CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the Board of Directors (the "Board") of UTS Marketing Solutions Holdings Limited (the "Company"), I am pleased to present the annual report of the Company and its subsidiaries (collectively the "Group") for the year ended 31 December 2023 (the "Reporting Period").

The Group's net profit for the Reporting Period amounted to approximately RM10.30 million, representing a slight increase of approximately RM0.16 million as compared to approximately RM10.14 million for the corresponding year ended 31 December 2022.

The overall average number of workstations ordered per month decreased slightly from approximately 1,159 for the year ended 31 December 2022 to 1,110 for the year ended 31 December 2023.

Nevertheless, despite the decrease in seat orders, revenue generated per workstation per month increased from RM6,259 for the year ended 31 December 2022 to RM7,090 for the year ended 31 December 2023, mainly due to higher billable rate from the banking and financial sector, as well as others sectors, especially charitable organization and other clients.

Looking forward, the Group is determined to continue to maintain its leading role in the telemarketing industry and further strengthen its market position as one of the leading outbound contact service providers in Malaysia by expanding capacity; capitalise on the potential of inbound contact services by setting up an inbound contact centre; and upgrade and enhance existing information technology system and develop a comprehensive system for billing and reconciliation services.

Last but not the least, with the rapid development in technology nowadays, the Group will continue to embrace innovations, and will try its best endeavours to turn every challenge into opportunity to provide the best services to its customers.

On behalf of the Board, I would like to express my sincere gratitude to the support and recognition of all our shareholders, investors, suppliers, business partners and customers. The management team and all staff members of the Group will continue striving for better results for the Group and bringing value to the Company and returns to the shareholders in the long run.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is principally engaged in the provision of outbound telemarketing services and contact centre facilities for promotion of financial products and its related activities issued by authorised financial institutions, card companies or organisations worldwide.

As at 31 December 2023, the Group was operating eight contact centres located within the central business district of Kuala Lumpur, Malaysia and one new branch contact center outside the central business district of Kuala Lumpur was set up in the State of Melaka, Malaysia. The new Melaka contact center was officially launched in early March 2023.

The Group's net profit for the year ended 31 December 2023 amounted to approximately RM10.30 million, representing a slight increase of approximately RM0.16 million as compared to approximately RM10.14 million for the year ended 31 December 2022.

The increase in net profit was mainly attributable to the higher revenue from the business in Malaysia by approximately RM7.39 million but partially offset by higher staff costs by approximately RM4.05 million and written-off of one-off deposit by approximately RM2.69 million as liquidated damages.

FINANCIAL REVIEW

The overall average number of workstations ordered per month decreased slightly from approximately 1,159 for the year ended 31 December 2022 to 1,110 for the year ended 31 December 2023.

Nevertheless, despite the decrease in seat orders, revenue generated per workstation per month increased from RM6,259 for the year ended 31 December 2022 to RM7,090 for the year ended 31 December 2023, mainly due to higher billable rate from the banking and financial sector, as well as others sectors, especially charitable organization and other clients.

Other income

For the year ended 31 December 2023, other income decreased by approximately RM0.12 million as compared to prior year mainly due to lower bank deposit interest and imputed interest income from financial assets at amortised costs.

MANAGEMENT DISCUSSION AND ANALYSIS

The increase in the depreciation charges was mainly attributable to the new lease agreement for the use of office premises entered into by the Group for the new branch contact centre in the State of Melaka, Malaysia during the year ended 31 December 2023.

Other operating expense

For the year ended 31 December 2023, other operating expenses decreased by approximately RM1.56 million or 12.4%, from approximately RM12.61 million for the year ended 31 December 2022 to approximately RM11.05 million for the year ended 31 December 2023.

MANAGEMENT DISCUSSION AND ANALYSIS

RISKS FACTORS AFFECTING OUR RESULTS OF OPERATIONS AND FINANCIAL CONDITIONS

The Company has identified and determined the major risks factors which may affect the operation results and financial conditions of the Group through risk management process, which include the following:

Risk in the ability to secure sufficient labour and control staff cost

Contact service industry is a service-oriented and labour intensive business. Any shortage in staff, or increase in staff costs may materially and adversely affect our business, results of operations, financial condition and prospects.

As at 31 December 2023, the Group had 1,412 employees. Total staff costs incurred by the Group for the year ended 31 December 2023 was approximately RM63.36 million (2022: approximately RM59.32 million), representing approximately 67.1% of the Group's revenue for the year ended 31 December 2023 (2022: 68.1%).

To manage such risk, the Group has endeavored to attract and retain sufficient number of staff, in particular our telemarketing sales representatives by offering performance-linked commission and incentive based on pre-determined sales target.

In addition, appropriate corrective actions and re-training measures have been taken to further improve the quality of the services provided by our telemarketing sales representatives.

