Notes:

- (1) EBITDA is equal to the loss or profit for the year before finance income, finance costs (excluded other finance charges), income tax, depreciation, amortisation, loss on deemed disposal of an associate or share of net losses of associates and net fair value changes on financial assets at fair value through profit or loss.
- (2) Net cash position is equal to cash and bank balances net of bank borrowings.
- (3) Return on equity is equal to loss or profit attributable to equity shareholders divided by total shareholders' equity at the end of the relevant year.
- (4) Finished goods turnover days is equal to the average balance of finished goods divided by the cost of sales and multiplied by the number of days in the relevant year.
- (5) Trade receivables turnover days is equal to the average balance of trade receivables divided by the revenue and multiplied by the number of days in the relevant year.

CHAIRMAN'S STATEMENT

On behalf of the board of directors (the "**Board**"), I am pleased to present the results of Qinqin Foodstuffs Group (Cayman) Company Limited (the "**Company**") and its subsidiaries (collectively the "**Group**") for the year ended 31 December 2023 ("**FY2023**"). During the year, the Group continued to focus on the manufacturing, distribution and sale of food and snack products in the People's Republic of China (the "**PRC**").

PERFORMANCE

After the recovery following the COVID re-opening, there was a rebound of economic activity in the first quarter of 2023. However, it has slowed down after first quarter, led by a sequential decline in manufacturing and investment. Along with other economic uncertainties, such as real estate market downturn, weaker demand and moderating consumption, certain negative impact had been posed on the Group's business operations. Despite the ever-changing operating environment, the Group continued to make timely response and implement immediate strategies with the goal of maintaining revenue growth and ameliorating the impact of rising costs, in order to reduce operating risks and enhance profit growth.

In the past few years, the Group has first put its effort on finishing all tough work, including the construction, transformation, and innovation of production bases as well as the improvement of its overall operating efficiency and the remodeling of corporate culture, which not only required heavy investment, but also required additional time to result for the performance.

The Group continued to develop its businesses in accordance with the strategic work plan and focused on establishing a more solid foundation to support its future development and growth. The key development accomplishments in FY2023 are as follows:

- The Group's overall sales recorded continuous growth in the past four years and its revenue increased by 2.5% year-on-year in FY2023.
- The Group's successfully implemented strategies to improve profitability despite overall cost raising pressure. EBITDA (as defined in the financial highlights on page 3 to this report) in FY2023 has been increased by RMB15.0 million or 19.5% from RMB76.9 million for the year ended 31 December 2022 ("**FY2022**") to RMB91.9 million in FY2023.
- In the past few years, the Group completed the development and construction of five new production bases located in different regions in the PRC including Xiantao City, Hubei Province, Xiaogan City, Hubei Province, Jining City, Shandong Province, Meishan City, Sichuan Province and Ningxia City, Gansu Province and the expansion project for the production base in Quanzhou City, Fujian Province was also completed in FY2023. The new production base, together with the upgraded production equipment, has provided the Group with improved production facilities, production processes and product quality, and enhanced the production capacity and environmental efficiency that will meet the long-term development of the Group.

The Group's total revenue increased by 2.5% from RMB957.6 million in FY2022 to RMB981.6 million in FY2023. Gross profit in FY2023 was approximately RMB258.9 million (FY2022: RMB247.3 million), representing an increase of approximately RMB11.6 million or 4.7% year-on-year; gross profit margin was 26.4% (FY2022: 25.8%), representing an increase of approximately 0.6 percentage points year-on-year. In FY2023, the Group recorded a consolidated net loss attributable to the shareholders of the Company of approximately RMB2.0 million, as compared to the consolidated net loss attributable to the shareholders of the Company of approximately RMB1.4 million in FY2022, representing an increase of net loss of approximately RMB0.6 million year-on-year.

The increase in revenue, gross profit, gross profit margin and net loss of the Group in FY2023 was mainly attributable to the following factors:

- (i) the overall sales of the Group's products increased in FY2023, which was due to the Group's continuous expansion of distribution channels and the increase in sales in new snack food chains. In addition, several new production bases of the Group have increased the overall production capacity, thereby facilitated the development and growth of product sales in local surrounding areas nearby the new production bases. In FY2023, the selling prices of the Group's products were adjusted upwards when compared to the same period last year, and the cost of raw materials decreased slightly, resulting in an increase in gross profit and gross profit margin of approximately RMB11.6 million and 0.6 percentage points respectively when compared to FY2022;
- (ii) the Group recorded a loss on deemed disposal of an associate of approximately RMB8.6 million in FY2023 (FY2022: Nil);
- (iii) the Group held unlisted investment fund units which were measured at fair value through profit or loss. In FY2023, the Group disposed of such unlisted investment fund units and recorded a net loss of approximately RMB7.8 million due to changes in their fair value (FY2022: net loss arising from changes in fair value through profit or loss of approximately RMB9.4 million). The relevant net loss in FY2023 decreased by approximately RMB1.6 million as compared to FY2022; and
- (iv) in FY2023, the amount of government grants received by the Group from various local government authorities in Mainland China decreased from RMB19.6 million in FY2022 to RMB9.0 million in FY2023, decreased by approximately RMB10.6 million as compared to FY2022.

PROSPECTS AND VISION

Looking forward to 2024, we expected that economic uncertainties will remain high and business operating environment will be challenging along with the weakening of consumer and business confidence.

Although the Group's investment in the new production bases in the past few years has had a short-term negative impact on the financial results of the Group, the new production bases have gradually achieved economies of scale, and it is expected to continue to improve the overall production capacity, product quality and production efficiency of the Group and enhance product portfolio, which will be beneficial to the Group's long-term financial performance and development. The Group believes that the strategic planning of the Group, especially our strategic initiatives in recent years, particularly to stay focus on investing in new products, channel expansion, information management system and new production facilities and equipment, has laid a firm foundation for the Group's long-term business development.

The Group will continue to put its efforts to expand product portfolio and promote product innovation and upgrades to meet changing consumer preferences. The Group will also strengthen its distribution network in the PRC by enhancing existing cooperation relationships with distributors and expand new sales channels. With the establishment of the new production bases across PRC, production efficiency and capability of the Group will gradually improve and our products will be able to reach an expanded range of local market in PRC and will improve our customer coverage.

CHAIRMAN'S STATEMENT

The Group has restated its vision, mission and values since 2018. In 2021, the Group also redefined its corporate culture of “family, joy and sharing”, aiming to allow employees to grow together with us and to share the success along with the corporate development. The management team will continue to adhere to the “people-oriented” philosophy to carry out its business.

Our vision and strategic objectives represent our continuing commitment to the long-term development and success of the business of the Group. We are confident that we are well placed to remain competitive during this challenging business environment. The Group also believes that it is on the right path towards the goal of becoming a century-old store! Adhering to the people-oriented philosophy along with continuous self-upgrades, the Group will become a bright star in China's food and snacks industry.

APPRECIATION

I would like to take this opportunity to express my heartfelt gratitude to all our shareholders, customers and other business partners for their long-term attention and support to the Group over the years. I would also like to thank the senior management team and all staff of the Group for their dedication and hard work to the Group during the past year.

Hui Ching Lau

Chairman

Hong Kong, 15 March 2024

MANAGEMENT DISCUSSION AND ANALYSIS

Qinqin Foodstuffs Group (Cayman) Company Limited (the “**Company**”) and its subsidiaries (collectively the “**Group**”) is a renowned food and snacks company with strong brand recognition in the People’s Republic of China (the “**PRC**”). The Group is principally engaged in the manufacturing, distribution and sale of jelly products, crackers and chips, seasoning products, confectionery, rice wine and other food and snacks products under “Qinqin (親親)”, “Shangerry (香格里)” and “A Snack Shop (親親物語)” brands.

INDUSTRY ENVIRONMENT

After the recovery following the COVID re-opening, there was a rebound of economic activity in the first quarter of 2023. However, it has slowed down after first quarter, led by a sequential decline in manufacturing and investment. Along with other economic uncertainties, such as real estate market downturn, weaker demand and moderating consumption, certain negative impact had been posed on the Group’s business operations. Despite the ever-changing operating environment, the Group continues to make timely response and implement immediate strategies with the goal of maintaining revenue growth and ameliorating the impact of rising costs, in order to reduce operating risks and enhance profit growth.

With the improvement of consumers’ health concept and living standards, consumers’ consumption pattern is changing towards pursuing good value-for-money products with focus on flavor, nutrition, enjoyment and function. Enterprises have to introduce new innovative products with high-quality and nutrition value timely to adapt to changes in consumers’ demand and preferences. Coupled with factors such as the increasing imported food competitions, rising raw material prices and labor costs, snack food companies have to compete with both domestic and foreign industry companies. Despite facing various challenges, the Group still believes that food and snack industry in the PRC will continue to develop with the overall economic development and rising consumer demand in PRC, and expected that it still has huge development potential in the future.

BUSINESS OVERVIEW

For the year ended 31 December 2023 (the “**Reporting Period**”), the Group’s total revenue was approximately RMB981.6 million (2022: RMB957.6 million), representing an increase of approximately RMB24.0 million or 2.5% year-on-year. During the Reporting Period, all major product segments of the Group have recorded an increase in sales revenue. The increase in revenue was mainly due to the continuous expansion of distribution channels and the overall sales has increased during the Reporting Period. The selling prices of the Group’s products were also adjusted upwards when compared to the same period last year, resulting in an increase in sales amount. The Group continued to adjust product mix and sales strategies, and focused on development of new product with higher profit margin to enrich the product portfolio which increased overall product sales and profit margin.

For the Reporting Period, the Group’s gross profit and gross profit margin both increased. Gross profit for the Reporting Period was approximately RMB258.9 million (2022: RMB247.3 million), representing an increase of approximately RMB11.6 million or 4.7% year-on-year; gross profit margin was 26.4% (2022: 25.8%), representing an increase of approximately 0.6 percentage points year-on-year. During the Reporting Period, the Group recorded a consolidated net loss attributable to the shareholders of the Company of approximately RMB2.0 million, as compared to the consolidated net loss attributable to the shareholders of the Company of approximately RMB1.4 million for the year ended 31 December 2022, representing an increase of net loss of approximately RMB0.6 million year-on-year.

The increase in revenue, gross profit, gross profit margin and net loss of the Group in the Reporting Period was mainly attributable to the following factors:

- (i) the overall sales of the Group's products increased during the Reporting Period, which was due to the Group's continuous expansion of distribution channels and the increase in sales in new snack food chains. In addition, several new production bases of the Group have increased the overall production capacity, thereby facilitated the development and growth of product sales in local surrounding areas nearby the new production bases. During the Reporting Period, the selling prices of the Group's products were adjusted upwards when compared to the same period last year, and the cost of raw materials decreased slightly, resulting in an increase in gross profit and gross profit margin of approximately RMB11.6 million and 0.6 percentage points respectively for the Reporting Period when compared to 2022;
- (ii) the Group recorded a loss on deemed disposal of an associate of approximately RMB8.6 million in FY2023 (FY2022: Nil);
- (iii) the Group held unlisted investment fund units which were measured at fair value through profit or loss. During the Reporting Period, the Group disposed of such unlisted investment fund units and recorded a net loss of approximately RMB7.8 million due to changes in their fair value (2022: net loss arising from changes in fair value through profit or loss of approximately RMB9.4 million). The relevant net loss for the Reporting Period decreased by approximately RMB1.6 million as compared to 2022; and
- (iv) during the Reporting Period, the amount of government grants received by the Group from various local government authorities in Mainland China decreased from RMB19.6 million in 2022 to RMB9.0 million for the Reporting Period, decreased by approximately RMB10.6 million as compared to 2022.

Jelly products

Sales of jelly products in the Reporting Period were approximately RMB567.2 million (2022: RMB564.8 million), representing an increase of approximately 0.4% year-on-year, and accounting for 57.8% (2022: 59.0%) of total revenue of the Group. Gross profit was approximately RMB155.8 million (2022: RMB157.6 million), representing a decrease of approximately 1.1% year-on-year. Gross profit margin was approximately 27.5% (2022: 27.9%), representing a decrease of approximately 0.4 percentage points year-on-year.

In the Reporting Period, the increase in revenue of jelly products were mainly attributable to the Group's continuous expansion of distribution channels and the increase in sales in new snack food chains during the Reporting Period, resulting in an increase in overall sales. There was a slight decrease in gross profit and gross profit margin mainly due to the increase in fixed production costs from new production bases. The Group raised certain product prices in the second half of 2022, continued to optimize its product mix and sales strategies, launching new products with higher gross profit, and the cost of raw materials also decreased slightly, which partly offset the decrease in gross profit and gross profit margin.

Crackers and Chips

Sales of crackers and chips in the Reporting Period were approximately RMB274.2 million (2022: RMB265.1 million), representing an increase of approximately 3.4% year-on-year, and accounting for 27.9% (2022: 27.7%) of total revenue of the Group. Gross profit was approximately RMB69.9 million (2022: RMB66.6 million), representing an increase of approximately 5.0% year-on-year. Gross profit margin was approximately 25.5% (2022: 25.1%), representing an increase of approximately 0.4 percentage points year-on-year.

The sales of crackers and chips maintained a steady growth in the Reporting Period, mainly because of the Group's continuous expansion of distribution channels during the Reporting Period, and continued to develop markets in southern China where the sales were relatively weak and new markets in the southwest and northwest, resulting in an increase in overall sales. Furthermore, the Group raised certain product prices in the second half of 2022, continued to optimize its product mix and sales strategies, and focused on the continual expansion and launch of new product series such as 「薯片」 and 「親親圈」, thereby leading to a growth in sales, gross profit and gross profit margin during the Reporting Period.

Seasoning Products

Sales of seasoning products in the Reporting Period were approximately RMB78.9 million (2022: RMB73.6 million), representing an increase of approximately 7.2% year-on-year, and accounting for 8.0% (2022: 7.7%) of total revenue of the Group. Gross profit was approximately RMB25.0 million (2022: RMB19.0 million), representing an increase of approximately 31.6% year-on-year. Gross profit margin was approximately 31.7% (2022: 25.8%), representing an increase of approximately 5.9 percentage points year-on-year.

In 2022, due to the impacts of the COVID-19 pandemic, various cities across the PRC implemented lockdown measures. Some restaurants were forced to shut down, resulting in a decline in the revenue of the seasoning business. During the Reporting Period, the seasoning business has resumed the growth trend following the post-pandemic recovery. Sales volume has increased during

the Reporting Period and the costs of major raw materials has declined as compared to the same period of last year, resulting in the increase in sales, gross profit and gross profit margin during the Reporting Period.

Confectionery and Other Products

Confectionery and other products include confectionery products, new snack products under the brand of "A Snack Shop (親親物語)" such as candies, dried fruits, nuts, biscuits, bakery and dried meat and vegetarian snack products and rice wine and sesame candy products. Sales of confectionery and other products in the Reporting Period were approximately RMB61.3 million (2022: RMB54.0 million), representing an increase of approximately 13.5% year-on-year, and accounting for 6.2% (2022: 5.6%) of total revenue of the Group. Gross profit margin was approximately 13.3% (2022: 7.6%), representing an increase of approximately 5.7 percentage points year-on-year.

The increase in sales during the Reporting Period was mainly attributable to the increase in sales of new rice wine products. Since the new rice wine production bases was established and the new rice wine products have been launched, there has been a gradual increase in sales over the previous years due to the continuous effort in the promotion and distribution of products into different sales channels. There was also an improvement in gross margin for rice wine products along with the increase in sales volume and decrease in production costs due to improvement on economy of scale. The Group will continue to implement strategies and control measures to increase sales and improve the profitability of this segment.

Distribution and Selling Expenses

Distribution and selling expenses mainly represented staff costs, transportation costs, marketing and advertising expenses and other selling related expenses. Distribution and selling expenses in the Reporting Period were approximately RMB123.3 million (2022: RMB139.6 million), representing a decrease of 11.7% year-on-year, and accounting for 12.6% (2022: 14.6%) of total revenue of the Group. The period-over-period decrease in distribution and selling expenses was mainly attributable to the decrease in selling expenses in relation to the Group's strategies adjustments to reduce the sales of low-margin products through e-commerce channels as well as the decrease in distribution and transportation costs during the Reporting Period as such costs were higher in last year due to the impact of the pandemic and lockdown measures.

In addition, in order to improve the overall profitability and profit margin, the Group has implemented measures to tighten the control over expenses during the Reporting Period, these measures also included simplifying and optimizing the department structure and staff costs decreased accordingly during the Reporting Period. As a result, the distribution and selling expenses as a percentage of the total revenue of the Group has decreased accordingly during the Reporting Period.

Administrative Expenses

Administrative expenses mainly represented staff costs, depreciation of property, plant and equipment, property and land-use taxes, utilities and various office expenses and other administrative expenses. Administrative expenses in the Reporting Period were approximately RMB137.2 million (2022: RMB122.7 million), representing an increase of 11.8% year-on-year, and accounting for 14.0% (2022: 12.8%) of total revenue of the Group. The year-on-year increase was mainly attributable to the increase in depreciation of property, plant and equipment and property and land-use taxes totaling RMB9.3 million after the new production bases were in full operation.

Strategic Development Investment Projects

As part of the strategic development plans and business expansion strategies of the Group, the Group has invested in a number of consumer goods companies with synergy with the Group's business. In the Reporting Period, the Group had no new investment projects. These companies mainly engage in the production or sale of food, beverage and alcohol products in the PRC and abroad.

During the Reporting Period, there was a decrease in the fair value of the investments of the Group as the business performance of these investments were negatively affected by the persistent impact of COVID and their recovery and growth rate were slower than expected under the general weakening consumer and business sentiment. In addition, the lack of new investment funds from investors has also resulted in the lack of resources for growth of these investee companies. As a result, the Group recognised a fair value loss through other comprehensive income of RMB31.4 million (2022: RMB33.6 million).

Product Development and Upgrade

The Group is committed to developing popular, natural and healthy products with high nutritious value and quality. The Group's product management center, leveraging its outstanding, professional and technical talents as well as research and development capabilities for innovative products, has enhanced its creativity in areas such as product development, packaging design and brand marketing. The Group has increased its investment in product innovation, production facilities and quality inspection equipment, thereby ensuring the speed and efficiency of the development and launching of new products.

For jelly products, the Group will continue to develop products to improve gross profit, focus on increasing the sales of key products and continue to launch innovative, healthy and delicious products and keep adjusting marketing strategies for new product. The Group believes that with the continual introduction and launch of new products, it will contribute to the sustainable development and growth of the jelly product business.

For crackers and chips, the Group will continue to deepen the leading position of the prawn cracker. Through a series of measures such as improving taste, upgrading packaging and increasing flavors, the Group will continue to develop new products to meet consumers' demand for healthy snacks. In addition, the Group will keep focusing on the continual expansion of key products series such as 「薯片」 and 「親親圈」, increase the development and exposure of promotional activities at retail terminals, and continue to consolidate the Group's leading position in the market.

For seasoning products, the Group will continue to adopt "make cooking easier" as the target goal for its product and brand development. The Group will aim to increase the proportion of high-margin products through a series of upgrades on packaging and to increase market share and brand influence. The Group will continue to step up the promotion of its seasoning products in two channels, namely the catering market and the household market, develop more sales points, and launch more products to meet the demands of the catering and household markets. Meanwhile, with the aim of seeking market opportunities and new growth drivers in the process of industrialisation of the catering industry, the Group will continue to provide customised products and services to catering chain stores and catering supply chain customers.

For other snacks products, the Group will continue to develop new snack food, including candy, chocolate, biscuits, bakery and rice wine snacks products. As consumers gradually increase attention to healthy diets, the Group will conduct in-depth research on consumer habits, and develop new snack products with a healthy concept, in order to provide consumers with products with different tastes and flavour, and continue to expand new product categories to increase sales revenue.

Promotion and Marketing

The Group will continue to strengthen the management of distribution channels and retail terminals, increase the number of retail sales points, and expand product sales in the areas surrounding the new production bases. The Group will continue to focus on promoting key products and crossover products, re-optimize key products and upgrade their packaging, so as to better support brand exposure.

The Group made full use of social media including WeChat, Weibo, TikTok, Xiaohongshu and bilibili to establish effective interaction with young consumers, took an advantage of fan economy and built a private community for large-scale marketing exposure to increase its brand awareness. In terms of sales channels, 「咖啡圈」, 「巧克力圈」 and 「蒟蒻可吸凍」 were mainly promoted through e-commerce and convenience stores in first and second tier cities based on the behavioral changes of young consumers of this generation to obtain favorable advantage in the competitive market in PRC.

In addition, the Group will continue to cooperate with certain strategic investment partners to jointly promote the Group's and their products on e-commerce channels, food fairs and exhibition to attract new customers.

Channel Expansion

Along with product upgrades, the Group continued to broaden its existing distributors network by expanding to new channels such as snack food branded stores, convenience stores, campus snack stores and gas stations. During the Reporting Period, there was a rise in number of snack food branded stores in PRC. The Group captured the opportunity to expand its distribution network through this new access channel to market and the Group's sales through these new snack food chains has increased to a great extent accordingly during the Reporting Period.

To improve the overall gross profit margin and net profit margin, the Group has adjusted the development strategies of its e-commerce business since last year, reducing the sales of low-margin products through e-commerce channels, and increasing the proportion of the sale of self-produced products with higher gross profit and thereby increased the profitability of the Group in the Reporting Period. The e-commerce business will continue to promote and sell products through online platforms and live streaming channels, and employ e-commerce as the main channel for the Group's brand promotion and some of its new product launches. With the advantages of the Group's production bases and supply chain, transportation and distribution costs will be reduced and the Group will aim to increase its overall revenue and profits. Besides, the Group will continue to actively cooperate with new retailers such as Alibaba, JD and Pinduoduo to develop new retail channels. On this basis, the Group believes that it will further realize growth for this business and generate profits for the Group in the future.

Production Facilities Improvement

The Group has formulated a clear development plan for its production facilities and equipment. In the past few years, the Group completed the development and construction of five new production bases located in different regions in the PRC including Xiantao City, Hubei Province, Xiaogan City, Hubei Province, Jining City, Shandong Province, Meishan City, Sichuan Province and Ningxia City, Gansu Province and the expansion project for the production base in Quanzhou City, Fujian Province was also completed in 2023. Not only did it improve the production capacity, quality and efficiency of the Group for its long-term development, but it also reduced supply chain logistics costs and laid the foundation for further expanding the sales of products in the local surrounding areas.

The total capital expenditure of the Group in the Reporting Period regarding building of new production bases and revamp of existing production bases projects was approximately RMB63.2 million. The Group believes that the long-term development and future profit growth of the enterprise will be driven by the optimisation of the Group's resources, the construction and renovation of plants, equipment upgrades to improve its production facilities, production processes and product quality, as well as the improvement of production capacity and efficiency.

The Group entered into certain construction contracts in relation to the construction of production bases in Jining City, Shandong Province, Xiantao City, Hubei Province and Quanzhou City, Fujian Province, which constituted as disclosable transactions of the Company under Chapter 14 of the Rules Governing the Listing of Securities of the Stock Exchange. For details, please refer to the Company's announcement dated 27 April 2022.

The Group aimed to reduce the impact of increasing labour costs by increasing the automation level of our production facilities. The Group continued to conduct "equipment transformation, production process enhancement and quality improvement" for its production facilities and cooperated with various foreign equipment enterprises for bringing in production lines including jelly products as well as crackers and chips with the world advanced standards. The Group believes that a highly automated production process with technologically-more-advanced equipment will allow the Group to reduce its reliance on labour, improve production efficiency and accelerate the time-to market for our products. In addition, the Group continued to adopt measures to save energy and lower consumption and products defective rate.

The Group strived to provide consumers with healthy and safe products, and it has always strictly complied with the stringent international production standards. Hence, the Group has been awarded the HALAL, SC, KOSHER, ISO14001 and ISO9001 certifications in respect of its production facilities, quality control and management system.

