ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

1. ABOUT THE REPORT

Ding Yi Feng Holdings Group International Limited and its subsidiaries (together, the “Group” or “we”) are pleased to present our Environmental, Social and Governance (“ESG”) Report (“ESG Report”) for the year ended December 31, 2023 (“Reporting Period”) which discusses the Group’s long-term commitment to economic, social and environmental sustainability at all levels. The ESG report is published in the Group’s annual report and on the HKEX’s and the Group’s website.

1.1 Scope and Reporting Boundary

The scope of the ESG Report covers the environmental and social performances of the Group’s principal business. The Group is principally engaged in investing in listed and unlisted securities which are mainly operating in Hong Kong or the People’s of Republic of China (“PRC”). The “Reporting Period” or “FY2023” is spanning over the period from January 1 to December 31, 2023.

While we seek to establish a consistent boundary for reporting ESG aspects across the Group’s structure, the reporting boundary of the ESG Report is hence established based on the criteria that all operations and entities reported are substantially owned by the Group and are under our management. As a result, we do not report entities which are outside of the Group’s structure, where we do not own the assets and do not directly engage or employ the workforce, and where we do not operate the asset under a contractual obligation. In addition, we do not report entities which were sold or acquired during the Reporting Period.

Part of the content may look back upon the performance of the Group in past years with a view to presenting the report in a more informative and comparable manner. The reporting boundary includes the operating entities in Hong Kong.

1.2 Reporting Guidelines

The Group is in compliance with the mandatory disclosure requirements and “comply or explain” provisions set forth in Appendix 27 Environmental, Social and Governance Reporting Guide (“ESG Reporting Guide”) to the Rules Governing the Listing of Securities on HKEX (“Listing Rules”). In addition, we also made reference to key reporting frameworks such as the Sustainability Accounting Standards Board (“SASB”) and publications made by global ESG ratings agencies such as Sustainalytics, MSCI and ISS during the reporting process to ensure our actions aligned with accepted standards.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

1.3 Reporting Principles

The reporting principles of this ESG Report are governed by “materiality”, “quantitative”, “balance”, “consistency” and “completeness”.

Reporting Principles	Definition	The Group’s Response
Materiality	The threshold at which ESG issues determined by the board are sufficiently important to investors and other stakeholders that they should be reported.	Through continuous engagement with stakeholders and materiality assessment, the Group focuses on the disclosure of ESG issues that are crucial to investors and other stakeholders.
Quantitative	Key performance indicators (hereinafter referred to as “KPIs”) in respect of historical data need to be measurable. The issuer should set targets to reduce a particular impact. In this way the effectiveness of ESG policies and management systems can be evaluated and validated. Quantitative information should be accompanied by a narrative, explaining its purpose, impacts, and giving comparative data where appropriate.	The Group discloses quantitative information in the Report whenever possible and provides textual explanations to allow stakeholders to clearly understand the ESG performance of the Group.
Balance	The ESG report should provide an unbiased picture of the issuer’s performance. The report should avoid selections, omissions, or presentation formats that may inappropriately influence a decision or judgment by the report reader.	The Group fully discloses its ESG performance and avoids expressions that may inappropriately influence decisions or judgment made by reader.
Consistency	The issuer should use consistent methodologies to allow for meaningful comparisons of ESG data over time.	The Group ensures that the reporting scope and methodologies are largely consistent every year to ensure reasonable comparison and analysis.
Completeness	The ESG report should cover substantive issues and their boundaries that are adequate to reflect material economic, environmental and social impacts and enable stakeholders to assess the performance of the reporting institution during the Reporting Period.	The ESG report covers all material areas whenever possible with targeted responses made to relevant issues.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

1.4 Reporting Framework

With reference to the ESG Reporting Guide and the Group's business operation, the presentation of our ESG Report divides the relevant aspects and KPI, which are considered to be relevant and material to the Group, into four subject areas: Protecting Our Earth, People, Operating Responsibly and Engagement with Our Community.

A complete index in compliance with the ESG Reporting Guide is also available at the end of this report for reference. Except for provisions that the Group considers are inapplicable to its operations, for which explanations have been given on the rightmost column in the said index, this report is compliant with all the "comply or explain" provisions set out in the ESG Reporting Guide.

1.5 Data Collection

Data in this report are extracted from the Group's internal management system and statistics, and part of the data collected in previous years. Unless otherwise stated, HKD is used in this report as its functional currency.

1.6 Report Availability

This report is also accessible in electronic version from <http://www.dyf.com.hk>.

1.7 Contact

We welcome all sorts of comments and suggestions from our stakeholders with respect to this ESG Report or our sustainability performance. Comments or views can be sent to info@dyf.com.hk.

2. OUR APPROACH TO ESG

2.1 Our ESG Board Statement

The Group does not view the ESG management as a cost, but as a critical part of ensuring the long-term success of any business, including our own. In recent years, we rolled out initiatives to further develop our approach to proactively managing ESG performance. We further enhanced our approach to integrating ESG into investment processes, took practical steps to formalize and advance our ambitions on fighting climate change, creating sustainable value and continuing to grow our ESG capabilities within the network. To support our broader objective of creating sustainable value through a repeatable approach to value creation and to help us consider relevant risk factors, we aim to integrate ESG in all of our investment strategies. Our ESG Board Statement focuses on the area summarized as below:

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Fighting Climate Change

- Reduce GHG emission is a key element of climate risk management.
- Formulate and optimize our climate strategy continuously.
- Create long-term value for the Group and its stakeholders.

Innovation-Driven Operation

- Upgrade innovation and technology to improve innovation management.
- Response to the market demand for green and low carbon products and services.

Governance Framework

- Recognize the importance of maintaining a high level of integrity and strong ethics in the conduct our business.
- The formation of our ESG committee comprising the Board-level committee members represents the Board's further determination and action to strengthen our ESG management in the long run.

Support the Community

- Inject positive energy into social development by taking a range of measure to support community building.
- Create a warm and friendly atmosphere with the community.

Health and Well-Being

- Maintain a robust business performance and growth together with our employees, with an objective to uphold an open, fair, just and reasonable human resource policy.
- Being committed to a holistic approach to health and wellness, through a healthy, comfortable and safe workplace for our employees and other relevant parties.
- Improve our work safety management system.

Diversity, Equity and Inclusion

- Value diversity of experiences and backgrounds, and actively seeks to promote from within.
- Formulate a board diversity policy and strictly implement all requirements of the policy in our business operation.

Moving forward, we will build on these strengths to pursue and achieve our ESG goals, including our aspiration to become an ESG responsible business.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

2.2 ESG Strategy and Management

ESG Management Guidelines and Strategy

Rooted in its business strategy and the characteristics of our industry, the Group draws on domestic and international policies and ESG standards to identify, evaluate, and analyze material ESG issues. We collect input from stakeholders every year and use the results to rank the issues by materiality. We then identify issues to be disclosed in the report and submit them for board review and validation.

ESG Targets, Indicators, and Review Progress

The Group has established a quantitative ESG performance management mechanism and regularly identified risks and opportunities over the short and long term. By benchmarking against international standards and industry best practices, we also identify and prioritize climate-related risks and opportunities.

The Group continues to optimize the ESG management and operating mechanisms, further integrate ESG factors into corporate governance, risk management, and business strategies, and actively identify and supervise ESG risks and opportunities that have a significant impact on our business performance.

	<ul style="list-style-type: none"> • Climate Change Strategy – Review our approach on climate change and develop sustainability initiatives to identify and address the associated physical and transitional risks and opportunities • Green Operation Practice – Minimize the environmental impacts from our operations • Efficient Production – Maximize our resource efficiency and improve productivity • Sustainable Logistic Practice – Improve operational efficiency and reduce carbon emission throughout the transportation process.
	<ul style="list-style-type: none"> • The Group continues to implement a variety of social practices to safeguard shareholders' rights and interests. • We continued to align efforts with strategic priorities, including the below issues: <ul style="list-style-type: none"> – Developing a healthy and green community; – Supporting overall health and well-being; – Fostering talent growth and development – Advancing a culture of diversity, equity and inclusion; and – Investing in ongoing growth and development;
	<ul style="list-style-type: none"> • Ensure our corporate governance structure meets the applicable laws and regulations, industry best practice and global trends • Review and monitor the internal control system and risk management processes to ensure the overall effectiveness with continuous improvement • Uphold the highest ethical standards of business integrity and foster a culture of compliance throughout the Group • Our Board of Directors oversees and supports the implementation of responsible, stakeholder-centric practices consistent with the evolving governance environment, stakeholder expectations and the commitments we have made to them.