Delay in settlement of bills from the top five clients

The majority of the Group's revenue is derived from a limited number of clients. Sales to the five largest clients accounted for 74.0% of the total revenue for the year ended 31 December 2023 (2022: 75.4%). All the five largest clients are insurance companies or charitable organisation.

The Group may be subject to the risk of delay in payment from our clients. If settlements of bills are not made in full or in a timely manner, the cash position and financial conditions of the Group will be adversely affected.

To manage such risk, the Group monitors the trade receivables collection status from time to time in order to ensure that the outstanding amounts due from our clients can be fully recovered. As at 31 December 2023, the Group has recorded trade receivables of approximately RM19.65 million. Up to the date of this report, approximately RM16.68 million or 84.9% of the outstanding trade receivables balances as at 31 December 2023 have been subsequently settled.

CAPITAL COMMITMENTS

As at 31 December 2023, the Group did not have any significant capital commitments contracted for but not yet incurred item (31 December 2022: RM3.84 million related to potential equity investment and acquisition of 18 office suites).

CONTINGENT LIABILITIES

The Group did not have any significant contingent liabilities as at 31 December 2023.

MANAGEMENT DISCUSSION AND ANALYSIS

ADVANCE TO ENTITIES

Advance to Mightyprop Sdn. Bhd.

On 31 January 2019, UTS Marketing Solutions Sdn. Bhd. ("**UTSM**"), a wholly-owned subsidiary of the Company, entered into an agreement with Exsim Development Sdn. Bhd. ("**Exsim**") and Mightyprop Sdn. Bhd. ("**Mightyprop**") to acquire 2% of the entire issued capital of Mightyprop from Exsim with a purchase consideration at nominal value of RM2. In addition, UTSM agreed to provide an advance of RM12,000,000 to Mightyprop (the "**Advance**"). The Advance was unsecured, bearing interest rate of 10% per annum and repayable on or before May 2020. In July 2019, an agreement was entered by UTSM with Exsim and Mightyprop, pursuant to which the proposed acquisition of 2% shareholding in Mightyprop would not be proceeded, the maturity date of the Advance was extended to June 2020 and the interest rate remained unchanged.

On 8 July 2020, UTSM, Exsim and Mightyprop entered into an extension agreement, pursuant to which Exsim has undertaken to (i) repay the advance on or before 30 June 2021 and (ii) pay the interest calculated at the rate of 10% per annum accrued from 1 July 2020 to 31 December 2020 and 30 June 2021, which shall be payable on 7 January 2021 and 7 July 2021 respectively.

On 28 June 2021, upon further negotiations between UTSM, Exsim and Mightyprop, the parties entered into a further extension agreement (the "**Further Extension Agreement**"), pursuant to which Exsim has undertaken to (i) repay the Advance on or before 30 June 2022 and (ii) pay the interest calculated at the rate of 10% per annum on a daily basis accrued from 4 February 2019 up to 30 June 2021 and at the rate of 11% per annum on a daily basis accrued from 1 July 2021 up to the date of repayment and UTSM agreed to such arrangement.

On 24 June 2022, the parties entered into a third extension agreement (the "**Third Extension Agreement**"), pursuant to which Exsim has undertaken to repay the advance on or before 30 June 2023 and to pay the interest calculated at the rate of 11% per annum accrued from 1 July 2022 up to the date of repayment on a daily basis and UTSM agreed to such arrangement. Apart from the aforesaid, all other terms of the agreement remained unchanged.

On 30 June 2023, the parties entered into a fourth extension agreement (the "**Fourth Extension Agreement**"), pursuant to which Exsim has undertaken to repay the advance on or before 1 July 2024 with the interest calculated at the increased rate of 12% per annum accrued from 1 July 2023 up to the date of repayment on a daily basis and UTSM agreed to such arrangement.

The Fourth Extension Agreement dated 30 June 2023 constituted a discloseable transaction of the Company under the Rules Governing the Listing of Securities on the Stock Exchange (the "**Listing Rules**").

Advance to Arcadia Hospitality Sdn. Bhd.

On 23 April 2019, UTSM entered into a shares subscription agreement with 2 individuals, Performance Consortium Sdn. Bhd. (collectively referred as the "**Arcadia's Shareholders**") and Arcadia Hospitality Sdn. Bhd. ("**Arcadia**"). Pursuant to the agreement, UTSM agreed to subscribe for new shares equivalent to 10% of the enlarged issued share capital of Arcadia with a consideration of RM120,000 from Arcadia's shareholders. In addition, UTSM agreed to provide an advance of RM14,000,000 to Arcadia. The advance was unsecured, bearing interest rate of 10% per annum and repayable on or before July 2020.

On 13 July 2020, the Arcadia's Shareholders requested for further extension of long-stop date of the conditions precedent to complete the share subscription transaction and UTSM agreed to further extend the same to 31 December 2020. Incidental to the said extension, UTSM may refrain from demanding immediate repayment of the advance until 31 December 2020 with interest rate remains unchanged.

