;
- (ii) qualifications including professional qualifications, skills, knowledge and experience, and diversity aspects under the Board Diversity Policy that are relevant to the Company's business and corporate strategy;
- (iii) any measurable objectives adopted for achieving diversity on the Board;
- (iv) for independent non-executive Directors, whether the candidate would be considered independent with reference to the independence guidelines set out in the Listing Rules;
- (v) any potential contributions the candidate can bring to the Board in terms of qualifications, skills, experience, independence and gender diversity;
- (vi) willingness and ability to devote adequate time to discharge duties as a member of the Board and/or Board committee(s) of the Company; and
- (vii) such other perspectives that are appropriate to the Company's business and succession plan and where applicable may be adopted and/or amended by the Board and/or the Nomination Committee from time to time for nomination of directors and succession planning.

Nomination Procedures

The Company has put in place the following director nomination procedures:

Appointment of New and Replacement Directors

- (i) If the Board determines that an additional or replacement Director is required, it will deploy multiple channels for identifying suitable director candidates, including referral from Directors, shareholders, management, advisors of the Company and external executive search firms.
- (ii) Upon compilation and interview of the list of potential candidates, the Nomination Committee will shortlist candidates for consideration by the Nomination Committee/Board based on the selection criteria and such other factors that it considers appropriate. The Board has the final authority on determining suitable director candidate for appointment.

Re-election of Directors and Nomination from Shareholders

- (i) Where a retiring Director, being eligible, offers himself for re-election, the Board shall consider and, if consider appropriate, recommend such retiring Director to stand for re-election at a general meeting. A circular containing the requisite information on such retiring Director will be sent to shareholders prior to a general meeting in accordance with the Listing Rules.
- (ii) Any shareholder of the Company who wishes to nominate a person to stand for election as a Director at a general meeting must lodge with the company secretary of the Company within the lodgement period specified in the relevant shareholder circular (a) a written nomination of the candidate, (b) written confirmation from such nominated candidate of his willingness to stand for election, and (c) biographical details of such nominated candidate as required under the Listing Rules. Particulars of the candidate so proposed will be sent to all shareholders for information by a supplementary circular.

REMUNERATION COMMITTEE

The Remuneration Committee consists of three Directors, two of whom are independent non-executive Directors:

Executive Director:

Mr. Wong Kit Lung Simon *Prof, BBS, JP*

Independent non-executive Directors:

Mr. Sin Yat Kin *SBS, CSDSM, JP (Chairperson)*

Ms. Hung Lo Shan Lusan

The primary duties of the Remuneration Committee include: (i) making recommendations to the Directors regarding our policy and structure for the remuneration of all our Directors and senior management and on the establishment of a formal and transparent procedure for developing remuneration policies; (ii) making recommendations to the Board on the remuneration packages of our Directors and senior management; (iii) reviewing and approving the management's remuneration proposals with reference to the Board's corporate goals and objectives; and (iv) reviewing and/or approving matters relating to share schemes under Chapter 17 of the Listing Rules.

The Remuneration Committee held one meeting during the Reporting Year. All members of the Remuneration Committee attended the meeting.

The terms of reference of the Remuneration Committee is available on the websites of the Company and the Stock Exchange.

The major work performed by the Remuneration Committee during the Reporting Year is summarised below:

- (a) made recommendations to the Board on the Company's policy and structure for remuneration of all directors and senior management and on the establishment of a formal and transparent procedure for developing remuneration policy;
- (b) reviewed and approved the management's remuneration proposals with reference to the Board's corporate goals and objectives;
- (c) made recommendations to the Board on the remuneration packages of Directors and senior management;
- (d) considered salaries paid by comparable companies, time commitment and responsibilities and employment conditions elsewhere in the Group; and
- (e) ensured that no Director or any of his associates was involved in deciding his/her own remuneration.

AUDIT COMMITTEE

The Audit Committee consists of three independent non-executive Directors:

Ms. Hung Lo Shan Lusan (*Chairperson, with professional qualification in accountancy*)

Mr. Hung Wai Man *Prof, JP*

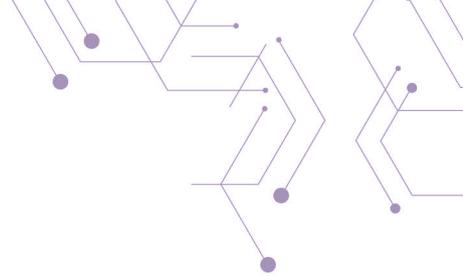

Mr. Sin Yat Kin *SBS, CSDSM, JP*

The Audit Committee is delegated with the authority from the Board primarily to make recommendations to the Board on the appointment, reappointment and removal of external auditor, review the financial statements and provide material advice in respect of financial reporting, oversee the financial reporting process, internal control, risk management systems and audit process of the Group and perform other duties and responsibilities assigned by the Board. The composition of the Audit Committee meets the requirements of Rule 3.21 of Listing Rules.

The Audit Committee held two meetings during the Reporting Year. All members of the Audit Committee attended the meetings. The external auditors were also invited to attend the meeting. During the Reporting Year, the Audit Committee also met with the auditor in the absence of management to discuss any matters the auditor wish to raise.

The terms of reference of the Audit Committee is available on the websites of the Company and the Stock Exchange.

Corporate Governance Report

The major work performed by the Audit Committee during the Reporting Year is summarised below:

- (a) reviewed and monitored the external auditor's independence and objectivity and the effectiveness of the audit process in accordance with applicable standards;
- (b) developed and implemented policy on engaging an external auditor to supply non-audit services;
- (c) monitored integrity of the Company's financial statements, the interim and annual report and reviewed significant financial reporting judgments contained in them;
- (d) reviewed the Company's financial controls, risk management and internal control systems;
- (e) discussed the risk management and internal control system with management to ensure that management has performed its duty to have effective systems;
- (f) considered major investigation findings on risk management and internal control matters as delegated by the Board or on its own initiative and management's response to these findings;
- (g) reviewed the Group's financial and accounting policies and practices;
- (h) reviewed the external auditor's management letter, any material queries raised by the auditor to management about accounting records, financial accounts or systems of control and management's response; and
- (i) acted as the key representative body for overseeing the Company's relations with the external auditor.

The Company's annual results for the Reporting Year have been reviewed by the Audit Committee.

CORPORATE GOVERNANCE FUNCTIONS

The Board recognizes that corporate governance should be the collective responsibility of the Directors and their corporate governance duties include:

- (a) to develop and review the Company's policies and practices on corporate governance;
- (b) to review and monitor the training and continuous professional development of the Directors and senior management;
- (c) to review and monitor the policies and practices of the Company on compliance with legal and regulatory requirements;
- (d) to develop, review and monitor the code of conduct of employees and Directors; and
- (e) to review compliance with the CG Code and disclosure in the Corporate Governance Report.

During the Reporting Year, the above corporate governance function has been performed by the Board and the Board has reviewed the Company's compliance with the CG Code.

AUDITOR'S REMUNERATION

During the Reporting Year, the fees paid/payable to the auditor in respect of audit and non-audit services provided by the auditor of the Company were as follows:

In order to uphold good corporate governance and ensure compliance with the Listing Rules and applicable Hong Kong laws, the Company also engages Ms. Yu Wing Sze of TMF Hong Kong Limited (a company secretarial service provider) as the other joint company secretary to assist Ms. Chan to discharge her duties as one of the joint company secretaries of the Company.

During the Reporting Year, Ms. Chan Hiu Yi and Ms. Yu Wing Sze had confirmed that they undertook no less than 15 hours of relevant professional trainings to update the skills and knowledge in compliance with Rule 3.29 of the Listing Rules.

SHAREHOLDERS' RIGHTS

Procedures for Shareholders to Convene an Extraordinary General Meeting ("EGM")

Pursuant to article 64 of the Articles of Association, extraordinary general meetings shall be convened on the requisition of one or more Shareholders holding, at the date of deposit of the requisition, not less than one tenth of the paid up capital of the Company having the right of voting at general meetings. Such requisition shall be made in writing to the Board or the Secretary for the purpose of requiring an EGM to be called by the Board for the transaction of any business specified in such requisition. Such meeting shall be held within two months after the deposit of such requisition. If within 21 days of such deposit, the Board fails to proceed to convene such meeting, the requisitionist(s) himself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

Procedures for Raising Enquiries

Shareholders may send their enquiries or comments to the following:

Address: Unit 03, L22, Tower 1, Enterprise Square Five, 38 Wang Chiu Road, Kowloon Bay, Hong Kong

Email: ir.lhgroup@lhg.com.hk

Procedures for Putting Forward Proposals at Shareholders' Meetings

There are no provisions allowing Shareholders to move new resolutions at the general meetings under the Companies Law (Revised) of Cayman Islands. However, pursuant to the Articles of Association, Shareholders who wish to move a resolution may by means of requisition convene an EGM following the procedures set out above.

COMMUNICATION WITH SHAREHOLDERS AND INVESTORS

The Company considers that effective communication with Shareholders is essential for enhancing investor relations and investor understanding of the Group's business performance and strategies. The Company also recognises the importance of transparency and timely disclosure of corporate information, which will enable Shareholders and investors to make the best investment decisions.

The general meetings of the Company provide a forum for communication between the Board and the Shareholders. The Chairman of the Board as well as chairmen of the Nomination Committee, Remuneration Committee and Audit Committee or, in their absence, other members of the respective committees are available to answer questions at general meetings.

The AGM of the Company will be held on Wednesday, 7 June 2023. The notice of AGM will be sent to Shareholders at least 21 days before the AGM.

To promote effective communication, the Company maintains a website at www.lhgroup.com.hk where up-to-date information and updates on the Company's financial information, corporate governance practices and other information are posted.

The Shareholders' Communication Policy

The Company has adopted a shareholders' communication policy, details of which is summarised below:

Shareholders' Meetings

- The annual general meetings and other general meetings of the Company are the primary communication forum between the Company and the Shareholders. Shareholders are encouraged to participate in general meetings physically or to appoint proxies to attend and vote at such meetings for and on their behalf if they are unable to attend.
- Notices of the general meetings, related circulars and forms of proxy are provided within a prescribed time prior to the general meetings on Stock Exchange's website (www.hkexnews.hk) and the Company's website (lhgroup.com.hk) and by post to the Shareholders.
- The Directors, in particular, the chairman of the Board committees or their delegates, appropriate senior executives and external auditor will attend the general meetings to answer the Shareholders' questions.
- The chairman of the general meetings will propose to vote the resolutions (except resolutions which relate purely to procedural or administrative matters) by poll in accordance with the Articles. Scrutineer will be appointed for the vote-taking at the general meetings and the voting results will be published on the Stock Exchange's website (www.hkexnews.hk) and the Company's website (lhgroup.com.hk) subsequent to the close of the general meetings.

Corporate Communications

- The Company will send (by post or by electronic means as permitted by the Articles or the Listing Rules) corporate communications of the Company, which include annual reports, interim reports, notices of shareholders' meeting, listing documents, circulars, and proxy forms, to the Shareholders.
- Shareholders are encouraged to provide their up-to-date contact details to the Hong Kong branch share registrar of the Company in order to facilitate timely and effective communications.

Company's Website

- The Company's website (lhgroup.com.hk) provides the Shareholders with corporate information on the Group. It also provides information on corporate governance of the Group and the compositions and functions of the Board and the committees of the Board.
- In addition to the "Investor Relations" section in which corporate communications of the Company are posted as soon as practicable following their release on the Stock Exchange's website (www.hkexnews.hk), press releases and newsletters issued by the Company from time to time are also available on the Company's website to facilitate communication between the Company, Shareholders and investment community.
- Information on the Company's website is updated on a regular basis.

Communication with the Company

Shareholders may raise questions, request for publicly available information and provide comments and suggestions to the Directors and management of the Company. Such questions, requests, comments and suggestions can be addressed to the Company by post to Unit 03, L22, Tower 1, Enterprise Square Five, 38 Wang Chiu Road, Kowloon Bay, Hong Kong or by email to the address at ir.lhgroup@lhg.com.hk.

Shareholders may at any time make a request for the Company's information to the extent such information is publicly available.

The Company highly values the view and comment by the Shareholders' and relevant stakeholders to the Company and would invite the Shareholders' and relevant stakeholders to communicate with the Company by employing the abovementioned means. In view of the above shareholders' communication means and measures adopted by the Company, the Board is of the view that the shareholders' communication policy implemented during the Reporting Year was sufficient and effective.

CONSTITUTIONAL DOCUMENTS

Pursuant to a special resolution of the Shareholders passed on 4 May 2018, the Articles of Association were adopted with effect from the date of the listing of the Shares on the Stock Exchange on 30 May 2018. During the Reporting Year, there had been no change in the Company's Memorandum of Association and Articles of Association. The Articles of Association are available on the websites of the Company and the Stock Exchange.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board has overall responsibility for the establishment, maintenance and review of the Group's risk management and internal control system to safeguard shareholder investments and the assets of the Group. The risk management and internal control system of the Group aims to facilitate effective and efficient operation which in turn minimises the risks to which the Group is exposed. The system can only provide reasonable but not absolute assurance against misstatement or losses.

The Audit Committee, acting on behalf of the Board, reviews the effectiveness of the Company's risk management and internal control systems on an on-going basis and reports to the Board. Such review would be done at least on an annual basis for each financial year. The Board has considered the advice from the Audit Committee, and has discussed and reviewed the effectiveness of the risk management and internal control system of the Group for the year ended 31 December 2022, which included the implemented system and procedures, covering financial, operational and legal compliance controls and risk management functions. The Directors consider that the Group has implemented appropriate procedures safeguarding the Group's assets against unauthorised use or misappropriation, maintaining proper accounting records, execution with appropriate authority and compliance of the relevant laws and regulations.

