2022/2023
ANNUAL REPORT

CHARACTERISTICS OF THE GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

This report, for which the directors (the “Directors”) of UNITAS HOLDINGS LIMITED (the “Company” and together with its subsidiaries, the “Group”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this report is accurate and complete in all material respects and not misleading or deceptive; and (2) there are no other matters the omission of which would make any statement herein or in this report misleading.

Chairlady's Statement

Dear Shareholders,

On behalf of the board of Directors (the "Board") of UNITAS HOLDINGS LIMITED, I am pleased to present the 2022/2023 annual results of the Group for the financial year ended 31 March 2023 (the "Financial Year").

BUSINESS OPERATION AND FINANCIAL PERFORMANCE

The Group is principally engaged in IP automation and entertainment services and provision of dry bulk shipping and logistic services. During the Financial Year, the Group entered into an agreement with a Hong Kong local TV operator for design, construction and operation services for Sooper Yoo, the integrated edutainment and sports experience kids playground, pursuant to the Group acts as the operator for the design, development, construction, project management, operation management and daily operation of Sooper Yoo at The Westwood, Sai Wan. After a series of construction, renovation, preparation and trial operation, Sooper Yoo opened and started official operation in 3rd quarter of 2022.

Dry bulk shipping and logistic services

Given the uncertain market environment arising from the US-China trade war and the continuous global spread of the novel coronavirus (COVID-19) epidemic (the "**Epidemic**"), the global logistic market has been seriously affected. Together with keen competition in the global logistic market, the tightening of regulations in the shipping industry, there was a significant drop in demand from customers for such business and even some of the shipowners whom the Group had business relationship with before sold their ships or changed their business model and made us even harder to maintain the business scale as a small player. As such, we temporarily set aside our dry bulk shipping and logistic services business in the financial year ended 31 March 2021 (the "**FY2020/21**").

Subsequently, having continuously re-assessed the business environment of the global shipping and logistic industry, the Board decided to dedicate to restore the logistics service business first given there is lower barrier and less capital requirement than the dry bulk shipping business segment. With the effort of the management of the Group consistently discussing with different customers, charterers, shipping agencies and freight forwarders, the Group successfully resumed its dry bulk shipping/ocean freight forwarding related logistics service agency business.

In addition, the Group further diversified its logistics service business into land transportation using trucks/railways between Russia and the PRC and local logistics services in Hong Kong.

The Group recorded revenue of approximately HK\$73.77 million for the year ended 31 March 2023 (2022: HK\$37.77 million) and segment profit of approximately HK\$5.00 million.

IP automation and entertainment business

The Group's IP automation and entertainment business includes (1) operation of shops in Hong Kong under the brand name "Ganawawa". They are the IP thematic experience centres providing different IP products from automation gift machines, thematic game machines, carnival game booths as well as retail outlet; (2) management and operation of the integrated edutainment and sports experience playgrounds in the PRC and Hong Kong and (3) the provision of IP-related brand management and marketing consulting services.

Since November 2019, the Group has been operating 2 shops under the brand name of "Ganawawa" at Tsz Wan Shan Centre and the Westwood respectively to conduct our IP automation and entertainment business. Due to the adverse impact of the COVID-19 pandemic, the Group further scaled down the "Ganawawa" IP thematic entertainment center to only one shop remaining in operation in Sai Wan after the closing down of Tsz Wan Shan shop at the end of the tenancy contract in 2022. They are the IP thematic experience centres providing different IP products from automation gift machines, thematic game machines, carnival game booths as well as retail outlet.

Chairlady's Statement

The Group also started providing consulting services on brand building, marketing and business development of the cultural and creative industrial parks since 2021 with a view to leverage the existing IP related entertainment brand building and marketing team of the Group to broaden income source of the Group.

The Group overall recorded revenue of approximately HK\$90.99 million for the year ended 31 March 2023 (2022: approximately HK\$47.94 million), representing an increase of approximately 89.80% when compared to the corresponding period in 2022. The Group recorded audited net loss attributable to owners of the Company for the year ended 31 March 2023 of approximately HK\$1.03 million (2022: net loss of approximately HK\$4.97 million). The decrease in loss was mainly due to the strong growth of the logistic services, the launch of the mega integrated edutainment playground in Sai Wan named "Sooper Yoo" and the provision of IP-related brand building and marketing consulting services.

OUTLOOK

After the restoration of the logistics services business in the fourth quarter of 2021, the Group continues to strive and expand the logistics services business segment with the effort of the management of the Group in exploring new customer base and expanding the business scale. Further, the Group has reached agreement with a sizable logistics supplying chain company in Heihe, the PRC to secure logistics services between Russia and the PRC which further diversified its logistics service business into land transportation in Hong Kong and the PRC.

Affected by the COVID-19, the Group's Ganawawa's shops business faced a serious downturn, the shops had to be closed for certain periods under government order during the Pandemic. After the previous series of waves of Pandemic, restriction has been removed since early 2023, people are eager for entertainment and leisure activities, we plan to consolidate our resources and further expand its business leveraging the milestone of launching the integrated edutainment playground. As an extended business development on the cooperation model of Sooper Yoo, the Group shall start to operate the other two edutainment and sports experience playgrounds in Huizhou, the PRC and Baoan, the PRC in FY2023/24 and the management of the Group is currently discussing and negotiating with more mall operators and property management companies in the PRC for opportunities in designing, constructing and operating more themed play zones for shopping malls, entertainment theme sites and/or cultural parks.

Also, the group is actively discussing with potential clients for the provision of IP related brand building and marketing consulting services and a view to broaden the income source of the Group.

APPRECIATION

Last but not least, I would like to take this opportunity to extend my sincere gratitude to all fellow Directors, management and our staff for their unwavering dedication and contribution to our Group's development. I would also like to thank all of our shareholders, strategic partners and our valuable clients for their trusts and continuous support to our Group over a challenging year.

Management Discussion and Analysis

BUSINESS REVIEW

The Group is principally engaged in the provision of IP automation and entertainment services and provision of dry bulk shipping and logistic services.

Dry bulk shipping and logistic services

Given the uncertain market environment arising from the US-China trade war and the continuous global spread of the novel coronavirus (COVID-19) epidemic (the “**Epidemic**”), the global logistic market has been seriously affected. Together with keen competition in the global logistic market, the tightening of regulations in the shipping industry, there was a significant drop in demand from customers for such business and even some of the shipowners whom the Group had business relationship with before sold their ships or changed their business model and made us even harder to maintain the business scale as a small player. As such, we temporarily set aside our dry bulk shipping and logistic services business in the financial year ended 31 March 2021 (the “**FY2020/21**”).

Subsequently, having re-assessed the business environment of the global shipping and logistic industry, the Board decided to dedicate to restore the logistics service business first given there is lower barrier and less capital requirement than the dry bulk shipping business segment. Since the fourth quarter of 2021, with the effort of the management of the Group consistently negotiating and discussing with different customers, charterers, shipping agencies and freight forwarders and through its existing subsidiary, Evershining International Logistics Limited, successfully restored its logistics service business by first resuming the logistics agency/freight forwarding service business with ocean freight forwarding contracts by acting as intermediary who organizes shipments for individual or corporate customers to transport products or goods to a destination.

However, throughout the financial year ended 31 March 2023 (the “**FY2022/23**”), although the Group did its best endeavors in diversifying the customer base, the Group experienced two adverse impacts dampening the further expansion of the customer base of the dry bulk shipping related logistics agency service segment. First of all, the sudden passing away of the executive director and chief executive officer of the Company, Mr. Wang Qiang, significantly impeded the development of the business segment given the Group has relied on his network in maritime transportation industry, international logistic management in resuming the Group’s logistics service segment in the financial year ended 31 March 2022 (the “**FY2021/22**”). In addition, throughout 2022, the Baltic Dry Index (“**BDI**”), an economic indicator of the shipping industry and contains a shift in the volume of dry bulk trading in the shipping industry, averaged 1,934 points, representing a significant drop of 1,009 points or 34.28% from the previous year’s average value of 2,943 points in 2021 BDI (source: The Baltic Exchange). Such downward trend reflects that 2022 is not a favourable time for the shipping industry and indicated a significant fell in charter rates for all vessel types.

Amid such an adverse business environment with both negative external and internal factors, the Group continuously adopted a prudent asset-light approach to stay focus on the dry bulk shipping/ocean freight forwarding related agency service business and maintain a more viable and sustainable business relationship with the existing customer base of the Group.

With (i) the growth of the ocean freight forwarding logistics services business and (ii) the start of the logistics services relating to the land transportation between Russia and the PRC and (iii) the beginning of the local logistics services in Hong Kong. The Group recorded revenue of approximately HK\$73.77 million for the year ended 31 March 2023 (2022: HK\$37.77 million) and segment profit of approximately HK\$5.00 million.

Management Discussion and Analysis

IP automation and entertainment business

The Group's IP automation and entertainment business includes (1) operation of shops in Hong Kong under the brand name "Ganawawa", which are the IP thematic experience centres providing different IP products from automation gift machines, thematic game machines, carnival game booths as well as retail outlet; (2) management and operation of integrated edutainment and sports experience playgrounds in the PRC and Hong Kong and (3) the provision of IP-related brand management and marketing consulting services.

