VOLUNTARY ANNOUNCEMENT

JACOBIO TO PRESENT CLINICAL DATA OF KRAS G12C INHIBITOR GLECIRASIB IN PATIENTS WITH PANCREATIC CANCER AND OTHER SOLID TUMORS AT THE 2024 ASCO GI

This announcement is made by JACOBIO PHARMACEUTICALS GROUP CO., LTD. (the “**Company**” or “**Jacobio**”, together with its subsidiaries, the “**Group**”) on a voluntary basis to inform the shareholders of the Company and potential investors about the latest business advancement of the Group.

The board (the “**Board**”) of directors (the “**Director(s)**”) of the Company is pleased to announce that, the Company will present its clinical results in the oral abstract session at 2024 American Society of Clinical Oncology (ASCO) Gastrointestinal Cancers Symposium (“**2024 ASCO GI**”). The presentation details are as follows:

Abstract ID: 604

Abstract Title: Preliminary activity and safety results of KRAS G12C inhibitor Glecirasib (JAB-21822) in patients with pancreatic cancer and other solid tumors

Presentation Time: Friday, January 19, 2024 2:10 PM – 2:20 PM (San Francisco Time)

Saturday, January 20, 2024 6:10 AM – 6:20 AM (Beijing Time)

The Company continues to explore the application of Glecirasib in pancreatic cancer and other solid tumor harboring KRAS G12C mutation. The registrational pivotal clinical study for pancreatic cancer of Glecirasib was approved by Center for Drug Evaluation (CDE) of the National Medical Products Administration (NMPA) in China in July 2023, which became the first global pancreatic cancer KRAS G12C registrational clinical study. The study results will be used to submit New Drug Application (NDA) for pancreatic cancer.

In August 2023, based on the clinical efficacy and safety data from ongoing Phase I/II clinical trials, Glecirasib was granted breakthrough therapy designation (BTD) by the CDE for the pancreatic cancer patients with a KRAS G12C mutation who have progressed after frontline standard care treatment. Pancreatic cancer is a malignant tumor and there is a lack of effective treatment currently. The five-year overall survival rate is only 5%. The BTD will expedite the clinical development of Glecirasib and accelerate its early access to the patients.

2024 ASCO GI will be held in San Francisco, State of California, US, from January 18, 2024 to January 20, 2024. For more information, please visit the official website of the ASCO GI: <https://conferences.asco.org/gi/program>.

About Glecirasib

Glecirasib (JAB-21822) is a KRAS G12C inhibitor independently developed by Jacobio. A number of Phase I/II clinical trials of Glecirasib are currently ongoing in China, the United States and Europe for patients with advanced solid tumors harboring KRAS G12C mutation. This includes a pivotal clinical trial in non-small cell lung cancer (NSCLC) in China; a monotherapy study for STK11 co-mutated NSCLC in the front-line setting, combination therapy trials with SHP2 inhibitor JAB-3312 in NSCLC and with Cetuximab in colorectal cancer, and a registrational pivotal clinical trial in pancreatic cancer.

About Jacobio

Jacobio is committed to developing and providing new and innovative products and solutions to improve patients' health. Our pipeline revolves around novel molecular targets on six major signaling pathways: KRAS, immune checkpoints, tumor metabolism, P53, RB and MYC. We aim for our key projects to be among the top three in the world. Our vision is to become a global leader recognized for our impact in drug R&D together with our partners. Jacobio has R&D centers in Beijing, Shanghai and Boston with our Induced Allosteric Drug Discovery Platform (IADDP) and our immunostimulatory antibody-drug conjugate (iADC) Platform.

Warning under Rule 18A.05 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited: There is no assurance that Glecirasib (JAB-21822) will ultimately be successfully developed and marketed by the Company. Shareholders of the Company and potential investors are advised to exercise caution when dealing in the shares of the Company. Please visit www.jacobiopharma.com for more information.