MANAGEMENT DISCUSSION AND ANALYSIS

On 30 December 2020, upon further discussion among the parties to the said shares subscription agreement, the parties have entered into an agreement on 30 December 2020 to amend the longstop date for the fulfilment of the conditions precedent to the shares subscription agreement to 31 December 2021 and the final repayment date of the advance to Arcadia to be extended to 31 December 2021, with the interest of 11% per annum, an additional rate of 1% per annum from 10% per annum on the extended term effective from 1 January 2021.

On 31 October 2022, Arcadia has delivered a notice of termination to UTSM to terminate the said shares subscription agreement due to non-fulfilment of the conditions precedent. UTSM confirmed acceptance of the termination of the agreement on 10 November 2022. In connection with the termination, it was agreed that the repayment schedule of the advance shall be amended such that Arcadia shall refund in full to UTSM of all monies advanced by UTSM (i.e. RM14,000,000.00) via few instalment payments across five (5) quarters, with the first payment becoming due and payable on 30 December 2022 and the last payment becoming due and payable on 29 December 2023 in accordance with the agreed repayment arrangement. Interest will continue to accrue on the remaining unpaid portion of the advance at the rate of 11% per annum calculated on a daily basis. The interest shall be paid on a quarterly basis on the proposed quarterly payment dates as agreed or such other period as may be mutually agreed between the parties.

Arcadia had settled three out of five instalments in accordance with the repayment schedule.

On 22 September 2023, Arcadia requested for deferment of the forth and fifth instalments from 29 September 2023 to 29 March 2024 and 29 December 2023 to 28 June 2024 respectively. Interest shall continue to accrue on the remaining unpaid principal sum of the loan advance until full payment.

The financial advances to entities under Rule 13.20 of the Listing Rules and the details of the above transactions have been disclosed in the Company's announcements dated 31 January 2019, 23 April 2019, 8 July 2019, 8 July 2020, 10 July 2020, 30 December 2020, 28 June 2021, 30 December 2021, 24 June 2022, 18 October 2022, 10 November 2022, 3 July 2023 and 27 July 2023 respectively.

As at 31 December 2023, the circumstances giving rise to the disclosure under Rule 13.13 of the Listing Rules exist and the advances by the Group to Mightyprop and Arcadia as at 31 December 2023 amounted to aggregate principal values of RM12 million and RM6 million with maturity dates on or before 1 July 2024 and 28 June 2024 respectively.

EMPLOYEES AND REMUNERATION POLICIES

As at 31 December 2023, the Group had 1,412 (31 December 2022: 1,388) employees. Total staff costs incurred by the Group for the year ended 31 December 2023 were approximately RM63.36 million (2022: approximately RM59.32 million).

The employees of the Group are remunerated according to their job scope and responsibilities. Performance-linked commission and allowances on top of fixed salary were given to the employees to motivate productivity and stimulate better performance. The employees are also entitled to annual discretionary performance bonus, salary increment and promotion based on regular performance reviews and annual appraisals.

MANAGEMENT DISCUSSION AND ANALYSIS

INTEREST RATE RISK

As at 31 December 2023, the Group's pledged bank deposits, financial advances and lease liabilities bore interest at fixed interest rates and therefore were subject to fair value interest rate risk. The Group's exposure to cash flow interest rate risk arises from its bank deposits and bank overdrafts. These deposits and bank overdrafts bore interests at variable rates that are subject to the then prevailing market condition. The Board believes that the Group does not have significant interest rate risk exposures.

FOREIGN CURRENCY EXPOSURE

Save and except that certain bank balances are denominated in Hong Kong dollars, the Group has minimal exposure to foreign currency risk because most of the business transactions, assets and liabilities are principally denominated in Malaysian Ringgit, the functional currency of the Group. The Group currently does not have a hedging policy in respect of foreign currency transactions, assets and liabilities. The management monitors the foreign currency exposure from time to time and will consider hedging significant foreign currency exposure should the need arise.

SIGNIFICANT INVESTMENT HELD

As at 31 December 2023, the Group did not hold any significant investments.

FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

Save as disclosed in this report, there was no specific plan for material investments or capital assets as at 31 December 2023.

MATERIAL ACQUISITIONS OR DISPOSALS

During the year ended 31 December 2023, the Group did not have any material acquisitions and disposals of subsidiaries, affiliated companies, associates or joint ventures.

The Acquisition Agreements constituted a discloseable transaction of the Company. For details, please refer to the announcement of the Company dated 24 July 2020.

On 11 April 2023, the Group and the Property Vendor entered into the deed of revocation, pursuant to which the parties mutually agreed that (i) the Acquisition Agreements be revoked and rescinded, (ii) a sum of approximately RM2,690,000 be forfeited to the Property Vendor as agreed liquidated damages and (iii) the remaining balance of the deposit paid by the Group in the sum of approximately RM11,405,000 shall be refunded to the Group. For further details, please refer to the announcement of the Company dated 11 April 2023.

