Basis of Revised Master Supply Annual Caps

The Revised Master Supply Annual Caps have been determined after taking into consideration (i) the actual transaction amounts for the supply of Products from the date of the Luxshare Precision Master Supply Agreement to 31 December 2023; (ii) the estimated demand of Products for the years ending 31 March 2024 and 2025 from Luxshare Precision Group; and (iii) the expected fluctuation of prices of the Products, exchange rate as well as the inflation.

Reasons for and benefits of the Revised Master Supply Annual Caps

The Luxshare Precision Group is principally engaged in the research, development, manufacturing and sales of products in the fields of consumer electronics, communication, auto electronics and healthcare. From time to time, the Luxshare Precision Group procure certain electronic components such as medical equipment cables and server products to apply in its communication and healthcare products. With the expansion of the Group's business in the medical equipment sector and server sector, the Group is able to supply these electronic components to the Luxshare Precision Group in accordance with its specification and requirements for the production of the products. As such, the Group decided to expand its

product offerings to medical equipment cables and server products to Luxshare Precision Group and the demand for Products will be increased for the years ending 31 March 2024 and 2025.