Upon the recommendation of the Audit Committee, the Board considered that the risk management and internal control system of the Group is adequate and effective. The Group recognises that good risk management is essential for the long-term development on the Group's business. Management is responsible for establishing, implementing, reviewing and evaluating the sound and effective internal control system underpinning the risk management framework. The management has formulated the risk management and control framework. All employees are committed to implementing the risk management framework into the daily operation.

The Group acknowledges its responsibilities under the provisions of Part XIVA of SFO and the Listing Rules relating to the disclosure of inside information to the public. Policies, procedures and internal controls had been set out for the handling and dissemination of inside information to ensure inside information is kept confidential and disseminated to the public in a timely manner.

The Company does not have an internal audit function and is currently of the view that there is no immediate need to set up an internal audit function within the Group in light of the size, nature and complexity of the Group's business. It was decided that the Board would be directly responsible for risk management and internal control of the Group and for reviewing its effectiveness. The Company has also engaged an external professional advisor to conduct an independent internal control review and to assist the management to improve the internal control system of the Group.

OBJECTIVES OF RISK MANAGEMENT AND INTERNAL CONTROL

The Group has adopted a three-tier risk management approach to identify, assess, mitigate and handle risks. At the first line of defence, business units are responsible for identifying, assessing and monitoring risks associated with each business or deal. The management, as the second line of defence, defines rule sets and models, provides technical support, develops new systems and oversees portfolio management. It ensures that risks are within the acceptable range and that the first line of defence is effective. As the final line of defence, the Audit Committee ensures that the first and second lines of defence are effective through constant inspection and monitoring.

In order to be consistent with other major risks, the Group adopts the same risk management procedures to manage ESG risks, including identifying ESG risks, risk assessment and monitoring measures taken, as well as consulting and reporting processes, etc. For details, please refer to the "Environmental, Social and Governance Report" in this annual report.

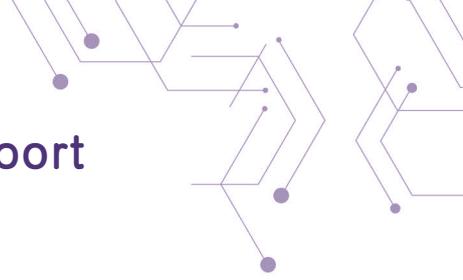

DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE FINANCIAL STATEMENTS

The Directors acknowledge their responsibilities for preparing the financial statements of the Group for the year ended 31 December 2022. The Directors are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Group's ability to continue as a going concern.

The statement of the independent auditors of the Group about their reporting responsibilities on the financial statements is set out in the "Independent Auditor's Report" on pages 89 to 93 of this report.

There is no disagreement between the Board and the Audit Committee regarding the selection, appointment, resignation or dismissal of external auditors.

ABOUT THIS REPORT

The Group is pleased to present its ESG report to all of its stakeholders. The content contained herein focuses on providing an overview of the ESG performance of our major operations in Hong Kong for the Reporting Year. It helps us to keep a close eye on our current ESG performance as well as the opportunities to improve our ESG performance in the future.

Scope of the Report

This report has been prepared in accordance with the “Environmental, Social and Governance Reporting Guide” in Appendix 27 to the Listing Rules on the Stock Exchange. The two ESG subject areas, namely Environmental and Social, are disclosed separately, highlighting the impacts of the operations of the Group in Hong Kong from 1 January 2022 to 31 December 2022.

The content of this report has been determined and summarized by the principles of Materiality, Quantitative, Balance and Consistency. The four principles are intended to underlie all aspects of the disclosed ESG information as required in the ESG Guide, and their meaningful application can facilitate the ESG report presented by the Group to constitute an objective, transparent and accurate embodiment of the Group’s ESG management and sustainable development during the Reporting Year.

Materiality:

The Group identified our reporting boundary by applying the principle of Materiality, and pinpointing the significant ESG issues that may have impact on the Group’s operations through materiality assessment. More information regarding the reporting boundary, stakeholder engagement and materiality assessment can be found in the corresponding sections.

Quantitative:

The data package with descriptive information and statistics regarding the Group’s ESG key performance indicators (“**KPIs**”) during the Reporting Year. Information on the methodologies, assumptions and conversion factors used are clearly stated under the corresponding performance tables.

Balance:

This report portrays an unbiased picture of the Group’s ESG performance during the Reporting Year. To facilitate informed decisions of stakeholders, the Group avoids selections or omissions of any positive or potentially negative data, so as to address both positive and negative sides that may influence the decision or judgement of the report reader.

Consistency:

In order to have meaningful comparison of ESG data over time, the Group adopted consistent methodologies for data collection, organization and calculation during the preparation of this report and sticking to the high-level of consistency the reporting approach and framework that has been set in previous years.

For the Reporting Year, the material ESG issues are those which have or may have a significant impact on:

- Anti-pandemic measures
- Energy saving
- Food waste reduction
- Promotion of diversity at workplace
- Food safety
- Community investment

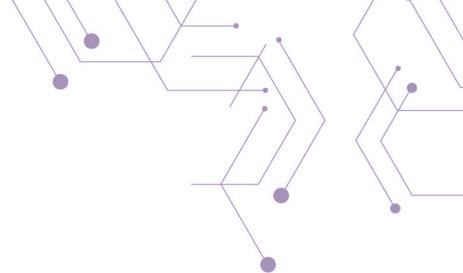

The data and information used in this report are referenced from our archived documents, records, statistics and research. Financial data are extracted from or calculated based on the Group's audited annual financial statements for the year ended 31 December 2022.

Environmental Matters

We are committed to promoting environmental protection and conservation and we have been undertaking various initiatives in this respect.

Act Green

In response to the “Sustainable Development Goals” proposed by the United Nations and the rapid changes on a global climate change and resource scarcity, we are committed to contribute to the sustainable development of the world. We have joined the “Partnership for Sustainability Leadership in Business” initiated by the Centre for Civil Society and Governance of The University of Hong Kong and supported by The Hongkong and Shanghai Banking Corporation Limited (HSBC). We pledge not only to adhere to the principles of sustainable development in our strategic management and operations work, but also work closely with SMEs to provide resources and guidance to build a cooperative ecosystem in the pursuit of sustainable development.

On 26 April 2021, we are one of the 15 pioneering companies who signed the “Business with Purpose: Pledge in action” initiated by the Hong Kong Management Association and Social Ventures Hong Kong. We commit to recognize and embed P.U.R.P.O.S.E into our core business strategies, with each of the seven letters representing:

Purpose in action: prioritize purpose in business strategy through an action-based approach;

Universal employee development: foster a culture of inclusion, wellbeing, innovation and co-creation in the workplace;

Responsible investing: support ESG-aligned investments, and community ventures for collective impact;

Planet-friendly practices: develop eco-friendly workplace and infrastructures, as well as solutions to combat climate change;

Operational impact & accountability: reinforce corporate governance, supported by impact evaluations and a shared value approach;

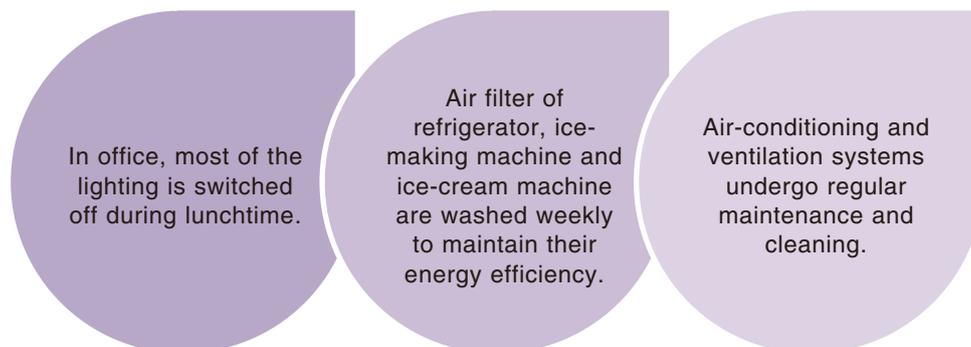

Supply chain sustainability: build collective actions and partners, with the view to adopt an integrated lifecycle model; and

Ethical consumption: facilitate a conscious consumption movement, and promote sustainable living for the next generation.

During the Reporting Year, LH Group recommended two SME business partners, including suppliers for kitchen equipment and food, to join the scheme. We participate in workshops with these SMEs to learn the latest trend and relevant knowledge on environmental, social and governance (ESG) matters. Through the activities under this scheme, we can understand how the daily operation of the Company and its supply chain affect the environment and the society, allowing us to consider incorporating sustainable development into our business strategy and formulate the roadmap and action plan for sustainable development. We share our sustainable business operation with SMEs. They can receive more practical experience or advices through their connections with large enterprises, which facilitate them in achieving their goals under the scheme.

Energy Saving

Together with our employees, we have been enhancing our environmental awareness by means of strengthening education on ESG good practice and encouraging our employees to make commitment towards building a healthier environment. We promote energy reduction and conservation by launching relevant environmental protection policies outlined below:

Knowing that natural resources is limited, we utilise natural resources in a more energy efficient way so as to sustain energy use for present and future operation. We cooperate with The Hong Kong and China Gas Company Limited to promote the use of a series of energy efficient kitchen appliances, ranging from food steamers, steam cabinets, wok range to dishwashers.

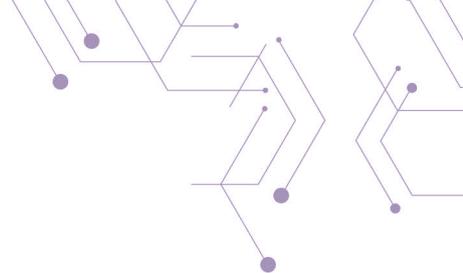

By utilizing the exhaust heat, less fuel is consumed to produce heat energy, whilst the steaming effect of food steamer is further improved with the reduction of energy consumption by nearly 30%. This kind of heat recovery system is not only energy-saving, but also environmentally friendly. The indoor temperature of the kitchen is reduced by about 2 degrees Celsius due to the functioning of the heat recovery system which indirectly saves the electricity required for the air-conditioning.

We also implemented an intelligent air conditioning blower control system in restaurants to adjust temperature and fan speed automatically. The fans can also be used under the mode of preset time that appropriate adjustments would be made during peak hours, non-peak hours or specific hours, reducing the electricity consumption by 15% to 30% in average.

Our restaurants adopt LED lighting and motion sensor lighting. The life span of a LED light bulb can last up to 15,000 hours so as to reduce frequent light bulb replacements and minimise the generation of waste. Moreover, using LED technology can save energy up to the level of 80% more than the case of traditional lighting, which, in turn, can reduce the greenhouse gas (“GHG”) emissions from purchased electricity.

Since 2022, all of our restaurants have been using energy saving dishwashers. The dishwashers make use of heat recovery techniques which preserve the heat from the steam and maintain the temperature. This can reduce the electricity consumption by about 35% in average.

Our self-owned brand “#HAP Taiwanese Hotpot” is the pioneer in the sector introducing an “Internet of Things-based intelligent control hotpot induction cooker system”, which allows adjustment of cooking fire and electricity consumption through a specialized mobile application to reduce energy consumption. Besides, branches of “#HAP Taiwanese Hotpot” have also been installed with ammeters to monitor the electricity consumption of each restaurant in real time for a better understanding and analysis of our power consumption pattern; thereby optimizing our daily operations and enhancing our energy efficiency.

Energy Consumption, Emissions and GHGs Emissions

Gaseous Fuel Consumption

	Unit	2022	2021
Consumption	<i>Kilograms</i>	4,227,795	5,010,808
Consumption intensity	<i>Kilograms/HK\$ million revenue</i>	3,977	5,021
Nitrogen oxides emissions	<i>Kilograms</i>	100	101
Sulphur oxides emissions	<i>Kilograms</i>	1	1
Direct GHGs emissions	<i>Kilograms</i>	12,166,416	14,525,330
Indirect GHGs emissions	<i>Kilograms</i>	291,440	293,156
Total GHGs emissions	<i>Kilograms</i>	12,457,856	14,818,486
Total GHGs emissions intensity	<i>Kilograms/HK\$ million revenue</i>	11,718	14,850

During the Reporting Year, the total GHGs emissions amounted to approximately 12,458,000 kilograms, representing a decrease of approximately 2,361,000 kilograms as compared to the previous year. The average GHGs emission per HK\$ million revenue during the Reporting Year decreased by approximately 21% compared to 2021.

We target to reduce the total GHGs emissions intensity from gaseous fuel consumption further by 10% in the coming year.

Electricity Consumption

	Unit	2022	2021
Electricity consumption	<i>kWh</i>	9,670,982 ⁽¹⁾	8,708,028 ⁽¹⁾
Electricity consumption intensity	<i>kWh/HK\$ million revenue</i>	9,097	8,726
GHGs emissions	<i>Kilograms</i>	5,466,688 ⁽²⁾	4,737,624 ⁽²⁾
GHGs emissions intensity	<i>Kilograms/HK\$ million revenue</i>	5,142	4,748

(1) The effect of electricity produced by renewable energy purchased from CLP Power Hong Kong Limited/the Hongkong Electric Co. Ltd, was excluded.

