TO OUR SHAREHOLDERS

On behalf of the board of directors (the “**Board**”) of Wanjia Group Holdings Limited (the “**Company**”), I am pleased to present the audited financial results of the Company and its subsidiaries (collectively referred to as the “**Group**”) for the year ended 31 March 2023.

After three years of zero-COVID-19 policy implemented in the People's Republic of China (the “**PRC**”) since 2020, the PRC government finally announced in December 2022, a nation wide loosening of its hardline COVID-19 restrictions that had hammered the world's second biggest economy. Furthermore, World Health Organization chief has declared end of COVID-19 as the public health emergency of international concern since 5 May 2023. However, as the PRC's economy is still recovering from the COVID-19 pandemic, the Group made various adjustments business strategy during the year such as streamlined the business operations in the PRC market to control operating costs, implemented an effective cash flow management strategy, and assessed the business expansion plan with a more prudent approach.

RESULTS FOR THE YEAR

The Group continued to focus on pharmaceutical wholesale and distribution business, and provides hemodialysis treatment and consultancy service business in the PRC.

The COVID-19 pandemic restrictions in 2022 in the PRC has made it challenging for everyone but the Group's business remains robust and resilient and we are proud to see total revenue of the Group for the year was approximately HK\$173.702 million, representing an increase of approximately HK\$18.879 million as compared to 2022. The gross profit was approximately HK\$56.936 million, representing an increase of approximately HK\$2.702 million as compared to 2022. The profit for the year attributable to the owners of the Company was approximately HK\$1.820 million as a result of the continuing improvement on the Group's operation of the hemodialysis treatment and consultancy service business segment in the PRC.

各位股東

本人謹代表萬嘉集團控股有限公司（「**本公司**」）之董事會（「**董事會**」），欣然提呈本公司及其附屬公司（統稱「**本集團**」）截至二零二三年三月三十一日止年度之經審核財務業績。

於中華人民共和國（「**中國**」）自二零二零年起實施三年COVID-19清零政策後，中國政府終於於二零二二年十二月宣佈在全國範圍內放鬆其嚴格的COVID-19限制，相關限制對該全球第二大經濟體構成打擊。此外，世界衛生組織總幹事宣佈，自二零二三年五月五日起，COVID-19不再為國際關注的突發公共衛生事件。然而，由於中國經濟仍處於自COVID-19疫情復甦的過程中，本集團於年內作出多項業務策略調整，如精簡中國市場的業務運營以控制運營成本、實施有效的現金流管理策略以及更加審慎的方法評估業務拓展計劃。

年內業績

本集團繼續專注於在中國營運藥品批發及分銷業務及提供血液透析治療及諮詢服務業務。

中國於二零二二年實施的COVID-19疫情限制措施令所有人均面臨挑戰，惟讓我們倍感自豪的是本集團的業務仍然穩健且充滿韌性，本年度本集團之總收益約為173,702,000港元，較二零二二年增加約18,879,000港元。毛利約為56,936,000港元，較二零二二年增加約2,702,000港元。本公司擁有人應佔年內溢利約為1,820,000港元，乃由於本集團在中國的血液透析治療及諮詢服務業務分類之經營持續改善所致。

OUTLOOK AND FUTURE PROSPECTS

The Group will centralise its resources in developing the hemodialysis treatment and consultancy service business. The Group will look to further develop its hemodialysis treatment and consultancy service business through organic growth and acquisitions.

Looking forward, the Group will focus on developing such segment through establishment of new self-operated hemodialysis treatment centres and provide hemodialysis consultancy service to hospitals in the PRC so as to expand its operating scale and further penetrate in the market.

The Group believes that the demand for hemodialysis treatment services in the PRC market is still far from being met and has great potential for development. Based on the Group's experience and strength in the medical field, we will continue to further explore and expand our existing businesses to further penetrate the hemodialysis sector, and it will become the driving force for building our Group's influence in the market and create better return to the shareholders.

The Group will continue to pay attention to different investment opportunities, identify appropriate businesses and projects for shareholders, and increase shareholders returns.

前景及未來展望

本集團將集中資源發展血液透析治療及諮詢服務業務。本集團將尋求透過有機增長及收購進一步發展血液透析治療及諮詢服務業務。

展望未來，本集團將透過於中國成立新自營血液透析治療中心並向醫院提供血液透析諮詢服務集中發展有關分類，以擴大營運規模以及進一步滲透市場。

本集團認為，中國市場的血液透析治療服務的需求仍遠遠未被滿足，尚有巨大的發展潛力。依托本集團在醫療領域的經驗及實力，我們將繼續進一步探索與拓展現有業務，從而進一步滲透血液透析行業，而且其將成為市場中建立本集團影響的驅動力，並為股東創造更好的回報。

本集團將繼續關注不同投資機會、為股東物色合適業務及項目以及增加股東回報。

APPRECIATION

On behalf of the Board, I would like to express my sincere gratitude to the management team and staff for their tireless dedication that helps fuel the Group's healthy development. In addition, I would also like to thank all our shareholders, business partners and customers for their continuous support. In 2023, the Company will continue to work tirelessly to create long-term value returns for the shareholders.

Wang Jia Jun

Management Discussion and Analysis

管理層討論及分析

Segment information

During the year, the revenue of the Group was principally generated from: (1) pharmaceutical wholesale and distribution business and (2) hemodialysis treatment and consultancy service business in the PRC. Financial information in respect of these operations is presented in Note 7 to the consolidated financial statements.

1) Pharmaceutical wholesale and distribution business

The Group has a large and broad customer base through our distribution network in Fujian Province in the PRC. The Group distributes pharmaceutical products to our customers located principally in the Fujian Province. Our customers can be categorized into three types namely hospitals and healthcare institutions and end customers such as companies operating pharmaceutical retail chain stores, independent pharmacies, and outpatient departments of community hospitals, healthcare service stations and clinics. In the early part of 2019, the medical reform policy further controlled the pharmaceutical costs in public hospitals in Fujian Province which reduced the overall size of the pharmaceutical distribution business in public hospitals. In addition, the distribution policy broke the original rules that essential medicines in public hospitals in Fujian Province were only distributed by 10 wholesale companies, thereby causing material adverse impact in the operation and its overall performance of the Group in pharmaceutical wholesale and distribution business.

Revenue from this segment was approximately HK\$52.278 million (2022: approximately HK\$51.183 million), representing a slight increase of approximately 2.14%. Loss from this business segment was approximately HK\$1.130 million (2022: Gain from this business segment was approximately HK\$0.007 million).

2) Hemodialysis treatment and consultancy service business

In respect of the hemodialysis treatment business, the Group currently operates several self-operated hemodialysis treatment centres spread across the Guangdong Province, PRC.

分類資料

年內，本集團之收益主要來自於中國：(1)藥品批發及分銷業務及(2)血液透析治療及諮詢服務業務。有關該等營運之財務資料於綜合財務報表附註7呈列。

1) 藥品批發及分銷業務

憑藉我們於中國福建省的分銷網絡，本集團擁有龐大而廣闊的客戶基礎。本集團向主要位於福建省的客戶分銷藥品。我們的客戶可分類為三個類型即醫院及醫療機構及終端客戶，例如營運藥品零售連鎖店的公司、獨立藥房及社區醫院的門診部、醫療服務站及診所。於二零一九年年初，醫改政策進一步控制福建省公立醫院藥品費用，減少公立醫院藥品配送業務整體規模。此外，配送政策打破了原定的福建省公立醫院基本藥物只由十家批發企業配送的規則，對本集團的藥品批發及分銷業務的營運及其總體業績造成了重大負面影響。

來自此分類的收益約為52,278,000港元（二零二二年：約51,183,000港元），略微增加約2.14%。來自此業務分類的虧損約為1,130,000港元（二零二二年：來自此業務分類的收益約7,000港元）。

2) 血液透析治療及諮詢服務業務

就血液透析治療業務而言，本集團現時營運多個遍佈於中國廣東省的自營血液透析治療中心。

On 16 November 2022, The Group has terminated the 10 Years Service Contract with Zhuhai Shengchuang Medical Investment Management Limited[#] (the “**Owner**”) (珠海升創醫療投資管理有限公司) (an indirect non wholly-owned subsidiary of the Company) in respect of the operation and management of the hemodialysis centre in the Hospital, namely Zhuhai Jiulong Hospital[#] (the “**Hospital**”) (珠海九龍醫院). The service contract was signed on 13 March 2020. The reason for the originally termination was due to a legal proceedings instituted by a creditor against the Hospital and the bank account of the Hospital was frozen. Such bank account was used to receiving patients’ government subsidies under the medical insurance policy. The hemodialysis centre was unable to receive the said patients’ government subsidies since the bank accounts have been frozen. The Directors took the view that it is in the best interests of the Company and the Shareholders as a whole to terminate the service contract. As of 15 January 2023, the Hospital has fulfilled all obligations including the refund of RMB11 million (equivalent to approximately HK\$11.88 million) of financial assistance to the Owner under the termination agreement. Please refer to the Company’s announcement dated 16 November 2022 for further details.

