CHAIRMAN'S STATEMENT

OUTLOOK

In 2023, the Company enters into a new milestone. With the support of the shareholders, bankers, creditors and professional parties of the Company, the debt restructuring was successfully implemented. The Company is able to release heavy indebtedness by issue of new shares and delay repayment of considerable proportion of bank borrowings to a term of further two to five years. The Company can take additional time to recover from the financial difficulty.

For the mining operation, the Company puts great effort to engage in the production upgrade and process optimization and aims at speeding up the release of production capacity in the coal mines in Guizhou province and resumption of production in the coal mines in Sichuan province. The coking coal market fluctuation experienced during the six months ended 30 June 2023 (the "Review Period") brought along with pressure to the operating margin of the Company. Gross margin was deteriorated to around 20.3% in the Review Period as compared to approximately 52.1% in the corresponding period in 2022. To amid the challenge, the Company is in the progress of implementing various active and effective measures to strengthen the production process and to control the administrative overheads. Currently, the price of clean coal is rebounded. With the enlarging scale of production in the second half of 2023, the Board considers that the overall financial, business and trading position of the Company remain healthy.

FINANCIAL REVIEW

REVENUE

During the Review Period, revenue of the Group amounted to approximately RMB1,430.5 million, representing a drop of approximately 36.8%, as compared to that of approximately RMB2,264.3 million in the corresponding period in 2022. During the Review Period, the Company encountered severe fluctuation in the coking coal market. Accordingly, both sales volumes and average selling prices (net of value added tax) of clean coal were decreased. Sales volume and average selling price of clean coal decreased from 878,200 tonnes to 756,900 tonnes and from RMB2,498.5 per tonne to RMB1,720.2 per tonne respectively, representing a decrease of approximately 13.8% and 31.2% respectively.

The following table sets forth the Group's revenue contribution, sales volume and average selling price by products for the Review Period, together with the comparative amounts for the corresponding period in 2022:

	Six months ended 30 June			2022

MANAGEMENT DISCUSSION AND ANALYSIS

COST OF SALES

Cost of sales for the Review Period was approximately RMB1,139.4 million, representing an increase of approximately RMB55.0 million, or approximately 5.1%, as compared to that of approximately RMB1,084.4 million in the corresponding period in 2022. The increase was primarily attributable to high material consumption and staff costs during the Review Period. The production volume of raw coal and clean coal amounted to approximately 2,616,000 tonnes and 753,000 tonnes respectively, representing an increase of approximately 10.1% and a decrease of 8.1% respectively, as compared to that of approximately 2,377,000 tonnes and 819,000 tonnes respectively in the corresponding period in 2022.

A series of safety inspections conducted by relevant government authorities, after the ordinary accident occurred in May 2023 at the Company's Hongxing Coal Mine in Guizhou Province, affected the overall production capacity enhancement progress in the Review Period. With the resumption of production in Hongxing Coal Mine, the Company targets a higher growth in the production volume of both raw coal and clean coal in the second half of 2023.

During the Review Period, the Company continued with the production capacity upgrade and process optimization in the coal mines in Sichuan and Guizhou provinces for achievement of full scale production. Accordingly, additional costs relating to material, fuel and power, manpower and manufacturing overheads were consumed during the Review Period. The Company believes that these additional costs can be diluted by increasing production capacity.

The following table illustrates the production volume of the principal products in Sichuan and Guizhou provinces:

	Six months ended 30 June			
	2023 Raw coal ('000 tonnes)	2023 Clean coal ('000 tonnes)	2022 Raw coal ('000 tonnes)	2022 Clean coal ('000 tonnes)
Production volume				
Panzhuhua	98	3	89	29
Guizhou	2,518	750	2,288	790
	2,616	753	2,377	819

Material, fuel and power costs for the Review Period were approximately RMB296.1 million, representing an increase of approximately RMB11.9 million, or approximately 4.2%, as compared to that of approximately RMB284.2 million in the corresponding period in 2022. Despite the decrease in sales volume of clean coal, the material, fuel and power costs still remained high due to additional consumption in the production capacity upgrade and process optimization during the Review Period.

Staff costs for the Review Period were approximately RMB407.2 million, representing an increase of approximately RMB26.6 million, or approximately 7.0%, as compared to that of approximately RMB380.6 million in the corresponding period in 2022. The increase was mainly attributable to additional costs engaged in the production capacity upgrade and process optimization during the Review Period. In addition, incentives were given to the miners and management for increasing production volume and enhancement in production efficiency.

MANAGEMENT DISCUSSION AND ANALYSIS

Depreciation and amortization for the Review Period were approximately RMB123.3 million, representing a decrease of approximately RMB5.1 million, or approximately 4.0%, as compared to that of approximately RMB128.4 million in the corresponding period in 2022.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED 30 JUNE 2023

1. GENERAL

The Company was incorporated in the Cayman Islands under the Companies Law, Cap 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands as an exempted company with limited liability on 1 September 2006. Its shares are listed on the Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The address of the registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands. The address of the principal place of business of the Company is Room 1306, Tai Tung Building, 8 Fleming Road, Wanchai, Hong Kong. In the opinion of the Directors, the Company's parent company is Sanlian Investment Holding Limited, a company incorporated in the British Virgin Islands and the ultimate holding company is Trident Trust Company (Singapore) Pte. Limited, which is controlled by Mr. Xian Yang, the executive director of the Company. The Company acts as an investment holding company and its subsidiaries are engaged in mining and sale of clean coal and its by-products.

The Group's principal operations are conducted in the People's Republic of China (the "PRC"). The condensed consolidated financial statements are presented in Renminbi ("RMB"), which is also the functional currency of the Company.

2. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules").

GOING CONCERN ASSUMPTION

As at 30 June 2023, the Group had net current liabilities of approximately RMB4,264 million. These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Group's ability to continue as a going concern.

With the implementation of the debt restructuring being effective on 31 March 2023 and assuming that the Group's business plan and cash flow forecast can be achieved, the Directors expect to generate sufficient financial resources from future operations to cover the Group's operating costs and to meet its financing commitments, as and when they fall due for the twelve months since 30 June 2023. The achievability of the business and cash flow forecast is dependent upon: (i) the current economic environment and the sustainability of the price of coking coal in the market; and (ii) active and effective measures to control the administrative and production costs.

In the opinion of the directors of the Company, in light of the above, the Group will have sufficient financial resources to finance its operations and fulfil its financial obligations as and when required in the coming twelve months from 30 June 2023. Accordingly, the Directors are satisfied that it is appropriate to prepare these consolidated financial statements on a going concern basis.

Notwithstanding the above, significant uncertainties exist as to whether management of the Company will be able to achieve its plans and measures as described above. Should the Group be unable to achieve the above plans and measures such that it would not be able to operate as a going concern, adjustments would have to be made to write down the value of assets to their recoverable amounts, to provide for any future liabilities which might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effect of these adjustments has not been reflected in these consolidated financial statements.

The Group has not applied the new and revised IFRSs that have been issued but not yet effective.