(2) Included the effect of the amount of electricity produced by renewable energy purchased from CLP Power Hong Kong Limited/the Hongkong Electric Co. Ltd which reduce GHGs emissions.

We target to maintain the total GHGs emissions intensity from electricity consumption at approximately 5,000 kilograms/HK\$ million revenue in the coming year.

Recycling & Reduction

We set out an “Environmental Code” for all our staff, with some of the rules highlighted as follows:

Recycling

- Appropriate signage is placed on the recycling box stating what type of wastes or recyclable materials should be put into the box.
- Staff are encouraged to sort the waste before putting it into the appropriate recycling boxes.

Printing practices

- Double-sided printing is set as the default setting on computers, single-sided printing has to be manually selected.
- Staff are encouraged to circulate documents through electronic means such as emails or encrypted universal serial buses.
- For any paper that has been used for single-sided printing, it should be reused when there is no confidential information shown on the printed side of the paper.
- Staff conduct meetings by circulating meeting materials through iPad to achieve paperless office environment.

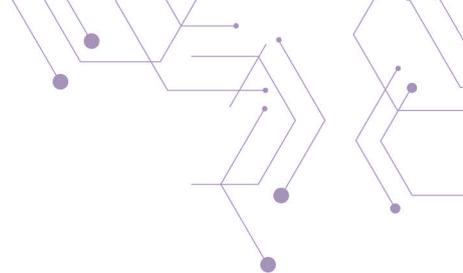

Wastes trimming

- Bottled water is not used in office to reduce the generation of plastic waste.

Since May 2019, no plastic straws are distributed to our customers. We provide paper straws only upon request by the customers. They are free of plastic and eco-friendly. We also offered HK\$10 deduction for specific drinks if the customers do not use a straw. No disposable tableware sets were provided to customers proactively for takeaway. Request for each tableware set is subject to surcharge of HK\$2. We aim to create greater incentives for customers to reduce not only the use of plastic materials, but also reduce solid waste.

Generation of Packaging Materials

Source	Unit	2022	2021
Takeaway boxes	<i>Kilograms</i>	64,200	43,077
Plastic bags	<i>Kilograms</i>	11,046	7,971
Paper bags	<i>Kilograms</i>	2,214	6,380

Packaging materials for takeaways had increased significantly since the epidemic in 2020, especially when restrictions on dine-in hours were in place. While the increase in takeaway is unavoidable, we hope to be more environmentally friendly. We offer an extra 5% off for customers who bring their own containers for takeaway. To safeguard the hygiene of the food and avoid cross-contamination, restaurant staff present the food on the table and customers put the food into their own containers themselves. Even when takeaway boxes are required, most of our takeaway boxes are reusable, in a hope that customers will reuse them. We hope we can arouse citizens' awareness to reducing disposables and develop the habit of bringing own containers when ordering takeaway.

Water Usage

Water Consumption

	Unit	2022	2021
Water consumption	<i>Cubic metres</i>	252,230.80	223,205.95
Water consumption intensity	<i>Cubic metres/HK\$ million revenue</i>	237.25	223.68

The water consumption increased by 29,024.85 cubic metres compared with previous year to 252,230.80 cubic metres for the Reporting Year. The average water consumption per HK\$ million revenue increased by approximately 6% for the Reporting Year.

With the "Environmental Code" implemented in all of our outlets, we utilize water resources wisely. Although we do not have any issue in sourcing water and the existing supply of water does meet our daily operational needs, we still strive to reduce water usage and increase overall water usage efficiency. We plan to maintain the water consumption intensity at below 250 cubic meters per HK\$ million revenue by 2023.

Water is used in a wide variety of areas such as washing, dishwashing and ice-making. To avoid unnecessary use of water, defrosting of the ice from the inner wall of the refrigerator is adopted regularly to keep the temperature in the refrigerator at a sufficiently low level so that the bacterial growth is relatively low and the shelf life of food can also increase as a result. Some of our restaurants started using energy saving dishwashers which consumes about one litre less water than other dishwashers in the market for each usage. We have also installed water flow controllers in some of our restaurants to control the water flow to avoid excessive water flow. In 2022, we were awarded the Cherish Water Achievement Award, Sectorial Cherish Water Award and other awards under the Enterprises Cherish Water Campaign 2022 held by the Water Supplies Department and Green Council.

We monitor water usage on a monthly basis, and will continue to implement above practices to more restaurants and explore practical and feasible ways to reduce water consumption.

Eat Green

Green Meal

Low-carbon Meal

We partner with organizations such as GreenMonday and Impossible Foods Inc. to offer vegetarian dishes in all of our restaurants in Hong Kong. By offering vegetarian options for the customers who care for the earth and animals, we hope that low-carbon food culture can be promoted amongst the friends and relatives. Along the way, we take a big leap forward to practice environmental protection. For the Group, a vegetarian menu can attract new customer bases. For customer, our restaurants can provide another healthy food choice, achieving a win-win situation.

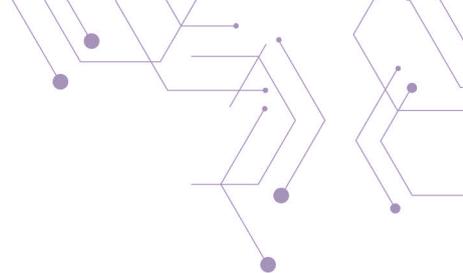

We offer plant-based burger steaks, “Omnipork” and “Impossible foods” in dim sum, dishes and hot pot dishes. Its unique vegan protein formula mainly comprises elements such as peas, non-genetically modified soybeans, mushrooms and rice which are rich in amino acids which are important to the human health. Compared to beef from cow, Impossible Beef made from plants uses 87% less water and 89% less greenhouse gas emissions.

During the Reporting Year, we participated in the World Environment Day on June 5, 2022 which is the day for encouraging worldwide awareness and action to protect our environment. Impossible Foods partnered with One Tree Planted to plant a tree for every “Impossible foods” dish ordered in June 2022. We contributed to planting 1,280 trees in this campaign.

Food Waste Reduction

	Unit	2022
Food waste from customers	Kilograms	93,512
Food waste from kitchen (“Inactivated” food remains from kitchen)	Kilograms	26,038
Total food waste	Kilograms	119,550
Food waste intensity	Kilograms/HK\$ million revenue	112.45
“Activated” food remains from kitchen	Kilograms	29,021
% of “activated” food remains from kitchen	Percentage	52.7%

The food remains from kitchen mainly arises from the slicing of meat especially beef. We promote the idea of “food has life” and try to better utilize the remains of meat to make dishes such as minced meat and use as ingredients for soup base, so some of the food remains from kitchen are “activated” and not wasted. We will continue to invent new dishes which can “activate” more types of food remains to reduce the food waste from kitchen. We target to maintain the % of “activated” food remains from kitchen at approximately 50% in the coming year.

To reduce food waste from customers, coupons would be given to wise eaters at all-you-can-eat shops including “Mou Mou Club”, “Gyu-kaku” and “Gyu-kaku Buffet” etc. By finishing all food in the plates, customers will be awarded a coupon for their next visit, and we will donate HK\$5 to the World Green Organization for “Mou Mou Club” and World Wide Fund for Nature (WWF) for restaurants other than “Mou Mou Club” to support environmental conservation.

In addition, some of our restaurants have been cooperating with the shopping malls that are installed with food waste processors which could recycle food waste into fertilizers, therefore, not only reducing land pollution, but also improving effectiveness of farming.

Waste Cooking Oil Recycling

Proper recycling of waste cooking oil can not only convert it into industrial product such as biodiesel, and soap etc., but also avoid environmental pollution resulting from its improper handling; thereby, protecting the environment and, at the same time, preventing the waste cooking oil from re-entering the food chain. During the Reporting Year, we collected and recycled 16,660 (2021: 8,440) litres of cooking oil.

Drive Green

Vehicle Emission Standard

Motor vehicle gas emissions are the major source of roadside pollution in Hong Kong. To improve roadside air quality, more stringent requirements for the quality of motor vehicles fuels should be adopted. In this regard, most of our vehicles are using Euro V motor vehicle fuel which has around 80% less sulphur contents than the ultra-low sulphur diesel in the local market.

During the Reporting Year, we owned a fleet of 9 (2021: 8) vehicles mainly for the delivery and transportation of food ingredients and other supplies from the central processing and logistic centre to our restaurants.

Use of Vehicles, Emissions and GHGs Emissions

	<i>Unit</i>	2022	2021
Total mileage travelled	<i>Kilometers</i>	231,167	237,084

Compliance

We comply with all relevant laws and regulations that relate to environmental protection in Hong Kong, including, but not limited to, “Air Pollution Control Ordinance”, “Waste Disposal Ordinance” and “Water Pollution Control Ordinance”, which have a significant impact on us.

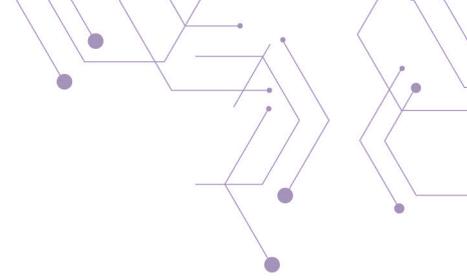

SOCIAL — OUR PARTNERS

Company Philosophy

We encourage our customers to complement our employees whenever they appreciate the services delivered by our employees. In this respect, a card with personal email address and Facebook page link of the Chairman is placed on every table in our restaurants. This allows customers to express their appreciation of our employees’ services. In this way, we aspire to increase our employees’ job satisfaction and sense of achievement.

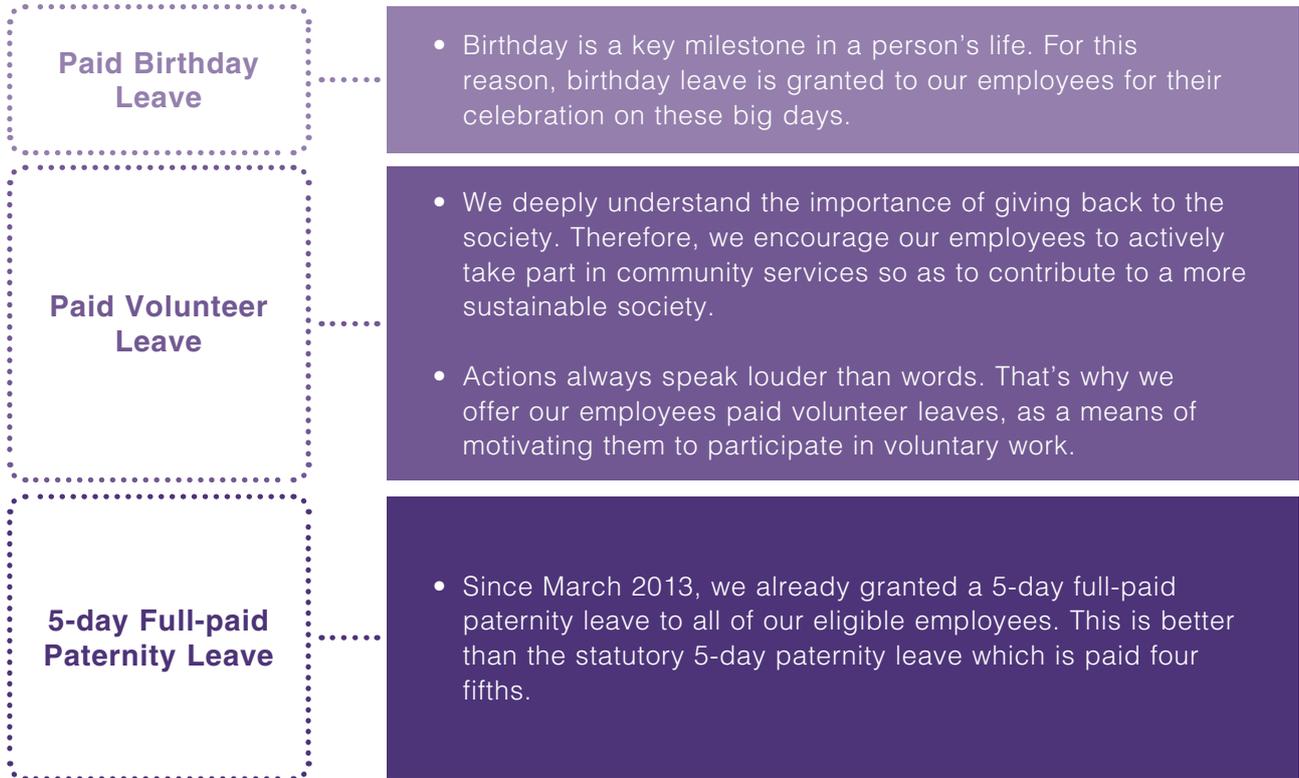

Many businesses consider employees as their “most valuable assets”. However, we consider employees as our “partners”. In LH Group, we strive to create an organisation culture in which appreciation and positive energy are the norms rather than expectations.

The fifth wave of COVID-19 outbreak occurred in the beginning of 2022. Experts warn that citizens should stay alert and maintain sound pandemic prevention measures while avoiding social activities. However, our frontline employees stood fast at their positions and upheld its unchanging service motto to create sensation. This exceeds the expectation of customers and leads to high praises from customers, tiding over this difficult time hand-in-hand. To reward the outstanding employees and restaurants, the Group held the “Always at the Forefront, Always with You” Award Ceremony 2021–22, with a theme of “Only by moving forward can we maintain our lead. Because of you, we can create a tomorrow for us”. A total of ten annual awards, including the new special reward, were presented to 30 employees and 11 restaurants in the ceremony. Under the witness and applause of over 200 employees, they received their awards from the Chairman, Vice Chairperson and Chief Executive (Food & Beverage). This recognizes and acknowledges the services and performance of our frontline employees and restaurants, allowing us to establish a culture that praises quality service.