On 31 March 2023, one of the Group’s self-operated hemodialysis treatment centres in Huidong, Guangdong, the PRC, namely Huidong Centre was disposed at RMB3.5 million (equivalent to approximately HK\$3.99 million). As of 11 May 2023, the disposal was completed. Please refer to the Company’s announcement dated 31 March 2023 for further details.

Revenue from this segment was approximately HK\$121.424 million (2022: approximately HK\$103.640 million), representing an increase of approximately 17.16%. Gain from this business segment was approximately HK\$15.450 million (2022: Loss from this business segment was approximately HK\$38.014 million).

於二零二二年十一月十六日，本集團終止與珠海升創醫療投資管理有限公司（「營運商」，本公司之間接非全資附屬公司）就經營及管理該醫院（即珠海九龍醫院（「該醫院」））血液透析中心訂立的10年期服務合約。服務合約於二零二零年三月十三日簽署。終止之最初原因為一名債權人對該醫院提起法律訴訟及該醫院的銀行賬戶被凍結。該銀行賬戶用於接收醫保政策項下患者的政府補貼。血液透析治療中心因銀行賬戶被凍結而無法接收上述患者政府的補貼。董事認為，終止服務合約符合本公司及股東之整體最佳利益。截至二零二三年一月十五日，該醫院已履行所有責任，包括向終止協議項下之營運商退還財務援助金額人民幣11,000,000元（相等於約11,880,000港元）。進一步詳情請參閱本公司日期為二零二二年十一月十六日之公佈。

於二零二三年三月三十一日，按人民幣3,500,000元（相等於約3,990,000港元）出售本集團於中國廣東惠東之自營血液透析治療中心之一（即惠東中心）。截至二零二三年五月十一日，出售事項已完成。進一步詳情請參閱本公司日期為二零二三年三月三十一日之公佈。

該分類的收益約為121,424,000港元（二零二二年：約103,640,000港元），增加約17.16%。來自此業務分類之收益約為15,450,000港元（二零二二年：來自此業務分類之虧損約38,014,000港元）。

行政開支

截至二零二三年三月三十一日止年度之行政開支約為24,584,000港元（二零二二年：約22,250,000港元）。增加乃主要由於員工培訓開支及員工費用增加所致。

The profit was mainly attributable to among others, the following reasons:

- (a) the Group has recorded a reversal of allowance for expected credit losses on trade and other receivables of approximately HK\$7.499 million due to a lesser amount for the net allowance for expected credit losses on trade and other receivables required for the year ended 31 March 2023; and
- (b) benefited from the continuing improvement on the Group's operation of the hemodialysis treatment and consultancy service business segment in the PRC, there is no impairment loss on goodwill (the "Impairment") required for the year ended 31 March 2023 as compared to the Impairment of approximately HK\$46.630 million recorded for the year ended 31 March 2022.

Overall financial position

The Group had total cash and cash equivalents of approximately HK\$9.876 million as at 31 March 2023 (2022: approximately HK\$5.768 million). 溢利主要歸因於(其中包括)以下原因:

- (a) 由於截至二零二三年三月三十一日止年度就貿易及其他應收款所需的預期信貸損失撥備淨額較少,本集團已撥回貿易及其他應收款的預期信貸損失撥備約為7,499,000港元;及
- (b) 受益於本集團在中國血液透析治療及諮詢服務業務分類之經營持續改善,相對於截至二零二二年三月三十一日止年度之約46,630,000港元之減值,截至二零二三年三月三十一日止年度並沒有商譽減值虧損(「減值」)。

Combatting Climate Change

As the international community continues to focus on climate change, the Group recognizes the risks associated with this global issue in its business operations. The effects of climate change have resulted in more frequent occurrences of extreme weather events.

For pharmaceutical wholesale and distribution business, the increased frequency and intensity of extreme weather events (such as heavy rains, typhoons, etc.) may affect the transportation of drugs and increase the time for drugs to be transported to medical institutions. For hemodialysis treatment and consulting business, extreme heat or cold may affect patients who need hemodialysis treatment, for example, it may worsen their physical condition.

The Group has developed policies such as Typhoon Contingency Plan to address the potential threats posed by climate change regarding the possible impacts of these extreme weather conditions. We develop appropriate workflows and measures, including back-up plans, to prevent or mitigate the impacts of climate change on the transport or treatment of medicines. In addition, we have developed extreme weather management measures to address more frequent extreme weather events due to climate change. For example, we set out work arrangements in our Employee Handbook for different typhoon and rainstorm situations to ensure the safety of our employees while maintaining our business operations.

As a responsible company, we are also committed to reducing wastes and greenhouse gas emissions from our business, providing energy management and efficiency improvement of energy consumption equipment, thereby reducing greenhouse gas and exhaust emissions.

We participated in Earth Hour 2023 to support energy consumption reduction and combatting climate change. 我們參與2023地球一小時活動，以支持減少能源消耗和應對氣候變化。

應對氣候變化

隨著國際社會對氣候變化議題日益關注，本集團意識到其業務運營中與氣候變化相關的風險。氣候變化導致極端天氣事件頻繁發生。

於藥品批發及分銷業務，極端天氣（如暴雨、颱風等）事件的發生頻率及強度增加，可能會影響藥物運輸，增加藥物運輸到醫療機構的時間。於血液透析治療及諮詢業務，極端炎熱或寒冷可能會對需要進行血液透析治療的病人造成影響，例如有可能令其身體情況惡化。

對於以上極端天氣可能造成的影響，本集團已制定一系列政策如《颱風應急預案》以應對氣候變化所帶來的潛在威脅。我們制定合適的工作流程及措施，包括後備方案，以預防或減少氣候變化對於藥物運輸或治療的影響。此外，我們制定極端天氣管理方案以應對因氣候變化導致的更頻繁的極端天氣事件。例如，我們於員工手冊上列明不同颱風及暴雨情況下的工作安排，以確保僱員的安全，同時維持業務運作。

作為負責任的企業，我們亦致力減少業務所排放的廢棄物及溫室氣體，提供能耗設備的能源管理與效率提升，從而減少溫室氣體及廢氣的排放量。

Air Pollutants and Greenhouse Gas (“GHG”) Management

During the Reporting Period, the Group’s greenhouse gas emissions are mainly associated with electricity consumption from our storage warehouse for pharmaceutical products and hemodialysis centres. All warehouse and hemodialysis treatment centers are equipped with environmental control measures that regulate temperature and humidity in accordance with seasonal changes, ensuring the quality of the medicine stored within these premises.

The Group’s logistics department is responsible for delivering goods, which involves the consumption of fossil fuels and the emission of greenhouse gases into the atmosphere. Acknowledging the potential environmental impacts of its logistics activities, the Group has optimized the delivery routes taken by its vehicles to minimize fuel consumption and associated emissions. The Group is dedicated to reducing emissions and greenhouse gas emissions through the implementation of these measures.

廢氣及溫室氣體管理

報告期間，本集團溫室氣體排放主要來自藥物產品的儲存倉庫及血液透析治療中心。每個倉庫及血液透析治療中心都有對應的環境控制措施，並且會根據季節控制室內溫度及濕度，確保處所內所持藥物的品質。

本集團的物流部門負責交付貨品，當中所消耗的石化燃料會導致產生溫室氣體並排放於大氣中。我們為此優化交付車輛採取的運送路線，盡量減低燃料消耗及相關排放。我們一直致力透過執行以上措施以減少廢氣及溫室氣體排放。

In terms of hazardous waste, the Group returns the medicine requiring disposal to the supplier or deliver it to medical waste contractors designated by the government, in accordance with our Loss Reporting and Destruction Policy. During the Reporting Period, the Group did not encounter any material cases where goods required return to the supplier due to defects nor generated any hazardous. For non-hazardous waste, we support waste reduction at source and actively upgrade its electronic office system, such as enterprise resource planning system to enhance communication among employees and reduce the use of paper for information dissemination. We encourage recycling and set up waste recycling procedures:

在有害廢棄物方面，本集團會將須處理的藥物退回至供應商或按照《報損與銷毀管理制度》交由政府指定的醫療廢棄物處理承辦商進行處理。報告期間，本集團未有遇到任何貨品因有缺陷而需退回供應商或以有害廢棄物形式處理的情況。在無害廢棄物方面，我們支持源頭減廢，積極更新電子辦公系統，例如企業資源計劃系統。此系統能加強員工之間的溝通，更可以減少使用紙質方式傳遞訊息。我們鼓勵員工循環再用，並設立廢棄物回收程序：

In addition to hazardous and non-hazardous waste, a large amount of medical wastewater is generated during the hemodialysis process. The Group strictly adheres to the laws and regulations in relation to medical sewage discharge to dispose of such wastewater, through collecting it in a sewage tank, and discharge it to municipal sewage pipes after biochemical treatment and chlorine dioxide disinfection to make sure the sewages are upon reaching water quality standards. During the Reporting Period, we strictly monitor the wastewater and conduct sampling test to ensure the absence of intestinal infectious bacteria.

