CHAIRMAN'S STATEMENT

BUSINESS REVIEW

Profitability analysis

The Group has recorded a moderate increase in its consolidated revenue by 5% to HK\$1,196.3 million in the financial year ended 31 December 2023 (2022: HK\$1,144.1 million). For the year under review, the Group recorded a profit attributable to owners of the Company and earnings per share of HK\$51.3 million and 13.29 HK cents respectively (2022: HK\$114.8 million and 29.71 HK cents respectively).

The Board considers that the reasons for the decrease in net profit attributable to owners of the Company were mainly due to the following items:

- (a) a net gain relating to the disposal of premises of HK\$58.8 million was recorded for the year ended 31 December 2022, but no such net gain was recorded for the year ended 31 December 2023; and
- (b) a significant net foreign exchange gain of HK\$30.2 million was recorded for the year ended 31 December 2022 due to the depreciation of Renminbi against the United States Dollars during the year of 2022, whereas a net foreign exchange loss of HK\$13.5 million was recorded for the year ended 31 December 2023.

CHAIRMAN'S STATEMENT

Original design manufacturing ("ODM") division

Our ODM division continued to be the key revenue contributor and revenue generated from this division contributed to 71% of the consolidated revenue of the Group in 2023 (2022: 71%). Sales to ODM customers increased by 5% from HK\$817.1 million in 2022 to HK\$854.0 million in 2023. Geographically, sales to customers in Europe, the United States (the "US"), Asia and other regions accounted for 55%, 23%, 21% and 1% respectively of the revenue of the ODM division in 2023 (2022: 60%, 24%, 14% and 2% respectively). Sales to Europe and other regions reduced by 5% and 57% respectively whereas sales to the US and Asia were up by 3% and 60% respectively in 2023. Significant growth in sales in Asia region was because the Group has shifted focus on ODM market development from western countries to Asian countries especially the China market during the year. On the product side, the Group continued to maintain a fairly balanced sales mix between prescription frames and sunglasses in 2023. Sales of prescription frames, sunglasses and spare parts accounted for 43%, 52% and 5% respectively of revenue of the ODM division in 2023 (2022: 44%, 51% and 5% respectively).

Distribution division

Revenue generated from the distribution division increased slightly by below 1% from HK\$259.7 million in 2022 to HK\$260.8 million in 2023 and accounted for 22% of the consolidated revenue of the Group in 2023 (2022: 23%). The Group's house brand and licensed brand products were sold to retailers through the Group's wholesale arms in the United Kingdom, France, Germany, Italy, China, Malaysia and South Africa, and independent distributors in other countries. Sales to Europe, the US, Asia and other regions accounted for 64%, 10%, 13% and 13% respectively of the revenue of the distribution division in 2023 (2022: 61%, 10%, 13% and 16% respectively). Europe was still the biggest market for the distribution division and sales to Europe increased by 7% compared to the year of 2022. On the other hand, sales to the US, Asia and other regions decreased by 1%, 3% and 20% respectively. STEPPER, the German brand owned by the Group, continued to be the most popular brand in our distribution division.

CHAIRMAN'S STATEMENT

Lens division

Revenue for the lens division increased significantly by 21% from HK\$67.3 million in 2022 to HK\$81.5 million in 2023 and accounted for 7% of the consolidated revenue of the Group in 2023 (2022: 6%). During the year ended 31 December 2023, the revenue for the lens division is generated solely from Asia and the Group plans to gradually expand its lens business to other regions.

Financial position and liquidity

Cash flows

The Group's operating activities continued to generate a healthy net cash inflow of HK\$68.1 million (2022: inflow of HK\$99.8 million) despite a significant decrease in the profitability of the Group in 2023. Capital expenditure was still high at HK\$63.4 million (2022: HK\$26.5 million) as the Group continued to execute its investment plan of production lines for optical lens and factory expansion of Vietnam. The net cash position of the Group (being the short-term bank deposits, bank balances and cash less bank borrowings) decreased by HK\$48.7 million from HK\$184.8 million as at 31 December 2022 to HK\$136.1 million as at 31 December 2023.

Working capital management

In line with the trend of increase in revenue during the period under review, the inventory balance and total amount of trade debtors and bills receivables balances increased by 40% and 14% respectively from HK\$129.9 million and HK\$310.5 million as at 31 December 2022 to HK\$181.4 million and HK\$353.9 million as at 31 December 2023. Inventory turnover period (being the ratio of inventory balances to cost of sales) increased from 57 days in 2022 to 80 days in 2023. Debtors turnover period (being the ratio of the total of trade debtors and bills receivable to revenue) increased from 99 days in 2022 to 108 days in 2023. The credit standing of all the customers is reviewed by the Group's management regularly and we were not aware of any deterioration in credit standing of the major customers. The current ratio (being the ratio of total current assets to total current liabilities) of the Group decreased from 1.4 as at 31 December 2022 to 1.2 as at 31 December 2023.

Gearing position

The Group maintained a low gearing position throughout 2023. The debt-to-equity ratio (expressed as a percentage of non-current liabilities over equity attributable to owners of the Company) increased slightly from 4% as at 31 December 2022 to 6% as at 31 December 2023. The non-current liabilities of the Group comprised mainly deferred taxation which amounted to HK\$25.2 million as at 31 December 2023 (31 December 2022: HK\$18.3 million).

Net asset value

The Company had 386,263,374 shares in issue as at both 31 December 2023 and 31 December 2022 with equity attributable to owners of the Company of HK\$541.9 million and HK\$519.2 million as at 31 December 2023 and 31 December 2022 respectively. Net asset value per share (being the equity attributable to owners of the Company divided by the total number of shares in issue) as at 31 December 2023 was HK\$1.40 (31 December 2022: HK\$1.34).

CHAIRMAN'S STATEMENT

Contingent liabilities

As at 31 December 2023, the Group did not have significant contingent liabilities (31 December 2022: nil).

Charges on the Group's assets

As at 31 December 2023, the Group's investment properties and leasehold land and buildings pledged as security for the Group's bank borrowings amounted to HK\$16.5 million (31 December 2022: HK\$6.1 million). Details of bank borrowings are set out in note 36 to the consolidated financial statements.

Foreign currency exposure

The Group was exposed to the fluctuation of Renminbi against both the United States dollar and the Hong Kong dollar. Save as the above, the Group had limited exposure to foreign exchange rate fluctuations as most of its transactions were conducted in either United States dollars, Hong Kong dollars or Renminbi. The Group continues to manage foreign exchange risk by closely monitoring the movements of the foreign currency rates and enters into forward contracts whenever appropriate.

PROSPECTS

Market outlook

Similar to 2023, there are no signs that the global trade frictions and geopolitical military conflicts will ease off in 2024. Therefore, the business environment for eyewear industry is expected to remain tough and challenging. The Group maintains an order book of around three months' sales orders on hand.

Although the business environment in 2024 is full of uncertainties, the Group is committed to increase the contributions from its higher-margin distribution and lens businesses. The launch of AMOS system, an online optical frame and lens ordering system, at the Hong Kong Optical Fair in November 2023, will provide further growth momentum to the distribution and lens divisions.

Margin Pressure

As the majority of the Group's spending is denominated in Renminbi, we expect that the gross margin of the ODM division will reduce. This is because the management anticipates that the growth of workers' income will be in line with the ratio of GDP growth in China during 2024.

DIVIDENDS

The Board has resolved to recommend the payment of a final dividend of 5.0 HK cents (2022: 5.0 HK cents) per share, and nil special dividend (2022: 5.0 HK cents) per share for the year ended 31 December 2023. Subject to the approval of shareholders at the forthcoming annual general meeting of the Company to be held on 6 June 2024 (the "AGM"), the final dividend will be payable on or about 28 June 2024 to shareholders whose names appear on the register of members of the Company at the close of business on 14 June 2024.

CHAIRMAN'S STATEMENT

CLOSURE OF REGISTER OF MEMBERS

For the purposes of determining shareholders' eligibility to attend and vote at the AGM, and entitlement to the final dividend, the register of members of the Company will be closed. Details of such closures are set out below:

(i) For determining eligibility to attend and vote at the AGM:

| | |
|--|--|
| Latest time to lodge transfer documents for registration | 4:30 p.m. on 31 May 2024 |
| Closure of register of members | 3 June 2024 to 6 June 2024 (both dates inclusive) |
| Record date | 6 June 2024 |

(ii) For determining entitlement to the final dividend:

| | |
|--|--|
| Latest time to lodge transfer documents for registration | 4:30 p.m. on 12 June 2024 |
| Closure of register of members | 13 June 2024 to 14 June 2024 (both dates inclusive) |
| Record date | 14 June 2024 |

During the above closure periods, no transfer of shares will be effected. To be eligible to attend and vote at the AGM and to qualify for the final dividend, all properly completed transfer forms accompanied by the relevant share certificates must be lodged with the Company's Hong Kong branch share registrar, Tricor Secretaries Limited, at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong for registration no later than the aforementioned latest times.

ANNUAL GENERAL MEETING

The notice of AGM will be despatched to the shareholders of the Company and will also be available on the Company's website at www.artsgroup.com and Hong Kong Exchanges and Clearing Limited's HKExnews website at www.hkexnews.hk in late-April 2024.

APPRECIATION

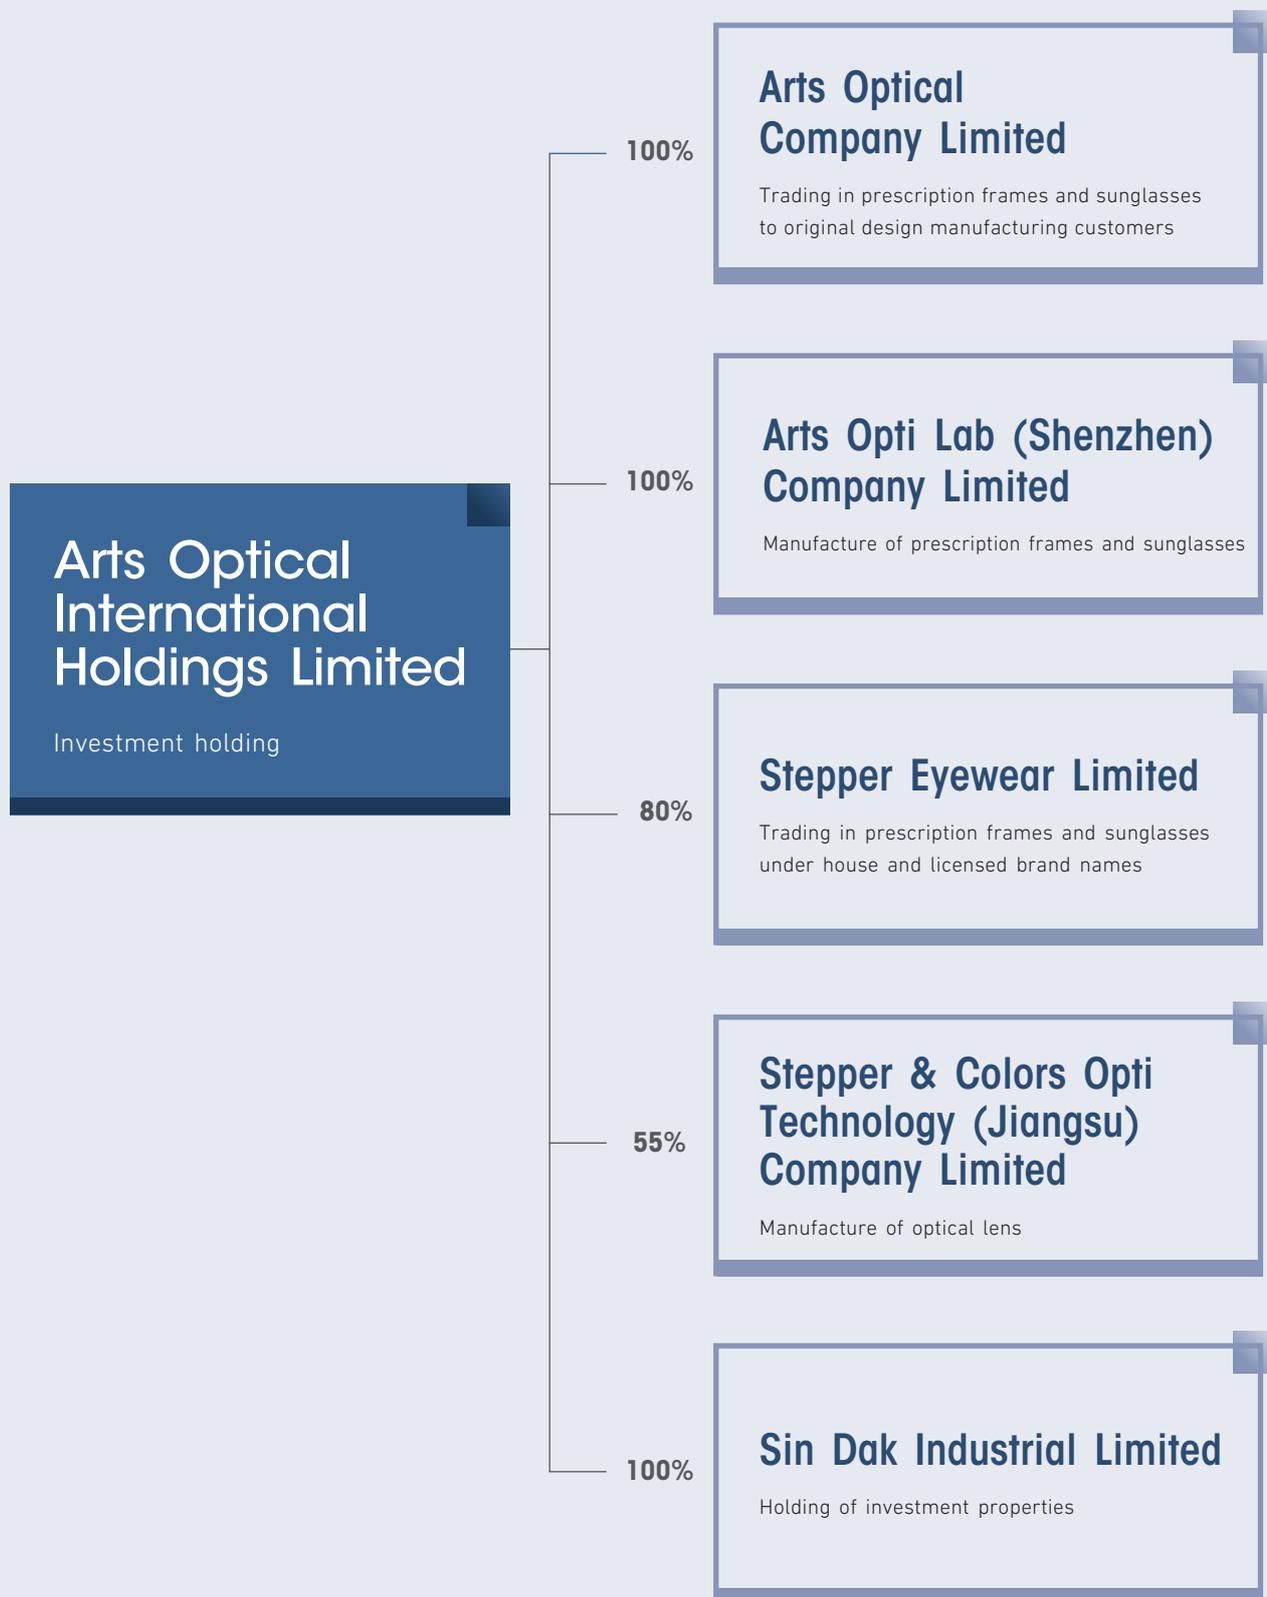

On behalf of the Board, I would like to express my sincere appreciation and thanks to our shareholders, customers, suppliers, bankers and staff for their effort and commitment.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PRACTICES

The board of directors of the Company (the “Board”) has adopted the code provisions set out in the Corporate Governance Code (the “CG Code”) contained in Appendix C1 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) (the “Listing Rules”) as its own code on corporate governance practices. The Company has complied with all applicable code provisions set out in the CG Code throughout the year ended 31 December 2023.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) as set out in Appendix C3 to the Listing Rules as its own code of conduct regarding securities transactions by the directors of the Company (the “Directors”). Having made specific enquiry of the Directors, all the Directors confirmed that they had complied with the required standards as set out in the Model Code throughout the year ended 31 December 2023.