Welfare and Benefits

We have offered different kinds of paid leave to our employees, including but not limited to the following:

Staff Meals

As the old saying — “A well-fed team is a happy team” goes, we understand the importance of making our employees happy. In this respect, staff meals are offered to our employees to build empathy and happiness in the workplace. By offering free lunch and staff discounted meals, we strive to treat our employees well and bring everyone within the Company together as a team.

Education Sponsorship for Children of Employees

Children are the pillars of our society. Accordingly, we believe that investing in children is one of the most effective means of facilitating and sustaining community development. We aspire to support children's education via offering education sponsorship for the children of our employees. Ultimately, we wish to ease part of the financial burden of our employees.

Re-employment of Retirees

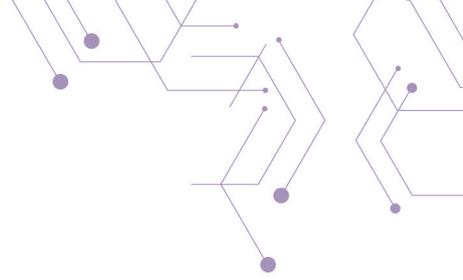

We consider re-employment of retirees as a mutually beneficial scheme to both of our employees and us. Therefore, we allow our employees to work beyond their retirement age until the age of 70 after evaluation.

Enhancing Bonding Among the Team

Team bonding is vital in cultivating cohesive organizational culture and nurturing a positive work attitude which is crucial to employee engagement. Thus, we are devoted to enhancing trust and cohesion among our employees.

We encourage our team to communicate with the industry. Through service tournaments, we can establish team spirit, broaden our colleagues' horizons and cultivate a culture of quality service. The Tourism Development Board organized the Outstanding QTS Merchant Service Staff Award again in 2022. It targets frontline employees of accredited merchants under the Quality Tourism Service Scheme, in order to acknowledge who hold fast on their post during the recent pandemic and their contribution to the improvement of the service quality of local tourism in Hong Kong. The five brands of Gyu-Kaku, Gyu-Kaku Buffet, Mou Mou Club and On-Yasai send 20 elite service staff (including 8 managers and 12 frontline staff) to participate in the tournament of Asian cuisine group and communicate with their peers. In the preliminary, our staff supported each other, with 12 of our employees facilitating the remaining 8 to enter the best five in the final competition (including 4 managers and 4 frontline staff). Our staff performed well and won 8 awards, including awards in the frontline staff and supervisory groups (Gold Award, Silver Award, Bronze Award and Merit Award). As the society gradually resumes normalcy, the Group will participate in various tournaments and trainings to further optimize and improve its services, providing customers with more tailored services and unexpected dining experience, so that tourists would be touched by our services and visit Hong Kong again.

Environmental, Social and Governance Report

Motivating and Retaining Talents

For effective personnel management, we offer rewards to our employees based on their performance in different key aspects. By this approach, we hope to motivate staff and boost morale. To appreciate the hard work of our employees, we offer monthly target bonus with reference to multiple perspectives such as monthly revenue, operating costs, hygiene condition, feedback from secret customers, and the number of cases of work-related injury.

Promoting Diversity at Workplace

During the Reporting Year, we were awarded with “Partner Employer Award 5+”. The award commends our efforts in building an inclusive society and promoting corporate social responsibilities.

The Group obtained the honor of “2021-22 Social Capital Builder-Logo Award” for three consecutive years, which commended the contributions to the social capital development in Hong Kong, and enabled social circles to witness the achievements of the establishment of social capital in Hong Kong.

We believe that a diversified team is helpful to the success of our business. We strive to ensure that our recruitment process is fair and without any discrimination. Equal opportunities are offered to disabled and rehabilitated persons. As such, we aspire to promote disability inclusion, and demonstrate care and acceptance to enable rehabilitated people to reintegrate themselves into the society.

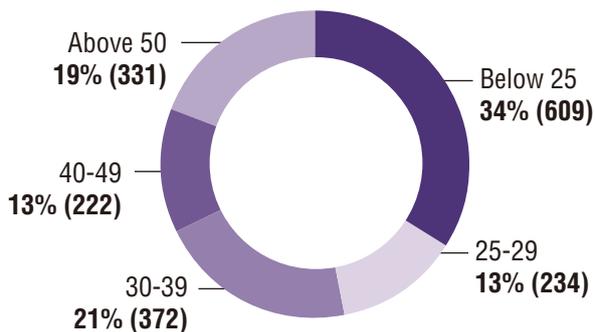

Moreover, we strive to promote gender equality in the workplace. To arouse awareness of gender-related issues, we have joined the Network of Gender Focal Point established by the Government and Women’s Commission. Our executive Director, Ms. Ko Sau Chee Grace, has been nominated as our representative of Gender Focal Point Network of the Women’s Commission since 2018, who serves as the contact person for coordination of gender-related matters between the Government and us.

As at 31 December 2022, the Group had 1,768 (2021: 1,499) employees all based in Hong Kong. The details by gender, employment type and age group shown as follows.

BY GENDER

BY AGE GROUP

BY EMPLOYMENT TYPE

Environmental, Social and Governance Report

During the Reporting Year, a total of 1,503 (2021: 684) members of staff resigned or dismissed from their positions in Hong Kong. The statistics for staff turnover rates is as follows.

	Age Group					Gender	
	Below 25	25–29	30–39	40–49	Above 50	Male	Female
	Average monthly turnover rate						
2022	12%	5%	4%	5%	4%	8%	7%
2021	5%	5%	3%	3%	2%	4%	4%

Average monthly turnover rate is the number of leavers of each category of the year divided by the number of employees of that category at the end of the year, and divided by 12 months.

Compliance

As a responsible employer, we comply with all relevant employment laws and regulations that have a significant impact on us, including but not limited to “Employment Ordinance”, “Mandatory Provident Fund Schemes Ordinance”, “Minimum Wage Ordinance”, “Sex Discrimination Ordinance” and “Employees’ Compensation Ordinance” in Hong Kong.

To avoid forced and child labour, Human Resources Department performs detailed interview screening procedures for each candidate. A thorough background check is conducted to verify the personal data stated on the application forms by examining the applicants’ original identity card and making detailed inquiries to ensure that we do not employ child labour.

If management discovered any child labour, we would immediately terminate the contract and investigate into the incident. Forced labour is strictly prohibited by the Group with zero tolerance. We are serious about child labour and shall take disciplinary actions against any staff members who are accountable for the causes of the incident.

SOCIAL — EMPLOYMENT AND LABOUR PRACTICE

Developing Talent

We consider employees as our partners. Thus, we place great emphasis on personal development of our employees. A wide range of training programs are provided to our employees to enhance their knowledge and capabilities. During the Reporting Year, 4,939 (2021: 5,920) hours of training were recorded.

100% of employees had attended trainings during the Reporting Year. The average training hours completed per employee by gender and employee category for the Reporting Year is as follows:

	Male	Female
Frontline staff	4.1 hours	4.1 hours
Office staff	1.5 hours	1.5 hours

Our employees have the expertise and vast experience in their positions with adequate training provided. Meat planer operators must be trained and they have to obtain relevant certificate to prove that they are qualified and capable of operating the meat planer machines in order to ensure that the food quality is maintained.

The online training platform (LMS) has been established and launched, in order to provide more non-face-to-face training and more interactive learning mode for employees during the pandemic period. More than 40 online courses are currently available, covering company culture and service philosophy, professional knowledge and skills of frontline employees, occupational and food safety, anti-corruption and good faith training and character and management philosophy etc, which will be updated regularly and with plans for system upgrade in the coming year to improve its amusement and interactivity.

“Cool” Kitchen

Kitchen is commonly perceived as a place full of hidden hazards. We strive to minimize potential kitchen hazards and make kitchen a “cool” place to work. No record of work-related fatality was recorded in the last three years.

Meat Slicer Training are provided to our newly recruited meat slicers. Upon completion of the training, “Authorized Slicer Certification” would be granted to the relevant employees. Moreover, the name of our “Certified Meat Slicers” are displayed on every Meat Slicing Machine. With this precautionary measure, we ensure that only the staff holding the certification are allowed to operate the Meat Slicers.

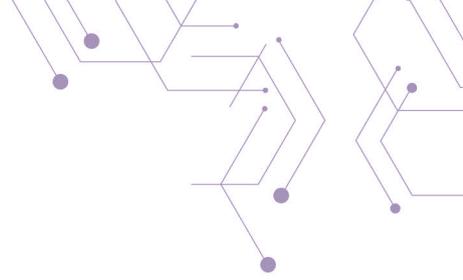

We have made use of various “Green Energy-Efficient Catering Equipment”. The equipment offers a number of features, which helps make our kitchen “cool”.

- Pre-mix Burner
Minimizes heat loss and noise level for achieving a more comfortable working environment.
- Preinstalled Flame Failure Device, “Hybrid Flame Ionization Detection” (HFID)
Offers fast response cut-off time, which further enhances occupational safety.

Moreover, we have adopted the use of dishwashers and mesh belt cleaners to automate the work processes of dishwashing and mesh-cleaning. Through the application of automation of some kitchen work processes, we aim to reduce employee workload and ease employees’ burden at workplace.

Care About Well-being of Employees

Full health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Not only do we care about our employees’ health and physical safety, but we also pay attention to their mental well-being so as to help realize their potential capacity.

Physical Well-being

We focus on creating a team of healthy and well-motivated employees. Therefore, we have made every effort to improve the physical well-being of our employees.

To facilitate staff to inject COVID-19 vaccination and rest after injection, we offered one day full paid sick leave to eligible employees after each dose of injection. Confronted with the COVID-19, in addition to the annual free influenza vaccination program, the Group also provided anti-pandemic materials (including alcohol hand sanitizers and masks) for colleagues. The Group released the personal preventive and sanitary measures in the monthly electronic bulletin, and posted them in the information column at the obvious position. Each colleague is required to attend online courses for the prevention of COVID-19 infection, have their temperature examined and fill in the record form before going to work, use alcohol hand sanitizers, and clean and disinfect hands at fixed time. All the employees mutually inspected personal sanitary and health conditions, and enhanced their consciousness of supervision, in order to guarantee their health and fight against the pandemic with concerted efforts.

In order to protect our employees, we purchase medical insurance for employees and offer them discounts for dental and body check-up through cooperation with external medical institutions.

During the Reporting Year, there were 26 reported injuries and a loss of 657 days due to the work injuries. Occupational health and safety are high priorities in the Group, we wish to avoid any work-related injuries. Written guidelines and training sessions related to occupational health and safety are provided to our employees to make sure that they fully understand the risk factors involved and the corresponding protective measures. Various protective accessories such as protective gloves and goggles, and allowances for safety shoes are provided to our employees. We also post reminders in the workplace to remind employees to wear such accessories at work.

- Fire escape route map is posted in prominent position.
- Suitable kits should be used to prevent burns when touching hot objects.
- When carrying out high-risk duties such as using meat planers and burners, operators are reminded to pay special attention to industrial safety.
- Before cleaning and inspection of the kitchen machines, power should be switched off to ensure occupational safety.
- When carrying/transferring loads heavier than five kg, another employee/other employees should be present for offering assistance.
- When lifting objects to a position above eye level, ladder should be used.
- When handling chemicals including bleach and detergent, appropriate safety goggles and gloves should be used.

Mental Well-being

LH Group and Kabushikigaisha Limited were awarded the “Happiness at Work 10+” by the Promoting Happiness Index Foundation for the ninth consecutive year. A happy workplace and environment can ensure positive mental well-being among our employees. By this way, we would like to attract and retain more talents to join us together to build this happy and motivative atmosphere inside the Group. Besides, we have signed the Joyful@Healthy Workplace Charter organised by Occupational Safety and Health Council to undertake that we will take actions in promoting healthy diet, physical activity and mental well-being within the Group.

To relieve employees’ stress from their daily life, we not only provide festive snacks and after-work interest classes, but also regularly published mental health information through the Company’s electronic publications and set up an online advice collection channel to help employees sort out their emotions and work efficiently.

Flexible Working Hours

We value the well-being of our employees. Therefore, we strive to offer greater autonomy of employees over their work so as to improve work-life balance and cater for their needs. In LH Group, both office and frontline employees are allowed to decide their own working schedules, and they may work on a part-time or full-time basis upon their choice. We also offered work-from-home options for office employees in view of the COVID-19 pandemic.

We understand that many housewives have the desire to work, and yet the desire is restrained by the heavy household workload in taking care of their children. Our flexible working schedules are especially fit for housewives known as “housewives shift” which is offered to housewives in order to allow them to strike a balance between work and family matters.

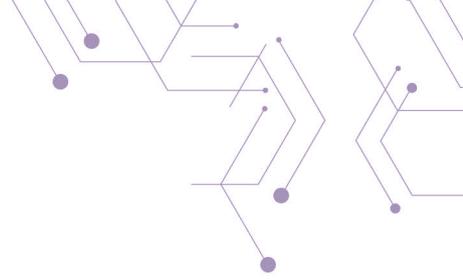

Compliance

We are dedicated to providing a pleasant and safe working environment for all of our employees. Occupational health and safety of our employees are of our top priority. We strictly comply with all relevant laws and regulations regarding workplace safety that have a significant impact on us, including but not limited to “Occupational Safety and Health Ordinance” and “Factories and Industrial Undertakings Ordinance”.