FUTURE PROSPECTS AND STRATEGIES

The Group's strategic initiatives in recent years, particularly to stay focus on investing in new products, channel expansion, information management system and new production facilities and equipment, has laid a firm foundation for the next chapter in the Group's business development.

Although the market is full of challenges, we are looking forward to the future as the Group will continue to focus our efforts in the following areas, to drive further growth of the Group's business and thereby creating greater value for its shareholders.

- Capture the opportunities of consumer upgrades through continuous product innovations, thereby adhering to its diversified and good value-for-money product strategies, focusing on enhancement of product quality, optimisation of product portfolio and strengthening market position of our key products in terms of operation.
- Expand our distribution channels, strengthen our traditional distribution network, develop and allocate more high margin products for sales through e-commerce channels and further develop other new market access such as snack food branded stores and restaurants channels in order to increase market penetration.

- Refine internal management process and strengthen the integration of various software to improve efficiency, invest in talent development and information management system to raise corporate management standards, improve the Group's operating efficiency and core competitiveness, and to enhance sustainable development of the Group.
- Explore investment opportunities in consumer goods companies with fast-growing potential and synergy with the Group's business, alliances with strategic investment partners to facilitate long-term development and business growth of the Group.

LIQUIDITY AND CAPITAL RESOURCES

The Group maintained a solid financial position and was in a net cash position as at 31 December 2023. As at 31 December 2023, the Group had cash and bank balances of RMB520.7 million (2022: RMB502.1 million) and bank borrowings of RMB292.3 million (2022: RMB228.0 million).

As at 31 December 2023, the Group's working capital or net current assets were RMB153.5 million (2022: RMB91.2 million). The current ratio, represented by current assets divided by current liabilities, was 1.3 (2022: 1.1). The Group's total equity was RMB1,201.3 million (2022: RMB1,234.7 million), representing a decrease of 2.7%. The decrease in net cash position from RMB274.1 million as at 31 December 2022 to RMB228.4 million as at 31 December 2023 was mainly attributable to the Group's capital expenditure incurred for construction of new production bases and the purchase of new production equipment in PRC to facilitate the Group's long term business development plan.

Cash and bank balances were mainly denominated in RMB, HKD and USD. As at 31 December 2022, pledged bank deposits of RMB15.5 million were being used as the security for a banking facility of USD8.0 million (equivalent to RMB55.7 million) granted by a bank for certain short-term credit facility arrangement. There was no such short-term credit facility arrangement utilised by the Group as at 31 December 2023.

As part of treasury management activities with respect to the Group's surplus cash assets, the Group invested in unlisted investment funds units measured at fair value through profit or loss and the fair value of which amounted to RMB32.4 million as at 31 December 2022 (2023: Nil). During the year, the Group fully redeemed such unlisted investment fund units and recorded a net loss of approximately RMB7.8 million due to changes in their fair value (2022: net loss arising from changes in fair value through profit or loss of approximately RMB9.4 million).

As at 31 December 2023, the Group's bank borrowings denominated in RMB bore interest rates ranged from 1.30% to 3.75% per annum (2022: 1.30% to 3.55% per annum) with an effective interest rate of 3.03% (2022: 2.94%). In addition, the effective interest rate of the Group's bank overdraft denominated in USD was 2.75% per annum as at 31 December 2022 (2023: the Group did not utilise any bank overdraft in 2023). Gearing ratio is equal to net debt position of the Group divided by its shareholders equity. As the Group was in net cash position as at 31 December 2023 and 31 December 2022, no gearing ratio was presented.

In 2023, the Group invested RMB63.2 million on capital expenditure (2022: RMB274.7 million). The capital expenditure was mainly incurred for construction of new production bases and the purchase of new production equipment in PRC to facilitate the Group's long term business development plan. It is expected that the upcoming capital expenditure requirements will be funded by both internal and external resources of the Group. Overall, the Group's financial position remains sound for continued business expansion.

COMMITMENTS AND CONTINGENCIES

As at 31 December 2023, the Group had total capital commitments (contracted but not provided for) of RMB39.8 million (2022: RMB240.9 million).

As at 31 December 2023, the Group had future aggregate minimum lease payments under non-cancellable short-term leases of RMB2.1 million (2022: RMB3.7 million).

The Group had no material contingent liabilities as at 31 December 2023 and 31 December 2022.

SIGNIFICANT INVESTMENTS HELD AND MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

Save for those disclosed in this report, there were no other significant investments held, nor were there any material acquisitions or disposals of subsidiaries, associates and joint ventures during the year.

CHARGE ON ASSETS

As at 31 December 2023, certain land use rights and buildings of the Group with net book value of RMB586.0 million (2022: RMB553.6 million) were pledged for bank borrowings of RMB235.0 million (2022: RMB177.3 million).

In addition, the Group had a banking facility of USD8.0 million (equivalent to RMB55.7 million) granted by a bank for certain short-term credit facility arrangement which was pledged by the bank deposits of the Group in the amount of RMB15.5 million as at 31 December 2022. There was no such short-term credit facility arrangement and pledged bank deposits as at 31 December 2023.

HUMAN RESOURCES AND MANAGEMENT

As at 31 December 2023, the Group had approximately 2,500 (2022: 2,600) employees. For the year ended 31 December 2023, total employee benefit expenses, including directors' emoluments, was approximately RMB209.0 million (2022: RMB214.0 million). In order to improve the overall profitability and profit margin, the Group has implemented measures to tighten the control over expenses since last year, these measures included simplifying and optimising the department structure and staff costs decreased accordingly during the year.

The Group aims to create a strong sense of community and a motivating environment for its employees to excel. The Group recruit employees based on a number of factors, including their educational background, work experience and vacancies within the Group. The Group determines employees' compensation based on their qualifications, work experience, position and performance. In addition to salaries, the Group provides a comprehensive range of staff benefits to its employees, including performance or contribution-based bonuses and allowances for meals and free dormitories. Besides, share options may be granted to eligible employees of the Group in accordance with the terms of the share option scheme adopted by the Company.

The Group also committed to continuing education and development of its employees, and the Group provides various education and training programs both internally and externally to cultivate its employees in improving their skills and developing their potential.

FOREIGN EXCHANGE RISK

The Group operates its businesses primarily in the PRC and its functional currency is RMB. Foreign exchange risk arises mainly from future commercial transactions of sales and purchases with overseas customers and suppliers by the Group and recognised assets or liabilities, such as cash and cash equivalent, term deposits, restricted bank deposits, trade and other receivables and payables, and bank borrowings of the Group, which are denominated in HKD, USD and other currencies.

During the year ended 31 December 2023, the Group recorded foreign exchange gain in relation to its cash and cash equivalent totaling RMB1.2 million (2022: net foreign exchange gain totaling RMB0.2 million). In order to limit this exchange rate risk, the Group closely monitors HKD and USD exposure to an acceptable level by buying or selling foreign currencies at spot rates where necessary. Save as disclosed above, the Group is exposed to minimal foreign exchange risk exposure as the Group focus its sales and purchase within the PRC market.

FINAL DIVIDEND

The Board did not recommend the payment of final dividend for the year ended 31 December 2023 (2022: Nil).

PROFILE OF DIRECTORS AND SENIOR MANAGEMENT

DIRECTORS

Executive Directors

He is responsible for the Group's digital planning and technology development management. He joined the Group in June 2019. Prior to that, he worked at Hengan Group as the manager of the information technology department from January 2009 to June 2019. He has over 15 years of experience in digital technology development and management in large enterprises. He graduated from Fujian Agriculture and Forestry University with a major in business administration.

CORPORATE GOVERNANCE CODE

Qinqin Foodstuffs Group (Cayman) Company Limited (the “**Company**”) and its subsidiaries (collectively the “**Group**”) recognise the importance of achieving the highest standard of corporate governance consistent with the needs and requirements of its businesses and the best interest of all of its stakeholders, and the board of directors (the “**Board**”) is fully committed to doing so. The Board believes that high standards of corporate governance provide a framework and solid foundation for the Group to manage business risks, enhance transparency, achieve high standard of accountability and protect stakeholders’ interests.

The Group has adopted a corporate governance statement of policy which provides guidance on the application of the corporate governance principles on the Group, with reference to the Corporate Governance Code (the “**CG Code**”) as set out in Appendix C1 of the Rules Governing the Listing of Securities (the “**Listing Rules**”) on The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”). In the opinion of the directors of the Company (the “**Director(s)**”), the Company has complied with all code provisions as set out in the CG Code throughout the year ended 31 December 2023.

CULTURES AND VALUES

A healthy corporate culture across the Group is integral to attain its vision and strategy. It is the Board’s role to foster a corporate culture with the following core principles and to ensure that the Company’s vision, values and business strategies are aligned to it:-

1. Integrity and code of conduct

The Group strives to maintain high standards of business ethics and corporate governance across all our activities and operations. The Directors, management and staff are all required to act lawfully, ethically and responsibly, and the required standards and norms are explicitly set out in the training materials for all new staff and embedded in various policies such as the Group’s employee handbook (including therein the Group’s code of conduct), the anti-corruption policy and the whistleblowing policy of the Group. Trainings are conducted from time to time to reinforce the required standards in respect of ethics and integrity.

2. Commitment

The Group believes that the culture of commitment to workforce development, workplace safety and health, diversity, and sustainability is one where staff have a feeling of commitment and emotional engagement with the Group’s mission. This sets the tone for a strong, productive workforce that attracts, develops, and retains the best talent and produces the highest quality work. Moreover, the Company’s strategy in the business development and management are to achieve long-term, steady and sustainable growth, while having due considerations from environment, social and governance aspects.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “**Model Code**”) set out in Appendix C3 to the Listing Rules as the code of conduct for dealing in securities of the Company by the Directors. All Directors have confirmed, upon specific enquiries made by the Company, that they have complied with the required standard set out in the Model Code throughout the year ended 31 December 2023. To ensure Directors’ dealings in the securities of the Company (the “**Securities**”) are conducted in accordance with the Model Code and securities code of the Company, a Director is required to notify the chairman of the Board (the “**Chairman**”) in writing and obtain a written acknowledgement from the Chairman prior to any dealings in the Securities.

BOARD OF DIRECTORS

The Board is responsible for the overall management of the Group, which includes leadership and control of the Company and oversees the Group's businesses, strategic decisions, internal control, risk management and performances. The management team is delegated with the authority and responsibility by the Board for the day-to-day management of the Group. The delegated functions and work tasks are periodically reviewed. Major corporate matters that are specifically delegated by the Board to the management include (1) the preparation of interim and annual reports and announcements for the Board's approval before publishing; (2) implementation of adequate internal controls and risk management procedures; and (3) compliance with relevant statutory and regulatory requirements and rules and regulations. It is the responsibility of the Board to determine the appropriate corporate governance practices applicable to the Company's circumstances and to ensure processes and procedures are in place to achieve the Company's corporate governance objectives.

The Board has maintained the necessary balance of skills and experience appropriate for the business requirements and objectives of the Group and for the exercise of independent judgement. Directors with various professional qualifications, experience and related financial management expertise have contributed to the effective direction of the Company and provided adequate checks and balances to safeguard the interests of both the Group and the shareholders. Hence, the Board believes that the current Board composition satisfy the balance of expertise, skills and experience to the corporate governance requirements of the Group as well as the ongoing development and management of its business activities.

The Board comprises eleven directors, of which three are executive Directors, namely Mr. Hui Ching Lau (Chairman), Mr. Wong Wai Leung (Chief Financial Officer and Company Secretary) and Mr. Wu Wenxu (Chief Executive Officer); four are non-executive Directors, namely Mr. Sze Man Bok, Mr. Wu Huolu, Mr. Wu Sichuan and Mr. Wu Yinhang; and four are independent non-executive Directors, namely Mr. Cai Meng, Mr. Chan Yiu Fai Youdey, Mr. Ng Swee Leng and Mr. Paul Marin Theil. The biographies of the Directors are set out in "Profile of Directors and Senior Management" on pages 16 to 19 of this annual report.

The Board meets regularly to discuss the overall strategy as well as the operation and financial performance of the Company, and to review and approve the Company's interim and annual results. During the year, four regular Board meetings were held and the attendance of each Director at the Board meetings is set out in the section headed "Board and Committees Meetings" of this report.

Regular Board meetings for each year are scheduled in advance to facilitate maximum attendance of Directors. All Directors are given an opportunity to include matters for discussion in the agenda. The Company Secretary assists the Chairman in preparing the agenda for meetings to comply with all applicable rules and regulations. The agenda and the accompanying Board papers are normally sent to Directors at least three days before the intended date of a Board meeting. Draft minutes of each Board meeting are circulated to Directors for their comments before being tabled at the next Board meeting for approval. All minutes are kept by the Company Secretary and are open for inspection at any reasonable time on reasonable notice by any Director.

Pursuant to the articles of association of the Company, all Directors appointed to fill a causal vacancy or as an addition to the Board shall hold office only until the next following general meeting of the Company and shall then be eligible for re-election at the meeting. At each annual general meeting, one-third of the Directors for the time being shall retire from office by rotation provided that every Director shall be subject to retirement by rotation at least once every three years.

Save for the family relationships disclosed in the Profile of Directors and Senior Management set out on pages 16 to 19 of this annual report, the Directors do not have material financial, business or other relationships with one another.

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

The roles of the Chairman and Chief Executive Officer of the Group (the “CEO”) are clearly segregated to ensure independence and proper checks and balances. The Chairman focuses on the business strategy and direction of the Company, provides leadership to the Board and ensures proper and effective functioning of the Board in discharge of its responsibilities. The CEO is accountable to the Board for the overall implementation of the Company’s strategies and daily business operations.

Mr. Hui Ching Lau is the Chairman and executive director of the Company and he has been the Chairman since 12 April 2017. Mr. Wu Wenxu has been appointed as the CEO since 6 May 2021. The roles of Chairman and CEO are separated and have not been performed by the same individual.

NON-EXECUTIVE DIRECTORS

The non-executive Directors, including independent non-executive Directors, who are appointed to fill a casual vacancy or as an addition to the existing Board, shall hold office only until the first annual general meeting after his or her appointment and shall then be eligible for re-election.

The non-executive Directors are appointed with no specific term while the independent non-executive Directors are appointed for a term of three years, all of which may be terminated by not less than one month’s notice in writing served by either party. The directorship is subject to retirement by rotation and re-election in accordance with the articles of association of the Company.

INDEPENDENCE OF INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has complied with the requirements under Rules 3.10(1), 3.10(2) and 3.10A of the Listing Rules. The Company has received confirmation of independence from all four independent non-executive Directors in accordance with Rule 3.13 of the Listing Rules.

The Board, through the Nomination Committee, has reviewed the independence of all independent non-executive Directors and concluded that all of them are independent within the definition of the Listing Rules. Furthermore, the Board is not aware of the occurrence of any events which would cause it to believe that the independence of any of the independent non-executive Directors has been impaired up to the date of this report.

MECHANISM ON INDEPENDENT VIEWS TO THE BOARD

The Company recognises that board independence is critical to good corporate governance. The Board has established a mechanism to enable Directors to seek independent professional advice when exercising Directors’ duties to ensure a strong independent element to the decision made by the Board which is key to an effective Board.

According to the mechanism, subject to the prior approval by the executive Director of the Company (which approval shall not be unreasonably withheld or delayed), the Directors may seek independent legal, financial or other professional advice from advisors independent of those advising the Company as and when necessary in appropriate circumstances to enable them to discharge their responsibilities effectively, either on the Company’s affairs or in respect of their fiduciary or other duties, at the Company’s expense. In case of the Board is seeking independent professional advice, prior approval must be given by the executive Director of the Company (which approval shall not be unreasonably withheld or delayed).

The Board will review this mechanism on an annual basis to ensure the implementation and effectiveness of this mechanism.

DIRECTORS' INDUCTION AND CONTINUOUS PROFESSIONAL DEVELOPMENT

Upon appointing a new Director, each new Director receives an induction package covering business operations, policy and procedures of the Company as well as the general, statutory and regulatory obligations of being a Director to ensure that he/she is sufficiently aware of his/her responsibilities under the Listing Rules and other relevant regulatory requirements.

The Directors, on an ongoing basis, will receive amendments to or updates on the relevant laws, rules and regulations. In addition, the Company encourages the Directors to enrol in a wide range of professional development courses and seminars relating to the Listing Rules, Hong Kong Companies Ordinance and corporate governance practices so that they can continuously acquire relevant knowledge and skills. All Directors had provided to the Company records of training received during the year, including attended seminars, briefing or workshop and reading materials in respect of regulatory updates about the directors' duties, the Group's business and relevant industry, etc.

BOARD DIVERSITY POLICY

The Board adopted a board diversity policy which sets out the approach to achieve diversity on the Board.

The Company recognises and embraces the benefits of having a diverse Board and sees increasing diversity at Board level as an essential element in supporting the attainment of the Company's strategic objectives and sustainable development.

The Company seeks to achieve Board diversity through the consideration of a number of factors, including but not limited to talents, skills, experience, independence and knowledge. The Company will also take into consideration its own business model and specific needs from time to time. All Board appointments will be based on meritocracy and candidates will be considered against objective criteria, having due regard to the benefits of diversity on the Board.

As at the date of this report, the Board comprises eleven Directors, amongst them, four are Independent Non-Executive Directors, thereby promoting critical review and control of the management process. The Board is also characterised by significant diversity, whether considered in terms of age, professional experience, skills and knowledge.

The Nomination Committee will review the board diversity policy and its implementation annually to ensure its effectiveness. Having reviewed the board diversity policy and the Board's composition during the year ended 31 December 2023, the Nomination Committee considered that the requirements of the board diversity policy had been met, implementation was effective and, except stated below, no measurable objective had been set to implement the board diversity policy.

The Board currently has no female Director. The Board would continue to take initiatives to identify suitable candidates so as to appoint at least one female Director no later than 31 December 2024 for compliance of new requirement under the Listing Rules. Gender diversity at workforce levels (including our senior management) is disclosed in "Environment, Social and Governance ("ESG") Report" of this annual report.

AUDIT COMMITTEE

An audit committee (the “**Audit Committee**”) has been established by the Board with specific written terms of reference and all members of the Audit Committee are Independent Non-Executive Directors. Pursuant to the Audit Committee’s terms of reference, the Audit Committee is authorised to commit Company funds in order to obtain advice from outside legal counsel, accountants, investigatory services or other expert advice. Details of the authority and responsibilities of the Audit Committee are set out in the terms of reference which are available on the websites of the Company and the Stock Exchange.

The Audit Committee comprises four Independent Non-Executive Directors, namely Mr. Ng Swee Leng, Mr. Cai Meng, Mr. Chan Yiu Fai Youdey and Mr. Paul Marin Theil. Mr. Ng Swee Leng is the chairman of the Audit Committee.

During the year ended 31 December 2023, the Audit Committee held two meetings to review the interim and the annual results before their submission to the Board and monitored the integrity of such financial statements; and to review the internal control and risk management systems with auditor. The attendance of each member of the Audit Committee is set out in the section headed “Board and Committees Meetings” of this report.

The Audit Committee has also discussed and reviewed the internal and external audit plans and the key audit matters determined by the external auditor under the new and revised auditor reporting standards under Hong Kong Standards on Auditing for the year ended 31 December 2023.

REMUNERATION COMMITTEE

A remuneration committee (the “**Remuneration Committee**”) has been established by the Board with specific written terms of reference and all members of the Remuneration Committee are independent non-executive Directors. Details of the authority and responsibilities of the Remuneration Committee are set out in the terms of reference which are available on the websites of the Company and the Stock Exchange.

The Remuneration Committee has been charged with the responsibility of making recommendations to the Board on the appropriated policy and structures for all aspects of the Directors’ and senior management’s remuneration. The Remuneration Committee also considers factors such as salaries paid by comparable companies, time commitment and responsibilities of the Directors, employment conditions elsewhere in the Group and desirability of performance-based remuneration or any benefit in kind.

The Remuneration Committee comprises four Independent Non-Executive Directors, namely Mr. Paul Marin Theil, Mr. Cai Meng, Mr. Chan Yiu Fai Youdey and Mr. Ng Swee Leng. Mr. Paul Marin Theil is the chairman of the Remuneration Committee.

During the year ended 31 December 2023, the Remuneration Committee held two meetings to review the remuneration policy and structure, and review adjustment of remuneration packages of Executive Directors and to make recommendation of the remuneration packages and performance bonuses for the Directors and senior management of the Company. The attendance of each member of the Remuneration Committee is set out in the section headed “Board and Committees Meetings” of this report.

There was no material matter relating to share schemes that was reviewed and/or recommended to the Board by the Remuneration Committee during the year ended 31 December 2023.

Details of the amount of Directors’ emoluments and other remuneration related matters for the year ended 31 December 2023 are set out in note 37 to the financial statements.

For the year ended 31 December 2023, the remuneration of the members of the senior management who are not directors are within the following bands:

Remuneration band	Number of persons
Within HKD1,000,000	5

NOMINATION COMMITTEE

A nomination committee (the “**Nomination Committee**”) has been established by the Board with specific terms of reference. The Nomination Committee is responsible for, amongst other things, identifying individuals suitably qualified to become Board members, considering the reappointment of the Directors and succession planning for Directors and making recommendations to the Board in respect of the aforesaid matters. Details of the authority and responsibilities of the Nomination Committee are set out in the terms of reference which are available on the websites of the Company and the Stock Exchange.

The Nomination Committee comprises four Independent Non-Executive Directors, namely Mr. Cai Meng, Mr. Chan Yiu Fai Youdey, Mr. Ng Swee Leng and Mr. Paul Marin Theil, and one Executive Director, namely Mr. Hui Ching Lau. Mr. Hui Ching Lau is the chairman of the Nomination Committee.

The Board has adopted a nomination policy, which included the selection criteria and nomination procedures, for nomination of new Directors. In identifying and selecting suitable candidates for directorships, the Nomination Committee will consider the candidate’s character, qualifications, experience, independence, time commitment and other relevant criteria necessary to complement the corporate strategy and achieve Board diversity, where appropriate, before making recommendation to the Board.

According to the nomination policy, for filling a casual vacancy or appointing an additional director to the Board, the Nomination Committee shall make recommendations for the Board’s consideration and approval. For proposing candidates to stand for election or re-election at a general meeting, the Nomination Committee shall make nominations to the Board for its consideration and recommendation of candidates to stand for election or re-election at any general meeting.

During the year ended 31 December 2023, the Nomination Committee held two meetings to review the nomination policy and board diversity policy and to review and recommend the renewal of the service contract of an Executive Director and re-election of Directors. The Nomination Committee has also reviewed the structure, size and composition of the Board and concluded that members of the Board has possessed the expertise and independence to carry out the Board’s functions and responsibilities during the year ended 31 December 2023.

The attendance of each member of the Nomination Committee is set out in the section headed “Board and Committees Meetings” of this report.

BOARD AND COMMITTEES MEETINGS

The individual attendance records of each Director at the meetings of the Board, Audit Committee, Remuneration Committee and Nomination Committee as well as annual general meeting during the year ended 31 December 2023 are set out below:

Name of Directors	Attendance/Number of meetings held during the term of office

* Being the secretary of the meetings

Retired from being a Non-Executive Director with effect from 18 May 2023

During the year ended 31 December 2023, the Chairman held a meeting with the independent non-executive Directors without the presence of other Directors.

ACCOUNTABILITY AND AUDIT

The Board is responsible for overseeing the preparation of financial statements for the year ended 31 December 2023 which gives a true and fair view of the state of affairs of the Group as at 31 December 2023, and of the results and cash flows for year then ended. In preparing the financial statements for the year ended 31 December 2023, the Board has selected appropriate accounting policies, applied them consistently in accordance with the Hong Kong Financial Reporting Standards which are pertinent to its operations and relevant to the financial statements, made judgements and estimates that are prudent and reasonable, and ensured the preparation of the financial statements on the going concern basis.

The Group endeavours to present a balanced, clear and comprehensible assessment of the Group's performance, position and prospects. The interim and annual results of the Company are announced in a timely manner within the limit of two months and three months, respectively, after the end of the relevant periods in accordance with the Listing Rules.

