Launch Tech Company Limited (the “Company”), which was established in 1992, was listed in the Growth Enterprise Market of the Stock Exchange of Hong Kong (the “HKEX”) (stock code: 8196) in 2002 and was transferred to the Main Board of the HKEX (stock code: 2488) in 2011. The Company is one of China’s earliest high and new technology enterprises that started in the research, development and production of automotive diagnosis, testing, maintenance and tire equipment. Our designed and developed software products has made high achievements in technical research in automotive diagnosis fields. We have been committed to researching automotive technical research, providing customers with services related to automotive diagnosis software design, maintenance, update and after-sales support, and have always adhered to the spirit of professionalism and innovation. For years, based on automotive diagnostic technology and brand advantages, the company has been a pioneer in the industry. For years, with the technical and branch advantages in automotive diagnosis, the Company has been the pioneer in the industry of automotive diagnosis equipment.

The Company always insists on the principle of technical innovation and independent research and development, and currently owns the powerful research and large development team around the world. Besides the research centers established in Shenzhen, the Company has also set up research and development teams in the U.S., Germany, Japan, Korea and Latin America. After years of accumulation, the Company has had hundreds of patent technologies and obtained hundreds of honors issued by governmental authorities and authoritative industry journals in China, the U.S., Germany and Australia, etc.

In terms of automotive diagnosis businesses, the Company proposed the concept of “automotive aftermarket” in China as early as 1994, and developed product lines such as automotive diagnosis, inspection and maintenance and lifts on the basis of advanced automotive diagnosis and inspection technologies, developing special equipment for automotive maintenance and repair industry. Among others, the “Electronic Eye” has become a synonym for automotive diagnosis computer with “X431” representing the highest level in the diagnostic technologies of the industry.

In terms of Internet of Vehicles businesses, based on the accumulation of technologies for more than twenty years, the Company has developed Internet of Vehicles chipsets with proprietary intellectual property rights, launched a series of Internet of Vehicles intellectual hardware products with the global premium remote automotive diagnosis functions and become an enterprise with real Internet of Vehicles technologies. Launch cloud diagnosis eco-chain is leading the development of the Internet of Vehicles industry.

In the PRC market, the Company has dozens of branches and offices, and has developed hundreds of dealers and near a hundred authorized training centers. The Company has 4 overseas subsidiaries in America, Germany, Italy and Japan and also has over a hundred dealers throughout Europe, America, Australia and Asia.

Innovation lies in changes. Based on the corporate culture of “innovation, quality, efficiency, professionalism and competitiveness” and the people-oriented and constantly-innovating spirit, the Company is marching forward along the road of high technologies.

2023 REVIEW

In 2023, the domestic economy returned to a virtuous circle and industries in general staged a recovery, of which the sales volume of the automobile industry recorded a historical high, with cumulative production of 30.161 million vehicles and sales of 30.094 million vehicles, representing an increase of 12% year-on-year, respectively, driving the growth of the industry chain both upstream and downstream. Benefiting from this trend, the Group's performance was strong, of which the overseas channels and software products were particularly outstanding.

Financials

In 2023, the Group's operating revenue amounted to approximately RMB1,598 million, representing an increase of approximately 36% as compared to the same period last year, and net profit amounted to approximately RMB169 million, of which, net profit attributable to the parent company after investment income amounted to approximately RMB167 million, representing an increase of 265% as compared to the same period last year, reflecting a significant increase in profitability.

The Group's growth in business performance was mainly attributable to: (1) the full recovery of cross-border traffic flow and the strong growth in overseas business; (2) empowerment of the software business by the smart price algorithm, with online procurement of diagnostic software and orders for software upgrades exceeding expectations.

Management Discussion and Analysis

Since the recovery from the pandemic, the Group has increased its investment in overseas business by expanding its marketing team, organizing more than 30 exhibitions and more than 100 training sessions for distributors and end-users, and resuming the annual meeting of overseas distributors, which was not held for three years due to COVID-19, and all these efforts met with good results. We achieved the highest revenue in history in June, November and many other months. The overseas business realized revenue of RMB718.57 million for the full year, representing an increase of approximately 68% over last year, with double-digit revenue growth in many regions such as North America, Europe, Latin America and the Middle East.

The Group continued to enhance the level of intelligence of its software business by utilizing new technologies, such as AI and big data to accurately analyze customer data, deliver personalized service reminders and marketing information, and dynamically set prices based on intelligent algorithms, which led to growth in online revenues; at the same time, the Group has gradually separated the sales of diagnostic equipment and diagnostic software so that customers could choose to purchase diagnostic software and pay for software upgrades online, which has significantly increased the flexibility of customers and their willingness to make purchases. In 2023, the software business achieved another record high, with revenue reaching RMB126.79 million, representing an increase of 50% year-on-year.

Based on the Group's performance for the year, the Board recommended a final dividend of RMB0.24 per share.

Major Financial Data for the profit changes

| | <i>RMB million</i> |
|--|--------------------|
| a Profit after tax in 2023 | 169 |
| b Profit after tax in 2022 | 328 |
| c Deduct the special income from the disposal of a Shanghai subsidiary | (281) |
| d=b-c Deduct the profit from tax after the disposal of a Shanghai subsidiary in 2022 | 47 |
| e=a-d Increase in profit in 2023 | 122 |
| Mainly due to: | |
| Increase in gross profit | 253 |
| Increase in selling expenses | (93) |
| Increase in financial costs | (12) |
| Impairment on assets | (46) |
| Decrease in tax | 10 |
| Other | 10 |
| | <hr/> |
| Increase in profit in 2023 | 122 |
| | <hr/> |

Profit after tax for FY2023 was \$169 million; compared to profit of \$47 million in FY2022 after the profit impact of \$281 million from the disposal of the Shanghai subsidiary, an increase of \$122 million. Approximately \$10 million of this increase was due to the income tax effect of the disposal of Shanghai in 2022. The major changes were the significant increase in selling expenses and asset impairment due to the significant growth in turnover, and the slight increase in finance costs due to the impact of exchange rate fluctuations.

Total net cash inflow for the year was of RMB121,000,000 and the period ended balances of cash and cash equivalents was RMB620,000,000.

Capital Structure

The Company's capital structure consists of interests and liabilities attributable to shareholders during the reporting period. Total liabilities amounted to RMB780,000,000, interests attributable to shareholders amounted to RMB1,075,000,000. Total assets amounted to RMB1,855,000,000. As at the end of the period, the gearing ratio calculated by total liabilities divided by interests attributable to shareholders was 0.73 (2022: 0.85). The overall gearing ratio improved from last year, reaching a more favorable gearing ratio level.

Customers

Customers are the foundation of the Group's dominant position in the automotive diagnostic field, and all businesses of the Group are centered on "serving and pleasing customers". In 2023, the volume of customer data of the Group achieved a new high record in the industry and customer stickiness was further enhanced, enabling high growth on a high base. As at the end of 2023, the Group had cumulatively established connections with over 300 million vehicles through diagnostic equipment, with the number of active terminals exceeding 1.55 million, representing an increase of approximately 23% as compared to the end of 2022, and both the annual incremental volume and growth rate achieved new record highs; more than 0.80 million automotive diagnostic reports were generated on average daily, and the cumulative number of diagnostic reports in the history of the Group exceeded 1,300 million.

With "customer service" as the starting point, the Group has strengthened product innovation, optimized product structure and improved service quality. The latest questionnaire surveys showed that the Group's products and service were highly recognized by customers, with 90% of the respondents were satisfied with the software business.

Internal operations

The Group's intelligent marketing and digital operations are in good shape. In 2023, the conversion rate of online software sales has increased, with the number of customers who purchased software increasing by 106% year-on-year and the number of customers who paid for software upgrades increasing by 72% year-on-year, while paid devices reached nearly 40,000 sets during the year. The number of orders for remote diagnosis grew rapidly, with 730,000 orders issued during the year, representing an increase of 91% year-on-year; the number of registered users for the "inLaunch" APP and its related modules increased by 230,000, and the unit price per customer order rose to approximately RMB3,100 by the end of the year.

The Group's new energy vehicle service system is operated in cooperation with repair shops and covers the entire life cycle of new energy vehicles. The system not only provides services such as repair station construction and repair technical training, but also possesses the initial ability of the sale of complete vehicles. In 2023, the Group established cooperation with 4 vehicle manufacturers, with sales stretching over 6 provinces and cities, and more than 120 vehicles were delivered during the year.

Learning and Growth

In 2023, the Group's R&D investment as a percentage of current operating revenue continued to maintain at a high level of 11%. As of the end of 2023, the Group had 466 R&D personnel, accounting for half of the total number of employees.

Being an enterprise with intellectual property advantages in the country, the Group attaches great importance to the building of its intellectual property strengths, the Group was granted 177 state authorized patents for the year 2023 alone.

In response to the structural reform in the automobile industry, the Group has started to create three new growth engines, namely SDS, EVS and AAS this year, which would work coordinately to drive the enterprise into new areas of growth:

1. Smart Diagnosis Service (SDS): we will continue to promote remote diagnosis and smart diagnosis for the global automobile maintenance industry;
2. New Energy Vehicle Service System (EVS): we will establish the new energy vehicle sales and service system, LAUNCH EVS, with global business partners for the provision of technical training, equipment sales, and vehicle sales;
3. AI Auto Service (AAS): we will develop AutoGPT, empower automobile diagnosis with AI algorithms, and provide customers with intelligent interactive services to help mechanics and other related parties carry out automobile repairs, maintenance, transactions and knowledge enquiries swiftly and efficiently, to trigger a new round of technological innovation in the industry.

Outlook and future strategy

The automobile service market has a wide scope of development and strong profitability, with a market size of over RMB1 trillion in China alone and will continue to develop in tandem with the growth in the number of automobile ownership and vehicle age, and the increase in the proportion of expired insurance coverage of new energy vehicles. In the future, the Group will focus on SDS, EVS and AAS, and on the basis of maintaining its leading position in the industry with existing automotive diagnostic hardware products, the Group will gradually increase the proportion of revenue from software, services and data, with a view to becoming the No. 1 brand in the world of artificial-intelligence automotive services.

The Group will:

1. Increase the sales revenue of online products and services such as diagnostic software and remote diagnosis in the financial aspect;
2. Develop intelligent customers with the aim of pleasing customers and satisfying their needs in the customer aspect; consolidate the dominant domestic market and strengthen overseas business expansion, and establish overseas localization operation centers to serve local customers;
3. Continue to improve the level of intelligent marketing and digital operations, and to develop online value-added services in terms of internal operation; accelerate the rate of urban penetration of its sales and service system for new energy vehicles in China and make attempt to enter into business cooperation in some overseas countries and regions;
4. Improve the compensation performance system and enhance the training system in terms of learning and growth.

DIRECTORS

Executive Directors

Mr. Liu Xin, also known as **Louis Liu**, aged 55, executive director and chairman of the Company. Mr. Liu Chunming, aged 48, financial controller and company secretary of the Company. Mr. Liu is a qualified accountant and obtained a bachelor's degree (Honours) in accountancy from the City University of Hong Kong in 1997. He is a fellow member of the Association of Chartered Certified Accountants, and prior to joining the Company in 2002, he had worked in an international audit firm for few years.

COMPLIANCE OFFICER

Mr. Liu Xin, executive director, compliance officer and authorised representative of the Company. Mr. Liu advises on and assisting the Board in implementing procedures to ensure that the Company complies with the Listing Rules and other relevant laws and regulations applicable to the Company and responding efficiently to all inquiries directed to the Company by the Stock Exchange.

CORPORATE GOVERNANCE PRACTICE

The Group commits to maintaining and ensuring a high level of corporate governance standards and continuously reviews and improves our corporate governance and internal controls practices. Set out below are the principles of corporate governance as adopted by the Company during the reporting year.

DISTINCTIVE ROLE OF CHAIRMAN AND CHIEF EXECUTIVE OFFICER

The Chairman of the Board is responsible for leading the Board of Directors in establishing and monitoring the implementation of strategies and plans to create values for shareholders.

The Chief Executive Officer is responsible for managing the operation of the Group's businesses, proposing strategies to the Board and the effective implementation of the strategies and policies adopted by the Board.

THE BOARD

As of 31 December 2023, there were eight members on the Board, including the Chairman, Four Executive Directors, one Non-Executive Director ("NED") and three Independent Non-Executive Directors ("INEDs").

There is no financial business, family or other material relationship among the members of the Board.

The INEDs are considered by the Board to be independent of the management and free of any relationship that could materially interfere with the exercise of their independent judgments. The Board considered that each of the INEDs brings his own relevant expertise to the Board and its deliberations.

None of the INEDs has any business or financial interests with the Group nor has any relationship with other directors and confirmed their independences to the Group pursuant to Rule 3.13 of the Listing Rules.

The Board meets regularly to discuss and formulate the overall strategy as well as the operation and financial performance of the Group. Directors may participate either in person or through electronic means of communications.

The Board met regularly during the year and on ad hoc basis as required by business needs. The Board's primary purpose is to set and review the overall strategic development of the Group and to oversee the achievement of the plans to enhance shareholders' value. Daily operational decisions are delegated to the Executive Directors. The Board met a total of 16 times during the year. The NED and INEDs may take independent professional advice at the Company's expense in carrying out their functions.

The Company appointed each of the NEDs during the Annual General Meeting or by the Board for new appointment during the year. The term of each of these appointments shall be expired up to the forthcoming Annual General Meeting and can offer for re-election in the Annual General Meeting.

THE BOARD (Continued)

Responsibilities of the Board

The Board reviews the performance of the operating divisions with reference to their respective agreed budgets and business objectives on a regular basis and also exercises a number of reserved powers which include:

- convening shareholders’ meetings and reporting on their work at such meetings;
- implementing resolutions passed at shareholders’ meetings;
- formulating the Company’s business plans and investment proposals;
- preparing the Company’s annual financial budget and final accounts;
- formulating proposals for profit distribution and for setting off of accumulated losses of the Company;
- formulating proposals for increase or reduction in registered capital and the issuance of debt securities of the Company;
- formulating proposals for merger, demerger, or dissolution of the Company;
- formulating the internal management structure of the Company;
- appointing or dismissing the chief executive officer of the Company and appointing or dismissing the deputy general manager, financial controller and other senior management at the recommendation of the chief executive officer and determination of matters relating to their remuneration;
- formulating the basic management system of the Company;
- formulating proposals for amendments to the articles of association; and
- carrying out other powers conferred by shareholders’ meetings.

According to Code A.1.8 of the CG Code, the Company should arrange appropriate insurance cover in respect of legal action against its directors. The Company is negotiating with the relevant insurance agents about the liability insurance for the Directors and will arrange such insurance cover in due course.

All Directors are encouraged to participate in continuous professional development to develop and refresh their knowledge and skills. The Company has arranged in-house trainings for all Directors in the form of seminar and provision of training materials on corporate governance, regulatory development and other relevant topics.

DELEGATION BY THE BOARD

The management, consisting of Executive Directors along with other senior executives, is delegated with responsibilities for implementing the strategy and direction as adopted by the Board from time to time, and conducting the day-to-day operations of the Group. Executive Directors and senior executives meet regularly to review the performance of the businesses of the Group as a whole, co-ordinate overall resources and make financial and operational decisions. The Board also gives clear directions as to their powers of management including circumstances where management should report back, and will review the delegation arrangements on a periodic basis to ensure that they remain appropriate to the needs of the Group.

BOARD COMMITTEES

The Board has established three committees and has delegated various responsibilities to the committees including the audit committee (the “Audit Committee”), the remuneration committee (the “Remuneration Committee”) and the nomination committee (the “Nomination Committee”). All the Board Committees perform their distinct roles in accordance with their respective terms of reference which are available to shareholders on the Company’s website. The Board Committees are provided with sufficient resources to discharge their duties and, upon reasonable request, are able to seek independent professional advice in appropriate circumstances, at the Company’s expense.

AUDIT COMMITTEE

The Audit Committee was established by the Company, with written terms of reference in compliance with the requirements as set out in Appendix 14 of the Listing Rules. The principal duties of the committee are the review and supervision of the Company’s reporting process and internal control. The members of the Audit Committee are as follows:

| Name | Position in the Audit Committee | Position in the Board |
|-------------------|--|------------------------------------|
| Ms. Zhang Yanxiao | Chairman | Independent Non-executive Director |
| Mr. Bin Zhichao | member | Independent Non-executive Director |
| Ms. He Xujin | member | Independent Non-executive Director |

The Audit Committee is required to assist the Board to fulfill its responsibilities related to external financial reporting, associated announcements and system of internal control. During the year, the Audit Committee reviewed the interim and annual reports. Additional meetings may also be held by the Audit Committee from time to time to discuss special projects or other issues that the Audit Committee considered necessary.

The Audit Committee is also responsible for the development, implementation and monitoring of the Groups’ policy on external audit. The Audit Committee recommended the appointment and reappointment of the external auditors.

REMUNERATION COMMITTEE

The primary duties of the Remuneration Committee are, amongst other things, to review and determine the terms of remuneration packages, bonuses and other compensation payable to the Directors and senior management and to make recommendation to the Board on the Group's policy and structure for all remuneration of the Directors and senior management. The Remuneration Committee comprises one Executive Director, namely, Mr. Liu Xin and two independent non-executive Directors, namely Ms. He Xujin and Mr. Bin Zhicao. Ms. He Xujin has been appointed as the chairman of the Remuneration Committee. No meeting was held by the Remuneration Committee during the year ended 31 December 2022.

NOMINATION COMMITTEE

The principal duties of the Nomination Committee are to identify and nominate suitable candidates for the appointment of the Directors and make recommendations to the Board on succession planning for the Directors. The Nomination Committee comprises one Executive Director, namely, Mr. Liu Xin and two Independent Non-executive Directors, namely Ms. He Xujin and Mr. Bin Zhicao. Ms. He Xujin has been appointed as the chairman of the Nomination Committee. No meeting was held by the Nomination Committee during the year ended 31 December 2023.

FINANCIAL REPORTING AND INTERNAL CONTROL

Financial reporting

The Board, supported by the finance department, is responsible for the preparation of the financial statements of the Company and the Group. The Board aims to present a clear and balanced assessment of the Group's performance in the annual and interim reports to the shareholders, and make appropriate disclosure and announcements in a timely manner. Management would provide such explanation and information to the Board as will enable the Board to make an informal assessment of the financial and other information put before the Board for approval.

As at 31 December 2023, the Directors are not aware of any material uncertainties relating to events or conditions which may cast significant doubt upon the Company's ability to continue as a going concern. Accordingly, the Directors have prepared the financial statements of the Company on a going-concern basis.

The working scope and reporting responsibilities of Da Hua Certified Public Accountants (Special General Partnership), the Company's external auditor, are set out on the "Auditor's Report" in this annual report.

External auditor's remuneration

For the year ended 31 December 2023, the remunerations paid or payable to the external auditor in respect of its audit services and nonaudit services are approximately RMB1,000,000 and RMB1,000,000, respectively.

Internal control

The Board is responsible for the internal control of the Group and for reviewing its effectiveness. Procedures have been designed for safeguarding assets against unauthorized use or disposition, the maintenance of proper accounting records for the provision of reliable financial information for internal use or for publications and the compliance of applicable laws, rules and regulations.

The internal control are reviewed and assessed on an on-going basis by the Executive Directors, and will be further reviewed and assessed at least once each year by the Board.

COMPANY SECRETARY AND SHAREHOLDERS' RIGHTS

Company Secretary

All Directors have access to the services of the company secretary who regularly updates the Board on governance and regulatory matters. Any Director, who wishes to do so in the furtherance of his or her duties, may seek independent professional advice through the chairman at the Company's expense. The availability of professional advice extends to the Audit, Remuneration and other Committees.

Minutes of Board meetings are taken by the company secretary or the secretary to the Board and, together with any supporting Board papers, are available to all Board members. Board meetings are structured to encourage open and frank discussions to ensure the Non-executive Directors provide effective enquiries to each Executive Director. When necessary, the Independent Non-executive Directors meet privately to discuss matters which are relevant to their specific responsibility.

Amended article

The convener shall issue a supplemental notice of the general meeting within two days upon receipt of the proposals.

Except for circumstances provided in the above paragraph, the convener, after issuing the notice of the general meeting, shall neither modify the proposals stated in the notice of general meetings nor add new proposals.

The general meeting shall not vote or resolve on any proposals which are not contained in a notice of the general meeting or are not in compliance with this article herein.

Article 64

An extraordinary general meeting shall not decide on matters which are not specified in the notice.

Article 66

The notice of a general meeting of shareholders shall be served on each shareholder whose name appears in the share register on the date of confirming the shareholders in respect of the meeting, (whether or not entitled to vote thereat), by personal delivery or prepaid mail to the shareholder at his address, as shown in the share register. For the shareholders of domestic capital shares, the notices of general meetings of shareholders may be given by way of announcement.

The announcement referred to in the preceding clause shall be published in one or more newspapers specified by the securities regulatory authority under the State Council twenty days prior to the convening of the annual general meeting and fifteen days prior to the convening of the extraordinary general meeting. Once the announcement has been published, all shareholders of the domestic capital shares shall be deemed to have received notice of the relevant meeting of shareholders.

Subject to compliance with laws, regulations and relevant requirements of the securities regulatory authority of the place where the shares of the Company are listed, the Company may also issue a notice of general meeting to shareholders of overseas listed foreign shares by way of announcement through the website of the Company and the website specified by the Hong Kong Stock Exchange in lieu of delivery by hand or by post with prepaid postage to shareholders of overseas listed foreign shares.