SOCIAL — OPERATING PRACTICES

Supply Chain Management

The Group places great emphasis on supply chain management. We support the purchases of environmentally-friendly and socially responsible products to minimize the environmental impact caused by our business operations, and thus enhance our service quality and performance standard. During the Reporting Year, we had cooperated with approximate 288 (2021: 278) Hong Kong based suppliers.

We review regulatory updates and announcements from the Government, read news and pay special attention on environmental, food safety, and information about suppliers we are cooperating with regularly. We also attend seminars and exhibition to receive industry updates, and communicate with our suppliers regularly to get the most updated information they had regarding the products they provided. When we identify any environmental or social risks along the supply chain, we inform the management about the potential risks, assess the likelihood and impact of the risks and discuss in meetings. We then take follow up actions if necessary, including but not limited to stop using the products and find alternatives.

Environmentally Responsible

Environmental costs, eco-feature and eco-performance are taken into consideration by management prior to each of our purchase transactions. To achieve sustainable procurements, various measures are implemented:

Purchases of Ingredients

Our Priority: Organic, fresh, locally-produced, sustainable, hydroponic and environmentally-certified ingredients

Purchases of Cleaning Supplies

Our Priority: Bio-degradable garbage bags and environmentally friendly detergent, as well as towels made of organic cotton and green tissue paper

Purchases of Catering Equipment

Our Priority: Catering equipment with eco-labels (including but not limited to Green Specifications specified by Environmental Protection Department, and Energy Efficiency Labels issued by Electrical and Mechanical Services Department)

Socially Responsible

We cooperate closely with our suppliers to ensure the quality of our products and services provided to our customers and to fulfil our social responsibility. We have been purchasing from socially responsible suppliers who comply with the requirements of ISO 22000 “Food Safety Management System” to uphold the food safety standard along the supply chain.

Besides, annual appraisal of our major suppliers is done to ensure the abovementioned quality performance, and in this regard, we request the suppliers to provide documents for verifying the sources of supplies, such as certificates of origin.

Before accepting deliveries of supplies, we conduct quality inspection in accordance with our standards for different ingredients. If there is any discrepancy found, we will return them to the suppliers and request re-delivery, failing which we will take further actions as appropriate.

Striving to Create Great Customer Experience

The Group strictly complies with the relevant laws and regulations relating to product responsibility that have a significant impact on us, including but not limited to the “Trade Descriptions Ordinance” and “Sale of Goods Ordinance” in Hong Kong. All photos of the menu are captured from the original dishes to avoid misinterpretation, and descriptions are detailed on the menu regarding the components of food.

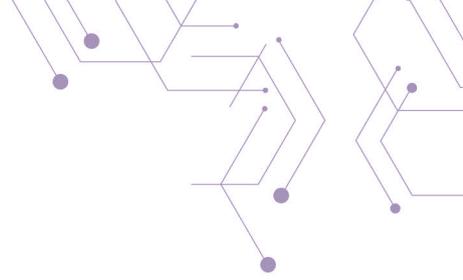

The Group strictly complies with the advertising requirements. All kinds of advertisements shown on leaflets or company websites are carefully drafted to avoid the use of false or misleading descriptions. All final drafts of the advertisements must be approved by our management before their bulk printing or uploading on websites.

We have registered trademarks which are important to our business. We regularly monitor our trademarks to prevent them from being infringed. We are committed to protecting intellectual property rights with great care during our daily operations, while we carry on our business operations.

In the face of epidemic, more customers prefer to order takeaway and stay at home for meals. In order to cater for the needs of these customers, we have opened up and strengthened our food delivery and takeaway services, through our online food delivery platform “Kabu-go”, online order from website and also third-party platforms. Through these platforms, customers can still enjoy our meals while staying at home. Meanwhile, we also provide mobile ordering service for dine-in customers to create better customer experience.

The Group is innovative to explore and develop different means in order to enhance customer experience of our customers in different sectors. By launching the “Kabu App”, we are dedicated to connecting with our customers and delivering to them a pleasant dining experience.

	<p>i-Queue Use your mobile phone to pick up tickets anytime and anywhere, while physical presence is not required.</p>
	<p>Booking Secure your table in our restaurants for the preferred time from 24 hours up to 60 days in advance without waiting.</p>
	<p>Member Area Get your exclusive discounts and e-coupons without bringing your physical card.</p>
	<p>Latest News Keep you updated with our latest promotion and menu.</p>

Customers' opinions and feedback help to drive continuous improvement and are vital to our pursuit of excellence. Various communication channels such as emails, facebook and customer service hotline have been established with the aim to better address our customers' concerns. During the Reporting Year, we have received 191 complaints and 535 compliments through various channels. Upon receipt of a complaint, shop manager/customer service staff obtain preliminary information from the customer and fill in the "Incident Report". The shop manager/customer service staff forward the "Incident Report" to the responsible personnel, investigate into the matter and take appropriate remedy actions in a timely manner. If the complaint is unsubstantiated, no actions will be taken. No matter the complaint is substantiated or not, the investigation results will be communicated to the customer.

Striving to Provide Excellent Quality

We work our best to ensure that our customers can consistently enjoy good quality food, and standardized food recipes are provided to our chefs who are required to work out the time of the relevant cooking procedures for preparing the food in seconds, with an aim to treat each dish on the food recipes in an accurate way.

Storage Quality Control

- The shelf lives of different food ingredients vary. We regularly assess the freshness of seafood, frozen meat and canned food which have shelf lives ranging generally from one day to one week, one to six months, and one to two years, respectively.
- We keep record of the delivery and expiry dates of each batch of food ingredients, conduct monthly inventory count and monitor the quality of inventory on a daily basis to ensure that the food ingredients are used well before their expiry dates.

Logistics Quality Control

- We deliver food ingredients with our own trucks from our central processing and logistic centre to our restaurants at least once every day to ensure their freshness.
- We have formulated requirements of the hygienic condition and temperature of the refrigerated trucks.

Restaurant Quality Control

- We have formulated standard recipes and cooking procedures for our dishes.
- We conduct spot-checks of our restaurants with respect to their ambience, service quality, food quality and restaurant management.
- We hold performance evaluation meetings regularly as for food and service quality.
- We have engaged an independent consulting company to send secret customers to evaluate our restaurants' ambience, service quality, food quality and restaurant management.

Striving to Enhance Customer Privacy

We have launched “Kabu Pass” to recruit members of Kabushikigaisha Limited in order to build customer trust and loyalty. In this respect, we strictly comply with all laws and regulations regarding data privacy and protection, including but not limited to, “Personal Data (Privacy) Ordinance” in Hong Kong.

We handle members’ personal information with great care. Accordingly, measures have been established to reduce the risk of leaking confidential information to outsiders. Members’ data are stored in a separate server which is protected by firewall. Proper authorization is needed for any access to the server, and regular data backup is done to protect the members’ data.

Striving to Ensure Food Safety

A substantial portion of the food ingredients used in our restaurants is initially delivered to our central processing and logistic centre in Yau Tong. Our quality and safety department oversees the quality of food during the transportation process from the central processing and logistic centre to our restaurants and that stored at our restaurants.

Quality and safety department is responsible for handling and addressing food quality and safety issues, formulating and reviewing food safety policies and guidelines, and managing our central processing and logistic centre to ensure our compliance with ISO 9001 and ISO 22000 standards, and provide food safety training to our employees.

We comply with all relevant laws and regulations regarding food safety that have a significant impact on us, including but not limited to, “Food Safety Ordinance” in Hong Kong.

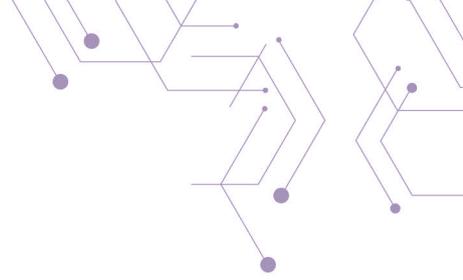

Traceable Food Sourcing

Apart from the vendor assessment as mentioned above, we also trace the source of food to ensure its quality. To uphold a high hygienic standard of food, certificate of country of origin is obtained from our vendors with the certificate issued by the relevant issuing authority of the country of origin which accompanies the imports for certifying that the food products concerned are fit for human consumption. Inspectors also keep track of the expiry dates of food to ensure that our customers are served with fresh food in respect of which it is safe to eat.

Personal Hygiene

Personal hygiene is the key requirement for all our employees especially for those who are responsible to handle food directly. We stipulate operating procedures on personal hygiene for employees to understand the importance of personal hygiene, by which we ensure that we can provide our customers with assurance of the quality of meals served in our restaurants.

Environmental, Social and Governance Report

Hand hygiene is the primary measure proven to be effective in preventing the spread of antimicrobial resistance. In this regard, every frontline staff member has been well trained with the proper hand washing procedures.

Food Processing

We have stipulated an internal quality control procedures and requirements for frontline staff to follow when handling food. For instance, staff are told to use particular chopping boards, knives and towels for handling raw meat, cooked vegetable, ready-to-eat vegetable and cooked meat respectively to avoid cross-contamination.

To ensure preservation of food safety, we look into each piece of equipment and appliances used. Regular cleaning of refrigerators, chopping boards, meat chopper machines and ice-cream machines is done in order to attain a high food safety standard. Regular monitoring of the temperature of the refrigerators is made for ensuring that food is kept in good condition under a constant temperature range. Equipment is routinely calibrated, inspected and checked with proper records kept to ensure proper functioning of the relevant equipment.

With all the effort spent, we got an average score of 93.4 (2021: 92.4) out of 100 for all the food safety inspections done by independent third party for our restaurants. The inspections were focused on several areas: Escherichia coli and Salmonella concentration on food samples; aerobic plate count; Escherichia coli and Staphylococcus aureus concentration on knives, chopping boards, fridge door handles, food storage containers and staff's hands.

Corporate Integrity

We comply with all relevant laws and regulations that have a significant impact on us including but not limited to the "Prevention of Bribery Ordinance". During the Reporting Year, no concluded legal cases regarding corrupt practices brought against the Group or our employees were noted.

The Group does not tolerate any form of corruption (including the giving and receiving of bribes) and we take the most serious view of any attempt to commit corrupt practices by members of staff, contractors, agents and business partners. Cases of suspected corruption will be properly investigated and appropriate actions, including disciplinary measures, reporting to the appropriate authorities, prosecution and active pursuit of recovery will be taken.

We encourage all management and employees to report violations or suspected violations to the Group when they have serious concerns about possible improprieties in the matters of finance and accounting or other matters of suspected irregularities in the Group.

An anti-corruption training is provided to all directors and staff through the LMS system. The training lasts for half an hour and all staff are required to complete the training and pass the test. The anti-corruption training consisted of video sharing on topics including monitoring of money, receiving of benefits, inventory management, contact with suppliers and purchases decision. In addition, we have specially invited ICAC mentors to carry out themed seminars and training for the management of the entire Group through physical and online forms this year. We hope to emphasis the importance of anti-corruption in the Group through the training.

Caring About People

Cooperating with “Commission on Poverty (扶貧委員會)”

The Group has been engaging in charitable and social work activities to help the young and underprivileged. Our staff acted as mentors in the “Life Buddies” programme and the “Strive and Rise” programme, organized visits to our restaurants and introduction to our work, in order to provide inspiration and advice to the younger generation, particularly junior secondary students, to help them improve their life skills, enhance their exposure, strengthen their confidence, establish a positive view of life and develop a vision for their future to strive for excellence.

Supporting “Orbis World Sight Day”

The Group acted as the “Darkness to Go Action Partner” in supporting “Orbis World Sight Day 2022” to focus global attention on blindness and visual impairment. To show our support in this meaning event, HK\$5 will be donated to Orbis upon purchase of specific food items in our restaurants during the campaign period.

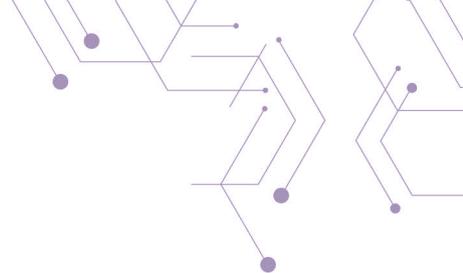

Acted as corporate partner for university projects

The Group acted as a corporate partner for the Company Consultancy Projects for marketing final year students of the City University of Hong Kong. Students were given different topics based on real business situation and they had to conduct marketing research and provide business solutions for the company. Our marketing colleagues acted as advisers and provide feedback to the students’ proposals. It was a great learning opportunity for both our colleagues and the students. Students had a chance to work for a real business case, which enhance their business acumen and prepare them for the future career challenges. At the same time, the students provided creative ideas and valuable insights for attaining a win-win situation in return.

Furthermore, Mr. Wong Kit Lung Simon, the Chairman and Chief Executive Officer of the Group, also established awards and rewards for the program in his own name to recognise those students with outstanding performance. During the Reporting Year, awards and rewards were successfully granted.

Became accredited merchant under the Quality Tourism Services (QTS) Scheme

Our restaurant was accredited under the Quality Tourism Services Scheme by the Hong Kong Tourism Board (HKTB) in 2022. HKTB appoints independent professional consultants to formulate and implement the assessment criteria of the scheme. Accredited merchants will undergo one on-site appraisal and multiple visits by mystery shoppers every year, in order to conduct in-depth and objective appraisal on the service quality of the merchants.