The Directors have acknowledged their responsibility for preparing all information and representation contained in the financial statements of the Company for the year ended 31 December 2023. The statement of reporting responsibilities of auditor is set out in the independent auditor's report.

AUDITOR'S REMUNERATION

During the year under review, the remuneration paid/payable to the Company's external auditor, Baker Tilly Hong Kong Limited, is set out as follows:

Services rendered	Fee paid/payable RMB'000
Audit of financial statements	1,200
Other non-audit services	27
Total	1,227

The Company considers that the provision of non-audit services will not impair the objectivity of the auditor.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board acknowledges that it has overall responsibility for the design and implementation of the systems of internal controls which covers financial reporting, operations, compliance and risk management of the Company, as well as continuous monitoring the effectiveness of such systems. The Board has delegated such responsibility to the management of the Company. The management, under the supervision of the Board, has established an on-going process for identifying, evaluating and managing significant risks faced by the Group.

The Audit Committee reviews the risk management and internal control systems that are significant to the Group on an on-going basis. The Audit Committee also considers the adequacy of resources, qualifications and experience of staff of the Group's accounting, internal audit, financial reporting function, as well as those relating to the Group's ESG performance and reporting and their training programs and budgets.

During the year, the Company's internal audit department reviewed its internal control procedures and made recommendations to the Board any improvements that can be made to the existing internal control procedures. The internal control and accounting system of the Group have been in place and functioning effectively for the year under review.

The Board is satisfied that the risk management and internal control systems in place covering all material controls including financial, operational and compliance controls for the year under review and up to the date of issuance of the annual report is reasonably effective and adequate.

Risk Management Framework

1. Each business unit is responsible for identifying, assessing and managing risks (including, amongst others, material risks relating to ESG) within its business, ensuring that appropriate internal controls for effective risk management are implemented – principal risks are identified and assessed in the yearly business planning process with action plans to manage those risks;
2. The management is responsible for overseeing the risk management and internal control activities of the Group – regular meetings with each business unit to ensure principal risks are properly managed, and new or changing risks are identified; and

3. The Board is responsible for reviewing and approving the effectiveness and adequacy of the Group's risk management and internal control – review of the annual internal audit report and consideration of the Audit Committee's recommendation.

The risk management framework, coupled with our internal control, ensures that the risks associated with our different business units are effectively controlled in line with the Group's risk appetite.

Whistleblowing Policy

The Board has adopted a whistleblowing policy (the "**Whistleblowing Policy**"). The purpose of the Whistleblowing Policy is to (i) foster a culture of compliance, ethical behaviour and good corporate governance across the Group; and (ii) promote the importance of ethical behaviour and encourages the reporting of misconduct, unlawful and unethical behavior.

The nature, status and the results of the complaints received under the Whistleblowing Policy are reported to the chairman of the Audit Committee or the general manager of the risk management department of the Group. No incident of fraud or misconduct that have material effect on the Group's financial statements or overall operations for the year ended 31 December 2023 has been discovered. The Whistleblowing Policy is reviewed annually by the Audit Committee to ensure its effectiveness.

Anti-corruption Policy

The Board has adopted an anti-corruption policy (the "**Anti-corruption Policy**"). The Group is committed to achieve the highest standards of integrity and ethical behaviour in conducting business. The Anti-corruption Policy forms an integral part of the Group's corporate governance framework. The Anti-corruption Policy sets out the specific behavioral guidelines that the Group's personnel and business partners must follow to combat corruption. It demonstrates the Group's commitment to the practice of ethical business conduct and the compliance of the anti-corruption laws and regulations that apply to its local and foreign operations. In line with this commitment and to ensure transparency in the Group's practices, the Anti-corruption Policy has been prepared as a guide to all employees of the Group and third parties dealing with the Group.

The Anti-corruption Policy is reviewed and updated periodically to align with the applicable laws and regulations as well as the industry best practice.

DISSEMINATION OF INSIDE INFORMATION

The Company is committed to a consistent practice of timely, accurate and sufficiently detailed disclosure of material information about the Group. The Company has adopted a Policy on Disclosure of Inside Information which sets out the obligations, guidelines and procedures for handling and dissemination of inside information. With these guidelines and procedures, the Group has management controls in place to ensure that potential inside information can be promptly identified, assessed and escalated for the attention of the Board to decide about the need for disclosure.

COMPANY SECRETARY

Mr. Wong Wai Leung has been the Company Secretary of the Company since March 2016. He is a full time employee of the Company and has adequate working knowledge on the Company to discharge his duty as the Company Secretary. Mr. Wong reports to the Chairman of the Company and is responsible for advising the Board on corporate governance matters. For the year under review, Mr. Wong has confirmed that he has taken no less than 15 hours of relevant professional training.

SHAREHOLDERS' RIGHTS

Procedures for Shareholders to convene an Extraordinary General Meeting ("EGM")

Pursuant to the Company's articles of association and the Companies Act (as consolidated and revised) of the Cayman Islands (the "**Companies Act**"), registered shareholders of the Company (the "**Shareholders**") holding not less than one-tenth (10%) of the voting rights (on a one vote per share basis) of the Company carrying the right of voting at general meetings of the Company (the "**EGM Requisitionists**") can deposit a written request to convene an EGM at the principal office of the Company in Hong Kong (the "**Principal Office**"), which is presently situated at Suite 2601, 26th Floor, Admiralty Centre, Tower 1, 18 Harcourt Road, Hong Kong. The EGM Requisitionists must state in their request(s) the objects of the EGM, the resolutions to be added to the meeting agenda and such request(s) must be signed by the EGM Requisitionists.

The Share Registrars will verify the EGM Requisitionists' particulars in the EGM Requisitionists' request. Promptly after confirmation from the Share Registrars that the EGM Requisitionists' request is in order, the Company Secretary will arrange with the Board to convene an EGM by serving sufficient notice to all the registered Shareholders in accordance with all the relevant statutory and regulatory requirements. On the contrary, if the EGM Requisitionists' request is verified not in order, the EGM Requisitionists will be advised of the outcome and a EGM will not be convened as requested.

The EGM Requisitionists, or any of them representing more than one-half of the total voting rights of all of them, may themselves convene an EGM if within twenty-one (21) days of the deposit of the EGM Requisitionists' request, the Board does not proceed duly to convene an EGM provided that any EGM so convened is held within a further twenty-one (21) days from the date of the original EGM Requisitionists' request. An EGM so convened by the EGM Requisitionists shall be convened in the same manner, as nearly as possible, as that in which meetings are to be convened by the Company.

Procedures for Shareholders to Put Forward Proposals at a General Meeting

There are no provisions in the Company's articles of association or the Companies Act for shareholders to move new resolutions at general meetings. Shareholders who wish to move a resolution may request the Company to convene a general meeting in accordance with the procedures set out in the preceding paragraph. Shareholders can also send enquiries and proposals putting forward for shareholders' consideration at shareholders' meetings to the Board in writing to the Principal Office of the Company whose contact details are as follows or directly by raising questions at the general meeting of the Company:—

Suite 2601, 26th Floor, Admiralty Centre, Tower 1, 18 Harcourt Road, Hong Kong

Shareholders' enquires

Shareholders should direct their enquiries about their shareholdings to the Company's share registrar, Tricor Investor Services Limited, at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong, or call its customer service hotline at (852) 2980 1333.

Shareholders may also make enquiries to the Board at the general meetings of the Company.

Dividend Policy

The Company has adopted a policy on payment of dividends pursuant to code provision of the CG Code, which sets out the principles and guidelines that the Company intends to apply in relation to the declaration, payment or distribution of dividends to Shareholders.

Declaration, recommendation and payment of dividends of the Company is subject to the approval of the Board, depending on the results of operation, working capital, financial position, future prospects, and capital requirements, as well as any other factors which the Directors may consider relevant from time to time. Any future declaration, recommendation and payment of dividends of the Company may or may not reflect the historical declarations and payments of dividends and will be at the absolute discretion of the Board. The Company does not have any predetermined dividend payout ratio.

COMMUNICATION WITH SHAREHOLDERS AND INVESTOR RELATIONS

The Company has adopted the Shareholders Communication Policy with the objective of ensuring that the shareholders and potential investors are provided with ready, equal and timely access to balanced and understandable information about the Company.

The Company has established several channels to communicate with the shareholders as follows:

- (i) corporate communications such as annual reports, interim reports and circulars are issued in printed form and are available on the Stock Exchange's website at www.hkexnews.hk and the Company's website at www.irasia.com/listco/hk/qinqin;
- (ii) periodic announcements are published on the respective websites of the Stock Exchange and the Company;
- (iii) corporate information is made available on the Company's website;
- (iv) annual and extraordinary general meetings provide a forum for the shareholders to make comments and exchange views with the Directors and senior management; and
- (v) the Hong Kong share registrar of the Company serves the shareholders in respect of share registration, dividend payment and related matters.

During the year, the Board has reviewed the implementation and effectiveness of the shareholders' communication policy and was satisfied with the said policy and considered the overall communication with shareholders was effective with the variety of communication channels provided above.

The Company continues to promote investor relations and enhance communication with the existing shareholders and potential investors. The Company welcomes suggestions from investors, stakeholders and the public. Enquiries to the Board or the Company may be sent by post to the Company's Principal Office.

On 18 May 2023, the Company has adopted the new amended and restated memorandum of association and articles of association of the Company in substitution for the existing amended and restated memorandum of association and articles of association of the Company. The proposed amendments to the existing amended and restated memorandum of association and articles of association of the Company were set out in the circular to shareholders of the Company dated 31 March 2023 and has been approved by shareholders of the Company by way of special resolution at the annual general meeting of the Company held on 18 May 2023.

An up-to-date consolidated version of the Company's Memorandum and Articles of Association is available on the Company's website.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ABOUT THE REPORT

Qinqin Foodstuffs Group (Cayman) Company Limited (the “**Company**”) and its subsidiaries (collectively, the “**Group**”) strive to build a harmonious enterprise. The Group has created a business model for sustainable development with its vigorous promotion on energy-saving and emission-reduction. To satisfy customers’ needs, the Group strives to produce high-quality products and service. The Group also shoulders its social responsibility by taking on practical actions, with a vision to pursue a joint development with its staffs, customers and investors, as well as the society.

The Company has prepared its 2023 Environmental, Social and Governance Report (the “**Report**”) in accordance with the requirements of Appendix C2 “Environmental, Social and Governance Reporting Guide” under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. This report illustrated the Company’s policies and achievements from four aspects, including environment, product, employees and community, with the purpose to enhance our sense of responsibility, awareness and commitment to sustainable development.

Since over 90% of the Group’s revenue and businesses occur in mainland China, thus the Report covers the Group’s main business information on 10 production companies that operate four major business segments, including jelly, crackers and chips, seasoning products and rice wine, in China and discloses the Environmental, Social and Governance (“**ESG**”) performance for the period from 1 January 2023 to 31 December 2023.

The information disclosed in the Report is based on important, quantitative, balanced and consistent reporting principles, with the provision of explanations for those disclosure rules which are not applicable to the Group, and thereby meets the disclosure requirement of “comply or explain”. Apart from the environmental information which is disclosed with a focus on the 10 production companies of the Group, all the other information in the Report will be disclosed at the Group’s level.

ESG MANAGEMENT

1. ESG Strategies

To boost corporate responsibility competitiveness, the capacity itself has to be supported by a comprehensive ESG management system. The Group continues to consolidate a seamless mix and blend of ESG responsibility motif and operation strategies that will enable us to refine the ESG responsibility management system. The Board of Directors of the Company (the “**Board of Directors**”) has always approved the Group’s commitment to its corporate social responsibility undertakings and assumed full responsibility for the Group’s ESG strategies and reporting. The Board is responsible for assessing and defining the Group’s ESG risks and ensures that the Group has formulated appropriate and effective ESG risk management and internal control systems. The Board of Directors reviews the Group’s ESG performance annually and approves the Group’s annual ESG report.

Our Group’s management team is responsible for implementing ESG risk management and internal control systems, as well as reporting to the Board of Directors on ESG-related risks and opportunities, and to provide confirmation regarding the effectiveness of the ESG system.

The Group has established an ESG working group that draws its members from various key departments. The ESG working group is responsible for promoting and undertaking projects and daily management duties, along with setting up a comprehensive system for risk management and internal control, actively assisting the management to coordinate horizontally within the Group, so that each of the functional departments can fully implement each policy and communicate with each other, while effectively provide relevant data and information. The Group will compile reports and provide guidance and trainings based on the collected ESG data and information.

2. Stakeholder Communication

The main stakeholders related to our Group include shareholders and investors, governments and regulatory authorities, distributors and consumers, suppliers and contractors, employees, communities and the environment. The Group is committed to maintaining communication with all stakeholders, to truly understand their opinions and expectations, and through effective and diversified communication channels, which help the Group improve and refine its comprehensive management capabilities and levels on a continuous term. With such undertakings, the Group hope to safeguard the needs of stakeholders. The Group has identified the following distinctive stakeholders:

Stakeholder	Shared objectives	Communication and feedback channels	Frequency of communication

	Work-life balance		

Stakeholder	Shared objectives	Communication and feedback channels	Frequency of communication
Environment	Preservation of ecological environment	— Government and Regulatory Authorities Inspection	Irregular
	Green and low-carbon development	— Third Party Inspection Bodies Inspection	
Community	Facilitate employment	— Provide Employment Opportunities	Multiple per year
	Enhance local economic development	— Promote Local Economic Development	
		— Improve Infrastructure at Locality	
		— Poverty Alleviation	
		— Community Charity	
		— Voluntary Services	

3. Materiality Assessment

On the basis of stakeholders communication, the Group has identified and conducted materiality assessment on material issues and related topics according to the “ESG Reporting Guide”, important issues of the Company, industry features and social responsibility standards. The Group discloses and responds to relevant subjects in the Report in degrees of detail varying with the materiality result of different subjects, which is shown below:

Materiality Assessment Results

Environmental Protection

The Group insists on a green and low-carbon emission development concept. With regards to its due responsibility on environmental protection, the Group's environmental protection policies are integrated into its corporate development. We enforce the national laws and regulations in the field of environmental protection with rigor, takes further efforts to control pollutants and reduce the total emission volume of pollutants, so as to minimize the environmental impacts of its production and operations, and to achieve growths in both economic benefits and social benefits. We also allocate resources for environmental protection, aiming to ensure that all of its environmental protection and energy consumption indicators comply with national standards. We are working towards improving the efficiency on use of resources and attaining the goal of a pollution-free society in its production and operation processes. On one hand, the Group pays attention to and strictly abides by the laws and regulations in the environmental field; on the other hand, it actively promotes new technologies and new processes, as well as protects and improves the environment by not only cutting wastewater and waste gas emissions but also reducing water, electricity, emissions and resources, effectively integrating green environmental protection into all aspects.

In 2023, all the main facilities within every new production base of the Group were completed and officially put into operation. The Group continued to made investment in environmental protection equipment for the new production bases and the improvement of the existing production bases in 2023 in order to improve the environmental protection efficiency and meet the national standards, as well as strive to attain the goal of improving the efficiency on use of resources and pollution-free in its process of production and operation. The new production base projects have been in strict compliance with the requirements under the "Environmental Protection Law of the People's Republic of China". All facilities for prevention and control of pollution have met the requirements of the approved Environmental Impact Assessment Document by adopting local sophisticated and reliable processes for the treatment of emissions and wastewater to ensure compliance with discharge standards, online announcements and filing were made as well. The Group has also formulated pollutant management measures and internal control indicators for pollutant emissions based on the operation process of the environmental protection facilities and systems of each base of the Company, and specified the control indicators of each production base to ensure compliance with discharge standards as well as a reduction in pollutant emissions and operating costs.

1. Waste Gas and Wastewater

The major emissions discharged by the Group are the waste gas generated from the combustion of fossil fuels during its production and operation, the wastewater generated from various processes during its product production and the dust particles generated from transport. For the pollutants generated during the production, the Group has been in strict compliance with the requirements under the laws and regulations such as the "Environmental Protection Law of the People's Republic of China", continuously improving production process technology and equipment, and taking effective measures when pollutants are generated and discharged, so as to achieve a balance between production operation and environmental protection, so as to reduce the environmental impact of waste water, waste gas, greenhouse gas, hazardous and non-hazardous solid waste generated during the production. The exhaust gas emissions produced from the production facilities such as SO₂ and NO_x meet the "Emission Standard of Air Pollutants for Boilers of the PRC" and are discharged in an orderly manner through a funnel, minimizing their impacts on the surrounding environment. In 2023, our production facilities completely halted the use of coal and diesel during the production process, and used natural gas which has less negative environmental impacts relatively or purchased steam and used centralized heating method in production, thereby greatly reducing the dependence on petrochemical products and eradicating the emission of waste gas at source. The waste fume generated during the production will be purified by electrostatic fume pacifier, which effectively reduces the waste gas and pollutants in order to meet the national emission standard.

Wastewater discharged by the Group are mainly production wastewater and domestic wastewater generated during production. The Group has been in strict compliance with the requirements under the laws and regulations such as the “Law of the People’s Republic of China on the Prevention and Control of Water Pollution”, and therefore ensure that the wastewater discharge indicators are in line with the requirements under the Integrated Wastewater Discharge Standard set out in the National Standards of the People’s Republic of China, where all production facilities have built-in sewage treatment systems, and wastewater will meet the discharge standards after treatment. In 2022, each newly built and existing production base is equipped with sewage treatment facilities to minimize pollutant emissions. For the odor such as hydrogen sulfide and biogas produced by wastewater treatment, some production bases have adopted the most sophisticated and high-performance sealing collection hood with fluorocarbon fiber membrane to collect the odor, and treat them by spraying and activated carbon adsorption to reduce the impacts of odor on the surroundings.

(1) Management and supervision of pollutants

The sewage treatment stations of the production facilities under the Group are equipped with professional sewage management personnel who are responsible for the dedicated management of wastewater, waste gas and waste residue treatment facilities in the area to ensure the discharge of various pollutants in compliance with the requirements of national laws and regulations. In addition to the daily management of various environmental indicators for each sewage treatment stations of production facilities by a person who is responsible for environmental protection at the production facilities, the Group’s environmental protection engineer is dispatched to each production facility every six months to provide technical guidance, supervise and manage the implementation of various environmental protection tasks, and implement the Group’s environmental protection work. At the same time, the Group also attaches great importance to environmental management and technical training for environmental protection personnel, and strives to improve and maintain the professional quality of environmental protection personnel. During the year, in August, environmental protection personnel from each production base were gathered by the Group to oversee an online environmental protection special training, and greatly improved the comprehensive quality and working standards of environmental protection professionals and technicians at each base through training and theoretical exams. In September, the Group engaged Quality Mark Certification Group Fujian Co., Ltd. to review the ISO14001 Environmental Management System Certification of Fujian Qinqin Holdings Co., Ltd. and Quanzhou QinQin Foodstuff Co., Ltd., being the subsidiaries of the Group, and review the standardization, timeliness, feasibility of the documentation, and the implementation of on-site inspection of environmental protection facilities and environmental protection measures. We completed the three-day professional on-site audit with success. In November, the Group carried out annual self-examination and self-correction on potential environmental hazards, which included conducting special inspections on the environmental protection procedures and environmental protection facilities at each base, as well as special inspections to determine whether the pollutants discharged had complied with applicable standards. All environmental protection protocols at each base were completed, and all pollutants were discharged in compliance with the relevant standards. There were zero environmental safety nor environmental warning incidents throughout the year.

(2) Discharge of pollutants in compliance with the standards

By strictly complying with the requirements of national environmental protection laws and regulations, the Group conducts online real-time monitoring of discharged pollutants and sewage, as well as responds to and rectifies the abnormal situations in a timely manner to ensure they are able to stably meet the emission standards. In order to ensure the accuracy of online monitoring data, a third-party institution with environmental testing qualifications will be regularly engaged to monitor various pollutants in the area, including wastewater and odor, and the test reports will be issued. Relevant data will be published on the environmental monitoring platform.

The Group's major emissions in 2023 were as follows:

Emissions	Details of emissions	Emission volume		Unit
		2023	2022	
Waste gas	Nitrous oxides (NOx)	0.48	0.47	Tonne
	Sulphur dioxide (SO ₂)	0.0026	0.0027	Tonne
	Dust particles	0.0008	0.0008	Tonne
Wastewater	Chemical oxygen demand (COD)	96.9	86.3	Tonne
	Ammonia nitrogen (NH ₃ -N)	9.7	8.6	Tonne
	Wastewater volume	646,173.0	575,182.6	Cubic metre

Wastewater discharge volume			Wastewater discharge density		
2023	2022	Unit	2023	2022	Density unit
646,173.0	575,182.6	Cubic metre	7.20	6.22	Cubic metre/tonne of products

2. Greenhouse Gas

Greenhouse gas emitted by the Group is mainly generated from the energy consumption, which includes natural gas, electricity and steam, during its production. By strictly complying with the relevant requirements under the "Work Plan for Controlling Greenhouse Gas Emissions for the 13th Five-Year Period", the Group is committed to, among others, improving equipment energy efficiency, reducing energy consumption, using clean energy and conducting refined product management, in order to reduce the emissions of greenhouse gas.

Based on the nature of the Group's business, the major gas emissions are greenhouse gas, sulphur dioxide and dust which are mainly derived from the use of electricity and fuels converted from fossil fuels. The Group's calculation for greenhouse gas mainly covers carbon dioxide, methane and nitrous oxide. Greenhouse gas emissions information are calculated in accordance with the "Reporting Guidance on Environmental KPIs" issued by the Stock Exchange. Scope 1 of greenhouse gas includes the greenhouse gas emission generated directly from the Group's operation; Scope 2 of greenhouse gas is generated from the Group's internal consumption of electricity, heat and steam which led to the "indirect energy" greenhouse gas emission.

The Group's major greenhouse gas emission volume and emission density in 2023 were as follows:

Greenhouse gas emissions	Emission volume		Unit
	2023	2022	
Direct greenhouse gas emissions	6,494.81	6,391.71	Tonne of carbon dioxide equivalent (tCO ₂ e)
Energy indirect greenhouse gas emissions	29,620.40	27,761.41	Tonne of carbon dioxide equivalent (tCO ₂ e)
Total greenhouse gas emission volume	36,115.21	34,153.12	Tonne of carbon dioxide equivalent (tCO ₂ e)

Greenhouse gas emission volume		Unit	Greenhouse gas emission density		Density unit
2023	2022		2023	2022	
36,115.21	34,153.12	Tonne of carbon dioxide equivalent (tCO ₂ e)	0.40	0.37	Tonne of carbon dioxide equivalent (tCO ₂ e)/tonne of products

3. Waste Management

The Group has been in strict compliance with the requirements under the "Law of the People's Republic of China on Prevention and Control of Environmental Pollution by Solid Waste". After the Group classifies, collects and centrally stores hazardous waste in accordance with the "Administrative Measures for Hazardous Waste Management", hazardous waste is treated and thus rendered harmless by qualified third-party companies before disposal, which meets the standard of causing no harm to human health and reduces secondary pollution in environment from source.

In 2023, the Group's newly built production bases have been established in accordance with the requirements of laws and regulations. Recyclable production waste storage warehouses, domestic waste transfer warehouses, hazardous chemicals warehouses, hazardous waste warehouses, etc. have been set up to recycle the recyclable production waste resources. Non-recyclable waste is reasonably classified, stored, and treated and thus rendered harmless.

For non-hazardous wastes, the Group has been in strict compliance with the requirements under the "Law of the People's Republic of China on Prevention and Control of Environmental Pollution by Solid Waste". Non-hazardous wastes are treated and thus rendered harmless, separated before disposal and finally recycled and reused by the companies with relevant qualifications. The Group continually introduced waste recycling treatments at its production facilities, recycled useful constituent and energy from solid wastes to cut down consumption of resources.