OUTLOOK AND FUTURE PROSPECTS

The Group's strategic objective remains unchanged and will continue focusing on the business strategies as set out in the section headed "Business — Business Strategies" of the Prospectus.

The Group continues to remain cautious and maintain its efforts to improve productivity and expects the overall outlook for the year 2024 to remain stable and resilient without material deviation from its existing outbound telemarketing workstations ordered from its existing clients.

In addition, the Group had also been constantly identifying potential opportunities to increase its number of workstations ordered beyond its current customer base by either working with new database owners, new insurers or takaful operators in order to improve the Group's financial performance.

At the current stage, our finance team assumes the responsibility for conducting regular review of internal control procedures. Such arrangement can be improved, but the Board is not concerned with the lack of segregation of duties taking into account the current organisational structure, lines of responsibility and authority of the management team and the risks associated with the operations of the Group. The Board considers that the internal control and risk management system is effective and adequate during the year under review.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF UTS MARKETING SOLUTIONS HOLDINGS LIMITED

(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of UTS Marketing Solutions Holdings Limited (the "Company") and its subsidiaries (the "Group") set out on pages 39 to 96, which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2023, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and have been properly prepared in compliance with the disclosure requirements of Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matter we identified is impairment assessment of financial assets at amortised cost.

INDEPENDENT AUDITOR'S REPORT

INDEPENDENT AUDITOR'S REPORT

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirement of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee assists the directors in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Yam Tak Fai, Ronald.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

1. GENERAL INFORMATION

The Company was incorporated as an exempted company with limited liability in the Cayman Islands under the Companies Law of the Cayman Islands on 23 August 2016. The address of its registered office is at Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands. The address of its principal place of business registered in Hong Kong is at Unit 1802, 18/F, Ruttonjee House, Ruttonjee Centre, 11 Duddell Street, Central, Hong Kong. The headquarters and principal place of business of the Group is at 23rd Floor, Plaza See Hoy Chan, Jalan Raja Chulan, 50200 Kuala Lumpur, Malaysia.

The Company is an investment holding company. The principal activities of its subsidiaries are set out in note 40 to the consolidated financial statements.

2. BASIS OF PREPARATION

These consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"). HKFRSs comprise Hong Kong Financial Reporting Standards ("HKFRS"); Hong Kong Accounting Standards ("HKAS"); and Interpretations. These consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange and with the disclosure requirements of the Hong Kong Companies Ordinance (Cap. 622).

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Group. Note 3 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these consolidated financial statements.

3. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

(a) Application of new and revised HKFRSs

The Group has applied the following new and amendments to HKFRSs issued by the HKICPA for the first time, which are mandatorily effective for the annual period beginning on or after 1 January 2023 for the preparation of the consolidated financial statements:

Amendments to HKAS 8	Definition of Accounting Estimates
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction
Amendments to HKAS 1 and HKFRS Practice Statement 2	Disclosure of Accounting Policies

Except as described below, the application of the new and amendments to HKFRSs in the current year has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

3. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

(continued)

(a) Application of new and revised HKFRSs *(continued)*

Impact on application of Amendments to HKAS 1 and HKFRS Practice Statement 2 “Disclosure of Accounting Policies”

The Group has adopted Amendments to HKAS 1 and HKFRS Practice Statement 2 “Disclosure of Accounting Policies” for the first time in the current year. HKAS 1 “Presentation of Financial Statements” is amended to replace all instances of the term “significant accounting policies” with “material accounting policy information”. Accounting policy information is material if, when considered together with other information included in an entity’s financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

The amendments also clarify that accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. If an entity chooses to disclose immaterial accounting policy information, such information must not obscure material accounting policy information.

HKFRS Practice Statement 2 “Making Materiality Judgements” (the “Practice Statement”) is also amended to illustrate how an entity applies the “four-step materiality process” to accounting policy disclosures and to judge whether information about an accounting policy is material to its financial statements. Guidance and examples are added to the Practice Statement.

The application of the amendments has had no material impact on the Group’s financial positions and performance but has affected the disclosure of the Group’s accounting policies set out in Note 4 to the consolidated financial statements.

Impact on application of Amendments to HKAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction”

The Group has adopted Amendments to HKAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction” for the first time in the current year. The amendments narrow the scope of the initial recognition exemption to exclude transactions that give rise to equal and offsetting temporary differences — e.g. leases.

