## BUSINESS REVIEW AND OUTLOOK

The Group is an established operator of elderly residential care homes in Hong Kong providing comprehensive residential care home services to the elderly residents including: (i) the provision of accommodation with dietician-managed meal plans, 24-hour nursing and caretaking assistance and professional services such as regular medical consultation, physiotherapy, occupational therapy, psychological and social care services; and (ii) the sale of healthcare and medical consumable products and the provision of customisable add-on healthcare services to the elderly residents. During the Reporting Period, the Group derived its revenue from seven elderly residential care homes across different districts in Hong Kong, including four “Shui On 瑞安”, one “Shui Hing 瑞興”, one “Shui Jun 瑞臻” and one “Guardian Home 佳安家” branded elderly residential care homes.

### Business and Operational Review

Even though the pandemic is over, the Group has learned from the experience of fighting it in the past three years, and our established crisis response team will continue to regularly monitor the situation of our elderly residential care homes and hold meetings to prepare for the future. The Group is also actively increasing interaction with the staff of the elderly residential care homes, in order to timely solve the difficulties faced by the staff in various positions, as well as improve the level of nursing care and work efficiency. During the Reporting Period, the Group’s revenue amounted to approximately HK\$157,158,000, representing an increase of 8.78% as compared with that of the same period last year. Due to the increase in salary costs resulting from Hong Kong’s labour shortage, coupled with the increase in property rentals, profit for the period decreased by approximately 43.63% to approximately HK\$16,704,000.

The Group will continue to optimise existing resources and strengthen staff training, and the management of the Group will also formulate various coping strategies and save costs through cost control measures.

## Prospect

Hong Kong is experiencing the structural issue of aging population. According to the “Hong Kong Population Projections 2020–2069” published by the Hong Kong SAR Government, the population of elderly will almost double by 2040. Therefore, demand of the society for elderly residential care services will continue to rise, and will become the main driver for the development and growth of the elderly residential care home industry. With the Group’s experienced management team and reputation in the market, the Group will strengthen talents training and continue to expand its network of elderly residential care homes at strategic locations in Hong Kong, so as to serve more elderly residents.