The volume and density of wastes generated by the Group in 2023 were as follows:

Waste discharge	Unit	2023	2022
Total discharge of hazardous wastes	Litre	442.5	376.2
Density of hazardous waste discharge	Litre/tonne of products	0.005	0.004
Total discharge of non-hazardous wastes	Tonne	1,819.53	1,858.53
Density of non-hazardous waste discharge	Tonne/tonne of products	0.020	0.020

Note: (1) Hazardous wastes include ink, detergents etc.

(2) Non-hazardous wastes are mainly: plastic, sludge, waste paper, production wastes etc.

In 2023, all production bases strived to carry out measures to improve and upgrade production equipment in the production process as well as integrate and optimize the existing production lines. In 2023, the Group continued to make investments in the new production bases and the improvement of environmental protection equipment of the existing production bases of approximately RMB10 million in order to improve the environmental protection efficiency and meet the national standards, as well as attain the goal of improving the efficiency on use of resources and pollution-free in its process of production and operation.

In 2023, the targets of the Group were to continuously reduce emission and waste and to conserve resources, certain of the Group's targeted performance indicators were not met satisfactorily due to the slight differences between the production process of new products and traditional products. The following is the analysis of pollutant emission and waste discharge during the year:

- Analysis of pollutant emission
 - The total emission volume of waste gas (including NO_x, SO₂ and dust particles) increased by 2% compared to last year, while the emission density of greenhouse gases increased by 8.1% compared to last year. Waste gas and greenhouse gases are mainly produced when natural gas is consumed. In 2023, the Group's electricity consumption increased by 9.7% year-on-year, mainly due to the high degree of automation and high electrical power of the production equipment of the Xiantao new production base in Xiantao, the high hygiene standards requirement of the production facilities and the stringent design requirements for the dormitory environment, resulting in the longer operating time of air conditioners, which increased power consumption. In addition, the adjustment of the product portfolio of the Luohe production base in Henan City and the optimization and adjustment of the production process, requires the suspension of production and renovation of the facilities, all of which resulted in an increase in electricity consumption. Additionally, the natural gas consumption increased significantly this year as the cleansing of the cleaning in place system (CIP) equipment of the Xiantao new production base required the use of natural gas and certain loss of natural gas during pipeline transportation, moreover, the natural gas consumption increased significantly during the testing and implementing stage of the gas boiler, resulting in the increase in natural gas usage of the Group by 1.8% year-on-year. In 2024, the Group will target at reducing the emission volume of waste gas and greenhouse gases year-on-year by improving production processes and equipment efficiency.
 - The discharge density of wastewater increased by 15.8% compared to last year. The Group's wastewater is mainly derived from the production process of jelly and pudding products. Water consumption increased in 2023 as a consequence of the process to improve quality of the process water at the Xiantao new production base and frequent changes of production water in the drying facilities. As the new factory had high production quality requirements, and the frequency of cleaning equipment, pipes, and floors increased, the consumption of tap water in turn increased. In addition, the Andong production base in Jinjiang City experienced a waste of water due to aging and damage to the tap water pipes, resulting in the significant increase in wastewater discharge. At the same time, the Group adopted production in small and multi batches as opposed to the previous bulk production, which increased cleaning frequency as it is necessary to clean up the production line before each production run. 2024, the Group will target at improving production process so as to reduce wastewater discharge density year-on-year.

- Analysis of waste discharge
 - The volume of hazardous wastes generated per packaging unit increased by 25% when compared to last year. Hazardous wastes are mainly derived from inkjet coding and ink detergent used on the product packaging. Carton consumption and product coding ink usage increased as a result of the adjusted product portfolio of the production base and the production of New Year's products, including packaging used in gift packs, gift box products, and small items. At the same time, inkjet coding equipment used in certain production bases was at an unusually high frequency that a large amount of ink detergent was used. As a result, the consumption of inkjet and ink detergent has increased as compared to that of last year. In 2024, the Group will continue to look into the possibility of replacing inkjet printers with laserjet printers, so as to gradually eliminate ink and detergent and achieve a year-on-year reduction in hazardous wastes.
 - The volume of non-hazardous wastes remained at the same level when compared to last year. Non-hazardous waste mainly comes from product packaging and cartons. The overall use of plastics and cartons did not decrease because the recycling rate of plastics and paper did not increase, and new packaging equipment needed to undergo testing. In 2024, the Group will continue to increase the recycling rate of plastics and paper and reduce packaging materials by striving to enhance the environmental protection awareness and knowledge about recycling of all employees, so as to achieve a year-on-year reduction in non-hazardous wastes.

4. Use of Resources

The Group is committed to maximizing the recycling of resources in the entire lifecycle of products (research and development, production and withdrawal), and continues to work forwards energy-saving and emission reduction.

(1) Energy Consumption

The major energy consumption of the Group are natural gas, electricity and steam consumed during its production. By strictly complying with the "Energy Conservation Law of the People's Republic of China", the Group always strives to increase its energy efficiency and continuously strive to improve its energy performance.

In accordance with the "Continuous Production Improvement and Management Measures of Qinqin", the Group's continuous production improvement committee assesses the improvement proposals submitted by each production facility every year and announces the awarded improvement proposal accordingly. The Group also encourages all staff to actively participate in the improvement activities, successively and continually improves and optimizes various production processes and equipment, effectively reduces energy waste and production costs, enhances product quality and production effectiveness and efficiency, as well as facilitates its operational management and improvement in effectiveness.

The Group's total energy consumption in 2023 were as follows:

Energy	Type of energy	Volume 2023	2022	Unit
Direct energy	Natural gas	2,521,820.53	2,477,160.14	Nm ³
Indirect energy	Purchased electricity	37,161,308.80	33,889,800.00	Kilowatt-hour (kWh)
	Purchased steam	69,241.47	68,984.35	Tonne
Total energy consumption 2023	Unit 2022	Energy consumption density 2023		Density unit
81,846.77	77,958.60	0.91	0.84	Megawatt hour (MWh)/ tonne of products

(2) Water Consumption

The major water consumption of the Group is derived from its production and living water usage. By strictly complying with the requirements of the laws and regulations such as “Water Law of the People’s Republic of China”, the Group continues to carry out watersaving technology assessment and application in order to reduce water consumption. The Group obtained its water supply from tap water supplied by water supply companies controlled by relevant local governments. As water supply is a public utility regulated by the PRC government, the Group has not experienced a material shortage during the year. The Group processed the water supplied to the Group according to industry standards before it is used for product production. To monitor water quality, water used by the Group undergoes quality checks in each location of its production facilities.

The total water consumption of the Group in 2023 were as follows:

Total water consumption volume		Unit	Water consumption density		Density unit
2023	2022		2023	2022	
903,013	835,008	Tonne	10.06	9.03	Tonne/tonne of products

The analysis of energy and water consumption in 2023 was as follows:

- Water consumption density increased by 11.4% when compared to last year, as the Andong production base of the Group experienced a waste of water due to aging and damage to the tap water pipes; the process to improve quality of the process water at the Xiantao new production base and frequent changes of production water in the drying facilities, resulting in a higher water consumption; the new factory had high production quality requirements, and the frequency of cleaning equipment, pipes, and floors increased, the consumption of water in turn increased. In 2024, the Group will continue to invest in the improvement of production facilities to enhance water efficiency and reduce water waste, targeting at reducing the water consumption density year-on-year.
- Total energy consumption increased by 5.0% year-on-year in 2023, mainly due to the high degree of automation and high electrical power of the production equipment of the Xiantao new production base, the high hygiene standards requirement of the production facilities and the stringent design requirements for the dormitory environment, resulting in the longer operating time of air conditioners and the increase in power consumption. Besides, the adjustment of the product portfolio of the Luohe production base and the optimization and adjustment of the production process requires suspension of production and renovation of the facilities which increased electricity consumption. In addition, as the cleansing of the cleaning in place system (CIP) equipment of the Xiantao new production base required the use of natural gas and certain loss of natural gas during pipeline transportation, resulting in the significant increase in the natural gas during the commissioning of the gas boiler, thus the increase in natural gas consumption. In 2024, the Group will target at reducing the energy consumption density year-on-year by improving the production process and equipment performance.

The Group will actively adopt the following measures to improve the efficiency of energy and water consumption in the future, including:

- (1) modifying the pipelines of the konjac product and the jelly facilities to share air compressors and coolers to reduce electricity consumption;
- (2) changing the steam shrinking label sleeving machine from steam generator to boiler pipe steam supply to reduce power consumption;
- (3) introducing photovoltaic power generation to certain production bases to reduce national grid power supply, thereby reducing electricity consumption;
- (4) formulating a maintenance plan for power equipment, and conducting three-level in-depth maintenance in summer to mitigate losses of caused by the overload of air compressors and coolers;
- (5) improving the steam generator used for heat shrink steam in milk tank equipment, which will greatly reduce steam consumption; and
- (6) connecting the water spray used on the filling process at the second floor of the facilities to the recycled water on the first floor to reduce water consumption.

5. Raw Material Consumption

In terms of raw material consumption, in order to reduce waste, the Group has adhered to the consumption standards on the consumption of packaging materials and raw materials for various production units and individual products. The Group carries out assessment on the relevant key performance indicators monthly and annually. There are reward and punishment systems based on the result of the assessment. Whether the material consumption exceeds the acceptable level will be directly linked to the salary of each employee. Such policy uses performance tools to guide employees in all positions to actively concern about material consumption and effectively reduce material discharge.

The Group's total consumption of packaging materials for finished products and the consumption per unit of production in 2022 were as follows:

Type of packaging materials	Volume of packaging materials		Unit of material consumption volume	Density of packaging materials		Density unit
	2023	2022		2023	2022	
Plastic	10,667.35	8,187.02	Tonne	0.12	0.09	Tonne/tonne of finished products
Paper	9,258.46	9,294.37	Tonne	0.10	0.10	Tonne/tonne of finished products

The analysis of raw material consumption in 2023 is as follows:

- Plastic consumption density increased by 33.3% compared to last year, mainly due to the increase in sales of pudding and rice wine products. Jelly, pudding and rice wine products are mostly packed in plastic bowls or cups, and plastic spoons are provided for the convenience of the consumers. The plastic consumption, as a result, has increased during the year. The Group will start from reducing packaging in 2024, so as to reduce the consumption density of the same products.
- Paper consumption density was roughly the same as last year. There was no significant decrease in overall use of carton boxes due to the addition of a number of different carton packaging specifications during the year. In 2024, the Group will continue to improve the packaging equipment and reduce the percentage of cartons wasted caused by errors of the packaging process.

The Group will actively adopt the following measures to reduce the consumption of packaging materials in the future, including:

- (1) improving the device of printing ribbon cartridge to reduce the usage of ribbon cartridge and reduce ribbon cartridge waste.
- (2) improving the existing packaging equipment and introduce new equipment to improve packaging efficiency and reduce consumption.

- (3) making improvement by changing from inkjet coding to laser printing for dates on packaging bags. Dates will appear clearer and will not fall off after such improvement, and ink consumables will be reduced; and
- (4) using laser coding as the coding method, therefore no consumables are required.

6. *Environment and Natural Resources*

The Group's business activities have had minimal impacts on the environment and natural resources as the Group promotes that the production process for each business section must be clean, which is in line with energy-saving and emission-reduction policies. Through continuous innovation of "green design" and "green products", the philosophy of environmental protection has been implemented on raw material procurement, production and sales of products. We also value the importance of environmental management. While safeguarding the interests, we can firmly establish a harmonious relationship with the natural environment, effectively implement the philosophy of sustainable development, and reduce the impact on the environment and natural resources.

7. *Climate Change*

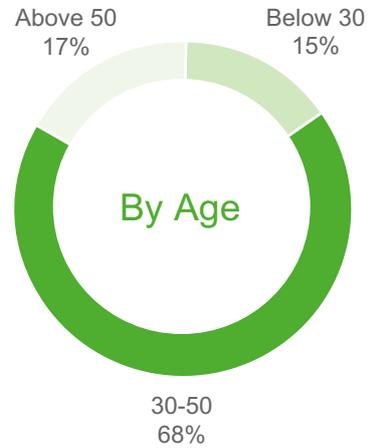

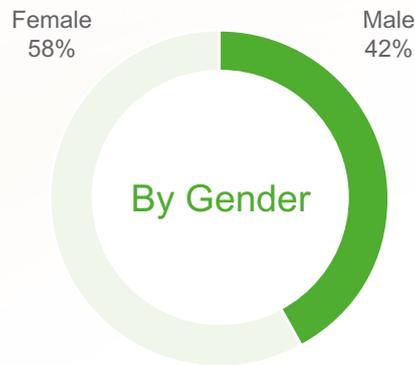

Rising global temperatures and changes in rainfall patterns, along with recurrent heatwaves and droughts, could cause adverse impact to crop health and productivity. The rising temperature will also affect the growth time of crops. Some of the Group's raw materials are natural agricultural products, of which the output is affected by the climate. Due to the increase in the average temperature of the farming areas, the output will decrease and may affect the price, which will be a burden in respect of the cost, sales and product development of the Group. Since the rise in temperature is mainly due to the emission of greenhouse gases, the Group will strive to look for environmentally friendly equipment and production procedures that reduce the greenhouse gas emissions in the future, so as to resolve the climate crisis.

Society

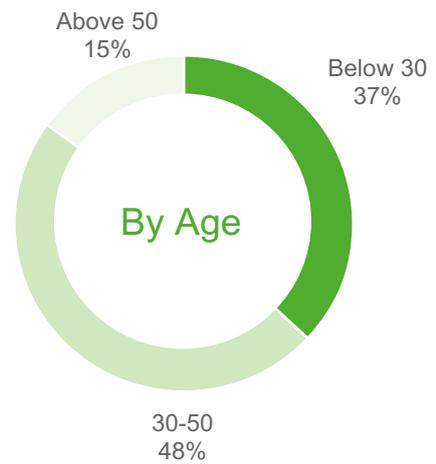

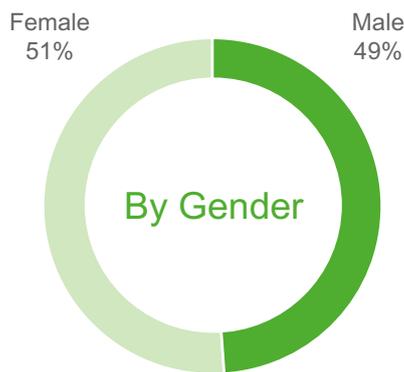

1. *Employment*

In accordance with the requirements under the laws and regulations as stated in the "Labour Law of the People's Republic of China" and the "Labour Contract Law of the People's Republic of China", the Group complies with and constantly optimises its personnel management system, establishes an effective employee protection mechanism to protect the legitimate rights and interests of employees and proactively strive for harmonious labour relations. The Group has formulated the "Personnel Management System of Qinqin". The Group hires employees with different nationalities, genders, ages and religious beliefs, and is always upholding the principles of fairness, impartiality and openness in service appointment. Thus, all of the Group's employees are entitled to equal opportunities and equivalent treatments. In accordance with the "Remuneration Management System of Qinqin", through the establishment of a remuneration management system that integrates position, performance and competence by the Group, the employees are encouraged to learn on their own initiative and to work hard, thereby enhancing their skills and overall quality.

At the end of the reporting period, the Group has 2,528 employees. The following figure sets forth the employee structure by gender and age group:

At the end of the reporting period, the employees' turnover rate was 61%. The following figures set forth the employee turnover by gender, age and rank group:

Staff includes office staff and administrative staff at all levels

(1) Fair Employment

The salary provided by the Group's to its staff members is not less than that stipulated by the local minimum wage law, while the overall salary has considered other attributes, including duties and responsibilities, capabilities, knowledge, and experience of the incumbent, and the corresponding standard pay scale for the specific post in the hierarchy ranking, that conforms with the appropriate pay range. Also, in assessing the overall salary, the Group will calibrate against the internal pay scale and performance of the respective incumbent, so that the salary package will represent a fair and justified reward to the staff that corresponds to his/her value returns to the Company. Besides salaries, the Group provides employees with various employees' benefits, including bonuses for performance, contribution, and other allowances such as high-temperature allowances (for working outdoor at high temperature), birthday cash gifts, wedding cash gifts, holiday benefits, reimbursement to cover travel expenses for visiting relatives for staff of management level, staff dormitories, and allowance for housing rentals outside working venues. In addition, pursuant to the terms of the share option scheme adopted by the Company, the Group can grant share options to eligible staff members.

In compliance with the relevant requirements under the "Labour Contract Law of the People's Republic of China", the Group will not dismiss employees without reasonable causes. The labour contracts contain provisions setting out the rights and obligations of the parties to protect the lawful rights and interests of workers and to build and develop harmonious and stable labour relations.

The Group upholds the principles of openness and fairness for recruitment in accordance with the relevant regulations. Various types of discrimination are prohibited. The recruitment process is solely based on the assessment of individual capabilities of candidates, regardless of race, colour, gender, age and religious beliefs. All employees and job applicants are entitled to equal opportunities and fair treatments. Apart from the Board, each department and position are staffed with employees of different genders. There are currently no female Directors on the Board. The Board will continue to take steps to identify suitable candidates and appoint at least one female Director to the Board no later than 31 December 2024. Such diversification in service appointment helps to enhance the strengths of the Group. It also attracts different talents with various skills. The Group treats every employee's contribution fairly.

(2) Working Hours and Holidays

The Group's working hour policies for its employees have been in strict compliance with the requirements under the "Labour Law of the People's Republic of China" and the "Labour Contract Law of the People's Republic of China", which ensure sufficient rest time and appropriate work-life balance for employees. On the New Year's Day, Spring Festival, Ching Ming Festival, International Labour Day, Dragon Boat Festival, Mid-Autumn Festival, National Day and other statutory holidays provided under the relevant laws and regulations, workers are allowed to take leave, aiming to increase their sense of wellbeing.

2. **Health and Safety**

The Group is committed to providing employees with a healthy, safe and comfortable working environment. In addition to national policies and regulations, the Group has formulated systems and regulations including the “Safety Management System of Qinqin” and “Safety Work Management Measures for the Production and Operation Department”, which ensure the health and safety of employees. The Group has also established production safety teams at various levels, and it has further provided basic management work and secured production safety. The Group regularly trains employees on safety production practices, purchases suitable protective devices and tools for employees, and posts safety warnings and signs at workplaces, with the aim to constantly reminding employees to be cautious of hidden dangers. Every year, the Group arranges medical examinations for employees in order to protect the health of each and every employee. In the past three years, the Group has not had any employee work-related death cases.

(1) **Production Safety**

The Group enhances the safety and precaution awareness and self-protection abilities of all staff through safety training, regularly distributes various labor-protection supplies according to the job needs of each post, as well as supervises and educates them on proper wearing and use of such supplies. The Group identifies responsible personnel for production safety in departments, implements safety education, training and publicity, and regularly arranges relevant personnel to conduct safety inspections in workplaces, so as to identify safety issues in time to eliminate hidden dangers, and also carries out fire drill trainings with the fire department on a regular basis. The Group installs dust and exhaust devices for facilities that generate dust and waste gas. For the equipment generating excessive noise, priority is first given to eliminating or reducing noise sources, then to control over the spread of noise, and last to wearing protective equipment. The Group is actively improving its production equipment and the working environment of its employees through lean production.

(2) **Occupational Safety**

The Group conducts occupational health examinations on frontline staff on a regular basis, offers check-ups once every year for staff above employee level, and creates occupational health management files, so as to protect their physical and psychological health, which enables them to pay attention to personal health during their work. The Group has been in strict compliance with the regulations of the “Law of the People’s Republic of China on the Prevention and Control of Occupational Diseases” and the “Measures for the Administration of Occupational Health Examination”, and regularly carries out pre-employment, on-job and pre-departure occupational health examination annually. The Group liaises with external medical resources to hold a series of activities, including health talks and free medical consultations, further enhancing employees’ occupational health awareness. The Group cares about the physical conditions and working environment of each employee and their daily activities in the Group.

(3) Hazard Identification and Control Measures

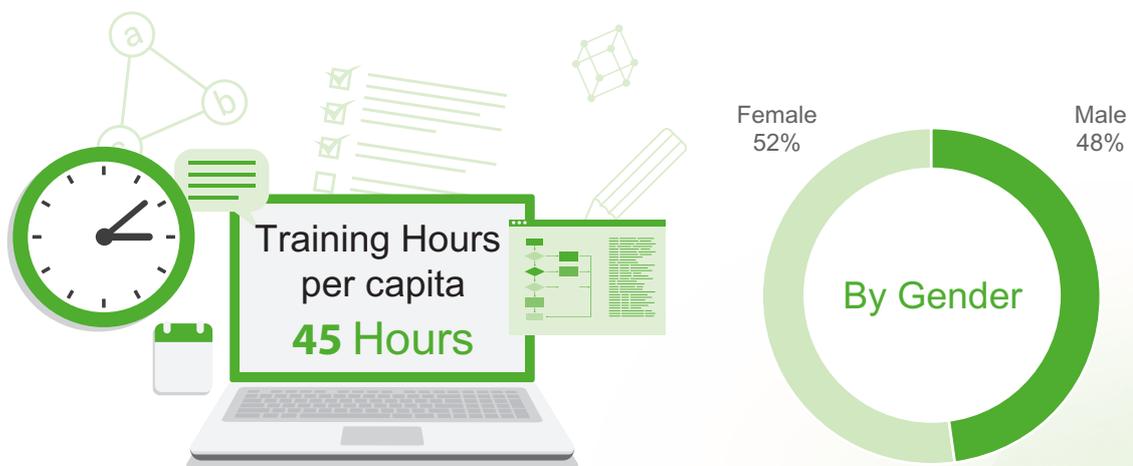

The Group identifies and evaluates the risk factors present in the existing workplaces, and it determines the necessary control measures to eliminate and reduce risks and to achieve system security. For potential emergencies (such as fires, flammable leaks, typhoons, accidental injuries), each of the production facilities has formulated the “Environmental Emergency Response Plan of Qinqin”, such plan details the possible and unpredictable environmental events and existing risks within the Group and the corresponding emergency plans and response control procedures in place and manages them according to emergency procedures.

3. Development and Training

The Group implements a “people-oriented” management philosophy and is committed to building a “ever-learning enterprise” which creates a strong learning atmosphere. The overall quality of its staff service is continuously enhanced. The Group has a consistent focus on employees’ personal and professional developments. Apart from expanding its business, the Group also provides training and promotion opportunities for employees who are passionate about their work. Under the “Training Management System of Qinqin” and “Internal Trainer Management System of Qinqin”, the Group has established a unique talent training system which has been implemented by the Group through coordination between various departments, leveraging external resources and internal teaching capabilities and using a variety of training methods.

The Group’s training, including new staffs orientation training, training for management trainees, management training, professional skill training, training for key positions, general manager academy and corporate culture training, is either conducted internally or outsourced. Launched in September 2023, the Group’s internal e-learning platform combined online and offline capabilities to produce a new corporate training paradigm and increase the effectiveness of corporate training overall. During the year, the Group organized special skills training and led various production bases across the nation to conduct key position training at each production base with 936 trainees, covering aspects such as marketing, production, and job functions. The Group also conducted online courses to working-level employees and those in higher positions, with a total of 7,000+ hours of learning on the online platform, continuing to provide talent support for the high-quality development of the Group’s companies.

The per capita training of the Group’s staffs in 2023 were as follows:

4. Employee Guidelines

In compliance with the requirements under the laws and regulations such as the “Labour Contract Law of the People’s Republic of China”, the Group prohibits child labour or forced labour. Pursuant to the “Personnel Management System of Qinqin”, in the recruitment and selection of talents, those under 16 years of age must not be recruited. In addition, a restriction is set out in the human resource information system of the Group that the information on person under 16 years of age cannot be entered. As such, there has been no forced labour for the Group. The Group adheres to the equal and voluntary principle, fully understands employees’ decisions and supports their development, and coordinates necessary procedures, e.g. personnel files and social security transfer for employees who voluntarily terminate their labour contracts. For employees who fail to fulfil their labour contractual obligations or fail to pass qualification assessment upon expiry of contract, the Group will terminate such labour contracts in accordance with relevant laws and regulations.