The Group previously accounted for deferred tax on leases applying the “integrally linked” approach, resulting in a similar outcome to the amendments, except that the deferred tax asset or liability was recognised on a net basis. Following the amendments, the Group has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-of-use assets. The change primarily impacts disclosures of components of deferred tax assets and liabilities in Note 30, but does not impact the overall deferred tax balances presented on the consolidated statement of financial position as the related deferred tax balances qualify for offset under HKAS 12.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

3. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

(continued)

(b) New and revised HKFRSs in issue but not yet effective

The Group has not early applied the following amendments to standards and interpretation that have been issued but are not yet effective:

	Effective for accounting periods beginning on or after
Amendments to HKAS 1 — Classification of Liabilities as Current or Non-current	1 January 2024
Amendments to HKAS 1 — Non-current Liabilities with Covenants	1 January 2024
Amendments to HKFRS 16 — Lease Liability in a Sales and Leaseback	1 January 2024
Hong Kong Interpretation 5 (Revised) Presentation of Financial Statements — Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause (“HK Int 5 (Revised)”)	1 January 2024
Amendments to HKAS 7 and HKFRS 7 — Supplier Finance Arrangements	1 January 2024
Amendments to HKAS 21 — Lack of Exchangeability	1 January 2025
Amendments to HKFRS 10 and HKAS 28 — Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined by the HKICPA

The directors of the Company anticipate that the application of all other amendments to HKFRSs will not have material impact on the consolidated financial statements in the foreseeable future.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION

These consolidated financial statements have been prepared under the historical cost convention, unless mentioned otherwise in the accounting policies below.

The preparation of the financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 5.

The material accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

The gain or loss on the disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that subsidiary and (ii) the Company's share of the net assets of that subsidiary plus any remaining goodwill and any accumulated foreign currency translation reserve relating to that subsidiary.

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(a) Consolidation *(continued)*

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to the Company. Non-controlling interests are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity. Non-controlling interests are presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of profit or loss and total comprehensive income for the year between the non-controlling shareholders and owners of the Company.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling shareholders even if this results in the non-controlling interests having a deficit balance.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions (i.e. transactions with owners in their capacity as owners). The carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

(b) Separate financial statements

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment loss, unless the investment is classified as held for sale (or included in a disposal group that is classified as held for sale). Cost includes direct attributable costs of investments. The results of subsidiaries are accounted for by the Company on the basis of dividend received or receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

(c) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Malaysian Ringgit ("RM"), which is the Company's functional and presentation currency.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(c) Foreign currency translation *(continued)*

(ii) Transactions and balances in each entity's financial statements

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the company initially recognises such non-monetary assets or liabilities. Non-monetary items that are measured at fair value in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

(d) Property, plant and equipment

Property, plant and equipment are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(d) Property, plant and equipment *(continued)*

Depreciation of property, plant and equipment is calculated at rates sufficient to write off their cost less their residual values over the estimated useful lives on a straight-line basis. The principal annual rates are as follows:

Leasehold improvements	10%
Computer and office equipment	10%–50%
Tele-communication equipment	20%
Motor vehicles	20%

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

(e) Leases

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

(i) The Group as a lessee

Where the contract contains lease component(s) and non-lease component(s), the Group has elected not to separate non-lease components and accounts for each lease component and any associated non-lease components as a single lease component for all leases.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets which, for the Group are primarily laptops and photocopy machines. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(e) Leases *(continued)*

(i) The Group as a lessee *(continued)*

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. Lease payments to be made under reasonably certain extension options are also included in the measurement of the lease liability. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method.

Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received, and
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the relevant subsidiary, which does not have recent third-party financing, and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

If a readily observable amortising loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the group entities use that rate as a starting point to determine the incremental borrowing rate.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(e) Leases *(continued)*

(i) The Group as a lessee *(continued)*

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

When the Group obtains ownership of the underlying leased assets at the end of the lease term, upon exercising purchase options, the cost of the relevant right-of-use assets and the related accumulated depreciation and impairment loss are transferred to property, plant and equipment.

Refundable rental deposits paid are accounted under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification. The only exceptions are any rent concessions which arose as a direct consequence of the COVID-19 pandemic and which satisfied the conditions set out in paragraph 46B of HKFRS 16. In such cases, the Group took advantage of the practical expedient not to assess whether the rent concessions are lease modifications, and recognised the change in consideration as negative lease payments in profit or loss in the period in which the event or condition that triggers the rent concessions occurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(e) Leases *(continued)*

(ii) The Group as a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to the ownership of an underlying assets to the lessee. If this is not the case, the lease is classified as an operating lease.

The Group enters into arrangements to sublease an underlying asset to a third party, while the Group retains the primary obligation under the original lease. In these arrangements, the Group acts as both the lessee and lessor of the same underlying asset.

If the property lease is subleased under terms transferring substantially all remaining risks and rewards under the head lease to the lessee in the sublease, the right-of-use asset is derecognised, and a subleasing receivable is recognised and classified as a finance lease. Gain/loss on the derecognised right-of-use asset, if any, is recognised in the profit or loss account as income/expenses.