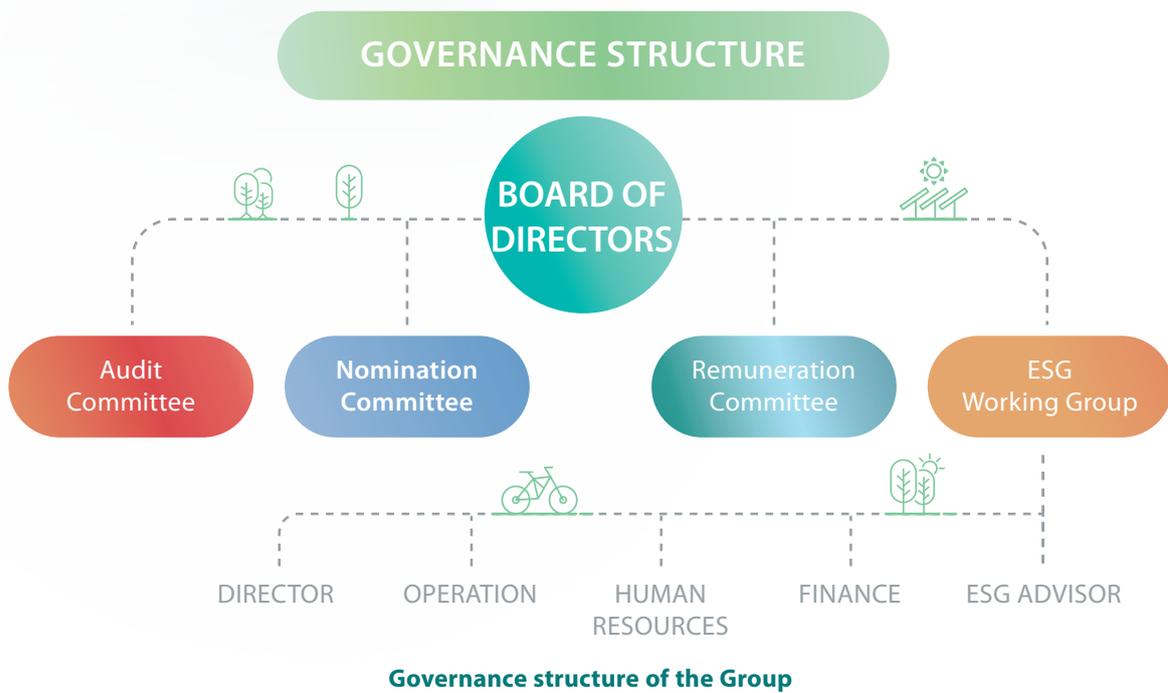

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

2.3 ESG Governance Structure

To address the issues of ESG management, the Group has set up the ESG committee and ESG working group since 2020 in addition to the existing audit, remuneration and nomination committees with full responsibility for the supervision, coordination, and evaluation of risks and opportunities regarding ESG within the Group.

The ESG committee is delegated to review and monitor the Group’s ESG policies and performance regularly, identify risks and opportunities of ESG aspects, ensure the Group’s compliance with the relevant legal and regulatory requirements, monitor and respond to emerging ESG issues, formulate climate strategies and supervise the management of climate-related issues and make recommendations to the Board to improve the Group’s ESG performance.

During the Reporting Period, the ESG committee organized meetings to review the Group’s ESG policy including, carbon footprint reduction, professional development for employees and engagement with the community, and implements ESG-related board resolutions.

2.4 Stakeholder Engagement

Stakeholder engagement is nowadays widely regarded as a key component to listen and respond to their requests and suggestions, consolidate close relationships and cooperation with them, and constantly promote sustainable development with win-win results. With great importance attached to the expectations and demands of our stakeholders, the Group carried out a stakeholder engagement exercise during the Reporting Period by establishing multiple engagement channels to ensure that stakeholders are well-informed about the Group’s ESG performance.

The Group has developed an approach which identifies the broad topics that the stakeholder groups are concerned with, and used a materiality matrix to assess the material topics identified by our stakeholders during the engagement process. A topic is classified as material when it substantially affects our long-term commercial or operational viability, with material impacts on economic, environmental or social topics. A summary of the stakeholder groups, topics concerned, and communication channels are listed in the following table.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Table 2-1: Stakeholders and Communication Channels

Stakeholders	Topics Concerned	Communication Channels
Employees 	<ul style="list-style-type: none"> • An equal and inclusive working environment • Employees' health safety, working conditions and welfare • Career development and training 	<ul style="list-style-type: none"> • Regular management meeting with staff representatives • Training sessions • Occupational health and safety training
Shareholders 	<ul style="list-style-type: none"> • Corporate governance and risk management • Business and financial performance • Operation in compliance with applicable law and regulations • Efficient corporate governance • Timely and truthful information disclosure 	<ul style="list-style-type: none"> • Annual and interim reports • Regular meetings and correspondence • ESG report
Suppliers 	<ul style="list-style-type: none"> • Quality of products or services • Sustainability in business model • Operation in compliance with applicable law and regulations 	<ul style="list-style-type: none"> • Regular review meeting
Community 	<ul style="list-style-type: none"> • Local environment protection • Local community activities involvement • Operation in compliance with applicable law and regulations 	<ul style="list-style-type: none"> • Participation in local community activities and volunteering work