除了有害及無害的廢棄物，進行血液透析過程中會產生大量醫療廢水。本集團嚴格遵從醫療污水排放的相關法律及法規處理這些廢水，統一收集到污水池，經過生化處理及二氧化氯消毒並且水質達標後會排放到市政污水管道。期間，我們會嚴格監控廢水及抽取樣本檢測，確保無腸道傳染菌。

管理層對商譽之可收回性進行年度減值測試，其乃由於對未來表現作出之判斷而本質為主觀。

The valuation of goodwill performed by an independent professional external valuer based on the value in use calculation. The valuation requires the application of significant judgement and estimation by the management in determining the appropriate valuation methodology to be used, use of subjective assumptions and various unobservable inputs. The valuation is sensitive to underlying assumptions applied by the valuer such as pre-tax discount rates and growth rate used and cash flow projection which can have a significant impact to the valuation.

獨立專業外部估值師所進行之商譽估值乃基於使用價值計算方法。估值須應用管理層於釐定將予使用之適當估值方法、主觀假設用途及各種不可觀察輸入數據而作出之重大判斷及估計。該估值對估值師應用之相關假設具敏感性，例如對估值會產生重大影響之除稅前貼現率及所用之增長率以及現金流量預測。

關鍵審計事項

Management applied judgement in assessing the expected credit losses. Receivables relating to customers with known financial difficulties or significant doubt on collection of receivables are assessed individually for provision for impairment allowance. Expected credit losses are also estimated by grouping the remaining receivables based on shared credit risk characteristics and collectively assessed for likelihood of recovery, taking into account the nature of the customer, its geographical location and its ageing category, and applying expected credit loss rates to the respective gross carrying amounts of the receivables. The expected credit loss rates are determined based on historical credit losses experienced and are adjusted to reflect current and forward-looking information such as macroeconomic factors affecting the ability of the customers to settle the receivables.

管理層在評估預期信貸虧損時運用判斷。有關已知財務困難或嚴重質疑能否收回應收款項的客戶應收款項會獨立評估其減值撥備。經計及客戶性質、其地理位置及賬齡類別，亦透過將剩餘應收款項基於共享信貸風險特徵分組，並綜合評估回收可能性估算預期信貸虧損，並應用預期信貸虧損率於各應收款項的賬面總額。預期信貸虧損率乃根據歷史信貸虧損經驗釐定，並經調整以反映當前及前瞻性資料，例如影響客戶清償應收款項能力的宏觀經濟因素。

We focused on this area due to the magnitude of the trade receivables and the estimation and judgement involved in determining the expected credit losses allowance of the trade receivables.

我們乃基於該等貿易應收款項的幅度及釐定該等貿易應收款項之預期信貸虧損撥備所涉及的估計及判斷而聚焦此範疇。

關鍵審計事項—續

How our audit addressed the key audit matters

我們進行審計時如何處理關鍵審計事項

- Obtaining management's assessment on the expected credit losses allowance of receivables. We corroborated and validated management's assessment based on the historical settlement pattern, correspondence with the customers, evidence from external sources including the relevant public search results relating to the financial circumstances of the relevant customers and market research regarding the relevant forward-looking information such as macroeconomic factors used in management's assessment.
- 取得管理層對應收款項預期信貸虧損撥備的評估。我們基於過往償付模式、與客戶的通訊及來自外部來源的證據（包括有關客戶的財務狀況的相關公開搜索結果）以及有關前瞻性資料的市場研究，證實並驗證管理層的評估，例如管理層評估中的宏觀經濟因素等信息。

Based upon the above, we found that the estimation and judgement made by management in respect of the expected credit losses allowance and the collectability of receivables were supported by the available evidence.

基於上述各項，我們發現管理層就應收款項預期信貸虧損撥備及可收回性所作的估計及判斷由可得的證據支持。

結合我們對綜合財務報表的審計，我們的責任是閱讀其他資料，在此過程中，考慮其他資料是否與綜合財務報表或我們在審計過程中所了解的情況存在重大抵觸或者似乎存在重大錯誤陳述的情況。基於我們已執行的工作，如果我們認為其他資料存在重大錯誤陳述，我們需要報告該事實。在這方面，我們沒有任何報告。

董事及審核委員會就綜合財務報表須承擔的責任

董事須負責根據香港會計師公會頒佈的《香港財務報告準則》及《公司條例》的披露規定擬備真實而中肯的綜合財務報表，並對其認為為使綜合財務報表的擬備不存在由於欺詐或錯誤而導致的重大錯誤陳述所需的內部控制負責。

RESPONSIBILITIES OF THE DIRECTORS AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS – continued

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

董事及審核委員會就綜合財務報 表須承擔的責任－續

在編製綜合財務報表時，董事負責評估 貴集團持續營運的能力，並在適用情況下披露與持續營運有關的事項，以及使用持續營運為會計基礎，除非董事有意將 貴集團清盤或停止營運，或別無其他實際的替代方案。

審核委員會須負責監督 貴集團的財務報告過程。

核數師就審計綜合財務報表須承 擔的責任

我們的目標，是對綜合財務報表整體是否不存在由於欺詐或錯誤而導致的重大錯誤陳述取得合理保證，並出具包括我們意見的核數師報告。本報告僅向整體股東作出，除此以外本報告並無其他用途。我們不會就本報告的內容向任何其他人士承擔或負上任何責任。

合理保證是高水平的保證，但不能保證按照《香港審計準則》進行的審計，在某一重大錯誤陳述存在時總能發現。錯誤陳述可以由欺詐或錯誤引起，如果合理預期它們單獨或匯總起來可能影響綜合財務報表使用者依賴綜合財務報表所作出的經濟決定，則有關的錯誤陳述可被視作重大。

Independent Auditors' Report 獨立核數師報告

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS – continued

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

核數師就審計綜合財務報表須承擔的責任—續

在根據《香港審計準則》進行審計的過程中，我們運用了專業判斷，保持了專業懷疑態度。我們亦：

- 識別和評估由於欺詐或錯誤而導致綜合財務報表存在重大錯誤陳述的風險，設計及執行審計程序以應對這些風險，以及獲取充足和適當的審計憑證，作為我們意見的基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述，或凌駕於內部監控之上，因此未能發現因欺詐而導致的重大錯誤陳述的風險高於未能發現因錯誤而導致的重大錯誤陳述的風險。
- 了解與審計相關的內部監控，以設計適當的審計程序，但目的並非對 貴集團內部控制的有效性發表意見。
- 評價董事所採用會計政策的恰當性及作出會計估計和相關披露的合理性。

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS – continued

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
 - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.
- 對董事採用持續經營會計基礎的恰當性作出結論。根據所獲取的審計憑證，確定是否存在與事項或情況有關的重大不確定性，從而可能導致對 貴集團的持續營運能力產生重大疑慮。如果我們認為存在重大不確定性，則有必要在核數師報告中提請使用者注意綜合財務報表中的相關披露。假若有關的披露不足，則我們應當發表非無保留意見。我們的結論是基於核數師報告日止所取得的審計憑證。然而，未來事項或情況可能導致 貴集團不能持續營運。
 - 評價綜合財務報表的整體列報方式、結構和內容，包括披露，以及綜合財務報表是否中肯反映相關交易和事項。
 - 就 貴集團內實體或業務活動的財務資料獲取充足、適當的審計憑證，以便對綜合財務報表發表意見。我們負責 貴集團審計的方向、監督和執行。我們為審計意見承擔全部責任。

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguard applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 Share-based Payment, leasing transactions that are accounted for in accordance with HKFRS 16 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 Inventories or value in use in HKAS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's relevant components of equity and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries, including re-attribution of relevant reserves between the Group and the non-controlling interests according to the Group's and the non-controlling interests' proportionate interests.

Any difference between the amount by which the non-controlling interests are adjusted, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interest (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKFRS 9 Financial Instruments or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Business combinations

A business is an integrated set of activities and assets which includes an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired processes are considered substantive if they are critical to the ability to continue producing outputs, including an organised workforce with the necessary skills, knowledge, or experience to perform the related processes or they significantly contribute to the ability to continue producing outputs and are considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

For business combinations in which the acquisition date is on or after 1 April 2022, the identifiable assets acquired and liabilities assumed must meet the definitions of an asset and a liability in the Conceptual Framework for Financial Reporting 2018 issued in June 2018 (the “**Conceptual Framework**”) except for transactions and events within the scope of HKAS 37 or HK(IFRIC)-Int 21, in which the Group applies HKAS 37 or HK(IFRIC)-Int 21 instead of the Conceptual Framework to identify the liabilities it has assumed in a business combination. Contingent assets are not recognised.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary's net assets in the event of liquidation are initially measured at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets or at fair value. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value.