During the Financial Year, operation of "Ganawawa" shops continues to strive to recover from the loss-making situation amid the outbreak of COVID-19 Epidemic and the Group is currently re-formulating the strategy and consolidating its current resources in operating the remaining shop located in Sai Wan to create synergy with the mega integrated edutainment and experience playground which was launched in the Westwood, Sai Wan in the 3rd quarter of 2022 (which was originally targeted to be launched in the fourth quarter of 2021 as set out in the annual report 2020/21 of the Company).

As an extended business development on the cooperation model of Sooper Yoo, the management of the Group is continuously discussing and negotiating with mall operators and property management companies in the PRC for opportunities in designing, constructing and operating themed play zones for shopping malls, entertainment theme sites and/or cultural parks. As a result, with the effort of the management of Group, the Group further entered into two cooperation agreements, pursuant to which the Group act as designer, project manager and operator for two other edutainment and sports experience playgrounds located in Huizhou, the PRC and Baoan, the PRC respectively.

The Group has also diversified its entertainment business into providing IP-related brand management and marketing consulting services for entertainment venue in cultural industrial parks and shopping malls in PRC, Hong Kong and Macau with the Group's experience and expertise in operating entertainment stores, fun parks and IP products. The Group started providing consulting services on brand building, marketing and business development of the cultural and creative industrial parks since 2021 with a view to leverage the existing IP related entertainment brand building and marketing team of the Group to broaden income source of the Group and will continue to seek opportunities to provide consulting service on strategic planning, product development, brand building, marketing and business development of the theme parks in the PRC.

For the IP automation and entertainment business, the Group overall recorded revenue of approximately HK\$17.22 million for the year ended 31 March 2023 (2022: approximately HK\$10.17 million), representing an increase of approximately 69.32% when compared to the corresponding period in 2022 and segment profit of approximately HK\$1.00 million (2022: segment loss of approximately HK\$1.84 million).

Board Diversity Policy

The Board has, upon the recommendation of the Company's Nomination Committee, adopted a board diversity policy for purpose of maintaining a diversity of the Board which can in turn enhance the Board's decision making capability. In assessing potential candidates for the Board, the Nomination Committee will consider the guidelines and factors set out in the board diversity policy with a view that any appointment to the Board will be based on merit, having regard to the ability of candidates to complement and expand the skills, knowledge and experience of the Board as a whole. Diversity of the Board can be achieved through consideration of a number of relevant factors, including but not limited to independence, age, gender, ethnicity and cultural background, education, skills, knowledge and experience.

The Board has set measurable objectives (in terms of cultural background, education, skills and experience) to implement the board diversity policy and review such objectives from time to time to ensure their appropriateness and ascertain the progress made towards achieving those objectives. The Nomination Committee will review the board diversity policy, as appropriate, to ensure its continued effectiveness from time to time.

The Nomination Committee considers that the current composition of the Board is characterised by diversity after taking into account the Company's own business model and specific needs.

The Nomination Committee members held two meetings during the Financial Year to discuss and review the Board's structure, size, composition and diversity, the extension of term of service of the Independent Non-executive Directors and the nomination of candidate to the Board for consideration and appointment. The attendance records of individual Nomination Committee members are set out below:

ACCOUNTABILITY AND AUDIT (CONTINUED)

Delegation by the Board

While at all times the Board retains full responsibility for guiding and monitoring the Company in discharging its duties, certain responsibilities are delegated to various committees which have been established by the Board to deal with different aspects of the Company's affairs. Unless otherwise specified in their respective written terms of reference as approved by the Board, these committees are governed by the Company's articles of association as well as the Board's policies and practices (in so far as the same are not in conflict with the provisions contained in the articles of association).

The Board has also delegated the responsibility of implementing its strategies and the day-to-day operation to the management of the Company under the leadership of the Executive Directors. Clear guidance has been made as to the matters that should be reserved to the Board for its decision which include matters on, inter alia, capital, finance and financial reporting, internal controls, communication with Shareholders, Board membership, delegation of authority and corporate governance.

Communication with Shareholders

The Board recognises the importance of good communications with Shareholders and investors. The Company establishes various communication channels with its shareholders and investors. These include the annual general meeting, the extraordinary general meeting, the annual, interim and quarterly reports, notices, announcements, circulars, and the Company's website.

General meetings (including annual general meeting and extraordinary general meeting) provide useful forum for Shareholders to exchange views with the Board. The Board welcomes Shareholders to express their opinions. Directors, senior management are available to answer questions at general meetings and external auditors will also attend the annual general meeting to address Shareholders' queries. Separate resolutions are proposed at general meetings on each substantially separate issue, including the re-election of individual Directors. The notice of the meeting, the annual report and the circular containing information on the proposed resolutions are sent to Shareholders at least twenty clear business days before the meeting. Voting at general meetings are by way of a poll. Details of the poll voting procedures are explained to Shareholders at general meetings to ensure that Shareholders are familiar with such procedures. The results of the poll are published on the GEM website (www.hkgem.com) and the Company's website (www.unitas.com.hk).

Procedures for Shareholders to convene an extraordinary general meeting

There is no provision allowing Shareholders to propose new resolutions at the general meetings under the Cayman Islands Companies Law (2012 Revision). However, Shareholders are requested to follow article 64 of the Articles of Association, general meetings shall be convened on the written requisition of any one or more members holding at the date of deposit of the requisition not less than one tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the Company Secretary, to require an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two months after the deposit of such requisition. If within twenty-one day of such deposit the Board fails to proceed to convene such meeting the requisitionist(s) himself (themselves) may do so in the same manner, and all reasonable expense incurred by the requisition(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

Procedures for Shareholders to propose a person for election as a Director

No person other than a Director retiring at the meeting shall, unless recommended by the Board for election, be eligible for election to the office of Director at any general meeting unless a notice in writing of the intention to propose such person for election as a Director, signed by a Shareholder (other than the person to be proposed for election as a Director) duly qualified to attend and vote at the meeting for which such notice is given, and a notice in writing signed by such person of his willingness to be elected shall have been lodged at the head office or at the Registration Office. The minimum length of the period during which such notices are given shall be at least seven clear days and the period for lodgement of such notices shall commence no earlier than the day immediately after the despatch of the notice of the general meeting appointed for such intention and end no later than seven days before the date of such general meeting.

Procedures for sending enquiries to the Board

Shareholders may send written enquiries to the Company, for the attention of the Company Secretary, by e-mail at admin@unitas.com.hk or mail to Flat C, 16/F, MG Tower, 133 Hoi Bun Road, Kwun Tong.

Information disclosure

The Company discloses information in compliance with the GEM Listing Rules, and publishes periodic reports and announcements to the public in accordance with the relevant laws and regulations. The primary focus of the Company is to ensure information disclosure is timely, fair, accurate, truthful and complete thereby enabling Shareholders as well as the public to make rational and informed decisions.

Corporate Governance Report

INVESTOR RELATIONS

There were no changes in the constitutional documents of the Company during the Financial Year.

RISK MANAGEMENT AND INTERNAL CONTROL

During the Financial Year, the Board complied with the code provisions on risk management and internal control as set out in the CG Code. The Board has overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Company's strategic objectives, and maintaining appropriate and effective risk management and internal control systems for the Company. The systems are designed to manage the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The management of the Company has established a set of comprehensive policies, standards and procedures in areas of operational, financial and risk controls for safeguarding assets against unauthorised use or disposition; for maintaining proper accounting records; and for ensuring the reliability of financial information to achieve a satisfactory level of assurance against the likelihood of the occurrence of fraud and errors.

The Board has overseen the Company's risk management and internal control systems on an ongoing basis. A financial year end review of the effectiveness of the Company's and its subsidiaries risk management and internal control systems has been conducted annually and the systems are considered to be effective and adequate. The Company also has an internal audit function to carry out the analysis and independent appraisal of the adequacy and effectiveness of the systems, and has procedures in place to keep information confidential and manage actual or potential conflicts of interest. Stringent internal structures have been designed to prevent the misuse of inside information and avoid conflicts of interest.

Hong Kong, 30 June 2023

Report of the Directors

The Directors have pleasure in presenting their annual report together with the audited consolidated financial statements of the Group for the year ended 31 March 2023 (the “Consolidated Financial Statements”).

PRINCIPAL ACTIVITIES

The principal activity of the Company is investment holding and those of the principal subsidiaries of Company are set out in Note 31 to the Consolidated Financial Statements.

BUSINESS REVIEW

A fair review of the Company's business and its outlook are set out in the sections of Chairlady's Statement and Management Discussion and Analysis. Certain financial key performance indicators are provided in the section of Financial Summary. No important event affecting the Company has occurred since the end of the Financial Year.

The Company complies with the requirements under the Companies Ordinance, the GEM Listing Rules and the Securities and Futures Ordinance (the “SFO”) for the disclosure of information and corporate governance. The Group also complies with the requirements of Employment Ordinance and ordinances relating to occupational safety for the interest of employees of the Group.