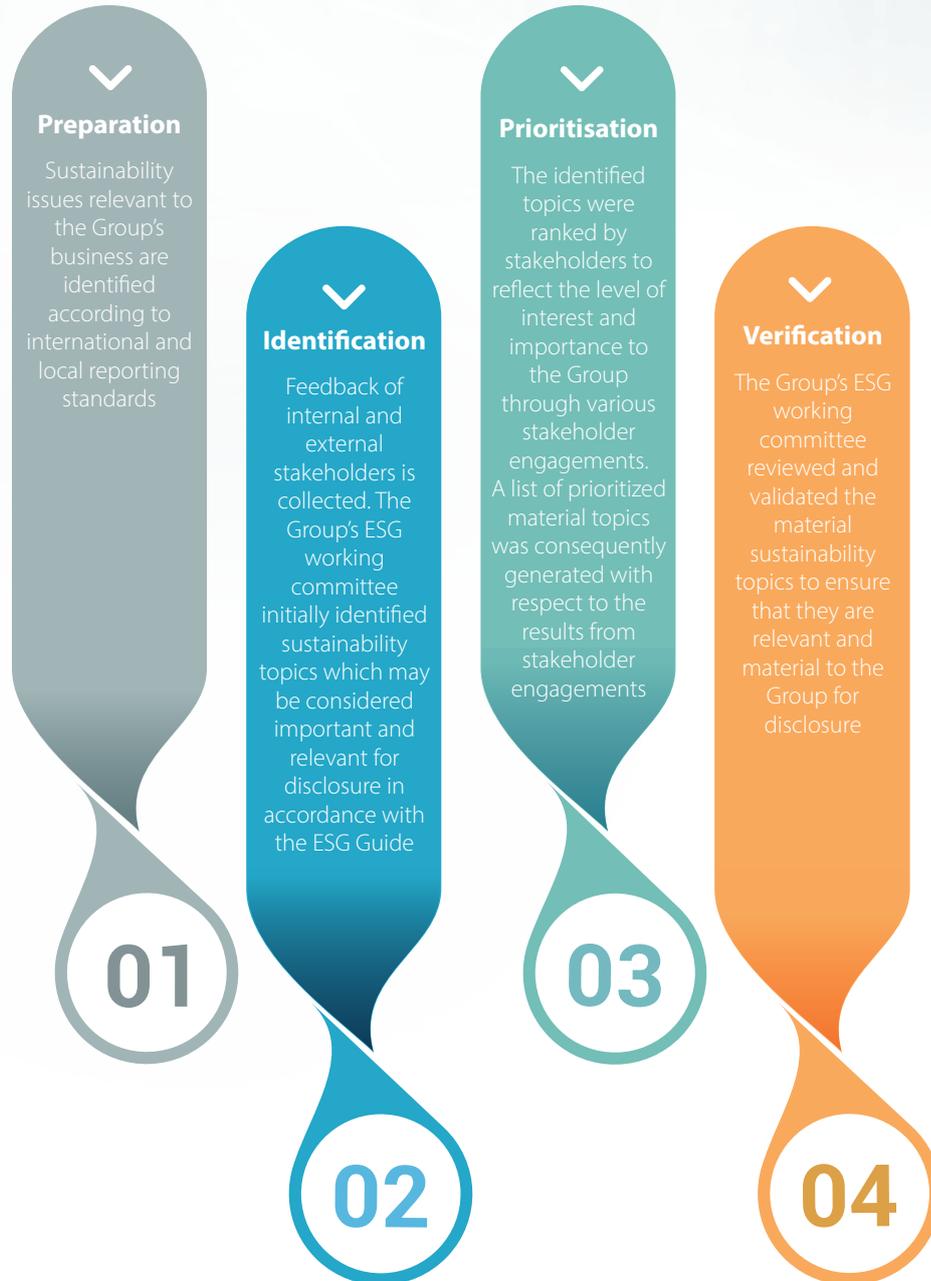

2.5 Materiality Assessment

This year, the Group refreshed our materiality assessment to ensure we focused on the ESG topics that are most important to our business and to our stakeholders. Following the stakeholder engagement, we conducted a materiality assessment during the Reporting Period with the following objectives:

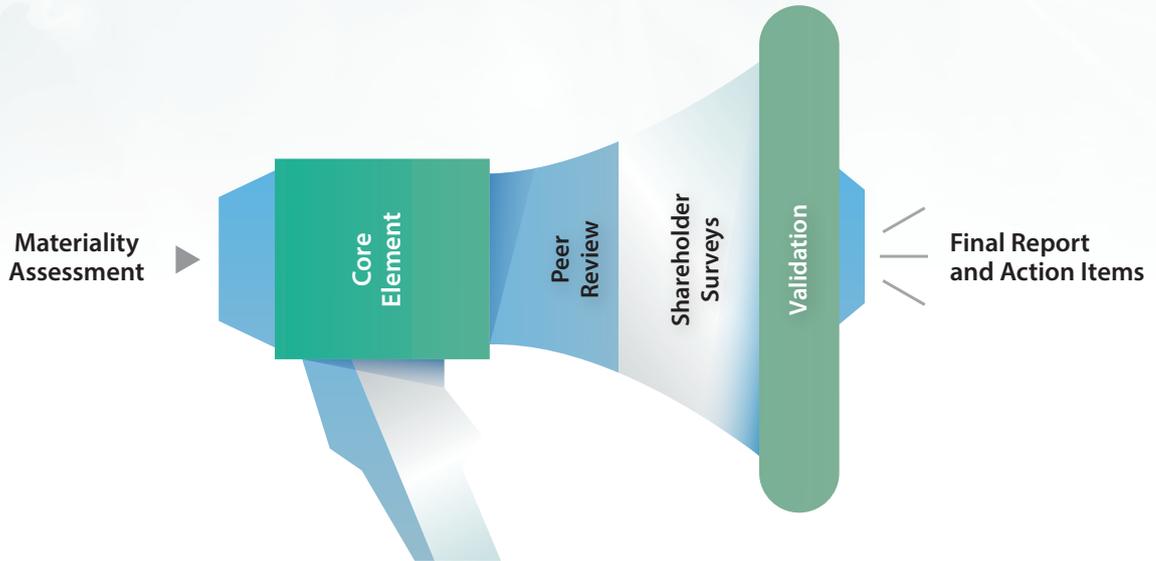

- Re-examine, assess and update our ESG priorities, and verify why they matter;
- Evaluate trends in ESG policies, practices and disclosures, and peer comparisons;
- Align with stakeholders' expectations to address priorities;
- Prioritize sustainability reporting standards to further strengthen our public disclosures; and
- Identify key performance metrics and establish goals to modernize and further advance our sustainability strategy.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Our materiality assessment involves the following procedures.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