Caring About the Environment

Support Environmental Protection by Waste Reduction and Recycling

The Group promotes green work and life through various measures. In 2022, we participated in the Lai See Reuse and Recycle Program organised by Greeners Action. We also participated in plastic waste recycle activity held by shopping malls. Plastic waste collected will be transformed to green floor tiles through special treatment and used in the malls.

Support “World Environment Day” by planting trees

We participated in the World Environment Day on June 5, 2022, in which Impossible Foods partnered with One Tree Planted to plant a tree for every “Impossible foods” dish ordered in June 2022 for participating restaurants. During the Reporting Year, we contributed to planting 1,280 trees in this campaign.

Discourage the use of disposable tableware

No disposable tableware sets were provided to customers proactively for takeaway. Request for each tableware set is subject to surcharge of HK\$2. We aim to encourage customers to reduce the use of plastic disposables and develop the habit of using reusable tableware even when ordering takeaway.

Discourage the use of straws

No straws were distributed to customers proactively. We provide straws made of sugar cane fibres as an alternative only upon request by the customers. We also offered price deduction for specific drinks if the customers do not use a straw. We aim to create greater incentives for customers to reduce not only the use of plastic materials, but also reduce solid waste.

Partnership for Sustainability Leadership in Business

The Group and its partners received awards under the Partnership for Sustainability Leadership in Business of Centre for Civil Society and Governance of the University of Hong Kong. The aim of this initiative is to encourage large companies and SMEs to cooperate in addressing sustainability related matters, and recognize large companies that facilitate its SME partners to improve their sustainable operation capability. The Group was awarded the Merit Awards under the Sustainable Value Chains Commitment and SMEs Sustainability Leadership Recognition Scheme, which acknowledge the Group’s contribution to global sustainable development.

Independent Auditor's Report

To the Shareholders of LH Group Limited

(incorporated in the Cayman Islands with limited liability)

OPINION

What we have audited

The consolidated financial statements of LH Group Limited (the “**Company**”) and its subsidiaries (the “**Group**”), which are set out on pages 94 to 162, comprise:

- the consolidated statement of financial position as at 31 December 2022;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

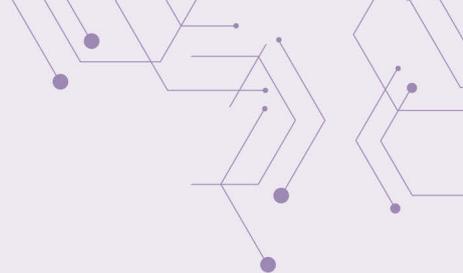

We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (“**the Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter identified in our audit is related to revenue recognition in respect of restaurant operations.

Key Audit Matter	How our audit addressed the Key Audit Matter
<p>Revenue recognition in respect of restaurant operations</p> <p>Refer to Note 2.21 and Note 5(a) to the consolidated financial statements for the Group's accounting policy on revenue recognition and notes on revenue, respectively.</p> <p>For the year ended 31 December 2022, revenue of restaurant operations amounted to HK\$1,057.8 million (2021: HK\$993.6 million).</p> <p>Revenue recognition in respect of restaurant operations is identified as a key audit matter as revenue is one of the key performance indicators of the Group. The recording of revenue involves high volume of small transactions through various information technology systems, any errors may have a significant impact to the consolidated financial statements. Therefore it required significant time and resource to audit this area.</p>	<p>In respect of revenue recognition in respect of restaurant operations, we carried out the following audit procedures:</p> <ul style="list-style-type: none"> obtained an understanding of management's key internal controls over the revenue recognition process; evaluated and tested the operating effectiveness of management's key internal controls over the revenue recognition process and assessed the inherent risk of material misstatement by considering the inherent risk factors such as the complexity of the information technology systems and susceptibility to management bias; involved Information Technology specialists to evaluate the design of the relevant controls (including automated controls) over revenue recognition and tested the operating effectiveness of those controls; and tested the occurrence of revenue from the operation of restaurants on a sample basis by tracing to bank receipts. <p>Based on our audit procedures performed, we found that revenue recognition in respect of restaurant operations is supportable by evidence obtained.</p>

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Audit Committee is responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Independent Auditor's Report

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Chan Kam Chiu, Raymond.

Notes to the Consolidated Financial Statements

1 GENERAL INFORMATION

The Company was incorporated in the Cayman Islands on 9 June 2017 as an exempted company with limited liability under the Companies Act of the Cayman Islands and its shares have been listed (the “**Listing**”) on the Main Board of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) since 30 May 2018 (the “**Listing Date**”). The address of the Company’s registered office is Walkers Corporate Limited, 190 Elgin Avenue, George Town, Grand Cayman KY1-9008, Cayman Islands.

The Company is an investment holding company and its subsidiaries are principally engaged as full-service restaurants operator serving Asian cuisine including Japanese, Korean, Cantonese and Shanghainese cuisine in Hong Kong.

These consolidated financial statements are presented in Hong Kong Dollar (“**HK\$**”), unless otherwise stated.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years and periods presented, unless otherwise stated.

2.1 Basis of preparation

The principal accounting policies applied in the preparation of the consolidated financial statements of the Group which are in accordance with the Hong Kong Financial Reporting Standards (“**HKFRSs**”) and disclosure requirements of the Hong Kong Companies Ordinance Cap. 622. These consolidated financial statements have been prepared under the historical cost convention.

The preparation of these consolidated financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to these consolidated financial statements are disclosed in Note 4.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.1 Basis of preparation (continued)

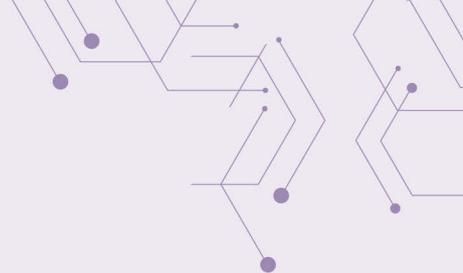

(a) *New and amended standards adopted by the Group*

The Group has applied the following amendment for the first time for their annual reporting period commencing 1 January 2022:

Accounting Guideline 5 (Revised)	Merger Accounting for Common Control Combinations
HKAS 16 (Amendments)	Property, Plant and Equipment: Proceeds before intended use
HKAS 37 (Amendments)	Onerous Contracts — Cost of Fulfilling a Contract
HKFRS 3 (Amendments) Annual Improvements Project (Amendments)	Reference to the Conceptual Framework Annual Improvements 2018–2020 Cycle

The amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

The Group has not adopted any new or amended standards or interpretations that are not yet effective for the year ended 31 December 2022.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.1 Basis of preparation (continued)

(b) *New standards and amendments to HKFRS in issue but not yet effective*

		Effective for annual periods beginning on or after
HKFRS 17	Insurance Contracts	1 January 2023
HKAS 8 (Amendments)	Definition of Accounting Estimates	1 January 2023
HKAS 1 and HKFRS Practice Statement 2 (Amendments)	Disclosure of Accounting Policies	1 January 2023
HKAS 12 (Amendments)	Deferred Tax related to Assets and Liabilities arising from a Single Transaction	1 January 2023
HKAS 1 (Amendments)	Classification of Liabilities as Current or Non-current	1 January 2024
Hong Kong Interpretation 5 (Revised)	Presentation of Financial Statements — Classification by Borrower of a Term Loan that Contains a Repayment on Demand Clause	1 January 2024
HKFRS 10 and HKAS 28 (Amendments)	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined

Certain new accounting standards, amendments to accounting standards and interpretations have been published that are not mandatory for 31 December 2022 reporting period and have not been early adopted by the Group. These standards, amendments or interpretations are not expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.1 Basis of preparation (continued)

(c) *Comparative figure*

The comparative figures of depreciation of right-of-use assets and property rentals and related expenses have been combined to present in the consolidated statement of comprehensive income to provide better understanding of the Group's performance to the reader.

2.2 Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

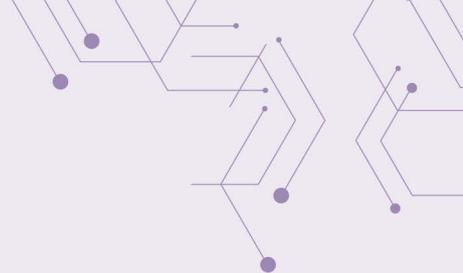

The acquisition method of accounting is used to account for business combinations by the Group.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

2.2.1 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.3 Foreign currency translation

(a) *Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "**functional currency**"). The consolidated financial statements are presented in HK\$, which is the Company's functional and the Group's presentation currency.

(b) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss.

2.4 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (the "**CODM**"). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the directors of the Company, who make strategic decisions.

2.5 Property, plant and equipment

Land and buildings comprise mainly central processing and logistic centre and offices. Leasehold land classified as finance lease and all other property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the consolidated statements of comprehensive income during the financial period in which they are incurred.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 Property, plant and equipment (continued)

Depreciation of property, plant and equipment is calculated using the straight-line method to allocate their costs to their residual values over their estimated useful lives, as follows:

— Land and buildings	Over the lease term
— Leasehold improvements	Over the lease term
— Restaurant and kitchen equipment	Over the shorter of lease term or 5 years
— Furniture and fixtures	Over the shorter of lease term or 5 years
— Office equipment	5 years
— Motor vehicles	5 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

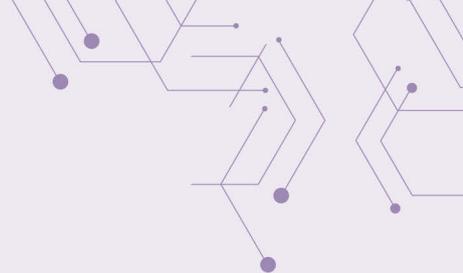

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.8).

Gains and losses on disposals of property, plant and equipment are determined by comparing the proceeds with the carrying amount and are recognised within 'other operating expenses' in the consolidated statements of comprehensive income.

2.6 Investment properties

Investment properties, principally comprising leasehold land and buildings, are held for long-term rental yields or for capital appreciation or both, and that are not occupied by the Group.

Investment properties are initially measured at cost, including related transaction costs and where applicable borrowing costs. After initial recognition, investment properties are carried at cost less accumulated depreciation and accumulated impairment losses (Note 2.8). The cost of investment properties comprises its purchase price and any directly attributable expenditure. Depreciation is calculated using the straight-line method to allocate the depreciable amounts over the lease term. The residual value and useful life of the investment properties are reviewed, and adjusted as appropriate, at the end of each reporting period. The effect of any revision is included in the consolidated statements of comprehensive income when the change arises.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.7 Intangible assets

(a) *Franchises*

Separately acquired franchises are shown at historical cost. Franchises have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of franchises over the franchise term of 10 years.

(b) *Tradename*

Acquired tradename is shown at historical cost. Tradename has finite useful lives and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of tradename over its estimated useful life.

2.8 Impairment of non-financial assets

Assets that are subject to amortisation or depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

2.9 Financial assets

2.9.1 *Classification*

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss); and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.9 Financial assets (continued)

2.9.1 Classification (continued)

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

2.9.2 Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

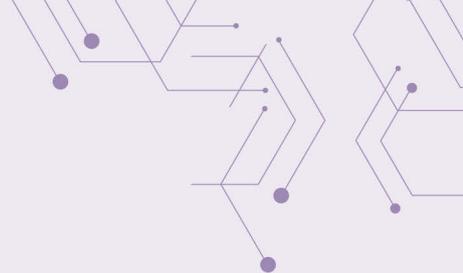

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. The Group classifies its debt instruments as amortised cost. Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses), net, together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in profit or loss as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.9 Financial assets (continued)

2.9.3 Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

2.10 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

2.11 Impairment of financial assets

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Impairment on other financial assets at amortised cost is measured as either 12-month expected credit losses or lifetime expected credit loss, depending on whether there has been a significant increase in credit risk since initial recognition. If a significant increase in credit risk of a receivable has occurred since initial recognition, then impairment is measured as lifetime expected credit losses.

2.12 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the first-in, first-out (FIFO) method. The cost comprises invoiced cost less purchase rebates. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.13 Trade and other receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for impairment.

2.14 Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less.

2.15 Share capital

Ordinary shares are classified as equity.

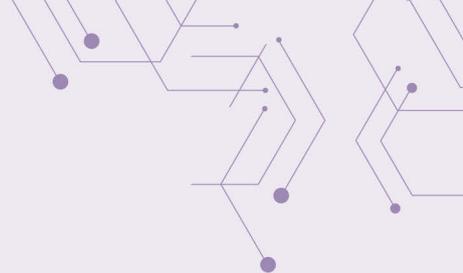

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

2.16 Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are presented as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities. Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.17 Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in the profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.17 Current and deferred income tax (continued)

(a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company's subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(b) Deferred income tax

Inside basis differences

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated statements of financial position. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Outside basis differences

Deferred income tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.17 Current and deferred income tax (continued)

(c) *Offsetting*

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

2.18 Employee benefits

(a) *Pension obligations*

In Hong Kong, the Group contributes to the mandatory provident fund scheme for eligible employees, the assets of which are held in a separate trustee-administered funds. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due.

(b) *Employee leave entitlements*

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

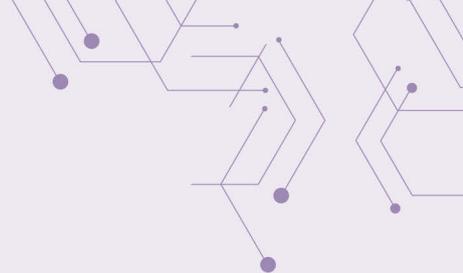

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(c) *Long service payments*

In Hong Kong, employees who have completed a required number of years of service to the Group are eligible for long service payments under the Hong Kong Employment Ordinance in the event of the termination of their employment, provided that such termination meet the circumstances specified in the Hong Kong Employment Ordinance.