When the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively. Measurement period adjustments are adjustments that arise from additional information obtained during the "measurement period" (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured to fair value at subsequent reporting dates, with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss or other comprehensive income, as appropriate. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income and measured under HKFRS 9 would be accounted for on the same basis as would be required if the Group had disposed directly of the previously held equity interest.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted retrospectively during the measurement period (see above), and additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

不符合作為計量期間調整之或然代價之其後會計處理，取決於或然代價如何分類。分類為權益之或然代價於其後報告日期不會重新計量，其後結算於權益內進行入賬處理。分類為資產或負債之或然代價於其後報告日期重新計量至公平值，而相應收益或虧損乃於損益中確認。

倘業務合併分階段完成，則本集團過往所持有被收購公司之股權會重新計量至收購日期（即本集團獲得控制權當日）之公平值，而所產生之收益或虧損（如有）會於損益或其他全面收益（如適用）確認。如本集團已直接出售先前持有之股權，先前已於其他全面收益確認並根據香港財務報告準則第9號計量的在收購日期前於被收購公司的權益所產生之金額，將須按相同基準入賬。

倘業務合併之初步會計處理於合併發生之報告期末仍未完成，則本集團會就仍未完成會計處理之項目呈報暫定金額。該等暫定金額於計量期間（見上文）內作出追溯調整，並確認額外資產或負債，以反映獲得有關於收購日期已存在事實及情況之新資料，而倘知悉該等資料，將會影響於當日確認之金額。

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units ("CGUs") (or groups of CGUs) that is expected to benefit from the synergies of the combination which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A CGU (or group of CGUs) to which goodwill has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the CGU (or group of CGUs) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro-rata basis based on the carrying amount of each asset in the unit (or group of CGUs).

On disposal of the relevant CGU or any of the CGU within the group of CGUs, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal. When the Group disposes of an operation within the CGU (or a CGU within a group of CGUs), the amount of goodwill disposed of is measured on the basis of the relative values of the operation (or the CGU) disposed of and the portion of the CGU (or the group of CGUs) retained.

商譽

收購業務所產生之商譽按收購業務當日所確定之成本減任何累計減值虧損(如有)列賬。

就減值測試而言,商譽會分配到本集團中預期會受惠於合併協同效應之各個現金產生單位(「現金產生單位」)(或現金產生單位組別),代表為內部管理目的監測商譽的最低水平,並且不大於一項經營分類。

獲分配商譽之現金產生單位(或現金產生單位組別)會每年進行減值測試,或於有跡象顯示該單位可能已經減值時更頻繁地進行減值測試。就於某報告期間因收購產生的商譽而言,獲分配商譽的現金產生單位(或現金產生單位組別)於報告期末前進行減值測試。倘現金產生單位之可收回數額少於其賬面值,則減值虧損會首先分配至用以減少該單位獲分配之任何商譽之賬面值,再根據該單位(或現金產生單位組別)各項資產之賬面值按比例基準分配至該單位之其他資產。

於出售相關現金產生單位或現金產生單位組別內的任何一個現金產生單位時,商譽應佔金額將被計入釐定出售的損益金額當中。當本集團處置現金產生單位(或現金產生單位組別內的一個現金產生單位)中的一項業務時,所處置的商譽金額乃根據所處置的業務(或現金產生單位)及現金產生單位(或現金產生單位組別)中保留的部分的相對價值計量。

Non-current assets held for sale

Non-current assets (and disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

When the Group is committed to a sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale when the criteria described above are met, regardless of whether the Group will retain a non-controlling interest in the relevant subsidiary after the sale.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell, except for financial assets within the scope of HKFRS 9 which continue to be measured in accordance with the accounting policies as set out in respective sections.

持作出售之非流動資產

倘非流動資產（及出售組別）的賬面值將主要透過出售交易而非持續使用而收回，則分類為持作出售。僅當該資產（或出售組別）的目前狀況可供即時出售（僅須遵循出售此類資產（或出售組別）的一般慣常條款）且出售的可能性非常高時，方被視為符合該條件。管理層必須對出售作出承擔，而出售預期應可於分類日期起計一年內合資格確認為已完成出售。

當本集團承諾進行涉及失去某附屬公司控制權的出售計劃，在符合上述條件的情況下，該附屬公司的所有資產及負債均分類為持作出售，不論本集團會否於出售後保留相關附屬公司之非控制性權益。

分類為持作出售非流動資產（及出售組別）乃按其過往賬面值與公平值兩者中的較低者減出售成本計量，惟屬香港財務報告準則第9號範圍內的金融資產繼續按相關章節所載會計政策計量除外。

Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use in the services, or for administrative purposes (other than construction in progress as described below). Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Subsequent costs are included in the carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

Construction in progress in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised so as to write off the cost of assets other than construction in progress less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. The principal annual rates are as follows:

Leasehold improvements	Over the lease terms
Motor vehicles	20%
Office equipment	20%
Medicine equipment	20%

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the assets. Any gain or loss arising on disposal and retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Impairment on property, plant and equipment and right-of-use assets

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the CGU to which the asset belongs.

In testing a CGU for impairment, corporate assets are allocated to the relevant CGU when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the CGU or group of CGUs to which the corporate asset belongs, and is compared with the carrying amount of the relevant CGU or group of CGUs.

物業、廠房及設備以及使用權資產之減值

於報告期末，本集團審閱物業、廠房及設備以及使用權資產之賬面值，以判斷是否有跡象顯示此等資產已出現減值虧損。倘存在任何有關跡象，則估計相關資產之可收回金額，以釐定減值虧損（如有）之程度。

物業、廠房及設備以及使用權資產之可收回金額予以單獨估計。倘不可能單獨估計可收回金額，則本集團估計資產所屬現金產生單位之可收回金額。

對現金產生單位進行減值測試時，倘可建立一個合理及一致的分配基準時，公司資產會被分配到相關現金產生單位，否則將會被分配至可建立一個有合理及一致的分配基準的最小組別的現金產生單位。可收回金額乃根據公司資產所屬的現金產生單位或現金產生單位組別而釐定，並與相關現金產生單位或現金產生單位組別的賬面值作比較。

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a CGU) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or a CGU) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a CGU, the Group compares the carrying amount of a group of CGUs, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of CGUs, with the recoverable amount of the group of CGUs. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of CGUs. An impairment loss is recognised immediately in profit or loss.

可收回金額指公平值減出售成本及使用價值(以較高者為準)。評估使用價值時,會將估計未來現金流量按稅前貼現率貼現為現值,該稅前貼現率反映當前市場對金錢時間價值的評估及有關資產(或現金產生單位)(未來現金流量的估計並未作出調整)的特有風險。

倘資產(或現金產生單位)之可收回數額估計低於其賬面值,則資產(或現金產生單位)賬面值會降至其可收回數額。就未能按合理一致基準分配至現金產生單位的公司資產或部分公司資產而言,本集團會將一組現金產生單位的賬面值(包括分配至該現金產生單位組別的公司資產或部分公司資產的賬面值)與該組現金產生單位的可收回金額作比較。於分配減值虧損時,首先分配減值虧損以減少任何商譽的賬面值(如適用),然後按比例根據該單位或該組現金產生單位各資產的賬面值分配至其他資產。資產賬面值不得減少至低於其公平值減出售成本(如可計量)、其使用價值(如可釐定)及零之中的最高值。已另行分配至資產的減值虧損數額按比例分配至該單位或該組現金產生單位其他資產。減值虧損會即時於損益確認。

Where an impairment loss subsequently reverses, the carrying amount of the asset (or CGU or a group of CGUs) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a CGU or a group of CGUs) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date/settlement date basis. Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income (“**FVTOCI**”):

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling; and

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit impaired.

Impairment of financial assets

The Group performs impairment assessment under expected credit loss (“ECL”) model on financial assets (including trade receivables, other receivable and deposits) which are subject to impairment assessment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“12m ECL”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

全期預期信貸虧損指在有關工具之預期使用期限內發生所有可能違約事件而導致的預期信貸虧損。相反，12個月預期信貸虧損（「12個月預期信貸虧損」）則指預期可能於報告日期後12個月內發生違約事件而導致的部分全期預期信貸虧損。評估乃根據本集團過往信貸虧損經驗進行，並根據債務人特定因素、一般經濟狀況及對報告日期的當前狀況以及未來狀況預測的評估進行調整。

本集團一直就貿易應收款項確認全期預期信貸虧損。

就所有其他工具而言，本集團按相等於12個月預期信貸虧損的金額計量虧損撥備，除非自初始確認後信貸風險大幅增加，則本集團確認全期預期信貸虧損。評估是否應確認全期預期信貸虧損乃根據自初始確認以來所發生違約的可能性或風險的大幅增加而定。

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;

(i) 信貸風險大幅增加

在評估自初始確認起信貸風險是否大幅增加時，本集團會比較於報告日期金融工具發生違約的風險與於初始確認日期金融工具發生違約的風險。於作出評估時，本集團考慮合理及可靠的定量及定性資料，包括過往經驗及毋需付出過多成本或努力即可取得的前瞻性資料。

尤其是，在評估信貸風險是否大幅增加時，將考慮以下資料：

- 財務工具的外部（如有）或內部信貸評級的實際或預期顯著惡化；
- 外部市場信貸風險指標顯著惡化，如信貸利差、債務人信用違約掉期價格大幅增加；
- 業務、財務或經濟狀況出現或預期出現不利變動，預期導致債務人償債能力大幅下降；