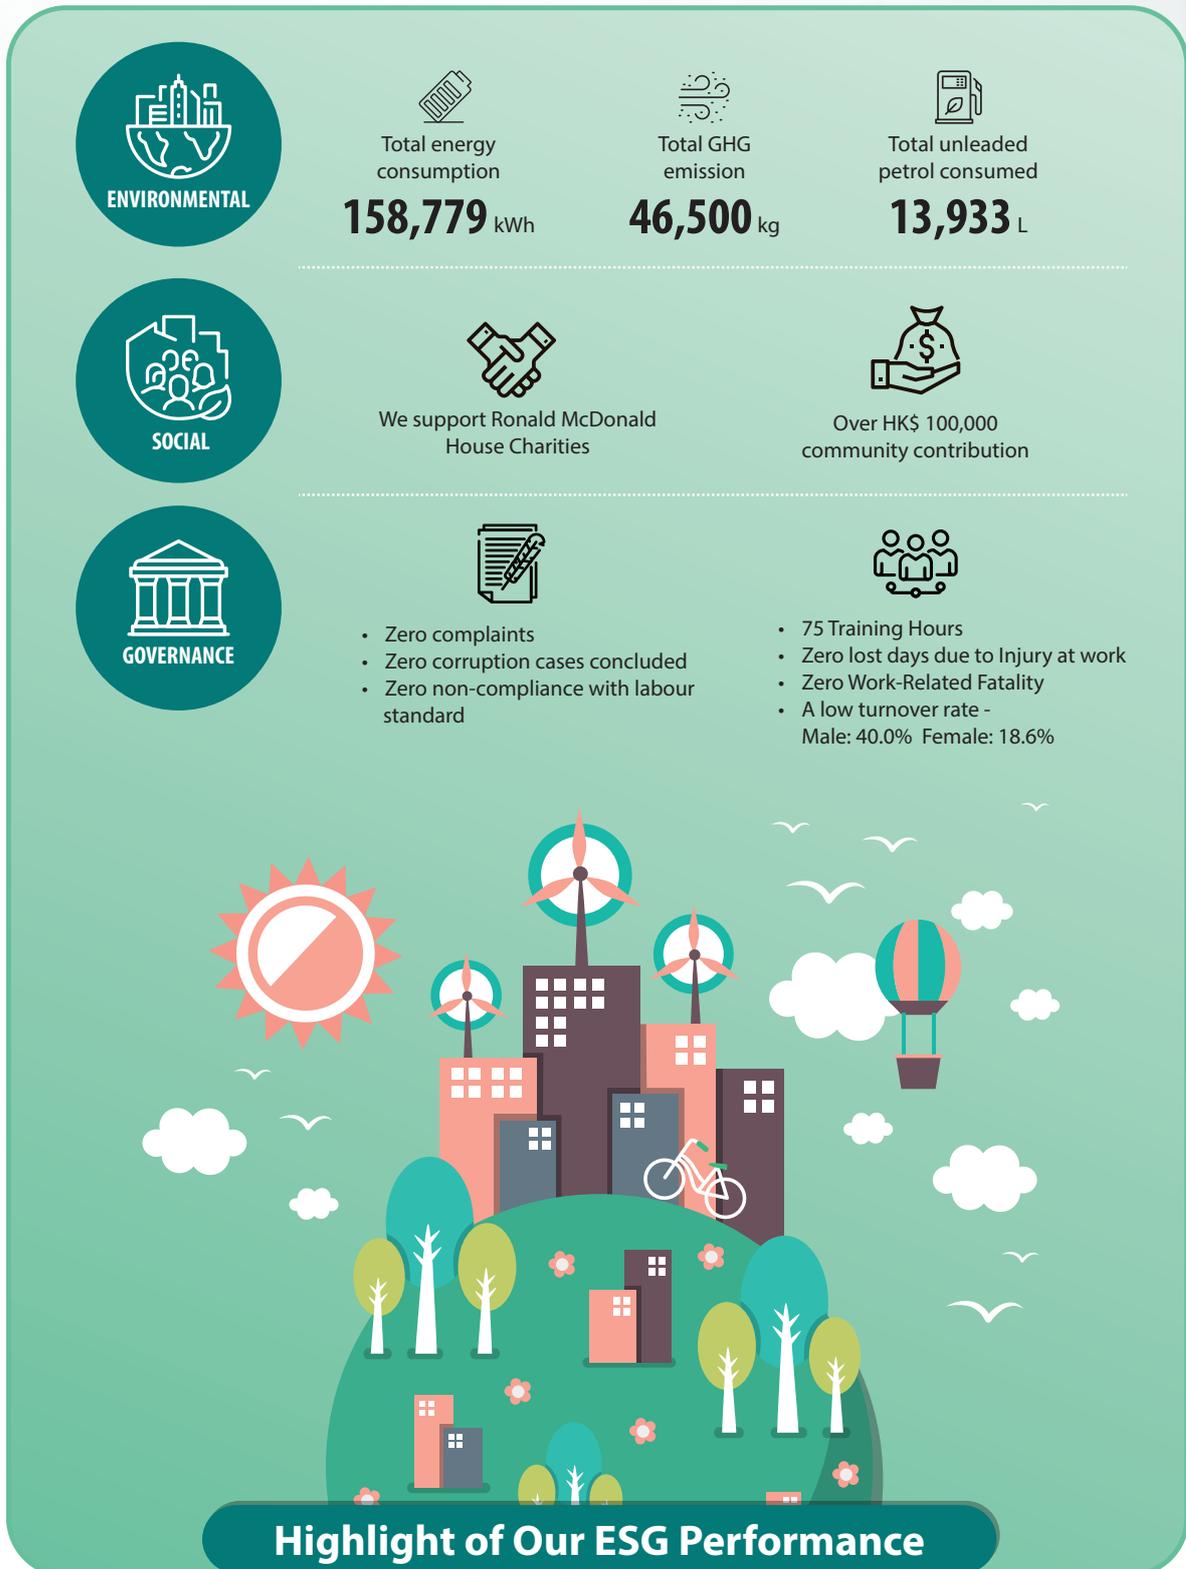

The following matrix reflects the high-level outcome of our materiality assessment, which enables us to determine the ESG topics considered most important and impactful to the Group and its stakeholders. The topics are plotted according to the relative significance of their impact and importance, based on feedback from internal and external participants.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

2.6 ESG Performance

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

2.7 Looking Forward

The Group acknowledges the rapidly evolving ESG regulatory landscape and recognizes that expectations regarding ESG performance and reporting will continue to increase in the short to medium term. This presents an opportunity for the Group to differentiate itself from competitors by demonstrating strong ESG practices. To capitalize on this opportunity, the Group emphasizes the importance of a clear ESG strategy, robust governance, and high-quality reporting. By integrating these factors into value creation plans, the Group aims to support its companies in the development of their ESG programs beyond 2023.

At the macro-level, the Group anticipates ongoing uncertainty in the coming months and years. To address this, the Group is committed to building a resilient portfolio that can withstand unexpected shocks. Improving the ESG performance of the Group is a key component of this strategy, as it is believed that proactive incorporation of ESG aspects will help future-proof companies and contribute to the overarching objective of building better businesses and creating long-term sustainable value. By prioritizing ESG considerations, the Group aims to align with evolving market expectations, mitigate risks, and seize opportunities for sustainable growth.

Environmental Area

The Group continues to review our approach on climate change and develop sustainability initiatives to identify and address the associated physical and transitional risks and opportunities.

The Group adopts green operation practice – minimize the environmental impacts from our operation.

Integrating ESG into the investment process.

Social Area

The Group continues to implement a variety of social practices to safeguard shareholders' rights and interests.

We pay attention to social development by continuously helping people in need with an expectation of sharing a better future for all.

Governance and Economic Area

We ensure our corporate governance structure meets the applicable laws and regulations, industry best practice and global trends.

We review and monitor the internal control system and risk management processes.

We uphold the highest ethical standards of business integrity and foster a culture of compliance within the Group.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

3. PROTECTING OUR EARTH

3.1 Management of Climate Risks and Opportunities

The scale of climate opportunities and technology to support the transition to a low-carbon economy is growing but the landscape remains complex. Furthermore, we see that adverse climate-related events are growing in frequency and severity around the world. We recognize that climate change will increasingly cause disruption to businesses and, for certain sectors, this will be material.

As an environmentally conscious and sustainable corporate, the Group, puts sustainable environment protection as a strategic priority, and is committed to proactively managing climate risks over the long term and upholding the high environmental standards to fulfil relevant requirements throughout our operation, and will continue to devote human and financial resources for environmental conservation, reduction of carbon footprint and environmental compliance as required under applicable laws and ordinances.

The Group dedicated itself to empowering the low-carbon transformation of the global economy and is committed to implementing the recommendations of the Task Force on climate-Related Financial Disclosure (“TCFD”), providing investors and stakeholders with useful information on climate-related risks and opportunities that are related to our business. TCFD is a market-driven initiative that is set up to develop a set of recommendations for voluntary and consistent climate-related financial risk disclosures in mainstream filings. Moreover, responding to climate change can enhance our business resilience and enable us to take advantage of any opportunities it may offer. The following climate change-related risks and opportunities are identified on this basis.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

GOVERNANCE

The Group has set up an ESG Committee to shoulder the ESG responsibilities, including formulating a climate-related work plan, reviewing climate risk-related policies and disclosure documents, and identifying climate-related risks and opportunities that have a significant impact on the Group's development, and take appropriate coping measures.

STRATEGIES

The Group has identified major climate-related risks and opportunities based on the developments of the industry and takes strategies and measures to prevent and respond to the transformation and entity risks brought by climate change.

RISK MANAGEMENT

The Group embeds ESG factors into the risk management process and integrates climate and environmental considerations across all stages of business management including approval, due diligence, investment decision-making, credit extension, and concentration management.

PERFORMANCE & TARGETS

The Company discloses the performance of its sustainable business and operation, discloses and analyzes relevant indicators such as water resources, energy, and GHG emissions in the annual ESG Report.

3.2 Climate Change Mitigation

The Group is committed to net zero emissions by 2050, underlining its ambition to reduce its environmental impact and mitigate its exposure to transition risks. To prepare for climate-related disclosure, the Group has allocated human and financial resources to continuously assess the impact of climate change on our business and operation. The assessment aims to identify the physical and transition risks that are most relevant to the Group. The result will be incorporated into our risk management system wherever appropriate.

Climate risks are typically classified into two major categories faced by the Group include physical risks and transition risks.