The Group respects the environment and is committed to minimising its carbon footprints as a socially responsible enterprise in Hong Kong. Carbon footprint is defined as the total amount of direct and indirect emissions of Green House Gases (GHGs) expressed in terms of the equivalent amount of Carbon Dioxide of (CO₂) emission. Non-hazardous wastes produced from the Group mainly consist of used paper such as office papers and marketing materials. To minimise the impact of carbon footprints on the environment, the Group implements the following practices to use paper efficiently:

- Duplex printing is set as the default mode for most network printers;
- Employees are reminded to practice photocopying wisely;
- Employees are encouraged to use both sides of paper;
- Paper waste is recycled instead of being directly disposed of in landfills;
- Paper is separated from other waste for easier recycling; and
- Boxes and trays are placed beside photocopiers as containers to collect single-sided paper for reuse purpose.

Electricity consumption is identified as having an adverse impact on the environment and natural resources. A typical commercial building uses more energy for lighting than for other electric equipment. The Group is determined to reduce energy consumption and implement conservation practices to reduce the effect on carbon footprint. Air conditioning and light zone arrangements reduce unnecessary electricity usage; employees enforce good practices in maintenance of lighting and electric equipment to ensure they are kept in good and proper condition to maximise efficiency.

Report of the Directors

BUSINESS REVIEW (CONTINUED)

Key Risk Factors

The following lists out the key risks and uncertainties facing the Group.

Impact of Local and International Regulations

The business operation of the Group is also subject to government policy, relevant regulations and guidelines established by the regulatory authorities. Failure to comply with the rules and requirements may lead to penalties, amendments or suspension of the business operation by the authorities. The Group closely monitors changes in government policies, regulations and markets as well as conducting studies to assess the impact of such changes.

Third-Party Risks

The Group has been relying on third-party service providers in parts of business to improve performance and efficiency of the Group. While gaining the benefits from external service providers, the management realises that such operational dependency may pose a threat of vulnerability to unexpected poor or lapses in service including reputation damage, business disruption and monetary losses. To address such uncertainties, the Group engages only reputed third-party providers and closely monitors their performance.

Key Relationships with Employees, Customers and Suppliers

The Group recognises the accomplishment of the employees by providing comprehensive benefit package, career development opportunities and internal training appropriate to individual needs. The Group provides a healthy and safe workplace for all employees. No strikes and cases of fatality due to workplace accidents are found in the Financial Year.

The Group encompasses working relationships with suppliers to meet our customers' needs in an effective and efficient manner. The departments work closely to make sure the tendering and procurement process is conducted in an open, fair and just manner. The Group's requirements and standards are also well-communicated to suppliers before the commencement of a project.

The Group values the views and opinions of all customers through various means and channels, including usage of business intelligence to understand customer trends and needs and regular analyse on customer feedback. The Group also conducts comprehensive tests and checks to ensure that only quality products and services are offered to the customers.

At no time during the reporting period were rights to acquire benefits by means of the acquisition of shares in or debentures of the Company or of any other body corporate granted to any Directors or their respective spouse or children under 18 years of age, or were any such rights exercised by them; or was the Company, its holding company or any of its subsidiaries a party to any arrangements to enable the Directors, their respective spouse or children under 18 years of age to acquire such rights in the Company or any other body corporate.

SUFFICIENCY OF PUBLIC FLOAT

As at the date of this report, based on the information that is publicly available to the Company and within the knowledge the Directors, the Directors confirm that the Company has maintained the amount of public float as required under the GEM Listing Rules.

PURCHASE, REDEMPTION OR SALE OF THE LISTED SECURITIES OF THE COMPANY

Neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities during the Financial Year.

ENVIRONMENTAL POLICIES AND PERFORMANCE

Pursuant to Appendix 20 Environmental, Social and Governance Reporting Guide (the "ESG Guide") of the GEM Listing Rules, the Group is required to prepare an ESG Report, which explains the management approaches, strategies, policies, measures taken and results of its activities on environmental and social areas and aspects, and evaluate their impact on the sustainable development of the environment and society. The Group has adopted and implemented the strategies, policies, rules and regulations in relation to the environmental and social areas and aspects of the ESG Guide with responsibility and a high Code of Standards, which can be summarised in the annual report of the Company for the year ended 31 March 2023 dated 30 June 2023.

A separate ESG report for further disclosure of Aspect A1 emissions matters as required under the ESG Guide will be published on the Stock Exchange's website and the Company's website no later than three months after the publication of this annual report.

DIRECTOR'S INTERESTS IN COMPETING INTERESTS

During the Financial Year, none of the Directors, the management shareholders of the Company and their respective close associates (as defined in the GEM Listing Rules) had any interest in a business which causes or may cause a significant competition with the business of the Group and any other conflicts of interest which any such person has or may have with the Group.

Report of the Directors

CODE OF CONDUCT REGARDING SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted a code of conduct regarding securities transactions by Directors on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules. Having made specific enquiry of all Directors, the Company was not aware of any non-compliance with such required standard of dealings and its code of conduct regarding securities transactions by Directors during the Financial Year.

RELATED PARTIES TRANSACTIONS

Details of related parties transactions of the Group during the Financial Year are set out in note 34 to the financial statements. None of these related party transactions constitute connected transactions as defined under the GEM Listing Rules.

EQUITY-LINKED AGREEMENT

Details of the equity-linked agreement entered into during the Financial Year or subsisting at the end of the Financial Year are set out below:

Share Option Scheme

The purpose of the share option scheme (the "Scheme") is to advance the interests of the Company and the Shareholders by enabling the Company to grant options to attract, retain and reward the eligible persons and to provide the eligible persons an incentive or reward for their contribution to the Group and by enabling such persons' contribution to further advance the interests of the Group.

Eligible person under the Scheme include (collectively "Eligible Persons"):

- (i) any directors (whether executive or non-executive and whether independent or not) and any employee (whether full time or part time) of the Group (collectively "Employee");
- (ii) any consultants or advisers (in the areas of legal, technical, financial or corporate managerial) of the Group (whether on an employment or contractual or honorary basis or otherwise and whether paid or unpaid); any provider of goods and/or services to the Group; any customer of the Group; or any holder of securities issued by any member of the Group (collectively "Business Associate"); and
- (iii) any other person, who at the sole discretion of the Board, has contributed to the Group (the assessment criteria of which are (1) such person's contribution to the development and performance of the Group; (2) the quality of work performed by such person for the Group; (3) the initiative and commitment of such person in performing his duties; (4) the length of service or contribution of such person to the Group; and (5) such other factors as considered to be applicable by the Board).

The Company has conditionally adopted the Scheme on 21 September 2011 under which the Eligible Persons may be granted options to subscribe for the Company's shares. The principal terms of the Scheme are summarised in the paragraph headed "Share Option Scheme" in Appendix V to the Prospectus. The principal terms of the Scheme are summarised as follows:

The Scheme was adopted for a period of 10 years commencing from 21 September 2011 and remains in force until 20 September 2021. The Company may, by resolution in general meeting or, such date as the Board determined, terminate the Scheme at any time without prejudice to the exercise of options granted prior to such termination.

Report of the Directors

EQUITY-LINKED AGREEMENT (CONTINUED)

Share Option Scheme (continued)

The subscription price per share of the Company for each option granted shall be a price solely determined by the Board and notified to an Eligible Person and shall be at least the highest of:

1. the closing price of the shares of the Company as stated in the Stock Exchange's daily quotations sheet on the date of offer for the grant of option (the "Date of Grant") which must be a trading day;
2. the average of the closing prices of the shares of the Company as stated in the Stock Exchange's daily quotations sheets for the five trading days immediately preceding the Date of Grant; and
3. the nominal value of the shares of the Company on the Date of Grant.

Upon acceptance of the options, the grantee shall pay a nominal value as determined by the Board to the Company as consideration for the grant. The acceptance of an offer of the grant of the option shall be made within the date as specified in the offer letter issued by the Company, normally being a date not later than 10 business days from the date upon which it is made. The exercise period of any option granted under the Scheme shall not be longer than 10 years commencing on the date of grant and expiring on the last day of such 10-year period subject to the provisions for early termination as contained in the Scheme.

The maximum number of unexercised share options currently permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue as at the date of approval.

On 30 September 2015, the shareholders of the Company had approved the refreshment of the 10% scheme mandate limit on the grant of options under the Scheme. Options previously granted (if any) under the Scheme (including without limitation those outstanding, cancelled, lapsed or exercised in accordance with the Scheme) will not be counted for the purpose of calculating the scheme mandate limit as refreshed. Based on 2,260,000,000 shares of the Company in issue as at the date of refreshment, the Directors were authorised to issue options to subscribe for a total of 226,000,000 shares of the Company, representing 10% of the total number of shares of the Company in issue as at the date of refreshment. The total number of shares available for issue under the Scheme is 241,000,000, representing approximately 9.22% of the issued Shares of the Company as at the date of this report.