5. Supply Chain Management

For the production of food and snack products, the Group implements strict procedures for selecting suppliers, in order to ensure the quality of raw materials. The Group has developed the “Procurement Management System of Qinqin” and “Supplier Management and Evaluation Measures of Qinqin” to conduct assessment, selection, review and appraisal of its suppliers. Qualified suppliers, which have been confirmed by the review and appraisal results, shall have the proven ability to meet the Company’s requirements for the quality of materials to be procured. In addition, management and control are conducted over the procurement process to ensure that the materials procured meet the requirements for production technologies and product quality. Apart from the financial status, the Group shall consider the suppliers’ environmental, social and ethical morals while selecting suppliers or evaluating supplier relationships. Such investigations and assessments shall cover the basic situation, qualification certificate, technical competitiveness, production capacity, quality assurance system, after-sales service capacity and food safety control of the suppliers. The Group requires suppliers to possess business licenses and related food production licenses and to comply with laws and regulations.

The following is the number of suppliers of the Group divided by region:

6. **Product Responsibility**

The Group has been in strict compliance with a series of laws and regulations (including the “Food Safety Law of the People’s Republic of China”, the “Production Safety Law of the People’s Republic of China” and the “Law of the People’s Republic of China on the Protection of Consumers’ Rights and Interests”) related to areas such as production and operation, food packaging and food safety. The Group ensures the strict compliance with the laws and regulations in sections including food production and processing, product packaging and product transportation, thereby guarantees product quality.

(1) **Product Innovation**

The Group is committed to providing the consumer-centred services, that it will follow closely the current tidal trend in consumption upgrade and continuously apply innovative measures to improve product contents and product portfolio. Besides, the Group will adopt an innovative approach, to provide consumers with attentive and well-thought services, along with improving the products’ overall accessibility. Based on the product management center and product research and development (R&D) team, the Group has continuously invested in the research and development team and scale-up R&D efforts to research on new products, so as to meet the diverse needs of consumers. The Group actively participates in various technology sharing endeavours, that it has joined hands with the Sports Medicine Research Institute of the General Administration of Sport of China, among other research centres and professional institutes, including the Food Institute of Fujian Normal University, Fujian Agriculture and Forestry University, and Hubei University of Technology, among others. The Group also introduced the world- advanced level jelly production line from Japan and other global advanced production lines, so as to promote market competitiveness of new products with the application of top-notch techniques and technology. The innovative products launched by the Group covered several functional purposes including low salt, low sugar, meal replacement, high nutrition, and weight management. With such initiatives, the Group hope to promote healthy and nutritious eating habits.

(2) **Quality Control**

The Group’s quality management department is responsible for the development, management and supervision of the quality monitoring system and food safety management policy of the Group. The quality control teams continuously monitor the raw materials, ensuring that the quality and safety meet the specifications and quality requirements of the Group. The Group also adopts strict quality control measures for the production process to ensure consistent product quality and carries out inspection and tests in the whole production process. All products must be inspected at all stages of the production process, including later production inspection and final quality control before it is delivered for sale. The Group also works with certified third-party inspection companies to carry out product quality and food safety testing for the products of the Group. Furthermore, the Group continues to improve its internal management procedures by abiding to the latest developments in the relevant food safety laws and regulations.

The Group has been in strict compliance with the requirements of relevant laws and regulations, including the “Food Safety Law of the People’s Republic of China” and the “Law of the People’s Republic of China on the Protection of Consumers’ Rights and Interests”. The Group implements national food safety principles, as well as carries out quality control in several areas, such as the creation of an outstanding quality control team, establishment of a professional quality control system, improvement of the Group’s standard quality control system and the promotion of building of safety culture.

All of the Group's production facilities and production lines are designed in compliance with the PRC's national quality standards. All production bases have obtained international ISO9001, ISO22000 or FSSC22000 Quality, Food Safety Management System and SC Food Production License, while some production bases have obtained ISO14001 Environmental Management, ISO45001 occupational health and safety management, HALAL certification, GB/T33300 Integrity Management and HACCP (Hazard Analysis and Critical Control Point) Certification. The Group has achieved full coverage of system certification. Every year, the Group engages a third-party external certification body to conduct external assessment on the Group's corporate quality control system certification.

Dining counts most for people, of which food safety comes first. Therefore, food safety is of the utmost importance and the foundation of the development of Qinqin. The management of the Group plays a leading and influential role with the signing of the Food Safety Responsibility Commitment Letter annually, and actively carries out a number of food safety activities such as Quality and Safety Month, food-safety-themed activities, product quality evaluation and rating, and study sessions to strengthen food safety awareness among its overall staff members and further promote the food safety culture, thereby spreading the message of food safety to the rest of the community.

(3) Product Information

The Group has formulated the "Management Procedures for Design and Modification of Packaging and Samples Printing and the Label Review Management Rules" for standardising the product label review, which strengthens the label management and enhances the label compliance. The Group has established a cross-department label checking team, with members from the product management department, risk management department and quality management department, to review contents of labels, including product brand, advertising slogan, trademark, product ingredients and related food safety information, in accordance with the "Advertising Law of the People's Republic of China", the "Food Safety Law of the People's Republic of China", the "National Standard for Food Safety — General Code for Pre-packaged Food Labelling", the "National Standard for Food Safety — General Principles for Nutrition Labelling of Pre-packaged Food", as well as the relevant laws and regulations and food safety standards. The commencement of any packaging materials printing process is subject to the duly pass of the review assessment on label contents (or subsequent to the due rectification of any label error and re-assessment approval), to ensure product label compliance. The Group's product packaging, promotion materials, website, advertising video, among others, can only be launched into or released into the markets after the relevant approval from the group's legal department on intellectual property rights is obtained to ensure the legal compliance of the Group's products and marketing practices.

In 2022, the Group did not encounter any product recalls incident due to safety and health issues. The Group has set up a product tracking management system and manages information of all the process online through SAP system. It generates tracking management information from all aspects such as raw material arrival, production process and sales of products, to realize the directional tracking of products.

(4) Customer Complaints

The Group values every customer's complaint. The Group adopts an internal policy which promotes real-time response to product complaints. The Group has a dedicated customer service team and a customer service hotline to ensure prompt response to customers and consumers. The Group received a total of 214 complaints in 2022, with a resolution rate of 100%. Customer complaints are handled by the customer service staff of the sales management team, and the relevant departments in the Group's headquarter will be notified of in real-time to take remedial measures and to adopt appropriate preventive measure so as to avoid recurrence in the future.

As the foundation for its quality management in 2023, the Group has consistently upheld quality culture. To this end, it has encouraged the development of quality culture through a number of initiatives, including the quality activities associated with "315 International Consumer Rights Day", which have raised employee participation and awareness of quality standards. In order to achieve digitization and improve management and control of the quality process, the Group insisted on adopting new technologies, introduced new production lines, continuously upgraded and increased hardware investment, established automated high-standard production workshops, and introduced advanced digital information systems. The Group strictly abided by national laws and regulations, integrated the management system for the food industry, promoted quality standardization and full-process system control, and achieved quality targets through five lines of control, being product design, supplier protection, production control, product release and risk control.

The Group has product quality guidelines and policies to clarify quality objectives. Each department will plan a specific path towards the quality objectives, and then the quality management department will supervise the progress of achieving the objectives, analyzes, summarizes and immediately handles the situation of quality defects, as well as tracking the quality improvement verification. The Group has implemented the management measures such as "Administrative Measures for Food Recalls". It has established product recall procedures and set up a product recall team, in order to investigate and perform quality and safety checks for potential recall products. Once the Group confirms any recalled product, the Group shall immediately establish a recall-product committee, aiming to identify the batches of products to be recalled and promptly notify the relevant parties.

(5) Intellectual Property Protection

The Group greatly concerns with the protection and management of intellectual property rights, and strictly abides by laws and regulations, including the "Trademark Law of the People's Republic of China", the "Copyright Law of the People's Republic of China", and the "Patent Law of the People's Republic of China", among other laws and regulations.

As of 31 December 2022, the Group has secured 1079 trademarks, 261 patent rights, and 452 copyright registrations in mainland China. The Group's legal department is responsible for coordinating the daily intellectual property management within the Group. As such, the department carefully monitors the trademarks that are going through the preliminary examination in the Trademark Office, screens and follows up on the expiry of right of use of trademarks, performs checks for patents due for annual fee payments, and arranges for timely renewal and payment, so as to ensure continuous validity and functionality of the intellectual property rights applied by the Group. The Group engages professional lawyers to train and educate relevant internal staff on basic legal knowledge that includes intellectual property rights, product labelling, promotional advertising, among others, to increase their awareness to respect intellectual property rights, and to enhance the Group's overall compliance with intellectual property rights.

(6) Privacy protection

The Group attaches great importance to consumer information and privacy and strictly complies with the requirements of relevant laws and regulations including the “Law of the People’s Republic of China on the Protection of Consumers’ Rights and Interests”. The Group properly handles and keeps strict confidentiality of consumers’ personal information collected through sales channels. The “Personnel Management System of Qinqin” specifies that no employee shall disclose business information, production formula, technical data, documents and other trade secrets of the Company. For any employees whose deliberate disclosure of technical and business secrets of the Group which caused significant economic losses to the Group, their labour contracts with the Group will be terminated.

7. Business Integrity

The Group strictly complies with the requirements of relevant laws and regulations such as the “Interim Provisions on Banning Commercial Bribery” and “Anti-Unfair Competition Law of the People’s Republic of China”. In accordance with relevant laws and regulations and actual situations of the Company, the Group set up the “Whistleblowing System of Qinqin” and the “Management Measures for Litigation Cases of Qinqin”. The Group prohibits any corruption and bribery. Directors and employees must comply with corporate policies regarding the acceptance of benefits, and shall not seek personal gain in insider information in any circumstance. All persons involved in the selection of suppliers and contractors and procurement matters must avoid abuse of power or avoid any circumstances that prevent them from making independent decisions when purchasing goods and services. The Group has committed to the establishment of an anti-corruption and fraudulence mechanism, has “zero tolerance” on any violations of professional integrity and business ethics, and it has conducted special audits on areas where high risks of corruption and fraudulence exist.

The Group has established a whistleblowing system, internal audit department and market surveillance team, set up whistleblowing hotlines and CEO mailbox and promoting them to employees and business partners such as customers and suppliers/contractors, encourage employees, customers, suppliers etc. to report any corruption and fraudulent behaviors. The Group has established an internal audit department and market surveillance team, which enables independent investigations of reported matters. Such assisted the Group in identifying financial management loopholes, strengthening the financial management system, enhancing the financial management quality, enhancing self-discipline, self-improvement and disciplinary concepts of the leaders and promote honesty and integrity. The Group has also adopted necessary protective measures to avoid any relevant persons from being exposed to any form of harassment after reporting or cooperating in an investigation. Penalties will be imposed according to the severity of the verified violations of relevant regulations, until given relevant legal responsibilities.

8. Care for Society

The Group bears in mind its corporate social responsibility and mission. By proactively participating in social welfare undertakings and positively serving the community, the Group keeps paying back to society. While pursuing corporate growth, the Group also promotes social development and progress and fulfils its social responsibility as a corporate citizen through charitable donations, support for cultural undertakings, volunteer activities, and care for the elderly and children.

The Group has established almost 20 production companies and trading branches across Mainland China, solving the local unemployment problem. The Group also actively participates in public welfare and charity cause. Some of the events organized or participated in by the Group during the year are as follows:

- (1) In May 2023, on the occasion of Children's Day, the Group presented delicious snacks to Jinjiang No. 8 Experimental Primary School (晉江市第八實驗小學), Jinjiang Hualin Primary School (晉江華林小學), Jinjiang Linge Primary School (晉江林格小學), Jinjiang Qunfeng Primary School (晉江群峰小學), Jinjiang Chunyu Kindergarten (晉江春語幼兒園) and Jinjiang No. 8 Experimental Kindergarten (晉江市第八實驗幼兒園), and wished them a happy holiday and healthy growth.
- (2) In July 2023, as the typhoon approached, the Group donated wind prevention and control materials to the "Party Building+" Neighborhood Center of Jinjiang Economic Development Zone to provide material support and assistance.
- (3) In August 2023, Zhuozhou, Hebei Province was hit by a disaster. The Group responded immediately, organized staff to prepare emergency supplies such as bread, and moved and loaded the materials into trucks in the shortest possible time, providing assistance to Zhuozhou.
- (4) In October 2023, in order to inherit the traditional virtues of respecting, caring for and helping the elderly, the Group provided supplies for the elderly in the Lingshui Community Fifth Grid Service Center located on Lingyuan Street, Jinjiang (靈源街道靈水社區第五網格黨群服務站) during the Double Ninth Festival.
- (5) In December 2023, the Group donated goods for immediate earthquake relief and post-disaster restoration efforts to Gansu's disaster-stricken districts.

REPORT OF THE DIRECTORS

The directors (the “**Director(s)**”) of Qinqin Foodstuffs Group (Cayman) Company Limited (the “**Company**”) herein present their report together with the audited financial statements of the Company and its subsidiaries (collectively the “**Group**”) for the year ended 31 December 2023.

PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

The Company is an investment holding company. During the year, the Group is principally engaged in the manufacturing, distribution and sale of food and snack products in the People’s Republic of China (the “**PRC**”).

The principal activities of the Company’s subsidiaries are set out in note 35 to the consolidated financial statements in the annual report.

Further discussion and analysis of the Group’s principal activities as required by Schedule 5 to the Hong Kong Companies Ordinance, including a fair review of the Company’s business, a description of the principal risks and uncertainties facing the Group and an indication of likely future development in the Group’s business, can be found in the Management Discussion and Analysis set out on page 7 and 15 of this annual report. An analysis using financial key performance indicators can be found in “Financial Highlights” on page 3 of this annual report. The above discussion and highlight form part of this Directors’ report.

SHARE CAPITAL

Details of the movements in the share capital of the Company are set out in note 25 to the consolidated financial statements in the annual report.

PROPERTY, PLANT AND EQUIPMENT

Details of the movements in property, plant and equipment of the Group during the year are set out in note 13 to the consolidated financial statements.

FIVE-YEAR FINANCIAL SUMMARY

A five-year financial summary of the Group is set out on page 144.

DIRECTORS

The Directors of the Company during the year and up to the date of this report were:

Executive Directors

Mr. Hui Ching Lau (*Chairman*)
Mr. Wong Wai Leung (*Chief Financial Officer*)
Mr. Wu Wenxu (*Chief Executive Officer*)

Non-Executive Directors

Mr. Sze Man Bok
Mr. Wu Huolu
Mr. Wu Sichuan
Mr. Wu Yinhang

Independent Non-Executive Directors

Mr. Cai Meng
Mr. Chan Yiu Fai Youdey
Mr. Ng Swee Leng
Mr. Paul Marin Theil

Pursuant to the articles of association of the Company, all Directors appointed to fill a causal vacancy or as an addition to the Board shall hold office only until the first annual general meeting of the Company after his or her appointment and shall then be eligible for re-election at that meeting. In addition, at each annual general meeting one-third of the Directors for the time being shall retire from office by rotation provided that every Director shall be subject to retirement at an annual general meeting at least once every three years. Accordingly, Mr. Wu Wenxu, Mr. Wu Sichuan, Mr. Cai Meng and Mr. Ng Swee Leng shall retire by rotation at the 2024 AGM. Except Mr. Wu Sichuan, Mr. Cai Meng and Mr. Ng Swee Leng who do not offer themselves for re-election, the other retiring Director, namely Wu Wenxu, being eligible, will offer himself for re-election at the 2024 AGM.

DIRECTORS' SERVICE AGREEMENT

Each of the executive Directors has respectively entered into a service contract with the Company for a term expiring on 7 July 2025. The service contract may be terminated in accordance with the respective terms of the service contract.

Non-executive Directors have entered into service contract with the Company on 20 June 2016 (as amended and supplemented on 20 May 2022) with no specific term, but subject to retirement and re-election provisions set out in the articles of association of the Company, which may be terminated by not less than one month's notice in writing served by either party.

Independent non-executive Directors were appointed pursuant to the respective letters of appointment for a term of three years expiring on 7 July 2025, which may be terminated by not less than one month's notice in writing served by either party.

None of the Directors of the Company has entered or has proposed to enter into any service contract with the Company or any member of the Group other than contracts expiring or terminable by the Company within one year without payment of compensation, other than statutory compensation.

DIRECTORS' EMOLUMENTS

The Group has a Directors' Remuneration Policy in place to determine the remuneration packages of Directors and senior management. The remuneration committee has been charged with the responsibility of making recommendations to the Board on the appropriated policy and structures for all aspects of the Directors' and senior management's remuneration. The remuneration committee also considers factors such as salaries paid by comparable companies, time commitment and responsibilities of the Directors, employment conditions elsewhere in the Group and desirability of performance-based remuneration.

Executive Directors' and senior management's remuneration package comprises fixed and variable components and other benefits including performance based bonuses, allowances and share options. Non-executive Directors and Independent Non-executive Directors are entitled to receive directors' fee, but are not entitled to performance based remuneration and share options.

Details of the remuneration of the Directors are set out in note 37 to the consolidated financial statements. There has been no arrangement under which any Director has waived or agreed to waive any emoluments.

HUMAN RESOURCES AND MANAGEMENT

As at 31 December 2023, the Group had approximately 2,500 (2022: 2,600) employees. The Group aims to create a strong sense of community and a motivating environment for its employees to excel. The Group recruit employees based on a number of factors, including their educational background, work experience and vacancies within the Group. The Group determines employees' compensation based on their qualifications, work experience, position and performance. In addition to salaries, the Group provides a comprehensive range of staff benefits to its employees, including performance or contribution-based bonuses and allowances for meals and free dormitories. Besides, share options may be granted to eligible employees of the Group in accordance with the terms of the share option scheme adopted by the Company.

The Group also committed to continuing education and development of its employees, and the Group provides various education and training programs both internally and externally to cultivate its employees in improving their skills and developing their potential.

Remuneration of Directors and senior management of the Group is reviewed by the Company's remuneration committee against the Company's goals and objectives.

BIOGRAPHICAL DETAILS OF DIRECTORS AND SENIOR MANAGEMENT

The biographical details of Directors and senior management are set out on page 16 to 20.

DIRECTORS' INTERESTS IN TRANSACTIONS, ARRANGEMENTS OR CONTRACTS

Save as disclosed in note 34 to the consolidated financial statements, no transactions, arrangements or contracts of significance in relation to the Group's business to which the Company or any of its subsidiaries was a party and in which a Director of the Company or his connected entities had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the year.

MANAGEMENT CONTRACTS

No contract concerning the management and administration of the whole or any substantial part of the business of the Company has been entered into or existed during the year.

COMPETING BUSINESSES

As at 31 December 2023, none of the Directors had any interest in a business which competes or is likely to compete, either directly or indirectly, with the Group's businesses.

RELATED PARTY TRANSACTIONS

Details of the significant related party transactions undertaken in the normal course of business are provided under note 34 to the consolidated financial statements. None of them constitutes a disclosable transaction as defined under the Listing Rules.

DIRECTORS' INTERESTS IN SECURITIES

SHARE OPTION SCHEME

The Company has adopted a share option scheme (the “**Scheme**”) on 16 May 2017 which is valid and effective for a period of 10 years commencing on the date of adoption of the Scheme. Further details of the Scheme are disclosed in note 26 to the consolidated financial statements.

- (1) The terms of the Scheme are summarised as follows:
 - (i) **Purpose of the Scheme**

The purpose of the Scheme is to provide the participants with the opportunity to acquire proprietary interests in the Company, to encourage participants to work towards achieving performance targets in order to enhance the value of the Company and the Shares for the benefit of the Company and the Shareholders as a whole and at the same time allow participants to enjoy the results of the Company attained through their efforts and contribution, to retain participants who achieve such performance targets and attract human resources that are valuable to the Group. The Scheme will provide the Company with a flexible means of either retaining, incentivising, rewarding, remunerating, compensating and/or providing benefits to participants.
 - (ii) **Eligible Persons**

Participants of the Scheme comprise of directors (including executive Director(s), non-executive Directors and independent non-executive Directors), officers and employees of any member of the Group as determined by the Board from time to time. The Directors may, at their discretion, invite participants to participate in the Scheme. In determining the basis of eligibility of each participant, the Board would take into account such factors as the Board may at its discretion consider appropriate.
 - (iii) **Maximum Number of Shares Available for Issue**

The maximum number of shares available for issue after considering the options already granted under the Scheme as at the date of the annual report are 42,039,655, representing 5.6% of total issued shares of the Company as at the date of this annual report, which are not more than 10% of the issued share capital of the Company (i.e. 47,569,655 shares) as at the date of the approval of the Scheme.
 - (iv) **Maximum Entitlement of Each Participant**

Unless approved by Shareholders in the manner set out in this paragraph below, the total number of Shares issued and to be issued upon exercise of the options granted to each participant (including exercised, cancelled and outstanding Options, if any) in any 12-month period shall not exceed 1% of the Shares in issue. Any further grant of options to a participant which would result in the Shares issued and to be issued upon exercise of all options granted and to be granted to such participant (including exercised, cancelled and outstanding Options, if any) in the 12-month period up to and including the date of such further grant exceeding the said 1% limit shall be subject to Shareholders’ approval in advance with such participant and his close associates (or his associates if the participant is a connected person) abstaining from voting. A circular containing the information required under the Listing Rules must be sent to the Shareholders disclosing the identity of such participant and the number and terms of the options granted and to be granted.

Where any grant of Options to a substantial Shareholder or an independent non-Executive Director of the Company, or any of their respective associates, would result in the shares issued and to be issued upon exercise of all options already granted and to be granted (including options exercised, cancelled and outstanding, if any) to such person in the 12 month period up to and including the date of such grant:

- (a) representing in aggregate over 0.1% (or such other percentage as may from time to time be specified by the Stock Exchange) of the shares then in issue; and
- (b) having an aggregate value, based on the closing price of the shares as stated in the daily quotations sheets issued by the Stock Exchange on the date of such grant, in excess of HK\$5 million (or such other amount as may from time to time be specified by the Stock Exchange),

such further grant of options shall be subject to prior approval by the Shareholders. The proposed grantee, his associates and all core connected persons (as such terms are defined in the Listing Rules) of the Company shall abstain from voting at such general meeting, except that such grantee, his associates or all core connected persons may vote against the relevant resolution at the general meeting provided that his intention to do so has been stated in the circular to be sent to the Shareholders in connection therewith.

- (v) **Time on Exercise of Options**
An option may be exercised in accordance with the terms of the Scheme and the offer of the grant of an option at any time commencing on the date of grant and expiring on such date as determined by the Board provided that the option may not be exercised after the expiration of 10 years from the date of grant.
- (vi) **Acceptance of Offer**
An offer for the grant of options must be accepted for a period of 10 business days from the offer date and must be accompanied by payment of HK\$1.00.
- (vii) **Subscription Prices**
The subscription price for the shares shall be such price determined by the Board at its absolute discretion and notified to the Participant in the offer of option and shall be no less than the higher of:
 - (a) the closing price of the shares as stated in the daily quotations sheet issued by the Stock Exchange on the date of grant;
 - (b) the average closing price of the shares as stated in the daily quotations sheets issued by the Stock Exchange for the five business days immediately preceding the date of grant; and
 - (c) the nominal value of a share on the date of grant.
- (viii) **Remaining Life of the Scheme**

The Scheme will remain in force before 16 May 2027.

The Company should comply with the new requirements under the amended Chapter 17 of the Listing Rules in respect of the matters of share options.