- Physical risks related to physical impacts of climate change, which can be driven by events such as floods and typhoons (acute risks) or long-term shifts in climate patterns such as sustained high temperatures and sea level rise (chronic risks).
- Transition risks related to the transition to a lower-carbon economy, which may entail policy, legal, technology, and market changes to address mitigation and adaptation requirements related to climate change.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Table 3-1: Climate-Related Risks and Opportunities

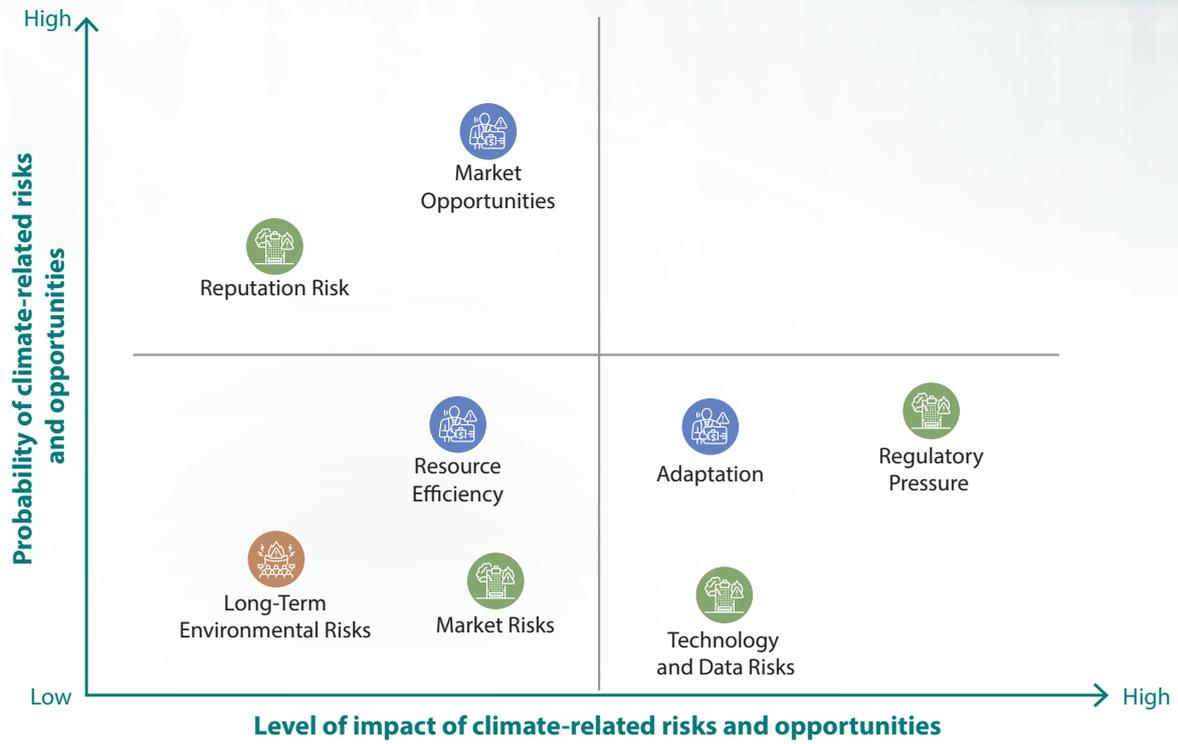

Climate Risk Type	Climate Drivers	Risk Details	Main affected Time Horizon
<i>Physical Risks</i>	Acute	More frequent and severe climate events such as flooding, drought, etc, that could affect financed assets and the value of the collaterals Alternations in weather patterns and stability of local ecosystems affecting food production and living environment	Short – Medium – Long Term
	Chronic	Rising temperatures affecting working conditions, living conditions and local infrastructure. Rising sea levels affecting local ecosystems, increasing subsidence and flood risks	Long Term
<i>Transition Risks</i>	Market	Change in consumer behaviours including a deliberate move to more sustainable products	Short – Medium Term
	Policy Making	More demanding policy environment affecting our business operations Increased GHG emissions pricing to foster movement to renewable sources	Short – Medium – Long Term
	Technology and Data	Investment in technology to reduce emissions or improve energy efficiency ratings	Medium term
	Regulatory Pressure	New disclosure requirement which increases the risk of misrepresentation Increased regulatory requirements may lead to potential increase of non-compliance	Short – Medium Term
	Reputational	As public awareness about climate change and green and low-carbon development continues to grow, failure to meet stakeholder expectations may put the Company to reputational risk Reputational impact from potential misalignment of emissions reduction	

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Table 3-2: Impact of Climate-Related Risks and Opportunities

	Common Climate-Related Risks	Adverse Impacts/Benefit	Our Response and Actions
Risks			
Physical Risks	Acute Physical Risks	Increased operating and maintenance costs	Monitoring and strengthening environmental risk prevention
	Chronic Physical Risks	Loss of revenue	Implementing natural disasters emergency plan
Transition Risks		Increased chance of extreme weather-related injuries which affect employees' health and safety	Conducting preventive measures and flexible working arrangement
			The Group is committed to net zero emissions and increase of resource efficiency
		Failure to align with low-carbon and green operation may lead to market setbacks	Adaptation – keeping up with the global policies and progress in climate action.
	Market risks	Unsuccessful investment in new technologies	
	Technology & Data risks	Cost of transition to lower emissions technology	The Group can promote cross-sectoral dialogue on climate-related risks and opportunities, by analyzing the alignment between the market and policies on net-zero emission, carbon peak, green finance, etc.
Reputational risks	Uncertain market signals		
	Shifts in consumer preference		
		Failure to meet stakeholder expectations	

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

-  Transition Risks
-  Physical Risks
-  Market Opportunities

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

3.3 Corporate Environment Policy

The Group believes that reducing our own GHG emissions footprint and engaging with the daily operation to do the same is not only the right thing to do for society and the planet, but that it also creates long-term value for the Groups and its stakeholders. In particular, reducing emissions can help build resilience to climate-related risks and reduce costs through energy efficiency, effective energy procurement and managing the impact of future carbon taxes.

The Group formulated relevant rules and regulations for a sound and effective management of energy consumption, GHG emission, as well as discharge of waste and sewage and other pollutants, highlighted as below.

- To assess, monitor and manage environmental risks and opportunities associated with our business;
- To comply with applicable environmental protection laws and regulations;
- To integrate environmental considerations in the operations;
- To define appropriate objectives and targets on a regular basis for our ESG management approach;
- To continuously improve the ESG management system to set and maintain rigorous standards;
- To prevent pollution and to protect the environment by conserving natural resources and minimizing waste;
- To promote environmental awareness and low carbon lifestyle among the workforce with regular communication;
- To communicate our environmental performance to stakeholders and seek their involvement wherever applicable.

During the Reporting Period, the Group complied with environmental protection laws and regulations in relation to air and GHG emissions, discharge into water and land, and generation of hazardous and non-hazardous waste. The Group did not violate any environmental protection laws or regulations of the region where we operate, nor was it subject to significant fines, non-monetary penalties and litigation relating to environmental protection.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

3.4 Optimizing Energy Saving and Resources Consumption

The main contributors to the Group's carbon footprint are (1) indirect GHG emission generated from electricity consumption, (2) direct GHG emission generated from office administration inevitably involve consumption of fossil fuel directly or indirectly, (3) indirect GHG emission generated from paper consumption in business operation, which releases Nitrogen Oxides (NOx), Sulphur Oxides (SOx), and Carbon Dioxide (CO₂) into the air. The Group is highly aware that such GHG emission is one of the major sources of global warming. As such, the Group advocates green office and actively explores energy-saving measures to reduce energy and material consumption in the workplace. We promote a culture of energy conservation through regular publicities. The sustainable measures adopted by the Group includes:

Reduce Energy Consumption

- Using energy-efficient office and electrical appliances to reduce indirect GHG emission whenever practical;
- Advocate remote video conferencing to reduce business travel;
- Maintaining indoor temperature at an optimal level for comfort;
- Providing on-off and zoning control of lighting and ventilation system in the workplace according to the operation schedule;
- Encouraging employees to switch off machines and devices, such as computers and monitors when not in use;
- Reduce consumption of batteries and office supplies through on-demand application;
- Encourage employees to commute by public transport, thus contributing to carbon emission reduction for society;
- Placing "Green Message" reminders on office equipment and workplace to further enhance employees' environmental awareness; and
- Organizing training session including case studies to improve energy efficiency and GHG saving awareness and engage staff to adopt the energy saving practices together where appropriate.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Reduce Paper Consumption

The business operation of the Group consumes certain amount of paper and the Group has adopted a series of initiatives to reduce paper consumption and advocated paperless office mode.

- Paperless office by developing our own internal administration system to reduce the use of paper in all level of our management;
- Selection of working partners which provide paperless operating procedures whenever feasible;
- Encourage use of electronic means of communication to manage daily process; and
- Use duplex printing and reuse single-side printed papers.

3.5 Exhaust Gas and GHG Emissions

Our Group's business inevitably involves consumption of fossil fuel, which directly or indirectly, releases Nitrogen Oxides (NOx), Sulphur Oxides (SOx), and Carbon Dioxide (CO₂) into the air. In accordance with the ESG Reporting Guide set out by HKEX, our environmental performance of "Emissions" during the Reporting Period is tabulated below.