Article 82

A general meeting of shareholders shall be convened by the Chairman of the Board of Directors who shall preside as chairman of the meeting. If the Chairman is unable or fails to perform his duties, more than half of the Directors may elect a Director to convene and act as the chairman of the meeting.

If the Board is unable or fails to perform the duty of convening a general meeting, the Supervisory Committee shall duly convene and preside over a general meeting; if the Supervisory Committee fails to convene and preside over a general meeting, the shareholders individually or jointly holding ten percent or more of the Company's shares for more than ninety consecutive days shall have the right to convene and preside over a general meeting.

A general meeting convened by the Supervisory Committee itself shall be presided over by the chairman of Supervisory Committee. Where the chairman of Supervisory Committee is unable or fails to fulfil the duty thereof, more than half of the Supervisors shall jointly elect a Supervisor to preside over.

A general meeting convened by the shareholders themselves shall be presided over by a representative elected by the convener. In the event that no chairman is so elected, the shareholders attending the meeting may elect a person to act as the chairman. If for any reasons the shareholders cannot elect a chairman, the shareholder (including his proxy) holding the greatest number of voting shares present at the meeting shall act as the chairman.

Any reasonable expenses incurred by the Supervisory Committee or the shareholders for convening and holding the meeting by reason of the failure of the Board of Directors to duly convene a meeting according to the foregoing request for holding the meeting shall be borne by the Company and shall be set off against any sums owed to the Directors in default by the Company.

INVESTOR RELATIONS AND COMMUNICATIONS WITH SHAREHOLDERS

The management believes that effective and proper investor relations play a vital role in creating shareholders' value, enhancing the corporate transparency as well as establishing market confidence. As such, the Company has adopted a stringent internal control system to ensure true, accurate, complete and timely disclosure of relevant information pursuant to requirements of relevant laws and regulations in order to ensure all shareholders equal access to information. In addition, the Company has taken measures to ensure effective shareholders' communication and transparency, including:

- maintained contacts with shareholders and investors through various channels such as meetings, telephone and emails;
- regularly update the Company's news and developments through the investor relations section of the Company's website;
- arranged on-site visits to the Group's projects for investors and research analysts.

Through the above measures, the Company endeavours to communicate with the investment community and provide them with the latest development of the Group and the automotive after market.

Information disclosure

The Company discloses information in compliance with the Listing Rules, and publishes periodic reports and announcements to the public in accordance with the relevant laws and regulations. The primary focus of the Company is to ensure information disclosure is timely, fair, accurate, truthful and complete, thereby enabling shareholders, investors as well as the public to make rational and informed decisions.

Constitutional documents

During the Relevant Period, there are certain changes in the Company's constitutional documents and the latest version has been uploaded to the Company's and HKEx's website.

SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted a code of conduct regarding securities transactions by Directors on terms no less exacting than the required standard of dealings set out in Appendix 10 of the Listing Rules. The Company has also made specific enquiry of all Directors and the Company are not aware of any non-compliance with the required standard of dealings and the code of conduct regarding securities transactions by Directors adopted by the Company throughout the year.

DIRECTORS' AND INDEPENDENT AUDITOR'S RESPONSIBILITIES FOR ACCOUNTS

The Directors' responsibilities for the accounts and the responsibilities of the external independent auditor to the shareholders are set out in the Audit Report.

LOOKING FORWARD

The Group will keep on reviewing its corporate governance standards on a timely basis and the Board endeavors to take the necessary actions to ensure the compliance with the provisions of the Code on Corporate Governance Practices introduced by the Stock Exchange.

The Group believes that sound environmental, social and governance (“ESG”) performance is vital to sustainable development of our business and community. The Group is committed, to achieving not only strong financial results, but also enhancement of environmental protection, social responsibility and effective corporate governance.

The Board is responsible for the Group’s ESG strategy and reporting. The Group established an ESG working team to engage cross department management and staff to identify relevant ESG issues and so evaluate the materiality to the Group’s business as well as stakeholders, through operations review and internal discussions. Disclosures relating to the material ESG issues identified have been included in this ESG Report pursuant to the requirements of Appendix 27 of the Listing Rules (the “ESG Guide”).

A. ENVIRONMENTAL

The Group established environmental policies and passed measurable environmental objectives to employees. We, through training, education and communication, proactively encouraged them to protect the environment with our ultimate goal that all employees’ adoption of environmentally-responsible behavior in both their workplace and daily lives.

The Group always keeps itself up-to-date on developments in local legislation and standards for environmental protection and is committed to achieving a level of environmental performance that goes beyond compliance. During the Reporting Period, the Group did not experience any cases of non-compliance relating to environmental laws and regulations in our operation places.

A1 Emissions

The Group’s major carbon dioxide emissions is from energy usage. The Group has developed various energy-saving initiatives to reduce the carbon footprint. Waste generated from the Group’s business activities mainly consists of paper (e.g. office paper) during the Reporting Period. No substantial hazardous waste was produced by the Group during the Reporting Period. The Group has launched a number of waste management programs, including:

- Recycling of glass, cardboard, paper materials, metal, printing cartridges and batteries, with collection facilities placed across the properties;
- to encourage staff to reduce paper consumption by double-sided printing and reusing papers printed on one side; and
- Proactively encourage recycling of old and outdated products for use in R&D department.

A2 Use of Resources

With the vision of helping to protect the planet and of incorporating environmental sustainability into our business functions and processes, the Group proactively seeks opportunities for increasing operating efficiency in order to reduce the use of resources. The Group also closely monitors the utilization of resources and reports this aspect of performance to senior management. Appropriate remedial actions for efficiency enhancement in the use of resources are taken, whenever necessary.

To achieve higher energy efficiency, the Group implemented the following key initiatives:

- Blinds for windows to reduce solar heat in air-conditioned areas and hence the strength of air-conditioning could be reduced;
- to switch off lights and air-conditioning in the work stations where not in use; In order to further save energy, the office is required to 1. During the overtime period, the air conditioner is set to turn off automatically every three hours; 2. The air conditioner is set to automatically turn off at 18:05 on weekdays and 3. The central air conditioner temperature is set at an environmental protection temperature of 26 degrees. and
- energy saving lights used in most parts of the Group's properties.

A2.1 Annual Usage of Electricity in 2023 is 1,900,000 KWH, reduced by about 20%

A2.2 Annual Usage of water in 2023 is about 20 thousand tons

A2.3 Management regularly review and continuously improve energy efficiency plan and perform useful evaluation with reference to Key Performance Indicator ("KPI").

A2.4 The Group did not have any problem in the source of usable water. During the year, water consumed by the Group was not material; nevertheless, we actively promotes water efficient practices.

A2.5 The total packing material used in 2023 was 360 tons representing 0.28 kg of packing materials used for every RMB 1,000 sales of products similar to last year. The Group will actively review, and under the condition that not affecting the safety and protection level of large equipment products in the logistic process, reduce the use of packing materials, including adopt electronic user's manual, and select light-weighted materials and recycle friendly materials and adopt other measures so as to reduce the harmful impact by the packing materials.

A3 The environment and natural resources Air quality

In order to aid to improve air quality, the Group aims to reduce air emissions generated from its properties by green initiatives.

A3.1 The Group's operation does not bring significant harmful impact on environment and natural resources; however we do control the number of vehicles of the Group, the management of logistic and goods delivery and is committed to encourage our staff to take public transportation, for the purpose of reduction of car pollutants' impact on the environment by vehicles.

B. SOCIAL

B1 Employment Labour practices

To ensure the ability of operation under professional and ethical labour practices, the Group has developed and clearly communicated to all employees clear work procedures with robust control mechanisms. Certain policies to govern employees' affairs such as payroll, attendance and termination are clearly set out in staff appointment letters in compliance with relevant labour laws in the PRC. Overseas offices are in compliance with the relevant labour laws and regulations in the place of operations respectively.

The Group also aims to promote the diversity of workforce, including in terms of age, gender and nationality, as well as a culture of equal opportunity. The management regularly reviews the Group's remuneration policy with reference to relevant market standards.

B1.1 Total workforce by gender, employment type, age group and geographical region

As at 31 December 2023, number of employees of the Group is 843, including:

| | No. of employees | |
|--------------------------|-------------------------|------|
| | 2023 | 2022 |
| By gender: | | |
| Male | 651 | 561 |
| Female | 301 | 282 |
| | 952 | 843 |
| By functions: | | |
| Administrative | 173 | 164 |
| Selling and distribution | 289 | 219 |
| Production | 19 | 21 |
| R&D | 471 | 439 |
| | 952 | 843 |
| By age group: | | |
| Under 30 | 293 | 256 |

| 51 or above | 49 | 29 |
| | 952 | 843 |
| By geographical: | | |
| Domestic | 824 | 791 |
| Overseas | 128 | 52 |
| | 952 | 843 |

B1.2 Employee turnover rate by gender, age group and geographical region

During the year, there were no major personnel transfers in various departments of the group, and the total number of personnel increased by about 12%, of which the number of personnel increased by about 100, mainly overseas personnel.

B2 Health and safety

The Group has established a set of policies which is focused on maintaining a healthy and safety working environment, and which includes the following requirements:

- The facilities operated by employees should meet safety and health standards;
- Expertise advice should be obtained to identify health and safety risk in the operations and the corresponding mitigating actions that should be taken; and
- relevant information and training should be provided to employees in respect of risks to their health and safety which may arise out of their work.

The Group did not violate any health and safety laws and regulations of the place of operations, where applicable, during the Reporting Period.

B2.1 there is zero fatality in 2023.

B2.2 Lost days due to work injury

In 2023, there is no injured worker case reported.

B2.3 Occupational health and safety measures

The Group has established a mechanism for monitoring occupational health and safety, as well as procedures for dealing with related risks. The Group engages employees in the determination of appropriate occupational health and safety precautionary measures. Accident reporting and investigation procedures have also been adopted for the follow-up of any health and safety incidents.

Regular inspections and management review of health and safety have been performed to ensure the effectiveness of the policies and measures.

B3 Development and training Employee development and training

The Group strives to promote the long-term development of its employees by providing learning opportunities that broaden their skills and make them valuable assets to the Group.

Various employee training programs and seminars are offered to employees including in the areas of production, finance, technology, rules and regulations, supervisory and managerial skills, as well as various technical training courses relating to their respective job duties.

| | 2023 | 2022 | 2023 | 2022 | 2023 | 2022 |
| Gender | | | | | | |
| Male | 651 | 561 | 28,524 | 16,324 | 44 | 29 |
| Female | 301 | 282 | 10,915 | 5,365 | 36 | 19 |
| Total | 952 | 843 | 39,439 | 21,689 | 41 | 26 |
| Functions | | | | | | |
| Administrative | 173 | 164 | 3,793 | 1,020 | 22 | 6 |
| Selling and distribution | 289 | 219 | 14,354 | 11,392 | 50 | 52 |
| Production | 19 | 21 | 746 | 754 | 39 | 36 |
| R&D | 471 | 439 | 20,546 | 8,523 | 44 | 19 |
| Total | 952 | 843 | 39,439 | 21,689 | 41 | 26 |
| Age group | | | | | | |
| Below 30 | 293 | 256 | 16,832 | 6,324 | 57 | 25 |
| 31-50 | 610 | 558 | 21,773 | 14,765 | 36 | 26 |
| 51 or above | 49 | 29 | 834 | 600 | 17 | 21 |
| Total | 952 | 843 | 39,439 | 21,689 | 41 | 26 |
| Geographical | | | | | | |
| Domestic | 824 | 791 | 36,383 | 21,435 | 44 | 27 |
| Overseas | 128 | 52 | 3,056 | 254 | 24 | 5 |
| Total | 952 | 843 | 39,439 | 21,689 | 41 | 26 |

B4 Labour standards

The Group strictly follows the “Special protection provisions for underage workers” and Labour Contract Law of the PRC”, prohibits the use of child and forced labour in the Group, and is totally committed to creating a work environment which respects human rights. During suppliers selection procedures, we also consider the factors above as critical assessment criterions.

B4.1 Regular Inspection

In addition to having well-established recruitment processes requiring background checks on candidates and formalized reporting procedures to address any exceptions found, the Group also performs regular reviews and inspections to detect the existence of any child or forced labour in the operations.

B4.2 Contingency Measures

When irregular situation discovered, immediate cessation, internal investigation and follow-up review of existing policies and improvement of prevention mechanism will be implemented.

B5 Supply chain management

The Group has a complete set of supplier eligibility and supplier process management, and all candidate suppliers are required during the supplier selection process. Qualification assessment and material assessment of the factors including dual confirmations, before being added to the group supplier list. Supplier qualification assessment is according to supplier qualification, certification of Supplier quality system, suppliers’ equipment/technical capacity/production process control, supplier delivery response speed, suppliers’ costing, the compliance of the supplier’s environment, labor and social environmental laws and the protection of intellectual property rights, and also sample inspection and evaluation, are performed and considered in order to get a comprehensive selection of suitable suppliers.

Supplier process management is mainly supplier performance management, from supplier process quality, supplier delivery, cost, supplier customer service response system, supplier process control, change management, after-sales service, supplier social responsibility for regular occasional supplier assessment, problem tracking and supplier consultation.

The Group strictly used a material procurement authorization system: for material procurement amounted below 100 thousand, it has to be approved by the responsible person and financial manager of respective units; For amount over 100 thousand but below 300 thousand has to be approved by the headquarters of the financial manager, or supply chain director; For the amount over 300 thousand CEO's approval is required.

B5.1 Number of suppliers by region

The Group currently has a total of about 300 suppliers, more than 95% of suppliers are local suppliers which are easily for us to assess and monitor and also have more stability in supply and logistic cost.

B5.2 Usual Practice in engaging Suppliers

All suppliers are managed in accordance with the above management methods and are regularly reviewed by management to improve performance.

B6 Product responsibility

The Group aims to achieve the highest possible standard with all the products sold and services provided. The Group has established relevant policies which cover products and service quality guarantee, safety, fair advertising and after-sale service in order to ensure relevant measures comply with the laws and regulations.

B6.1 Percentage of total products sold or shipped subject to recalls for safety and health reasons

In 2023 no material products sold or shipped subject to recalls for safety and health reasons was reported.

B6.2 Complaints and response

The Group stepping at the front of the industry's technology, on the same time pays high attention to the quality and safety of products and services. The Group set up relevant quality and safety inspection policies for different products and services, communicate and confirm the orders and working plan with customer before the orders and project starts and actively coordinate the process of the logistics and project with customers. In 2023, the Group did not have any significant complaints or requests to withdraw the order or terminate project due to poor quality and safety problem. If a complaint should arise, the Company will immediately assess the complaint and conduct an internal investigation into the matter to identify the source of the issue. The Group has close connection with customers. If the customers do not satisfy the quality and the safety of our products and services, the Group arranges sufficient channels and staffs for customers to communicate and provide the solutions to the problems as soon as possible.

B6.3 Intellectual property rights

The routine work of the Group always involves customers, suppliers and our own intellectual property rights (“IPR”), therefore protection of IPR is an extremely important mission to the Group. The Group adds protective clauses to the contracts entered into with customers and suppliers to safeguard the IPR. The Group’s relevant department also reviews every operational contract to ensure that the contract safeguard the IPR of each other. Furthermore, The Group also requests technical specialists of product development and production to sign strict confidentiality agreements to avoid leakage of confidential information. The Group also complies with relevant legislation of data privacy. Any infringement of the Group’s IPR discovered on the market might report to the relevant legal authorities and if necessary might seek indemnity from counter parties through appropriate legal channels.

B6.4 Quality assurance process and recall procedures

Prior to dispatch, products in the warehouse will be subject to strict quality inspection. For equipment received under the trade in sales arrangements, immediately safety checks will be performed to prevent any threat to plant safety. The Group has guidelines to improve the recycling rate of recycled products and prioritize the usage of recycled products in R&D areas as part of the R & D materials, and for those parts that cannot be used, staff will be disposed of in accordance with the Group’s Waste Disposal Guidelines to reduce unnecessary waste.

B6.5 Consumer data protection and privacy policies

The Group strictly stipulates that employees comply with the established Consumer Data Protection and Privacy Policy and strictly limit the confidentiality of all customers only can be accessed by employees who are responsible for the project work of the relevant clients.

B7 Anti-corruption and money laundering

The Group has in place a number of policies addressing anti-corruption (such as acceptance of gifts, and conflicts of interest and money laundering), which provide guidance to employees in these areas. In the employment contract, the Group included requirement for employees to strictly maintain business ethics standards to avoid any corruption and bribery. Any conflicts of interests is required to be reported to the Group’s management in a timely manner. Employees who participate in the business operations and represent the professional image of the Company are forbidden to use business opportunities or privilege to acquire personal interest or benefit.

B7.1 Legal cases

During the Reporting Period, no legal case regarding corruption was brought against the Group or its employees. Also, there were no cases of non-compliance with laws and regulations on anti-money laundering in the places of operations.

B7.2 Preventive Measures

In addition, the Group has established prevention system by setting up communication channels for faults and anti-corruption reporting. The whistle-blowing system can handle any breach of laws and regulations.

Relevant articles on anti-corruption and anti-money laundering are provided to employees for their study and reference in order to raise their awareness of the code of conduct as well as related procedures and guidelines.

B8 Community investment

As a corporate citizen, we promote the social contribution of the Group's members to the local community where we operate. We emphasize via training and education to raise the sense of social responsibility among employees and encourage them to make better contributions to our community during and after work. We would like to increase social investment to create a more favorable environment for our communities and businesses.

DIRECTORS' INTERESTS IN CONTRACTS AND CONNECTED TRANSACTIONS

No contracts of significance to which the Company or any of its subsidiaries was a party and in which a director of the Company had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the year ended 31 December 2023.

MAJOR CLIENTS AND SUPPLIERS

Total revenue from the top five customers of the Company was approximately RMB355,000,000 (2022: RMB284,000,000), accounting for approximately 23% (2022: 25%) of total revenue for the year. The largest customer accounted for approximately 8% (2022: 8%) of the total revenue for the year.

Total purchases from top five suppliers of the Company amounted to approximately RMB408,000,000 (2022: RMB215,000,000), accounting for approximately 51% (2022: 33%) of the total purchases for the year. The largest supplier accounted for approximately 16% (2022: 11%) of the total purchases for the year.

None of the directors, their respective associates, or any shareholders (which to the knowledge of the directors own more than 5% of the share capital of listed issuer) had any interest in any of the customers or the suppliers disclosed above.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the reporting period, the total amount of share capital of the Company decreased from 16,428,500 shares to 415,788,100 shares.; neither the Company nor any of its subsidiaries had purchased, sold or redeemed any of the Company's shares except for the 16,428,500 shares repurchased from the market.; and the Company had no share options granted under the share option scheme.

SUFFICIENCY OF PUBLIC FLOAT

The Company has maintained the public float as required by the Listing Rules during the Relevant Period.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company's articles of association, the laws of the PRC, which would oblige the Company to offer new Shares on a pro-rata basis to existing shareholders.

EMPLOYEES AND REMUNERATION

As at 31 December 2023, the Group had 824 and 128 employees based in the PRC and overseas respectively. For the year ended 31 December 2023, the total staff cost net of the remunerations of the Directors and supervisors amounted to approximately RMB135 million. The Group remunerates employees by their performance and experience. Emolument or remuneration may include salary, overtime allowance, bonus and various subsidies.

The emolument of the Directors are determined, having regard to the Company's operating results, individual Directors' performance and comparable market trends.

It has adopted a share option scheme whereby employees of the Group may be granted options to acquire shares. The Group also offers staff benefits such as professional training programs enhance staffs' skills, knowledge and sense of belonging.

SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted a code of conduct regarding securities transactions by Directors on terms no less exacting than the required standard of dealings set out in Appendix 10 of the Listing Rules. The Company has also made specific enquiry of all Directors and the Company are not aware of any non-compliance with the required standard of dealings and the code of conduct regarding securities transactions by Directors adopted by the Company throughout the year.

COMPETING INTERESTS

None of the Directors or the management shareholders of the Company or their respective associates (as defined in the Listing Rules) had an interest in a business which causes or may cause significant competition with the business of the Group.

INDEPENDENT AUDITOR

A resolution will be proposed at the forthcoming annual general meeting of the Company to re-appoint the auditor, Da Hua Certified Public Accountants (Special General Partnership).

The accounts for the years 2022 and 2021 of the Group were audited by Da Hua Certified Public Accountants (Special General Partnership).

CLOSURE OF REGISTER

Annual general meeting and relevant information will be announced in the circular of meeting.

By order of the Board

Launch Tech Company Limited

Liu Xin

Chairman

Shenzhen, the PRC

28 March 2024

To all shareholders of Launch Tech Company Limited:

1. OPINION

We have audited the Financial Statements of Launch Tech Company Limited ("Launch Tech"), which comprise its and consolidated balance sheets as at 31 December 2023, and its and consolidated income statements for the year 2023 ended, its and consolidated cash flow statements, its and consolidated statements of change in equity for the year then ended, and related notes to the financial statements.

In our opinion, the attached Financial Statements were prepared in accordance with the requirements of Accounting Standards for Business Enterprises, giving a true and fair view of Launch Tech's and consolidated financial position as at 31 December 2023, and of its and consolidated financial performance and cash flows for the year then ended 2023.

2. BASIS FOR OPINION

We conducted our audit in accordance with China Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Launch Tech in accordance with the China Standards on Auditing's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3. KEY AUDIT MATTERS

Key audit matters are the matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We determine that the recognition of operating income is a key audit matters that need to be communicated in the audit report which are:

3. KEY AUDIT MATTERS (CONTINUED)

1. Description of the matter

Please refer to Note III/(XXX) and Note VI/Note XXXIX of the consolidated financial statements for the relevant accounting policies and book amounts for the recognition of the operating income of Launch Tech this year.