BOARD OF DIRECTORS

At 31 December 2023, the Board comprises eight Directors, four of whom are executive Directors, namely Mr. Ng Hoi Ying, Michael, Ms. Ng Yat Shan, Mr. Ng Kim Ying and Ms. Wu Zhihong and four are independent non-executive Directors, namely Mr. Wong Chi Wai, Mr. Chung Hil Lan Eric, Mr. Lam Yu Lung and Dr. Fong Kin Kiu.

During the year ended 31 December 2023, four Board meetings and one general meeting were held. The attendance of each Director is set out as follows:

| Directors | Attendance Record | |
|---|-------------------|-----------------|
| | Board meetings | General meeting |
| Ng Hoi Ying, Michael (<i>Chairman</i>) | 4/4 | 1/1 |
| Ng Yat Shan (<i>Chief executive officer</i>) (appointed on 8 June 2023) | 4/4 | 1/1 |

| Chung Hil Lan Eric | 4/4 | 1/1 |
| Lam Yu Lung | 4/4 | 1/1 |
| Fong Kin Kiu (appointed on 8 June 2023) | 2/4 | 1/1 |

Apart from the above regular Board meetings, the Chairman also held a meeting with the independent non-executive Directors without the presence of the other Director during the year.

The Board is responsible for the formulation of the key business and strategic decisions of the Company and its subsidiaries (collectively the “Group”) and monitoring the performances of the management team. The Board has delegated the authority and responsibility for implementing its business strategies and managing the daily operations of the Group’s business to the management team.

CORPORATE GOVERNANCE REPORT

Mr. Ng Hoi Ying, Michael (“Mr. Ng”), the Chairman of the Board and an executive Director and Mr. Ng Kim Ying, an executive Director, are brothers. Ms. Ng Yat Shan (“Ms. Ng”), an executive Director and the chief executive officer of the Group, is the daughter of Mr. Ng, the niece of Mr. Ng Kim Ying and the step-daughter of Ms. Wu Zhihong. Ms. Wu Zhihong, an executive Director, is the spouse of Mr. Ng, the sister-in-law of Mr. Ng Kim Ying and the step-mother of Ms. Ng.

Save for disclosed above, there is no relationship, including financial, business, family or other material/relevant relationship(s) among members of the Board.

All Directors are encouraged to participate in continuous professional development to develop and refresh their knowledge and skill. The company secretary of the Company (the “Company Secretary”) also updates the Directors on the latest development of the Listing Rules and other applicable regulatory requirements.

The Directors participated in the following trainings during the year ended 31 December 2023:

| Directors | Types of training |

| Ng Hoi Ying, Michael | A, C |
| Ng Yat Shan | A, C |
| Ng Kim Ying | A, C |
| Wu Zhihong | A, C |
| Wong Chi Wai | A, B, C |
| Chung Hil Lan Eric | A, C |
| Lam Yu Lung | A, C |
| Fong Kin Kiu | A, B, C |

A: attending seminars and/or conferences

B: giving talks at seminars

C: reading newspapers and journals relating to directors’ duties and responsibilities as well as updates on the Listing Rules and other applicable regulatory requirements

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Code provision C.2.1 of the CG Code stipulates that the roles of chairman and chief executive officer should be separated and should not be performed by the same individual. Mr. Ng is the founder and chairman of the Group. Ms. Ng is the chief executive officer of the Group. Ms. Ng is responsible for implementing business strategies and operational management formulated by the Board.

Ms. Ng is the daughter of Mr. Ng, the chairman of the Board and an executive Director, the niece of Mr. Ng Kim Ying, an executive Director, and the step-daughter of Ms. Wu Zhihong, an executive Director. Save for disclosed above, there is no relationship, including financial, business, family or other material/relevant relationship(s) among members of the Board and the chief executive officer of the Group.

CORPORATE GOVERNANCE REPORT

APPOINTMENT AND RE-ELECTION OF DIRECTORS

According to Bye-law 87(1) of the bye-laws of the Company (the "Bye-laws"), at each annual general meeting of the Company, one-third of the Directors for the time being (or if their number is not a multiple of three, the number nearest to but not less than one-third) shall retire from office by rotation. Bye-law 87(2) of the Bye-laws further provides that the Director(s) to retire by rotation shall be those who have been longest in office since their last re-election or appointment, and as between persons who became or were last re-elected Directors on the same day, those to retire shall (unless they otherwise agree among themselves) be determined by lot. According to Bye-law 86(2), any Director appointed by the Board to fill a casual vacancy shall hold office only until the next annual general meeting of the Company and shall then be eligible for re-election at that meeting.

Mr. Ng Kim Ying, Mr. Ng and Mr. Lam Yu Lung were re-elected as Directors in the annual general meetings of the Company held on 3 June 2021, 9 June 2022 and 9 June 2022 respectively for a term of not more than 3 years and are subject to retirement by rotation in accordance with the Bye-laws. In accordance with the above-mentioned Bye-laws, Mr. Ng Kim Ying, Mr. Ng and Mr. Lam Yu Lung will retire at the forthcoming annual general meeting and, being eligible, offer themselves for re-election. Their proposed term of office is not more than 3 years and is subject to retirement by rotation in accordance with the Bye-laws.

Each of the independent non-executive Directors was appointed for a term of not more than 3 years and is subject to the retirement by rotation in accordance with the Bye-laws.

According to code provision B.2.3 of the CG Code, if an independent non-executive Director serves more than 9 years, any further appointment of such independent non-executive Director should be subject to a separate resolution to be approved by the shareholders for more than 9 years. Mr. Wong Chi Wai ("Mr. Wong") and Mr. Chung Hil Lan Eric ("Mr. Chung") have served the Company as independent non-executive Directors for more than 9 years since 2004. The Company has received from Mr. Wong and Mr. Chung a confirmation of independence according to Rule 3.13 of the Listing Rules. Mr. Wong and Mr. Chung have not engaged in any executive management of the Group and demonstrated their ability to provide an independent view to the Company's matters during their term of service. The Board considered that the long service of Mr. Wong and Mr. Chung would not affect their exercise of independent judgement and is satisfied that they have the required character, integrity, experience and profound knowledge of the business of the Group to continue fulfilling the role of independent non-executive Director effectively. Based on the abovementioned and in accordance with code provision B.2.3 of the CG Code, the re-election of Mr. Wong and Mr. Chung were approved by the shareholders by way of a separate resolution at the annual general meeting of the Company on 8 June 2023.

Further, according to code provision B.2.4 of the CG Code, where all the independent non-executive Directors have served more than 9 years on the Board, the Company should disclose the length of tenure of each existing independent non-executive Director on a named basis in the relevant circular for annual general meeting of the Company and appoint a new independent non-executive Director on the Board at the forthcoming annual general meeting starting from the financial year commencing on or after 1 January 2023. As all of the Company's independent non-executive Directors have served more than 9 years on the Board, the Company has, in accordance with code provision B.2.4 of the CG Code, disclosed the length of tenure of each existing independent non-executive Director on a named basis in its circular dated 26 April 2023. Further, to comply with code provision B.2.4 of the CG Code, the Company had appointed an additional independent non-executive Directors, Dr. Fong Kin Kiu at the annual general meeting of the Company on 8 June 2023.

CORPORATE GOVERNANCE REPORT

During the year ended 31 December 2023, the Board also reviewed the implementation and effectiveness of mechanisms to ensure independent views and input are available to the Board. Taking into account, among others, the size, structure, composition of the Board and the annual meeting between the Chairman and all independent non-executive Directors without presence of other Directors which has provided effective platform for the Chairman to listen independent views on various issues concerning the Group, the Board considered that the Company had in place mechanisms which remain effective to ensure a strong independent element on the Board.

For newly appointed Directors, the Company will provide legal advice for their rights, obligations and responsibilities as a Director of the Company. Ms. Ng Yat Shan, Ms. Wu Zhihong and Dr. Fong Kin Kiu were newly elected by the shareholders as the Directors at the annual general meeting of the Company on 8 June 2023 and all of them had confirmed their understanding of obligations as the Directors on 9 June 2023.

BOARD COMMITTEES

To enhance the effectiveness of the management of the Company, the Board has established the Audit Committee, the Remuneration Committee and the Nomination Committee to oversee various aspects of the Company's affairs.

AUDIT COMMITTEE

An audit committee (the "Audit Committee") has been established by the Company since 1998 and currently comprises Mr. Wong Chi Wai (the chairman of the Audit Committee), Mr. Chung Hil Lan Eric and Mr. Lam Yu Lung, all of whom are independent non-executive Directors. The duties of the Audit Committee include (but are not limited to) the review of the interim and annual reports of the Group as well as of various auditing, financial reporting, risk management and internal control matters with the management and/or external auditor of the Company. The Audit Committee has performed the above duties and made recommendations to the Board on the appointment of the external auditor during the year ended 31 December 2023. Three Audit Committee meetings were held during the year ended 31 December 2023 and the attendance of each committee member is set out as follows:

| Directors | Attendance Record |
|--------------------|-------------------|
| Wong Chi Wai | 3/3 |
| Chung Hil Lan Eric | 3/3 |
| Lam Yu Lung | 3/3 |

REMUNERATION COMMITTEE

A remuneration committee (the "Remuneration Committee") has been established by the Company since 2003 and currently comprises Mr. Chung Hil Lan Eric (the chairman of the Remuneration Committee), Mr. Wong Chi Wai and Mr. Lam Yu Lung, all of whom are independent non-executive Directors.

CORPORATE GOVERNANCE REPORT

One Remuneration Committee meeting was held during the year ended 31 December 2023 and the attendance of each committee member is set out as follows:

| Directors | Attendance Record |
|--------------------|-------------------|
| Chung Hil Lan Eric | 1/1 |
| Wong Chi Wai | 1/1 |
| Lam Yu Lung | 1/1 |

The major roles and functions of the Remuneration Committee are summarised as follows:

1. to determine the remuneration of the executive Directors, independent non-executive Directors and senior management; and
2. to review and approve the management's remuneration proposals with reference to the Board's corporate goals and objectives.

During the year ended 31 December 2023, the Remuneration Committee has, among other things, reviewed and determined the remuneration packages of the executive Directors, independent non-executive Directors and senior management with reference to their performance and the overall remuneration policy of the Group and approved the terms of the Directors' service contracts. The shareholders of the Company authorised the Remuneration Committee to fix the remuneration of the executive Directors and independent non-executive Directors at the annual general meeting.

Details of the remuneration of the senior management by band are set out in note 16 to the consolidated financial statements.

As at 31 December 2023, the Group employed approximately 3,700 (31 December 2022: 3,500) full time staff in Mainland China, Hong Kong, Europe, Southeast Asia and South Africa. The Group remunerates its employees based on their performance, experience, qualifications and prevailing market salaries while performance bonuses are granted on a discretionary basis after considering individual performance and the operating results of the Group. Other employee benefits include insurance and medical coverage, subsidised educational and training programmes as well as provident fund schemes.

NOMINATION COMMITTEE

A nomination committee (the "Nomination Committee") has been established by the Company since 2012 and currently comprises Mr. Lam Yu Lung (the chairman of the Nomination Committee), Mr. Wong Chi Wai, Mr. Chung Hil Lan Eric and Dr. Fong Kin Kiu, all of whom are independent non-executive Directors. The duties of the Nomination Committee include (but are not limited to) reviewing the structure, size and composition of the Board, assessing the independence of the independent non-executive Directors, and making recommendations to the Board on the appointment or re-appointment of Directors. The Nomination Committee has performed the above duties during the year ended 31 December 2023.

CORPORATE GOVERNANCE REPORT

The Nomination Committee has adopted a board diversity policy in 2013. The Company recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance. With a view to achieving sustainable and balanced development, the Company views increasing diversity at the Board level as an essential element in supporting the attainment of its strategic objectives and its sustainable development. Selection of candidates will be based on a range of perspectives, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board. The Board and the Nomination Committee are dedicated to achieve board diversity of the Company.

The Company will proactively provide trainings to our senior management and will take into account the factor of gender diversity when recruiting suitable candidates for our senior management in the future, so to develop a pipeline of potential successors for the Board and enhance gender diversity in the Board in the coming years. The Company may also engage resources to identify potential successors for the Board and enhance gender diversity in the coming years, if necessary. From the Group's perspective, as at 31 December 2023, the female-to-male ratio of the Group's employee is approximately 0.79. The Group is determined to maintain gender diversity and equality in terms of the whole workforce and expects the above is achievable with suitable effort in promoting the gender diversity culture, which the Group has been advocating for so.