Table 3-3: Emissions

	Unit	FY2023	FY2023 Intensity	FY2022	FY2022 Intensity
GHG Emissions	CO₂e (kg)	46,500	1,660.7	31,813	775.9
Scope 1	CO₂e (kg)	36,278	1,295.6	27,111	661.2
Scope 2	CO₂e (kg)	8,788	313.9	3,647	88.9
Nitrogen Oxides	g	6,048	216.0	5,977	145.8
Sulphur Oxides	g	205	7.30	150	3.7
Particulate Matter	g	445	15.9	440	10.7

Notes:

GHG emission data is presented in terms of carbon dioxide equivalent and are based on, including but not limited to, "The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standards" issued by the World Resources Institute and the World Business Council for Sustainable Development, "Greenhouse Gas Inventory Guidance Direct Emissions from Mobile Combustion Sources" issued by the United States Environmental Protection Agency, the latest emission factors published by the power plant and "How to prepare an ESG Report? – Appendix II: Reporting Guidance on Environmental KPIs" issued by HKEX.

During the Reporting Period, there were no non-compliance cases reported in relation to GHG emission within the Group.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

3.6 Waste Management

Waste Management Policy

The Group recognizes that waste is inevitably generated throughout our day-to-day operations. Waste reduction is the focus of our emission control efforts. The Group's principal waste management policy endeavours an adoption of the waste management hierarchy (waste prevention followed by re-use, recycling, recovery and finally disposal) in order to achieve a green and paperless operation with a minimal generation of waste wherever possible and practical. The Group implements the following measures and objectives to achieve our waste control target.

- We endorse the '4-R Principles – Reduce, Reuse, Replace and Recycle' as our key policy of waste management;
- We extend our commitment to using sustainable products into every aspect of the business;
- We encourage all employees to reduce paper usage through duplex printing, paper recycle and frequent use of electronic information systems for material sharing or internal administrative documents;
- We encourage an increased use of reusable product, such as envelopes, and better separation of waste streams for recycling;
- We maintain 100% recycling of used toner cartridges by collecting and returning all used cartridge to recycling agents;
- We encourage minimal consumption of paper towels in workplaces;
- We encourage employees to sort garbage by putting up posters and reminders;
- We strengthen our employee's awareness in environmental management, waste reduction and waste recycle, encourage them to be equipped with appropriate skills and knowledge with respect to the practice of sustainable development; and
- We closely keep up with the latest government's initiatives and policies in relation to waste management, waste reduction and recycle campaigns in order to allocate resources and formulate strategy in a timely manner.

Hazardous Waste

Given our business nature, the Group does not directly produce hazardous waste throughout the operation. The Group endeavors to recycle electronic waste throughout our operation wherever feasible, ultimately reducing both the monetary and environmental costs involved in disposal of these electrical parts that would otherwise be scrapped and treated as hazardous waste.

Non-hazardous Waste

The non-hazardous wastes generated by the Group are mainly office waste including stationery, packaging materials and paper from our operation. The office waste was handled by the property management company.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Wastewater Discharge

The Group's operations do not consume a significant amount of water. Our main use of water is for sanitary purposes. Similarly, most of the wastewater discharged from our facilities is sanitary wastewater. The Group ensures all domestic sewage is properly discharged into the urban sewage pipe network for subsequent sewage treatment.

Table 3-4: Waste Discharge

	Unit	FY2023
Domestic Waste	kg	6,396

During the Reporting Period, there were no non-compliance cases reported in relation to discharge into water and land, and generation of waste within the Group.

3.7 Use of Resources

As natural resources are depleted, sustainability becomes essential throughout the entire process of business, the Group is working to optimize and reduce the overall amount of natural resources we consume. In line with relevant regulations on energy conservation and emission reduction, we continuously drove energy savings and consumption reductions in daily resource use such as water, electricity, and consumables, built awareness of saving electricity and water, and implemented a strict waste recycling and disposal process. In consideration of its actual operations, the Group continued to strive for resource-efficient and clean development and reduce adverse impact of its activities on the environment.

Water Consumption

The Group takes a cautious approach to water stewardship, seeking to maximize efficiency and reduce water consumption. We strive to engage all employees to develop a habit of conserving water consciously. Pantry is posted with environmental messages to remind employee the importance and urgency of water conservation. The utility facilities are maintained regularly for service to ensure that water seepage or leaking pipelines are replaced or repaired on a timely basis. The Group also seeks to reduce water usage, reuse water and improve the quality of wastewater discharged from our working stations wherever possible.

Packaging Material

Given our business nature, the Group does not have manufacturing facilities and does not consume significant amount of packaging materials by our operation. However, we encourage our suppliers to use less packaging material.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Environmental Performance

In accordance with the ESG Reporting Guide set out by HKEX, our environmental performance of “Energy and Resources Use” during the Reporting Period are tabulated below.

Table 3-5: Energy and Resources Use

	Unit	FY2023	FY2023 Intensity	FY2022	FY2022 Intensity
Electricity	kWh	23,751	848.3	22,793	555.9
Purchased Gas	kg	n/a	n/a	n/a	n/a
Unleaded Petrol	L	13,933	497.6	10,192	248.6
Diesel	L	n/a	n/a	n/a	n/a
Paper	kg	299	10.7	220	5.4
Water	m ³	n/a	n/a	n/a	n/a
Total Energy Consumption	kWh	158,779	5,670.7	121,572	2,965.2

During the Reporting Period, there were no non-compliance cases reported in relation to use of resources within the Group.

4. OUR PEOPLE

As part of the people-centric business, our success is dependent on attracting and retaining the best talent. We are certain that our employees are one of our greatest assets. By treating our people with respect, creating opportunities for learning and development, and showing consideration for health and wellbeing, we strive to create an environment in which our people can thrive.

4.1 Employee Wellness

Despite continued and unprecedented challenges in the past few years, the Group is conscious of the need to look after our employees’ wellbeing as the top priority. Capitalizing on our knowledge, experience and strengths, we continue to ensure the safety and well-being of our employees and stakeholders to provide a harmonious, healthy and pleasant working environment. The Group advocates for work-life balance. We carry out various festive celebrations and team activities to enhance the sense of belonging and cohesiveness of employees for the purpose of creating a positive group atmosphere. We ensure to maintain our operations as smoothly and efficiently as possible during whatever challenging times while putting our employees’ wellness first.

4.2 Occupational Health and Safety

We are committed to providing and maintaining a safe, healthy, and hygienic workplaces for all employees, and all other persons likely to be affected by our operations and activities. Health and safety standards are given prime consideration in our operations, and regulatory compliance is strictly upheld. The goals of our Occupational Safety and Health (“OSH”) policy are highlighted as below:

- Pursuit of a healthy, comfortable and safe working environment for our employees;
- Commitment of appropriate resources and leadership to the OSH management system;

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

- The OSH management system aims at identification, prevention and management of risks and hazards throughout the workplaces as well as follow-up actions for accidents or personal injuries;
- The OSH management system defines appropriate objectives and targets on a regular basis;
- Zero tolerance of accidents and injuries;
- Promotion of a safety culture among employees;
- Communication of our health and safety performance with stakeholders and seek their involvement wherever applicable;
- Regular review of the performance of various OSH measures so that their effectiveness and reliability can be maintained; and
- Compliance with applicable laws and regulations in relation to occupational safety and health.

To achieve the goals of our OSH policy, the following appropriate measures are adopted.