- (i) Significant increase in credit risk – continued
- an actual or expected significant deterioration in the operating results of the debtor;
 - an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;

(ii) 違約的定義

就內部信貸風險管理而言，倘內部編製或從外部來源獲得的資料顯示債務人不大可能向其債權人（包括本集團）全額還款（不考慮本集團持有的任何抵押品），則本集團認為發生違約事件。

不論上述分析的結果，本集團認為，倘財務資產逾期超過90日，即發生違約事件，除非本集團具有說明更寬鬆的違約標準更為合適的合理可靠資料，則作別論。

(iii) 出現信貸減值的財務資產

當發生一項或多項違約事件而對財務資產的估計未來現金流量產生不利影響時，該財務資產即為出現信貸減值。財務資產出現信貸減值的證據包括以下事件的可觀察數據：

- (a) 發行人或借款人陷入重大財務困難；

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience, adjusted for forward looking information that is available without undue cost or effort.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

(v) Measurement and recognition of ECL – continued

Lifetime ECL for certain trade receivables are considered on a collective basis taking into consideration past due information and relevant credit information such as forward-looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables and other receivables and deposits where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost, which comprises all costs of purchase and, where applicable, other costs that have been incurred in bringing the inventories to their present location and condition, is calculated using the first-in, first-out method. Net realisable value represents the estimated selling price in the ordinary course of business less all estimated costs necessary to make the sale. Cost necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Cash and cash equivalents

Cash and cash equivalents presented on the consolidated statement of financial position include:

- (a) cash, which comprises of cash on hand and demand deposits, excluding bank balances that are subject to regulatory restrictions that result in such balances no longer meeting the definition of cash; and
- (b) cash equivalents, which comprises of short-term (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Revenue from contracts with customers

Under HKFRS 15, the Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct goods or service.

– continued

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to same contract are accounted for and presented on a net basis.

The wholesale and distribution of pharmaceuticals and related products

Revenue from the wholesale and distribution of pharmaceutical and related products is recognised when control of the products has transferred, being at the point the products are delivered to the customer and the customer has accepted the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specified location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

Share options granted

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share options reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share options reserve. For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share capital and share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to accumulated losses.

已授出購股權

向僱員及提供類似服務之其他人士作出以股權結算之股份基礎付款乃按股本工具於授出日期之公平值計量。

於授出日期所釐定以股權結算之股份基礎付款之公平值而並無計及所有非市場歸屬條件，基於本集團對最終將會歸屬的股本工具的估計，於歸屬期內以直線法支銷，並於權益（購股權儲備）加入相應增加金額。於各報告期末，本集團會基於對所有相關非市場歸屬條件的評估修訂其對預期會歸屬的股本工具數目的估計。修訂原有估計的影響（如有）於損益中確認，以使累計開支能反映修訂後的估計，並會對購股權儲備作出相應調整。就於授出日期即時歸屬的購股權而言，所授出購股權的公平值即時於損益支銷。

當購股權獲行使時，先前於購股權儲備內確認之金額將轉撥至股本及股份溢價。當購股權於歸屬日期後被沒收或於屆滿日期仍未行使時，先前於購股權儲備內確認之金額將轉撥至累計虧損。

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit/(loss) before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

稅項

所得稅開支指現時應付稅項與遞延稅項之總和。

即期應付稅項乃根據年內應課稅溢利計算得出。應課稅溢利因其他年度內的應稅收入或可抵稅支出等及非應稅或不可抵稅項目而不同於除稅前溢利／（虧損）。本集團的即期稅項負債乃使用於報告期末已實行或實質上已實行的稅率計算。

遞延稅項乃按於綜合財務報表內資產及負債賬面值與用於計算應課稅溢利之相應稅基兩者之臨時差額確認。遞延稅項負債通常會就所有應課稅暫時差異確認。遞延稅項負債一般就所有應課稅暫時差額確認，而遞延稅項資產乃於可能出現應課稅溢利抵銷有關可動用可扣稅暫時差額時確認。若暫時差異因商譽或因於一項既不影響應課稅溢利亦不影響會計溢利之交易（不包括業務合併）中開始確認資產及負債而引致，則不會確認該等遞延稅項資產及負債。此外，倘暫時性差異產生自商譽初始確認，則不確認遞延稅項負債。

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

遞延稅項資產之賬面值會於各報告期末均作檢討，並在不大可能再有足夠應課稅溢利收回全部或部份資產時減少。

遞延稅項資產及負債以負債被清償或資產被變現的期間內預期適用的稅率衡量，並根據於報告期末已制訂或實際上已制訂的稅率（及稅務法例）計量。

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 Income Taxes requirements to right-of-use assets and lease liabilities separately. Temporary differences relating to right-of-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption. Temporary differences arising from subsequent revision to the carrying amounts of right-of-use assets and lease liabilities, resulting from remeasurement of lease liabilities and lease modifications, that are not subject to initial recognition exemption are recognised on the date of remeasurement or modification.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

就計量本集團確認使用權資產及相關租賃負債之租賃交易之遞延稅項而言，本集團首先釐定稅項減免是否歸屬於使用權資產或租賃負債。

至於租賃負債可供扣稅的租賃交易，本集團分別就使用權資產及租賃負債應用香港會計準則第12號所得稅。由於應用初始確認豁免，使用權資產及租賃負債的暫時差異於初始確認時暫不予以確認，而是於租期內確認。因重新計量租賃負債及租賃修改而對使用權資產及租賃負債賬面值進行後續修訂所產生且不獲初次確認豁免的暫時性差異，在重新計量或修改之日予以確認。

當有法定可執行權利將當期稅項資產抵銷當期稅項負債時，以及當它們與同一稅務機關對同一應課稅實體徵收的所得稅有關時，遞延所得稅資產和負債均予以抵銷。

即期及遞延稅項於損益確認，惟倘該等稅項與其他全面收益或直接在權益中確認的項目有關，則即期及遞延稅項亦分別在其他全面收益或直接於權益確認。當即期稅項或遞延稅項產生自業務合併的初始會計處理，稅務影響會計入業務合併會計處理。

Significant accounting policies – continued Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

Contingent liabilities

A contingent liability is a present obligation arising from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Where the Group is jointly and severally liable for an obligation, the part of the obligation that is expected to be met by other parties is treated as a contingent liability and it is not recognised in the consolidated financial statements.

The Group assesses continually to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognised in the consolidated financial statements in the reporting period in which the change in probability occurs, except in the extremely rare circumstances where no reliable estimate can be made.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under “other revenue”.

Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or arising from business combinations on or after the date of initial application, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group also applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments includes:

- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains one or more additional lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component. The associated non-lease components are included in the respective lease components.

- 修改透過加入使用一項或以上相關資產之權利擴大租賃範圍；及
- 租賃代價增加，增加之金額相當於範圍擴大對應之單獨價格及為反映特定合約之情況而對該單獨價格進行之任何適當調整。

就未作為一項單獨租賃入賬的租賃修改而言，本集團基於經修訂租賃的租期，透過於修改生效日期使用經修訂貼現率貼現經修訂租賃付款重新計量租賃負債。

本集團通過對相關使用權資產進行相應調整，以對租賃負債進行重新計量。當經修訂合約包含一項或多項額外租賃組成部分時，本集團根據租賃組成部分的相對獨立價格，將經修訂合約中的代價分配至各租賃組成部分。相關非租賃組成部分計入相應的租賃組成部分。

Segment reporting

Operating segments, and the amounts of each segment item reported in the financial information, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 3 to the consolidated financial statements, the directors of the Company are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY – continued

The following are the key assumptions concerning the future, and other key sources of estimation uncertainties at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(a) Estimated impairment of property, plant and equipment, right-of use assets and goodwill

Property, plant and equipment and right-of-use assets are stated at costs less accumulated depreciation, if any.

Determining whether goodwill is impaired requires an estimation of the recoverable amount of the CGU to which goodwill has been allocated, which is the higher of the value in use or fair value less costs of disposal.

4. 估計不確定因素的主要來源 — 續

以下為於報告期末有關未來的主要假設及估計不確定因素的其他主要來源，該等假設及來源具有須對下一財政年度內的資產及負債的賬面值作出大幅調整的重大風險。

(a) 物業、廠房及設備、使用權資產以及商譽的估計減值

物業、廠房及設備以及使用權資產按成本減累計折舊(如有)列賬。

釐定商譽有否減值須估計獲分配商譽的現金產生單位的可收回金額(即使用價值與公平值減出售成本兩者中的較高者)。

4. KEY SOURCES OF ESTIMATION UNCERTAINTY – continued

(a) Estimated impairment of property, plant and equipment, right-of use assets and goodwill – continued

The value in use calculation requires the Group to estimate the future cash flows expected to arise from the CGU (or a group of CGUs) and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, or change in facts and circumstances which results in downward revision of future cash flows or upward revision of discount rate, a material impairment loss or further impairment loss may arise. For impairment assessment, the Group has to exercise judgment and make estimation, particularly in assessing: (1) whether an event has occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value in use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (3) the appropriate key assumptions to be applied in estimating the recoverable amounts including cash flow projections and an appropriate discount rate. When it is not possible to estimate the recoverable amount of an individual asset (including right-of-use assets), the Group estimates the recoverable amount of the CGU to which the assets belongs. Changing the assumptions and estimates, including the discount rates or the growth rate in the cash flow projections, could materially affect the recoverable amounts. Furthermore, the cash flows projections, growth rate and discount rate are subject to greater uncertainties due to uncertainty on how the COVID-19 pandemic and volatility in financial markets may progress and evolve.