The maximum number of shares issued and to be issued upon exercise of the options granted and to be granted to each grantee under the Scheme (including exercised, cancelled and outstanding options) in any 12-month period shall not exceed 1% of the total number of shares of the Company in issue. Any further grant of options in excess of this 1% limit shall be subject to issuance of a circular by the Company and approved by its shareholders in accordance with the GEM Listing Rules.

Report of the Directors

EQUITY-LINKED AGREEMENT (CONTINUED)

Share Option Scheme (continued)

Regarding the Acceptance Period, under clause 4.2 of the Share Option Scheme, the Board could accord its discretion, determine certain terms of the Options, inter alia, acceptance period which should be within 10 business days. However, clause 12 of the Share Option Scheme permits the Board to amend, in its absolute discretion, any terms of the Share Option Scheme to the extent permitted by law and the GEM Listing Rules provided that the amendment does not fall into any items which need prior approval of the shareholders of the Company in general meeting, as below:

1. any of the provisions of the Share Option Scheme relating to matters contained in Rule 23.03 of the GEM Listing Rules to the advantage of the Grantees;
2. any terms and conditions of the Share Option Scheme which are of a material nature or any terms of Options granted except where such alternation take effect automatically under the existing terms of the Share Option Scheme; and
3. any provisions on the authority of the Board in relation to any alternation to the terms of the Share Option Scheme.

The Board, having sought legal advice from the Company's legal adviser, considers the Acceptance Period (i) will not have material effects to the operation and financial of the Group; (ii) does not fall into any items stipulated in Rule 23.03 of the GEM Listing Rules; and (iii) the Acceptance Period will not cause advantage to the Grantees. As such, the Acceptance Period does not fall into any of the factors as set out in clause 12.2 of the Share Option Scheme and the GEM Listing Rules as afore-mentioned and the grant of Options is therefore considered valid.

The total number of shares available for issue under the Share Options Scheme is 241,000,000, representing 9.22% of the issued shares as at the date of this annual report.

Details of movements in Share Options during the Financial Year are set out in note 33 to the Consolidated Financial Statements.

Report of the Directors

PRE-EMPTIVE RIGHTS

There is no provision for the pre-emptive rights under the Company's Articles of Association, or the laws of the Cayman Islands, which would oblige the Company to offer the new shares on a pro-rata basis to existing Shareholders.

CORPORATE GOVERNANCE REPORT

Details of the Group's corporate governance practices can be found in the Corporate Governance Report contained on pages 11 to 23 in this annual report.

EVENTS AFTER THE REPORTING PERIOD

Subsequently to 31 March 2023, the Board regrets to inform the Shareholders and potential investors that, on 16 June 2023, the Company received a letter (the "GLC Decision Letter") from the Stock Exchange stating that, on 15 June 2023, the GEM Listing Committee considered the Company's case and decided to cancel the Company's listing under GEM Rule 9.14A (the "GLC Decision"). Please refer to the announcement of the Company dated 28 June 2023 for the details of reasons for the GLC Decision.

After seeking professional advice and with due consideration, the Company has submitted an application requesting the GLC Decision be referred to the Listing Review Committee for review on 28 June 2023.

Trading in the shares of the Company on the Stock Exchange has been suspended with effect from 9:00 a.m. on 17 May 2022 and will remain suspended until further notice. Further announcement(s) will be made by the Company as and when appropriate and in accordance with the requirements of the GEM Listing Rules.

Details of the suspension of trading are set out in the announcements of the Company dated 21 January 2022, 28 January 2022, 22 February 2022, 4 May 2022, 16 May 2022, 16 August 2022, 22 November 2022, 22 February 2023 and 28 June 2023.

AUDITORS

Independent Auditors' Report

24/F., Siu On Centre,
188 Lockhart Road,
Wan Chai, Hong Kong

TO THE SHAREHOLDERS OF UNITAS HOLDINGS LIMITED

(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Unitas Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 44 to 121, which comprise the consolidated statement of financial position as at 31 March 2023, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2023, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the HKICPA's Code of *Ethics for Professional Accountants* (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent Auditors' Report

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

How our audit addressed the key audit matter

Allowance for expected credit losses assessment on trade receivables

Refer to the accounting policies in Note 3, critical judgement and estimates in Note 4(a), financial risk management in Note 5(b) and its relevant disclosures in Note 20 to the consolidated financial statements.

As at 31 March 2023, the Group had gross trade receivables of approximately HK\$4,140,000. The allowance for expected credit losses of approximately amounted to HK\$244,000.

Management performed periodic assessment on the recoverability of the trade receivables and the sufficiency of allowance for expected credit losses based on information including credit profile of different customers or debtors, ageing of the trade receivables, historical settlement records, subsequent settlement status, expected timing and amount of realisation of outstanding balances, and on-going trading relationships with the relevant customers or debtors. Management also considered forward-looking information that may impact the customers' or debtors' ability to repay the outstanding balances in order to estimate the allowance for expected credit losses assessment.

We focused on this area due to the allowance for expected credit losses assessment of trade receivables under the expected credit losses model involved the use of significant management judgments and estimates.

Our procedures in relation to management's impairment assessment on trade and other receivables included:

- Understanding and evaluating the key controls that the Group has implemented to manage and monitor its credit risk, and evaluating management's assessment process for allowance for expected credit losses;
- Checking, on a sample basis, the ageing profile of the trade receivables to the underlying financial records and post year-end settlements to bank receipts;
- Inquiring of management for the status of each of the material trade receivables past due as at year end and corroborating explanations from management with supporting evidence, such as performing public profile search for selected customers, understanding ongoing business relationship with the customers based on trade records, checking historical and subsequent settlement records of and other correspondence with the customers or debtors;
- Assessing the appropriateness of the expected credit losses provisioning methodology, examining the key data inputs on a sample basis to assess their accuracy and completeness, and challenging the assumptions, including both historical and forward-looking information, used to determine the expected credit losses; and
- Engaging independent competent expert to review the valuation process, methodologies used and market evidence to support significant judgements and assumptions applied in the valuation model prepared by the external valuer.

Independent Auditors' Report

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises the information included in the annual report but does not include the consolidated financial statements and our auditors' report thereon (the "Other Information").

Our opinion on the consolidated financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the Other Information and, in doing so, consider whether the Other Information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this Other Information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND AUDIT COMMITTEE FOR THE FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirement of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee assists the directors in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent Auditors' Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Independent Auditors' Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Amendments to HKFRS 16 (March 2021)	Covid-19 Related Rent Concessions beyond 30 June 2021
Annual Improvements Project	Annual Improvements to HKFRS Standards 2018-2020
Amendments to Accounting Guideline 5	Merger Accounting for Common Control Combinations

The application of the amendments to HKFRSs in the current year had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these financial statements. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

New and revised HKFRSs in issue but not yet effective

The Group has not applied any new standard, amendments to standards and interpretation that have been issued but are not yet effective for the financial year beginning 1 April 2022. The new standard, amendments to standards and interpretation include the following which may be relevant to the Group.

	Effective for accounting periods beginning on or after
Amendments to HKAS 1– Classification of Liabilities as Current or Non-current	1 January 2024
Amendments to HKAS 1– Non-current Liabilities with Covenants	1 January 2024
Amendments to HKAS 1 and HKFRS Practice Statement 2– Disclosure of Accounting Policies	1 January 2023
Amendments to HKAS 8– Definition of Accounting Estimates	1 January 2023
Amendments to HKAS 12– Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction	1 January 2023
Amendments to HKFRS 16– Lease Liability in a Sale and Leaseback	1 January 2024
Amendments to HKFRS 10 and HKAS 28– Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined by the HKICPA
Hong Kong Interpretation 5 (revised) Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause	1 January 2024

The Group is in the process of making an assessment of what the impact of these amendments and new standards is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities (the “GEM Listing Rules”) on the GEM of the Stock Exchange of Hong Kong Limited and by the disclosure requirement Hong Kong Companies Ordinance (“CO”).

(b) Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in the consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 *Share-based Payment*, leasing transactions that are accounted for in accordance with HKFRS 16 *Leases* and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 *Inventories* or value in use in HKAS 36 *Impairment of Assets*.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Basis of consolidation (continued)

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Changes in the Group's interests in existing subsidiaries

Changes in the Group's interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's relevant components of equity and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries, including re-attribution of relevant reserves between the Group and the non-controlling interests according to the Group's and the non-controlling interests' proportionate interests.

Any difference between the amount by which the non-controlling interests are adjusted, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interests (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKFRS 9 *Financial Instruments* ("HKFRS 9") or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

(d) Business combination

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

Except for certain recognition exemptions, the identifiable assets acquired and liabilities assumed must meet the definitions of an asset and a liability in *the Conceptual Framework for Financial Reporting 2018 issued in June 2018*.