During the term of the sublease, the Group recognises both finance income on the sublease and finance costs on the head lease.

(f) Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when the Group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(f) Recognition and derecognition of financial instruments *(continued)*

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

(g) Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Debt investments held by the Group are classified into the category of amortised cost, if the investment is held for the collection of contractual cash flows which represent solely payments of principal and interest ("SPPI"). Interest income from the investment is calculated using the effective interest method.

(h) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method less allowance for credit losses.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(i) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated cash flow statement. Cash and cash equivalents are assessed for ECL.

(j) Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under HKFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

(k) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(l) Financial guarantee contracts

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of:

- the amount determined in accordance with the ECL model under HKFRS 9 and
- the amount initially recognised less, where appropriate, the cumulative amount of income recognised in accordance with the principles of HKFRS 15.

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(l) Financial guarantee contracts *(continued)*

The fair value of financial guarantees is determined based on the present value of the difference in cash flows between the contractual payments required under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

Where guarantees in relation to loans or other payables of subsidiaries are provided by the parent company for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of the investment.

(m) Other payables

Other payables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

(n) Equity instruments

An equity instrument is any contract that evidence a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

(o) Revenue and other income

Revenue is recognised when control over a product or service is transferred to the customer, at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Revenue from telemarketing services is recognised as a performance obligation satisfied over time when the related services are rendered, generally based on the negotiated monthly services fees as set out in the service arrangement and the number of days worked during the period.

Interest income is recognised as it accrues using the effective interest method. For financial assets measured at amortised cost or fair value through other comprehensive income ("FVTOCI") (recycling) that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit impaired financial assets, the effective interest rate is applied to the amortised cost (i.e. gross carrying amount net of loss allowance) of the asset.

Rental income receivable under operating leases is recognised in profit or loss in equal instalments over the periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the use of the leased asset. Lease incentives granted are recognised in profit or loss as an integral part of the aggregate net lease payments receivable. Variable lease payments that do not depend on an index or a rate are recognised as income in the accounting period in which they are earned.

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(p) Employee benefits

(i) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(ii) Pension obligations

The Group contributes to defined contribution retirement schemes which are available to all employees. Contributions to the schemes by the Group and employees are calculated as a percentage of employees' basic salaries. The retirement benefit scheme cost charged to profit or loss represents contributions payable by the Group to the funds.

(iii) Termination benefits

Termination benefits are recognised at the earlier of the dates when the Group can no longer withdraw the offer of those benefits, and when the Group recognises restructuring costs and involves the payment of termination benefits.

(q) Share-based payments

The Group issues equity-settled share-based payments to certain directors, employees and consultants. Equity-settled share-based payments to directors and employees are measured at the fair value (excluding the effect of non-market based vesting conditions) of the equity instruments at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest and adjusted for the effect of non-market based vesting conditions.

(r) Borrowing costs

The borrowing costs are recognised in profit or loss in the period in which they are incurred.

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(s) Government grants

A government grant is recognised when there is reasonable assurance that the Group will comply with the conditions attaching to it and that the grant will be received.

Government grants that become receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

(t) Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of transaction does not give rise to equal taxable and deductible temporary differences.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(t) Taxation *(continued)*

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 requirements to right-of-use assets and lease liabilities separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised and a deferred tax liability for all taxable temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis, or to realise the asset and settle the liability simultaneously.

(u) Impairment of non-financial assets

The carrying amounts of non-financial assets are reviewed at each reporting date for indications of impairment and where an asset is impaired, it is written down as an expense through the consolidated statement of profit or loss to its estimated recoverable amount. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. If this is the case, recoverable amount is determined for the cash-generating unit to which the asset belongs. Recoverable amount is the higher of value in use and the fair value less costs of disposal of the individual asset or the cash-generating unit.

Value in use is the present value of the estimated future cash flows of the asset/cash-generating unit. Present values are computed using pre-tax discount rates that reflect the time value of money and the risks specific to the asset/cash-generating unit whose impairment is being measured.

Impairment losses for cash-generating units are allocated first against the goodwill of the unit and then pro rata amongst the other assets of the cash-generating unit. Subsequent increases in the recoverable amount caused by changes in estimates are credited to profit or loss to the extent that they reverse the impairment.

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(v) Impairment of financial assets

The Group recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost, subleasing receivables, trade and other receivables, pledged bank deposits and bank and cash balances. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables and subleasing receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(v) Impairment of financial assets *(continued)*

Significant increase in credit risk *(continued)*

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if:

- (i) the financial instrument has a low risk of default,
- (ii) the debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and
- (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group considers a financial asset to have low credit risk when the asset has external credit rating of "investment grade" in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of "performing". Performing means that the counterparty has a strong financial position and there is no past due amounts.

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(v) Impairment of financial assets *(continued)*

Significant increase in credit risk *(continued)*

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable.