(d) *Provision for bonus plans*

Bonus payments to employees are discretionary to management. Bonus payments are recognised in profit or loss in the period when the Group has formally announced the bonus payments to employees.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.19 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to passage of time is recognised as interest expense.

2.20 Customer loyalty programme

Sales of catering services that result in award credits for customers, under the customer membership programme of the Group, are accounted for as multiple element revenue transaction and the fair value of the consideration received or receivable is allocated between the catering services provided and the awards for which they could be redeemed/entitled. Such consideration is not recognised as revenue at the time of the initial sales transaction, but is deferred and recognised as revenue when the awards are redeemed or the Group's obligations have been fulfilled.

2.21 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for goods supplied, stated net of discounts, returns and value added taxes. If contracts involve the sale of multiple services, the transaction price will be allocated to each performance obligation based on their relative stand-alone selling prices. If the stand-alone selling prices are not directly observable, they are estimated based on expected cost plus a margin or adjusted market assessment approach, depending on the availability of observable information.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.21 Revenue recognition (continued)

Revenues are recognised when or as the control of the goods is transferred to the customer. Depending on the terms of the contract and the laws that apply to the contract, control of the goods or service may be transferred over time or at a point in time. Control of the goods or service is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer;
- creates or enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the asset transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the asset. Specific criteria where revenue is recognised are described below.

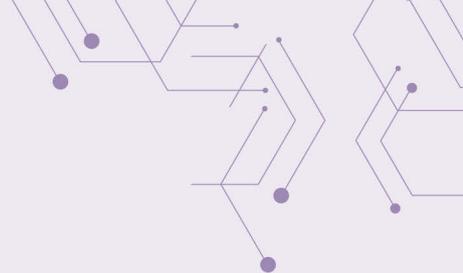

(a) **Restaurant operations**

(i) *Sale of catering services*

The Group operates a chain of restaurants. Sales is recognised at a point in time when catering services have been provided to the customers. Payment of the transaction price is due immediately after dining.

(ii) *Sale of membership*

As part of the Group's ordinary activities, memberships (which is a package with coupons and future discount) are sold to customers in its Asian cuisine restaurants. The receipts in respect of the coupon element are deferred and recognised as "deferred revenue" in the consolidated statement of financial position based on the expected future redemption as at year end. The Group implements a contractual expiry policy for the membership under which any unutilised coupons are fully recognised as revenue in the consolidated statement of comprehensive income upon their expiry. The receipts in respect of the discount element are recognised as revenue in the consolidated statement of comprehensive income over the term of the membership.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.21 Revenue recognition (continued)

(b) *Sale of food ingredients*

Sales is recognised on the transfer of risks and rewards of ownership, being when the products are delivered to the customer. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(c) *Interest income*

Interest income is recognised using the effective interest method, on a time-proportion basis.

2.22 Leases

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the Group is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Group under residual value guarantees
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.22 Leases (continued)

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

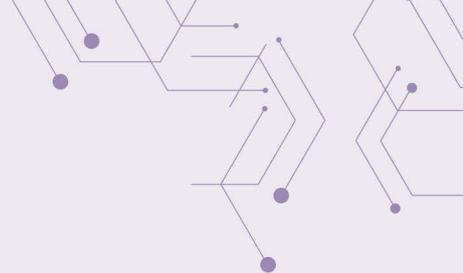

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third party financing, and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life. While the Group revalues its land and buildings that are presented within property, plant and equipment, it has chosen not to do so for the right-of-use buildings held by the Group.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.22 Leases (continued)

Payments associated with short-term leases of equipment and vehicles and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT equipment and small items of office furniture.

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term (Note 14). Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income. The respective leased assets are included in the balance sheet based on their nature. The Group did not need to make any adjustments to the accounting for assets held as lessor as a result of adopting the new leasing standard.

2.23 Earnings per share

(i) **Basic earnings per share**

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the company, excluding any costs of servicing equity other than ordinary shares
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

(ii) **Diluted earnings per share**

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.24 Dividend distribution

Dividend distribution to the shareholders is recognised as a liability in the consolidated financial statements in the period in which the dividends are approved by the entity's shareholders or directors, where appropriate.

Dividend proposed or declared after the reporting period but before the financial statements are authorised for issue, are disclosed as a non-adjusting event and are not recognised as a liability at the end of the reporting period.

2.25 Government grants

Grants from the government are recognised at their fair value when there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate.

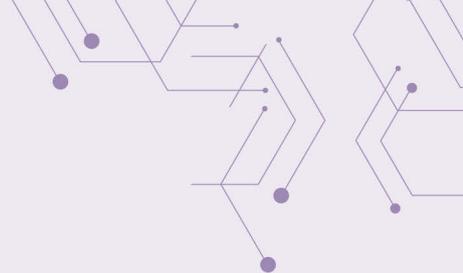

3 FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors

The Group's activities expose it to variety financial risks: market risk (cash flow and fair value interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner. Because of the simplicity of the financial structure and the current operations of the Group, no hedging activities are undertaken by management.

(a) *Interest rate risk*

The Group has no significant interest-bearing assets except for bank deposits, which are at variable interest rate and subject to cash flow interest rate risk. Fixed deposits are subject to fixed rates which expose the Group to fair value interest rate risk.

3 FINANCIAL RISK MANAGEMENT (continued)

3.1 Financial risk factors (continued)

(a) **Interest rate risk** (continued)

As at 31 December 2022, if interest rates on all interest-bearing bank deposits had been 100 basis-points higher/lower with all other variables held constant, profit after taxation would have increased/decreased by approximately HK\$2,050,000 (2021: HK\$1,331,000) respectively, mainly as a result of higher/lower interest income on variable rate bank deposits.

(b) **Credit risk**

Credit risk refers to the risk that the counterparty to a financial instrument would fail to discharge its obligation under the terms of the financial instrument and cause a financial loss to the Group. The Group's exposure to credit risk mainly arises from granting credit to customers in the ordinary course of its operations.

The credit risk of the Group's financial assets, which mainly comprise cash and cash equivalents, short term bank deposit and trade and other receivables, arises from potential default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

All of the Group's trade and other receivables have no collateral. The Group assessed the credit quality of the counterparties by taking into account their financial position, credit history, forward looking information and other factors, Management also regularly reviews the recoverability of these receivables and follow up the disputes or amounts overdue, if any.

Cash and cash equivalents and short term bank deposit

As at 31 December 2022, the credit risk on cash at banks and short term bank deposits is limited because the counterparties are reputable and creditworthy banks, which management believes are of high-credit-quality without significant credit risk.

3 FINANCIAL RISK MANAGEMENT (continued)

3.1 Financial risk factors (continued)

(b) Credit risk (continued)

Trade receivables

The Group applies the simplified approach to providing for expected credited losses prescribed by HKFRS 9, which permits the use of the lifetime expected loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics.

Trade receivables mainly represent receivables from reputable and creditworthy financial institutions in relation to the payment settled by credit cards by customers of which the settlement is normally within 3 days from transaction date. For the remaining customers in relation to sale of food ingredients, credit quality of the customers is assessed based on their historical settlement record. There is no concentration of credit risk as these are receivables from various counterparties.

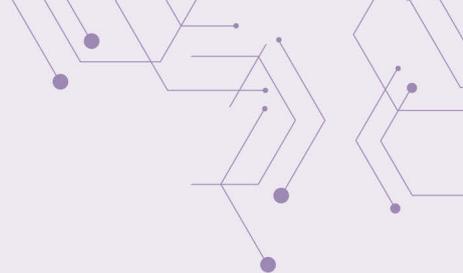

For the trade receivables from financial institutions, the counterparties primarily reputable and creditworthy financial institutions and has strong financial position and management considers the credit risk is not high.

For trade receivables from sale of food ingredients, the Group maintains frequent communications with the counterparties. Management has closely monitored the credit qualities and the collectability of these receivables and consider that the expected credit risks of them are minimal in view of the history of cooperation with them and forward looking information.

The expected credit loss from these trade receivables is considered as immaterial and loss allowance provision recognised for these balances for the year is close to zero.

Deposits and other receivables

The directors of the Group consider the probability of default upon initial recognition of asset and whether there has been significant increase in credit risk on an ongoing basis. To assess whether there is a significant increase in credit risk the Group compares risk of a default occurring on the assets as at 31 December 2022 with the risk of default as at the date of initial recognition. Especially the following indicators are incorporated.

3 FINANCIAL RISK MANAGEMENT (continued)

3.1 Financial risk factors (continued)

(b) Credit risk (continued)

Deposits and other receivables (continued)

- actual or expected significant adverse changes in business, financial economic conditions that are expected to cause a significant change to the company's ability to meet its obligations;
- actual or expected significant changes in the operating results of the company;
- significant changes in the expected performance and behavior of the company, including changes in the payment status of the third party.

Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 30 days past due in making a contractual payment/repayable demanded.

A default on a financial asset is when the counterparty fails to make contractual payments/repayable demanded within 90 days of when they fail due.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Group. The Group categorises a loan or receivable for write off when a debtor fails to make contractual payments/repayable demanded greater than 365 days past due. Where financial assets have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss. The Group reviews regularly the recoverable amount of each individual receivable to ensure that adequate impairment losses are made for irrecoverable amounts. Over the term of the financial assets, the Group accounts for its credit risk by appropriately providing for expected credit losses on a timely basis. In calculating the expected credit loss rates, the Group considers historical loss rates for each category of debtors, and adjusts for forward looking macroeconomic data.

As at 31 December 2022, management considers other receivables as low credit risk as counterparties have a strong capacity to meet its contractual cash flow obligations in the near term. The Group has assessed that the expected credit losses for these receivables are immaterial under 12 months expected losses method. Thus, the loss allowance provision recognised for the year for these balances is immaterial.

3 FINANCIAL RISK MANAGEMENT (continued)

3.1 Financial risk factors (continued)

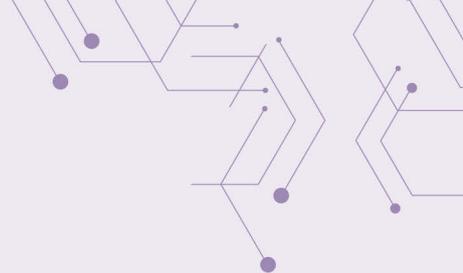

(c) Liquidity risk

The Group's policy is to maintain sufficient cash to meet its liquidity and working capital requirements.

Management monitors rolling forecasts of the Group's liquidity reserve which comprises cash and cash equivalents (Note 20) on the basis of expected cash flows. The Group's policy is to regularly monitor current and expected liquidity requirements, to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the end of the reporting period to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

Contractual maturities of financial liabilities	At 31 December 2022			
	Less than one year HK\$'000	Between one and two years HK\$'000	Between two and five years HK\$'000	Total contractual undiscounted cash flows HK\$'000
Trade payables	58,310	—	—	58,310
Other payables and accruals	65,751	—	—	65,751
Lease liabilities	109,942	74,806	59,529	244,277
	234,003	74,806	59,529	368,338
Contractual maturities of financial liabilities	At 31 December 2021

Trade payables	76,859	—	—	76,859
Other payables and accruals	62,590	—	—	62,590
Lease liabilities	94,348	54,096	43,248	191,692
	233,797	54,096	43,248	331,141

3 FINANCIAL RISK MANAGEMENT (continued)

3.2 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

3.3 Fair value estimation

The carrying values of the Group's financial assets, including trade receivables, deposits and other receivables, short term bank deposits and cash and cash equivalents, and financial liabilities, including trade and other payables and lease liabilities, approximate to their fair values due to their short-term maturities. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments, unless the discounting effect is insignificant.

3.4 Offsetting financial assets and financial liabilities

There is no material offsetting, enforceable master netting arrangement and similar agreements as at 31 December 2022.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

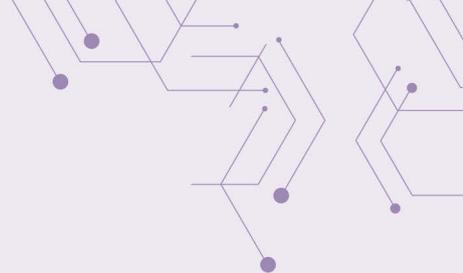

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

(a) Impairment of non-financial assets

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date. These calculations require the use of judgements and estimates.

Management judgement is required in the area of asset impairment particularly in assessing: (i) whether an event has occurred that may indicate that the related asset values may not be recoverable; (ii) whether the carrying value of an asset can be supported by the recoverable amount, being the higher of fair value less costs to sell or net present value of future cash flows which are estimated based upon the continued use of the asset in the business; and (iii) the appropriate key assumptions to be applied in preparing cash flow projections including whether these cash flow projections are discounted using an appropriate rate. Changing the assumptions selected by management in assessing impairment, including the discount rates or the growth rate assumptions in the cash flow projections, could materially affect the net present value used in the impairment test and as a result affect the Group's financial position and results of operations.