Notes to Consolidated Financial Statements

For the year ended 31 March 2023

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Business combination (continued)

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 *Income Taxes* and HKAS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 *Share-based Payment* at the acquisition date;
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard; and
- lease liabilities are recognised and measured at the present value of the remaining lease payments (as defined in HKFRS 16) as if the acquired leases were new leases at the acquisition date. Right-of-use assets are recognised and measured at the same amount as the relevant lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amounts of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after reassessment, the net amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are initially measured either at fair value or at the noncontrolling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control) and the resulting gain or loss, if any, is recognised in profit or loss or other comprehensive income, as appropriate. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income and measured under HKFRS 9 would be accounted for on the same basis as would be required if the Group had disposed directly of the previously held equity interest.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Business combination (continued)

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted retrospectively during the measurement period (see above), and additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment loss, unless the investment is classified as held for sale (or included in a disposal group that is classified as held for sale).

Cost includes direct attributable costs of investments. The results of subsidiaries are accounted for by the Company on the basis of dividend received or receivable. Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

(e) Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating unit ("CGU") (or group of CGUs) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A CGU (or group of CGUs) to which goodwill has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the CGU (or group of CGUs) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets of the unit on a pro-rata basis based on the carrying amount of each asset in the CGU (or group of CGUs).

On disposal of the relevant CGU or any of the CGU within the group of CGUs, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal. When the Group disposes of an operation within the CGU (or a CGU within a group of CGUs), the amount of goodwill disposed of is measured on the basis of the relative values of the operation (or the CGU) disposed of and the portion of the CGU (or the group of CGUs) retained.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Impairment of property, plant and equipment and right-of-use assets

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discontinued to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(g) Revenue and other income recognition

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates or enhances an asset that the customer controls as the Group performs;
or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

For the year ended 31 March 2023

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(g) Revenue and other income recognition (continued)

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to a contract are accounted for and presented on a net basis.

Principal versus agent

When another party is involved in providing goods or services to a customer, the Group determines whether the nature of its promise is a performance obligation to provide the specified goods or services itself (i.e. the Group is a principal) or to arrange for those goods or services to be provided by the other party (i.e. the Group is an agent).

Contracts with multiple performance obligations (including allocation of transaction price)

For contracts that contain more than one performance obligations, the Group allocates the transaction price to each performance obligation on a relative stand-alone selling price basis.

The stand-alone selling price of the distinct good or service underlying each performance obligation is determined at contract inception. It represents the price at which the Group would sell a promised good or service separately to a customer. If a stand-alone selling price is not directly observable, the Group estimates it using appropriate techniques such that the transaction price ultimately allocated to any performance obligation reflects the amount of consideration to which the Group expects to be entitled in exchange for transferring the promised goods or services to the customer.

Revenue from IP automation operation and entertainment business

Revenue from IP automation operation represents the gross pay-ins, less gross payouts to customers and/or the use of the game tokens by the customers. Gross pay-ins represents the amount received from customers in exchange for token used in automation gift machines, thematic game machines, carnival game booths less unutilised games tokens. Gross payouts represents the aggregate cost of prize/merchandise exchanged upon redemption of award points by customers.

Revenue from game services that require game tokens is recognised when the performance obligation of game services is satisfied, which happens when a customer utilises game tokens to complete a game, and the game is finished. Unutilised game tokens represents prepayment for the game services and can be exchanged for game services in the future.

Notes to Consolidated Financial Statements

For the year ended 31 March 2023

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(g) Revenue and other income recognition (continued)

Revenue from sales of merchandise

Revenue from sales of merchandise is recognised when the control of the products is transferred to the customer upon sale. Payment of the transaction price is due immediately upon purchase by the customer.

Services income from IP automation

The Group recognises services income from IP automation as it fulfills its performance obligation, which includes providing the use of the capsule machines, as the customer simultaneously receives and consumes the benefits provided by the Group's performance as it progresses towards complete satisfaction of the obligation.

Customer loyalty programme

The Group operates a loyalty programme where the customers accumulate the award points from the game which entitle them to redeem award points for discounts in exchange of merchandise in future. The transaction price is allocated to the game and the award points on estimation basis for expected value to be entitled in exchange for equivalent value of goods in the future. Revenue from the award points is recognised when the award points are redeemed. Contract liabilities are recognised until the award points are redeemed.

Revenue from dry bulk shipping and logistic services

Revenue from time charter of dry bulk shipping and logistic services is recognised on a straight-line basis over the period of each time charter contract.

Revenue from voyage charter of dry bulk shipping and logistic services is recognised based on the time proportion method of each individual voyage contract.

Revenue from brand management and marketing consulting services

The Group provides brand management and marketing consulting services to its customers. Under HKFRS 15, the Group has determined that the performance obligation for these services are fulfilled when all relevant duties as stated in the contract are completed. Revenue from brand management and marketing consulting services is recognised at a point in time when all relevant duties as stated in the contract are completed.

Interest income

Interest income is recognised as it accrues using the effective interest method. For financial assets measured at amortised cost that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit impaired financial assets, the effective interest rate is applied to the amortised cost (i.e. gross carrying amount net of loss allowance) of the asset.

Notes to Consolidated Financial Statements

For the year ended 31 March 2023

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(h) Inventories

Inventories for prizes and merchandise are stated at the lower of cost and net realisable value. Cost are determined using the weighted average basis. Net realisable value is determined by reference to sale proceeds less cost necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

(i) Property, plant and equipment

Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss and other comprehensive income in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset or as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciation.

Depreciation is calculated on the straight-line basis to write off the cost or valuation of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Leasehold improvement:	50% or over the shorter of the lease term
Furniture, fixtures and equipment:	20% – 40%
Motor vehicles:	33.33%
Machinery:	25% – 33%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately.

Residual values, useful lives and the depreciation method are reviewed and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss on disposal or retirement of an item of property, plant and equipment is determined as the difference between the net sales proceeds and the carrying amount of the relevant asset and is recognised in profit or loss.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(j) Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or arising from business combinations on or after the date of initial application of HKFRS 16, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group also applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases of office premises and equipment that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Notes to Consolidated Financial Statements

For the year ended 31 March 2023

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(j) Leases (continued)

The Group as a lessee (continued)

Right-of-use assets (continued)

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities other than adjustments to lease liabilities resulting from Covid-19 related rent concessions in which the Group applied the practical expedient.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the group entities, which do not have recent third-party financing, and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

If a readily observable amortising loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the group entities use that rate as a starting point to determine the incremental borrowing rate.

Notes to Consolidated Financial Statements

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(j) Leases (continued)

The Group as a lessee (continued)

Lease liabilities (continued)

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating a lease, if the lease term reflects the exercise of an option to terminate the lease.

Variable lease payments that reflect changes in market rental rates are initially measured using the market rental rates as at the commencement date. Variable lease payments that do not depend on an index or a rate are not included in the measurement of lease liabilities and right-of-use assets, and are recognised as expense in the period in which the event or condition that triggers the payment occurs.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review/expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liability as a separate line in the consolidated statement of financial position.

Notes to Consolidated Financial Statements

For the year ended 31 March 2023

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(j) Leases (continued)

The Group as a lessee (continued)

Lease modifications

Except for Covid-19 related rent concessions in which the Group applied the practical expedient, the Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability, less any lease incentives receivables, based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Covid-19 related rent concessions

In relation to rent concessions that occurred as a direct consequence of the Covid-19 pandemic, the Group has elected to apply the practical expedient not to assess whether the change is a lease modification if all of the following conditions are met:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2022; and
- there is no substantive change to other terms and conditions of the lease.

A lessee applying the practical expedient accounts for changes in lease payments resulting from rent concessions the same way it would account for the changes applying HKFRS 16 if the changes are not a lease modification. Forgiveness or waiver of lease payments are accounted for as variable lease payments. The related lease liabilities are adjusted to reflect the amounts forgiven or waived with a corresponding adjustment recognised in the profit or loss in the period in which the event occurs.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(j) Leases (continued)

The Group as a lessor

Classification and measurement of leases

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Amounts due from lessees under finance leases are recognised as receivables at commencement date at amounts equal to net investments in the leases, measured using the interest rate implicit in the respective leases. Interest income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset, and such costs are recognised as an expense on a straight-line basis over the lease term except for investment properties measured under fair value model. Variable lease payments for operating leases that depend on an index or a rate are estimated and included in the total lease payments to be recognised on a straight-line basis over the lease term. Variable lease payments that do not depend on an index or a rate are recognised as income when they arise.

Interest and rental income which are derived from the Group's ordinary course of business are presented as revenue.

Allocation of consideration to components of a contract

When a contract includes both leases and non-lease components, the Group applies HKFRS 15 Revenue from Contracts with Customers to allocate consideration in a contract to lease and non-lease components. Non-lease components are separated from lease component on the basis of their relative stand-alone selling prices.

Sublease

When the Group is an intermediate lessor, it accounts for the head lease and the sublease as two separate contracts. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Foreign currencies

The financial statements are presented in Hong Kong Dollars. Each entity in the Group determines its own functional currency, and items included in financial statements of each entity are measured using that functional currency.

In preparing the financial statements of each individual group entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- exchange differences on transactions entered into in order to hedge certain foreign currency risks; and
- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on repayment of the monetary items.

For the purposes of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of foreign currency translation reserve (attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

Notes to Consolidated Financial Statements

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Foreign currencies (continued)

In addition, in relation to a partial disposal of a subsidiary that includes a foreign operation that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates that do not result in the Group losing significant influence), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

Goodwill and fair value adjustments to identifiable assets acquired and liabilities assumed through acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income.