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the counterparty;
- a breach of contract, such as a default or past due event;
- the lender(s) of the counterparty, for economic or contractual reasons relating to the counterparty's financial difficulty, having granted to the counterparty a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the counterparty will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(v) Impairment of financial assets *(continued)*

Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, including when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. For a subleasing receivable, the cash flows used for determining the expected credit losses is consistent with the cash flows used in measuring the subleasing receivable in accordance with HKFRS 16.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognised in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

4. MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

(w) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

(x) Events after the reporting period

Events after the reporting period that provide additional information about the Group's position at the end of the reporting period are adjusting events and are reflected in the consolidated financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

(y) Dividend distribution

Dividends are recognised as liabilities when they are declared (i.e. the dividends are appropriately authorised and no longer at the discretion of the entity). Typically, dividends are recognised as liabilities in the period in which their distribution is approved at the shareholders' annual general meeting. Interim dividends are recognised when paid.

5. KEY ESTIMATES

In applying the Group's accounting policies, which are described in note 4, the directors are required to make judgements (other than those involving estimations) that have a significant impact on the amounts recognised and to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

(a) Impairment of property, plant and equipment and right-of-use assets

Property, plant and equipment and right-of-use assets are stated at costs less accumulated depreciation and impairment, if any. In determining whether an asset is impaired, the Group has to exercise judgment and make estimation, particularly in assessing: (1) whether an event has occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value in use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (3) the appropriate key assumptions to be applied in estimating the recoverable amounts including cash flow projections and an appropriate discount rate. When it is not possible to estimate the recoverable amount of an individual asset (including right-of-use assets), the Group estimates the recoverable amount of the cash-generating unit to which the assets belongs. Changing the assumptions and estimates, including the discount rates or the growth rate in the cash flow projections, could materially affect the recoverable amounts.

The carrying amount of property, plant and equipment and right-of-use assets as at 31 December 2023 were RM5,224,000 (2022: RM4,966,000) and RM6,934,000 (2022: RM8,745,000) respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

5. KEY ESTIMATES *(continued)*

Key sources of estimation uncertainty *(continued)*

(b) Impairment of trade receivables

The Group uses practical expedient in estimating ECL on trade receivables using a provision matrix. The provision rates are based on aging of debtors as groupings of various debtors taking into consideration the Group's historical default rates and forward-looking information that is reasonable and supportable available without undue costs or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered.

As at 31 December 2023, the carrying amount of trade receivables was approximately RM19,652,000 (net of allowance for doubtful debts of RM126,000) (2022: RM17,533,000 (net of allowance for doubtful debts of RM126,000)).

(c) Impairment of financial assets at amortised cost

The measurement of impairment loss on loan and interest receivables using the ECL model is subject to a number of key parameters and assumptions, including the identification of loss stages, estimates of probability of default, loss given default, exposure at default and interest rate, adjustments for forward-looking information and other relevant adjustment factors. The management reviews the selection of those parameters and the application of the assumptions to reduce the risk of material misstatement.

As at 31 December 2023, the carrying amount of financial assets at amortised cost was approximately RM18,930,000 (less impairment loss of approximately RM189,000) (2022: RM24,921,000 (less impairment loss of approximately RM538,000)).

(d) Determination of incremental borrowing rate for leases

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate ("IBR") to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar environment. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

6. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: foreign currency risk, credit risk, liquidity risk and interest rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

6. FINANCIAL RISK MANAGEMENT *(continued)*

(a) Foreign currency risk

The Group has certain exposure to foreign currency risk as some of its business transactions, assets and liabilities are principally denominated in currencies other than the functional currencies of the Group entities such as Hong Kong dollars ("HKD"). The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group monitors its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

The directors of the Company consider that foreign currency exposure in respect of HKD for the years ended 31 December 2023 and 2022 are insignificant to the Group and therefore no sensitivity analysis is presented thereon.

(b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Group's exposure to credit risk arising from cash and cash equivalents is limited because the counterparties are banks and financial institutions with high credit-rating assigned by international credit-rating agencies, for which the Group considers to have low credit risk.

Trade receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer rather than the industry or country in which the customers operate and therefore significant concentrations of credit risk primarily arise when the Group has significant exposure to individual customers. At the end of the reporting period, 63.2% (2022: 58.8%) of the total trade receivables was due from the Group's four (2022: four) largest customers.

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Trade receivables are due within 30 days from the date of billing. Normally, the Group does not obtain collateral from customers.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

6. FINANCIAL RISK MANAGEMENT *(continued)*

(b) Credit risk *(continued)*

Trade receivables *(continued)*

The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

Movement in the loss allowance for trade receivables during the year is as follows:

	2023 RM'000	2022 RM'000
At 1 January and 31 December	126	126

During the year ended 31 December 2023 and 2022, a specific trade receivables with gross carrying amount of approximately RM126,000 was considered in default due to indicators which showed that the Group was unlikely to receive the outstanding contractual amount in full. No movement was noted during the year.