REPORT OF THE DIRECTORS

- (2) The table below sets out movements in the share options granted under the Scheme during the year ended 31 December 2023:

Eligible person	Number of share options				Balance as at 31/12/2023	Exercise price per share HK\$	Date of grant (DD/MM/YYYY)	Exercisable period (DD/MM/YYYY)
	Balance as at 1/1/2023	Granted during the year	Exercised during the year	Cancelled or lapsed during the year				
Directors								
Mr. Wong Wai Leung	60,000	-	-	(60,000)	-	2.31	16/08/2018	17/08/2020-16/08/2023

	120,000	-	-	-	120,000	2.19	23/08/2021	24/08/2024-23/08/2025

Eligible person	Number of share options					Exercise price per share HK\$	Date of grant (DD/MM/YYYY)	Exercisable period (DD/MM/YYYY)
	Balance as at 1/1/2023	Granted during the year	Exercised during the year	Cancelled or lapsed during the year	Balance as at 31/12/2023			
Other employees	2,485,000	-	-	(2,485,000)	-	2.31	16/08/2018	17/08/2020- 16/08/2023
	2,485,000	-	-	(2,485,000)	-	2.31	16/08/2018	17/08/2021- 16/08/2023
	2,796,000	-	-	(2,796,000)	-	2.19	23/08/2021	24/08/2022- 23/08/2023
	2,796,000	-	-	(498,000)	2,298,000	2.19	23/08/2021	24/08/2023- 23/08/2024
	3,728,000	-	-	(664,000)	3,064,000	2.19	23/08/2021	24/08/2024- 23/08/2025
	14,930,000	-	-	(9,274,000)	5,656,000			

Notes:

1. The vesting period of the share options is from the date of grant until the commencement of exercise period.
2. The closing price of the Shares immediately before the date on which the share options being granted on 16 August 2018 and 23 August 2021 was HK\$2.29 and HK\$2.19 respectively.
3. During the year, no options were cancelled under the Scheme.

The Company used the Binomial Model for assessing the fair value of the share option granted. The following assumptions were used to calculate the fair values of the share options:

	Date of Grant			
	16 August 2018	23 August 2021		
Grant date share price	HK\$2.29		HK\$2.19	
Exercise price	HK\$2.31		HK\$2.19	
Expected life	5 years	2 years	3 years	4 years
Expected volatility (note a)	34%	41%	39%	37%
Risk-free rate (note b)	2.06%	0.18%	0.29%	0.45%
Dividend yield (note c)	1.91%	0%	0%	0%

Notes:

- (a) Expected volatility is estimated with reference to the historical share price of the Company and a set of comparable companies.
- (b) Risk-free rate is determined with reference to the yield of Hong Kong Exchange Fund Notes.
- (c) Dividend yield is estimated by reference to the historical share price and dividend paid of the Company and a set of comparable companies.

According to the Binomial Model, the fair value of the option granted, which had been charged to the consolidated income statement for the year ended 31 December 2023, amounted to approximately RMB627,000 and the remaining unamortised fair value of approximately RMB371,000 will be charged to the consolidated income statement in future.

It should be noted that the value of an option varies with different variables of certain subjective assumptions, any change in variables so adopted may materially affect the fair value estimate.

- (3) The table below sets out the additional information in respect of the Scheme during the year ended 31 December 2023:

Number of options available for grant as at 1 January 2023	Number of options available for grant as at 31 December 2023	Number of outstanding options divided by weighted average number of Shares in issue as at 31 December 2023
32,639,655	41,913,655	0.75%

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED ISSUERS

The Company has adopted the Model Code as set out in Appendix C3 of the Listing Rules for securities transactions by the Directors. Having made specific enquiries with all the Directors, they have confirmed compliance with the required standard as set out in the Model Code throughout the year ended 31 December 2023.

INDEPENDENCE OF INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has received from each of the Independent Non-executive Directors an annual confirmation of his independence pursuant to Rule 3.13 of the Listing Rules. The Board has assessed the independence of all the Independent Non-executive Directors and is satisfied of their independence.

AUDIT COMMITTEE

The audit committee, which comprises four Independent Non-executive Directors of the Company, has reviewed with the management in conjunction with the auditor, the accounting principles and practices adopted by the Group and discussed the internal control and financial reporting matters including the review of audited consolidated financial statements of the Group for the year ended 31 December 2023.

MAJOR CUSTOMERS AND SUPPLIERS

The Group's customers primarily comprise of distributors, direct key accounts and other retailers and the Group mainly sell its products to a broad network of distributors. The Group has maintained well-established relationships with its distributors and leverages the strength of their distribution channels to efficiently distribute products and reach consumers in different regions of China.

The Group selects its suppliers based on price, product quality, safety and market reputation and typically collaborate with reliable and reputable suppliers of raw materials. The Group has had stable relationships with many of its suppliers of raw materials, and the Group generally has various sources of supply for each type of raw material to reduce the reliance on a single supplier and to make reference to prevailing market prices for the same raw material.

The percentages of purchases and sales for the year ended 31 December 2023 contributed by the Group's major suppliers and customers are as follows:

Purchases	
– the largest supplier	3.6%
– five largest suppliers combined	12.7%
Sales	
– the largest customer	4.2%
– five largest customers combined	7.8%

None of Directors, their close associates or substantial shareholders (which to the knowledge of the Directors own more than 5% of the Company's issued share capital) were interested, at any time during the year, in the Group's five largest customers or suppliers.

SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and within the knowledge of the Directors, the Company has maintained a sufficient public float during the year ended 31 December 2023 under the Listing Rules.

PERMITTED INDEMNITY PROVISIONS

According to the articles of association of the Company, every director of the Company shall be entitled to be indemnified out of assets of the Company against all losses or liabilities incurred or sustained by him as a director in defending any proceedings, whether civil or criminal, in which judgement is given in his favour, or in which he is acquitted.

Save as disclosed herein, at no time during the financial year and up to the date of this Directors' Report, there was or is, any permitted indemnity provision being in force for the benefit of any of the Directors of the Company (whether made by the Company or otherwise) or an associated company (if made by the Company).

PRE-EMPTIVE RIGHTS

There are no provision for pre-emptive rights under the Company's articles of association, or the laws of Cayman Islands which would oblige the Company to offer new shares on a pro rata basis to existing shareholders.

AUDITOR

PricewaterhouseCoopers, the former auditor of the Company, resigned as the auditor of the Company on 17 June 2022 and Baker Tilly Hong Kong Limited was appointed by the Board on the same date as auditor to fill the casual vacancy.

The financial statements for the year ended 31 December 2023 have been audited by Baker Tilly Hong Kong Limited who shall hold office until the conclusion of the forthcoming annual general meeting of the Company. A resolution will be proposed at the forthcoming annual general meeting for reappointment of Baker Tilly Hong Kong Limited as auditor of the Company.

RAISING OF FUNDS AND USE OF PROCEEDS

The Company did not have any unutilised proceeds from fund raising activities brought forward from previous financial years and did not have any fund raising activity during the year ended 31 December 2023 and up to the date of this report.

PURCHASE, REDEMPTION OR SALE OF LISTED SECURITIES

Neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities during the year ended 31 December 2023.

SIGNIFICANT EVENT AFTER THE REPORTING PERIOD

There was no significant event of the Group occurred after the reporting period.

CORPORATE GOVERNANCE

Details of the Company's corporate governance practices are set out in the Corporate Governance Report of this annual report.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE

Details of the Company's environmental, social and governance practices are set out in the Environmental, Social and Governance Report of this annual report.

COMPLIANCE WITH THE RELEVANT LAWS AND REGULATIONS

During the year, the Group was not aware of material non-compliance with the relevant laws and regulations that have a significant impact on the business and operations of the Group.

On behalf of the Board

Qinqin Foodstuffs Group (Cayman) Company Limited

Hui Ching Lau

Chairman

Hong Kong, 15 March 2024

**Independent auditor's report to the shareholders of
Qinqin Foodstuffs Group (Cayman) Company Limited**

(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Qinqin Foodstuffs Group (Cayman) Company Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 74 to 143, which comprise the consolidated balance sheet as at 31 December 2023, and the consolidated income statement, the consolidated statement of other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2023, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTER

Key audit matter is the matter that, in our professional judgement, was of most significance in our audit of the consolidated financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Key Audit Matter

How our audit addressed the Key Audit Matter

Revenue recognition – sales of goods

During the year ended 31 December 2023, the Group recognised revenue from sales of goods amounting to RMB981.6 million.

Revenue is recognised when the Group satisfies a performance obligation by transferring the control of promised good or service to a customer in an amount that reflects the consideration to which the Group expects to be entitled in exchange for that good or service.

We focused on this area due to the large volume of revenue transactions generated from sales of numerous kinds of products to a large number of customers, including direct customers and distributors in many different locations.

We understood, evaluated and validated management's controls in respect of the Group's sales transactions. In addition, we tested the general control environment of the Group's information technology systems and the automated controls that were related to revenue recording.

We conducted testing of revenue transactions on a sample basis by examining the relevant supporting documents including customer contracts and orders, sales invoices and goods delivery notes. In addition, we circulated confirmations on a sample basis on trade receivables balances as at the balance sheet date.

Furthermore, we tested sales transactions that took place shortly before and after the balance sheet date, by reconciling recognised revenue with the goods delivery notes, to assess whether revenue was recognised in the correct reporting periods.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS AND AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement director on the audit resulting in this independent auditor's report is Chan Kwan Ho, Edmond.

Cash generated from operations	31(a)	31,852	245,100
Interest paid		(9,356)	(2,614)
Income tax paid		(3,803)	(3,351)
Net cash generated from operating activities		18,693	239,135
Cash flows used in investing activities			
Settlement of bank deposits with original maturity over 3 months		150,674	48,980
Interest received		14,907	10,617
Proceeds from disposal of property, plant and equipment	31(b)	2,770	1,253
Placement of bank deposits with original maturity over 3 months		(155,764)	(66,596)
Purchase of property, plant and equipment, including additions of construction-in-progress		(107,410)	(326,439)
Withdrawal of restricted bank deposits		15,512	6,606
Payments for investment in an associate	18	—	(1,000)
Proceeds from disposal of financial assets at fair value through profit or loss	23	24,660	8,000
Deregistration of a subsidiary		(509)	—
Purchase of intangible assets	16	(22)	(5)
Net cash used in investing activities		(55,182)	(318,584)
Cash flows generated from financing activities			
Proceeds from borrowings	31(c)	121,676	228,017
Repayment of borrowings	31(c)	(57,399)	(97,364)
Net cash generated from financing activities		64,277	130,653
Net increase in cash and cash equivalents			
Cash and cash equivalents at beginning of the year		442,641	391,190
Effect of foreign exchange rate changes in cash and cash equivalents		1,238	247
Cash and cash equivalents at end of the year	24	471,667	442,641

The notes on pages 80 to 143 are an integral part of these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

1 GENERAL INFORMATION

Qinqin Foodstuffs Group (Cayman) Company Limited (the “**Company**”) was incorporated in the Cayman Islands on 14 January 2016 as an exempted company with limited liability under the Companies Act of the Cayman Islands. The address of the Company’s registered office is Maples Corporate Services Limited, PO Box 309, Uglund House, Grand Cayman, KY1-1104, Cayman Islands. The address of the Company’s principal business place is Unit 2601, 26th Floor, Admiralty Centre, Tower 1, 18 Harcourt Road, Admiralty, Hong Kong.

The Company is an investment holding company and its subsidiaries (together, the “**Group**”) are principally engaged in the manufacturing, distribution and sale of food and snack products in the People’s Republic of China (the “**PRC**”).

The Company’s shares have been listed on the Main Board of The Stock Exchange of Hong Kong Limited since 8 July 2016.

The ultimate holding company of the Company is Sure Wonder Limited, a company incorporated in the British Virgin Islands (“**BVI**”), which is wholly owned by Mr. Hui Ching Lau. The ultimate controlling party of the Group is Mr. Hui Ching Lau.

These consolidated financial statements are presented in Renminbi (“**RMB**”), which is also the functional currency of the Company.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(1) Basis of preparation

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“**HKFRS**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”). In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“**Listing Rules**”) and by the disclosure requirements of the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared under the historical cost convention, except for certain financial assets measured at fair value.

The preparation of consolidated financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(2) Changes in accounting policies

(i) *New and amended standards adopted by the Group*

The Group has applied the following new and amended standards for the first time for their annual reporting period commencing 1 January 2023:

Amendments to HKAS 1 and HKFRS Practice Statement 2	Disclosure of Accounting Policies
Amendments to HKAS 8	Definition of Accounting Estimates
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction
Amendments to HKAS 12	International Tax Reform — Pillar Two Model Rules
HKFRS 17 (including the October 2020 and February 2022 Amendments to HKFRS 17)	Insurance Contracts

Except as described below, the application of the new and amendments to HKFRSs in the current year has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Amendments to HKAS 1 and HKFRS Practice Statement 2 — Disclosure of accounting policies

The amendments require entities to disclose material accounting policy information and provide guidance on applying the concept of materiality to accounting policy disclosure. The Group has revisited the accounting policy information it has been disclosing and considered it is consistent with the amendments.

Amendments to HKAS 8 — Definition of accounting estimates

The amendments provide further guidance on the distinction between changes in accounting policies and changes in accounting estimates. The amendments do not have a material impact on these financial statements as the Group's approach in distinguishing changes in accounting policies and changes in accounting estimates is consistent with the amendments.

Amendments to HKAS 12 — Deferred tax related to assets and liabilities arising from a single transaction

The amendments narrow the scope of the initial recognition exemption such that it does not apply to transactions that give rise to equal and offsetting temporary differences on initial recognition such as leases and decommissioning liabilities. For leases and decommissioning liabilities, the associated deferred tax assets and liabilities are required to be recognised from the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to retained earnings or other components of equity at that date. For all other transactions, the amendments are applied to those transactions that occur after the beginning of the earliest period presented.

Prior to the amendments, the Group did not apply the initial recognition exemption to lease transactions and had recognised the related deferred tax, except that the Group previously determined the temporary difference arising from a right-of-use asset and the related lease liability on a net basis on the basis they arise from a single transaction. Following the amendments, the Group has determined the temporary differences in relation to right-of-use assets and lease liabilities separately. The change primarily impacts disclosures of components of deferred tax assets and liabilities in note 30, but does not impact the overall deferred tax balances presented in the consolidated balance sheet as the related deferred tax balances qualify for offsetting under HKAS 12.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(2) Changes in accounting policies (Continued)

(ii) **New HKICPA guidance on the accounting implications of the abolition of the MPF-LSP offsetting mechanism**

In June 2022 the Hong Kong SAR Government (the “**Government**”) gazette the Hong Kong Employment and Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 (the “**Amendment Ordinance**”), which will come into effect from 1 May 2025 (the “**Transition Date**”). Once the Amendment Ordinance takes effect, an employer can no longer use any of the accrued benefits derived from its mandatory contributions to mandatory provident fund (“**MPF**”) scheme to reduce the long service payment (“**LSP**”) in respect of an employee’s service from the Transition Date (the abolition of the “offsetting mechanism”). In addition, the LSP in respect of the service before the Transition Date will be calculated based on the employee’s monthly salary immediately before the Transition Date and the years of service up to that date.

In July 2023, the HKICPA published “Accounting implications of the abolition of the MPF-LSP offsetting mechanism in Hong Kong” that provides accounting guidance relating to the offsetting mechanism and the abolition of the mechanism.

The abolition of the offsetting mechanism did not have a material impact on the Group’s results and financial position.

(iii) **New standards and interpretations not yet adopted**

The following amendments to standards and interpretations relevant to the Group have been issued but are not effective for the financial year beginning on 1 January 2023 and have not been early adopted by the Group:

Standards		Effective for annual periods beginning on or after
Amendments to HKAS 1	Classification of Liabilities as Current or Non-current [#]	1 January 2024
Amendments to HKAS 1	Non-current Liabilities with Covenants [#]	1 January 2024
Amendments to HKAS 21	Lack of Exchangeability	1 January 2025
Amendments to HKFRS 16	Lease Liability in a Sale and Leaseback	1 January 2024
Hong Kong Interpretation 5 (Revised)	Presentation of Financial Statements — Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause	1 January 2024
Amendments to HKAS 7 and HKFRS 7	Supplier Finance Arrangements	1 January 2024
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined

[#] Both amendments are to be applied as a package.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(2) Changes in accounting policies *(Continued)*

(iii) New standards and interpretations not yet adopted (Continued)

The Group has already commenced an assessment of the impact of these new or revised standards and amendments. According to the preliminary assessment made by the Group, no significant impact on the financial performance and position of the Group is expected when they become effective.

The material accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(3) Subsidiaries

(i) Consolidation

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated income statement, consolidated statement of comprehensive income, consolidated balance sheet and statement of changes in equity respectively.

(ii) Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost also includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(4) Associates

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates are recognised as a reduction in the carrying amount of the investment.

Where the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity-accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity-accounted investments is tested for impairment in accordance with the policy described in Note 2(11).

When the Group ceases to equity account for an investment because of a loss of significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. The fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as a financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

(5) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Board of Directors of the Company, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as being the chief operating decision maker who makes strategic decisions.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(6) Foreign currency translation

(i) *Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "**functional currency**"). The consolidated financial statements are presented in RMB, which is the Company's and its subsidiaries' functional currency and the Group's presentation currency.

(ii) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year-end exchange rates are recognised in the consolidated income statement.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the consolidated income statement within "finance income" and "finance costs", where applicable. All other foreign exchange gains and losses are presented in the consolidated income statement within "other income and other (losses)/ gains — net".

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equities classified as fair value through other comprehensive income are recognised in other comprehensive income.

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet
- Income and expenses for each income statement and statement of comprehensive income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- All resulting exchange differences are recognised in other comprehensive income

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(6) Foreign currency translation *(Continued)*

(ii) Transactions and balances *(Continued)*

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

(7) Property, plant and equipment

Buildings comprise mainly factories, warehouses and offices. All property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Construction-in-progress represents buildings, plant and equipment under construction or pending installation and is stated at cost less accumulated impairment losses. Cost includes the costs of construction and acquisition. No provision for depreciation is made on construction-in-progress until such time as the relevant assets are completed and ready for intended use. When the assets concerned are brought into use, the costs are transferred to property, plant and equipment and depreciated in accordance with the policy as stated below.

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Buildings	20 years
Machinery	10-20 years
Office equipment, furniture and fixtures	5 years
Motor vehicles	5 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognised within "other income and other (losses)/gains — net" in the consolidated income statement.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(8) Land use rights

Land use rights are stated at cost less accumulated amortisation and accumulated impairment losses, if any. Cost represents consideration paid for the rights to use the land on which various plants and buildings are situated for periods of the lease. Amortisation of land use rights is calculated on a straight-line basis over the period of the leases.

(9) Leases

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the lessee under residual value guarantees
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(9) Leases (Continued)

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third party financing, and
- makes adjustments specific to the lease, eg term, country, currency and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

Leases for which the Group is a lessor are classified as operating leases. Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease.

(10) Intangible assets — Computer softwares

Computer softwares represent purchased softwares initially recognised at historical cost and are amortised over their estimated useful lives (10 years).

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(11) Impairment of investments in subsidiaries and non-financial assets

Intangible assets that have an indefinite useful life or intangible assets not ready to use are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows, i.e. the cash-generating units ("CGUs"). Non-financial assets that suffered an impairment are reviewed for possible reversal of an impairment at the end of each reporting period.

Impairment testing of the investments in subsidiaries is required upon receiving dividends from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

(12) Financial assets

(i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income ("OCI") or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income ("FVOCI").

The Group reclassifies debt instruments when and only when its business model for managing those assets changes.

(ii) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on the trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(12) Financial assets *(Continued)*

(iii) **Measurement**

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (“**FVPL**”), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Group’s business model for managing the asset and the cash flow characteristics of the asset.

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other income and other (losses)/gains-net together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the consolidated income statement.

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group’s management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Group’s right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in other income and other (losses)/gains-net in the consolidated income statement as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iv) **Impairment**

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables (see Note 3(1)(ii)(b) for further details).

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(13) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the consolidated balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

(14) Inventories

Raw materials, work in progress and finished goods are stated at the lower of cost and net realisable value. Cost comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventory excludes borrowing costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(15) Trade and other receivables

Trade receivables are amounts due from customers for goods sold in the ordinary course of business.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method. See Note 3(1)(ii)(b) for the description of the Group's impairment policies.

If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

(16) Cash and cash equivalents

In the consolidated statement of cash flow, cash and cash equivalents include cash on hand, deposits held at call with financial institutions and other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value.

(17) Share capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(18) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(19) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the consolidated balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income and other gains-net or finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(20) Borrowing costs

All borrowing costs are expensed in the period in which they are incurred.

(21) Current and deferred income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

(i) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the jurisdictions where the Company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(21) Current and deferred income tax (Continued)

(ii) *Deferred income tax*

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred income tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

(iii) *Offsetting*

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and where the deferred income tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(22) Employee benefits

(i) *Short-term obligation*

Liabilities for wages and salaries, including non-monetary benefits and accumulating sick leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(22) Employee benefits *(Continued)*

(ii) Pension obligations

The employees of the Group in the PRC are covered by the government-sponsored defined contribution pension plan under which the retired employees are entitled to a monthly pension based on certain formulas. The relevant government agencies are responsible for the pension liability to these retired employees. The Group contributes on a monthly basis to the pension plan. Under the pension plan, the Group has no obligation for post-retirement benefits beyond the contributions made. The contributions are recognised as employee benefit expense when they are due.

The Group's subsidiary in Hong Kong operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for all of its employees. Under the MPF Scheme, the employer and its employees are each required to make contributions to the plan at 5% of the employees' relevant income, subject to a cap of monthly relevant income of HK\$30,000. The assets of the MPF Scheme are held separately from those of the subsidiary in an independently administered fund. The subsidiary's employer contributions vest fully with the employees when contributed into the MPF Scheme. There are no forfeited contributions to offset existing contributions under the MPF Scheme.

(iii) Housing funds, medical insurances and other social insurances

The employees of the Group in the PRC are entitled to participate in various government-supervised housing funds, medical insurance and other employee social insurance plans. The Group contributes on a monthly basis to these funds based on certain percentages of the salaries of the employees, subject to certain ceiling. The Group's liability in respect of these funds is limited to the contributions payable in each period, and recognised as employee benefit expense when they are due.

(iv) Share-based compensation

The Group operates an equity-settled share-based payment plan. The fair value of the employee services received in exchange for the grant of the options to purchase shares of the Company is recognised as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the options granted, excluding the impact of any non-market vesting conditions (e.g. profitability and sales growth targets).

Non-market vesting conditions are included in assumptions about the number of options that are expected to vest. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied.

At the end of each reporting period, the Group revises its estimates of the number of options that are expected to vest based on the non-marketing vesting conditions and service conditions. It recognises the impact of the revision to original estimates, if any, in the consolidated income statement, with a corresponding adjustment to equity.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(22) Employee benefits *(Continued)*

(iv) Share-based compensation (Continued)

When the options are exercised, the Company issues new shares. The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium account.

When the share options are lapsed or forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share-based payments reserve will continue to be held in share option reserve.

(23) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditure expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

(24) Revenue recognition

(i) Sale of goods

The Group manufactures, distributes and sells food and snack products. Revenue is recognised when control of the products has transferred, being when the products are delivered and the customers have inspected and accepted the products. Customers have full discretion over the channel and price to sell the products, and there is no more unfulfilled obligation that could affect the acceptance of the products. Delivery occurs when the products have been shipped to the specific location. The risks of obsolescence and loss have been transferred to the customers when either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.

The Group's products are often sold with retrospective volume discounts based on aggregate sales over a period of time. Revenue from these sales is recognised based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate and provide for the discounts, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. A refund liability (included in other payables and accrued charges) is recognised for expected volume discounts payable to customers in relation to sales made.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(24) Revenue recognition *(Continued)*

(i) *Sale of goods (Continued)*

Most of the sales were made with advance payment, and no element of financing is deemed present as the remaining sales are made with credit terms of 30 to 90 days, which is consistent with market practice.