(l) Share-based payment arrangements

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date. Details regarding the determination of the fair value of equity settled share-based transactions are set out in Note 33.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share options reserve.

For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to retained earnings.

(m) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'loss before tax' as reported in the consolidated statement of profit or loss and other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Notes to Consolidated Financial Statements

For the year ended 31 March 2023

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(m) Taxation (continued)

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 Income Taxes requirements to right-of-use assets and lease liabilities separately. Temporary differences relating to right-of-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(n) Financial Instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets at fair value through profit or loss (“FVTPL”)) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income which are derived from the financial assets is presented as other income.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income (“FVTOCI”):

- the financial asset is held within a business model whose objective is achieved by both selling and collecting contractual cash flows; and

Classification and subsequent measurement of financial assets (continued)

- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL, except that at initial application of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 *Business Combinations* applies.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

Equity instruments designated as at FVTOCI

Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the financial assets at FVTOCI reserve; and are not subject to impairment assessment. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, and will be transferred to retained profits/will continue to be held in the financial assets at FVTOCI reserve.

Dividends from these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the "other gains and losses" line item in profit or loss.

Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset and is included in the "other gains and losses" line item.

Impairment of financial assets

Impairment under expected credit losses (“ECL”) model

The Group recognises a loss allowance for ECL on financial assets which are subject to impairment under HKFRS 9 (including trade receivables, deposits, other receivables and cash and cash equivalents which are subject to impairment under HKFRS 9). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“12m ECL”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting period. Assessment are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting period as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables. The ECL on these assets are assessed individually for debtors with significant balances and/or collectively using a provision matrix with debtors having similar credit ratings.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless there has been a significant increase in credit risk since initial recognition, in case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument’s external (if available) or internal credit rating;

Significant increase in credit risk (continued)

- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due (except for trade receivables from customers where a shorter period of "past due" has been applied by the directors in view of the nature of business operation and practice in managing the credit risk), unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(n) Financial Instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation;
- (e) the disappearance of an active market for that financial asset because of financial difficulties; or
- (f) the purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses.

Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience and forward looking information that is available without undue cost or effort.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discontinued at the effective interest rate determined at initial recognition.

Financial assets (continued)

Impairment of financial assets (continued)

Measurement and recognition of ECL (continued)

Lifetime ECL for trade receivables are considered on a collective basis taking into consideration past due information and relevant credit information such as forward looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables, deposits and other receivables where the corresponding adjustments are recognised through a loss allowance account.

Financial liabilities and equity

Classification as financial liabilities or equity

Financial liabilities and equity instruments issued by a group entity are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Financial liabilities at amortised cost

Financial liabilities (including trade payables, other payables and accruals and loans from shareholders) are subsequently measured at amortised cost, using the effective interest rate method.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(n) Financial Instruments (continued)

Financial liabilities and equity (continued)

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Interest expense is recognised on an effective interest basis other than those financial liabilities designated as at FVTPL.

Derecognition

Financial assets are derecognised when the rights to receive cash flows from the assets expire or, the financial assets are transferred and the Group has transferred substantially all the risks and rewards of ownership of the financial assets to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the FVTOCI reserve is reclassified to profit or loss.

On derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the FVTOCI reserve is not reclassified to profit or loss, but is transferred to retained profits/accumulated losses.

Financial liabilities are derecognised when, and only when, the obligation specific in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liabilities derecognised and the consideration paid and payable is recognised in profit or loss.

Offsetting a financial asset and a financial liability

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position when, and only when, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Notes to Consolidated Financial Statements

For the year ended 31 March 2023

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(o) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(p) Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprises of cash on hand and demand deposits, and short-term highly liquid investments which are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statements of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, which are not restricted as to use.

(q) Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Governments grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under "other income".

(r) Employee benefits

Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long-service leave as a result of services rendered by employees up to the end of the reporting period.

Retirement benefit cost

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the “MPF Scheme”) under the Hong Kong Mandatory Provident Fund Schemes Ordinance for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees’ basic salaries and are charged to the statement of comprehensive income as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group’s employer contributions vest fully with the employees when contributed into the MPF Scheme. Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

Termination benefits

A liability for a termination benefit is recognised at the earlier of when the Group entity can no longer withdraw the offer of the termination benefit and when it recognises any related restructuring costs.

Short-term and other long-term employee benefits

Short-term employee benefits are recognised at the undiscontinued amount of the benefits expected to be paid as and when employees rendered the services. All short-term employees benefits are recognised as an expenses unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date. Any changes in the liabilities’ carrying amounts resulting from service cost, interest and remeasurements are recognised in profit or loss except to the extent that another HKFRSs requires or permits their inclusion in the cost of an asset.

(s) Related parties transaction

A party is considered to be related to the Group if:

- (a) A person or a close member of that person’s family is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group.

- (b) An entity is related to the Group if any of the following conditions applies:
- (i) the entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiaries is related to the others);
 - (ii) one entity is an associate or joint venture of the other entity for an associate or joint venture of a member of a group which the other entity is a member);
 - (iii) both entities are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group. If the Group is itself such a plan, the sponsoring employees are also related to the Group;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); or
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Close family members of an individual are those family members who may be expected to influence, or be influence by, that person in their dealings with the entity and include:

- (i) that person's children and spouse or domestic partner;
- (ii) children of that person's spouse or domestic partner; and
- (iii) dependants of the person or that person's spouse or domestic partner.

A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between the Group and a related party, regardless of whether a price is charged.

(t) Dividends

Final dividends proposed by the directors are classified as a separate allocation of retained profits within the equity section of the consolidated statements of financial position, until they have been approved by the shareholders in a general meeting. When these dividends have been approved by the shareholders and declared, they are recognised as a liability.

(u) Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's chief operating decision maker for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or to provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

4. CRITICAL ACCOUNTING JUDGMENTS AND ESTIMATES

In the application of the Group's accounting policies, which are described in Note 3, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

4. CRITICAL ACCOUNTING JUDGMENTS AND ESTIMATES (CONTINUED)

Critical judgments in applying accounting policies, accounting estimates and assumptions

(a) *Provision for ECL on trade and other receivables*

The loss allowances for financial assets at amortised cost are based on assumptions about risk of default and expected loss rates. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward-looking estimates at the end of each reporting period. Details of the key assumptions and inputs used are disclosed in Note 5(b).

As at 31 March 2023, the carrying amounts of trade receivables and other receivables were approximately HK\$3,896,000 (2022: HK\$14,161,000) and HK\$70,000 (2022: HK\$114,000), respectively, net of loss allowance of approximately HK\$244,000 (2022: HK\$916,000) and HK\$21,000 (2022: HK\$344,000), respectively. The provision for ECL is sensitive to changes in estimates. Information about the ECL and the Group's trade receivables and other receivables is disclosed in Notes 5(b), 20 and 22.

(b) *Impairment of property, plant and equipment and right-of-use assets*

Property, plant and equipment and right-of-use assets are stated at costs less accumulated depreciation and impairment, if any. In determining whether an asset is impaired, the Group has to exercise judgment and make estimation, particularly in assessing: (1) whether an event has occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value in use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (3) the appropriate key assumptions to be applied in estimating the recoverable amounts including cash flow projections and an appropriate discount rate. When it is not possible to estimate the recoverable amount of an individual asset (including right of-use assets), the Group estimates the recoverable amount of the cash-generating unit to which the assets belongs, including allocation of corporate assets when a reasonable and consistent basis of allocation can be established, otherwise recoverable amount is determined at the smallest group of cash generating units, for which the relevant corporate assets have been allocated. Changing the assumptions and estimates, including the discount rates or the growth rate in the cash flow projections, could materially affect the recoverable amounts.

As at 31 March 2023, the carrying amounts of property, plant and equipment and right-of-use assets subject to impairment assessment were approximately HK\$82,000 (2022: HK\$174,000) and HK\$815,000 (2022: HK\$543,000) respectively; after taking into account the accumulated impairment losses of approximately HK\$1,307,000 (2022: HK\$1,307,000) and HK\$1,727,000 (2022: HK\$1,727,000) in respect of property, plant and equipment and right-of-use assets that have been recognised, respectively. During the year ended 31 March 2023, the Group recognized impairment loss of HK\$nil (2022: HK\$388,000) and HK\$nil (2022: HK\$289,000) on property, plant and equipment and right-of-use assets allocated to IP automation and entertainment business segment, respectively. Details of the impairment of property, plant and equipment and right-of-use assets are disclosed in Notes 16 and 17, respectively.