Since revenue is one of the key performance indicators of Launch Tech, there is an inherent risk of management manipulating revenue recognition in order to achieve specific goals or expectations. Therefore, we have identified revenue recognition as a key audit matter.

2. Audit response

The important audit procedures that we have implemented for the confirmation of Launch Tech's operating income include:

- (1) Test the design and implementation of key internal controls related to the revenue cycle to confirm the effectiveness of internal controls;
- (2) Perform analytical review procedures for revenue and costs;
- (3) Obtain the contract signed by Launch Tech and the customer, and verify the key terms of the contract, including delivery, payment and settlement, exchange and return policies, etc.;
- (4) Check the supporting documents related to income confirmation, including sales order, delivery receipt, receipt confirmation, customs declaration, freight bill of lading, payment receipt and other information, to evaluate whether the revenue recognition policy complies with the relevant provisions of accounting standards;
- (5) Implement independent letter verification procedures to important customers to verify accounts receivable and current sales;
- (6) For the income transactions recorded before and after the balance sheet date, select samples, check the relevant supporting documents, and evaluate whether the income is recorded in the appropriate accounting period.

Based on the audit evidence obtained, we have obtained the audit conclusion that Launch Tech's recognition of operating income complies with the relevant provisions of the Accounting Standards for Business Enterprises.

4. OTHER INFORMATION

The management of Launch Tech are responsible for the other information. The other information comprises the information included in the 2023 annual report, but does not include the Financial Statements and our auditor's report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

5. RESPONSIBILITIES OF THE MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

The Management of Launch Tech are responsible for the preparation of the Financial Statements that give a true and fair view in accordance with Accounting Standards for Business Enterprises, and to enable such internal control to be fairly reflected, designed, exercised and maintained as the Management determine is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, the Launch Tech's management are responsible for assessing the Launch Tech's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intend to liquidate the Launch Tech or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Launch Tech's financial reporting process.

6. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with China Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

In accordance with China Standards on Auditing, we exercised professional judgment and maintain professional scepticism throughout the audit process. We also:

- I. Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- II. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control.
- III. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- IV. Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Launch Tech's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Launch Tech to cease to continue as a going concern.
- V. Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- VI. Obtain sufficient and appropriate audit evidence on the financial information of entities or business activities in Launch Tech in order to express opinions on the financial statements. We are responsible for guiding, supervising and executing the audits of the Group and we take full responsibility for the audit opinions.

6. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(IV) Approval of the financial statements

These financial statements were approved by the Board of Directors on 28 March 2024.

II. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

(I) Basis of preparation of the financial statements

The financial statements of the Company were prepared on the going concern basis according to the transactions and matters actually occurred, and recognitions and measurements were made in accordance with the Accounting Standards for Enterprises – Basic Standards published by the Ministry of Finance and specific accounting standards, guidance on application of accounting standards for enterprises, interpretations to accounting standards for enterprises and other relevant requirements (hereinafter collectively referred to as the “Accounting Standards for Enterprises”) on this basis, in conjunction with the provisions of the China Securities Regulatory Commission, “Regulations on Information Disclosure and Compilation of Companies Offering Securities to the Public No. 15-General Provisions on Financial Reporting” (revised in 2023).

In addition, these financial statements are also in compliance with the disclosure requirements of the Companies Ordinance in Hong Kong and the applicable disclosure rules of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited.

II. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (Continued)

(II) Going concern

Pursuant to the Company's assessment on the continuing operation viability of the Company within 12 months since the end of the reporting period, and there are no matters or events that may raise any material doubts on the continuing operation viability of the Company was discovered, and thus this financial statements were prepared under going concern basis.

(III) Accounting basis and pricing principles

The company's accounting is based on the accrual system. Except for some financial instruments measured at fair value, this property. The statement is based on historical cost. If the asset is impairment, the corresponding impairment standard shall be calculated in accordance with the relevant regulations. Prepare.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

(I) Statement of compliance

The financial statements prepared by the Company meet the requirements of the enterprise accounting standards; exactly and completely reflect the financial status, operation result, and cash flow, etc. of the Company.

(II) Accounting period

The accounting year of the Company is from January 1 each year to December 31 of the same year in western calendar.

(III) Business cycle

The business cycle refers to the period from the purchase of assets for processing to the realization of cash or cash equivalents. Our company take 12 months as a business cycle and use it as the liquidity classification standard for assets and liabilities.

(IV) Functional currency

Renminbi is the functional currency. The overseas subsidiary uses the currency of the main economic environment where they operate as the recording currency, and that currency is converted into RMB in the preparation of this financial statements.

(V) Method and selection basis for determining importance standards

Project Importance Standard

Accounts receivable write-off -5% of the write-off amount

Other receivables write-off -5% of the write-off amount

Important projects under construction -2% of the total assets value

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(VI) Accounting treatments of business combinations involving entities under common control and entities not under common control

1. If the terms, conditions and economic effects of transactions for the purpose of realizing business combination in phases, fall in the following one or more situations, regard multiple transactions as a package transaction for accounting treatment:

- 1) these transactions were entered into at the same time or after considering the effects of each other;
- 2) only when regarding these transactions as a whole, can it achieve a complete business result;
- 3) the occurrence of one transaction depends on the occurrence of at least one other transaction;
- 4) a transaction is not economical when treated alone, but is economical when considered with other transactions.

2. Business combinations involving entities under common control

Enterprises participating in the merger are not subject to the final control of the same party or the same party before and after the merger, and are not under the same control.

For assets and liabilities acquired under business combinations, the assets, liabilities (including the value of goodwill on acquisition) on the date of combination is included in the consolidated financial statements using the book values. If there is any difference between the book values of net assets acquired and the consideration(or the total amount of face value of issued shares), share premium in capital reserve is adjusted. If the share premium in capital reserve is insufficient, the retained earnings are adjusted.

If there is any contingent consideration required to be recognized as estimated obligations or assets, capital reserve (capital or share premium) is adjusted by the difference between the amount of such estimated obligations or assets and the amount of settlement of subsequent contingent consideration; where the capital reserve is insufficient, the retained earnings are adjusted.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(VI) Accounting treatments of business combinations involving entities under common control and entities not under common control (Continued)

2. Business combinations involving entities under common control (Continued)

For business combination finally realized through several transactions, in case of a package transaction, those transactions are accounted as one transaction to acquire the control; in case of no package transaction, on the date of acquisition of the control, the capital reserve is adjusted by the difference between the initial investment cost of long-term equity investment and the sum of the book value before the combination and the book value of the new payment consideration for further acquisition of shares on the date of combination; where the capital reserve is insufficient, the retained earnings are adjusted. For the equity investment held before the date of combination, the other comprehensive income measured and recognized under the equity method or financial instrument recognition and measurement standards are not accounted until the accounting treatment for the disposal of relevant assets or liabilities of the investee is adopted the same for the disposal of such equity investment; changes in the owners' equity other than the net losses and profits, other comprehensive income and profit distribution in the net assets of the investee that is recognized under the equity method, is not accounted, until disposal of such investment is transferred to current profit and losses.

3. Business combinations involving entities not under common control

Enterprises participating in the merger are not subject to the final control of the same party or the same party before and after the merger, and are not under the same control. Business merger.

On the date of acquisition, when there is any difference between the fair values and book values of the assets provided and liabilities incurred or borne by the Company as combination considerations, such differences shall be charged to profit and loss for the period.

Goodwill is recognized when the combination cost paid by the Company is higher than the share of the fair value of the net tangible assets in the acquiree obtained through the combination. When the combination cost paid is lower than the fair value of the share of the fair value of the net tangible assets in the acquiree obtained through the combination; first of all, the fair value of the identifiable assets, liabilities and contingent liabilities of the purchased party and the measurement of the combined cost are reviewed. After the review, if the consolidated cost is still less than the share of the fair value of the identifiable net assets of the acquiree obtained in the business combination, such difference after review shall be recognized in profit or loss for the period.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(VI) Accounting treatments of business combinations involving entities under common control and entities not under common control (Continued)

3. Business combinations involving entities not under common control (Continued)

In a business combination involving entities not under common control that is realized in phases through multiple exchange transactions, in case of a package transaction, should be accounted with all transactions as the one to acquire the control; in case of non-package transaction, should be accounted under equity method: the equity investment held before the date of combination, the sum of the book value of the equity investment held by the acquiree before the date of acquisition and the cost of new investment on the date of acquisition are recognized as the initial investment cost of such investment; due to the other comprehensive income accounted and recognized under equity method, the equity investment held before the date of acquisition is accounted on the same basis as used for disposal of relevant assets or liabilities of the investee when disposal of such investment. Where the equity investment held before the date of combination is accounted according to the recognition and measurement criteria for financial instruments, the sum of the fair value of such equity investment on the date of combination and the new investment cost are accounted as the initial investment cost on the date of combination. The difference between the fair value of the original equity and its book value and the accumulative changes originally included in the other comprehensive income are transferred to current investment income on the date of combination.

4. Relevant expenses in relation to combination

All direct fees for audit, legal and assessment occurred for the purpose of business combination are credited in profit or loss in the period when they incurred; trading fees for issue of equity, shall be directly charged to equity.

(VII) Preparation of consolidated financial statements

1. Judgment criteria of control

Control means that the investor has the power over the invested party and enjoys variable return by participating in the relevant activities of the invested party.

The company judges whether to control the invested party on the basis of comprehensive consideration of all relevant facts and circumstances. Very short time If changes in relevant facts and circumstances lead to changes in the relevant elements involved in the control definition, the company will make a new evaluation. Relevant facts and circumstances mainly include:

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(VII) Preparation of consolidated financial statements (Continued)

1. Judgment criteria of control (Continued)

- (1) The purpose of the establishment of the invested party.
- (2) The relevant activities of the invested party and how to make decisions on the relevant activities.
- (3) Whether the rights enjoyed by the investor enable him to dominate the relevant activities of the investor at present.
- (4) Whether the investor enjoys a variable return by participating in the relevant activities of the invested party.
- (5) Whether the investor has the ability to use the power of the invested party to affect the amount of return.
- (6) The relationship between the investor and other parties.

2. Scope of Consolidation

The scope of consolidation of the consolidated financial statements of the Company is determined on the basis of control. All subsidiaries (including individual entities controlled by the Company) are included in the consolidated financial statements.

3. Procedures

The consolidated financial statements shall be prepared by the Company based on the financial statements of the Company and its subsidiaries and other relevant information. When the Company prepared consolidated financial statements, considered the whole business group as a single accounting entity. Pursuant to recognition, measurements and requirement of relevant accounting standards, basing on the consistent accounting policies, reflected the business group's financial positions, business results and cashflows.

All subsidiaries within the scope of consolidation of the consolidated financial statements shall adopt accounting policies and financial period consistent with the Company. When there is any inconsistency on the accounting policies or financial period adopted by the subsidiaries and the Company, the financial statements of subsidiaries are adjusted according to the accounting policies or financial period adopted by the Company as necessary.

Notes to the Financial Statements

2023 (Expressed in Renminbi)

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(VII) Preparation of consolidated financial statements (Continued)

3. Procedures (Continued)

When consolidating the financial statements, the effects on the consolidated balance sheets, consolidated incomes statements, consolidated cash flow statements and consolidated statements of changes in shareholders' equity due to internal transactions between the Company and its subsidiaries and among the subsidiaries shall be offset. For the consolidated financial statements, when there is divergence in the recognition of a single transaction by the Company and its subsidiaries, the Company's position shall be taken up for adjustment on such transaction.

The owners' equity, the minority interest on net profit or loss for the period and comprehensive income should be separately disclosed under owners' equity in the consolidated balance sheet, and net profit and comprehensive income in the consolidated income statement. When loss for the period attributable to minority shareholders of a subsidiary exceeds the initial share of owners' equity in the subsidiary owned by such minority shareholders, the excess amount shall still be deducted against shareholders' equity.

For subsidiaries due to business combination involving entities under common control, their assets, liabilities (includes goodwill acquired), using on the book value of the ultimate controller's financial statement as basis to adjust their own financial statements.

Where as for subsidiaries due to business combination involving entities not under common control, using the fair value on the acquisition as basis to adjust their own financial statements.

(1) Addition of subsidiary or business

During the reporting period, initial amount in the consolidated balance sheets are adjusted for the addition of new subsidiaries and businesses due to business combinations involving entities under common control. The income, expenses and profits of the subsidiaries from the beginning of the consolidation to the end of the reporting period are included in the consolidated income statements, and the cash flows of the subsidiaries and the businesses from the beginning of the consolidation to the end of the reporting period are included in the consolidated cash flow statements. At the same time adjust those relevant items of comparison of financial statements, considering the reporting entity exists since the date of establishment of control.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(VII) Preparation of consolidated financial statements (Continued)

3. Procedures (Continued)

(1) Addition of subsidiary or business (Continued)

For exercising control over investee under common control due to the addition of investment, shall consider those entities consolidated since the date of control began and adjust the existing conditions. Between the later of the date of those equity held originally or the date of both parties under common control to combination date, those identifiable profit or loss, other comprehensive income and other change in net assets, shall be separately charged to initial amount of the comparative statements or the profit and loss of the period.

During the reporting period, initial amount in the consolidated balance sheets are not adjusted for the addition of new subsidiaries and businesses due to business combinations involving entities not under common control. The income, expenses and profits of such subsidiaries from the date of acquisition to the end of the reporting period are included in the consolidated income statements, and the cash flows of the subsidiaries and businesses from the date of acquisition to the end of the reporting period are included in the consolidated cash flow statements.

For exercising control over investee not under common control due to addition of investment, those equity held before acquisition date is subject to re-measurement using fair value. Differences between fair value and book value is charged to investment income for the period. For movement in owners' equity other than other comprehensive income and ex-dividend profit or loss, other comprehensive income and distributable profits, equity held before acquisition date which was measured under equity method; and relevant other comprehensive income and movement in other owners' equity were changed to the profit or loss of the financial period of the acquisition date, but except other comprehensive income occurred due to movement of net assets and liabilities under the remeasurement of defined benefit plan by the investor.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(VII) Preparation of consolidated financial statements (Continued)

3. Procedures (Continued)

(2) Disposal of subsidiary or business

1) General treatments

During the reporting period, for disposal of subsidiaries and businesses by the Company, the income, expenses and profits of the subsidiaries from the beginning of the period to the date of disposal are included in the consolidated income statements, and the cash flows of the subsidiaries and businesses from the beginning of the period to the date of disposal are included in the consolidated cash flow statements.

When the Company loses control on its former subsidiary due to partial disposal of equity investment or otherwise, the remaining invested equity after disposal is re-measured based on the fair value at the date when control was lost. The difference between the sum of consideration received from disposal of equity and the fair value of the remaining equity, and the share of net assets calculated on a continual basis starting from the date of acquisition based on the former holding ratio, shall be recognized as the investment gain for the period when control was lost. Other comprehensive income and ex-dividend profit or loss, other comprehensive income and distributable profits associated with equity investment in the former subsidiary shall be transferred to investment gain upon the loss of control, but except other comprehensive income occurred due to movement of net assets and liabilities under the remeasurement of defined benefit plan by the investor.

2) Piecemeal disposal of subsidiary

Through piecemeal disposals of equity of subsidiary until loss of control, normally those transactions would be accounted as a package of transactions if those arrangements and conditions and economic impacts of disposal transactions fulfilled one or more of the following situations:

- A. Such transactions are occurred together or made under considerations of mutual impacts;
- B. A complete business consequence could only be made under such series of transactions;
- C. The occurrence of a transaction is dependent on occurrence of at least one transaction;

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(VII) Preparation of consolidated financial statements (Continued)

3. Procedures (Continued)

(2) Disposal of subsidiary or business (Continued)

2) Piecemeal disposal of subsidiary (Continued)

- D. One transaction itself is not economical itself, but when considered together with other transactions would become economical.

Transactions for partly disposal of subsidiary until losing control which is considered as a package of transactions, the Company treats this as one transaction under accounting treatment; however the difference between each transaction proceeds and the net asset value of that disposal, is firstly treated as other comprehensive and then charged together to profit or loss for the period until the control of subsidiary lost.

Transactions for partly disposal of subsidiary until losing control which is not considered as a package of transactions, before losing control, treat it as the same as transactions for not losing control and treat as general disposal under accounting treatment when the control of subsidiary lost.

(3) Acquisition of minority interest of subsidiary

When there is a difference between Company acquired minority interests as long term equity investment and basing on the new shareholding ratio owned the subsidiary under continuing calculation from the acquisition date (or combination date), the difference would be adjusted to the share premium of capital reserve in the consolidated balance sheet. If the share premium is insufficient, charge to the retained profits.

(4) Partly disposal of subsidiary without losing control

Under the situation the difference between the proceeds from disposal of subsidiary without losing control and the attributable net assets value of the subsidiary continuously calculated from the acquisition date or combination date, the difference would be adjusted to the share premium of capital reserve in the consolidated balance sheet. If the share premium is insufficient, charge to the retained profits.

(VIII) Accounting treatment of joint venture arrangement and joint operations

1. Classification of joint venture arrangements

The Company classifies the joint venture arrangements into joint venture and joint operation according to the structure, legal form of joint venture arrangement, the terms agreed in the arrangement, other relevant matters and situations. Joint operation means that the joint operation parties enjoys the arrangement that relates to assets and bears the liabilities related to the arrangement. The joint venture refers to the joint venture arrangement in which the joint venture party only has the right to the net assets of the arrangement.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(VIII) Accounting treatment of joint venture arrangement and joint operations (Continued)

2. Accounting method for joint operation

The Company recognizes the following items related to its share of benefits in the joint operation and conducts accounting treatment in accordance with relevant accounting standards for business enterprises:

- (1) assets it solely holds and its share of jointly-held assets based on its percentage;
- (2) liabilities it solely assumes and its share of jointly-assumed liabilities based on its percentage;
- (3) incomes from sale of output enjoyed by it from the joint operation;
- (4) incomes from sale of output from the joint operation based on its percentage; and
- (5) separate costs and costs for the joint operation based on its percentage.

When the Company invests or sells assets and others in or to the joint operation (except for assets that constitute business), only that part of profits or losses from the transaction attributable to other participants to the joint operation shall be recognized before such assets and others are sold by the joint operation to a third party. If the invested or sold assets are of impairment loss subject to the Accounting Standards for Business Enterprises No.8 – Assets Impairment and other provisions, the Company shall recognize such loss in full.

When the Company purchases assets and others from the joint operation (except for assets that constitute business), only that part of profits or losses from the transaction attributable to other participants to the joint operation shall be recognized before such assets and others are sold to a third party. If the purchased assets are of impairment loss subject to the Accounting Standards for Business Enterprises No.8 – Assets Impairment and other provisions, the Company shall recognize its part of such loss based on its percentage.

If the Company has no joint control over a joint operation enjoys and assumes relevant assets and liabilities of the joint operation, it shall conduct accounting treatment in accordance with aforesaid principle; or it shall do the same in accordance with relevant accounting standards for business enterprises.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(IX) Determination criteria for cash and cash equivalents

In preparing cash flow statements, the Company's cash on hand and deposits that can be readily utilized for payment are recognized as cash. Investments that satisfy four conditions, namely short duration (normally means maturity within three months from the purchase date), high liquidity, readily convertible into known amount of cash and minimal risk of value change, are recognized as cash equivalents.

(X) Foreign currency businesses and translation of foreign currency statements

1. Foreign currency businesses

Foreign currency business transaction are recognized at the beginning and translated into Renminbi using the spot exchange rate prevailing on the date when transaction occurred.

Balance of monetary items in foreign currency are translated using the spot exchange rate prevailing on the balance sheet date, and the exchange differences arising therefrom are recognized in profit or loss for the period, except for special foreign currency loans related to acquisition and construction of assets that satisfy capitalization requirements, whose exchange differences are accounted for using principles on capitalization of loan expenses. Non-monetary items in foreign currency measured at historical cost are translated using the spot exchange rate prevailing on the date when transaction occurred and its functional currency shall remain unchanged.

Non-monetary items in foreign currency carried at fair value are translated using the spot exchange rate prevailing on the date when such fair value was determined, and any exchange difference arising therefrom is recognized in profit or loss for the period. In case of non-monetary items in foreign currency available for sales, the exchange difference arising therefrom is included in the other comprehensive income.

2. Translation of foreign currency statements

Items of assets and liabilities in the balance sheet are translated using the spot exchange rate prevailing at the balance sheet date. Items in the owners' equity, except for "undistributed profits", are translated using the spot exchange rate prevailing at the time of occurrence. Items of income and expenses in the income statement are translated using the spot exchange rate prevailing at the date of transaction. The foreign currency translation difference arisen as a result of the above currency translation is included in the other comprehensive income.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(X) Foreign currency businesses and translation of foreign currency statements (Continued)

2. Translation of foreign currency statements (Continued)

When disposing of an overseas operation, the foreign currency translation difference for items under the other comprehensive income in the balance sheet that are related to such overseas operation are transferred from the other comprehensive income to profit or loss for the period; when disposing of partial overseas equity investment or due to other reasons causing decrease in holding ratio of overseas operation but not losing control, the foreign currency translation difference attributable for disposed is transferred to minority interests but not profit or loss for the period. In occasion disposal of equity interest in foreign associate or joint operation, the foreign currency translation difference attributable to the portion disposed of is transferred to profit or loss for the period.

(XI) Financial instruments

A financial asset or financial liability is recognized when the company becomes a party to a financial instrument contract.

The actual interest rate method refers to the method of calculating the amortized cost of financial assets or financial liabilities and amortizing interest income or interest expenses into each accounting period.