A receivable is recognised when the goods are delivered and the customers has inspected and accepted the products as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(ii) *Interest income*

Interest income on financial assets at amortised cost calculated using the effective interest method is recognised in the consolidated income statement as part of other income and other (losses)/gains-net.

Interest income is presented as finance income where it is earned from financial assets that are held for cash management purposes.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

(25) Earnings per share

(i) *Basic earnings per share*

Basic earnings per share is calculated by dividing the profit attributable to equity shareholders of the Company, excluding any costs of servicing equity other than ordinary shares by the weighted average number of ordinary shares outstanding during the financial year.

(ii) *Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

(26) Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognised in the consolidated income statement over the period necessary to match them with the costs that they are intended to compensate.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(26) Government grants (Continued)

Government grants relating to assets are presented in the consolidated balance sheet by deducting the grant in arriving at the carrying amount of the asset and are recognised in the consolidated income statement on a straight-line basis over the life of a depreciable asset as a reduced depreciation expense.

(27) Dividend distribution

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

3 FINANCIAL RISK MANAGEMENT

(1) Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk and cash flow and fair value interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(i) Market risk

(a) Foreign exchange risk

The Group operates primarily in the PRC and the functional currency of majority of the companies in the Group is RMB. Foreign exchange risk arises mainly from future commercial transactions of sales and purchases with overseas customers and suppliers by the Group and recognised assets or liabilities, such as cash and cash equivalents, term deposits, restricted bank deposits, trade and other receivables and payables, and bank borrowings of the Group, which are denominated in Hong Kong Dollar ("**HKD**"), United States Dollar ("**USD**") and other currencies that are not the functional currency of the relevant companies in the Group.

As at 31 December 2023, if RMB had strengthened/weakened by 5% against the foreign currencies with all other variables unchanged, the Group's profit before income tax would have been RMB2,600,000 (2022: RMB532,000) lower/higher.

(b) Cash flow and fair value interest rate risk

Except for cash and cash equivalents and borrowings, the Group has no other significant interest-bearing assets and liabilities. The Group's income and operating cash flows are substantially independent of changes in market interest rates. Management does not anticipate significant impact on interest-bearing assets resulted from the changes in interest rates because the interest rates of bank deposits are not expected to change significantly.

The Group has not used any financial instruments to hedge its exposure to cash flow interest rate risk.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

3 FINANCIAL RISK MANAGEMENT (Continued)

(1) Financial risk factors (Continued)

(i) Market risk (Continued)

(b) Cash flow and fair value interest rate risk (Continued)

The Group is exposed to fair value interest rate risk in relation to restricted bank deposits, term deposits, fixed-rate bank borrowings and lease liabilities. The Group is also exposed to cash flow interest rate risk in relation to variable-rate bank balances and variable-rate bank borrowings. The Group cash flow interest rate risk is mainly concentrated on the fluctuation of interest rates on bank balances and Loan Prime Rate (“LPR”) arising from the Group’s RMB denominated borrowings.

(ii) Credit risk

Credit risk arises from bank balances, trade and other receivables, as well as credit exposures to customers, including outstanding receivables and committed transactions.

(a) Risk management

Credit risk is managed on a group basis. All bank balances were placed with or entered into with highly reputable and sizable banks and financial institutions without significant credit risk. Majority of the Group’s sales are settled in cash by its customers on or before delivery of goods. Credit sales are made only to selected customers with good credit history. The Group has policies in place to ensure that settlement of trade receivables are followed up on a timely basis.

The Group has no significant concentrations of credit risk. The carrying amounts of bank balances, trade receivables and other receivables included in the consolidated financial statements represent the Group’s maximum exposure to credit risk in relation to its financial assets.

The table below shows the bank balances with counterparties as at 31 December 2023 and 2022:

	2023 RMB’000	2022 RMB’000
Counterparties		
— Big 4 state-owned banks (Note)	58,462	72,667
— Other reputable and sizeable domestic commercial banks	389,919	362,075
— Highly reputable and sizeable foreign-owned banks	72,355	67,390
	520,736	502,132

Note: Big 4 domestic banks comprise Industrial and Commercial Bank of China Limited, Agricultural Bank of China Limited, Bank of China Limited and China Construction Bank Corporation.

3 FINANCIAL RISK MANAGEMENT (Continued)

(1) Financial risk factors (Continued)

(ii) Credit risk (Continued)

(b) Impairment of financial assets

The Group has two types of financial assets that are subject to the expected credit loss model:

- trade receivables for sales of goods, and
- other financial assets at amortised cost.

While cash and cash equivalents were also subject to the impairment requirements of HKFRS 9, no impairment loss was identified.

Trade receivables

The Group applied the HKFRS 9 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and aging periods.

The expected loss rates are based on the ageing profiles of trade receivables over a period of 36 months before 31 December 2023 and 31 December 2022 respectively. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

On that basis, the loss allowance as at 31 December 2023 and 31 December 2022 was determined as follows for trade receivables:

31 December 2023	Within 6 months	7 to 12 months	Over 12 months
Expected loss rate	0.01%	0.07%	N/A
31 December 2022	Within 6 months	7 to 12 months	Over 12 months
Expected loss rate	0.01%	0.07%	N/A

The closing loss allowances for trade receivables as at 31 December 2023 and 31 December 2022 reconcile to the opening loss allowances as follows:

	Trade receivables	
	2023	2022
	RMB'000	RMB'000
Opening loss allowance at 1 January	—	47
Unused amount reversed	—	(47)
Closing loss allowance at 31 December	—	—

Trade receivables are written off when there is no reasonable expectation of recovery.

Impairment losses on trade receivables are presented as net impairment losses within operating profit or loss. Subsequent recoveries of amounts previously written off are credited against the same line item.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

3 FINANCIAL RISK MANAGEMENT (Continued)

(1) Financial risk factors (Continued)

(ii) Credit risk (Continued)

(b) Impairment of financial assets (Continued)

Other financial assets at amortised cost

There is no loss allowance for other financial assets at amortised cost as at 31 December 2023 and 2022.

(iii) Liquidity risk

Cash flow is managed at Group level by head office finance department (“**Group Finance**”). Group Finance monitors the Group’s liquidity requirements to ensure that it has sufficient cash to meet operational needs at all times and does not breach borrowing limits or covenants on any of its borrowing facilities. Group Finance usually takes into consideration the Group’s debt financing plans, covenant compliance and compliance with internal balance sheet ratio targets.

Group Finance mainly invests surplus cash in time deposits, with appropriate maturities.

The table below analyses the Group’s non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

	Weighted average interest rates	Less than 1 year RMB'000	Between 1 and 2 years RMB'000	Between 2 and 5 years RMB'000	Over 5 years RMB'000	Total undiscounted cash flows RMB'000	Carrying amount RMB'000
At 31 December 2023							
Trade payables		125,859	—	—	—	125,859	125,859
Other payables (excluding non-financial liabilities)		148,526	—	—	—	148,526	148,526
Borrowings	3.03%	86,893	53,315	145,006	34,446	319,660	292,294
Lease liabilities	4.50%	—	—	4,392	4,392	8,784	7,169
		361,278	53,315	149,398	38,838	602,829	573,848
At 31 December 2022							
Trade payables		154,020	—	—	—	154,020	154,020
Other payables (excluding non-financial liabilities)		198,570	—	—	—	198,570	198,570
Borrowings	2.94%	52,226	64,989	107,303	21,950	246,468	228,017
Lease liabilities	4.50%	—	—	3,294	5,490	8,784	6,765
		404,816	64,989	110,597	27,440	607,842	587,372

3 FINANCIAL RISK MANAGEMENT *(Continued)*

(2) Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. The gearing ratio is calculated on the basis of the net borrowings as a percentage of the total shareholders' equity. As the Group was in net cash position as at 31 December 2023 and 2022, no gearing ratio was presented.

(3) Fair value estimation

The table below analyses financial instruments carried at fair value by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's financial assets that are measured at fair value at 31 December 2023:

	As at 31 December	
	2023	2022
	RMB'000	RMB'000
Financial assets		
Financial assets at FVPL		
— Level 3	2,000	34,448
Financial assets at FVOCI		
— Level 3	23,561	49,155
	25,561	83,603

During the years ended 31 December 2023 and 2022, there are no transfers among levels of the fair value hierarchy used in measuring the fair value of financial instruments, and also no changes in the classification of financial assets as a result of a change in the purpose or use of those assets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

3 FINANCIAL RISK MANAGEMENT (Continued)

(3) Fair value estimation (Continued)

The fair values of Level 3 financial assets are mainly derived from valuation technique using an unobservable range of data. In estimating the fair value of a financial asset under Level 3, the Group engages an external valuer or establishes appropriate valuation techniques internally to perform the valuations which are reviewed by management.

The following table provides further information regarding the valuation of material financial assets under Level 3.

	Fair value as at 31 December	2022	Valuation technique	Significant unobservable inputs	Input values	Sensitivity analysis
	2023 RMB'000	RMB'000				
Financial assets at FVPL						
— Unlisted investment fund units	—	32,448	Net asset value	Note 1	Note 1	Note 1
— Unlisted equity investment	2,000	2,000	Market approach	Enterprise value to sales ratio	3.05 (2022: 3.26)	An increase in enterprise value to sales ratio would result in an increase in the fair value
Financial assets at FVOCI						
— Unlisted equity investments	16,129	N/A	Discounted cashflow	Discount rate	13%	An increase in discount rate would result in a decrease in the fair value
	7,432	49,155	Market approach	Enterprise value to sales ratio	0.93 to 5.53 (2022: 2.20 to 6.35)	An increase in enterprise value to sales ratio would result in an increase in the fair value

Note 1: The significant unobservable inputs of the investments of the Group are the net asset value of the underlying investments made by the funds. The higher the net asset value of the underlying investments, the higher the fair value of the financial assets at FVPL will be. The Group has determined that the reported net asset values represent the fair values of the investments provided by the external counterparties.

3 FINANCIAL RISK MANAGEMENT (Continued)

(3) Fair value estimation (Continued)

The following table presents the changes in level 3 instruments for the year ended 31 December 2023:

	Year ended 31 December	
	2023 RMB'000	2022 RMB'000
Opening Balance	83,603	145,719
Transfers — FVOCI	16,129	—
Disposals — FVPL	(24,660)	(8,000)
Fair value changes — loss to profit and loss	(7,788)	(9,372)
Fair value changes — loss to other comprehensive income	(41,723)	(44,744)
Closing balance	25,561	83,603

Reconciliation of level 3 fair value measurements:

	Financial assets at FVPL RMB'000	Financial assets at FVOCI RMB'000
At 1 January 2022	43,820	93,899
Total fair value losses		
— in profit of loss	(9,372)	—
— in other comprehensive income	—	(44,744)
At 31 December 2022 and 1 January 2023	34,448	49,155
Total fair value losses		
— in profit of loss	(7,788)	—
— in other comprehensive income	—	(41,723)
Transfer	—	16,129
Disposals	(24,660)	—
At 31 December 2023	2,000	23,561

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS *(Continued)*

4.1 Critical accounting estimates

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

(1) *Useful lives of property, plant and equipment*

The Group's management determines the estimated useful lives and related depreciation charges for its property, plant and equipment. This estimate is based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. It could change significantly as a result of technical innovations and competitor actions in response to severe industry cycles. Management will increase the depreciation charge where useful lives are less than previously estimated lives, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned or sold.

(2) *Impairment of property, plant and equipment*

The Group reviews property, plant and equipment for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable, in accordance with the accounting policy stated in Note 2(11). The recoverable amount of a CGU has been determined based on higher of value-in-use and fair value less costs to sell.

The Group measured the value-in-use and fair value less costs to sell by discounting the future estimated cash flow deriving from the property, plant and equipment. These calculations required the Group to estimate the expected future cash flows from the CGUs and also to apply a suitable discount rate in order to calculate the present value of those cash flows.

(3) *Impairment of financial assets*

The expected credit loss allowances for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Details of the key assumptions and inputs used are disclosed in the tables in Note 3(1)(ii).

(4) *Estimation of the fair value of certain financial assets*

The fair value of financial instruments that are not traded in an active market, such as equity interest classified as FVOCI, equity interest classified as FVPL and investment in unlisted investment fund units are determined using valuation techniques. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS *(Continued)*

4.1 Critical accounting estimates *(Continued)*

(5) *Current tax and deferred tax*

The Group is subject to income taxes in the PRC and in Hong Kong. Significant judgement is required in determining the provision for income taxes. There may be some transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and provisions in the period in which such determination is made.

Deferred income tax assets and liabilities are determined using tax rates that are expected to apply when the related deferred income tax assets are realised or the deferred income tax liabilities are settled. The expected applicable tax rate is determined based on the enacted tax laws and regulations and the actual situation of the Group. The management of the Group will revise the expectation where the intending tax rate is different from the original expectation.

4.2 Critical accounting judgements

(1) *Significant influence over Huajia Food Technology (Shanghai) Co., Ltd. ("Huajia Food")*

As set out in note 18, the Group's 16.13% ownership interest Huajia Food was previously accounted for as investment in an associate until 18 December 2023.

Prior to 18 December 2023, the Group considered that it had the practical ability to exercise significant influence on Huajia Food even though it owned less than 20% of the ownership interest and voting control taking into account i) the Group's ownership interest was significant relative to other shareholders due to the wide dispersion of shareholding interests; ii) the representation or right to appoint/nominate 1 director out of 6 board seats on the board of directors of Huajia Food; and iii) the requirement for unanimous approval by the board of directors of Huajia Food for policy-making decisions, including dividends and other distribution.

On 18 December 2023, the Group entered into a supplementary agreement with Huajia Food and other shareholders of Huajia Food to amend the scope of authority of the board of directors of Huajia Food, pursuant to which all material operational and financial policies and decisions of Huajia Food require approval from two-thirds, instead of the whole, of the board of directors of Huajia Food. As such, the Group considered that it ceased to have significant influence over Huajia Food effective from 18 December 2023 as the Group only had the representation or right to appoint/nominate 1 director out of 6 board seats on the board of directors of Huajia Food and since then the Group's investment in Huajia Food has been accounted for as unlisted equity Investment at FVOCI (see note 19).

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS *(Continued)*

4.2 Critical accounting judgements *(Continued)*

(2) Classification between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

5 REVENUE AND SEGMENT INFORMATION

(1) Description of segments

The Board of Directors of the Company monitors the gross profit of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. For management purposes, the Group is organised into business units based on their products and has four reportable operating segments as follows:

- i. Jelly Products
- ii. Crackers and Chips
- iii. Seasoning Products
- iv. Confectionery and Other Products

5 REVENUE AND SEGMENT INFORMATION *(Continued)*

(2) Segments results

	Year ended 31 December 2023				Group RMB'000
	Jelly RMB'000	Crackers and chips RMB'000	Seasoning products RMB'000	Confectionery and other products RMB'000	
Revenue — recognised at a point in time					
Sales to external customers	567,185	274,205	78,859	61,325	981,574
Cost of goods sold	(411,338)	(204,321)	(53,876)	(53,180)	(722,715)

Income tax expense	(9,599)
Loss for the year	(1,768)

Other segment information is as follows:

Depreciation and amortisation charges					
Allocated	26,175	26,550	5,459	7,576	65,760
Unallocated					741
					66,501
Capital expenditures					
Allocated	202,466	34,868	26,288	10,980	274,602
Unallocated					44
					274,646

5 REVENUE AND SEGMENT INFORMATION (Continued)**(2) Segments results (Continued)****Geographical information**

Over 90% of the Group's revenue and operating profit were generated from the sales in the PRC and over 90% of the Group's non-current assets were located in the PRC, therefore no geographical information is presented in accordance with HKFRS 8 'Operating Segments'.

Major customers

None of the Group's sales to a single customer accounting to 10% or more of the Group's total revenue for both years, therefore no major customer information is presented in accordance with HKFRS 8 'Operating Segments'.

No analysis of the Group's assets and liabilities by operating segments is disclosed as it is not regularly provided to the Board of Directors of the Company for review.

(3) Liabilities related to contracts with customers

The Group has recognised the following liabilities related to contracts with customers:

	2023 RMB'000	2022 RMB'000
Contract liabilities — advances from customers	83,366	123,703

As at 1 January 2022, contract liabilities amounted to RMB133,646,000.

The following table shows how much of the revenue recognised in the current financial year that was related to carried-forward contract liabilities:

	2023 RMB'000	2022 RMB'000
Revenue recognised that was included in the contract liabilities balance at the beginning of the year		
Advances from customers	123,703	133,646

The Group elected to apply the practical expedient in HKFRS 15.121(a) and omitted the disclosure of remaining performance obligations as all related contracts have a duration of one year or less.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

6 EXPENSES BY NATURE

Expenses included in cost of goods sold, distribution cost and selling expenses and administrative expenses were analysed as follows:

	2023	2022
	RMB'000	RMB'000
Raw materials and consumables used	495,477	494,342
Changes in inventories of work-in-progress and finished goods	5,553	498
Employee benefit expense, including directors' emoluments (note 7)	208,977	214,029
Utilities and various office expenses	86,367	80,843
Transportation and packaging expenses	52,864	55,533
Depreciation of property, plant and equipment (note 13)	75,609	63,651
Travelling expenses	19,626	16,966
Marketing and advertising expenses	4,593	3,581
Research and development expenses	5,908	5,752
(Reversal of)/provision for decline in value of inventories (note 21)	(2,475)	2,570
Short-term lease expenses (note 15)	1,184	2,465
Amortisation of right-of-use assets (note 15)	2,461	2,427
Auditor's remuneration	1,200	1,200
Amortisation of intangible assets (note 16)	395	423
Others	25,458	28,218
Total cost of sales, distribution cost and selling expenses and administrative expenses	983,197	972,498

7 EMPLOYEE BENEFIT EXPENSE, INCLUDING DIRECTORS' EMOLUMENTS

	2023	2022
	RMB'000	RMB'000
Salaries and bonuses, housing allowances, other allowances and benefits in kind	179,497	190,185
Equity-settled share-based payment expense (note 26)	627	2,145
Pension, housing fund allowances, medical insurance and other social benefits	28,853	21,699
Total employee benefit expenses	208,977	214,029

7 EMPLOYEE BENEFIT EXPENSE, INCLUDING DIRECTORS' EMOLUMENTS (Continued)
Five highest paid individuals

The five individuals whose emoluments were the highest in the Group during the year included two (2022: two) directors, details of whose emoluments are reflected in the analysis presented in note 37. The emoluments payable to the remaining three (2022: three) individuals during the year were as follows:

	2023 RMB'000	2022 RMB'000
Basic salaries, housing allowances, other allowances and benefits in kind	835	861
Discretionary bonuses	249	313
Pension, housing fund allowances, medical insurance and other social benefits	23	30
Equity-settled share-based payment expense	10	35
	1,117	1,239

The emoluments fell within the following band:

	Numbers of the individual	
	2023	2022
Emolument band Within HKD1,000,000	3	3

8 OTHER INCOME AND OTHER (LOSSES)/GAINS — NET

	2023 RMB'000	2022 RMB'000
Government grants	9,046	19,604
Net fair value losses on financial assets at FVPL	(7,788)	(9,372)
Compensation payment from suppliers	1,032	2,288
Loss on deemed disposal of an associate (note 18)	(8,616)	—
Penalty income	704	813
Gains on write-off of payables	739	1,116
Gains/(losses) on disposal of property, plant and equipment — net	1,116	(1,316)
Operating lease income	3,875	4,331
Others	(1,250)	(579)
	(1,142)	16,885

Government grants received during the year primarily comprised financial subsidies received from various local government authorities in the PRC. There are no unfulfilled conditions or contingencies relating to these government grants.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

9 FINANCE INCOME AND FINANCE COSTS

	2023 RMB'000	2022 RMB'000
Finance income:		
Exchange gains	1,238	247
Interest income from bank deposits	14,907	10,617
	16,145	10,864
Finance costs:		
Interest expense for borrowings	(9,356)	(2,614)
Interest expense for lease liabilities	(260)	(292)
Other finance charges	(243)	(1,015)
	(9,859)	(3,921)
Finance income — net	6,286	6,943

10 INCOME TAX EXPENSE

Hong Kong Profits Tax has not been provided as the Group did not generate any assessable profits arising in Hong Kong during the year (2022: Nil). Taxes on profits assessable elsewhere have been calculated at the rates of tax prevailing in the jurisdictions in which the Group operates.

	2023 RMB'000	2022 RMB'000
Current income tax — PRC Enterprise Income Tax (“EIT”)	2,882	4,410
Deferred income tax, net (note 30)	1,926	5,189
Income tax expense	4,808	9,599

Under the Law of the PRC on EIT (the “EIT Law”) and Implementation Regulation of the EIT Law, the statutory income tax rate of the Company and its PRC subsidiaries is 25% for both years.

Deferred income tax is calculated on temporary differences under the liability method using the prevailing tax rates applicable to the PRC subsidiaries of the Group.

The profits of PRC subsidiaries of the Group derived since 1 January 2008 are subject to withholding tax at a rate of 5% upon the distribution of such profits to foreign investors in Hong Kong.

The Group is liable for withholding taxes on dividends distributed by those subsidiaries established in the PRC in respect of earnings generated from 1 January 2008. Deferred taxation has not been provided for in the consolidated financial statements in respect of temporary differences attributable to accumulated profits of the PRC subsidiaries amounting to RMB49,176,000 (2022: RMB46,857,000) as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future. As at 31 December 2023, deferred income tax liabilities of approximately RMB2,459,000 (2022: RMB2,343,000) have not been recognised for the withholding tax that would be payable on such unremitted earnings of those PRC subsidiaries.

10 INCOME TAX EXPENSE (Continued)

The tax on the Group's profit before income tax differs from the theoretical amount that would arise using the tax rates applicable to the profits of the Group's companies as follows:

	2023 RMB'000	2022 RMB'000
Profit before income tax	2,752	7,831
Tax calculated at tax rates applicable to profits of the Group's companies	1,513	189
Income not subject to tax	(1,912)	(2,504)
Tax effect of tax losses not recognised	4,929	11,758
Expenses not deductible	198	198
Others	80	(42)
Income tax expense	4,808	9,599

11 LOSS PER SHARE**(a) Basic**

Basic loss per share is calculated by dividing the loss attributable to equity shareholders of the Company by the weighted average number of ordinary shares in issue during the year.

	2023 RMB'000	2022 RMB'000
Loss attributable to equity shareholders of the Company (RMB'000)	(2,002)	(1,387)
Weighted average number of ordinary shares for the purpose of calculating basic loss per share	755,096,557	755,096,557
Basic loss per share	RMB(0.003)	RMB(0.002)

(b) Diluted

Diluted loss per share is the same as basic loss per share for the years ended 31 December 2023 and 2022, as the share options had no dilutive effect on ordinary shares for the year because the exercise price of the Company's share options was higher than the average market price of the Company's shares in the year.

12 DIVIDENDS

At a meeting of the Board of Directors held on 15 March 2024, the Board of Directors did not recommend any payment of dividend to shareholders for the year ended 31 December 2023 (2022: Nil).

Distribution and selling expenses	68	302
Administrative expenses	26,433	21,094
	75,609	63,651

As at 31 December 2023, certain land use rights (note 15) and buildings of the Group, with a total net book value of RMB586,050,000 (2022: RMB553,572,000), were pledged as security for borrowings amounting to RMB234,994,000 (2022: RMB177,300,000) of the Group as disclosed in note 29.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

13 PROPERTY, PLANT AND EQUIPMENT (Continued)

In previous years, the Group's subsidiary in Xiantao City, Hubei province, the PRC entered into an agreement with Xiantao Land Reserve Center of the People's Government of Xiantao City to sell the subsidiary's land use rights and the property and production plants attached thereon to the government for a total compensation consideration of RMB82,300,000, of which RMB17,514,000 is attributable to the land use rights and the remaining RMB64,786,000 is attributable to property and production plants. The property and plants subject to the disposal with carrying amounts totalled RMB29,928,000 as at the date of signing of the agreement. The Group had ceased depreciation given that its anticipated recoverable amount from the compensation consideration is larger than the carrying amounts.