4. CRITICAL ACCOUNTING JUDGMENTS AND ESTIMATES (CONTINUED)

Critical judgments in applying accounting policies, accounting estimates and assumptions (continued)

(c) *Income tax*

Determining income tax provisions involve judgment on the future tax treatment of certain transactions. The Group carefully evaluates tax implications of transactions and tax provisions are set up accordingly. The tax treatment of such transactions is reconsidered periodically to take into account all changes in tax legislations. Deferred tax assets are recognised for tax losses not yet used and temporary deductible differences. As those deferred tax assets can only be recognised to the extent that it is probable that future taxable profit will be available against which the unused tax credits can be utilised, management's judgment is required to assess the probability of future taxable profits. Management's assessment is constantly reviewed and additional deferred tax assets are recognised if it becomes probable that future taxable profits will allow the deferred tax asset to be recovered. The Group recognises liabilities for anticipated tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

During the year, HK\$894,000 (2022: HK\$1,027,000) of income tax was charged to profit or loss based on the estimated profit operations. As at 31 March 2023, deferred tax assets and tax payable were approximately HK\$40,000 (2022: HK\$145,000) and HK\$10,526,000 (2022: HK\$9,819,000) respectively.

5. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(b) Financial risk management objectives and policies

The Group's principal financial instruments comprise financial assets at FVTOCI, trade receivables, deposits and other receivables, cash and cash equivalents, trade payables, other payables and accruals and loans from shareholders. The main purpose of these financial instruments is to finance the Group's operations.

The main risks arising from the Group's financial instruments are (i) market risk (including a) foreign currency risk, b) interest rate risk, and c) price risk), (ii) credit risk and (iii) liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

(i) Market risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates, equity price and interest rates.

Market risk exposures are measured by sensitivity analysis. Details of sensitivity analysis for foreign currency risk, interest rate risk and price risk are set out below.

a) Foreign currency risk

Foreign currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Group carries out its business mainly in Hong Kong and all of the transactions are denominated in HK\$. The Group's assets and liabilities are mainly denominated in HK\$, except certain bank balances are denominated in United States dollars ("US\$"). As Hong Kong dollar are pegged to US\$, it is assumed that there would be no material currency risk exposure between these two currencies. The Group does not have any formal hedging policies.

b) Interest rate risk

The Group is exposed to fair value interest rate risk in relation to lease liabilities (Note 17) and cash flow interest rate risk in relation to variable-rate bank balances. The Group cash flow interest rate risk is mainly concentrated on the fluctuation of interest rates on bank balances. At 31 March 2023 and 31 March 2022, the management of the Group considers that the exposure to the Group arising from interest rate risk is limited and no sensitivity analysis is therefore prepared.

5. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(b) Financial risk management objectives and policies (continued)

(i) *Market risk (continued)*

c) *Price risk*

Management of the Group considers the exposure of equity price changes of equity investments classified as financial assets at FVOCI is insignificant and accordingly no sensitivity analysis is presented.

(ii) *Credit risk and impairment assessment*

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. The Group's credit risk is primarily attributable to a) trade and other receivables, b) deposits, and c) bank balances. At 31 March 2023, the Group's maximum exposure to credit risk, which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties arising from the carrying amounts of the respective recognised financial assets as stated in the consolidated statement of financial position. The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

a) *Trade receivables and other receivables*

Credit evaluations are performed on all customers requiring credit terms. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as to the economic environment.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer and therefore significant concentrations of credit risk primarily arises when the Group has significant exposure to individual customers.

The Group has a concentration of credit risk in certain individual customers. At the end of each reporting period, the five largest receivable balances accounted for approximately 94.1% (2022: approximately 97.5%) of the trade receivables and the largest trade receivable was approximately 49.5% (2022: approximately 68.4%) of the Group's total trade receivables. The Directors closely monitor the risk exposure of the customers and collateral and would take appropriate action to ensure the risk exposure is acceptable. The Directors are of the view that the expected cash flow of trade receivables are sufficient to cover the carrying amount of trade receivables as at 31 March 2023.

In order to minimise the credit risk, the management has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow up action is taken to recover overdue debts. In addition, the management reviews the recoverability of each trade debt at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. The Group applies simplified approach on trade receivables to provide for the ECL prescribed by HKFRS 9. The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix based on shared credit risk characteristics by reference to settlement pattern taking into consideration forward-looking information that is reasonable and supportable available without undue cost or effort.

(ii) Credit risk and impairment assessment (continued)

a) Trade receivables and other receivables (continued)

The closing loss allowances for trade receivables and other receivables as at 31 March 2023 and 2022 reconciled to the opening loss allowances as follows:

	Trade receivables Life-time ECL (Non-credit impaired) HK\$'000	Other receivables Life-time-ECL (Non-credit impaired) HK\$'000	Other receivables Life-time ECL (Credit impaired) HK\$'000	Total HK\$'000

At 31 March 2022 and at 1 April 2022	(916)	(6)	(338)	(1,260)
Amounts written off	–	–	338	338
Decrease (increase) in loss allowance recognised in profit or loss during the year	672	(15)	–	657
At 31 March 2023	(244)	(21)	–	(265)

Trade receivables are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group, and a failure to make contractual payments for a period greater than agreed contract terms.

Impairment losses on trade receivables are presented as net impairment losses within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

Expected loss rates are based on actual loss experience over the past 3 years and are adjusted for the forward-looking information that is available without undue cost or effort. These rates are adjusted to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables.

Further quantitative disclosures in respect of the Group's exposure to credit risk arising from trade receivables, deposits and other receivables are set out in Notes 20 and 22 to the consolidated financial statement.

The management monitors the financial background and creditability of those debtors on an ongoing basis. The Group seeks to minimise its risk by dealing with counterparties which have good credit history.

5. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(b) Financial risk management objectives and policies (continued)

(ii) Credit risk and impairment assessment (continued)

a) Trade receivables and other receivables (continued)

In determining the ECL of the Group's other receivables, the management assessed the expected credit losses individually by estimation based on historical credit losses experience, general economic conditions of the relevant industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date. During the year end 31 March 2023, the Group made allowance for the expected credit losses related to the other receivables was amount of HK\$15,000 (2022: net allowance of loss for expected credit losses HK\$41,000).

b) Deposits

The Group accounts for its credit risk by appropriately providing for expected credit losses on a timely basis. The Group has assessed that the expected credit loss rate for these receivables are immaterial under 12 months expected credit losses method. Thus, no loss allowance for deposit was recognised as at 31 March 2023 and 2022.

c) Deposits with banks

In respect to the Group's deposit with banks, the Group limits its exposure to credit risk by placing deposits with financial institution with high credit rating and no recent history of default. Given the high credit ratings of the banks, management does not expect any counterparty to fail to meet its obligations. Management will continue to monitor the position and will take appropriate action if their are changed. As at 31 March 2023 and 2022, the Group has no significant concentration of credit risk in relation to deposit with bank.

In these regards, other than the credit risks mentioned above, the management considers the Group does not have any other significant credit risk and the exposures to these credit risks are monitored on an ongoing basis.

The Group's internal credit risk grading assessment comprises the following categories:

Internal credit rating	Description	Trade receivables/ contract assets	Other financial assets/other items
Low risk	The counterparty has a low risk of default and does not have any past-due amounts	Lifetime ECL – not credit-impaired	12m ECL
Watch list	Debtor frequently repays after due dates but usually settle in full	Lifetime ECL – not credit-impaired	12m ECL
Doubtful	There have been significant increases in credit risk since initial recognition through information developed internally or external resources	Lifetime ECL – not credit-impaired	Lifetime ECL – not credit-impaired
Loss	There is evidence indicating the asset is credit-impaired	Lifetime ECL – credit-impaired	Lifetime ECL – credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written off	Amount is written off

5. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(b) Financial risk management objectives and policies (continued)

(ii) Credit risk and impairment assessment (continued)

The tables below detail the credit risk exposures of the Group's financial assets, which are subject to ECL assessment:

Financial assets at amortised cost	Note	Internal credit rating	12m or lifetime ECL	31 March 2023		31 March 2022	
				Gross carrying amount HK\$'000	Loss allowance HK\$'000	Gross carrying amount HK\$'000	Loss allowance HK\$'000
Trade receivables	20	Note (i)	Lifetime ECL	4,140	244	15,077	916
Deposits	22	Note (ii)	12m	1,774	-	1,734	-
Other receivables	22	Note (ii)	12m	91	21	120	6
			Credit impaired	-	-	338	338
Bank balances	23	Note (iii)	12m	29,030	-	28,431	-

Note:

- (i) For trade receivables, the Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL. Except for debtors that are credit-impaired or with significant outstanding balances, the Group determines the ECL on these items by using a provision matrix.
- (ii) For deposits and other receivables, the Group measures the loss allowance equal to 12m ECL. The Group applies internal credit risk management to assess whether credit risk has increased significantly since initial recognition, in which case the Group recognises lifetime ECL. Except for other receivables of HK\$nil (2022: HK\$338,000) which are credit-impaired and ECL has been provided amounting of HK\$nil (2022: HK\$338,000), respectively, the credit risk on remaining deposit and other receivables are limited because the counter parties have no historical default record and the ECL on these items are considered insignificant.
- (iii) Bank balances are deposited with financial institutions with high credit rating and are considered low credit risk financial assets. The management considers these assets are short-term in nature and the probability of default is negligible as they are banks with high-credit ratings. Therefore, no impairment allowance is made on these balances.

(iii) Liquidity risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of internal funding to meet its working capital requirements.