One Nomination Committee meeting was held during the year ended 31 December 2023 and the attendance of each committee member is set out as follows:

| Directors | Attendance Record |
|--------------------|-------------------|
| Lam Yu Lung | 1/1 |
| Wong Chi Wai | 1/1 |
| Chung Hil Lan Eric | 1/1 |
| Fong Kin Kiu* | 0/1 |

* The Nomination Committee meeting was held before Dr. Fong Kin Kiu joined the committee on 8 June 2023.

NOMINATION POLICY

Nomination Criteria

In evaluating and selecting any candidate for the directorship, the following criteria should be considered:

1. character and integrity;
2. qualifications including professional qualifications, skills, knowledge and experience, and diversity aspects under the board diversity policy adopted by the Company that are relevant to the Company's business and corporate strategy;
3. any potential contributions the candidate can bring to the Board in terms of qualifications, skills, experience, independence and gender diversity;
4. willingness and ability to devote adequate time to discharge duties as a member of the Board and/or Board committee(s) of the Company;

CORPORATE GOVERNANCE REPORT

5. for independent non-executive Directors, whether the candidate would be considered independent with reference to the Listing Rules; and
6. such other perspectives that are appropriate to the Company's business and succession plan and where applicable may be adopted and/or amended by the Board and/or the Nomination Committee from time to time for nomination of directors and succession planning.

Nomination Procedures

The Company has put in place the following nomination procedures of the Directors:

Appointment of New and Replacement Directors

1. If the Board determines that an additional or replacement Director is required, it will deploy multiple channels for identifying suitable director candidates, including referral from Directors, shareholders, management, and external executive search firms.
2. Upon compilation of the list of potential candidates and interviews of the potential candidate, the relevant Nomination Committee will shortlist candidates for consideration by themselves and/or the Board based on the criteria as set out above and such other factors that it considers appropriate. If the process yields one or more desirable candidates, the Nomination Committee shall rank them by the order of preference based on the criteria as set out above.
3. The Board has the final authority on determining suitable director candidates for appointment.

Re-election of Directors and Nomination from Shareholders

1. Where a retiring Director, being eligible, offers himself for re-election, the Board shall consider and, if consider appropriate, recommend such retiring Director to stand for re-election at a general meeting. A circular containing the requisite information on such retiring Director will be sent to shareholders prior to a general meeting in accordance with the Listing Rules.
2. In case of independent non-executive Directors, the Nomination Committee shall ensure that the independent non-executive Directors meet the criteria of independence as laid down in the Listing Rules.
3. Any shareholder of the Company who wishes to nominate a person to stand for election as a Director at a general meeting must nominate the candidate in accordance with the procedures for shareholders to propose a person for election as a Director adopted by the Company. The Nomination Committee shall evaluate such candidate based on the criteria as set out above to determine whether such candidate is qualified for directorship and where appropriate, the Nomination Committee and/or the Board shall make recommendation to shareholders in respect of the proposed election of director at the general meeting.

The nomination procedures shall be in compliance with the Listing Rules, the Company's memorandum of association and Bye-laws and all applicable laws and regulations.

CORPORATE GOVERNANCE REPORT

DIVIDEND POLICY

The Company considers stable and sustainable returns to shareholders to be our goal and endeavours to maintain a progressive dividend policy.

In deciding whether to propose a dividend and in determining the dividend amount, the Board takes into account (a) the earnings performance of the Group; (b) the financial position of the Group; (c) the investment requirements of the Group; and (d) the future prospects of the Group.

There can be no assurance that a dividend will be proposed or declared in any given year. If a dividend is proposed or declared, there can be no assurance that the dividend amount will be as contemplated above.

CORPORATE GOVERNANCE FUNCTIONS

The Board is responsible for determining the corporate governance policy of the Company and performing the corporate governance duties as below:

1. to develop and review the Group's policies and practices on corporate governance and make recommendations;
2. to review and monitor the training and continuous professional development of Directors and senior management;
3. to review and monitor the Group's policies and practices on compliance with all legal and regulatory requirements (where applicable);
4. to develop, review and monitor the code of conduct and compliance manual (if any) applicable to the employees and directors of the Group; and
5. to review the Group's compliance with the code of corporate governance and disclosure requirements in the Corporate Governance Report.

ACCOUNTABILITY AND AUDIT

The Directors acknowledge their responsibility to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Group. In preparing the accounts for the year ended 31 December 2023, the Directors have adopted suitable accounting policies which are pertinent to the Group's operation and relevant to the financial statements, have made judgements and estimates that are prudent and reasonable, and have prepared the accounts on a going concern basis.

A statement by the auditor about its reporting responsibilities is included in the Independent Auditor's Report on pages 33 to 40 of this Annual Report.

CORPORATE GOVERNANCE REPORT

AUDITOR'S REMUNERATION

During the year under review, the remuneration paid to the Company's auditor, Messrs. RSM Hong Kong is set out as follows:

| Services rendered | Fees paid/payable <i>HK\$'000</i> |
|--------------------------------|--------------------------------------|
| Audit service | 1,600 |
| Non-audit services: | |
| Agreed upon procedures service | 110 |
| Tax compliance services | 193 |

RISK MANAGEMENT AND INTERNAL CONTROL

The Board acknowledges its responsibility for the risk management and internal control systems and reviewing their effectiveness on an ongoing basis. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable but not absolute assurance against material misstatement or loss. The Audit Committee assists the Board in evaluating and determining the nature and extent of the risks it is willing to take in achieving the Group's strategic objectives, and ensures that the Group establishes and maintains appropriate and effective risk management and internal control systems.

The risk management and internal control systems of the Group comprise a well-established organisational structure and comprehensive policies and standards. Areas of responsibilities of each business and operational unit are clearly defined to ensure effective check and balances.

The annual review of the effectiveness of the risk management and internal control systems of the Group by the Board during the year ended 31 December 2023 has considered the following:

- the adequacy of resources, staff qualifications and experience, training programmes and budget of the Company's accounting and financial reporting functions as well as the review of risk management and internal control systems;
- the changes in the nature and extent of significant risks during the year and the Group's ability to respond to changes in its business and external environment;
- the scope and quality of management's ongoing monitoring of risks and of the internal control systems;
- the extent and frequency of communication of monitoring results to the Board which enables it to assess control of the Group and the effectiveness of risk management;
- significant control failings or weaknesses, if any, that have been identified during the year and the extent to which they have resulted in unforeseen outcomes or contingencies that have had, could have had, or may in the future have, a material impact on the Group's financial performance or condition; and

CORPORATE GOVERNANCE REPORT

- the effectiveness of the Group's processes in relation to financial reporting and statutory and regulatory compliance.

The processes for assessing internal controls by the Audit Committee include:

- regular interviews with executive Directors in relation to key business operations, internal control and compliance issues, both financial and non-financial;
- review of significant issues arising from internal control review reports and the external audit report;
- private sessions with external consultants and auditors; and
- review of annual assessment and certification of internal controls from executive Directors, management of overseas subsidiaries and department heads in their areas of responsibility.

The Audit Committee has also reviewed papers prepared by executive Directors covering:

- periodic financial reports and accounts;
- preview of annual accounting and financial reporting issues;
- annual internal control review plan;
- whistle-blowing reports;
- report on the Group's internal control systems; and
- reporting of outstanding litigation and compliance issues.

The Board reviews the risk management and internal control systems of the Group annually. With the assistance of an external consultant, Sage Business Services Limited and the Audit Committee, the Board assessed the effectiveness and adequacy of the Group's risk management and internal control systems which covered the process used to identify, evaluate and manage significant risks, all material controls, including financial, operational and compliance controls during the year ended 31 December 2023. No major issue had been raised but certain areas for improvement had been identified and appropriate measures had been taken.

The Company currently does not have an internal audit function. The Board had been conducting the review of the effectiveness of the Group's risk management and/or internal control systems with the assistance of external consultants and the Audit Committee since 2006 as the Board believed that this was a cost-efficient and effective approach given the size and operational complexity of the Group. The Board will review the need for an internal audit function on an annual basis.

CORPORATE GOVERNANCE REPORT

INSIDE INFORMATION

The Group has in place a Policy on Disclosure of Inside Information (the “Policy”) which sets out the procedures and internal controls for handling and dissemination of inside information in a timely manner in such a way so as not to place any person in a privileged dealing position and to allow time for the market to price the listed securities of the Company with the latest available information.

This Policy also provides guidelines to the directors, officers and all relevant employees of the Group to ensure proper safeguards exist to prevent the Company from breaching the statutory disclosure requirements. It also includes appropriate internal control and reporting systems to identify and assess potential inside information.

Dissemination of inside information of the Company shall be conducted by publishing the relevant information on the Company’s website and Hong Kong Exchanges and Clearing Limited’s HKExnews website, according to the requirements of the Listing Rules.

COMPANY SECRETARY

Mr. Choi Pui Yiu has been appointed as the Company Secretary since June 2017. There was no non-compliance with requirements of professional qualifications and professional training under the Listing Rules during the year ended 31 December 2023.

SHAREHOLDERS’ RIGHTS

Convening a Special General Meeting by Shareholders

Pursuant to Bye-law 58, a special general meeting may be convened by the Board upon requisition by any shareholder holding not less than one-tenth of the issued share capital of the Company carrying the right to vote at any general meetings of the Company. The shareholder shall make a written requisition to the Board or the Company Secretary, specifying the shareholding information of the shareholder, his/her contact details and the proposal regarding any specified transaction/business and its supporting documents.

The Board shall arrange to hold such general meeting within two (2) months after the receipt of such written requisition. Pursuant to Bye-law 59, the Company shall serve the requisite notice of the general meeting, including the time, place of meeting and particulars of resolutions to be considered at the meeting and the general nature of the business.

If within twenty-one (21) days of the receipt of such written requisition, the Board fails to proceed to convene such special general meeting, the shareholder shall do so pursuant to the provisions of Section 74(3) of the Companies Act 1981 of Bermuda.

There were changes to the Company's Memorandum of Association and Bye-laws during the year ended 31 December 2023. A copy of the latest consolidated version of the Memorandum of Association and Bye-laws is posted on the websites of the Company and Hong Kong Exchanges and Clearing Limited.

Shareholders Communication Policy

The Company has adopted a Shareholders Communication Policy since 2012 with the objective of ensuring that the Company's shareholders are provided with ready, equal and timely access to balanced and user-friendly information about the Company in order to enable the shareholders to exercise their rights in an informed manner, and to allow the shareholders and the investment community to engage actively with the Company.

CORPORATE GOVERNANCE REPORT

A summary of the Shareholders Communication Policy is as follows:

Information shall be communicated to shareholders and the investment community mainly through the Company's financial reports, annual general meetings and other general meetings that may be convened, as well as by making available all the disclosures submitted to the Stock Exchange and its corporate communications and other corporate publications on the Company's website. Shareholders are encouraged to participate in general meetings or to appoint proxies to attend and vote at meetings for and on their behalf if they are unable to attend the meetings. The Company endeavours to encourage shareholders' participation, and in particular, the process of the Company's general meetings will be monitored and reviewed on a regular basis, and, if necessary, changes will be made to ensure that shareholders' needs are best served. Board members, appropriate management executives and external auditors will attend annual general meetings to answer shareholders' questions. In order for the Company to solicit and understand the views of shareholders and stakeholders or to enable them to make any query in respect of the Company, shareholders and the investment community may contact the Company Secretary at the contact details as set out above.

The Company reviewed the Group's shareholders and investor engagement and communication activities conducted in the year ended 31 December 2023 and was satisfied with the implementation and effectiveness of the Shareholders Communication Policy.

TO THE SHAREHOLDERS OF ARTS OPTICAL INTERNATIONAL HOLDINGS LIMITED

(Incorporated in Bermuda with limited liability)

OPINION

We have audited the consolidated financial statements of Arts Optical International Holdings Limited (the "Company") and its subsidiaries (the "Group") set out on pages 41 to 151, which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2023, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matters we identified are:

1. Estimated reversal of impairment of property, plant and equipment, and right-of-use assets
2. Estimated impairment of goodwill
3. Valuation of investment properties
4. Impairment assessment of trade debtors

| Key Audit Matter | How our audit addressed the Key Audit Matter |
|---|---|
| <p>1. Estimated reversal of impairment of property, plant and equipment, and right-of-use assets</p> <p><i>Refer to note 21 to the consolidated financial statements</i></p> <p>At 31 December 2023, the Group held HK\$303,977,000 (net of accumulated impairment of approximately HK\$780,504,000) of property, plant and equipment, and right-of-use assets.</p> <p>In view of the continuous improvement in the financial performance of the Group and increase in sales orders since 2021, the management of the Group considered there were reversal of impairment indicators and performed a re-assessment of the impairment previously made against the property, plant and equipment and right-of-use assets within the cash generating unit ("CGU") of original design manufacturing division in Asia as at 31 December 2023.</p> <p>When a review of reversal of impairment is conducted, the recoverable amount is generally based on value in use calculations which require management assumptions. These assumptions relate to discount rates applied and forecast sales growth and margins which are subject to estimation.</p> <p>As at 31 December 2023, the recoverable amount of the CGU was approximated to the carrying amounts of the assets, including property, plant and equipment, and right-of-use assets, belong to the CGU, no reversal of impairment on property, plant and equipment, and right-of-use assets was recognised.</p> <p>We identified the estimated reversal of impairment of property, plant and equipment, and right-of-use assets as a key audit matter due to the judgements and estimation that are required in the determining the recoverable amount for the CGU to which the asset belongs.</p> | <p>Our procedures included:</p> <ul style="list-style-type: none">• Understanding and evaluating the key controls over the management's reversal of impairment assessment and assessing the inherent risk of material misstatement by considering the degree of estimation uncertainty and level of other inherent risk factors such as complexity, subjectivity, changes, susceptibility to management bias or fraud;• Evaluating the outcome of prior period assessment of impairment assessment to assess the effectiveness of management's estimation process;• Assessing management's process in identifying reversal of impairment indicators for property, plant and equipment, and right-of-use assets;• Challenging and assessing the reasonableness of management's key assumptions including discount rates and forecast sales growth rate and margins adopted in the forecast of future cash flows by management and checking its mathematical accuracy;• Discussing management's key assumptions with the specialist appointed by the Group; and• With the assistance of our engaged valuation experts to review the reasonableness of the discount rate determined by the specialist appointed by the Group. |

