The natural gas business of the Group includes natural gas energy center, natural gas point-to-point supply services, natural gas truck filling stations, natural gas transportation fleet logistics, local government and gas company natural gas peak shaving storage, national natural gas pipeline network gas transmission, natural gas trading, pipeline natural gas direct supply services and pipeline natural gas trading respectively.

The Subscriber

As at the date of this announcement, the Subscriber is the chairman of the Board, an executive Director and the controlling shareholder of the Company who beneficially owns 3,333,443,139 Shares, representing approximately 55.78% of the issued share capital of the Company. Therefore, the Subscriber is a connected person of the Company under Chapter 14A of the Listing Rules.

REASONS FOR AND BENEFITS OF THE LOAN CAPITALISATION

As disclosed in the interim report of the Company for the six months period ended 30 September 2023, the gearing ratio of the Company was 644.8%, calculated by dividing the interest-bearing debts by total equity. As at 30 September 2023, the Group's interest-bearing borrowings amounted to approximately HK\$617.7 million, which comprised outstanding principal of bank borrowings of approximately HK\$106.2 million and outstanding principal of the Shareholder's Loans of approximately HK\$511.47 million. Interest accrued for the Shareholder's Loans as at 30 September 2023 amounted to approximately HK\$77.5 million. Moreover, the cash and cash equivalents of the Group as at 30 September 2023 amounted to approximately HK\$53.73 million. As at the date of this announcement, the Shareholders' Loans further increased to approximately HK\$718.17 million in outstanding principal amount and accrued interest.

Given the financial positions of the Group, the Group is not able to repay the amount due to the Subscriber with the existing financial resources. Capitalisation of the Repayment Amount enables the Group to settle its existing liabilities without utilising the existing financial resources and can avoid cash outflows. Furthermore, the capitalisation of the Repayment Amount reduces the indebtedness level of the Company and broadens its capital base.

The Directors have considered other alternative means for raising funds to settle the Shareholder's Loans, such as bank borrowings, share placement, rights issue or open offer. However, having taken into account that:

- (i) debt financing and bank borrowing will inevitably increase the gearing ratio of the Group and lenders generally require pledge of assets from the borrower;
- (ii) the capitalisation of the Repayment Amount under the Subscription Agreement will reduce the indebtedness of the Group;
- (iii) other equity financing such as placing of new shares, rights issue and open offer usually require attractive discount to the prevailing market price of the Shares and is relatively more time consuming and less cost effective as compared to the Loan Capitalisation;
- (iv) the Subscription Price represents a slight premium over the prevailing market price of the Shares as of the date of the Loan Capitalisation Agreement; and
- (v) the Loan Capitalisation demonstrates the support and solid confidence given by the Subscriber to the Group,

the Directors consider that the Loan Capitalisation is a more desirable solution for the Group to settle the Repayment Amount.

Although the allotment and issue of the Capitalisation Shares will have a dilution effect to the existing Independent Shareholders, having considered (i) the capitalisation of the Debt can alleviate the repayment and settlement pressure of the Group; and (ii) the Capitalisation Shares, when allotted and issued, will be recognised entirely as equity of the Company which in turn will reduce the gearing ratio, enlarge the capital base and enhance the net asset position of the Group, the Directors are of the view that the dilution effect arising from the allotment and issue of the Capitalisation Shares is justifiable in this regard.

In view of the above, the Directors (other than the independent non-executive Directors, who shall provide their views after considering the advice from the Independent Financial Adviser) consider that the terms of the Loan Capitalisation Agreement are fair and reasonable based on the current market conditions and are on normal commercial terms, accordingly, the Loan Capitalisation is in the interest of the Company and the Shareholders as a whole.