The Group monitors its risk to a shortage of funds by considering the maturity of both its financial liabilities and financial assets (for example, trade receivables) and projected cash flows from operations.

The maturity profile of the financial liabilities as at the end of the respective reporting periods, based on the contractual undiscontinued payments, is as follows:

31 March 2023

	Weighted average effective interest rate %	Repayable on demand or within 1 year HK\$'000	2 to 5 years HK\$'000	Over 5 years HK\$'000	Total undiscontinued cash flows HK\$'000	Total carrying amount HK\$'000

5. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(c) Fair value estimation

The fair value of financial assets and financial liabilities are determined as follows:

- (i) the fair value of financial assets and financial liabilities (including derivative instruments) with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market bid prices and ask prices respectively; and
- (ii) the fair values of financial instruments are calculated using quoted prices. Where such prices are not available, the Group appointed an independent professional valuer to assess the fair values of the equity investment at fair value through other comprehensive income. In determining the fair values, the valuer has used a method of valuation which involves certain estimates.

Except as detailed in the following tables, the directors consider that the carrying amounts of financial assets and financial liabilities recorded in the consolidated financial statements approximate their fair values.

(c) Fair value estimation (continued)

Fair value measurements recognised in the consolidated statement of financial position

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair value of the Group's assets and liabilities are measured of fair value on a recurring basis.

6. CAPITAL RISK MANAGEMENT

The primary objective of the Group's capital management is to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholder value.

The capital structure of the Group consists of debts which include total liabilities and total equity, mainly comprising issued capital, reserves and accumulated losses.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

The Group monitors capital using a gearing ratio, which is total debts divided by total equity. The decrease in gearing ratio was due to the decrease in debt. The gearing ratios at the end of each reporting period were as follows:

	2023	2022
	HK\$'000	HK\$'000
Total debts [#]	2,128	3,662
Total equity	19,278	20,579
Gearing ratio	11.0%	17.8%

[#] Total debts represent the loans from shareholders and lease liabilities.

The externally imposed capital requirement for the Group is that, in order to maintain its listing on the Stock Exchange, it has to have a public float of at least 25% of the shares of the Company throughout the year. Based on the information that is publicly available to the Company and within the knowledge of the directors, the Company has maintained a sufficient public float of at least 25% throughout the year ended 31 March 2023.

7. SEGMENT INFORMATION

Information reported to the management of the Group, being the chief operating decision maker (“CODM”), for the purpose of resource allocation and assessment of segment performances, focuses on the types of goods or services delivered or provided. This is also the basis upon which the Group is organised and specifically focuses on the Group’s operating divisions. No operating segments identified by the CODM have been aggregated in arriving at the reportable segments of the Group.

The Group’s reportable and operating segments under HKFRS 8 are as follows:

- Dry bulk shipping and logistic services
- IP automation and entertainment business

Segment revenue and results

The following is an analysis of the Group’s revenue and results by reportable segment:

Under the two-tiered profits tax rates regime, the first HK\$2 million of assessable profits of a Group's qualifying corporations established in Hong Kong will be taxed at 8.25% (2022: 8.25%), and assessable profits above HK\$2 million will be taxed at 16.5% (2022: 16.5%). The assessable profits of other Group's corporation not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5% (2022: 16.5%).

Taxation in other jurisdictions are calculated at the rates prevailing in the respective jurisdictions. No provision for such tax has been made as the Group had no assessable profit in other jurisdictions for the years ended 31 March 2023 and 2022.

The tax expense for the year can be reconciled to the loss before tax per the consolidated statement of profit or loss and other comprehensive income as follows:

	Year ended 31 March	
	2023 HK\$'000	2022 HK\$'000

14. DIVIDENDS

The directors of the Company do not recommend the payment of a dividend in respect of the year ended 31 March 2023 (2022: Nil).

15. LOSS PER SHARE

The calculation of the basic and diluted loss per share attributable to the owners of the Company is based on the following data:

	Year ended 31 March	
	2023	2022
	HK\$'000	HK\$'000
Loss attributable to the owners of the Company for the purpose of basic and diluted loss per share	(1,026)	(4,972)

	Year ended 31 March	
	2023	2022
	'000	'000
Weighted average number of ordinary shares for the purpose of basic and diluted loss per share	2,612,959	2,519,754

For the years ended 31 March 2023 and 2022, the Company's outstanding share options were not included in the calculation of diluted loss per share because the effect of the Company's outstanding share options were anti-dilutive and therefore the diluted loss per share are the same as the basic loss per share.

Impairment of property, plant and equipment and right-of-use assets

As at 31 March 2022, the Group's management considered the adverse business environment and conducted the impairment assessment on the recoverable amounts of the property, plant and equipment and right-of-use assets with finite useful life with carrying amounts of HK\$174,000 and HK\$543,000 respectively. The recoverable amount has been determined based on a value-in-use calculation. That calculation used a cash flow projections based on financial budgets approved by the management of the respective subsidiary covering the next 5 years with a pre-tax discount rate of 17%. The annual growth rate used is from 2.1% to 2.5%, which is based on the industry trends and market conditions. The cash flows beyond the 5-year period are extrapolated using a steady growth rate of 2.5% which does not exceed the average long-term growth rate for the relevant markets.

Notes to Consolidated Financial Statements

For the year ended 31 March 2023

16. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Impairment of property, plant and equipment and right-of-use assets (continued)

As at 31 March 2022, based on the result of the assessment, management of the Group determined that the recoverable amount of the cash generating units of the Group's IP automation and entertainment business segment is lower than the carrying amount. The impairment amount has been allocated to each category of property, plant and equipment and right-of-use assets with finite useful lives such that the carrying amount of each category of asset is not reduced below the highest of its value-in-use and zero. Based on the value-in-use calculation and the allocation, impairment losses of HK\$388,000, and HK\$289,000, have been recognised in the consolidated profit or losses against the carrying amounts of property, plant and equipment and right-of-use assets with finite useful lives respectively. The accumulated impairment loss provision for the Group's property, plant and equipment and right-of-use assets amounted to approximately HK\$1,307,000 and HK\$1,727,000 respectively.

As at 31 March 2023, the management is of the opinion that since the IP automation and entertainment business segment strive to recover from the loss-making situation, there is no indication that property, plant and equipment and right of use assets within IP automation and entertainment business segment may be impaired. The management assessed and reviewed the recoverable amount of cash-generating unit. No impairment loss was identified for property, plant and equipment and right of use assets.

33. SHARE OPTION SCHEME

The Company conditionally operates a share option scheme ("Share Option Scheme") for the purpose of attract, retain and reward the eligible persons and to provide the eligible persons an incentive or reward for their contribution to the Group. The Share Option Scheme was adopted on 21 September 2011 and, unless otherwise terminated by ordinary resolution in general meeting or the board of directors, will remain in full force for ten years from that date.

The eligible persons of the Share Option Scheme include directors, employee, consultants or advisers, provider of goods or services, customers, holder of securities issued by the member of the Group and any other person has contributed to the Group (the "Eligible Persons").

The subscription price of the share options shall be a price determined by the board of directors and shall be at least the highest of (i) the closing price per share as stated in the Stock Exchange's daily quotation sheet on the offer date; (ii) the average of the closing prices per share as stated in the Stock Exchange's daily quotation sheets for the five business days immediately preceding the offer date; or (iii) the nominal value of the share.

The Eligible Person shall accept the offer or be deemed to have declined it at the date not later than ten business days after the offer date, provided that no such offer shall be open for acceptance after the tenth anniversary of the date of adoption of the Share Option Scheme or after the Share Option Scheme has been terminated in accordance with the provisions of the Share Option Scheme. The amount payable by the grantee to the Company on acceptance of the offer shall be a nominal amount to be determined by the board of directors.

The total number of shares which may be issued upon exercise of all options to be granted under the Share Option Scheme shall not in aggregate exceed 10% of the total number of shares in issue as at the date of approval of the Share Option Scheme.

On 25 September 2013, the shareholders of the Company had approved the refreshment of the 10% scheme mandate limit on the grant of options under the Share Option Scheme. Options previously granted will not be counted for the purpose of calculating the scheme mandate limit as refreshed. Based on 2,220,000,000 shares of the Company in issue as at the date of refreshment, the directors were authorised to issue options to subscribe for a total of 222,000,000 shares of the Company, representing 10% of the total number of shares of the Company in issue as at the date of refreshment.

The total number of shares issued and to be issued upon exercise of the options granted to each Eligible Person (including both exercised and outstanding options under the Share Option Scheme) in any twelve-month period must not exceed 1% of the issued share capital of the Company. Any grant of share options in excess of the above limit is subject to the approval from the shareholders in general meeting.

For equity-settled share-based payments with parties other than employees, the Group has the presumption that the fair values of the services received cannot be estimated reliably. As in the opinion of the Directors, the Group measured the services received from these parties and its fair value is approximate to the fair values of the share options granted using the black-scholes option pricing model, at the date these parties rendered related services to the Group.

No share option had been granted, exercised, lapsed or cancelled during the years ended 31 March 2023 and 2022.