- Formulation of emergency response plans, risk assessment and accident investigation mechanism so as to ensure legal compliance with OSH;
- Organization of fire drills and emergency evacuation simulations to raise the employees' awareness of fire prevention and to equip employees with appropriate knowledge and skills in the event of emergency;
- Promotion of safety culture among employees;
- Organization of induction programs and safety training programs to new employees such that they can be familiar with our corporate policies in relation to health and safety matters as quickly as they can;
- Provision of OSH training sessions to employees according to their roles and responsibilities to ensure awareness of job hazards and conformity to safety practices with respect to OSH;
- Provision of job-related training to existing staff-members to strengthen their professional knowledge and skills in daily operations and safety matters;
- Training courses and measures are reviewed and regularly reported to the management by the safety officer; and
- Prohibition of smoking and abuse of alcohol and drugs in workplaces.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the Reporting Period, the Group complied with the Occupational Safety and Health Ordinance, by ensuring that the employees are working in a safe environment in respect of health, hygiene, ventilation, fire evacuation plans, building structure and means of escape. During the Reporting Period, the Group did not record any accidents that resulted in death or serious physical injury. No material non-compliance with laws and regulations relevant to health and safety of employees were identified during the Reporting Period. Summary of work-related fatalities and injuries during the Reporting Period are shown in the table below.

Table 4-1: Health and Safety Statistics

	Total Number in FY2023	Total Number in FY2022	Total Number in FY2021
No. of Work-Related Fatalities	0	0	0
Rate of Work-Related Fatalities	0	0	0
No. of Injuries at Work	0	0	0
Lost Days due to Injury at Work	0	0	0

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

4.3 Diversity, Equity and Inclusion

Diversity, equity and inclusion (“DEI”) is a key focus of our employee engagement efforts. Over the past year, the Group has accelerated its efforts to create a more diverse, equitable and inclusive work environment with a focus on the following four work areas.

We expect our stakeholders to see the Group as a company truly aligned with DEI which is embedded in our values, and we hope this is evident for anyone who comes to work with us. During the Reporting Period, we strictly observed the applicable laws and regulations and follow our employment policies.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

4.4 Talent Development

The Group envisions that empowering its people through development and training is the cornerstone of our success in the long-run. The Group listens and responds to our people, striving to create an environment of continuous learning, to facilitate development of careers and to provide knowledge and skills for better fulfilment of roles and responsibilities. Our training programmes are designed not only to enhance the sustainable development of the Group and to provide skillset required for the operation, but also for the benefit of society as a whole wherever possible.

During the Reporting Period, the Group organized a variety of development and training sessions for employees including induction training, technical skills training, thematic courses such as anti-corruption, and pre-post training as summarized in the table below. On average, each employee received 2.7 hours of development and training.

Table 4-2: Employee Development and Training

	Unit	FY2023
Average hours of training received per employee	hours	2.7
Average hours of training per employee by employment level		
Senior Staff	hours	14.7
General Staff	hours	1.2
Average hours of training per employee by gender		
Male	hours	2.8
Female	hours	2.7
Percentage of employees trained by employment level		
Senior Staff	%	100.0
General Staff	%	68.0
Percentage of employees trained by gender		
Male	%	25.0
Female	%	90.0

The Group pays full attention to the relevant regulatory changes and work closely with different departments to determine the continuous professional training required for relevant employees and directors to update their knowledge and skills to maintain their professional competence. Latest applicable laws, rules and regulations are circulated with employees and directors from time to time. Implementation of safety training and comprehensive risk assessments are also one of the most important tasks in the Group. Details of the development and training programs are summarized as below.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Table 4-3: Development and Training Programs

Orientation Programs

Orientation programs are organized for new joiners by introducing the history and corporate culture of the Group, as well as functions of respective departments, aiming at helping them adapt to the new work environment affirmatively and quickly

Continuous Professional Training

Continuous training is committed in different ways including internal training programs, comprehensive training for specific skill development, and courses for continuous professional development for relevant employees so as to ensure that they possess the appropriate qualities and skill-sets

Thematic Training

Directors and senior management are encouraged to take part in professional thematic training and seminars including occupational safety, corporate governance, business development and strategy

Employees from respective departments are encouraged to take part in thematic courses to strengthen and refresh their knowledge, management skills, including various topics stipulated in different ordinances, rules and guidelines such as the Securities and Futures Ordinance, Personal Data (Privacy) Ordinance, Main Board Listing Rules and Guideline, compliance, anti-money laundering (“AML”), anti-corruption and Know-Your-Client

Organization of thematic training such as anti-corruption provided to employees

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

4.5 Our Workforce

Hong Kong

In Hong Kong, the Group complied with the Labour Law of Hong Kong and relevant employment laws and regulations during the Reporting Period, including the Mandatory Provident Fund Schemes Ordinance by participating in the Mandatory Provident Fund retirement benefit scheme for our eligible employees, Minimum Wage Ordinance, Employment Ordinance and Employees' Compensation Ordinance by offering competitive wages, medical insurance, maternity leave and other compensation to our employees.

Mainland China

In the Mainland China, we participated, during the Reporting Period, in welfare schemes concerning pension insurance, unemployment insurance, maternity insurance, occupational injury insurance and medical insurance in accordance with the local regulations including the Regulations on the Administration of Housing Provident Funds, Social Insurance Law and Labour Law of the Mainland China.

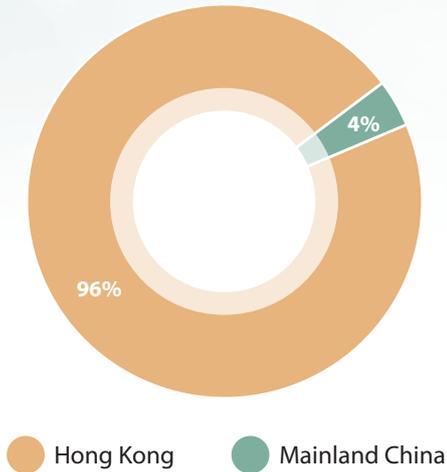

During the Reporting Period, the Group was not aware of any material non-compliance with laws and regulations in respect of human resources. We strictly prohibit discrimination, harassment and bullying at all workplaces. In accordance with the ESG Reporting Guide set out by the HKEX, details of the Group's workforce during the Reporting Period are tabulated as well as presented in charts below.

Table 4-4: Our Workforce

	FY2023
Total Number of Full-Time Employees	28
Total Number of Part-Time Employees	0
Turnover Rate by Gender	
Male	40.0%
Female	18.6%
Turnover Rate by Age	
Under 30 years old	40.0%
30 – 50 years old	30.8%
Over 50 years old	10.5%

**Total Workforce by Age Group
as of 31 December 2023**

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

4.6 Labour Standards

The Group strictly abides by local employment laws and regulations. We apply the concept of employment equity with a fair, impartial and open approach. We highly value employees' abilities, eliminate any form of discrimination, and treat all employees equally regardless of their region, nationality, religion, age, gender, marital status and physical conditions. We also strictly prohibit the employment of any child labour and forced labour in any form, being fully aware that exploitation of child and forced labour violates human rights and international labour conventions. Furthermore, we provide equal employment opportunities for disabled people, which helps them integrate into the society.

During the Reporting Period, the Group strictly complied with the relevant laws and regulations, including the Labour Law and Employment Ordinance of Hong Kong. In the event that any irregularities in ages, identities and/or validities of employment status is subsequently found, employment with all such concerned candidates will be immediately terminated, and the Group will report such incident to the relevant authorities as soon as practicable. No non-compliance case was reported in relation to labour laws and regulations during the Reporting Period.

4.7 Harmonious Work Environment

The Group is strongly convinced that a harmonious work environment are always the key drivers to the Group's healthy and prosperous growth. To achieve this, the following items are implemented:

- Zero-tolerance policy for workplace discrimination and harassment including workplace violence;
- Regular all-staff meetings to update on business performance and the development of key projects;
- Employee engagement to ensure that employees' voices are heard at both corporate and team levels; and
- Regular and festival gatherings were organised during the Reporting Period to enhance the harmonious sprit of different levels of staff members in recognition of their contributions and dedicated work to the Group.

The Group believes that such a corporate culture and harmonic working environment will naturally achieve a synergistic result to facilitate employee retention and to improve productivity.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

5. OPERATING RESPONSIBLY

We are aware that managing our business responsibly is the core to delivering sustainable financial performance as well as value to our investors, employees and communities in the long run. Our goal is to be a leading responsible corporate in the Asia-Pacific region. We have an unwavering commitment to sound corporate governance, a strong culture of ethics and integrity and responsible operation.