4. 估計不確定因素的主要來源 — 續

(a) 物業、廠房及設備、使用權資產以及商譽的估計減值—續

按照使用價值計算法，本集團須估計預期可自現金產生單位（或現金產生單位組別）產生的未來現金流量及適當貼現率，從而計算現值。倘實際未來現金流量少於預期或事實及情況有變而導致未來現金流量下調或貼現率上調，則可能產生重大減值虧損或進一步減值虧損。就減值評估而言，本集團須行使判斷及作出估計，特別是評估：(1) 是否有事件已發生或有任何指標可能影響資產價值；(2) 資產賬面值是否能夠被可收回金額支持（如為使用價值，則為按照持續使用資產估計的未來現金流量的淨現值）；及(3) 將應用於估計可收回金額的適當關鍵假設（包括現金流量預測及適當的貼現率）。當無法估計個別資產（包括使用權資產）的可收回金額時，本集團估計資產所屬現金產生單位的可收回金額。假設及估計（包括現金流量預測的貼現率或增長率）變動將對可收回金額造成重大影響。此外，現金流量預測、增長率及貼現率受限於更大不確定性，原因為COVID-19大流行及金融市場波動會如何發展及演變的不確定性。

(a) Estimated impairment of property, plant and equipment, right-of use assets and goodwill – continued

As at 31 March 2023, the carrying amounts of property, plant and equipment, right-of-use assets and goodwill subjected to impairment assessment were of approximately HK\$31,679,000, HK\$15,807,000 and HK\$49,093,000 (net of accumulated impairment loss of approximately HK\$863,773,000) respectively (2022: HK\$38,380,000, HK\$18,871,000 and HK\$53,024,000 (net of accumulated impairment loss of approximately HK\$870,067,000)). Details of the impairment testing of non-financial assets including goodwill are disclosed in Note 20.

(b) Provision of ECL for trade receivables and other financial assets

The loss allowances for financial assets at amortised cost are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Detail of the key assumptions and inputs used are disclosed in Note 5(b).

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade and other receivables are set out in Note 5(b) and Note 22.

Credit risk and impairment assessment

Credit risk refers to the risk that the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. The Group's credit risk exposures are primarily attributable to trade and other receivables and bank balances. The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

The Group performed impairment assessment for financial assets under ECL model. Information about the Group's credit risk management, maximum credit risk exposures and the related impairment assessment, if applicable, are summarised as below:

Bank balances

Credit risk on bank balances is limited because the counterparties are reputable banks in the PRC or banks with high credit ratings assigned by international credit agencies and the Group has limited exposure to any single financial institution.

As at 31 March 2023 and 31 March 2022, the Group performed impairment assessment on bank balances by reference to the average loss rate for respective credit rating grades published by international credit-rating agencies and concluded that the expected credit loss is insignificant.

信貸風險及減值評估

信貸風險指本集團交易對手違反其合約義務令本集團蒙受財務虧損的風險。本集團的信貸風險敞口主要歸因於貿易及其他應收款項及銀行結餘。本集團並無持有任何抵押品或其他信用增強措施，以涵蓋其財務資產的相關信貸風險。

本集團根據預期信貸虧損模式對財務資產進行減值評估。有關本集團信貸風險管理、最高信貸風險及相關減值評估(如適用)的資料概述如下：

銀行結餘

由於交易對手均為中國信譽良好之銀行或獲得國際信貸評級機構評定為屬高信貸評級之銀行，而本集團亦對單一財務機構設定可承受之風險上限，因此銀行結餘之信貸風險有限。

於二零二三年三月三十一日及二零二二年三月三十一日，本集團參考國際信貸評級機構公佈的各信貸評級等級的平均虧損率，對銀行結餘進行減值評估，並得出結論認為預期信貸虧損並不顯著。

Other receivables and deposits

In respect of the deposits and other receivables, the credit quality has been individually assessed by general approach with reference to historical information about the counterparties and financial position of the counterparties. The Group recognised the allowance for expected credit losses by assessing the credit risk characteristics of deposits and other receivables, discount rate and the likelihood of recovery and considering the prevailing economic conditions.

Trade receivables

In respect of the trade receivables, the Group applies the simplified approach to provide for expected credit losses prescribed by HKFRS 9, which permits the use of the lifetime expected credit loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics. The Group has performed historical analysis and identified the key economic variables impacting credit risk and expected credit loss. It considers available reasonable and supportive forwarding-looking information.

Majority of the Group's revenue is received from individual customers in relation to wholesale and distribution of pharmaceutical and related products and provision of hemodialysis treatment and consultancy services. The Group's trade receivables arise from wholesale and distribution of pharmaceutical and related products and provision of hemodialysis treatment and consultancy services.

貿易應收款項

就貿易應收款項而言，本集團應用香港財務報告準則第9號所訂明的簡化方法就預期信貸虧損作出撥備，該規定允許對所有貿易應收款項採用全期預期信貸虧損撥備。為計量預期信貸虧損，貿易應收款項已按共有的信貸風險特徵分類。本集團已進行歷史分析，並確定影響信貸風險及預期信貸虧損的主要經濟變數。其考慮可取得的合理可靠前瞻性資料。

As at the end of the year, the top five debtors accounted for approximately 58% (2022: 71%) of the Group's trade receivables balance. In view of the history of business dealings with the debtors and the sound collection history of the receivables due from them, management believes that there is no material credit risk inherent in the Group's outstanding receivable balance due from these debtors saved for the debtor related to the impaired trade receivables disclosed in the below.

Management makes periodic assessment on the recoverability of the trade and other receivables based on historical payment records, the length of overdue period, the financial strength of the debtors and whether there are any disputes with the debtors.

Provision matrix – debtors' ageing

As part of the Group's credit risk management, the Group uses debtors' ageing to assess the impairment for its customers in relation to its wholesale and distribution of pharmaceutical and related products business and provision of hemodialysis treatment and consultancy services business because these customers consist of customers with common risk characteristics that are representative of the customers' abilities to pay all amounts due in accordance with the contractual terms. The following table provides information about the exposure to credit risk for trade receivables which are assessed on a collective basis by using provision matrix within lifetime ECL (not credit-impaired) as at 31 March 2023 and 2022.

The estimated loss rates are estimated based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information that is available without undue cost or effort. The grouping is regularly reviewed by management to ensure relevant information about specific debtors is updated.

Trade receivables are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group.

Allowance for expected credit losses on trade receivables are presented as net impairment losses within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

During the year ended 31 March 2023, the Group reversed loss allowance for expected credit loss on trade receivables of approximately HK\$2,463,000 (2022: provision of loss allowance of approximately HK\$3,994,000), based on the provision matrix.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains the level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flow. The management manages liquidity risk by monitoring the utilisation of bank borrowings, adequacy of reserves and banking facilities by continuously monitoring forecast and actual cash flows.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities based on the agreed repayment terms. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank loans with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates.

The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived based on management's best estimates at the end of the reporting period, taking into consideration interest rate curve, if available.

流動資金風險

在管理流動資金風險的過程中，本集團監控並維持管理層認為足以為本集團運營融資及緩解現金流波動影響的現金及現金等值項目水平。管理層管理流動資金風險的方法為通過持續監控預測及實際現金流，進而監控銀行借款的使用情況、儲備及銀行融資的充足情況。

下表詳述根據協定還款條款，本集團非衍生財務負債的剩餘合約到期情況。該表按可要求本集團付款的最早日期的財務負債未貼現現金流量為基準編製。特別是，附帶按要求償還條款的銀行貸款計入最早時間段，不論銀行會否選擇行使其權利。其他非衍生財務負債的到期日以協定還款日期為基礎。

該表同時包括利息及本金現金流量。倘利息流量為浮動利率，則未貼現金額乃基於管理層於報告期末的最佳估計，並考慮利率曲線（如有）得出。

Bank loans with a repayment on demand clause are included in the “on demand” time band in the above maturity analysis. As at 31 March 2023, the aggregate undiscounted principal amount of these bank loans amounted to approximately RMB7,546,000 (equivalent to approximately HK\$8,706,000). Taking into account the Group’s financial position, the directors do not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment. The table below analyses the Group’s bank loans into relevant maturity groupings based on the remaining period at the end of reporting period to the contractual maturity date.

(b) Financial risk management objectives and policies – continued

Interest rate risk

The Group's cash flow interest rate risk relates primarily to variable-rate bank deposits (Note 24) and bank borrowings (Note 28). It is the Group's policy to keep its bank deposits, and bank borrowings at floating rate of interests so as to minimise the fair value interest rate risk.