The actual interest rate refers to the interest rate used to discount the estimated future cash flow of a financial asset or financial liability over the expected useful life to the book value of the financial asset or the amortized cost of the financial liability. When determining the actual interest rate, the expected cash flow is estimated on the basis of considering all contractual terms of financial assets or financial liabilities (such as early repayment, rollovers, call options or other similar options, etc.), but the expected credit losses are not considered.

The amortized cost of a financial asset or financial liability is the initial recognition amount of the financial asset or financial liability minus the principal repaid, plus or minus the actual interest rate method between the initial recognition amount and the amount due. The accumulated amortization amount formed by the difference is amortized, and then the accumulated loss provision is deducted (only applicable to financial assets).

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

1. Classification and measurement of financial instruments

The Company classifies financial assets into the following 3 categories based on the business model of the financial assets under management and the contractual cash flow characteristics of financial assets:

- 1 Financial assets measured at amortized cost.
- 2 Financial assets measured at fair value through other comprehensive income.
- 3 Financial assets measured at fair value through profit or loss.

Financial assets are measured at fair value at initial recognition, but if the accounts receivable or bills receivable due to the sale of goods or the provision of services do not contain a significant financing component or do not consider financing components not exceeding one year, the transaction price will be used for initial measurement.

For financial assets that are measured at fair value and whose changes are included in the current profit or loss, the related transaction costs are directly included in the current profit and loss, and other types of financial assets related transaction costs are included in the initial recognition amount.

The subsequent measurement of financial assets depends on their classification if and only if the Company. The company only reclassifies all affected financial assets when changing the management of business model of financial assets.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

1. Classification and measurement of financial instruments (Continued)

(1) Classified as Financial assets measured at amortized cost

The contractual provisions of the financial asset stipulate that the cash flow generated on a specific date is only the payment of principal and interest based on the outstanding principal amount, and the goal of the business model for managing the financial asset is to collect contractual cash flow. The Company classifies the financial assets as financial assets measured at amortized cost. The Company classifies financial assets measured at amortized cost including monetary funds, accounts receivable, and other receivables.

The Company uses the effective interest rate method to recognize interest income for such financial assets, and then performs subsequent measurement based on amortized cost. The gains or losses arising from the impairment or termination of recognition and modification are included in the current profit and loss. Except for the following circumstances, the Company calculates and determines interest income based on the financial asset book balance multiplied by the actual interest rate:

- 1) For financial assets purchased or originated that have suffered credit impairment, the Company has calculated and determined its interest income based on the amortized cost of the financial asset and the credit-adjusted actual interest rate since initial recognition.
- 2) For the financial assets purchased or originated without credit impairment, but become credit impairment in the subsequent period, the Company will calculate and determine the interest according to the amortized cost of the financial asset and the actual interest rate in the subsequent period income. If the financial instrument has no credit impairment due to the improvement of its credit risk in the subsequent period, the Company will use the actual interest rate multiplied by the financial asset book balance to calculate and determine the interest income.

(2) Financial assets classified as fair value measured and their changes included in other comprehensive income

The contractual terms of the financial asset stipulate that the cash flow generated on a specific date is only the payment of principal and interest based on the amount of the outstanding principal, and the business model for managing the financial asset is to both target the contractual cash flow and sell. If the financial asset is the target, the company classifies the financial asset as a financial asset that is measured at fair value and its changes are included in other comprehensive income.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

1. Classification and measurement of financial instruments (Continued)

(2) Financial assets classified as fair value measured and their changes included in other comprehensive income (Continued)

The Company uses the effective interest rate method to recognize interest income for such financial assets. Except for interest income, impairment losses and exchange differences recognized as current gains and losses, the remaining changes in fair value are included in other comprehensive income. When the financial asset is derecognized, the cumulative gains or losses previously included in other comprehensive income are transferred out of other comprehensive income and included in the current profit and loss.

Bills receivable and accounts receivable that are measured at fair value and whose changes are included in other comprehensive income are reported as receivable financing, and other such financial assets are reported as other debt investments, including: Other debt investments due within the year are reported as non-current assets due within one year, and other debt investments with original maturity within one year are reported as other current assets.

(3) Financial assets designated to be measured at fair value through other comprehensive income

For initial recognition, the Company may irrevocably designate non-trading equity instrument investments as financial assets measured at fair value and their changes included in other comprehensive income on the basis of individual financial assets.

Changes in the fair value of such financial assets are included in other comprehensive income, and there is no provision for impairment. When the financial asset terminates the recognition, the accumulated gains or losses previously included in other comprehensive income are transferred from other comprehensive income and included in the retained income. During the period of the Company's investment in the equity instrument, when the Company's right to collect dividends has been established, the economic benefits related to dividends are likely to flow into the Company, and the amount of dividends can be reliably measured, the dividend income will be recognized and included in the current profit and loss. The Company reports on such financial assets in other equity instruments.

Equity instrument investment that meets one of the following conditions is a financial asset measured at fair value through profit or loss the purpose of obtaining the financial asset is mainly for the recent sale; the initial confirmation is part of the centralized management of the identifiable financial asset instrument combination, and there is objective evidence that the short-term gain actually exists in the near future. Profit model; is a derivative (except for derivatives that meet the definition of a financial guarantee contract and are designated as effective hedging instruments).

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

1. Classification and measurement of financial instruments (Continued)

(4) Financial assets classified as fair value through profit or loss

Financial assets that do not meet the requirements for classification as a financial asset measured at amortized cost or measured at fair value and whose changes are included in other comprehensive income, and are not designated as financial assets measured at fair value and whose changes are included in other comprehensive income are classified as Financial assets measured at fair value and their changes are included in the current profit and loss.

The Company uses fair value for subsequent measurement of such financial assets, and the gains or losses resulting from changes in fair value and dividends and interest income related to such financial assets are included in the current profit and loss.

The Company reports such financial assets in transactional financial assets and other non-current financial assets based on their liquidity.

(5) Financial assets specified to be measured at fair value through profit or loss

At initial recognition, if the accounting mismatch can be eliminated or significantly reduced, the individual financial assets irrevocable in nature can be designated as financial assets measured at fair value through profit or loss.

If the hybrid contract includes one or more embedded derivatives and the main contract does not belong to the above financial assets, the Company may designate the whole as a financial instrument that is measured at fair value through profit or loss. Except in the following cases:

- 1 Embedded derivatives do not materially change the cash flow of a hybrid contract.
- 2 When it is first determined whether a similar hybrid contract needs to be split, there is little need for analysis to make it clear that the embedded derivatives it contains should not be split. If the prepayment right of the embedded loan allows the holder to repay the loan in advance with an amount close to the amortized cost, the prepayment right does not need to be split.

The Company uses fair value for subsequent measurement of such financial assets, and the gains or losses resulting from changes in fair value and dividends and interest income related to such financial assets are included in the current profit and loss.

The Company reports such financial assets in transactional financial assets and other non-current financial assets based on their liquidity.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

2. Classification and measurement of financial liabilities

The Company classifies the financial instrument or its component parts as financial liabilities or Equity instruments. Financial liabilities are classified at initial recognition as: financial liabilities measured at fair value and whose changes are included in current profit or loss, other financial liabilities, and derivatives designated as effective hedging instruments.

Financial liabilities are measured at fair value at initial recognition. For financial liabilities that are measured at fair value and whose changes are included in the current profit or loss, the related transaction costs are directly included in the current profit and loss; for other types of financial liabilities, the related transaction costs are included in the initial recognition amount.

The subsequent measurement of financial liabilities depends on their classification:

(1) Financial liabilities measured at fair value through profit or loss

This category includes transactional financial liabilities (including derivatives that are financial liabilities) and financial liabilities designated as at fair value through profit or loss.

Meeting one of the following conditions is a transactional financial liability: the purpose of assuming related financial liabilities is mainly to sell or repurchase in the near future; it is part of a centrally managed portfolio of identifiable financial instruments, and there is objective evidence that the Company recently adopted Short-term profit model; belongs to derivatives, except for derivatives designated as effective hedging instruments and derivatives that comply with financial guarantee contracts. Transactional financial liabilities (including derivatives that are financial liabilities) are subsequently measured at fair value. Except for hedge accounting, all changes in fair value are included in the current profit and loss.

In the initial recognition, in order to provide more relevant accounting information, the Company classifies financial liabilities that meet one of the following conditions as financial liabilities measured at fair value through profit or loss (the designation, once made, may not be revoked):

- 1 can eliminate or significantly reduce accounting mismatches.
- 2 According to the enterprise risk management or investment strategy specified in the official written documents, manage and evaluate the financial liability portfolio or financial assets and financial liabilities based on fair value, and report to key management personnel on the basis of this.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

2. Classification and measurement of financial liabilities (Continued)

(1) Financial liabilities measured at fair value through profit or loss (Continued)

The Company uses fair value for subsequent measurement of such financial liabilities. Except for changes in fair value caused by changes in the Company's own credit risk, other changes in fair value are included in the current profit and loss. Unless the fair value changes caused by the Company's own credit risk changes are included in other comprehensive income, or the accounting mismatch in profit or loss will be caused or expanded, the Company will include all fair value changes (including the amount of its own credit risk changes) into the current profit and loss.

(2) Other financial liabilities

Except for the following items, the Company classifies financial liabilities as financial liabilities measured at amortized cost, The actual interest rate method is adopted for such financial liabilities, and subsequent measurement is made according to the amortized cost, and the gains or losses arising from the termination of recognition or amortization are included in the current profit and loss:

- 1 Financial liabilities measured at fair value through profit or loss.
- 2 Financial assets transfer does not meet the conditions for derecognition or financial liabilities arising from the transfer of transferred financial assets.
- 3 Financial guarantee contracts that are not in the first two categories of this article, and loan commitments that are not subject to the market interest rate for loans that are not in the first category of this article.

Financial guarantee contract refers to a contract that requires the issuer to pay a specific amount to the contract holder who has suffered a loss when the specific debtor fails to pay the debt in accordance with the original or modified debt instrument terms. Financial guarantee contracts that are not designated as financial liabilities measured at fair value and whose changes are included in the current profit or loss, and after the initial confirmation, it is measured according to the higher of the loss reserve amount and the initial confirmation amount after deducting the accumulated amortization amount during the guarantee period.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

3. Termination of financial assets and financial liabilities

(1) Financial assets that meet one of the following conditions shall be terminated:

- 1 The contractual right to receive the cash flow of the financial asset is terminated. Financial assets, which are written off from their accounts and balance sheets.
- 2 The financial assets have been transferred, and the transfer meets the requirements of the “Accounting Standards for Business Enterprises No. 23 – Transfer of Financial Assets” regarding the derecognition of financial assets. The derecognition of financial assets or financial liabilities referred to in this standard means that the enterprise transfers the previously recognized financial assets or financial liabilities from its balance sheet.

(2) Conditions for termination of financial liabilities

If the current obligation of a financial liability (or part of it) has been discharged, the financial liability (or part of the financial liability) is derecognized.

When the Company and the lender sign an agreement to replace the original financial liabilities with new financial liabilities, and the contract terms of the new financial liabilities and the original financial liabilities are substantially different, the original financial liabilities are terminated and a new one is confirmed. Financial liabilities. Or If a substantial change is made to the contractual terms of the original financial liability (or a part thereof), the original financial liability is derecognized and a new financial liability is recognized in accordance with the revised terms; and the difference between the carrying amount and the consideration paid (including the transferred non-cash assets or liabilities assumed) is recognized in profit or loss.

If the Company repurchases part of the financial liabilities, the book value of the financial liabilities as a whole is allocated based on the proportion of the fair value of the continuing recognition portion and the derecognition portion on the repurchase date. The difference between the book value assigned to the derecognition portion and the consideration paid (including the transferred non-cash assets or liabilities assumed) shall be included in the current profit and loss.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

4. Confirmation basis and measurement method of financial asset transfer

In the event of a financial asset transfer, the Company assesses the extent to which it retains the risks and rewards of ownership of financial assets and treats them in the following cases:

- (1) If almost all risks and rewards of ownership of financial assets are transferred, the financial assets are derecognized and the rights and obligations arising or retained in the transfer are separately recognized as assets or liabilities.
- (2) If all the risks and rewards of ownership of financial assets are retained, the financial assets will continue to be recognized.
- (3) There is neither transfer nor retention of almost all risks and rewards of ownership of financial assets (i.e., other than (1), (2)), depending on whether they retain control over financial assets, respectively. The situations are handled as follows:
 - 1 If the financial assets are not retained, the financial assets are derecognised and the rights and obligations arising or retained in the transfer are separately recognized as assets or liabilities.
 - 2 If the control over the financial assets is retained, the relevant financial assets shall continue to be recognized according to the extent to which they continue to be involved in the transferred financial assets, and the related liabilities are recognized accordingly. The extent of continuing involvement in the transferred financial assets refers to the extent to which the Company assumes the risk or reward of changes in the value of the transferred financial assets.

When judging whether the transfer of financial assets satisfies the conditions for derecognition of the above-mentioned financial assets, the principle of substance over form is adopted. The Company divides the transfer of financial assets into the overall transfer and partial transfer of financial assets:

- (1) If the overall transfer of financial assets meets the conditions for derecognition, the difference between the following two amounts is included in the current profit and loss:
 - 1 The book value of the transferred financial assets on the date of termination confirmation.
 - 2 The consideration received for the transfer of financial assets is the amount corresponding to the derecognition portion of the accumulated changes in fair value that is directly recognised in other comprehensive income. The financial assets involved in the transfer are measured at fair value and their changes are included in other comprehensive income (The sum of the financial assets of the income).

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

4. Confirmation basis and measurement method of financial asset transfer (Continued)

(2) If the financial assets are partially transferred and the transferred part as a whole meets the conditions for derecognition, the book value of the financial assets as a whole will be transferred, in the derecognition part and the continuation confirmation part (in this case, the retained service assets should be Depending on the relative fair value of each of the transfer dates, the difference between the following two amounts is included in the current profit and loss:

- 1 The book value of the derecognition part on the date of termination confirmation.
- 2 The amount of the consideration received in the derecognized portion and the amount of the derecognized portion of the accumulated changes in the fair value of other comprehensive income (the financial assets involved in the transfer are financial assets measured at fair value and whose changes are included in other comprehensive income) The sum of assets).

If the transfer of financial assets does not meet the conditions for derecognition, the financial assets continue to be recognized and the consideration received is recognized as a financial liability.

5. Determination of the fair value of financial assets and financial liabilities

For financial assets and financial liabilities of the Company measured at fair value which an actively traded market exists, their fair values are determined based on the prices quoted on the actively traded market; Unless the financial asset has a sales limit period for the asset itself. For financial assets restricted to the asset itself, it shall be determined according to the quotation in the active market after deducting the amount of compensation claimed by the market participants for assuming the risk that the financial assets cannot be sold on the open market during the specified period. Quotations in active markets include quotes for related assets or liabilities, which can be easily and regularly obtained from exchanges, traders, brokers, industry groups, pricing institutions or regulators, and which represent the actual and frequently fair trade transaction are occurring in the market.

For financial assets initially obtained or derived or financial liabilities assumed, fair value is determined based on market transaction prices.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

5. Determination of the fair value of financial assets and financial liabilities (Continued)

For financial assets and financial liabilities which no actively traded market exists, their fair values are determined using valuation techniques; For valuation, the Company adopts those adequate data available and suitable for current situation and valuation techniques supported by other information, and choose input value with same features used by market players for transactions of relevant assets or liabilities, and managed to preferentially use relevant observable input value. Under the circumstance that is unable to obtain observable input value or infeasible, use unobservable input value.

6. Impairment of financial instruments

Based on the expected credit losses, the Company assesses the financial assets measured at amortized cost and the expected credit losses of financial assets, lease receivables, contract asset and financial guaranteed contracts measured at fair value through other comprehensive income.

The expected credit loss refers to the weighted average of the credit losses of financial instruments that are weighted by the risk of default. Credit loss refers to the difference between all contractual cash flows receivable from the contract and all cash flows expected to be received by the Company at the original actual interest rate, and the present value of all cash shortages. Among them, the financial assets purchased or originated by the Company that have suffered credit impairment should be discounted at the credit-adjusted actual interest rate of the financial asset.

The Company for all the contract assets and Bills and accounts receivables, and lease receivables/ Financial lease receivables/Business lease receivables formed by the transactions regulated by the income standard, measures the loss provision based on the amount equivalent to the expected credit loss throughout the entire period.

For financial assets purchased or originated that have suffered credit impairment, on the balance sheet date, only the cumulative changes in expected credit losses for the entire duration of the period since initial recognition are recognized as loss provisions. On each balance sheet date, the amount of change in expected credit losses throughout the useful life is included in the current profit and loss as an impairment loss or gain. Even if the expected credit loss for the entire duration determined on the balance sheet date is less than the amount of expected credit loss reflected in the estimated cash flow at initial recognition, the favorable change in expected credit loss is recognized as an impairment gain.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

6. Impairment of financial instruments (Continued)

In addition to the above-mentioned simplified measurement methods and other financial assets that have been purchased or originated from credit impairment, the Company assesses on each balance sheet date whether the credit risk of relevant financial instruments has increased significantly since initial recognition, and according to The following circumstances measure their loss reserves, confirm expected credit losses and their changes:

- 1) If the credit risk of the financial instrument has not increased significantly since the initial recognition, and in the first stage the loss provision is measured at the amount equivalent to the expected credit loss of the financial instrument in the next 12 months, and calculate the interest income according to the book balance and the actual interest rate.
- 2) If the credit risk of the financial instrument has increased significantly since the initial recognition, However, if credit impairment has not occurred, it is in the second stage. the loss provision is measured at the amount equivalent to the expected credit loss for the entire duration of the financial instrument. And calculate the interest income according to the book balance and the actual interest rate.
- 3) If the financial instrument has suffered credit impairment since its initial recognition, it is in the third stage. The Company measures its loss reserve at an amount equivalent to the expected credit loss for the entire period of the financial instrument, and at the amortized cost and actual interest rate for calculation of interest income.

The increase or reversal of the credit loss provision for financial instruments is included in the current profit and loss as an impairment loss or gain. Except for financial assets that are classified as fair value and whose changes are included in other comprehensive income, credit losses are provided to offset the book balance of financial assets. For financial assets classified as measured at fair value and whose changes are included in other comprehensive income, the Company recognizes its credit loss provisions in other comprehensive income and does not reduce the book value of the financial asset listed in the balance sheet.

In the previous accounting period, the Company has measured the loss provision according to the amount of expected credit losses for the entire duration of the financial instrument, but on the balance sheet date of the current period, the financial instrument is no longer a significant increase in credit risk since initial recognition In the case of the current situation, the Company measures the loss reserve of the financial instrument at the current balance sheet date according to the amount of expected credit losses in the next 12 months, and the resulting amount of the loss reserve is included in the current period as an impairment gain. profit and loss.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

6. Impairment of financial instruments (Continued)

(1) Credit risk increased significantly

The Company uses the available reasonable and evidence-based forward-looking information to determine whether the credit risk of financial instruments defaults on the balance sheet date and the default risk on the initial confirmation date to determine whether the credit risk of the financial instrument has been since the initial confirmation Has increased significantly. For financial guarantee contracts, when the Company applies the financial instrument impairment provisions, the day when the Company becomes the party making the irrevocable commitment is used as the initial confirmation date.

The Company will consider the following factors when assessing whether the credit risk has increased significantly:

- 1) Whether the actual or expected operating results of the debtor have changed significantly;
- 2) Whether the debtor's regulatory, economic or technological environment has undergone significant adverse changes;
- 3) Whether there has been a significant change in the value of the collateral used as debt collateral or the guarantee provided by a third party or the quality of credit enhancement, and these changes are expected to reduce the economic motivation of the debtor to repay the loan within the time limit specified in the contract or affect the probability of default;
- 4) Whether the debtor's expected performance and repayment behaviour have changed significantly;
- 5) Whether the Company's credit management methods for financial instruments have changed, etc.

On the balance sheet date, if the Company judges that a financial instrument has only a low credit risk, the Company assumes that the credit risk of the financial instrument has not increased significantly since initial recognition. If the default risk of financial instruments is low, the borrower has a strong ability to fulfil its contractual cash flow obligations in the short term, and even if there are adverse changes in the economic situation and operating environment in a longer period of time, it may not necessarily reduce the borrower 's performance. The capacity of the flow obligation, the financial instrument is considered to have lower credit risk.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

6. Impairment of financial instruments (Continued)

(2) Financial assets with credit impairment

When one or more events that adversely affect the expected future cash flows of a financial asset occur, the financial asset becomes a financial asset that has suffered a credit impairment. Evidence that credit losses have occurred in financial assets includes the following observable information:

- (1) significant financial difficulty of the issuer or debtor;
- (2) breach of contract by the debtor: such as delinquency or default in interest and principal payments;
- (3) the creditor, for debtor in financial difficulties contractual consideration or legal reasons, granting concession to the debtor that would not be made under other circumstances;
- (4) it becoming probable that the debtor will enter bankruptcy or financial reorganization;
- (5) the disappearance of an active market for that financial asset because of financial difficulties of the issuer;
- (6) A substantial discount during acquisition or sourcing of a financial asset reflects the fact the occurrence of credit losses.

The credit impairment of financial assets may be caused by the joint impacts of multiple events, which may not be necessarily caused by separately identifiable events.

(3) Determination of expected credit losses

The Company assesses the expected credit losses of financial instruments based on individual items and portfolios. When evaluating expected credit losses, it considers reasonable and well-founded information about past events, current circumstances, and future economic situations.