5.1 Supply Chain Management

The Group continuously optimises supply chain management and works with its business partners and suppliers to promote sustainable development. Our supply chain management team not only considers economic and commercial benefits during the tendering processes, but also evaluates the suppliers' and contractors' track record with respect to legal and regulatory compliance which include environmental, social and governance aspects.

We developed a vendor and supplier selection mechanism based on potential vendors' compliance with all applicable laws and regulations in relation to the safety, environment, forced labour, child labour and other social aspects. Products and services with environmentally friendly and socially responsible features will be given a higher technical score during our assessment process. To evaluate the performance of the selected suppliers as well as to minimize the environmental and social risks along the supply chain, regular assessments covering the professional qualification, services/products quality, financial status, integrity, and social responsibility will be conducted if deemed necessary. When the evaluation result of a supplier is not satisfactory, the supplier will be removed from the approved list.

Every supplier is required to comply with our code of practice, which prohibits offering of gifts, loans, hospitality, services or favor in an improper manner. In addition, the Group encourages our business partners to adopt the best environmental and social practices and to disseminate the pursuit of sustainability into the core business, through develop energy-saving and consumption-reducing policies. Under the same conditions and principles, we offer priority to local suppliers with the aim of reducing the negative impact on the environment caused by long-distance transportation and driving local economic development.

We believe that, through the above review process, we can minimize the potential environmental and social risks associated with the supply chain management. During the Reporting Period, suppliers of the Group were all located in the region where we operated. No complaint was received from the suppliers and there was no disputed debts or unsettled debts and all the debts are settled on or before due dates or a latest date as mutually agreed.

5.2 Product Responsibility

Given our business nature in investment holding, the Group considered that the product responsibility is not applicable to the Group.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

5.3 Transparency

The Group is committed to communicating effectively with its stakeholders. Our annual ESG Report is a key channel for sharing detailed non-financial information in a public forum with our stakeholders.

We continue to strengthen the alignment of our ESG performance with the industry practice and regulatory requirements for example, we recognize that the global reporting guidelines are stepping up to integrate TCFD recommendations into the ESG approach and therefore, we are integrating TCFD recommendations into our own processes including through disclosures in this report.

5.4 Privacy Protection

The Group emphasizes the importance of protecting personal data against unauthorized access, use or loss and we adhere to the Personal Data (Privacy) Ordinance when collecting, processing and using the personal data. To safeguard personal privacy, the Group takes practicable steps to ensure the personal data are securely stored and the use of data is limited to or related to the original collection purpose. We strive to ensure all collected data kept is free of unauthorized or accidental access, processing, erasure or other use. The Group respects privacy rights of its stakeholders with utmost importance.

Moreover, the Group recognizes the importance of strengthening our digital readiness and continuing to evolve the Group's toolkit in order to meet the technological challenges of tomorrow and the additional and fast evolving risks for the Group in an increasingly digital world. We have been continuing to strengthen our approach to cyber security to ensure that we can respond to the increasingly sophisticated cyber security landscape and the new challenges we face in the context of increased remote working.

During the Reporting Period, there were no non-compliance cases noted in relation to our data privacy and no material complaints received that would have significant impact.

5.5 Anti-Corruption

The Group is committed to upholding a high standard of business ethics and prohibition of any forms of bribery and corrupt practices. The Group has developed a series of policies and compiled code-of-conduct with respect to anti-fraud and anti-bribery, which apply to all staff-members. In general, we require our employees to declare any conflict of interest, to avoid any possible such conflict with sub-contractors or suppliers, organizing seminars in relation to anti-corruption and avoidance of conflict of interest for our employees. We also encourage our business-related parties, including suppliers to observe those principles of the policies and to proactively report any suspected misconduct issues to the Group. Meanwhile, employees are encouraged to report any concern in relation to accounting controls and audit matters to the Audit Committee which will review each complaint and decide how the investigation should be conducted. A total of 18 hours in relation to training of anti-corruption was recorded during the Reporting Period.

During the Reporting Period, the Group observed with related laws and regulations that have a significant impact on the Group relating to bribery, extortion, fraud and money laundering, such as the Prevention of Bribery Ordinance of Hong Kong and Criminal Law and the Regulations for Suppression of Corruption of Mainland China. No cases of anti-corruption were concluded whereas the Audit Committee identified no complaints from employees during the Reporting Period.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

5.6 Anti-Money Laundering (“AML”)

The Group fully supports the international community drive against serious crime, drug trafficking and terrorism and is committed to assisting the authorities to identify money laundering and terrorist financing transactions. The Group’s AML and counter-financing of terrorism (“CFT”) policy has clearly specified that all employees are obliged to comply with all applicable AML/CFT laws and regulations. In order to safeguard from the use of the Group’s services for those purposes, the operation manuals include the procedures in conducting due diligence and ongoing monitoring on a risk-based approach, suspicious activity reporting and record keeping. The operation manuals are reviewed regularly and updated according to relevant legal and regulatory changes. Internal control review is also carried out regularly to ensure that the AML/CFT procedures are adhered to. There is also training on AML/CFT for all employees to assist them in understanding, implementing and complying with the AML/CFT procedures.

During the Reporting Period, the Group observed with related laws and regulations that have a significant impact on the Group relating to bribery, extortion, fraud and money laundering, such as the “Prevention of Bribery Ordinance of Hong Kong”. No cases of money laundering were concluded during the Reporting Period.

5.7 Whistle-Blowing

In order to encourage our employees to report illegality, irregularity, malpractice, unethical acts or behaviors, inappropriate conducts or actions, which may damage the Group’s interests, we established whistle-blowing policy and implement procedures for our employees to report improprieties via a confidential reporting channel to the extent that is made possible to all employees. The policy aims to encourage our employees to report behaviour that is not in line with the principles of ethics and the Group’s policy such as events that are non-compliant with the Group’s policy, laws, rules, regulations, general practice of financial reporting and internal control.

The Group is committed to addressing the “whistle-blowers” concerns in a fair and reasonable manner and to handling the reports with due care and conducting a comprehensive and independent investigation for each reasonably established report. All “whistle-blowers” who report in good faith are reasonably protected from retaliation or adverse consequence of their employment regardless of whether the allegation is substantiated.

The whistle-blowing policy and its procedures, which apply to all levels of the members of the Group, have been documented in the employee handbook and have been circulated among employees for their reference.

5.8 Protection of Intellectual Property Rights

The Group is committed to compliance with relevant laws and regulations in relation to intellectual property right (“IP rights”) by valuing and protecting its intellectual properties through patent fees and periodic trademark renewals. In order to prevent infringement and enhance copyright protection, a copyright compliance policy is in place covering the area of installation of computer software, making copies of copyright works or publication and use of internet information.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

6. ENGAGEMENT WITH OUR COMMUNITY

The Group is dedicated to making a better society through our active involvement and partnership with local non-profit organizations to organize and take part in a variety of charitable activities and actions such as health education and action, poverty action, children, elderly, underprivileged groups, animal welfare and environmental protection. We put the best effort and resources in helping the local communities and people in needs through multiple channels including community services and social support programs.

6.1 Community Services

During the Reporting Period, we participated in the charitable event organized by Ronald McDonald House Charities ("RMHC") in December 2023, as part of our community-care effort. RMHC is an independent registered non-profit organization in Hong Kong with a mission to provide a 'home away from home' – accommodation for families such that they can stay close to their hospitalized children. We see this is in line with our belief that love and support of family is the most powerful medicine prescribed.

Our community engagement with the Ronald McDonald House Charities

6.2 Social Support

During the Reporting Period, we made sponsorships totaling over HK\$100,000 to various charitable associations within the community.

The Group recognizes the importance of social responsibility and will continue to prioritize community service as an integral part of our operations. Moving forward, the Group remains committed to cultivating a culture of active participation in community service. We will continue to encourage our staff members to be actively engaged in voluntary initiatives and to collaborate in spreading the ethos of service within the communities we are a part of and depend on. Through volunteerism and community engagement, we strive to build strong and meaningful relationships, promoting mutual support and sustainable development.
