(III) Changes in principal accounting data and financial indicators and the reasons

Applicable Not applicable

Note: The current period in the analysis below refers to the period from January to September 2023.

1. Inventories increased by approximately 40.61%, mainly due to the increase in production spare parts during the current period.
2. Other receivables increased by approximately 63.80%, mainly due to the increase in dividends receivable and receivables from others during the current period.
3. Debt investments increased by approximately 798.41%, mainly due to the increase in interbank negotiable certificates of deposit reserved by CRRC Finance Co., Ltd. (“**Finance Company**”) under the Company during the current period.
4. Goodwill increased by approximately 41.00%, mainly due to the premium generated by our subsidiaries’ investment and acquisition of subsidiaries during the current period.
5. Trading financial liabilities increased by approximately 388.45%, mainly due to the increase in derivative financial liabilities incurred by hedging instruments during the current period.
6. Deposits from banks and other financial institutions increased by approximately 38.33%, mainly due to the increase in deposits placed with Finance Company during the current period.
7. Tax payable decreased by approximately 41.16%, mainly due to various taxes paid by the Company during the current period.
8. Non-current liabilities due within one year decreased by approximately 39.30%, mainly due to the repayment of bonds payable due within one year during the current period.
9. Other current liabilities increased by approximately 361.60%, mainly due to the issuance of super short-term financing bills during the current period.
10. Deferred tax liabilities increased by approximately 53.20%, mainly due to the increase in taxable temporary differences resulting from the increase in gains on fair value.
11. Finance costs amounted to approximately RMB-47 million, and approximately RMB-320 million for the corresponding period of last year, mainly due to the decrease in exchange gains caused by the fluctuation of exchange rate during the current period.

12. Asset impairment losses increased by approximately 310.66% compared to the corresponding period of last year, mainly due to the increase in the impairment of inventories and contract assets provided for during the current period.
13. Credit impairment losses decreased by approximately 39.21% as compared to the corresponding period of last year, mainly due to the decrease in the impairment of accounts receivable provided for during the current period.
14. Gains from investments increased by approximately 638.36% as compared to the corresponding period of last year, mainly due to the investment losses incurred by disposal of subsidiaries in the corresponding period of last year, while no such condition applied to the Company during the current period.
15. Profit or loss from changes in fair value decreased by approximately 30.83% as compared to the corresponding period of last year, mainly due to the fluctuation in fair value of financial assets held for trading.
16. Gains on disposal of assets decreased by approximately 65.05% as compared with the corresponding period of last year, mainly due to the decrease in gains on disposal of fixed assets and land use rights during the current period.
17. Non-operating expenses increased by approximately 152.36% as compared with the corresponding period of last year, mainly due to the increase in losses incurred for relocation of premises during the current period.
18. Net cash flow from operating activities was a net outflow of RMB3.992 billion, as compared to a net inflow of RMB9.860 billion for the corresponding period of last year. This was mainly due to the increase in cash paid for the purchase of goods and receipt of services during the current period as compared to the corresponding period of last year.
19. Net cash flow from investing activities was a net outflow of RMB6.753 billion, representing an increase of RMB739 million as compared with the corresponding period of last year. This was mainly due to the decrease in cash received from recovery of investments during the current period.
20. Net cash flow from financing activities was a net inflow of RMB1.224 billion, as compared to a net outflow of RMB246 million for the corresponding period of last year. This was mainly due to the increase in cash received from borrowings during the current period as compared with the corresponding period of last year.

Revenue increased by 5.51% as compared to the corresponding period of last year, mainly due to the increase in the income of new industry business and railway equipment business. The railway equipment business, urban rail transit vehicle and urban infrastructure business, new industry business and modern service business accounted for 36.70%, 21.06%, 39.10% and 3.14% of the revenue, respectively. Details are as follows:

Unit: '000 Currency: RMB