| <p>2. Estimated impairment of goodwill</p> <p><i>Refer to note 24 to the consolidated financial statements</i></p> <p>As at 31 December 2023, the Group has goodwill of HK\$26,763,000 mainly arising from the acquisition of a subsidiary in 2021.</p> <p>For the purpose of impairment testing, the goodwill arose from the acquisition of a subsidiary in 2021 are allocated to the lens division CGU. Goodwill is tested for impairment at least annually.</p> <p>The recoverable amount of the CGU was based on the calculation of value in use which requires management to make assumptions about the future including budgeted sales, gross profit ratio and growth rates and to determine an appropriate market discount rate. These estimates require significant management judgement.</p> <p>During the year, there was no material impairment on goodwill.</p> | <p>Our procedures included:</p> <ul style="list-style-type: none">• Understanding and evaluating the key controls over the management's impairment assessment and assessing the inherent risk of material misstatement by considering the degree of estimation uncertainty and level of other inherent risk factors such as complexity, subjectivity, changes, susceptibility to management bias or fraud;• Evaluating the outcome of prior period assessment of impairment assessment to assess the effectiveness of management's estimation process;• Assessing the integrity of the valuation models;• Assessing the reasonableness of management's key assumptions based on the current operating environment and our knowledge of the business and industry;• Reconciling input data to supporting evidence, including approved budgets and considering the accuracy of previous management budgets;• Assessing the appropriateness of the discount rates used with the assistance of our engaged valuation specialists; and• Considering the potential impact of reasonable possible downside changes in the key assumptions. |

| <p>3. Valuation of investment properties</p> <p><i>Refer to note 20 to the consolidated financial statements</i></p> <p>As at 31 December 2023, the investment properties are located in Hong Kong and Vietnam carried at HK\$78,160,000. A decrease in fair value of HK\$2,008,000 was recognised in profit or loss for the year ended 31 December 2023.</p> <p>The Group's investment properties are held at fair value based on the valuations performed by independent firms of qualified professional valuers (the "Valuers"). Details of the valuation technique and key inputs used in the valuations are disclosed in note 7(c) to the consolidated financial statements. The valuations have been arrived at using income capitalisation approach for property located in Hong Kong and market approach for properties located in Vietnam.</p> <p>For income capitalisation approach, the valuations of investment properties are dependent on certain key inputs, including reversion yield and monthly market rent and contracted monthly rent of similar properties and adjusted based on the Valuers' knowledge of the factors specific to the respective properties.</p> <p>For the market comparable approach, the valuation has been determined the value of the properties through comparing it with identical or similar properties, which has price information on the market.</p> | <p>Our procedures included:</p> <ul style="list-style-type: none">• Understanding and evaluating the key controls over the management's process in determining the fair value of investment properties and assessing the inherent risk of material misstatement by considering the degree of estimation uncertainty and level of other inherent risk factors such as complexity, subjectivity, changes, susceptibility to management bias or fraud;• Evaluating the Valuers' competence, capabilities and objectivity;• Assessing the estimates adopted by management of the Group and the Valuers by comparing these estimates to entity-specific information and market data to evaluate the reasonableness of these estimates;• Obtaining rental agreements entered into by the Group and comparing the monthly market rent adopted in the valuation to contracted monthly rent in the rental agreements; and• Assessing the reasonableness of the price per square metre of comparable properties and information used by the Valuer and the management in the valuation model, including adjustment factors for location and other individual factors such as size of property in order to assess the appropriateness, completeness and accuracy of these inputs and comparing the comparable properties adopted with fair market unit price. |

| <p>4. Impairment assessment of trade debtors</p> <p><i>Refer to note 30 to the consolidated financial statements</i></p> <p>As at 31 December 2023, the Group had gross trade debtors of approximately HK\$359,677,000 and allowance for credit losses of approximately HK\$6,067,000.</p> <p>In general, the credit terms granted by the Group to customers ranged between 30 days to 150 days. Management performed periodic assessments of the recoverability of trade debtors and the sufficiency of allowance for credit losses based on information including credit profile of different customers, ageing of the trade debtors, historical settlement records, subsequent settlement status, expected timing and amount of realisation of outstanding balances, and on-going trading relationships with the relevant customers. Management also considered forward-looking information that may impact the customers' ability to repay the outstanding balances in order to estimate the expected credit losses for the impairment assessment.</p> <p>We focused on this area because the impairment assessment of trade debtors under the expected credit losses model involved the use of significant management judgements and estimates.</p> | <p>Our procedures included:</p> <ul style="list-style-type: none">• Understanding and evaluating the design and implementation of the relevant controls on impairment of trade debtors and assessing the inherent risk of material misstatement by considering the degree of estimation uncertainty and level of other inherent risk factors such as complexity, subjectivity, changes and susceptibility to management bias or fraud;• Perform retrospective review to evaluate the outcome of prior period assessment of impairment of trade debtors to assess the effectiveness of management's estimate process;• Assessing whether trade debtors had been appropriately grouped by management based on their shared credit risk characteristics;• Testing the accuracy and completeness of the data used by management to develop the historical loss rates and assessing the sufficiency, reliability and relevance of that data;• With the assistance of our engaged valuation experts, testing the calculation of the historical loss rate and evaluating the reasonableness of the forward-looking adjustments made to reflect current and forecast future economic conditions;• Testing the accuracy of the ageing of trade debtors on a sample basis to supporting documents; and• Testing the calculation of expected credit loss provisions applying the provision rates to the age categories of the trade debtors outstanding at the reporting date. |

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises all the information included in the Company's 2023 annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee assists the directors in discharging their responsibilities for overseeing the Group's financial reporting process.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with Section 90 of the Companies Act 1981 of Bermuda and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Tam Shing Yu.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

1. GENERAL INFORMATION

Arts Optical International Holdings Limited (the “Company”) is incorporated in Bermuda as an exempted company with limited liability and its shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information section to the annual report.

The Company is an investment holding company. The principal activities of its principal subsidiaries are set out in note 22.

The consolidated financial statements are presented in Hong Kong dollars (“HK\$”), which is different from the functional currency of the Company, which is United States dollars (“US\$”), as directors of the Company (the “Directors”) consider that Hong Kong dollars is the most appropriate presentation currency in view of its place of listing.

2. BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). HKFRSs comprise Hong Kong Financial Reporting Standards (“HKFRS”); Hong Kong Accounting Standards (“HKAS”); and Interpretations. The consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange and with the disclosure requirements of the Companies Ordinance (Cap. 622).

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Group. Note 3 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

3. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

(a) Application of new and revised HKFRSs

The Group has applied the following new and amendments to HKFRSs issued by the HKICPA for the first time, which are mandatorily effective for the annual period beginning on or after 1 January 2023 for the preparation of the consolidated financial statements:

| | |
|---|--|
| HKFRS 17 | Insurance Contracts |
| Amendments to HKAS 8 | Definition of Accounting Estimates |
| Amendments to HKAS 12 | Deferred Tax related to Assets and Liabilities arising from a Single Transaction |
| Amendments to HKAS 12 | International Tax Reform – Pillar Two Model Rules – Amendments to HKAS 12 |
| Amendments to HKAS 1 and HKFRS Practice Statement 2 | Disclosure of Accounting Policies |

Except as described below, the application of the new and amendments to HKFRSs in the current year has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Impact on application of Amendments to HKAS 1 and HKFRS Practice Statement 2 “Disclosure of Accounting Policies”

The Group has adopted Amendments to HKAS 1 and HKFRS Practice Statement 2 “Disclosure of Accounting Policies” for the first time in the current year. HKAS 1 “Presentation of Financial Statements” is amended to replace all instances of the term “significant accounting policies” with “material accounting policy information”. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

The amendments also clarify that accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. If an entity chooses to disclose immaterial accounting policy information, such information must not obscure material accounting policy information.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

3. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (continued)

(a) Application of new and revised HKFRSs (continued)

Impact on application of Amendments to HKAS 1 and HKFRS Practice Statement 2 “Disclosure of Accounting Policies” (continued)

HKFRS Practice Statement 2 “Making Materiality Judgements” (the “Practice Statement”) is also amended to illustrate how an entity applies the “four-step materiality process” to accounting policy disclosures and to judge whether information about an accounting policy is material to its financial statements. Guidance and examples are added to the Practice Statement.

The application of the amendments has had no material impact on the Group’s financial positions and performance but has affected the disclosure of the Group’s accounting policies set out in note 4 to the consolidated financial statements.

Change in accounting policy as a result of application of the HKICPA guidance on the accounting implications of the abolition of the Mandatory Provident Fund (“MPF”) – Long Service Payment (“LSP”) offsetting mechanism in Hong Kong

The Group has several subsidiaries operating in Hong Kong which are obliged to pay LSP to employees under certain circumstances. Meanwhile, the Group makes mandatory and voluntary MPF contributions to the trustee who administers the assets held in a trust solely for the retirement benefits of each individual employee. Offsetting of LSP against an employee’s accrued retirement benefits derived from employers’ MPF contributions was allowed under the Employment Ordinance (Cap.57). In June 2022, the Government of the HKSAR gazetted the Employment and Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 (the “Amendment Ordinance”) which abolishes the use of the accrued benefits derived from employers’ mandatory MPF contributions to offset severance payment and LSP (the “Abolition”). The Abolition will officially take effect on 1 May 2025 (the “Transition Date”). In addition, under the Amendment Ordinance, the last month’s salary immediately preceding the Transition Date (instead of the date of termination of employment) is used to calculate the portion of LSP in respect of the employment period before the Transition Date.

In July 2023, the HKICPA published “Accounting implications of the abolition of the MPF-LSP offsetting mechanism in Hong Kong” which provides guidance for the accounting for the offsetting mechanism and the impact arising from abolition of the MPF-LSP offsetting mechanism in Hong Kong. In light of this, the Group has implemented the guidance published by the HKICPA in connection with the LSP obligation retrospectively so as to provide more reliable and more relevant information about the effects of the offsetting mechanism and the Abolition.

3. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (continued)

(a) Application of new and revised HKFRSs (continued)

Change in accounting policy as a result of application of the HKICPA guidance on the accounting implications of the abolition of the Mandatory Provident Fund (“MPF”) – Long Service Payment (“LSP”) offsetting mechanism in Hong Kong (continued)

The Group considered the accrued benefits arising from employer MPF contributions that have been vested with the employee and which could be used to offset the employee’s LSP benefits as a deemed contribution by the employee towards the LSP. Historically, the Group has been applying the practical expedient in paragraph 93(b) of HKAS 19 to account for the deemed employee contributions as a reduction of the service cost in the period in which the related service is rendered.

Based on the HKICPA’s guidance, as a result of the Abolition, these contributions are no longer considered “linked solely to the employee’s service in that period” since the mandatory employer MPF contributions after the Transition Date can still be used to offset the pre-transition LSP obligation. Therefore, it would not be appropriate to view the contributions as “independent of the number of years of service” and the practical expedient in paragraph 93(b) of HKAS 19 is no longer applicable. Instead, these deemed contributions should be attributed to periods of service in the same manner as the gross LSP benefit applying paragraph 93(a) of HKAS 19. Accordingly, the Group has recognised a cumulative catch-up adjustment in profit or loss for the service cost, interest expense and remeasurement effect from changes in actuarial assumptions for the year ended 31 December 2022, with corresponding adjustment to the LSP obligation. The cumulative catch-up adjustment is calculated as the difference at the enactment date (16 June 2022) between the carrying amount of the LSP liability calculated under paragraph 93(b) of HKAS 19 before the Abolition and the carrying amount of the LSP liability calculated under paragraph 93(a) of HKAS 19 after the Abolition.

The application of the change in accounting policy has had no material impact on the Group’s financial positions and performance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (continued)

(b) Revised HKFRSs in issue but not yet effective

The Group has not early applied the following amendments to standards and interpretation that have been issued but are not yet effective:

| | Effective for accounting periods beginning on or after |
|---|--|
| Amendments to HKAS 1 – Classification of Liabilities as Current or Non-current | 1 January 2024 |
| Amendments to HKAS 1 – Non-current Liabilities with Covenants | 1 January 2024 |
| Amendments to HKFRS 16 – Lease Liability in a Sales and Leaseback | 1 January 2024 |
| Hong Kong Interpretation 5 (Revised) Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause (“HK Int 5 (Revised)”) | 1 January 2024 |
| Amendments to HKAS 7 and HKFRS 7 – Supplier Finance Arrangements | 1 January 2024 |
| Amendments to HKAS 21 – Lack of Exchangeability | 1 January 2025 |
| Amendments to HKFRS 10 and HKAS 28 – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture | To be determined by the HKICPA |

The Directors anticipate that the application of all other amendments to HKFRSs will not have material impact on the consolidated financial statements in the foreseeable future.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION

These consolidated financial statements have been prepared under the historical cost convention, unless mentioned otherwise in the accounting policies below (e.g. investment properties and certain financial instruments that are measured at fair value).

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 5.

The material accounting policies applied in the preparation of the consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests ("NCI") represent the equity in subsidiaries not attributable, directly or indirectly, to the Company. NCI are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity. NCI are presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of profit or loss and total comprehensive income for the year between the non-controlling shareholders and owners of the Company.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(a) Consolidation (continued)

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling shareholders even if this results in the NCI having a deficit balance.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions (i.e. transactions with owners in their capacity as owners). The carrying amounts of the controlling and NCI are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the NCI are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

(b) Separate financial statements

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment loss, unless the investment is classified as held for sale (or included in a disposal group that is classified as held for sale).

Cost includes direct attributable costs of investments. The results of subsidiaries are accounted for by the Company on the basis of dividend received or receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

(c) Business combination and goodwill

The acquisition method is used to account for the acquisition of a subsidiary in a business combination. The consideration transferred in a business combination is measured at the acquisition-date fair value of the assets given, equity instruments issued, liabilities incurred and any contingent consideration. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received. Identifiable assets and liabilities of the subsidiary in the acquisition are, with limited exceptions, measured at their acquisition-date fair values.

The excess of the sum of the consideration transferred over the Group's share of the net fair value of the subsidiary's identifiable assets and liabilities is recorded as goodwill. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the sum of the consideration transferred is recognised in consolidated profit or loss as a gain on bargain purchase which is attributed to the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(c) Business combination and goodwill (continued)

In a business combination achieved in stages, the previously held equity interest in the subsidiary is remeasured at its acquisition-date fair value and the resulting gain or loss is recognised in consolidated profit or loss. The fair value is added to the sum of the consideration transferred in a business combination to calculate the goodwill.

The NCI in the subsidiary are initially measured at the non-controlling shareholders' proportionate share of the net fair value of the subsidiary's identifiable assets and liabilities at the acquisition date.