The Company divides financial instruments into different combinations based on common credit risk characteristics. The common credit risk characteristics adopted by the Company include: types of financial instruments, credit risk ratings, ageing portfolios, overdue ageing portfolios, contract settlement cycles, and the debtor's industry. For the individual evaluation criteria of the relevant financial instruments and the characteristics of the combined credit risk, please refer to the accounting policies of the relevant financial instruments.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

6. Impairment of financial instruments (Continued)

(3) Determination of expected credit losses (Continued)

The Company determines the expected credit losses of related financial instruments according to the following methods:

- 1) For financial assets, the credit loss is the present value of the difference between the contractual cash flow that the Company should charge and the expected cash flow.
- 2) For lease receivables, the credit loss is the present value of the difference between the contract cash flow collectable by the Company and the expected cash flow.
- 3) For a financial guarantee contract, the credit loss is the Company's estimated payment to the contract holder for the credit loss, less the Company's expected payment to the contract holder, debtor or any other party. The present value of the difference between the amounts.
- 4) For financial assets that have suffered credit impairment on the balance sheet date but are not purchased or have been credit-impaired, the credit loss is the present value of the financial asset's book balance and the estimated future cash flow discounted at the original effective interest rate. The difference between.

The Company's method of measuring the expected credit loss of financial instruments reflects the following factors: the unbiased probability weighted average amount determined by evaluating a series of possible results; the time value of money; the availability of reasonable and evidence-based information on the balance sheet date about past events, current conditions, and future economic conditions without spending unnecessary additional costs or efforts.

(4) Write down financial assets

When the Company no longer reasonably expects that the contractual cash flow of financial assets can be fully or partially recovered, the book value of the financial asset is directly written down. Such write-downs constitute the derecognition of related financial assets.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XI) Financial instruments (Continued)

7. Offset of financial assets and financial liabilities

Financial assets and financial liabilities are presented in the balance sheet respectively and are not offset with each other. However, the net value after offset is presented in the balance sheet when the following conditions are satisfied:

- (1) The Company has the legal right to offset the recognized amount and such right is exercisable;
- (2) The Company plans to settle by net amount or realize the financial assets and repay the financial liabilities at the same time.

(XII) Bills receivable

The Company's determination method and accounting treatment method of the expected credit loss of bills receivable are detailed in Note (XI) 6. Impairment of financial instruments.

When it is impossible to evaluate the sufficient evidence of expected credit loss at a reasonable cost at the level of a single tool, the Company refers to the historical credit loss experience, combines the current situation and the judgment of the future economic situation, and divides the bills receivable into several combinations based on the characteristics of credit risk and calculate expected credit losses on a combined basis. The basis for determining the combination is as follows:

| Combination name | Basis for determining the combination | Method |
|--------------------------------|---|---|
| Bank acceptance bill portfolio | The drawer has a high credit rating, has not historically defaulted on a bill, has a very low credit loss risk, and has a strong ability to perform its contractual cash flow obligations in the short term | Refer to the historical credit loss experience, combine the current situation and the expected economic situation to measure the expected credit loss |
| Commercial Acceptance bill | The drawer has a high credit rating, has not historically defaulted on a bill, has a high credit loss risk, and has an uncertain ability to perform its contractual cash flow obligations in the short term | Refer to the historical credit loss experience, combine the current situation and the prediction of the future economic situation, compile a comparison table of the age of bills receivable and the expected credit loss rate of the entire duration, and calculate the expected credit loss |

Notes to the Financial Statements

2023 (Expressed in Renminbi)

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XIII) Accounts receivable

For the determination method and accounting treatment method of the expected credit loss of the Company's accounts receivable, please refer to Note III / (IX) 6. Impairment of financial instruments.

For those expected credit losses which sufficient evidence can be assessed at a reasonable cost at the level of a single method, the Company recognised them as credit losses separately.

When it is impossible to assess the sufficient evidence of expected credit loss at a reasonable cost at the level of a single tool, the Company refers to historical credit loss experience, combines the current situation and the judgment of the future economic situation, and divides the receivables into several combinations based on the characteristics of credit risk, and calculate expected credit losses on a combined basis. The basis for determining the combination is as follows:

| Combination name | Basis for determining the combination | Method |
|------------------|---|---|
| Ageing portfolio | The Company makes the best estimate of the proportion of receivables based on past historical experience, and classifies the credit risk portfolio with reference to the ageing of receivable | Calculated according to the comparison table of ageing and expected credit loss rate of the entire duration |

(XIV) Receivables financing

Please refer to Note (XI) 6. Impairment of financial instruments for the determination method and accounting treatment method of the expected credit losses of the company's receivables financing.

(XV) Other receivables

For the determination method and accounting treatment method of the expected credit losses of other receivables of the Company, please refer to Note (XI) 6. Impairment of financial instruments.

For other receivables that are carrying significantly different credit risk from the credit risk of group of other receivables, the Company calculates the expected credit loss on an individual basis. The Company separately determines its credit losses for other receivables that have significant single amounts and have undergone credit impairment after initial recognition.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XV) Other receivables (Continued)

When sufficient evidence of expected credit losses cannot be evaluated at a reasonable cost at the level of a single tool, the Company refers to historical credit loss experience, combines current situations and judgments on future economic situations and divides other receivables into several combinations based on credit risk characteristics, and calculate expected credit losses on a combined basis. The basis for determining the combination is as follows:

| Combination name | Basis for determining the combination | Method |
|---------------------|---|---|
| Risk-free portfolio | According to the nature of the business, it is determined that there is no credit risk, mainly including VAT refunds receivable | The Company refers to the historical credit loss experience, combined with the current situation and the prediction of the future economic situation, calculates the expected credit loss through the default risk exposure and the expected credit loss rate within the next 12 months or the entire duration of the certificate |
| Ageing portfolio | Including receivables other than the above combination, the Company makes the best estimate of the proportion of receivables based on past historical experience, and refers to the ageing of receivables to classify the credit risk portfolio | The Company refers to the historical credit loss experience, combined with the current situation and the prediction of the future economic situation, calculates the expected credit loss through the default risk exposure and the expected credit loss rate within the next 12 months or the entire duration of the certificate |

(XVI) Inventories

1. Inventory categories, issuance pricing method, inventory system, amortization method of low-value consumables and packaging inventories categories

1. Inventory categories

Inventories refer to the finish goods or merchandize, semi-finished products under production process, and materials and items consumed during production or provision of labor services which are held for sale by the Company over the course of ordinary activities. These mainly include raw materials, processing materials, in house semi-finished products and finished goods (merchandizes in stock and work in progress).

2. Valuation of inventories

Inventories are initially measured at cost upon acquisition, which includes procurement costs, processing costs and other costs. The prices of inventories are calculated using weighted average method when they are delivered.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XVI) Inventories (Continued)

1. **Inventory categories, issuance pricing method, inventory system, amortization method of low-value consumables and packaging inventories categories (Continued)**

3. Inventory system

Perpetual inventory system is adopted.

4. Amortization of low-value consumables and packaging

- (1) Low-value consumables are amortized by one-time write-off;
- (2) Packaging materials are amortized by one-time write-off;
- (3) Other supplementary materials are amortized by one-time write-off.

2. **Determination criteria for the net realizable value of inventories and provision for inventory impairment**

When a comprehensive count of inventories is done at the end of the period, provision for inventory impairment is allocated or adjusted using the lower of the cost of inventory and the net realizable value. The net realizable value of stock in inventory (including finished products, inventory merchandize and materials for sale) that can be sold directly is determined using the estimated saleable price of such inventory deducted by the cost of sales and relevant taxation over the course of ordinary production and operation. The net realizable value of material in inventory that requires processing is determined using the estimated saleable price of the finished product deducted by the cost to completion, estimated cost of sales and relevant taxation over the course of ordinary production and operation. The net realizable value of inventory held for performance of sales contract or labor service contract is determined based on the contractual price; in case the amount of inventory held exceeds the contractual amount, the net realizable value of the excess portion of inventory is calculated using the normal saleable price.

Provision for impairment is made according to individual items of inventories at the end of the period; however, for inventories with large quantity and low unit price, the provision is made by categories; inventories of products that are produced and sold in the same region or with the same or similar purpose or usage and are difficult to be measured separately are combined for provision for impairment.

If the factors causing a previous write-off of inventory value has disappeared, the amount written-off is reversed and the amount provided for inventory impairment is reversed and recognized in profit or loss for the period.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XVII) Contract assets

Contract Asset refers to the Company's right to receive consideration for the goods transferred to the customer and which is determined depending on other factors beyond the passage of time. The Company's unconditional (ie, depends only on the passage of time) right to collect consideration from customers is listed separately as receivables.

For the determination method and accounting treatment method of the expected credit losses of the contract assets of the Company, please refer to Note (XI) 6. Impairment of financial instruments.

(XVIII) Long-term equity investments

1. Initial determination of investment costs

- (1) For long-term equity investment formed by business combination, details of accounting policies are set out in "Accounting treatments of business combinations involving entities under common control and entities not under common control" of notes IV/(IV).

- (2) Long-term equity investments obtained through other means

Initial investment costs of long-term equity investment obtained through cash payment is determined by the actual consideration paid. The initial investment cost consists of the expenses directly relevant to the obtainment of the long-term equity investment, taxes and other necessary expenses.

Initial investment costs of long-term equity investment obtained through issuance of equity securities is determined by the fair value of the equity securities issued; trading expenses incurred during insurance or acquisition of equity instrument that may be directly attributable to equity trade can be deducted from the equity.

The initial investment costs of long-term equity investment obtained in an exchange of non-monetary assets is determined using the fair value of the asset surrendered, provided that the asset received in exchange for non-monetary asset has a commercial substance and the fair value of both the asset received and the asset surrendered can be reliably measured, except there is definite evidence that the fair value of the asset received is more reliable; the initial investment costs of a long-term equity investment in a nonmonetary asset exchange that cannot satisfy the above conditions is determined by the carrying amount of the asset surrendered and the amount of relevant taxation payable.

The initial investment costs of a long-term equity investment obtained through debt restructuring is determined based on the fair value.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XVIII) Long-term equity investments (Continued)

2. Subsequent measurement and profit or loss recognition

(1) Cost method

The Company adopts the cost method to record the long-term equity investment which is available for the investee to implement control, using consideration cost as the initial investment cost, and the subsequent additions and disposals would be adjusted to long-term equity investment cost.

Except for the price actually paid for obtaining the investment or the cash dividends or profits declared but not yet distributed which is included in the consideration, the Company recognizes cash dividends or profits declared by the investee as current investment gains.

(2) Equity method

The Company adopts the equity method for accounting of long-term equity investment in joint ventures and associates; where part of the equity investment of the investing party is indirectly held by venture capital institutions, mutual funds, trust companies or similar subjects including unit-linked insurance fund, the investment is measured at fair value, the changes in which are included in the profit and loss.

When the initial investment cost of the long-term equity investment exceeds the share of fair value in the net tangible assets in the investee, the initial investment cost of a long-term equity investment is not adjusted based on such difference. When the initial investment cost is lower than the share of fair value in the net tangible asset in the investee, such difference is recognized in profit or loss for the period.

After the Company acquires a long-term equity investment, it shall, in accordance with its attributable share of the net profit or loss and other comprehensive income realized by the investee, recognize the investment income and other comprehensive income respectively and simultaneously adjust the book value of the long-term equity investment. The Company shall, in the light of the profits or cash dividends that the invested entity declares to distribute, reduce the book value of the long-term equity investment correspondingly. As to any change in owners' equity of the investee other than net profit or loss, other comprehensive income and profit distribution, the Company shall adjust the book value of the long-term equity investment and include such change into the owners' equity.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XVIII) Long-term equity investments (Continued)

2. Subsequent measurement and profit or loss recognition (Continued)

(2) Equity method (Continued)

The Company shall, based on the fair value of identifiable net assets of the invested entity when it obtains the investment, recognize its attributable share of the net profit or loss of the invested entity after it adjusts the net profit of the invested entity. The profit or loss of the unrealized internal transaction between the Company and the associates, joint ventures be deducted with the part attributable to the Company according to the proportion the Company is entitled to, and the gains or losses on investment shall be recognized on such basis.

Recognition of loss in the investee by the Company shall follow this order: firstly, reduce the carrying amount of the long-term equity investments; secondly, if the carrying amount of long-term equity investments is insufficient for such reduction, continue to recognize such investment loss to the extent of the carrying amount of the long-term equity net investment in the investee and reduce the carrying amount of long-term receivables. Finally, after the above treatment, if the Company still bears additional obligations stipulated under the investment contract or agreement, the estimated obligations assumed are recognized as estimated obligations and recognized in profit or loss for the period.

If the investee records a profit subsequently, after reducing the attributable loss that is not yet recognized, the treatment by the Company shall be the reverse of the above order: reverse the carrying balance of estimated obligations already recognized, restore the carrying amount that physically constitute the long-term interests and long-term equity investment in the investee, and recognize investment gain.

3. Change of the accounting methods for long-term equity investments.

(1) Change of measurement at fair value to accounting under equity method

Where the equity investment held by the Company have no control, joint control or significant impact on the investee and that are accounted according to the financial instrument recognition and measurement criteria can place significant impact or carry out common control but cannot control the investee due to addition of investment, the sum of the fair value of the equity investment originally held determined subject to the Accounting Standards for Enterprises No.22-Recognition and Measurement of Financial Instruments and the new investment cost are determined to be the initial investment cost accounted under equity method.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XVIII) Long-term equity investments (Continued)

3. Change of the accounting methods for long-term equity investments. (Continued)

(1) Change of measurement at fair value to accounting under equity method (Continued)

The book value of the long-term equity investment is adjusted by the difference between the fair value shares of the identifiable net assets of the investee on the date of additional investment determined by calculation of the new shareholding proportion after such additional investment and the initial investment cost under equity cost and is included in current non-operating income.

(2) Change of measurement at fair value or accounting under equity method to cost method

The equity investment of the investee held by the Company with no control, joint control or significant impact and accounted according to the financial instrument recognition and measurement criteria, or the long-term equity investment in associates or joint venture originally held that can be controlled due to addition of investment, the sum of the book value of the original equity investment and the cost of new investment is changed to be accounted under cost method and recognized as the initial investment cost when preparing individual financial statements.

The other comprehensive income recognized due to the adoption of cost method for the equity investment held before the date of acquisition shall be accounted on the same basis for the disposal of relevant assets or liabilities of the investee during the disposal of such investment.

Equity investment held before the date of acquisition shall be subject to Accounting Standards for Enterprises No. 22 – Recognition and Measurement of Financial Instruments and the accumulated fair value changes that were originally included in other comprehensive income shall be included in current profit or loss under cost method.

(3) Change of accounting under equity method to measurement at fair value

Where the Company loses common control or significant impact over the investee due to disposal of some of the equity investment, the remaining equity after disposal shall be subject to accounting under Accounting Standards for Enterprises No.22-Recognition and Measurement of Financial Instruments, and the difference between the fair value on the date when the common control or significant impact is lost and the book value is included in current profit or loss.

Other comprehensive income that is recognized due to adoption of the equity method shall be subject to accounting on the same basis for disposal of relevant assets or liabilities of the investee at the time when the equity method is ceased.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XVIII) Long-term equity investments (Continued)

3. Change of the accounting methods for long-term equity investments. (Continued)

(4) Change of cost method to equity method

Where the Company loses the control over the investee due to disposal of some of the equity investment, and the remaining equity after disposal can place common control or significant impact over investee, it should be changed to equity method in preparing individual financial statements and the remaining equity shall be adjusted as if the equity method is adopted at the acquisition.

(5) Change of cost method into measurement at fair value

Where the Company loses the control over the investee due to disposal of some of the equity investment, and the remaining equity after disposal cannot place common control or significant impact over investee, the accounting should be changed and become subject to Accounting Standards for Enterprises No. 22 – Recognition and Measurement of Financial Instruments, and the difference between the fair value on the date when the control is lost and the book value is included in current profit and loss.

4. Disposal of long-term equity investment

When an investing party disposes of long-term equity investment, the difference between its book value and the payment actually acquired shall be included in the current profit or loss. When an investing party disposes of long-term equity investment measured by employing the equity method, accounting treatment of the portion previously included in other comprehensive income shall be made on the same basis as would be required if the invested entity had directly disposed of the assets or liabilities related thereto according to the corresponding proportion.

If the terms, conditions and economic effects of transactions in relation to the disposal of equity investments in subsidiaries, fall in the following one or more situations, regard multiple transactions as a package transaction for accounting treatment:

- (1) these transactions were entered into at the same time or after considering the effects of each other;
- (2) only when regarding these transactions as a whole, can it achieve a complete business result;
- (3) the occurrence of one transaction depends on the occurrence of at least one other transaction;
- (4) a transaction is not economical when treated alone, but is economical when considered with other transactions.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XVIII) Long-term equity investments (Continued)

4. Disposal of long-term equity investment (Continued)

When an entity loses control on its original subsidiary due to partial disposal of equity investment or otherwise, it does not belong to a package transaction, and the accounting treatment shall be differentiated by separate financial statements and consolidated financial statements:

- (1) in separate financial statements, for equity disposed, the accounting treatment for disposal of equity, the difference between the book value and the actual payment is included in current profit or loss. Where the remaining equity after disposal can implement common control or place significant impact over the investee, the equity method is adopted for accounting treatment, and the remaining equity is adjusted as if the equity is adopted at the time of acquisition; where the remaining equity after disposal cannot implement common control or place significant impact over the investee, relevant provisions of Accounting Standards for Enterprises No.22-Recognition and Measurement of Financial Instruments shall be adopted for accounting, and the difference between the fair value on the date when the control is lost and the book value is included in current profit or loss.
- (2) In consolidated financial statements, for the transactions before the loss of control over subsidiaries, the capital reserve (share premium) is adjusted by the difference between the price of disposal and the net asset shares of subsidiaries continuously calculated since the date of acquisition or combination corresponding to the long-term equity investment; where the capital reserve is insufficient, retained earnings are adjusted; at the time of loss of control over subsidiaries, the remaining equity are re-measured according to the fair value at the date of loss of control. The difference between the sum of the price acquired for disposal of equity and the fair value of the remaining equity less shares of net assets constantly calculated since the date of acquisition based on the original shareholding proportion is included in the investment income in the period when the control is lost and is written down to good will. Relevant other comprehensive income related to original equity investment in the subsidiaries is transferred to current investment income at the time of loss of control.

Transactions in relation to the disposal of equity investments in subsidiaries until control is lost belong to a package transaction, and the accounting treatment shall be differentiated by separate financial statements and consolidated financial statements:

- (1) in separate financial statements, the difference between the book value of the long-term equity investment corresponding to disposal price and equity disposed before the loss of control is recognized as investment is recognized other comprehensive income; and transferred to current profit or loss at the time of loss of control.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XVIII) Long-term equity investments (Continued)

4. Disposal of long-term equity investment (Continued)

- (2) in consolidated financial statements, the difference between the accumulated disposal considerations before control is lost and the share of net assets in the subsidiary is recognized as other comprehensive income, and shall be transferred to profit or loss for the period when control was lost.

5. Criteria for determination of common control and significant impact

If the Company collectively control certain arrangement with the other participants as agreed, and the decisions on the activities that may have significant impact on the return of arrangement exit with consistent agreement from participants sharing the control power, then the Company and the other participants are deemed to have common control over certain arrangement, which is joint venture arrangement.

Where the joint venture arrangement is realized through individual entity, it is judged according to relevant agreement that, when the Company is entitled to rights over the net assets of such entity, the entity is a joint venture and adopts equity method for accounting treatment. If judged according to relevant agreement that, the Company has no rights over the net assets of such entity, such entity is joint operation, and the Company recognize the items in relation to the shares in the joint operation and adopts provisions of relevant accounting standards for accounting treatment.

Significant impact refers to the power of an investing party to participate in making decisions on the financial and operating policies of an invested entity, but not to control or jointly control together with other parties over the formulation of these policies. The Company determines, the significant impact is placed on investee in one or more situations as follows after a comprehensive consideration of all facts and situations: (1) dispatching representatives in the board of directors or similar power organ of the investee; (2) participating in the formulation of the financial and operation policies of the investee; (3) having significant deals with the investee; (4) dispatching management personnel to the investee; and (5) providing key technical data to investee.

(XIX) Investment property

Investment property refers to property held to earn rentals or capital appreciation, or both, including land-use rights that have been leased, land-use rights that are held and prepared for transfer after appreciation, and buildings that have been leased. In addition, for the vacant buildings that the Company holds for operating leases, if the board of directors makes a written decision that it is explicitly used for operating leases and that the holdings do not change in the short term, they are also presented as investment property.

Notes to the Financial Statements

2023 (Expressed in Renminbi)

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XIX) Investment property (Continued)

The Company's investment property is recorded at its cost, and the cost of an purchased investment property includes the purchase price, related taxes, and other expenses directly attributable to the asset; the cost of self-constructed investment property is included all necessary expenditures incurred during the construction and before the asset reaches its intended usable condition constitute.

The Company adopts a cost model for subsequent measurement of investment property, and depreciates or amortizes buildings and land use rights according to their estimated useful life and net residual value. The estimated useful life, net residual value rate and annual depreciation (amortization) rate of investment real estate are listed as follows:

| Category | Estimated useful life (year) | Residual value % | Annual depreciation/ amortization % |
|-----------------|---|-----------------------------|--|
| Building | 20-25 | 5 | 4.75-3.8 |

When the use of investment property is changed to self-use purpose, the Company will convert the investment property into fixed assets or intangible assets from the date of change. When the use of self-use property is changed to earn rent or capital appreciation, the Company will convert fixed assets or intangible assets into investment real estate since the date of change. When the conversion occurs, the book value before the conversion is taken as the converted value.