Financial assets at amortised cost

At 31 December 2023, the Group had gross loan and interest receivables of approximately RM17,898,000 (2022: RM24,017,000) and RM1,221,000 (2022: RM1,442,000) respectively. Before entering into the loan agreements, the Group assesses the credit quality of borrowers and defines the terms of the loans. The Group has concentration of credit risk as the loans were made to two (2022: two) borrowers. In order to minimise the credit risk, the management of the Group has delegated a team responsible for monitoring procedures to ensure that follow-up action is taken to recover overdue loans and interest receivables. Management reviews the loan and interest receivables at each reporting date to ensure that adequate impairment allowance is made. In these regards, management considers that the credit risk in respect of the loans and interest receivables could be monitored.

Except for the loan advances to third parties, all of the Group's remaining financial assets measured at amortised cost are considered to have low credit risk, and the loss allowance recognised during the period was therefore limited to 12-month expected losses. Management considers "low credit risk" for financial assets measured at amortised cost when they have a low of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

(b) Credit risk *(continued)*

Financial assets at amortised cost *(continued)*

Financial assets at amortised cost includes subleasing receivables, other receivables and loan advances to third parties.

Movement in the loss allowance for financial assets at amortised cost during the year is as follows:

	Subleasing receivables RM'000	Other receivables RM'000	Loan advances to third parties (note 1) RM'000	Total RM'000
At 1 January 2022	–	–	1,116	1,116
Reversal of impairment losses recognised for the year	–	–	(578)	(578)
At 31 December 2022	–	–	538	538
Reversal of impairment losses recognised for the year	–	–	(349)	(349)
At 31 December 2023	–	–	189	189

Note 1: Decrease in expected credit loss as determined individually after considering the financial strength and the partial repayments received from the respective borrowers resulted in the reversal of loss allowance during the year ended 31 December 2023.

6. FINANCIAL RISK MANAGEMENT *(continued)*

(c) Liquidity risk

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The maturity analysis based on contractual undiscounted cash flows of the Group's non-derivative financial liabilities is as follows:

	On demand or within 1 year RM'000	Between 1 and 2 years RM'000	Between 2 and 5 years RM'000	Over 5 years RM'000	Total RM'000
At 31 December 2023					
Accruals and other payables	5,800	–	–	–	5,800
Lease liabilities	3,641	2,128	1,099	375	7,243
Borrowings	71	–	–	–	71
Dividend payable	12,000	–	–	–	12,000
At 31 December 2022					
Accruals and other payables	5,597	–	–	–	5,597
Lease liabilities	3,576	2,689	2,496	665	9,426
Borrowings	4,933	–	–	–	4,933

(d) Interest rate risk

The Group's pledged bank deposits and lease liabilities bear interest at fixed interest rates and therefore are subject to fair value interest rate risk.

The Group's exposure to cash flow interest rate risk arises from its bank deposits and borrowings. These deposits and borrowings bear interests at variable rates that vary with the then prevailing market condition.

The directors of the Company consider that interest rate exposure in respect of its bank deposits and borrowings for the years ended 31 December 2023 and 2022 are insignificant to the Group and therefore no sensitivity analysis is presented thereon.

7. REVENUE

10. SEGMENT INFORMATION

Operating segment information

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance.

As the Group is principally engaged in the provision of telemarketing services in Malaysia, which are subject to similar business risk, and resources are allocated based on what is beneficial to the Group in enhancing the value of the Group as a whole, the Group's chief operating decision maker considers the performance assessment of the Group should be based on the profit before tax of the Group as a whole. Therefore, management considers there to be only one operating segment under the requirements of Hong Kong Financial Reporting Standard 8 "Operating Segments".

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maximise the return to the shareholders through the optimisation of the debt and equity balance.

The Group sets the amount of capital in proportion to risk. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the payment of dividends, issue new shares, buy back shares, raise new debts, redeem existing debts or sell assets to reduce debts.

The Group monitors its capital structure with reference to its debt position. The Group's debt to asset ratio, being the Group's total liabilities over its total assets, at 31 December 2023 is 34% (2022: 23%).

The externally imposed capital requirement for the Group are: (i) in order to maintain its listing on the Stock Exchange it has to have a public float at least 25% of the issued shares; and (ii) to meet financial covenants attached to the banking facilities.

The Group receives a report from the share registrars regularly on substantial share interests showing the non-public float and it demonstrates continuing compliance with the 25% limit throughout the year. As at 31 December 2023, 25% (2022: 25%) of the shares were in public hands.

Breaches in meeting the financial covenants would permit the bank to immediately call borrowings. There have been no breaches in the financial covenants of any interest-bearing borrowings for the years ended 31 December 2023 and 2022.