After initial recognition, goodwill is measured at cost less accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units ("CGUs") or groups of CGUs that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the Group at which the goodwill is monitored for internal management purposes. Goodwill impairment reviews are undertaken annually, or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGU containing the goodwill is compared to its recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

When the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the "measurement period" (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured to fair value at subsequent reporting dates, with the corresponding gain or loss being recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(d) Associates

Associates are entities over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of an entity but is not control or joint control over those policies. The existence and effect of potential voting rights that are currently exercisable or convertible, including potential voting rights held by other entities, are considered when assessing whether the Group has significant influence. In assessing whether a potential voting right contributes to significant influence, the holder's intention and financial ability to exercise or convert that right is not considered.

Investment in an associate is accounted for in the consolidated financial statements by the equity method and is initially recognised at cost. Identifiable assets and liabilities of the associate in an acquisition are measured at their fair values at the acquisition date. The excess of the cost of the investment over the Group's share of the net fair value of the associate's identifiable assets and liabilities is recorded as goodwill which is included in the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition is recognised in consolidated profit or loss.

The Group assesses whether there is an objective evidence that the interest in an associate may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

The Group's share of an associate post-acquisition profits or losses and other comprehensive income is recognised in consolidated statement of profit or loss and other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The gain or loss on the disposal of an associate that results in a loss of significant influence represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that associate and (ii) the Group's entire carrying amount of that associate (including goodwill) and any related accumulated exchange reserve. If an investment in an associate becomes an investment in a joint venture, the Group continues to apply the equity method and does not remeasure the retained interest.

Unrealised profits on transactions between the Group and its associates are eliminated to the extent of the Group's interests in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(e) Joint arrangements

A joint arrangement is an arrangement of which two or more parties have joint control. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control. Relevant activities are activities that significantly affect the returns of the arrangement. When assessing joint control, the Group considers its potential voting rights as well as potential voting rights held by other parties. A potential voting right is considered only if the holder has the practical ability to exercise that right.

A joint arrangement is either a joint operation or a joint venture. A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. The Group has assessed the type of its joint arrangements and determined them to all be joint ventures.

Investments in joint ventures are accounted for in the consolidated financial statements by the equity method and are initially recognised at cost. Identifiable assets and liabilities of the joint ventures in an acquisition are measured at their fair values at the acquisition date. The excess of the cost of the investment over the Group's share of the net fair value of the joint ventures' identifiable assets and liabilities is recorded as goodwill, which is included in the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition is recognised in consolidated profit or loss.

The Group assesses whether there is an objective evidence that the interest in a joint venture may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

The Group's share of a joint venture's post-acquisition profits or losses and other comprehensive income is recognised in consolidated statement of profit or loss and other comprehensive income. When the Group's share of losses in a joint venture equals or exceeds its interest in the joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint venture), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint venture. If the joint venture subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(e) Joint arrangements (continued)

The gain or loss on the disposal of a joint venture that results in a loss of joint control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that joint venture and (ii) the Group's entire carrying amount of that joint venture (including goodwill) and any related accumulated exchange reserve. If an investment in a joint venture becomes an investment in an associate, the Group continues to apply the equity method and does not remeasure the retained interest.

Unrealised profits on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interests in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

(f) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency").

(ii) Transactions and balances in each entity's financial statements

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the company initially recognises such non-monetary assets or liabilities. Non-monetary items that are measured at fair value in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(f) Foreign currency translation (continued)

(iii) Translation on consolidation

The results and financial position of all foreign operations (none of which has the currency of hyperinflationary economy) that have a functional currency different from the Company's presentation currency are translated into the Company's presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses are translated at average exchange rates for the period (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the exchange rates on the transaction dates); and
- all resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange reserve.

On consolidation, exchange differences arising from the translation of monetary items that form part of the net investment in foreign entities are recognised in other comprehensive income and accumulated in the exchange reserve. When a foreign operation is sold, such exchange differences are reclassified to consolidated profit or loss as part of the gain or loss on disposal.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

(g) Property, plant and equipment

Property, plant and equipment are held for use in the production or supply of goods or services, or for administrative purposes (other than properties under construction as described below), are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(g) Property, plant and equipment (continued)

Depreciation of property, plant and equipment is calculated at rates sufficient to write off their cost less their residual values over the estimated useful lives on a straight-line basis. The principal useful lives are as follows:

| | |
|--|---|
| Land and buildings | Over the remaining term of the lease and over the estimated useful lives of 25 to 30 years or the lease term of the land on which buildings are located, if shorter |
| Leasehold improvements | Over the estimated useful lives of 3 to 5 years or the term of the lease, if shorter |
| Plant and machinery and motor vehicles | Over 5 to 10 years |
| Furniture, fixtures and office equipment | Over 3 to 5 years |

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Construction in progress represents buildings under construction and plant and equipment pending installation, and is stated at cost less impairment losses. Depreciation begins when the relevant assets are available for use.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

(h) Investment properties

Investment properties are land and/or buildings which are owned or held under a leasehold interest to earn rentals and/or for capital appreciation. These include land held for a currently undetermined future use and property that is being constructed or developed for future use as investment property.

Investment property are stated at fair value, unless they are still in the course of construction or development at the end of the reporting period and their fair value cannot be reliably measured at that time.

Gains or losses arising from changes in the fair value of investment properties are recognised in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is withdrawn from use. Any gain or loss on disposal of an investment property is the difference between the net sales proceeds and the carrying amount of the property, and is recognised in profit or loss. Rental income from investment properties is accounted for as described in note 4(u).

(i) Leases

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

(i) The Group as lessee

Where the contract contains lease component(s) and non-lease component(s), the Group has elected not to separate non-lease components and accounts for each lease component and any associated non-lease components as a single lease component for all leases.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets which, for the Group are primarily laptops and office furniture. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. Lease payments to be made under reasonably certain extension options are also included in the measurement of the lease liability. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method.

Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received;
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held, which does not have recent third-party financing; and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(i) Leases (continued)

(i) The Group as lessee (continued)

If a readily observable amortising loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the group entities use that rate as a starting point to determine the incremental borrowing rate.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses, except for the right-of-use assets that meet the definition of investment property are carried at fair value in accordance with note 4(h).

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

Refundable rental deposits paid are accounted under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification.

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(i) Leases (continued)

(ii) The Group as lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to the ownership of an underlying asset to the lessee. If this is not the case, the lease is classified as an operating lease.

(j) Intangible assets other than goodwill

Intangible assets which represent trademark, customer relationships and non-compete agreement are stated at cost less accumulated amortisation and impairment losses. Amortisation is recognised in profit or loss as follows:

| | |
|------------------------|-----------------------------------|
| Trademark | Indefinite |
| Customer relationships | Straight-line basis over 10 years |
| Non-compete agreement | Straight-line basis over 6 years |

The customer relationships and non-compete agreement have finite useful lives and are carried at cost less accumulated amortisation and impairment losses. Amortisation is calculated using the straight-line method over the expected lives of the customer relationships and non-compete agreement, which are determined to be 10 years and 6 years respectively.

(k) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average basis. The cost of finished goods and work in progress comprises raw materials, direct labour and an appropriate proportion of all production overhead expenditure, and where appropriate, subcontracting charges. The costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

(l) Contract liabilities

A contract liability is recognised when the customer pays consideration before the Group recognises the related revenue. A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

When the contract includes a significant financing component, the contract balance includes interest accrued under the effective interest method.

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(m) Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when the Group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(n) Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

(n) Financial assets (continued)

Debt instruments

Debt instruments held by the Group are classified into the following measurement category:

- amortised cost, if the instruments is held for the collection of contractual cash flows which represent solely payments of principal and interest. Interest income from the instruments is calculated using the effective interest method.
- FVTOCI – recycling, if the contractual cash flows of the instrument comprise solely payments of principal and interest and the instrument is held within a business model whose objective is achieved by both the collection of contractual cash flows and sale. Changes in fair value are recognised in other comprehensive income, except for the recognition in profit or loss of expected credit losses, interest income (calculated using the effective interest method) and foreign exchange gains and losses. When the instrument is derecognised, the amount accumulated in other comprehensive income is recycled from equity to profit or loss.
- FVTPL, if the instrument does not meet the criteria for being measured at amortised cost or FVTOCI (recycling). Changes in the fair value of the instrument (including interest) are recognised in profit or loss.

Equity investments

An investment in equity securities is classified as FVTPL unless the equity investment is not held for trading purposes and on initial recognition of the investment the Group makes an election to designate the investment at FVTOCI (non-recycling) such that subsequent changes in fair value are recognised in other comprehensive income. Such elections are made on an instrument-by-instrument basis, but may only be made if the investment meets the definition of equity from the issuer's perspective. Where such an election is made, the amount accumulated in other comprehensive income remains in the financial assets at FVTOCI reserve (non-recycling) until the investment is disposed of. At the time of disposal, the amount accumulated in the financial assets at FVTOCI reserve (non-recycling) is transferred to retained profits. It is not recycled through profit or loss. Dividends from an investment in equity securities, irrespective of whether classified as at FVTPL or FVTOCI, are recognised in profit or loss as other income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(o) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method less allowance for credit losses.

(p) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Cash and cash equivalents are assessed for ECL.

(q) Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under HKFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

(r) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(s) Trade and other payables

Trade and other payables are recognised initially at their fair values and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

(t) Equity instruments

An equity instrument is any contract that evidence a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(u) Revenue and other income

Revenue is recognised when control over a product or service is transferred to the customer, at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Revenue from the sale of optical products is recognised when control of the goods has transferred, being when the goods have been shipped to the customer's specific location (delivery). Following delivery, the customer has full discretion over the manner of distribution and price to sell the goods, has the primary responsibility when on selling the goods and bears the risks of obsolescence and loss in relation to the goods. A receivable is recognised by the Group when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due.

Under the Group's standard contract terms, customers have a right of return within 14 days. At the point of sale, a refund liability and a corresponding adjustment to revenue is recognised for those products expected to be returned. At the same time, the Group has a right to recover the product when customers exercise their right of return so consequently recognises a right to returned goods asset and a corresponding adjustment to cost of sales. The Group uses its accumulated historical experience to estimate the number of returns on a portfolio level using the expected value method. It is considered highly probable that a significant reversal in the cumulative revenue recognised will not occur given the consistent level of returns over previous years.

Interest income is recognised as it accrues using the effective interest method. For financial assets measured at amortised cost or FVTOCI (recycling) that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit impaired financial assets, the effective interest rate is applied to the amortised cost (i.e. gross carrying amount net of loss allowance) of the asset.

Dividend income is recognised when the shareholders' rights to receive payment are established.

Rental income receivable under operating leases is recognised in profit or loss in equal instalments over the periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the use of the leased asset. Lease incentives granted are recognised in profit or loss as an integral part of the aggregate net lease payments receivable. Variable lease payments that do not depend on an index or a rate are recognised as income in the accounting period in which they are earned.

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(v) Employee benefits

(i) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave, maternity leave and paternity leave are not recognised until the time of leave.

(ii) Pension obligations

The Group contributes to defined contribution retirement schemes which are available to all employees. Contributions to the schemes by the Group and employees are calculated as a percentage of employees' basic salaries. The retirement benefit scheme cost charged to profit or loss represents contributions payable by the Group to the funds.

Defined benefit costs are categorised as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- Net interest expense or income; and
- Remeasurement.

The retirement benefit obligation recognised in the consolidated statement of financial position represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reduction in future contributions to the plan.

Discretionary contributions made by employees or third parties reduce service cost upon payment of these contributions to the plan.

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(v) Employee benefits (continued)

(ii) Pension obligations (continued)

When the formal terms of the plans specify that there will be contributions from employees or third parties, the accounting depends on whether the contributions are linked to service, as follows:

- If the contributions are not linked to services (for example contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses), they are reflected in the remeasurement of the net defined benefit liability or asset.
- If the contributions are linked to services, they reduce service costs. For the amount of contributions that is dependent on the number of years of service, the Group reduces service cost by attributing the contributions to periods of service using the attribution method required by HKAS 19 paragraph 70 for the gross benefits. For the amount of contribution that is independent of the number of years of service, the Group reduces service cost in the period in which the related service is rendered/ reduces service cost by attributing contributions to the employees' period of service in accordance with HKAS 19 paragraph 70.

For LSP obligation, the Group accounts for the employer MPF contributions expected to be offsetted as a deemed employee contribution towards the LSP obligation in term of HKAS 19 paragraph 93(a) and it is measured on a net basis. The estimated amount of future benefit is determined after deducting the negative service cost arising from the accrued benefits derived from the Group's MPF contributions that have been vested with employees, which are deemed to be contributions from the relevant employees.

(iii) Termination benefits

Termination benefits are recognised at the earlier of the dates when the Group can no longer withdraw the offer of those benefits, and when the Group recognises restructuring costs and involves the payment of termination benefits.

(w) Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(x) Government grants

A government grant is recognised when there is reasonable assurance that the Group will comply with the conditions attaching to it and that the grant will be received.

Government grants relating to income are deferred and recognised in profit or loss over the period to match them with the costs they are intended to compensate.

Government grants that become receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

(y) Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of transaction does not give rise to equal taxable and deductible temporary differences.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, associates and interest in joint arrangements, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(y) Taxation (continued)

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model of the Group whose business objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. If the presumption is rebutted, deferred tax for such investment properties are measured based on the expected manner as to how the properties will be recovered.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 requirements to right-of-use assets and lease liabilities separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised and a deferred tax liability for all taxable temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis, or to realise the asset and settle the liability simultaneously.

(z) Impairment of non-financial assets

Intangible assets that have an indefinite useful life or that are not yet available for use are reviewed for impairment annually and whenever events or changes in circumstances indicate the carrying amount may not be recoverable.

The carrying amounts of other non-financial assets are reviewed at each reporting date for indications of impairment and where an asset is impaired, it is written down as an expense through the consolidated statement of profit or loss and other comprehensive income to its estimated recoverable amount. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. If this is the case, recoverable amount is determined for the CGU to which the asset belongs. Recoverable amount is the higher of value in use and the fair value less costs of disposal of the individual asset or the CGU.

Value in use is the present value of the estimated future cash flows of the asset/CGU. Present values are computed using pre-tax discount rates that reflect the time value of money and the risks specific to the asset/CGU whose impairment is being measured.

Impairment losses for CGUs are allocated first against the goodwill of the unit and then pro rata amongst the other assets of the CGU. Subsequent increases in the recoverable amount caused by changes in estimates are credited to profit or loss to the extent that they reverse the impairment.

(aa) Impairment of financial assets

The Group recognises a loss allowance for ECL on investments in debt instruments that are measured at amortised cost, lease receivables, trade and other receivables, employee loan, bank deposits and bank and cash balances. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade debtors and lease receivables. The ECL on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL ("12m ECL").