The sensitivity analysis below has been determined based on the exposure to interest rates for the Group's variable-rate bank borrowings at the end of the reporting period. Floating-rate bank balances have not been included in the sensitivity analysis as the management considers that the interest rate would not fluctuate significantly in the near future and therefore the financial impact to the Group is not significant. For variable-rate bank borrowings, the analysis is prepared assuming the amounts outstanding at the end of the reporting period were outstanding for the whole year. A 50 basis points increase or decrease in interest rate is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

As at 31 March 2023, if the interest rates on the bank borrowings had been 50 basis points higher/lower and all other variables were held constant, the Group's post-tax profit for the year would decrease/increase by approximately HK\$37,000.

(b) 財務風險管理目標及政策—續

利率風險

本集團之現金流利率風險主要與銀行浮動利率存款(附註24)及銀行借貸(附註28)有關。本集團的政策為以浮動利率計算銀行存款及銀行借貸的利率,以最大限度地降低公平值利率風險。

下文敏感度分析乃根據本集團於報告期末之浮息銀行借貸之利率風險釐定。由於管理層認為於可見將來利率不會大幅波動,因此對本集團的財務影響不大,故並無將浮息銀行結餘納入敏感性分析中。就浮息銀行借貸而言,該分析是假設報告期末的未償金額為全年未償金額編製。利率上升或下降50個基點為向主要管理人員內部報告利率風險時使用的比率,代表管理層對利率可能合理變動的評估。

於二零二三年三月三十一日,倘銀行借貸的利率上升/下降50個基點及所有其他可變因素維持不變,則本集團於年內之除稅後溢利將減少/增加約37,000港元。

Currency risk

Foreign exchange risk arises when future commercial transactions or recognised assets and liabilities are denominated in a currency that is not the entity's functional currency.

The main operations of the Group were in the PRC and most of the transactions were denominated in RMB. Foreign exchange risk arises from the foreign currency denominated of commercial transactions, assets and liabilities. The Group has no significant direct exposure to foreign currencies as most of the commercial transactions, assets and liabilities are denominated in a currency as the functional currency of each entity of the Group.

The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

貨幣風險

當未來商業交易或已確認資產及負債以並非該實體功能貨幣之貨幣列值，則會產生外匯風險。

本集團主要於中國營運業務，且大部分交易以人民幣列值。外匯風險來自以外幣計值之商業交易、資產及負債。由於大部分商業交易、資產及負債之計值貨幣與本集團各實體之功能貨幣相同，因此本集團並無任何重大直接外幣風險。

本集團現時並無任何有關外幣交易、資產及負債的外幣對沖政策。本集團將密切監察其外幣風險，並會於有需要時考慮對沖重大外幣風險。

(c) Fair value measurements

The fair value of financial assets and financial liabilities are determined as follows:

- (i) The fair values of financial assets and financial liabilities with standard terms and conditions and traded in active markets are determined with reference to quoted market bid and ask prices respectively.
- (ii) The fair values of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models (e.g. discounted cash flows analysis using observable and/or unobservable inputs).

The carrying amount of other financial assets and liabilities carried at amortised cost, approximate their respective fair values due to the relatively short-term nature of these financial statements.

6. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balances. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of debt, including lease liabilities and bank borrowings disclosed in notes 27 and 28 respectively, net of cash and cash equivalents and equity attributable to the owners of the Company, comprising issued share capital and reserves.

(c) 公平值計量

財務資產及財務負債的公平值按以下方式釐定：

- (i) 附帶標準條款及條件並於活躍市場買賣的財務資產及財務負債的公平值乃分別參考市場所報買賣價釐定。
- (ii) 其他財務資產及財務負債之公平值按公認定價模式(例如使用可觀察及／或不可觀察輸入數據之貼現現金流量分析)而釐定。

其他財務資產及負債的賬面值按攤銷成本計值，且由於該等財務報表屬相對短期，故其賬面值與公平值相若。

6. 資本風險管理

本集團的資本管理旨在確保本集團之實體均能持續經營，同時透過優化債務及權益結餘為股東帶來最大回報。本集團之整體策略自去年起未有變動。

本集團之資本結構包括債務，其中包含分別於附註27及28披露之租賃負債及銀行借貸(扣除現金及現金等值項目及本公司擁有人應佔權益)，而本公司擁有人應佔權益包括已發行股本及儲備。

Current tax: 即期稅項：
– PRC Enterprise Income Tax – 中國企業所得稅

The Group is subject to income tax on an entity basis on profits arising or derived from the jurisdictions in which members of the Group are domiciled and operated.

Provision on profits assessable elsewhere has been calculated at the rates of tax prevailing in the countries in which the Group operates, based on existing legislation, interpretations and practices in respect thereof.

According to the PRC Enterprise Income Tax Law, starting from 1 January 2008, 10% withholding income tax will be imposed on dividend relating to profits earned by the companies established in the PRC in the calendar year 2008 onward to their foreign shareholders. For investors incorporated in Hong Kong which hold at least 25% of equity interest of those PRC companies, a preferential rate of 5% will be applied. The Group has applied the preferential rate of 5% as the Group's subsidiaries in the PRC are directly held by an investment holding company incorporated in Hong Kong. No deferred tax has been provided for in respect of the temporary differences attributable to such profits as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

PRC corporate income tax ("CIT") CIT provision is made on the estimated assessable profits of entities within the Group incorporated in the PRC and is calculated in accordance with the relevant regulations of the PRC after considering the available tax benefits from refunds and allowances. The general PRC CIT rate is 25% during the years ended 31 March 2023 and 2022 except for those as discussed below:

本集團須就本集團成員公司所處及營運所在司法權區所產生或賺取之溢利，按實體基準繳納所得稅。

其他地區之應課稅溢利撥備按本集團營運所在國家之現行稅率，根據其現有立法、詮釋及慣例計算。

根據中國企業所得稅法，自二零零八年一月一日起，將對在中國成立的公司自二零零八年曆年起賺取的溢利支付其境外股東的股息徵收10%的預扣所得稅。對於在香港註冊成立且持有該等中國公司至少25%股權的投資者，將實施5%的優惠稅率。由於本集團在中國的附屬公司均由一間在香港註冊成立的投資控股公司直接持有，故本集團按5%的優惠稅率繳納稅項。由於本集團有能力控制撥回暫時差額的時間，且不大可能於可見將來撥回暫時差額，故並無就該等溢利應佔之暫時差額作出遞延稅項撥備。

中國企業所得稅（「企業所得稅」）企業所得稅撥備乃經計及可以獲得的退稅及津貼等稅收優惠後，根據本集團於中國註冊成立的實體的估計應課稅溢利作出並按照中國相關規定計算。截至二零二三年及二零二二年三月三十一日止年度，一般中國企業所得稅稅率為25%，惟下文所討論者除外：

15. TAXATION – continued

The Ministry of Finance (“**MOF**”) and State Administration of Taxation (“**SAT**”) on 17 January 2019 jointly issued Cai Shui 2019 No. 13. This clarified that from 1 January 2019 to 31 December 2021, eligible small enterprises whose RMB1,000,000 of annual taxable income is eligible for a 75% reduction on a rate of 20% (i.e., effective rate is 5%) and the income between RMB1,000,000 and RMB3,000,000 is eligible for 50% reduction on a rate of 20% (i.e. effective rate is 10%). On 14 March 2022, MOF and SAT further jointly issued Cai Shui 2022 No. 13, which clarified that from 1 January 2022 to 31 December 2024, eligible small enterprises whose income between RMB1,000,000 and RMB3,000,000 is eligible for 75% reduction on a rate of 20% (i.e. effective rate is 5%).

Under the two-tiered profits tax rates regime of Hong Kong Profits Tax, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%. Accordingly, the Hong Kong Profits Tax of the qualifying group entity is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million.

No provision of Hong Kong Profits Tax, Cayman Islands and BVI Income Tax has been made, as the Group did not generate any assessable profits in these jurisdictions during the years ended 31 March 2023 and 2022.

