MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

We are principally engaged in (i) provision of photography services through automatic ID photo booths at different locations in Hong Kong and Guangdong Province, Mainland China; and (ii) provision of medical services by operating medical centres in Hong Kong.

Photography services business

In February 2023, the Group received a letter of acceptance from a Hong Kong government authority, which is responsible for issuance of identification documents, through tendering for the provision of automatic photographic studio services at its offices in Hong Kong for a period of 24 months effective from 1 March 2023. The successful tender further intensifies the network of automatic identification photo booths, thereby enhancing the revenue and profitability of the Group.

We believe that (i) status of the COVID-19 pandemic is stable in Hong Kong; (ii) the introduction of JoyYou card (樂悠卡); (iii) relaxation of certain social distancing measures and immigration control in Hong Kong have lead a substantial demand on the photography services business in Hong Kong during the nine months ended 30 September 2023. We consider that such significant demand of ID photos will remain in the foreseeable future.

In this regard, we reallocated certain resources to the business development of automatic ID photo booths business in Hong Kong to (i) upgrading and maintaining our automatic ID photo booth machines such as the printing system, the computer boards and the overall booth decoration; and (ii) advertisement and promotion through media and promotional events. We will continually reassess the profitability on each photo booth locations and relocate the photo booths accordingly.

We are also researching different potential projects with regards to our photography services business. The meetings with our business partners and vendors have held during the nine months ended 30 September 2023 to upgrade our business model by allocating further funds and resources in the information technology (the “IT”) infrastructure to achieve diversifiable development of our core business could be a new direction for the Group in the future.

Medical services business

The Group commenced medical services business by operating medical centres in Hong Kong (the “**Medical Services Business**”). The Group is actively seeking opportunities to recruit and identify suitable medical practitioners, equipment, premises and related businesses to further expand its Medical Services Business. For the nine months ended 30 September 2023, the Group has entered into new tenancy agreement with independent third party to establish a new medical centre in Hong Kong.

We trust that the general increase in health awareness since COVID-19 will boost the demand for medical and related healthcare services in Hong Kong. We believe that the further development of our Medical Services Business is essential to our core strategy of diversifying our Group’s business.

In this regard, we reallocated certain resources to develop the Medical Services Business to (i) purchase equipment for the development of medical and related services and upgrade our computer equipment and software in order to enhance the quality and reliability of our medical services; and (ii) establish or acquire new clinics, medical and related business. It is envisaged that there will be new business opportunities in medical and related healthcare sector in complement to our existing Medical Service Business and the Group are committed to continuously strengthen and enrich the portfolio of its Medical Service Business.

We are committed to strengthen our existing core business and shall continue to capture market opportunities. We will continue to conduct research and explore new business opportunities for future development and further expansion in order to develop a diversified business and broaden its revenue base, so as to achieve sustainable business growth and to create values and enhance long-term benefits for the shareholders.

The Company has been exploring business opportunities in Guangdong Province and other provinces in the Mainland China. However, in lieu of in person application, certain ID Documentation Issuing Authorities in the PRC have introduced online official document application systems, which recognise digital ID photos and adapt face recognition systems in replacement of traditional physical form of ID photos for certain types of licences or permit applications. Coupled with the outbreak of the COVID-19 pandemic since 2020 and the Omicron variant in early 2022, and the global macroeconomic headwinds and uncertainty, our originally planned business expansion of network of automatic ID photo booths in Guangdong Province was delayed and became increasingly challenging.

The Group commenced Medical Services Business by operating medical centres in Hong Kong. The Company has been actively seeking opportunities to recruit and identify suitable medical practitioners, equipment, premises and related business to further expand its Medical Services Business. For the nine months ended 30 September 2023, the Group has entered into new tenancy agreement with independent third party to establish a new medical centre in Hong Kong.

The Board considers that a more cautious approach in relation to the execution of the Group's expansion plan in the Mainland China should be adopted. As disclosed in the Announcements, the Board has considered that it would be more suitable and sustainable to reallocate the unutilised net proceeds from the expansion of network of automatic ID photo booths to (i) business development of automatic ID photo booths business in Hong Kong; (ii) purchase of equipment for the development of medical and related services; (iii) establishment or acquisition of new clinics, medical and related business; and (iv) general working capital. For further details of the change in use of proceeds, please refer to the section headed "Reasons for and benefits of the change in use of proceeds" in the announcement of the Company dated 12 August 2022.

The Group have been actively exploring and studying expansion opportunities in relation to our photography services business and Medical Services Business. To allow more flexibility to identify suitable expansion opportunities, the Board have decided to extend the expected timeline for the unutilised net proceeds to 31 December 2024.

As at the date of this announcement, all of the unused proceeds were deposited in licenced banks in Hong Kong.