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(aa) Impairment of financial assets (continued)

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of a financial instrument. In contrast, 12m ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(aa) Impairment of financial assets (continued)

Significant increase in credit risk (continued)

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if:

- (i) the financial instrument has a low risk of default;
- (ii) the debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and
- (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group considers a financial asset to have low credit risk when the asset has external credit rating of "investment grade" in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of "performing". Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(aa) Impairment of financial assets (continued)

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the counterparty;
- a breach of contract, such as a default or past due event;
- the lender(s) of the counterparty, for economic or contractual reasons relating to the counterparty's financial difficulty, having granted to the counterparty a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the counterparty will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, including when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade debtors, when the amounts are over three years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

For financial assets, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. For a lease receivable, the cash flows used for determining the ECL is consistent with the cash flows used in measuring the lease receivable in accordance with HKFRS 16.

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(aa) Impairment of financial assets (continued)

Measurement and recognition of ECL (continued)

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12m ECL at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

(bb) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

(cc) Events after the reporting period

Events after the reporting period that provide additional information about the Group's position at the end of the reporting period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the consolidated financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

5. CRITICAL JUDGEMENTS AND KEY ESTIMATES

In applying the Group's accounting policies, which are described in note 4, the Directors are required to make judgements (other than those involving estimations) that have a significant impact on the amounts recognised and to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

5. CRITICAL JUDGEMENTS AND KEY ESTIMATES (continued)

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

(a) Critical judgements in applying accounting policies

In the process of applying the accounting policies, the Directors have made the following judgements that have the most significant effect on the amounts recognised in the consolidated financial statements (apart from those involving estimations, which are dealt with below).

(i) Deferred tax for investment properties

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the Directors have reviewed the Group's investment property portfolios and concluded that the Group's investment properties are not held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time, rather than through sale. Therefore, in determining the Group's deferred tax for investment properties, the Directors have adopted the presumption that investment properties measured using the fair value model are recovered through sale.

(ii) Revenue recognition from sales of products with no alternative use at point in time

Under HKFRS 15 *Revenue from Contracts with Customers* ("HKFRS 15"), control of the asset is transferred over time when the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date. Significant judgement is required in determining whether the terms of the Group's contracts with customers in relation to products with no alternative use create an enforceable right to payment for the Group. The Group has considered the relevant local laws that apply to those relevant contracts and opinion from external legal counsel. Based on the assessment of the Group's management, the terms of the relevant sales contracts do not create an enforceable right to payment for the Group. Accordingly, the sales of products with no alternative use is considered to be performance obligation satisfied at a point in time.

(iii) Consolidation of entity with less than 50% equity interest holding

Stepper Deutschland GmbH ("Stepper DE") is a subsidiary of the Group although the Group has only 48% ownership interest and voting rights in Stepper DE, Stepper DE is treated as a subsidiary because the Group is able to control the relevant activities of Stepper DE as a result of the shareholders' agreement between the Group and other shareholder of Stepper DE.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

5. CRITICAL JUDGEMENTS AND KEY ESTIMATES (continued)

(b) Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

(i) Deferred tax assets

As at 31 December 2023, a deferred tax asset of HK\$13,000,000 (2022: nil) in relation to unused tax losses of certain operating subsidiaries has been recognised in the consolidated statement of financial position. No deferred tax asset has been recognised on the tax losses of HK\$450,555,000 (2022: HK\$532,314,000) due to the unpredictability of future profit streams. The realisability of the deferred tax asset mainly depends on whether sufficient future profits or taxable temporary differences will be available in the future, which is a key source of estimation uncertainty especially the uncertainty on how volatility or disruptions in financial, foreign currency or commodity markets may progress and evolve. In cases where the actual future taxable profits generated are less or more than expected, or change in facts and circumstances which result in revision of future taxable profits estimation, a material reversal or further recognition of deferred tax assets may arise, which would be recognised in profit or loss for the period in which such a reversal or further recognition takes place.

(ii) Impairment of property, plant and equipment

Property, plant and equipment are stated at costs less accumulated depreciation and impairment, if any. In determining whether an asset is impaired, the Group has to exercise judgement and make estimation, particularly in assessing: (1) whether an event has occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value in use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (3) the appropriate key assumptions to be applied in estimating the recoverable amounts including cash flow projections and an appropriate discount rate. When it is not possible to estimate the recoverable amount of an individual asset (including right-of-use assets), the Group estimates the recoverable amount of the CGU to which the assets belongs. Changing the assumptions and estimates, including the discount rates or the growth rate in the cash flow projections, could materially affect the recoverable amounts.

The carrying amount of property, plant and equipment as at 31 December 2023 were HK\$303,977,000 (2022: HK\$207,214,000).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

5. CRITICAL JUDGEMENTS AND KEY ESTIMATES (continued)

(b) Key sources of estimation uncertainty (continued)

(iii) Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the recoverable amount of the CGU to which goodwill has been allocated, which is the higher of the value in use or fair value less costs of disposal. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than the expected, or change in facts and circumstances which results in downward revision of future cash flows or upward revision of discount rate, a material impairment loss or further impairment loss may arise.

The carrying amount of goodwill at the end of the reporting period was HK\$26,763,000 (2022: HK\$25,293,000). Details of the impairment loss calculation are provided in note 24 to the consolidated financial statements.

(iv) Impairment of intangible assets

Determining whether intangible assets (i.e. trademark, customer relationships and non-compete agreement) are impaired requires an estimation of the recoverable amount of these intangible assets. The value in use calculation requires the Group to estimate the future cash flows expected to arise from these intangible assets and a suitable discount rate in order to calculate these present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

At 31 December 2023, the carrying amount of the Group's intangible assets was HK\$17,901,000 (2022: HK\$21,873,000) after an impairment loss of HK\$284,000 (2022: nil) was recognised during the year. Details of the impairment loss calculation are provided in note 23 to the consolidated financial statements.

(v) Fair value of investment properties

The Group appointed independent firms of qualified professional valuers to assess the fair values of the investment properties. In determining the fair value, the valuers have utilised a method of valuation which involves certain estimates. The Directors have exercised their judgement and are satisfied that the method of valuation and inputs used are reflective of the current market conditions.

The carrying amount of investment properties as at 31 December 2023 was HK\$78,160,000 (2022: HK\$87,316,000).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

5. CRITICAL JUDGEMENTS AND KEY ESTIMATES (continued)

(b) Key sources of estimation uncertainty (continued)

(vi) Impairment of trade debtors

The Group uses practical expedient in estimating ECL on trade receivables using a provision matrix. The provision rates are based on ageing of debtors as groupings of various debtors taking into consideration the Group's historical default rates and forward-looking information that is reasonable and supportable available without undue costs or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered.

As at 31 December 2023, the carrying amount of trade debtors is HK\$353,610,000 (net of allowance for credit losses of HK\$6,067,000) (2022: HK\$310,226,000 (net of allowance for credit losses of HK\$6,323,000)).

(vii) Allowance for slow-moving inventories

Allowance for slow-moving inventories is made based on the ageing and estimated net realisable value of inventories. The assessment of the allowance amount involves judgement and estimates. Where the actual outcome in future is different from the original estimate, such difference will impact the carrying value of inventories and allowance charge/write back in the period in which such estimate has been changed. As at 31 December 2023, the carrying amount of inventories was HK\$181,374,000, net of allowance for inventories of HK\$71,060,000 (2022: HK\$129,898,000, net of allowance for inventories of HK\$68,765,000).

(viii) Fair value measurement of equity investments

In the absence of quoted market prices in an active market, the Directors estimate the fair values of the Group's investments in 南京簡躍智能科技有限公司 (known as Nanjing Jianyue Intelligent Technology Company Limited) ("Nanjing Jianyue") and 深圳葉木科技有限公司 (known as Shenzhen Yemu Technology Company Limited) ("Shenzhen Yemu"), details of which are set out in note 27 to the consolidated financial statements, by considering information from a variety of sources, including the latest financial information, the historical data on market volatility as well as the price and industry and sector performance of Nanjing Jianyue and Shenzhen Yemu.

The carrying amount of the investments as at 31 December 2023 was HK\$7,694,000 (2022: HK\$7,666,000).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

6. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: foreign currency risk, credit risk, liquidity risk and interest rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) Foreign currency risk

The Group has certain exposure to foreign currency risk as most of its business transactions, assets and liabilities are principally denominated in HK\$, Renminbi ("RMB"), Euro ("EUR"), US\$, Japanese Yen ("JPY") and British Pound Sterling ("GBP"). The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group monitors its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

The carrying amounts of the Group's monetary assets and monetary liabilities denominated in currencies other than the functional currencies of the relevant group entities at the end of the reporting period are as follows:

| | Assets | | Liabilities | |
|------|------------------|------------------|------------------|------------------|
| | 2023 HK\$'000 | 2022 HK\$'000 | 2023 HK\$'000 | 2022 HK\$'000 |
| HK\$ | 27,047 | 53,337 | 38,177 | 18,613 |
| RMB | 171 | 289 | 610 | 598 |
| EUR | 3,710 | 11,661 | 4,342 | 4,548 |
| US\$ | 41,862 | 57,791 | 630 | 841 |
| JPY | 773 | 6,352 | 24 | 284 |
| GBP | 7,477 | 5,437 | – | – |

Sensitivity analysis

The Group is mainly exposed to exchange rate fluctuation in currency of RMB, EUR, JPY and GBP. HK\$ and US\$ denominated monetary items arose from group entities with functional currency of US\$ and HK\$ respectively. As HK\$ is pegged to US\$, the Directors consider that the foreign currency exposure is limited.

At 31 December 2023, if HK\$ had strengthened or weakened 5% against RMB with all other variables held constant, consolidated profit before tax for the year and the equity would have been HK\$22,000 (2022: HK\$15,000) higher or lower, arising mainly as a result of the foreign exchange gain or loss on trade creditors denominated in RMB.

At 31 December 2023, if HK\$ had strengthened or weakened 5% against EUR with all other variables held constant, consolidated profit before tax for the year and the equity would have been HK\$32,000 higher or lower (2022: HK\$356,000 lower or higher), arising mainly as a result of the foreign exchange gain or loss on trade creditors (2022: loss or gain on trade debtors) denominated in EUR.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

6. FINANCIAL RISK MANAGEMENT (continued)

(a) Foreign currency risk (continued)

Sensitivity analysis (continued)

At 31 December 2023, if HK\$ had strengthened or weakened 5% against JPY with all other variables held constant, consolidated profit before tax for the year and the equity would have been HK\$37,000 (2022: HK\$303,000) lower or higher, arising mainly as a result of the foreign exchange loss or gain on bank balances denominated in JPY.

At 31 December 2023, if HK\$ had strengthened or weakened 5% against GBP with all other variables held constant, consolidated profit before tax for the year and the equity would have been HK\$374,000 (2022: HK\$272,000) lower or higher, arising mainly as a result of the foreign exchange loss or gain on bank balances denominated in GBP.

(b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade debtors) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Group's exposure to credit risk arising from cash and cash equivalents is limited because the counterparties are banks and financial institutions with high credit-rating assigned by international credit-rating agencies, for which the Group considers to have low credit risk.

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Trade receivables are due within 30 days to 150 days from the date of billing.

The Group's concentration of credit risk by geographical locations is mainly in Italy, which accounted for 48% (2022: 50%) of the total trade receivables as at 31 December 2023. The Group has concentration of credit risk as 16% (2022: 27%) and 47% (2022: 55%) of the total trade receivables was due from the Group's largest customer and the five largest customers. In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits and credit approvals.

The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

6. FINANCIAL RISK MANAGEMENT (continued)

(b) Credit risk (continued)

The Group's internal credit risk grading assessment comprises the following categories:

| Internal credit rating | Description | Trade debtors | Other financial assets |
|------------------------|--|------------------------------------|------------------------------------|
| Low risk | The counterparty has a low risk of default and does not have any past-due amounts | Lifetime ECL – not credit-impaired | 12m ECL |
| Watch list | Debtor usually settle after due date | Lifetime ECL – not credit-impaired | 12m ECL |
| Doubtful | There have been significant increase in credit risk since initial recognition through information developed internally or external resources | Lifetime ECL – not credit-impaired | Lifetime ECL – not credit-impaired |
| Loss | There is evidence indicating the asset is credit-impaired | Lifetime ECL – credit-impaired | Lifetime ECL – credit-impaired |
| Write-off | There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery | Amount is written off | Amount is written off |

The table below detail the credit risk exposures of the Group's financial assets which are subject to ECL assessment:

| | Note | Internal credit rating | 12m or lifetime ECL | Gross carrying amount 2023 HK\$'000 | 2022 HK\$'000 |
|-------------------------------------|------|------------------------|--|---|------------------|
| Other debtors and bills receivables | 30 | Note 1 | 12m ECL | 42,285 | 11,109 |
| Trade debtors | 30 | Note 2 | Lifetime ECL (significant outstanding balance) | 191,901 | 202,955 |
| | | Note 2 | Lifetime ECL (provision matrix) | 164,688 | 110,511 |

6. FINANCIAL RISK MANAGEMENT (continued)

(b) Credit risk (continued)

Notes:

- (1) For the purpose of internal credit risk management, the Group uses past due information to assess whether credit risk has increased significantly since initial recognition.

| | Past due HK\$'000 | Not past due/ no fixed repayment terms HK\$'000 | Total HK\$'000 |
|-------------------------------------|----------------------|---|-------------------|
| 2023 | | | |
| Other debtors and bills receivables | – | 42,285 | 42,285 |
| 2022 | | | |
| Other debtors and bills receivables | – | 11,109 | 11,109 |

- (2) For trade debtors, the Group has applied the simplified approach to measure the loss allowance at lifetime ECL. Except for debtors with significant outstanding balances or credit-impaired, the Group determines the expected credit losses on these items by using a provision matrix, grouped by internal credit rating.

Provision matrix – internal credit rating

As part of the Group's credit risk management, the Group applies internal credit rating for its customers. The following table provides information about the exposure to credit risk for trade debtors which are assessed based on provision matrix as at 31 December 2023 within lifetime ECL (not credit-impaired). Debtors with significant outstanding balances and credit-impaired with gross carrying amounts of HK\$191,901,000 (2022: HK\$202,955,000) and HK\$3,088,000 (2022: HK\$3,083,000) respectively as at 31 December 2023 were assessed individually.