When the investment property is disposed of or is permanently withdrawn from use and it is expected that no economic benefit can be obtained from its disposal, the recognition of the investment property shall be terminated. The amount of proceeds from disposal of investment property sold, transferred, scrapped or damaged after deducting its book value and related taxes and fees is charged to profit or loss for the current period.

(XX) Fixed assets

1. Recognition of fixed assets

Fixed assets refer to tangible assets held for the production of merchandize, provision of labor services, renting or operational management with useful life over one accounting year. Fixed assets are recognized when all of the following conditions are met:

- (1) economic benefits related to such fixed assets are likely to flow into the enterprise;
- (2) costs of such fixed assets can be reliably measured.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XX) Fixed assets (Continued)

2. Initial measurement of fixed assets

The fixed assets of the Company are initially measured at cost.

- (1) The cost of the externally purchased fixed assets include the purchase price, the import duties, and the other expenditure direct attributable to such assets for such assets to be available for its intended use.
- (2) The cost of a self-constructed fixed asset consists of all necessary expenses incurred for enabling the asset to be available for its intended use.
- (3) The cost invested to a fixed asset by the investor is determined according to the value agreed upon in the investment contract or agreement. Where the valued agreed upon in the said investment contract or agreement is unfair, the said cost will be determined according to the fair value of the asset.
- (4) Where the price for purchase of the fixed assets exceeds the deferred payment on normal credit terms with substantial financing nature, the cost is determined on the basis of the present value of the purchase price. The difference between the actual payment and the purchase price, besides being capitalized, shall be included in current profit or loss during the credit period.

3. Subsequent measurement and disposal of fixed assets

- (1) Depreciation of fixed assets

The depreciation of fixed assets is provided within the estimated useful life based on the value carried less the expected net residue. For fixed assets with impairment provided, the depreciation can be determined based on the book value less the provision for impairment in future period and the remaining useful life. No depreciation is provided for still in use but fully depreciated assets.

The Company determines the useful life and estimated residual value of fixed assets based on their nature and use condition. The useful life, estimated residual value and method of depreciation of fixed assets are re-assessed at the end of the period, corresponding adjustment is made when any difference from the originally estimated amount is found.

Notes to the Financial Statements

2023 (Expressed in Renminbi)

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XX) Fixed assets (Continued)

3. Subsequent measurement and disposal of fixed assets (Continued)

(1) Depreciation of fixed assets (Continued)

The period of depreciation and depreciation ratio of different categories of assets are as follows:

| Category | Method of depreciation | Period of depreciation (year) | Residual ratio (%) | Annual depreciation ratio (%) |
|------------------------|------------------------|-------------------------------|--------------------|-------------------------------|
| Buildings | Average year method | 20-25 | 5 | 4.75-3.8 |
| Machinery | Average year method | 5-10 | 5 | 19-9.5 |
| Electronic equipment | Average year method | 5 | 5 | 19 |
| Transportation vehicle | Average year method | 4-5 | 5 | 23.75-19 |
| Other equipment | Average year method | 5 | 5 | 19 |

(2) Subsequent expenses of fixed assets

For subsequent expenses in relation to fixed assets, those that comply with the recognition criteria for fixed assets are included in the costs of fixed assets; those that do not are included in current profit or loss at the time of incurrence.

(3) Disposal of fixed assets

A fixed asset is derecognized when the disposal or expected use or disposal of such fixed asset cannot create any economic benefits. The disposal income from sale, transfer, retirement or damage of fixed assets is recognized in profit or loss for the period after deducting its carrying amount and relevant taxation.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXI) Constructions in progress

The self-constructed constructions in progress of the Company are measured at actual cost, which consist of the necessary expenses required for bringing such constructions to the expected useable conditions including the cost of construction materials, labor costs, relevant taxes, borrowings capitalized.

The initial book values of the fixed assets are stated at total expenditures incurred before construction in progress reaching the working condition for their intended use. For construction in progress that has reached working conditions for its intended use but for which the completion of settlement has not been handled, it shall be transferred into fixed assets at the estimated value according to the project budget, construction price or actual cost, etc. from the date when it reaches the working conditions for its intended use. And the fixed assets shall be depreciated in accordance with the Company's policy on fixed asset depreciation. Adjustment shall be made to the originally and provisionally estimated value based on the actual cost after the completion of settlement is handled, but depreciation already provided will not be adjusted.

(XXII) Borrowing expenses

1. Principles of recognizing capitalization of borrowing expenses

The loan expenses of the Company directly attributable to the construction or production of an asset meeting capitalization conditions are capitalized and recognized in relevant asset costs; other loan expenses are recognized as expenses based on the amount incurred and recognized in profit or loss for the period.

An asset that meets the capitalization conditions refers to fixed assets, real estate investments and inventories that require a considerable amount of time for construction or production to reach the expected usable or saleable condition.

Loan expenses are capitalized when all of the following conditions are met:

- (1) the asset expense has occurred, which includes expenses in the form of cash paid, non-monetary asset transferred or interest-bearing obligations assumed for the construction or product of an asset that meets capitalization conditions;
- (2) the loan expenses have occurred;
- (3) the necessary construction or production activities for bringing the asset to the expected usable or saleable conditions have started.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXII) Borrowing expenses (Continued)

2. Capitalization period of borrowing expenses

Capitalization period refers to the time starting from the loan expenses are capitalized to the time capitalization is stopped, except for the period which capitalization of loan expenses is suspended.

When the construction or production of an asset meeting capitalization conditions has reached expected useful or saleable conditions, the capitalization of loan expenses is stopped.

When the a portion of the construction or production of an asset meeting capitalization conditions has completed and can be used individually, the capitalization of loan expenses of such portion of asset is stopped.

When portions of the construction or production of an asset have been completed but will only become useful or saleable after the entire asset is completed, the capitalization of loan expenses is stopped when the entire asset is completed.

3. Suspension of capitalization period

Capitalization of loan expenses is suspended when any abnormal interruption continues for over three months during the construction or production of an asset that meets capitalization conditions. If such interruption is a necessary procedure for the construction or production of the asset that meets capitalization conditions, the loan expenses are continued to be capitalized. The loan expenses incurred during the interruption are recognized as profit or loss for the period, and capitalization of loan expenses continues when the construction or production activities of the asset resumes.

4. Calculation of capitalized amount of borrowing expenses

Interest expenses of special loans (net of interest income from unutilized loans deposited in bank or investment gain earned from temporary investment) and supplementary expenses incurred for the construction or production of asset that meets capitalization conditions before the asset reaches expected useable or saleable condition are capitalized.

The interest amount that should be capitalized on normal borrowings is calculated based on the weighted average of expenses of the aggregate asset exceeding the expenses of the portion of special loan multiplied by the capitalization ratio of the normal borrowings utilized. Capitalization ratio is calculated based on normal weighted average interest rate.

When there is discount or premium in the loan, the discount or premium to be amortized in each accounting period is determined using effective interest method and the interest amount for each period is adjusted.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXIII) Right-of-use assets

The Company initially measures the right-of-use assets at cost, which includes:

- 1) The initial measurement amount of the lease liability;
- 2) If the lease payment is paid on or before the start of the lease period, if there is a lease incentive, the relevant amount of the lease incentive already enjoyed shall be deducted;
- 3) The initial direct costs incurred by the Company;
- 4) The Company expects to incur costs (not including costs incurred for the production of inventory) in order to dismantle and remove the leased assets, restore the premises where the leased assets are located, or restore the leased assets to the state agreed in the lease terms.

After the start date of the lease period, the Company uses the cost model for subsequent measurement of right-of-use assets.

If it is reasonable to determine the ownership of the leased asset when the lease term expires, the Company shall make depreciation within the remaining useful life of the leased asset. If it cannot be reasonably determined that the ownership of the leased assets can be obtained at the end of the lease period, the Company shall accrue depreciation within the shorter of the lease period and the remaining useful life of the leased assets. For the right-of-use asset with impairment provision, in the future period, the depreciation shall be accrued according to the book value after deducting the impairment provision with reference to the above principles.

The Company, in accordance with the provisions of Enterprise Accounting Standard No. 8 – Asset Impairment, determines whether impairment occurred on the right of use assets and accounts for any identified impairment losses. For details, please refer to Note (XXV) Impairment of long-term asset.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXIV) Intangible assets and development expenses

Intangible assets refer to the identifiable non-monetary assets owned or controlled by the Company which have no physical form, including land use rights, proprietary technology, software, and others.

1. Initial measurement of intangible assets

The cost of externally purchased intangible assets includes the purchase price, relevant taxation and other expenses directly attributable to bringing the asset to expected usage. If payment for the price of intangible assets purchased is delayed beyond normal credit conditions and is in fact financing in nature, the cost of the intangible asset is determined based on the present value of the purchase price.

For intangible asset obtained through debt restructuring for offsetting the debt of the debtor, the entry value of the intangible asset is determined based on its fair value, and the difference between the carrying amount of the restructured debt and the fair value of the intangible asset used for offsetting the debt is recognized in profit or loss for the period.

The entry value of intangible asset received in an exchange for non-monetary asset is based on the fair value of the asset surrendered, provided that the asset received in exchange for non-monetary asset has a commercial substance and the fair value of both the asset received and the asset surrendered can be reliably measured, except there is definite evidence that the fair value of the asset received is more reliable; for exchange of nonmonetary asset that cannot satisfy the above conditions, the cost of the intangible asset received is based on the carrying amount of the asset surrendered and the amount of relevant taxation payable, and no profit or loss is recognized.

For intangible asset obtained through business absorption or combination of entities under common control, the entry value is determined by the carrying amount of the combined party; for intangible asset obtained through business absorption or merger of entities not under common control, the entry value is determined by the fair value of the intangible asset.

The cost of an internally developed intangible asset include: the materials consumed in developing the intangible asset, labor costs, registration fees, amortization of other patented rights and licensed rights used during the development process, interest expenses meeting capitalization conditions, and other direct costs for bringing the intangible asset to expected usage.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXIV) Intangible assets and development expenses (Continued)

2. Subsequent measurement

The Company determines the useful life of intangible assets on acquisition, which are classified as intangible life with limited life and indefinite life.

(1) Intangible asset with a limited life

Intangible asset with a limited life is depreciated using straight line method over the term which it brings economic benefit to the Company. The estimated useful life and basis for the intangible assets with a limited life are as follows:

| Item | Estimated useful life | Basis |
|------------------------|-----------------------|----------------------------|
| Land use right | 50 years | Title certificate |
| Proprietary technology | 3-8 years | Expected period of benefit |
| Software | 3 years | Expected period of benefit |

The estimated useful life and basis of intangible assets are as follows:

The useful life and depreciation method of intangible assets with limited life are re-assessed at the end of the period. If necessary, corresponding adjustments would be made.

(2) Intangible assets with indefinite useful life

If the term of economic benefit the intangible asset can bring to the Company cannot be estimated, it is deemed to be an intangible asset with indefinite life. Intangible assets with indefinite useful life are as follows:

| Item | Basis |
|---|--|
| Membership of Mission Hills Golf Club China | It is determined as an intangible asset with indefinite life since it is a life membership |

Intangible assets with indefinite useful life are not amortized during the holding period. The useful life of intangible assets with indefinite life is re-assessed at the end of each period. If it is re-assessed to remain indefinite at the end of the period, impairment tests shall be conducted during reach accounting period.

Upon re-assessment, the useful life of this type of intangible assets was still indefinite.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXIV) Intangible assets and development expenses (Continued)

3. Specific criteria in dividing the research stage and development stage of internal research and development projects of the Company

Research stage:

The stage of original planned investigation and research activities to acquire and understand new scientific or technical knowledge.

Development stage:

The stage of activities that apply research results or other knowledge to a plan or design to produce new or substantially improved materials, devices, products, etc. before commercial production or use.

The expenses incurred in the research stage of internal research and development projects are recognized as expense in profit or loss for the period.

4. Specific criteria of capitalization for expenses during development stage

The expenses during development stage of internal research and development projects are recognized as intangible asset when all of the below conditions are met:

- (1) it is technically feasible to complete the intangible asset to bring it to useable or saleable conditions;
- (2) there is intention to complete the intangible asset for use or sale;
- (3) there is a way for generating economic benefits from the intangible asset, including the ability to prove there exists a market for products produced using the intangible asset or there exists a market for the intangible asset itself; for intangible asset to be used internally, its usability can be proved;
- (4) there is sufficient support in the areas of technology, financial and other resources to complete the development of the intangible asset, and there is the ability to use or sell the intangible asset;
- (5) the expenses attributable to the development stage of the intangible asset can be reliably measured.

The expenses during development stage that do not comply with the conditions above are included current profit or loss on incurrence. If it is impossible to distinguish between the expenditure belongs to research stage or development stage, all the R&D expenditures will be included in the current profit and loss. The cost of intangible assets formed by internal development activities only includes the total expenditures incurred upon capitalization conditions are met that intangible assets for intended purpose. The expenditures that has been expensed into profit and loss before the capitalization conditions of the same intangible asset in the development process will not be adjusted.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXV) Impairment of long-term assets

The Company makes a judgment on whether there is any sign of possible long-term assets impairment on the balance sheet date. Where there is any evidence indicating a possible impairment of assets, the Company shall, on the basis of single item assets, estimate the recoverable amount. Where it is difficult to do so, it shall determine the recoverable amount of the group assets on the basis of the asset group to which the asset belongs.

The estimate of the recoverable amount of the assets are determined at the higher of the net amount of the fair value less the disposal expenses and the present value of the estimated future cash flows.

Where the measurement result of the recoverable amount indicates that the recoverable amount of the long-term asset is lower than its carrying value, the carrying value of the asset shall be recorded down to the recoverable amount, and the reduced amount shall be recognized as the loss of asset impairment and be recorded as the profit or loss for the current period. Simultaneously, a provision for the asset impairment shall be made accordingly. Once the asset impairment loss is recognized, it will not be reversed for the value recovered in the subsequent periods.

After the loss of asset impairment has been recognized, the depreciation or amortization expenses of the impaired asset shall be adjusted accordingly in the future periods so as to amortize the post-adjustment carrying value of the asset systematically (deducting the expected net salvage value) within the residual service life of the asset.

No matter whether there is any sign of possible assets impairment, the business reputation formed by the merger of enterprises and intangible assets with uncertain service lives shall be subject to impairment test every year.

When making an impairment test on the relevant asset groups or combination of asset groups containing goodwill, if any evidence shows that the impairment of asset groups or combinations of asset groups is possible, the Company shall first make an impairment test on the asset groups or combinations of asset groups not containing the goodwill, calculate the recoverable amount, compare it with the relevant carrying value and recognize the corresponding impairment loss. Then the Company shall make an impairment test of the asset groups or combinations of asset groups containing goodwill, and compare the carrying value of these asset groups or combinations of asset groups (including the carrying value of the goodwill apportioned thereto) with the recoverable amount. Where the recoverable amount of the relevant assets or combinations of the asset groups is lower than the carrying value thereof, it shall recognize the impairment loss of the goodwill.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXVI) Long-term expectation of amortization of expenses

1. Amortization method

Long-term amortization refers to the expenditure incurred by the Company should be charged to the current and subsequent periods if the amortization period is over one year. The long-term amortization expenses shall be amortized in installments according to the straight-line method during the beneficial periods.

2. Amortization period

| Category | Amortization Years | Remarks |
|-----------------------|--------------------|---------|
| Leasehold Improvement | 6 years | |

(XXVII) Contract Liability

Contract Liability refers to the Company's obligation to provide goods to the customer for the consideration received.

(XXVIII) Employee Compensation

Employee compensation refers to all kinds of remunerations and other relevant reimbursements made by enterprises to their employees in exchange for services of said employees, including short-term employee remuneration, post-employment benefits, termination benefits and other long-term employee benefits.

1. Short-term remuneration

Short-term remuneration refers to the employee compensation in addition to post-employment benefits and termination benefits, which are required to be fully paid within 12 months upon the annual reporting period when the employees provide relevant services. During the accounting period when the employees provides services, the Company recognizes the short-term remuneration payable as liabilities and includes them into relevant asset costs and expenses according to benefits from the services provided by employees.

2. Post-employment benefits

"Post-employment benefit" refers to all kinds of remunerations and benefits other than short-term remuneration and termination benefits that are provided by the Company after the retirement of the employees or termination of labor ration with enterprises in exchange for services provided by employees.

The Company's post-employment benefits are categorized as defined contribution plans and defined benefit plans.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXVIII) Employee Compensation (Continued)

2. Post-employment benefits (Continued)

The defined contribution plans under the post-employment benefits are mainly for the participation in the social basis endowment insurance and unemployment insurance organized and carried out by local labor and social guarantee authorities. During the accounting period when the employees provide services for the Company, the payable amount of defined contribution plans is recognized as liabilities and included in current profit or loss or relevant costs of assets.

The Company has no other payment obligations after making the above-mentioned payment periodically according to the standards specified by the country.

3. Termination benefits

Termination benefit refers to indemnity provided by enterprises for employees for the purpose of terminating labor relation with the employees before the expiry of the labor contract or encouraging employees to accept downsizing voluntarily. When the earlier of Company cannot unilaterally withdraws the employment relations or cut-down proposals and the date of confirmation of relevant cost and expenses on paying termination benefits, those liabilities arising from the confirmed terminations is charged to profit or loss for the period.

The Company provides early retirement benefits to those employees who accepted early retirement arrangement. Early retirement benefits mean payment of those salaries and paid social insurance and other expenses made to those who are under the government regulated retirement age and their early retirement were approved by the Company's management. The Company will pay early retirement benefits to those employees from the early retirement date to normal retirement date and consider the cost as liability and one-off charge to the profit and loss for the period. Difference arising from change in assumption on actuarial calculation and change in benefit standards, will be charged to profit or loss for the period when it incurs.

4. Other long-term employee benefit

Other long-term employee benefits refer to all the employee compensations other than short-term remuneration, post-employment benefits and termination benefits.

For other long-term employee benefits qualified for defined contribution plans, during the accounting period when the employees provide services for the Company, the amount payable is recognized as liabilities and included in current profit and loss or relevant asset cost; in any other circumstances, the other long-term employee benefits are calculated by actuary with the expected accumulative benefit unit method on balance sheet date, and benefit obligations arising from defined benefit plans attributable to the period when the employees provide services, and are included in current profit or loss or relevant asset costs.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXIX) Lease liability

The Company initially measures the lease liability according to the present value of the lease payments that have not been paid on the beginning of the lease period. When calculating the present value of the lease payment, the Company uses the interest rate implicit in the lease as the discount rate; if the interest rate embedded in the lease cannot be determined, the Company's incremental borrowing rate is used as the discount rate. Lease payments include:

- 1) The fixed payment amount and the actual fixed payment amount after deducting the leasing incentive related amount;
- 2) Variable lease payments depending on index or ratio;
- 3) When the Company reasonably determines that the option will be exercised, the lease payment includes the exercise price of the purchase option;
- 4) When the lease term reflects that the Company will exercise the option to terminate the lease, the lease payment includes the amount to be paid for the exercise of the option to terminate the lease;
- 5) The expected payment due to the residual value of the guarantee provided by the Company.

The Company calculates the interest expense of the lease liability in each period of the lease period at a fixed discount rate, and it is included in the current profit and loss or related asset costs.

Variable lease payments that are not included in the measurement of lease liabilities should be included in current profit or loss or related asset costs when they actually occur.

(XXX) Income

The company's revenue mainly comes from the following business types:

Sales of automotive diagnostic products, sales of lift products, sales of software products, etc.

1. General principles of revenue recognition

The Company has fulfilled the performance obligations in the contract, that is, when the customer obtains control of the relevant goods or services, the revenue is recognized at the transaction price allocated to the performance obligation.

The performance obligation refers to the commitment of the Company to transfer the goods or services that can be clearly distinguished to the customer in the contract.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXX) Income (Continued)

1. General principles of revenue recognition (Continued)

Obtaining control of related commodities means being able to lead the use of the commodities and obtain almost all economic benefits from them.

The Company evaluates the contract on the contract start date, identifies the individual performance obligations contained in the contract, and determines whether the individual performance obligations are performed within a certain period of time or at a certain point in time. If one of the following conditions is met, it is a performance obligation performed within a certain period of time. The Company recognizes revenue within a period of time according to the progress of the performance: (1) The customer obtains and consumes the Company's performance office while the Company is performing the contract Economic benefits brought; (2) The customer can control the goods under construction of the Company during the performance of the contract; (3) The goods produced by the Company during the performance of the contract have irreplaceable uses, and the Company has the right to Receiving money for the accumulated performance part that has been completed so far. Otherwise, the Company recognizes revenue when the customer obtains control of the relevant goods or services.

For the performance obligations performed within a certain period of time, the Company uses the output method/input method to determine the appropriate performance progress based on the nature of the goods and services. The output method is to determine the performance progress based on the value of the commodities that have been transferred to the customer (the input method is to determine the performance progress based on the Company's investment to fulfil the performance obligation). When the performance progress cannot be reasonably determined, if the Company 's already incurred costs are expected to be compensated, revenue is recognized according to the amount of costs incurred until the performance progress is reasonably determined.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXX) Income (Continued)

2. Specific methods for revenue recognition

The Company fulfills its performance obligations in the contract, that is, when the customer obtains control of the relevant goods or services, the revenue is recognized.

Where the contract includes two or more performance obligations, the Company shall distribute the transaction price to each individual performance obligation according to the relative proportion of the individual sales price of the goods or services promised by each individual performance obligation on the contract start date, and measures income according to the apportionment to the transaction price of each individual performance obligation.

