## **EXPLANATION ON THE OPERATING RESULTS**

### **Six Months Ended June 30, 2023 Compared to Six Months Ended June 30, 2022**

#### ***Revenues***

In-person revenues increased by approximately \$0.3 million, or 13%, to approximately \$2.5 million for the six months ended June 30, 2023 from approximately \$2.2 million for the six months ended June 30, 2022. The increase of in-person revenues was driven by a \$0.5 million increase in sponsorship revenue related to a new naming rights agreement for AGAE's HyperX Arena in Las Vegas. This was slightly offset by a \$0.2 million decrease in event revenue due to a decrease in HyperX Arena events in 2023.

Multiplatform revenues increased by approximately \$0.6 million, or 44%, to approximately \$2.0 million for the six months ended June 30, 2023, from approximately \$1.4 million for the six months ended June 30, 2022. The increase in multiplatform revenues was the result of additional revenue generated from season 2 of "Elevated", a live streaming event which had 10 episodes in 2023 compared to 4 episodes in 2022.

#### ***Costs and expenses***

In-person costs (exclusive of depreciation and amortization) decreased by approximately \$0.4 million, or 21%, to approximately \$1.3 million for the six months ended June 30, 2023 from approximately \$1.7 million for the six months ended June 30, 2022. The decrease corresponds to the decrease in event revenue described above.

Multiplatform costs (exclusive of depreciation and amortization) increased by approximately \$0.5 million, or 53%, to approximately \$1.5 million for the six months ended June 30, 2023 from approximately \$1.0 million for the six months ended June 30, 2022. The increase in multiplatform costs corresponds to the increase in revenue as discussed above.

Selling and marketing expenses decreased by approximately \$9 thousand, or 7%, to approximately \$122 thousand for the six months ended June 30, 2023 from approximately \$131 thousand for the six months ended June 30, 2022.

General and administrative expenses decreased by approximately \$1.6 million, or 25%, to approximately \$4.8 million for the six months ended June 30, 2023, from approximately \$6.4 million for the six months ended June 30, 2022. The decrease in general and administrative expenses was resulted primarily from higher expenses during the six months ended June 30, 2022, including \$0.6 million of payroll and payroll related costs, \$0.7 million of severance costs incurred in connection with the resignation of AGAE's former Chief Executive Officer ("CEO"), and a \$0.6 million of stock-based compensation related to the accelerated vesting of options previously granted to the former CEO. These decreases were slightly offset by a \$0.3 million increase in legal and audit fees related to various employment and service providers transition matters.

Depreciation and amortization decreased by approximately \$0.8 million, or 51%, to approximately \$0.8 million for the six months ended June 30, 2023, from approximately \$1.6 million for the six months ended June 30, 2022. The decrease was primarily due to production equipment of approximately \$7.0 million that became fully depreciated on March 31, 2023. The decrease also included the amortization of leasehold improvements that occurred in the second quarter of 2022 that was corrected as an out-of-period adjustment in the third quarter of 2022.

Impairment in digital assets decreased to \$0 for the six months ended June 30, 2023, compared to approximately \$164 thousand for the six months ended June 30, 2022. The impairment loss during 2022 was the result of the market price on active exchanges going below the carrying value of the digital assets. The market price has not gone below the carrying value of the digital assets during the six months ended June 30, 2023.

#### ***Other income (expense)***

AGAE recognized other income of approximately \$16 thousand during the six months ended June 30, 2023 compared to approximately \$80 thousand of other expense recorded for the six months ended June 30, 2022.

#### ***Interest income***

Interest income was approximately \$1.5 million for the six months ended June 30, 2023 compared to approximately \$9 thousand for the six months ended June 30, 2022. The increase was a result of the interest earned on short-term investments purchased during the fourth quarter of 2022.

### **Three Months Ended June 30, 2023 Compared to Three Months Ended June 30, 2022**

#### ***Revenues***

In-person revenues increased by approximately \$0.1 million, or 12%, to approximately \$1.3 million for the three months ended June 30, 2023 from approximately \$1.1 million for the three months ended June 30, 2022. The increase of in-person revenues was driven by a \$0.3 million increase in sponsorship revenue related to a new naming rights agreement for AGAE's HyperX Arena in Las Vegas. This was slightly offset by a \$0.2 million decrease in event revenue.

Multiplatform revenues increased by approximately \$2.0 million for the three months ended June 30, 2023 from approximately \$0.03 million for the three months ended June 30, 2022 to approximately \$2.0 million for the three months ended June 30, 2023. The increase in multiplatform revenues was the result of an increase in sponsorship revenue related to the timing of a live streaming event for "Elevated" in which season 1 occurred in the first quarter of 2022 and season 2 occurred in the second quarter of 2023.

### ***Costs and expenses***

In-person costs (exclusive of depreciation and amortization) decreased by approximately \$0.3 million, or 31%, to approximately \$0.6 million for the three months ended June 30, 2023 from approximately \$0.9 million for the three months ended June 30, 2022. The decrease corresponds to the decrease in event revenue described above.

Multiplatform costs (exclusive of depreciation and amortization) increased by approximately \$1.5 million, or 3,428%, to approximately \$1.5 million for the three months ended June 30, 2023 from approximately \$0.04 million for the three months ended June 30, 2022. The increase in multiplatform costs relates primarily to the production and delivery of the aforementioned live streaming event.

Selling and marketing expenses increased by approximately \$5 thousand, or 8%, to approximately \$67 thousand for the three months ended June 30, 2023 from approximately \$62 thousand for the three months ended June 30, 2022.

General and administrative expenses decreased by approximately \$0.5 million, or 20%, to approximately \$2.2 million for the three months ended June 30, 2023, from approximately \$2.8 million for the three months ended June 30, 2022. The decrease in general and administrative expenses was primarily attributable to a reduction in payroll and payroll related costs as well as stock-based compensation.

Depreciation and amortization decreased by approximately \$0.6 million, or 74%, to approximately \$0.2 million for the three months ended June 30, 2023, from approximately \$0.8 million for the three months ended June 30, 2022. The decrease was primarily due to production equipment of approximately \$7.0 million that became fully depreciated on March 31, 2023 in addition to amortization of leasehold improvements that occurred in the second quarter of 2022 that was corrected as an out-of-period adjustment in the third quarter of 2022.

Impairment in digital assets decreased to \$0 for the three months ended June 30, 2023, compared to approximately \$164 thousand for the three months ended June 30, 2022. The impairment loss during the second quarter of 2022 was the result of the market price on active exchanges going below the carrying value of the digital assets. The market price has not gone below the carrying value of the digital assets during the three months ended June 30, 2023.

### ***Other expense***

AGAE recognized other expense of approximately \$11 thousand during the three months ended June 30, 2023 compared to approximately \$73 thousand recorded for the three months ended June 30, 2022.

### ***Interest income***

Interest income was approximately \$715 thousand for the three months ended June 30, 2023 compared to approximately \$4 thousand for the three months ended June 30, 2022. The increase was a result of the interest earned on short-term investments purchased during the fourth quarter of 2022.

The financial results of AGAE contained in the Form 10-Q have been prepared in accordance with U.S. GAAP, which are different from the International Financial Reporting Standards that the Company uses to prepare and present its financial information. As such, the financial information in the Form 10-Q is not directly comparable to the financial results of AGAE as reflected in the consolidated financial results that the Company discloses. Consequently, the Company offers no assurance that the financial results of AGAE for the six months ended June 30, 2023 or any period will be the same as that to be presented in the Company's own consolidated financial results.