Gross carrying amount

| Internal credit rating | 2023 HK\$'000 | 2022 HK\$'000 |
|------------------------|------------------|------------------|
| Low risk | 86,215 | 37,707 |
| Watch list | 69,907 | 67,339 |
| Doubtful | 8,566 | 5,465 |

(b) Credit risk (continued)

Provision matrix – internal credit rating (continued)

The estimated loss rates are estimated based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information that is available without undue cost or effort. The grouping is regularly reviewed by management to ensure relevant information about specific debtors is updated.

During the year ended 31 December 2023, impairment loss of HK\$62,000 (2022: HK\$269,000) and reversal of impairment loss of HK\$121,000 (2022: HK\$21,000) for trade debtors, based on the provision matrix and significant outstanding balances were made respectively. Reversal of impairment loss of HK\$22,000 (2022: impairment loss of HK\$206,000) were made on credit-impaired debtors.

The following table shows the movement in lifetime ECL that has been recognised for trade debtors under the simplified approach.

| | Lifetime ECL (not credit- impaired) <i>HK\$'000</i> | Lifetime ECL (credit- impaired) <i>HK\$'000</i> | Total <i>HK\$'000</i> |
|--|--|--|--------------------------|

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

6. FINANCIAL RISK MANAGEMENT (continued)

(b) Credit risk (continued)

Changes in the loss allowance for trade debtors are mainly due to:

| | Increase/(decrease) in lifetime ECL | |
|--|-------------------------------------|-----------------------------|
| | Not credit-impaired HK\$'000 | Credit-impaired HK\$'000 |
| 2023 | | |
| One trade debtor with a gross amount of HK\$34,000 defaulted and transferred to credit-impaired as at 31 December 2023 | (27) | 27 |
| 2022 | | |
| Two trade debtors with a gross amount of HK\$443,000 defaulted and transferred to credit-impaired as at 31 December 2022 | (22) | 22 |

The Group writes off a trade debtor when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or when the trade debtor is over three years past due, whichever occurs earlier. None of the trade debtors that have been written off is subject to enforcement activities.

(c) Liquidity risk

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

As at 31 December 2023, the Group has available unutilised overdrafts and short and medium term bank loan facilities of approximately HK\$2,900,000 (2022: HK\$2,900,000) and HK\$83,780,000 (2022: HK\$98,780,000) respectively. The facilities expiring within one year are annual facilities subject to review at various dates during 2024.

All of the banking facilities are subject to the fulfillment of covenants relating to certain of the Group's financial ratios, as are commonly found in lending arrangements with financial institutions. If the Group was to breach the covenants, the drawn down facilities would become repayable on demand. In addition, certain of the Group's term loan agreements contain clauses which give the lender the right at its sole discretion to demand immediate repayment at any time irrespective of whether the Group has complied with the covenants and met the scheduled repayment obligations.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

6. FINANCIAL RISK MANAGEMENT (continued)

(c) Liquidity risk (continued)

The Group regularly monitors its compliance with these covenants, is up to date with the scheduled repayments of the term loans and does not consider it probable that the bank will exercise its discretion to demand repayment for so long as the Group continues to meet these requirements. As at 31 December 2023, none (2022: none) of the covenants relating to drawn down facilities had been breached.

The maturity analysis based on the contractual undiscounted cash flows of the Group's non-derivative financial liabilities is as follows:

| | Weighted average effective interest rate % | On demand or less than 3 months HK\$'000 | 3 months to 1 year HK\$'000 | 2 to 5 years HK\$'000 | More than 5 years HK\$'000 | Total undiscounted cash flows HK\$'000 | Carrying amount HK\$'000 |
|---------------------------------|--|---|-----------------------------------|-----------------------------|----------------------------------|---|--------------------------------|
| At 31 December 2023 | | | | | | | |
| Creditors and accrued charges | - | 360,895 | 4,892 | - | - | 365,787 | 365,787 |
| Lease liabilities | 5.18 | 1,702 | 2,317 | 5,381 | 24 | 9,424 | 8,605 |
| Bank borrowings – variable rate | 7.06 | 16,545 | - | - | - | 16,545 | 16,545 |
| At 31 December 2022 | | | | | | | |
| Creditors and accrued charges | - | 218,937 | 4,433 | - | - | 223,370 | 223,370 |
| Lease liabilities | 4.17 | 443 | 2,197 | 3,791 | 27 | 6,458 | 5,882 |
| Bank borrowings – variable rate | 3.28 | 6,075 | - | - | - | 6,075 | 6,075 |

Bank borrowings with a repayment on demand clause are included in the “on demand or less than 3 months” time band in the above maturity analysis. As at 31 December 2023 and 2022, the aggregate undiscounted principal amounts of these bank borrowings amounted to HK\$16,545,000 and HK\$6,075,000 respectively. Taking into account the Group's financial position, the Directors do not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment.

The Directors believe that these outstanding bank borrowings at 31 December 2023 will be fully repaid by April 2024 in accordance with the scheduled repayment dates set out in the loan agreements, details of which are set out in the table below:

| | 0 – 3 months HK\$'000 | 4 – 12 months HK\$'000 | Between 1 and 2 years HK\$'000 | Between 2 and 5 years HK\$'000 | Total undiscounted cash flows HK\$'000 |
|-------------|-----------------------------|------------------------------|--------------------------------------|--------------------------------------|---|
| 2023 | 16,268 | 389 | - | - | 16,657 |

6. FINANCIAL RISK MANAGEMENT (continued)

(d) Interest rate risk

The Group's cash flow interest rate risk primarily relates to bank balances and borrowings. It is the Group's policy to keep its borrowing at floating rate of interest so as to minimise the fair value interest rate risk.

The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of Hong Kong Prime Rate, Hong Kong Interbank Offered Rate ("HIBOR") and London Interbank Offered Rate ("LIBOR") arising from the Group's borrowings.

At 31 December 2023, if interest rates had been 50 basis points (2022: 50 basis points) lower/higher with all other variables held constant, consolidated profit before tax for the year would have been HK\$83,000 (2022: HK\$30,000) higher/lower, arising mainly as a result of lower/higher interest expense on bank borrowings.

In management's opinion, the sensitivity analysis is unrepresentative of the interest rate risk inherent in the financial assets and financial liabilities as the year end exposure does not reflect the exposure during the year.

7. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair values:

Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

Level 2 inputs: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs: unobservable inputs for the asset or liability.

The Group's policy is to recognise transfers into and transfers out of any of the three levels as of the date of the event or change in circumstances that caused the transfer.

For the year ended 31 December 2023

7. FAIR VALUE MEASUREMENTS (continued)

(c) Disclosure of valuation process used by the Group and valuation techniques and inputs used in fair value measurements at 31 December 2023:

The Group's chief financial officer (the "CFO") is responsible for the fair value measurements of assets and liabilities required for financial reporting purposes, including level 3 fair value measurements. The CFO reports directly to the board of Directors (the "Board") for these fair value measurements. Discussions of valuation processes and results are held between the CFO and the Board at least twice a year.

For level 3 fair value measurements, the Group will normally engage external valuation experts with the recognised professional qualifications and recent experience to perform the valuations.

Key unobservable inputs used in level 3 fair value measurements are mainly:

- reversion yield (estimated based on the capitalisation of rental income potential, nature of the property and prevailing market condition);
- monthly market rent (estimated based on time, location and individual factors such as frontage and size, between the comparable and the property);
- market rental unit price (estimated based on unit price, infrastructure, scale, geographical location, traffic, environment and security between the comparables and the property); and
- discount for lack of marketability (estimated based on the volatility of share price of listed entities in similar industries).

8. REVENUE

Disaggregation of revenue

Disaggregation of revenue from contracts with customers by major products or service lines for the year is as follows:

| | 2023 HK\$'000 | 2022 HK\$'000 |
|---|------------------|------------------|
| Revenue from contracts with customers within the scope of HKFRS 15 | | |
| Disaggregated by major products or service lines | | |
| – Original design manufacturing division | 853,987 | 817,070 |
| – Distribution division | 260,775 | 259,765 |
| – Lens division | 81,547 | 67,268 |
| | 1,196,309 | 1,144,103 |

The Group derives all revenue from the transfer of goods and services at a point in time.

Under the Group's standard contract terms, customers have a right to return within 14 days. The Group uses its accumulated historical experience to estimate the sales return on a portfolio level using the expected value method. Revenue is recognised for sales which are considered highly probable that a significant reversal in the cumulative revenue recognised will not occur. A refund liability is recognised when the Group expects to refund some or all of the consideration received from customers.

9. OTHER INCOME

| Loss on disposal of equity investment at FVTPL | – | (771) |
| | (12,032) | 33,147 |

11. SEGMENT INFORMATION

Information reported to the executive directors, being the chief operating decision maker (the "CODM"), for the purposes of resource allocation and assessment of segment performance focuses on geographical markets, based on the location of customers. Thus the Group is currently organised into four segments which are sales of optical products to customers located in Europe, the United States, Asia and other regions.

The accounting policies of the reportable and operating segments are the same as the Group's accounting policies described in note 4 to the consolidated financial statements. Segment profit or loss represents the profit earned by or loss from each segment without allocation of central administration costs, directors' emoluments, interest income, property rental income, net foreign exchange gain or losses, changes in fair values of investment properties, loss on disposal of equity investment at FVTPL, net gain relating to the disposal of premises, finance costs, provision of penalty and share of results of an associate and joint ventures. This is the measure reported to the CODM for the purposes of resource allocation and performance assessment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

11. SEGMENT INFORMATION (continued)

The CODM makes decisions according to operating results of each segment. No analysis of segment assets and segment liabilities is presented as the CODM does not regularly review such information for the purposes of resources allocation and performance assessment. Therefore, only segment revenues and segment results are presented.

20. INVESTMENT PROPERTIES (continued)

In determining the fair value of investment properties, it is the Group's policy to engage independent firms of qualified professional valuers to perform the valuation. The Group works closely with the qualified external valuers to establish the appropriate valuation technique and key inputs to the model.

At 31 December 2023 and 2022, independent valuations were undertaken by Vigers Appraisal & Consulting Limited ("Vigers") and Vietnam Valuation and Financial Consultancy Company ("VVFC"), both are independent firm of professional valuers not connected to the Group which has appropriate professional qualifications and recent experience in the valuation of similar properties in the neighbourhood.

The valuations have been arrived at using income capitalisation approach for the property located in Hong Kong and market approach for the property located in Vietnam. For the income capitalisation approach, the valuation has been arrived by capitalising the market rentals of all lettable units of the properties by reference to the rentals achieved in the lettable units as well as other lettings of similar properties in the neighbourhood. The capitalisation rate adopted is made by reference to the reversion yield and monthly market rent and contracted monthly rent of similar properties in the locality and adjusted based on the valuers' knowledge of the factors specific to the respective properties. For the market approach, the valuation has been determined the value of the properties through comparing it with identical or similar properties, which has price information on the market. There has been no change from the valuation techniques used in the prior period.

At 31 December 2023, the carrying amount of investment properties located in Hong Kong amounted to HK\$55,600,000 (2022: HK\$63,600,000) pledged as securities for the Group's bank borrowings amounted to HK\$16,545,000 (2022: HK\$6,075,000).

21. PROPERTY, PLANT AND EQUIPMENT (continued)

Note: (continued)

Right-of-use assets (continued)

Details of total cash outflow for leases are set out in note 42(c).

For both years, the Group leases various offices and warehouses for its operations. Lease contracts are entered into for fixed term of 2 months to 6 years (2022: 2 months to 6 years), but may have extension and termination options as described below. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

In addition, the Group owns several industrial buildings where its manufacturing facilities are primarily located and office buildings. The Group is the registered owner of these property interests, including the underlying leasehold lands. Lump sum payments were made upfront to acquire these property interests. The leasehold land components of these owned properties are presented separately only if the payments made can be allocated reliably.

Some leases include an option to renew the lease for an additional period after the end of the contract term. Where practicable, the Group seeks to include such extension options exercisable by the Group to provide operational flexibility. The Group assesses at lease commencement date whether it is reasonably certain to exercise the extension options. If the Group is not reasonably certain to exercise the extension options, the future lease payments during the extension periods are not included in the measurement of lease liabilities. The potential exposure to these future lease payments is summarised below:

| | Lease liabilities recognised as at 31 December (discounted) | | Potential future lease payments under extension options not included in lease liabilities (undiscounted) | |
|------------------------|---|----------|---|----------|
| | 2023 | 2022 | 2023 | 2022 |
| | HK\$'000 | HK\$'000 | HK\$'000 | HK\$'000 |
| Offices and warehouses | 8,605 | 5,882 | – | 2,526 |

In addition, the Group reassesses whether it is reasonably certain to exercise an extension option, upon the occurrence of either a significant event or a significant change in circumstances that is within the control of the lessee. During the year ended 31 December 2023 and 2022, there has no such triggering event.

The average remaining amortisation period of customer relationships and non-compete agreement are 3 years (2022: 4 years) and 3 years (2022: 4 years) respectively.

Trademark purchased from an independent third party in 2006 is considered by the management of the Group as having an indefinite useful lives because it expected to contribute to net cash inflows indefinitely. The trademark will not be amortised until its useful lives is determined to be finite. Instead it will be tested for impairment annually and whenever there is an indication that it may be impaired. The Group identifies the business operated with the trademark as an individual CGU of selling a specific brand of prescription frames and sunglasses. Particulars of the impairment testing are disclosed below.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

23. INTANGIBLE ASSETS (continued)

The recoverable amount of the trademark has been determined on a value in use calculation. The recoverable amount is based on certain key assumptions. The value in use calculation uses cash flow projections based on the latest financial budgets approved by the Company's management covering a period of 5 years, and at a discount rate of 18.65% (2022: 17.16%). The cash flows beyond the 5-year period are extrapolated using a 0% (2022: 0%) growth rate. Cash flow projections during the budget period for the trademark are based on the expected gross margins during the budget period. Budgeted gross margins have been determined based on past performance and management's expectations for the market development.

Based on the discounted cash flow projections, the recoverable amount of the trademark is estimated to be lower (2022: higher) than its carrying amount. Accordingly, the management of the Group determined that impairment loss of HK\$284,000 (2022: nil) on trademark.

24. GOODWILL

| | 2023 HK\$'000 | 2022 HK\$'000 |

| Accumulated impairment losses | | |
| At 1 January and 31 December | – | – |
| Carrying amount | | |
| At 31 December | 26,763 | 25,293 |

Goodwill mainly arising from the acquisition of two non-wholly-owned subsidiaries which are engaged in trading in prescription frames and sunglasses in United Kingdom (i.e. Stepper UK) amounted to HK\$7,783,000 (2022: HK\$7,346,000) and manufacture of optical lens in the PRC (i.e. Stepper & Colors) amounted to HK\$17,986,000 (2022: HK\$17,947,000). The Group identifies the business operated by the non-wholly-owned subsidiary as an individual CGU. Particulars of impairment testing on goodwill are disclosed below.