The transaction price is the amount of consideration that the Company expected to receive for the transfer of goods or provision of services to customers, not including payments received on behalf of third parties. The transaction price recognized by the Company would not exceed the amount that the accumulative recognized income is unlikely to undergo a major reversal when the relevant uncertainty is eliminated. The amount that is expected to be refunded to the customer is considered as a return liability and is not included in the transaction price. Where there is a significant financing component in the contract, the Company determines the transaction price based on the amount payable in cash when the customer assumed control of the goods or services. The difference between the transaction price and the contract consideration is amortized using the effective interest method during the contract period.

When one of the following conditions is met, the Company is subject to performance obligations during a certain period of time; otherwise, it is subject to performance obligations at a certain point in time:

- The customer obtains and consumes the economic benefits brought by the performance of the Company;

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXX) Income (Continued)

2. Specific methods for revenue recognition (Continued)

- The customer is able to control the goods under construction during the Company's performance;
- The products produced during the performance of the Company have irreplaceable uses, and the Company has the right to receive payments for the part of the performance that has been completed so far throughout the contract period.

For the performance obligations performed during a certain period of time, the company recognizes the income according to the progress of the performance during that period. If the performance of the Company cannot be reasonably determined, if the cost incurred by the Company is expected to be compensated, the revenue will be recognized according to the amount of cost incurred, until the performance of the performance can be reasonably determined.

For performance obligations performed at a certain point in time, the Company confirms revenue when the customer obtains control of the relevant goods or services. In determining whether a customer has obtained control of a good or service, the Company will consider the following signs:

- The Company has the current right to receive payment for the goods or services;
- The Company has transferred the physical goods of the goods to the customer;
- The Company has transferred the legal ownership or the main risks and rewards of ownership of the goods to the customer;
- The customer has accepted the goods or services, etc.

The Company has the right to transfer the goods or services to the customer and is entitled to receive the consideration (and the rights are subject to other factors than the passage of time) as contract assets. The Company has the right to charge the customer's consideration as unconditionally (depending on the passage of time) as a receivable. The obligation of the Company to transfer goods or services to customers after receiving or receivable customer considerations is presented as contract liabilities.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXX) Income (Continued)

2. Specific methods for revenue recognition (Continued)

The specific accounting policies related to the main activities of the Company's income are as follows:

- ① Export business: after the contract is signed, the Company organizes production according to the contract. There are different modes of settlement when the good is delivered: where the acquirer designates shipping company under FOB mode, income is recognized when bill of landing is obtained after the good crossed the ship's rail, and the export declaration shall be approved by the custom; where the seller arranges freight and transport insurance under CIF mode, income is recognized when bill of landing is obtained after the good crossed the ship's rail, and the export declaration shall be approved by the custom; where the acquirer designates delivery point under mode DDU, income is recognized when receipt is provided by the acquirer and the entitlement of payment is obtained; where the good is delivered in the place in which the Company is located or other designated places (such as airport) under mode EXW, income is recognized when the delivery is finished and delivery receipt is obtained.
- ② Domestic business: under the distributor model, income is recognized when the good is delivered and the amount is received or the proof of its receipt is obtained; for key customers and government procurement projects, income is recognized when the good is delivered, the sales invoice from the sales department is received, and the outbound order of the warehouse is received with the confirmation notice from the customs.
- ③ Software product sales: the Company's software upgrade products and control has been delivered to customers, and revenue is recognized after completion of related services.

3. Principles of revenue processing for specific transactions

- (1) For sales with sales return terms, the company contract with sales return clause
When the customer obtains control of the relevant goods, the revenue is recognized according to the amount of consideration expected to be received due to the transfer of the goods to the customer (that is, excluding the amount expected to be returned due to sales return), and the liability is recognized according to the amount expected to be returned due to sales return. The original book value of the goods is expected to be returned, and the balance after deducting the estimated cost of recovering the goods (including the impairment of the value of the returned commodity) recognized as an asset, the net carry-over cost of the above-mentioned asset cost shall be deducted according to the book value at the time of transfer of the transferred goods.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXX) Income (Continued)

3. Principles of revenue processing for specific transactions (Continued)

- (2) Contracts with quality assurance clauses
Evaluate whether the quality assurance provides a separate service in addition to assuring customers that the goods sold meet established standards. If the Company provides additional services, it shall be accounted for as a single performance obligation in accordance with the income standards; otherwise, the quality assurance responsibility shall be accounted for in accordance with the contingent accounting standards. Otherwise, the company will account for the quality assurance responsibility in accordance with the provisions of Enterprise Accounting Standard No. 13 - Contingencies.

- (3) Sales contract with the customer's additional purchase option
Customers' additional purchase options include sales incentives, customer reward points, renewal options, and future goods, or other discounts of the service, etc., For the additional purchase option that provides customers with significant rights, the company will take it as single performance obligation. When the customer exercises the option to purchase the right to obtain control of relevant goods or services in future, or the option expires, the corresponding income will be recognized. If the individual price of the customer's additional purchase option cannot be directly observed, the relevant information including the difference between the discount that the customer can exercise the option or not, and the possibility of the customer exercising the option, etc., estimations will be comprehensively considered by the Company.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXXI) Contract costs

1. Contract performance cost

The Company recognizes the cost of contract performance as an asset for the cost of performing the contract as meeting:

- (1) The cost is directly related to a current or expected contract, including direct labor, direct materials, manufacturing expenses (or similar expenses), clear costs borne by the customer, and other costs incurred solely for the contract;
- (2) This cost increases the resources that the Company will use to fulfill its performance obligations in the future;
- (3) The cost is expected to be recovered.

The asset is presented in inventory or other non-current assets based on whether the amortization period at the time of initial recognition exceeds a normal business cycle.

2. Contract obtainment cost

If the incremental cost of the Company is expected to be recovered, the contract acquisition cost is recognized as an asset. Incremental cost refers to the cost that the Company will not occur without obtaining a contract, such as sales commission. For the amortization period not exceeding one year, it is included in the current profit and loss when it occurs.

3. Amortization of contract costs

For assets related to contract cost stated above, the Company recognizes the contract performance cost and the contract acquisition cost on the same basis as the commodity income related to the contract cost asset, and amortizes it at the time when the performance obligation is performed or in accordance with the performance of the performance obligation, and is included in the current profit and loss.

4. Contract cost impairment

For assets related to contract cost stated above, the book value is higher than the difference between the Company's expectation that the goods related to the asset are expected to obtain the remaining consideration and the estimated cost of transferring the relevant goods, and the excess should be accessed, and confirmed as asset impairment losses.

After the impairment provision is accrued, if the factors of impairment in the previous period change, so that the above two differences are higher than the book value of the asset, the asset impairment provision previously accrued is transferred back to the current profit and loss, but it is transferred. The book value of the asset after the return does not exceed the book value of the asset on the date of reversal under the assumption that no impairment provision is made.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXXII) Government subsidies

1. Classification

Government subsidies refer to monetary and non-monetary assets received from the government without compensation. According to the subsidy object stipulated in the documents of relevant government, government subsidies are divided into subsidies related to assets and subsidies related to revenue.

Government subsidies related to assets is obtained by the Company for the purposes of constructing or forming long-term assets in other ways. Government subsidies related to revenue refer to the government subsidies other than those related to assets.

2. Recognition of government subsidies

Where evidence shows that the Company complies with relevant conditions of policies for financial supports and are expected to receive funds rapidly at the end of the period, the amount receivable is recognized as the government subsidies. Otherwise, the government subsidy is recognized upon receipt.

Government subsidies in the form of monetary assets are stated at the amount received or receivable. Government subsidies in the form of non-monetary assets are measured at fair value; if fair value cannot be obtained, a nominal amount (RMB1) is used. Government subsidies that are measured at nominal amount shall be recognized in profit or loss for the period directly.

3. Accounting treatment

Government subsidies related to assets should be offset from the book value of related assets or recognized as deferred income. Government subsidies related to assets are recognized as deferred income, and are recognized under reasonable and systematic approach, in profit and loss income in each period over the useful term of the constructed or purchased asset.

Government subsidies related to revenue aimed at compensating for relevant expenses or losses to be incurred by the enterprise in subsequent periods are recognized as deferred income once received, and are recognized as non-operation income in the periods when relevant expenses are recognized. Government subsidies aimed at compensating for relevant expenses or losses the enterprise that are already incurred are charged to profit and loss or offset relevant root directly once received.

Government subsidies related to daily activities of enterprises are included in other income; government grants that are not related to daily activities of enterprises are included in non-operating income and expenditure.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXXII) Government subsidies (Continued)

3. Accounting treatment (Continued)

The government subsidy related to the discount interest received from policy-related preferential loans offsets the relevant borrowing costs; if the policy-based preferential interest rate loan provided by the lending bank is obtained, the borrowing amount actually received shall be taken as the recording value of the borrowings, and borrowing cost should be calculated using the preferential interest rate according to the loan principal and the policy.

Otherwise, the company will account for the quality assurance responsibility in accordance with the provisions of Enterprise Accounting Standard No. 13 - Or Events.

(XXXIII) Deferred tax assets and deferred tax liabilities

Deferred tax assets and deferred tax liabilities are measured and recognized based on the difference (temporary difference) between the taxable base of assets and liabilities and book value. On balance sheet date, the deferred tax assets and deferred tax liabilities are measured at the applicable tax rate during the period, when it is expected to recover such assets or repay such liabilities.

1. Criteria for recognition of deferred income tax assets

The Company recognizes deferred income tax assets arising from deductible temporary difference to the extent it is probably that future taxable amount will be available against which the deductible temporary difference can be utilized. However, the deferred income tax assets arising from the initial recognition of assets or liabilities in transactions with the following features are not recognized: (1) the transaction is not a business combination; or (2) neither the accounting profit or the taxable income or deductible losses is affected when the transaction occurs.

For deductible temporary difference in relation to investment in the associates, corresponding deferred income tax assets are recognized in the following conditions: the temporary difference is probably reversed in a foreseeable future and it is likely that taxable income is obtained for deduction of the deductible temporary difference in the future.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXXIII) Deferred tax assets and deferred tax liabilities (Continued)

2. Criteria for recognition of deferred income tax liabilities

The Company recognizes deferred income tax liabilities on the temporary difference between the taxable but not yet paid taxation in the current and previous periods, excluding:

- (1) temporary difference arising from the initial recognition of goodwill;
- (2) transactions or events arising from no business combination, and neither the accounting profit or the taxable income (or deductible losses) is affected when the transaction or event occurs;
- (3) for taxable temporary difference in relation to investment in subsidiaries or associates, the time for reversal of the difference can be controlled and the difference is probably not reversed in a foreseeable future.

(XXXIV) Lease

On the contract start date, the Company evaluates whether the contract is a lease or includes a lease. If a party in a contract cedes the right to control the use of one or more identified assets for a certain period of time in exchange for consideration, the contract is a lease or includes a lease.

1. Spin-off of lease contract

When the contract contains multiple separate leases at the same time, the Company will split the contract and separate the individual leases for accounting treatment.

When the contract includes both lease and non-lease parts, the Company will split the lease and non-lease parts, and the lease part will be accounted for in accordance with the leasing standards, and the non-lease part shall be accounted for in accordance with other applicable corporate accounting standards.

2. Merger of lease contracts

When two or more contracts including leases entered into by the Company and the same party or its related parties at the same time or at a similar time meet one of the following conditions, they will be merged into one contract for accounting treatment:

- (1) The two or more contracts are concluded based on the overall business purpose and constitute a package of transactions, and the overall business purpose cannot be understood unless considered as a whole.
- (2) The consideration of one of the two or more contracts depends on the pricing or performance of other contracts.
- (3) The asset use rights transferred from the two or more contracts constitute a separate lease.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXXIV) Lease (Continued)

3. The accounting treatment of the Company as the lessee

At the beginning of the lease period, in addition to short-term leases and low-value asset leases that use simplified processing, the Company recognizes right-of-use assets and lease liabilities for leases.

- (1) Short-term lease and lease of low-value assets
Short-term leases refer to leases that do not include purchase options and the lease period does not exceed 12 months. Low-value asset leases refer to leases with low value when the individual leased assets are brand new assets.
- (2) For the accounting policies of right-of-use assets and lease liabilities, see Note (XXIII) Right-of-use assets and Note (XXIX) Lease liabilities

4. The accounting treatment of the Company as the lessor

(1) Classification of lease

The Company divides the lease into financing lease and operating lease on the lease start date. Finance lease refers to a lease that substantially transfers almost all the risks and rewards related to the ownership of leased assets, and its ownership may or may not be transferred eventually. Operating leases refer to leases other than finance leases.

If a lease has one or more of the following situations, the Company is generally classified as a financial lease:

- 1) At the end of the lease term, the ownership of the leased asset is transferred to the lessee.
- 2) The lessee has the option to purchase the leased asset. The purchase price concluded is sufficiently low compared to the fair value of the leased asset when the option is expected to be exercised. Therefore, the lease can be reasonably determined at the start date of the lease to exercise the option.
- 3) Although the ownership of the assets is not transferred, the lease period accounts for most of the service life of the leased assets.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXXIV) Lease (Continued)

4. The accounting treatment of the Company as the lessor (Continued)

(1) Classification of lease (Continued)

- 4) At the start of the lease, the present value of the lease receipt is almost equivalent to the fair value of the leased asset.
- 5) The leased assets are of a special nature and only the lessee can use them without major renovation.

If a lease has one or more of the following signs, the company may also be classified as a financial lease:

- 1) If the lessee cancels the lease, the loss caused by the cancellation of the lease to the lessor shall be borne by the lessee.
- 2) The gains or losses resulting from the fluctuation of the fair value of the residual value of the assets belong to the lessee.
- 3) The lessee has the ability to continue to lease to the next period at a rent far below the market level.

(2) Accounting treatment of financial lease

On the beginning of the lease period, the Company confirms the financial lease receivables for the financial lease and terminates the recognition of the financial lease assets.

In the initial measurement of finance lease receivables, the sum of the unguaranteed residual value and the current value of the lease receipts that have not been received at the beginning of the lease period discounted at the interest rate included in the lease is taken as the book value of the finance lease receivables. Lease receipts include:

- 1) The fixed payment amount and the actual fixed payment amount after deducting the leasing incentive related amount;
- 2) Variable lease payments depending on index or ratio;
- 3) When it is reasonably determined that the lessee will exercise the purchase option, the lease receipt includes the exercise price of the purchase option;

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXXIV) Lease (Continued)

4. The accounting treatment of the Company as the lessor (Continued)

(2) Accounting treatment of financial lease (Continued)

- 4) The lease term reflects the situation where the lessee will exercise the option to terminate the lease, and the lease receipt includes the amount that the lessee needs to pay to exercise the option to terminate the lease;
- 5) The residual value of the guarantee provided to the lessor by the lessee, a party related to the lessee and an independent third party who is financially capable of performing the guarantee obligation.

The Company calculates and confirms the interest income in each period of the lease period according to the fixed lease interest rate. The variable lease payments obtained that are not included in the net measurement of the lease investment are included in the current profit and loss when they actually occur.

(3) Accounting treatment of operating lease

The Company uses the straight-line method or other systematic and reasonable methods in each period of the lease period to confirm the lease receipts of operating leases as rental income; the initial direct expenses related to operating leases that are capitalized during the lease period are The rental income is recognized on the same basis and is allocated and included in the current profit and loss in installments; the variable lease payments obtained that are not included in the lease receipts and related to operating leases are included in the current gain and loss when they actually occur.

(XXXV) Repurchase shares

The consideration and transaction fees incurred in the repurchase of the Company's shares to reduce the shareholders' rights and interests, the Company's shares are repurchased, transferred or cancelled, not recognised as current profits or losses.

When the Company repurchases shares, recorded in the Treasury Shares according to the consideration and transaction costs actually paid. When the Company cancels treasury shares, the share capital shall be reduced according to the face value of the stock and the number of cancelled shares, and the capital reserve shall be reduced according to the difference between the book balance and the face value of the cancelled treasury shares. If the capital reserve is insufficient, the surplus reserves and undistributed profits shall be offset.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

(XXXVI) Changes in key accounting policies and accounting estimates

1. Changes in accounting policies

- (1) Impact of implementing Enterprise Accounting Standard Interpretation No. 16 on the Company

On 13 December 2022, the Ministry of Finance issued the Interpretation of Enterprise Accounting Standards No. 16 (Accounting [2022] No. 31, hereinafter referred to as “Explanation No. 16”), explaining the accounting treatment No. 16: “The accounting treatment of the initial recognitions exemption of inapplicability of Deferred income tax related to assets and liabilities arising from individual transactions” will come into effect from 1 January 1 2023, allowing the enterprise to implement it in advance from the release year, and the Company implemented the accounting treatment related to the matter in advance in the current year; Enterprises are allowed to implement it in advance from the release year. The company will implement the accounting treatment related to this matter this year.

Implementation of “The accounting treatment of the initial recognition exemption of inapplicability of the deferred income tax related to assets and liabilities arising from individual transactions” has no significant impact on the previous and current financial statements.

- (2) Impact of the Implementation of Enterprise Accounting Standard Interpretation No. 17 on the Company

On 25 October 2023, the Ministry of Finance issued the Interpretation of Enterprise Accounting Standards No. 17 (Accounting [2023] No. 21, hereinafter referred to as “Explanation No. 17”), The company will implement the “accounting treatment of after-sales leaseback transactions” from 25 October 2023.

The implementation the “Accounting treatment of after-sales leaseback transactions” from 25 October 2023 and has no significant impact on the financial statements for the reporting period.

2. Changes in accounting estimates

There is no change in the significant accounting estimates during the reporting period.

V. EXPLANATORY NOTES FOR MAIN ITEMS IN CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(4) Accounts receivable (Continued)

4. Expected credit losses of accounts receivable disclosed by categories (Continued)

1. Ageing Portfolio (Continued)

Explanations of the basis for determination of the portfolio:

The best estimates for the proportion of provision for the accounts receivable has been made according to the pass experience, and classified the credit risk portfolio with reference to the ageing of the accounts receivable.

The Company mainly offered credit terms from 30 to 210 days to trading customers. Customers with good and long term records or major customers, or for those the Company decided to maintain long term operation relationship, would be offered different credit terms.

The ageing of the not-past-due and overdue accounts receivable are as follows:

| Items | Ending balance | | | Beginning balance | | |
|--------------|------------------|---------------|----------------|-------------------|---------------|----------------|
| | Carrying balance | Provision | Book value | Carrying balance | Provision | Book value |
| Not past due | 201,753,057.41 | 10,087,652.87 | 191,665,404.54 | 156,094,252.67 | 7,804,712.63 | 148,289,540.04 |
| Overdue | 51,733,008.52 | 15,461,834.80 | 36,271,173.72 | 46,274,177.85 | 20,019,427.79 | 26,254,750.06 |
| Total | 253,486,065.93 | 25,549,487.67 | 227,936,578.26 | 202,368,430.52 | 27,824,140.42 | 174,544,290.10 |

V. EXPLANATORY NOTES FOR MAIN ITEMS IN CONSOLIDATED FINANCIAL STATEMENTS (Continued)

3. Other Explanations on Goodwill

Launch Europe GmbH

As of 31 December 2023, the company measured the impairment of the goodwill formed by the acquisition of Launch Europe GmbH at a discount rate of 12.30% according to the expected cash flow. After testing, no signs of impairment were found, and there was no need to make provision for impairment for the goodwill balance.

V. EXPLANATORY NOTES FOR MAIN ITEMS IN CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(17) Goodwill (Continued)

3. Other Explanations on Goodwill (Continued)

LAUNCH TECH (USA), INC.

As of 31 December 2023, the Company appointed Shenzhen Changji Asset Appraisal Real Estate Land Valuation Co., Ltd. to perform goodwill impairment assessment for LAUNCH TECH (USA), INC. with the objective to ascertain the recoverable amount of the asset group by using current value of the expected future cash flow of the asset group is calculated by the income method.

According to The financial budget approved by LAUNCH TECH (USA), INC.'s management, to forecast future cash flow, and the management prepared the above financial budget based on past performance and its expectations for market development. The pre-tax discount rate used to calculate the present value of future cash flow is 12.30%. After testing, no signs of impairment were found, and there was no need to make an impairment provision for the above-mentioned goodwill balance.

According to the evaluation results of the Changji's Review Report (2024) No. 019 "Asset Evaluation Report" issued by Shenzhen Changji Asset Evaluation Real Estate Land Valuation Co., Ltd. hired by the Company, as of 31 December 2023, the current value of the future cash flow of the asset group containing goodwill is expected to be RMB72.55 million, higher than the book value of the asset group including goodwill is 55,000,000, which is lower than the book value of the asset group including goodwill of 69,689,200, and the impairment of goodwill is 14,689,200.

深圳市易心志成諮詢有限合夥企業(有限合夥) ("SYXZC")

As of 31 December 2023, the company engaged Shenzhen Changji Asset Evaluation Real Estate Land Valuation Co., Ltd. to conduct an impairment test on the goodwill formed by the acquisition, and used the market method to evaluate the recoverable amount of the asset group.

According to the evaluation results of the Asset Assessment Report (2024) No. 019 [2024] issued by Shenzhen Changji Asset Assessment Real Estate Land Valuation Co., Ltd. hired by the company, as of 31 December 2023, the estimated future cash flow value of the asset group including goodwill is RMB25,712,400, which is higher than the book value of the asset group including goodwill of RMB24,590,000, and the goodwill is not impairment.