14 CONSTRUCTION-IN-PROGRESS

	2023 RMB'000	2022 RMB'000
At 1 January	321,734	230,530

Within a period of more than five years	4,130	4,986
	7,169	6,765

15 LEASES (INCLUDING LAND USE RIGHTS) (Continued)

Movements of right-of-use assets during the year are analysed as follows:

	Buildings RMB'000	Land use rights RMB'000	Total RMB'000
At 1 January 2022	5,484	76,583	82,067
Amortisation charges (note 6)	(609)	(1,818)	(2,427)
At 31 December 2022 and 1 January 2023	4,875	74,765	79,640
Reassessment	144	—	144
Amortisation charges (note 6)	(656)	(1,805)	(2,461)
At 31 December 2023	4,363	72,960	77,323

Note: As at 31 December 2023, certain land use rights of the Group that are situated within the Jinjiang Industrial Zone, Fujian Province, the PRC, with carrying amount of approximately RMB6,040,000 (2022: RMB6,118,000) were still in the process of applying for the ownership certificates.

The total cash outflow for leases in 2023, not considering the receipt of government grant, was RMB1,184,000 (2022: RMB2,465,000).

The Group leases various offices and warehouses, and a production property. Rental contracts are typically made for fixed periods from 1 year to 10 years but may have extension options as described below.

Extension options are included in a number of office leases across the Group. In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option. Extension options are only included in the lease term if the lease is reasonably certain to be extended.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

16 INTANGIBLE ASSETS

	2023 RMB'000	2022 RMB'000
Computer softwares		
At 1 January		
Cost	3,615	3,610

The balance represented prepayments for purchase of property, plant and equipment and land use rights.

18 INVESTMENTS IN ASSOCIATES

	2023	2022
	RMB'000	RMB'000
At 1 January	35,917	37,032
Loss on deemed disposal of an associate	(8,616)	—
Share of results	(769)	(1,115)
Transfer to financial assets at FVOCI (note 19)	(16,129)	—
At 31 December	10,403	35,917

In July 2021, the Group invested RMB25,000,000 in Huajia Food for a 16.13% equity interest with one board seat in Huajia Food. Huajia Food was established on 21 April 2011 and is engaged in the business of the manufacture and sale of wheat extract and oatmeal.

Prior to 18 December 2023, the Group considered that it had the practical ability to exercise significant influence on Huajia Food even though it owned less than 20% of the ownership interest and voting control taking into account i) the Group's ownership interest was significant relative to other shareholders due to the wide dispersion of shareholding interests; ii) the representation or right to appoint/nominate 1 director out of 6 board seats on the board of directors of Huajia Food; and iii) the requirement for unanimous approval by the board of directors of Huajia Food for policy-making decisions, including dividends and other distribution.

On 18 December 2023, the Group entered into a supplementary agreement with Huajia Food and other shareholders of Huajia Food to amend the scope of authority of the board of directors of Huajia Food, pursuant to which all material operational and financial policies and decisions of Huajia Food require approval from two-thirds, instead of the whole, of the board of directors of Huajia Food. As such, the Group considered that it ceased to have significant influence over Huajia Food effective from 18 December 2023 as the Group only had the representation or right to appoint/nominate 1 director out of 6 board seats on the board of directors of Huajia Food and since then the Group's investment in Huajia Food has been accounted for as unlisted equity investment at FVOCI (see note 19). On loss of significant influence over Huajia Food, the Group made an irrevocable election to account for the interest in the entity as financial assets at FVOCI. The directors estimated the fair value of the Group's interest in Huajia Food on the date of transfer to financial assets at FVOCI, and a loss on deemed disposal of the associate of RMB8,616,000, being the difference between the carrying amount of entity and its fair value on that date, was recognised in profit or loss.

In September 2021, the Group invested RMB11,520,000 in Hangzhou Zhuanxiang Culture Communication Co., Ltd. (杭州磚巷文化傳播有限公司) ("**Hangzhou Zhuanxiang**") for a 30.00% equity interest in Hangzhou Zhuanxiang with one board seat. Hangzhou Zhuanxiang was established on 28 March 2016 and is in the business of the manufacture and sale of customised beer products.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

18 INVESTMENTS IN ASSOCIATES (Continued)

Set out below are the associates of the Group as at 31 December 2023 and 31 December 2022. In the opinion of the directors, the Group's associates are all individually immaterial to the Group.

Name of entity	Place of business and date of establishment	% of ownership interest		Nature of relationship	Principal activities	Carrying amount	
		2023 %	2022 %			2023 RMB'000	2022 RMB'000
Huajia Food	The PRC, 21 April 2011	N/A	16.13	Associate	Manufacture and sale of wheat extract and oatmeal	—	24,854
Hangzhou Zhuanxiang	The PRC, 28 March 2016	30.00	30.00	Associate	Manufacture and sale of customised beer products	10,403	11,063
Total						10,403	35,917

The associates are private companies and there are no quoted market price available for their shares.

There are no material contingent liabilities relating to the Group's interest in the associates.

19 FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

	2023 RMB'000	2022 RMB'000
Unlisted equity investments		
At 1 January	49,155	93,899
Transfer from investments in associates (note 18)	16,129	—
Fair value changes	(41,723)	(44,744)
At 31 December	23,561	49,155

As at 31 December 2023, the Group held equity investments in a number of consumer products companies and foodstuff and beverage manufacturing companies. The fair values of these investments, categorised in level 3 of the fair value hierarchy (note 3(3)), were determined mainly based on market approach by making reference to quoted market enterprise value to sales ratios.

On disposal of these equity investments, any related balance within the FVOCI reserve is reclassified to retained earnings.

As at 31 December 2023 and 2022, the Group intended to invest in these unlisted equity investments for long-term purposes and did not expect any immediate disposal of these unlisted equity investments in the short term. Accordingly, these unlisted equity investments are classified as non-current assets and designated at FVOCI.

20 FINANCIAL INSTRUMENTS BY CATEGORY

The Group holds the following financial instruments:

	Notes	2023 RMB'000	2022 RMB'000
Financial assets			
Financial assets at amortised cost			
— Trade receivables	22	6,216	3,088
— Other receivables, prepayments and deposits, excluding non-financial assets	22	386	372
— Cash and bank balances	24	520,736	502,132
FVPL	23	2,000	34,448

	22,169	28,310
Total	28,385	31,398

- (i) The Group's distribution and sale of self-manufactured products are subject to value added tax ("VAT") of 13% for both years. Input VAT from purchases of raw materials, certain property, plant and equipment and utilities can be deducted from output VAT. VAT recoverable is the net difference between deductible input and output VAT.

As at 1 January 2022, trade receivables from contracts with customers amounted to RMB5,153,000.

The credit period ranges from 30 to 90 days (2022: 30 to 90 days). The ageing analysis of trade receivables based on invoice date, before provision for impairment, as at 31 December 2023 was as follows:

	2023 RMB'000	2022 RMB'000
Within 30 days	4,505	1,212
31-180 days	1,526	1,876
181-365 days	185	—
	6,216	3,088

There is no significant concentration of credit risk with respect to trade receivables as the Group has a large number of customers.

As the credit terms are short and most of the trade receivables, other receivables, prepayments and deposits are due for settlement within one year, the carrying amount of the trade receivables, other receivables, prepayments and deposits approximate their fair value at the balance sheet date.

The maximum exposure to credit risk at the end of the reporting period is the carrying amounts of each class of receivables mentioned above. The Group does not hold any collateral as security.

22 TRADE RECEIVABLES, OTHER RECEIVABLES, PREPAYMENT AND DEPOSITS (Continued)

The carrying amounts of the Group's trade receivables are denominated in the following currencies:

	2023 RMB'000	2022 RMB'000
RMB	6,214	3,082
Other currencies	2	6
	6,216	3,088

23 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

	2023 RMB'000	2022 RMB'000
Unlisted investment fund units (note a)	—	32,448
Unlisted equity investment (note b)	2,000	2,000
	2,000	34,448

Notes:

- (a) The fair value of the investment was determined mainly based on statement of net value of the fund. In 2022, the fair value measurement was categorised within level 3 of the fair value hierarchy. The losses arising from changes in fair value in 2022 amounted to RMB9,372,000. The unlisted investment fund units were disposed of during the year ended 31 December 2023 for a consideration of RMB24,660,000.
- (b) The fair value of the unlisted equity investment was determined mainly based on market approach by making reference to quoted market enterprise value to sales ratios. The fair value measurement is categorised within level 3 of the fair value hierarchy.

24 CASH AND BANK BALANCES

	2023 RMB'000	2022 RMB'000
Cash and cash equivalents	471,667	442,641
Restricted bank deposits — current	—	15,512
Term deposits — current	49,069	43,979
Total	520,736	502,132

The cash and cash equivalents represented cash deposits held at banks and on hand and deposits with original maturity within three months.

The restricted bank deposits are deposits held at bank to secure bank facilities and borrowings of the Group.

The term deposits have original maturities over three months at inception.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

24 CASH AND BANK BALANCES (Continued)

The carrying amounts of the cash and bank balances were denominated in the following currencies:

	2023 RMB'000	2022 RMB'000
RMB	468,622	491,354
HKD	2,171	4,726
USD	49,943	5,528
Japanese Yen ("JPY")	—	524
Total	520,736	502,132

The Group's bank deposits and cash denominated in RMB included deposits with banks in the PRC. The conversion of these RMB denominated balances into foreign currencies and the remittance of funds out of the PRC are subject to the rules and regulations of foreign exchange control promulgated by the PRC government.

25 SHARE CAPITAL

	Number of shares	Share capital HK\$'000
Ordinary shares of HK\$0.01 each Authorised: At 1 January 2022, 31 December 2022, 1 January 2023 and 31 December 2023	1,000,000,000	10,000
	Number of shares	Share capital RMB'000
Issued and fully paid: At 1 January 2022, 31 December 2022, 1 January 2023 and 31 December 2023	755,096,557	6,433

26 SHARE OPTION SCHEME

The Company adopted a share option scheme on 16 May 2017 (the "Scheme").

On 6 June 2017, 9,630,000 share options ("Options") to subscribe for a total of 9,630,000 ordinary shares of the Company were granted to a director and certain employees of the Group pursuant to the Scheme. Out of the 9,630,000 Options, 9,480,000 Options were accepted by the grantees.

On 16 August 2018, 11,000,000 Options to subscribe for a total of 11,000,000 ordinary shares of the Company were granted to two directors and certain employees of the Group pursuant to the Scheme. All Options were accepted by the grantees.

On 23 August 2021, 12,950,000 Options to subscribe for a total of 12,950,000 ordinary shares of the Company were granted to two directors and certain employees of the Group pursuant to the Scheme. Out of the 12,950,000 Options, 12,720,000 Options were accepted by the grantees.

26 SHARE OPTION SCHEME (Continued)

Movements in the number of options outstanding and their exercise prices are as follows:

	Options granted on 6 June 2017 (exercise price HK\$2.56 per share)	Options granted on 16 August 2018 (exercise price HK\$2.31 per share)	Options granted on 23 August 2021 (exercise price HK\$2.19 per share)	Total number of options
At 1 January 2022	4,210,000	5,740,000	12,150,000	22,100,000
Cancelled/lapsed during the year	(4,210,000)	(550,000)	(2,410,000)	(7,170,000)
At 31 December 2022 and 1 January 2023	—	5,190,000	9,740,000	14,930,000
Cancelled/lapsed during the year	—	(5,190,000)	(4,084,000)	(9,274,000)
At 31 December 2023	—	—	5,656,000	5,656,000

Options outstanding at the end of the year have the following expiry dates and exercise prices:

Grant Date	Exercisable Date	Expiry date	Exercise price	Number of options	
				2023	2022
16 August 2018	17 August 2020	16 August 2023	HK\$2.31	—	2,595,000
16 August 2018	17 August 2021	16 August 2023	HK\$2.31	—	2,595,000
23 August 2021	24 August 2022	23 August 2023	HK\$2.19	—	2,922,000
23 August 2021	24 August 2023	23 August 2024	HK\$2.19	2,424,000	2,922,000
23 August 2021	24 August 2024	23 August 2025	HK\$2.19	3,232,000	3,896,000
Total				5,656,000	14,930,000

The total amount of the fair value of share options granted to Directors and selected employees is expensed over the vesting period. The equity-settled share-based payment expense for the year ended 31 December 2023 amounted to RMB627,000 (2022: RMB2,145,000), and the remaining unamortised fair value of share options granted of approximately RMB371,000 (2022: RMB1,591,000) will be charged to the consolidated income statement in the future.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

26 SHARE OPTION SCHEME (Continued)

The following assumptions were used to calculate the fair values of the Options by using Binomial Model:

	Options Granted on			
	16 August 2018	23 August 2021		
Grant date share price	HK\$2.29		HK\$2.19	
Exercise price	HK\$2.31		HK\$2.19	
Expected life	5 years	2 years	3 years	4 years
Expected volatility (note a)	34%	41%	39%	37%
Risk-free rate (note b)	2.06%	0.18%	0.29%	0.45%
Dividend yield (note c)	1.91%	0%	0%	0%

Notes:

- (a) Expected volatility is estimated with reference to the historical share price of the Company and a set of comparable companies.
- (b) Risk-free rate is determined with reference to the yield of Hong Kong Exchange Fund Notes.
- (c) Dividend yield is estimated by reference to the historical share price and dividend paid of the Company and a set of comparable companies.

The number of share options granted expected to vest has been reduced to reflect historical experience of forfeiture of options granted prior to completion of vesting period and accordingly the share option expense has been adjusted. At the end of the reporting period, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the original estimates, if any, is recognised in the profit and loss over the remaining vesting period, with a corresponding adjustment to the share option reserve.

27 OTHER RESERVES

	Share premium RMB'000	Other reserve RMB'000	Statutory reserves RMB'000	FVOCI reserve RMB'000	Exchange reserve RMB'000	Share option reserve RMB'000	Total RMB'000
At 1 January 2023	614,980	(115,044)	213,837	(893)	3,371	9,464	725,715
Appropriation to statutory reserves	—	—	3,588	—	—	—	3,588
Exchange differences	—	—	—	(81)	80	—	(1)
Fair value change of FVOCI	—	—	—	(31,421)	—	—	(31,421)
Equity-settled share-based payment expenses (note 26)	—	—	—	—	—	627	627
At 31 December 2023	614,980	(115,044)	217,425	(32,395)	3,451	10,091	698,508
At 1 January 2022	614,980	(115,044)	211,500	32,731	3,333	7,319	754,819
Appropriation to statutory reserves	—	—	2,337	—	—	—	2,337

Fair value change of FVOCI	—	—	—	(33,580)	—	—	(33,580)
Equity-settled share-based payment expenses (note 26)	—	—	—	—	—	2,145	2,145
At 31 December 2022	614,980	(115,044)	213,837	(893)	3,371	9,464	725,715

Statutory reserves comprise statutory surplus reserves of the subsidiary companies in the PRC. The Company's subsidiaries incorporated in the PRC are required to make appropriations to statutory reserves from their profit for the year after offsetting accumulated losses carried forward from prior years as determined under the accounting regulations and before distribution to shareholders. The percentages to be appropriated to such statutory reserve are determined according to the relevant regulations at rate of 10% or at the discretion of the Board of Directors of the subsidiaries, and further appropriation is optional when the accumulated fund is 50% or more of the registered capital of the subsidiaries.

The Group has elected to recognise changes in the fair value of certain investments in equity securities in OCI, as explained in note 2(12). These changes are accumulated within the FVOCI reserve within equity. The Group transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

28 TRADE PAYABLES, OTHER PAYABLES AND ACCRUED CHARGES

	2023 RMB'000	2022 RMB'000
Trade payables	125,859	154,020
Other payables and accrued charges		
Payables for purchase of property, plant and equipment	148,526	198,570
Accrued expenses and other payables	44,743	54,552
Staff salaries payables	47,900	44,712
Taxes payables	2,316	2,950
	243,485	300,784
Total	369,344	454,804

At 31 December 2023, the ageing analysis of trade payables based on invoice date was as follows:

	2023 RMB'000	2022 RMB'000
Within 30 days	125,747	133,889
31-180 days	50	10,107
181-365 days	24	3,484
Over 365 days	38	6,540
	125,859	154,020

The carrying amounts of trade payables and other payables approximate their fair value as at the balance sheet date due to short-term maturity.

The carrying amounts of trade payables were denominated in RMB.

29 BORROWINGS

	2023	2022
	RMB'000	RMB'000
Current		
Bank loans — unsecured	40,800	11,000
Bank loans — secured	37,666	35,200
	78,466	46,200
Non-current		
Bank loans — unsecured	16,500	39,717
Bank loans — secured	197,328	142,100
	213,828	181,817
Total borrowings	292,294	228,017

The maturity analysis of borrowings is as follows:

	2023	2022
	RMB'000	RMB'000
The carrying amounts of the above borrowings are repayable:		
— Within one year	78,466	46,200
— Within a period of more than one year but not exceeding two years	46,266	59,850
— Within a period of more than two years but not exceeding five years	134,042	100,258
— Within a period of more than five years	33,520	21,709
	292,294	228,017
Less: Amounts due within one year shown under current liabilities	(78,466)	(46,200)
Amounts shown under non-current liabilities	213,828	181,817

The secured borrowings of the Group as at 31 December 2023 were secured by the Group's land use rights (note 15), buildings (note 13) and restricted bank deposits (note 24).

For the year ended 31 December 2023, the weighted average effective interest rates on borrowings were 3.03% (2022: 2.94%).

The carrying amounts of borrowings are denominated in RMB.

The fair values of borrowings approximate their carrying amounts as of the balance sheet date, determined in accordance with generally accepted pricing models based on a discounted cash flow analysis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

29 BORROWINGS (Continued)

The exposure of borrowings is as follows:

	2023 RMB'000	2022 RMB'000
Fixed-rate borrowings	38,800	41,800
Variable-rate borrowings	253,494	186,217
	292,294	228,017

The Group's variable-rate borrowings carry interest ranging from LPR minus 100 basis points to LPR minus 30 basis points (2022: from LPR minus 100 basis points to LPR minus 15 basis points). Interest will be reset for periods not exceeding one year.

30 DEFERRED INCOME TAX

The analysis of deferred income tax assets and liabilities is as follows:

	2023 RMB'000	2022 RMB'000
Deferred income tax assets		
— Deferred income tax asset to be recovered after more than 12 months	2,641	1,715
— Deferred income tax asset to be recovered within 12 months	17,714	7,549
	20,355	9,264
Deferred income tax liabilities		
— Deferred income tax liability to be settled after more than 12 months	(7,154)	(6,593)
Net amount	13,201	2,671

The net movements on the deferred income tax account are as follows:

	2023 RMB'000	2022 RMB'000
At beginning of the year	2,671	(3,304)
Credited to other comprehensive income	12,456	11,164
Charged to consolidated income statement (note 10)	(1,926)	(5,189)
At end of the year	13,201	2,671

30 DEFERRED INCOME TAX (Continued)

The movements in the deferred income tax assets and liabilities during the year, without taking into consideration the offsetting of balances within the same tax jurisdiction, are as follows:

Deferred income tax assets:

	Accrued expense and provisions		Unrealised profit in inventories arising from intra-group transactions		Tax losses		Tax effect on fair value losses on financial assets at FVOCI		Temporary differences attributable to lease		Total	
	2023	2022	2023	2022	2023	2022	2023	2022	2023	2022	2023	2022
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
At beginning of the year	6,436	4,958	1,113	1,204	1,343	7,239	372	—	1,219	1,371	10,483	14,772
Credited to other comprehensive income	—	—	—	—	—	—	12,456	372	—	—	12,456	372
(Charged)/credited to consolidated income statement	(2,319)	1,478	(344)	(91)	1,298	(5,896)	—	—	(128)	(152)	(1,493)	(4,661)
At end of the year	4,117	6,436	769	1,113	2,641	1,343	12,828	372	1,091	1,219	21,446	10,483

Deferred income tax liabilities:

	Temporary differences attributable to property, plant and equipment and right-of-use assets		Temporary differences attributable to lease		Tax effects of fair value gains on financial assets at FVOCI		Total	
	2023	2022	2023	2022	2023	2022	2023	2022
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
At beginning of the year	6,593	5,913	1,219	1,371	—	10,792	7,812	18,076
Credited to other comprehensive income	—	—	—	—	—	(10,792)	—	(10,792)
Charged/(credited) to consolidated income statement	561	680	(128)	(152)	—	—	433	528
At end of the year	7,154	6,593	1,091	1,219	—	—	8,245	7,812

Deferred income tax assets are recognised for tax losses carried forward to the extent that realisation of the related tax benefit through the future taxable profits is probable. As at 31 December 2023, except for the tax losses amounting to RMB149,583,000 (2022: RMB160,192,000), which the Group did not recognise for deferred income tax assets, the Group recognised all others deferred income tax assets in respect of losses that can be carried forward against future taxable income. The unutilised tax losses as at year end date would expire in one to five years for offsetting against future taxable profits.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

31 NOTES TO THE CONSOLIDATED CASH FLOW STATEMENT

(a) Cash generated from operations

	2023 RMB'000	2022 RMB'000
Profit before income tax	2,752	7,831

32 CONTINGENT LIABILITIES

At 31 December 2023, the Group had no material contingent liabilities (2022: Nil).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

33 COMMITMENTS

As at 31 December 2023 and 2022, the Group had the following commitments:

(a) Capital commitments

Significant capital expenditure contracted for at the balance sheet date but not recognised as liabilities is as follows:

	2023 RMB'000	2022 RMB'000
Contracted but not provided for in respect of:		
Machinery and equipment	23,412	47,552
Buildings and land use rights	16,411	193,355
	39,823	240,907

(b) Other commitments

As at 31 December 2023 and 2022, the Group had future aggregate minimum payments under non-cancellable short-term leases of buildings and other non-cancellable contracts as follows:

	2023 RMB'000	2022 RMB'000
Not later than 1 year	2,084	2,070
Later than 1 year and not later than 5 years	—	1,641
	2,084	3,711

(c) The Group as lessor

The Group leases out a number of warehouses under operating leases. The leases typically run for an initial period of 2 to 3 years (2022: 2 to 3 years). None of the leases includes variable lease payments.

Undiscounted lease payments receivable on leases are as follows:

	2023 RMB'000	2022 RMB'000
Within one year	2,963	3,866
Within a period of more than one year but not exceeding two years	380	2,947
Within a period of more than two years but not exceeding five years	—	376
	3,343	7,189

34 RELATED PARTY TRANSACTIONS

The ultimate controlling party of the Group is Mr. Hui Ching Lau ("**Mr. Hui**"), who is also the Chairman of the Board. Parties are considered to be related if one party has the ability, directly or indirectly, control the other party or exercise significant influence over the other party in making financial and operational decisions. Parties are also considered to be related if they are subject to common control.

The following is a summary of the significant transactions carried out between the Group and its related parties during the years ended 31 December 2023 and 2022.

(a) Transactions with related parties

(i) Lease of offices

	2023 RMB'000	2022 RMB'000
— Lianjie Sports Investments Limited (" Lianjie Sports ")	432	411
— Lianjie Investments Group Limited (" Lianjie Investments ")	—	1,143
	432	1,554

Lianjie Sports is a company wholly owned by Mr. Hui.

Lianjie Investments is a company controlled by Mr. Hui and his associates.

(ii) Purchases of goods from:

	2023 RMB'000	2022 RMB'000
— Fujian Shuncheng Flour Industry Development Co., Ltd. (" Shuncheng Flour ")	106	—

Shuncheng Flour is a company controlled by two directors of the Company and their associates.

(b) Key management compensation

	2023 RMB'000	2022 RMB'000
Key management compensation		
— Basic salaries, housing allowances, other allowances and benefits-in-kind	4,234	4,249

Further details of directors' and the chief executive's emoluments are included in note 37.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023