The Group has material operational assets (including property, plant and equipment and right-of-use assets) used in the restaurants which are subject to impairment test in the event of financial performance is below expectation. An asset impairment assessment was carried out against the underperforming restaurants and an impairment charge of property, plant and equipment of approximately HK\$4,121,000, right-of-use assets of approximately HK\$6,570,000 and intangible asset of approximately HK\$609,000 were recognised for the year ended 31 December 2022. Management has performed discounted cash flow analysis on the restaurants with impairment indicator and the recoverable amounts were determined based on the higher of fair value less costs to sell and value-in-use calculations of these restaurants. Assumptions used in the calculations include the revenue growth rates, operating costs and discount rate.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)

(b) Impairment of financial assets

The Group follows the guidance of HKFRS 9 to determine when financial assets are impaired. This determination requires significant judgement and estimation based on assumptions about risk of default and expected loss rates. In making this judgement and estimation, the Group evaluates, among other factors, the duration of receivables and the financial health and collection history of individual debtors and expected future change of credit risks, including the consideration of factors such as general economy measure, changes in macroeconomic indicators etc.

(c) Current income taxes and deferred income taxes

Significant judgement is required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current income tax and deferred tax provisions in the period in which such determination is made.

Deferred income tax assets relating to certain temporary differences and tax losses are recognised as management considers it is likely that future taxable profits will be available against which the temporary differences or tax losses can be utilised. Where the expectation is different from the original estimates, such differences will impact the recognition of deferred income tax assets and income tax charges in the period in which such estimates are changed.

(d) Contract liabilities of customer loyalty programme

The membership fee in respect of the coupons and discount element and dining income in respect of loyalty points and renewal membership element are deferred and recognised as contract liabilities at the year end.

Significant management judgement is required in determining the fair value and expected redemption rate of loyalty points, coupons and discount and the fair value of each membership and expected renewal rate. Changing the assumptions selected by management in assessing the utilisation of membership elements may affect the Group's financial position and results of operations.

(e) Provision for reinstatement costs

Provision for reinstatement costs is estimated and reassessed at the end of each reporting period with reference to the recent actual reinstatement cost incurred for restaurant outlets of similar attributes and latest available quotation from independent contractors. Estimation based on current market information may vary over time and could differ from the actual reinstatement cost upon closures or relocation of existing premises.

5 REVENUE AND SEGMENT INFORMATION

(a) Revenue

Revenue represents amounts received and receivable from the operation of restaurants and sales of food ingredients and others in Hong Kong, net of discount. An analysis of revenue is as follows:

	2022 HK\$'000	2021 HK\$'000
Recognised at a point in time:		
Restaurant operations	1,057,848	993,569
Sale of food ingredients and others	5,311	4,350
	1,063,159	997,919

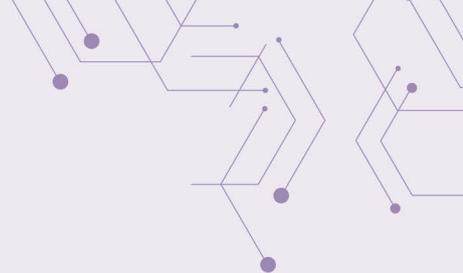

(b) Segment information

The Directors, who are the CODM of the Group, review the Group's internal reporting in order to assess performance and allocate resources. Management has determined the operating segments based on reports reviewed by the Directors that are used to make strategic decisions.

The Group is principally engaged in the operation of restaurant chains and sales of food ingredients in Hong Kong. Management reviews the operating results of the business by major cuisine and sale of food ingredients which the Group operates under to make decisions about resources to be allocated.

The Group has the following reporting segments:

- | | |

5 REVENUE AND SEGMENT INFORMATION (continued)

(b) Segment information (continued)

Segment revenue and segment profit/(loss) were the measures reported to the Directors for the purpose of resources allocation and performance assessment. Segment profit/(loss), which is a measure of adjusted profit/(loss) before tax, was measured consistently with the Group's profit before tax except that finance costs and income and unallocated cost were excluded from this measurement.

Segment assets consist primarily of property, plant and equipment, right-of-use assets, intangible assets, inventories, trade receivables, prepayments, deposits and other receivables. They exclude property, plant and equipment and prepayments, deposits and other receivables and cash and cash equivalents for general use, investment properties, deferred income tax assets and tax recoverable.

Segment liabilities consist primarily of lease liabilities, trade payables and contract liabilities, other payables and accruals. They exclude other payables and accruals for general use, tax payables, deferred income tax liabilities.

All operating entities of the Group were domiciled in Hong Kong. All revenue of the Group was derived in Hong Kong. As at 31 December 2022 and 2021, all non-current assets of the Group were located in Hong Kong.

During the year ended 31 December 2022, management has grouped "Cantonese cuisine — self-owned brands" and "Asian cuisine — self-owned brands" together as "Self-owned brands" and certain comparatives have been reclassified to conform with current year presentation.

5 REVENUE AND SEGMENT INFORMATION (continued)

(b) Segment information (continued)

A reconciliation of segment assets to the Group's total assets is as follows:

	2022 HK\$'000	2021 <i>HK\$'000</i>
Segment assets	495,642	464,627
Unallocated assets	350,950	319,232
	846,592	783,859

A reconciliation of segment liabilities to the Group's total liabilities is as follows:

	2022 HK\$'000	2021 <i>HK\$'000</i>
Segment liabilities	372,681	355,323
Unallocated liabilities	64,409	48,339
	437,090	403,662

(c) Contract liabilities

The Group recognised the following revenue-related contract liabilities:

	2022 HK\$'000	2021 <i>HK\$'000</i>
Advances from customers	292	238
Deferred revenue	43,463	34,547
Total contract liabilities	43,755	34,785

Advances from customers represents the payments received from customers for reservations and coupons. Deferred revenue represents the fair value of outstanding loyalty points, coupons and discount and expected renewal of membership in respect of customer loyalty programme as at year end.

5 REVENUE AND SEGMENT INFORMATION (continued)

(c) Contract liabilities (continued)

The following table shows the revenue recognised related to carried forward contract liabilities:

	2022 HK\$'000	2021 HK\$'000
Restaurant operations	34,785	21,819

Due to the short-term nature of the related revenue, all the contract liabilities balance at the year end would be recognised into revenue in the next financial year. As permitted under HKFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

9 STAFF COSTS (continued)

(a) Wage subsidies of HK\$29,720,000 granted from the Employment Support Scheme under the Anti-Epidemic Fund launched by the HKSAR Government have been received during the year ended 31 December 2022. The Group has complied with all attached conditions before 31 December 2022. The amounts were recognised and offset against “staff costs”. No wage subsidies were granted for the year ended 31 December 2021.

(b) Five highest paid individuals

The five individuals whose emoluments were the highest in the Group include two (2021: two) directors whose emoluments are reflected in Note 32. The emoluments payable to the remaining three (2021: three) individuals are as follows:

	2022 HK\$'000	2021 HK\$'000
Salaries, allowances and benefits in kind	2,898	3,038
Discretionary bonuses	347	456

10 INCOME TAX EXPENSE

Hong Kong profits tax has been provided on the estimated assessable profits at a rate of 16.5% for the year ended 31 December 2022 (2021: 16.5%).

The major components of the income tax expense are as follows:

	2022 HK\$'000	2021 <i>HK\$'000</i>
Hong Kong profits tax		
Current income tax	10,191	13,319
Under/(over) provision in prior year	177	(699)
Deferred income tax (<i>Note 23</i>)	(3,633)	447
Total tax charge for the year	6,735	13,067

The tax on the Group's profit before taxation differs from the theoretical amount that would arise using the tax rate of Hong Kong as follows:

	2022 HK\$'000	2021 <i>HK\$'000</i>
Profit before taxation	84,440	103,143
Tax at the statutory tax rates of 16.5%	13,933	17,019
Income not subject to tax	(8,297)	(4,076)
Expenses not deductible for tax	780	943
Under/(over) provision in prior year	177	(699)
Tax losses not recognised	475	305
Tax rebate	(333)	(425)
Income tax expense	6,735	13,067

11 DIVIDENDS

Note:

A final dividend in respect of the year ended 31 December 2022 of HK7.77 cents per ordinary share, totalling HK\$62,160,000 was proposed by the Board on 27 March 2023 which is subject to the approval of shareholders at the forthcoming annual general meeting of the Company ("AGM"). The proposed dividend is not reflected as dividend payable in the consolidated statement of financial position.

12 EARNINGS PER SHARE ATTRIBUTABLE TO SHAREHOLDERS OF THE COMPANY

(a) Basic

Basic earnings per share is calculated by dividing the profit attributable to shareholders of the Company ("Shareholders") by the weighted average number of ordinary shares in issue during the year.

	2022	2021
Profit attributable to Shareholders (HK\$'000)	77,705	90,076
Weighted average number of shares in issue	<u>800,000,000</u>	<u>800,000,000</u>
Basic earnings per share (HK cents)	<u>9.71</u>	<u>11.26</u>

(b) Diluted

Diluted earnings per share are the same as the basic earnings per share as there were no potentially dilutive ordinary shares issued.

Finance costs	7,229	4,758
Provision for impairment of right-of-use assets (Note 13(c))	6,570	1,979

The total cash outflow for leases in 2022 was approximately HK\$134,383,000 (2021: HK\$119,339,000).

(iii) The Group's leasing activities and how these are accounted for

The Group leases various offices, warehouses and restaurant outlets. Rental contracts are typically made for fixed periods of 2 to 5 years (2021: 2 to 5 years).

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

13(b) LEASES (continued)

(iv) Variable lease payments

Some property leases contain variable payment terms that are linked to sales generated from a restaurant outlet. For all the restaurants, up to 51.2% (2021: 55.6%) of lease payments are on the basis of variable payment. Percentages per variable lease payment terms are ranging from 6% to 15% (2021: 6% to 15%) of sales. Variable payment terms are used for a variety of reasons, including minimising the fixed costs base for newly established restaurant outlets. Variable lease payments that depend on sales are recognised in profit or loss in the period in which the condition that triggers those payments occurs.

13(c) IMPAIRMENT OF NON-FINANCIAL ASSETS

The Group operates restaurant outlets on leased properties with lease terms ranging from 2 to 5 years. The Group regards each individual restaurant as a separately identifiable cash-generating-unit (“**CGU**”) and performed impairment assessments on each of the CGU with impairment indicators by considering the recoverable amount of such assets at restaurant level. As at 31 December 2022, the Group’s management identified impairment indicators in certain restaurants, which were loss making, and estimated corresponding recoverable amounts of their property, plant and equipment and right-of-use assets.

The recoverable amounts of the CGUs are determined based on value-in-use calculations, which are higher than the fair value less costs to sell calculations. The value-in-use calculations use cash flow projections based on financial forecasts of each CGU approved by management covering a period of the remaining lease term. The Group recognised an impairment charge of property, plant and equipment of HK\$4,121,000 (2021: HK\$1,838,000), right-of-use assets of HK\$6,570,000 (2021: HK\$1,979,000) and intangible assets of HK\$609,000 (2021: Nil) for the year ended 31 December 2022.

As at 31 December 2022, the provision for impairment of property, plant and equipment, right-of-use assets and intangible assets amounted to HK\$9,215,000 (2021: HK\$8,027,000), HK\$11,277,000 (2021: HK\$14,428,000) and HK\$609,000 (2021: Nil), respectively.

Key inputs to the determination of the recoverable amount over the remaining lease period includes annual revenue growth and pre-tax discount rate. As at 31 December 2022, the annual revenue growth used for restaurant outlets in the impairment assessment is ranging from 0% to 35% (2021: -20% to 32%) for the remaining lease period. The pre-tax discount rate used to determine the recoverable amounts is approximately 14% (2021: 14%).

	2022 <i>HK\$'000</i>	2021 <i>HK\$'000</i>
Food and consumables for restaurant operations and sale of food ingredients	37,508	49,719

The cost of food and consumables for restaurant operations and sale of food ingredients recognised as expense and included in cost of food and beverages amounted to approximately HK\$334,819,000 (2021: HK\$314,154,000) for the year ended 31 December 2022.

17 TRADE RECEIVABLES

The Group's trade receivables are denominated in HK\$. The carrying value of trade receivables approximate their fair values due to their short-term maturities.

An ageing analysis of the trade receivables as at 31 December 2022, based on the invoice date, is as follows:

	2022 <i>HK\$'000</i>	2021 <i>HK\$'000</i>
Within 30 days	7,747	5,742
31–60 days	223	192
61–180 days	568	424
	8,538	6,358

Trade receivables mainly represent receivables from financial institutions in relation to the payment settled by credit cards by customers of which the settlement period is normally within 3 days from transaction date. Generally, there is no credit period granted to customers, except for certain corporate customers in relation to sales of food ingredients, to which credit period of 30 days is granted by the Group, and therefore are all classified as current.

The maximum exposure to credit risk at 31 December 2022 and 2021 is the carrying value of trade receivables mentioned above. The Group does not hold any collateral as security.

18 PREPAYMENTS, DEPOSITS AND OTHER RECEIVABLES

	2022 <i>HK\$'000</i>	2021 <i>HK\$'000</i>
Prepayments	15,974	10,781
Rental and utilities deposits	70,284	63,456

— Prepayments for purchase of property, plant and equipment	(4,400)	(1,133)
Current portion	38,502	34,238

At 31 December 2022 and 2021, the balances of deposits and other receivables were not past due. Financial assets included in the above balances relate to receivables for which there was no recent history of default. No provision for impairment was made to rental and utility deposit during the year ended 31 December 2022 and 2021.

The maximum exposure to credit risk as at 31 December 2022 and 2021 was the carrying value of each class of receivable mentioned above. The Group did not hold any collateral as security. The carrying amounts of deposits and other receivables approximate to their fair values and are denominated in HK\$.