V. EXPLANATORY NOTES FOR MAIN ITEMS IN CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(32) Deferred income (Continued)

2. Other explanations of deferred income (Continued)

- e. Representing the amount of RMB3.00 million subsidy for the Special fund for industrial design development allocated by the Shenzhen Economic and Trade and Information Commission, pursuant to the document Shenzhen Economic and Trade Information Budget [2018] Document 173, received in 2018 which will be mainly for the construction project of Launch Tech Industrial Design Centre. The R&D project passed the acceptance inspection on 1 July 2021, of which 3 million related to assets began to be amortized according to the 38-month remaining useful life of assets from 1 July 2021.
- f. According to the document No. 12599 of Shenzhen Science and Technology Innovation [2022], the Company received a 2022 major special report from the Shenzhen Science and Technology Innovation Commission in 2022 and 2023. The funds for the key technology research and development project of the 5G-based Launch Tech's automobile diagnosis system is RMB3.0 million which is mainly for sourcing of project related equipment. As of 31 December, 2023, the equipment payment has been paid in advance, and the booked assets will be amortized according to the useful life of the assets.

(33) Share capital

| Items | Beginning balance | Issuance of new shares | Increase(+)/Decrease(-) in current period | | | | Sub-total | Ending balance |
|------------------------|-------------------|------------------------|---|-----------------------|----------------|----------------|----------------|----------------|
| | | | Bonus shares | Transfer from reserve | Others | | | |
| Total number of shares | 432,216,600.00 | - | - | - | -16,428,500.00 | -16,428,500.00 | 415,788,100.00 | |

Explanation of changes in share capital:

On 28 June 2023, the Company's annual general meeting, the H shareholders meeting and the domestic shareholders meeting passed the resolution on granting the general authorization of the Company's board of directors to repurchase the Company's H shares: the total face value of the purchase of H-shares will not exceed 10% of the total face value of H shares one the date of passing such the special resolution. Since 14 August 2023, the company has successively repurchased the shares issued. As of 12 November 2023, the company has repurchased a total of 16,428,500 shares. As of 30 November 2023, all the repurchased shares have been cancelled, and the total number of shares of the Company has changed from 432,216,600 shares to 415,788,100 shares.

V. EXPLANATORY NOTES FOR MAIN ITEMS IN CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(34) Capital reserves

| Items | Beginning balance | Increase | Decrease | Ending balance |
|---------------------------------|-------------------|----------|---------------|----------------|
| Capital premium (share premium) | 409,992,867.94 | – | 16,191,703.80 | 393,801,164.14 |
| Other capital reserve | 1,688,836.62 | – | 1,688,836.62 | – |
| Total | 411,681,704.56 | – | 17,880,540.42 | 393,801,164.14 |

Explanations:

- (1) Since 14 August 2023, the Company has successively repurchased the shares issued abroad. As of 12 November 2023, the company has repurchased a total of 16.4285 million shares, with a total consideration of RMB32,620,203.80. As of 30 November 2023, all the repurchased shares have been cancelled, and the total number of shares of the company has changed from 43,2,216,600 shares to 41,578,81 million shares, resulting in a change in capital reserve of 16,191,703.80 yuan.
- (2) On 31 December 2023, the Company acquired the control of SMDT through combination of enterprises under the same control. SMDT changed from a joint venture to a subsidiary within the scope of the consolidation, causing other capital reserve decrease by RMB1,688,836.62. For details, please refer to Notes VI. (1) The scope of combination of enterprises not under same control.

(35) Treasury shares

| Item | Beginning | Additions | Reductions | Ending |
|-------------|-----------|---------------|---------------|--------|

IX. DISCLOSURE OF RISKS IN RELATION TO FINANCIAL INSTRUMENTS

The Company's main financial instruments include bank balances and cash, other equity instrument investments, loans, account receivables, account payables, etc. The Company may face all kinds of financial risks in its operating activities: credit risks, liquidity risks and market risks (mainly foreign exchange risk and interest rate risk). The overall risk management plan of the Company focuses on the unpredictability of the financial market and strives to reduce potential adverse impact on the financial results of the Company.

(I) Credit risks

Credit risk refers to the risk that the counter-party fails to perform its contractual obligations and causes the Company to generate financial losses. The management has formulated certain credit policies and constantly supervise the exposure to such credit risks.

The Company has adopted a policy of trading only with creditworthy counter-parties. In addition, the Company evaluates the customer's credit qualifications and sets the corresponding credit period based on the financial status of the customer, the possibility of obtaining guarantees from third parties, credit history and other factors such as current market conditions. The Company continuously monitors the balance of receipts and receivables and the recovery of the accounts. For customers with poor credit records, the Company will use written reminders, shorten the credit period or cancel the credit period to ensure that the Company does not face major Credit loss. In addition, the Company reviews the recovery of financial assets on each balance sheet date to ensure that the relevant financial assets are fully prepared for expected credit losses.

Other financial assets of the Company include bank balances and cash, other receivables, etc. The credit risk of these financial assets arises from the counterparty default, and the maximum credit risk exposure is the carrying amount of each financial asset in the balance sheet. The Company does not provide any other guarantees that may expose the company to credit risk.

Notes to the Financial Statements

2023 (Expressed in Renminbi)

IX. DISCLOSURE OF RISKS IN RELATION TO FINANCIAL INSTRUMENTS (Continued)

(I) Credit risks (Continued)

Bank balance and cash held by the Company are mainly deposited in financial institutions such as state-controlled banks and other large to medium size commercial banks. The management believes that, the commercial banks have good reputation and asset status with low credit risks, and no significant credit risk and no significant losses from breach of contracts are expected. The Company's policy is to control the amount of deposits in the deposits based on the market reputation, scale of operations and financial background of each well-known financial institution to limit the amount of credit risk to any individual financial institution.

As part of the Company's credit risk asset management, the Company uses the division of overdue time to assess the impairment losses of accounts receivable and other receivables. The Company's accounts receivable and other receivables involve a large number of customers, and the overdue time information can reflect the solvency and bad debt risk of these customers for accounts receivable and other receivables. Based on historical data, the Company calculates the historical actual bad debt rate for different overdue periods and considers the current and future economic conditions. For example, the forward-looking information such as national GDP growth rate, total capital investment, and national monetary policy are adjusted to obtain the expected loss rate.

As of 31 December 2023, the book value of the underlying assets and the expected credit impairment losses are as follows:

| | Book value | Expected impairment loss on credit |
|-------------------------------|----------------|------------------------------------|
| Ageing | | |
| Trading financial assets | 6,052,715.96 | – |
| Accounts receivable financing | 7,522,612.37 | – |
| Bills receivable | 31,838,754.62 | 13,676.24 |
| Accounts receivable | 253,486,065.93 | 25,549,487.67 |
| Other receivables | 85,578,054.39 | 38,612,658.26 |
| Investment | 20,590,231.57 | – |
| Total | 405,068,434.84 | 64,175,822.17 |

As of 31 December 2023, receivables of top five customers of the Company accounted for 17.54% (2022: 9.05%) of the total receivables of the Company.

IX. DISCLOSURE OF RISKS IN RELATION TO FINANCIAL INSTRUMENTS (Continued)

(II) Liquidity risks

Liquidity risk refers to the risk that the Company may not obtain sufficient funds in time to satisfy the demands for business development or repayment of the debts when due and other payment obligations. Each member company of the Company is responsible for its cash flow forecast. The finance department of the Company constantly supervises the short-term and long-term demands for funds of the Company to make sure to maintain sufficient cash reserve; and meanwhile, the department also supervises compliance with loan agreements, the commitment from major financial institutions for sufficient reserve funds to satisfy the short-term and long-term demands for funds. In addition, the Company entered into a credit line banking facilities agreement with the major business banks to provide support for the Company's obligations related to commercial bills. As of 31 December 2023, the Company has bank credit lines provided by various domestic banks, amounting to RMB295,295,000, of which RMB350 million has been utilized.

As of 31 December 2023, all the financial assets and financial liabilities and of balance sheet guarantees of the Company are presented at undiscounted contractual cash flows by maturity date as follows:

| Item | Fall due | Ending balance | | | | | Total |
|--|----------------|-------------------|---------------|---------------------|---------------|--------------|----------------|
| | | Within 1 month | 1-3 months | 3 months- 1 year | 1-5 years | Over 5 years | |
| Short-term borrowings | 177,991,686.07 | | | | | | 177,991,686.07 |
| Bills payable | 163,898,887.83 | | | | | | 163,898,887.83 |
| Other payables | 19,918,026.85 | | | | | | 19,918,026.85 |

Notes to the Financial Statements

2023 (Expressed in Renminbi)

IX. DISCLOSURE OF RISKS IN RELATION TO FINANCIAL INSTRUMENTS (Continued)

(III) Market risks

1. Exchange rate risk

The principal places of operation of the Company are located in China and the major businesses are settled in RMB. However, the recognized foreign currency assets and liabilities as well as the foreign currency transactions in the future (the functional currency of foreign assets and liabilities as well as the transactions are mainly USD and Euro) remain exposed to exchange rate risks. The finance department of the Company is in charge of supervising the foreign currency transaction and the size of foreign assets and liabilities so as to reduce the exposure to exchange rate risks.

- (1) No forward foreign contract has been signed by the Company during the year.
- (2) as of 31 December 2023, the amounts of financial assets and financial liabilities in foreign currency held by the Company that is converted to RMB are presented as follows:

| Item | USD | Ending balance | | | Total |
|---|----------------|----------------|--------------|--------------|----------------|
| | | Euro | JPY | HKD | |
| Foreign currency financial assets: | | | | | |
| Bank balance and cash | 77,819,667.14 | 22,344,807.86 | 1,265,769.61 | 2,344,204.83 | 103,774,449.44 |
| Accounts receivable | 129,324,017.08 | 58,789,123.62 | | | 188,113,140.70 |
| Other receivables | 190,895.76 | 16,633,387.16 | | | 16,824,282.92 |
| Sub-total | 207,334,579.98 | 97,767,318.64 | 1,265,769.61 | 2,344,204.83 | 308,711,873.06 |
| Foreign currency financial liabilities: | | | | | |
| Short-term borrowings | | 785,920.00 | | | 785,920.00 |
| Accounts payable | 16,644,756.11 | 8,541,095.06 | | | 25,185,851.17 |
| Other payables | 10,635,382.32 | 4,114,173.70 | 289.15 | | 14,749,845.17 |
| Sub-total | 27,280,138.43 | 13,441,188.76 | 289.15 | | 40,721,616.34 |

IX. DISCLOSURE OF RISKS IN RELATION TO FINANCIAL INSTRUMENTS (Continued)

(III) Market risks (Continued)

1. Exchange rate risk (Continued)

(3) Sensitivity analysis:

As of 31 December 2023, for the financial assets and financial liabilities of the Company in USD, Euro HKD and JPY, if RMB appreciates by 10% against USD, EUR, HKD and JPY with other factors remaining unchanged, the net profits of the Company will reduce by approximately 23,322,761.29 (2022: RMB9,158,628.62). If the RMB depreciates by 10.00% against the USD, Euro, HKD and JPY, and other factors remain unchanged, the Company will increase its net profit by approximately 28,505,597.11 (2022: approximately RMB11,193,879.42).

2. Interest rate risks

The interest rate risk of the Company mainly comes from the bank borrowing. Financial liabilities with floating interest rate expose the Company to interest rate risk in cash flows; financial liabilities with fixed interest rate expose the Company to interest rate risk in fair value. The Company determines the comparative proportion of fixed rate and floating rate according to the market environment.

The finance department of the Company constantly supervise the interest rate level of the Company. Rise in the interest level will increase the cost of interest-bearing debts and the interest expenses of interest-bearing debts with floating rate that have not yet been repaid, and may have material adverse impact on the financial results of the Company. The management will make timely adjustment according to the latest market conditions.

- (1) The Company had no interest rate swap arrangement during the year.
- (2) As of 31 December 2023, the Company's long-term interest-bearing debt is the contract with floating interest rate dominated in RMB, and the value is RMB195,295,000.00. See Note V (30) for details.
- (3) Sensitivity analysis:

As of 31 December 2023, if the interest rate of the loan with floating rate rises or falls by 50 basis points with the other factors remaining unchanged, the net profits of the Company reduces or increases by approximately RMB990,037.15 (2022: approximately RMB1,107,175.00).

It is assumed in the sensitivity analysis above that, changes in interest rate occurred on the balance sheet date and were applied to all borrowings of the Company with floating rate.

IX. DISCLOSURE OF RISKS IN RELATION TO FINANCIAL INSTRUMENTS (Continued)

(III) Market risks (Continued)

3. Price risks

Price risk refers to the risk of volatility caused by changes in market prices other than exchange rate risk and interest rate risk, mainly from changes in commodity prices, stock market indexes, equity instrument prices, and other risks.

X. FAIR VALUE

(I) Financial instrument measured at fair value

The Company presents the book value of the financial asset instruments measured at fair value on 31 December 2023 at three levels of fair value. When the fair value is classified into three levels as a whole, it is based on the lowest level among the three levels of the important input values used in the fair value measurement. The three levels are defined as follows:

Level 1: unadjusted quote for the same assets or liabilities that can be obtained on the measurement date in an active market;

Level 2: input value that is directly or indirectly observable for related assets or liabilities other than the input value of the level 1;

Level 2 of input values includes: 1) quotations for similar assets or liabilities in an active market; 2) quotations for identical or similar assets or liabilities in an inactive market; 3) observable inputs other than quotations, including in normal quotations Observable interest rate and yield curves, implied volatility and credit spreads during the interval; 4) Market-proven input values, etc.

Level 3: An unobservable input value of the underlying asset or liability.

X. FAIR VALUE (Continued)

(II) Fair value measurement

1. Continuous fair value measurement

| Items | Ending Fair value | | | Total |
|---|----------------------|---------------------|----------------------|----------------------|
| | Level 1 | Level 2 | Level 3 | |
| Trading financial assets | 2,041,866.64 | 4,010,849.32 | | 6,052,715.96 |
| Accounts receivable financing | | | 7,522,612.37 | 7,522,612.37 |
| Investment in other equity instruments | | | 20,590,231.57 | 20,590,231.57 |
| Total | 2,041,866.64 | 4,010,849.32 | 28,112,843.94 | 34,165,559.90 |

(III) Basis for determining the market price of continuous and non-sustainable first-level fair value measurement projects

Unadjusted quotation of the same assets or liabilities available on the measurement day in the active market.

(IV) For projects of continuous and non-continuous second-level fair value measurement, qualitative and quantitative information of valuation technology and important parameters

It is a direct or indirect observable input value of relevant assets or liabilities in addition to the input value of the first level;

The second level of input values includes: 1) quotations of similar assets or liabilities in the active market; 2) quotations of similar assets or liabilities in non-active markets; 3) other observable input values other than quotations, including interest rate and yield curves, implied volatility and credit interest that can be observed during the normal quotation interval. Differences; 4) Input values of market verification, etc.

X. FAIR VALUE (Continued)

(V) Qualitative and quantitative information on the valuation techniques used and important parameters for the continuous and non-continuous third-level fair value measurement projects

For certain projects invested in other equity instruments that are not traded in an active market, valuation techniques are used to determine their fair value. The valuation model used is mainly a discounted cash flow model.

For certain projects invested in other equity instruments that are not traded in an active market, since the Company holds relatively low equity in the investee, it has no significant impact, and it is not feasible to use the income method or the market method to evaluate the equity value of the investee, and recently, there is the no information relating to introduction of new external investors nor transfer of equity between shareholders of the investee, as a reference for determining the fair value. In addition, the Company has not found that significant change in the internal and external environment of the investee during the year, so the book value of the net assets of the investee is used as the basis for assessing its fair value.

(VI) Continuous fair value measurement project, the conversion between various levels in the current period, the reason for the conversion and the policy to determine the time of conversion

The company's above-mentioned continuous fair value measurement items have not been converted between various levels this year.

(VII) Valuation technology changes and reasons for changes during the current period

The fair value valuation technology of the company's financial instruments has not changed this year.

(VIII) Fair value of financial assets and financial liabilities not measured at fair value

Financial assets and liabilities not measured at fair value mainly include: accounts receivable, short-term loans, payables, and non-current liabilities due within one year.

The difference between the book value of the above financial assets and liabilities not measured at fair value and the fair value is small.

XI. RELATED PARTIES AND CONNECTED TRANSACTIONS

(1) The ultimate controlling shareholder of the Company

The ultimate controlling shareholder of the Company is Mr. Liu Xin.

(2) Details of subsidiaries of the Company are set out in note VII (1) “Equity interests in subsidiaries”.

(3) Joint operation and associate

For details of the Company’s significant joint operation and associate, please refer to Note VII (2) Interests in joint operation and associate.

Joint operation and associate in which the Company has a related party transaction or a balance caused by a related party transaction in the previous period is as follows:

(4) Other related parties

| Name | Relation |
|--------------------------------|--|
| Liu Jun | Brother of beneficial controller |

- (1) About the patent dispute between the Company and Shenzhen Daotonghe Innovation Energy Co., Ltd. (“DTH”)(2021) Beijing 73 Minchu No. 1017

On 18 August 2021, DTH, Shenzhen Yijian Automobile Service Technology Co., Ltd. (“YJ”) claimed that the product named X431ADASmobile automotive diagnostic equipment (“Infringing Products”) jointly produced by the Company, Beijing Jianzhidao Automobile Technology Service Co., Ltd. (“JZD”) infringed on its patent right of ZL201920361723.2, utility models (hereinafter referred to as the patent involved in the case), and sued the Beijing Intellectual Property Court, requiring the Company and YJ to stop infringement and compensate for economic losses of RMB3 million and reasonable expenses of RMB500,000, a total of RMB3.5 million. After the first trial judgment, the court ruled that the Company was infringed and liable to a compensation of RMB120,000 Yuanzheng The Company appealed against the result of the judgment. At present, the second trial has been held in the Supreme People’s Court on 4 March 2024, and has not yet been sentenced.

- (2) About the dispute over the breach of contract of Agreement No. 29834 between the Company and Shenzhen Daotonghe Innovation Energy Co., Ltd. (2023)

On 16 August 2022, Shenzhen Daotong Technology Co., Ltd. (hereinafter referred to as Daotong) claimed that the Company had breach of contract in violation of the Settlement Agreement (signed by the Company and Daotong on 26 October 2017). Daotong’s alleged breach of contract includes but is not limited to: First, the company filed a lawsuit with the Shenzhen Intermediate People’s Court on 5 November 2019 (case number: (2019) Guangdong 03 Minchu No. 4301); Second, the Company filed a request for invalidation of four utility model patent rights of Daotong Company and its affiliates on 8 May 2021. Daotong believed that the above behavior constituted a breach of the Settlement Agreement, so it sued the People’s Court of Nanshan District, Shenzhen, and asked the company to immediately pay a liquidated damages of 20 million yuan and bear the case acceptance fee, preservation fee and other expenses.

After the first trial judgment, the court rejected all the claims of Daotong. Daotong appealed against the first trial judgment. At present, the case has been heard in the Shenzhen Intermediate People’s Court, and the current case is still under discussion.

Except for the above contingent matters, as of 31 December 2023, the Company has no other material contingent matters that is required to be disclosed.

XII. POST-BALANCE SHEET EVENTS

(II) Profit distribution

According to the 2023 profit distribution proposal approved by the Company's board of directors, based on the total share capital of 415,788,100.00, a dividend of RMB0.24 (tax inclusive) per share will be distributed to all shareholders, with a total dividend of RMB99,789,144.00 (tax inclusive).

Other than the above-mentioned balance sheet future matters, as of the approval date of the Financial report, there is no material post-balance sheet event which is required to be disclosed but has not been disclosed.

XIII. OTHER SIGNIFICANT EVENTS

(I) Segment information

1. Determination criterion and accounting policies for reporting segment

Operating segments of the Company are identified on the basis of internal organization structure, management requirements and internal reporting system. An operating segment represents a component of the Company that satisfied the following criteria simultaneously:

- (1) its business activities are engaged to earn revenue and incur expenses;
- (2) its operating results are regularly reviewed by the Company's management to make decisions on resources allocation performance assessment;
- (3) its financial information, operating results, cash flow and related accounting information is available to the Company.

The Company determines the reporting segment based on the operating segment, and the operating segment that meets any of the following conditions is determined as the reporting segment:

- (1) The segment income of the operating segment accounts for 10% of total income of all segments or more;
- (2) The absolute amount of profit (losses) of the segment account for 10% of the higher of the absolute amount of total profits of the profiting segment and the absolute amount of total losses of the unprofitable segment or more.

XIII. OTHER SIGNIFICANT EVENTS (Continued)

(I) Segment information (Continued)

1. Determination criterion and accounting policies for reporting segment (Continued)

Where the proportion of the total external revenue of the operating segment determined to be reporting segments according to the accounting policies above does not amount to 75%, the number of reporting segments should be increased; operating segments that are not determined to be reporting ones can be included in the scope of reporting ones according to the following rules till the proportion reaches 75%:

- (1) The operating segments, which the management believes may be useful for users of accounting information if their information is disclosed, are determined as reporting segments;
- (2) one or more operating segments with economic features with similar features that are qualified for combination the operating segment are combined as one reporting segment.

The transfer price among segments is determined with reference to the market price, and assets used joint by segments and relevant expenses are distributed among segments according to the proportion of income.

2. Factors considered when determine reportable segments of the Company, types of products and services of reportable segments

Reporting segments of the Company are business units providing different products and services. As each business requires different skills and market strategies, each segment is managed independently.

The Company has three reporting segments: automotive diagnosis segment, Europe Overseas Sales segment and US. overseas sales segment. The automotive diagnosis segment covers research and development, production and sales of automotive diagnostic and inspection products. The Europe Overseas Sales segment covers development and maintenance of European distributors and customers. The U.S. Overseas Sales segment covers development and maintenance distributors and customers in the Americas.