15. 稅項－續

財政部（「**財政部**」）及國家稅務總局（「**國家稅務總局**」）於二零一九年一月十七日聯合印發財稅2019第13號文件。該文件明確自二零一九年一月一日至二零二一年十二月三十一日，年度應納稅收入為人民幣1,000,000元的合資格小型企業，可按20%的稅率減免75%（即實際稅率為5%）及收入介乎人民幣1,000,000元至人民幣3,000,000元的合資格小型企業，可按20%的稅率減免50%（即實際稅率為10%）。於二零二二年三月十四日，財政部及國家稅務總局進一步聯合印發財稅2022年第13號文件，明確自二零二二年一月一日至二零二四年十二月三十一日，收入介乎人民幣1,000,000元至人民幣3,000,000元的合資格小型企業，可按20%的稅率減免75%（即實際稅率為5%）。

根據香港利得稅的利得稅兩級制，合資格集團實體的首2,000,000港元溢利將以8.25%的稅率徵稅，而超過2,000,000港元之溢利將以16.5%的稅率徵稅。不符合利得稅兩級制資格的集團實體的溢利將繼續按16.5%的統一稅率徵稅。因此，合資格集團實體的估計應課稅溢利首2,000,000港元按8.25%計算香港利得稅，而超過2,000,000港元的估計應課稅溢利則按16.5%計算。

本集團並無就香港利得稅、開曼群島及英屬處女群島所得稅計提任何撥備，乃由於截至二零二三年及二零二二年三月三十一日止年度本集團於該等司法權區並無產生任何應課稅溢利。

		2023 二零二三年 HK\$'000 千港元	2022 二零二二年 HK\$'000 千港元

Effect of the preferential income tax rates for domestic entities	有關國內實體優惠所得稅率的影響	(2,818)	(2,496)
Taxation	稅項	517	2,246

At the end of the reporting period, the Group has unused tax losses of approximately HK\$9,163,000 (2022: HK\$13,441,000) available for offset against future profits and amount of approximately HK\$9,163,000 will fully expire in 2027. No deferred tax asset has been recognised in respect of the HK\$9,163,000 (2022: HK\$13,441,000) due to the unpredictability of future profit streams. At the end of the reporting period, the aggregate amount of temporary differences associated with undistributed earnings of a subsidiary for which deferred tax liabilities have not been recognised was approximately HK\$3,186,000 (2022: approximately HK\$4,199,000). No deferred tax liability has been recognised in respect of these differences because the Group is in a position to control the timing of the reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future.

15. 稅項—續

使用本公司及其附屬公司所處地點之法定稅率計算適用於除稅前虧損之所得稅開支與按實際稅率計算之稅項開支之對賬如下：

於報告期末，本集團約9,163,000港元（二零二二年：13,441,000港元）之未動用稅務虧損可用作抵銷未來溢利及約9,163,000港元將於二零二七年全面到期。由於未來溢利來源屬不可測，故並無就9,163,000港元（二零二二年：13,441,000港元）確認遞延稅項資產。於報告期末，有關附屬公司未分配盈利而未確認的遞延稅項負債的暫時差額總額約為3,186,000港元（二零二二年：約4,199,000港元）。由於本集團有能力控制撥回暫時差額的時間，而有關暫時差額於可見將來可能不會撥回，故並無就該等差額確認遞延稅項負債。

Note:– continued

For both years, the Group leases various properties for its operations. Lease contracts are entered into for fixed terms of 2 to 20 years (2022: 2 to 20 years). Lease terms are negotiated on an individual basis and contain different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

The Group regularly entered into short-term leases for staff quarters. As at 31 March 2023 and 2022, the portfolio of short-term leases is similar to the portfolio of short-term leases to which the short-term lease expense disclosed above.

20. GOODWILL – continued

Impairment test for CGUs containing goodwill

The Group tests for impairment of goodwill annually and in the financial year in which the acquisition takes place, or more frequently if there are indications that goodwill might be impaired.

For the purposes of impairment testing, the carrying value of the goodwill has been allocated to the CGU which operate in the provision of hemodialysis treatment and consultancy services in the PRC by Mingxi County Trading Company Limited.

In addition to goodwill above, property, plant and equipment and right-of-use assets (including allocation of corporate assets) that generate cash flows together with the related goodwill are also included in the CGU for the purpose of impairment assessment.

The recoverable amount of this CGU has been determined based on a value in use calculation, which is determined by the directors with reference to the professional valuation performed by Vincorn Consulting and Appraisal Limited, an independent firm of professional qualified valuers. That calculation uses cash flow projections based on financial budgets approved by management covering a 5-year period (2022: 5-year), and the pre-tax discount rate of 11.6% (2022: 11.9%). The cash flows of this CGU beyond the 5-year period (2022: 5-year) are extrapolated using a zero terminal growth rate (2022: zero%). This growth rate is based on a very prudent forecast and does not exceed the average long-term growth rate for the relevant industry.

Other key assumptions for the value in use calculations relate to the estimation of cash inflows/outflows which include average gross margin of 39.0% (2022: 46.9%) and the average net profit margin of 6.7% (2022: 11.8%), such estimation is based on the CGU's past performance and management's expectations for the market development.

20. 商譽－續

包含商譽之現金產生單位之減值測試

本集團於每年及於進行收購之財政年度均會測試商譽有否減值，當有跡象表明商譽可能減值時，會更頻密測試。

就減值測試而言，商譽之賬面值已分配至明溪縣佳維貿易有限公司於中國提供血液透析治療及諮詢服務之現金產生單位。

除上述商譽之外，產生現金流量之物業、廠房及設備及使用權資產（包括企業資產分配），連同相關商譽亦計入現金產生單位，以便進行減值評估。

此現金產生單位之可收回金額根據使用價值計算方法釐定，其乃由董事經參考獨立專業合資格估值公司泓亮諮詢及評估有限公司所作專業估值而釐定。該計算方法使用根據管理層審批之五年期間（二零二二年：五年）之財政預算計算之現金流量預測及稅前貼現率11.6%（二零二二年：11.9%）進行計算。於五年期間（二零二二年：五年）後的該現金產生單位現金流量採用零永續增長率（二零二二年：零增長率）推算。此增長率乃根據極其謹慎的預測釐定且並無超過相關行業之長期平均增長率。

計算使用價值的其他主要假設與現金流入／流出的估計有關，包括平均毛利率39.0%（二零二二年：46.9%）及平均淨利潤率6.7%（二零二二年：11.8%），而有關估計乃按現金產生單位的過往表現及管理層對市場發展的預期而釐定。

20. GOODWILL – continued

Impairment test for CGUs containing goodwill – continued

During the year ended 31 March 2023, the assessments result in headroom over the carrying amount of CGU by HK\$7,039,000 and consequently no impairment has been made.

If the pre-tax discount rate was change to 12.6%, while other parameters remain constant, the headroom over the carrying amount of the CGU would be reduced to approximately HK\$2,125,000.

During the year ended 31 March 2022, due to the delay in business plan of Huidong Centre and Maoming Centre and the halt of business cooperation with Xianyou Centre, based on the assessment of the recoverable amount of CGU of approximately HK\$124,901,000 which the carrying amount of the CGU exceeds its recoverable amount, impairment loss on goodwill of approximately HK\$46,670,000 was recognised.

If the pre-tax discount rate was change to 12.90%, while other parameters remain constant, the recoverable amount of the CGU would be reduced to approximately HK\$113,453,000 and impairment of goodwill of approximately HK\$57,877,000 would be recognised.

包含商譽之現金產生單位之減值測試－續

於截至二零二三年三月三十一日止年度，評估結果為現金產生單位的賬面餘額超出7,039,000港元，因此並無作出減值。

倘稅前貼現率更改為12.6%，而其他參數保持不變，則現金產生單位的賬面餘額將減少至約2,125,000港元。

於截至二零二二年三月三十一日止年度，由於惠東中心及茂名中心的業務計劃延遲，以及與仙遊中心的業務合作停止，根據對現金產生單位可收回金額約124,901,000港元的評估，現金產生單位的賬面值超出其可收回金額，因此確認商譽減值虧損約46,670,000港元。

倘稅前貼現率更改為12.90%，而其他參數保持不變，現金產生單位可收回金額將減少至約113,453,000港元，並將確認商譽減值約57,877,000港元。

(b) Contract liabilities

Contract liabilities relating to receipt in advance of sales of finished goods or services 與預收銷售製成品或服務有關的合約負債

As at 1 April 2021, contract liabilities amounted to approximately HK\$390,000.

The following table shows how much of the revenue recognised relates to carried-forward contract liabilities:

Revenue recognised that was included in the contract liabilities balance at beginning of the year 計入年初合約負債結餘之已確認收益

Typical payment terms which impact on the amount of contract liabilities recognised are as follows:

Generally, the Group receives a lump sum amount of sales of finished goods in advance for a specified range of time from customers when they sign the contract. This lump sum amount received is recognised as a contract liability initially and to be recognised as revenue when performances obligation are satisfied. The contract liabilities would be recognised as revenue within one year.

The Group considers the advance payments schemes does not contain significant financing component and accordingly the amount of consideration is not adjusted for the effects of the time value of money taking into consideration that the payment terms were not structured primarily for the provision of finance to the Group.

The Group operates as Mandatory Provident Fund Scheme (the “Scheme”) for all qualifying employees in Hong Kong. The assets of the Scheme are held separately from those of the Group, in funds under control of trustees. The Group contributes 5% of relevant payroll costs to the Scheme, this contribution is matched by employees.

The employees of the Group’s subsidiaries established in the PRC are members of state-managed retirement benefits schemes operated by the local government. The subsidiaries are required to contribute a certain percentage of their payroll costs to the retirement benefits to fund the benefits. The only obligations of the Group with respect to the retirement benefits schemes are to make the specified contributions.

During the years ended 31 March 2023 and 2022, there was no forfeiture of retirement benefits schemes contributions (by employers on behalf of employees who leave the scheme prior to vesting fully in such contributions) in the Group. As at 31 March 2023 and 2022, no forfeited contribution under the retirement benefits schemes of the Group is available to reduce the contribution payable in future years.