In addition to goodwill, property, plant and equipment, right-of-use assets and other intangible assets that generate cash flows together with the related goodwill are also included in the respective CGU for the purpose of impairment assessment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

24. GOODWILL (continued)

The recoverable amounts of Stepper UK CGU and Stepper & Colors CGU have been determined on a value in use calculation. The recoverable amounts are based on certain key assumptions. The value in use calculations uses cash flow projections based on the latest financial budgeted approved by the Company's management covering a period of 5 years, and at discount rates of 14.07% (2022: 17.37%) and 15.92% (2022: 15.23%) for Stepper UK and Stepper & Colors respectively. The cash flows beyond the 5-year period are extrapolated using a 0% (2022: 0%) growth rate for both CGUs. Cash flow projections during the budget period for both CGUs are based on the expected gross margins during the budget period. Budgeted gross margins have been determined based on past performance and management's expectations for the market development.

The goodwill was tested for impairment at the end of each reporting period by comparing the carrying amount of the CGUs with the recoverable amount of the CGUs. The management of the Group believes that any reasonably possible change in the key assumptions on which the recoverable amounts are based would not caused their carrying amount to exceed their recoverable amounts.

The loan to the joint venture of HK\$3,714,000 (2022: HK\$3,714,000) included in the Group's non-current assets is unsecured, carries interest at 0.01% per annum and not repayable within one year from the end of the reporting period.

Details of the joint ventures at the end of the reporting period are as follows:

| Name | Place of incorporation | Paid up capital | Percentage of ownership interest/ voting power | | Principal activities |
|--|------------------------|-----------------|---|------|---|
| | | | 2023 | 2022 | |
| 廣州佳視美光學眼鏡有限公司 (known as "Guangzhou Jiashimei Optical Company Limited") ("Guangzhou Jiashimei") | PRC | RMB1,000,000 | 20% | 20% | Trading in prescription frames and sunglasses |
| 天峰特材(深圳)有限公司 (known as "Tianfeng Special Materials (Shenzhen) Company Limited") ("Shenzhen Tianfeng") | PRC | RMB4,000,000 | 30% | 30% | Trading in metal materials |

The above investments in joint ventures are held through wholly-owned subsidiaries of the Company. None of them is considered material to the Group.

In terms of contractual agreements drawn up and signed among all shareholders of Guangzhou Jiashimei and Shenzhen Tianfeng, respectively, all decisions on financial policies must be agreed by unanimous consent among all shareholders of the entities. Accordingly, there are contractual sharing of control over Guangzhou Jiashimei and Shenzhen Tianfeng, respectively, and the investments in those entities are accounted for by the Group as interests in joint ventures.

27. EQUITY INVESTMENTS AT FVTOCI (continued)

Equity securities which are not held for trading and which the Group has irrevocably elected at initial recognition to recognise in this category. These are strategic investments and the Group considers this classification to be more relevant.

During the year ended 31 December 2023, the Group invested RMB2,000,000 (equivalent to approximately HK\$2,176,000) in a company incorporated in PRC and owned 10% equity interests in this company. In addition, the Group divested 18% equity interests in a company which invested in 2022, due to the deregistration of the company. The fair value of the company as of the date of divestment was RMB168,000 (equivalent to approximately HK\$185,000) and a fair value loss of HK\$125,000 was recognised in other comprehensive income.

28. CONTINGENT CONSIDERATION RECEIVABLE

| Non-current asset | – | 57 |

On 24 March 2021, an indirect wholly-owned subsidiary of the Company (the “Purchaser”), three independent third parties (the “Sellers”) and Stepper & Colors entered into an equity transfer agreement (the “Agreement”), pursuant to which the Purchaser has conditionally agreed to acquire and the Sellers have conditionally agreed to sell an aggregate of 55% equity interest in Stepper & Colors.

The Sellers, irrevocably warrant and guarantee to the Purchaser that the average audited net profit for the three years ending on 31 December 2021, 2022 and 2023 will not be less than RMB7,170,000 (equivalent to approximately HK\$8,718,000) (the “Profit Guarantee”). In case the average audited net profit of Stepper & Colors does not meet the Profit Guarantee, the Sellers are required to return the difference between the consideration and the adjusted consideration to the Purchaser in cash or in shares of Stepper & Colors as set out in the Agreement.

According to the audited financial statements of Stepper & Colors for the year ended 31 December 2021, 31 December 2022 and 31 December 2023 issued on 25 January 2022, 20 February 2023 and 24 February 2024, the audited net profits of Stepper & Colors were RMB5,959,000, RMB7,211,000 and RMB9,345,000 respectively.

As the Profit Guarantee has been met, the fair value of such contingent consideration arrangement amounted to zero as at 31 December 2023 (2022: HK\$57,000), as the contingent consideration receivable has been derecognised as at 31 December 2023.

The following is the ageing analysis of bills receivables presented based on the invoice date at the end of the reporting period which approximated the respective revenue recognition dates:

| | 2023 HK\$'000 | 2022 HK\$'000 |
|-------------|------------------|------------------|
| 0 – 90 days | 244 | 254 |

As at 31 December 2023, included in the Group's trade debtors balance are debtors with aggregate carrying amount of HK\$94,330,000 (2022: HK\$57,113,000) which are past due as at the reporting date. Out of the past due balances, HK\$12,173,000 (2022: HK\$7,426,000) has been past due 90 days or more and is not considered as in default. The Group does not hold any collateral over these balances.

The Group has a policy of allowing a credit period of 30 days to 150 days to its trade debtors. No interest is charged on the trade debtors. The Group has provided fully for all receivables past due beyond 360 days because historical experience showed that receivables that are past due beyond 360 days are generally not recoverable. Trade debtors past due for less than 360 days are provided for based on estimated irrecoverable amounts from the sales of goods, determined by reference to historical settlement records and subsequent settlement.

Details of impairment assessment of trade and other debtors for the year ended 31 December 2023 are set out in note 6(b).

At 31 December 2023, loans to the Group's employees of HK\$3,948,000 (2022: HK\$4,512,000) included in other receivables are unsecured, interest bearing at 2% (2022: 2%) per annum and repayable on demand.

| | 569,300 | 429,355 |

Note: On 14 November 2023, the Group received a Decision of Administrative Penalty (the “Decision”) from Shenzhen Longgang District Planning and Land Supervision Bureau (the “Bureau”). According to the Decision, the Bureau considered that one of the Group’s factory premises located in Shenzhen Longgang District is an illegal construction. As a result, the Bureau decided to impose a penalty according to relevant rules and regulations on the Group. Currently, the management is actively engaged in negotiations with the Bureau regarding the amount of the penalty, and expected to finalise it in 2024. During the year ended 31 December 2023, the Directors have evaluated the situation and determined that the reasonable level of penalty amounts to approximately RMB18 million and a provision for this penalty has been made.

The carrying amounts of the Group’s trade and other creditors are denominated in currencies other than functional currencies of the relevant group entities are set out below:

| Portion of bank borrowings that contain a repayment on demand clause (shown under current liabilities) | (16,545) | (6,075) |
| Amounts due after one year shown under non-current liabilities | – | – |

Note: The amounts due are based on the scheduled repayment dates set out in the respective loan agreements.

All of the Group's bank borrowings are variable-rate borrowings and subject to cash flow interest rate risk. A bank borrowing of HK\$1,545,000 (2022: HK\$6,075,000) carries interest at Hong Kong Prime Rate less 2.6%. The borrowing is secured by the Group's investment properties and leasehold land and buildings with carrying amount of HK\$136,177,000 (2022: HK\$142,737,000).

The effective interest rate per annum at the end of the reporting period on the bank borrowings of the Group were as follows:

| At 31 December 2023 | (11,853) | (11,558) | 5,359 | 13,000 | (5,052) |

Note: The amount represents the net temporary differences arising from capitalisation of production cost of inventories at Group level and unrealised profits on the inventories arising from intragroup sales.

The following is the analysis of the deferred tax balances (after offset) for consolidated statement of financial position purpose:

| | 2023 <i>HK\$'000</i> | 2022 <i>HK\$'000</i> |
|--------------------------|-------------------------|-------------------------|
| Deferred tax assets | 20,194 | 6,411 |
| Deferred tax liabilities | (25,246) | (18,286) |
| | (5,052) | (11,875) |

At the end of the reporting period, no deferred tax assets has been recognised on the tax losses of HK\$450,555,000 (2022: HK\$532,314,000) due to unpredictability of future profit streams. Included in unrecognised tax losses are losses of total HK\$46,713,000 (2022: HK\$48,319,000) that will expire from 2024 to 2028 (2022: expire from 2023 to 2027). Other tax losses may be carried forward indefinitely.

At the end of the reporting period, the Group has deductible temporary differences of HK\$1,048,190,000 (2022: HK\$1,041,332,000). No deferred tax asset has been recognised in relation to such deductible temporary difference as it is not probable that taxable profit will be available against which the deductible temporary differences can be utilised.

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maximise the return to the shareholders through the optimisation of the debt and equity balance.

The Group sets the amount of capital in proportion to risk. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the payment of dividends, issue new shares, buy-back shares, raise new debts, redeem existing debts or sell assets to reduce debts.

The Group monitors capital on the basis of the debt-to-adjusted capital ratio. This ratio is calculated as net debt divided by adjusted capital. Total debt comprises bank borrowings and lease liabilities. Adjusted capital comprises all components of equity (i.e. share capital, retained profits and other reserves) except for non-controlling interests. As the end of the reporting period, the Group has debt outstanding of HK\$25,150,000 (2022: HK\$11,957,000) and the debt-to-adjusted capital has not been disclosed as the Group has net cash in both years.

The only externally imposed capital requirement is that for the Company to maintain its listing on the Stock Exchange it has to have a public float of at least 25% of the shares. The Company receives a report from the share registrar monthly on substantial share interests showing the non-public float and it demonstrates continuing compliance with the 25% limit throughout the year. As at 31 December 2023, the approximate percentage of the total shares in public hands were 41% (2022: 46%).

(b) Nature and purpose of reserves (continued)

(iii) Exchange reserve

The exchange reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations. The reserve is dealt with in accordance with the accounting policies set out in note 4(f) to the consolidated financial statements.

(iv) Financial assets at FVTOCI reserve

The financial assets at FVTOCI reserve comprises the cumulative net change in the fair value of financial assets at FVTOCI held at the end of the reporting period and is dealt with in accordance with the accounting policy in note 4(n) to the consolidated financial statements.

41. RETIREMENT BENEFIT SCHEMES

The Group has participated in a Mandatory Provident Fund Scheme ("MPF Scheme") for all qualifying employees in Hong Kong. The MPF Scheme is registered with the Mandatory Provident Fund Schemes Authority under the Mandatory Provident Fund Schemes Ordinance. The assets of the MPF Scheme are held separately from those of the Group in funds under the control of an independent trustee. Under the rules of the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at rates specified in the rules. The only obligation of the Group with respect to the MPF Scheme is to make the required contributions under the scheme.

As stipulated under the rules and regulations in the PRC, the subsidiaries established in the PRC are required to contribute certain percentage of payroll costs of its employees to a state-managed retirement scheme operated by the provincial governments for its employees in the PRC. After the contribution, the Group has no further obligation for actual payment of the retirement benefits.

The retirement benefit scheme contributions arising from the above retirement schemes charged to profit or loss represent contributions payable to the funds by the Group at rates specified in the rules of the schemes.

The total cost charged to the consolidated statement of profit or loss and other comprehensive income of HK\$54,726,000 (2022: HK\$65,697,000) represents contributions paid and payable to these schemes by the Group. At the end of the reporting period, there was no forfeited contribution available to reduce future contributions in both years.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

41. RETIREMENT BENEFIT SCHEMES (continued)

Obligation to pay LSP under Hong Kong Employment Ordinance (Chapter 57)

Hong Kong employees that have been employed continuously for at least five years are entitled to long service payments in accordance with the Hong Kong Employment Ordinance under certain circumstances. These circumstances include where an employee is dismissed for reasons other than serious misconduct or redundancy, that employee resigns at the age of 65 or above, or the employment contract is of fixed term and expires without renewal. The amount of LSP payable is determined with reference to the employee's final salary (capped at HK\$22,500) and the years of service, reduced by the amount of any accrued benefits derived from the Group's contributions to MPF scheme, with an overall cap of HK\$390,000 per employee. Currently, the Group does not have any separate funding arrangement in place to meet its LSP obligation.

In June 2022, the Government gazetted the Amendment Ordinance, which abolishes the use of the accrued benefits derived from employers' mandatory MPF contributions to offset the LSP. The Abolition will officially take effect on the Transition Date (i.e. 1 May 2025). Separately, the Government of the HKSAR is also expected to introduce a subsidy scheme to assist employers for a period of 25 years after the Transition Date on the LSP payable by employers up to a certain amount per employee per year.

Under the Amendment Ordinance, the Group's mandatory MPF contributions, plus/minus any positive/negative returns, after the Transition Date can continue to be applied to offset the pre-Transition Date LSP obligation but are not eligible to offset the post-Transition Date LSP obligation. On the other hand, the accrued benefits derived from the Group's voluntary contributions made pre-, on or post-transition can continue to be used to offset pre- and post-transition LSP. Furthermore, the LSP obligation before the Transition Date will be grandfathered and calculated based on the last monthly wages immediately preceding the Transition Date and the years of service up to that date.

42. NOTES TO THE CONSOLIDATED STATEMENT OF CASH FLOWS

(a) Major non-cash transactions

46. ACQUISITION OF A SUBSIDIARY (continued)

Impact of acquisition on the results of the Group

The goodwill arising on the acquisition of Stepper Vision Plus is attributable to the anticipated profitability of the distribution of the Group's products in the new markets and the anticipated future operating synergies from the combination.

Included in the profit for the year ended 31 December 2023 was a loss of HK\$180,000 attributable to the additional business generated by Stepper Vision Plus. Revenue for the year ended 31 December 2023 included HK\$1,480,000 in respect of Stepper Vision Plus.

If the acquisition had been completed on 1 January 2023, total Group revenue for the year would have been HK\$1,199,540,000, and profit for the year would have been HK\$56,750,000. The proforma information is for illustrative purposes only and is not necessarily an indication of the revenue and results of operations of the Group that actually would have been achieved had the acquisition been completed on 1 January 2023, nor is intended to be a projection of future results.
